

Passive Skills 451

Chapter 451 Stealing phones in the middle of the night, doing cross-country missions

After seeing that Feng Yun and Bing Bing had settled it, a divine weapon.

Zhang Shan could feel the pressure.

So far, in the entire game.

Other than Zhang Shan, there were already four people who had gotten their hands on a divine weapon.

Although these four people were all players of the wind and cloud Guild.

But Zhang Shan still felt a sense of urgency.

The others were almost catching up to him, at least in terms of equipment.

He only had three divine artifacts.

Compared to the other four, he only had two more divine artifacts.

Furthermore, the king's Cape had been dropped during the kingdom war.

otherwise, he would only have one more divine weapon than the others.

in terms of equipment, zhang shan did not have much of an advantage over them.

Therefore, he had to hurry up and try to repair the divine artifact necklace.

it would be best if he could get another ring.

He had gathered all three of the sky Eagle King's accessories.

In that case, he would be able to maintain his advantage in equipment for a while.

Zhang Shan did not want others to catch up to his footsteps.

He wanted to maintain his lead.

He had firmly secured his throne as the number one player in the game.

With pressure came motivation. Now, Zhang Shan's motivation to farm monsters was even greater.

It didn't take long for him to complete the first mission and obtain the mission materials.

After completing a mission, Zhang Shan did not stop.

Instead, he quickly checked the mission panel.

Then, he ran to the next target location.

Just like that, after four to five days of fighting.

He had already completed 90 missions to collect materials.

There were only three quests left on The Map of Heaven's Gate to collect materials.

there were also six other quests that required him to go to foreign maps to complete.

Zhang Shan looked at the time. It was already past 11 O'clock at night.

The players who were usually online began to go offline to rest.

He planned to give it a try tonight.

He had to finish the remaining three missions first.

Then, in the middle of the night, he would secretly go to the foreign maps to kill monsters and complete missions.

I'll try to finish the task today and repair the divine weapon.

Time passed slowly. Zhang Shan was like a hardworking little bee, wandering all over The Map of Heaven's Gate.

At around 1 am, he finally managed to get the materials needed for the remaining three missions.

Now, there were only six missions left.

He hoped that everything would go smoothly.

Zhang Shan returned to Dangyang city and packed his bag.

at the same time, he would buy some supplies and repair his equipment.

The remaining six missions would not be easy to complete.

Putting aside the fact that he had to go to a foreign map to farm monsters.

It would take a lot of time just to farm monsters.

according to his experience from the material missions he had done recently.

If they were lucky, they could get the materials in a few minutes and complete a mission.

if they were unlucky, they might not be able to get it even after one or two hours.

On average, it would take about an hour to complete one task.

The last six quests didn't take into account the running time.

it would take at least six hours just to farm monsters.

If that was the case, he would have to wait until the next morning to complete the quest.

And this was under the premise that nothing went wrong, only then could it be done.

Otherwise, he would have to continue doing missions during the day.

...

however, there were simply too many players online during the day.

Even if it was Zhang Shan, he did not have the confidence.

They could freely kill monsters and complete quests in other people's national maps during the day.

That was almost impossible.

It would be best if he could complete all six missions by midnight.

He hoped that the wild monsters overseas would have a higher drop rate.

Otherwise, if it was delayed until tomorrow morning, there would be no way to do it.

Moreover, even in the middle of the night.

If Zhang Shan had spent an hour or two in a foreign country's map.

That would probably not be easy.

This was simply not putting anyone in his eyes.

...

No matter what, there would be people who couldn't stand it.

They would come over to cut him.

Therefore, he went to a foreign map to collect materials.

The word 'fast' had to be emphasized.

He had to get it done as soon as possible.

he needed the support of good luck.

Zhang Shan was in Dangyang city.

He then teleported to the teleportation Hall.

he stood outside the teleportation hall and thought about it seriously.

Which country would be better to go to first?

it was past one in the morning.

Although there weren't many players online, it wasn't too little either.

After some consideration, Zhang Shan decided to go to a country that was relatively easier to deal with.

he would go to the state of qin to complete another wave of missions at 3 or 4 am.

The mission that required them to go to the state of Qin's Tianshui city and farm black bears was the most difficult.

Zhang Shan had to consider it carefully.

He would choose the most suitable time to steal a wave of machines.

Let's start with a relatively simple one.

As for which country would it be easier to farm monsters?

Was there a need to ask?

to the qi state, of course.

A few days ago, Zhang Shan had just beaten the peerless Guild to a pulp in the West River plains map.

Even now, they still had not recovered from the shock.

Although the Qi Kingdom's player lineup was definitely not weak.

There were seven camps in the game.

The overall strength of Qi country. No matter what, he could be ranked third or fourth.

However, without the leader, what could the remaining noob players do?

if peerless guild didn't take action.

zhang shan did not care about the other newbie players.

After making his decision, Zhang Shan teleported to the Qi country's Lanling city.

When he walked out of the teleportation Hall, it was completely silent outside.

This was normal.

After all, it was already midnight, past one o'clock.

even if there were liver king players around, they would be farming monsters outside and not loitering around the city.

Zhang Shan teleported to the East Gate of Lanling city.

Then, he rode on the red Hare and ran towards the target location.

at this time, there were a few new players of qi near the city gate, and they were also running out of the city.

When they saw Zhang Shan, they felt very strange.

A few new players of Qi state started to discuss at the city gate.

"eh, why is this person's character name purple?"

I don't know. Even if they killed people from their own country, their names would be red. Why are there players with purple names?"

I'm not too sure about that. I've only just entered the game and haven't been there for a few days.

"could it be that you've killed too many people and your name is red to the point of turning purple?"

nonsense, he just ran out of the city. If he was a red name player, would he still dare to enter the city?"

that's true. Once a red name enters the city, they'll be locked up in a small black room.

"No, this is a foreign player. The names of foreign players are purple. There are foreign players who have come to our Lanling city."

who is that? did you see his name clearly? "

"I ran too fast, I didn't see clearly."

hurry up and call the big boss of our LAN Ling city to come out and kill that foreign player. Otherwise, it won't be safe when we farm monsters later.

all of a sudden, the originally quiet regional channel of lanling city became lively.

"We found a foreign player who just ran out of our East Gate."

"F * ck, who has the guts to come to our Lanling city and cause trouble?"

brothers who are farming monsters outside the East Gate, pay attention. If you see any foreign players, report your location immediately. We'll go over and kill them.

LAN Ling city was the headquarters of the peerless Guild.

Even though it was already past one o'clock in the middle of the night.

however, there was still a portion of peerless and peerless 'members who did not go offline to sleep.

He was still playing the game.

When they heard that foreign players had attacked their Lanling city.

He immediately organized his men and prepared to go over and do something.

In their eyes, this was a blatant challenge.

Could it be someone else? look at their Guild, peerless, who had been messed up by Zhang Shan.

They wanted to learn from Zhang Shan and come over to slap their faces?

Even his aunt could tolerate it, but his uncle couldn't.

They had to find the person, cut him down, and guard his corpse.

Zhang Shan galloped forward on his horse. This time, he was going to the map of Qingyuan Valley in Lanling city.

He was going there to kill a type of demonized wild deer.

only by going there to farm wild deer would he be able to obtain the materials required for the mission.

As Zhang Shan ran, he was seen by many of the Lanling city's players.

Even though the number of players was much lower at night.

However, there were still some players who were farming monsters outside.

After these players saw Zhang Shan's passing figure, they all reported their location information on the Lanling city regional channel.

"discovered foreign players. coordinates: wanwan. big bosses, please come over quickly."

discovered foreign players. Coordinates: Wanwan. Big bosses, please come over quickly.

discovered foreign players. Coordinates: Wanwan. Big bosses, please come over quickly.

The players who were farming monsters outside of the city of LAN Ling were constantly reporting Zhang Shan's location.

Meanwhile, peerless's members, who had been waiting for news, also rubbed their fists in anticipation.

After seeing that someone had already found the traces of the foreign players, he was stunned.

They rode their horses out of the east Gate, ready to go over and cause a scene.

it was quite boring to keep farming monsters in the middle of the night.

He could kill a wave of foreign players and raise his spirits.

based on the location information provided by the players of lan ling, they kept adjusting their direction.

He quickly chased after Zhang Shan.

Suddenly, one of the peerless guild members asked in the regional channel.

"is there anyone who wants to see the character name of that foreign player?"

I didn't see it clearly. That person's Mount was very fast. It ran away in a flash. I didn't have time to see it.

I didn't see it clearly. I think I only saw two words. It's called Liu Guan or something?"

f * ck, six tube Bodhisattva?"

The members of the peerless Guild who were chasing after Zhang Shan instantly stopped their mounts.

The group of people looked at each other.

They carefully discussed with each other.

"could it be the six-barreled bodhisattva?"

"Who else could it be besides him?"

I've always been a little strange. Who would dare to come to our Lanling city and act like a big Shot?"

since he's six-pipe Bodhisattva, then it's not strange. He's always been so arrogant. He thinks that no one can beat him, so of course he can run around.

"Then what should we do? Are we still going to chase?"

"chase my ass, go offline and sleep."

“Sleep? Didn’t we agree that we’ll have a go at it tonight?”

“I’m not in a good mood, so why should I work? I’m going to sleep.”

A group of peerless guild members heard that the foreign players who had come to LAN Ling city were Zhang Shan’s descendants.

He didn’t dare to pursue.

Why was he still chasing? Send someone over?

Their entire Guild had close to 100000 players.

Even in the sealed West River grassland map, he had not been able to cut down Zhang Shan.

Instead, they were beaten up by Zhang Shan and scattered in all directions.

Right now, there were only a few dozen people.

If he chased after them, wouldn’t he just be giving them free food?

There were even some people who felt disgusted by Zhang Shan.

Damn it, he was originally excited and ready to come over and kill people.

However, the current outcome ...

they didn’t dare to chase after him.

he had come in high spirits, but left in low spirits. one could imagine his mood.

some people couldn’t stand this and went offline to sleep.

At this moment, Zhang Shan had just arrived at the map of Qingyuan Valley and was preparing to farm the demonized wild deer.

Zhang Shan had no idea about Guild peerless’s actions.

Although the players of LAN Ling city were chatting on the regional channel.

He could also see it.

After all, he was also in LAN Ling city now.

But Zhang Shan did not even bother to look.

If it wasn’t necessary, he couldn’t believe that the people from peerless Guild would dare to come and cause trouble for him.

other than the peerless guild, the other players in lan ling city were all stunned.

To Zhang Shan, they were all rookies among rookies.

He wouldn’t put it in his eyes at all.

He didn’t need to care.

right now, he was only concerned about how long he had to grind here to get the materials needed for the mission.

He hoped that it would be done faster.

Otherwise, he might not have been able to complete all six missions in one night.

When Zhang Shan entered the map of Yuanyuan Valley.

There were already a few players from LAN Ling city farming monsters here.

Zhang Shan did not care about these rookies, nor was he interested. He went out of his way to kill them.

However, even though Zhang Shan had no intention of killing them ...

However, there were people who wanted to be heroes everywhere.

These few newbie players saw the purple name above Zhang Shan's head.

he confirmed that it was the foreign player they had been talking about on the regional channel.

A few rookie Berserkers waved their small axes, used the charge skill, and rushed to Zhang Shan's side.

Then, he waved his Small Axe and hacked continuously.

One axe could only cut off Zhang Shan's health, which was more than 100.

she was simply scraping his face.

After all, these players were only level 20 or so, and they were all wearing trash equipment.

Such a small amount of damage was not even as much as Zhang Shan's own health recovery.

Even if they hacked him until the next day, it was impossible to kill him.

Zhang Shan originally did not want to bother with these rookies.

However, he saw that these people had come all the way to his face and were even cutting him down.

zhang shan turned around and fired a shot. a few lines of damage flashed past, and these rookies were shot down.

After these noobs fell to the ground, the entire world became quiet.

zhang shan continued to farm for mission materials on the map of qingyuan valley.

as for the noobs who had fallen to the ground, they kept calling for the big shots of lanling city to come over on the regional channel.

They were still hoping that the big shots of Lanling city would come forward and kill Zhang Shan.

However, they didn't know that peerless Guild's players had already run away.

It wasn't that peerless Guild didn't want to interfere in this matter, but that they simply couldn't.

In the eyes of ordinary players, the boss of peerless Guild was a truly high and mighty Boss.

However, in Zhang Shan's eyes, the so-called Big Boss of the peerless Guild was not much different from an ordinary player.

Under the muzzle of his gun, it was also a one-shot kill.

Zhang Shan spent about 10 minutes on the map of Qingyuan Valley and quickly obtained the mission materials.

He was lucky this time. Including the time he took to run, he only spent less than half an hour.

This was a very good start.

After completing a quest, Zhang Shan returned to Dangyang city.

Then, he began to move on to the next mission.

Another two hours had passed, and Zhang Shan had completed the other four missions.

The process was quite smooth.

Although it was not like in Lanling city, where no one came to kill him.

When he was doing missions in the other four countries, there would always be people gathering people to try and kill him.

The least number was a hundred.

The most common enemy they encountered was Yuyang city in the Yan Kingdom.

The Yuyang city's misty rain Guild, after hearing about Zhang Shan, ran to their city.

They organized a thousand people to attack.

The result was predictable. He was easily defeated by Zhang Shan.

When they were preparing and gathering more manpower, Zhang Shan had already obtained the materials for the mission.

He had already run away.

These six quests were for farming monsters and obtaining materials in foreign maps.

Although it seemed difficult.

But it also depended on who was doing it.

To Zhang Shan, it did not seem too difficult.

After all, there weren't many players online in the middle of the night.

Even if he ran to someone else's map to farm monsters, he would still be able to escape.

They could not organize an attack that was too powerful.

Furthermore, these missions to obtain materials in foreign maps ...

It seemed to be relatively easier. He only needed to farm for about ten minutes for each mission to get the materials.

Zhang Shan was running and farming monsters. In total, he would need at most half an hour.

It was possible to complete a mission.

In this short amount of time, he would wait for others to figure out his movements.

Zhang Shan was almost done with his mission.

They only had one chance to harass Zhang Shan.

If they could not take care of Zhang Shan once, they would not have the chance to organize a second wave of attack.

That was because Zhang Shan had already left.

Of the last six missions, he had already completed five.

There was only one mission left, which was to go to the state of Qin's Tianshui city and farm the black bear mission.

He hoped that this wave would not cause any trouble.

however, zhang shan was not too worried.

it's so late at night, so the domineering king should have already gone offline to sleep.

Without domineering King, the other members of domineering aura would not be able to organize themselves.

When they discovered Zhang Shan, they would organize a group to attack him.

Perhaps he had already finished farming and ran away.

After all, he wasn't heading to the blue field city where the domineering aura Guild was located.

Instead, he was going to Tianshui city.

The reaction speed of Guild domination might be slightly slower.

Zhang Shan went through the teleportation Hall and teleported to Tianshui city.

Then, he teleported to the city gates and quickly ran towards the map of the autumn leaves forest.

This time, his luck was pretty good.

when he was at the city gate, he was not seen by the players of tianshui city.

Perhaps, it was too late now.

At 4 am, there were only a few players online.

Even the players who were still online at the moment should be focused on killing monsters and leveling up.

How could he be fine, running around the city gate?

Zhang Shan ran towards the map of the autumn leaves forest.

On the way, he could occasionally see some players from Tianshui city farming monsters on the map outside the city.

Of course, when Zhang Shan saw others, others would also see him.

Then, it repeated what happened to Zhang Shan in Lanling city.

These Tianshui city players who saw Zhang Shan first called out in the Tianshui city regional channel.

It wasn't safe for them to farm monsters when foreign players passed by.

They kept calling out on the regional channel, hoping that someone would come out and deal with it.

Unfortunately, it was too late.

There was a response.

The players from Tianshui city who had discovered Zhang Shan did not receive any response.

They were unwilling to accept this.

Damn it, even the foreign players had come to their own country's map.

It was too much that no one came to deal with it.

When he saw the high-end players of Tianshui city, he didn't respond.

They called out in the state of Qin's national channel again.

six-barreled Bodhisattva has come to Tianshui city. Hurry up and come to the big boss to deal with it.

Perhaps Zhang Shan was just unlucky.

it just so happened that domineering king had not logged off to rest today.

He was at the liver level.

Subjugator was about to reach level 40.

Therefore, he decided to give it a try and reach level 40 as soon as possible.

When he saw that a qin player had said on the National channel that Zhang Shan had run to Tianshui city ...

For a moment, tyrant king didn't know how to react.

He still didn't understand what was going on.

Therefore, the domineering King asked in the country of Qin's national channel.

“What’s going on? six-pipe Bodhisattva has run to Tianshui city? Our country’s Tianshui city?”

“F * ck, King zerju is online? Hurry up and kill six-pipe Bodhisattva. I just saw six-pipe Bodhisattva outside Tianshui city.”

“Are you sure you’re not mistaken? It’s so late at night, what’s the six-barreled Bodhisattva doing in Tianshui city?”

“I’m sure I’m not mistaken. he’s riding a red hares and has a purple character name. how could I be mistaken?”

yes, Wang zheju. I saw him too. It’s the six-barreled Bodhisattva.

“Where is he? Brothers from the state of Qin who are online, quickly gather and go over together to kill six-barreled Bodhisattva.”

After repeated confirmation.

The tyrant king was extremely excited. He kept calling out in the country of Qin’s national channel.

In new world, who did the domineering King hate the most?

Needless to say, it was definitely Zhang Shan.

Because there were a few times where he had been beaten to the ground by Zhang Shan.

Moreover, they had fought several major battles with the wind and cloud Guild.

Every time, it was because of Zhang Shan that they failed.

How could the tyrant king not hate him?

But hatred was hatred.

He also knew that under normal circumstances, he would not be able to do anything to Zhang Shan.

zhang shan was so strong.

in a situation where they did not have many people, they did not dare to provoke zhang shan.

Furthermore, Zhang Shan was not alone. He had the wind and cloud Guild behind him.

If they wanted to mess with Zhang Shan.

The wind cloud Guild would definitely help.

but this time, it was different.

Zhang Shan had run to the Qin country’s Tianshui city alone.

at this time, and in tianshui city at that.

even if the wind cloud guild wanted to help zhang shan, they would not be able to do so.

Even though the overbearing King didn’t quite understand.

Why would Zhang Shan come to Tianshui city alone in the middle of the night?

Perhaps he was here for a mission, or perhaps there were other reasons.

However, no matter what Zhang Shan was here for.

Even if Zhang Shan was here for a vacation and to see the scenery.

Even the domineering King wouldn't let him go.

This was a great opportunity for the domineering King.

He quickly called out to the players of the state of Qin online on the National channel and organized them.

Let's go to Tianshui city together to encircle and suppress Zhang Shan.

In order to deal with Zhang Shan alone, the Overlord had to call for help on the National channel.

there was no other way.

It was already so late at night, yet there were less than a thousand players in their Guild.

based on their guild, with the few people they had, they definitely wouldn't be able to handle zhang shan.

Domineering King had watched the video of Zhang Shan's battle with Guild peerless several times.

From his point of view, to deal with a person like Zhang Shan, it was impossible.

They should have organized more people to surround and fight slowly.

After Zhang Shan's few skills were all used up.

They could swarm up and kill him.

The domineering King felt that although Zhang Shan was very strong, and seemed invincible, he was not the only one.

However, after Zhang Shan's magic immunity skill was used up.

There was nothing amazing about it.

They could still rely on their numbers to kill Zhang Shan.

Chapter 452 Killing monsters while fighting

while he was recruiting soldiers, he also ordered the qin players who were farming monsters in the map outside of tianshui city.

Constantly reporting Zhang Shan's location information.

Zhang Shan had no idea about this.

He already knew that it would not be easy to complete the mission in the Qin country's map.

Therefore, Zhang Shan had been paying attention to the Tianshui city regional chat channel.
when he had just appeared in tianshui city.

Zhang Shan could see that there were many players from Tianshui city calling for help.

However, not many people responded.

This made Zhang Shan think that the main players of the Qin country had all gone to sleep.

Perhaps no one would come to mess with him.

It was a good opportunity for him to safely farm monsters and complete his quests.

Thinking of this ...

Zhang Shan was extremely happy and quickly ran towards the map of the autumn leaves forest.

He thought to himself, 'looks like this mission isn't too difficult.'

he should be able to settle it smoothly.

However, Zhang Shan did not know.

Not only the main players of the state of Qin, but there were also many people who were still online.

Even the domineering King was online.

That iron-headed kid was now preparing to organize a large group of people to go over and deal with him.

However, the domineering King had been calling out to his friends on the country of Qin's national channel.

They were conversing on the state of Qin's national channel.

zhang shan had no idea.

After entering Tianshui city, he could see the chat messages of players on the Tianshui City chat channel.

However, Zhang Shan could not see the chat messages on the country of Qin's national channel.

He wasn't a player from the state of Qin.

Only the players of the country could see the information in the National chat channel.

Zhang Shan had no idea that a siege against him would soon arrive.

Of course, in Tianshui city's regional channel.

Zhang Shan could not see any signs of the Qin players coming to attack him.

but he was still very careful.

In the process of running, they tried to avoid the players from the state of Qin who were farming monsters nearby.

If he really couldn't avoid it, he would pass through quickly.

And he even changed directions a few times.

Zhang Shan did not want the Qin players to know where he was going.

When Zhang Shan reached the map of the autumn leaves forest.

He quickly looked around but did not see any players from Tianshui city farming monsters here.

This was normal.

The bear monsters in the autumn leaves Forest Map were level 40 wild monsters.

nowadays, there were very few players who would farm monsters above level 40 in their own country's map.

When everyone had the ability to farm level 40 monsters, they would basically go to Heaven's Gate.

The monsters over there gave more experience.

If he had that ability, why would he still want it? he could just kill these monsters with less experience in the country's map.

Wouldn't that affect his leveling efficiency?

Only those players with lower levels and strength would farm monsters in the maps of their own cities.

Because they couldn't farm the wild monsters in the Heaven's Gate map, they could only farm in their own country's map.

He saw that there were no players from Tianshui city in the autumn leaves Forest Map.

Zhang Shan was completely at ease.

Very good, no one should have found him here, so let's start farming.

just as zhang shan was preparing to start and collect the mission materials.

the domineering king had already teleported to tianshui city with a large group of people.

There were more than 30000 players gathered in celestial water city.

The domineering King was indeed awesome.

...

In the middle of the night, at four o'clock in the morning, he could still organize an Army of tens of thousands of people.

It had to be said that the domineering King still had a unique charm.

He was always able to gather a large group of followers.

let's go! Subjugator ordered as he saw more people arrive.

send a group of people to find six tube Bodhisattva.

at the beginning, when zhang shan first appeared in tianshui city.

The Qin players near the city could still see Zhang Shan's figure.

He also reported his location on the country of Qin's national channel.

However, as Zhang Shan ran further and further away, and changed directions a few times along the way ...

In the end, he had reached the autumn leaves Forest Map.

Right now, the domineering King no longer had any information on Zhang Shan's location.

...

he could only calculate the general direction based on zhang shan's previous position.

that was why he had ordered a portion of his men to find zhang shan first.

Only by finding Zhang Shan would they be able to set up a siege.

A few thousand Qin players spread out to search according to the general direction that Zhang Shan had gone.

The rest of the Qin players, under the lead of the domineering King, ran out of the city.

The danger was slowly approaching, but Zhang Shan did not know about it.

He was currently focused on killing monsters.

Why didn't he get these damn quest materials?

Zhang Shan had been in the autumn leaves Forest Map for more than ten minutes.

However, the materials required for the mission did not drop.

Of course, Zhang Shan also knew that he was a little too anxious.

Although he had been collecting mission materials in the other five countries before, he had not been able to do so.

In about ten minutes, he had all the materials.

However, this did not mean that everything would go so smoothly.

He might have been lucky in the first five cross-country missions.

That was why he was able to get the quest item so quickly.

This time, his luck was slightly worse. More than ten minutes had passed, and the quest item still had not dropped.

He would continue to farm since no one would bother him anyway.

From Zhang Shan's point of view, this mission to the Qin country was perhaps the easiest.

He had been in the autumn leaves forest for more than 10 minutes now, killing black bears.

He had not even seen a single player from the state of Qin.

Zhang Shan thought to himself. Since no one came to harass him, it would not matter if he farmed for a longer time.

If he could just relax and slowly farm monsters, he would be able to complete the quest and obtain the required materials sooner or later.

Just as Zhang Shan was burying his head in the task materials.

Suddenly, a player from the state of Qin ran into the autumn leaves forest.

When that guy saw Zhang Shan, he was first stunned.

Then, he pretended to kill monsters at the side.

Zhang Shan did not mind. He had thought. This was a player who had come here to farm monsters.

After all, this was the map of the state of Qin.

It was normal for players from the state of Qin to come here to farm monsters.

He had no idea that the player from the state of Qin was currently shouting madly in the state of Qin's national channel.

discovered six-barreled Bodhisattva on the map of the autumn leaves forest.

"Are you sure?"

After searching for more than ten minutes, he finally found Zhang Shan's location. Subjugator was extremely excited and asked again to confirm.

Subjugator was afraid that this player from the state of Qin would be dazed in the middle of the night and see things wrongly.

In the beginning, they had been confused by Zhang Shan's change in direction.

Even after sending out a large number of people and searching for more than ten minutes, they still could not find any traces of Zhang Shan.

he had been looking in the wrong direction.

Now, he had finally found her.

"I'm sure. I saw it clearly."

good. Everyone, gather at the map of the autumn leaves forest. We must make sure that six-barreled Bodhisattva stays this time.

"not bad, kill him and guard his corpse."

Under the lead of the domineering King, the 30000 players from the state of Qin charged towards the autumn leaves forest.

However, their current location was still a few minutes away from the map of the autumn leaves forest. they still had to run a little longer before they could bump into zhang shan.

As the group ran, the domineering King continued to ask.

“Is six-barreled Bodhisattva still there? He didn’t run, did he?”

“No, he’s still farming monsters there.”

“Farming monsters? Six-barreled Bodhisattva’s level is so high. Why would he come to the autumn leaves Forest map to farm level 40 bears?”

” who knows? maybe he’s really doing a mission? ”

haha, it’s good that he’s doing a mission. If he’s doing a mission, he won’t be leaving for a while.

“Eh, something’s not right. Brother, you saw six-barreled Bodhisattva, but didn’t he see you?”

“I saw it. I was right beside him, pretending to come here to farm monsters. six-barreled bodhisattva probably thinks that i’m a new player who’s here to farm monsters in the autumn leaves forest, so he ignored me. hehe.”

“holy f * ck, brother, you’re so smart.”

haha, I don’t think six-barreled Bodhisattva knows yet. We’re going to kill him with a bunch of people.

“He probably doesn’t know. Later, when we enter the autumn leaves Forest Map together, we’ll definitely give him a shock, hehe.”

“When we get there, we’ll chop him to death. Let him be arrogant.”

At that moment, Zhang Shan did not know that danger was approaching.

He had thought that although he had just teleported to Tianshui city, it would be late at night.

His whereabouts had already been exposed.

However, the Qin players could no longer gather their strength to come and kill him.

As Zhang Shan was farming monsters, he glanced at the Qin player beside him who was doing his best to farm monsters.

he didn’t think too much about it. it was just a noob.

zhang shan was too lazy to care.

Just let him play at the side.

Right now, he only had one thought in his mind. He wanted to get the materials required for the mission as soon as possible.

after gathering all the materials, he could go to an qisheng to hand in the task.

Zhang Shan would only know after he handed in the mission.

Was an Qisheng going to help him repair the divine artifact directly, or did he have other missions that he had to continue with?

However, it seemed that the more anxious he was, the more he couldn't get the materials needed for the mission.

he had been grinding for more than 20 minutes, but he still hadn't found the mission material.

His luck was a little bad.

Could it be that he had used up all his luck when he went to the other five countries?

just as zhang shan was recollecting his emotions and preparing to continue with the mission ...

He suddenly saw a large group of Qin players appear at the entrance of the autumn leaves Forest Map.

The person in the lead was the domineering King.

F * ck, the domineering King was actually online.

Seeing the appearance of the domineering King, Zhang Shan could not help but be shocked.

he had never expected that the domineering king would also be working through the night.

Didn't he need to sleep?

However, despite his surprise, Zhang Shan's reaction was not slow.

He raised his gun and shot the player from the state of Qin who was farming monsters beside him.

Then, he mounted the Scarlet hares and quickly ran into the depths of the autumn leaves forest.

zhang shan finally understood.

The guy who was farming monsters next to him must be the eyes of the domineering King.

He had been wondering why a monster-farming fellow would suddenly appear in the middle of the night.

If they wanted to farm monsters, shouldn't they have done so here a long time ago?

After understanding all this, Zhang Shan shot the guy down with one shot, and then quickly ran away.

Could he not run?

Since the domineering King had appeared, there would definitely be a large force behind him.

Seeing Zhang Shan turn around and run, the tyrant king shouted.

"Let's chase him together until he dies,"

“don’t worry. the autumn leaves forest is only so big. With so many of us here, he won’t be able to escape.”

As Zhang Shan ran deeper into the map, he turned around to observe.

His main purpose was to see how many people the domineering King had brought.

If there weren’t many people, he wouldn’t have to run.

He turned around and killed the domineering King.

However, Zhang Shan quickly realized.

He had taken it for granted.

As expected, the tyrant king had come prepared.

although zhang shan could not tell exactly how many qin players were chasing after them.

however, he looked at the qin players behind him, forming a long black dragon.

the number of people must have exceeded ten thousand.

with zhang shan’s current strength, if he were to deal with a few thousand people, he would not even need to run.

If he was given enough time, he could kill thousands of people.

However, it would be a little difficult if there were more than ten thousand people.

The main thing was that the duration of his two magic-immune skills couldn’t last that long.

If he didn’t have magic immunity, he wouldn’t have dared to take on a large group of people’s vegetable knives and hack randomly.

He had already tested this theory during the chaotic battle with peerless.

Without magic immunity, it was easy for him to be continuously stunned by the enemy.

If it wasn’t handled well, he would be unconscious until he died.

Of course, against the countless Qin players behind him, Zhang Shan could not win.

however, if he wanted to run, he would definitely be able to.

He still had his God’s descent.

As long as he used his ultimate skill, he would definitely be able to charge out.

There was no hurry now. Since the domineering King had brought his men, there was no need to rush.

He planned to entertain them well.

The last time there was a monster attack in the demon suppressing city.

The domineering King had brought his men over to cause some destruction.

Zhang Shan would remember this grudge.

It was just that he had never found a good opportunity.

He wanted to teach the domineering King a lesson and teach this iron-headed kid a lesson.

However, he didn't usually have the chance to do so. The domineering King was there every day, and they were farming monsters in their own territory.

There was a large group of people following him.

Zhang Shan wanted to teach the domineering King a lesson, but there was no suitable opportunity.

But this time, wasn't the opportunity here?

Even though it was the domineering king who was chasing him with his men.

But in reality, it was Zhang Shan who was deliberately delaying.

He planned to drag out Subjugator's team first, and then find an opportunity to turn around and fight.

Slowly, the Qin players brought by the domineering King were slowly worn down.

When the enemy's numbers were depleted to a certain extent, they would then destroy them in one wave.

The domineering King brought along 30000 Qin players and chased after Zhang Shan.

However, of his thirty thousand men, some were fast, while some were slow.

Slowly, the line grew longer and longer.

Zhang Shan observed as he ran.

Suddenly, he turned around and got off his horse.

The violent bullets swept towards the players from the state of Qin who were chasing him.

The players from Qin who were chasing after them the most were basically the core members of the Guild.

These people were all rich bosses. They were basically all wearing red equipment and riding hero mounts.

That was why they were able to keep chasing after Zhang Shan.

But even if he was the boss of Guild Subjugator ...

Under Zhang Shan's gun, they were no different from ordinary rookies.

He was also someone who could be shot down in one shot.

Very quickly, Zhang Shan had swept down a large number of them.

Following that, Zhang Shan turned around and dismounted to attack.

stop! tyrant king shouted as he quickly stopped.

“spread out and surround them. We’ll surround six-barreled Bodhisattva first, then we’ll slowly beat him.”

as zhang shan attacked, he observed the movements of the qin players.

the qin players didn’t continue and charged towards him.

Instead, they spread out to the left and right, preparing to outflank him from both sides.

Not bad, with the brain of a tyrant, his reaction speed was quite fast.

Seeing that there was no one around, they continued to charge at him.

Zhang Shan quickly mounted his horse. Before the Qin players could surround him, he charged forward.

The wave of attacks that he had just turned around to attack did not have much effect.

Even though his attack power was very high and his attack speed was very fast.

Furthermore, he had the passive buff of catapulting. However, if the players from the state of Qin did not attack him head-on, he would not be able to escape.

He couldn’t hit that many people.

just now, he had at most knocked down a hundred people.

Compared to the tens of thousands of Qin players chasing after him, the number of players he had defeated was nothing.

Moreover, the players that he had defeated would probably be resurrected by the other support players soon.

In other words, all his efforts had been in vain.

Zhang Shan thought as he ran.

This domineering King had become smarter.

It didn’t seem as easy to deal with as before.

He had to think of a countermeasure.

if they were to fight face to face, he definitely wouldn’t be able to defeat the tens of thousands of qin players behind him.

Originally, he had wanted to slowly play a war of attrition.

Drag the tyrant king to death.

Now, it seemed that it was impossible.

Could it be that he had to use the positioning bead to escape?

In fact, it was possible to run away directly.

In any case, he had already marked the coordinates on the map of the autumn leaves forest.

At most, he could just wait for an hour or two before he teleported back.

It was impossible for the domineering King to lead tens of thousands of people to guard him for an hour or two.

Going back directly seemed like a good idea.

In other words, it would only take up one to two hours of his time.

But Zhang Shan was not willing to give up.

He had wanted to teach the Overlord a lesson.

If he went back like this, would he be the one being taught a lesson?

This can't do.

Damn it, even if they wanted to run, they had to fight first.

Zhang Shan made up his mind and decided to be reckless.

Who cared? anyway, he was going to run later.

It would be better to just face them head-on.

He would try to defeat as many Qin players as possible and then use the positioning ball to escape at the last moment.

he would kill as many as he could.

This was much better than running away.

If he ran away directly, it would be a terrible scene.

with his strength, it would be too much if he were to back down.

Zhang Shan planned to be hot-blooded for once, and do it recklessly.

As for the mission ...

After he returned, he would teleport back an hour or two later and continue farming.

Zhang Shan did not believe that the domineering King would be here waiting for him for an hour or two.

They did not know that Zhang Shan could be teleported back.

The secret of the locating Pearl was still unknown to many people.

After making up his mind.

Zhang Shan, who was running, suddenly turned around and dismounted.

The bullets were like raindrops, sweeping towards the Qin players behind him.

Tyrant king used the same skill again.

He let the Qin players go around from both sides.

It was a huge encirclement.

slowly, they surrounded zhang shan in the middle.

This time, Zhang Shan had no intention of running away.

With his strength, would he run away when he encountered an enemy?

He would fight them head-on.

even though there were tens of thousands of players from the state of qin who had entered the autumn leaves forest map ...

But so what?

Back in the West River plains map, peerless had even more members.

She still couldn't do anything to him.

They saw the encirclement and gradually closed in.

The overbearing King arrogantly shouted.

"Six-barreled Bodhisattva, let's see where you can run to this time."

Zhang Shan retorted without any hesitation.

"who said i'm running? if you have the ability, come up and cut me down."

Wasn't this what a domineering King was like? he relied on his numbers.

If you have the ability, come up and try to cut him.

Zhang Shan wasn't bragging. He didn't even need to attack the domineering King. He just relied on the random ejection damage.

They could easily flick a domineering King to death.

"Hmph, a dead duck's mouth is stubborn. let's attack together and chop six-barreled bodhisattva to death."

Under the command of the domineering King.

Countless Qin players attacked him from all directions.

Zhang Shan was not afraid. He had not even used a single skill.

just like that, he relied on his usual damage output to continuously attack the qin players.

In his surroundings.

Other than the countless Qin players.

There were also many bear monsters.

After these black bear monsters were killed by Zhang Shan and the Qin players' chaos damage.

Soon, new bear monsters spawned.

zhang shan's ejection damage, while attacking the qin players, would occasionally have some damage that would be reflected on the bear monsters.

in other words, while zhang shan was fighting at one side, he was also killing monsters at the same time.

it was just that it refreshed slower.

Hehe, that's not bad.

Perhaps, when they got into a fight later, he would be able to get the materials needed for the mission.

Chapter 453 An unexpected surprise

Zhang Shan held on to the attacks of countless Qin players.

His ejection damage could occasionally kill a few bear monsters.

This made him feel a little hopeful.

If he could finish the mission while fighting ...

That would be wonderful.

He didn't want to have to come back to complete more missions after he returned.

Of course, Zhang Shan was just casually thinking about it.

He also knew that the possibility of this was not high.

He had already been killing bear monsters here for more than 20 minutes.

He didn't even manage to get the materials needed for the mission.

Now, he could occasionally kill a few bear monsters by relying on the damage from the ejection.

he just wanted to get the materials.

That would be too much of a stretch.

One must know that he was surrounded by Qin players.

Even though the bear monsters in the autumn leaves Forest Map ...

The refresh rate was also considered very fast.

however, when these bear monsters were just refreshed, they were all stunned.

They were all cleared by all sorts of chaotic attacks.

While the Qin players were attacking Zhang Shan.

They would also specially clear the surrounding wild monsters.

If not, the bear monster would interfere with their siege on Zhang Shan.

Under the command of the domineering King.

These Qin players surrounded Zhang Shan tightly.

However, they didn't do so. Instead, they attacked fiercely.

Instead, he was slowly fighting a battle of attrition with Zhang Shan.

Zhang Shan was not in a hurry.

He wasn't afraid of exhaustion.

It relied on the lifesteal effect and the catapulting passive.

He had almost unlimited endurance.

The tyrant king wanted to exhaust him to death? he was thinking too much.

Even when Zhang Shan was surrounded, he was still calmly firing his gun.

He had not even used a single skill.

Tyrant king was starting to get anxious.

He knew that he could not continue like this.

If this continued, Zhang Shan would be fine.

and the qin players that he had brought along were all beaten to the ground by zhang shan.

Thinking up to this point, Subjugator spoke in the country of Qin's national channel.

"increase our strength and attack together. We have to force out six-barreled Bodhisattva's life-saving skill."

The video of Zhang Shan's battle with the peerless Guild had been watched by Subjugator a few times.

Zhang Shan's few skills were still fresh in his memory.

Especially the berserk skill and the God's descent, these two magic-immune skills.

If he did not force Zhang Shan to use these two skills.

They could forget about killing Zhang Shan.

When there was magic immunity, no matter how many people besieged him, he would still be able to escape.

Zhang Shan would not die.

under the command of the domineering king, countless players from the qin country rode their horses and charged towards zhang shan.

When they rushed to Zhang Shan's side, they immediately dismounted and attacked.

All sorts of damage were dealt to Zhang Shan.

Some of the Qin players, after getting close to Zhang Shan, threw a stun skill at him.

as a result, zhang shan was often hit by all kinds of stunning skills and beaten into a fool.

Damn, these Qin Dynasty players were really strong.

They were much stronger than the members of peerless.

...

He looked at his head and saw all sorts of dizzy status effects appearing.

Then, like a fool, he just stood there and took the beating.

After being stunned, he couldn't even fight back.

When he couldn't deal any damage.

He couldn't suck blood.

Zhang Shan was a little depressed.

the cooperation of these qin players was pretty good.

Zhang Shan's health bar was being continuously reduced by the Qin players.

fortunately, his hp was high enough.

Otherwise, he would have been lying down a long time ago.

zhang shan could not help but feel emotional.

...

As the perpetual second place, the domineering aura Guild had some skills.

It seemed like he still had to use his skills.

Otherwise ...

He was afraid that he would soon be hacked to death by the Qin players.

Thinking of this, Zhang Shan decisively activated his berserk skill.

Berserk will dispel the crowd-control status, and during the duration of the skill, it will be immune to magic control.

This time, Zhang Shan did not do so. At the same time, he activated other explosive skills.

In any case, one berserk skill was more than enough.

He planned to use his small skills separately.

He wanted to drag the time.

The longer he dragged on, the more Qin players he would defeat.

This time, he wasn't trying to run away.

He only wanted to defeat more Qin players.

To Zhang Shan, as long as he could last longer, the number of Qin players that he would defeat would naturally increase.

He only had a few skills in total, so he would take it slow.

After activating the berserk skill, Zhang Shan's stunned state was instantly lifted.

taking advantage of the berserk skill's duration, he raised his hand cannon and fired at the surrounding qin players.

Large groups of Qin players fell to the ground.

At the same time, Zhang Shan's health was quickly sucked back to full health.

Seeing Zhang Shan's display of power, the domineering King was very calm.

He was even a little happy.

He had finally forced out one of Zhang Shan's magic-immune skills.

In other words, Zhang Shan was only left with one last magic-immune skill.

zhang shan, who did not have any magic immunity.

Tyrant king didn't care about it at all.

With the strength of over thirty thousand of them.

It would be a piece of cake to hack Zhang Shan to death.

He saw Zhang Shan beating up a large group of Qin players.

He even cleared out the Qin players around him.

A few seconds after he activated his berserk skill ...

No qin player would be able to get close to him.

Those Qin players were all knocked down by him while they were charging.

The overbearing King stood not far away and shouted in the country of Qin's national channel.

"Don't stop, keep charging. Don't give six tube Bodhisattva a chance to catch his breath. I'll be responsible for resurrecting the fallen brothers."

After activating his berserk skill, Zhang Shan had become very ferocious.

However, under the command of the domineering King, the Qin players did not retreat.

On the contrary, they charged even more ferociously and fiercely.

They continued to charge at Zhang Shan.

even if they fell on the road of charging, they would still continue to move forward.

It had to be said that under the leadership of the domineering King, the players of the state of Qin were all in a bad mood.

He was really very fierce.

It was no wonder that almost no one dared to provoke Guild Subjugator.

they were a bunch of lunatics.

The duration of a berserk skill was only ten seconds.

It ended very quickly.

the moment the berserk skill disappeared, zhang shan activated his shadow clone skill.

Three Zhang Shans stood in a row.

The three hand cannons fired countless bullets into the surroundings.

They suppressed the Qin players to the point that they couldn't move.

Although the shadow clone skill did not give Zhang Shan the ability to be immune to control.

however, the attacks of three zhang shans were even more ferocious.

with such a high damage output, what kind of magic immunity did he need?

with this kind of damage, who could come up?

Unfortunately, the good times did not last long.

Just as Zhang Shan activated his shadow clone skill.

the tyrant king shouted.

“Archers, fire meteor arrows. Let's do it together.”

As soon as he finished speaking, a large group of archers in the back row shot dozens of meteor arrows at him.

F * ck, it can even be played like this.

He saw dozens of meteor arrows flying toward him.

Zhang Shan could not help but be shocked.

The domineering King had thoroughly studied him.

This was too f * cking targeted.

Zhang Shan did not dare to be careless. At this time, he could not care less about the two clones.

The main body used the jump skill and jumped to the side, dodging the meteor arrow.

Fortunately, just now.

He had already cleared out all the Qin players around him.

Otherwise, he wouldn't have been able to jump that far.

Zhang Shan's main body jumped away, but his two clones could not.

The doppelganger only inherited the character's attributes and passive skills.

However, active skills could not be used.

a large number of meteor arrows kept hitting the clone.

Zhang Shan had just used the shadow clone skill to split out two clones.

Just like that, it was destroyed by the tyrannical King's arrangements.

A clone that had been stunned was of no use.

Zhang Shan could only continue to activate his fanatic skill.

Fanatical skill, increases attack speed by 100%.

After activating the fanaticism skill, Zhang Shan temporarily suppressed the surrounding Qin players.

but it didn't last long.

The fanatic skill could only last for six seconds.

The duration was too short.

It looked like he still had to use his ultimate skill.

These small skills usually looked impressive.

However, the duration was too short.

At the crucial moment, it was not as useful as he had imagined.

He still had to rely on big moves.

the deity's descent skill could last for a minute.

It was much stronger than a minor skill.

He saw Zhang Shan continuously use a few skills.

Tyrant king shouted from the side.

“Continue charging. Six-barreled Bodhisattva only has one skill left. Force him to use his skills and then kill him with a flurry of blades.”

After Zhang Shan had used all of his explosive skills, he was finally done.

He couldn't suppress the Qin players who were charging at him.

Countless players from the state of Qin rode on their mounts and quickly rushed to his side.

they were still shouting arrogantly.

“Brothers with stun skills, take turns stunning six-barreled Bodhisattva.”

not bad. Use the stun skill and stun six-barreled Bodhisattva until he dies.

Very quickly, an ice mage from the Qin country threw a stun skill at Zhang Shan from a distance.

He was stunned on the spot.

The other Qin players swarmed forward and used all sorts of skills on him.

Countless Qin players surrounded Zhang Shan and hacked at him.

It was as if they were fighting a boss.

after being stunned again.

Zhang Shan had no other choice but to activate his God's descent skill.

Once the big move was used, a strange Halo enveloped Zhang Shan's body.

The stunned state that had hit him disappeared instantly.

Damn it, now it's my turn to show my power.

I've let you guys be arrogant for so long.

this time, he activated god's descent.

Let's see what you can do to me.

After activating his ultimate skill, Zhang Shan was determined.

The bullets did not stop and were fired at the players from the state of Qin. Soon, the area around him was cleared.

when he saw zhang shan, he used his last life-saving skill.

Tyrant king was very satisfied.

He stood not far away and said calmly.

don't be in a hurry now. Surround six-barreled Bodhisattva and attack him slowly. Once his skill is exhausted, he'll be dead.

The Qin players who were originally surrounding Zhang Shan, under the command of the domineering King, slowly retreated.

They were thinking of waiting for Zhang Shan's skill to disappear before surrounding him.

But could Zhang Shan let them have their way?

you thought i would stop if you didn't attack me.

If you don't charge, do you think I won't?

Zhang Shan glanced at the domineering King standing in the distance.

Then, as he continued to attack, he charged towards the tyrant king.

Damn it, he had to defeat the domineering King today.

Even if they were knocked down, they would be quickly revived by the support.

Zhang Shan had to beat him up once.

If he didn't show his power, this iron-headed kid would not know how many eyes the horse King had.

zhang shan's actions, the qin players present, of course, understood.

to capture the bandits, first capture the king.

Back then, Zhang Shan had used this move to destroy the peerless Guild.

The surrounding Qin players, of course, did not want to let Zhang Shan succeed in his goal.

countless qin players quickly blocked zhang shan's path.

at the same time, he shouted.

stop him! Six-barreled Bodhisattva is going to kill Wang zheju.

Hmph, six-barreled Bodhisattva is too naive. Does he really think that we players from the state of Qin are like those cowards from the peerless Guild? "

The surrounding Qin players quickly gathered around the domineering King.

They formed a wall of human flesh, protecting the domineering King in the middle.

As for the domineering King himself, he just stood there without moving.

He didn't have any intention of running.

Zhang Shan did not care about the actions of the Qin players.

It was good that tyrant king didn't plan to run.

Zhang Shan had been a little worried that the domineering King would also be like the unparalleled gentleman.

When they saw him rushing over, they would run away on their horses.

If the domineering King were to run away on his horse, Zhang Shan would not be able to catch up to him.

Even though the tyrant king was very stubborn.

but who knew if he would make a strategic retreat?

After all, it was human nature to seek good fortune and avoid disaster.

However, the domineering King did not run.

Instead, he stood still without moving a single step.

Zhang Shan did not know what the domineering King was thinking.

Perhaps he really wasn't afraid of death.

even if he died, he could be resurrected quickly.

Maybe it was the countless Qin players around that gave him the courage of a King.

He had thought that with so many Qin players around, Zhang Shan could not do anything to him.

of course, he was counting on the qin players to protect him.

The tyrant king was probably thinking too much.

After activating the deity's descent.

The current Zhang Shan could be said to be in an invincible state.

furthermore, it was not an instant invincibility, but an invincibility that lasted for a minute.

The duration of the deity's descent skill was a full minute.

In this one minute, no one would be able to hurt him.

Not only that, Zhang Shan's damage output ability, under the support of the God's descent skill, had also been greatly improved.

After all, the deity's descent skill didn't just provide him with magic immunity.

More importantly, it could increase all his attributes by 100%.

At this moment, Zhang Shan's attack power had exceeded 100000, and his attack speed was even more ferocious.

Even though countless Qin players wanted to protect the domineering King.

However, in the face of Zhang Shan's ferocious attack ...

All the efforts of the Qin players were in vain.

Zhang Shan's attack was like a long blade.

the formation of qin players protecting the domineering king was split apart.

The countless Qin players did not stop Zhang Shan's advance.

As Zhang Shan attacked, he steadily advanced.

Soon, he would be able to bring tyrant king into his shooting range.

Zhang Shan's attack was about to hit him.

The tyrant king shouted angrily.

"Six-barreled Bodhisattva, don't be too pleased with yourself. Do you think I'm a hypocrite, a coward?"

"Of course not, because you're even stupider."

Faced with the overbearing King's clamor, Zhang Shan retorted without holding back.

Zhang Shan was speaking the truth.

The unparalleled gentleman was indeed a coward.

However, the domineering King wasn't any better.

Because he was stupid enough.

Hearing this, the domineering King was furious.

He shouted.

"Let's rush over and kill him."

After saying this, the domineering King also carried his axe and charged towards Zhang Shan.

Originally, he had planned to slowly drag it out with Zhang Shan.

After Zhang Shan's magic immunity state disappeared.

With one more move, they cut down Zhang Shan.

However, the domineering king couldn't take it anymore.

He had no intention of escaping.

He didn't want to stay here and wait for death.

After all, when Zhang Shan rushed up, he would also be dead.

It would be better to be brave.

At least, it would be better to die on the way.

The tyrant king roared and charged towards Zhang Shan.

The other Qin players also charged forward with all their might.

Even now, Zhang Shan's god's descent state was still present.

He was still unable to suppress these ferocious Qin players.

Very quickly, countless Qin players had rushed to Zhang Shan's side.

All sorts of vegetable knives were continuously being used to cut at Zhang Shan.

then, in the god's descent state.

The damage they could deal was pitifully small.

At this moment, Zhang Shan was not affected by the magic damage.

Only pure physical damage could hurt him.

In other words, even if it was a vegetable knife team.

He could only use normal attacks to deal damage.

if he used skills to attack zhang shan, it would be ineffective.

Looking at these Qin players who seemed to have gone crazy.

Zhang Shan said to himself.

"They're a bunch of f * cking lunatics."

However, even though these Qin players were fierce, fierce, and crazy ...

However, to Zhang Shan, it was not a threat at all.

His hand cannon kept shooting out bullets.

With just one shot, there would be about ten Qin players falling to the ground.

The remaining one or two damage points might be reflected on the newly spawned bear monsters.

The more the Qin players charged, the happier Zhang Shan was.

How could he not be happy that someone was rushing over to die?

As Zhang Shan attacked, he looked around.

he suddenly realized that the domineering king had disappeared.

Eh? Where was the domineering King?

Why did he disappear in such a short time?

Did he run away?

As Zhang Shan attacked, he looked around for traces of the domineering King.

After searching for a while, he found that the domineering King had already fallen to the ground.

I swear to the heavens.

Zhang Shan really did not go out of his way to attack the domineering King.

The large group of Qin players had rushed to his side.

Although it was not a threat to him, it still caused him to be a little flustered.

for a moment, he didn't have time to care about the domineering king.

How did this guy fall?

He was probably shot to death at random.

he looked at the place where tyrant king had fallen.

Zhang Shan could not help but curse in his heart.

what a pitiful man.

Zhang Shan did not even have the chance to hit him.

Subjugator had already died from an unknown AoE attack.

After the Overlord fell to the ground.

The surrounding Qin players did not have any intention of retreating.

On the contrary, it was as if his blood had been stimulated.

Facing Zhang Shan's brutal firepower, they charged even more ferociously.

Looking at the Qin players, they were determined to fight to the death.

It was as if Zhang Shan was an unpardonable criminal.

Zhang Shan could not help but sigh.

The tyrannical King really had a lot of brainless fans.

Compared to him, the unparalleled gentleman was like a little brother.

However, although these Qin players were charging forward fiercely, they were still in a bad mood.

But Zhang Shan did not care at all.

In any case, this mission could not be completed for the time being.

Then let's kill a wave and return after we've killed enough.

When the deity's descent's duration ended ...

he would use the positioning bead to teleport and escape.

i don't want to play with these people anymore.

As Zhang Shan attacked, he was also paying attention to the duration of the deity's descent.

When he saw the state of the deity's descent, the moment it disappeared ...

Zhang Shan immediately used the positioning ball to escape.

He returned to the stone tablet of the city Lord's mansion in the demon-suppressing city.

Currently, the positioning ball had two fixed coordinates.

One of them was the Gerri wilderness, and the other was the demon-suppressing city.

there was still a set of coordinates left for random use.

for example, this time, zhang shan had set the third set of coordinates on the map of the autumn leaves forest in tianshui city.

Zhang Shan used the positioning Pearl and teleported away.

The players from the state of Qin were left dumbfounded.

This was especially true for the overbearing King, who was extremely depressed.

They had put in so much effort, but still, they had not managed to make Zhang Shan stay.

In fact, Zhang Shan had already disappeared from their sight a few times.

In the beginning, the domineering King had thought that ...

Zhang Shan had obtained some kind of scroll, such as an invisibility scroll or teleportation scroll.

But now, it seemed that things were not that simple.

There might not even be such scrolls in the game.

Even if there was, it was impossible for Zhang Shan to always be able to get it, right?

Every time they reached a critical moment.

Zhang Shan could always escape without a trace.

It was as if they had done enough foreplay and were about to go into battle, only to find that the beauty was gone.

This feeling was unbearable.

However, it was gone.

They did not know that Zhang Shan was hiding nearby.

He still teleported far away.

Anyway, they would never be able to find any traces of Zhang Shan.

“Let’s stay here and farm monsters tonight. When six-barreled Bodhisattva returns, isn’t he going to complete a quest? I don’t believe that he won’t come back.”

let’s go! Subjugator gritted his teeth and said to the Qin players.

alright, we’ll listen to Wang zheju. We’ll play with six-barreled Bodhisattva tonight.

After Zhang Shan disappeared, the remaining Qin players scattered around the autumn leaves Forest map to farm monsters.

as for the players who fell to the ground, they were slowly being revived by the support.

After Zhang Shan was teleported away, he had no idea what the domineering King had done.

Because he was in the middle of an unexpected surprise.

He had originally planned to wait for an hour or two.

He then used the positioning ball to teleport back to autumn leaves forest and continue to complete the quest.

However, when he opened the mission panel ...

[mission completed.]

The materials needed for the last mission.

She didn't know when he had gotten it.

Zhang Shan had not expected such a surprise.

when they were fighting just now, it was a little intense.

He simply didn't have the time to pay attention to the items that dropped.

He didn't even know when the materials were dropped.

However, this was not important.

As long as he got the materials needed for the mission, it would be fine.

This was also good. Now, he didn't need to go to the autumn leaves Forest Map.

he directly went to find an qisheng.

It was wonderful.

[PS: push a book for a group member.]

[title: I jump between the strong and the weak.]

When he drew an awesome skill, he was extremely strong.

When you get a trashy skill, everyone will understand, hehe.

Chapter 454 Tears of the heavenly Eagle King

Since he had completed the mission, he had to hurry up and find an Qisheng to hand in the mission.

after the task of collecting materials was completed.

This time, an Qisheng should be starting to help him repair the divine artifact.

he couldn't possibly say that there were other missions?

If that was the case, Zhang Shan would really have to scold the grain.

In order to repair this divine artifact necklace.

he had completed almost ten days of missions.

Every day, he had to do all sorts of missions. There were also missions that required him to run to other people's territory to kill monsters.

This was Zhang Shan. If it was anyone else.

there was an 80% chance that he wouldn't be able to complete these missions.

After seven to eight days of running around, it should be time for him to reap the rewards.

Although, compared to Feng Yun and Bing Bing.

Zhang Shan did not have much time to complete his missions.

After all, Feng Yun Bing Bing had been collecting materials for more than half a month.

He had spent much more time than Zhang Shan.

However, Zhang Shan refreshed quickly.

In terms of difficulty, Zhang Shan's mission was definitely more difficult.

Otherwise, he wouldn't have been able to drag this out for so long.

With Zhang Shan's strength.

It would take eight to nine days to complete the mission.

How could the missions he did not be difficult?

He hoped that he could directly repair the divine artifact this time.

forget it. he would know the result after he went to find an qisheng and handed in the mission.

She wondered if an Qisheng was on duty at night.

Don't wait until he runs over.

That old man was still sleeping. That would be awkward.

It would cost 10000 gold coins to teleport to the West capital.

Although Zhang Shan was not short of money, he could not waste it.

Zhang Shan gathered his thoughts and stopped thinking.

He first returned to Dangyang city.

He then teleported to the warehouse and took out all the divine materials he had stored.

Although an Qisheng didn't say that he needed divine materials this time, he didn't need any divine materials.

However, Zhang Shan knew that repairing a divine weapon required this.

It was better to take them all, in case he had to make another trip later.

not to mention, through this period of accumulation.

Zhang Shan had already stored more than ten divine materials.

Most of them were things that he had bought from the auction house.

There was only one divine material, which he had accidentally dropped when he was fighting a mini-boss.

Compared to the divine artifact mission items, divine materials were relatively easy to obtain.

It was still possible to slowly accumulate it.

After taking out the divine materials.

Zhang Shan teleported to the teleportation Hall.

He then teleported to the West capital.

when he arrived at an qisheng's alchemy laboratory ...

He found that the door of the laboratory courtyard was open.

The divine craftsman an Qisheng stood in the middle of the courtyard with a big question mark above his head and looked up at the sky.

This made Zhang Shan a little confused.

What was there to see in the sky at night?

Was he looking at the moon?

However, he did not care about this.

It was fine as long as the old man an Qisheng was still here. Moreover, an Qisheng had a big question mark above his head.

This meant that Zhang Shan could go up and talk to an Qisheng.

...

He was originally worried that the old man had gone to sleep.

After all, an Qisheng was an NPC.

It was different from the NPCs in the shops.

Sometimes, they would disappear.

It was not like the NPCs in the shops, who were fixed in one place for 24 hours a day.

Seeing that an Qisheng was still there.

Zhang Shan quickly stepped forward and said.

“Master, good evening.”

An Qisheng ignored Zhang Shan and muttered to himself.

“The moon tonight is so beautiful.”

zhang shan was a little speechless.

...

Who the hell wants to talk about the moon with you?

I’m here to hand in the mission.

If it wasn’t for the big question mark on an Qisheng’s head.

zhang shan had thought that he still had some unfinished tasks.

An Qisheng had a big question mark above his head.

That meant that his mission had been completed, and he could now go up to have a conversation and hand in the mission.

Seeing an Qisheng’s incoherent words, Zhang Shan went up and asked.

master, I’ve found all the materials you wanted. Can you start repairing the relic now? ”

“Oh, it’s you, young man. What did you say just now?”

seeing an qisheng’s reaction ...

Zhang Shan was very depressed. So he had been asking for a long time just now, and it was loneliness.

He could only repeat.

“Master, I’ve found all the materials you wanted. Can you help me repair the God equipment now?”

after zhang shan finished speaking, he quickly handed over all the materials.

After an Qisheng took the materials, he casually glanced at them.

Then, he said to Zhang Shan.

the heavenly Eagle King’s necklace is far too damaged. It has lost all of its divinity, and now it still needs a divine material to activate the divinity within the divine weapon.

After hearing an Qisheng’s words.

Zhang Shan quickly took out a divine material and handed it over again.

She knew that an Qisheng would do this.

Based on his previous two experiences ...

When repairing a divine artifact, how could it not require divine materials?

Although an Qisheng didn't mention it before.

However, Zhang Shan had already made his preparations.

This came in handy, saving him the trouble of making another trip.

An Qisheng said to Zhang Shan after receiving the divine material.

come with me. We'll start repairing this necklace now.

after hearing an qisheng's words, zhang shan's heart finally settled down.

what the hell, he had been doing this mission for so long.

This round was finally in the bag.

All he needed to do now was to wait for the divine weapon to be born.

After an Qisheng finished speaking, he turned around and walked to the control desk.

Zhang Shan followed closely behind.

He didn't want to learn anything.

this was in the game, so he couldn't learn anything by just watching.

Learning a skill required a skill book.

In order to learn a trade profession, one had to obtain a recipe or recipe.

Zhang Shan followed closely behind an Qisheng out of pure anticipation.

soon, he would have another divine weapon in his hands. how could he not be excited?

he walked to the control panel.

An Qisheng's nonchalant expression changed.

Instead, he took out the strange stone with a solemn expression and carefully placed it on the operating table.

Then, he waved his hands continuously.

All sorts of materials and parts were thrown onto the operating table.

The control station was slowly operating, and all kinds of lights were constantly flashing.

After a few minutes, an Qisheng stopped what he was doing.

The operating table also slowly stopped operating.

An exquisite necklace was presented on the operating table.

Under the moonlight, the necklace glowed with a strange light.

After waiting for a while, an Qisheng took out the necklace from the console and handed it to Zhang Shan.

“Lucky young man, the necklace has been repaired. I hope you can find the other ring of the heavenly Eagle King and let the divine weapon of our ancestors shine again.”

Zhang Shan asked an Qisheng as he received the necklace excitedly.

“Grandmaster, thank you. I will continue to work hard. Right, regarding the heavenly Eagle King accessory, the other ring, do you have any clues?”

Zhang Shan followed the pole and climbed up.

Of course, he also wanted to get all the accessories from the sky Eagle King series.

However, he had no idea where to start.

the first ring he got was not long after the game started.

He had picked it up from the auction house.

As for this necklace, he had obtained it from a treasure chest after the monster siege event.

the methods of obtaining these two items were completely unrelated.

Zhang Shan had gotten these two accessories purely by luck.

As for the remaining Sky Eagle king ring, if no one gave him any pointers.

He could only rely on luck.

Of course, if it was just luck, there was too much randomness.

Perhaps he would never be able to find another ring.

Hence, in order to find the last ring, Zhang Shan could only thicken his skin and ask an Qisheng.

An Qisheng was a divine craftsman-level NPC in the game.

He must know a lot of things.

Of course, Zhang Shan had to think of a way to dig more. If he said no, then he could. He had to find a clue.

Perhaps it could save him a few days of hard work.

“i don’t know about that. i heard that he was lost outside heaven’s gate.”

hearing an qisheng’s reply, zhang shan was very disappointed.

This was equivalent to not saying anything.

What did he mean by lost outside Heaven’s Gate?

Didn't that mean that it would only drop when they killed monsters and bosses in the Heaven's Gate map?

However, Heaven's Gate's map was so big, and there were countless wild monsters and bosses.

Where was he supposed to start from?

He didn't even have a rough range.

an qisheng's words were completely useless to zhang shan.

However, Zhang Shan did not give up. He continued to ask an Qisheng.

"master, do you know where the other ring of the heavenly eagle king was lost outside heaven's gate? Or is it in the hands of some demon?"

"It's been too long, I can't remember."

Upon hearing this, Zhang Shan almost jumped up.

Damn it, so an Qisheng really knew.

it was just that he had forgotten, or perhaps he did not want to tell zhang shan?

This wouldn't do, he had to find a way to get to the bottom of this.

He had to at least ask for a general direction.

If he could get a general direction, then in the future, it would be easier for Zhang Shan to target specific monsters or fight bosses.

Maybe he could even get the last ring in the sky Eagle King series.

Zhang Shan continued to ask an Qisheng.

"Great master, try to recall, was it the demons in the city or the demons outside the city that picked up the ring?"

Zhang Shan decided to use the process of elimination and ask slowly.

Anyway, an Qisheng was still confused.

For now, he could still talk to an Qisheng.

The demons in the Heaven's Gate map were mainly divided into demon Warriors scattered around the map and various bosses.

There were many such demon Warriors and bosses.

There were also the demons who stayed in the demon cities.

If they were in a Demon City, it would be easy.

This scope could be narrowed down a lot.

currently, the players had only discovered two demon cities.

One of them had already been taken down by Zhang Shan, and it had become the demon suppressing city.

In another newly discovered city.

It was called Twin City, and the demons in the city were all level 70 and above.

for the time being, there was no one who could fight him.

If the heavenly Eagle king's ring was in a Demon City, then perhaps it was in Twin City.

If that's the case, then it'll be easy.

When Zhang Shan reached level 50, he would attack the city.

he would definitely be able to get the ring.

Hearing Zhang Shan's question, an Qisheng thought for a while before replying.

"I seem to remember now, it was a pair of twin demons who picked up the other ring of the heavenly Eagle King."

After an Qisheng finished speaking, the question mark above his head disappeared.

Zhang Shan did not have a mission at the moment, so he could no longer talk to him.

However, this was no longer important.

Zhang Shan had already asked the most crucial question.

The heavenly Eagle king's ring was on a pair of twin demons.

As for where the Twin demons were?

zhang shan guessed that it should be the city lord of the demon twin city.

Otherwise, why would the city be called Twin City?

Forget it, let's not think too much.

When he reached level 50.

We'll know whether it's true or not after we take down twin Demon City and behead the demon City Lord.

He had finally gotten a useful clue.

Zhang Shan was in a good mood.

He had obtained one divine artifact, and he also had a clue about the other divine artifact.

His hard work during this period of time had not been in vain.

When he saw an Qisheng, the question marks above his head disappeared.

Zhang Shan did not continue to ask.

An NPC without a question mark above his head was a wooden block to the players.

no matter how much he said, it would be of no use.

the divine artifact had been repaired, and the matter had come to a temporary end.

Zhang Shan immediately returned to Dangyang city.

He took out the newly repaired artifact necklace from his backpack and equipped it, then checked its attributes.

Just now, he had only been concerned about asking an Qisheng about the whereabouts of the other ring.

He had not had the time to check the attributes of the divine necklace yet.

[tear of the heavenly Eagle King (God equipment): physical attack 3000-3000, agility 600]

Equipment level (sealed): currently level 40. The artifact will be unsealed as the player's level increases. It will be unsealed once every ten levels.

[durability: never worn out. Bound to player six-barreled Bodhisattva, can not be dropped.]

[special effect 1: power attack. Basic physical attack power is increased by 10%.]

[special effect 2: sorrowful. Increases damage by 10%.]

[special effect 3: Holy Strike. When attacking, there is a chance to trigger the Holy Strike effect. It ignores the target's defense and deals 10x the damage. The chance of triggering it is 1%.]

[special effect 4: life conversion. When attacking, damage is converted into your own health points. The conversion rate is 10%.]

[Note: This God equipment is the last one the heavenly Eagle King crafted after witnessing the demonic invasion.]

The God equipment was filled with the power of the sky Eagle King.

Zhang Shan looked at it carefully. The attributes and special effects of the artifact necklace.

Although in terms of description, this necklace was different from the heavenly Eagle king ring.

But in terms of effect, the two were basically the same.

The attack and agility attributes added by both were the same.

They both added 3000 points to attack and 600 points to agility.

It was similar in terms of special effects.

It was just that the name of the special effects was slightly different.

the second special effect of the ring was [shatter].

the necklace's second special effect was called sadness.

However, the effect was the same, increasing damage by 10%.

As for the other three special effects, they were exactly the same.

It was a special effect that increased attack power by 10%.

It was a special effect that increased lifesteal by 10%.

There was also a general special effect, Holy Strike.

Although there weren't any special effects, these four were all very useful.

After equipping the Tear of the Sky Eagle King, Zhang Shan's lifesteal effect had reached 25%.

The two god tier accessories gave him 10% each, and he also had a life concentration passive skill.

It could also increase the lifesteal effect by 5%.

A 25% lifesteal effect was very powerful.

With his current damage output, if he were to add the ejection passive.

With the lifesteal effect, he was almost invincible.

Unless they were stunned.

Otherwise, it would be really difficult for the current Zhang Shan to die.

Even weaker real name bosses would not be able to kill him, let alone players.

As long as there were still monsters around the BOSS.

It could make his ejection passive and put it to good use.

zhang shan was now completely capable of soloing those weaker real name bosses.

He was simply invincible.

Another divine weapon had been added. Zhang Shan checked his own attributes.

[character: Bodhisattva of six tubes]

[occupation: hunter]

[title: human hero (equipped), nemesis of demons]

[merit points: 152361 (Lieutenant)]

[level: 48]

[HP: 516889]

[MP: 23100]

[physical attack: 27016-28112]

[strength: 2186]

[agility: 5728]

[intelligence: 2186]

[defense: 4850]

Luck: 9

[Endowment: King of passive (every time you kill a monster, there is a chance to randomly obtain a passive skill from the monster. The chance of triggering it is one in a million.)]

Skill 1, headshot (passive), skill 2, taming, skill 3, Eagle Eye (passive), skill 4, berserk mayfly

this type of character's attributes looked very comfortable.

The last time he had occupied the demon-suppressing city, the system had rewarded him with two additional 1000 points to all his attributes.

It made Zhang Shan's attributes even more abundant.

It wasn't like before, where only the agility attribute was prominent.

the other basic attributes were only two digits.

It was pitifully little.

The attributes now looked much better.

All attributes were strengthened.

Now, his basic physical attack power was close to 30000.

If the killer book was included, it would add up to 100% of the attack power.

That meant that it was about to reach 60000 attack power.

moreover, the two sky eagle king accessories had two special effects that increased damage by 10%.

In addition to the title, the damage was increased by 10%.

His current damage had already exceeded 60000.

If the damage was added to the priest's blessing, it would definitely exceed 70000 damage.

With such high damage, what kind of boss could he not kill?

Zhang Shan was a little arrogant now. He even wanted to attack the Twin Demon City directly.

Looking at his strong attributes, he felt that he should be able to defeat a level 70 real name boss even if he didn't wait until level 50.

As long as he had a group of powerful support, he would be fine.

of course, zhang shan was just casually thinking about it.

One must be down-to-earth.

There was no need to rush the matter of attacking the city.

The demon City was there anyway.

No one else could beat him up.

He was not afraid of being snatched away.

It would be better to wait for a while.

when he reached level 50, it would be more stable.

When he reached level 50.

the four divine artifacts on him could be unsealed again.

His strength would also undergo a qualitative change.

Furthermore, to Zhang Shan, it was not too difficult to reach level 50.

Recently, he had been doing missions.

However, Zhang Shan's level did not fall behind. He was now at level 48.

After all, they had to keep killing monsters while doing quests.

Although the leveling efficiency was not as high as in the Gerri wilderness, it was still not enough.

However, he was alone, so he could farm faster.

Therefore, even Zhang Shan had to complete the mission for eight to nine days.

There was still no one who had surpassed him in level.

In fact, there was no one who could catch up to his level.

The one that was closest to him in terms of level was heart moves with me.

That Big Shot had already reached level 47.

If he wanted to catch up to Zhang Shan, he would have to grind for a few more days.

however, zhang shan would not remain in the same spot. now that he had completed his quest, he could focus on farming and leveling up again.

[heart moves with me] was destined to be unable to catch up to his level.

Chapter 455 Level 50

After getting his hands on the divine weapon, Zhang Shan did not know what to do for a while.

It was only four in the morning, so his friends were not online yet.

Was he going to farm monsters alone?

He had no other choice when he was doing missions.

His friends didn't have the same mission, so they couldn't accompany him every day, so he had to do it alone.

However, when they were grinding and leveling up, they still needed a few more people to make it more lively.

It's quite boring to farm monsters alone.

However, it was already so late at night, and his friends were still sleeping.

There was no one there.

Sigh, forget it.

It was better to go to the Gerri wilderness alone to farm monsters.

After three to four hours of grinding, his other friends were almost all online.

just as zhang shan was about to use the positioning ball to teleport to the gerri wilderness.

At this moment, he suddenly remembered that there was a coordinate on the positioning ball. It was the map of the autumn leaves forest in Tianshui city.

Zhang Shan had not had the time to cancel these coordinates.

When he had left the map of the autumn leaves forest, he had originally planned to wait for an hour or two.

He would then teleport back and continue to complete the quest.

But who asked him to be so lucky?

When he was fighting with the Qin players, for some reason, he had completed the quest.

Now, Zhang Shan had even finished repairing the divine weapon.

Of course, this also meant that he didn't need to go to the celestial water city's autumn leaves Forest Map anymore.

The coordinates were completely meaningless to him. He could cancel it.

He didn't know whether or not the domineering King was still guarding the map of the autumn leaves forest with his men.

It would be very interesting if they were still there, hehe.

Zhang Shan had no intention of going over. Even if they waited until the end of time, it would be a waste of effort.

Thinking of this, Zhang Shan could not help but want to tease the domineering King.

he said in the world channel.

“Subjugator, are you still in the autumn leaves Forest Map? Can you move aside and let me do a quest?”

“We’re not here. If you have the guts, come over.”

what’s going on? did six-pipe Bodhisattva still go to Tianshui city today? ”

what the f * ck, what’s six-barreled Bodhisattva doing today? he just came over here.

Zhang Shan’s words on the world Channel had instantly attracted the attention of the players from various countries who were farming monsters.

“No way, six-pipe Bodhisattva also went to your Yan Kingdom? He’s also been to the state of Zhao.”

what the hell is six-pipe Bodhisattva doing? is he planning to visit all the cities in the world? ”

“He should be doing a mission, right?”

f * ck, he can actually get a mission. I’m so envious of those who can get a mission.

“Stop guessing and look at the equipment ranking. just now, another divine weapon appeared on the equipment list. the six-barreled bodhisattva is running around, so he must be looking for a divine weapon.”

“Damn, is it true? let me see.”

that’s f * cking unfair. We haven’t even seen a single divine weapon yet, but six-pipe Bodhisattva got four. It’s so unfair.

that’s right, it’s too unfair. What fairness does this stupid game talk about? it’s just a scam.

” you can’t say that. other than the six-barreled bodhisattva, this game is still fair. ”

“Brother, your train of thought is really f * cking amazing. But why did you exclude six-barreled Bodhisattva?”

“He’s not playing the same game as us. Let’s just pretend he doesn’t exist. That way, we can have more fun, hehe.”

haha, that’s a good idea, new generation Ah Q.

what the f * ck? I’m killing monsters in the middle of the night and I have to receive such sad news.

why are you sad? shouldn’t you be happy that a new divine weapon has been born? ”

“happy my ass. what does a divine weapon have to do with a rookie like me?”

“You should think of it this way. Now that there are more and more divine artifacts, perhaps the system will open up a way to obtain divine artifacts.”

“What? is that so? Brother, do you have any inside information?”

what inside information? he only cares about winning.

“You don’t say. What that brother said just now does make a little sense. The way to obtain divine artifacts has to be opened up sooner or later. Let’s monopolize the wind and cloud Guild.”

don't think too much. Even if we open up the way to obtain divine weapons, what does it have to do with us newbie players? ”

...

“that's true. just like the red equipment now, as long as you kill the red BOSS, it will drop. However, how many people could get a full set of red equipment now? In the entire game, I'm afraid that there are less than ten thousand people who have a full set of red equipment.”

that's too harsh. I only have two red equipment.

“a noob like me who doesn't even have a single piece of red equipment wouldn't even dare to speak.”

“Haha, noobs, just focus on farming and leveling up.”

After Zhang Shan had finished speaking in the world Channel, he had been teleported to the Gerri wilderness.

He had originally planned to tease the domineering King a little.

let's see if that iron-headed kid is real or not. he even brought a large group of people to guard the map of the autumn leaves forest.

However, he didn't expect that his words would actually blow up the other players who were farming monsters.

Why are these people watching the world Channel instead of farming monsters at night?

they had reminded the domineering king of something.

The fact that Zhang Shan had just created a divine weapon was not noticed by all the players.

...

After all, not many people would go there every day to check the equipment rankings.

Now, everyone knew.

he knew that he had just created another divine artifact.

the other players could roughly guess the reason why zhang shan was running around the various countries 'maps in the middle of the night.

She knew that he was probably doing a mission to get a divine weapon.

Now, he had even created a divine weapon.

Of course, he didn't have to continue with the mission.

Wasn't this the same as reminding the domineering King?

At this moment, Subjugator was leading a large group of people in celestial water city's autumn leaves forest to farm monsters.

He had originally planned to wait until morning.

He felt that Zhang Shan's mission had not been completed.

He would definitely return.

As long as he continued to guard the autumn leaves Forest Map with his men ...

They would definitely be able to defend Zhang Shan.

Although the domineering King did not know about Zhang Shan's mechanism that often disappeared mysteriously.

Did he rely on scrolls or something else?

However, the domineering King felt that no matter what methods Zhang Shan had used, he would not be able to escape.

There would definitely be a limit. It was impossible to say that it could be used indefinitely.

All they had to do was continue to guard the map of the autumn leaves forest.

He would have the chance to squat down and kill Zhang Shan.

However, the players in the world Channel said something.

He ruthlessly woke up the domineering King.

zhang shan had created another divine weapon?

at first, domineering king really didn't pay attention to this.

After the reminder from the players in the world Channel ...

Subjugator quickly checked the equipment ranking list.

As expected, there was another divine weapon on the equipment list.

And the extra divine weapon belonged to Zhang Shan.

This time, he came to a complete realization.

just now, zhang shan was in the autumn leaves forest map, farming black bears.

He was definitely doing quests related to divine artifacts.

However, Zhang Shan had already completed his mission.

Damn it, Zhang Shan had just completed his mission, so why was he still fighting to the death with them?

Wasn't this just disgusting?

The Overlord was extremely depressed.

Unfortunately, Zhang Shan did not know what the domineering King was thinking.

otherwise, he would have cried out for his innocence.

This was because when the domineering King brought his men over ...

Zhang Shan did not complete the mission.

When he had first seen the domineering King, Zhang Shan had been quite annoyed.

He was only going over to do a mission, but he didn't even let anyone do it.

However, during the fight later on, he somehow managed to obtain the materials required for the mission.

This Zhang Shan really did not know.

Otherwise, he would be fine if he ate too much.

Would he fight with tens of thousands of Qin players alone?

Wouldn't that be looking for trouble?

What if he was accidentally hacked to death?

Even though Zhang Shan's own ability to protect himself was very strong.

Moreover, he also had a positioning bead that could allow him to escape at any time.

However, against so many Qin players ...

Who knew if there would be any accidents?

What if he was knocked out to death?

Even if he wanted to use the positioning ball to escape, he couldn't.

After all, he was under the control of a stun skill.

He was unable to use the positioning ball to escape.

Since Zhang Shan had already completed his mission.

There was no point in them continuing to guard the autumn leaves Forest Map.

subjugator said to the other qin players in a slightly dejected tone.

go and farm your own monsters. Six-barreled Bodhisattva won't be coming again.

Tyrant king was extremely depressed.

The other Qin players did not feel good.

They had more than 30000 players, and it was already so late at night.

He had come all the way to the autumn leaves Forest Map to kill Zhang Shan.

In the end, Zhang Shan had not been killed.

Quite a few of them had died.

Initially, they had thought that as long as they continued to defend, Zhang Shan would definitely come again.

However, he only realized now.

It turned out that they were overthinking it.

Zhang Shan had already completed his mission.

he would never come back again.

When they thought of this, the players from the state of Qin were depressed to death.

However, the result was like this, and they were helpless.

they could only go back to their own places to farm monsters.

zhang shan did not know what the qin players were thinking.

at this moment, he was also farming monsters.

His friends were not around.

Then I'll just farm alone.

In fact, when he was farming monsters alone.

The efficiency of leveling up would be higher.

After all, his current farming speed was very fast.

That was fast.

If he only ate experience points, his leveling efficiency would be extremely fast.

Zhang Shan was alone in the Geri wastelands. He found a corner to farm monsters.

Even now, there were still a small number of wind and cloud guild members who were farming monsters all night in the Gerri wilderness.

But Zhang Shan did not. He went to look for others.

Now, his monster-farming team had already been fixed.

In the future, he would bring a few friends to farm together.

He was too lazy to find the actual person, so he would slowly farm by himself first.

Zhang Shan was farming monsters while browsing the game forum.

Time passed by slowly.

In the morning, wind and cloud blade came online.

He saw that Zhang Shan was online and asked him.

“Brother Liu Guan, did you work all night again yesterday?”

“Yes, I am.”

“are you done with the quest?”

“It’s done.”

“Done? you’ve already made a divine artifact? let me see.”

Windcloud blade could not help but curse after checking the equipment list.

“Damn, you’re done so quickly? That’s fast.”

“It’s not fast at all, okay? I’ve been doing missions for eight or nine days.”

“I’ve only completed missions for eight or nine days, how long can that be? Bingbing had to grind for materials for more than 20 days before he could complete the divine weapon quest.”

Hearing wind and cloud blade’s words, Zhang Shan silently cursed in his heart.

Could Feng Yun and Bing Bing be compared to him?

Did Windcloud blade not know how fast he could farm monsters?

zhang shan could not be bothered with him and continued to be entangled in this topic.

He directly sent a party invitation to Windcloud blade.

“Hurry up and come over. Let’s kill some monsters together.”

“I’ll be right there.”

After wind and cloud blade joined the party, he quickly ran over to Zhang Shan’s side.

He said enviously as he killed the monsters.

“You’ve already gotten four divine artifacts, and I only have one. How did you get it so quickly?”

it’s still too early. I don’t even have half of the equipment. I’m still far from it.

“F * ck, do you want to make a full set of divine artifacts? that’s a crazy idea.”

I don’t think it’s possible for the time being. I’ve never seen a divine weapon for defensive equipment. It’s probably because the system hasn’t released it at all.

“that’s normal. after all, the method we use to make divine artifacts is to repair damaged divine artifacts. if those defensive equipment are broken, i guess there won’t be any remains left, hehe.”

“let’s wait. when the system is released, more things will come out.”

After the two of them had been farming for a while, their other friends came online one after another.

When they found out that Zhang Shan had completed the divine weapon mission and obtained another divine weapon, they were all especially envious.

Especially little fairy.

Every time this young lady saw someone else create a divine weapon, she would be jealous. This time was no exception.

When she saw Zhang Shan's divine necklace on the equipment ranking, she had been nagging non-stop. brother Butler, let's go fight the BOSS. I want a divine weapon too.

"There's no rush. Let's wait until I reach level 50. I'm two levels away from level 50, so it should only take seven or eight days."

"Seven or eight days is too long. Why don't we go and fight the boss now?"

upon hearing little fairy's endless nagging, windcloud blade, who was farming monsters nearby, could not bear to listen any longer.

"Little demon, that's enough. Do you think you can get a divine artifact mission item just because you want it? Even if we fight a boss, we might not be able to get a divine weapon."

"Even if it drops a divine weapon mission item, it doesn't necessarily mean that it's for you."

"Don't worry, we'll have all kinds of divine artifacts."

everyone was tired of the little demon's nagging.

Therefore, they retorted without holding back.

"Hmph, you're all people with divine artifacts. Of course you're not in a hurry."

Boss Wu, who was standing next to him, said.

"I don't have a divine artifact either."

"what has it got to do with you? old wu, i realized that you've also turned bad."

Hearing this, boss Wu shut up.

In their team, only the little fairy and boss Wu had never gotten a divine weapon.

But then again ...

Divine artifacts were not that easy to obtain.

It was still okay to do divine weapon missions.

Even though the current missions were getting more and more troublesome.

However, no matter how troublesome the quest was, it would be completed eventually.

The main thing was that divine artifacts and quest items were too difficult to obtain.

Normal bosses wouldn't drop anything.

As for relying on killing small monsters to get a divine weapon quest item ...

That would require a lot of luck.

That was Zhang Shan, at the start of the game.

It was the strange pipe that had dropped from killing monsters.

It allowed him to create the first divine artifact in the game.

As for the God-tier equipment quest items, they were basically dropped after killing real-name bosses.

Moreover, every real-name BOSS would drop a divine weapon.

this thing wasn't an ordinary kind of rare item.

Otherwise, there wouldn't be only a few of them who could create a divine weapon.

although the other players still didn't know how to get a godly item.

however, this was mainly because the other players did not have any divine weapon mission items.

That is, if there were enough divine artifacts and quest items.

Other people should have already figured out the direction and created a divine artifact.

After all, some of the divine weapon quest items had already given hints. He could trigger the quest by directly looking for the NPC.

Until now, no other players had managed to create a divine weapon.

The biggest reason was that they didn't have any divine artifacts.

Even if there were, it would be in the minority.

Moreover, it was the kind of quest item that did not have a clear prompt about the NPC.

It was normal for other players to not be able to get their hands on a divine weapon.

After all, it was rare to hear that other player forces had defeated real-name bosses.

So far, most of the real-name bosses had been defeated by Zhang Shan and the others.

the other player forces could only bully the weaker real-name bosses.

They wouldn't be able to beat any real name bosses that were slightly stronger.

However, how many real-name bosses would be weak?

The others couldn't beat a real-name BOSS.

Therefore, there was not much chance of obtaining a divine weapon.

Naturally, he would not be able to create a divine artifact.

in the next few days, zhang shan followed his friends and continued to farm monsters in the gerri wilderness.

His experience bar was also slowly increasing.

After three days, Zhang Shan had reached level 49.

Zhang Shan looked at his experience bar and estimated the time it would take to level up.

At most, he only needed another five days.

He would be able to reach level 50.

In the past few days.

The Map of Heaven's Gate was still very lively.

After reaching level 40, Subjugator had become very active.

he often brought a large group of people to hunt down players from other countries in the heaven's gate map.

However, he wasn't going to kill just anyone.

The domineering King's main target was the players from Chu and Zhao.

as for the players of chu, there was no need to mention them.

Zhang Shan and the others were old enemies with the domineering King.

the domineering king didn't dare to come to the gerri wilderness and cause trouble for them.

They could only stay in The Map of Heaven's Gate and hunt down the other players of Chu.

The other Chu players were in the same camp as the wind and cloud Guild.

They had enjoyed the fruits of victory in the country war.

Naturally, he had to bear the corresponding pressure.

The player forces that had a grudge against the wind and cloud Guild.

If they didn't dare to find trouble with the wind and cloud Guild, then they could just kill the other Chu country players.

As for why the Zhao players were targeted by the domineering King, Zhang Shan had no idea.

He had never heard of Zhao's central Plains steel cavalry having any conflict with Guild Subjugator.

it was probably a domineering king who wanted to start a country war.

After all, according to the system prompt ...

The condition to start a World War was for the hatred between the players of the two countries to reach a certain level.

Only then would it open.

It was a pity that the domineering King had led his men to cause a ruckus in the Heaven's Gate map for a few days.

Zhang Shan also did not see the announcement of the start of the country war.

The entire game up until now.

Only their Chu country had a country war with the Qin country.

He didn't know if the second country war would be triggered between the two countries.

Although the punishment for losing the country war would be extremely heavy.

However, if they won the country war, the rewards would be extremely attractive.

Especially if he destroyed the other party's divine beast statue, he would definitely get a complete divine artifact.

Just with this reward, everyone was looking forward to a country war in their own camp.

Unfortunately, after their first country war.

There had been various conflicts between the other countries.

There were even some guilds that had specially organized a war to gain hatred points from each other.

However, they still didn't bring up the World War.

Zhang Shan felt that the conditions to start a country war were not entirely based on the specific hatred points.

It was the game system's arrangement.

The system felt that it was time for the World War to happen.

If there really was one who triggered the hatred points of the World War.

Those big guilds would have to go there every day to gain hatred points.

The system obviously wouldn't let the players take advantage of this loophole.

Feng Yun realm did not care about the chaotic battles in Heaven's Gate.

Although the overbearing King had brought his men to hunt down the players of Chu everywhere, he was still very calm.

However, Feng Yun realm did not say anything.

There were so many players in Chu. How could the wind and cloud Guild manage all of them?

Every day, after the players of wind and cloud went online, they went to the Gerri wilderness to farm monsters as usual.

The battle outside did not affect them at all.

All they needed to do was to teleport to the demon-suppressing city and run for a few minutes to get to the Gerri wilderness.

none of them would find trouble and come near demon suppression city to kill the people of wind and cloud guild.

That was because it was an act of seeking death.

if they fought in real life.

Zhang Shan raised the teleportation fees and immediately shut the door.

who could defeat the wind and cloud guild in the vicinity of demon-suppressing city?

Even if the other nine guilds were to join forces, they would not be able to do so.

This was Zhang Shan's territory.

If they dared to fight with them here.

It was simply too much gold.

The wind and rain outside had nothing to do with Zhang Shan.

he was currently making the best use of his time to farm monsters and level up.

He wanted to reach level 50 as soon as possible.

After he reached level 50, he still had to attack the demon City.

Not to mention that the ring of the heavenly Eagle King could be in the Twin City of the demon race.

Zhang Shan had to go and beat up the city Lord.

He had to get the last ring.

Even if it was just to occupy the city, he had to go and fight.

He was just a bystander in the wind and cloud Guild.

He had already become the city Lord.

However, their Guild's boss, Feng Yun realm, had yet to experience the thrill of being a city Lord.

This would allow boss to have a good time as a city Lord.

For the next few days, Zhang Shan had been farming monsters in the Geri wasteland map.

Another five days passed.

He had finally reached level 50.

Chapter 456 Three great announcements

After a few days of hard work, a ray of light rose from Zhang Shan's body.

He had finally reached level 50.

The system notifications and system announcements sounded out continuously.

[system notification: congratulations! You have reached level 50.]

[system notification: your God-tier hand cannon has been unsealed. Your current level is level 50.]

[system notification: your God equipment, King's Cape, has been unsealed. You are currently level 50.]

[system notification: your divine weapon, heavenly eagle king's ring, has been unsealed. your current level is level 50.]

[system notification: your God equipment, tear of the heavenly Eagle King, has been unsealed. Your current level is lv50.]

[system announcement: due to the player's level, you have reached level 50.] Opening the Mount training system.

Players can head to the Imperial City's taishu temple to train their mounts into battle mounts.

[system announcement: due to the player's level, you have reached level 50.] The power of the human race grew.

[monster siege activities have been adjusted. The subsequent monster siege activities will be carried out near Heaven's Gate pass. Please check the official website announcement for details.]

[system announcement: increasing the ways to obtain spiritual and divine weapons. For more details, please check the official website announcement.]

a series of system notifications and system announcements made zhang shan dizzy.

Damn it, it came out all at once. There were so many notifications and announcements that he couldn't read them all at once.

Compared to Zhang Shan, he was a little dizzy.

the other players in the game were in an uproar.

not to mention the others, even the little friends who were farming monsters beside zhang shan were stunned.

When wind and cloud blade heard the system announcement, he stopped farming monsters and retreated to the side with his axe.

At the same time, he said loudly.

"F * ck, has the divine artifact been released?"

and what the hell is that Mount training system? "

"Did the monster attack change again? We've only played the new version of the event twice."

" let's not say anything else. let's hurry and look at the official announcement. "

The continuous announcements caused countless players to put down what they were doing.

However, it did not affect the players at all to browse the forums or the official website when they were farming monsters.

He killed monsters while he strolled around without any delay.

however, after the announcement, many people were like wind cloud blade.

The players who were farming monsters stopped.

He naturally stepped aside, opened the game's official website, and carefully read the contents of the announcement.

The content of the announcement made everyone's imagination run wild.

No matter how one looked at it, the contents of the announcement were good news for everyone.

Everyone hurriedly went to the official website to take a look at the specific content of the announcement.

He wanted to see what he had changed.

The changes in the announcement this time were a lot, and they were huge.

In particular, the announcement had opened up the way to obtain divine weapons.

This filled the players with anticipation.

In their images, Zhang Shan had relied on a divine weapon to be so powerful.

now that the divine weapon was open, in the future, could they also achieve it, and be as fierce as zhang shan?

You, Zhang Shan, have a divine weapon, and so do I.

Why can't I be as strong as you?

Everyone was playing the same game, right?

Everyone put down what they were doing and opened the official website to check.

Zhang Shan was also farming monsters while checking the official website announcement.

this time, there was a lot of content in the announcement, so he had to read it carefully.

he wanted to see what changes had been made. he didn't want to lose his advantage.

First, he checked the changes to the Mount system.

However, the contents of the official website were not much more detailed than the previous system announcement.

The general content was that players could go to the Imperial City's Taipu temple to train their mounts into battle mounts.

moreover, the official website's announcement had specifically stated that battle mounts were mounts that players could ride in battle.

In the future, he would not need to get off the horse when he fought.

They could attack on horseback.

...

This change, Zhang Shan was very happy when he saw it.

If he could Mount a horse to attack, it would be very advantageous to him.

From now on, when he was riding the red Hare, who could surround him and attack him?

If he could ride a horse to battle, Zhang Shan would not have given others the chance to surround him.

He could gallop on his horse while firing.

If gods and Buddhas were in his way, he would kill them all.

If that was the case, no one else would have the chance to surround him.

Just thinking about this scene was a little cool.

However, the effects of the Mount training could only last for 24 hours.

In other words, players had to go to the Imperial City every day to find the Taipu temple.

Otherwise, by the next day, the battle Mount would have returned to being a normal Mount.

...

He had to go back to the old path of getting off his horse and fighting.

Fortunately, the cost of training a Mount was not too expensive. It only cost 100 gold coins to train it once.

Of course, to Zhang Shan, this was not considered expensive.

For ordinary players, they would probably struggle for half a day every time they had to train their mounts.

After all, a fee of 100 gold coins was not a small amount for ordinary people.

Many players might not even be able to get 100 gold coins even if they spent an entire day.

He even went to the capital to train his Mount.

In addition to the training fee, they also had to pay for the teleportation fee.

to teleport to the imperial city, there was an additional teleportation fee of 100 gold.

for normal players.

just the cost of training the mount alone would cost him 200 gold coins a day.

Once or twice was fine.

Training a battle Mount to have some fun and try out something new was still acceptable.

However, if they had to do this every day, there would not be many players.

You can play with battle mounts.

Zhang Shan felt that many players were probably just looking for novelty.

In the beginning, they might train their battle mounts.

after a period of time.

There shouldn't be too many players training their battle mounts.

After all, he had to pay 200 gold coins a day, which meant that he would need 6000 gold coins a month.

This was not a small number.

It was more than Zhang Shan's monthly salary when he was working.

It was impossible for normal players to spend this money all the time.

Everyone still had to eat.

If he threw all his money into the game, how could he live?

This new battle mount system.

Obviously, it was prepared for players who paid to win.

Of course, he didn't need to spend too much money on this.

If they spent a little more money, they could afford to play with battle mounts.

The battle mount system was now available.

All in all, it was to Zhang Shan's advantage.

Haha, this is good.

Zhang Shan had been waiting for this battle mount system for a long time.

He had originally thought that he would need to buy a new mount to be able to ride a horse in battle.

It was much easier than he had imagined. He only needed to train once a day.

He had saved the money to update his Mount.

Next, Zhang Shan took a look at the monster siege event and what had been changed.

Zhang Shan took a closer look.

On the surface, there seemed to be no changes to the monster attacks in the new version.

the reward was still the same. according to the contribution ranking, he would receive a treasure chest.

However, if the location of the event were to change, the impact would be too great.

In the past, players from various countries would farm monsters and fight bosses outside their own cities.

There was no interference between the countries.

After all, they had bosses to fight in their own territory. No one would go to other people's territory and look for trouble.

However, it had now been changed to being carried out outside Heaven's Gate pass.

The players from the seven countries were all mixed together. It would be strange if they didn't fight.

However, Zhang Shan did not care about this. If they started fighting, so be it.

He had nothing to worry about.

He was so powerful now.

He would also go to the capital later to train the red Hare into a battle Mount.

In the future, he would be a fast horse with a long spear and a leaping horse that could move unhindered.

He was not afraid of anyone.

It didn't matter how many people surrounded him.

He could move at high speed all the time, and he could even move at high speed.

Attack the enemy at the same time.

if it was said that he used to be a fixed fort.

with a battle mount, zhang shan was like a moving tank cannon.

No matter how many people there were, they couldn't surround him.

In such a situation, would he still be afraid of being outnumbered?

He didn't need to worry at all.

he was mainly concerned about the revised version of the monster attack event. he wanted to see if the demon-suppressing city was also included in the event.

That was if the monsters attacked the demon-suppressing city at the same time.

That would be great.

In that case, he would not have to gather with the other players outside Heaven's Gate pass.

It would be so cool to participate in the event directly in the demon-suppressing city.

They would participate in monster sieges and kill bosses in their own territory.

It was very stable, and there was no need to worry about other people interfering.

During the last monster attack, demon suppression city was part of the activity range.

He hoped that this setting had not been changed.

However, Zhang Shan carefully read the contents of the announcement back and forth a few times.

They didn't even notice that the announcement didn't mention that player cities would also participate in the monster attack.

What was he going to do?

Would there be no more monster attacks in demon-suppressing city after this?

Were the three hundred million players in the game going to gather near Heaven's Gate to kill monsters and bosses?

F * ck, if that was the case ...

Were there more players or monsters?

this was a problem.

No matter how many monsters there were in the monster siege event.

It was impossible for there to be hundreds of millions of them.

However, the problem was that new world already had close to 300 million players.

What the f * ck, 300 million players, such a terrifying number.

Zhang Shan was a little suspicious. Could so many people stand outside Heaven's Gate pass?

After all, Heaven's Gate pass was huge.

However, the number of 300 million players was even more ridiculous.

Of course, even though the total number of players in the game had reached 300 million.

However, there were probably less than 200 million players who were online every day.

As for the players who would participate in the monster siege event, there might only be tens of millions of them.

Even 100 million players might not have it.

However, tens of millions of people were squeezed together outside Heaven's Gate pass.

That was still very exaggerated.

This new version of the monster siege event had left Zhang Shan a little confused.

Forget it, he didn't need to think too much about this.

After the update, there would be a monster attack tomorrow.

The event would start at eight o'clock the next night.

As for the specific situation, he would know when the time came.

When Zhang Shan had reached level 50.

A total of three system announcements appeared.

Zhang Shan was most concerned about the last one.

The announcement that opened the way to obtain spiritual and divine weapons.

Even though he already had four divine artifacts.

however, he had yet to see a single defensive divine weapon.

If the system still didn't open up.

He had almost lost all interest in equipment.

Zhang Shan was serious as he read the third announcement.

It was about how to obtain spiritual weapons and divine weapons.

Although Zhang Shan was like the other players, looking forward to this announcement.

However, the contents of the announcement poured a bucket of cold water on everyone.

It instantly extinguished everyone's enthusiasm.

That was what the announcement said.

Increases the drop rate of spiritual weapons.

A real name BOSS had a chance to drop a complete spiritual weapon.

normal red bosses had a small chance of dropping complete spiritual weapons.

Normal monsters could also drop complete spiritual weapons.

increase the chances of obtaining divine artifacts.

Players could find the corresponding NPC and forge new divine artifacts by obtaining divine artifact molds.

As for the divine weapon mold, it would only drop when players killed bosses.

a real name boss had a chance to drop a divine weapon mold.

A normal red BOSS had a small chance of dropping a divine weapon mold.

Normal monsters could also drop divine weapon molds.

When they first saw the announcement, everyone thought that it was a trap.

After the announcement.

There would be spiritual and divine weapons everywhere.

After all, even small monsters could drop them.

However, after carefully understanding the keywords in the announcement ...

Everyone would then realize that this was purely a lie.

Ordinary monsters might drop them, but complete spirit and divine weapon molds?

What did he mean by "it's possible"?

As long as you buy a lottery ticket, there's a possibility of winning five million Yuan?

That was probably what it meant.

Of course, the chances of spiritual and divine weapon molds dropping from killing monsters were far lower than winning the lottery.

If he wanted to farm monsters and obtain spiritual and divine weapon molds, he might as well buy a lottery ticket.

Otherwise, you'll understand after reading the content at the front.

The person in front said.

Normal red bosses had a small chance of dropping spiritual and divine weapon molds.

After looking at this, he compared it to the description of the monsters' drops.

Everyone was in despair.

Even normal red bosses only had a small chance of dropping them.

Then do you still hope that you'll drop it when you kill the monsters?

To understand it literally.

In the entire game, no one knew if one or two divine weapon molds would drop after a year of killing monsters.

That was why there was the saying that spiritual and divine weapon molds dropped from killing small monsters.

It was probably just to give the players some hope.

He definitely couldn't be counted on.

If they wanted to obtain a divine weapon or a complete spiritual weapon ...

The most important thing was to fight more bosses.

However, red bosses only had a small chance of dropping spiritual and divine weapon molds.

However, a small chance was still a chance.

It was much more reliable than the word 'possibly'.

As long as they killed more bosses, there would be a day when they would drop spiritual or divine weapon molds.

After all, many players could defeat normal red bosses.

As long as they were properly organized and had enough manpower.

For the current players, killing a normal red BOSS was still possible.

If they were lucky and got a divine weapon mold, they would be rich.

in an instant, he had turned from a loser to a high-end player.

Even if he didn't use it himself, he could sell the divine weapon mold.

that would also make him rich.

zhang shan could imagine that in the future, there would be a lot of players fighting bosses.

Perhaps, many players were already on their way to find bosses.

Normal players would not let go of such an opportunity to make a fortune.

Even though he didn't have any transaction records of the divine weapon mold yet, he still had a lot of money.

But he could guess.

Such an item would cost at least tens of millions or even hundreds of millions of gold coins.

For ordinary people, such a large sum of money was nothing.

it could be said to be a huge sum.

The opportunity was right in front of everyone.

For ordinary people, this was simply an opportunity to defy the heavens and change their fate.

How could they not cherish it?

It wasn't like they couldn't beat a normal red BOSS.

The bosses that could be defeated had a chance to drop items that could change one's fate.

Then, everyone should go crazy.

It was only now that Zhang Shan no longer lacked money.

That is, if he was still living like an ordinary person like before.

he would probably go crazy too.

if that was the case, he would definitely think of ways to get a large group of people to fight the boss together.

There was no need to kill any monsters.

with such an opportunity, what was the point of farming monsters and leveling up?

If one dropped an item, they wouldn't have to worry about it for the rest of their lives.

of course, it was a chance that everyone had.

The competition would definitely be intense.

It probably wouldn't take long for him to find all the places he could run to on The Map of Heaven's Gate.

The players would run all over the place.

As for the red bosses in the city map of their own country ...

In the future, he would probably be guarded by people every day.

Even if no one knew when or where the BOSS would respawn, they would not be able to find it.

However, it was enough to know that there was a red BOSS on this map.

There would definitely be a large number of people guarding it.

It all depended on who was lucky enough to encounter such a small drop rate.

of course, if they really wanted to obtain a divine weapon mold and a spirit weapon, they would have to do it.

The best way was to fight a real-name BOSS.

The chances of a real name BOSS dropping a divine weapon mold and spiritual weapon were much higher.

Even if it wasn't a guaranteed drop, as long as he killed a few more, it would definitely drop.

However, the problem was that you had to find a real-name boss.

also, you have to be able to beat him.

everyone had witnessed the power of a real name boss.

During the last monster siege event.

Every player's sub-city had a real-name boss.

however, only zhang shan and the rest had managed to kill one.

The players from the other cities had no way of defeating the boss before the event ended.

Not even the war god Guild or the domineering aura Guild could achieve such a feat.

Everyone could imagine how difficult it was to fight a real name BOSS.

Of course, no matter how difficult it was, everyone would still try.

Especially those guilds that were ranked at the top.

In the past, they only knew that bosses with real names would drop ultimate skill books.

He didn't know that there was a divine weapon mission item.

In addition, a real-name BOSS was so difficult to fight.

Therefore, under normal circumstances, they wouldn't go out of their way to look for it.

he would only try to fight a real-name BOSS.

If he couldn't win, then so be it.

But now, they would definitely not be so idle.

They would definitely send people to search for real-name bosses.

As long as they could find a real-name BOSS.

Even if they had to risk their lives, they had to find a way to kill the BOSS.

this was a matter of a divine artifact.

of course, that was what they thought.

However, it was hard to say what the final result would be.

The problem of whether the guilds could defeat the real-name bosses was not even worth mentioning.

Just finding a real-name BOSS was a huge problem.

real name bosses were extremely rare.

Normally, it was very difficult to encounter.

Even if they were to look for it on purpose, it would probably not be that easy to find a real-name BOSS.

Currently, it was known that the only time a real-name BOSS would appear was during monster sieges.

In the past, during monster sieges.

Every sub-city would have a BOSS with a real name.

However, the monster siege had also changed.

As for the exact number of real-name bosses that would appear, they would only know after the event started tomorrow.

Zhang Shan could imagine that tomorrow's monster attack activity would definitely be earth-shattering.

when the event starts tomorrow, the killing between the players will probably far exceed the event itself.

After all, everyone was gathered in one place to participate in the monster attack.

Even without the BOSS, they would still be on good terms.

Now, because of the divine weapon mold, it was even more so.

By tomorrow night, his brain would probably be beaten to a pulp.

New ways to obtain divine weapons and spiritual weapons.

All in all, it was beneficial to everyone.

To normal players, it might be a chance to change their fate.

Even though the chances of that happening were slim.

But it was also an opportunity.

This was even more so for Krypton gold big shots.

In the past, they could only watch as Zhang Shan created one divine weapon after another.

They could only watch.

They did not know where Zhang Shan's divine weapon came from.

Now, the system had finally opened up a way to obtain divine weapons.

for those high-end players, it was not a big deal.

This was their chance to catch up to Zhang Shan.

Of course, this was just their thoughts.

However, it was definitely impossible.

Zhang Shan would not give them the chance to catch up.

To Zhang Shan, there were two ways to get his hands on divine weapons.

One was to continue on the previous path of repairing divine artifacts.

After all, the system had just added a new way to obtain divine weapons.

They did not mention that Zhang Shan's path to making divine weapons had been sealed.

That path could still be taken.

the other way was to kill a BOSS and get a divine weapon mold. then, he would find the corresponding NPC.

To create a new divine weapon.

Of course, there was no special explanation on the announcement.

What else was needed to create a new divine weapon besides a divine weapon mold?

Did he still need to do some missions?

But based on Zhang Shan's guess ...

These were definitely indispensable.

It was impossible to say that if a player brought a divine weapon mold to the NPC, the NPC would help them forge a new divine weapon.

Don't even think about such a wonderful thing.

If he wanted to forge a divine weapon, he would definitely need a lot of tasks and materials.

but it didn't matter.

Zhang Shan had also completed two to three divine weapon missions.

To him, there was no difficulty.

However, it was a little troublesome and would take a lot of time.

Of course, he still had to spend money.

However, all of this was insignificant to the divine artifact itself.

As long as he could create a divine artifact, it would be fine.

Now, the divine weapon mold was available.

To Zhang Shan, it was not a dream to create a full set of divine equipment.

This was completely possible.

he was looking forward to it.

Chapter 457 Training the Mount

On the announcement, there was another way to obtain a divine weapon.

Zhang Shan was filled with anticipation.

As long as the boss was killed and dropped the divine weapon mold, he could get a new divine weapon.

Seeing this, Zhang Shan was filled with anticipation.

This time, he would have the opportunity to get a full set of divine artifacts.

Before that, they could only get their hands on God-level weapons and accessories.

For example, there had never been a divine weapon or quest item for protective equipment such as helmets and shoes.

Zhang Shan's previous guess was that there was no such thing.

Otherwise, why would they not even have a single armor-type divine weapon when they had made almost ten divine weapons?

It must be the system that hadn't released the armor-type divine equipment.

Therefore, no matter how hard they fought the BOSS, they could not get such a divine weapon.

From now on, you can use molds to forge divine artifacts.

There should be armor-type divine artifact molds.

Of course, there had never been any other types of divine artifacts before.

For example, Zhang Shan had a divine cloak, the king's cloak.

However, the way to obtain the king's Cape was a bit special.

The king's Cape was theirs during the country war.

The complete divine weapon that dropped after destroying the Black Dragon statue of the state of Qin.

It was a special divine weapon.

The way to obtain it was also completely different.

In reality, a complete divine weapon would drop by fighting a country war.

in the entire game, there could only be a maximum of seven items.

This was because a complete divine weapon would only drop when the divine beast statue was destroyed the first time.

The divine beast statue that had already been destroyed would not drop any more divine weapons even if they were to attack it again.

for example, the black dragon statue in the state of qin.

He had already been beaten up by Zhang Shan and the rest once.

Therefore, in the future, no matter which country it was, if there was a country war with the Qin country, it would be impossible for a divine weapon to be dropped.

That was because the only divine weapon had already been taken away by Zhang Shan.

If they had a choice, no one would want to start a country war with the Qin country.

Because even if they won the country war.

The greatest benefit would be gone.

That meant that the system reward for winning was a week of double experience for everyone.

Although the double exp was not bad, it was still far from being comparable to a divine weapon.

for those big shots, even if they only had one divine weapon, it was much better than the double experience reward for a week for all members.

No one was willing to have a country war with the Qin country.

The risk and reward were not proportional at all.

Right now, there were only six divine weapons left that could be dropped from the kingdom war.

Of course, for the players of the various countries, there should only be five pieces left.

Because it was impossible for them to destroy their own country's divine beast statue.

Those that could only be used to attack other countries were only left with five.

Who knew which two countries would be the next country war.

Not to mention others, even Zhang Shan was very excited.

He also wanted to start a country war.

If they won the country war, that would be great.

A week of double experience.

If he didn't go offline 24 hours a day and just stayed there for a week, it would be a month's time compared to farming monsters.

The experience points that he could gain might be even more.

It was simply too satisfying.

As for the divine weapons that dropped from the divine beast statues ...

that was needless to say.

A complete divine artifact was dropped.

It was much simpler than the divine weapons they were making now.

...

Now, they had to do all kinds of missions to get divine artifacts, which was a lot of effort.

Not to mention others, even Zhang Shan had to run for eight to nine days to complete the divine weapon mission.

If it were someone else, the time needed to complete the task would be much longer.

Fengyun Bingbing did it, a mission that took more than half a month.

As for the wind and cloud swordsman, he was probably in a similar situation.

He and Zhang Shan had gotten their hands on the divine weapon at the same time.

But up until now, he had not even seen the shadow of a divine weapon.

He heard that he was also there, constantly collecting task materials.

He didn't know how long it would take him to get all the materials.

&Nbsp; in a country war, if one destroyed the other party's God beast statue, the God equipment that would drop would be so amazing.

He didn't have to do any missions and was directly given a complete divine artifact.

...

it was simply the most convenient way for players to obtain divine artifacts in the entire game.

Of course, this would only happen if there was a Kingdom war for you to fight.

Furthermore, he had to be able to win the country war.

The most important thing was that you had to make the greatest contribution in the country war.

After all, there was only one divine artifact.

The system would only distribute the divine weapon to the player who contributed the most.

as for the other players, they didn't even get a participation prize.

They could only be like those who did not participate in the kingdom war.

Double the experience for a week.

For the World War to drop a divine equipment, Zhang Shan temporarily did not need to think about it.

because even if a kingdom war were to occur, it would have nothing to do with their chu country.

Recently, whether it was their Guild wind cloud, the carefree Guild of DreamCloud city, or the traversing Four Seas Guild, they had all become extremely popular.

None of them had any large-scale conflicts with players from other countries.

Their hatred towards other countries should not be that high.

It was far from the standard to trigger a country war.

Moreover, they had already fought a country war.

It was impossible for the system to arrange the second country war for them.

Even if they were to take turns, they should let the players from other countries take a few turns first.

If Zhang Shan wanted to get his hands on another legendary weapon, he would have to be honest and go fight real-name bosses.

Of course, it was not realistic to go there on purpose and find a real name BOSS to fight.

Real name bosses were very rare in the game.

With just the few of them, they might not even be able to find a real-name BOSS even if they searched for a few months.

But it didn't matter.

Zhang Shan did not have to worry about not having a real name BOSS to fight.

At the very least, there would definitely be a real-name BOSS appearing in the monster attack event tomorrow.

This was his chance.

It was impossible to say that there were no real bosses in such a big event.

It was just that he didn't know how many bosses would spawn when the time came.

He did not want too few real-name bosses to appear in the event.

If there was not enough to be distributed, then there would be something to do.

If that was the case, they would probably fight to the death for the BOSS.

Other than the monster attack tomorrow, there was nothing else.

The Lord of Twin City must also be a real-name BOSS.

the divine artifact ring that zhang shan was still lacking, he still had to rely on the city lord of twin city.

However, the attack on the demon City definitely couldn't be carried out in these two days.

After all, twin Demon City was very far away from their current location.

They wouldn't be able to reach their destination without running for four or five days.

There was still a monster attack tomorrow.

They couldn't possibly come back to participate in the monster attack on the city while they were on the way.

zhang shan did not mind.

He had a positioning bead.

At most, he would just mark the coordinates wherever he went.

after the event ended, he could just teleport over and continue running.

However, the other members of the Guild did not have a positioning bead.

If they wanted to go, they could only run to the end.

However, there was no such thing as returning halfway.

He might need to bring a lot of guild members with him to attack the demonic city.

although zhang shan was very strong, it was impossible for him to take down a demon city by himself.

Moreover, even if he could take down a Demon City by himself, he would be able to do so.

Even so, he had to bring Feng Yun realm along.

After conquering the demon City, they needed someone to be the new city Lord.

it was impossible to say that after zhang shan took down the demon city.

Just destroy the city.

Moreover, even if he wanted to destroy the city, it would not be that easy.

To destroy the city, the city Lord's golden seal had to be shattered.

However, the city Lord's golden seal had such a terrifying amount of health.

Even if Zhang Shan were to beat it for a few days, he might not be able to break it.

The golden seal of the Lord of the demon-suppressing city alone had 10 billion HP.

Zhang Shan did not know how much HP the golden seal of the Twin city's city Lord had.

It shouldn't be any less than the demon-suppressing city.

after all, the demon-suppressing city was only a small city.

Twin City was much larger than demon suppression city.

the golden seal of the city master over there would only have more blood than the one in the demon-suppressing city, not less.

To take down a fiend city, one needed to be the city Lord.

It was impossible for Zhang Shan to be the city Lord of two cities.

Although he had not tried it yet, he guessed that the system would not allow it.

As such, even though he had already reached level 50, he still had to be careful.

he should be able to defeat a level 70 real name boss.

However, they still had to wait until the monster siege event tomorrow was over before attacking the demonic city.

However, he would have to discuss this with Feng Yun realm later.

She would ask him for his arrangements.

After reading all the announcements on the official website, Zhang Shan closed the website and continued to farm monsters.

While he was farming monsters, he suddenly remembered.

When he reached level 50, his four godly items were unsealed again.

he had been confused by the continuous announcements just now.

He had forgotten to see what had changed after the divine weapon was unsealed.

As Zhang Shan was farming monsters, he was also checking the attributes of the four divine weapons.

After unsealing it, the attack power of the hand cannon had increased by another 2000. Now, it had 8000 attack power.

His agility had been increased by 200 points, and now the hand cannon had an increase of 800 points.

The attack power of the two accessories was much weaker.

Each of them increased the attack power by 1000.

The accessory's attack was now 4000.

As for the agility attribute, it had also increased to 800.

After these three divine artifacts were unsealed, they had all been sealed.

on the surface, it had increased his attack by 4600 points.

In fact, it was far more than just this little increase.

Zhang Shan had four passive skills that increased his attack power by 10%.

The other three God equipment had a special effect that increased 10%.

With these seven bonuses, the three divine weapons would actually increase his attack power after they were unsealed.

It should be around 7800.

Before the divine weapon was unsealed, Zhang Shan's attack power had already exceeded 28000.

One of the seals on the divine weapon had been unsealed again, giving him another 7800 attack power.

His current attack power was almost 36000.

such a high attack power was terrifying.

And this was just the literal attributes.

in fact, with the killer book, his attack power would double.

Right now, his true attack power should be around seventy-two thousand.

In terms of actual damage, it was even higher.

He also had a human hero title, which increased his damage by 10%.

The two accessories also had a special effect that increased damage by 10%.

If this was the case ...

Zhang Shan's current theoretical damage output had almost reached 95000.

If boss Wu's attack blessing was added to the mix ...

In theory, his current damage was over 110000.

The damage looked terrifying.

The reason why Zhang Shan's damage was so high ...

It mainly relied on all sorts of passive skills and special effects that increased attack power.

There were also titles and special effects that increased damage.

Of course, the most important thing to Zhang Shan was still the killer book.

This special item had doubled his attack power.

As long as he killed a hundred people, his attack power would be doubled.

after he died, the killer book's attack doubling effect would be reset to zero.

he would have to kill another hundred people to double his attack power again.

however, the current zhang shan would not die so easily.

It could be said that as long as he didn't want to die.

He simply couldn't die.

With these additional bonuses, Zhang Shan's damage growth was very high.

The equipment originally only gave him an additional 1000 attack.

When it hit him, the actual damage effect might have increased by four to five thousand.

Such growth had widened the gap between him and the other players.

If it could be said that Zhang Shan's terrifying damage output ability had given him an invincible spear.

The king's Cape gave him an invincible body.

After the king's Cape was unsealed, it gave him another 100000 HP.

now, the king's cape could increase his hp by 500000.

With the addition of all sorts of other bonuses.

Zhang Shan's current HP had already reached more than 650000.

with such a high hp, even he wanted to go and challenge the demon god.

Although the demon God was very strong, it was impossible for him to kill him in a second.

What a joke, with his current 650000 HP, if he could still be killed instantly.

In that case, don't even think about pushing down the godfiend in the future.

His current HP might forever be the peak of other players.

For normal players, even if they played for three to five years and reached level 100 at the end, they would still be able to reach level 100.

He probably couldn't reach such a high HP.

Of course, even if the godfiend couldn't kill him instantly ...

Zhang Shan would also not really run to the demon God and jump around.

There was no need for that.

in any case, he would not be able to kill the demonic god for a long time.

What did he have to jump for?

He might as well just kill those bosses with real names.

That was more practical.

To the current Zhang Shan, demonic gods were nothing.

It was simply too far away.

but there was no need to rush.

He had just reached level 50.

He still had a lot of room for growth.

When he reached level 80 or 90.

Get the entire set of divine artifacts and equipment.

After farming another 100 to 200 passive skills, he could try it out on the demon God.

at that time, he might really have a chance to defeat the demon god alone.

As for now, let's forget about it.

Let's just focus on farming monsters and do it step by step.

The little fairy said to Zhang Shan after reading the announcement.

brother Butler, let's go and fight the BOSS. If it drops a few divine weapon molds, we'll be rich.

Hearing this, Zhang Shan was a little speechless.

What the hell, you still want to drop a few divine weapon molds?

Do you think that God tool molds are cabbages in the ground that you can pull out a few of with a casual pull?

Zhang Shan had not even said anything.

windcloud blade retorted.

"Did you read the announcement seriously or not? Is it that easy to drop a divine artifact?"

it shouldn't be difficult. Didn't the official announcement say that normal red bosses would drop divine weapon molds?"

f * ck, is that how you understand it? then why don't you think about it? the announcement also said that small monsters could also drop a divine weapon mold.

don't think too much about it. Actually, the drop rate of the divine weapon mold is probably about the same as the previous divine weapon mission item.

"that's probably the case. the new announcement is just an overstatement, giving everyone an additional choice. after all, even if someone had the previous divine weapon mission items in their hands, they wouldn't know how to use them."

"If we want to get a divine weapon, we still have to rely on a real name BOSS."

Hmph, I don't care. I'm going to fight the BOSS. Didn't we agree on this? when you reach level 50, we'll go fight the BOSS.

even though everyone had been explaining for a long time, the little fairy still said something unreasonable.

Alright, Zhang Shan did not know what to say.

that was what he had said back then.

When he reached level 50, they would go and fight the BOSS together.

Now that he had reached level 50, it was time for him to look for bosses.

But the problem was that there would be a monster attack tomorrow.

At that time, there would be no BOSS to fight.

However, Zhang Shan did not mind. He had already reached level 50.

It would be harder and harder to level up later.

there was no rush to kill monsters within these two days.

Since the little fairy insisted, he would go and fight the BOSS for two days.

They would come back when the monster attack started tomorrow.

After all, he had to keep his word.

When he reached level 50, he would fight the BOSS. This was what he said himself.

zhang shan said to his friends.

why don't we go find a BOSS to fight? we're not in a hurry to level up.

"Alright, let's go and fight the BOSS."

but the announcement just came out today. I think there will be a lot of people going out to look for bosses. We don't want to fight with others.

Heart with me said worriedly.

Upon hearing this, wind and cloud blade did not seem to mind at all as he followed up.

what are you worried about? we're the only ones who can steal other people's bosses. Who dares to steal our bosses? no one can beat us.

that's right, that's right. Whoever dares to steal our boss, I'll kill them all with one arrow.

After hearing everyone's decision, they went to find a boss together.

The little fairy was very happy. As for the fact that she might have to fight with others while fighting the boss?

This was not a problem at all.

Zhang Shan completely agreed with what wind and cloud blade and little fairy had said.

They were the only ones who could steal from others. No one could steal their BOSS.

What a joke. Zhang Shan was already so powerful.

Who could defeat him?

Back in the West River plains map, not even peerless's entire Guild had been able to stop them.

No other player could do anything to them.

As for the other players that they might encounter while fighting the BOSS ...

Zhang Shan did not take it to heart.

To be honest, in this game.

Only the war god Guild and the domineering aura Guild, these two big guilds, made Zhang Shan a little afraid.

As for the other player forces ...

he didn't put it in his eyes at all.

If the other player factions dared to find trouble with him.

Zhang Shan did not even need help from others.

He alone could easily kill his way in and out.

Now, he could train his battle Mount.

who would zhang shan be afraid of in a horse battle?

no matter how many people besieged him.

He could even slowly kill them all by riding around on his horse.

Zhang Shan said to his friends.

since we're going to fight the BOSS, let's go back first and train our mounts. We'll go and try out the Mount training that just came out.

"this one's not bad. you need to train your mount first."

"F * ck, I should have gotten a battle Mount a long time ago. I used to rely on my two short legs to run, and I couldn't catch up to anyone at all. Now that I have a battle Mount, I'll just kill as many as I can, hehe."

When it came to battle mounts, Windcloud blade was extremely excited.

During the dismounted battle, wind and cloud blade was very powerful.

However, during every great battle.

other than releasing a big move.

He couldn't cut more people.

He was a melee class, so he had to rely on his two legs to chase and slash people.

Who would be so silly as to just stand there and let you cut them?

As for the Berserker class, they only had one skill that could retain players.

Windcloud blade only had one charge skill, which could slow down others and make them stay behind.

While the charge skill was still on cooldown ...

Wind and cloud blade almost couldn't hit anyone.

When others saw him coming, they would have run far away.

How could he have hit him?

Now, there was the Mount training system.

For a high-end close-combat job like wind and cloud blade, it was the most beneficial.

Because their mounts were good, they could run faster than others.

Even if someone tried to escape, he would be able to catch up.

They didn't even need to charge and hold people back. They could ride their warhorses and chase after others.

Battle mounts had a huge boost to melee combat abilities.

of course, windcloud blade was very happy.

In fact, after the battle Mount training system came out ...

The few of them were very happy.

In a chaotic battle, battle mounts would increase their survivability and damage efficiency.

All in all, battle mounts were more beneficial to those who were stronger.

Battle mounts allowed the strong to become stronger.

“Let’s go back and train our mounts.”

After Zhang Shan finished, he returned to Dangyang city.

He then teleported to the teleportation Hall.

They were teleported to the royal city of Chu through the teleportation Hall.

After reaching the palace, Zhang Shan found the taishu temple chief’s location on the map.

Then, he teleported over.

However, after he used teleportation, he realized that ...

He was still a few hundred yards away from the taishu chief.

It wasn’t because of teleportation that he would make mistakes.

It was just that there were already too many players standing around taishu siqing.

Others had already filled the seats around the taishu chief.

of course, he could not teleport over.

In this game, you can’t overlap positions.

Someone else had taken the spot, so the system could only let Zhang Shan teleport to the nearest empty spot.

The announcement of the Mount training system’s opening had only been out for a few minutes.

Everyone ran over to train their mounts.

He probably wanted something new.

Seeing the sea of people in front of him, Zhang Shan was very depressed.

How long would he have to wait for his Mount to be trained?

Actually, he wasn’t the only one who was anxious. The others were also anxious.

Everyone was shouting on the regional channel of the capital.

don’t push. Finish your training and leave. Don’t just stand there.

“The one in front, what the hell are you doing? aren’t you just paying money to train your Mount? why isn’t it done after such a long time?”

“Everyone, hurry up. There are still many people waiting behind.”

if you’re done with your training, hurry up and leave. We’ll study it when we get back. What are you all doing here? ”

“Yeah, you there? Why are you still standing there when you’re done with your training? what’s there to see with that date red Horse of yours? hurry up and leave.”

Zhang Shan stood there, looking at the taishu siqing in the distance. He was a little speechless.

it wasn’t that everyone was not fast enough to train their mounts.

In fact, training mounts didn’t take much time.

He just had to run to the taishu temple’s chief and talk to him.

After that, they had to pay the money to train their mounts.

The speed was very fast, and it could be done in less than a few seconds.

But there were many players.

Even after the Mount training, he was still there.

he was there to observe the effects of the mount training.

this was very annoying.

It was a safe zone in the capital.

Local players are not allowed to PK within the city.

Otherwise, they would have already started to chop him up.

Although Zhang Shan was annoyed, he had no other choice.

He could only wait at the back obediently.

After waiting for about ten minutes, Zhang Shan finally squeezed his way to the side of the taishu siqing.

He quickly stepped forward to talk to her.

“hello, i want to train my mount.”

“One hundred gold coins.”

Taishu siqing did not even look at Zhang Shan and asked for money.

This was also a master who wanted money no matter what.

However, Zhang Shan did not want to waste time with him and immediately handed over a hundred gold coins.

The moment he handed over the gold coins.

Zhang Shan could feel the change in the red hares.

However, he looked around and saw that there were players everywhere.

it was better not to study it here.

If he stayed here for too long, he was afraid that others would scold him.

Zhang Shan immediately used teleportation and left the taishu siqing's surroundings.

Chapter 458 The war god Guild

He saw that there were still many players waiting to train their mounts.

After Zhang Shan paid the money to train the Mount, he quickly used teleportation to leave.

He didn't even have the time to check what changes there would be after the Mount training.

To check the effects of the Mount training, you can look at it from another place.

If he stayed in the same place after he finished training his Mount.

The players behind him would probably start cursing.

When he was waiting just now, he was also very anxious.

He couldn't just say that he had finished it and let others worry.

This was not good.

what was the old saying?

Don't give what you don't want to others.

Zhang Shan could not imagine himself turning into someone he hated.

Zhang Shan randomly found a spot in the palace and teleported over.

then, he summoned the red hares and took a closer look.

zhang shan kept adjusting his view to check the appearance of the red hare.

he realized that after training, he would be able to become stronger.

On the four hooves of the red Hare, there was an additional light red flame.

seeing this change, zhang shan was shocked.

This was a f * cking horse, not a firestorm wheels.

This Scarlet hares had four Balls of Fire on their hooves. What was going on?

However ...

With the addition of these four balls of flames.

The red Hare looked even more handsome.

It looked very cool.

Let's see if there are any changes to the Scarlet Hare's attributes after the training.

Zhang Shan checked the attributes of the red Hare.

[Red Hare: exclusive mount of an ancient general. Movement speed increased by 300%.]

[note: after training, the red Hare will be upgraded to a battle Mount. It can be used in battle. The training effect will last for 24 hours.]

'F * ck, this 100 gold coins was well spent.'

After training, not only would the red hares be upgraded to battle mounts, but they would also become battle mounts.

Moreover, the Scarlet hares 'movement speed had increased by another 100.

Before training.

the movement speed of the scarlet hares. It was an increase of 200%.

After training, it had become a 300% increase in movement speed.

The effect of this training was amazing.

He wondered if the training effects of the other mounts were as good.

After all, Zhang Shan's Red hares were the mounts of heroes.

It was different from the mounts of many ordinary players.

There was still a huge gap.

One had to know that the price of a hero's Mount was 10 million gold coins in the taishu temple.

In the entire game, not many people could afford to play such a high price.

It was estimated that in the entire game, there were less than 10000 players who had a hero Mount.

He saw that the red Hare's speed had increased quite a bit after training.

Zhang Shan was very happy.

He tried riding a horse and ran a short distance in the palace.

It was as fast as flying.

This speed was very satisfying.

For players, speed was their combat power.

It was even more obvious now that it had been upgraded to a battle Mount.

if he ran faster, he would be more confident when he was chasing or escaping.

Even when they were running around the map.

After the Mount's speed was increased, it could also save a lot of running time.

...

All in all, Zhang Shan was very satisfied with this Mount training system.

This was a good setting. In the future, the first thing he would do when he came online would be to run to the palace and train the red Hare.

Thinking of this, Zhang Shan took out the positioning Pearl.

He set a coordinate in the royal city.

He hadn't had the time to set the coordinates when he was at taishu siqing's place.

But it didn't matter.

It would be the same no matter where in the Imperial City it was marked.

after all, he could use teleportation in the capital.

When he returned the next morning, he would set the coordinates again.

After setting the coordinates, he could run over to train his Mount at any time.

He could even save on the 100 gold coins teleportation fee to the Imperial City.

...

After Zhang Shan finished his Mount training, he returned to Dangyang city.

He took a look at his teammate's location information.

He discovered that his companions were still in the Chu country's capital.

It looked like they were still in line.

He probably hadn't finished training his Mount.

Let's wait for them for a while then.

zhang shan had nothing to do so he started to call feng yun realm.

First, he wanted to ask this Big Shot how to arrange the attack on the demon City.

"Boss, when are we going to attack the demon cities? what are the arrangements?"

"After the monster attack tomorrow, we'll gather and set off together. By the way, how many people do you think we should send?"

Faced with Feng Yun realm's question, Zhang Shan did not know how to answer.

With Zhang Shan's confidence in himself.

He felt that as long as he sent a few support players to follow him, they should be able to take down twin Demon City.

However, twin Demon City was very far away.

It would take three to four days to make a trip.

It was best to succeed in one try.

If too few people went.

if they were to die there, no one would be able to come to their rescue.

By the time they called for help and went over to help, the cucumber had already turned cold.

Therefore, it was best to send as many people as possible.

Even if he didn't need their help to fight the BOSS, it would still be good to go over and help.

Of course, not just anyone could pass.

After all, the Twin Demon City was too far away from them.

Those mounts were not good. Even if the Guild members who were slow went, it would be useless.

Perhaps, they were still on their way.

Zhang Shan had already taken down twin Demon City.

He couldn't possibly let Zhang Shan and the others get to their positions first.

We'll have to wait for everyone to arrive before we attack the city together.

Wouldn't they have to wait for a long time?

One must know that in this game.

The difference in speed between different mounts was huge.

for the same distance, if zhang shan were to ride on the red hare, he would need two days.

It would probably take others three days on a White Horse to make it.

As for those who rode the date red Horse, their speed was even slower.

It was impossible for them to wait for one or two days just to wait for the others.

There was no need for that.

Thinking of this, Zhang Shan replied.

"Just bring everyone in the Guild who has a hero Mount. The others "mounts are slow and can't keep up with our speed, so it's useless even if they go."

Feng Yun realm said after some consideration.

"Wouldn't that be too few people? in our Guild, there are only about a hundred people who have hero mounts. Can we take down the demon City with only this many people?"

Regarding Feng Yun realm's concern, Zhang Shan was not worried at all.

Zhang Shan was still the main person to fight the boss.

The others were just helping him deal some damage.

If Zhang Shan could not hold on and the Twin City Lords were to harm him, it would be useless no matter how many people they sent.

Zhang Shan said to Feng Yun realm.

“it’s fine. if we can beat them, 100 people will be enough. if we can’t, it’s useless no matter how many people we have.”

alright, then we’ll talk about it after the event ends tomorrow.

Feng Yun realm didn’t pursue it any further.

Everyone understood the logic.

Normally, it would be better if more people could go.

But that would take a lot of time.

If he pulled the entire Guild over.

It would probably take five days for all the members to arrive.

There was no need to waste so much time.

If he had the time, couldn’t he do something else?

After ending the call with Feng Yun realm.

zhang shan looked at his teammate’s information.

The rest of his companions had yet to return to Dangyang city.

He was still training his Mount in the capital.

It seemed like they would have to spend some more time.

Forget it, I’ll go to the auction house first and buy some materials.

After a period of accumulation, Zhang Shan had already accumulated a lot of materials.

There were fool’s bombs and fire god cannons.

He also had a lot of materials for making intermediate-level burning bombs.

Recently, he had been doing missions.

He had not had the time to make engineering products.

the fool’s bomb in the auction house had been out of stock for many days.

Thinking of this, Zhang Shan teleported to the auction house.

He swept up all the required materials.

then, he teleported to the guild residence and entered the guild workshop.

Since he had nothing to do, he might as well make some fool's bombs first.

As for the intermediate incendiary bomb, he would have to wait until tomorrow before the monster attack.

he had never made this before.

He had to rush it hundreds of times before he could successfully make it.

Zhang Shan was in the Guild workshop.

He placed the fool's bomb's materials on the operating table.

batch after batch of fool's bombs were produced by him.

Other than the fool's bomb.

Zhang Shan had also conveniently made more than ten fire god cannons.

As his proficiency increased.

His success rate in making the fire god cannon was getting higher and higher.

basically, out of three attempts, he could succeed twice.

In Zhang Shan's backpack.

He had already accumulated more than thirty fire god cannons.

He didn't even know where to use the fire god cannons.

The demon-suppressing city was safe now.

There was not even a single monster attack.

It didn't seem to be of much use no matter how many fire god cannons they had.

As for the threat that the players posed to the demon-suppressing city, that was even less of a concern.

Let's not even talk about whether or not anyone could break into the mayor's mansion of the demon-suppressing city.

Even if others could charge into the city Lord's mansion.

However, if they wanted to break the city Lord's golden seal, they would still need a very long time.

Demon suppression city's city Lord's golden seal had 1000000000 HP. It was not easy to shatter it.

With that time, Zhang Shan would have already returned.

Could he let others Rob his demon-suppressing city?

At least for the time being, the demon-suppressing city was safe.

Thus, Zhang Shan did not continue to set up fire god cannons in the demon suppressing city.

The main thing was that this item was a one-time use item.

After the fire god cannon had been set up, it could not be moved or recalled. It could only be destroyed.

One set meant one less set.

Since that was the case, Zhang Shan did not continue to set up the fire god cannon in the demon-suppressing city.

Perhaps he could use it in other places in the future.

For example, if they could conquer twin Demon City in the future ...

Wouldn't that require them to face a wave of monster attacks?

The monsters in Twin City were all above level 70.

If they did not rely on Zhang Shan and prepared more fire god cannons ...

Their wind cloud Guild might not be able to defend the city.

they didn't want the city to be destroyed by the monsters 'attack as soon as they took it down.

That would be bullshit.

Moreover, the materials to build the fire god cannon weren't easy to obtain.

Otherwise, Zhang Shan would not have not increased his proficiency until now.

It was because he simply could not get enough materials.

Even if he were to buy them from the auction house, he would not have that many materials to buy.

Therefore, although Zhang Shan could build the fire god cannon, he could not.

However, due to the limited materials.

The production of this kind of thing was destined to not increase.

Since that was the case, he had to keep the fire god cannon for now.

He would set it up when he needed it.

While Zhang Shan was busy producing engineering products.

His companions had finally finished training their mounts and returned to Dangyang city.

After wind and cloud blade returned, he saw that Zhang Shan had been staying in the Guild residence.

He asked in the party channel.

six-man Butler, what are you busy with? let's go find the BOSS.

Zhang Shan put down what he was doing and replied.

“Are you guys done with your Mount training?”

it’s all done. We’ll gather at the teleportation Hall and set off. We’re just waiting for you.

“Alright, I’ll be there in a minute.”

Zhang Shan kept the materials and engineering products, and then teleported to the teleportation Hall.

As for the fool’s bomb that he had just made, he would keep it for now.

It was temporarily not up for auction.

Tomorrow’s monster attack might be a chaotic battle.

he could not sell fool’s bombs at this time.

Otherwise, wouldn’t this be giving the enemy resources?

Perhaps, someone would buy his bomb and use it on the wind and cloud Guild the next day.

Zhang Shan would not do such a ridiculous thing.

The five of them gathered at the teleportation Hall.

Wind and cloud blade asked Zhang Shan.

“Where are we going to find the BOSS?”

“Of course we’re going to Heaven’s Gate. How many bosses are there in Dangyang city? I’m guessing that they’ve already been guarded tightly by others, so there’s no place for us.”

Before Zhang Shan could answer, the little fairy spoke first.

“I mean, The Map of Heaven’s Gate is so big, where are we going to find it?”

little fairy realized that she had misunderstood wind cloud blade’s words.

However, she quickly added.

Oh, there’s no difference, right? we’ll just run around the Heaven’s Gate map. Isn’t finding the BOSS a matter of fate? ”

Zhang Shan thought for a while and said.

let’s go to the demon-suppressing city. The monsters there are of higher levels, so I don’t think there will be many people there.

After the announcement just now.

It was a divine weapon and a spiritual grade weapon.

A large number of players had already gone out to look for bosses.

Zhang Shan estimated that in the vicinity of Heaven’s Gate pass, there should be players everywhere, looking for bosses.

If they went over, they wouldn't get anything.

It would be better to go directly to the demon-suppressing city.

after all, the monsters there were of a higher level, and the BOSS was of a higher level.

For normal players.

Red bosses above level 50 were even more difficult for them to fight.

and he might not even be able to defeat them.

Other than the major guilds.

there shouldn't be too many unspecialized parties that would go there to find the BOSS.

besides, other people had to pay 200 gold coins for the teleportation fee to go to the demon-suppressing city.

To normal players, this was not a small amount of money.

If they had a choice, they would definitely not go.

okay, then let's go to the demon-suppressing city and find the BOSS.

yes, we'll run deeper into the map. The bosses there are of higher levels. Some of them are even above level 60. Many players can't beat them.

"haha, it's good that others can't beat them. isn't this prepared for us?"

"Let's go, BOSS."

They were teleported to the demon-suppressing city through the teleportation Hall.

Then, he teleported to the city gate.

The five of them rode their horses together and rushed into the depths of the map.

The five of them had hero mounts.

After training, he could run even faster.

Under Zhang Shan's lead, the five of them passed through many monster spots.

It was different from Heaven's Gate.

At the moment, there were almost no players farming monsters in the demon-suppressing city.

After all, the monsters here were all above level 50.

Moreover, most of the monsters were between level 55 and level 60.

Most players were still around level 30.

there were also some players who had just reached level 40.

But that was the minority.

Most of the players were still around level 30.

There was no need for them to come to the demon-suppressing city to farm monsters.

If the monster's level was too much higher than the player's ...

with the level suppression, it was very difficult to farm, which affected the efficiency of leveling up.

Of course, Zhang Shan and the rest had been running along the way.

He didn't see any players farming monsters.

But occasionally, they would run into some players who were running around the map and looking for bosses.

sometimes, they would even encounter large groups of people.

However, after everyone met up, they all left.

There was no conflict.

No one was a boring person.

Why would they fight when there were no benefits?

Zhang Shan had long passed the age of passionate pk.

Moreover, in Zhang Shan's eyes, the other players were all weaklings.

when he had nothing to do, he really had no interest in killing people.

With Zhang Shan's current strength, fighting with others would be nothing more than bullying.

what was the point of that?

They were not fighting a boss.

If it was someone else and they happened to be fighting a boss ...

Zhang Shan might go up and cause a scene.

Killing and snatching bosses was normal in the game.

As long as he could beat others, why not snatch it?

Zhang Shan was not a Saint.

They had robbed the ghostly Tiger of the Yan Kingdom before.

Windcloud blade's ultimate skill, the destruction skill book, had been dropped during the boss fight.

It was still better to fight for the boss.

If there was a chance, Zhang Shan would not mind snatching it.

Zhang Shan was not interested in a simple fight.

However, it would be a different story if there was a boss.

zhang shan and the rest continued to move forward. after running for more than two hours, they had not even encountered a single purple boss.

They didn't know if it was because they were too unlucky.

Or did someone just happen to be in front of them and kill the BOSS?

This made everyone particularly depressed.

Especially little fairy.

She had been excited and encouraged everyone to come out and find the BOSS.

In the end, after searching for so long, they still couldn't even see the BOSS's hair.

The little fairy said gloomily as she ran.

"Did we not look at the Chinese calendar when we went out today? Why is my luck so bad? I can't even find a purple BOSS."

"Don't tell me that the BOSS was defeated by someone else."

I don't think so. We're already fast enough. After training our mounts, we came out to find the BOSS. There shouldn't be many people who are faster than us.

that's hard to say. When we were training our mounts, we waited for too long. It's possible that someone is ahead of us.

"Why don't we try changing directions?"

alright, the map is so big anyway. We'll just look around.

at the next intersection, the group changed direction and continued to look for the BOSS.

they continued to run for a while.

Suddenly, Windcloud blade stopped his Mount and said.

"look over there, is there anyone fighting the BOSS?"

Zhang Shan quickly stopped his Mount and looked in the direction that wind cloud blade was pointing.

In the distance, he could vaguely see some human figures.

However, the distance was too far.

They couldn't see clearly.

he didn't know if those people were farming monsters or fighting bosses.

However, there shouldn't be anyone coming to farm monsters at this position.

There was an 80% chance that someone was fighting a BOSS.

Wind and cloud blade's eyes were really good.

He could see it from such a distance.

there should be someone fighting the BOSS. Let's go and take a look.

After Zhang Shan finished speaking, he patted his horse and ran towards the group of people.

No matter what those people were doing there.

There was no harm in running over to take a look.

He couldn't possibly say that there were people who wanted to cut him down just because he ran over to take a look, right?

of course, zhang shan wasn't afraid of others cutting him.

If there were really people who wanted to die, Zhang Shan did not mind sending them back to the city.

If there was really someone fighting the BOSS over there ...

They could still snatch a BOSS from someone else.

If they couldn't find a BOSS to fight, snatching someone else's BOSS would be the same as fighting a BOSS.

As for what other people would think, it was none of Zhang Shan's business.

when he saw other people fighting bosses.

If they didn't go up and do something, wouldn't they have made a wasted trip?

Under Zhang Shan's lead.

the five of them quickly ran forward.

Not long after, he saw a group of people fighting a BOSS.

However, Zhang Shan did not have any thoughts of snatching the BOSS.

Because among the group of people fighting the boss ...

The person in the lead was the God of War, Li Jing.

he was the leader of the entire gaming industry.

Zhang Shan did not want to provoke the war god Guild.

The number one Guild in the gaming world was no joke.

no matter how strong zhang shan was, he did not want to have a conflict with the people from the war god guild unless it was necessary.

Moreover, the relationship between war god Guild and Feng Yun realm was quite good.

Even if they wanted to snatch it, they couldn't bear to do it.

But little fairy didn't know about this.

She saw that someone was fighting the boss and said to Zhang Shan excitedly.

"brother guan, let's go up and snatch it. Kill them all, then defeat the boss and run."

Hearing the little fairy's words, Zhang Shan did not know what to say.

Damn it, this girl must have been a Bandit.

did he rob anyone he saw?

He didn't even look at the situation.

Before Zhang Shan could reply, wind and cloud blade spoke up from the side.

forget it. We're all old acquaintances. Let's go up and say hello.

Wind and cloud blade ran forward, with Zhang Shan and the rest following behind.

The war god Guild's players saw someone approaching.

A group of people quickly went on guard.

Wind cloud blade stopped not far from them and shouted at the same time.

"Hey, slave of three surnames, do you need help?"

In the distance, the God of War, Lu Bu, was swinging his huge axe, trying his best to hack at the boss.

He cursed after hearing wind cloud blade's cry.

"F * ck you, I'll kill you."

"Haha, just you? Let's fight one-on-one, I'll let you have the first two strikes."

Windcloud blade called out confidently.

Of course, he had the capital to be this confident.

With the godly weapon battle axe in wind cloud blade's hand, as well as the fact that he was eight or nine levels ahead of them ...

No matter how strong war god Lu Bu was, he couldn't possibly defeat him in a one-on-one battle.

" why should i fight you one-on-one? i have so many brothers here. with one knife from each of them, i can chop you into pieces. "

brother, you're OUT of date. What's the use of having so many brothers? with me, brother Liu Guan, I can beat all of you.

War god Lu Bu was speechless.

He really did not know what to say.

The Wargod Guild's people kept looking over at Zhang Shan as they attacked the BOSS.

They were not worried that Zhang Shan was here to steal the BOSS.

With the strength of the war god Guild's 10000-year-old boss, he had never been afraid of a challenge.

In the past, many guilds had wanted to challenge their position as the boss.

In the end, they all returned in defeat.

Moreover, there were thousands of players fighting the boss here.

even though zhang shan was very strong.

However, as the number one Guild in the gaming world, the members of the war god Guild had this confidence.

They were not afraid of Zhang Shan.

Of course, the most important thing was that the relationship between the wind and cloud Guild and the war god Guild was not bad.

Otherwise, why would wind and cloud blade joke with war god Lu Bu?

The Wargod Guild's people were observing Zhang Shan.

zhang shan was also observing them.

He had never dealt with anyone from the war god Guild before.

Even when they ran into each other, they just brushed past each other.

This time, Zhang Shan realized.

It was the boss of the God of War Guild, God of War Li Jing.

He was actually playing The Guardian class.

With the boss as a meat shield, this brother was also a person with ideas.

zhang shan couldn't tell what equipment god of war li jing was wearing.

However, the other players didn't have any godly items.

At most, the God of War Li Jing would have a spiritual weapon.

However, Zhang Shan really could not understand the amount of health that God of War Li Jing had.

Even though the BOSS they were fighting was just an ordinary red BOSS.

However, the damage of a level 60 red BOSS was still terrifyingly high.

Every time the BOSS hit Li Jing, the damage dealt was over 70000 to 80000.

However, he could easily withstand it.

According to Zhang Shan's estimation of the health bar, the upper limit of Li Jing's health was at least 200000 or even 300000.

Even with his purple cloak, it would be difficult for him to achieve such a high HP.

A level 40 purple cape only added 60000 HP.

After all, Secretary Feng Yun only had about 20000HP after he reached level 40.

The little Secretary had a Divine Shield.

he had nearly 100000 more hp than a normal guardian.

However, the God of War Li Jing's health was actually higher than the little Secretary's.

This didn't make sense.

perhaps he had gotten his hands on a special item that could increase his maximum health.

In this game, there were indeed special items that could increase one's maximum health.

However, they usually didn't add much and weren't very useful.

God of War Li Jing must have obtained some awesome special items.

Just like the mana pool that they had obtained before, it could increase mana by 20000.

Perhaps Li Jing, the God of War, had obtained a special item that could increase his maximum HP.

Otherwise, his HP would not be so high.

Chapter 459 General of the demon race's roaming cavalry

zhang shan looked at li jing, the god of war, who had easily withstood the damage of a level 60 red BOSS.

he couldn't help but sigh.

He really couldn't underestimate others.

if the god of war li jing could get his hands on some amazing special equipment, other players could naturally do the same.

It seemed that Zhang Shan had not taken all the benefits of the game.

Even though he had all sorts of advantages.

However, other people naturally had their own way of survival and development.

He could also get his hands on something that Zhang Shan had never seen before.

Especially now, after the system had opened up the way to obtain divine artifacts.

Perhaps it wouldn't be long before other players would get their hands on divine-level equipment.

The godly equipment was no longer theirs. It was now exclusive to the wind and cloud Guild.

Furthermore, what Zhang Shan could see now was only the surface.

He could only see Li Jing's health bar and the damage he dealt.

As for Li Jing, Zhang Shan could not tell if he had any other trump cards.

Zhang Shan looked at the Wargod Guild's people from afar.

He found that when they were fighting the BOSS, they had a clear division of labor and were not chaotic at all.

He had a good grasp of the rhythm.

Even though there were thousands of people present.

However, the war god Guild had divided these several thousand players into several large teams.

one main team was fighting the BOSS, and the other two reserve teams were probably preparing to be substitutes.

after all, other than zhang shan.

There was basically no one who could really carry a red BOSS from head to toe.

At the very least, no one should be able to withstand the damage of the red BOSS's ultimate skill.

Even someone as powerful as the God of War Li Jing couldn't withstand it.

When the war god Guild was fighting a BOSS, they definitely had to have a reserve team.

Other than fighting the BOSS and the reserve team.

The rest of the people were on guard.

Although a level 60 red BOSS was already a very fierce existence to them, it was still a level 60 red boss.

However, the war god Guild's members did not panic at all.

Clearly, they were the same. They had a lot of experience fighting bosses.

He knew how to deal with all kinds of BOSS skills.

it was no wonder that li jing, the god of war, could get his hands on a special item that could greatly increase his maximum hp.

The more bosses they fought, the more good items they would get.

Even the war god Guild had not killed many real-name bosses.

but even so, they were only fighting normal red bosses.

As long as he killed enough of them, he would definitely get good items.

Other than these.

What caught Zhang Shan's attention the most was that almost all of the people from the God of War Guild had red equipment.

This was because he saw that the equipment of each of the war god Guild's members was emitting a red light.

he did not know how many of them had a full set of red equipment.

however, with thousands of people, even if each of them had a piece of red equipment, it would still be impressive.

As expected of the leader of the gaming industry, there were many rich people.

there were at least tens of thousands of red grade equipment in this group.

In fact, there should be more.

After all, it was impossible for them to say that they only had one red equipment.

It was obviously impossible to get so many red-colored equipment by killing bosses on his own.

A red boss would at most drop two or three pieces of red equipment.

No matter how many red bosses they killed, it was impossible for them to drop tens of thousands of red equipment.

it was obviously impossible for the war god guild. they had fought thousands of red bosses.

most of their red equipment must have been bought.

How much money would that cost?

even though the price of equipment had dropped by quite a bit.

...

However, the price of red equipment was still stable between 10000 and 50000 gold coins.

It was normal to get a person's equipment.

a set of red equipment was worth at most a few hundred thousand gold coins.

However, if a Guild had over a thousand members and all of them were selling red equipment, that would be ridiculous.

and this was only what zhang shan saw.

It was impossible for the war god Guild's members, who were not present, to not have a single piece of red equipment.

It looked like the war god Guild's strength was even stronger than Zhang Shan had imagined.

According to Zhang Shan's understanding.

in their wind and cloud guild, there were at most a hundred people with a full set of red equipment.

most of these people were the bosses of the guilds and were rich people.

As for the remaining guild members, there were probably less than 500 of them who had a piece of red equipment.

...

Compared to the war god Guild ...

Their wind and cloud Guild was far from that.

Of course, the members of the wind and cloud Guild.

except for the group of people who followed feng yun realm at the beginning.

They were all recruited later in the game.

Of course, they couldn't recruit many players with real strength.

After all, if they were rich ...

They were either lone wolves who wanted to join their own guilds or had their own guilds.

For a super Guild like the war god Guild ...

No matter what game he played, he could bring a large number of pay-to-win big shots. This was really awesome.

Zhang Shan was observing the war god Guild.

Windcloud blade continued to tease him.

"Servant of the three surnames, you're not good enough. One chop of your axe can't even kill 10000 HP. I'm very strong."

"Why aren't you getting lost?"

"I'm just watching. Is it against the law to watch you guys fight the BOSS?"

"F * ck, if you don't leave now, I'm really going to Cut You Down."

"Come on, let's hurt each other."

"Swordsman."

Zhang Shan watched for a while. After the war god Guild's people fought the BOSS, he felt that it was quite boring.

It was so boring to watch others fight the boss. He couldn't go up and snatch it.

It was better to find a boss to fight on his own.

Seeing wind cloud blade, he was still bickering with war god Lu Bu.

Zhang Shan could not help but facepalm.

Why the f * ck were they acting like two children?

Seeing this, Zhang Shan said to wind cloud blade.

“Let’s go. Let’s continue looking for the boss.”

“oh, then let’s go.”

Before leaving, wind cloud blade did not forget to tease war god Lu Bu.

slaves of the three surnames, I’ll be leaving first. You guys have fun. I wish you all will be killed by the BOSS, hehe.

As soon as Windcloud blade finished speaking, he immediately turned his horse around and fled.

The war god Guild’s members were furious when they heard unstable blade’s words.

damn it, can’t this guy say something about others?

The God of War, Lu Bu, lifted his axe and stopped attacking the BOSS.

Just as he was about to charge at wind cloud blade ...

However, when he saw that Windcloud blade had already escaped on his horse ...

He could only vent his anger on the BOSS.

Zhang Shan and the rest followed behind wind cloud blade and left quickly.

The remaining members of the war god Guild were still fighting the BOSS.

a level 60 red BOSS had quite a bit of hp.

Usually, it would have around 200 million HP.

Among them, no one could deal as much damage as Zhang Shan.

If they wanted to kill the BOSS, they would have to fight for at least a few minutes.

And this was under the condition that everything went smoothly.

In fact, they definitely wouldn’t be able to succeed.

Even though it seemed like Li Jing could easily tank the BOSS’s damage, he was still too weak.

However, that was only if the BOSS had not used its ultimate skill yet.

As long as the BOSS used a big move, God of War Li Jing would definitely die.

For players, the most difficult part of fighting bosses was their ultimate skills.

No BOSS’s ultimate skill was easy to deal with.

Even the most ordinary purple BOSS.

His big move was still very powerful.

Not to mention a red boss.

it was normal for a level 60 red boss to deal 200000 damage with its ultimate skill.

Moreover, it was an area of effect damage.

Li Jing, the God of War, was not like Zhang Shan.

After his teammates fell to the ground, Zhang Shan could still rely on his lifesteal effect to hold on for a while.

however, the god of war li jing could not.

Let's not talk about whether he had any special effects or skills that could suck blood.

Even if he had the lifesteal effect, his damage wasn't high enough, so he couldn't absorb much HP.

God of War Li Jing could withstand the boss's damage.

In addition to relying on his extremely high health limit.

the most important thing was that he relied on the large group of support behind him to heal him.

If there was no support to heal him, he would basically be killed in seconds.

After the BOSS released his ultimate skill.

The war god Guild's support definitely couldn't hold on and would be defeated in an instant.

without the support's healing, even li jing would have to fall.

he simply couldn't wait for the second wave of support to fill the positions.

Usually, when Zhang Shan and the rest were fighting the BOSS, it seemed to be very easy.

The main reason was because Zhang Shan was there.

If Zhang Shan wasn't here, the big bosses of the wind and cloud Guild would have died.

even now, they might not be able to kill a real-name BOSS.

At most, he could only play with a normal red BOSS.

After Zhang Shan and the rest had run far away.

War god Lu Bu said to the others.

that's strange. What are wind and cloud blade and the others doing here? "

you're talking nonsense. Of course they're here to fight the BOSS.

"fight a BOSS? They only have five people."

"If six-barreled Bodhisattva can solo a real-name BOSS, why can't the five of them?"

” that’s different. it must have been an accident when six-barreled bodhisattva defeated the BOSS by himself. ”

“Brother, don’t be jealous. with someone as strong as six-barreled bodhisattva around, the others could easily defeat the BOSS with a few dogs.”

that’s true. Six-barreled Bodhisattva is indeed too powerful.

“Sigh, we have to mobilize thousands of people just to fight a BOSS. they only need five people to fight bosses everywhere. this is too weak.”

“be content. as long as we can kill the boss, it’s fine even if we have more people.”

“Yeah, a lot of people can’t even beat the boss.”

I hope we can get a divine weapon mold this time.

“Have a good dream. There’s everything in the dream.”

after leaving the war god guild’s boss fight area ...

Zhang Shan and the other four went back to their original boss-hunting career.

Although there were many bosses in the Heaven’s Gate map, there were many bosses.

However, The Map of Heaven’s Gate was big enough.

It was not easy for players to find a boss on purpose.

They continued to run along the path on the map.

Zhang Shan said to wind cloud blade as they ran.

“the war god guild is really strong. i saw that all of their players had red equipment.”

you’re talking nonsense. If the war god Guild isn’t strong enough, why would it always rank first? ”

it’s useless no matter how strong they are. If they had started fighting just now, Guan Zi alone could have killed all of them. Hehe.

what’s the point of fighting? let’s continue looking for the BOSS.

Zhang Shan quickly interrupted the little fairy’s flattery.

When facing players, Zhang Shan was strong to the point of being almost invincible.

However, the other players weren’t all rookies.

Take the war god Guild for example. They would definitely have stock.

for example, they should have quite a few ultimate skill and damage scrolls.

If someone else were to throw out a few big moves or scrolls at Zhang Shan at the same time ...

He couldn’t take it either, so he had to lie down.

Unless he had activated the God's descent skill in advance.

Otherwise, even if he had more than 650000 HP, he would not have been able to survive.

He couldn't withstand the simultaneous attacks of several ultimate skills.

They followed the path on the map and moved forward.

As long as they saw a group of monsters, they would go forward to check.

He wanted to see if there was a BOSS hidden among the monsters.

However, after running for more than an hour, they only managed to fight a purple BOSS.

After that, they never encountered any other bosses.

Adding up the time they spent running, they had spent almost half a day.

In the end, he only managed to get a purple BOSS.

their luck was really bad.

However, this was how it was like to find a BOSS.

Even if he couldn't find it, he had to continue looking.

Otherwise, all their previous efforts would have been in vain.

Zhang Shan took the lead and ran in front.

Suddenly, he saw something in the distance. It was charging toward them at a fast speed.

In the beginning, Zhang Shan did not pay much attention to it.

He thought that it was another player who was looking for a BOSS.

However, when they got closer, Zhang Shan realized.

This was a f * cking BOSS.

It was a general of the demon race riding a war Horse.

After seeing the BOSS, Zhang Shan shouted to his friends.

"there's a BOSS up ahead, you guys spread out."

After saying that, Zhang Shan continued to rush towards the BOSS that was running towards him.

before he could pull the BOSS steadily, his friends could not get too close.

Otherwise, the BOSS would have killed them with a casual swing of his blade.

Zhang Shan quickly approached the BOSS.

He still didn't understand.

Why did a BOSS come to find her?

This didn't make sense.

They didn't see where the boss was just now.

It couldn't be that they had already entered the boss's aggro range.

No boss would have such a wide aggro range.

It was just a normal red boss, not a Demon God.

There was definitely no aggro range. It was ridiculous to such an extent.

Of course, Zhang Shan did not want to think too much about how the boss came about.

It was fine as long as there was a boss to fight.

Why should he care so much about other things?

When the boss was within his attack range ...

Zhang Shan quickly stopped his Mount and rode on the red Rabbit to open fire.

The bullets did not stop, and they swept toward the BOSS.

This was the advantage of a battle Mount.

They could fight without getting off their horses.

this would be much more convenient.

Zhang Shan rode on his horse and fired continuously.

The BOSS that was coming at him was also brandishing his large sword.

He quickly rushed to Zhang Shan's side and slashed at him.

Damage -86024.

The BOSS's damage was quite high.

However, to Zhang Shan, it was not a problem at all.

With his current HP of over 650000.

He could tank the BOSS's little damage without any pressure.

As Zhang Shan fired his shots, he checked the BOSS's attributes.

[demon general (red): level 60, attack 48000, HP 25000000]

Skill 1, machete, skill 2, magic power, skill 3, critical strike (passive), skill 4, million knife art. Status: Holy demon's protection.

[mountain-splitting blade: when the demon cavalry General's blade lands on the mountain, it increases damage by 100%.]

[demonic power: the general of the demon race's roaming cavalry is born with a demonic nature. Increases attack by 100%.]

[critical strike (passive): when the general roges, there is a chance to trigger a critical strike, dealing five times the damage.]

[million knife art: the famous ultimate technique of the demon race's roaming cavalry general, million knife art.]

[Holy demon's protection: Suan ni]

After the skill was used, countless blade lights revolved around the general.

Deals 500% damage. Effective range is 50 yards.

After looking at the attributes and skills of the demon race's roaming cavalry general, Zhang Shan could not help but sigh.

As his level increased, the boss would also become stronger.

They had fought level 60 bosses before.

However, the bosses they had fought were all level 60 real name bosses.

it was normal for a real name BOSS to be very powerful.

However, they had never fought a level 60 red BOSS before.

He didn't expect that after reaching level 60, even a normal red BOSS would become so strong.

This general of the demon race's roaming cavalry was a little fierce.

of course, even though the BOSS was very powerful, it was still a monster.

But Zhang Shan was not worried.

That was if he couldn't even defeat a normal red BOSS.

That would be true nonsense.

Even if it was a normal red boss, it was still too powerful.

That was just a normal red boss.

Even Zhang Shan could easily beat him.

As Zhang Shan pulled the boss steadily, his other comrades also followed and attacked.

The demon General's HP had reached 250 million.

It had two to three times more HP than a level 50 red boss.

For normal players, it would take a long time to destroy it.

However, it was a different story for them.

with zhang shan and boss wu's attack blessing, the damage output exceeded 110000.

Moreover, his attack speed was extremely fast.

Under normal circumstances, he could fire about five shots in two seconds.

If he went all out, his attack speed would be even faster.

With all sorts of critical hit skills, his current damage was much higher.

Even if the BOSS had the Holy demon's protection, which reduced damage by 50%.

Every minute, Zhang Shan would be able to take down the BOSS, which was about 20 million health.

And this was only the damage done to one person.

The other companions around him also had strong damage abilities.

although they were not as crazy as zhang shan, even if the three of them combined their damage, it would not be as high as zhang shan's alone.

however, they should be able to deal tens of millions of damage in a minute.

If this was the case ...

Under normal circumstances, they could deal nearly 30 million damage in a minute.

Therefore, even though the general of the demon race's roaming cavalry had a high HP, he was still very weak.

However, to them, it would only take ten minutes.

Zhang Shan led his friends and surrounded the general on horseback, attacking him continuously.

The BOSS did not show any weakness. One after another, the attacks landed on Zhang Shan's head.

The damage from a normal machete was still acceptable.

When they hit Zhang Shan, they had never dealt more than 90000 damage.

With such a small amount of damage, Zhang Shan did not even need boss Wu to heal him.

If he had to rely on himself to suck blood, he could completely suck it back.

However, the roaming demon general had a passive skill called critical strike.

This passive skill was extremely powerful.

Five times the critical damage.

The original attack power of the demon race's roaming cavalry general had been increased by 100% because of a skill called magic power.

as an ordinary red BOSS, it was a monster.

The general's attack power had reached 48000.

This kind of attack power was almost on par with a weaker real name BOSS.

With such a high attack power, coupled with the critical damage of critical strike, it was extremely powerful.

Every time the general of the demon race made a critical strike, he would be able to take away about 200000 of Zhang Shan's health.

If the general of the demon race's roaming cavalry only occasionally struck a critical blow, it would be fine.

but the problem was that the general of the demon race's roaming cavalry had a very high frequency of making a critical strike.

Almost every three to five slashes, he would make a critical strike.

this was also because zhang shan's hp was high enough.

If it was someone else, they wouldn't be able to withstand such a strong damage.

And Zhang Shan's lifesteal effect was also powerful enough.

Otherwise, he would have to rely on boss Wu to heal him.

He couldn't add up at all.

The demon's roaming cavalry General's passive skill was pretty good.

It would be great if he could get it.

A critical hit passive with five times the damage was very powerful.

It would be very useful for fighting bosses.

zhang shan now had four critical hit passive skills that dealt five times the damage.

When they attacked the demon general, they were shocked.

It could be triggered from time to time.

A 5x critical hit could take out more than 200000 HP of the demon general.

It would be even better if he could get it again and make this critical hit passive.

Chapter 460 Chain Lightning

after zhang shan saw the critical hit skill on the general of the demon race's roaming cavalry, he was stunned.

they were very envious.

Such a good passive skill.

How good would it be if he could get his hands on it?

However, if he wanted to trigger his passive King talent, it would completely depend on fate.

if there was no fate, then they could only rely on quantity to make up for it.

It was like the passive skills of the monsters.

If he spent one or two months grinding, he would be able to do it no matter what.

however, the BOSS's passive skills could not be farmed.

After all, the number of bosses was limited.

It was pure luck to encounter one.

The next time he thought about it, it would be almost impossible to encounter the same BOSS.

The BOSS respawning mechanism in this game did not follow the usual routine at all.

Since there was no fixed time and place, he had to go to the city.

after they finished fighting.

Who knew where he would have to go next time to find the general of the demon race's roaming cavalry.

therefore, if he wanted to get this critical hit skill, he could only rely on this.

Of course, this was only relative to the small monsters.

The BOSS's passive skills were more easily triggered by talent.

If they were lucky enough, it was common for them to get a passive skill every time they fought a BOSS.

most of zhang shan's passive skills had been obtained from bosses.

There weren't many passive skills that he had obtained from the monsters.

They had been searching for bosses for half a day, so they should have accumulated some luck.

He hoped that if he was lucky enough, he would be able to get this critical hit skill.

Zhang Shan withstood the BOSS's damage and fired continuously.

Boss Wu was behind him, constantly healing him.

The other three companions also surrounded the BOSS and threw out all kinds of skills.

windcloud blade asked curiously as he brandished his divine weapon, the battle axe, and hacked at the BOSS.

"what's up with this general of the demon race? Where did it come from? why is it charging at us before we even see the BOSS?"

why are you so conflicted about this? isn't it better if the BOSS comes to our door? "

"It's very strange."

“Perhaps we misunderstood. The general of the demon race’s roaming cavalry wasn’t coming for us. We just happened to be on the way, so we met.”

“Eh? You’re saying that this is a patrol monster, and it just so happens to be patrolling this road?”

you don’t say. It’s possible. After all, the BOSS ‘name is wandering Knight general. Doesn’t that mean that it’s wandering around? ”

haha, that’s great. We just happened to bump into each other.

“It’s unlucky to have met us.”

“All the best, destroy it.”

Zhang Shan estimated that if they wanted to take down the general, they would need about ten minutes.

he should be able to use his berserk skill two to three times.

Thinking of this, Zhang Shan quickly went all out.

He activated his berserk and fanatic skills.

at the same time, he activated the shadow clone skill.

three zhang shans stood in a row, the main body riding on a red rabbit horse.

The two doppelgangers were fighting on his left and right sides, and fierce bullets rained down on the general.

The general of the demon race’s roaming cavalry had high HP.

However, under everyone’s continuous attacks, the BOSS’s health was still slowly decreasing.

It quickly dropped to 80%.

Among the four skills of the demon race’s roaming cavalry general.

Other than the first minor skill and the fourth ultimate skill.

The other two skills were a status skill and a passive skill.

When his HP dropped to 80%.

The general of the demon race’s roaming cavalry did not have any additional skills that could be used.

...

It was still non-stop. He used the machete skill and slashed at Zhang Shan.

the critical damage from critical strike would also be triggered from time to time.

However, although the damage of the demon general was very high, it was still very powerful.

However, Zhang Shan’s blood volume remained in a healthy state.

With Mr. Wu's healing, coupled with his own high lifesteal effect, he was able to heal himself.

Facing the damage of the demon race's roaming Knight general, Zhang Shan did not feel any pressure at all. He easily tanked the BOSS.

Less than five minutes after they started the fight ...

The demon General's HP was about to drop to half.

Zhang Shan said to the others.

you guys back off first. Come back after the BOSS's ultimate skill is over ...

"Well, every time we fight a BOSS, we have to avoid the BOSS's big move. It's very annoying."

...

Windcloud blade said unhappily as he retreated on his horse with the divine weapon battle axe in his hand.

you should be content. It's already good enough that you can defeat the BOSS.

"That's right, isn't it good to just be a hooligan?"

"He just wants to be a hooligan. Brother Guan doesn't even want to let him play."

Every time the BOSS was almost at half health, they had to Dodge to the side.

This was because the BOSS's ultimate skills were all very powerful.

Other than Zhang Shan, no one else could withstand it.

In fact, not to mention the others.

just like the move of the demon general's million knife art.

Zhang Shan was also a little overwhelmed. He would have to activate the God's descent skill later.

it didn't mean that the million knife art's damage was high.

The general's million knife art dealt five times the damage.

with the boss's 48000 attack power ...

Five times the damage was enough. It could only take out Zhang Shan's health, which was less than 200 thousand.

Although 200,000 damage was high, Zhang Shan had 600000 HP.

Naturally, he could easily withstand it.

But the problem was that the Wanderer General's million knife art skill lasted for five seconds.

In other words, Zhang Shan had to continuously take on the damage of the big move for five seconds.

This was a little difficult.

200,000 damage per second, that would be around a million damage in five seconds.

Although he could also absorb a lot of blood with the lifesteal effect.

however, if he didn't use his ultimate, he definitely wouldn't be able to last until the end.

Boss Wu couldn't help but come up to heal the general while he was still in the middle of his big move.

It was really a little difficult for Zhang Shan to withstand the BOSS's big move for five seconds by himself.

Fortunately, he also had a big move.

There wasn't any problem that the deity's descent skill couldn't solve.

after activating the god's descent skill.

Zhang Shan's HP would be over 1.3 million.

With such a high HP, it was only a level 60 red BOSS, let alone the general.

Even if it was a Demon God, Zhang Shan could go up and fight it.

After his friends had retreated.

Zhang Shan quickly reduced the health of the demon general to half.

When his HP dropped to 50%.

The general of the demon race's roaming cavalry suddenly jumped from his warhorse and into the air.

It was seen holding a long knife in mid-air, and the knife was directly slashed at Zhang Shan's position.

The general of the roaming cavalry held his blade in mid-air and in the process of slashing down.

Countless blade lights suddenly appeared, with the general of the roaming demon race as the center.

The saber Light swirled, and the more it swirled, the larger its range became.

In the blink of an eye, it had enveloped an area of 50 yards.

A damage of more than 190000 appeared above Zhang Shan's head.

He quickly activated the skill {God's descent}.

After activating his big move.

zhang shan's hp had reached more than 1.3 million.

Furthermore, the God's descent skill also granted him a magic immunity state that lasted for one minute.

The demon General's million knife art skill was also magic damage.

In other words, after Zhang Shan had activated his ultimate.

The damage that the general of the demon race's roaming cavalry dealt to him was ineffective.

The boss's million knife art skill, the knife light.

Every second, it would sweep across Zhang Shan's body.

However, due to the God's descent skill and the magic immunity, he was not able to use it.

When these blade lights hit him, they could only flash a big miss.

he couldn't deal any damage at all.

The boss couldn't hurt him.

However, Zhang Shan's damage had increased explosively.

During the duration of the deity's descent.

All of Zhang Shan's attributes had been increased by 100%.

Other than the doubling of his HP, his attack power and attack speed had been greatly enhanced.

Zhang Shan held the hand cannon, and the bullets seemed to form a line of fire.

It quickly swept towards the general of the demon race's roaming cavalry.

massive damage values appeared above the roaming cavalry general's head.

This was especially true when he used the divine Strike.

the damage had reached a terrifying-2301953.

[Holy Strike] ignores all defense.

Even if the boss was under the Holy demon's protection.

it was also ineffective against the divine attack.

Zhang Shan's spear, Holy attack, had taken out the demon General's 2.3 million HP.

This kind of damage was simply terrifying.

It was a pity that although Zhang Shan had four divine weapons.

However, the king's Cape was a special godly item with no special effects. It didn't even have the special effect of Holy Strike.

Therefore, he only had three special effects.

Each of the three divine weapons had a 1% chance to trigger a Holy attack.

This probability was still too small.

He had to attack dozens of times in a row to trigger it once.

Five seconds passed, and the demon General's big move ended.

The BOSS started to use the mountain-splitting sword skill again, and it slashed Zhang Shan's body again and again.

However, Zhang Shan's God's descent skill had not ended.

It was still early.

The deity's descent skill lasted for one minute.

The damage that the general of the roaming Demon Knights had inflicted on Zhang Shan was nothing but a drizzle for him.

A single slash had only dealt around-80000 damage, and with his current HP of over 1300000, he had to be careful.

It was no different from scraping sand.

Zhang Shan's health bar was almost completely stagnant and had always been full.

It was only when the general of the roaming cavalry made a critical strike.

Only then could Zhang Shan's health bar drop a little.

Of course, in the state of God's descent, Zhang Shan's damage was extremely explosive.

Then his lifesteal effect would also be very impressive.

Even if it was five times the damage of a critical hit from the general.

Zhang Shan could also quickly suck back the blood.

After the BOSS's big move ended, his friends quickly ran back.

They surrounded the general and used all kinds of skills.

Boss Wu took a look at Zhang Shan's health bar.

He felt that Zhang Shan did not need him to heal.

He also joined in and attacked the BOSS.

Although boss Wu's damage was low, it was always good to deal more damage.

Zhang Shan took a look at his own skills.

The berserk and fanatic skills had already cooled down.

Shadow clone's cooldown time was even shorter, so it had long since finished.

While the effect of the deity's descent was still in effect ...

Zhang Shan quickly activated all his skills.

The three Zhang Shans stood in a row, and the damage instantly exploded.

The general's HP dropped rapidly under their violent attacks.

come on, quickly kill the BOSS.

“Don’t worry, it’s just a small red BOSS. It won’t take much effort.”

The general of the demon race’s rogues was one of the normal red bosses.

He was definitely one of the strongest.

But Zhang Shan and the rest were even more ferocious.

It really didn’t take much effort to blow it up.

Initially, Zhang Shan had thought that they would need to play for about ten minutes.

Only then would he be able to blow up the demon general.

However, after activating his ultimate skill, Zhang Shan’s output efficiency had more than doubled.

In one minute, he could deal as much damage as he would normally do for two to three minutes.

It hadn’t been long since the general of the demon race’s roaming cavalry had used his race’s big move.

They had already reduced the BOSS’s health to 40%.

Perhaps they would only need two to three minutes to defeat the BOSS.

A minute passed, and Zhang Shan’s God’s descent skill had ended.

However, the demon general only had 30% of its health left.

Without the blessing of the God’s descent, Zhang Shan could no longer completely withstand the BOSS’s damage with his own lifesteal effect.

Boss Wu stopped attacking the BOSS and focused on healing him.

Although he no longer had the God’s descent state.

Their damage output was almost reduced by half.

However, the health of the demon general was still steadily decreasing.

30%, 20%.

They quickly pushed the BOSS into a berserk state.

After entering the berserk state, the general’s damage became even more severe.

Boss Wu, who was standing behind Zhang Shan, could no longer stop his actions of healing Zhang Shan.

He had to keep adding.

Zhang Shan was almost unable to hold on.

everyone looked at zhang shan’s health bar, which was jumping up and down.

Windcloud blade could not help but ridicule.

” f * ck, this BOSS is so strong. six barrels has so much hp, but he can't hold on. ”

that's right. The roaming Knight general is just a normal red BOSS. The damage is a little ridiculous.

“Is there such a huge difference between a level 60 BOSS and a level 50 boss?”

it's not entirely because of the level. It's mainly because of the magic strength skill of the roaming Knight general, which increases attack power by 100% and increases the damage by a level.

what's the big deal with the 100% increase in attack power? that critical hit is the real deal. It can continuously deal five times the damage.

that's right. It's all because of this critical hit skill. Otherwise, brother pipe would have been able to hold the BOSS without the help of the support.

don't panic. The general can't kill me. Everyone, just hurry up. As long as we don't let the BOSS use its second ultimate skill, it won't be able to do anything.

After entering the berserk state, the damage from the roaming cavalry general caused Zhang Shan's health bar to jump continuously.

it was no longer as stable as before.

But Zhang Shan was not worried.

He just didn't look as stable as before.

There was actually no danger.

His HP was almost always above half.

With his 650000 HP, he had a large margin for error.

The general of the demon race's roaming cavalry could only do so if he released another big move.

Otherwise, he wouldn't have been able to kill him.

After going berserk, the BOSS would become even more fragile.

The damage they dealt also became higher.

Zhang Shan fought against the berserk roaming cavalry general, and they fought for another minute.

very quickly, the BOSS's health was reduced to zero.

Zhang Shan summoned the Panda dumpling and controlled it to move forward.

Looking for an opportunity, the Panda fighter used a combo skill and destroyed the demon general.

[system notification: your passive King talent has been triggered by killing the demon race's roaming cavalry general.]

Acquired passive skill, critical strike.

Haha, not bad.

he had really managed to obtain this passive skill.

It seemed that his luck this time was quite good.

However, Zhang Shan was very happy because he had obtained a passive skill.

However, his friends were not happy.

this was because they didn't see the system announcement after they killed the roaming knight general.

in other words, they didn't get the first clear.

this demon general had been killed by other players before.

Or rather, there wasn't only one general of the demon race.

it was possible that someone else had defeated another general in other places.

All in all, they didn't get the first clear this time.

[no skill point reward.]

"Damn it, why isn't it the first clear this time?"

what the hell? could it be that the roaming cavalry general had been beaten up by someone before? "

"It should be,"

f * ck, such a powerful BOSS was actually defeated by someone else before? "

forget it, it's fine if we don't get a first kill. We're not lacking a skill point anyway.

"You make it sound so easy. Is this just a matter of skill points? The first Clear's drops will be even better."

f * ck, if that's the case, then we've only gotten two or three pieces of trash equipment after working so hard for half a day? "

you can't say that. The key to item drops is still luck.

the drops from normal red bosses are nothing much to begin with. It's worth looking forward to.

you guys, say the basic wave. Six-barreled, quickly activate your equipment.

Zhang Shan had originally planned to first see what the description of the passive skill, critical hit, was.

However, his friends were so anxious to see the dropped items.

Let's distribute the equipment first.

Zhang Shan opened his backpack and took a look.

there were two red equipment, one red material, and a skill book.

Eh?

Other than the usual equipment and materials, there was also an additional skill book.

Although they didn't get the first clear of the roaming Knight general this time, they didn't get the first clear.

However, the items dropped were still quite good.

It was better than what Zhang Shan had expected.

Perhaps it was because of the Panda dumpling's 10 points of luck.

A high luck value was very useful in many situations.

For example, it would affect the drop rate of items.

The new skill book that was dropped was the Daoist's Chain Lightning.

[Chain Lightning: releases a bolt of lightning that jumps continuously, dealing damage to each target.]

The damage dealt is 50% of the user's attack.

Can jump up to 9 targets, MP consumption, 120, cooldown time, 10 seconds, class requirement: Daoist priest.

It was a good skill, and Mr. Wu could use it.

After learning this skill, boss Wu also had a group attack skill.

Even though this Chain Lightning Skill could only deal 50% of the damage, it was still too weak.

However, most AoE skills were basically like this.

When attacking multiple targets, the damage effect would naturally be reduced.

Just like Zhang Shan's catapulting passive, he could still maintain 100% damage during group attacks.

In the entire game, there was almost no second one.

Of course, strictly speaking, the ejection passive was not an AoE skill.

It was just a passive effect.

It was similar to the splash effect of wind and cloud blade, the godly weapon axe.

It was not the same as an active AoE skill.

After boss Wu had learned the lightning chain skill, he had become more and more confident.

when he was farming monsters, he could attack nine monsters at the same time.

It was also a very useful AoE skill.

Besides, he could also use it when he was fighting.

He couldn't deal much damage to meat bosses, but when he used [Chain Lightning] to attack fragile jobs, he could.

It was still very useful.

A few consecutive lightning strikes could take down a few.

Zhang Shan dropped the item and displayed it on the team channel.

Windcloud blade said after his companions saw the dropped items.

eh, this drop isn't too bad. There's actually a skill book.

However, little fairy was not happy. There were no divine weapon mission items or divine weapon molds.

she said gloomily.

"what's the use of a skill book? we don't have a divine weapon mold."

"You've probably gone crazy thinking about divine artifacts,"

"That's right, is a God tool mold that easy to drop?"

"Don't be too impatient. You'll get a divine artifact sooner or later."

"Sooner or later? Do you want me to wait for two years before getting a divine weapon?"

Seeing this anxious young lady, Zhang Shan could not help but hold his forehead.

He quickly interrupted his friends 'argument.

"let's distribute the equipment first. after that, we'll continue to look for the boss."

that's right. Let's quickly distribute the equipment and look for the next boss. Who knows, the next boss might drop a divine weapon mold.

Facing the little fairy, this big girl who had been bewitched for the sake of the divine weapon.

zhang shan chose to ignore it.

He quickly assigned the skill book to boss Wu.

There were two pieces of red equipment. One was a strength-type iron armor, and the other was an agility-type shoe.

Zhang Shan asked wind and cloud blade and heart follows me.

"Are you two going to roll or play rock-paper-scissors?"

There were only the two of them in the team, and they were strength-type classes.

Wind cloud blade said generously.

"There's no need to go through so much trouble, just give one each. Give this one to Big Boss heart follows, and the next one to me."

"Alright," he said.

Zhang Shan assigned the iron armor to heart moves.

he gave the shoes to the little fairy.

As for the red material, he would leave it to himself.

the engineering class he had chosen would require a lot of red materials in the future.

Now, he had to slowly accumulate it.

It would also be troublesome if he had to buy it at the last minute.

after the equipment was distributed.

Zhang Shan waved his hand and said.

“let’s go and find a BOSS.”

let’s do it. I hope we can get a few more red bosses in the next two days.

“It would be best if it dropped a divine weapon mold.”

zhang shan led his friends and whipped their horses, following the path on the map.

he continued to search for the BOSS.
