

## Overlord 1761

### Chapter 1761: Versus Dragonkin

As the human army sank into silence, Xiang Shaoyun stepped forth. "I'll take this fight."

From his observation, he had confirmed that this was a group of scary aliens. They were definitely among the strongest young Gods the aliens had to offer. Dugu Qiubai wouldn't have struggled so much in his fight otherwise. Since Xiang Shaoyun wanted to become the young guild master, he naturally couldn't shrink from a fight. The coming fight would be very important. He would thus use all his strength for it. His battle intent surged.

When Long Ao saw Xiang Shaoyun, derision covered his face. "You were the one creating trouble at the very beginning. I'll take this time to pinch you to death."

Then, Long Ao appeared before Xiang Shaoyun with a flicker. A dragon claw shot out, attempting to grab Xiang Shaoyun. Long Ao was strong and fast, surpassing the level of a peak God. Even this impressive attack was merely a casual move. If Xiang Shaoyun didn't have the divine dao eyes, he would have probably failed to react. He slightly leaned to the side and avoided the claw before jabbing his finger at Long Ao's arm.

His finger naturally contained incredible strength. However, not only had he failed to cripple Long Ao's arm when his attack struck, but he had even felt a countershock ripple down his finger. He was astonished.

What a powerful body! Xiang Shaoyun exclaimed inwardly.

"Haha, I have the body of a dragon. Your puny strength isn't even enough to scratch my itch!" said Long Ao as he howled with laughter.

He then slammed his elbow into Xiang Shaoyun's chest. His oppressive aura caused Xiang Shaoyun to suffocate. Long Ao was most certainly as strong as someone in the Nine Revolutions Realm. Xiang Shaoyun's intense battle intent was triggered, so he faced the dragonkin with his physical strength.

Boom!

The two did not utilize any God Realm energy. However, each of their punches was terrifyingly destructive. As they clashed, the loud collisions shook the area around them.

"Capable of contending against Brother Long Ao with his physical strength alone? This human is no weaker than the one with the Primal Chaos Physique," remarked an alien.

"Looks like the humans aren't completely worthless. However, contending against Brother Long Ao with only physical strength is tantamount to suicide. After all, Brother Long Ao has the strongest bloodline among the dragonkins," said a different alien.

That was true, as Long Ao's body was as powerful as the body of a Nine Revolutions Realm expert. However, Xiang Shaoyun had a pretty impressive physical body as well. His god body was flawless and also comparable to the bodies of Nine Revolutions Realm experts. After all, he cultivated both astral energy and devilish energy.

The two different cultivation systems constantly nourished his Primal Inception Physique, granting him a powerful body. The fierce fight continued, and Xiang Shaoyun was not at any disadvantage. Rather, he was starting to gain the upper hand.

His entire body was filled with strength. Not only were his attacks tough and brutal, but they also carried a certain softness that Long Ao was unable to replicate. Thus, his attacks were much more flexible than Long Ao's.

At this time, Xiang Shaoyun arrived behind Long Ao. He grabbed Long Ao's shoulders and slammed his knees into Long Ao's back, attempting to break Long Ao's spine. With a painful howl, Long Ao smashed his head backward. Xiang Shaoyun did not expect such a simple response, so his nose was struck, and he started bleeding.

However, he did not let go of Long Ao. Rather, primal chaos flame erupted from his palms, attempting to burn Long Ao to death. Long Ao was ranked second among the young alien Gods. He naturally wouldn't be killed so easily. A terrifying burst of draconic aura erupted from his body. The aura was so thick it felt almost solid, and it sent Xiang Shaoyun flying.

Dragon's Roar!

Dragon's Scale!

Long Ao roared, and the soundwaves rumbled straight into Xiang Shaoyun's soul. Xiang Shaoyun's eardrums felt like they were about to burst apart, and a piece of a dragon scale shot over, aiming for Xiang Shaoyun's heart.

The two attacks were launched at the same time, a combination almost impossible to defend against. With the Nether Soul Dragon Headband's protection, Xiang Shaoyun's soul was fine. As for the scale, he leaned aside, resulting in only a cut on his chest.

Long Ao was definitely no weaker than Xiang Shaoyun. After unleashing the talents of the dragons, he became even stronger.

Three Lives Fist!

Xiang Shaoyun stopped holding back and entered his strongest battle state. An overwhelmingly powerful punch was thrown out. Roars of a tiger and a dragon rang out at the same time. Scenes of their current life manifested around the battlefield before being quickly erased.

Dragon's Punch!

Long Ao met the incoming attack head on. With one punch, a dragon appeared, radiating a powerful might no weaker than the Three Lives Fist. In the blink of an eye, countless fists clashed against each other. There were so many fists the onlookers couldn't even see the battle clearly anymore. They knew that this was a terrifying battle. Perhaps even a battle between Nine Revolutions Realm experts would only be at this level.

"Lord Ge Yi's disciple is indeed strong. He has not brought shame to his master," said someone with a sigh.

"Yeah. If he can enter the ninth stage, things will probably be very different," said someone else.

That was true. Xiang Shaoyun was an eighth-stage God. If he could take one more step forward, his combat strength would be pushed to a completely different level. Of course, Xiang Shaoyun also wanted to break through.

The only reason he hadn't killed Long Ao with his trump card immediately was that he wanted to use Long Ao to pressure himself into breaking through. Unfortunately, Long Ao failed to give him

enough pressure. Thus, he started to pressure Long Ao further, hoping that Long Ao would give him a surprise.

Divine Sinister Space Palm!

The moment a small distance appeared between the two, Xiang Shaoyun sent 999 palms to Long Ao with the Divine Sinister Space Palm. The numerous palms landed on Long Ao's body, leaving one palm print after another. Any other peak God would have been slapped into mincemeat by such an attack.

"That hurts! I'm going to tear you apart!" roared Long Ao. The aura around his body became even more powerful, pushing his combat prowess to an even higher level.

"Long Ao is enraged. That kid is dead," said a young alien God.

"Yeah. Long Ao is as powerful as a true dragon. He is a battle fanatic," said a different alien.

When Long Ao unleashed his hidden strength, he demonstrated an even more destructive power, alarming all onlookers with his strength. It almost felt like he had entered the Nine Revolutions Realm.

Xiang Shaoyun had not imagined that Long Ao was actually so strong. After several head-on collisions, he was sent flying, and his knuckles were bleeding. At the same moment, the energy in his astral cosmos sea started stirring madly, showing the signs of a breakthrough!

Chapter 1762: Victory

Long Ao's strength doubled, and each punch of his was akin to the charge of a true dragon. He was demonstrating the strength of an actual Nine Revolutions Realm expert, a strength not everyone could withstand.

Xiang Shaoyun did not use more trump cards. Rather, he met his opponent head on. As fist clashed against fist repeatedly, he bled profusely from his knuckles. Even his bones became visible, and he was slowly being pushed back.

Of course, Long Ao wasn't perfectly fine either. His knuckles were also a bloody mess as Xiang Shaoyun's fists weren't much weaker than his. More importantly, Long Ao hadn't been able to

damage Xiang Shaoyun's vitals because Xiang Shaoyun was too fast, always capable of dodging the moment he attacked.

"Is this all you have?" said Xiang Shaoyun with a sneer as he defended against an incoming blow.

"Hmph. For daring to look down on me, you will die miserably!" said Long Ao coldly. Thicker scales covered his arms as his strength increased even more. Carrying an indescribable baleful aura, his fists shot forth, giving Xiang Shaoyun even more pressure than before.

Xiang Shaoyun did not hold anything back and gathered his primal inception energy around his fists. He used the Three Lives Fist repeatedly, unleashing his stunning self-created technique. Additionally, Xiang Shaoyun also fused his battle intent into his fists, causing the unyielding aura around him to soar. Again and again, he clashed against Long Ao.

Fists, palms, and legs were all used as the two fought in a barbaric manner. Their arms were ridden with wounds, and both parties also had many injuries all over their bodies, which spilled a large amount of blood around them. The onlookers were all dumbstruck as they watched the ongoing battle.

If the previous battles were described as spectacular and intense, the current battle was basically a primal fight for one's life. The aliens knew that Long Ao grew up soaking in the blood of true dragons. His body was already as strong as the body of a true dragon. Among the many aliens, he had the strongest physical body. Thus, they were all shocked to see this human clashing against him head on without suffering any disadvantage.

"How did this human grow up? Why is he so strong? This isn't an illusion, right?"

"Humans are born weak, but they are smart. Perhaps he had used some trick to gain such strength. Nevertheless, he will never be Lord Long Ao's match."

"That human can't be another Primal Chaos Physique owner, right? Look at his attacks. They're all so colorful. It's the same as the previous human with only a slight difference."

"It doesn't matter. He must die. Otherwise, he will be an even harder opponent after he reaches the ninth stage."

...

Xiang Shaoyun could already sense the opportunity to break through, but unfortunately, he still didn't feel enough pressure to complete the breakthrough.

Do I really need to force a Nine Revolutions Realm expert to fight me before I can break through? thought Xiang Shaoyun as he decided to finally defeat Long Ao and force out an even stronger opponent.

Xiang Shaoyun's eyes narrowed as two rays of light shot out of his eyes. Not even Long Ao and his scales could stop that attack. Long Ao started losing his life force.

Life Strip!

That was the ultimate destruction skill of the primal inception profundity, the sole power that could easily threaten any God Realm expert. Long Ao panicked. His life force was dropping rapidly, and even his control over his strength weakened.

Xiang Shaoyun took the chance to utilize the dao of time, pausing time itself. Long Ao was frozen in time, completely unable to withstand the move. Xiang Shaoyun then unleashed hell upon Long Ao.

His fist rammed into Long Ao's head, smashing the tough dragon head apart, revealing an energy crystal. That was Long Ao's origin power. If the crystal was smashed, Long Ao would die. Just as Xiang Shaoyun was about to grab the crystal, a powerful dragon soul shot out of the crystal.

Roar!

The roar was terrifying, causing Xiang Shaoyun to turn sluggish for a moment. The soul took the chance to dive into his head, aiming for his soul. Even a Nine Revolutions Realm expert would be killed if one was hit by the attack in a moment of carelessness.

"Haha, no matter how strong your body is, you will still be dead after I devour your soul," said Long Ao in excitement.

This was a move that had killed many of his opponents. His dragon soul was much stronger than his main body.

"The victor has been decided," said the strongest young alien.

A different alien said, "That fellow should be proud that he had managed to force this move out of Long Ao."

Just as everyone was assured of Xiang Shaoyun's death, Long Ao's body suddenly exploded. Then, right before everyone's eyes, Xiang Shaoyun extracted Long Ao's dragon blood. After all, dragon blood of such quality was akin to a top-tier god-grade herb. All the onlookers were stunned.

What happened? Hadn't Xiang Shaoyun been devoured by the dragon soul? Was that not the case?

Of course that wasn't the case.

Long Ao's dragon soul might be powerful, but entering Xiang Shaoyun's head was the same as entering his Imperial Nether Domain. Thus, Long Ao's dragon soul was easily defeated by Xiang Shaoyun's soul.

Naturally, Xiang Shaoyun was unwilling to just kill an expert as capable as Long Ao. He merely scattered the dragon soul before controlling it with his Nether Dragon Soul Curse, which didn't take him much time.

The only reason he had destroyed Long Ao's body was so that he could force an even stronger alien to face him. Long Ao's dragon crystal had naturally landed in Xiang Shaoyun's hand. With the crystal, Long Ao could easily regrow his entire body. Thus, the destruction of his body wouldn't affect him much.

The humans erupted with excitement at Long Ao's defeat.

"He won! Young Master Xiang won! He's too strong!"

"Yeah. That dragonkin feels much stronger than the previous aliens, but Young Master Xiang was actually able to defeat him. He's too strong!"

"Worthy of being Lord Ge Yi's disciple. His combat prowess is astonishing."

"If both he and Dugu Qiubai manage to enter the Nine Revolutions Realm, that will be a blessing to the dominion."

...

With Long Ao's capture, an alien roared furiously, "Release the dragon prince, or I'll kill you!"

A ninth-stage God charged out suddenly. That alien wielded a long scythe and swung at Xiang Shaoyun from afar. A terrifying ray slashed toward Xiang Shaoyun, instantly arriving before him.

Xiang Shaoyun merely raised his hand and crushed the ray. He said, "Who do you think you are? Your attack isn't even fit to scratch my itch!"

#### Chapter 1763: Bone-melting Blade

The ninth-stage alien God attacked with all his strength, but Xiang Shaoyun easily shattered the attack. Then, Xiang Shaoyun attacked again, turning the alien into mincemeat, destroying even the alien's soul.

Once again, all the onlookers were shocked. They could all sense that Xiang Shaoyun seemed to have grown even stronger than earlier. He was truly growing during battle.

"I'll take you down," said the young alien ranked fifth among the young alien Gods.

He was from the celestial soul race, a race with innately powerful souls. Their soul attacks were extremely tricky and difficult to deal with. He had decided to fight because he wanted to see if Xiang Shaoyun's soul was really so powerful since even Long Ao's dragon soul was difficult.

#### Myriad Blades Soul Transformation!

A large amount of soul power turned into countless blades and shot toward Xiang Shaoyun. The attack couldn't be defended against. The blades were formless and barely detectable. Even those in the Nine Revolutions Realm would not be willing to face the celestial soul race in a fight.

With his divine dao eyes, Xiang Shaoyun could naturally see all the soul blades clearly. The Primal Inception Wall appeared around Xiang Shaoyun, blocking all the incoming soul blades.

Clank!

Countless attacks rammed into the Primal Inception Wall, creating numerous ear-piercing sounds and countless sparks. Xiang Shaoyun strode forward quickly, disregarding the soul attack.

The celestial soul alien panicked and stepped back repeatedly. As he retreated, the alien took out a bow. Soul power concentrated on the bow, and instantly, three soul arrows shot out.

Three Soulchasing Arrows!

The three arrows were more than ten times stronger than the previous blade attacks. That was because the bow was a nine-revolutions-grade weapon. It granted a massive boost to the alien's soul power.

The three arrows shot toward Xiang Shaoyun from three different directions, moving at an astonishing speed toward his soul. No matter where he flew, the arrows continued flying toward him, leaving him no way out.

"Hmph! After being targeted by my Soulchasing Arrows, death is your only fate. Stop struggling," said the celestial soul alien smugly.

"Is that so? Fine. I'll just break them," said Xiang Shaoyun. He stopped running and gathered primal inception profundity around both his fists. Then, he punched out three times. It was as though three stars were unleashed against the three arrows.

Boom! Boom! Boom!

Xiang Shaoyun was strong enough to contend against Long Ao head on. Thus, the three arrows were blasted apart without dealing him any damage. The celestial soul alien naturally wouldn't admit defeat so easily. He shot out five more arrows toward Xiang Shaoyun. That was already the limit of the arrows he could unleash at a time.

"Surprisingly, that kid can see my soul attacks, but he won't be able to survive all five of my arrows!" said the alien confidently.

However, Xiang Shaoyun's speed suddenly increased rapidly. With the support of his surging God Realm energy, which was getting nearer and nearer to the ninth stage, his legs moved like the wind, pushing his speed to a level of a Nine Revolutions Realm expert.

Divine Sinister Space Palm!

After avoiding the five arrows, Xiang Shaoyun mustered all his strength and attacked the celestial soul alien. The alien did not expect Xiang Shaoyun to attack from such a tricky angle, so he was struck, causing his flesh to tear apart.

Then, a chaotic force field appeared around Xiang Shaoyun, distorting the trajectory of the five arrows that had turned around to fly at him again. Due to the disturbance, the arrows could no longer lock on to Xiang Shaoyun again.

After getting rid of the pursuing arrows, Xiang Shaoyun appeared beside the alien with the Primal Inception Saber in his hand. Then, he swung at the alien with the light of a lightning bolt.

The celestial soul race was known for their soul attacks, so how could this alien be Xiang Shaoyun's match in melee combat? He received such a terrible beating that his soul was forced to leave his body. When he attempted to flee, the space around him was surrounded by a field of primal chaos flame. The alien wailed in pain, "H-help me!"

Flame was the bane of all souls, including the soul of the celestial soul race.

"Enough!" said the Nine Revolutions Realm expert from the bone race with a cold snort. He attacked from far away, releasing an attack far stronger than his previous attack.

He was most certainly a Three Revolutions expert. Surprisingly, Xiang Shaoyun showed no fear. He gathered his primal chaos flame together and formed a primal chaos bottle, trapping the celestial soul alien's soul. He then swallowed the bottle.

The bottle was created with the profundity of creation, which was a part of the profundity of primal chaos. It could create from nothing and turn energy into actual objects. That was something Xiang

Shaoyun had learned after his comprehension of the primal chaos profundity had reached the level of great mastery during his time in the primal chaos world.

Since he hadn't burned the celestial soul alien to death, he naturally intended to put the alien under his control. He had already captured several of such powerful aliens. Once the all-out war began, he would have more helpers by his side, helping him kill even more aliens.

However, he had suffered a slash from the bone race expert for the sake of capturing the celestial soul alien. His body was cut into two, and a destructive power latched onto his bone marrow, attempting to reduce his marrow into nothingness. In doing so, he would have a hard time regrowing his body.

That was a terrifying bone-melting blade! Sure, one could always regrow one's body from even a drop of blood, but without first getting rid of the bone-melting power, one's body would not start regenerating. That was why the Nine Revolutions Realm bone alien was so terrifying. The bone-melting power was an innate ability exclusive to the bone race.

The bone race expert was Gu Wang, a Three Revolutions expert. Anyone capable of reaching that level would be the super elite of their race. As for Gu Wang, he was a renowned figure even among those of the same cultivation level. He was confident that using 70 percent of his strength was enough to kill Xiang Shaoyun.

After all, very few people could get rid of the bone-melting power once struck. However, Xiang Shaoyun just happened to be one of the few who could. That was because he had comprehended the primal inception profundity, gaining an ability called the Myriad Impenetrability.

Every power in existence was once part of the primal inception power. Thus, when the bone-melting power spread through his body, he was able to quickly erase the energy with his primal inception energy.

When Gu Wang saw Xiang Shaoyun regrow his body, the alien's eyes turned sinister. He said, "He doesn't fear my bone-melting energy? Impossible!"

He prepared to attack again, but a voice rang out, "Let me deal with him. He is a worthy opponent."

Then, a dark figure slowly stepped out of the alien warship.

## Chapter 1764: The Strongest Combatant Moves

Everyone looked at the alien that was walking out, but none could get a clear look at his appearance. Even with their incredible eyesight, they failed to see through the dark energy shrouding the alien's body. It was obvious how deep the alien's cultivation was. Nobody knew the alien's race, but the one to fight last was generally also the strongest. Thus, the humans started worrying about Xiang Shaoyun.

Xiang Shaoyun might have displayed astonishing strength, but he had fought Long Ao and taken a slash from Gu Wang. He must be rather exhausted already, so could he even contend against an alien so strong?

They hoped that someone could take Xiang Shaoyun's place, but none offered. Even Qin Jiu and Gongsun Sanyang, who had gotten some rest, did not move rashly. The pressure they were feeling from the alien was too big, so they weren't even confident enough to challenge the alien.

With his divine dao eyes, Xiang Shaoyun looked over. He managed to obtain a clear look at the approaching alien. He raised his brow and said, "It's a member of that race?"

"Hehe, you have a nice pair of eyes there. They should be destroyed," said the alien with a sneer as two beams of devilish energy shot out of his eyes toward Xiang Shaoyun.

Devil Eyes!

The two beams were not only overbearing and destructive, but they also contained a high concentration of the devil dao. Once one was struck, one would sink into intense fear and die from sheer horror. Xiang Shaoyun's divine dao eyes contained the primal inception profundity, so he met the incoming beams with his own beams.

The four beams collided, creating intense explosions that sent terrifying shockwaves all around them. The shockwaves destroyed the space around them and filled their surroundings with destructive power. Anyone who carelessly entered their battlefield would be killed immediately. Xiang Shaoyun's eyes were no weaker than his opponent's. However, his cultivation was lower, so his beams were pushed back to him.

Xiang Shaoyun thus decided to stop clashing with only his eyes. He mustered all his strength and released his peak battle intent as he roared, "This little trick won't do much to me. Fight me head on!"

He then threw his fist out, unleashing a rumbling punch that was akin to a roaring dragon. Space twisted and warped while several distant small planets exploded from the sheer might of his punch. This attack was far stronger than any attack he had used before. All the onlookers were shocked.

Xiang Shaoyun was supposed to be completely exhausted, so why was he becoming stronger the more he fought? The humans started wondering if that was one of the benefits granted to him by his strongest physique.

"Fine. Let me see if you can actually force me to use all my strength," said the alien as he sent a terrifying devil palm out. It was as though a piece of sky was collapsing upon Xiang Shaoyun, threatening to erase his existence.

Devil Dome Palm!

This technique was quite similar to the renowned Cosmos Within Palm technique, with the only difference being that it was much more overbearing. The alien took a step forward, causing a plume of energy to surge around him as he sent another palm out. Instantly, the space around him was pushed away, leaving only nothingness around him. Even some distant stars couldn't withstand the weight of his palm and exploded one after another.

Not only was the terrifying palm bringing great pressure upon Xiang Shaoyun, but it was also putting great pressure on all the onlookers. It was a truly terrifying attack. The alien wasn't even using his full strength, yet he was already demonstrating a strength on par with a One Revolution expert.

Xiang Shaoyun felt greatly pressured, but he showed no fear. Rather, he became excited and exclaimed, "Excellent!"

He moved both his fists together and threw out the Three Lives Fist repeatedly. Each punch contained the countless permutations of one's previous and current life and was branded with primal inception profundity.

The punches were able to smash the palms apart, but the impact sent Xiang Shaoyun flying away over a kilometer. He was uninjured, but it was clear he wasn't as strong as his opponent. This was the very first opponent he had encountered who was at a similar cultivation level but was actually stronger than him.

Normally, even those two or three stages above him would still be defeated by him, including Gods. This alien, on the other hand, seemed perfect in every aspect. He was halfway into the Nine Revolutions Realm, and even though Xiang Shaoyun's cultivation was only a stage lower, the two had similarly solid foundations. Thus, Xiang Shaoyun was unable to defeat the alien like all his previous opponents.

"Interesting. Try to take two of my palms," said the alien. Still not showing his full strength, the alien sneered and sent two palm attacks out. He was using 80 percent of his strength, a strength on par with a peak One Revolution expert. This attack was even stronger than his previous attack.

Left with no choice, Xiang Shaoyun drew from the energy in his astral cosmos sea. He circulated the Desolation mantra and absorbed even more of the random energy around him to form an even larger fist. He threw it out.

Rumble! Rumble!

The fist and the palms collided, creating terrifying explosions that caused all the onlookers' hearts to thump rapidly. Some of the weaker experts even fainted from the explosions' sheer impact. The various Gods hurriedly protected their Saints as they retreated far away from the battlefield.

I won't be able to withstand those palms even with all my strength, thought Qin Jiu indignantly.

Due to his mastery over the Solitary Empty Heart, he had thought that he would be capable of facing even the strongest of aliens. Alas, he learned just how naive he was. He would probably only manage to achieve a draw with Long Ao. Against this alien shrouded in darkness, he had zero confidence of victory.

Gongsun Sanyang felt the same. He had always thought that he was the most talented young genius in the dominion. But after witnessing Dugu Qiubai's and Xiang Shaoyun's fights, he realized that those two were not weaker than him. And after seeing this alien, he was forced to admit his inferiority.

"Will Yun'er be fine?" asked Xiang Yangzhan. He had always been a confident person, but even he was starting to feel worried.

"Don't worry. The overlord is unrivaled," said Purple Lightning Marquis. He would forever believe in Xiang Shaoyun.

"That's right. The overlord is definitely testing his opponent right now. He still has so many trump cards waiting to be used," said Yu Caidie.

"If I was also at the ninth-stage God Realm, I would be able to kill that fellow like a bug!" said Devil Concubine domineeringly.

The stronger the enemies seemed, the more resentful she was toward her own strength. However, she was still too young. If she was given 100 more years, she was confident she would no longer fear anyone here.

#### Chapter 1765: Purple Clouds From East

Xiang Shaoyun's attack was smashed apart while numerous injuries appeared all over his body. The Devil Dome Palm was truly powerful. It unleashed a level of strength that was beyond Xiang Shaoyun's ability to stop.

However, the intense attack seemed to have smashed through his bottleneck as well. A crisp sound rang out within his body as though a shell had shattered. His astral cosmos sea had almost been emptied of energy from the intense battle, but it was instantly filled with energy again.

The energy coursed through Xiang Shaoyun's meridians like a torrential river while his body started healing rapidly. A powerful suction force erupted from his body, incessantly pulling in the energy from all around him regardless of the complexity of the energy's composition.

Everyone sensed the change Xiang Shaoyun was undergoing. They had thought that he was using some secret technique to heal. Some thought that the change was probably his final struggle before death.

The alien shrouded in darkness was the only person to think differently. His fiendish eyes became visible as he sank into short doubt. He roared, "You're borrowing my strength to break through? How audacious!"

The alien charged forth before once again sending his palms toward Xiang Shaoyun. A blanket of devilish energy descended upon Xiang Shaoyun with an even stronger might than the previous attack. The alien believed that this attack was strong enough to destroy both Xiang Shaoyun's body and soul.

Since Xiang Shaoyun was in the midst of a breakthrough, the alien aimed to not only interfere with the breakthrough but also to erase all the energy around Xiang Shaoyun to render the breakthrough unsuccessful.

Just as the palm attack was about to land, Xiang Shaoyun's body suddenly enlarged to the size of a mountain. He opened his mouth and moved to swallow the palm attack. That shocking sight stunned all onlookers—aliens and humans.

"This human must have hit his head earlier. He dares to swallow Lord Ming Zi's energy? He must be courting death."

"Who does he think he is? Not even someone in the Nine Revolutions Realm would dare do something like this."

...

"Hmph. What a fool," said Qin Jiu with a sneer.

He did not think that Xiang Shaoyun would be able to consume that palm attack. Only someone stupid would think of doing that.

"If he really can consume that palm, I'll write my name backwards from now on," said the Celestial War King.

He had been working alongside Di Lin. Since the two were extremely crafty individuals, they had avoided the stronger aliens. Thus, they had been able to survive until now.

Immediately, the palm entered Xiang Shaoyun's mouth.

After consuming the palm attack, Xiang Shaoyun's body grew even larger. He roared, "Is this all you have?"

At the same time, some devilish energy started leaking out of his body, as though his body was about to explode after swallowing the Devil Dome Palm.

"Interesting. Why don't you try to eat two of my palms?" said Ming Zi with a snort. Then, he unleashed an even stronger attack with both his palms.

Devil Fork Seal!

That was an extremely odd attack as the energy forming the attack constantly crisscrossed, forming a terrifying death energy that shot toward Xiang Shaoyun. The attack was nearing Ming Zi's full power. The moment the death energy entered one's body, one would have one's life force completely erased.

The Devil Fork Seal was one of Ming Zi's more powerful techniques. After all, any life form would have a hard time dealing with its death energy. However, Xiang Shaoyun again swallowed the attack. His mouth was akin to a black hole, capable of swallowing everything.

The exceedingly destructive attack entered his stomach, placing heavy stress on his body. His meridians and organs were directly turned into mincemeat, but after the energy reached his astral cosmos sea, it was instantly tamed.

After all, the astral cosmos sea was filled with primal inception energy, the most powerful energy in existence. Due to Xiang Shaoyun's state of breakthrough, his astral cosmos sea was filled with primal inception energy, allowing him to instantly assimilate the death energy and turn it into primal inception energy. Even so, Xiang Shaoyun still felt like he still needed more energy to complete his breakthrough.

"Your energy is too weak," said Xiang Shaoyun with contempt.

Devilish energy kept leaking out of his body, making Xiang Shaoyun look like he was about to explode anytime soon. All the onlookers believed that he was merely putting forth a tough front. In fact, even Ming Zi believed so. Initially, he had believed that Xiang Shaoyun was using his energy to break through, but Xiang Shaoyun looked more like he was about to die than break through.

Such provocation from someone almost dead infuriated Ming Zi, so he unleashed even more equally stunning attacks. He refused to believe his death energy wouldn't be able to get rid of Xiang Shaoyun.

As more and more energy entered Xiang Shaoyun's body, he finally broke through his final bottleneck. His astral cosmos sea and devil pearl erupted with a terrifying suction force, emptying

his surroundings of energy. Even the onlookers farther away could feel an energy vacuum around them.

"What's going on? Even the chaotic energy in space was devoured?"

"Is he trained in some godly swallowing technique? Allowing him to swallow everything?"

"That doesn't seem to be the case. I can feel his energy surging, as though he is going to break through at any moment."

"He must have gone crazy and decided to kill both the alien and himself through self-detonation."

"Look, he's still growing! He's as big as a planet already!"

"What's that? Nine shining stars have appeared, releasing a constant stream of energy toward Xiang Shaoyun!"

...

The phenomenon of nine stars had reappeared. Nine energies of different colors converged on Xiang Shaoyun's body and revolved around him. Purple clouds abruptly appeared around him, emanating a pure and majestic aura that caused everyone to inadvertently breathe heavier.

Purple clouds from the east!

That was a supreme phenomenon. It contained the most original and powerful of energies, something that all Gods dreamed of encountering. Like the primal chaos energy, this energy was also extremely rare. It was unlike the tiny bit of purple aura that would appear every day at dawn. Rather, this phenomenon was formed from the purple aura of the nine heavenly stars. Even absorbing a tiny bit of it would make up a hundred or even a thousand years' worth of cultivation.

Everyone present started madly absorbing the energy, hoping to absorb some of the purple energy. Unfortunately, their efforts were for nothing as the stream of purple energy was heading straight toward Xiang Shaoyun. Everyone was filled with envy.

Not even Ming Zi could remain calm. The darkness around him scattered, revealing a handsome face and a unique rune on his forehead, a rune only members of the Imperial Nether Clan would have.

"Don't even think of absorbing the purple energy!" said Ming Zi as he formed several hand seals and summoned the Nether Yin Gate to pull at the purple energy.

#### Chapter 1766: Perfect Breakthrough

Nobody had expected that the strongest young alien would actually be someone from the Imperial Nether Clan. That Ming Zi was freakishly strong. The Nether Yin Gate he formed was incredibly powerful. It latched onto reality like a layer of film, and a black hole appeared before the purple energy, attempting to devour all the energy.

He knew very well that the one to summon the purple energy would be the only one that could absorb and refine the energy. That was because the purple energy would manifest based on the potential of individual cultivators. Nobody else would be able to do anything with it. Thus, Ming Zi decided to ruin the energy instead. If Xiang Shaoyun was allowed to absorb all the energy, he would probably be undefeatable on the outside domain battlefield.

"Swallow it!" Not only were the aliens wishing Ming Zi success but so too were Qin Jiu, Di Lin, and the Celestial War King.

They all knew that everything Xiang Shaoyun had done earlier was only for the sake of misleading everyone. This energy was the actual energy he was using for his breakthrough.

Xiang Shaoyun was at a crucial stage of his breakthrough.

He sensed the resonance between his astral cosmos sea and the nine stars. While the purple energy was heading toward him, he couldn't move. He was stuck focusing on maintaining the resonance so that he could smoothly absorb the purple energy.

However, Xiang Shaoyun lost his confidence when he saw Ming Zi's Nether Yin Gate. He was afraid that the purple energy would be devoured or pulled away. But next, a shocking scene appeared.

The powerful Nether Yin Gate was smashed apart by the purple energy. The gate shattered, and an abundance of death energy was erased. Ming Zi, the controller of the gaze, also received a strong backlash. He was sent flying away while coughing blood.

"How is this possible? My Nether Yin Gate has reached the highest level. Not even a Three Revolutions expert can damage my Nether Yin Gate. How is this purple energy so scary?" roared Ming Zi in indignation.

He was the strongest among the young aliens, and he was confident he could kill any of the humans. After this failure, his confidence wavered because Xiang Shaoyun had successfully absorbed the clump of purple energy.

Instantly, his body started emanating primal inception energy and purple energy. A dragon and a tiger revolved around him, showcasing his perfect condition. His strength instantly soared through the peak of the eighth stage and entered the ninth stage. His body was cleansed, his physique improving by leaps and bounds. His body was now completely pure, his flesh sparkling and translucent, his body flawless.

His astral cosmos sea had also grown multiple times larger than before. Once again, everything in his astral cosmos sea changed. Some saint herbs evolved into god herbs, and some regular herbs evolved into emperor or even sovereign herbs. The divine discerning tree grew even more, turning into a massive tree shouldering the sky. It emanated a thick discerning aura, and a flower started blooming on the tree.

Generally speaking, the divine discerning tree would only flower once every 50,000 years and then spend another 50,000 years forming its fruit. The fruit would then ripen after another 50,000 years. In total, 150,000 years were needed for one ripe divine discerning fruit to be produced. However, the transformation within Xiang Shaoyun's body caused the divine discerning tree to mature and flower rapidly, greatly shortening the time required for a ripe divine discerning fruit to be produced.

The divine primal chaos lotus had also benefited greatly. Previously, it had given its seeds to Dugu Qiubai, exhausting much of its strength. With Xiang Shaoyun's advancement, it managed to replenish much of its energy, so it became incomparably excited.

As for Money, who was latched on Xiang Shaoyun's body, he had also benefited greatly. His cultivation reached fifth-stage Demon God Realm. If he was to undergo a lightning tribulation immediately, he might even be able to enter the sixth stage. He also started emanating a trace of primal inception aura, and his lightning power was enhanced to an even higher tier.

Gui Qi, who resided in his head, had also benefited greatly. The large amount of Imperial Nether soul power he absorbed had allowed his bloodline to undergo yet another evolution. His cultivation had also increased massively.

All those weren't what surprised Xiang Shaoyun the most. What surprised him the most was the fact that after a strand of purple energy entered Dong Ziwan's body, her body reached the God Realm and formed divine primal chaos blood within her. Her soul also broke through repeatedly, reaching third-stage God Realm.

In her new condition, she would be able to refine both the primal chaos spring and life spring and regrow her head. With a perfect body, she would be able to heal by herself, a much better option than having Xiang Shaoyun create a new body for her.

After entering the ninth stage, Xiang Shaoyun even reached the late stage directly. He was only a tiny bit away from peak ninth-stage God Realm. It was evident how incredible the purple energy he had absorbed was. He could feel that his body and strength had reached a flawless pinnacle. Any casual move of his would carry the strength to pluck and crush stars and moons.

Still in his giant form, he looked incredibly imposing. The sparkling and translucent purple energy flowing on his body and the majestic aura he emanated made him seem like someone strong enough to look down on the entire universe.

"Ming Zi, let me kill him," said Gu Wang. He suddenly had a sense of unease, so after shouting unhappily, he swung his bone scythe at Xiang Shaoyun.

This time, he used all his strength and pushed his bone-melting ability to its limits. He was resolute in killing Xiang Shaoyun. The overbearing attack caused all the human onlookers to feel fear. None of them would be able to withstand such an attack.

"Yun'er, come back. Fight them again after you reach the Nine Revolutions Realm!" shouted Xiang Yangzhan anxiously.

"There is no need to wait. I can have a good fight with them right now," replied Xiang Shaoyun calmly. He reached out with his hand and easily grabbed the incoming slash.

His palm seemed to carry an entire universe within it, branded with primal inception profundity. The palm easily captured the incoming slash. More than half the bone-melting profundity was

destroyed as well. The attack was so weakened its remaining strength could no longer pose any threat to Xiang Shaoyun.

"Impossible!" Gu Wang stood up and exclaimed in shock.

He couldn't accept the fact that Xiang Shaoyun had so easily captured his slash.

"Good. Excellent. You're worth my full strength. Elder Wang, you don't need to do anything. I'll personally end him," said Ming Zi.

He then pushed his strength to its limits and sent his palm at Xiang Shaoyun once again. This attack was several times more powerful than his previous attacks. It was comparable to even Gu Wang's slash. That was the true strength of the strongest young alien.

#### Chapter 1767: Swatting a Fly

Ming Zi's strength was acknowledged by all the aliens. When he used all his strength, a gale formed around him, and a massive palm manifested, causing the universe itself to shake.

Still in his giant body, Xiang Shaoyun threw out a simple punch. The attack was straightforward yet carried the might of a falling star, looking extremely overbearing.

Boom!

The palm and the fist collided, creating a muffled sound. Cracks appeared all around the center of the collision.

"Is this really all your strength? If so, you're quite a disappointing opponent," said Xiang Shaoyun with derision.

"You really think you can look down on me after some improvement? I'll let you experience my dao of endless slaughter!" Ming Zi roared as the rune on his forehead radiated waves of energy, filling the area with boundless devilish energy. The devil dao of the highest level was contained within the energy. The dreadful killing intent it contained made it seem like countless devils were roaring at the same time, planting fear in one's mind before one could even start fighting.

A more timid opponent would have fainted from sheer fear upon facing the terrifying devil dao. However, Xiang Shaoyun was a veteran of a hundred battles. He had faced countless dangers and had developed firm willpower. How could he be scared so easily? In any case, he also knew the devil dao.

"Devil dao? I know it too," said Xiang Shaoyun with a smile. He stirred his devil pearl, instantly releasing boundless negative emotions. A battle rune appeared on his forehead, turning his temperament into a fiendish one.

"H-how is this possible?" exclaimed Ming Zi in shock after witnessing Xiang Shaoyun's change.

"Nothing is impossible," replied Xiang Shaoyun before attacking.

His eyes turned scarlet as a thick blood power merged with a devilish aura, manifesting an attack. Xiang Shaoyun shot the attack toward Ming Zi.

One punch, two punches, three punches...ninety-nine punches were thrown, each punch powerful enough to shock the firmament.

After his breakthrough, Xiang Shaoyun's energy had reached a terrifying level. It was not as simple as an advancement of his energy tier. The purple energy had played a great role in elevating the level of his energy, and it had further strengthened his foundation, granting him the strength to fully utilize the Primal Inception Physique.

He was only using his devil pearl yet was already as strong as a One Revolution expert. With the growth of his physical strength, he could contend against even a Two Revolutions expert. He aimed to use Ming Zi as a sparring partner to consolidate his new strength.

Ming Zi naturally wouldn't allow Xiang Shaoyun to dominate the fight. His body enlarged, but unlike Xiang Shaoyun, he couldn't grow into the size of a planet. His blood power surged like a torrential river as he sent numerous palms out to block Xiang Shaoyun's attack.

Their attacks collided, ending with Ming Zi being sent flying. In terms of pure strength, he no longer compared to Xiang Shaoyun. The bug that he had overlooked just earlier had suddenly grown so much. He found that fact hard to accept.

The surrounding onlookers were shocked and speechless. Their eyes were widened in shock, their mouths agape in disbelief. They couldn't even make a sound as they witnessed the powerful Ming Zi being beaten back.

"There's nothing special about you at all," said Xiang Shaoyun as he stomped at Ming Zi.

The stomp was powered by a boundless devil dao, creating a killing domain that very few could withstand under the foot. After comprehending the primal inception profundity, all other profundities Xiang Shaoyun had comprehended had been boosted to a terrifying level. His devil dao had naturally been boosted considerably as well.

Additionally, he had merged all his battle techniques together, reaching a level where the mastery of one technique granted him the mastery of all other techniques. He utilized this concept with his Overlord's Nine Nether Steps and the killing field beneath his foot, creating an attack that was not limited to a single element such as lightning. Rather, he could now freely swap the elements of every one of his techniques.

Ming Zi was infuriated. He joined both his palms together and jabbed at Xiang Shaoyun's foot with his fingers.

Devil's Sin Finger!

A massive, sharp finger beam roared upward with the might to penetrate everything in existence. However, the beam was shattered, and the foot continued to stomp down toward Ming Zi. Greatly alarmed, Ming Zi hurriedly moved aside, cutting a sorry figure as he barely avoided the attack.

Before he could even rejoice in successfully evading, the second stomp arrived and landed on his back. It crushed his back, his blood spilling out. Xiang Shaoyun took the chance to move faster and sent his third and fourth stomps out, attempting to kill Ming Zi once and for all.

Ming Zi was fast, but he was nowhere as fast as Xiang Shaoyun, who also controlled the power of wind. Once again, his back was crushed, and the sounds of bones breaking rang out. All the onlookers could hear the crisp sounds. Aliens and humans alike felt a chill creeping up their spine, as though they were the ones being stepped on.

After the fifth stomp, Ming Zi took out a divine weapon in a fury. The divine weapon was of an extremely high level. There was no doubt that it was a nine-revolutions grade weapon. It was a

halberd shrouded in thick devilish energy. The moment it appeared, it was sent sweeping toward Xiang Shaoyun's waist.

Due to Xiang Shaoyun's massive body, he wasn't able to avoid the attack despite his speed. The strike landed heavily on his waist. He did not utilize any energy to defend himself. When the attack struck his body, it only caused his flesh to cave in slightly. Apart from that, he did not suffer any other injuries.

So my body is so powerful now, thought Xiang Shaoyun with joy.

His body had always been much stronger than those in the same cultivation level. After being cleansed by the purple energy, his body had further advanced, reaching a level where not even nine-revolutions weapons could easily harm him.

Ming Zi was alarmed. Just as he was about to launch another attack, Xiang Shaoyun's massive palm swatted him like a fly.

Boom!

Unable to avoid the attack, Ming Zi was sent flying far away. He streaked into the distance like a meteor before vanishing from everyone's sight.

All the aliens went crazy. How should they even face a person with such strength?

As for the humans, they were still in disbelief.

Chapter 1768: Versus Gu Wang

"A-am I seeing things? W-why is Xiang Shaoyun suddenly so strong?"

"If I'm not seeing things as well, then yes. That just happened. He is way too overbearing. That alien was slapped away with one hit."

"Too strong. Has he entered the Nine Revolutions Realm?"

"No. He's probably using some secret technique to transform into a giant. That's why he's so strong."

...

Sounds of discussion broke out when the humans recovered from their shock. Nobody had expected Xiang Shaoyun to be so strong. Since he had emerged victorious, their morale rose as well.

As for the aliens, they all had unsightly expressions as though they had just swallowed some dead bugs. They wished to kill Xiang Shaoyun immediately for daring to humiliate Ming Zi like that.

At this time, Gu Wang decided to attack. He felt that Xiang Shaoyun was too dangerous. If not killed, this human would become a disaster for them. But before he could do anything, the other young alien Gods moved together. They aimed to work together and defeat Xiang Shaoyun to prove their worth.

A jaded flesh demon manifested the Brightjade Domain, trapping Xiang Shaoyun within and attempting to kill him. A queen bee alien shot out a sharp spike that streaked through layer upon layer of space to reach one of Xiang Shaoyun's vital parts. The spike moved at a terrifying speed, carrying powerful venom that could instantly kill the person struck by it. An odd-looking bird-type alien spread its wings, which were as sharp as blades, and swung at Xiang Shaoyun, the feathers filled with thick sword intent that threatened to sever all life.

...

Five of the strongest young aliens attacked at the same time, unleashing five different abilities. Even an expert in the Nine Revolutions Realm would have to be extremely careful against such opponents.

"Overlord, let me help you!" Purple Lightning Marquis had entered ninth-stage God Realm. He was confident he could help Xiang Shaoyun.

However, Xiang Shaoyun refused. "No. Just watch."

Then, Xiang Shaoyun waved both his hands. Strand after strand of primal inception profundity weaved around in his palms. The overbearing primal inception energy formed the power of space, and he sent the palms toward the five attacks. With one slap, all the attacks were obliterated.

The second slap smashed through the five aliens, heavily injuring their bodies and souls, nearly killing all of them. The aliens finally felt fear.

Gu Wang couldn't maintain his calm anymore and hurriedly leaped off his warship. From afar, he swung his bone scythe at Xiang Shaoyun.

Abruptly, Xiang Shaoyun's body reduced in size. Eventually, he returned to his previous size, easily avoiding the attack. He streaked forward and threw a punch at the jade flesh demon. His unstoppable punch tore through the alien's body, allowing him to drag the alien's soul out.

Then, he formed a jade bottle before stuffing the soul in it. Everything happened in the blink of an eye. Most people couldn't even see what he did clearly.

Then, Xiang Shaoyun dashed toward the bee alien.

The bee was overwhelmed with fear. She hurriedly fled toward the alien army, not wanting to face Xiang Shaoyun. However, it was too late. Xiang Shaoyun grabbed the waist of the queen bee and crushed her body mercilessly. Suddenly, the queen bee's soul transformed into a spike and shot toward Xiang Shaoyun's head. Everything had happened too suddenly, so that was an extremely dangerous attack.

"Die!" said the queen bee ferociously.

Just as the venomous spike was about to strike Xiang Shaoyun's forehead, a powerful aura rippled out of the rune on his forehead, nearly breaking the spike.

"Come!" Xiang Shaoyun grabbed the spike and formed a jade bottle before stuffing it inside as well.

At this time, Gu Wang arrived. He was so furious that all his bones were shaking. After all, two young talented aliens were captured even after he made his move.

Mountainous Bone Sea!

With a wave of his bone scythe, a domain appeared. The domain was filled with countless bones, all of them madly shooting toward Xiang Shaoyun. The bones were actually corporeal objects and were unlike a regular domain that was only filled with energy. After all, one would gain the ability to turn energy into solid objects upon reaching the Nine Revolutions Realm.

That one attack was enough to kill a large number of ninth-stage Gods. Xiang Shaoyun also felt greatly pressured. He might have reached late ninth-stage God Realm, but he still wasn't truly undefeatable.

"Good. You will be the perfect person to test my strength," said Xiang Shaoyun in excitement. He dashed forward, ignored the domain of bones, and unleashed the Three Lives Fist repeatedly.

The Three Lives Fist was a technique that could fully display Xiang Shaoyun's strength. Each punch was glorious and dazzling, destroying countless bones and threatening to erase the entire bone domain.

However, Gu Wang's domain wasn't simple. Countless bone blades shot over with astonishing might, cutting the fists into pieces. Xiang Shaoyun could feel that he was almost as strong as Gu Wang. If he worked harder, he could probably eliminate the little gap between them.

Thus, he took out the Primal Inception Saber and attacked with primal chaos lightning. With his lifebound weapon, the bone domain was completely destroyed. He was finally able to reach Gu Wang.

"You're actually this strong? You truly can't be spared!" shouted Gu Wang when he sensed an attack that could actually threaten him. He mustered all his strength and unleashed numerous bone-melting blades at Xiang Shaoyun.

The bone-melting blades cut even space into pieces. A tiny bit of the bone-melting aura leaked toward the distant human onlookers with enough might to take the lives of thousands of people.

The humans paled in fright. They found themselves completely incapable of moving as the attack headed toward them. Just as the attack was about to reach them, Xiang Shaoyun's primal inception blade arrived and destroyed the bone-melting attack completely.

"Retreat immediately! Don't come near us!" said Xiang Shaoyun as he stood before the humans and Gu Wang.

"Pursue the humans and kill them all!" commanded Gu Wang.

#### Chapter 1769: Send You to the Afterlife

Gu Wang was a Three Revolutions expert. If he intentionally attacked the human army, who could stop him? He also had a powerful alien army at his disposal. Xiang Shaoyun was strong enough, but that did not mean he could protect every single human.

The humans realized that the scope of the fight had far exceeded their expectations. They needed to move farther away to not be hit by stray attacks. The aliens did not wish to let the human go, so they gave chase.

Xiang Shaoyun stood before them and coldly said, "Today, I'll learn from my master and stop all of you alone."

He then released his Imperial Nether Domain. The domain was massive, instantly trapping many of the aliens who were ahead of the alien army. Xiang Shaoyun's domain was extremely terrifying. As it spread, even Gu Wang failed to escape it.

"You can go peacefully to the afterlife," said Xiang Shaoyun mercilessly as he sent his nine-colored lotus crashing toward the aliens.

Boom!

Two primal divine stones had been fused with the nine-colored lotus foundation, so it had been enhanced to a terrifying level. Not even a nine-revolutions weapon could compare with it. As the lotus descended, a large number of aliens were turned into mincemeat. Additionally, many of the aliens were torn apart by numerous energy attacks. None of them could escape these large-scale attacks.

"This is the Imperial Nether Domain! But why is it so suppressive?"

"We can't escape! Can anyone save us?"

"Ming Zi! Where is he? He's a genius from the Imperial Nether Clan. With his talent, he should be able to help us all leave."

...

Gu Wang was the strongest of the aliens. He naturally couldn't watch as the aliens died. His bones ignited with a terrifying bone flame. The flame looked incredibly eerie, and his scythe turned scarlet as his strength surged against the domain's suppression. He swung his scythe, aiming to break free with one hit.

Bone Flame Godslaying Blade!

Gu Wang focused on Xiang Shaoyun's soul. He knew very well that if he could destroy Xiang Shaoyun's soul, this domain would break by itself. He felt rather happy that Xiang Shaoyun had decided to use the Imperial Nether Domain. His bone flame specialized in destroying souls.

But when his blade was about to reach Xiang Shaoyun, the soul that was seated cross-legged suddenly opened its eyes. Its eyes were branded with the symbols of countless profundities, instantly eliminating the entire attack.

"How is this possible?" Gu Wang exclaimed in alarm.

"Nothing is impossible. Time to send you to the afterlife," said Xiang Shaoyun's soul as it flew forth and pressed a palm down on Gu Wang.

Very few people knew that Xiang Shaoyun's soul was even stronger than his main body. Many aliens had perished in his hands due to that. Gu Wang was a Three Revolutions expert, and the quality of his energy had surpassed the level of ordinary Gods. Even so, he still couldn't escape being suppressed. The domain's suppression greatly weakened him, allowing Xiang Shaoyun's powerful soul to break his bones with one hit.

"Why are you immune to my bone flame? Have you reached the level where your soul becomes solid?" Gu Wang roared indignantly. Every single ability and power of his had failed against Xiang Shaoyun, so he felt pretty sullen.

Xiang Shaoyun did not even bother to reply and focused on destroying all of Gu Wang's energy. Someone at the Nine Revolutions Realm had a powerful life force. So long as one had even a little bit of energy remaining, one would be able to endlessly regrow one's body. If they weren't fighting

in the Imperial Nether Domain, Xiang Shaoyun would have no way of suppressing Gu Wang so greatly.

After all, as a Nine Revolutions Realm expert, if Gu Wang focused on running, Xiang Shaoyun wouldn't be able to do anything. After destroying Gu Wang's body again and again, Xiang Shaoyun discovered that Gu Wang's soul was wrapped in a clump of bone flame. That was where his life imprint was located.

Only by destroying that clump of bone flame would Xiang Shaoyun be able to fully destroy Gu Wang's soul and kill him for real. Xiang Shaoyun wanted to try controlling Gu Wang with the Nether Dragon Soul Curse, but unfortunately, the bone flame was able to destroy every one of his curse symbols.

At the same time, Gu Wang was even attempting to use the bone flame against the Imperial Nether Domain itself and burn himself a way out. Xiang Shaoyun naturally wouldn't let Gu Wang flee. His soul clone formed the primal chaos flame and attempted to assimilate the bone flame. Finally, Gu Wang panicked.

"You can't kill me! Or else, all of humanity will perish!" shouted Gu Wang in fear.

"As if humanity will be safe if I spare you," said Xiang Shaoyun.

The primal chaos flame lived up to its reputation as a top-tier flame. Slowly but surely, Gu Wang's flame was eaten away.

Gu Wang panicked even more as he said, "So long as you let me go, I'm willing to take our army and withdraw!"

Xiang Shaoyun did not even bother saying anything. After devouring the entire bone flame, his primal chaos flame spread toward Gu Wang's soul. At this time, the Nine Revolutions Realm experts on the other alien warships moved out.

A decent number of Nine Revolutions Realm aliens had come with the most recent wave of alien reinforcement. However, they were too arrogant to make a move against the weak humans, so they had let the younger generation deal with them.

But after Xiang Shaoyun displayed his incredible combat strength and killed numerous aliens, the experts lost their calm. Two aliens, a One Revolution expert and a Two Revolutions expert charged forth. When they sensed the tiny undulations around them, they started bombarding the undulations, attempting to break the Imperial Nether Domain and free the aliens trapped within.

Their attacks were powerful, and as they were attacking from the outside, they were definitely capable of destroying the domain. But before they succeeded, Dugu Qiubai charged over and interrupted them.

"You need to get through me before interrupting their fight!" said Dugu Qiubai. He was the strongest human in the human army after Xiang Shaoyun. Not even Qin Jiu and Gongsun Sanyang would be his match without borrowing the might of their nine-revolutions weapons.

Dugu Qiubai drew his Primal Chaos Sword and unleashed a five-colored millstone, blocking the attacks of the two aliens.

"Since you dare to stand before us, we'll kill you first," said one of the two aliens.

"We might as well kill all these humans as well," said the other alien.

They attacked again with even stronger attacks, aiming for Dugu Qiubai and the human army. By himself, Dugu Qiubai would probably not be able to stop the two attacks. Someone else needed to step up as well. Everyone hoped that either Qin Jiu or Gongsun Sanyang would be the one to step up, but the first one to appear was Purple Lightning Marquis.

## Chapter 1770: All Out War

After obtaining the divine primal chaos lotus, Purple Lightning Marquis had not been stuck at peak eighth-stage God Realm like Xiang Yangzhan. Rather, he had reached the ninth stage, obtaining a massive increase in strength. He was confident he could contend against even Nine Revolutions Realm experts.

With his purple lightning spear in hand, dazzling lightning bolts erupted from his body. A chain of primal chaos lightning shot forth, blocking the attack of the One Revolution expert. Although Purple Lightning Marquis had successfully stopped the attack, he was still sent flying from the impact. The gap between him and someone of a higher realm was still too big.

Purple Lightning Marquis did not give up easily. After taking a deep breath, he healed rapidly. He drew madly from the energy in his body, forming a powerful lightning field. The God of Thunder and Goddess of Lightning manifested in the field.

Rumble! Rumble!

Endless lightning bombarded the One Revolution expert.

"Decent strength, but not enough," said the alien. Two terrifying gusts of energy shot out of his nose. The baleful gold energy instantly tore the field of lightning apart.

Just as the gold energy was about to reach Purple Lightning Marquis, the God of Thunder slammed his divine hammer down while the Goddess of Lightning unleashed a torrential stream of lightning from her fork, blocking the two gusts of gold energy.

Thunder Hammer and Lightning Fork!

Purple Lightning Marquis was finally using his trump card. He had decided to fight to the end with this One Revolution alien.

His opponent was also furious. A weak human had stopped his attacks repeatedly. He felt extremely humiliated, and he decided to drag his opponent's soul out and subject it to extreme torture.

At this time, the other aliens had arrived. The humans also charged forth to face the aliens after being incited by Qin Jiu. At this point, retreating was no longer an option. A victor must be decided. The sealed battlefield alone was no longer enough to stop the Nine Revolutions Realm experts from reaching the dominion.

"Whoever dares to stand before me today, I'll kill them all! Only I will become the young guild master!" said Qin Jiu with a look of madness on his face.

Provoked by Xiang Shaoyun's strength, he no longer hid his strength. He took out his nine-revolutions weapon and started slaughtering a large number of aliens.

Gongsun Sanyang did the same. He could not allow himself to fall behind his other competitors. His three suns radiated overbearing power, swirling around and destroying all the aliens they encountered.

Of course, the aliens were also extremely powerful. Among them, there were still a few top experts. These experts were in charge of dealing with Qin Jiu and Gongsun Sanyang. As for the humans, their average strength was much weaker than the aliens'. Thus, things immediately became extremely dangerous for many of them as one human after another was killed.

Among the humans, the group with the best performance was Xiang Shaoyun's group. That was because Ling Ziruo, Yu Caidie, and Xiang Yangzhan were all top-tier experts that could contend against the alien experts.

Additionally, Devil Concubine was showcasing her strength as well, summoning even the celestial darkdevil tree. After absorbing a large amount of primal chaos energy, the celestial darkdevil tree had easily broken through his age shackles, successfully entering the Two Revolutions stage. His tree branches became filled with destructive power, whipping one alien after another to death.

If a Two Revolutions alien hadn't appeared, things would have been even worse for the aliens. The celestial darkdevil tree's appearance had helped gain some momentum for the human army.

Qin Jiu and Gongsun Sanyang had each taken out puppets in the Nine Revolutions Realm. Those puppets were a part of their wealth. If they didn't even have any tricks up their sleeves, how would they have the confidence to fight for the young guild master position?

Even more Nine Revolutions Realm aliens were forced to make a move. Three of them appeared, with one being even stronger than Gu Wang. That alien was a Four Revolutions expert, and his appearance caused the humans to fall into despair.

The Four Revolutions alien was a gigantic life form. As his aura surged, he snorted at the human army, instantly killing a large number of humans. Before Nine Revolutions Realm experts, Gods were as fragile as paper.

"Grandpa darkdevil tree, can you stop him?" asked Devil Concubine.

"Even if I can't, I have to try," said the celestial darkdevil tree as he unleashed the energy he had taken millions of years to accumulate. Ten black holes appeared at the same time, and a powerful

suction force manifested and pulled the attacks of the strongest Nine Revolutions Realm alien. If the celestial darkdevil tree had moved any slower, the entire human army would have been destroyed.

"Run! These aliens are too strong!"

"We can't contend against them! I did not expect these aliens to have so many existences beyond the God Realm! We have no chance against them!"

"Young Master Jiu and Young Master Gongsun have powerful puppets. Perhaps they can create an opportunity for us to survive."

"That tree must be the tree from the Darkdevil Sect, right? Too bad he alone won't be able to change everything."

...

"A mere old tree dares to stand against me?" said the Four Revolutions alien coldly.

Immediately, he stabbed forth with his finger repeatedly, shooting ten beams at the ten black holes like divine arrows.

Boom!

In the blink of an eye, the ten black holes exploded. The celestial darkdevil tree became fearful.

The Four Revolutions alien took a step forward, raised one finger with a look of disdain, and said, "Become my follower, and I can spare you. Otherwise, die."

"You're still not qualified to be my master." The celestial darkdevil tree was no pushover either. At his cultivation realm, he wouldn't easily submit to anyone. Countless branches lashed out at the alien, surrounding the alien with boundless dark energy that threatened to crush the alien.

However, the alien was too strong. With a swing of his finger sword, he easily cut through all the branches before they could harm him.

"Stubborn and foolish," said the alien, becoming impatient. He put more strength into his hand, further enhancing the finger sword. The sword shot through countless branches, aiming straight for the celestial darkdevil tree.

Using his origin energy, the celestial darkdevil tree formed an even bigger black hole before him in his attempt to devour the incoming attack. When the two attacks clashed, the black hole was pierced through. Then, the finger sword struck the celestial darkdevil tree, causing him to wail in pain as a large amount of liquid spilled out of his body.

"Time for humanity to end," declared the Four Revolutions alien.

All the humans sank into despair as they found that space had been sealed, rendering even escape impossible.

"A mere dog dares to keep barking here? You really think nobody can stop you?" Xiang Shaoyun's voice suddenly rang out.
