

Passive Skills 321

Chapter 321 a little demon (2)

Zhang Shan observed them carefully. Those Qin players were all solo players without guilds.

It was not easy for pub players to gather thousands of players to fight a BOSS.

“Without Guild domination’s people, what are we going to do? should we go straight up or wait until they’re all dead before we talk?”

Zhang Shan asked the others.

who cares if he’s from the domineering Army or not. Even if domineering King is fighting a BOSS, we’ll still kill him.

windcloud blade said nonchalantly. in any case, as long as they were players from the state of qin, he would just kill them.

Now that the enmity between the two camps was so great, there was no need to worry about anything.

“Should we wait until they’re all dead before going up?”

Boss Wu suggested.

there’s no need to wait. Who knows if they’ve called for other reinforcements? let’s just go up and kill them first, then defeat the boss and leave.

Zhang Shan also felt that there was no need to wait any longer. After all, there were not many players left from the Qin country.

There were less than 200 players from the state of Qin standing there. If the four of them charged forward, they could easily sweep the place clean without having to worry about losing.

Among the four, Zhang Shan and wind cloud blade both had divine weapons and were extremely strong.

To deal with these Qin players, they could basically be defeated in one hit.

As for the other little demon, this girl was not simple either.

Those who could afford a hero’s Mount would not have poor equipment and skills.

No matter how they looked at it, these Qin players would not be able to defeat this BOSS. However, they still did not give up.

Zhang Shan suspected that these Qin players had called for backup. Otherwise, they would not have needed to persist.

He had to end the battle as soon as possible to prevent a large group of Qin players from coming later. That would be difficult.

“yes, let’s just rush over and kill the players first, then fight the BOSS.”

Wind and cloud blade agreed.

“Can the four of us defeat the boss? This red boss seems to be quite strong.”

A little fairy said, a little worried.

if they didn't rely on the qin players as cannon fodder, how could they fight the boss with just the four of them?

they didn't even have a tank to tank the boss.

There were many people who knew that Zhang Shan's Panda dumplings were very powerful, but as for how powerful they were, not many people knew.

She didn't know about little fairy, but she felt that none of the four of them could tank the boss.

they couldn't win at all, so they might as well let the qin players fight for a while longer and then go pick up the scraps later.

don't worry, we'll be in charge of killing them. The BOSS will be left to Big Boss six. He can take it on by himself.

Wind cloud blade said exaggeratedly.

no way, brother Guan is a Hunter. How can a Hunter tank a BOSS? ”

“I can't explain it now, but you'll know when you see it later, hehe.”

Zhang Shan was a little speechless. What the hell was brother Guan? This lady is too casual with her words. I'm not familiar with her.

He looked at the Qin players who were still persevering in the distance. The damage that they could deal now was very little.

however, he kept kiting, trying his best to stay alive, and only occasionally dealt some damage.

“They're stalling for time. We don't have to wait anymore. Charge!”

“Kill them first, ignore the BOSS. I'll use the Panda bear to pull the BOSS.”

after saying that, zhang shan quickly rushed towards the qin players.

Very quickly, the Qin players had discovered Zhang Shan.

f * ck, the six-barreled Bodhisattva is here. Run!

run my ass. They only have four people. We still have more than a hundred people. Don't be afraid. We'll fight them.

” fight my ass! don't you know how powerful six-pipe bodhisattva is? ”

f * ck, that sabotaging Vixen is here too.

find a way to kill that fairy. If it wasn't for her sabotaging us just now, we might have already killed the BOSS.

As he spoke, Zhang Shan brought the Panda bear and rushed into the crowd.

Controlling the Panda bear ball to go forward and pull the BOSS, Zhang Shan went all out. His bullets rained down on the Qin players.

One shot, one kill. It couldn't be simpler.

At this moment, Feng Yun Yi and little fairy had also rushed over.

Feng Yun cut down one with charge and then chased after the other Qin players.

Little fairy held her longbow and kept shooting arrows.

Zhang Shan looked at her damage value. Every arrow from the little fairy could deal more than 4000 damage.

it was already very strong.

...

The three of them chased after more than 100 Qin players and killed them. Boss Wu didn't go with them to kill.

Instead, he kept on healing the Panda dumpling.

Although the Panda bear was tanky, the red BOSS was not weak either.

Without boss Wu's healing, it would fall to the ground soon.

After Zhang Shan had cleared the Qin players near the BOSS, he turned around and started to attack the BOSS.

he couldn't be too far away from the BOSS. otherwise, the panda dumpling would automatically return to his side.

The BOSS would be left unguarded and unguarded, and its HP would recover very quickly.

Windcloud blade and little fairy did not go too far. After chasing away the players from the state of Qin, they immediately joined the attack on the BOSS.

Killing was secondary. Wasn't it better to fight a boss?

This was a demon Lieutenant. It was a common red boss in The Map of Heaven's Gate.

Zhang Shan and the others had fought it before. The boss's skills were average, but the damage was not bad. The damage dealt to the Panda bear was more than 10000.

...

If it hit a player, it would definitely exceed 20000.

The Panda ball's defense was extremely high, and it also had a passive damage reduction skill.

even so, boss wu couldn't keep up with the healing alone.

However, it didn't matter. The demon Lieutenant didn't even have 10 million HP left.

With Zhang Shan and the other two, they should be able to take them down in a minute.

“Oh my God, is Guan Zi’s pet that strong? With only one healer, you can still hold off the red boss?”

a little fairy said in surprise.

it’s just a red boss. The Panda bear can even take on a real name boss.

Wind cloud blade said proudly, as if the Panda dumpling was his pet.

Seeing that Zhang Shan and the other three had snatched the boss, the remaining Qin players had been loitering around the area.

They did not dare to get too close, because if they did, Zhang Shan would definitely turn around and shoot them down.

But to let Zhang Shan and the other three snatch the BOSS away like this, these people were definitely not willing.

at that moment, the players from the state of qin were calling for help on the national channel.

” help! six-barreled bodhisattva is stealing our BOSS! help! ”

“where’s the six tube bodhisattva?”

When he heard that Zhang Shan had actually stolen the BOSS from the Qin players, the domineering King immediately showed his face.

Previously, the people from wind and cloud Guild had been hiding in beast King Valley to farm monsters.

Although the domineering King wanted to take revenge, he couldn’t find an opportunity to do so. He couldn’t just guard the beast King Valley with his men, could he?

He had to level up too, especially now that he had dropped to level 29.

If he didn’t focus on farming monsters, he would fall behind.

Now, he had actually heard that Zhang Shan was not in beast King Valley. Not only was he wandering around the Heaven’s Gate map, he even dared to steal the BOSS from the Qin players.

This was completely disrespecting him.

Chapter 322-is it the wrong way?

thinking about how he had been beaten by zhang shan countless times, the domineering king could not sit still.

There was nothing he could do if the people from the wind cloud Guild stayed in beast King Valley. However, if they dared to come out, he would not let them go.

He wanted to suppress the people of wind and cloud at the grinding spot so that they would not dare to come out.

you can farm monsters and level up in beast king valley, but without bosses to fight, it depends on how you develop.

it would be useless if they only had levels and no equipment. they couldn't possibly rely on buying equipment for a living.

This was the overbearing King's idea. That was why he had called upon the players from the state of Qin to kill any players from the state of Chu on The Map of Heaven's Gate.

Unexpectedly, it had not even been a day.

Not only had Zhang Shan appeared, but he had also stolen the BOSS from the Qin players. Was this the complete opposite?

This wasn't restricting the development of the wind and cloud Guild. It was f * cking restricting the development of the players from the state of Qin.

Subjugator could not take it anymore and continued to ask in the country of Qin's national channel.

"Where's the six-barreled Bodhisattva? Send me the coordinates. How long will it take for them to fight the BOSS?"

uh, boss, they're almost done. I've called people over to help before, but I'm afraid that we won't be able to beat them with too few people.

After this guy finished speaking, he immediately sent Zhang Shan's coordinates to the country of Qin's national channel.

"They? Other than the six-barreled Bodhisattva, are there many other people from the wind cloud Guild?"

"There are only four of them, six-barreled Bodhisattva and wind and cloud blade, plus a Taoist priest as support, and a Chu player who is not from wind and cloud Guild."

since they're almost done fighting, I probably won't be able to make it in time. If you have time, go and annihilate them. Defeat six-barreled Bodhisattva and guard his corpse. You'll be rewarded with ten million gold coins.

f * ck, a King's aura. I'm going.

" don't fight with me. i'm going to take the head of six-barreled bodhisattva. "

The country of Qin's national channel was bustling with activity, but Zhang Shan did not know.

He only knew that he had to destroy the demon Lieutenant Colonel as soon as possible. The longer he delayed, the more variables there would be.

After fighting for more than a minute, the demon Lieutenant was almost empty of health. At this time, Zhang Shan saw that in the distance, there were many Qin players, and they were riding their horses over.

f * ck, their support came too quickly. It's only been a minute.

windcloud blade was a little numb. the other side's support had arrived, but they had not defeated the BOSS yet.

don't worry, these should be the reinforcements they called in advance. There won't be too many people coming.

Zhang Shan said after taking a look.

These players from the state of Qin probably considered that they couldn't defeat the BOSS, so they called people over to help. There wouldn't be too many people, so don't worry.

"that's still a few hundred people."

don't worry about it. Quickly kill the BOSS. It won't be long.

As for the Qin players, they could clearly see that Zhang Shan and the other three had already reached the crucial moment.

hurry up and rush over. The BOSS is about to drop.

"First, kill the BOSS."

there's no need to be careful. We have so many people. Let's just charge in and kill the BOSS together.

Looking at the Qin players rushing over, Zhang Shan did not panic. Instead, he continued to attack the demon Lieutenant.

When the BOSS's health bar was empty, Zhang Shan saw the right time and controlled the Panda tuan Zi, using a combo skill to blow it up.

At this time, the few hundred Qin players had already rushed in front of them.

Zhang Shan was not in a hurry. He was looking at the items dropped by the BOSS.

he quickly turned his gun and fired at the players from the state of qin. at the same time, he controlled the panda bear to block in front of him.

Windcloud blade had long since charged forward, madly slashing at the players from the state of Qin.

All sorts of injuries were continuously inflicted on the people.

big brother carrying a blade, quickly heal me. I'm going to collapse.

Windcloud blade fell into the enemy's group, waving his divine weapon battleaxe and shouting madly at boss Wu.

One of the fairies kept on shooting arrows, knocking down the Qin players one by one.

However, there were only four of them, and they were facing hundreds of Qin players who were charging over on horses.

They couldn't block it at all and were quickly surrounded.

Now that most of the players had their own mounts, Zhang Shan could no longer suppress others out of their shooting range.

However, he wasn't panicking at all. So what if he rushed over to engage in close combat?

As long as he was fast enough and his damage output was too high.

He wasn't afraid even if they were to fight in close combat.

Furthermore, Zhang Shan still had three strong team members by his side.

It was a piece of cake to deal with a few hundred people.

Zhang Shan was like a magnet with firepower. A large number of Qin players were rushing towards him.

The Qin players who attacked the other three were much fewer.

...

'Damn it, is my hatred points that high?'

Even so, Zhang Shan was not afraid at all. He held the hand cannon and fired fiercely at the Qin players around him.

The bullets swept across, one shot for one player, and a large number of Qin players were knocked to the ground by him. Around him, there were corpses all over the ground.

Although many players from the state of Qin dealt damage to him, he didn't need Mr. Wu's healing.

By relying on the lifesteal effect on his equipment, he could maintain his health.

"Cut the support first. If you cut the support down, they'll have no chance."

Seeing that they could not do anything to Zhang Shan, some of the Qin players gave up on attacking Zhang Shan and turned to attack boss Wu.

Compared to Zhang Shan, boss Wu was much weaker.

Boss Wu's equipment was good, and his skills were not bad.

However, he was an auxiliary profession after all. Once more people attacked him, boss Wu couldn't stand it.

"Little goblin, help Daoist priest get rid of the enemies around him first."

...

After Zhang Shan finished speaking, he turned his gun around and did not care about the Qin players who were surrounding him.

Instead, they directly attacked the enemies on boss Wu's side.

"Ah, there are so many people hitting me. I can't hold on much longer. How can I care about him?"

A little fairy was helpless against a large number of Qin players.

she wasn't as fierce as Zhang Shan, who could withstand the damage.

She was just a fragile little girl who had to fight and run at the same time. How could she care about boss Wu?

Zhang Shan was a little speechless. Boss Wu had saved her for nothing. He was heartless.

Fortunately, Zhang Shan's firepower saved boss Wu and prevented him from being killed by the Qin players.

Windcloud blade charged left and right in the crowd. A Bandit from the Qin country came forward and gave him a chisel attack.

It stunned Windcloud blade, causing a large amount of damage to fall on him.

"Help me, I've fainted."

Windcloud blade did not have a berserk skill, so he could not remove the crowd control status. Once he was stunned, he would be a living target.

Zhang Shan saw that the danger on boss Wu's side had been resolved.

On the other hand, Windcloud blade was in danger, so he had no choice but to shift his firepower over to help him out of the situation.

Fortunately, after a round of chaotic battle, many of the Qin players had been defeated by the four of them.

Even Mr. Wu had killed more than a dozen of them with his lightning strike skill.

There were only 200 Qin players left on the battlefield. As long as they paid attention, they wouldn't be a big threat to them.

Chapter 323 the wrath of the stars again

The situation was quickly reversed, and the Qin players found that they had fewer and fewer people.

As for Zhang Shan and the other three, none of them had been defeated.

we can't. Their equipment is very good. We can't kill them at all.

that's right, especially six-barreled Bodhisattva. We couldn't kill him even with so many of us together, but he only needed one shot to kill us. This is ridiculous.

let's retreat. We'll kill them when the tyrant king comes.

what's the point of waiting? by the time the domineering King arrives, the six-barreled Bodhisattva would have long run away.

"Then what do we do?"

“ whatever, i’m planning to go back and farm monsters anyway. i’m just going to die if i continue. it’s meaningless. ”

the remaining qin players no longer had the courage to continue fighting with zhang shan and the other three.

they all scattered in all directions. zhang shan only chased for a while before giving up.

There was no need to continue chasing.

Everyone was riding on horses, even though the horses of Zhang Shan and the other three were much faster than the Qin players.

however, if the others scattered, he wouldn’t be able to catch up to many of them, so he didn’t want to waste time.

“ f * ck, he’s running away as fast as a rabbit. i haven’t had enough of him. ”

Windcloud blade said unhappily.

Just now, when wind cloud blade charged into the crowd, he had killed many players from the state of Qin.

However, he had been in danger several times.

zhang shan’s fierce firepower had helped him out of the situation, and he might have fallen a few times.

“Let’s retreat as well, who knows how many Qin players are rushing over.”

“Yes, we need to leave this place as soon as possible.”

Although wind cloud blade loved to fight, he was no fool.

At this moment, there might be a large group of Qin players rushing over. One must know that Zhang Shan was a thorn in the eyes of the Qin players.

If the few of them showed their faces here, wouldn’t the Qin players rush over like sharks that had smelled blood?

“if you all leave, what about me?”

A little fairy asked them.

She was not a member of the wind and cloud Guild, so he could not bring her along to beast King Valley.

“I thought you don’t have a Guild. Why don’t you join our wind and cloud Guild?”

Windcloud blade asked her.

To be honest, Windcloud blade felt that even though this girl’s equipment was pretty good, she was a little unreliable.

He didn’t even want to add the little fairy into the Guild.

However, everyone had just fought together, so it didn’t matter if she was one more person in the Guild.

“Haha, sure. Next time, when you fight a BOSS, remember to bring me along.”

That was wishful thinking, and the three of them completely ignored him.

After dealing with these Qin players, the four of them began to run towards the beast King Valley.

Zhang Shan checked and saw that the items had been dropped.

ASIBA, how could there be such a thing?

They were too lucky. No, to be exact, the little fairy was too lucky.

This was because Zhang Shan had seen a skill book among the dropped items, the wrath of the stars.

It was the ultimate skill of an Archer.

There were only four of them fighting the boss, so the item distribution rule was usually based on needs.

Whoever could use it would get it, and those that no one could use would be distributed by rolling.

out of the four of them, the only archer was the little fairy. wouldn't that mean that the skill book would belong to her?

Zhang Shan was a little unwilling.

They had saved this girl's life, yet they still had to give her such a good thing.

This was a skill book worth hundreds of millions of gold coins. Even if the price of the ultimate skill book had dropped slightly, it would still cost hundreds of millions of gold coins.

but what could he do? Zhang Shan did not want to steal other people's items, so he could only helplessly display all the dropped items.

At the same time, he said to her.

“You're so lucky.”

“haha, is this the ultimate skill of an archer? Are you giving some to me?”

A little fairy was so happy that she almost jumped up from her Mount.

f * ck, he's so lucky. Awesome.

windcloud blade was also speechless.

...

He had to admit that his luck had always been pretty good when he followed Zhang Shan to fight bosses. His destruction skill book had also been dropped when he followed Zhang Shan to fight the red boss.

The demon Lieutenant Colonel had dropped two pieces of red equipment, a red material, and an Archer's wrath of the stars skill book.

It was definitely a super big drop. It was much better than what they had gotten from the demonic Archer commander when they had just passed the extreme mode.

one must know that this was extreme mode. in the entire game, they were the only ones who could clear it.

zhang shan didn't want to waste any more time and immediately assigned the skill book to the little fairy.

As for the other two red-colored equipment, one of them was for wind and cloud blade, while the other one was for himself.

although the little fairy was an archer, she was also an agility-type.

however, between the two of them, there was no need to roll.

She had already received an ultimate skill book, so why would she need any equipment?

The materials were distributed to boss Wu, and the four of them each had their own gains. Everyone was happy.

However, Zhang Shan was not happy.

...

If it wasn't for the fact that little fairy's harvest was countless times more than theirs, they would be happy.

After receiving the skill book that Zhang Shan had assigned to her, a little fairy asked happily.

"My three brothers, should I send a red packet?"

what do you think? shouldn't we celebrate with a red packet after getting such a big bargain? "

windcloud blade said with jealousy.

"But I don't have any money."

a little fairy blinked her big, cute eyes and said.

"Then pretend I didn't say anything."

Windcloud blade was depressed. If he didn't want to post it, he could have just said so. No one was forcing him to.

In any case, according to the rules, the skill book should have been given to her.

Although one of the fairies said so, she still sent out three red packets in the party channel, each of them getting five million gold coins.

"You call this having no money?"

Windcloud blade was speechless. How could a person with 15000000 gold coins be considered poor?

Forget it, I can't be bothered to say it. Anyway, there's a red packet. It'll be a waste not to accept it.

He had gained another 5 million gold coins. Zhang Shan no longer had any concept of money.

Anyway, it was enough.

Speaking of which, the top-tier items in this game were really valuable.

if he could buy all the ultimate skill books, he could slowly auction them off.

he would probably become a rich man. the same was true for the divine weapon mission items. they might even be more valuable than the ultimate skill books.

Of course, he was just thinking about it. To be able to get one was already considered very lucky. Zhang Shan had not even gotten his own ultimate skill book yet.

He was a little envious when he saw other people use their ultimate moves every time.

But this kind of thing couldn't be forced.

If they were unlucky, it was possible that they wouldn't get one for years.

After all, there were not many ultimate skill books in the entire game.

If they were split among the various classes, there wouldn't even be two of them.

Especially the Hunter's ultimate skill book. Zhang Shan had never heard of anyone dropping it.

If there was one in the auction house, he would not hesitate to bid for it.

Anyway, he had money now. He still had more than 200 million gold coins in his account, so he didn't need to keep them for anything.

Unfortunately, they couldn't be sold at the auction house.

Chapter 324 iron-headed doll

the four of them galloped towards beast king valley on their horses while splitting the loot.

After distributing the dropped items, Feng Yun realm suddenly called out in the Guild channel.

"One blade, six barrels, did you guys go and steal the BOSS from the Qin players? After you're done, run! Subjugator's group is going to attack you!"

What? The domineering King was really an iron-headed boy. He was still going to try again?

boss, it's fine. We've already defeated the BOSS and killed a wave of players. We're on our way back to beast King Valley. The domineering King won't be able to do anything to us.

Windcloud blade did not mind at all. Since the boss had been defeated, if he could not go to beast King Valley, he could just find a place to channel his skill and return.

"Little fairy, have you learned the wrath of the stars? Can you use it?"

zhang shan asked a little fairy.

If he could have an ultimate skill, many things would be much easier.

Even if he was surrounded by a large group of people, he didn't need to be afraid.

I'll use a big move and kill a group of people. I'll just rush out, and the domineering King won't be able to do anything to me.

"I did, but I don't have enough mana, so I can't use any skills."

One of the little demons said unhappily.

It wasn't easy for him to obtain such an amazing skill book, but it was a pity that he couldn't use it. It was a little sad.

It's good that you've learned it. One blade has a magic bead that adds 20000 MP. If we fight later, I can lend it to you.

"Can I? Brother Yidao."

A little fairy was instantly happy. She really wanted to see what the wrath of the stars looked like.

Previously, he could only watch other people's videos on the forum. It was not as satisfying as casting his own skills.

"Sure, but we'll talk about it later if they really fight."

On the way to the beast King Valley, he could see the figures of Qin players from time to time.

They were in groups of three to five.

Zhang Shan did not hold back. As long as he saw Qin players, he would dismount and beat them before leaving.

"brother liu guan, let's not waste any more time. these small fries can't stop us."

"It's fine. I just don't like seeing these people. They're not farming monsters and just loitering around. They're probably here to besiege us, but they haven't gathered yet.

I'm just afraid of wasting time. We have to run faster. Otherwise, we might really be surrounded.

Windcloud blade said worriedly.

"Don't worry. If we're really surrounded, we'll just fight and teach that iron-headed girl a lesson."

if we really fight, I'm afraid we'll fall. You're not afraid. We have the teleportation bead anyway, so we can leave directly.

Windcloud blade said, speechless.

He was really a little worried about being surrounded. After the Guild War, he, Feng Yun realm and the other three were surrounded by Subjugator's men.

if not for zhang shan leading people to rescue them, they would not have been able to escape.

If the domineering King were to come again this time, he would definitely be more prepared.

I won't give them another chance to run away.

don't worry. We'll definitely have to fight with the domineering King this time. We won't be able to get out of here without fighting.

After Feng Yun realm's reminder, Zhang Shan knew that this battle was inevitable.

Otherwise, he would have been teleported to beast King Valley by himself. Why would he be riding a horse with Windcloud blade?

"You know that there's going to be a fight later, yet you still have the mood to deal with these small fries."

"It's precisely because we're going to fight later that we have to kill more of their people now. If we kill these small fries until they're scared, then the number of people who will besiege us will be much less."

"It sounds reasonable, but domineering aura alone has 50000 players. The four of us can't stop them."

Heaven's Gate is so big. Do you think domineering air can catch us with its 50000 players? "

there's no need to capture them. They can just stand guard outside the beast King Valley. We have to go back, right? "

don't worry, the boss won't let them stay outside of beast King Valley. If that's the case, why would we go back? if the domineering aura blocks the entrance, we won't be able to enter beast King Valley at all.

that's right. I'll talk to the boss and ask them to meet us outside the beast King Valley.

After arguing with Zhang Shan for a long time, wind cloud blade finally understood.

as long as they were close to beast king valley, feng yun realm would naturally bring people to meet them.

The closer they got to beast King Valley, the more Qin players they encountered.

Every time he encountered a wave of Qin players, Zhang Shan would not hesitate to dismount and attack.

the other three did the same, beating the qin players until they ran around.

They didn't look like they were the ones to be besieged. Instead, they looked like they were clearing out the Qin players in the Heaven's Gate map.

in the country of qin's national channel.

six-barreled Bodhisattva was too arrogant. I was defeated by him before I could join the main force.

me too. I met the four of them on the way just now. I couldn't run away from them, so I died.

...

don't worry, they won't be arrogant for long. Wang zheju will let them know why the flowers are so red.

by the way, have you finished setting up the tyrannical King's side? don't let them get away again.

"it doesn't matter if he runs away, but don't let him lose again."

“What are you saying? if you don’t want to play, then get lost.”

The players from the state of Qin were still rather resentful of the several failures of the domineering King.

This time, there were not as many Qin players who had come to attack Zhang Shan and the other three.

The appeal of the domineering King was dropping.

Actually, it was normal. Why would others always follow a boss who failed every day?

After running for a while, Zhang Shan saw that there were hundreds of Qin players in front of him.

“Should we directly charge or go around it?”

Wind and cloud blade asked.

...

” let’s just charge over and kill them. there are only a hundred of them. ”

“Could the tyrant king be nearby?”

Windcloud blade asked, a little worried.

let’s fight first, then talk later. Run the moment you see the main Army of the domineering King.

zhang shan didn’t say a word and immediately rushed forward.

When he got close to the Qin players, he immediately got down from his horse and opened fire. The bullets swept across.

The Qin players had not reacted yet.

they could not believe that zhang shan was actually charging straight at them.

The current Zhang Shan, shouldn’t he be running away the moment he saw that there were more than a hundred of them?

If they were to be held back by the hundreds of them, Zhang Shan and the other three would not be able to escape.

How could they know what Zhang Shan was thinking?

Zhang Shan did not want to take a detour. If he met the Qin players, he would just fight them.

There were only a hundred people here, what was there to be afraid of? it wouldn’t take much effort to sweep these hundred people.

Wind and cloud blade, boss Wu, and little fairy also rushed forward.

The four of them were completely crushing the players from the state of Qin.

Very quickly, this group of people was defeated.

zhang shan did not give chase, but continued to run in the direction of beast king valley.

they charged all the way and did not take a detour when they saw players from the state of qin.

The tyrant king was in the middle of setting up an interception in front of them, and he had heard the news from all over the place.

he was almost angered to death.

He believed that Zhang Shan was aware of the Guild's interception, but Zhang Shan had never changed his direction.

He was actually running in a straight line towards beast King Valley. This was clearly looking down on him, the domineering King.

Chapter 325-charging out

After clearing a few waves of Qin players, Zhang Shan finally saw a large number of Qin players in front of him.

There were thousands of people in just one direction.

The four of them stopped running and observed the situation.

"What do we do? There's no way we can run now. We can't break through the blockade of thousands of people."

A little fairy said worriedly.

zhang shan looked around. although he could only see enemies in front of him, the other three directions could not possibly be empty.

The domineering King must have made arrangements as well, but they didn't know how many people he had arranged, and how far away they were.

He had to choose a direction to break through now.

"which way should we go?"

Wind and cloud blade asked.

"Which side do you think will have a weaker defense?"

Zhang Shan could not be sure. They only had one chance to choose.

If he wanted to rush out, he would have to rely on the little fairy's big move to open a path.

if that was the case, they would be surrounded by a few hundred people, and it would be impossible for them to break out.

Only by using a big move to open a passage and quickly rush over could they have a chance to break out.

it's hard to say. Normally, the front should have the most people. It's hard to say for the other three directions. It depends on luck.

Windcloud blade said with uncertainty.

"what did the boss say?"

"boss said that there are no qin players outside beast king valley. he has already brought people to meet us outside the valley. if necessary, they can come and meet us."

there's no need to come over. We just need to rush through one wave of interception.

Zhang Shan believed that after all the preparations that the domineering King had made, there should not be any loopholes.

This wave of interception would definitely not be easy to pass.

"i'm just afraid that they'll block us in sections. we only have one big move, so we can only rush in one wave."

Zhang Shan was only worried about this. He was not worried about anything else.

If they found out that there was another layer of interception behind them after they had broken through one wave of interception, they would be done for.

that's easy. Let's not rush in. We'll wait for the tyrant king to show himself. Wherever he appears, he'll be the last wave of people to intercept him.

wind cloud blade said with certainty.

you're right. Let's run around and see where the domineering King is.

It had to be said that what blade of wind and cloud said made sense.

The domineering King would definitely be at the last wave. If even he could not stop them, it was obvious that the other Qin players would not be able to do so either.

As such, as long as the domineering King appeared, there would definitely be no other Qin players behind him to intercept him.

If they found the domineering King, they could just fight their way out.

Seeing Zhang Shan's group of four running around, the Qin players on the other side did not charge forward.

With the experience of the previous interception failure, they were much more stable now.

The strategy of the domineering King was to set up an encirclement and then deal with it in one wave.

Although the method was a little stupid, it was very effective.

at least, that was the case under normal circumstances.

With so many Qin players surrounding him from all sides, Zhang Shan would not be able to charge out even if he could take on a thousand, much less a hundred.

However, they had just obtained an ultimate skill book, which was something that Subjugator did not know about.

In Subjugator's memory, among the four of them, only Windcloud blade had a powerful skill. Moreover, the skill had not yet cooled down.

Therefore, he slowly closed in without worry.

Not long after, Zhang Shan saw the domineering King leading a large group of people from the front.

"Six-barreled Bodhisattva, don't even think about running away this time. No one can save you this time. You're dead."

The moment the tyrant king appeared, he shouted out fiercely.

"Aiyo, isn't this Brother Rabbit? I don't know who it was last time, but he ran like a rabbit and couldn't escape in the end."

The moment Zhang Shan opened his mouth, the domineering King was completely enraged.

"Charge over and cut them into pieces."

After the tyrant king finished speaking, he led the Qin players and charged towards Zhang Shan and the rest.

Zhang Shan looked calmly at the Qin players who were rushing over. He turned his head and said to the little fairy.

"We're ready to charge. It all depends on the level of your big move. You must clear the front of us so that we can run out."

"Don't worry, the damage of the big move is 50 yards. All of them added together don't even have 50 yards of thickness.

Windcloud blade had already lent the magic orb to little fairy.

...

Whether or not they could charge out would depend on the effect of their big move.

But the little goblin was right.

If tyrant wanted to ensure the width of the interception, he couldn't guarantee the thickness.

A high-level skill could easily open up a gap and let them rush out.

"Charge!

After Zhang Shan finished speaking, he rode his horse towards the domineering King and charged towards him.

When the two sides approached each other, a little demon quickly dismounted and shot an arrow into the sky.

Countless meteors fell from the sky, clearing all the Qin players in front of them.

Even Subjugator was affected by the damage from the ultimate skill.

This Big Shot fell to the ground again, it was simply miserable.

After little fairy cast her big move, she quickly got on her horse and the four of them rushed out of the gap opened by the wrath of the stars.

...

For them, within the five seconds of the damage from the ultimate skill, passing through Subjugator's interception safely was not a problem at all.

As long as he was careful not to be knocked out.

"hurry up and fire the meteor arrows. fire them all and make them stay."

The domineering King, who was lying on the ground, was furious. This was too much. He had been knocked down again.

What did they think he was? He was simply treated as a passerby and killed casually.

From both sides of the gap, a large number of meteor arrows flew over.

Zhang Shan and the other two were in front and had already run out.

However, the little fairy had to get off the horse to cast her ultimate skill. When she got back on the horse and started running, she was already behind.

Countless meteor arrows were shot at little fairy, and she couldn't dodge them.

He was hit by two meteor arrows and was stunned for five seconds.

"Ah, I've been knocked out. I can't run."

Zhang Shan turned back to look at her, then quickly got off the horse and went to help her.

At the same time, he said to wind cloud blade and boss Wu.

you guys run first. I'll cover the little fairy and teleport to the beast King Valley after we get out.

"Alright, be careful."

Windcloud blade did not waste any time. At this point, he was already of no help.

If he stopped, he would just be another dead body.

However, Zhang Shan was different. Zhang Shan had a positioning Pearl, so he still had a chance of being transported away.

Zhang Shan quickly ran to the little fairy's side. At this time, the duration of the wrath of the stars had ended.

The Qin players from the left and right swarmed over.

Zhang Shan held his hand cannon and activated his berserk and fanatic skills. The bullets swept across.

A large number of Qin players were beaten to the ground before they could even get close.

At this moment, one of the fairies' stun duration had ended.

Zhang Shan turned his head and said to her.

"You run first, I'll help you block them, I can teleport away."

At this moment, the gap opened by the wrath of the stars was already showing signs of closing.

Without Zhang Shan to provide cover for the little fairy, she would not have been able to escape.

Chapter 326 The country war system officially opens

A little goblin glanced at Zhang Shan. She was a little worried that Zhang Shan would not be able to escape.

"Hurry up and run! What are you waiting for?"

Zhang Shan was a little speechless. What kind of situation was this? Why was he still hesitating? He could have just teleported away.

Hearing Zhang Shan speak again, a little fairy did not hesitate anymore. She accelerated her horse and rushed forward.

Zhang Shan went all out. He completely ignored the Qin players who were rushing towards him. Instead, he turned his fire towards those who were closing the gap.

He had to suppress them and prevent them from filling up the gap again. Otherwise, the little fairy would not be able to rush out.

Zhang Shan went all out, and his damage output was terrifying.

The Qin players fell to the ground in large numbers like wheat being harvested.

At this time, there were already a large number of Qin players who had rushed to Zhang Shan's side. All sorts of stunning skills were thrown at him.

However, the duration of his berserk skill had not ended yet.

He was immune to all control skills.

"Six-barreled bodhisattva is immune to crowd-control skills. Go up and cut him."

"The woman ran away, we can't catch up."

” damn it, we have so many people and we surrounded four of them. three of them actually ran away. this is too much. ”

forget about the one who ran away. Chop six-barreled Bodhisattva into pieces and let him be arrogant.

don't even think about running away from six-barreled Bodhisattva. If he still manages to escape, I'll do a live stream of eating sh * t while standing upside down.

don't talk big. The last time in LAN Tian city, six-pipe Bodhisattva disappeared for no reason.

“So what? even if he can go invisible, we can still hit him out with our skills.”

Facing the countless Qin players, Zhang Shan saw the little fairy and ran out.

At this moment, the duration of his fanaticism skill had just ended.

Even though the berserk skill could still last for another four seconds, it was still not enough.

However, he didn't dare to continue. Even though he was immune to crowd control skills with the help of the berserk skill, he still had a lot of time left.

But with so many people cutting him and countless vegetable knives chopping at him, he couldn't stand it either.

even with the lifesteal effect, it was impossible to absorb all the blood.

Thinking of this, Zhang Shan immediately used the teleportation Pearl and teleported to the beast King Valley.

Only a group of dumbfounded Qin players were left.

“What's going on? Where's six-pipe Bodhisattva? Where did he go? Why did he suddenly disappear again, just like the last time?”

“Quickly use your AoE skills to see if he's invisible and hit him out.”

“he's a hunter, how can he be invisible?”

“Why are you talking so much nonsense?”

A group of Qin players, at the place where Zhang Shan had left, kept on casting AoE skills.

They had thought that Zhang Shan was invisible.

They had never seen a positioning bead before, even though many people in the wind cloud Guild knew about it.

However, not many people knew how to use it.

it was only later on that zhang shan slowly discovered that this thing was even more useful than a divine weapon when used to escape and save one's life.

he was teleported away and disappeared. there was no way to solve this.

After returning to beast King Valley, Zhang Shan asked in the team channel.

“I’ve returned to the beast King Valley, have you guys escaped yet?”

you’re still the fastest. The positioning beads are really useful.

windcloud blade could not help but ridicule.

“Has brother Guan already run away? How did you get out? Is there a teleport scroll in this game?”

One of the little demons asked in confusion.

“Haha, you probably don’t know about this.”

after zhang shan finished speaking, he displayed the positioning ball on the team channel.

“Oh my God, there’s such a prop? Doesn’t that mean you’ll never die?”

The little Gremlin was shocked. The positioning bead was too practical. Although it did not add any attributes, it was convenient. Most importantly, it was a life-saving artifact.

“hehe, as long as you’re not unconscious, you won’t die unless you court death.”

Zhang Shan said proudly.

“is the domineering king still chasing after you?”

no, what else does he want to chase? even if he does, he can only eat the dust behind us. Our horses are so fast.

alright, that’s all then. I’m going to kill some monsters.

in the beast king valley, zhang shan found his heart and followed his heart.

...

This guy didn’t go with them to save the others just now. He was killing monsters alone.

“do you want to continue forming teams?”

Zhang Shan asked heart moves.

“group me.”

Zhang Shan asked boss Wu to hand over the position of team leader to him, and then put his heart into the team.

“you guys went to fight with the domineering king again?”

what’s wrong? “what’s wrong with you?”

“no, it’s that guy. he wanted to surround us again, but we managed to kill him and get out.”

the domineering King really has nothing better to do. Isn’t it good to farm monsters and level up? why does he have to fight? ”

Zhang Shan was a little speechless.

he didn't understand why someone like 'heart follows me' would play games.

...

Who doesn't fight in a game? it's not like they're playing a single-player game.

However, even though this Big Shot didn't like fighting, he had a lot of fun and invested so much in it.

Spending large amounts of blue coins just to come to the game and kill monsters?

It was so hard to understand.

Not long after, wind cloud blade's trio also returned to beast King Valley.

With the addition of the little fairy, they could only farm monsters together as a team of five.

By right, with their mutual aid Guild skill, a four-person team was the best solution.

However, it didn't matter if there was one more person. The impact wasn't big.

haha, it was so exciting today. I thought we wouldn't be able to come back. I didn't expect us to really kill our way out.

Wind and cloud blade said happily.

"That's because your big move isn't ready yet. Otherwise, who can stop us?"

that's right. The ultimate skills in this game are too much of a BUG. One move can instantly kill a large number of players. It's simply breaking the balance of the game.

it's alright. Ultimate skill books are rare anyway. Even if we play for a few more years, I don't think it's possible for everyone to have one.

that's right. Although the ultimate skills are overpowered, if there aren't many of them, the impact on the game won't be too big. After all, every game will have a few overpowered players.

just now, Subjugator was killed by my ultimate. Did you guys see that? "

A little fairy asked happily.

She was extremely pleased with herself for being able to defeat the second-ranked guild leader with one move.

I saw it. Even a God can't take the damage of your ultimate, let alone domineering King. Of course he would fall.

"aiya, i've defeated the domineering king once. he won't hunt me down again, will he? i'm so scared."

you're thinking too much. Brother Liu Guan killed him like a chick and nothing happened.

how can I be compared to brother Guan? Speaking of which, when brother Guan goes all out, he's really too fierce. He kills people like he's harvesting wheat, and they fall to the ground one by one.

you don't have to say that. Big Boss six-barreled can solo bosses. Killing someone is child's play.

the few of them were killing monsters and blowing water at the same time. suddenly, a system announcement rang out, stunning them.

≪ system announcement: as the hatred between the players of Chu and Qin has reached a critical point, the World War system has officially started. For more details, please check the World War announcement on the official website. ≫

Chapter 327 The country war announcement

The moment the system announcement came out, everyone was stunned.

Even Zhang Shan was a little speechless. Could it be that they had stolen the boss from the Qin players?

Then, a small fight would trigger a war between the two countries?

If they had known that it was so easy to trigger a country war, everyone would have been beaten to a pulp.

Players loved large-scale faction activities like country Wars.

However, before this, he didn't know how to trigger a country war.

Although when Zhang Shan was the first to reach level 30, the system had prompted that when the hatred between the players of the two countries reached a certain level, it would trigger a World War.

However, no one knew how much hatred points this certain amount was.

When Heaven's Gate had just opened, players from all over the world had been fighting fervently in the Heaven's Gate map.

However, there was no sign of a country war at all.

Later on, everyone guessed that the World War was decided by the operators, and they would only start it when they felt that it should be started.

Zhang Shan was surprised that the World War system had been activated so quickly.

He had thought that everyone's level was still relatively low, as most players had just reached level 30.

Most of the players were not even level 30, so the World War should not have started so soon.

However, the kingdom war had started just like that. Furthermore, it was a Kingdom war between Chu and Qin. This was a little interesting.

did we do something wrong? did we fight with the domineering King just now and start a country war? "

A little fairy asked cutely.

yes, it's all your fault. If you didn't use your ultimate skill to kill so many Qin players, there wouldn't be a World War. Hehe.

Windcloud blade could not help but tease him.

no, you liar. When I left, brother Guan was still killing people. It's brother Guan's fault, Hmph.

"Of course it wasn't me. I came back to kill monsters for a few minutes before the world War system started."

"Maybe it's the system's delay,"

Zhang Shan held his forehead, speechless.

"I'll go to the official website to take a look. the world war is a big event. let's see what the rules are."

"I'm going to take a look too. I hope it's a chaotic battle where everyone is fighting together. That way, we can kill to our heart's content, haha."

"I'm bored. i only know how to fight."

The one beside him was really ... The big boss couldn't help but ridicule.

Zhang Shan could only roll his eyes at him. If he didn't fight in the game, then what was the point of playing?

He opened the game's official website and quickly found the World War announcement.

Different from the other announcements, the details of the country war were explained very clearly in the announcement, and it took up a few pages.

[country war camp: chu country vs qin country.]

[participants: all players not from novice villages in both countries]

[World War time: 8:00 pm, November 18th, 2058. Duration: 4 hours.]

[participation method: after the World War begins, the participating players can enter the World War map from the capital of their country through the Prime Minister's mansion.]

[method of victory: protect the country's Guardian beast statue and destroy the opponent's Guardian god statue at the same time.]

[reward and punishment: all players in the winning country's camp will receive double experience after the World War ends. This will last for one week.]

All players on the losing side will have their transaction fees doubled, experience gain halved, and item drop halved for one week.

If the divine beast statues of both sides were not destroyed by the end of the kingdom war, there would be no reward or punishment.

[description: the first destroyed divine beast statue will drop a complete divine artifact. The system will assign it to the player who contributed the most to the World War.]

There was no resurrection point in the world War map. Every participating player only had one chance to enter the World War map.

dying in the world war map would not lose any experience points, and after falling to the ground, one could choose to revive on the spot.

The first resurrection cost 1000 gold coins, the second 10000 gold coins, the third 100000 gold coins, and so on.

Zhang Shan roughly looked at the country war announcement. He could not help but be amazed. What a Grand scene.

All players from the two camps, other than those who had yet to leave the novice village, could participate in the world War.

How many people would there be? how big was the World War map? could it accommodate so many players? he was a little doubtful.

it must be known that there were at least 30 million players in each country's camp.

of course, not all players would participate in the world war. there would always be people who did not like this kind of event.

There were also some people who just happened to be busy and weren't online.

And the most important point was that if one wanted to participate in the country war, they had to spend money.

Only by entering the kingdom war map and going through the prime minister's residence could one enter.

it would cost 100 gold coins to teleport to the capital. although this was not a lot, not all players were willing to spend it.

If Zhang Shan was still a weakling, he might not even be willing to spend this money. A hundred gold coins could be exchanged for the same amount of blue coins, enough for him to eat for a few days.

...

Even a poor ghost would feel a little heartache when spending it.

Zhang Shan estimated that in their Chu country, the number of players who would participate in the country war would not exceed 10 million, or even less.

Of course, ten million people was a terrifying number. The two countries 'camps added up to twenty million people.

Think about it, what kind of scene would it be if 20 million players were in a chaotic battle?

This was just a game. If it was in reality, 20 million people would not be able to kill each other even after a year, right?

The country war was on the 18th of November, which was also tomorrow night.

Looking at the time, Zhang Shan could not help but sigh. It turned out that the New World had already been open for three months.

three months ago, he was still a loser with nothing.

He was now a rich man with a net worth of two to three hundred million Yuan, although with the exception of boss Wu.

In reality, no one knew about his current situation. In the eyes of his acquaintances, he was still a loser.

Zhang Shan did not tell anyone about his resignation to play games.

...

He didn't tell any of his friends or family. If his old parents knew that he didn't work, they would be very worried.

He actually went to play games. He was afraid that he would break his legs.

the old man would never understand that he could make money by playing games, unless money was placed in front of him.

In the old man's understanding, working hard at work and improving himself was the proper way. Everything else was crooked.

Fortunately, he had succeeded. Otherwise, he would not have dared to go back during the new year.

life was so wonderful. when he first entered the game, he just wanted to make a living.

He would be satisfied as long as he could earn more money than he could from work.

Other than bringing Zhang Shan a huge amount of wealth, new world had filled his life with passion and joy.

He was no longer like before, living like a dead salted fish.

For a country boy who didn't have much ambition, he just needed to buy a house and find a girlfriend to get married.

this life was over.

It had been so long, why hadn't boss Wu's wife found a house yet?

Although buying a house was a big deal, no one was short of money now, so there was no need to be so conflicted.

I'll ask boss Wu when I have time.

Chapter 328 In the country war announcement

Zhang Shan retracted his thoughts and continued to check the country war announcement.

The country Wars in this game allowed all players from both sides to participate.

Hence, the rewards and punishments were closely related to all players.

The reward was very generous. A week of double experience. It was simply too easy to sell.

If he could win the World War, Zhang Shan planned to not sleep for a week. He wanted to grind and see if he could directly reach level 40.

This was double the experience, it was too tempting.

Of course, it would be a happy ending if they won, but if they lost the country war.

Then, there would be no fun for the next week.

Experience halved, drop halved, and transaction cost doubled.

wasn't this punishment a little too harsh?

If the EXP and drop rate were halved, what was the point of playing? there was no point in farming monsters, and even fighting bosses was meaningless.

there were no drops to begin with, and now they had to reduce it by half. what kind of BOSS was this?

The transaction fee would be doubled, and it should be known that the transaction fee was not just for buying supplies and equipment.

It also included equipment repair, new world exchange, and auction houses.

In short, all transactions in the game had a transaction fee that was doubled.

What's the point of this? He might as well take a break and go on a vacation. When the punishment period was over, he could come back and play games.

other than these, there was also a hidden reward.

That was, the first divine beast statue that was killed would drop a complete divine artifact.

A complete divine artifact?

Such an alluring thing would be dropped directly? this would probably drive all the players crazy.

Of course, not every country war would drop a God equipment.

from what zhang shan understood from the announcement, it should be all the country wars in the entire game.

At most, there would only be seven godly items, as there were only seven countries.

Every country's divine beast statue would drop a complete divine weapon the first time it was destroyed.

This was only a theoretical calculation. In reality, there might not even be seven divine artifacts.

After all, some countries might be particularly strong, and they would not lose at all.

A divine beast statue that could never be destroyed, of course, would not drop from a divine weapon.

As for letting others lose their friendship once?

That was impossible. After all, the punishment for losing the country war was so heavy that no one would lose the country war on purpose.

Moreover, the National war was related to everyone's interests, even if some people deliberately did not participate in the war.

There would still be many players left in the National camp, and it would not be easy to kill the divine beast.

Another thing was that the weaker countries had their Guardian beast statues.

It couldn't be farmed again, because only the first time it was destroyed would a divine weapon be dropped. The next time it was destroyed, there might be nothing.

Therefore, it was meaningless to focus on the weaker countries.

After Zhang Shan had finished reading the world War announcement, the result that he had come to was that the World War had to be won.

At the very least, they couldn't lose. Even if they couldn't win, they had to draw and guard the statue of the country protector beast on their side.

This was because if they lost a country war, the entire country camp might be much weaker than the other camps.

After all, if everyone could not play the game properly for a week, this faction would not be able to become strong.

He would probably be targeted and killed every day, waiting for the World War to start so that he could gain double experience.

He didn't know if the system would set some other restrictions. Otherwise, the weak country camp wouldn't be able to survive in the future.

Regarding the country war, there was one more thing that Zhang Shan could not help but want to ridicule.

The operators must be crazy about money. Didn't they say that the New World was run by the Union government?

Why did it feel like they were too generous with the gold coins they collected? Not to mention the usual expenses for supplies and equipment repair.

The exchange and auction house also charged a 1% commission.

However, wasn't the revival system in this world War a little too cruel?

There were no resurrection points in the world War map. If they died, they would either be saved by the support or choose to resurrect on the spot.

Or, they could go back to their homes and resurrect in the city.

However, after resurrecting in the city, he could no longer enter the World War map.

every country war, everyone only had one chance to enter the country war map. if they went back, they wouldn't be able to enter.

This was forcing the players to choose to resurrect on the spot.

however, the cost of reviving on the spot was too high.

the first time was 1000 gold coins, the second time was 10000 gold coins, and the third time was 100000 gold coins.

...

If he were to revive for the fifth time, it would cost 10 million gold coins, and 100 million gold coins for the sixth.

This must be crazy. Who would dare to play like this?

Those who could resurrect three times were considered rich bosses, and they didn't even dare to think about the future.

f * ck, have you guys finished reading the announcement? we have to win this country war. It's too important.

After reading the announcement, wind and cloud blade could not help but shout.

of course it's important. If you win, you'll get double the experience for a week. If you lose, you'll have nothing.

a complete divine artifact! If I can destroy the statue of the state protector beast of the state of Qin, wouldn't I be able to obtain a divine artifact? "

A little goblin said blankly at the side. Zhang Shan saw that she was almost drooling. She was not ladylike at all.

what does it have to do with you? the complete divine weapon system will automatically assign it to the person with the highest contribution. Can you get the highest contribution? "

that's possible. My ultimate skill will be ready for the world War tomorrow. Maybe I can kill millions of players in a second. Hehe.

"you're dreaming."

...

"Don't think too much. It's already very good that we can guard our own divine beast statues. The state of Qin is very strong."

" what's there to be afraid of? even that iron-headed tyrant was cut down like a fool by us. "

"Is that the same? In the world War map, both sides are definitely equal and there is no home ground advantage. We can only rely on strength to speak."

there's no need to be afraid. Our Chu State isn't any weaker than the state of Qin. Other than our three major guilds, there are still some hidden big shots.

"that's a country war. what's the use of a big shot? the key is to have more people. no matter how strong a big shot is, he can kill a thousand or ten thousand people, but can he kill a million people? There are tens of millions of players, killing thousands of players is meaningless."

you're right. We have to find a way to mobilize more players to participate in the world War. After all, if they lose, they won't be able to play.

"let's see what the boss and the others have planned. i believe they will be ready."

Zhang Shan believed that Feng Yun realm would definitely discuss with the Dragon King of the East Sea and King Xiaoyao about the countermeasures.

This country war wasn't a joke. It was much more important than the battle of cloud dream city.

The last time, the most he did was to have the city destroyed. Even if they didn't do anything, the domineering King would return after he was done.

To be honest, even if they ignored him, it wouldn't affect the three guilds at all.

However, the country war was different. They definitely could not lose.

"I'll go ask the boss if he has any plans."

After saying that, Windcloud blade contacted Feng Yun realm.

Chapter 329 The country war announcement

As for how to organize the players to participate in the country war, Zhang Shan could not care and did not want to care.

He could only work hard to raise his combat strength and try to put in more effort during the kingdom war.

he couldn't do anything else. speaking of which, although he had two divine artifacts and a powerful talent like the passive king, he couldn't do anything about it.

However, in the country war, he didn't seem to be of much use.

after all, there were too many people involved. tens of millions of people.

He didn't know how long it would take to kill them all.

Zhang Shan did some calculations. Under normal circumstances, he could fire two shots in a second.

He could take down normal players with one shot.

In an ideal situation, he could kill 120 in a minute and 10000 in a hundred minutes.

Damn it, it would take him almost two hours to kill tens of thousands of people.

And this was under the circumstances that everyone else was an idiot. In reality, he definitely couldn't have killed so many.

After all, if he couldn't beat them, they would run away. He still had to chase them, and they would beat him up.

Most of the time, Zhang Shan had to Dodge. It was impossible to keep on killing.

These tens of millions of Qin players, how long would it take to kill them all? just thinking about it was terrifying.

Moreover, there was still the divine beast statue to fight. Although he didn't know what kind of attributes the divine artifact statue had, he still had to fight.

How much blood did he have?

However, even if one used one's butt to think, one would be able to guess that something with the word "God" in it would definitely not be that simple.

Zhang Shan felt that it would be difficult to win the country war. However, if it was a draw, it should still be possible.

it would be fine as long as the number of players participating in the battle on both sides was not too different.

The country war would start tomorrow. Even if Zhang Shan wanted to increase his strength, there was nothing he could do.

he was currently rank 33, and it would take two to three days to reach rank 34.

Moreover, even if he reached level 34, it would be useless. He would only gain a few attribute points and could not upgrade his equipment.

To him, there was almost no improvement.

It was better to focus on farming monsters. The World War wasn't his own business, if he really couldn't win.

He couldn't turn the tide of the battle alone, so he just followed the crowd.

Apart from the players of Chu and Qin, who paid special attention to the system announcement of the World War, the players of Chu and Qin were the only ones who paid special attention to it.

The players from the other countries were also very concerned. This was the First World War in the New World.

the world channel:

f * ck, did you guys see the country war announcement? if you destroy the statue of the country protecting divine beast, you will definitely drop a divine weapon.

"i've finally found a way to obtain divine weapons. if the big shots start working quickly and kill all the divine beasts of each country, that'll be seven divine weapons."

you don't have to tell me. The leaders of the various countries must be secretly planning how to make the country war start.

the players of Chu State and Qin State are still the best. They're about to experience the passion of a World War. The key is that the reward for winning is double experience for a week and an additional divine weapon.

"Why are you always thinking on the bright side? why don't you think about what you'll do if you lose?"

"What else can we do if we lose? Of course, I'm giving myself a week off. Otherwise, what's the point of playing, hehe."

sigh, the penalty for losing the World War is too scary. Experience and loot are halved, and the transaction fee is doubled. There's really no point in playing.

"Everyone, which side do you think will win this kingdom war? Chu or Qin?"

"i don't know. why don't you open a bet?"

the opening is not bad. Are there any big bosses with good reputation? let's start it.

the problem is that this game doesn't have an opening mechanism. How do we do it? "

"outside the opening, we'll bet somewhere else, hehe."

"Forget it, be careful not to let others take the money."

"if a good young man doesn't gamble, wouldn't it be better to save the money to buy a divine artifact?"

"f * ck, buy a divine artifact? do you know how much a divine artifact can be sold for?"

"I don't know. I don't care about that. I only care about where I can buy it."

"When I become a divine craftsman, I'll issue divine artifacts."

"By the time you become a divine craftsman, I'm afraid I'll be old."

"Haha, I can wait until I'm old."

I think Subjugator must be rubbing his hands in glee. He's finally got a chance to take revenge after the mess he's been put through by the wind and cloud Guild.

"Revenge? I'm afraid you're thinking too much. He's probably thinking about how to guard the statue of their country's Guardian beast."

"that's impossible. the qin country is so powerful. it's a piece of cake for them to defeat the chu country."

"Is the Qin country strong? In the end, they were still beaten like dogs by the wind and cloud Guild."

that's just the wind and cloud Guild taking advantage of the terrain. Otherwise, how could they possibly defeat the domineering aura? "

...

don't bother. How do you think the World War was triggered this time? just now, Subjugator fell to the ground again. He was defeated by the people of wind and cloud Guild.

Holy F * ck! What a huge melon! Has the domineering King fallen again? "

yes, he fell again. He was treated like a passerby and killed with a big move.

my heart aches for domineering King for a second.

"How could the wind and cloud Guild have so many ultimate skills? Where did they get the skill book?"

of course it's to fight the BOSS. They've fought so many bosses, and they were all powerful bosses.

yes, they cleared it again today. The extreme mode of the three-story dungeon, it was really fierce.

"it's a pity that i don't even have a piece of red equipment. i don't even want to have an ultimate skill."

you should have a dream. Maybe one day, you'll be able to get an ultimate skill book by killing small monsters.

"You're right. Let's go kill some monsters."

Speaking of which, do any of you have any scrolls with you? if you release them now, they'll probably sell for a sky-high price.

...

"What's a scroll? I've never seen one before."

"That thing is too rare."

"Don't worry, there will be some. I believe that Feng Yun realm and Subjugator are collecting the scrolls right now."

the kingdom war is such a big event. What's the use of one or two scrolls? "

that's right. Tens of millions of people are fighting in a chaotic battle. What's wrong with letting you have a few hundred thousand? "

it's still useful. It might be just a little bit off at the critical moment.

While Zhang Shan was farming monsters, he had been thinking about the world War. Suddenly, he remembered that he had not asked boss Wu.

how's the search for the house going? why isn't there any movement after such a long time?

Zhang Shan asked boss Wu.

"How's the house search going? it's been two months. Hasn't your wife found a suitable house yet?"

After they had auctioned off the invincible slash skill book, they had been looking for a house, but it was always Mr. Wu's wife who was looking for one.

He and boss Wu were in the game every day and didn't have time.

no, I even asked her yesterday. Either the traffic is inconvenient, or there are no suitable schools nearby. Anyway, there is no suitable school.

“No way. I always thought that buying a house was just a matter of money. Now that I have money, I can’t find a suitable house?”

Zhang Shan did not understand.

let’s take our time. After all, buying a house isn’t like buying vegetables. After buying it, we might have to live in a place for the rest of our lives. We have to be careful.

Chapter 330 Attack or defense

Boss Wu was not in a hurry, but Zhang Shan was. He was still renting an apartment.

He had wanted to change to a game cabin, but the apartment was too small. Even if he bought a game cabin, he would have no place to put it.

Thus, until now, even though Zhang Shan had earned quite a bit of money in the game.

But he was still using the game helmet.

Although the game helmet wouldn’t affect the quality of the game, the gaming pod would definitely be more enjoyable.

since he had earned money, why not treat himself better?

“they’ve been looking for a long time.”

Zhang Shan was a little speechless. Could it be that the one from boss Wu’s family was asking for too much?

A house was just a place to live. Now that he had the money, he could just buy a bigger one. There was no need to be too picky.

As for their concern about their children’s education, this shouldn’t be a big problem.

“We don’t understand. We need to find someone to understand the market and the general knowledge that we should pay attention to when buying a house. We’re afraid of being scammed. If we get scammed once, it’ll be a big scam.”

Alright, boss Wu’s words made sense. Zhang Shan used to be a poor loser. He had never thought of buying a house, so he did not pay attention to these problems.

However, you could often see disputes about buying a house on the internet.

It was right to know more about it, but he was probably too impatient.

Little fairy, who was farming monsters, asked boss Wu in surprise when she heard their conversation.

“Old Wu, are you guys going to buy a house? You can come to me for this.

“Looking for you? You’re not an agent, do you know where there are suitable houses for sale?”

Zhang Shan did not know anything about a little demon. He only knew that her family must have been very rich in the past.

As for the current situation, he didn’t know, but it definitely couldn’t be linked to the real estate agent.

although I’m not an agent, my family sells houses. What kind of house do you want to buy? I’ll help you ask if there’s a suitable one.

A little fairy said naturally.

F*ck, could the person selling the house be a real estate developer? No wonder he was so rich.

” i want to find a quiet place with a good school nearby and a big house. six-pipe bodhisattva wants a villa near the sea. that’s all i want. ”

Boss Wu thought for a while and told a little fairy about their requirements for the house.

” that’s easy. the district i live in meets your requirements. whenever you have time, you can come and take a look. ”

“Where’s your neighborhood?”

“Wanghai residence.”

“i know that place. my wife even asked someone about it. didn’t they say that it was sold out?”

Oh, the ones for public sale have all been sold out, but there are still a few sets left. If you want, you can come over and take a look.

Hearing the conversation between the two, Zhang Shan could not help but sigh. There were so many tricks.

It turned out that there were indeed cases where one could not buy a house with money. It was not that there was no such thing, it was just that people had no intention of selling it to you.

He had to find someone familiar.

“Then, when should we go and take a look?”

Boss Wu asked Zhang Shan.

let your wife go over and take a look first. You guys just have to look at it. I’ll buy it with you.

that’s great. My wife happens to be free today. I’ll ask her to go over and take a look after lunch.

a complicated matter was solved by a little fairy’s words.

as long as boss wu’s wife went to see it and felt that it was suitable, the matter of buying a house would be settled.

As for the money, Zhang Shan did not even ask.

Anyway, there was a market price for this thing. Besides, a little demon couldn’t possibly cheat them.

if she dared to trick others, zhang shan would chase her down every day.

Of course, this was just a joke.

While Zhang Shan and boss Wu were discussing buying a house, the bosses of the three biggest guilds in Chu had formed a team. They were discussing in the team channel how to fight for the country war tomorrow.

“What do you guys think? tomorrow, we’ll be the main defender or the main attacker.”

Feng Yun realm asked in the party channel.

the way to obtain the final victory in the kingdom war was to destroy the other party’s kingdom protector beast statue.

There was a problem. Should they attack the other side’s statue or prioritize their own statue?

This had to be arranged in advance. Otherwise, everyone would swarm up and attack the divine beast statue of the state of Qin.

In the end, their own statue was destroyed by the other party. What was the point of playing? they lost immediately.

This was a matter of military strength allocation, and even more so, a matter of direction.

Wasn’t he too domineering? If he wanted to be strong, he would have to keep on attacking so that the other party could only focus on defense and not dare to relax.

If not, they could focus on defense and wait for the enemy to attack.

...

of course, it would be best if they could keep attacking. the only thing they were afraid of was not being able to attack and having too many people die on their side.

By the time the enemy counterattacked, they would not have enough people to defend.

After all, reviving in the world War map was very expensive.

most of the players who participated in the battle would definitely choose to return to the city after they fell.

He would not choose to resurrect on the spot.

Not many people could afford to spend 1000 gold coins to resurrect on the spot the first time.

” what do you guys think? will the tyrant king choose to attack first or defend? ”

the dragon king of the east sea asked in the party channel.

Although he had been beaten up quite badly by the tyrant king, as a new faction, he really didn’t know much about the tyrant king.

it's hard to say. Normally, with the temperament of the domineering King, he would definitely choose to attack first. However, this world War is too important for both sides. I don't know if he'll be able to calm down.

Freedom King said slowly after thinking for a while.

...

although he had dealt with the domineering king many times and knew him very well, he was still very familiar with him.

But he might do the opposite.

no, with the personality of the tyrant king, it would be weird if he didn't choose to attack. Most importantly, the overall strength of the Qin players is indeed slightly stronger than us. If they don't attack when they have the advantage in strength, then they are not the tyrant king.

Feng Yun realm said with certainty.

"If that's the case, then it's easy. We'll defend first and let him attack."

I'm just afraid that we can't defend it. The strength of our Chu country players is a little weak. Although we have three guilds, the number of guild members is too small for the overall number of participants.

we have to defend even if we can't. Even if we can't win the World War, we can't lose. Let's make more preparations and see if we can buy a few scrolls. Also, equip our guild members with at least orange equipment sets.

"that's right. although our guild doesn't have many members, it's not too little either. the three guilds have a total of 200000 players. if we get all the equipment, we'll have no problem fighting two million players."

This morning, the wind and cloud Guild finally rose to Level 4.

He was currently arranging for people to recruit people in Dangyang city. He believed that he would be able to recruit 100000 people very soon.

By the time the World War started, the three guilds would have 200000 guild members.

It didn't seem like much, but it would definitely have an effect on the battle.
