

Passive Skills 271

Chapter 271 support the cloud dream city

While the Qin players were still in the vicinity of LAN Tian city, looking for Zhang Shan to follow.

He had already teleported to Dangyang city.

It was exciting to be able to act cool and run away.

at that moment, most of the wind cloud guild members who had gone to blue field city with him had already returned to dangyang city.

Only a small number of people could not find an opportunity to return to the city because they were being watched by the players of the state of Qin.

These people probably had no choice but to die and come back.

In addition, a portion of the Guild members had been beaten to the ground by the Qin players from the beginning.

He had returned to Dangyang city early to revive.

All in all, they didn't lose out this time.

From start to finish, who knew how many players he had killed in blue field city.

Just near the teleportation Hall that Zhang Shan and the rest were guarding, they had already defeated more than 100000 Qin players.

Among these players, most of them were from LAN Tian city. They were hit by Feng Yun realm and Feng Yun Cupid's big moves.

After a solid blow, the big moves of these two people had knocked down at least tens of thousands of people.

There were also many players from Liangzhou city and Tianshui city who rushed out of the teleportation Hall.

They were basically all defeated by Zhang Shan and the others.

Being blocked by hundreds of spears and staves, no matter how fiercely they charged, they couldn't break out of the storm Guild's fire blockade.

As long as the players from the state of Qin rushed out of the teleportation Hall, they would be defeated.

Occasionally, there would be a person with extremely fast reactions who would teleport away before he was knocked down.

As for within LAN Tian city, there were even more Qin players that had been defeated.

After all, there were even more wind and cloud guild members who rushed into the city and killed people. There were as many as 5000 to 6000 people.

In addition, the Qin players in Lan Tian City were all noobs.

There were even quite a few players who had just come out of the novice village.

These people might have still understood how to play the New World game, but they had been defeated.

In front of the elite members of the Wind and Cloud Guild, these players from the state of Qin were like sheep.

It was easy to kill them, and he could cut down one whenever he saw one.

There was no skill involved at all.

The members of the Wind and Cloud Guild were massacring everyone in Lan Tian City. Who knew how many people they had killed?

They had no way of calculating it, but a conservative estimate would be at least four to five hundred thousand people.

This time, the players from Wind and Cloud Guild had a good time killing.

The guild channel was filled with joy.

"Haha, it's so f*cking good. I killed at least a hundred Qin players today. It's a pity that I was called back to guard the teleportation hall by boss, otherwise I could have killed a few more."

Windcloud Blade called out smugly.

Although he was only a melee class, his attack power was high.

The efficiency of killing people was not bad at all compared to long-ranged classes. In fact, it was even better.

Other than some of the more powerful players from the state of Qin, most of the players from the state of Qin were unable to block the Wind and Cloud One Blade and One Axe.

With his over 7000 attack power and his skill damage, he could easily deal more damage.

Each slash dealt more than 10000 damage.

How could the ordinary Qin players block it?

"Yidao, you're not bragging, are you? They're both melee classes, but why didn't I manage to kill 20 people from start to finish?"

A warrior in the Guild expressed his disbelief.

"Can you compare to Brother Yidao? Brother Yidao has a divine weapon. Look at your character's stats and Brother Yidao's, can you compare?"

that's right. Brother Yidao can kill one with one axe. How many slashes do you have to make to kill them? "

I still have to slash them a few times. I only f * cking slashed them once and those guys teleported away. I can't kill them at all.

that's right. We can only kill some noobs. Those slightly stronger players can't be killed in the other city. Teleportation is impossible.

that's because you're noobs. Look at the six-barreled boss. He killed one person with one shot. He didn't need a second shot to kill.

f * ck, can you not mention the six-barreled Big Shot? the Big Shot and we are not playing the same game.

that's right, we're playing hell mode, and the six-barreled boss is playing simple mode, hehe.

"Haha, easy mode is still okay."

" speaking of which, what are we going to do next? do we still have to guard the teleportation hall on our side? "

" what's the point of guarding? the domineering king is being held back by the dragon king of the eastern sea and king xiaoyao. he can't go back at all. how could he have the time to come to dangyang city? "

holy sh * t! Is the Dragon King of the East Sea finally a man today? "

"I heard that he's quite tough. It's said that the Dragon King of the eastern sea has died three or four times. Most of the members of traversing have died once or twice."

...

"What? Was he that strong? If he died three or four times, wouldn't it take him almost a month to get his level back?"

" i don't know. in any case, there's not a single member of traversing four seas on the level rankings. "

"Is the DreamCloud city so badly beaten? Should we go and get involved?"

"that's a good idea. i can't go and farm monsters in peace now anyway."

what did boss say? should we go to Yunmeng city and cause another wave? "

that's right. It's safe to go to DreamCloud city. If you die, you can wait for someone to resurrect you. You don't have to worry about losing experience.

"You're thinking too much. If too many people die, I'm afraid there won't be enough support."

what the f * ck? there's only so many people left on Subjugator's side. We're going all out. How long can he last? "

"You're right, boss, let's do it."

“Alright, let’s go together. This time, all the Guild members will go,”

Feng Yun realm waved his hand and went to deal with the domineering king again.

...

“Let’s go, gather at the teleportation Hall.”

wait a moment. Don’t be in a hurry to teleport there. The area outside the teleportation Hall in DreamCloud city is still occupied by the domineering aura Guild. The people from DreamCloud city have yet to take it back.

“No way? how are we supposed to get there if the domineering aura guild is guarding the teleportation hall?”

that’s right. If we go over, we’ll be beaten like rabbits. There’s no way we can get out.

“Everyone, gather first. I’ll talk to Xiaoyao Wang and ask him to cooperate with us to rush out.”

Feng Yun realm gathered everyone first and did not rush over.

They had stupidly charged out of the teleportation Hall while domineering aura was guarding it.

That would be courting death.

however, it would be easy if the members of the getaway guild cooperated with him.

It was just like what had happened in LAN Tian city.

If not for Feng Yun realm’s preparations, the pincer attack by the Qin players would have been too much.

zhang shan and the rest, more than half of them might die.

Feng Yun realm secretly contacted freedom King but domineering King would not notice.

They could have freedom Guild cooperate with them and launch a pincer attack. They could destroy all the members of domineering aura who were guarding the teleportation Hall in DreamCloud city.

Although the DreamCloud city had been badly beaten by the domineering King and suffered great losses, it was still a very good place to go.

The Dragon King of the East Sea had fallen three or four times, and so had King Xiaoyao.

However, the unfettered Guild was one of the top ten guilds after all. It was not a problem to organize members to cooperate with the wind and cloud Guild.

Besides, the wind and cloud Guild was going to help them take revenge. How could they not do more?

Chapter 272 extreme operation

Feng Yun realm was communicating with freedom King while the other members of the Guild were gathered outside the teleportation Hall in Dangyang city.

There were close to 50000 players online in the Guild, so it was impossible for so many players to enter the teleportation Hall.

sigh, I hope the people from the getaway Guild can put in more effort. I remember when we were in the blue field city blocking the other party's teleportation Hall, it was fun to take them down one by one. Right now, the teleportation Hall in DreamCloud city is being guarded by the domineering aura Guild. It's our turn to charge in, so I'm a little flustered."

"Yeah, it's impossible to charge forward when you're being blocked."

do you know how many players the domineering aura Guild has? they're guarding the teleportation Hall in DreamCloud city.

"Very many, more than twenty to thirty thousand people."

"What the f * ck, then what's the point of going? we have a few hundred people stuck at the blue field city's teleportation Hall, and the players from the state of Qin can't even rush out. Right now, there are 20000 to 30000 players from domineering aura guarding the place. What are we going to do there? are we just going to get killed?"

"that's not the same. the main force of the state of qin's players were all brought to cloud dream city by the domineering king. the players from the state of qin who were teleported to blue field city were all extremely weak. that's why we were able to hold our ground."

"Isn't that the same? This means that the main players of the state of Qin are guarding the teleportation Hall of Yunmeng city. Although we are not weak, it is impossible for us to charge through with so many people guarding it. "

"Under normal circumstances, of course, we can't. But with someone's cooperation, we should be able to."

I still don't have any confidence. I hope that I don't die in cloud dream city instead of LAN Tian city. That would be depressing.

"what are you all worried about? just wait and see."

Windcloud blade called out arrogantly.

brother one blade, you've become so arrogant after getting the divine weapon.

that's right. No matter how strong your divine weapon is, it's useless. You'll still be defeated by all kinds of damage if you rush out.

don't worry. Later on, as long as I get out of the teleportation hall, I'll teleport behind them and use my ultimate skill to kill them all.

Wind cloud blade said confidently.

he still had a big move that he had not used yet. the big move of a berserker was different from other big moves.

there was no sustained damage, unlike the fiery rain and the wrath of the stars, which could last for five seconds.

Destruction only dealt damage once, and that was the moment he used his ultimate skill.

However, the destruction skill dealt ten times the damage.

Under 10x damage, players would die the moment they touched it, and no player could withstand it.

even the meaty blood cow could not withstand it.

What a joke, wind and cloud slash had over 7000 attack power, so ten times that would be over 70000 damage.

He could also activate Berserker's wrath first, increasing his attack power by 100%.

if that was the case, the damage of the destruction skill could reach up to 150000.

Who could withstand such damage?

the only weakness of the destruction skill was that it did not deal continuous damage, which was a hard damage.

However, it was enough. Windcloud blade used charge and charged straight into the enemy's crowd.

If Shi Feng activated destruction, not even a blade of grass would survive within a 50-yard radius.

In short, wind cloud blade's idea was quite good, but the premise was that he was able to teleport out of the teleportation Hall.

Otherwise, everything would have been in vain and he would have been killed at the entrance of the teleportation Hall.

no matter how good the equipment or how powerful the skill was, it was useless.

Everyone waited for a while in the teleportation Hall of Dangyang city.

Feng Yun realm said.

"I just talked to freedom King. His Guild's 50000 players will all teleport over to cooperate with us."

"haha, we can do it. with 50000 players working together, we'll be able to break through domineering aura's defenses and get out of the teleportation hall."

I'm just afraid that getaway is not doing their best. They've been beaten up badly by domineering aura.

it doesn't matter if they're strong or not. Even if 50000 pigs teleport over, they'll be able to mess up the defense of the domineering Guild. It'll be enough for us to break through.

"F * ck, you're right. I don't know how to refute you. Hehe."

"Alright, quiet down and listen to my arrangements."

Feng Yun realm waved his hand and said in the Guild channel.

“only 3000 people can go to the teleportation hall at a time. the first batch of people to go must be strong enough. otherwise, i’m afraid the people of the unfettered guild won’t be able to hold on for long.”

after you teleport over, you don’t have to worry about anything. After you rush out of the teleportation Hall, you can teleport directly. You don’t have to deliberately choose a teleportation location. You can teleport anywhere you want. You just have to teleport away from the entrance of the teleportation Hall.

“Teleport away from the teleportation Hall’s entrance, then teleport back and attack the defensive line of Guild domination,”

after the first group of people is teleported over, the second group will immediately follow. We have to try to teleport everyone to DreamCloud city in the shortest time possible.

“Everyone, get ready. When I give the order, the first batch of people will be teleported to the DreamCloud city immediately.”

After Feng Yun realm finished speaking, he quickly selected 3000 players from the Guild to be the first batch of teleportation personnel.

Zhang Shan followed these 3000 people to Dangyang city’s teleportation Hall, quietly waiting for Feng Yun realm’s teleportation order.

They had to wait for the people from the getaway Guild to start their teleportation.

Otherwise, he would have been targeted by the players from Guild domination the moment he teleported over.

It would be a little difficult to get out of the teleportation Hall.

...

alright, the members of the getaway Guild are ready. Listen to my command and prepare to teleport.

After Feng Yun realm finished speaking, the first batch of 3000 players chose their destination.

As soon as Feng Yun realm gave the order, the teleportation was confirmed.

“Let’s go,” he said.

After Feng Yun realm finished speaking, the 3000 players quickly confirmed that they would be teleported to DreamCloud city.

the second group of people immediately followed.

after zhang shan was teleported to the teleportation hall in the cloud dream city, he rushed out of the door without saying a word.

no matter how many people were guarding outside, he just had to rush in and it would be over.

They had more than 3000 players. Even if domineering air had their eyes on the teleportation Hall’s entrance, they would still be able to get through it.

Some of them might be able to make it out.

Not to mention, there were people from getaway attacking the players from Subjugator Guild.

...

This was a good time to escape. As long as domineering aura was in a mess for a while, they would have enough time to escape and use teleport to leave.

After Zhang Shan rushed out of the teleportation Hall, he did not even look at the situation outside.

I'll use teleportation immediately and leave this place first.

The entrance of the teleportation Hall would definitely be the target of Guild domination.

When Zhang Shan used teleportation, two or three attacks landed on him at the same time.

In an instant, he had lost more than half of his HP, but fortunately, he had not fallen to the ground. This was simply an extreme move.

At the same time that he was injured, Zhang Shan had already teleported away from the entrance of the teleportation Hall.

They arrived at an unknown corner of the DreamCloud city. The surroundings were quiet, and there was not a single person.

Didn't they say that the Yunmeng city was already in a state of chaos? It was so quiet that it was scary.

It couldn't be that everyone was dead, or they were killed until they went offline, right?

Chapter 273-what happened?

After Zhang Shan rushed out of the teleportation Hall and teleported away, he realized that he could not see a single player from cloud dream city.

Similarly, they did not see the Qin players led by the domineering King.

He didn't know if those people had gathered somewhere to fight, or if they had really been killed and gone offline.

however, now wasn't the time to think about this.

Even with Zhang Shan's extreme control, he was still hit three times and almost fell at the entrance of the teleportation Hall.

He didn't know what the situation was with the other members of the wind and cloud Guild.

they didn't discuss it in the guild channel. time was tight, so they decided to follow the strategy they had discussed before.

Zhang Shan used the coordinates on the minimap and chose to teleport back to a place not far from the teleportation Hall.

after teleporting over, zhang shan realized that there were people everywhere. they were from the carefree guild, the domineering guild, and the wind and cloud guild.

The members of the three parties were engaged in a chaotic battle in the teleportation Hall of the DreamCloud city.

There was still some distance between this place and the teleportation Hall. Did the domineering aura Guild put their defense here?

Zhang Shan expressed his confusion, but there was no rush to ask. He would just do it.

zhang shan raised his hand cannon and fired at the members of the domineering aura guild. one shot, one kill. in an instant, a group of them were knocked out.

Domineering Aura's operations were very confusing. Before they had teleported here, they had heard that they had 20000 to 30000 players guarding the entrance of the teleportation Hall.

Zhang Shan had thought that they had gathered together to block the teleportation Hall of the cloud dream city.

It didn't look like it now.

Domineering Aura's guild members were everywhere, all around the teleportation Hall in DreamCloud city.

They could be seen everywhere.

However, the players from Guild domineering aura did not form a tight defensive formation. Instead, they were spread out in all directions.

In short, it seemed like domineering Aura's players were everywhere, but there weren't many players in each place.

After all, there were only 20000 to 30000 of them.

Of course, there couldn't be too many people in every place.

This was good too. If the formation was too tight, Zhang Shan would not dare to charge in.

The domineering air Guild was fighting in groups of two or three, and they posed no threat to Zhang Shan.

as long as he saw players from the state of qin, he would rush over and shoot them. after knocking them down, he would find the next batch and be done with it.

When Zhang Shan appeared, he activated his killing mode, which also attracted the attention of Guild Subjugator.

"someone's here to help. six-pipe bodhisattva is here."

"Which six-barreled Bodhisattva? The one with the divine artifact?"

that's right. Quickly send reinforcements. The divine artifact is so powerful. It's almost impossible to block it.

"All the f * cking people, come over and f * ck him up."

let's kill six-barreled Bodhisattva first. I heard that he killed many of our people in LAN Tian city.

Zhang Shan's impressive performance had attracted a large number of players from the domineering aura Guild.

Of course, the other party would not allow Zhang Shan to have such a good time. The happy killing mode didn't even last for half a minute.

A large group of Qin players gathered together and rushed towards Zhang Shan.

zhang shan looked around. there didn't seem to be any allies around.

Xiaoyao Wang didn't know if he was bragging.

Did they really teleport all 50000 of their guild members over?

Zhang Shan was a little suspicious.

If it was the carefree Guild, they would have sent 50000 players. However, it seemed like the domineering Guild had more players.

As for the people from the wind and cloud Guild, they were still arriving one after another. Zhang Shan did not see many of them.

F * ck, there were only 20000 to 30000 players in the Guild.

Meanwhile, both the carefree Guild and the wind and cloud Guild had a total of 100000 players.

Why did it seem like domineering aura had more players? this didn't make sense.

Could it be that the people from wind and cloud Guild were all knocked down at the entrance of the teleportation Hall when they teleported over?

He looked at the large group of guild members charging towards him.

Zhang Shan chose to avoid it and did not fight it head-on.

Teleportation was allowed in their own country's city. Only a fool would fight them head-on.

When the players from the domineering aura Guild were about to reach Zhang Shan, Zhang Shan teleported back to increase the distance between them.

He didn't go too far, only teleporting a few hundred yards back.

It was fine as long as the other party couldn't hit him.

He didn't dare to be careless and teleported to another place nearby. Who knew if he would run into a group of enemies?

From the looks of it, it seemed like domineering aura still had the advantage.

...

He had to figure out the situation first. He was still a little confused about the current situation.

According to the plan, it should have been after the people of wind and cloud Guild rushed out of the teleportation Hall.

They should work together with carefree Guild to destroy domineering Spirit's defense as soon as possible.

It wouldn't be like now, where there were Qin players everywhere, but not many of their own.

After putting some distance between them, Zhang Shan looked at the Guild channel. It was a mess.

"F * ck, didn't they say that the carefree Guild can disrupt the other side's defense? why did i die the moment i came out?"

I wonder what's going on. I also fell at the entrance of the teleportation Hall.

f * ck, it seems like the information is wrong. There are more than 20000 to 30000 Qin players defending the teleportation Hall.

"what the hell? Not twenty to thirty thousand people? How many of them are there?"

I don't know. There are Qin players everywhere, so how could there be only 20000 to 30000 people? "

f * ck, where are the people from the unfettered Guild? where the hell did they go? "

...

At this moment, Feng Yun realm said in the Guild channel.

the members of the carefree Guild have been tricked. When they teleported over, the domineering aura Guild used two powerful scrolls and took out more than half of their members.

"f * ck, what should we do then?"

He originally thought that there would be people from the unfettered Guild waiting for him in the teleportation Hall.

It shouldn't be too difficult for them to rush out.

In the end, domineering aura was just like Feng Yun realm, they had already made preparations.

However, they did not use their ultimate skills, but two powerful scrolls.

He had defeated all the members of the carefree Guild.

No wonder when Zhang Shan had rushed out, he had taken three hits and had almost died.

It turned out that the unfettered Guild did not have the effect of harassment at all.

The domineering aura Guild was still firmly stuck in the teleportation Hall of cloud dream city.

Zhang Shan was still alright, at least he managed to rush out.

The other members of the wind and cloud Guild were in a worse state. Most of them had probably been knocked down at the entrance of the teleportation Hall.

This couldn't go on. If he continued, he would flip over.

No matter how strong Zhang Shan was, he could not shake the defense of tens of thousands of players from domineering aura.

He had to pull in some people to cooperate. After all, the role of one person was limited.

calling for wind and cloud blade.

"brother yidao, are you still alive?"

fortunately, I almost died. I only had a few hundred HP left before I teleported away.

ASIBA was even more extreme than Zhang Shan, even though Zhang Shan had taken three hits.

However, he still had more than 10000 HP left.

wind and cloud blade only had a few hundred hp left. this was too much.

This brother was really lucky. Otherwise, he would have died if he had been hit one more time.

Chapter 274 counterattack

If even a wily old fox like Windcloud blade had almost died, it seemed like the situation was truly dire.

"How many people did we have? Do you have the statistics?"

Zhang Shan asked wind cloud blade.

he had to first understand the losses on his side and see how many people from the wind and cloud guild had rushed out.

If enough people rushed out, they could still continue.

I don't know either. It's a mess right now. Even the boss has been knocked out at the entrance of the teleportation Hall.

"F * ck, boss is dead too?"

Zhang Shan could not believe it. What the f * ck? then what was there to do?

If their boss was defeated, what were they going to do with the rest?

"Then what should we do? Do you have any plans?"

" let's wait for a while. boss has already told the people behind to stop teleporting over. the losses are too great. "

Alright, it was right for the people behind to not come over.

But the problem was, what were they going to do?

“Where are you? Give me the coordinates, we’ll go and kill them together.”

Zhang Shan planned to meet up with wind and cloud blade first.

In any case, they could teleport in the DreamCloud city. As long as they weren’t too stubborn, they wouldn’t die so easily.

With the two of them together, it would be easier to kill.

“I’m far away, and I don’t even dare to get too close to the teleportation Hall. Is your side safe? I’ll go to your place.”

Windcloud blade replied.

Alright, it seemed that the teleportation Hall was truly domineering Guild’s territory.

They didn’t dare to teleport in this direction for fear of falling into the enemy’s camp.

Zhang Shan looked around. The large group of Qin players from earlier were still chasing after him.

Even if Zhang Shan could teleport, they had no intention of giving up. It seemed like they would not give up until Zhang Shan was out of their sight.

“Come over, there’s a large group of players from the state of Qin chasing me,”

Zhang Shan invited Windcloud blade to join the party. After forming a party, they could see each other’s positions.

Zhang Shan retreated as he fought. Every time he defeated a few Qin players, he would teleport back a distance.

Let’s see how many of you can take me down.

Although he was being chased, he was not panicking at all.

It was convenient to fight on land. If he couldn’t win, he could teleport.

After a short while, wind and cloud blade teleported over.

“f * ck, there are hundreds of people chasing you. You still want me to come over?”

Windcloud blade said gloomily.

There were hundreds of Qin players chasing after Zhang Shan. Zhang Shan could fight while retreating.

However, wind and cloud blade could not. He was a Berserker.

if he couldn’t kill all the enemies with a charge, he would fall.

don’t worry, we’ll get another support. There are only a few hundred people. With an additional support, we can take them on.

Zhang Shan did not panic at all. There were only a few hundred people, what was there to be afraid of?

As long as there was a support, they would be able to fight head-on.

” that’s impossible. even if there’s a support, there are hundreds of them. i can’t go up unless i use my big move. ”

Wind cloud blade had no confidence at all.

you’re thinking too much. The support is here to resurrect you after you die. I don’t expect you to last until the end.

Zhang Shan’s idea of fighting head-on was that he only needed wind and cloud blade to block him for a while.

He would leave the rest to him. Once he defeated all these people, the support would naturally be able to revive Windcloud blade.

are you okay? if you can’t beat all of them when I fall, I’ll be finished. They’ll definitely guard my corpse.

Windcloud blade said worriedly.

“Don’t worry.”

Zhang Shan was very confident.

Perhaps these players from the state of Qin were the main elite force of the Guild, as their equipment and skills were all quite good.

However, he still could not block two shots from Zhang Shan. In fact, he only needed one shot to defeat most of the fragile professions.

There were only a few hundred people. As long as someone helped him block them, it would not take much effort to defeat them all.

Now, he just needed to find another support.

He called boss Wu to see if this guy was still alive.

...

“Boss Wu, are you still alive?”

“Fortunately, I teleported away as soon as I left the teleportation Hall.”

F * ck, boss Wu is awesome. His reaction is so fast. Of course, it could also be due to luck.

It was fine as long as he was alive.

After Zhang Shan pulled boss Wu into the group, the three of them gathered together.

the thai player who was chasing after him hesitated when he saw that there were two more people beside zhang shan.

the six-barreled Bodhisattva is calling for help. Should we continue our pursuit? ”

“what are you afraid of? continue chasing.”

“That’s right, there are only three of them right now, why should we be afraid of them when we have hundreds of people? Think of a way to rush over, stun him, and kill him in seconds.”

Zhang Shan and the other two retreated as they fought.

Of course, Zhang Shan was the only one attacking. Boss Wu could also attack from a distance.

...

However, the attack range of a Taoist priest was not as far as that of a Hunter. Zhang Shan only needed boss Wu to follow him and did not need him to attack.

when they had the chance to fight, they would attack together.

When Zhang Shan and the other two retreated into an alley, they saw that the Qin players were still chasing after them.

“Brother Yidao, let’s go! Let’s do it here!”

Although this alley wasn’t very narrow, it was at least better than an open space.

It had a restricting effect on the Qin players’ advantage in numbers.

Windcloud blade did not even use charge. Instead, he teleported and appeared in front of the players from the state of Qin.

Zhang Shan followed up at the same time. He activated fanaticism, and fierce bullets swept towards the other party.

The counterattack from the three of them caught the other party off guard.

Windcloud blade charged forward bravely, and boss Wu kept healing him.

He didn’t fall to the ground.

f * ck, he’s really looking for death. Hurry up and use the stun skill to stun Windcloud blade.

The Qin players on the other side were furious. Zhang Shan only had three people and they dared to rush into their hundreds of people. They were not afraid of anyone.

zhang shan did not care what they were thinking. he followed behind wind cloud blade, his bullets shooting non-stop.

Like the autumn wind sweeping the fallen leaves, they instantly knocked down a large number of Qin players.

A few thieves wanted to rush up and stun Windcloud blade.

Zhang Shan did not give them a chance at all. The bullets were fired at lightning speed, knocking down the few thieves.

“Where’s the ice Wizard? hurry up and stun wind and cloud blade.”

A thief's stun skill could only be used when they were close, and an Archer's Meteor arrow was not useful at this time either, as it was easy to Dodge.

One had to know that Zhang Shan and the rest could teleport. If they were hit by the meteor arrows, they would be better off hitting themselves with a piece of tofu.

In this situation, only the ice mage's stun skill would be effective.

However, there was no longer an ice mage in this group. They had long since retreated while fighting.

Zhang Shan made the ice wizards his main target and defeated them all.

"Damn it, where are the ice mages?"

stun my ass! Everyone, focus your fire on Windcloud blade. I think he can only last for a while.

if they focused their attacks, even with boss wu's healing, windcloud blade would not be able to hold on.

Chapter 275 again

Zhang Shan and the other two's sudden counterattack made the Qin players dizzy. Wind and cloud blade waved his axe and slashed wildly.

All sorts of skills were continuously used, one chop for one, two chops for one.

with a single earth splitting slash, a large number of them were cut down.

If it was not for the fact that his attack speed was a little slower, the efficiency of wind and cloud slash was no less than Zhang Shan's. It was extremely fierce.

The counterattack of the three of them made the players from the state of Qin extremely angry. They did not put them in their eyes at all.

Three people chasing and killing hundreds of people? Don't they care about their face?

don't panic. Let's focus our fire together and kill Windcloud blade first.

Zhang Shan and boss Wu were long-range jobs. With wind cloud blade in front, they were safe.

The players from the state of Qin were unable to attack the two of them for the time being, so they could only attack Windcloud blade continuously.

However, due to the terrain ...

In this small alley, the players from the state of Qin at the back could not see the situation in front of them.

Let alone attacking, there seemed to be quite a number of people who were able to attack Windcloud blade.

However, he did not manage to knock him down in a short time.

The players from the state of Qin coordinated their attack rhythm a few times, trying to rely on focusing their fire at the same time to instakill Windcloud blade, but none of them succeeded.

The gun in Zhang Shan's hands continuously shot out bullets, forcing the Qin players to retreat.

It didn't take long for them to defeat almost half of the Qin players.

The remaining players from the state of Qin focused their fire on Windcloud blade again.

"F * ck, I can't hold on any longer."

After saying that, Windcloud blade teleported away.

f * ck, if they can teleport, why are we even fighting them? we can't kill them at all.

These Qin players were all furious. Just as they were about to knock him down, he teleported away.

How could they fight then?

as windcloud blade teleported away, the players from the state of qin lost their target and stood there in a daze.

but zhang shan was not idle. the bullets were still sweeping out fiercely.

f * ck, blade of wind and cloud has escaped, but six-barreled Bodhisattva is still here. Cut him down.

a portion of the qin players rushed towards zhang shan.

But this time, the actions of the Qin players were not unified. Some wanted to continue to attack Zhang Shan.

However, some people didn't want to fight anymore. They couldn't kill anyone at all, so what was the point of fighting? they might as well go back and join the main force.

what's there to cut? when the six-barreled Bodhisattva teleports away again, we'll go back first and meet up with the people guarding the teleportation Hall.

"I don't care, I'm going to behead that six-barreled Bodhisattva first."

among the qin players, there was a difference in opinion. zhang shan did not know about it. All he needed to do was to keep shooting.

The number of Qin players who were charging over decreased.

Zhang Shan was happy.

Now, he didn't need to teleport anymore. He looked at the dozens of Qin players rushing towards him.

With so few people, Zhang Shan could have stood still and fought for himself. Now, with boss Wu by his side.

That would be even less of a problem.

"We won't run, we'll fight."

Zhang Shan said to boss Wu. At the same time, he called for wind and cloud blade to return.

Dozens of Qin players charged forward against Zhang Shan's intense firepower. They had a feeling.

As long as Zhang Shan was allowed to get close, he would be able to cut him down in two strikes.

When they were about to reach Zhang Shan, there were only twenty to thirty people left.

"F * ck, let me do it."

A Berserker player from the Qin country used his charge skill on Zhang Shan. At the same time, he continuously released two or three combo skills.

After taking away half of Zhang Shan's health, he was knocked out by two shots.

The Qin players at the back continued to charge, and Zhang Shan did not retreat an inch.

He had the lifesteal effect, and boss Wu was healing him from behind. It was impossible that he couldn't even handle this small number of people.

zhang shan endured the damage of twenty to thirty people and opened fire fiercely.

At this moment, Windcloud blade teleported back and charged into the crowd, using two AoE skills, horizontal sweep and earth splitter.

Together with Zhang Shan's fierce attacks, they quickly defeated all of them.

zhang shan looked into the distance. other than the iron-headed qin players, the other qin players had already retreated.

Zhang Shan asked wind cloud blade after finally settling this wave of people.

"What do we do now? We have to think of a way to break through the defense of Guild Subjugator and get our guild members here."

...

"We're already making preparations. We still have two to three thousand people who successfully made it out. you guys cover me while i teleport to the center of domineering aura's defense and use my ultimate skill."

that's good. It'll be easy as long as there are two to three thousand people left.

Zhang Shan had thought that not many people would rush out. Two to three thousand people would be enough.

All they needed to do was to attract the attention of domineering aura and give Windcloud blade a chance.

He teleported to the middle of the enemy's defensive formation and used his big move to kill the group of people blocking the entrance of the teleportation Hall.

The remaining members of wind and cloud could teleport over.

“Let’s go, we’ll go kill some people first, and then we’ll teleport together after we’ve coordinated.”

Zhang Shan did not plan to wait here like an idiot. He continued to lure another group of Qin players over.

Although they could only defeat them at once, the tens of Qin players were nothing to the 20 to 30 thousand people defending this place.

It was just a drizzle, but it was always good to knock down a few more.

The members of the wind and cloud Guild were coordinating their actions, but Zhang Shan had been wandering around the teleportation Hall.

...

When they saw a small number of Qin players, they would rush up and sweep them. If they saw too many players, they would immediately teleport and run away.

He did it back and forth a few times and defeated hundreds of people.

At this moment, Windling’s voice came from the Guild channel.

get ready. We’ll teleport to the center of Subjugator’s defensive formation and use our ultimate skill. Those who haven’t teleported over, get ready.

“Received.”

Feng Yun realm had fallen to the ground and now, it was wind chimes who was in command.

“begin.”

After wind chimes had finished speaking in the Guild channel, Zhang Shan looked at the minimap and teleported directly to the main entrance of the teleportation Hall.

This time, he was going to fight it out. His passive skill, rebirth, was still on cooldown.

They could only wait for help.

However, he couldn’t care about that now.

after zhang shan teleported over, he realized that he had just landed in the midst of the enemy.

They were surrounded by Qin players with purple names.

Fuck.

zhang shan was depressed. when the qin players saw him, all sorts of knives were thrown at him.

He had to struggle for a while. Zhang Shan activated his berserk and fanatic skills. He withstood all kinds of damage and the bullets swept out.

Although he had a 13% lifesteal effect, it was impossible for him to absorb all the damage.

At this moment, wind and cloud blade teleported over and landed not far away from him.

After landing on the ground, Windcloud blade brandished his battle axe and instantly activated his destructive skill.

Violent impulse waves spread out in all directions with wind cloud blade as the center.

All the Qin players were killed and fell to the ground.

The Qin players around Zhang Shan were also covered by wind and cloud blade's big move.

Haha, I've saved my dog life.

Chapter 276

wind and cloud blade's destructive skill had created a huge hole in guild domination's defensive formation.

At the same time, he had also saved Zhang Shan's life. Otherwise, he would not have been able to hold on for more than a few seconds.

At the same time, a large number of wind cloud guild members rushed out of the teleportation Hall.

The members of domineering aura who were directly facing the teleportation Hall were all wiped out by Windcloud blade's destruction skill.

The people who were teleported over were very safe.

hurry up and block the teleportation Hall. We can't let the people from the wind and cloud Guild teleport here again.

rush to the teleportation Hall's entrance and block it.

Seeing the players from wind and cloud Guild continuously teleporting over, the players from Subjugator grew anxious.

After a while, the tens of thousands of players from the wind and cloud Guild would all be teleported to DreamCloud city.

Why was domineering aura still blocking the way here? it would be a miracle if they were not completely annihilated.

The players from the state of Qin reacted and rushed towards the teleportation Hall.

Zhang Shan stood near the entrance of the teleportation Hall with a long spear in his hand. The fierce bullets swept across.

A large number of Qin players who were charging over were knocked down.

However, there were too many people rushing over. He was almost unable to hold on.

those who are already here, gather quickly and block the entrance of the teleportation Hall first to cover the people behind.

At this moment, Feng Yun realm had already been revived and brought his men to Zhang Shan's side.

Together, they guarded the entrance of the teleportation Hall.

After wind and cloud blade had used his ultimate, he quickly retreated and moved closer to Zhang Shan.

In an instant, thousands of players from the wind and cloud Guild gathered and guarded the teleportation Hall's entrance.

Domineering aura tried to charge in a few times, but they could not.

The situation was no longer on their side, unless domineering aura still had some powerful scrolls.

Otherwise, they could forget about being stuck in the teleportation Hall of the DreamCloud city.

As more and more people from the wind and cloud Guild were teleported over, Feng Yun realm shouted in the Guild channel.

"counterattack and push the domineering aura players back."

Tens of thousands of wind and cloud guild members roared as they charged towards domineering Aura's side.

Their numbers were no less than the enemy's, and they were fighting on their own land.

They would teleport away as soon as their health was low, unlike the players from the state of Qin who could only lie down when they could not win. They could not even run away.

Wind cloud blade brandished his divine weapon, the battle axe, and took the lead.

He activated his charge skill and charged straight into the enemy's crowd.

he wasn't afraid of being surrounded by the other party because there were still tens of thousands of wind and cloud guild members behind him.

Even if wind cloud blade charged into the crowd of players from the state of Qin, the other party would not have the time to focus fire on him.

windcloud blade led a group of warriors and slashed left and right in front of them.

Zhang Shan and the other fragile professions provided long-range fire support from behind.

The Qin players were forced to retreat.

"haha, they can't hold on any longer. hurry up and attack!"

"Don't let them get away."

"Run my ass, where can they run to? We can teleport, can they outrun us?"

haha, you're right. Keep an eye on them. Don't let any of them escape. Beat them all up.

Soon, all of wind and cloud Guild's members arrived.

in terms of numbers, they had crushed the players from the state of qin.

Right now, there was no need to talk about defending DreamCloud city's teleportation Hall.

It was a question as to how many people would be able to survive.

the wind and cloud guild's entire army pressed forward. the players who had been knocked down at the entrance of the teleportation hall were also resurrected.

the 45,000 men charged over like a tide.

In order to prevent the other party from taking desperate measures, the wind and cloud Guild did not adopt the tactic of surrounding them from all sides.

They only chased after the Qin players.

since he could teleport, why did he have to surround them? wasn't it better to chase after them?

They weren't afraid that the Qin players would run away. Those Qin players who wanted to escape by themselves.

As soon as they left their main force, a large group of wind and cloud guild members would immediately teleport over.

After the chaotic blades fell, they continued to chase the sheep behind the players from the state of Qin.

"f * ck, this won't do. we can't run away like this. why don't we turn around and fight it out with the wind and cloud guild?"

"what's the point of fighting? do you know how many people we have left? how many people did wind and cloud have? Can you win?"

...

"Then what should we do? You can't keep running like this, you'll be beaten down sooner or later."

there's nothing we can do about it. We have to get there as soon as possible and meet up with Subjugator. They still have more than 100000 people.

f * ck! Subjugator and the others are at the East Gate. Can we even last until then? "

"There's no other way. If you want to live, run that way."

Zhang Shan followed the people from the wind and cloud Guild, chasing and killing the players from the Qin country.

After chasing for a while, Zhang Shan felt that this was a little inefficient.

When these Qin players were escaping, they followed them quite quickly.

Even if Zhang Shan and the others could use teleportation to follow behind the other party.

However, he couldn't consistently deal damage as his opponent was always running.

After Zhang Shan teleported over, he could only fire a few shots. The other party would run out of his shooting range, and he would have to continue teleporting to give chase.

After all, people who were fleeing could ride horses.

...

He had just teleported behind the players from the state of Qin and had only fired a few shots when the other party rode away.

keep them alive. Where are your skills? stun or slow them down.

“f * ck, i don’t have any skills left. i’ve already used them, and they’re still on cooldown.”

This wouldn’t do. The efficiency was too f * cking low.

Zhang Shan directly teleported in front of the Qin players. He planned to intercept them directly.

Perhaps it was like a Mantis trying to stop a chariot, but it felt good to fight like this. Anyway, the other party was running away on a horse and could not attack him.

When the Qin players decided to dismount and attack him, he would teleport away.

Zhang Shan held his hand cannon and blocked the path of the Qin players. The bullets swept across and knocked the Qin players off their horses one by one.

f * ck, this six-barreled Bodhisattva is too arrogant. I can’t stand him anymore. Men, get off your horses and drive him away.

why bother with him? run! We need to meet up with the domineering King as soon as possible. That’s the most important thing.

yeah, don’t bother with six-barreled Bodhisattva. How many can he defeat by himself? ”

These Qin players completely ignored Zhang Shan and rode past him.

there was no time to get off the horse and pay attention to zhang shan.

This was great. He stood in the crowd and fired fiercely, happily harvesting heads.

It was like a cannon, standing in the crowd.

The key was the Qin players. They could only take the beating passively and no one bothered with him.

At this moment, the other party only wanted to run away. He had no intention of fighting Zhang Shan head-on.

After seeing Zhang Shan’s actions, the other members of the wind cloud Guild could not help but follow suit.

One by one, they teleported to the front of the Qin players and blocked their attacks.

Chapter 277 split up

More and more members of wind and cloud teleported to the front to intercept the players from the country of Qin.

In the beginning, the players from the state of Qin did not want to bother with them and only wanted to run away.

However, he later discovered that there were simply too many wind and cloud guild members blocking his way.

If they ignored it, they would not be able to run at all.

what the f * ck? is everyone so arrogant? I can't take it anymore.

A player from the state of Qin was furious. After getting off his horse, he used charge and a combo attack, cutting down a member of the wind and cloud Guild who was blocking his way.

However, that was all. Before he could get on his horse and run away, he was defeated by the other members of the wind and cloud Guild.

those who got off their horses were the priority targets of the wind and cloud guild because they were dangerous.

Those on the horse could only take the beating and not fight back, but it was a different story for those off the horse.

these people were full of aggression and had to be dealt with first.

it looks like they're going to meet up with the Subjugator. Let's try to stop them all.

"F * ck, no wonder they're running for their lives,"

"Let's teleport to the front and form an interception formation to intercept all of them. We can't let them meet up."

where's the domineering King? what's the situation over there? "

I heard that the domineering King is leading 100000 people toward the South Gate. The Dragon King of the eastern sea and King Xiaoyao are leading millions of players from the cloud dream city and are attacking them.

then we can't let this group of people pass. When they gather together, it'll be even more difficult to fight.

holy crap! Can the cloud dream city still organize millions of people? "

"Don't underestimate them. They've already fought their way into the city. What's so strange about organizing a million people?"

At this moment, the people from wind and cloud finally reacted. No wonder these players from the state of Qin had been running for their lives.

he turned a blind eye to the wind cloud guild's attack because he wanted to meet up with subjugator.

The Qin players that Subjugator had brought to DreamCloud city originally numbered more than 200000.

After such a long Battle Royale, traversing Four Seas and the unfettered Guild in cloud dream city had also managed to take down tens of thousands of players.

Currently, there were only a hundred thousand players left on Subjugator's side. In addition to the players that wind cloud Guild was currently hunting down, there were still more than ten thousand players left.

It could be said that the tyrant king had come to the DreamCloud city to massacre the entire city.

But the losses were also huge.

Most importantly, they were in a dilemma.

He was being held back by the Dragon King of the East Sea and King Xiaoyao, so he had no chance to cast a channel back.

They could only think of a way to get out of the city. If they were outside the city, they would have much more space to move around.

Furthermore, the players of DreamCloud city would not be able to teleport and chase after them if they were outside the city.

In that case, the players from the state of Qin could run their horses without worry as long as the horses were fast enough.

he could've safely returned after pulling away.

But the Dragon King of the East Sea and King Xiaoyao obviously didn't want to give them this chance.

They had been blocking the way for the domineering King, preventing them from leaving the city.

It was the same for the Qin players that Zhang Shan and the rest were chasing.

They didn't even have the chance to cast a teleport back to the city before the wind cloud Guild came to cloud dream city.

There was still a chance for them to return, whether it was a channeling bar or a direct teleportation.

All of them were fine.

However, once the wind and cloud Guild arrived, they would no longer have a chance.

right now, all he wanted to do was to join up with the domineering king and stay together for warmth.

If we run, we run. If we fall, we fall.

After understanding the intentions of the Qin players, Feng Yun realm immediately led his men to form an interception formation.

Zhang Shan and the others continued to mix in with the Qin players and kill without restraint.

After a while, this group of Qin players ran into the interception formation that Feng Yun realm had set up.

f * ck, the wind and cloud Guild is blocking the way. Get down from the horse and attack.

” f * ck you! we’ll see if we can survive this. ”

The Qin players who were riding their horses all dismounted and attacked.

F * ck, run!

zhang shan, who was happily harvesting heads, saw a large number of qin players starting to dismount.

He had to teleport and escape. If he was any slower, he would have been cut down by the blades.

Zhang Shan teleported to the nearby area, like a wild wolf staring at a flock of sheep, ready to attack again at any time.

After passing through the wind cloud Guild, they were surrounded and blocked all the way. At this time, the remaining Qin players were already less than 10000.

However, these people were the main players of the state of Qin, after all, and they were still very strong.

...

It wouldn’t be easy for the wind cloud Guild to get rid of all these people.

the qin players were attacking feng yun realm with all their might while zhang shan was secretly attacking from the side.

One by one, he knocked the Qin players to the ground. If these people turned around and charged at him, he would be killed.

He would immediately teleport away in a very wretched manner.

The Qin players had no way to deal with Zhang Shan and the rest. They did not want to fight them head-on.

He couldn’t defend against it, he couldn’t chase it, he could only take the beating.

The only way was to quickly open up a path ahead and meet up with the tyrant king.

There were many Qin players gathered there, and most of them were elite players.

Their ability to stay alive as a group was much stronger.

Unfortunately, their idea was good, but it was impossible to realize it.

Feng Yun realm led over ten thousand men and blocked their way.

...

The remaining 30000 or so wind and cloud guild members were like Zhang Shan, constantly harassing them.

From time to time, he would ambush and defeat a few, and the remaining Qin players were getting fewer and fewer.

they were almost all killed by the wind and cloud guild.

“we can’t charge through. let’s split up and break out. whether we can survive or not will depend on our luck.”

A player from the state of Qin suggested when he saw that they couldn’t rush over.

“it’s even more impossible to split up. when we’re gathered together, we’re still a force that can’t be ignored. if we split up, we won’t be able to fight.”

what’s the point of fighting now? what’s important now is to save our lives. If we don’t split up, how are we going to run? there are tens of thousands of people from the wind and cloud Guild watching us. Not a single one of them can escape.

“That’s right. Although it’s more dangerous to split up, there will always be some people who can escape.”

“Let’s not talk anymore, let’s all run for our lives.”

The players from the state of Qin who were still charging at the wind cloud Guild’s defense line suddenly scattered and ran in all directions.

f * ck, they’re trying to split up. Pay attention and keep an eye on them. Each of you, keep an eye on your own targets.

you’re thinking too much if you want to run now. Let’s have a few people watch one person. We’ll kill them first and then slowly kill them.

Zhang Shan did not need to care so much. When he saw the players from the Qin country, he would teleport over and shoot them down with two shots. Then, he would find his next target.

The wind and cloud Guild had more than 40000 players, but less than 10000 players were chasing them. Moreover, it could teleport.

if they still let the other party escape, then there was no reason. unless someone was so lucky that they didn’t get targeted by the wind and cloud guild.

Otherwise, they would all fall to the ground in DreamCloud city.

Chapter 278 50,000 steel cavalry

After the players from the state of Qin split up and fled, the members of the wind and cloud Guild also split up and chased after them.

With an average of three to five people ganging up on one, it didn’t take long for them to wipe out the remaining Qin players.

As for whether there were any fish that escaped the net? Then no one would care. It was fine as long as they won.

Even if a few of them managed to escape, it wouldn’t be a big deal.

After dealing with this group of people, it was time to prepare to face the main force of Qin led by the domineering King.

There were still over 100000 players from the state of Qin on Subjugator's side.

The Dragon King of the eastern sea and King Xiaoyao had been leading the players of Yunmeng city to besiege them.

However, in reality, they did not defeat many Qin players.

After all, the 100000 Qin players led by the domineering King were the true elites.

With the strength of DreamCloud city, if they didn't go all out, they wouldn't have been able to hold back the tyrannical King.

haha, I've had a great time today. I've killed hundreds of people.

Windcloud blade laughed maniacally.

hehe, it's alright. I've also killed a few dozen.

wuwuwu, I haven't even cut down many people. When I teleported here just now, I was knocked down at the door before I could teleport away in time.

"Don't worry, young man. When you show off your skills, don't you think that there are still over 100000 people on Subjugator's side? We'll chop them up later."

"What's the situation with Subjugator? Did the people from cloud dream city manage to keep them here?"

if you stay, the domineering King won't be able to escape this time.

the Dragon King of the eastern sea and King Xiaoyao are really tough. Did they really keep the domineering King? "

that's right. I heard that they've been intercepting all the way and using human lives to fill the gap. Especially at the southern gate, hundreds of thousands of players from Yunmeng city have directly blocked the gate with their human flesh. Even after a few attempts, the domineering King was unable to break through.

Holy F * ck! The domineering King has met a tough opponent this time.

"How can I not be ruthless? You've come to someone else's house to massacre the entire city, no one can tolerate this."

that's right. The domineering King has gone too far. This time, we'll make sure he goes back lying down.

"That's strange. Aren't there more than 100000 people in the domineering King? why didn't you split them up and cover them? let a portion of them cast the spell and return to the city first."

you're thinking too much. If that's the case, some of us can go back, but what about the rest? "

"Yeah, who's going to stay behind to cover us?"

“It’s impossible to do that. With 100000 or so people gathered together, they’re still quite powerful. The players from DreamCloud city won’t be able to take them down in a short time. However, if a portion of them return, the rest of them won’t be able to defend against the attacks of the DreamCloud city.”

that’s right. If they gather together, they still have a chance of survival. If they leave in groups, they will only die an even uglier death. Furthermore, it’s not appropriate to sacrifice anyone. The domineering King would not do that.

“Who cares what they want to do? The problem is, what do we do now? Do you want to attack the tyrant king together?”

“isn’t that obvious? Of course I’m going.”

“That will be a tough battle.”

what’s there to be afraid of? if you die, just lie on the ground and wait for help. We have the home field advantage, what’s there to worry about? we can always wait for the support to resurrect us.

“Let’s go, let’s kill them.”

everyone gather. We’ll ride our horses over. It’s chaotic over there, so don’t teleport into the enemy’s group.

Feng Yun realm said in the Guild channel.

In a short while, almost all the members of wind and cloud Guild who were online, except for the little Secretary who was busy with the divine weapon mission and had yet to receive any news, were present.

Those who had been knocked down before were all resurrected.

Nearly 50,000 people were riding on their horses. It was a spectacular scene.

wait a minute. Let me take a screenshot first. This scene is spectacular.

f * ck, your train of thought is really novel. Let me take a screenshot first, hehe.

“haha, wait a moment, i’ll take the same screenshot.”

After everyone had arrived, Feng Yun realm waved his hand and said.

“Let’s go. Our destination is the South Gate.”

The 50,000 cavalymen charged toward the South Gate of the DreamCloud city.

Even though the cities in the New World were huge, the speed of riding a horse was very fast.

Moreover, they had already covered quite a distance when they chased the Qin players.

They had originally been running towards the South Gate, hoping to meet up with the tyrant king.

It didn’t take long for the people from wind and cloud Guild to arrive near the battlefield at the South Gate.

The front was in a chaotic battle.

A large group of Qin players formed a formation and wanted to charge out.

However, more and more players from cloud dream city blocked their way and charged forward.

After one player fell, more and more players from Yunmeng city continued to attack the formation of the players from the state of Qin.

although most of the qin players were quite strong, they were still unable to deal with the large number of players from the cloud dream city.

...

From time to time, there would be people falling, and some just happened to have support on the side, and their resurrection skills were on cooldown.

They could still be revived, and some of the Qin players could not wait for help after they fell, so they could only choose to return to the city to revive.

After Zhang Shan and the rest rushed to the battlefield, they quickly dismounted and joined the attack.

“I say, brother, aren’t you going to say something first? Why did they just fight?”

“What’s there to say, just do it.”

sigh, this is damaging to my image as a civilized person. Shouldn’t we have a few words before the battle? ”

talk my ass. Villains die because they talk too much. Do you want to be a villain? ”

“f * ck, you’re right. what the f * ck?”

With the addition of the wind and cloud Guild, the defense line of the players in the state of Qin was instantly shaken.

Although they hadn’t been able to charge out of the southern city gate, they had been suppressing the DreamCloud city.

now, with the addition of the wind and cloud guild, this fresh force would turn the situation around in an instant.

...

although the number of people in wind and cloud guild didn’t seem to be a lot, it was still very small. At least, it was not comparable to the millions of players in the entire cloud dream city.

50,000 people were indeed nothing.

However, the players from wind and cloud Guild were basically considered elite players in the game.

Even if their equipment was bad, they could still get a full set of orange equipment, which was better than the civilian players in cloud dream city.

It was several levels stronger.

Zhang Shan took the lead, his hand cannon continuously firing bullets, knocking down the Qin players one by one.

In such a large-scale battle, Zhang Shan had allies in all directions.

He didn't have to worry about being cut by all kinds of knives. He only needed to keep shooting under the cover of his allies. It was great.

Even if they were occasionally hit by the long-range firepower of the Qin players, it would not matter.

As long as he didn't die instantly, the blood-sucking effect on his equipment would quickly recover his HP.

Zhang Shan's fierce firepower quickly tore a hole in the Qin players' defense line in their direction.

More members of the wind and cloud Guild quickly followed.

they charged forward and destroyed the defensive formation that the domineering king had set up.

If they had continued to attack for a while longer, the Qin players led by the Subjugator would have collapsed.

Chapter 279 If you're here, then stay!

Seeing Zhang Shan's rapid breakthrough, Subjugator quickly gathered more Qin players to come over.

As more and more Qin players came to help, Zhang Shan and the rest's offensive was stopped. They were even pushed back by the other side.

"Damn, these Qin players are so strong."

why are they all coming our way? aren't the domineering Kings guarding the other directions?"

who cares? we're under a lot of pressure here, but it's fine if the other places are a little more relaxed. In any case, the tyrant king is dead for sure.

More and more Qin players were pressing towards Zhang Shan. The Guild members at the side were almost unable to hold on.

Zhang Shan was fine at first. He was just a hired thug, and he just had to keep firing.

but now that his allies couldn't hold on and were retreating, he couldn't take on so many qin players by himself.

Zhang Shan looked at the situation around him.

Damn it, if I can't fight here, I can at least fight on another side, right?

At the thought of this, he immediately used teleportation and ran in another direction. after the violent bullets were fired, an opening was created, but it attracted more qin players.

Alright, I'll let you guys support me.

After seeing a large number of Qin players coming over to help, Zhang Shan teleported away again.

They changed locations and continued to fight guerilla warfare.

As long as he could knock down the opponent, it would be fine. As for whether he could break through domineering King's defense?

This was not a problem that Zhang Shan had to be concerned about. He only needed to defeat more enemies.

As long as he could defeat more enemies, the domineering King would eventually fall.

as for breaking through the defense line of the domineering king, it was better to let someone else do it.

in fact, zhang shan was not the only one who did this. many players from the wind and cloud guild did the same.

It was not easy to break through Subjugator's defensive line. The only way was to keep consuming the enemy's defensive personnel.

when the people that domineering king had brought were almost all defeated. There was no need for them to charge.

These Qin players would all collapse on their own.

It didn't take long for the tyrant king to realize the urgency of the situation.

There was no need for too many. Out of the 100000 Qin players, half of them would be defeated.

If their numbers were to fall below 100000, it would be very dangerous.

it was almost impossible to block the attacks of the players from cloud dream city and the wind cloud guild.

"Follow me."

with a wave of his hand, he led the guild's elite members and charged out.

come over here! The domineering King is over here! Someone, take him down!

After seeing the domineering King and leading the charge, some people kept shouting in the cloud dream city's regional channel.

After Zhang Shan saw the message, he immediately teleported over according to the coordinates.

Tyrant king was an arrogant fellow. Let's see where he could run to this time.

When Zhang Shan teleported over, he realized that Feng Yun realm, Eastern Sea Dragon King, and freedom King, the three guild leaders, had arrived.

each of them brought their own people and blocked the way of the domineering king.

There was no way he could fight to the death. He had to stay.

This was what all the players in DreamCloud city were thinking. They could not let the domineering King escape.

With his men, domineering King launched wave after wave of attacks. However, other than the fallen members, there was no effect.

Seeing that there was no hope of getting out, Subjugator said to Feng Yun realm.

“Feng Yun realm, I really couldn’t tell that you’re such a ruthless character. I knew that you would come to the cloud dream city to provide assistance, but I never thought that you would dare to go to LAN Tian and massacre the entire city. You’re really bold.”

“There’s no need to be bold. If you can come to Chu State to massacre the city, we can naturally go to Qin State to massacre the city. What’s so strange about that?”

Feng Yun realm said indifferently.

“well said, very well said. I didn’t provoke the wind and cloud Guild before, right? so, you’re the one who’s targeting me.”

In Subjugator’s mind, he was only going to Yunmeng city to massacre everyone. He did not go to Dangyang city where the wind cloud Guild was located.

What right do you have to get involved? aren’t you targeting me, the domineering King?

He didn’t even think about it. Although the wind and cloud Guild wasn’t in cloud dream city, cloud dream city was still a city of Chu State.

If you’re unhappy today, you can come to DreamCloud city to massacre a wave of people.

Did he also want to make a trip to Dangyang city?

If they didn’t defeat the overbearing King’s arrogance, how would the players of Chu be able to gain a foothold in the game in the future?

“What you think is your business, I only make my own choice.”

Feng Yun realm was too lazy to argue with the domineering King. He would do whatever he wanted.

If you think I’m targeting you, then so be it. What can you do to me?

Feng Yun realm did not bother to answer the question of the domineering King.

...

good, very good. We’ve had quite a bit of contact before, and I’ve finally gotten to know you better today.

After saying this, the domineering King continued to ask.

“Then, how do you think we should end this now? do we have to fight to the death? why don’t we both take a step back? i’ll bring my men back, and today’s matter will end here. i won’t pursue the matter of you massacring the blue field city, and you can also forget about the matter of cloud dream city.”

It was a good idea, and it seemed to be the case.

Although it was a little wrong for the domineering King to come to dreamy cloud City to massacre everyone, the wind cloud Guild had also come to my blue field city to massacre everyone. We're even now, so let's go back to our own homes?

Then, if I don't pursue the actions of the wind and cloud Guild, you guys can stop looking for trouble?

what wishful thinking! even wind cloud blade did not know how to answer this egoistic maniac.

Was the wind cloud Guild afraid of them pursuing the matter? Guild Subjugator was strong, but Guild wind cloud was not weak either.

If they were to really fight, it was still uncertain who would win.

before wind cloud blade could think of an answer, the dragon king of the eastern sea continued angrily.

"you still want to go back? in your dreams. now that you're here, you can go back lying down."

...

The Dragon King of the eastern sea was furious. Traversing Four Seas had clashed with domineering aura over a small matter.

they didn't expect the domineering king to be so persistent and target them on the map of heaven's gate.

They actually came to cloud dream city to massacre the entire city. They were too arrogant, weren't they? now that they were trapped, they still wanted to escape unscathed?

He thought too highly of himself, thinking that the world revolved around him.

Subjugator ignored the Dragon King. To him, traversing Four Seas was not a threat.

Among the three guilds from Chu State, the wind and cloud Guild had the least number of people. Only their own guild members had come.

They didn't call for other pub players, but their overall strength was the strongest in the wind cloud Guild.

As long as the wind and cloud Guild backed out, things would be easy.

The remaining members of traversing Four Seas and getaway would not be able to stop them from returning home.

I'm sorry, but I like to finish what I started. Since you're here, you can stay. As for the future, if you want to target the wind and cloud Guild, bring it on.

Feng Yun realm's reply was slow but firm, leaving no room for negotiation.

If you're here, then stay.

chapter 280 taking the head in the midst of an army of ten thousand

Feng Yun realm's reply had directly blocked the path of negotiation.

Because Feng Yun realm's words were very clear, what do you want to do in the future? That was a matter for the future.

As for today, since you've come all the way to the DreamCloud city to massacre everyone, then you'll all have to stay here.

If he wanted to run, he could just kill his way out with his own abilities.

" your wind cloud guild is doing well. the grudge between us is settled. just you wait. "

Subjugator was furious. In his mind, there were very few people who dared to disrespect him in the game.

The domineering aura Guild had a lot of brothers, a lot of people, and they were also very rich.

He was used to being arrogant. He did not even take the war god Guild seriously.

he didn't expect feng yun realm to not give him any face, not even giving him a chance to negotiate.

He originally thought that the wind and cloud Guild would not suffer any losses and would even gain a huge advantage.

Wouldn't it be good if they gave him a way out and everyone stopped?

Why didn't he think about the fact that he, the domineering King, was the one who had caused this?

He didn't consider the consequences when he was doing things, and even now, he still felt that others didn't give him face?

When he had come to DreamCloud city to massacre the city, had he ever thought of giving the players of DreamCloud city face?

Did they even think about going over to give the players of Chu some face?

had it ever occurred to him that the wind and cloud guild was also in the camp of the chu country?

He, the domineering King, had definitely not thought of this. In his mind, he would not attack her.

You're about to burn incense, so why would you consider your feelings?

"You can think whatever you want, as long as I make you stay here today."

Feng Yun realm did not care about the threat that domineering King posed to him. It was just a game.

It was originally for fun, but if he was threatened by others while playing a game, he would be restrained.

Then what's the point of playing?

Moreover, Feng Yun realm was not an ordinary person. Would he be afraid of threats?

As for the possibility that the wind cloud Guild would be targeted by Subjugator in the future?

That didn't matter. The wind and cloud Guild wasn't a pushover that could be easily crushed.

If they really wanted to do it, perhaps the wind and cloud Guild might not be able to handle it, but the same could not be said for the domineering aura Guild.

"why are you talking so much to him? let's take them down first."

After the Dragon King of the eastern sea finished speaking, he led his men and charged towards the domineering King.

He hated this person to the core. He was too arrogant and annoying.

Previously, Zhang Shan had also caused the Dragon King of the East Sea to be dejected.

But they were the ones who had taken the initiative to look for trouble. Furthermore, Zhang Shan had not glared at them anymore.

After the battle, they went their separate ways. After Zhang Shan and the wind cloud Guild, they did not continue to be so persistent.

there was no one like subjugator who did not only chase after traversing four seas in the heaven's gate map.

As long as they were players from Chu State, they would kill them on sight.

After that, he became more and more outrageous. He actually killed his way to the cloud dream city and massacred it. This person must be crazy.

Did he really think that everyone else had no temper?

Since the Dragon King of the eastern sea was the first to attack, the carefree Guild and the wind and cloud Guild could not sit still either.

Together, they launched a fierce attack on the domineering King.

zhang shan's hand cannon did not stop firing. the bullets were fired continuously, and in a short while, a large group of qin players had been killed.

However, there were still more than 100000 players from the state of Qin at the scene.

It wouldn't have much of an impact on the overall situation, unless they first defeated Subjugator and guarded his corpse so that the Qin players wouldn't come over to revive him.

that way, they would be able to crush the confidence of the qin players and defeat them earlier.

The current situation was just a huge war of attrition. Although there were Qin players who were constantly being beaten to the ground, there were still many of them.

However, many of the players from cloud dream city and the wind and cloud Guild were also dying.

Even though they could teleport in their own country's city, they couldn't do it in such a chaotic situation.

It would also be difficult to survive.

when a few attacks came at him at the same time, he would be killed instantly. there was no chance to teleport away.

From the looks of it, the Qin players were obviously at a disadvantage.

However, it would probably take a long time to determine the winner.

The DreamCloud city had always wanted to secure their victory as soon as possible.

They had set their target on the tyrant king. They only needed to take him down.

The spirit of the Qin players would be reduced by half.

...

It would be much easier to beat the dog while it was down later on.

everyone understood the principle of capturing the king first.

Of course, the Qin players knew.

The players from cloud dream city and wind and cloud Guild could teleport.

they didn't have the chance to rush over and beat the three guild leaders.

On the other hand, it was easy for the domineering King to become the target of the enemy. Of course, he had to be protected.

The domineering King was not far from them.

The players from DreamCloud city organized themselves and teleported over together. They wanted to take a gamble and kill the domineering King in one hit.

However, none of them had succeeded. The equipment on Subjugator's body was impressive, and he had a large number of Qin players protecting him.

The players of DreamCloud city were like moths to a flame. They continuously teleported toward the location of the domineering King.

Soon, they were beaten to the ground by the Qin players, and the next group of people teleported over.

...

It looked like he wouldn't stop until he cut down the domineering King.

As Zhang Shan attacked, he observed the situation on the other side of the domineering King.

these players from dreamcloud city were not good enough. they were just courting death, and the other party was waiting for them.

If they teleported over, they would not be able to achieve the effect of a surprise attack at all.

The key was that the players from cloud dream city were not strong enough.

After teleporting over, there was no way he could beat the Qin players next to the Overlord.

although there were only a few hundred people protecting the overbearing king, these few hundred people were the true elites.

Their equipment and skills were all good, and they were all experienced players. Very good.

Every time someone teleported over from the DreamCloud city, they would be easily defeated.

Zhang Shan observed for a while and thought, should I behead him?

He was confident that he could teleport over and defeat the tyrant king, given Zhang Shan's attack power.

Defeating Subjugator was a piece of cake, no matter how good his equipment and skills were.

To Zhang Shan, there was no difference. It was just a matter of two or three shots. There was not much difference.

However, he couldn't do it alone. Even if he teleported over and defeated the domineering King ...

But if he couldn't stand there, it would be meaningless.

The opponent's support would be able to revive Subjugator very quickly.

And if Zhang Shan himself teleported over, he might not be able to come out.

He had to gather a group of people and go over there together to do something ruthless. He had to directly knock down the tyrant king.

Then, they stepped on his corpse and firmly guarded it, not allowing other Qin players to approach.

He wanted to prevent the opponent's support from coming over to revive Subjugator. That would be the real way of taking his head in the midst of an Army of thousands.

Killing people but not guarding their corpses, wasn't it a waste?
