

Chapter 11: Chapter 10

chapter 10 - caught you first

"The Executive Director's schedule is packed that's why an appointment should be made before you can meet Mr. Ko", the exhausted secretary sighed as he stared back at us

We went to Mr. Ko to meet him but to our disappointment we were unable to since he's got a meeting with the other board members

"Alright. Please schedule us an appointment with Executive Director Ko.", massaging his temples

"Well, when can we meet Director Ko?"

"Ahm about that...mr. Jo isnt it? Mr. Ko's schedule is packed just like what ive said ,so maybe tomorrow morning"

I went silent , this wont do it. If this takes longer then we dont have anymore choice other than to stay quiet and wait for the new debut date

"Wait here the PD's calling", we were already in the parking lot of RISE when manager Oh's phone rang

When he left me i sighed as i took out my phone to call home , "Sooyoung , how are you? ", i asked as i looked up

The sky's dark , it'll pour any minute now

"Ah! H-Hyung , grandma its hyung!", her cheeful voice filled my ear so as Bihyung's

"What're you guys doing right now? You seemed happy , its a shame im not home", i sighed loud , only answered by Sooyoung's chuckle

"We're happy because you called , dummy"

"How are you coping up? "

"... Im doing okay , and im feeling fine now. Im still having my anxiety attacks but i was already referred to a psychologist by Mr. Han"

"Is that so? Please take good care of yourself , tell grandma too. Dont forget to look after Bihyung for me"

As droplets of rain started to pour out i ran towards the entrance of Rise i bumped into a guy in suit

"Woah there , slow down", the man chuckled in a familiar way

"Mr. Ko!"

"Mhh... This must be destiny , we've meet again mr. Jo"

"Y-yeah , i heard youre busy. Actually we set an appointment when we came to met your secretary"

"Mhh... Were you that desperate to save your group?", he looked at his wrist watch , damn it looks so expensive

"All of the members worked so hard to get here not just to get suspended once again. Please let us debut mr. Ko. I know you have all the connection to make it happen"

"Good timing , i just got back from a meeting regarding your group's debut... Turns out that all of the executives agreed about the delay of your Group's debut"

"We have been working our ass up for this. I-i need your help as my sponsor"

Mr. Ko paused for a moment before smiling at me innocently , "ah , so now youre calling me your sponsor. I told you already its your manager im supporting—"

"Then be my sponsor too. I wont disappoint you"

"You already have. You didnt suck my cock when i told you "

My eyes widened , i immediately looked around , my heart pounded fast and hard

"Shit! What if someone heard you! They'll misunderstand"

"I dont have time to blabber with you Mr. Jo , but its nice to have a chat once in a while. My car's here already , im gonna leave first"

He buttoned his cu , i stared at him as he went to his BMW he was about to leave when i went and opened the door for him

"Ill do as you say , so please help me"

"Ill be my first time with a man so be gentle", my voice faded away before i ended my sentence

Gosh! I feel so cringe! Damn it!

"Yours quite sentimental , have you ever done it with a girl?"

My eyes widened my gaze turned to the driver who's not minding our conversation at all

"Not too loud!", i half wisphered half shouted , he chuckled as he turned his head to face the window

"Yeah , before. But that was too long ago"

Anyways , why the hell is this guy interfering with my life—ack right. He's my sponsor

"Arent you scared?"

"What? Do i look like im that type who gets scared easily?"

"Not that. I might bring you to a love hotel right now , we dont know what will happen if then" ,he crossed his arms in his chest as a smug smile appeared on his lips

I felt shivers run down to my spine as i looked at him with a shocked expression

"If so then stop the car!"

"Haha! I couldve devoured you when i wanted too , youre too open for your own sake"

I turned my gaze out of the window when i felt the car stopped

No way!

"W-why are we here?"

"Mhh? Did you not come with me for this?"

"No! Not at all!"

Bot of us stopped as my phone rang all of a sudden

Shit! That saved me for a sec!

"hello? Manager Oh?"

"Where were you?"

"Ah! Shit , im really sorry but i happened to find Director Ko when i took shelter earlier"

"Ko? That fucking Alexander?! Where are you right now tell me the address imma punch that guy's face!"

"A—ah that would be bad , please calm yourself , i can take care of this myself. I think"

"He might come out as an idiot on the surface , but that guy's a genius. He's not the RISE executive director for no reason. Just tell me the address , ill be there in no time"

I hesitated there for a second. I would like to talk to Director Ko alone for privacy , but i might end up punching his face if manager Oh's not here.

That guy's a real pervert

"Its fine really , but ill tell you the address. I just need time to convince him"

"Good evening sire , any reservation?", a lady greeted us as we went onto the hotel's restaurant

All of the interior design of the place shouts elegance and it looks so expensive , selling one of my liver wont be enough to book myself a room

"A reservation for Alexander Ko", director Ko said in a formal manner , unlike minutes ago he wasnt acting all carefree and pervert

The lady guided us to a private room , my eyes roam around as the minimal design took my curiosity

"This restaurant's menu are my favorite , its delicious"

I looked at him as he took off his coat and sat down , resting his elbow on top of the table he stared at me

"Sit. You wanted to talk to me. Go ahead"

I felt an imaginary lump on my throat , his aura right not gives out a DIRECTOR kind of vibes

Its like those scenes in a movie where the male lead is trying to pursue a contract with a billionaire

"Yes youre right. I want you to sponsor me Mr. Ko , you might think that im of no use to you. But i can actually do a lot of things—"

"Sex. Im a sex addict , can you give pleasure to me?"

My mouth hang open , is sex the only thing in his mind

"Ill try my best to hit your standards."

Director Ko stared at me with an emotionless face and looked away as the waiter came to serve our orders

"You dont know what youre tryna get into. You dont have to be sponsored , youre getting privillages from your manager , arent you?"

I nod , "Manager Oh wanted me to enter this group, and all of the other members have worked hard , i did too..."

"You never planned to enter a singing career in the first place , or is it that youre actually enjoying it?"

I went silent , right i entered this group to gain connections and fame.

"what if i was an old geezer , would you take on my proposition?"

"hell no! Why would i suck on an old geezer!"

Playing with food , Mr. Ko smiled

"Its a good thing i caught you first "

The whole dinner was fine , the food was fantastic but the atmosphere between us is su ocating

Neither the both of us wants to speak

"Ahem! S-So your my sponsor now?", i asked him without taking me eye o my food

I felt his gaze it made me feel chilly and uncomfortable all of a sudden

"You really want me that much huh?"

"Technically your connections not you 'you' " I mumbled inaudibly

I sighed as i felt my head ache once again , this guy is really a pervert its a good thing he doesnt get physical , if he does only god knows what'll happen

"on one condition"

"What?"

"Ill give you everything you want"

My heart beat fast because of his words and the consequences of it

"then tell me what is it that you really want f me to do for you"

"hmmm, there's nothing i could think of"

What?! Is this guy for real , i thought he wants me to suck his cock

"then about me sucking your cock—"

"ofcourse thats excluded from the things i wish to have from you , thats normal for our relationship"

Chapter 12: Chapter 11

chapter 11 - Both of us are stubborn

I could see my own reflection from this gigantic glass window in front of me , how luxurious. I could spot the expensive restaurants underneath from where i am meanwhile the people got so small as i feel like ants.

Does all rich people sees this point of view as 'normal' ?

Is having shoes that costs almost millions of dollars , belts or even their pens , normal too? It must be tiring to have too much money , people gathers near you just to have a taste of your penny

"what are you thinking so deeply?", i inched as i heard his voice ecoed through the living room

"Nothing important" ,i answered short and walk towards the couch where he sat

"what are you doing?", one of his brow shoot up , my forehead wrinkled

"You dont want me to sit?" i got pissed o a little so i decided to just sit somewhere else when he grabbed my wrist

"You won't feel comfortable sucking me unless you kneel", my eyes widen and snatched my arm away

"God, you!", i bit my lips and settled down , my knees touching the warm and soft mat , i couldnt look up

i feel horrible , terrified and humiliated—im a man tho, why am i even kneeling down to someone who's got p'nis like me

"ill think about letting you and your friends debut after i cum", he talked as if it was nothing he leaned back and acted calm

he was only wearing his white bathrobe nothing else underneath it , my hand reached out for his thigh , it was surprisingly smooth , rich bastards

felt him inch and my hot nger continued louching him , teasing i pushed his thighs open his , my eyes travelled to his white velvety thighs

is it because of the dim lighting? His thighs looked so irresistible

i leaned down , my lips reached his skin and started sucking. I didnt know what to do , instead i just tried going on with the show , what i think feels good

inching from time to time i sucked his skin hard i naturally looked up to him , his pointed nose pointing the ceiling , his mouth fell agape ,his chest slightly revealed

i unconsciously reached out for it , rubbing his nipple out from the robe

"ngah..", he let out a small moan , its cute

My other hand grabbed his junk and squeezed it , "oh f*ck...", i paused when i felt him hard as rock , my thumb went to his tip

"You're over owing with precum , its awesome", i grabbed it and rubbed it up and down making his back arch

"Ah...ahh , T-there...", he was moaning so soft its captivating me , is he really a guy?"

His hand caressed my hair pulling my face towards his cock , "What are you waiting for , suck it", he may act calm but everyone gets swayed easily by lust

I know that the best , cause right now im hard as f*ck and im ready to pound his ass

i gulp hard as if there's a lump in my throat , i opened my mouth and let his cock entered me

"mhhh", his body jotted because of the vibration from my hum , "ugh , d-dont do that , you'll make me cum", whispering like a highschool student trying to be secretive , i felt my cheeks flushed

"shit...ahhh your mouth's so warm!"

i began bobbing my head up and down , making me slightly su ocated , i couldnt breath as he started to go with my rhythm and thrusting slowly

i held his thighs open as he started to feel an intense pleasure , he started to fuck my mouth rough

"keuk , ugh , kugh" drowning every thrust he make , i feel like dying , my throat went sore

"Yes...ah! ahhhh , fuck your mouth's the best!" , his breathing became unstable , hes almost drowning—in pleasure and lust

my eyes went teary , fuck when will he stop thrusting. "Kuek! ught! hmmm!"

"ahhh! im near! fuck make sure to swallow everything!", my eyes widened as he thrust more rough and merciless

i felt my soul leaving my body , my throat feels like exploding

Squelch , squelch! my saliva running down my throat so as my tears , i couldnt do anything else but closing my eyes

His body arched and shivered , his eyes rolled back as he made his last thrust into my throat shooting his s'men

i felt like vomiting it all out, but his c*ck wont budge until it went lifeless

Gasping for air , my eyes closed tightly as i felt my throat breaking , "Haah , haah", i couldnt talk , he broke my throat!

"ghh! haah haah", it hurts my throat is burning , id rather have sore throat than this kind of pain

"What , you didnt enjoyed it?", he stood up and tied his robe as it was messy seconds ago , i couldnt look at him again

"What? you couldnt bare mouth fucking? haah?", His voice sounds disappointed

i felt horrible once again and pulled his wrist

"Throat. Hurts. Bastard", i wanted to tell him Billions of curses

"Youre a handful", i glared at his smug face and stood up still holding my neck , "Alright , ill take you to the Hospital, what a pain"

Humiliated i pushed him aside making him tumble a little , i picked up my clothes up and wore them

"Aren't you being a stubborn bitch?", instead of facing him i turned away and left the place without muttering a single word

holding my jacket i heard the door behind me open , he pulled me back "where do you think youre going?"

"H-hospital. myself. alone.", i dont want to speak anymore since my throat is killing me so i just turned my back away from him once again

"hah? with that condition? what're you going to say then? my mouth was f*cked roughly like a p'ssy doc, to the point of destroying it"

my jaw clenched and i grabbed his collar , im exploding with great anger

My face is red , i looked intensely to his eyes , i just remembered i couldnt speak so i just roughly cussed him to death in my mind and left him

"what the hell happened to you?!", Manager Oh stood up from the couch he was sitting onto , my eyes widened i quickly looked away and shooed him

"Oi Jo Dosung! Talk!", i bit my lower lip , fuck my throat still hurts

"Nghh...w-what?", voiceless , i tried talking

Manager Oh pulled me towards him but i walked backwards while looking away , "Jo dosung this will be your last chance , look at me"

i slowly tilted my head and looked at him straight in the eyes , his brows furrowed

"Whatever happens, both you and Alexander should never meet. He's a huge pervert"

He sighed deeply , he must be calming himself. "He made me deep throat him", My voice came out raspy

"Dont talk if it hurts. I should've went after you , im all to blame.", he stood up and grabbed his coat , looking at me with a silent shilly stare

"Dont ever come out of this place , unless i tell you. Imma beat someone, but ill be right back"

With that i stared at the door where Manager Oh left , this is bad. "I should've practiced with a dildo", i scratch the back of my neck and sigh

i got hoard while sucking Mr. Ko , "Well , he was moaning like a girl"

My face flushed as i remember how i felt when i gave him a blowjob , my throat did hurt but my cock went sti . "Haah , i didnt even had the chance to come"

Feeling frustrated i took out my phone and went through my favorite vap videos , if a guy gets hard , he needs to release it.

that's what im doing right now

My hand went underneath my pants , i felt su ocated as i grip hard onto my lively cock , why the hell are you still so hard?

"mrmh!", i started playing with thr tip while my eyes glued to my phone screen

Up and down , i couldnt control the anticipation becauseof how sexually frustrated i am , its been a long time since i did this

My hand didnt stop when i felt myself on the edge , i closed my rhythm slowed down. "Haaa , s-shit this feels good", my eyes stared tightly as i put down my phone

The scenarios with Mr. Ko ashed through my mind , i bit my lips to silence my self who's about to explode

"mhhh", inching from time to time i started to fap myself faster , up and down ,with that my moans became louder

Its fine there's no one else but me

My back arched voluntarily , eyes closed so tight and my mouth open because of this intense overwhelming pleasure

"Ugh , i-im gonna cum. fuck!", i threw my head back as my pace fastened , i opened my eyes just to see a familiar built , no not just familiar

someone who shouldnt be here with my , my eyes widened and i stood up my d*ck hard as rock , tip pointing at him

I pulled my pants up when i saw his smug face , F*ck!

"Why'd you stop?", his smile faded , a serious voice came out of his glossy lips

"What the hell do you think youre doing? My manager's coming to get you! wy are you here?!", i could stop my self from yelling , this guy just popped into my living room , in front of me!

"This is a company property , and in the company , i have the largest share of all...", he stood up and went to me , he held my hand stopped me from buckling my belt

"W-wha—"

My eyes widened as he pulled down my pants and boxer brief , "I was planning on teasing you more with my tongue but , what ever"

My c*ck sprang out , his eyes looked hungry for it , he looks excited. I eyed him , he's wearing casual clothing , did he chase after me?

"Mhh , youre big", i got pulled back to reality as i heard his voice , i pushed his head away but his tongue insisted and licked my tip

"Ahh...d-dont , its g-gonna come out!"

"Its alright , save your voice.", he swallowed the head and started sucking on it , "Haah , S-stop im gonna come!", My brows furrowed from the pleasure

He stops sucking and licked my rod from the hill to the tip. I want this feeling to last

I grabbed a handful of his hair and thrusting hard , just like how he did to me earlier. My jaw tightened as i kept on edging myself , "Just...not yet" , i was out of breath , i really want to come but at the same time i dont want to

"Ill let you c*m as mush as you want...", He chuckled , i must've looked like a child saving his favorite candy

I felt a chill taking over my body my mouth fell open as i trusted into his mouth once again , holding him in place i could hear him drowning from his own saliva my my precum

"Haaa , im gonna shoot...f*ck!", i gritted my teeth as my cock exploded , shooting my semen into his mouth , lling it

He was about to pull out , i thrusted once again , his eyes widened. I pushed all of my c*m into his throat with my cock , "Urkl nghh!", his eyes tightly closed , cheeks red , and his saliva mixed with my semen

"You looked so sexy" i muttered , he threw me a glance.

"Tissue and stop talking, thought you hurt your throat", he stood up and cleaned his face

"I , about this", im having a hard time talking but im stubborn enough to push myself , "You just dont know how to stop huh?", he placed his nger onto my lips to silence me

"even our friend down there is still rock hard....", he leaned into my ear and whispered , "I was actually planning on making you my bitch, but for now. Ill let you use my ass"
