

Our Billion 1381

Chapter 1381-At the gorgeous gala, the hostess interviewed a cheerful, gaudily dressed woman with a microphone in her hand, "Congratulations, Ms. Collins. You not only got the award for audience's favorite actress but also received many endorsement invitations tonight.' Sharon had been married into the Atherton family for three years. Facing the camera, she said calmly, "I want to thank the viewers and fans who have been supporting me all the time. If it weren't for your support, I certainly couldn't have made such great achievements!"

"I heard that you are Mr. Atherton's wife. Mr. Atherton gradually withdraws from public life as you step into the showbiz. Can you share your daily life with us?"

The hostess continued.

Sharon covered her mouth and laughed, "Where did you get the news?"

"Is that true?"

"Anyway, all I want to say to my fans is 'thank you for your support, and I hope you guys will keep supporting me.' You'd better not care too much about those gossips."

"Hah. I wish you a happy marriage.' 'Happy?"

'When Harry forced her to divorce four years ago, didn't he say that Edwin wanted to be with Noah?"

'How come Edwin had a new "wife" so soon?"

'Since Sharon could marry Edwin in place of Noah, she should have met Harry's criteria for selecting his daughter-in-law. I just wonder which rich family in Sapphire City she is from.

When I was in Sapphire City before, I didn't seem to hear of any rich family surnamed Collins.

‘That’s really funny!’ A car gradually drove towards a six-star hotel.

When the car passed through a secluded intersection, a large husky suddenly appeared in front.

Jack slammed on the brakes!

Screeech!

Joanne subconsciously leaned forward due to inertia.

“Bailey, stop. You almost get hit by a car!”

Joanne had just sat tight when she heard a little girl’s clear voice outside the car window.

She looked outside and saw the girl, who was just over three years old. The girl wore a cute pink dress and a pair of shoes with childish frog patterns. As she chased the husky, her shoes rattled.

The husky almost got hit by the car. He rolled on the ground and then ran toward the little girl.

The little girl grabbed the husky’s leash and stroked his fur fiercely.

After that, she crossed her arms and scolded the husky in a childish voice.

The husky looked at the little girl with big watery eyes.

“Humph!” The little girl pouted and led the husky to the car and knocked on the car window.

Joanne fell in love with this cute little girl right away.

She pushed the car door and got out.

The little girl was not scared at all when she saw Joanne in a mask.

“Miss, I’m sorry. My dog has grown so fat that I couldn’t control the leash. He almost scratched your car.” The little girl tilted her head, looking apologetic.

Seeing the little girl, Joanne remembered Tail in Mourpa, so she shook her head quickly, “It’s okay. Is your husky okay?”

“Yes! He’s very smart.” The little girl led Bailey to Joanne and patted him with her little hand, “Now, wag your tail and apologize to the lady. If you scratch her car, you can’t afford it.”

The husky looked at the little girl reluctantly and then wagged his big tail at Joanne.

Joanne thought, “How come this husky understood people’s words?”

Chapter 1382-Seeing the three-year-old little girl, Joanne couldn’t help but look around,” Baby, why are you walking your dog alone? Where’s the rest of your family?”

“Puffy. Miss, my name is Puffy.” The little girl said seriously.

“Puffy. Puffy/ said Joanne, “It sounds so nice. Who gave you that name?”

“My godfather!” The little girl puffed out her chest very proudly and continued, ‘I came with my brother and godmother, but they can’t catch up with me.”

‘What?

‘Oops, she’s so cute!’ Joanne instantly burst with motherly love and felt so close to the little girl. She wanted to pet the little girl’s head.

The little girl tilted her head. Surprisingly, she didn't avoid Joanne.

In the past, she disliked strangers touching her braids because her dear father spent a long time braiding her hair every day.

'But she looks very kind...' Joanne found the little girl more and more adorable, so she couldn't help but want to touch her face.

"Stop! What are you doing?" At this moment, a sharp female voice suddenly came.

Joanne was startled. She turned her head and saw Sharon pouncing fiercely in about four-inch heels. Sharon immediately pulled the little girl behind her and glared at Joanne.

Her action was so rude that the little girl almost fell over.

Luckily, Bailey immediately ran behind the little girl and held her up with his head.

As soon as the little girl managed to stand firmly, she saw Sharon point at Joanne and say angrily, "Who are you? What do you want to do to my goddaughter? Puffy, I have told you many times. Don't smile at the sight of anyone! What if the other party is a human trafficker? They will take you away, cut off your hands and feet, sell your liver and kidney, and force you to be a beggar on the street. You will be helpless at that time!"

Joanne realized that the woman in front of her was Sharon at a glance.

'Puffy called Sharon godmother, so her godfather is... Edwin?

'In other words, Puffy is... Cat's daughter?' Thinking of this, Joanne froze and suddenly felt surprised.

'No wonder I feel Puffy so close!

'My goddaughter has grown up so quickly.

'Cat was just pregnant with Puffy when I left home.' "I felt so close to Puffy, so I chatted with her. How could you threaten her with such disgusting and horrible words? What if they left a shadow in her life?"

Joanne said to Sharon.

At this time, Sharon looked at Joanne carefully. It was summer. Joanne wore a mask, so Sharon could only see her beautiful big eyes.

Joanne had just petted Puffy's head, and she didn't have time to withdraw her hand.

There were faint pink light spots on her wrist, as if a new layer of skin had grown back after being burned.

Sharon had been married to Edwin for three years. Although she didn't have a high status in the Atherton family's mansion, no outsider had ever dared to talk back to her.

"Son of bitch, you don't dare to show your face. How could you talk back to me?

Do you know who I am? I am Sharon Collins, one of the most popular actresses in Lanchester now. You're nothing! How dare you say that I can't teach my goddaughter?"

Joanne had only heard the name "Sharon Collins" on TV in the past.

Sharon wasn't a professional actress, and her acting skills were terrible, but she had a strong backer.

She often acted as the leading actress in great films and TV series.

She got her position as a first-rate actress with money.

Chapter 1383-She had thought about how good this woman was to deserve Edwin's abandonment of Noah. However, it turned out to be a shrew who was even more trashy than Noah.

Joanne raised her eyebrows. Not to be outdone, she satirized back, "So you are the 'Miss AI' who only widens her eyes in acting? Oops, sorry! I'm indeed not a thing. I'm a person. So how can I compare with you?"

"You—" Sharon was instantly exasperated. Her face turned white and green. She couldn't believe that this woman was still so arrogant after knowing who she was!

She raised her hand and tried to slap Joanne...

Jack, who was sitting in the car and watching the quarrel drama between the two women, immediately got out and went to help Joanne.

Anyway, his brother-in-law had entrusted her to him.

If Joanne was slapped in front of him, wouldn't it be the same as him being slapped?

But Joanne moved faster...

She directly caught Sharon's wrist.

Only then did Sharon realize how strong Joanne's strength was. She could not struggle to free herself or slap Joanne, and she was not able to move at all.

"You...Let go of me!"

“Although Puffy calls you Godmother, you cannot threaten her with such a terrible outcome! Otherwise, I will post what happened today on the Internet, so that everyone can see how vicious Sharon, the noble and graceful star, was in private...”

Sharon had a strong strength when she had been doing farm work in the countryside.

But these years, she lived a pampered life in Sapphire City. Her strength was naturally weaker than Joanne’s due to her easy life.

Seeing that handsome Jack coming out of the car, she immediately felt extremely aggrieved. Her eyes instantly turned red, and tears were about to drop, “Miss, did I do something wrong to offend you? Why do you humiliate me like this? Sir, don’t you restrain your companion?”

Jack had seen many different kinds of beauties. He could easily tell that Sharon was just average-looking and relied all on makeup.

He smiled and said to Joanne, “Joanna, did you hear what Ms. Collins said? Let her go...”

“Yes!” Sharon sobbed with grievance, “Sir, you are so understanding...” “Well, don’t get me wrong. I’m just worried that my Joanna’s hand will be hurt.”

Sharon,” ...”

Sharon angrily widened her eyes. The resentments in her heart nearly caused her internal injuries!

What kind of trashy people they were!

Joanne’s arm was truly sore for keeping holding Sharon’s wrist, so she let go of Sharon. But before she put down her arm, she stealthily pushed Sharon with a bit of strength.

Sharon felt she was pushed by a force and fell back two steps subconsciously...

The little girl just stood steady for a few seconds, and a shadow flashed in front of her eyes. She looked up and saw the stumbling and bulky body of Sharon pressing toward her.

The little girl froze for a while and did not have time to dodge. Bailey barked and growled in place. He accumulated his strength with his paws on the ground and intended to jump to hit Sharon away...

"Watch out!" At this time, there was another cold, childish voice.

An eight-year-old boy came in time and pulled the little girl away quickly.

Seeing this, Bailey immediately ran away with his tail up.

As a result, Sharon completely lost the dog mat and fell sprawling to the ground.

Because it was summer, she wore a sexy sheath dress. When she fell, her dress slipped up along her thighs and the flesh-colored slip showed out...

Ollie compressed his lips and frowned in disgust.

He covered the little girl's eyes instantly. "Puffy, close your eyes. It's an eyesore!"

Chapter 1384-Puffy always listened to Ollie, so she closed her eyes.

But what Joanne had just said was so scary...

Puffy's long eyelashes kept twitching, and Ollie felt an itch in his palms when her eyelashes fluttered in his palms.

Looking at Puffy, whose eyes were covered by Ollie, and then glancing at Joanne and Jack, who were watching her, Sharon was mad.

She felt so humiliated. 'This is all due to this Joanna!' However, Jack was standing in front of Joanne and defending her. The latter had a smug smile on her face. She had her arms crossed around her chest and was glancing at Sharon.

Sharon got up from the ground in pain. She didn't realize that when she fell to the ground, her dress was wrinkled and her buttocks were exposed. She glared at Joanne in anger, but she didn't dare make a fuss because Ollie was there.

She was afraid Ollie would tell Edwin the story.

Edwin had been unhappy with Sharon for using him to create topics...

Therefore, Sharon stopped making scenes.

After Sharon straightened her dress, Ollie removed his hands from covering Puffy's eyes.

Puffy had noticed earlier that Joanne looked familiar...

"Oooh..." Puffy burst out crying.

She clutched Ollie's hand tightly when she cried out.

Joanne felt sympathy for her.

"Baby, why are you crying?" Joanne walked up to Puffy and asked ahead of Ollie.

Ollie smelled a faint whiff of mint and he glanced at Joanne again.

“Oooh... Godmother said my arm is going to be cut off and I’m going to be a beggar... I don’t want to be a beggar! I want to live in a big house and eat lots of delicious food!

Oooh...”

Seeing Puffy was terrified, Joanne immediately took her into her arms and gently reassured her, “She was just kidding. You’re such a cute little girl. Nobody would want to cut off your arms. Don’t cry. Look at Ollie! How brave he is! Your daddy and mommy will be sad if you keep crying.”

Puffy stopped crying and looked up at Joanne, tears still on her eyelashes. “Is that true?”

“Definitely!” Joanne nodded and wiped Puffy’s tears. “Your daddy is Cedrick Mason. Who would dare to cut off your arm? Your daddy will kill them before they could do anything! Your eyes are red. Let me wipe your tears...”

Puffy thought Joanne had a point. She snuggled into Joanne’s arms and slowly calmed down.

Ollie then learned that Sharon had threatened Puffy!

‘Daddy would never dare to scold Puffy... How dare she? But how does this woman know that our daddy is Cedrick Mason? Does she know him?’

Ollie took Puffy in his arms. He glanced at Sharon and hissed, “I’ll tell Uncle about what happened today. You’ll explain to him!”

Seeing Ollie’s cold eyes, Sharon felt a chill run down her back.

‘Ollie is just an eight-year-old boy. Why are his eyes so frightening?’ Sharon felt her legs go weak. She almost fell to the ground again.

“Ollie, listen to me. I wasn’t trying to threaten Puffy. When I saw Puffy talking to this woman, I was worried. I didn’t know her, and she was wearing a mask. And there was a car behind her. I was worried she was going to take Puffy away...

Chapter 1385-When Ollie heard that Sharon said she was their godmother, he coldly interrupted her, “Don’t say that again. Puffy is too young and she doesn’t know anything, so she called you godmother. Don’t take it seriously. Alvis and I only have one godmother, and her surname is Winters!”

“Winters? That woman betrayed Mr. Atherton and left...” Sharon roared angrily.

Then she immediately cried, “I really want to be nice to you and your sister.

During these years, I have been looking after Puffy. Why can’t you know my feelings?”

Ollie didn’t want to see her phony tears, so he turned to look at Joanne and said, “May I have your phone number?”

“Yes!” Joanne did not expect that her godson still missed her so much after she had left him for four years. She felt warm in her heart. Soon she took out a pen and a piece of paper from her bag and wrote down a series of numbers to Ollie, “This is my private phone. You can call me if you need me.”

Ollie stared at her beautiful handwriting and felt it was somewhat familiar.

He folded the paper and put it in his pocket, “Thank you for helping us.”

“It’s nothing. You don’t have to say that,” Joanne habitually touched Ollie’s head.

The more she looked at Ollie, the more she felt that he was clever and cute.

Feeling that his head was touched, Ollie looked up at Joanne.

Joanne realized that now they were not close and that she had overstepped her bounds. She removed her hand and then touched Puffy's head, 'Go home with your brother.

Don't run around alone next time. You are still young, so you must stay with adults. Do you understand?"

"I understand. Goodbye."

"Goodbye."

Watching Ollie holding Puffy to leave, Joanne smiled.

She remembered that Ollie was just a little boy when she left, but now Ollie was a little adult, a pocket edition of Cedrick!

"Tut, why didn't I find that you were so patient with other people's children?"

Jack's chilly voice suddenly sounded behind Joanne.

Joanne answered with joy, "Because they are not other people's children!"

"Are they your children?" Jack felt that today's Joanne was a little strange. She said in a very straightforward way, and just now, she was very patient with two children he didn't know.

Joanne whispered in her heart, 'They are my godchildren...' She knew she couldn't recognize them.

Edwin was still looking for her. She would suffer a lot if the Atherton family knew she wasn't dead, but she still shouted in her heart, 'My home is in Sapphire City, and I have so many friends and relatives in Sapphire City! Why should I leave my hometown?'

Hearing no sound, Jack turned around and glared at Joanne, “No more words? I really don’t understand you. You...”

Suddenly, Jack stopped because he found that Joanne’s eyes were actually watery.

He was very surprised.

After all, Joanne had been like a numb puppet since she narrowly escaped from death four years ago.

Therefore, Jack didn’t expect that Joanne would cry.

Watching her watery eyes, Jack was touched and then sighed, ‘What a pity! Her face was ruined.’ Jack didn’t say anything anymore and got in the car directly. Then he poked his head out of the window, “Why are you still standing there? Get in the car. I’m tired. Hurry back to the hotel to rest!”

Joanne sniffed and held back her tears.

She said to herself, ‘I’m a mother. I should be strong. I shouldn’t cry again.’ In the evening, all the Athertons got together and ate in the Atherton Manor.

Chapter 1386-After Elder Mason passed away three years ago, the Atherton family members often kept the Old Madam Atherton company.

After Edwin took over the Atherton Group, he only went on necessary trips and lived in the manor most of the time.

Sharon was thick-skinned, but Edwin didn’t mind her because he wanted to disgust Harry through her.

As long as she didn’t stir up trouble, he allowed her to live there and turned a blind eye to her occasional actions of borrowing his power to show off and fool others.

Summer also came back.

But the treatment three years ago deprived her of her memories, and she thought she was still 18.

She couldn't accept her aging by nearly 30 years and the fact that she had a daughter after she woke up.

And three boys were calling her grandma every day.

"Is Brayion free lately? I want him to come here and get together with us," Old Madam Atherton said with a smile, not expecting to see so many members of her family in her old age.

Summer pouted, puffing out her cheeks. "I've no idea."

"How so? He's your husband."

"Because Grandma and Grandpa are at odds with each other," Miles joked, jumping out from beside the wheelchair Old Madam Atherton was in.

Three years apart, Miles was as cheerful as ever. He could always make the old lady happy.

Old Madam Atherton was surprised. "At odds? Aren't you guys always an affectionate couple?"

"Says who? Mom, you don't know how domineering he is. Is he really my husband?" Summer huffed like a girl and nothing like a woman in her forties.

"Don't be such a child! Brayion is nice to you. Isn't that good enough?"

Summer slumped onto the couch and cupped her face in frustration.

That old fellow forbade her to do all kinds of things.

Was that called nice?

Sure enough, her mother no longer doted on her after she got married.

Miles looked at her childish grandma and poured her a glass of honey water.

After giving it to her, he took out his tablet and sat cross-legged next to her on the couch.”
Grandmother, take it easy and have some honey water. How about we watch the show together?”

“Good. Is the Tail going to be on the screen?”

Summer’s eyes lit up the moment she heard that.

Miles and she had recently gotten hooked on a live show of cute kids.

In the show, there was a girl named Tail. About Puffy’s age, she was pretty and cute. She sang and danced like a little fairy.

She met all of Miles’ expectations of a sister.

Puffy was close to Ollie and Big Demon.

And he was dismayed.

Fortunately, Tail was there to heal his broken heart.

Since he saw Tail, Miles had been stuck to her live stream and topped the list of gift senders.

The ID of his account was hilarious 'Tail's Boyfriend'.

And the ID of Summer's account was 'Grandma of Tail's Boyfriend'.

They always went online and offline almost at the same time, which aroused speculation about their relationship.

Tail was based in Mourpa but owned more than 10 million global followers.

She was the top streamer on that website.

And her followers, spanning all ages, were rich.

The streaming started just five minutes ago, but the comments had already filled the screen.

Chapter 1387-As soon as Summer just typed and sent it, she was instantly inundated with comments.

On the screen, a cute little girl wearing two pigtails and a small pink vest warmly greeted the fans.
"Good evening, everyone. Have you had dinner?"

"Ahhhh."

"Tail is doing a live stream again. I'm so excited. I want to kiss the screen..."

"So adorable! What a pretty little girl! Her voice is like a feather brushing my heart. Tail, I love you!"

"Go away. Tail belongs to me..."

"Look, 'Tail's Boyfriend' is also here. This is his entry effect..."

"I heard that every time he came online, he gave Tail a reward of tens of thousands of dollars. I'm so jealous. I wonder who he is."

"Isn't it clear? Tail is only three years old. He has the nerve to call himself 'Tail's Boyfriend'. He must be a pervert!"

Normal people treat Tail like their daughter or granddaughter. Who is as kinky as him? Maybe he is a poor worker who saved all his money, went to an Internet cafe as soon as he got his salary, and rewarded Tail online to enjoy this moment..."

"You're just envious."

"You're right!"

"I agree!"

"I also want such a pervert to spoil me..."

Tail was only three years old. She could not read so many words, so she could not understand what her fans were saying. She just did live streams, received gifts, and thanked her fans. This was the money she earned by singing and dancing.

But after doing live streams for a long time, Tail could tell if her fans were arguing.

When she saw they were fighting in the comment area, she twisted her small waist and buttocks and said in a tender voice, "Everyone, don't quarrel, or you will be driven out by the monitor. Let me dance what Mommy taught me, okay?"

"Ahhhh, Tail is going to dance! Stop arguing."

"How can there be such a cute little fairy?"

“The familiar music and the lovely dance...”

Along with the cheerful children’s music, Tail started singing and dancing. He drew circles in the air with her short arms, kicked her little legs, and stretched her neck. She jumped and sang.

“There are stars in the sky. There are babies on the ground, sometimes crying, sometimes sleeping...

“Kick your little feet, shake your little head...

“I sing and jump. I’m so happy...”

Tail’s voice was childish, and she couldn’t pronounce clearly, but she was so lovely that everyone’s hearts melted. When Tail finished dancing, she got close to the camera with a serious face and asked.

“Everybody, was my dance good?”

The fans commented in unison: “Yes, yes, yes!”

Tail could read this word. She immediately gave a bright smile.

“Thank you so much! I love you.” Tail stretched out her hands and made a big hand heart in front of the camera.

The next second, huge colorful fireworks covered the entire screen, and then the comment area turned red.

“100 “Aircraft Carriers’ from Tail’s Boyfriend.”

An “aircraft carrier” was worth 88,888 dollars.

That was to say, Tail's Boyfriend sent Tail more than eight million dollars.

At once, the live stream was in an uproar.

"This rich guy is so generous to Tail!"

"Have you seen a worker who gave away more than eight million dollars?"

"Please give me a dozen boyfriends like him."

At the same time, "Tail's Boyfriend" commented affectionately: "Tail, would you like to be my girlfriend?"

Chapter 1388-Frowning, Tail stared at the screen with a tilt of her head.

She seemed to be in a daze...

At the same time, the door was opened by a lanky man who adjusted the camera lens so that only his voice could be heard and his face could not be seen.

"What is it, Tail?" "Uncle Patrick, there you are!" Tail then pointed at the line on the screen and asked, "A boy gave me a lot of presents. But I have no idea what he was talking about."

Patrick quickly found the message from 'Tail's Boyfriend'.

He then lapsed into silence.

He knew this ID because the owner of it gave Tail a lot of presents when he came online.

But Patrick didn't expect that this man would make this request!

'Fortunately, I haven't taught Tail how to read. Otherwise, she will definitely be blemished by this cyber psychopath!' "You can not read it either, Uncle Patrick?" Tail scratched her head, frustrated.

A nerve giggled at the corner of Patrick's mouth.

'Joanne is not in Mourpa now. She couldn't just come back and find her daughter had a boyfriend. I have no choice but to separate the lovebirds.' "This little boy is telling you how beautiful and well-behaved you are."

Then, Patrick quickly typed a line in the comment section.

[No puppy love! If desired, you can ask those beautiful Camgirls with nice bodies and fair skin.] Tail looked at this line in puzzlement, "What did you say, Uncle Patrick?"

Patrick smiled maternally at Tail, "I replied to this little boy for you, praising him for being very handsome."

"Okay," Tail then made a hand heart to the camera, "Thank you, dude. Love you--"

Suddenly, Patrick's hand shook a little bit.

In the comments section:

[I can't believe I witnessed the separation of lovebirds!] [Uncle Patrick, why did you distort the facts? You nipped Tail's puppy love in the bud.]

[That's really funny! I could hardly help laughing.] [Ha ha! Tail's Boyfriend, you gave Tail an \$8 million present to confess your love for her, but she can't read. Would you consider me as your girlfriend?] Miles stared at the screen and tried to see Patrick clearly.

'Uncle Patrick, is that you again? Why do you always cook my goose?' Summer tapped on his shoulders and assured, "Come on, snap out of it! Next time you ask Tail for her number and call her to confess your love."

Miles' mouth tightened in frustration.

He actually had already come up with this idea!

Tail hadn't replied to the private message from Miles, probably because there were too many messages.

Then Puffy came through the gate with Ollie in one hand and Bailey's leash in the other, followed by the fawning Sharon.

When Puff saw Miles and Summer fixing their eyes on the pad, she knew they were watching on a live stream.

She ran like the wind to them.

"Are you flirting with a girl, Miles?" "Oh, you're back, my little princess." Summer scooped Puff up in her arms.

Chapter 1389-With the aroma of milk, Puffy put her hands around Summer's neck and rubbed against Summer affectionately." Nana, when will Miles take his girlfriend home?

I can't wait to see Tail!"

Even Puffy knew that Miles had puppy love...

Miles pinched her chubby cheek and cleared his throat. "You will see her soon.

Tails said that her mother had come to Lanchester and would take her here later. After she comes here, I will arrange for you to meet her.”

“It’s great!” Puffy clapped her fat hands happily. “I won’t tell Mom and Dad.

Come on.”

Suddenly, Summer saw Puffy’s red eyes. “Why are your eyes so red? Did you cry?”

Puffy said with embarrassment, “I only cried for a little while. n “What has happened?”

Hearing that Puffy had cried, Miles narrowed his black eyes sharply and looked at Ollie aggressively.

Ollie told Miles what had happened calmly and exactly as Ollie glanced at Sharon.

When Edwin and Catelyn went downstairs from the second floor, they heard the whole story by chance...

For an instant, Edwin’s face clouded over.

Sharon felt angry gazes from all directions. Her face turned green and then turned white.

She looked at Edwin with a wronged expression and tried to get comfort from him. However, his gaze was much angrier than others’.

She immediately changed her wronged expression and explained sincerely, “I did that for Puffy’s own good. That woman was strange. She wore a mask in the height of summer. There were many light scars on her wrists.

Obviously, she wasn’t a good person! Mr. Atherton, I didn’t mean to threaten Puffy! She is the little princess of the Atherton family. I don’t have the guts to do so...”

“Didn’t I tell you that it wasn’t your duty to take care of Puffy?” Edwin’s gaze was cold.

Sharon said awkwardly, “When I saw Puffy and Ollie walk out with the dog, I was worried about them. I was available at that time, so I accompanied them. I promise that I won’t talk nonsense in front of Puffy again.”

She said as she targeted Puffy, who tended to soften the most.

“Puffy, I know that I was wrong. Could you please forgive me? I’m born to be inarticulate, but I’m kindhearted. I peeled walnuts for you in the morning, and even my fingers turned red...”

It was true that Puffy was the one who tended to soften the most.

Mummy says that one good turn deserves another.’ Puffy pouted and decided to be a generous person.

“I forgive you!”

As soon as Sharon breathed a sigh of relief, Edwin said casually, “Puffy has forgiven you. It doesn’t mean that it’s all over. Now that you didn’t take my words seriously, just quit Story in Rosch.”

Story in Rosch was a novel that had gone viral online. It would be adapted for television. The cast was being recruited.

Sharon thought that it had the potential to be a hit. Thus, she put pressure on the director as Ms. Atherton. The director slated her to be the heroine and interacted with her on Twitter.

If she quit it, she would not only lose the chance to be famous but also be laughed at by netizens!

“Mr. Atherton, the director has...”

“Need I personally tell the director that you decide to quit?” Edwin smiled evilly.

Although he said that casually, Sharon knew that she wouldn’t even be able to receive any job in showbiz if he personally talked to the director!

She could only grit her teeth to agree. “I see. I will quit it and won’t be the heroine.”

‘The damn Puffy!

‘She’s just a three-year-old girl!

‘Why do they all take her as the apples of their eyes?

‘She just cried, but I lost the chance to be the heroine!

‘It’s unfair!!’ After the others dispersed, Ollie took out the scrip and pulled Catelyn aside secretly.
“Mummy, when I saw the aunt today, I felt familiar with her. I suspect that I know her.”

Chapter 1390-“How do you know her? Sharon said that woman was weird, right?” Catelyn was confused.

“She looked a little weird, but she looked familiar to me, so I asked for her phone number. Mommy, look at this!”

Ollie handed Catelyn the note with Joanne’s phone number on it.

Catelyn looked at the note. When she saw the number 9, she felt so familiar with the writing of the number...

The writing of the number was very special...

Among all the people Catelyn knew, only one person wrote this number that way...

'Joanne!' Catelyn stared at the phone number and asked in confusion, "Do you think that woman is Joanne? Did she say anything to you when she saw you?"

Seeing Catelyn was excited, Ollie replied soothingly, "I'm not pretty sure. She was wearing a mask the whole time. And there was a strange man with her."

"A strange man?"

"Mummy, don't worry. I'll tell you what happened."

"Come on."

Ollie told her about Bailey's incident, how he saw Puffy talking to the woman and how the woman appeared to know their family.

Catelyn tensed up.

'Is that Joanne? The Atherton family and the Mason family have been looking for her for years, but they can't find her. If what Ollie says is true: Joanne wore a mask in the summer and had lots of scars on her arms, what had happened to her? Is that why she won't come back?' Catelyn held back her confusion. She told Ollie, "Don't tell anyone about it. I'll have someone investigate that woman. When it's for sure, we'll tell the others."

She didn't want the others to be disappointed if it turned out that the woman wasn't Joanne.

'It's okay for the others, but Edwin...' Catelyn could tell that although Edwin never mentioned Joanne, he never forgot her.

Sharon had taken a lot of beauty classes over the years. Her skin was firm and she was looking more and more attractive, but no matter how she seduced Edwin, he wasn't interested in her...

"OK." Ollie nodded. He also hoped he could see Joanne soon.

Dinner began.

Catelyn was still wondering if that woman was Joanne. She seemed distracted while she was taking care of Puffy.

When Cedrick came over, Puffy got excited. She stretched out her arms and clung to Cedrick's legs. "Daddy! Hug me!"

The little girl was so excited that her pronunciation was unclear.

Seeing Puffy, Cedrick smiled. His eyes became soft. All the toughness disappeared from his eyes. He took Puffy in his arms.

Puffy was lifted by Cedrick. She wrapped her arms around his neck and kissed him on the cheek.

Puffy had just eaten chocolate cake. She had chocolate on her mouth, which got on Cedrick's cheek.

Cedrick didn't like to get his face dirty, but he couldn't help but rub his cheek against hers.
