

Chapter 52

Ace

Crossing our bedroom, I strip off my clothes and enter the bathroom naked, my dick standing proud, unlike humans, most wolves start their families really early, most she-wolves conceive their first pup within the first six months of being mated, what can I say wolves are horny.

My beautiful mate is lying up to her neck in bubbles in our huge bathtub, her eyes pop open as I enter, and her smile gets bigger as her eyes land on my erection.

“Well, hello big boy, are you coming to join me?”

“Hell yeah,”

She moves her legs so I can sit opposite her and starts massaging my feet, while fee foot massages my crotch, horny wench.

“So, I hear we are going to start trying for a baby.” I grab her other foot and suck on her toes.

“Only when you guys are ready, I am going to kill Alexei, he took advantage of my weekend broodiness.”

I run my hands up her leg, “princess, we were ready to bend you over a fuck a pup or two in you at our birthday party, in December, we held back because we wanted you to go to university, we thought that was your dream.”

“Ohhh, I thought you guys wanted to go to university and have some fun before you took over from your dad.”

Pulling her onto my lap so she straddles me, I rub my dick on her clit, causing her to moan and nibble on my neck. “The contraceptive the Doc gave me lasts for three months, so we will have to wait, unless I go into heat before then, the chemicals I release counteract the injection.

I bite into my mark as I lower her onto my cock, “So we hope and pray to the goddess that your heat is soon, cause all I can think about now is getting you pregnant. Although just to warn you multiples run in our family, so we may get two or three at a time.”

She rides my dick, our breaths coming out in gasps, fuck I will never tire of her pussy, “ohhh Ace you feel so good, please baby, fuck me.”

Grabbing her around the waist I move her faster on my cock, water is splashing over the sides of the tub as I lift my hips and pull her down to increase the rhythm, “Fuck Tink, I'm close baby, come with me love. Her body clenches and she screams my name as she tightens on my cock, two more thrusts and I follow her into bliss.

When our breathing evens out I lift her out of the bath and dry us both with a towel. Then I pick her up and carry her naked into our bedroom.

Both of my brothers are lying naked on our bed, stroking their dicks, I smirk at them, “where do you want her boys?”

Ash points to his mouth, “with her pussy on my face and her mouth on my dick.”

Gently I sit her on his face, her groan tells me he has dived right in. Cupping the back of her head I push her down, “suck that big cock, princess, take him all the way in, right down that beautiful throat.”

I watch as Ash's cock disappears into her mouth, she takes him all the way in, “fuck baby, your mouth feels so good.”

Lex moves to her ass, “I can't resist this view baby, I can't resist fucking your ass with my tongue.”

Watching my brothers each her pussy and ass, “fuck guys you are making my dick hard again,” all three of them growl on response, all lost in their own pleasure.

Ash lifts his knees and spreads his legs, and watches with bated breath as Star pushes a finger in his ass and slowly starts pumping in and out of him, while her head bobs faster on his cock.

The growl that rips from his chest is nearly enough to make me shoot my load, “Yesss baby, fuckkk, I love it when you finger my ass, fuckk don't stop baby.....ahhhhhh”

His hips jerk as he cums, I see some of his load seeping out the side of her mouth, she laps his cock clean before sitting up and staring at me, she pulls her finger from his ass and brings her hand to her mouth, sucking his ass juice off her fingers.

Holy shit, our girl is everything, Ash goes back to eating her pussy, making her grind on his face as an explosive orgasm racks her body.

“Lex lie on your back,” I lift her and impale her on his cock, her head is thrown back as he fills her, “Lets give Ash a show, shall we? make him nice and hard so he can fuck your ass.”

I stand on the bed and hold on the headboard, pushing my ass towards her, “seen as you like the taste of ass Tink, I want you to eat mine.”

She grabs my ass, spreading my cheeks and I feel her tongue greedily lap at my asshole, “Ohhh fuck princess, that feels so good,”

She moans into my ass in response and starts to fuck my ass with her tongue, pushing it in as far as she can.

“Oh Starlight, watching you rim him is so fucking hot.”

I look over, his cock already standing to full attention, “fuck her ass Ash, fuck her tongue feels so good, Tink stroke my cock, make me cum while you eat my ass.”

Her hand wraps around my dick, I can feel the bed bounce as my brothers fuck her holes, pushing her face into my ass. Shit no one has ever eaten my ass before, but I think it may be my new thing.

The shiver down my back tells me I am close and the grunts coming from the three behind me tell me we are all close, her tongue vibrates as she groans her release, and that's all it takes. Turning around I grab my dick in one hand and her chin in the other as I push my cock into her waiting mouth, I shoot my seed in the back of her throat, my brothers nothing shouting their own release.

I pump her mouth a few more times, before pulling out, she looks up at me with a lazy smile, and I can't resist leaning down and giving her a long needy kiss.

Before collapsing on the bed, Star collapses on Lex's chest and I watch her eyes close.

As I let the darkness claim me, I feel the joy of our life and drift off thinking of the additional bundles of perfection we will soon add.
