

## Passive Skills 41

Chapter 41 Half collapsed

after temporarily passing through a dangerous period, everyone increased their output.

When the BOSS's HP dropped to 500000, it suddenly stopped attacking Zhang Shan. A channeling bar appeared above the BOSS 'head.

f \* ck, he's going to use a big move? should I interrupt him? "

"Close-combat Team one, use the assassins to interrupt." Feng Yun realm said without hesitation.

The assassin in the Guild, Windcloud killer, quickly stepped forward and used gouge to hit the BOSS, interrupting the channeling.

After the BOSS returned with a Heavenly Fire meteor, he actually started channeling again.

Everyone was speechless. Could the BOSS's skills not be defeated? He had just interrupted it, and now he had to re-cast it. No matter how many control skills he had, it wouldn't be enough.

"boss, what do we do? do we have to interrupt again?"

"Forget it. This is the first time I've seen such a mechanism. I've wasted a skill, so I can't waste it again. You don't have to worry about the BOSS 'channeling bar anymore."

OK?

The BOSS's channeling bar finally ended. Everyone was dealing damage while nervously watching the BOSS. If the boss's big move fell, they would run out of the skill's range.

A huge shadow slowly appeared behind the BOSS.

"You scared me. It's not a big move. This is the demon God's will, right? I don't think the boss's skill is very useful."

It was strange that the demon God Phantom didn't use any skills or attack them after appearing.

"Ah, why am I losing blood?"

"Stir-fry, I'm losing HP too."

what's going on? did everyone lose health? "

"f \* ck, the demonic god's will is damaging the entire screen."

After the demon God apparition appeared, everyone's HP was dropping. Although it wasn't much, if the equipment of the fragile professions was poor, they wouldn't be able to withstand it. Especially the support, they couldn't die.

If a few of the supports fell and no one healed Zhang Shan, they would not be able to fight.

"Take your own Dahong medicine. The support only needs to heal six tubes, and the others don't need to. Feng Yun realm quickly said.

“It would be great if Qingqing could use her totem technique. That skill is most suitable in this situation.”

Wind and cloud clear and quiet

I have no choice. A level 1 skill costs 2000 mana, and I don't have enough mana to cast. When I reach level 15, I'll get equipment to increase my mana.”

The devil's will lasted for 15 seconds, and seven people in the party had fallen. Including the Windcloud cannon, Windcloud blade, and Windcloud killer who had fallen earlier, there were only about 30 people left.

Fortunately, the support was still there, which was normal. A qualified support had to maintain a large amount of health. Otherwise, if they fell, how could they heal others?

The Guild members were all old foxes, so they naturally understood this principle.

damn, the demon God is really perverted. A Phantom of his will almost killed me, and I'm only left with a little health.”

“Yeah, it's so terrifying. In another two seconds, half of us would've been down.”

“That was really close. Fortunately, most of us have green cloaks, or we would have been finished.”

“Alright, focus. Take some medicine to recover your blood volume. Feng Yun realm reminded.

Everyone drank potions to recover their health while increasing their damage output to deal more damage as soon as possible.

Especially Zhang Shan, he basically just stood there and dealt damage. He didn't plan on moving at all, and was completely relying on the support to heal him.

If he couldn't, he could only leave it to fate. There was really no room for manipulation, so he could only rely on damage and luck.

As long as they could deal more damage in the shortest amount of time, the boss would cause less chaos to everyone.

The boss's HP slowly dropped to 20% and was about to go berserk.

During this period, other than the two melee players who fell to help Zhang Shan get out of the encirclement and pull aggro when he was trapped, there were no other accidents.

Close combat Team one had already fallen. Now, it was team two's turn. They were all paying close attention to Zhang Shan's condition and were ready to attack at any time.

“Pay attention, the boss is about to go berserk. Don't let go of the big move. All the numbers with stun skills, regardless of melee or ranged, as long as the boss casts a skill, interrupt it in order.”

“The BOSS” channeling time doesn't necessarily mean that it's a big move.”

“It doesn't matter what skill the BOSS is going to use. As long as it's cast, interrupt it. We need to fight for time.”

also, when interrupting, the ranged attackers will attack first. If the interruption fails, the assassins will immediately follow up. You guys can decide on the order of interruption.

Out of all the stun skills that were known, the Assassin's gouge was the most stable. The others, like the Archer's Meteor arrow, could not lock onto the target and might miss. That was why Feng Yun realm arranged for the long-ranged to attack first and the assassin as a substitute to prevent the interruption from failing.

As the BOSS 'HP dropped to 20%, it started to cast its skills like crazy. Even its casting speed seemed to have increased a little.

It was getting harder and harder for the few support behind Zhang Shan to heal him. If the BOSS suddenly hit a critical hit, they might not be able to keep up.

Fortunately, after the BOSS went crazy for a while, it started to cast a spell.

An Archer quickly shot a meteor arrow, accurately hitting the BOSS and stunning it for three seconds.

Meteor arrow was supposed to stun the boss for five seconds, but bosses usually had a stun resistance.

This priest was still considered good as it only reduced the stun time by less than half. The stun resistance was considered low. After all, it was a mage BOSS in cloth armor, and defense was its weakness.

Three seconds later, the BOSS continued to cast the skill and the second Archer hit again, giving everyone six seconds to attack.

However, none of the party members had an Archer with the meteor arrow skill. Originally, the ice Wizard also had a stun skill.

However, there weren't many ice mages in the Guild. There were only three of them, and they had all fallen after the demon God's apparition appeared.

Now, they could only rely on assassins. There were quite a number of assassins in the Guild, and a total of five assassins had learned gouge. Windcloud killer had fallen, but there were still four people with skills.

"Boss, should we continue to interrupt?"

...

one of the four remaining assassins asked.

"Continue. If the boss uses his ultimate skill, you guys won't be able to survive. Use all your skills."

.....

He didn't think much of their survival ability.

In fact, Feng Yun realm was not wrong. Once the boss used his ultimate skill, at least half of the remaining brats would die.

The assassin was now standing in front and had no chance of surviving. It was better to play a role and delay for a second.

The remaining four assassins attacked one after another, interrupting the BOSS 'channeling and buying some time.

With the continuous interruption, the BOSS's stun time was more than 10 seconds. In addition to the time left for the channeling bar, they had bought more than 20 seconds for them.

In just 20 seconds, the berserk BOSS's defense dropped and everyone dealt a huge amount of damage. Now, the boss had less than 60000 HP left.

This was the most crucial moment. It was a test of their equipment, strength, and luck.

The BOSS started a new channeling bar.

...

Once the channeling bar ended, a rain of fire fell from the sky with Zhang Shan as the center. The people who were standing nearby to deal damage almost all fell in an instant. Even Feng Yun realm did not last a second.

Zhang Shan's 16000 health couldn't hold on for long. The rain of fire continued for five seconds. The support behind him also fell. No one was healing him.

The substitute support couldn't rush into the rain of fire to heal him, so he was dead.

Forget it, I'm not going to struggle anymore. I've already lost my first life. I hope that the others can pull the BOSS back in the ten seconds that I wait for to be resurrected.
