

## Overlord 1821

### Chapter 1821: Master and Disciple Fighting Together

Mo Busi had arrived. This was a true undefeatable expert in the Reincarnation Realm. After his arrival, he did not waste his time talking. He directly clawed in the direction of Wumo Pass.

A dreadful claw appeared in the sky, crushing countless zombies into powder, including even those in the God Realm. Beneath Wumo Pass, the spear shook off the primal chaos seal around it and flew up into the sky again.

Baili Xiongshi mustered all his strength and threw a Life Death Punch at Mo Busi. Baili Xiongshi's punch was so powerful it was like he was the ruler of hell, the judge of life and death. His primal chaos energy had been cultivated to an extremely high level, but unfortunately, he wasn't able to break the incoming claw.

"How is this possible?" Baili Xiongshi couldn't accept that fact.

He felt that even without entering the Reincarnation Realm, his combat strength wouldn't be too far behind. But even after using all his strength, he couldn't even stop a single claw from his opponent. Only then did he realize how big the gap between them was.

The primal chaos armor on Baili Xiongshi's body was grabbed, and it broke apart piece by piece. A peak Nine Revolutions expert was about to die. Right that moment, a sword appeared and slashed the claw. The sword seemed ordinary and unassuming, yet it cut the claw apart with one slash.

What a stunningly powerful attack.

An ordinary and unassuming old man appeared, with a similarly unassuming sword in his hand. Despite his appearance, he emanated an overwhelmingly powerful aura.

Kong Pingfan, a man who couldn't look more ordinary. Mo Busi had yet to personally enter the dominion, but it was like he was already here as yet another claw was unleashed, this time toward Kong Pingfan. The claw was powerful, and it gave off the feeling that it could lift the entirety of the dominion if it wanted.

With a long sword in his hand, Kong Pingfan met the terrifying claw. "I don't have the ability to experience reincarnation in this life, but at the very least, I get to experience the strength of one who has experienced reincarnation. I have no regrets."

He then sheathed his sword before pulling the blade out yet again.

Sword Drawing Technique!

That was a simple sword drawing technique, but Kong Pingfan was no simple person. He drew his sword at an incredibly fast speed. His sword unsheathed with the speed of a meteor and clashed against the claw. The sword stabbed into the claw, breaking three talons, but unfortunately, two talons managed to get through and reach Kong Pingfan's head.

"No!" Baili Xiongshi yelled in pain when he saw the claws split his master's head.

He had always held deep resentment toward his master. He believed that his master's mild temperament and refusal to dominate the world had caused them to be relatively unknown. That was why he had worked hard to surpass not only his master but also Venerable Yuan Shi. He wanted to dominate the dominion, which was the only reason he had cultivated in seclusion for so many years. But before he could accomplish that, someone else was about to kill his master.

He could not accept that. No matter how much he resented his master, he still held great respect for him. He would not allow anything to happen to him. Baili Xiongshi mustered all his strength and called upon the formation he had spent years preparing under the Wumo Pass in his attempt to absorb the world root essence. So long as he succeeded, he would gain the strength to face this opponent.

His years of preparation weren't for nothing. Strand after strand of world root essence was forcefully pulled into his body, rapidly healing his injured body while his strength started rising. He then attacked Mo Busi in a fury, preventing his master's death.

This time, his punch was much stronger than before, and it smashed the claw apart. His punch was astonishingly powerful. Wumo Pass and its surrounding areas collapsed, and countless zombies were destroyed. Cracks appeared on the ground, and the entire Western Desert felt the impact of the punch.

Baili Xiongshi soared into the sky as a gust of world root essence entered his body. Unfortunately, he was only able to absorb a small portion of the world root essence, but he had gained enough strength to resist Mo Busi for a bit.

Kong Pingfan healed up, but he had obviously been weakened. Even so, no fear could be seen in his eyes. With his trusty sword, he charged toward his enemy. "Disciple, the world root essence is not the only way for one to enter the Reincarnation Realm."

Baili Xiongshi's Life Death Punch and Kong Pingfan's Sword Drawing Technique were unleashed at the same time. One punch and one sword, working together to shake the heavens!

From afar, one could see a primal chaos fist carrying the power of creation and destruction soaring through the horizon. Alongside the punch was a sword that pierced through the blue dome of heaven with enough power to destroy everything in existence.

"Pointless struggle," said Mo Busi. His main body was getting closer and closer to the dominion, and the power he could project was becoming stronger and stronger. A dreadful claw dropped from the sky, shattering the energy fist and the sword. It sent Baili Xiongshi and Kong Pingfan flying and made them cough up blood.

The gap between the two sides was becoming larger and larger. This opponent was truly undefeatable.

"How hateful. If I could obtain all the world root essence, I would not be defeated!" roared Baili Xiongshi indignantly.

He absorbed his surrounding energy, creating a large amount of the primal chaos's creation power to instantly heal himself. However, the frosty devilish energy had invaded his body and soul, greatly weakening his combat strength. He could no longer unleash any powerful attacks.

As the claw was about to reach him, Kong Pingfan alone stood before it. He spoke without turning, "Leave immediately. Master believes that you'll be able to enter the Reincarnation Realm relying on your own power."

Kong Pingfan ignited his cultivation, instantly regaining a youthful look. His soul power was also pushed to his limits, and a storm of energy was kicked up around him. Once again, he drew his sword and pierced through the very heavens.

As the sword was unleashed, the surrounding storm of energy was attracted. Stream after stream of energy swirled around the sword as though myriad dragons and serpents were rising together, creating a spectacular scene. The energy came together, giving birth to enough strength to resist even a Reincarnation Realm expert.

The sword stabbed through the claw before reaching the forehead of Mo Busi, who had arrived from far away. Mo Busi was clad in thick armor, which blocked the energy surrounding the sword strike. However, a hole still opened up on his forehead, and his blood flowed. At that exact moment, Mo Busi's claw struck Kong Pingfan, destroying his sword and person.

## Chapter 1822: Primal Chaos Fusion

Kong Pingfan was dead. Mo Busi did not hold anything back in his attack, and he used all his Reincarnation Realm power, completely destroying Kong Pingfan's body, blood, and soul. His frosty devilish energy froze a large area, not leaving any part of Kong Pingfan's person behind. And thus, the dominion's eldest guardian god perished.

When Baili Xiongshi saw that, he clenched his teeth so hard he nearly bled. He roared in anguish, "Master!"

It had been many years since he last called Kong Pingfan his master, but when his master was killed, he felt as though his heart had been torn apart, torturing him with intense grief.

"You should die as well," said Mo Busi. He appeared rather unhappy due to the blood flowing from his forehead. The same claw attack was unleashed upon Baili Xiongshi.

The dignity of an undefeatable expert could never be challenged.

He was already very unhappy with the destruction of his clone. But even his main body had his forehead struck by a human who was not even in the Reincarnation Realm. That wasn't something he could accept.

Baili Xiongshi had never felt so much fury before. He unleashed the most primal of his emotions and became an injured alpha lion who counterattacked with all his strength. At that moment, he suddenly sensed a slight loosening of his bottleneck. Alas, he was no longer in the mood to truly study the change. The only thing he wanted to do was to blast the devil before him apart.

Life Death Punch, Dividing Life and Death!

The punch was accompanied by a five-colored radiance, shining brilliantly as it surged toward the heavens with the momentum to overcome everything. The punch had reached a level no weaker than Kong Pingfan's final sword strike. In fact, the punch had even slightly surpassed it.

Suddenly, a massive primal chaos figure rushed over. That figure was Venerable Yuan Shi's clone. He coldly said, "Let me give you a hand."

Venerable Yuan Shi made his move.

Single Origin Resurgence!

Gathering much of his energy, Venerable Yuan Shi formed a five-colored light beam. The beam shot toward the sky, fused with Baili Xiongshi's attack, and continued ferociously toward Mo Busi.

The two primal chaos attacks fused perfectly, turning into an ultimate primal chaos attack. That was the seed of the strongest power. Apart from the primal inception power, no other power could restrain it. More importantly, it also contained Venerable Yuan Shi's undefeatable willpower, allowing it to reach the level of the Reincarnation Realm.

Mo Busi could feel a great sense of threat from the attack. He hurriedly formed several hand seals and pushed down with his palm repeatedly. His other hand held the spear and stabbed down madly as well, unleashing a massive frost spear toward the primal chaos fist.

Rumble! Rumble!

Terrifying energy clashed and exploded repeatedly, shaking the entire dominion and creating countless natural disasters. The disasters killed countless mundane people. In fact, even cultivators at the Emperor and Sovereign Realms suffered. All of them were helpless before a power of this level.

"Is the dominion going to fall? Not even the lord venerable can protect us anymore?"

"I don't want to die! What should we do to reverse the situation?"

"Ah! Ah! Father, Mother, don't die! Where did that damnable power come from? Why is the earth suddenly shaking?"

"Natural calamities and man-made disasters are happening all at once. The heavens are trying to destroy us!"

...

Cries of grief and sorrow filled the dominion. Earthquakes, floods, and random energy rains were happening all around the world. The world barrier was being destroyed bit by bit, and countless people helplessly suffered from the calamities.

The dominion was truly in crisis. The techniques of Baili Xiongshi and Venerable Yuan Shi's clone fused together, finally stopping Mo Busi's attack. However, it was almost impossible for them to kill Mo Busi. At most, they could only barely injure the devil.

"Undying Devil Clan, for bullying our dominion like this, I will personally pay your Undying Devil Planet a visit in the future!" threatened Venerable Yuan Shi. His energy level had obviously dropped massively, and his clone was turning more and more translucent.

As for Baili Xiongshi, he had also exhausted a lot of his strength. He madly absorbed the energy around him while glaring furiously at Mo Busi. Once again, he threw out a punch. His master had been killed. Apart from revenge, he had forgotten everything else.

"Hmph. I'll be waiting for that day to come," said Mo Busi with a cold snort. He attacked again, unleashing an even more ruthless attack this time, aiming to eliminate both Baili Xiongshi and Venerable Yuan Shi.

Venerable Yuan Shi attacked alongside Baili Xiongshi. He was only here as a clone. Although his undefeatable willpower sustained his clone, he wasn't Mo Busi's match. And if even he and Baili Xiongshi failed, everything would be over for the dominion. Venerable Yuan Shi's main body couldn't return in time. The clone wouldn't have fought so bitterly otherwise.

One explosion after another erupted, creating numerous spatial cracks outside the dominion. Energy waves spread everywhere, destroying many distant lifeless planets. As for the dominion, it was

protected but was still damaged greatly. If the explosions had happened even a tiny bit closer to the dominion, the dominion would have already been destroyed.

After several collisions, Baili Xiongshi's body started falling apart. Just as Mo Busi was about to finish the kill, Venerable Yuan Shi took in a deep inhalation of the power of faith to regain a large portion of his strength. He then faced Mo Busi alone. Once again, Venerable Yuan Shi used the Single Origin Resurgence, knocking Mo Busi's spear with a dense torrent of energy, barely resisting it.

"Yuan Shi, you won't be able to protect this place. Today, I will fully destroy it," said Mo Busi. He was determined to destroy the dominion. He mustered more and more of his strength, forming a unique domain around him. A frosty power wreaked havoc in the domain, destroying Venerable Yuan Shi's energy, turning it harmless.

At the same time, Mo Busi split off a tiny portion of his energy and sent it blasting toward the dominion, aiming to destroy the dominion completely. Instantly, a body as large as a planet appeared and blocked the entirety of the attack. The newcomer was none other than the black tortoise. He was utilizing his strongest talent, his defensive ability, to shield the dominion from destruction.

When Yuan Shi saw that even the black tortoise was making a move, he warned, "Mo Busi, it still won't be too late for you to retreat now. Otherwise, I swear I will personally go to the Undying Devil Planet one day."

"Hmph. Save those words for the future. Today, I'll destroy this place. What can a black tortoise do against me?" said Mo Busi with a cold snort as he sent a palm toward the tortoise.

Right this moment, a figure who had been missing for a long time appeared above the black tortoise. "You have to get through me if you want to destroy the dominion."

## Chapter 1823: Ge Yi Who Shoulders The Dominion

The newcomer had a pair of empty eye sockets in place of his eyes, yet the empty eye sockets seemed to contain boundless strength, as though they carried the universe in them. One would not dare to stare into the abyss that was his eyes.

Ge Yi, the man who had once stood alone against the alien invaders and gone missing. Now, he had reappeared when the dominion was on the brink of destruction. He unleashed all his strength, showcasing a strength at Baili Xiongshi's level.

Over a hundred years ago, he was only a Six Revolutions cultivator. In truth, that low cultivation was merely a result of his suppression. The alien invasion had forced him to step through the latter three stages.

He had only been suppressing his cultivation because he did not want to get involved in a power struggle with Qin Hongyan and Gongsun Yingxiong. Wealth and status were nothing to him.

But during chaotic times, only ultimate strength would allow one to dominate the universe. However, if not even Venerable Yuan Shi's clone, Kong Pingfan, and Baili Xiongshi could defeat Mo Busi, what could Ge Yi do?

Venerable Yuan Shi's clone, who was on the verge of dissipating, saw his disciple, and a gratified look covered his face. He wasn't feeling gratified by Ge Yi's strength but by his righteousness and valor in facing a powerful enemy alone.

"Another little rat that doesn't fear death. Who do you think you are?" said Mo Busi with derision as he attacked mercilessly.

Facing that attack, a totem of the dominion appeared behind Ge Yi. It was as though he was carrying the entire dominion on his back. An extraordinary power erupted from him, and at the same time, a stream of pure power flowed into his body, rapidly pushing his combat strength to a whole new level.

"World root essence!" cried Baili Xiongshi, who had just recovered somewhat from his injuries.

That was the power he had dreamed about obtaining. So long as he could absorb and refine it, he would be able to enter the Reincarnation Realm. He held onto that belief dearly.

Baili Xiongshi released his primal chaos profundity, trying to absorb the world root essence for himself. However, the world root essence remained unaffected. Rather, it continued to gather on Ge Yi's body, completing the totem of the dominion behind him.

"How is this possible? Why can't I absorb it?" roared Baili Xiongshi.

"I did not expect this disciple of mine to reach this level. He is the true guardian god," said Venerable Yuan Shi with a gratified look.

Ge Yi's strength continued soaring, but he still didn't manage to enter the Reincarnation Realm. Even so, his strength had reached a terrifying level.

From a different direction, Wu Xie looked at Ge Yi with respect. "Truly worthy of being my senior brother. As long as he wishes, he can easily surpass all of us."

The old immortal of the Immortal Road Chamber sighed and said, "This kid has actually reached this level. He is the dominion's true number one individual right now."

"Who could have guessed that this silent fellow had actually grown so strong," muttered the Guangling Palace's master.

"Damn that hateful Ge Yi," cursed the Celestial Alliance's master under his breath.

All the Gods of the dominion looked at Ge Yi from far away. They all sensed his extraordinary power, and they exclaimed in surprise.

"Lord Ge Yi is truly powerful. Is that a totem of the dominion behind him? How did he do it?"

"That is the undefeatable willpower of an honorable guardian. Lord Ge Yi has truly inherited Lord Yuan Shi's position."

"I knew the dominion wouldn't be destroyed. Lord Ge Yi will be able to protect us. Lord Ge Yi, you need to hang on!"

"Lord Ge Yi should have been the one to become the guild master. The two useless deputies and the new guild master must have grown up eating shit."

...

All the Gods cheered Ge Yi on. It wasn't like they had a choice. Ge Yi was their only hope. From a hidden location, Xiang Shaoyun was observing the battle. His blood burned as he wished for nothing more than to fight alongside his master. However, he stayed calm as he knew that his appearance would probably split his master's focus.

"Master, you're the strongest," said Xiang Shaoyun as he gripped his fists.

Even now, Xiang Shaoyun was still increasing his strength. He could feel the possibility of a connection between him and the world root essence as well, but he hadn't acted on it. He was sure that his master was utilizing the world root essence to grow. If he touched the essence, it might affect his master.

The only thing Xiang Shaoyun did was silently absorb the remnant energy left behind by Mo Busi, Venerable Yuan Shi, Kong Pingfan, and Baili Xiongshi during their battle earlier. After all, his astral cosmos sea could digest everything he absorbed.

Through observing the battle, he gained a new understanding of the concept of reincarnation. Undefeatable willpower was slowly forming in his heart. Although all those in the battle were super experts, Xiang Shaoyun didn't show any fear. He had confidence that one day he would reach their height or even surpass them.

Of course, having the willpower alone would be pointless. He needed sufficient strength to back it up. He was currently preparing himself for battle. If his master was defeated, he would have no choice but to fight as well.

However, he had only reached Eight Revolutions. Sure, he was already one of the strongest humans in existence, but he still needed more energy to grow. That was why he had refined and absorbed the divine primal chaos lotus seed.

Additionally, he had also absorbed the piece of divine essence he had obtained from the mysterious chest he had found in the Barbaric Dynasty. The divine essence was sealed by a super expert from the Barbaric Dynasty. Back when Xiang Shaoyun first obtained it, he did not even have the ability to undo the seal. But with his growth, he could now undo it.

Xiang Shaoyun had been saving the divine essence, but he had no choice but to use it now. He absorbed the two treasures, madly improving his cultivation base. Nobody would have expected that someone would still be growing stronger in preparation to battle against such a massive crisis. It was very rare to see someone with as much courage as Xiang Shaoyun.

Meanwhile, Mo Busi's attack finally arrived. Ge Yi pushed his palms out, forming layer upon layer of barriers to stop the attack outside the dominion.

Rumble! Rumble!

Terrifying explosions erupted while destruction at a level no words could describe rippled everywhere.

#### Chapter 1824: Devil Blood Congregation, Divine Spatial Bridge

A disaster and a phenomenon appeared at the same time. Devils roared, and the dominion shone blindingly. One terrifying energy wave after another rippled out. Those who could escape all fled as far as they could.

They all knew that if Ge Yi failed to stop this opponent, then there would be no hope for the dominion. Ge Yi borrowed the momentum of the dominion and completely blocked Mo Busi's attack, protecting the dominion from the majority of the destruction.

"How is this possible? Without entering Reincarnation, how can you stop the power of Reincarnation?" exclaimed Mo Busi.

He attacked again, unleashing an attack sharp enough to pierce through several rivers of stars with his spear. This time, Ge Yi did not block the attempt. Rather, he formed a fist and punched, unleashing a fist that resembled a miniature dominion. It carried the hope of the dominion, attempting to eliminate everything posing a threat to the dominion.

People at their level would mostly compete in terms of energy. The one with the stronger energy level would be the one to emerge victorious. At their level, trickery no longer worked. Ge Yi's Cosmos Dao Destroying Fist was already carrying a trace of an undefeatable aura. Combined with the power of the world root essence granted by the dominion, it allowed Ge Yi to display a resolute and firm strength, pushing his strength to an unbelievable level.

Mo Busi felt humiliated at the fact that he was stopped yet again. Finally, he decided to use all his strength. He clutched the spear with both hands and gathered all his strength into the spear. His devil rune flickered repeatedly as his prowess soared. When an energy tip appeared on the spear, it became so blinding that the stars seemed to dim.

Wherever the stab reached, everything ceased to exist. That was the prowess of someone in the Reincarnation Realm—an epoch-ending strength. Before the two powerful attacks, all obstacles seemed pointless.

Mo Busi pierced through Ge Yi's energy, creating numerous holes in Ge Yi's body. At the same time, Ge Yi's punch blasted through the devilish energy, beating Mo Busi's body to a pulp. That was a desperate battle where no mercy was allowed. An absolutely bitter battle!

"Without entering the Reincarnation Realm, you will never be able to defeat me. The dominion you protect will be destroyed," said Mo Busi. He ignored his injuries and grabbed a random distant planet and slammed it into the dominion.

Ge Yi used his very life to block the attack. However, the totem behind him started cracking. The sky turned red from his blood.

"Even if I have to die, the dominion will not be destroyed. Like my master, if I survive this, I will personally visit the Undying Devil Planet one day!" replied Ge Yi unyieldingly as two terrifying black holes appeared in his empty eyes. The two black holes crashed forth like they were two black suns with the power to destroy everything.

Even Mo Busi felt threatened by the two black holes. Just as he was about to blast the black holes apart, they exploded, creating an explosion that shook the entire galaxy. Ge Yi did not stop at that. His dominion totem was unleashed yet again, carrying the hope and survival instinct of humanity and everything related to the dominion. The totem was akin to the dominion's heart, and it crashed heavily into Mo Busi.

Finally, Mo Busi's body fell apart. For a Reincarnation Realm expert, that was the greatest humiliation one could suffer.

"Borrowing the power of the dominion to contend against the power of Reincarnation. What a stunning disciple," said Venerable Yuan Shi with a pleased expression.

As for Baili Xiongshi, he seemed to have understood something from that exchange. The world root essence had not rejected him because he was too weak. Rather, it was because he had not won the approval of the dominion due to his lack of contribution to it. As a high-tier planet, the dominion had its unique will. It had selected Ge Yi as its protector.

That was why the world root essence was helping Ge Yi unceasingly.

Ge Yi wanted to take this chance to kill Mo Busi. That seemed almost impossible, but he still wanted to try. Alas, Mo Busi did not grant him that chance. The devil retreated rapidly. He realized

that Ge Yi would not be able to borrow the power of the dominion after going further away from the dominion. At that point, Ge Yi would no longer be a threat.

"A lowly being is actually contending against me with the power of a planet. It is pointless to continue clashing against him since it'll only exhaust some of his strength. Looks like I really need to gather those fellows who were thinking of coming," muttered Mo Busi. He no longer wanted to continue this fight. After forming several hand seals, he released a clump of devil blood. Space started twisting, seemingly disturbed by what he was doing.

In the dominion, Venerable Yuan Shi exclaimed, "Mo Busi, are you really not going to stop without destroying humanity?"

Mo Busi laughed nastily. "Hehe, the human race is truly impressive for being able to make me suffer so much. If I don't destroy this place, how can I swallow this humiliation?"

Devil Blood Congregation, Divine Spatial Bridge!

Mo Busi injected his own blood into space, forming a bridge between this place and the distant Myriad Planet Field, calling more powerful aliens over.

"I will not allow you to succeed!" said Venerable Yuan Shi resolutely. He looked at Ge Yi and said, "Yi, you have not failed me."

He then gave Wu Xie a gentle gaze, gazed at the peerless beauty in the boundless ocean, and glanced at a hidden youth. He waved his hand, causing something on the youth to fly out uncontrollably.

It was actually an ancient token, the token of the Guardians Guild's master. Venerable Yuan Shi was the one who had personally forged it, an item capable of gathering the power of his blood essence.

"Little fellow, since you're not using this token, return it to me," said Venerable Yuan Shi.

Xiang Shaoyun hurriedly formed a salute, "Xiang Shaoyun greets the martial grandfather."

Venerable Yuan Shi appeared astonished to hear that. Ge Yi hurriedly explained, "That kid is my disciple. He has completed the forging of his Primal Inception Physique. If he's given more time, he will be able to catch up to you and maybe even surpass you."

"Haha, you sure have a lot of confidence in him. Fine, let me buy that little bit of time he needs. Treasure this little time you have left." Howling with laughter, Venerable Yuan Shi fused his final willpower into the token and charged Mo Busi.

## Chapter 1825: Shameless Grandpa Grandson Pair

The Guardians Guild token turned into a massive shield and propped itself in the middle of Mo Busi's bridge, severing it. When Mo Busi sensed the terrifying willpower, he realized that Venerable Yuan Shi was about to use all his strength. Mo Busi was forced to use all his strength as well.

He stabbed with his spear, trying to pierce through Venerable Yuan Shi's token. The overbearing spear struck the token, creating deafening explosions before the spear bounced off the shield. A stream of energy from the Single Origin Resurgence technique struck Mo Busi, sending him flying far away.

It was as though Venerable Yuan Shi had personally appeared. He unleashed numerous powerful primal chaos punches. Each punch was as powerful as an entire primal chaos world and forced Mo Busi on the defensive. Venerable Yuan Shi possessed the Primal Chaos Physique. Among those with the same cultivation level, he was unequaled, even if his opponent was a devil.

"This is not your main body. Using this much strength will only cause you to stop existing. Stop struggling," said Mo Busi as he defended, attempting to fully exhaust Venerable Yuan Shi's energy.

However, Venerable Yuan Shi clearly did not intend to continue this battle of attrition. He had only done so much to buy some time for the dominion. The shield fused with his clone, and after sending Mo Busi flying one more time, he roared to the others, "Return to the dominion! I'll seal the dominion!"

When Ge Yi heard his master's words, he unhesitatingly utilized the dominion's power and sent everyone back into the dominion. As for Venerable Yuan Shi, he also borrowed the dominion's power, causing nine streams of primal chaos energy to gather all over the dominion. The nine streams crossed over the dominion, and with the dominion at their core, they formed a primal chaos wall layer by layer and completely sealed the dominion.

"Primal Chaos Star Locking Formation. This is a defensive method I had left behind a long time ago. However, it can only buy you a little bit of time. If none of you can break through into the Reincarnation Realm during that time, there is nothing else I can do," said Venerable Yuan Shi helplessly. After giving those important to him one last look, he merged with the token and transformed into the formation eye guarding the dominion.

Mo Busi hurriedly charged forth, blasting the formation with all his strength. However, all his attacks were stopped by the powerful defenses.

"Damn that bastard! He actually has such a trump card? Whatever, he has merely delayed the inevitable," said Mo Busi with a cold snort. He gave up and started forming a spatial bridge again, continuing his effort to bring over the other undefeatable experts.

Meanwhile, everyone in the dominion was panicking despite the end of the invasion. They knew that the peace was only temporary. The aliens would not give up, and a savior must appear from humanity and fully defeat the aliens before real peace could return.

Hovering high in the sky, Ge Yi had a complicated expression. He called over Wu Xie and Xiang Shaoyun and said, "I won't be able to break through anytime soon. Also, if I do so, the dominion will probably be destroyed even without the aliens."

Apart from Wu Xie and Xiang Shaoyun, the other super experts, such as Baili Xiongshi, Qin Hongyan, and his grandson Gongsun Yingxiong, had arrived in the area. They all heard his words.

Baili Xiongshi had a look of greed as he said, "If you can't do it, I'll do it!"

Qin Hongyan and Qin Jiu had the same look of greed. Everyone knew that obtaining the world root essence was the same as winning the dominion's acknowledgment. One could utilize the power of the dominion itself and enter an even higher realm.

"Haven't you tried already?" asked Ge Yi.

Baili Xiongshi complained, "I failed because you took it before me!"

"It's easy to win the dominion's acknowledgment. Sacrifice everything for the dominion and it will acknowledge you," said Ge Yi.

In short, one needed to be absolutely resolute in protecting the dominion to obtain the world root essence. Baili Xiongshi himself had seen the dominion totem carried on Ge Yi's back. Bleakness overcame him when he realized why Ge Yi had managed to do what he couldn't.

"Hmph. Even without the power of the dominion, I can enter Reincarnation as well!" said Baili Xiongshi with a snort before leaving.

At this time, Qin Hongyan stepped forth and said to Ge Yi, "Martial nephew, this is our new guild master, Qin Jiu. He is still very young. At an age younger than a thousand years old, he had mastered the Solitary Empty Heart. The guild master naturally has the determination to protect the dominion. Why don't you let the new guild master try absorbing the world root essence? Perhaps he can enter the Reincarnation Realm faster!"

He had barely finished his words when Gongsun Yingxiong cursed, "Qin Hongyan, how shameless can you be?"

Qin Hongyan had been repeating the fact that Qin Jiu was the new guild master in the hope that Ge Yi would hand over the world root essence and help Qin Jiu reach a new height.

Qin Jiu shouted arrogantly, "Elder Gongsun, what do you mean? Do you think I'm unqualified? I'm the new guild master! I believe even Elder Ge Yi needs to obey me! Give me the world root essence. I'll enter the Reincarnation Realm as soon as possible and slaughter those aliens!"

Yes, the Guardians Guild's master was the most prestigious position in the dominion. But had Ge Yi acknowledged that fact?

"Senior brother, why don't I teach them both a lesson!" said Wu Xie.

He looked at Qin Hongyan and Qin Jiu with a ruthless glint in his eyes. He was not only at the Seven Revolutions now. Rather, Wu Xie had reached Eight Revolutions and had gained enough strength to challenge Qin Hongyan.

"There's no need for you to move personally, martial uncle. Let me do it," said Xiang Shaoyun before Ge Yi could say anything. He then attacked.

Xiang Shaoyun was at late Eight Revolutions, on the brink of Nine Revolutions. Even a peak Eight Revolutions expert like Qin Hongyan was nothing for him. His palm shot forth like a phantom and aimed a slap at the grandpa and grandson pair. Both of them were super experts, especially Qin Hongyan, who immediately appeared before Qin Jiu. But before he could muster up any defenses, he was slapped across his face and sent flying like a swatted fly.

#### Chapter 1826: Resounding Face Slaps

Qin Hongyan was slapped across his ancient face.

He roared in fury, "Xiang Shaoyun, you're courting death, devil spawn!"

Qin Hongyan released a powerful aura and charged, grabbing at Xiang Shaoyun with both hands in an attempt to tear Xiang Shaoyun apart. Any super expert had powerful foundations. Qin Hongyan was no exception. He was a veteran of many battles. Although he had not fought for many years, he was able to move ferociously the moment he attacked.

Ge Yi did not say anything and watched coldly. He was aware that Xiang Shaoyun was probably no weaker than him now. He believed that Qin Hongyan would be the one to suffer. Xiang Shaoyun met the attack head on and threw a punch out. In the most brutish manner, he punched through the incoming palms, showcasing the might of his Primal Inception Physique.

Xiang Shaoyun did not intend to waste more time on Qin Hongyan. He unleashed a storm of attacks on Qin Hongyan and delivered his opponent a heavy beating. Xiang Shaoyun had not even fully absorbed the lotus seed and the divine essence in his body. Qin Hongyan was the best punching bag for him. Through this battle, he could slowly disperse the energy in his astral cosmos sea and spread it all over his body.

Qin Hongyan felt incredibly humiliated. He had not expected Xiang Shaoyun to be so terrifyingly strong. His offenses were completely useless. Instead, he was the one receiving a beating. A punch struck his face, a kick landed on his stomach...every single move was simple yet powerful, beating him into a pulp. The sight terrified Qin Jiu so much he trembled in fear.

"Old fart, I've had enough of you. You must be the culprit who stripped me of my qualification as a young guild master candidate, right? Don't think that I know nothing. But do you really think I care about that stupid position? Bah!" Xiang Shaoyun felt much more comfortable after beating Qin Hongyan up and venting his repressed anger.

Gongsun Yingxiong felt a chill creep up his spine when he saw Qin Hongyan receive such a terrible beating. It truly is as Sanyang said. This kid is the real deal. What a pity, sighed Gongsun Yingxiong inwardly.

If Xiang Shaoyun had been given more time, he might have been able to become the next Venerable Yuan Shi. Unfortunately, they did not have much time remaining. After beating up Qin Hongyan, Xiang Shaoyun shifted his attention to Qin Jiu, who was trying to slip away.

Pa! Pa!

Grabbing Qin Jiu's jacket with one hand, he slapped Qin Jiu tens of times while scolding, "Damnable bastard filled with tricks. How many times did you try to assassinate me? You really think I don't know it was you?"

Qin Jiu fearfully explained, "No, it has nothing to do with me! Release me! I'm the guild master!"

He was afraid that Xiang Shaoyun would really kill him in a fit of anger. Everything would be over for him if that was the case.

"Guild master? Wow, that's so amazing!" said Xiang Shaoyun with derision as he continued slapping. Then, he channeled a stream of overbearing power into Qin Jiu's body, completely destroying Qin Jiu's cultivation. At the same time, thick death energy spread all over Qin Jiu's body and started to slowly execute him.

Of course, this slow execution would not kill Qin Jiu immediately. He would still stay alive for a while. His strength would slowly drop as he eventually became crippled before ultimately dying. Xiang Shaoyun had no mercy to spare for someone who wanted him dead. He then tossed Qin Jiu aside as if throwing away trash.

Far away, the old immortal from the Immortal Road Chamber and the Guangling Palace's master looked on with astonishment. They had truly not expected a super genius to emerge from the younger generation. Not even they could compare with this youth.

"The young are truly slowly replacing the old," said the old immortal with a heavy sigh.

The Guangling Palace's master had a look of praise as she said, "This child is a perfect fit for Ziruo. If the two can get together, they will be a couple the heavens will envy."

Only the Celestial Alliance's master wore an unsightly expression. He did not dare to stay and hurriedly returned to the Celestial Alliance. He was planning to find a place and hide. If not, what was he supposed to do when Xiang Shaoyun came knocking for revenge?

"Ge Yi, are you going to allow your disciple to treat this old man and the new guild master like this?" questioned Qin Hongyan unhappily after reforming his body.

He was clear that, like Venerable Yuan Shi, Ge Yi was a just person. He believed that Ge Yi would uphold justice. But what he received was a heavy slap. Once again, his face was slapped into a pulp.

"You..." Qin Hongyan did not expect Ge Yi to attack as well.

"Stop throwing the weight of your seniority everywhere. If it wasn't for the little contribution you and Gongsun had made to the dominion, I would have destroyed the two of you long ago. A perfectly fine guild was turned into a mess by the two of you. After completely forgetting the basic tenets of the guild, you have the galls to lecture my disciple? You even stripped my disciple of his qualification as a young guild master candidate! You really think I have no temper?" said Ge Yi with a look of disgust.

Ge Yi's anger was reasonable. He might not want to fight for the guild master position, but that did not mean that he didn't want Xiang Shaoyun to take the position. However, Qin Hongyan and Gongsun Yingxiong were too selfish. Xiang Shaoyun was obviously an outstanding candidate, a perfect leader for the younger generation. However, they had insisted on driving him away. How could Ge Yi still hold his temper? Qin Hongyan did not dare to say anything else. With a bitter look, he left gloomily with Qin Jiu.

At this time, Gongsun Yingxiong stepped forth guiltily and said, "Ge Yi, your martial uncle is in the wrong."

"It's pointless to say that now. The dominion will be lost soon anyway," said Ge Yi bleakly.

"Senior brother, do you not even have a way out of this?" asked Wu Xie.

"I might be able to enter the Reincarnation Realm after absorbing the world root essence, but that would destroy the dominion. The countless life forms here will lose their home and die. How would that be different from being destroyed by the aliens?" said Ge Yi.

Everyone sank into silence. If that really happened, those at the Saint Realm and above might have a slight chance of surviving in outer space, but those below that realm would stand no chance.

"Therefore, the dominion is already lost," said Ge Yi.

"Senior brother, just break through. At the very least, you can deal the aliens a heavy blow and preserve some hope for humanity," said Wu Xie through clenched teeth.

Ge Yi shook his head and sighed, not saying anything else. Clearly, he didn't want to do that.

"Master, if you can ensure that everyone listens to me, I might be able to provide an alternative living space for everyone," said Xiang Shaoyun after some hesitation.

#### Chapter 1827: Before the Dominion's Destruction

Xiang Shaoyun had never told anyone that his astral cosmos sea had transformed into an actual world. Nobody knew that, including those currently staying inside it. They had all thought that they were in a mysterious domain, unaware that they were literally inside Xiang Shaoyun.

Only Money knew a bit about it, and he was also the one who had benefited massively by staying with Xiang Shaoyun. Xiang Shaoyun had never considered storing all living beings inside his astral cosmos sea. After all, not everyone would listen to him, making it an impossible task. But now that his master was placed in a difficult position, he had no choice but to step up.

Only by moving the majority of those living in the dominion would his master be able to focus on absorbing the world root essence and enter the Reincarnation Realm. Ge Yi and Wu Xie looked at Xiang Shaoyun in astonishment, not understanding why he would make such an offer.

Xiang Shaoyun transmitted to them, "Seal this place. You will understand after I show you my secret."

Xiang Shaoyun knew that if he didn't let them know his secret, it would be hard for them to believe he was telling the truth. Ge Yi did not hesitate and sealed their surroundings, leaving him, Wu Xie, and Xiang Shaoyun in the sealed area.

Xiang Shaoyun then used a technique to slowly release his astral cosmos sea from his body. Both Ge Yi and Wu Xie were stunned speechless. They actually saw an entire world in Xiang Shaoyun's body! That was unheard of!

"After mastering the Desolation mantra and fusing my nine stars, I have formed a real world in my body. It is a world that can truly support life," said Xiang Shaoyun calmly.

That was crazy, and for the longest time, he found it unbelievable as well. However, he also knew that having a world inside him wouldn't harm him. Rather, it granted him a unique ability nobody could replicate. Although he still didn't understand how it had happened, he had stopped thinking about it. In any case, it was beneficial for him. Knowing that was enough.

"This must be your secret in forging the Primal Inception Physique," said Ge Yi. "Put it back in. I understand now. You don't need to show us something like this. We trust you."

"Thank you, Master," said Xiang Shaoyun as he slowly pushed the astral cosmos sea back into his body.

"Since Shaoyun can really do it, let's follow his plan," said Wu Xie after recovering from his shock.

"Looks like that's our only choice," agreed Ge Yi. He was a straightforward person. He knew that if they did not do this, all lives in the dominion would probably perish.

Ge Yi started using the power of the dominion, calling out for all lives in the dominion to follow Xiang Shaoyun's guidance so as to shift them into Xiang Shaoyun's astral cosmos sea. Many Gods were aware of Ge Yi's feat of standing against an undefeatable expert alone. Furthermore, he was also a guardian god. Thus, many answered his call. However, there were also a lot who refused to listen.

Xiang Shaoyun called over Little White and Little Azure. He told them to communicate with the demonic beasts. Additionally, he also had Purple Lightning Marquis persuade the non-human races.

As for Gongsun Yingxiong, he took on the mantle of a deputy guild master once again. With the authority of a deputy guild master, he announced that the dominion was about to be destroyed and that to survive, everyone needed to listen to Ge Yi.

The entire dominion was in an uproar.

"Is the dominion really going to be destroyed? I refuse to believe this! What are we to do with the dominion destroyed?"

"Lord Ge Yi's disciple, Xiang Shaoyun, is able to take us away from the dominion. Is that true? But this is our home! Why should we leave?"

"The dominion has been ravaged by repeated disasters. The realm barrier has also suffered much destruction. If we don't leave, we will really die."

"I thought Xiang Shaoyun was a devil spawn? Can he really help us?"

"This isn't a trap, right?"

"If we're going to die either way, what's the point of hesitating? Let's go."

...

Different voices rang out, but nobody was forced. This relocation was completely voluntary. The stubborn ones would die alongside the dominion anyway. Those willing to listen would still have a chance at surviving.

First, Wu Xie and Gongsun Yingxiong persuaded the major organizations. They then had the major organizations persuade the smaller organizations. Those from the Ziling Sect and Ziling City naturally answered the call immediately. In the span of one night, they had all vanished from their original locations. Even the mountain range they resided in had vanished, as though a chunk of the world had been hollowed out.

Next, the Holy Hall under the Desert of Despair also vanished. The Xiang Clan, the Dragon Phoenix Academy, and those related to Xiang Shaoyun also vanished one after another. Numerous new living spaces were opened in Xiang Shaoyun's body. Regular mountains and lakes were created everywhere. With the nourishment of the divine primal chaos lotus and divine discerning tree, the astral cosmos sea had transformed into a primal world of life.

Xiang Shaoyun used all his strength to focus on those answering his call, shifting them to his astral cosmos sea one after another. He couldn't help but say, "I might have saved some people, but my feats amount to nothing compared to what my master has done."

He was right. As someone acknowledged by the dominion itself, Ge Yi had sacrificed too much for the dominion. Meanwhile, Mo Busi had finally completed his spatial bridge, bringing over five undefeatable experts.

Ming Dao of the imperial nether devils, Tian Yan of the celestial soul race, Huan Xingyi of the phantasma race, Tun Shanhe of the heaven devourer race, and Long Wusheng of the dragonkins. All five were at the undefeatable realm, each an individual dominating large swathes of space. All of them had been gathered here by Mo Busi.

"Mo Busi, is a remote ancient planet without Yuan Shi even worth the effort of having all of us come?" asked Ming Dao as he walked deftly forward.

He was a fiendish-looking middle-aged man. He had a tall and sturdy build. His devilish aura was withdrawn while his eyes were as profound as the distant stars.

"This tiny place is where our allied army is stuck?" said Tian Yan mockingly. He was built similarly to the dwarfs, with a big head and ugly face.

As for the phantasma race, their representative was a handsome young man with waist-length silver hair and feminine features. His invisible form smiled and said, "This is the human race's ancestral planet. It is naturally filled with talents. It will be a good place to enslave. Unfortunately, so many pointless struggles are required. No wonder Busi was angered."

"Let me swallow it whole," said a fat baldy. He was Tun Shanhe.

As for Long Wusheng, he did not say anything. Rather, he talked with his action, throwing an overbearing punch at the dominion.

Boom!

Chapter 1828: Fighting Alone

Long Wusheng's punch was powerful. It was as though an entire star had crashed into the Primal Chaos Star Locking Formation. Waves of primal chaos energy rippled across the formation, but it stood strong.

Mo Busi said, "You really think Yuan Shi's trump card is so simple? We need to all work together to destroy this formation. Any one of us will probably need to waste a lot of time exhausting this formation of its energy."

"I refuse to believe this. My fist can crush rivers of stars. A mere formation won't be able to stop me," said Long Wusheng stubbornly as he punched again.

Regretful Heaven Draconic Punch!

Nine punches were thrown out, and they rumbled forth like roaring dragons before knocking against the formation. Yet again, they failed to destroy it. However, those attacks were enough to terrify everyone in the dominion.

The dreadful impact and intense shaking seemed to be proof of the dominion's imminent destruction. All the beings in the dominion panicked.

"Heavens, help me! I don't want to die!"

"Lord Ge Yi, we will do everything you say. Please don't give up on us!"

...

The entire dominion was filled with cries of grief. The little pride they had clung to had evaporated completely.

Xiang Shaoyun took this chance and said, "Everyone, don't panic. Loosen your willpower and let me shift you away."

And thus, those from the Western Desert, Eastern Pass, and other regions allowed Xiang Shaoyun to sweep his senses through them and bring them into his astral cosmos sea. If it wasn't for Xiang Shaoyun's high cultivation, his senses wouldn't have been able to spread so far.

Ge Yi entered deep into the dominion, forming a connection with the dominion. He madly absorbed the world root essence. As the energy entered his body unceasingly, he grew much stronger than before. However, he still seemed to lack something before he could break through.

His level of comprehension needed to be at a high enough level, and he also needed some time to adapt to his new level of strength. A breakthrough would not occur naturally just because he had gathered enough energy. He did not have much time. The six undefeatable experts were attacking together.

Rumble! Rumble!

After numerous attacks, cracks finally appeared on the Primal Chaos Star Locking Formation. However, the formation could still stand for quite a while. The moment the formation was destroyed, the dominion would be destroyed as well.

Ge Yi immediately transmitted to Xiang Shaoyun, "Shaoyun, the formation is breaking. I need to face the enemies. When the formation breaks, I'll slow them down while you escape as far as you can. Before reaching the Reincarnation Realm, don't even dream of avenging me!"

"Master, if you find yourself not a match, you should leave with me. The dominion can no longer be saved. Better save yourself to fight another day!" said Xiang Shaoyun.

"That's easier said than done," said Ge Yi with a deep sigh. He then soared into the sky. From nine different directions, streams of world root essence flowed into his body. Once again, his strength rose, reaching a level comparable to a Reincarnation Realm expert.

"Saber!" said Ge Yi as he made a grabbing motion toward the Dragon Phoenix Academy's old location.

An exceptional saber shot out of the ground. A domineering aura soared into the sky, spreading a frosty killing intent that caused everyone to feel fear.

Hatchet Dragon Windsaber!

This was the weapon Ge Yi had used when battling the aliens during ancient times. He had long sealed it in the Dragon Phoenix Academy and nourished it with countless corpses. Now that it had made a reappearance, it was an exceptional divine weapon even if it still wasn't at the reincarnation grade.

It was a weird weapon; one end was shaped like a dragon hatchet, and the other end was shaped like a wind blade. Wielding the weapon, Ge Yi became one with the dominion and flew out of the formation. One hatchet and one saber streaked toward the six super experts at the same time.

"Finally, a little rat appeared. I'll take him down," said Long Wusheng. He was the most warlike of the six. He charged over, sending numerous punches toward Ge Yi.

His draconic punches were akin to the sun and the moon, domineering enough to punch through dozens of lifeless planets at the same time. Ge Yi's hatchet and saber rays were directly shattered. However, Ge Yi's attack was merely a feint. He appeared behind Long Wusheng and swung down his weapon. Surprisingly, Long Wusheng allowed the attack to land without dodging or blocking.

Clank!

A crisp sound rang out, and a series of sparks appeared.

With a nasty laugh, Long Wusheng said, "You're too naive if you think you can harm me with this much strength."

Before he finished his words, he punched Ge Yi. Unable to avoid it in time, Ge Yi was sent flying away while coughing blood.

Fortunately, Ge Yi was able to recover immediately. He stopped before the dominion and roared, "This is not a place you can touch. Scram, or I'll bring one or two of you down with me even if I have to die!"

After fusing with the dominion, Ge Yi had grown into his strongest form.

"You really think you can challenge us with the power of a planet? Naive!" said Long Wusheng with a sneer. With a roar, he charged Ge Yi.

Ge Yi was an unyielding fighter. Two brilliant beams shot out of his eyes, blasting Long Wusheng backward. The two fought intensely, and it seemed like they were actually evenly matched. Long Wusheng felt humiliated due to his failure to take down his opponent. At this time, Tun Shanhe joined the fight.

Tun Shanhe's Heaven Swallowing Art was extremely powerful, allowing him to swallow everything in existence. He aimed to swallow both Ge Yi and the dominion at the same time. However, Ge Yi was no pushover. Borrowing the power from the nine spots of the dominion, he unleashed nine consecutive attacks. The attacks streamed into Tun Shanhe's stomach, nearly blasting him apart from the inside.

The battle was desperate. Ge Yi's body was destroyed numerous times, and his blood, bones, and meridians were nearly fully destroyed. Fortunately, the dominion constantly supplied him with power, allowing him to recover again and again.

Ultimately, Tun Shanhe was forced to retreat. It was Huan Xingyi's turn to make a move. When everything seemed to be going well for Ge Yi, something evil suddenly moved in the dominion.

"Hehe, so the world root essence is actually located at the realm's core? Although I can't absorb it, I can probably sever its connection to that old fart," sneered a sneering figure made of blood.

## Chapter 1829: Blood Spirit Destroyed

Blood Spirit, the alien that had been missing for a very long time. Unknowingly, he had entered deep into the dominion. He had absorbed countless living beings, reaching Seven Revolutions. His cultivation level was still lower than Xiang Shaoyun's, but that was because of his physique.

Despite his ability to devour others to improve himself, the energy he obtained was impure. To become the strongest living being, he needed to completely fuse the many bloodlines to create a brand new physique. Only then would he have the chance to reach the very peak of cultivation.

Over the years, he had thought of many ways to do so. As he worked, he managed to grow considerably. But he was still very far away from that fabled realm. He had entered the very core of the dominion, intending to absorb the world root essence and grow even stronger. But no matter how he tried, he couldn't absorb any of it. He was getting gloomy.

But when all the world root essence gathered on Ge Yi's body, he thought of a new idea. By cutting through Ge Yi's supply and ensuring Ge Yi's failure, the dominion would be destroyed. Thus, Blood

Spirit acted on his new idea. He released his strength, forming an odd domain that sealed the very core of the world root essence and prevented it from leaking out.

Although this was not the only place the world root essence could be found, it was definitely the core of the world root essence. Without the supply here, Ge Yi would receive less replenishment. As a result, his combat strength would definitely drop greatly.

Ge Yi, who was in the middle of a fight, immediately sensed the cut of his energy supply. His face turned solemn. During that instant of distraction, Huan Xingyi unleashed a storm of punches toward Ge Yi from all directions.

Xing Yihuan's punches were not illusions. Rather, his punches contained a terrifying illusory intent that could sink an opponent into the land of soul burial and subject one's body and soul to the worst torment possible.

Ge Yi faced the attacks with his Cosmos Dao Destroying Fist, but he had been weakened considerably. He failed to block the attack, and both his arms were crushed. He was forced to retreat to the Primal Chaos Star Locking Formation and drag out the fight. If he stayed where he was, he would definitely be killed mercilessly.

"Shaoyun, check the core region. Something is stopping my absorption there. If this continues, I won't be able to last long," transmitted Ge Yi.

"Alright. Hang on there, Master. I'll go immediately," said Xiang Shaoyun as he headed to the core in accordance with Ge Yi's directions.

Soon, he arrived at an ancient mountain range. With his divine dao eyes, he saw Blood Spirit who was hidden deep under the ground. There, the alien was using some unique domain seal to sever the energy flow.

"It's this fellow again. Fine, this will be the perfect time to destroy him," muttered Xiang Shaoyun with a frown. He charged down and unleashed a stream of terrifying primal chaos flame toward Blood Spirit.

Surprisingly, Blood Spirit did not try to evade the flame. He used one of his abilities to form layer upon layer of odd crystals and blocked the flame. However, the primal chaos flame could burn anything. Not even the crystals could stop it.

"Ahhh!"

The moment the crystals were ignited, Blood Spirit wailed. He hurriedly withdrew his crystal barrier. Xiang Shaoyun charged down, forming a lotus with his primal chaos flame before tossing the lotus down. He aimed to kill Blood Spirit immediately, not giving the alien any chance of survival. Blood Spirit realized what Xiang Shaoyun was trying to do.

With a nasty laugh, he said, "I know you want the energy here, but I won't allow it! Share my demise!" Blood Spirit's body enlarged, and phantoms of countless races manifested behind him. His various abilities came together while maintaining a chaotic form. Instantly, Blood Spirit's Seven Revolutions strength stirred.

"No!" Xiang Shaoyun exclaimed.

Unfortunately, Blood Spirit had completed his self-detonation. The terrifying power created a massive explosion. Numerous craters were left on the ground, and the entire Central Region cracked. The dominion's nine regions were in a crisis of being broken apart.

The explosion also sent Xiang Shaoyun flying far away. His Primal Inception Wall cracked, and his person suffered heavy injuries. One could see just how powerful Blood Spirit's self-detonation was.

Xiang Shaoyun did not have the time to tend to his injuries. He dove down once again, wanting to check on the world root essence. If the world root essence had been destroyed, everything would be over for his master. Sure enough, the barrier keeping the world root essence had cracked, and it could hardly keep the world root essence intact anymore.

"Bastard!" Xiang Shaoyun roared in fury. He attempted to utilize the dao of time and reverse time so he could stop Blood Spirit.

Unfortunately, the remnant energy around him was too chaotic. Additionally, undefeatable experts were fighting outside the dominion. He was unable to affect time as he just wasn't strong enough. If he was also in the undefeatable realm, he would be able to reverse time and prevent everything from happening.

Xiang Shaoyun was furious. He scanned his surroundings with his divine dao eyes. Nothing could hide from his eyes. Every single drop of blood around him could be seen clearly. He then ignited a clump of primal chaos flame and tossed it toward the wisps of blood trying to escape.

"Blood Spirit, I, Xiang Shaoyun, might as well kill myself if I let you escape today," said Xiang Shaoyun.

Primal chaos flame spread out of him and raged around him. The flame continued spreading all over the dominion. Blood Spirit was unable to escape from Xiang Shaoyun's divine dao eyes. Bit by bit, his dispersed blood was burned into nothingness. Soon, Blood Spirit started running in his true form. However, Xiang Shaoyun was even faster. A primal chaos flame lotus formed in his hand, and he burned Blood Spirit with it.

"Ahhh!"

Once again, Blood Spirit wailed in pain. In fear and indignation, he was reduced into nothingness. Xiang Shaoyun did not have the time to consider anything else. When he raised his head, he saw that his master was in a very bad position. The undefeatable experts were taking turns beating him up.

"Master, I'll help you!" Xiang Shaoyun could not watch as his master was killed. With a roar, he soared into the sky.

Instantly, a voice resounded in his mind, "Don't go. My power is about to scatter. If you want to help him, let me help raise your cultivation first."

#### Chapter 1830: Anxious Advancement

Xiang Shaoyun had heard the voice of the dominion's will. The voice was very weak, as though it was going to be snuffed out at any moment.

"You are?" asked Xiang Shaoyun in confusion.

"I am the dominion's guardian essence," replied the planet. "The core of the dominion has been destroyed. Not even my essence can keep protecting it. Before I fully collapse and vanish, let me help increase your strength. Perhaps that will give more hope to you."

"No, you need to provide strength to my master, or he will die!" said Xiang Shaoyun.

The world root essence was something anyone would dream of. After obtaining it, one would have the chance to enter the Reincarnation Realm. Very few people could resist this temptation.

"You have a much more suitable physique to accept it than your master," said the dominion. "Even if I give him all my power, he will need some time to climb to the next realm. It's different with you. You should be able to reach that realm faster."

"I don't need it. Stop wasting time and support my master with everything you have! I can grow by relying on myself!" said Xiang Shaoyun firmly. He was going to make his final gamble as well.

"Sigh. Fine, come over here. Even if you don't want to absorb my power, this place can still accelerate your growth," said the dominion with a sigh.

Xiang Shaoyun did not refuse its offer. He entered the core of the world, a place filled with a pure energy that resonated with the astral cosmos sea in his body. An urge to devour the energy around him rose within him, but he forcefully suppressed it.

"Even without the world root essence, I can still break through!" said Xiang Shaoyun to himself resolutely. He then shifted his gaze inside himself, looking at his final trump cards, the divine primal chaos lotus and divine discerning tree.

He had never planned to do anything to the two treasures, but the dominion was on the brink of destruction and his master was dying. If he did not take the final gamble now, both he and his master would probably die.

"Release all your power to me. I want to grow stronger!" commanded Xiang Shaoyun.

He did not have the patience to slowly negotiate with the two. He needed to break through as quickly as possible. The divine discerning tree had benefited greatly from staying in his astral cosmos sea. Due to the much slower passage of time there, it had grown into a towering tree. It had even bloomed with a new divine discerning flower. It wouldn't take long before the flower grew into a fruit. The energy it had at its disposal was comparable to that of the divine primal chaos lotus.

The tree did not dare to disobey and immediately handed all its energy to Xiang Shaoyun. It was afraid that if it was any slower, Xiang Shaoyun would probably devour it in its entirety. In that case, it would cease to exist.

The lotus knew Xiang Shaoyun's temper well, so it did not dare to try to negotiate either. Strand after strand of pure energy was released from the lotus, gathering with the energy released by the tree.

Circulating his energy in accordance with the Desolation mantra, Xiang Shaoyun rapidly absorbed the energy and grew his cultivation. The divine discerning tree released primal inception energy while the divine primal chaos lotus released primal chaos energy. Both energies were incomparably pure and capable of helping any cultivator's cultivation grow massively.

However, for someone at Xiang Shaoyun's level, further growth was extremely difficult. Fortunately, he had also absorbed the primal chaos lotus seed and a piece of divine essence to reach peak Eight Revolutions. After absorbing the energies provided by the two, he would be able to reach Nine Revolutions.

Nine translucent energy streams coiled around his body, pushing his strength to a terrifying level. During his breakthrough, he absorbed quite a lot of energy from the core. He did not do that voluntarily. Rather, it happened automatically. After entering the Nine Revolutions, his soul reached a sort of limit, as though it couldn't grow any further no matter how he tried. That was the bottleneck to the Reincarnation Realm.

Xiang Shaoyun continued suppressing the energies provided by the lotus and the tree, slowly increasing his cultivation level. The tree was not as old as the lotus, so it had much less energy. After the two released almost 90 percent of their energies, they only managed to push Xiang Shaoyun to late Nine Revolutions.

It did not seem likely that he would be able to take another step forward. He grew anxious, using all the god-grade crystals and other treasures he had at the same time, trying to grow as much as he could.

"I don't have enough energy! Not enough at all!" Xiang Shaoyun was getting desperate.

He raised his head and saw that his master was being attacked by two undefeatable experts at the same time and was taking a one-sided beating. It seemed like his master was going to die soon.

"Child, absorb my power," the dominion's voice rang out once again.

"No! There must be a way for me to break through!" refused Xiang Shaoyun as he flew away. Looking at the badly damaged dominion, he saw that the core of the world had shrunk significantly. The dominion looked to be in a terrible condition.

Xiang Shaoyun madly absorbed any energy he encountered, but he needed far more energy than he could gather. Thus, he flew to the cultivation zones of the various major organizations and harvested one divine vein after another, growing as much as he could. Alas, that was still not fast enough to his liking.

He thus transformed into his giant form and released his astral cosmos sea before pulling in all the surrounding energy, including the energy outside the dominion. He absorbed from other planets, from the sun, and from the moon, hoping to gather enough energy to smash through the final bottleneck.

However, growing one's cultivation had always been a slow process. In fact, his current growth speed was already incredibly fast. It would be extremely hard for him to grow even faster.

Xiang Shaoyun then dove deep into the Devil Domain and absorbed all the devilish energy in its seven layers. The power in his devil pearl surged, but he still did not have enough energy.

The advance of each revolution required a massive amount of energy, and one needed even more to reach the Reincarnation Realm. One ought to know that people like Kong Pingfan and Baili Xiongshi had spent millions of years gathering energy yet were still stuck at a bottleneck. No matter how talented Xiang Shaoyun was, it seemed impossible for him to break through so rapidly.

At this time, Ge Yi's body was blown apart yet again. His energy was waning, and he was not far from death.

"Kill!" Xiang Shaoyun threw all caution to the wind and flew outside the dominion.
