

Passive Skills 45

Chapter 45 Various speculations

Taking off the game helmet, Zhang Shan did not feel tired, but his expression was a little dazed.

The advancement of technology was vividly reflected in the gaming equipment. He had been online for nearly 30 hours without any physical discomfort. It was amazing.

However, he should try to adjust his biological clock in the future and not work so hard. After all, he was now a multi-millionaire.

That's right, he had received the money that his Secretary had transferred to him. It was 13 million Yuan. He really didn't understand the world of the nouveau riche.

He had always heard that the rare items in the game were often sold for sky-high prices.

However, if he didn't experience it himself ... It was like seeing someone win the lottery on the news. It didn't feel real.

After taking a shower, he would go downstairs to eat. It wasn't good for a small rich person to always eat dry food.

after dinner, go to bed quickly. there's still an activity at night.

Even though it was still daytime, Zhang Shan still quickly fell asleep.

He dreamed that he had swept across the New World, beaten the world Guild out of Danyang city, and led the other Guild bosses to claim the throne of the number one Guild in the New World.

He even dreamed that he had single-handedly taken on the demon God and easily defeated the Super big Boss that was invincible in the eyes of others. The game was so simple and fun.

The alarm clock woke Zhang Shan up from his sweet dream. He opened his eyes and saw that the sky outside was already a little dark.

F * ck, it was a good thing he had set an alarm, or he would have missed the monster attack.

he immediately got out of bed, washed up, and ate some dry food. he came online again in less than five minutes.

it was around 7:30 p. m. there were still about 20 minutes before the monster attack began at 8 p. m.

Players had already gathered in Danyang city, and they could be seen everywhere. It was as if all of the players had returned to the city and were no longer farming monsters.

f * ck, boss, you're finally up. I was about to call you. Seeing Zhang Shan come online, thousand miles on a single horse called out to him.

"Why are there so many people in the city? the event hasn't even started yet."

hurry up and look at the event announcement. Teleportation is no longer allowed after the monster attack begins. Of course, everyone has to return to the city early.

then I'll go and take a look at the event announcement first. Where are you guys going to gather later? "

at the Guild base. After you've finished reading the announcement, come over quickly after you've sorted out your equipment and supplies. Let's sign up to defend the city together. It's on the announcement forum.

Eh? Registration? Forget it, I'll know when I see the announcement.

After entering the forum, Zhang Shan did not look at the announcement first. Instead, he found the video post that he had uploaded before he went to bed.

Hehe, the views are almost a million.

He had set up a payment mode. Although he only charged 10 copper coins per click, a million clicks would still make him 1000 gold coins. He had made a small profit.

Ten copper coins was really nothing now. Killing any random monster would earn them dozens of copper coins, so no one would feel bad if they could read a few paid posts.

If there were hot topics or eye-catching posts, he could still make a lot of money. It seemed that he had to develop more of such ideas in the future.

After all, he was now a celebrity in the New World. It was not difficult for him to attract people's attention. As long as he had the goods, he was not afraid of people not looking.

there were countless comments below the post, and zhang shan was very happy to read it.

there really is such an awesome item. I want to apologize to brother divine equipment. I shouldn't have doubted him. The one who had questioned Zhang Shan in the world Channel, Lord Xiaoyao, had snatched a post.

" that's right, what a powerful item. it can actually silence a mage for five minutes. it's amazing. if i use it on a mage during a PK, i'm afraid i'll be played until i want to commit suicide. "

how can such an item be used for PvP? it's a strategic item. I think godly equipment bro is losing out by using it to fight this BOSS. It'll definitely be more useful in the future.

that's right. This kind of thing is like a divine artifact. It's absolutely rare. It's impossible to get another one in the future, right? "

"there will always be someone who will be able to get it. if brother divine artifact can drop one, others can also drop it. There are so many players in the game, so there will still be someone who will get it. "

if that's the case, then what about the divine weapon? we haven't seen the second one yet, have we? "

you're just pushing it. How can it be the same as a divine artifact? "

it's hard to say. Maybe after a while, divine artifacts won't be so rare anymore. It's possible.

in your dreams. You've never even seen a red equipment before, and you dare to say that you're not lacking in divine weapons? where did you get your confidence from? "

there must be a lot of red equipment dropped by now, but we haven't seen it yet. For example, the wind and cloud Guild has fought two red bosses, so they must have dropped red equipment.

"Then why isn't it on the equipment ranking?"

" the equipment leaderboard only shows the equipment that the players have on them. the equipment that they can't carry is not on the leaderboard. a level 20 BOSS will definitely drop level 20 equipment. they can't carry it now, so of course it's not on the leaderboard. "

then, brother artifact can equip it. He's already level 20.

brother artifact is a pervert. I'm only level 13, but he's already level 20. That's too much.

"Yeah, it's too much."

have you guys ever thought about the fact that the monsters that attack the city only start at level 20? wouldn't we be in trouble if the monsters start at level 20? "

it's a high chance, right? the divine artifact boss is too far away from us. This is increasing the difficulty of our game.

"Don't go off topic, tell me how brother artifact killed the BOSS? it's good to use it as a reference."

what's there to say? with a scroll, killing a BOSS is easier than killing a chicken. What's there to say? you don't have a silence scroll.

didn't you see the main point? the main point is that before the divine weapon used the scroll, the BOSS had already lost more than 300000 HP. How did he do it? "

f * ck, if not for the person above reminding me, I wouldn't have thought of this problem. I was distracted by that damn scroll.

could it be that godly equipment bro was kiting the boss and reduced the BOSS 'HP by more than 300000? "

" are you kidding me? even a purple BOSS can't be kited. this is a red BOSS. don't you know how fast the BOSS can run? "

...

"Then how did he manage to take so much HP from the BOSS?"

"Yeah, it's impossible, right? His baby's health will be empty after a short while, not to mention that he's just a fragile little brat."

"Maybe brother artifact has a cool Cape, the kind that can add tens of thousands of HP."

are you an idiot? he was only level 10 back then, and could only wear level 15 equipment at most. What kind of level 15 Cape could heal tens of thousands of HP? "

" that's right. no matter how much health he has, it's useless. he doesn't have a support to heal him. there's no way he can hold off the BOSS. "

he should still be flying a kite. I just don't know how he does it.

look, the BOSS respawns on the altar, and its name is priest. Could it be that the BOSS doesn't even go down the altar and has godly equipment brother kite it back and forth to reduce its HP? "

"Are you kidding me? does that mean that the principal can only stay in school? You can't go out."

"Who knows? anything is possible in the game."

"there's a boss like this in the dungeon, right? you should know if you've tried it before. does the boss go down the altar?"

"the boss in the dungeon will not only go down to the altar, but it will also hunt down all the players in the dungeon. it will chase them to the ends of the earth."

...

"maybe the settings for wild bosses and instance dungeons are different?"

" brother divine artifact is too much. he cut off the most important part at the beginning and didn't show it to anyone. bad review. "

yeah, it's too much, but there's no point in looking at it. This BOSS is gone after it's killed. We can only clear Dungeons with different mechanisms.

" that's right. there's a difficulty for instance dungeons, especially the hard and extreme modes. they're definitely not comparable to the ones he's fighting in the wild. they're many times stronger. "

"It's nonsense when it comes to Dungeons. Have any other teams cleared them?"

what are you trying to do? how can you clear it? you're already killing the small monsters in normal mode, not to mention the gatekeeper boss. You'll need to be at least level 20 to clear it, right? "

"Then how did the wind and cloud Guild clear the instance?"

"Maybe they have a second item?"

"Impossible."

"Is there anyone who can go and ask around? aren't you bosses very close to each other? Just ask."

someone probably asked. But this is a trade secret. They definitely won't say it here, hehe.

Zhang Shan saw many people's comments and was in a good mood.

They could guess as much as they wanted. Anyway, there was no such BOSS outside, so there was no reward for guessing correctly.
