The Need

I went to them.

I climbed the stairs two at a time. Kai followed, saying nothing, as I pushed my shadows out of me, finding where Derik and Brax were, smiling when I recognized the room as my own. I wasn't even sure if they had their own rooms anymore.

I burst in and had barely taken a breath when Brax was on me. His mouth covered mine, and I melted into the kiss, sliding my tongue along his, holding his body against me.

"How did it go? With the wolves?" I asked, but he shook his head.

"Not tonight, Spitfire. Just let me have you," he breathed, and I nodded, kissing him again.

He edged me toward the bed, laying me down on the mattress. He kissed me feverishly, like he couldn't get enough, like the simple connection of his mouth with mine wasn't nearly enough, and it wasn't.

He undid the fabric corset front of my villager dress and slipped my shoulders out, his mouth never leaving mine.

Derik and Kai stood on either side of the bed, watching, waiting for their turn.

Brax kissed down my neck, over my collarbone, then released my breast and lapped at the hardened peak. I moaned at the pleasure his tongue stroked through me.

My fingers dug into his biceps as he teased me, tugging at the nipple, his fingers toying with the other one as my hips writhed beneath him.

Brax slid to the end of the bed, taking my dress with him, yanking it off me. He slid his pants off, and I went to take off my boots, but he shook his head.

"Leave them on," he breathed through his smirk, before kissing over my breast again, then lower to my navel, licking around it.

I watched him, licking my lips as my insides became an inferno of need and carnal pleasure that had me opening my legs for him before he'd even got to them.

He grinned up at me, looking down at my pussy, his finger sliding along the wet seam.

"I need everything you've got tonight, Spitfire. We all do. Can you take it?" he asked, and my core panged with excitement, my pussy throbbing at his words.

I would die taking it if I had to, I was that turned on by the idea of being so overwhelmed by them that I physically couldn't take anything else they gave me.

"I want it all, Brax. All of you, everything you need to get out, I'm here. I've got you," I said, earning me a smirk before he buried his mouth in my pussy.

I cried out, my fingers clutching the blankets, my body lighting up as he swirled his tongue against my clit, then buried it deep within my walls.

I moaned, bucking against him. He pinned my hips down, devouring me as I tried to breathe through the heat.

Kai climbed on the bed then, turning my face to his, sinking his tongue in my mouth, stroking mine, holding my face against his.

He was already naked, his cock within my reach, so I ran my fingers over the thick length. It always made me tremble how big they were.

I knew humans weren't so lucky by jokes from the girls in the village, and sometimes I wondered how they pushed so deep inside me with such huge cocks. But it didn't matter, as long as they got there.

Kai let out a deep growl as I stroked him, sighing into my mouth as I whimpered, my legs shaking, trying to buck against the nipping, licking, and sucking.

And then Derik was there too, his firm grasp on my breast making me cry out, ripping away from Kai's lips.

Derik moved up on his knees and held my flushed face, his thumb brushing along my swollen bottom lip where Kai had just nipped it.

“Open that pretty mouth of yours for me, beautiful. I want to see those lips with my cum shining on them,” he rasped, and I moaned, my mouth falling open for him to thrust into it.

His hilt hit the back of my throat, and I gagged. He cursed as I closed my mouth around him and sucked, hollowing out my cheeks with every pull, my fingers playing with his sack as it tightened.

Kai bent down and closed his mouth over my nipple as Brax suckled my clit. I screamed, the sound muffled by Derik’s huge cock, but tears welled as my orgasm slammed my body without warning.

Brax threw me off the edge, Kai helping as they kept playing with me and Derik kept fucking my mouth.

My tongue swirled around him. I sucked his tip, then swallowed him right to the back of my throat again. I went fast, then slow, earning me multiple swear words and curses, but I was going through the same torture.

Kai sat me up, keeping my legs wide for Brax to keep feasting, ignoring my orgasm and plowing into my pussy with his tongue again.

Kai sat behind me, leaned me against him, then his finger slid down my body and underneath me. I tensed as his finger brushed my asshole.

I let Derik pop out of my mouth as Kai chuckled.

“We want to fill you up, baby. All of you brimming with our cocks. So I need you to relax,” he said, his finger brushing my hole again.

The wrong damn hole.

I tensed up further, but then the idea hit me.

The image of being two cocks deep, gagging on another turned me on so much that when Brax flicked his tongue up my seam and nipped at my clit I let go, screaming his name, my hips trying to fuck him, trying to find some friction for the insane throb.

The heat was insane, taking me over, and I tried to catch my breath as Brax smirked and came over me.

“We’ll get you ready for us over the next few days, but we will claim you there too, Spitfire,” he promised, and I shuddered.

Kai’s dick lay against my ass cheeks as Derik’s throbbed near my mouth. Brax moved up my body and lifted my legs into a V. He pulled me against his shoulders, hanging my legs there, his cock pressing against my entrance.

“Kai,” he said, and Kai’s fingertip added pressure to my asshole.

I clenched, and Derik slapped my breast before kissing the peak. I arched, gasping at the pleasure that pierced me. As I did, Kai’s finger inched further in.

I didn’t have time to think about it further though because then Brax was inside me, sinking so deep I cried out in half pain, half pleasure.

He gave me two warning strokes before he fucked me so fast and deep I was pretty sure my pelvic bone was going to break.

Kai kept pressure on my asshole, sliding his finger in inch by inch until he was fingerfucking my ass as Brax filled my pussy.

I was a hot mess. I screamed, moaned, and gasped as my core released so much pleasure through my body it was tingling.

I threw my head back on Kai, my hand pumping Derik’s cock as Brax slammed into me.

He was so rough and primal. It was animalistic the way he claimed me. But then he always had to be so in control of whatever he had in him that it wasn’t a surprise he let loose in the bedroom.

I raised my hips, meeting his thrusts as he fucked me into the mattress, my legs losing feeling in them from being on his shoulders, but I didn’t care. There was too much feeling everywhere else to care.

“Brax!” I cried out as my body caved in for the fourth time. It was explosive, mind-blowing, like I was going to pass out kind of release that had me moaning over and over.

I bucked wildly into his impatient thrusts until he was letting go of a deep growl and slamming into me, his cock thickening within me and shooting his hot seed deep inside my wet heat.

I sagged back into Kai, but he kissed my cheek, lining up his cock from under me. I ground against it, the pleasure still there.

I sat up a little, raised my hips, then sank back down on him, riding him backward, my tits bouncing as he grabbed my hips and pistoned his cock in.

Derik moved in front of me, kissing me, teasing me, building me up again as Kai kept his leverage grip on my hips and kept the pace fast.

I rode him just as hard, bounding on him as I gasped, trying to tame the heat in my body, but it was a wildfire. Untamable.

It brushed every nerve, every muscle, every bone, leaving them shaking and disoriented with the overwhelming pleasure that he pulsed into me.

I moaned against Derik's mouth, wrapping my arms around him as Kai reached in front of me, playing with my clit.

I sucked in a breath, a moan escaping, and then he was sending me off the edge into a battlefield of insane, desperate need.

I ground down on him fast and hard, riding out my orgasm on him before he was slapping my ass hard and stilling his last couple of thrusts inside me, releasing himself with a guttural sigh.

Kai sat up and wrapped his arms around me, kissing my shoulder before pushing me off his dick and toward Derik.

I took deep breaths, my eyes hooded as my body tried to give up, but I had to keep going. I had said I could take it, and I was going to.

Derik hauled me off the bed into him, his hand going around my throat as he pushed me against the bedpost.

I sighed at the pressure it put on my vocal cords and my pussy. It leaked with excitement as he tightened his grip, releasing my airways at the same time he shoved his tongue down my throat.

“Bend over, beautiful. I want to see your pussy when it clenches around my dick,” he whispered, then turned me to face Brax and Kai on the bed.

He bent me over, and I rested the top half of my body on the bed, my hands splayed on the bedding. Kai and Brax watched with panting breaths, their eyes already hungry, as Derik pressed himself against my throbbing entrance.

His hand moved up my body and I tried to push back on his cock, wanting him to fill me up, but he wouldn't let it slide in. Not until he had wrapped his hand around the loose braid in my hair.

He yanked on it, my head snapping back at the same time he opened my ass cheeks up and slid inside my pussy.

I shuddered, my jaw falling open, my eyes clenching shut as he overwhelmed my body with an intense combination of pain and pleasure.

My hair tugged on my scalp which hurt, but I couldn't bring myself to tell him off or to tell him not to. I wanted it. It turned me on to have him get rough, to pull my hair, put his hands on my throat.

I wanted that desire, that forceful need that consumes. I was consumed by them, the alphas, but they were the same with me.

“Derik,” I breathed as he rolled his hips against mine, his cock reaching parts inside me that not even I knew existed.

My knuckles were sore from gripping the sheets for so long, but I couldn't get enough of Derik's cock in me.

He was so precise and luxurious in the way he moved, like he was thinking about every inch of his cock and where it fit inside me. It fit fucking well, so snug and so deliciously full.

I cried out as he pushed in faster, a little deeper, the ache in my pelvis pulling with the pleasure. My core was so tight again, and I breathed out a moan.

Derik kept going, rolling, thrusting as the other two watched, until that familiar feeling built within me.

I couldn't believe I was going to cum again, but my body felt it then ran for it, tumbling off the edge of climax, my walls clenching around Derik as I panted through his thrusts that became harder through my orgasm.

It stretched it out, and my throat ran hoarse from crying out so much. My pussy gripping him sent Derik straight off the edge with me.

He let go of my hair, bent over me, and massaged my breasts, his knuckles grazing my nipples as I trembled out my release and he stroked out his inside me.

His breaths were harsh on my back before I collapsed on the bed, my eyes fluttering closed, sweat moisturizing my skin.

Derik kissed my cheek, then moved me up the mattress, with the other two helping. I sleepily tried to shove them off, but Kai chuckled and spooned my naked body. He ran a finger down my arm and I sighed, my eyes closed.

"Oh baby, you don't think we're done with you yet, do you?" he whispered, nibbling at my ear.

My eyes flung open, and I turned to him as he climbed over me. I licked my lips, smirking at him.

"I don't know if I'm going to be able to keep up with you three." I smirked, running my thumbs along his lips as I held his face.

He lifted my legs to grip his waist, then bit the tip of my thumb. His tip was at my entrance, and I pulled my knees out more, giving him more access.

I didn't need sleep, I needed to be fucked into a coma by my three sexy alphas.

Hours later, I was almost there, lying spent and naked, nearly passing out from exhaustion in the middle of them, when I heard it, and so did they.

Howls broke through the night's silence. They were loud and gave me such a fright.

I sat up, my heart racing as the howls kept coming. "What's happening?" I asked, reaching for the sheet to cover me.

All the alphas' eyes had turned red, their claws and fangs exposed. My eyes went wide as they shook, Kai's claws digging into my thigh where he held it as Brax's claws tore through the sheet.

Derik had actually moved and stood up, his cock hard again despite having just been soft. All of them had thick, throbbing cocks that were leaking with want that I thought I had just dealt with.

"The heat." Derik winced as if he was in pain. "It's started," he growled, then all of them turned to me, and I knew I was about to get ravaged all over again.
