

Passive Skills 461

Chapter 461-a critical strike

After killing the demon general, Zhang Shan brought his friends and continued to search for the next BOSS.

They had just spent more than three hours looking for the BOSS.

However, it took them less than 10 minutes to defeat the BOSS.

The bosses in this game were not easy to defeat for many players.

However, to Zhang Shan, bosses were just hard to find.

other than the demonic gods.

They could defeat any BOSS that they could find on the surface.

However, it would not be easy to find the BOSS.

If they were unlucky, they might have to run for an entire day in The Map of Heaven's Gate.

They might not even be able to find a red BOSS.

Zhang Shan thought as he rode away.

How good would it be if there was a map that was filled with bosses?

If that was the case, they wouldn't even need to farm monsters anymore.

They just had to fight bosses every day.

Not only was it possible to defeat the BOSS, but it would also drop good items.

Moreover, it gave a lot of experience points.

That was if they could fight a few bosses every day.

That was much faster than killing monsters.

Of course, Zhang Shan was only fantasizing about such things.

That was because it was impossible.

It was impossible to design such a map in the game.

a similar situation could only be found in instance dungeon maps.

In fact, there was only one fixed instance in the entire game.

That was the demon-subduing stand instance.

However, there would definitely be a red BOSS in the dungeon.

however, players could only enter the instance once a week.

Even if there was a scroll instance dungeon as a supplement.

However, the drop rate of that instance dungeon Scroll was just too low.

Zhang Shan and the rest had been doing this for so long.

A long time ago, Feng Yun Qing Qing had obtained an instance dungeon Scroll.

after that, they had never gotten another instance dungeon scroll.

Not only could they not obtain dungeon scrolls, but they could not even buy them.

In the beginning. Feng Yun realm even went out of his way to purchase them.

He wanted to buy some dungeon scrolls, kill more bosses, and get some good equipment.

However, he had never managed to buy one.

It wasn't because the price was high, but because they couldn't find the source.

Perhaps there were other players who had obtained instance dungeon scrolls.

However, the other party didn't have any intention of making a move at all.

Besides, there was usually only one red BOSS in a scroll dungeon.

Of course, this was the instance dungeon Scroll that Zhang Shan and the rest had cleared before.

There might be other types of instance dungeon scrolls.

However, Zhang Shan had never seen it before.

However, no matter how he thought about it, there was definitely no such thing. It was probably a boss-level scroll dungeon.

If there really was such an instance dungeon ...

Wouldn't he be rich then?

as zhang shan ran, he fantasized about a map that was full of bosses.

At this moment, he suddenly remembered.

He hadn't really looked at the passive skill that he had just obtained.

Let's take a look at this critical hit passive skill.

What kind of skill description would it be after he obtained it?

Even if he didn't look at the skill's description, he could roughly guess it.

After all, since the start of the game, Zhang Shan had already obtained quite a few passive skills.

...

But a guess was just a guess.

It's still just a look.

zhang shan opened his skills panel.

He found the critical hit skill that he had just obtained.

[critical strike (passive): passive skill acquired. When attacking, there is a 2% chance of triggering 5 times the damage.]

Holy sh * t, it actually had a 2% chance of triggering.

This surprised Zhang Shan.

One of the passive skills he had obtained before.

Other than the wild Wolf's innate skill, the other critical hit passive skills all had a 1% chance of triggering.

However, the wild Wolf's talent was different.

The wild Wolf's talent only doubled the damage.

...

On the other hand, critical strike dealt five times the damage.

It actually had a 2% chance of triggering. This was a good skill.

In addition to this critical hit.

He already had five passive skills that could deal five times the critical damage.

In terms of the trigger rate.

A critical hit should be equivalent to two passive critical hits.

This passive skill was powerful.

Haha, I've earned big this time.

Zhang Shan was very happy.

if he had a passive skill, why would he need any equipment?

As long as the boss could give him a passive skill.

Even if it did not drop any trash equipment, Zhang Shan had no objections.

It seemed that he really needed to fight more bosses.

If he relied on killing mobs to obtain passive skills ...

Even if he farmed for a year, he wouldn't be able to get many passive skills.

They still had to fight the boss.

His passive King talent was more likely to be triggered when he defeated the boss.

It would be easier for him to get a passive skill.

Thinking of this, Zhang Shan was full of energy.

They ran more happily.

He quickly found a BOSS, continued to fight the BOSS, and continued to get skills.

As for the equipment dropped by the BOSS, Zhang Shan was not too interested in them.

to be honest, unless it was a piece of divine equipment.

As for the other equipment, Zhang Shan did not even bother to look at them.

It did not matter if it was a red or orange equipment.

What's there to see about that?

At most, it could be sold for tens of thousands of gold coins.

Right now, Zhang Shan was not someone who lacked money.

Speaking of gold coins, his demon-suppressing city.

normally, the teleportation fee collected in a day would be 100000 gold.

In special times, they would receive even more.

Just like today.

After the access to divine weapons was opened.

A large number of players teleported to demon suppression city to look for the BOSS.

Just like the people from the war god Guild that they had encountered before.

Weren't those people teleported here?

He couldn't possibly say that he had ridden a horse here.

Although the Mount training system was now available, it was still a very powerful Mount training system.

After the Mount had been trained, its movement speed had increased by a lot.

But to run all the way from Heaven's Gate to here ...

Even a trained hero's Mount would take two to three days to make it.

With Zhang Shan's demon suppressing city.

No player would be stupid enough to run away by themselves.

Wouldn't it be better to teleport directly?

although zhang shan wanted to charge them a teleportation fee of 200 gold coins.

But he couldn't, because he couldn't bear to part with 200 gold coins.

I'll just run for two or three days.

Zhang Shan believed that in this game, there shouldn't be any players who would be so stingy.

Even the poorest players could afford 200 gold coins.

As long as he wanted to come over, he would not save on the 200 gold teleportation fee.

With the demon-suppressing city, this treasure bowl was still there.

Zhang Shan did not have to worry about money in the future.

This was truly collecting money without doing anything.

It was faster and more convenient to earn money than robbery.

Because he didn't even need to do it himself.

Zhang Shan only needed to occasionally go to the stone tablet of the city Lord's mansion and withdraw the gold coins.

He did not lack gold coins.

What Zhang Shan was lacking now were skills, especially passive skills.

By the time he had obtained a few hundred passive skills ...

he would be completely invincible.

Of course, he also liked divine artifacts.

Only these two things could pique his interest.

Other things, to Zhang Shan, were just floating clouds.

Zhang Shan brought his friends and continued to search for bosses in the Heaven's Gate map.

A day passed, and the next day, they continued to look for bosses and fight bosses.

On the afternoon of the second day, Feng Yun realm posted an announcement on the Guild channel regarding the monster attack at night.

The general content was that guild members who wanted to participate in the event had to gather at heaven's gate half an hour before the event, which was before 7:30 in the evening.

After that, Feng Yun realm requested for everyone to work together during the event.

Do not take the initiative to kill people from other countries.

if you're killed, report it immediately.

the general idea was to not cause trouble and not be afraid of trouble.

The event was mainly about killing monsters and bosses.

If someone was looking for trouble, they would attack together and beat them up.

This time, the monster attack would be held outside Heaven's Gate pass.

the players from the seven countries were all gathered together.

Who knew how many players there would be?

With so many people from seven different countries, it would be strange if they didn't start fighting.

To the members of the wind and cloud Guild, ordinary players would definitely not dare to provoke them.

however, their wind and cloud guild was in this game.

There were two great enemies, peerless Guild and domineering Guild.

As long as there was an opportunity, these two guilds would definitely come over to cause trouble for them.

Although the strength of the wind and cloud Guild was not considered weak.

However, their strength was mainly concentrated on the big shots.

The equipment of the members of other guilds was only slightly better than that of normal players.

Compared to the Guild members of top guilds, there was still a significant gap.

facing two guilds at the same time, they definitely couldn't win.

hence, feng yun realm wanted everyone to gather together.

In addition to making it easier for them to farm monsters and fight bosses, they could also take care of each other.

Zhang Shan took a look at the Guild announcement that Feng Yun realm had made.

However, he didn't really care.

It was not to say that Zhang Shan felt that he was very strong and no one would dare to cause trouble for him.

That was impossible.

During the event, would peerless Guild and domineering aura come to find trouble with them?

Zhang Shan felt that he definitely would.

At the very least, Subjugator wouldn't let go of this opportunity.

After all, the monster attack would take place outside Heaven's Gate.

It was easy for tyrant king to mobilize his men.

If a fight were to break out, the people that Subjugator had brought along would not just be members of the Subjugator Guild.

Behind them would definitely be a large group of Qin players.

Although the tyrant king's character was very tough and looked very stupid ...

But she just had this charm.

He could gather a large number of players to help him in battle.

Their wind and cloud Guild could not compare to them.

if they really fought ...

They could only rely on their guild members.

There probably wouldn't be many Chu players who would come to help them.

At that time, Subjugator would have brought over a million players with him, while they only had 100000 guild members.

that would be very difficult to handle.

Feng Yun realm must be having a headache over this matter.

It was an open space outside the city, and there was no terrain that could be used.

If they really fought, they could only fight head-on.

During the event, there would be monsters everywhere outside the city. Even if they wanted to run, they probably wouldn't be able to.

There were monsters everywhere, how could he run?

But what could he do?

She had to participate in the event.

They couldn't possibly say that they wouldn't participate in the event just because they were afraid of Guild Subjugator.

There was no such logic.

Although there might be trouble during the monster attack at night, there was still a chance that they would be in trouble.

But Zhang Shan was not concerned about this.

Feng Yun realm would have to worry about this matter.

In the Guild, Zhang Shan was just a bystander.

When something happened, he would act as a strong helper.

That was all.

As for the other matters, Feng Yun realm, the boss, would worry about them.

Of course, Zhang Shan believed him.

Feng Yun realm would definitely think of a way.

perhaps he was currently in some sort of shady deal with someone from another guild.

During the event at night, the players from all over the world would definitely fight.

It was normal for guild leaders like them to gather allies in advance and make more preparations.

but this had nothing to do with zhang shan.

At most, before the event started.

he had to contribute more fool's bombs to his guild members.

Zhang Shan planned to wait until after dinner.

He would go back and be a fool's bomb.

Mass production.

Try to make hundreds of thousands of bombs.

each guild member could get one.

In that case, it would be a huge boost to their overall strength.

This was all he could do to help.

as for zhang shan himself.

There was no need to worry at all.

No matter how chaotic the battle during the event would be, it would not matter.

Zhang Shan was not afraid.

Even though he could easily become the target.

However, it would not be that easy to kill him.

By night time, his big move would be on cooldown.

as long as he had a big move, who could kill him?

furthermore, zhang shan still had his last life-saving trump card, the positioning pearl.

If he really couldn't take it anymore, he would use the positioning ball to escape.

he would not die at all.

Therefore, Zhang Shan was not worried at all about the monster attack at night.

His only target was the BOSS.

Zhang Shan only wanted to kill a few more bosses.

he wanted to see if he could get his hands on a divine weapon and a skill book.

Or maybe he could add a passive skill.

As for fighting with others?

He didn't even consider this at all.

He didn't need to think about this.

If someone came looking for trouble, he would just do it.

Zhang Shan took a look at Feng Yun realm's announcement.

He continued to look for the boss.

They had been searching for two days.

There were quite a few purple and orange bosses.

However, they only found three red bosses, including the demon race's roaming Knight general.

On the other hand, they had dropped quite a lot of trash equipment.

However, there were no more valuable items. Not even one had dropped.

Of course, they didn't lose anything.

At the very least, fighting a BOSS was better than farming monsters in the Geri wasteland.

No matter how trashy the BOSS's equipment was, it was still a piece of trash.

They could also be sold for a small amount of money.

It was much better than killing small monsters.

furthermore, the boss's experience points were pretty good.

In the past two days, they had fought quite a few trash bosses.

Zhang Shan's level had increased by almost half a level.

After reaching level 50, each level up required a huge amount of experience.

Even for Zhang Shan and the rest, their farming speed was extremely fast.

He estimated that it would take about ten days to level up once.

Now, they had only fought the boss for two days, and they had already gained half a level of experience.

This efficiency could be said to be very fast.

At around six O'clock, they fought two more mini-bosses.

The little fairy said gloomily.

"It's time to eat. We've been fighting for two days, and there's nothing good."

"it's alright. at least i didn't lose out."

"Look at you, are you satisfied that you didn't suffer any losses?"

f * ck, I want a divine weapon too, but we can't even find a few red bosses. Where are we going to find a divine weapon mold? "

Zhang Shan looked at the time. It was almost 6:30.

It was almost seven o'clock when they finished eating.

according to feng yun realm, everyone should gather at heaven's gate at half past seven.

there was not much time left.

He still had to go back and make more fool's bombs.

Zhang Shan said to his friends.

"forget it, let's stop here for now. Let's go back first. There's still a monster attack at night. After dinner, I'll make some bombs and stop looking for the BOSS."

"ah, you're not doing it anymore? there's still a long way to go before the event starts. we can still look for bosses, right?"

"forget it, i'm done. After you guys finish eating, go and kill some monsters. I still have to make some fool's bombs."

"Alright, let's go back first."

The Little Friend didn't argue anymore.

After all, time was running out.

Even if they continued to look for the BOSS after the meal, it would not take long.

In such a short time, there was a high chance that they would not even find a small BOSS.

Furthermore, Zhang Shan's return to make a bomb was also very important.

Although no one said it, they all knew.

Tonight's monster attack was not that simple.

They would definitely fight with the others.

It was just that no one knew the specifics and to what extent.

It was necessary for Zhang Shan to make more fool's bombs to increase the combat power of the Guild members.

After returning to Dangyang city, he immediately went offline in the city.

Zhang Shan consciously ran to Yu Qingqing's house next door to eat.

Boss Wu's house had just been renovated.

She heard him say that he would move in before the new year.

Probably in another ten days or so.

To be honest, even if boss Wu moved in, he would not be able to move in.

zhang shan would be the same in the future. he would have a meal at yu qingqing's house.

instead of going to boss wu's house to eat.

More importantly, he was already used to eating it.

As long as Yu Qingqing did not chase him away.

He would probably continue to eat it with a thick face.

At Yu Qingqing's house, after dinner.

Zhang Shan returned to his residence and logged into the game.

He first teleported to the auction house and scanned through the various materials.

Especially the materials for making the fool's bomb.

zhang shan had bought over ten thousand copies.

It cost him a few million gold coins.

Fortunately, the materials used to make the fool's bomb were common.

The auction house had plenty of supplies.

As long as one was willing to spend money, they could buy any amount of materials.

However, since he had bought so many materials, he had to hurry up.

Although, in this game.

with a lifestyle class, creating and forging items wasn't much of a problem.

Basically, by putting the ingredients on it one by one, it would be completed in the blink of an eye.

But Zhang Shan had bought a lot of materials.

He wanted to make a large number of fool's bombs.

Even if the production process was simple, it would still take a lot of time.

After his friends went online, they went to the Gerri wilderness to farm monsters.

meanwhile, after zhang shan had bought the materials.

Teleport to the Guild residence and enter the Guild workshop.

He started making fool's bombs.

He would finish all the fool's bombs first, then make other engineering products.

Zhang Shan quickly placed the ingredients on the operating table.

After the bomb was ready, he quickly put it away.

Immediately after, he placed in the next set of ingredients.

After about ten minutes of making, Zhang Shan had finally used up all the materials needed to make the fool's bomb.

Through this production, Zhang Shan's backpack had accumulated a total of more than 100000 fool's bombs.

Even if all the Guild members had one each, they would still have a surplus.

However, the bomb was made.

But how should he distribute them to the Guild members?

i can't just give it away for free.

In order to make these fool's bombs, he had spent more than six million gold coins just to buy the materials.

If he put up this batch of fool's bombs on the auction house.

It could definitely be sold for a lot of gold coins.

it would be inappropriate to give it away for free.

Zhang Shan did not want to collect money from the Guild members.

This money wasn't easy to collect.

The main problem was that it was a little too troublesome to operate.

if zhang shan were to trade with every guild member once ...

That would tire him to death.

Zhang Shan thought about it carefully for a while.

He decided to donate these fool's bombs to the Guild storage.

if he donated to the guild's warehouse, he would still get contribution points.

Even though he didn't need that many Guild contribution points right now.

Currently, Zhang Shan would only use the Guild contribution points when he was using the Guild workshop.

He usually donated one gold coin a day as a contribution.

It was enough for him to use the workshop.

However, there was no harm in preparing a few more Guild contribution points.

at least on the surface, she looked good.

Moreover, he had to donate more Guild contribution points so that his Guild could level up faster.

If he could level up the Guild to Level 5 earlier ...

Their Guild would be able to recruit twice as many people.

The more people there were, the more convenient it would be to do things.

Thinking of this, Zhang Shan left the Guild workshop and teleported to the stone tablet in front of the Guild Hall.

He donated a fool's bomb to the Guild storage.

Zhang Shan took a look.

A fool bomb could increase five Guild contribution points.

It was so f * cking cheap.

usually, they only needed to donate one gold coin to exchange for one guild contribution point.

didn't this mean ...

Zhang Shan's fool bomb, was it only worth 5 gold coins each?

This was too ridiculous.

One had to know, when Zhang Shan had hung the fool's bomb on the auction house.

He had sold each bomb for a thousand gold coins.

The Guild's warehouse was really full of traps.

But it didn't matter.

in any case, the items in the guild's warehouse would be digested internally.

Let's just treat it as him giving his guild members a wave of benefits.

After all, without the wind and cloud Guild ...

He couldn't be as successful as he was now.

Zhang Shan took out all the fool's bombs in his backpack and donated them all to the Guild's warehouse.

It had directly increased his Guild contribution points by more than 600000.

Zhang Shan took a look at the total contribution points of the wind and cloud Guild.

Right now, they had over 8000000 contribution points. They still needed more than 1000000 contribution points to reach Level 5.

Sigh, the increase in guild level was really a bottomless pit.

It would take 10 million contribution points to upgrade a level 4 Guild to Level 5.

It was a terrifying number.

By relying on personal strength, no matter how much money you spend, you will never be able to rise.

Zhang Shan had donated a total of 120000 fool's bombs just now, but he only had around 600000 contribution points.

compared to the 10000000 contribution points needed to level up the guild to level 5 ...

His contribution points were like a drizzle.

The Guild's level still had to rely on the joint efforts of all the Guild members.

Every guild member will donate one gold coin a day.

That would be 100000 Guild contribution points.

Even if they didn't donate any other items.

If each person only donated one gold coin a day, 100 days would be enough to upgrade the Guild to Level 5.

if it was just one person, that would be simply unimaginable.

Not to mention Zhang Shan, even if he changed his heart and followed me, he was a rich Big Shot.

This guild level ...

And this was only five levels.

One had to know that guilds could only level up to level 9.

It was hard to imagine how the Guild's level would increase in the future.

After Zhang Shan donated the fool's bomb, he called out to Feng Yun realm.

boss, I donated 12 fool's bombs to the Guild warehouse. You can get everyone to exchange for them.

zhang shan had just tried it out.

When he had donated the fool's bomb, each bomb was worth five contribution points.

If he wanted it, he could exchange it for the fool's bomb in the Guild warehouse, which would cost 5.5 contribution points.

Out of the blue, the system had hacked one-tenth of his account.

However, he had no choice.

the system was basically providing them with an internal trading platform.

Which platform wouldn't be hacked?

Chapter 462 Temporary Alliance

Feng Yun realm asked in surprise after receiving Zhang Shan's call.

"You made so many fool's bombs?"

Feng Yun realm knew that Zhang Shan would make fool bombs.

However, Zhang Shan had just said that he had donated more than 100000 fool's bombs to the Guild warehouse.

This made him very surprised.

This number was really a little too much.

Anything above ten thousand would not be a small number.

Not to mention fool bombs, even if it was rice that everyone often ate ...

More than 100000 grains of rice should be a lot.

That was why Feng Yun realm felt strange.

not to mention how much these fool bombs were worth.

Even the money for the materials to make the bomb would definitely be a large sum of gold.

faced with feng yun realm's surprise, zhang shan said calmly.

"I didn't look carefully, but there are about 120000."

"How much did the materials cost? I'll pay you. I shouldn't have asked you to pay so much."

Feng Yun realm said to Zhang Shan.

If it was in the past.

He would definitely take the money.

however, he was not short of money now.

Zhang Shan was guarding the demon-suppressing city, which was a money tree.

Why would he need the money for these materials?

If he wanted money, he could just put the fool's bomb up for auction. Wouldn't that make money faster and more?

Zhang Shan said to Feng Yun realm.

forget it. That bit of money is nothing. Just take it as a bonus for my brothers. Get everyone to quickly exchange for it. It'll come in handy during the event later.

“Alright, thank you.”

since zhang shan had said so, feng yun realm did not insist.

He also knew that the current Zhang Shan was not lacking in money.

It had been less than half a year since the game started.

In the game, Feng Yun realm did not know exactly how much money Zhang Shan had earned.

But it was definitely a lot.

The current Zhang Shan indeed did not care about such a small amount of money.

After talking to Feng Yun realm.

zhang shan continued to teleport to the guild workshop.

The fool bomb was done.

However, he still had to make some other engineering products.

This time, he wanted to give it a try and see if he could produce a medium-grade incendiary bomb.

If only he had the intermediate combustion bomb.

when he was fighting bosses, his damage output could be increased even more.

However, the success rate of making an engineering product for the first time was too low.

However, Zhang Shan had already prepared enough materials.

he planned to attack them directly.

After doing it a hundred times, he should be able to successfully produce it.

Zhang Shan took out a set of materials for a medium-grade incendiary bomb from his backpack and placed it on the operating table.

A moment later, a small flame burst out. It had undoubtedly failed.

Zhang Shan did not give up and continued.

As he continued to fire intermediate burning bombs, Feng Yun realm said in the Guild channel.

Big Boss six-barreled donated a large number of fool's bombs to the Guild warehouse. If you need them, go back to the Guild base and Exchange them for 5.5 contribution points. Each person can exchange for a maximum of three bombs.

After Feng Yun realm finished, a newbie asked curiously.

“What’s a fool bomb? What’s it for?”

“What’s the use of a bomb? Of course, it’s for blowing people up. Let’s go back and get three first.”

what’s the rush? just wait a little longer. We’re going back later anyway.

are you a fool? wait a little longer. Will there still be a share for you? ”

...

“What do you mean? Were there not enough bombs? Didn’t boss say that there were a large number of fool’s bombs?”

brother, do you have any misunderstanding about the word ‘large’? do you know how much a fool bomb is sold for in an auction house? ”

holy sh * t, I remember now. One of them costs 1000 gold coins in the auction house. There shouldn’t be much in the Guild’s warehouse.

even if the six-barreled boss donated the bombs, it wouldn’t be enough no matter how many there are. Our Guild has 100000 members.

“F * ck, wait for me. Leave me a few bombs.”

After Feng Yun realm had finished speaking.

A large number of guild members stopped farming monsters.

they each returned to dangyang city.

Even the newbies who didn’t know much about the fool bomb before knew that it was a good thing.

Generally speaking, it was almost impossible for good items to appear in the Guild storage.

this was because the items in the guild warehouse were all donated by guild members.

...

Under normal circumstances, who would donate good things?

Usually, other than donating one gold coin a day, they would only donate some useless materials and trash equipment.

Not many people would donate good things to the Guild storage.

Wouldn’t it be better to directly put it up for auction and sell it for gold coins?

the contribution points that were donated could not be exchanged for gold coins. they could only be exchanged for items in the guild’s warehouse.

Take the wind and cloud Guild for example.

In the Guild’s warehouse, the highest equipment was usually orange-grade. Very few people would donate red equipment to the Guild storage.

As for the work occupation products, it was almost the same.

usually, only the lowest level items would appear.

For example, ordinary bullets, small red Medicine, small blue medicine, and so on.

High-level professional products were rarely seen.

Compared to the auction house, the inventory of the Guild's items was much worse.

Now, Zhang Shan had actually donated the fool's bomb to the Guild's warehouse. How could everyone not be excited?

In the auction house, fool's bombs could be sold for 1000 gold coins each.

Now, they only needed to spend a few contribution points to exchange for it. Wouldn't that be equivalent to giving it away for free?

How could they miss such a good opportunity?

Everyone had a few Guild contribution points.

In order to prevent someone from using up all the bombs at once, he had to do this.

Feng Yun realm had specially set the exchange limit, limiting each person to only exchange three bombs.

In an instant, a large number of guild members returned to the Guild residence.

The 120,000 fool's bombs that Zhang Shan had donated were quickly redeemed by everyone.

Everyone said in the Guild channel, feeling very happy.

this is good stuff. Thank you, Big Boss six-barreled.

"Thank you, boss."

"Six-barrel boss is rich."

haha, if someone comes to cause trouble during the event later, we'll just throw a bomb.

these idiot bombs are awesome. Once they explode, a large number of them will fall.

At this moment, Zhang Shan was still there, and he continued to fire the intermediate combustion bomb.

He didn't even bother to look at everyone's thanks in the Guild channel.

Right now, Zhang Shan only wanted to make the intermediate incendiary bomb as soon as possible.

He had already made it over a hundred times.

However, he had not succeeded even once.

Damn it, this was his first time making an engineering product, and it was too difficult.

however, he didn't need to panic. he had prepared enough materials.

In this period of time, Zhang Shan had collected more than 300 sets of materials for making intermediate-level incendiary bombs.

He didn't believe that he couldn't produce a finished product with so many materials.

Zhang Shan continued with his production.

After failing more than 130 times.

he had finally succeeded.

He looked at the row of bullets on the console.

Zhang Shan was very happy. He had finally succeeded once.

The rest was easy to handle.

He put away the bullets on the console and checked them in his backpack.

[intermediate burning bullet: increases damage by 2000, and has an additional 2000 burning effect.
Lasts for three seconds.]

One successful production produced 10000 rounds of bullets.

These bullets were not bad. When he was fighting a BOSS, it would definitely increase his damage output.

He continued to do it and tried to make more.

There were only 10000 bullets now, not even enough for him to use for a few minutes.

zhang shan placed the ingredients on the operating table.

After successfully producing the first time, the first batch of gene reagents appeared.

The following production was much easier.

Even though he would often fail.

but at least, it wouldn't be like before, where he failed more than a hundred times in a row.

After Zhang Shan had used up all the materials.

He had probably succeeded in producing more than 300000 intermediate-level burning bombs.

It would be enough for him to use for a while.

After all, under normal circumstances, Zhang Shan had no use for such special bullets.

When they were fighting monsters.

Zhang Shan only needed to use normal bullets.

Anyway, it was just one shot.

There was no need to use the intermediate combustion bomb.

It was such a waste.

Even though he had made these intermediate combustion bombs himself, he was not the only one.

But he still had to spend money.

the cost of materials was not cheap.

A set of materials for a middle-grade incendiary bomb would probably cost thousands of gold coins.

It was even more expensive than the materials for the fool's bomb.

Even if he was not short of money now, there was no need to waste it.

These 300,000 intermediate burning bombs were enough for him to use for a while.

After all the required engineering products were completed.

Zhang Shan looked at the time. It was almost 7:30. There was not much time left.

He quickly left the Guild workshop.

For today's monster attack, they had agreed to gather before 7:30.

He also had to hurry over.

zhang shan came out of the workshop and appeared at the guild residence.

The entire Guild residence was silent.

From the looks of it, everyone had already gathered at heaven's gate.

zhang shan took a look at the guild channel.

It was a mess with a large number of refresh rates.

He couldn't find any useful information at the moment.

Zhang Shan only knew that they had to gather at heaven's gate.

As for where they would gather at heaven's gate, he really had no idea.

Feng Yun realm must have made some arrangements.

however, at that time, he was busy making engineering products.

He did not look at the chat channel.

perhaps he had missed out on a lot of information.

Forget it, I'll just ask someone.

Thinking of this, Zhang Shan called wind and cloud blade and asked.

"Are you all back? Where should we gather?"

f * ck, we've been back for a long time. We were just waiting for you. What took you so long? do the big shots always appear last? "

"i was making bullets just now, so it took me some time. where should i gather?"

“come over quickly, i’ll send you the coordinates.”

After saying that, Windcloud blade sent over a set of coordinates.

Zhang Shan teleported to the teleportation Hall.

Then, he was teleported to Heaven’s Gate.

They had just walked out of the teleportation Hall of Heaven’s Gate.

Zhang Shan looked out and saw that the entire Heaven’s Gate pass was filled with players.

And most of the players had a purple character name above their heads.

They were all foreign players.

Although there were also players from Chu State, they were only a small portion.

That’s strange. Shouldn’t the monsters attack outside the city? Why were these people still in the pass?

zhang shan was very confused about this.

Of course, it was one thing to be confused.

This had nothing to do with him.

On the map, Zhang Shan found the coordinates sent by wind and cloud blade.

He quickly teleported to the city gate of Heaven’s Gate.

He rode on the red Hare and ran towards the coordinates.

However, he had just stepped out of the city gate when a few injuries landed on his body.

There were players everywhere outside the city.

zhang shan did not even see who had hit him.

No wonder so many players wanted to stay in the city.

Because they couldn’t get out at all.

Otherwise, he would die without even knowing how he died.

zhang shan was very depressed after being injured for no reason.

However, as depressed as he was, he ignored it.

There were so many foreign players around. He couldn’t just kill all of them.

If that was the case, he was afraid that it would cause public anger.

Zhang Shan rode on the red hares and quickly left the city gate, running towards the gathering point of the wind cloud Guild.

along the way, there would occasionally be a few players who would jump out and attack him.

Towards these people, Zhang Shan did not hold back.

Those who dared to show their faces would be killed.

zhang shan thought as he ran.

It was so f * cking chaotic.

The monster attack had not even begun.

It was already so chaotic.

After the event started, who knew how chaotic it would be.

It was an event where players from all seven countries gathered together.

This was the first time in this game.

There was no order to it.

The members of the big guilds were still considered good.

Most of them were gathered together.

Their target was the BOSS that appeared in the event.

At least in the beginning, he would not divide his strength.

However, it was a different story for the casual players.

They were in a group of three to five people, and they couldn't beat the boss anyway.

Wasn't that to take advantage of the event to cause a lot of trouble?

The players that Zhang Shan had killed on the way earlier were all guildless players.

forget it, i'm too lazy to think about it.

I'll hit whoever hits me.

Zhang Shan ran towards the target location.

For the players who came out to cause trouble on the way.

He did not hold back and knocked them all down.

After running for two to three minutes, Zhang Shan finally reached the gathering point of the wind cloud Guild.

Zhang Shan looked over from afar.

The wind and cloud Guild's nearly 100000 members had gathered together.

They formed an enormous ring-shaped formation.

Seeing Zhang Shan running over, a guild member shouted.

"F * ck, the six-barreled boss is here."

big brother, you're awesome. How did you rush over? "

that's not nonsense. Do you think the six-barreled Big Shot is as weak as you? he naturally ran all the way here.

f * ck, there are so many foreign players on the road. When we came here together, there were people causing trouble. Six-barreled boss came here alone. Did no one cause him trouble? "

who would dare to mess with the six-barreled boss? unless they're blind.

don't worry, there will definitely be some who are blind. However, I'm guessing that they have already returned to the city for free, hehe.

sigh, when can I be like the six-barreled Big Boss and be invincible in the game? that would be great.

stop dreaming. As long as you can kill them, you'll be considered powerful against players of the same level.

"F * ck, who are you looking down on?"

Zhang Shan saw the location of wind and cloud blade and quickly ran over.

he saw zhang shan running over.

Wind and cloud blade said to him.

" just now, they were planning to go over and help you. i told you there was no need. how can those rookies stop the six-barreled boss? hehe. "

" it's not too bad. i only encountered a few waves of rookie interception along the way, not too strong. "

it's not strong for you, but it might not be the same for others.

"How did you guys get here just now? there are foreign players everywhere in and outside of Heaven's Gate pass."

Zhang Shan asked wind cloud blade curiously.

when he was running over just now, he was intercepted along the way.

Even though the players who were intercepting them were all noobs.

But there were quite a few people.

He could run over, but others might not.

how else can we come? of course, we'll be in the city. When everyone is here, we'll leave together.

Zhang Shan looked around. There were close to 100000 guild members around.

"There are so many of you, did you all come here together?"

"yeah, what else did you think?"

"Alright," he said.

Zhang Shan had nothing to say.

there were so many people in the wind and cloud guild, and they were all running away.

Of course, he wasn't afraid of being stopped on the road.

They were all together.

In the entire game, there weren't many player forces that had the ability to stop them.

as for the unspecialized noobs scattered around the city, they obviously didn't have this ability.

"What do we do next?"

Zhang Shan continued to ask wind and cloud blade.

He had come a little late and had probably missed many arrangements.

Hence, he could only ask Windcloud blade.

what else can we do? we'll just stay here and wait for the boss to kill the monsters.

"and then?"

Wasn't this nonsense?

In a monster attack, they would naturally kill monsters and bosses.

But this was not the main point of Zhang Shan's question.

He wanted to ask how to deal with it if he got into a conflict with someone else.

There were so many players in the game, and they were all mixed together for the event. There would definitely be a fight later.

"Oh, right. We're in a temporary alliance with the Wei Kingdom. Don't kill Wei Kingdom players. Of course, don't be polite if you encounter those who cause trouble."

That's right.

This was exactly what Zhang Shan wanted to hear.

He had thought that the wind cloud Guild would have to fight alone.

it seemed like feng yun realm had managed to pull in an ally.

Even though he only had one ally.

But that was not the point.

The key was that this ally was very powerful.

The Alliance with the Wei country was fake. In fact, they should be forming an alliance with the war god Guild.

With the war god Guild, a temporary ally, there.

When the fight broke out later, the pressure on them should be much less.

“Do you know where the people from Guild Subjugator are? Are they far from us?”

Zhang Shan continued to ask wind and cloud blade.

To be honest, he didn’t care about other people.

It was mainly because of the domineering King, this iron-headed kid.

He had to be careful.

Because this was their arch-enemy.

Moreover, they were very powerful enemies.

Millions of players followed behind Subjugator’s butt at every turn. It was not easy to deal with them.

“Don’t worry. The people from Guild Subjugator are far away from us. After all, it’s a monster attack. Everyone’s goal is the same, to fight the BOSS. Under normal circumstances, they shouldn’t have the time to come and cause trouble.”

Hearing this, Zhang Shan felt a little strange.

could it be that the tyrant king had changed his personality?

This didn’t make sense.

This was such a good opportunity, so why didn’t the domineering King come and try it out?

He actually went to a place far away from the wind and cloud Guild?

However, after thinking about it carefully, it made sense.

No matter how much he wanted to cause trouble, he still had to fight the boss.

What else could they do if they did not fight bosses during the event?

If they didn’t fight the boss and instead came to find trouble with the wind and cloud Guild.

Even if domineering King was willing, the other members of domineering aura would not be willing.

everyone was waiting for the boss to drop the divine weapon mold.

Usually, he couldn’t even find a boss.

Instead of taking advantage of the monster siege to fight more bosses, he was going to cause trouble?

Wouldn’t the people from Guild domineering aura cause a ruckus?

Compared to the God equipment, the little bit of hatred he had with the wind and cloud Guild was nothing.

Of course, there was a prerequisite.

When the event started, there would be enough bosses.

There had to be enough bosses for everyone to fight.

If there weren't enough bosses ...

Then it was useless to say anything more.

even if they didn't have any grudges against each other, they would still fight for the boss.

not to mention, their hatred was as deep as the sea.

As long as they were fighting a boss and there was no boss to fight on the other side of the Guild.

They would definitely come here.

Now, they just had to wait and see if they could farm the BOSS properly when the event started.

He hoped that there would be enough bosses during the event.

Zhang Shan did not want to have to deal with the harassment of other players while he was holding the BOSS.

That would be too troublesome.

Zhang Shan was not. He was worried that he would not be able to handle it.

He was afraid that he would be too busy.

Chapter 463 Using a knife to reason

with zhang shan's arrival.

The Guild members participating in the monster siege event had basically all arrived.

the guild members who hadn't arrived yet probably wouldn't be able to make it.

There were foreign players everywhere outside the city.

If there was no one to help.

It was very difficult for ordinary people to run all the way here from Heaven's Gate.

this was also the reason why zhang shan could see a large number of players in heaven's gate pass.

it wasn't that they didn't want to come out of the city.

instead, he couldn't get out at all.

If one or two of them came out, they would die.

Moreover, he didn't even know how he died.

They stayed in the city, probably waiting for someone.

When there were more people, they would leave the city together.

That way, it would be safer.

This was how the people from the wind and cloud Guild had come over.

Zhang Shan believed that the other player factions would also leave the city in this manner.

They didn't care which Guild you were from.

They saw the foreign players attacking.

Even when Zhang Shan ran over, he was attacked several times.

When the others ran over, it was even more so.

It would be strange if he didn't get hit by a few waves on the road.

It was impossible for a person without strength to charge out alone.

He would definitely die on the way.

Zhang Shan stood beside wind and cloud blade, quietly waiting for the monster siege to begin.

He looked at the time. It was only half-past seven.

There was still about half an hour before the event started.

He said to wind cloud blade.

there's still half an hour before the event starts. Are we just going to stand here and wait for such a long time? "

"What else can we do? You're not thinking of killing people, are you?"

wind cloud blade's words left zhang shan speechless.

Was he someone who liked to stir up trouble?

Zhang Shan was a pacifist. If he could avoid fighting, he would never take the initiative to cause trouble.

he just felt bored.

There was still half an hour to go before the event started.

They had nearly 100000 people. Could they only wait like idiots? couldn't they find something else to do?

Even if he had to find a place to kill some monsters, it would still be good.

Although they were not far from the city gate and there were no monsters to kill, they were still in the city.

However, he could run a little further and farm some monsters first. He could just come back when the event was about to start.

" it's so boring to kill so many people. why don't we go and kill some monsters first? it's too boring to just wait here. "

let's not. Everyone's staying here. If we run away, it'll be too inappropriate.

Zhang Shan thought about it and agreed.

It was not easy for Feng Yun realm to gather everyone together.

He couldn't lead them astray.

Otherwise, he would have gone to farm some monsters.

Why can't others do the same?

If that was the case, what else could Feng Yun realm do? he would have to bring along his brothers.

Thinking of this, Zhang Shan could only continue to stay put.

Wait for half an hour, then let's wait slowly.

time slowly passed.

The players who were originally in the city had also formed into different groups and left the city.

As for the casual players who were causing trouble, they slowly retreated.

The area outside the city had become the main battlefield for the various guilds and players.

...

Those solo players could deal with some lone players.

They could no longer cause any trouble when faced with the player factions that banded together.

after being cleaned up, some of them also formed small teams and found a place to stay.

some people simply went to find a place to farm monsters.

More and more players left the city.

Around the wind and cloud Guild, there were also many player forces that slowly came.

On their left and right, there was a player guild each. They gathered there in groups, waiting for the event to start.

however, feng yun realm did not care.

As long as others didn't cause trouble.

the wind and cloud guild would not take the initiative to clear the field.

In fact, they couldn't clear the area.

...

This was how the monster siege was going to be played.

All the online players were gathered together.

Even Subjugator probably wouldn't have the guts to clear the area, let alone the wind cloud Guild.

that was an act of courting death.

that would offend everyone.

Who would dare to do that?

Everyone could only guard their own territory and wait for the event to begin.

After the event started, they just had to guard their own territory and farm monsters.

as for the BOSS, there was nothing he could do about it.

They definitely had to snatch it.

[system notification: the monster attack will begin in five minutes. Please be prepared.]

Seeing the system notification, Zhang Shan heaved a long sigh of relief.

Damn, it was finally starting.

He was getting a little annoyed from waiting.

After another five minutes, the war drums in the distance started to beat, and the horn sounded.

The monster siege had finally begun.

Zhang Shan looked into the distance. He was waiting for the monster to come.

However, after looking around for a long time, he still didn't see any signs of monsters charging over from the distance.

This made Zhang Shan a little confused.

after the start of the monster attack, it shouldn't have been a large mass of wild monsters.

Was it like a tide?

Where are these f * cking wild monsters?

where did the wild monsters go?

If there were no wild monsters, what was the point of having a monster attack?

Just as Zhang Shan was still scratching his head.

he suddenly saw that the guild members in front of him seemed to be in chaos.

It seemed like they were attacked by something?

Countless question marks appeared above Zhang Shan's head.

With so many of them gathered together, who would dare to attack them?

at this moment, the guild channel was in chaos.

f * ck, someone come quickly. A large group of wild monsters are brushing against my face.

“There’s a BOSS, come quickly.”

“where is the BOSS? How come I didn’t see it?”

quickly send reinforcements. The BOSS is in the middle of the monsters.

“What the hell are you guys talking about? I don’t understand a single word.”

“What happened? Where are the monsters and bosses?”

Zhang Shan was also very confused.

He didn’t even see a single monster, let alone a BOSS.

Why was it that in the Guild channel, some people said that they had seen a large group of monsters, while others said that they had seen a BOSS?

What the f * ck, weren’t they all in the same plane?

he only saw that there seemed to be chaos among the guild members in the distance.

However, they had close to 100000 people.

It occupied a very large area.

Zhang Shan could not even see what was happening in the distance.

Feng Yun realm was also standing beside Zhang Shan.

He didn’t really understand.

The Guild channel was in chaos, and everyone was talking about their own things.

however, there was not a single piece of useful information.

Feng Yun realm said in the Guild channel.

“don’t brush the channel, speak one by one. What exactly happened? Where are the monsters and bosses?”

boss, the monster attack this time might be the same as the previous boss in the city. It’s all the same BOSS with a large group of small monsters. I’ve just spawned a BOSS with a large group of wild monsters.

seeing this, zhang shan finally understood.

no wonder he didn’t see any monsters.

It turned out that there weren’t many wild monsters.

Just like before, when the game had just started, the monster attack event had been to fight the BOSS in the city.

A BOSS with a large number of monsters respawned all over the city.

Bosses should have spawned in those chaotic places.

Feng Yun realm finally understood what had happened.

He said in the Guild channel.

“Don’t panic. Everyone, form your own teams to fight the BOSS. If you can’t beat the BOSS, make way.”

feng yun realm said in the guild channel.

He then said to Zhang Shan and the rest.

“Let’s find a BOSS to fight too.”

“Let’s go, let’s get the BOSS.”

After Feng Yun realm finished speaking, the entire Feng Yun Guild, which was a large team of nearly 100000 players, quickly broke down into countless small teams.

Then, a few small groups that appeared nearby worked together and started to fight the BOSS.

As for the others, they started to spread out.

Since it wasn’t a sea of small monsters charging over ...

Then, there was no need for them to continue to form a large team.

It was better to split up into small teams and fight the boss on their own.

Zhang Shan rode his horse with Feng Yun realm and circled around the territory that the Feng Yun Guild occupied.

however, they were embarrassed to find that they had no boss to fight.

in the wind and cloud guild’s territory, a total of three bosses spawned.

All three of them were level 60 red bosses, and they were very powerful.

However, there were also many players in the Guild.

After these three bosses spawned, they were killed.

They were already surrounded and attacked by the members of other guilds.

This made Zhang Shan’s team very embarrassed.

Since their own people were fighting the BOSS, they couldn’t just interfere.

It’s not like others can’t beat him.

That was if the Guild members could not defeat the BOSS.

That's fine.

If he couldn't beat them, he would step aside and let someone who could beat him fight.

But the problem was that other people seemed to be able to beat him too.

With so many people around, even without Zhang Shan's team, the others would be able to take down the normal red BOSS.

The problem was, what would Zhang Shan and the rest do?

He couldn't just stand by and watch.

In fact, they weren't the only ones who didn't have a boss to fight.

There were quite a few people in the Guild who didn't have bosses to fight.

after all, only three bosses had spawned in their territory. it was not enough to split among them.

the others who were not fighting the boss quickly spread out.

If the bosses in their own territory weren't enough, they would fight the bosses of others.

The law of the jungle had been the law since ancient times.

Around them, there were guilds from other countries.

Zhang Shan and the rest did not rush over blindly.

They had to kill the BOSS, but they had to have some skills.

It would be best if they could get the BOSS and make others speechless.

To put it bluntly, he had to be responsible and upright.

Zhang Shan followed Feng Yun realm on his horse and looked around.

Windcloud blade said anxiously.

boss, what's there to see? just find a random BOSS, we'll just rush over, and we'll be done.

yeah, the event time is limited. If we don't hurry up, we won't be able to fight many bosses.

"No rush, let's look around first."

feng yun realm said calmly.

In fact, he was also very anxious. The others were fighting the BOSS.

With their team, they wouldn't be able to find a BOSS to fight.

How could Feng Yun realm not be anxious?

However, Feng Yun realm was someone who cared about his reputation.

He couldn't just rush over like this and steal someone else's boss.

Of course, everyone knew what Feng Yun realm was thinking.

Otherwise, what was the point of waiting?

around them, there were people fighting bosses everywhere.

They just had to rush over and kill him.

He could easily beat one.

However, Feng Yun realm wanted to save face so they had no choice.

He could only feel anxious.

Zhang Shan was also a little anxious. He rode his horse around the area.

Suddenly, he saw a group of players from the state of Zheng running away madly. A BOSS was chasing after them.

whenever the BOSS caught up with one, it would kill one.

In an instant, the BOSS had cut down a few players.

Haha, this group of noobs actually wanted to fight the BOSS.

Zhang Shan could not help but laugh out loud when he saw this.

He rode his horse and charged towards the BOSS.

This couldn't be considered as him stealing the BOSS, right?

If he took over a BOSS that others couldn't defeat ...

Not only did he not steal the BOSS, but he had also saved their lives.

After killing the BOSS, he could also do some good deeds. It was simply perfect.

Zhang Shan shouted on the team channel as he rushed towards the BOSS.

come to my side, there's a group of lowly beings here who are being chased by the BOSS.

f * ck, Didn't I tell you? not everyone can defeat the BOSS. It'll be here soon.

After Zhang Shan finished speaking, Feng Yun realm led the rest of the team and quickly followed.

Zhang Shan galloped forward and quickly caught up with the BOSS that was chasing after the players from the state of Zheng.

he rode on the red hare and fired continuously.

The BOSS was immediately drawn over.

Very quickly, Feng Yun realm and the others arrived.

Just as they were surrounding the BOSS and preparing to quickly destroy the BOSS ...

The group of players from the state of Zheng who had been chased by the BOSS ran back.

the leader of the group shouted at feng yun realm.

“Does the wind cloud Guild only know how to steal other people’s bosses?”

Zhang Shan, who was tanking the BOSS’s damage and continuously dealing damage, heard the players from the state of Zheng say this.

He couldn’t help but be stunned.

‘F * ck, I saved your lives, and you don’t even say a word of thanks. Forget it.’

They had even turned around and accused them of stealing the boss.

This was the first time he had seen such a piece of trash after playing the game for so long.

Before Zhang Shan could say anything, wind and cloud blade, who was swinging his axe and preparing to attack the boss, could not help but shout.

“What the f * ck are you shouting for? if you don’t want to die, get lost.”

The boss was attacked by the players from the state of Zheng.

However, they couldn’t beat the boss and were being chased by it. This was something that everyone had seen.

these people actually made bogus accusations. they probably didn’t know how the word ‘death’ was written.

They didn’t want to steal the BOSS.

so what if they really stole the BOSS?

Not to mention that the Zheng players were from the opposing faction.

In the game, if there was a chance, they would snatch the BOSS of the players in their own camp without hesitation.

Following Feng Yun realm, they were already considered to have followed the rules.

” you trash from the wind and cloud guild. do you think you’re so great just because you have some stinky money? you only know how to bully us civilian players. ”

When Zhang Shan heard this, he could not help but be angry.

To be able to reason in such a crooked way, he could be considered to have learned something new.

Since that was the case, what else was there to say?

It was done.

Zhang Shan took a look. Those people were not far from him, just within his shooting range.

As he thought of this, Zhang Shan took the damage from the boss and fired a shot at the same time, directly killing a large number of Zheng players.

He told Feng Yun realm.

why are you talking nonsense with them? just kill them all. After killing these trash, we can fight the boss.

Zhang Shan wanted to pull the boss's aggro, and it was really not convenient for him to leave.

he could only fire from where he was, killing a few players from the state of zheng who were nearby.

Otherwise, he would have charged over and killed all the players from the state of Zheng.

Feng Yun realm did not want to continue talking nonsense with the players from the state of Zheng.

when you meet an unreasonable person, don't reason with them.

If he wanted to talk about it, he would talk about it with a big knife.

Feng Yun realm said as he waved his hand.

"Let's kill the players first, then we'll fight the BOSS,"

after feng yun realm had finished speaking, other than zhang shan who was still pulling the BOSS.

The other 49 people in the team.

He quickly charged towards the group of Zheng players.

Originally, after Zhang Shan had knocked down a few people.

They wanted to continue scolding.

in the end, he saw feng yun realm rushing over with his men.

The remaining players from the state of Zheng wanted to run away.

However, their little white horses ...

in front of the big bosses of the wind and cloud guild, how could he escape?

Feng Yun realm and his men quickly caught up to the group of players from the state of Zheng and wiped them out.

The world was quiet.

After Feng Yun realm led his men to chase after them.

Zhang Shan was alone, taking on the boss's damage and attacking non-stop.

It was a level 60 red boss.

He didn't need the support to heal him, and he could completely withstand it.

At least, that was the case in the beginning.

As Zhang Shan attacked, he checked the boss's attributes and skills.

[demonic Spearman commander (red): level 60, attack 24000, HP 250 million]

Skill 1, iron-blood spear technique, skill 2, fixed Army spear, skill 3, spear concentration (passive), skill 4, spear forest.

[iron-blood spear technique: the demon Spearman commander has comprehended the iron-blood spear technique after a long period of battle. It increases damage by 100%.]

[Army-stabilizing spear: when the spear of the demon Spearman commander is thrust out, the target will be fixed in place, unable to move, and will be bleeding.]

loses 10% of health points every second for 6 seconds.

[marksmanship concentration (passive): the demon Spearman commander focuses on marksmanship. When it attacks with its spear, there is a chance to trigger five times the damage.]

[spear forest: the famous ultimate skill of the demon Spearman commander. When the spear strikes out, the spear forest will appear.]

A large number of spear shadows stab around the target, dealing 500% damage.

Damage range: 50 yards. Duration: 5 seconds.

Zhang Shan took a look at the BOSS's attributes and skills.

This demon Spearman commander could only be considered a very ordinary red BOSS.

without a status skill that could increase one's attack power by 100%, zhang shan would be weak.

The damage that the demon Spearman commander had dealt to Zhang Shan was only slightly over 40000.

This little bit of damage was completely scraping his skin.

Even if Zhang Shan stood still, the demon Spearman commander would have to attack him many times before he could kill him.

however, this demon spearman commander did have a pretty good passive skill.

Marksmanship concentration was a passive skill that increased critical hit by five times.

Who knew what would happen after they killed the BOSS?

Would he give this passive skill to Zhang Shan?

He was looking forward to it.

As for the boss 'other skills, they were of no threat to Zhang Shan.

the boss's first minor skill was the normal damage doubling skill.

The second skill was also rare.

It was actually an immobilizing skill.

Zhang Shan had only seen such a skill on magic type bosses.

This was the first time he had seen a physical boss like the demonic Spearman commander with such a control-type skill.

Freeze the target for 6 seconds, and 10% bleeding effect.

It could be considered a rather powerful skill.

However, to Zhang Shan, it was just that.

He still had a few support players behind him.

This immobilizing gun skill only said that it could immobilize people, but it didn't say that they couldn't be healed.

After Zhang Shan was frozen, if there was a support behind him to heal him ...

How could Zhang Shan possibly die?

The BOSS's ultimate skill was also very ordinary.

damage range of 50 yards, 5x damage, lasts for five seconds.

This ultimate skill was considered relatively strong among ordinary red bosses.

however, the basic attack power of the demon spearman commander was too low.

No matter how strong the ultimate skill was, it couldn't deal much damage when it was used.

The demon Spearman commander only had a base attack power of 24000.

Five times the damage could only deal around 100000 damage.

Even if Zhang Shan took all the damage, a five-second ultimate would at most deal 600000 damage.

Zhang Shan did not even need to use his ultimate skill. With his own health, he could completely withstand it.

Not long after Zhang Shan had pulled the boss.

Feng Yun realm led his men and wiped out all the players from the state of Zheng.

They continued to attack the demon Spearman commander.

Chapter 464 You snatch mine, I snatch his

After killing all the Zheng players.

Windcloud blade cursed as he swung his axe at the BOSS.

"what the f * ck, there are actually such disgusting people."

“brother, don’t be so excited. there are all kinds of birds in a big forest. Not to mention that there are more than 300 million players in the game. Isn’t it normal to encounter a bunch of disgusting trash?”

“that’s true, but it’s rare to see such a disgusting piece of trash.”

yeah, we did save their lives. Not only did they not thank us, but they even accused us of stealing their boss.

“I’ll remember this bunch of trash. I’ll cut them down every time I see them.”

“Haha, you’ll have to be able to touch them first,”

“There are too many players in this game. Unless there’s a reward, the chances of meeting them again are not high.”

if we encounter that group of trash, the next time we see players from the state of Zheng, we’ll kill them. F * ck, that’s too disgusting.

don’t mind it. It’s not right to kill people randomly. You have to kill them in a targeted way.

“if it were up to me, we should have just stolen the boss and done it. It was normal to be scolded for stealing bosses. It’s so annoying to be scolded for not stealing the boss.”

hehe, that’s a good idea. After we finish this one, we’ll go and snatch the next one. It’s best if we can snatch the one that the others are about to kill.

“Come on, can’t you guys be a little more shameless?”

“What is a face? Can I exchange it for a divine artifact?”

haha, with your old face, don’t even think about changing to a divine weapon. It’s a bit forced to change to a normal equipment.

“Stop talking nonsense and focus on the BOSS.”

As everyone joined in the attack, the health bar of the demonic pikeman commander dropped rapidly.

The BOSS only had 250 million HP. To them, it would only take a few minutes.

However, they had to do it quickly.

after killing this BOSS, they had to find the next one.

After all, there was a limit to how long the monster siege could last.

He only had an hour.

If he didn’t take advantage of the event time to fight a few more bosses ...

Normally, they couldn’t even find a boss even if they wanted to.

Moreover, there would definitely be a Big Boss at the end of the event.

They still had to save time for the final boss.

By then, other than fighting the boss, there might be other fights to be fought.

in such a chaotic situation, when the big boss came out, the world would be turned upside down.

There probably wouldn't be a result.

Everyone was mentally prepared for this.

Therefore, they had to take advantage of the fact that the big boss had not yet respawned.

hurry up and kill a few more, they were just normal red bosses.

Even though a normal red BOSS would not drop anything good, it was still a red boss.

However, as long as they fought enough, there might be times when they were lucky.

Under everyone's continuous attacks, they quickly reduced the demon Spearman commander's HP to 80%.

When the BOSS's health dropped to 80% ...

The demon Spearman commander thrust his spear straight at Zhang Shan, holding him in place.

He was also losing more than 60000 HP per second.

However, this did not affect Zhang Shan at all.

The demon race's Spearman commander's fixed Army spear skill could only freeze people in place and add a bleeding effect.

There were no other side effects.

This skill might be difficult for other players to deal with.

After all, he couldn't adjust his position after being fixed in place.

But to Zhang Shan, it did not affect him at all.

In any case, he was just standing still and dealing damage. He didn't need to move at all, he just had to take it head-on.

Furthermore, after being hit by the pistol skill, Zhang Shan could still shoot and attack, and it would not affect his damage output.

As long as he could still attack, the bleeding effect was nothing.

He could basically suck it back by relying on his own blood.

The boss's fixed Army gun skill was only targeted at Zhang Shan, who was tanking the damage. The rest of them continued to attack as usual.

After seeing Zhang Shan's skill, a few of the team's supports had wanted to heal him.

However, when he saw Zhang Shan, he continued to attack and suck blood.

...

They could be completely self-sufficient.

They did not turn around to heal Zhang Shan, but continued to attack the BOSS.

In their team, including Mr. Wu, there were a total of six support classes.

Three Taoist priests and three witch doctors.

But now, he didn't need any support at all.

Zhang Shan could handle the BOSS's damage on his own.

When fighting a BOSS, if you didn't need a support to heal you ...

That would be awkward for the support.

They couldn't just sit back and do nothing.

Therefore, they had no choice but to attack the BOSS together.

Even though the damage of a support was limited.

...

There were very few explosive skills, and compared to mages, support skills dealt much less damage.

However, no matter how low the damage was, they still had to fight the BOSS.

He couldn't just stand by and watch.

Besides, it was good to be able to deal more damage.

After a minute or so, the demon Spearman commander's HP quickly dropped to 50%.

Feng Yun realm said.

"Let's retreat first."

everyone retreated with practiced movements.

The members of their boss-fighting team were basically stable.

Everyone had followed Zhang Shan and fought many bosses.

Every time the BOSS's HP was reduced to half, everyone would retreat.

zhang shan was left alone to tank the BOSS's ultimate attack.

After their big moves were over, they would come up and deal damage.

The wind cloud Guild had Zhang Shan.

Compared to other guilds, the difficulty of fighting bosses couldn't be any easier.

The rest of them were like robots that dealt damage.

As long as Zhang Shan had pulled the BOSS steadily, he could go forward and deal a wave of damage.

He didn't even need to operate it.

As for those bosses that even Zhang Shan could not handle ...

Then don't even think about it.

They definitely wouldn't be able to kill that kind of BOSS.

After everyone retreated with practiced movements.

Zhang Shan was alone, attacking the BOSS non-stop.

The bullet shot out quickly.

Very quickly, the demon Spearman commander's HP was reduced to half.

When his HP dropped to 50%.

The spear commander of the devil race thrust his long spear toward the sky.

In an instant, the sky was filled with a rain of Spears.

Countless spear shadows, with Zhang Shan as the center, continued to stab down.

More than 100000 damage points appeared above Zhang Shan's head.

However, this little bit of damage was not a big problem.

Zhang Shan did not even want to use his ultimate move.

Just like that, he withstood the BOSS's ultimate skill and kept firing.

The BOSS's ultimate skill could take out more than 100000 HP per second.

However, Zhang Shan's damage output was much higher than that of a BOSS.

With Zhang Shan's attack power of 110 thousand.

after deducting the BOSS's holy demon's protection state, the boss's body was covered in blood.

It was about the same, able to deal 50000 damage.

The most important thing was that Zhang Shan's attack speed was extremely fast.

He could fire two to three shots per second.

And this was just regular damage.

that was if zhang shan went all out.

the damage he dealt would be multiplied.

Even if it was a regular damage output.

zhang shan could also deal more than 100000 damage per second.

According to the 25% lifesteal ratio.

He could recover 30000 to 40000 HP per second.

With his total HP of 65.

Tanking the damage from the BOSS's ultimate skill was a piece of cake.

Of course, he didn't need to use his big move.

Moreover, if he used his ultimate move now ...

What would they do when they fought the big BOSS?

Zhang Shan's God's descent was still very precious, and he could not use it casually.

He still wanted to save it for the final BOSS of the event.

He didn't need to be too serious when dealing with a normal red BOSS like the demonic Spearman commander.

They just needed to play faster.

for zhang shan, a normal red BOSS could be easily defeated.

Needless to say, they had a powerful team of fifty people on the scene.

Even if it was just Zhang Shan and the other four, they would be able to take down a level 60 red boss easily.

the five of them could easily destroy the general of the demon race's roaming cavalry.

For a weak boss like the Spearman commander, it would be easy to kill it.

The five-second duration of the ultimate skill quickly passed.

The others quickly rode forward on their horses and continued to attack.

hurry up. I heard that it's already chaotic. There's killing everywhere.

"that's for sure. there aren't enough bosses to fight, so it'd be strange if there wasn't chaos."

sigh, the game producers are so stingy. Why didn't more bosses appear? everyone has to fight for the bosses.

" maybe the goal of the game producers is to make the players fight. "

that's probably the case. As the player's level increases, the game will guide the player more towards PK.

"That's right. Otherwise, why would there be a battle mount system?"

that's right. The battle mount system is meant for fighting. We don't even need to use battle mounts when we're farming monsters and fighting bosses.

"Hurry up and do it. I don't think we'll be able to fight the BOSS later. We'll have to fight."

then we really have to hurry up. If we don't find out that there are no more bosses to fight after we've killed this BOSS, it'll be a waste of time.

"Don't worry, no one can beat us."

do it quickly. Don't save on those with skills. Let's finish this one quickly.

Zhang Shan heard his teammate say this.

They also quickly went all out.

He activated both berserk and fanatic skills, and at the same time, he activated shadow clone.

The three Zhang Shan's stood in a line. Bullets rained down on the demon Spearman commander.

sigh, every time I see the damage done by the six-barreled boss, I can only be envious. He's too f * cking strong.

brother, you can't be envious. Just pick up your small blade and slowly cut it.

when I gather all nine divine artifacts, I'll be as strong as the six-barreled boss.

dream on. You should get your hands on the first divine weapon first.

"Can't you let me think about it? Why do you have to expose me?"

hehe, it's my fault. I shouldn't have interrupted your sweet dream. But you should hurry up and kill the BOSS.

"F * ck, did you take the wrong medicine? are you just standing there and chatting? Hurry up and attack the BOSS."

Under everyone's continuous attacks, the demon Spearman commander's HP was quickly reduced.

Zhang Shan looked at the speed of the BOSS's health loss and quickly summoned the Panda bear dumpling.

He controlled the Panda ball to move forward.

When the demon Spearman commander's HP was emptied ...

Zhang Shan saw the opportunity and controlled the Panda bear, using a combo skill.

The demon Spearman commander exploded with a single blow.

Right now, Zhang Shan was already very familiar with controlling the Panda bear to grab the last kill.

There were very few mistakes.

After the BOSS was killed, a system announcement sounded.

≪ system announcement: congratulations to Feng Yun realm, six-barreled Bodhisattva, and heart follows me Pixiu for killing the demonic Spearman commander. ≫

Skill point +1, medal +100.

“F * ck, this is still the first kill? This demon Spearman commander, hasn’t he been beaten up before?”

I don’t think so. I’ve never heard of such a BOSS before.

maybe it’s the first BOSS that appeared in this monster attack.

I think so. I just saw a few other red bosses. They’re all demon spearmen commanders.

“Is this the case?”

“Yes, I am.”

the demons really don’t know how to pair up. What’s the use of just spearmen? they should at least have some weapons, hehe.

“Damn it, you’re still thinking about the combination of military arms? Do you think you’re playing with the heroes of the Three Kingdoms?”

“Haha, I was just joking.”

continue. Let’s find the next BOSS.

yes, we only used three minutes just now. At this speed, we can kill ten bosses in half an hour.

“Ten? Just thinking about it makes me excited. Hurry up.”

After they killed the first boss, they quickly looked for the next one before they even distributed the equipment.

Time was limited, so he had to make the best use of it.

It was rare to see such a good opportunity to fight a boss.

Normally, they would be looking for bosses in the Heaven’s Gate map.

They might not even encounter a red boss even after running for an entire day.

The monster siege event will last for one hour.

That is, if they keep on fighting the demon Spearman commander.

He could kill about 20 of them.

Even a normal red boss would not drop anything good.

However, if he accumulated 20 of them, he would at least be able to get something.

Thinking of this, everyone started running quickly.

They began to search for a new target.

When Zhang Shan and the rest had defeated the demon’s pikeman commander, the other players in the game had seen the system announcement.

originally, many players were trying their best to fight the BOSS.

However, after seeing the system announcement ...

They instantly felt that the BOSS they were fighting wasn't as good as before.

Damn, it was the same BOSS.

Why was it that when they had just started fighting, the wind and cloud Guild had already ended?

This speed was way too fast.

The monster attack had only started three minutes ago.

The wind and cloud Guild had defeated a BOSS in such a short time.

In that case, wouldn't the wind and cloud Guild have to defeat 20 bosses during the entire event?

This was too ruthless.

There weren't enough bosses for everyone to fight.

with the wind and cloud guild's speed, they were extremely fast.

That would be even less of a challenge.

the world channel:

"F * ck, the wind and cloud Guild has already defeated the BOSS so quickly? We've only just taken out 20% of our health."

what are you shouting for? hurry up and fight. Be careful that the people from wind and cloud Guild will come and steal your BOSS, hehe.

"F * ck, is the difference between people that big?"

"Don't be a human in the game, you're a player, thank you."

I just don't understand how they could defeat a BOSS with 250 million HP so quickly. Even if hundreds of people fought it together, they wouldn't be able to defeat it so quickly.

brother, don't even think about it. With the six-barreled Bodhisattva around, anything is possible.

" that's true. with six-barreled bodhisattva around, i'd believe that even the BOSS would be instantly killed. "

"Haha, Insta-killing the BOSS is not too bad."

f * ck, why did you guys from the domineering aura steal our boss? I've been fighting for half a day.

what are you talking about? so what if I stole your boss? if I didn't steal your boss, I would have come here for nothing.

originally, the world channel was filled with discussions about the speed of the wind and cloud guild's boss fighting.

this was because guild tyrannical ambition's boss-stealing actions had suddenly become chaotic.

in fact, after the start of the monster attack, the players in the city were all shocked.

There were boss fights everywhere.

Many players were complaining in the world Channel that the boss had been stolen by someone.

There were even people who posted on the game forum.

however, there had been too many instances of stealing bosses.

No one would pay attention to this.

everyone just prayed that it wouldn't be snatched from their heads.

Stealing other people's bosses is none of my business.

perhaps, he would also have to go and snatch it later.

After all, there were only a limited number of active bosses.

If you didn't steal from others, there wouldn't be so many bosses for you to fight.

wasn't it just like you snatching mine and i snatching his?

As for whether or not they would be able to snatch it, that would depend on their strength and luck.

those who had the strength could snatch it, and those who had the luck would do as well.

He might not even be discovered if he secretly killed a BOSS.

Zhang Shan and the rest, after defeating a BOSS, began to search for their next target.

This time, Feng Yun realm did not care anymore.

They just needed to find a BOSS.

Who cared if there was anyone there? they were still fighting.

As long as it wasn't their own people fighting the bosses, they could just steal the bosses from other countries.

Of course, they couldn't Rob the Wei players.

They were their temporary allies.

Under Feng Yun realm's lead, they only ran a few steps before they saw a place not far away.

A group of Qi players was fighting a BOSS.

They quickly rushed over.

When they saw Feng Yun realm, they rushed over with their men.

The group of Qi Kingdom players instantly panicked.

they were already having a hard time fighting the BOSS.

They had just managed to stabilize the situation.

How could they not panic when they encountered someone from the wind and cloud Guild who was trying to steal a BOSS?

Seeing Zhang Shan and the others rushing over, a Qi player shouted.

“Boss, don’t kill him. I’ll let you have the boss.”

After the Qi player finished speaking, he rode away with his men.

And the BOSS that no one was pulling was still chasing after them.

Zhang Shan had never seen such a scene before.

he was dumbfounded.

Zhang Shan had thought that they would need to fight and kill these people before they could fight the BOSS.

Whoever knew that he would run away immediately.

there was no sense of accomplishment in snatching this boss.

Snatching bosses, didn’t that mean killing?

killing and snatching bosses was the whole set of operations.

A boss that wasn’t killed was not considered snatching.

This can’t be.

That was someone else giving the boss to them, not snatching it.

This group of people was really tactful.

When they saw people they couldn’t beat, they would run away immediately, not even caring about the boss.

This brother had a bright future.

People who knew their own limits lived longer.

He was a hundred times more tactful than the players from the state of Zheng that they had encountered earlier.

Since the other party had already admitted defeat ...

Of course, they wouldn’t need to kill anymore.

Zhang Shan quickly rode his horse forward and intercepted the BOSS.

Under Feng Yun realm’s lead, the rest of the people also gathered around.

A group of people gathered around the BOSS.

Windcloud blade joked as he swung his axe at the BOSS.

“Why are these people so cowardly? i saw that their equipment was pretty good. why did they run away when they saw us? i thought we could have a fight.”

“What kind of fight is that? isn’t it better to fight the BOSS? It will also save us a lot of time and we can kill a few more bosses.”

the problem is that this BOSS fight is a little weird. We didn’t even kill anyone and we managed to snatch the BOSS.

“Who said we were stealing the BOSS? We were just passing by, and the others didn’t want to fight the BOSS anymore, so they let us fight it. ”

“That’s right. We didn’t steal anyone’s BOSS. They gave it to us, hehe.”

“haha, you must be kong yiji.”

“That guy just now was really tactful.”

that’s a smart person. They can’t beat us in a fight anyway, so they might as well let us have the BOSS and they can steal other people’s BOSS.

“That’s true, they’re all snatching anyway.”

“Whoever has the bigger fist will have the BOSS to fight.”

sigh, if that’s the case, then those newbie players are really pitiful. Even if they fight until the end, the BOSS will probably be snatched away by someone else.

there’s no other way. If you can’t take this blow, then don’t play the game.

“Why do I feel like we’re the bad guys?”

“Don’t say” we.”It’s fine as long as you’re the bad guy. I’m the good guy. Hehe.”

“F * ck, stop talking nonsense. Let’s hurry up. After we kill this BOSS, we still have to find the next one.”

” not bad. let’s try to kill 20 bosses today. ”

“That’s impossible. We still have to fight the final BOSS.”

“I wonder when the final BOSS will respawn.”

I really don’t know. After the update, everything will be different from the previous events.

in the past, the final BOSS would spawn 15 minutes before the event ended. It should be the same this time.

it’s hard to say. I think it will be brought forward.

yes, it should be brought forward. I feel like the purpose of the update is to let the players fight. If the BOSS respawns too late, they won’t have time to fight.

that's true. Let's hurry up and kill as many Lancer commanders as we can before the big BOSS comes out.

Chapter 465 Focus on marksmanship

the group surrounded the demon spearman commander and attacked him continuously.

Zhang Shan endured the BOSS's damage and continued to fire.

The bullets kept flying towards the Spearman commander.

However, he had already used his berserk skills when he fought a BOSS.

It was still on cooldown.

Without any explosive skills, Zhang Shan could only rely on his usual output and fire continuously.

Of course, even though it was only regular damage.

however, zhang shan's regular damage output was still very strong.

It dealt over 110000 damage in theory, and the attack speed of two to three shots per second.

Even if Zhang Shan's damage output was normal, his explosive skills were still better than others. It was many times fiercer.

Zhang Shan kept on firing his guns as he thought about it expectantly.

In this monster attack event.

The normal red bosses that appeared were all demon spearmen commanders.

If that was the case, then wouldn't he be able to obtain the passive skill that focused on marksmanship?

When he killed the BOSS just now, he didn't trigger the passive King talent.

He was a little disappointed.

initially, zhang shan had thought that he had missed out on a very good passive skill.

However, the second BOSS they were fighting now was a demon Spearman commander.

Moreover, he heard from others that during this monster attack.

All the red bosses were demon spearmen commanders.

if he didn't focus on his spear technique and got it, he would be letting down his passive king talent.

normally, the chances of getting passive skills from bosses were very high.

Moreover, the higher the level of the BOSS, the higher the possibility of triggering the passive King talent.

as for red bosses, they should just kill a few of the same BOSS.

He could trigger the passive King talent.

If they were lucky, they could trigger their talent by killing one.

As for a real-name BOSS, that was even easier.

basically, as long as they killed one, they would get a passive skill.

Anyway, Zhang Shan was the real-name BOSS that they had defeated before.

As long as it had a passive skill, he would be able to obtain a passive skill every time he killed it.

The spear technique of the demon Spearman commander focused on being passive. Zhang Shan was determined to get it.

He definitely had to get it.

in the game, what was the reward that zhang shan was most looking forward to?

that must be a passive skill.

To Zhang Shan, he liked passive skills more than divine weapons.

The reason was simple. No matter how many divine artifacts he had, it was useless.

There were limited equipment slots.

Each player could only equip a maximum of nine godly items.

With the passage of time, Zhang Shan would be able to gather all the divine weapons sooner or later.

However, a passive skill was different.

there was no upper limit to the passive skills that zhang shan had obtained through his talent.

As long as he continued to farm.

It was even possible that he could gain all the passive skills of the monsters in the game.

How many passive skills would there be?

he didn't even dare to think about it.

Of course, this was only in theory.

In reality, it was not that easy for Zhang Shan to obtain a passive skill.

There was no need to talk about the passive skills of the monsters.

It would take a long time before he could get one.

Even if it was a BOSS, it would not be easy to farm passive skills.

After all, not every BOSS had a passive skill.

Zhang Shan had fought so many bosses, but not even half of them had passive skills.

...

most bosses did not have any passive skills.

He wanted to farm skills, but there was no place to farm.

Even if it was a BOSS with a passive skill.

even after zhang shan killed them, he might not be able to get them.

If he didn't get it once.

if he wanted to do it again, it would be difficult.

He didn't have many chances to encounter the same BOSS.

In this game, the respawn rate of bosses was too random.

Therefore, in this monster attack event.

So many demon spearmen commanders had appeared at the same time, and these spearmen commanders even had a passive skill.

How could Zhang Shan not be excited?

...

This round was definitely in the bag.

If he couldn't kill one, he would kill two.

If he couldn't farm two, he would kill N.

There were so many spearmen commanders in the event.

Zhang Shan did not believe it.

He wouldn't be able to farm the passive skill focused marksmanship.

He had to get this passive skill.

With the experience from the first time, they took even less time to defeat the second BOSS.

In less than three minutes, he quickly killed the second one, the demon Spearman commander.

However, the BOSS this time was not killed by the Panda bear.

The Panda ball's combo skill had a 10-minute cooldown.

he had already used it once just now.

He estimated that he would have to fight another two or three bosses before the Panda fighter's combo skill would cool down.

Even so, the final kill on the BOSS was still snatched by Zhang Shan.

his damage was so high, and he had so many critical hits and special effects.

There was no difficulty in killing him.

It was a pity that even though he blew up the demon Spearman commander again ...

However, that marksmanship focused on passive skills, and Zhang Shan had not managed to get it.

Damn it, his luck was so bad.

However, he did not panic. There were still many bosses.

It was still early.

He still had a chance to get the next one.

after killing the BOSS, feng yun realm took a look at his inventory.

There was probably nothing eye-catching.

He said as he waved his hand.

“Let’s go and find the next BOSS.”

hurry up. We’re killing bosses faster and faster. Maybe we’ll really be able to kill ten or so Lancer commanders today.

“Let’s not talk about it anymore. Let’s hurry up.”

The second Lancer commander was killed.

Everyone quickly mounted their horses and looked for the next BOSS.

As for the items dropped by the two Lancer commanders, they had yet to begin distributing them.

But no one said anything.

There was no rush to distribute the items.

Now that he had time, he should quickly fight a few more bosses.

distributing the items now was a waste of time.

moreover, the demonic spearman commander was a normal red BOSS, so it was hard for it to drop anything good.

After defeating the BOSS twice.

Feng Yun realm had seen his inventory but he did not say anything.

Obviously, it didn’t drop the good stuff that everyone had been looking forward to.

It was probably just a few pieces of red equipment and red materials.

At most, one or two more trash skill books.

All the big shots present didn’t care about these garbage things at all.

Not to mention the divine weapon quest items and divine weapon molds.

It should at least be an ultimate skill book.

Only these two types of items could pique everyone's interest.

As for the red equipment?

There were plenty of such things in the auction house.

As long as one was willing to spend money, they could easily buy thousands of pieces.

to these big shots, items that could be bought with money were not worth looking forward to.

The monster attack had only started not long ago.

Outside the entire Heaven's Gate pass, there were boss-fighting teams everywhere.

They only ran a few steps before they found their next target.

This was a group of Qin players.

It was not a group of Qin players from Guild Subjugator, but a group of solo players.

There were quite a few of them.

There were two to three thousand people surrounding a demon Spearman commander, and they were doing their best to attack.

The boss's HP was almost reduced to half by them.

Beside them, there were over 1000 Qin players on guard.

The Qin players who were protecting them, after seeing Zhang Shan and the rest.

They quickly moved closer and raised their vigilance.

Seeing that there were a lot of Qin players, they did not rush over to fight for the BOSS.

Instead, he stopped his Mount and observed for a while.

Zhang Shan asked Feng Yun realm.

"Are we going to snatch this one or find another one?"

The reason why no one went up to fight for the BOSS was that there were too many players from the Qin country.

With Zhang Shan around, although they could deal with this group of Qin players, they could get rid of them.

It would take a lot of time.

If he had the time, he might as well search for his next target.

To Zhang Shan and the rest, what was the most important thing now?

time was the most important.

they had to kill as many bosses as possible in the shortest time possible.

He couldn't drag things out.

It was best not to waste time doing things.

"Let's go find the next one."

Feng Yun realm said to Zhang Shan after observing for a while.

Just based on their 50-man team.

it was not too difficult to deal with the qin players.

But this would take time.

everyone understood the logic.

What they needed to do now was to defeat more bosses.

He wasn't looking for a fight.

There was no future in fighting.

They didn't need to waste time on the Qin players.

Even though there was quite a bit of hatred between them and the Qin players.

normally, as long as the two sides met, they would fight.

However, at this moment, fighting the BOSS was more important.

After Feng Yun realm finished his sentence.

No one had any objections to this since there were plenty of bosses.

Even if they didn't steal the BOSS from the Qin players, they could still steal from the others.

Just as everyone turned their horses around and prepared to head in another direction to look for the BOSS ...

among the group of qin players, someone asked in a suicidal manner.

that gave me a fright. I thought we encountered a BOSS Snatcher. It turns out to be a bunch of cowards.

Hearing this, everyone was furious.

Damn it, he had originally planned to spare their lives, but he didn't expect these Qin players to be unhappy.

Originally, everyone was prepared to ride away on their horses, but they stopped again.

Windcloud blade said furiously.

“F * ck you, are you looking for death?”

“I just want to die, so what? If you have the ability, come and cut me down.”

That group of Qin players, perhaps they understood Zhang Shan and the rest’s mentality, and knew that they only wanted to fight more bosses and did not want to waste time.

Of course, the bigger possibility was that the Qin players were too arrogant.

Just because they had more people, they were so arrogant.

“Fuck.”

Faced with the provocation of the Qin players, no one could tolerate it.

Windcloud blade, on the other hand, rode on his horse and used his charge skill to slash at the players from the state of Qin.

we don’t have to look for more. Let’s just fight this Spearman commander. We’ll clear the players first before fighting the boss.

After Feng Yun realm finished speaking, he waved his staff and charged forward.

These Qin players were simply courting death.

Even the good-tempered Feng Yun realm could not tolerate it anymore.

arrogant and weak players were not rare in the game.

Now that he had encountered it, he might as well do it.

Since the boss had already rushed up.

There was no need to mention the others.

Everyone rode their horses and charged forward.

all sorts of skills were thrown at the qin players.

Zhang Shan’s horse charged at the front, along the border of the Qin players ‘line of defense, sweeping through.

As he galloped, he fired.

A large number of Qin players were beaten to the ground by him.

The other big shots in the team were also determined.

All sorts of skills were thrown at the players from the state of Qin as if they were free.

The Qin players who were on guard duty were quickly defeated.

Zhang Shan galloped his horse and charged towards the group of Qin players who were fighting the boss.

the qin players had wanted to rely on their numbers to struggle.

however, they had to deal with the boss on one side.

On the other hand, he had to defend against the attacks of Zhang Shan and the rest. He could not defend at all.

In less than half a minute, after a large number of them had been knocked down.

The remaining Qin players scattered.

He was no longer as arrogant as before.

Zhang Shan looked at the boss's health.

He was almost at half health from the Qin players.

He did not care about the players from the state of Qin and quickly rushed towards the BOSS.

He had to quickly connect the damage.

Otherwise, the BOSS's HP would have been restored very quickly.

This demon Spearman commander had almost lost half of its HP from the Qin players.

Zhang Shan did not want to waste it.

He quickly connected the damage and continued to fight.

Zhang Shan quickly pulled the BOSS and said in the team chat.

"You guys clear out the Qin players first, I'll fight the BOSS."

"Don't worry about the BOSS, leave these people to us."

haha, taking over a BOSS with half its health has saved us a lot of time.

Zhang Shan was alone, pulling the BOSS and attacking it continuously.

The others continued to clear out the Qin players.

He didn't expect to kill them all.

But at the very least, they had to drive those people away.

This was to prevent those people from coming back to cause trouble when they were fighting the BOSS.
after zhang shan took over.

He quickly reduced the BOSS's health to half.

The demon Spearman commander released his ultimate move.

Countless spear shadows descended from the sky.

However, it was of no damn use.

Zhang Shan took the damage from the BOSS's ultimate skill and was completely fine.

Not long after, the other people in the group also slowly gathered.

They had only chased them for a short distance, and they just had to chase the Qin players away.

After everyone returned, they began to focus on the gunner commander.

windcloud blade said happily as he swung his divine weapon, the battle axe, at the BOSS.

haha, this is what it means to steal a BOSS. It saves so much trouble to steal a BOSS that someone else is halfway through.

in this situation, you need to receive damage quickly. Otherwise, the BOSS 'HP will be full in an instant.

"with six-barreled boss here, this won't be a problem."

that's right. The six-barreled boss just rushed into the crowd and snatched the BOSS. It was very stable, hehe.

"Sigh, those Qin players just now were really despicable."

yeah, we were about to leave. We didn't plan to steal their boss at all. It's their fault for being so cheap.

"hehe, it's good that they're being cheap. now, we'll be able to take care of both the boss and the players in less than three minutes."

"that's for sure. we can definitely destroy a half-hp spearman commander in a minute and a half."

did you guys see the Guild channel? our Guild also has people. The BOSS has been stolen.

"i saw it, but i had no choice. Who has the time to care about that now? let's fight the BOSS first."

damn it, this monster attack is too messy.

"So what if it's chaotic? we have a BOSS to fight anyway."

"don't be so full of yourself. this is just the beginning. it'll probably be even more chaotic when we fight the final boss."

"That's right, it's not even enough to fight a normal red boss. It's even more impossible for the final boss to spawn too many."

"I hope it's not just one boss."

that's impossible. There are so many players here. If there's only one real-name boss, what's the point of fighting it? we'll just go and fight.

"Who knows? we'll know when the time comes."

After chasing away the group of Qin players.

The group of them surrounded the demon Spearman commander and attacked him continuously.

From time to time, players would pass by on their horses.

These people were probably looking for a suitable target to steal the BOSS.

However, after seeing Zhang Shan and the rest.

He didn't even slow down and just ran away.

What a joke, only they would snatch other people's share.

Who would dare to steal their BOSS?

When the other players passed by, they did not dare to stop at all, afraid that Zhang Shan and the rest would misunderstand.

To other players, this was a huge problem.

When snatching bosses, of course, they had to find the weaker ones.

Right now, the competition for bosses outside was already crazy.

There was no need to talk about ordinary guildless player teams.

even some of the wind cloud guild's players had their bosses stolen.

After the event started.

Everyone realized that the monster attack this time around was too much.

It was a BOSS with a group of small monsters, respawning all over Heaven's Gate.

It wasn't like what they had guessed.

When they thought it was still the same, a large group of monsters rushed over to attack the city.

Since the bosses were scattered around the area, they would be killed in different locations.

there was no need for the wind and cloud guild to gather together.

If their entire Guild, which had close to 100000 members, gathered together ...

How many bosses would they be able to defeat?

Therefore, they formed their own teams to fight the BOSS and scattered around the area.

this way, it would be difficult for everyone to take care of each other.

Everyone split up and fought the BOSS on their own.

Some of them had their BOSS stolen, so even if they called out on the Guild channel, there would be no guild members nearby for a while, so they could go over and rescue them.

After all, everyone was either fighting a BOSS or on the way to it.

He didn't have time to save people.

He could only rely on himself to shine.

When they saw people they couldn't beat, they would just walk away.

Others can snatch what you want, but you can also snatch what you want.

Although the number of bosses that spawned in this monster attack was a little small, the number of bosses that spawned was a little low.

However, this small number was only in comparison to the number of players.

In fact, the number of bosses was not small at all.

However, there were too many players and there were not enough bosses to split.

In fact, there were many solo parties that couldn't defeat the boss at all, so they pulled the boss and slowly whittled it down.

Even if these people were to fight until the end of the event, it would still be impossible for them to kill the boss.

To put it bluntly, there were many players who occupied the latrine pit and did not want to shit.

They pulled the boss and couldn't kill it.

They would just snatch their things and be done with it.

Zhang Shan and the rest surrounded the leader of the spearmen and attacked continuously.

It didn't take long before the boss was killed.

[system notification: your passive King talent has been triggered by killing the demonic Spearman commander.]

gained the passive skill gun focus.

Damn it, he finally got this passive skill after fighting three demon pikeman commanders.

indeed, it was better to fight for a BOSS.

If the players from the state of Qin had not been so stupid, they would not have tried to steal the BOSS.

If they didn't fight for this BOSS.

He didn't know when this passive skill would come out.

Zhang Shan opened the skill panel and looked at the skill description.

[marksmanship concentration (passive): when attacking, there is a chance to trigger 5x damage. Chance of triggering is 1%.]

It only had a 1% chance of triggering, which was far worse than the decisive strike of the demon race's roaming cavalry general.

previously, that critical hit had also dealt five times the critical damage after zhang shan had been refreshed.

However, the chance of triggering it was 2%.

but it was fine.

He couldn't ask for too much from the White ticket's passive skill.

A 1% critical hit of 5 times was already very good.

Chapter 466 The seven demon representatives

After blowing up the demon Spearman commander.

Zhang Shan was elated that he had obtained another passive skill.

In the future, he should try to get more passive skills.

when he had a few hundred passive skills, he would be invincible.

Of course, he had already obtained the passive skill.

However, they still had to continue fighting the BOSS.

The monster attack had only started less than ten minutes ago.

They still had time. They could probably take down another five or six demon spearmen commanders.

He couldn't let go of such a good opportunity to fight a BOSS.

As long as they killed enough of them, they might be able to get some good items.

Wouldn't he be rich if he dropped an item like a divine weapon mold?

Just as Zhang Shan was preparing to ride his horse to clear the way and look for the next BOSS ...

Feng Yun realm suddenly said.

I'm in luck this time. An ultimate skill book dropped.

f * ck, there's such a good thing. Let's take a look at the skill book.

haha, the BOSS is indeed stolen.

feng yun realm displayed the skill book on the party channel.

Zhang Shan took a look. This was a destructive skill book for Berserkers.

this one was not bad. in their wind and cloud guild.

There were quite a few people who played the Berserker class.

However, the only person who had managed to obtain an ultimate skill book was Windcloud blade.

no one else had ever gotten an ultimate skill book.

This time, he finally got another one.

Speaking of which, could it be that the boss would only be more fragrant if he stole from someone else?

It was the destruction skill book from wind and cloud blade.

It only dropped when they stole other people's bosses.

Last time, Zhang Shan had brought along wind cloud blade and the others to snatch a boss from the hands of the Yan country's ghostly Tiger.

Unexpectedly, it dropped a destruction skill book.

it was the same this time.

this was too much of a coincidence.

Could it be that the game producers deliberately led the players to steal other people's bosses?

Of course, Zhang Shan was just thinking about it.

The items that bosses dropped were very random.

It was hard to say what would drop before it was destroyed.

He looked at the skill book that Feng Yun realm displayed.

The Berserker in the party couldn't hold it in any longer.

They all said.

"Boss, let's roll for the skill book and split it."

"Everyone, don't fight with me. This skill book is mine."

"You're so shameless. Just because you say it's yours, will it be yours? if you want a skill book, you have to get it with your own ability."

boss, roll the dice. Let's see the reincarnation of the dice God.

then we'll split this skill book first. After we roll, we'll continue to look for the next BOSS. We'll split the other items later.

He saw how excited the Berserker in the party was.

Feng Yun realm understood their feelings.

It would be good to get an ultimate skill book even if he could get it a second earlier.

They had been waiting for the ultimate skill book for too long.

The ultimate skill book was too difficult to obtain.

they had fought so many bosses, but only a few of them had dropped.

Now that one had finally dropped, how could these people not be excited?

Feng Yun realm did not waste any more time and rolled the destruction skill book.

As for who could roll for it, that would depend on their own abilities.

In addition to wind and cloud blade, there were 12 Berserkers in their party.

...

Since blade of wind and cloud already had his ultimate skill, he naturally could not participate in the ROLL.

As for the Berserkers, after Feng Yun realm started the roll, they started to ROLL.

They rolled their dice one after another.

In the end, this destruction skill book was rolled away by a Big Shot named Feng Yun Kuang, who was also known as battleaxe.

after rolling for the skill book, feng yun kuang battleaxe laughed hysterically.

haha, I finally have a big move. I really want to fight with a group of people and test the power of my big move.

When some people were happy, there would naturally be some who were disappointed.

the other berserker players who did not get a ROLL were very depressed.

Ultimate skill books were hard to come by.

Even in the entire wind and cloud Guild, they did not have more than ten books.

Now that he had to watch the opportunity slip away in front of him, how could he not be depressed?

...

What was even more infuriating was that the Windcloud Berserker, who had rolled for the skill book, was still showing off.

He was simply sprinkling salt on their wounds.

“What are you laughing at? let’s go and find the next BOSS.”

let’s do it. I hope that I’ll meet someone who doesn’t know what’s good for me. I’ll use my ultimate move, hehe.

what the f * ck, do we need to use a big move to steal a BOSS? ”

After distributing the skill book to the wind cloud battle axe, they continued to fight the next BOSS.

As time passed ...

Under Feng Yun realm’s lead.

Their team had blown up demon spearmen commanders one after another.

In the entire event, the number of bosses did not seem to be enough.

however, every time they finished fighting.

He would be able to snatch the next one very quickly.

It felt like there were quite a few bosses. On the contrary, there was an endless number of them. There was no way to finish them.

Of course, this was just an illusion.

In fact, there were quite a number of bosses.

However, there were also many player parties that could fight bosses.

The problem was that there were many player groups.

However, if they wanted to blow up a demon Spearman commander, they would need a long time.

many player parties might not even be able to kill the boss even after an hour.

In the entire game, to be able to be like Zhang Shan and the rest ...

There were only a few teams that could quickly take down the boss.

Only the leading teams of the top guilds had the strength to do so, and they had to have more people.

It was not like Zhang Shan's team, where they only needed 50 people to fight bosses everywhere.

As for most of the other players ...

Even though they could still defeat the BOSS.

However, they would need at least half an hour to kill the BOSS.

This caused Zhang Shan and the rest to be unable to do anything after every battle.

They could easily snatch the next one.

Under Feng Yun realm's lead, they wandered all over Heaven's Gate fortress.

One BOSS after another was killed by them.

in the process of snatching the boss.

they had also encountered the teams from the top guilds.

they had even encountered the tyrannical king's team.

however, in order to fight more bosses ...

feng yun realm ignored him.

Instead, he continued to search for other bosses to fight.

Snatching the boss from domineering King was too much of a waste of effort. It was not worth it.

They would usually Rob the weaker player teams.

Moreover, those players were usually very tactful.

When they saw Zhang Shan and the rest running over, they would give up on the BOSS and scatter.

To them, bosses were important.

But his life was more important.

If they didn't hit the BOSS and even lost their lives, it would be a big loss.

Of course, they also encountered some stubborn players.

However, they could still easily steal the BOSS after a fierce attack.

The speed at which Zhang Shan and the rest were fighting the BOSS was getting faster and faster as they went on.

Because of the BOSS that they had stolen.

It was someone else who had already lost a portion of his health.

Some of them had even lost two-thirds of the BOSS's health.

Zhang Shan and the rest had snatched it all.

In the beginning, everyone was fighting for the BOSS, and they were a little embarrassed.

However, as they fought, they slowly got used to it.

Even if you don't snatch it, others will still snatch it?

So, don't stand on ceremony.

after killing one, he would snatch the next.

No matter how much effort others put in for BOSS, it had nothing to do with them.

They were just trying to steal the BOSS.

After chasing away the players, they quickly focused their fire on the boss and left.

More than half an hour had passed since the monster attack.

Zhang Shan and the rest had already destroyed 13 demon spearmen commanders.

However, it never dropped again. An ultimate skill book like [destruction] had dropped, and there were no divine weapon quest items or divine weapon molds either.

However, after killing so many bosses, they had also gained a lot.

Just the red equipment alone, they had obtained close to 30.

There were fifty of them in the team, which was almost enough for each of them to get one item.

There were also a few other rubbish skill books.

However, these skill books were useless.

At best, it could be sold for ten thousand gold coins.

To them, the biggest gain was experience points.

They had defeated 13 red bosses in a row.

Many of them had directly leveled up.

Zhang Shan's level had not increased.

However, his experience bar had also increased by a large amount.

He wasn't too far from reaching Level 51.

After they had destroyed the 13th Spearman commander ...

Windcloud blade ridiculed.

f * ck, I've fought the BOSS until my hands went soft.

"haha, don't be soft-hearted, brothers. keep fighting. there are still many bosses waiting for us."

"that's weird. it's been 35 minutes since the monster attack. why haven't we seen the big BOSS yet?"

that's right. I'm getting tired of hitting the Spearman commander.

don't tell me that this event only has one BOSS like the Spearman commander?"

that's impossible. There has to be a real name BOSS, right? at least one should appear.

what's the point of thinking so much? if there's no real-name BOSS, then we'll just fight the Spearman commander.

"that's right. even if it doesn't drop anything good, it's still good to give us some experience. the experience gained from killing the BOSS today is comparable to me killing monsters for three or four days."

"Not bad, let's continue with the BOSS."

more than half of the event time had passed, but they still hadn't seen any real-name bosses respawn.

He didn't know if it was because the system hadn't refreshed it.

Or could it be that he had already been refreshed and was being beaten by others?

Of course, it was also possible that the BOSS had spawned in a corner and had not been discovered yet.

No matter which possibility it was, if they couldn't find it themselves, then there was nothing they could do.

he could only shoot the spearman commander first.

They weren't afraid of missing out on a real-name BOSS.

As long as a real-name BOSS appeared, they would know sooner or later.

Even if someone else was secretly playing, it would be useless.

A real-name BOSS was so powerful.

To other players, even the strongest guilds, the war god and the domineering aura, were no exception.

if they wanted to defeat a real-name BOSS, they had to organize a team of tens of thousands of people and take it slow.

Only then could he possibly deal with a real-name BOSS.

In fact, the most likely scenario was that they would not be able to defeat the real-name BOSS before the event ended.

It was just like the previous monster attack.

The last one to appear was the demon guard general arudo.

Other than the wind and cloud Guild, none of the other major guilds could defeat it within the event time.

If other players wanted to fight a real-name BOSS, it would definitely cause a huge commotion.

Zhang Shan and the rest were not worried that the others would secretly kill the BOSS.

That was impossible.

Just as Zhang Shan was riding on the red hares, searching for the next leader of the pikemen.

Suddenly, Windcloud blade said in the party channel.

quick, look at the Guild channel. Someone has found a real-name BOSS.

“F * ck, really?”

“Let me see.”

Zhang Shan quickly stopped his Mount and switched to the Guild channel.

One of the Guild members said in the Guild channel.

hurry up! I’ve found seven real name bosses.

f * ck, don’t be so hasty in your reporting. How could all seven real name bosses appear in the same place? ”

it’s true. It’s seven real name bosses together.

“Did you see the BOSS’s name?”

I saw it. What are they all? they’re members of the lower house of the demon race. The names of the seven bosses are all different.

” is it a physical BOSS or a magic BOSS? ”

“I can’t tell?”

are you f * cking blind? bosses with weapons are physical bosses, and bosses with magic staffs are magic bosses.

“You don’t have to tell me that, of course I know this. But the problem is, these seven bosses are all empty-handed, How do I know what kind of bosses they are?”

“F * ck, there’s such a thing? Do demon representatives use their fists to beat people?”

“Who knows? I’ve sent the coordinates to the Guild channel. Come quickly.”

Zhang Shan looked at the Guild channel and the comments of his brothers.

Countless question marks appeared above his head.

There were too many questions that he couldn’t understand.

For example, why were there seven bosses with real names standing together?

Another example was why these seven bosses didn’t even have any weapons.

This was too unscientific.

However, these questions were not important.

The important thing was that a real-name BOSS had appeared, so they had to go and deal with it.

After everyone looked at the Guild channel, they all turned their attention to Feng Yun realm.

It would depend on how this boss arranged it.

Seven real-name bosses, that was a little bit powerful.

They really couldn’t beat him.

With Zhang Shan’s ability, under the passive boost of catapulting, it was still possible for him to take on two real name bosses.

However, if there were seven real name bosses, that would be too difficult for him.

There were seven real name bosses. Even if each of them attacked him, he would be killed instantly.

No matter how strong Zhang Shan’s lifesteal effect was, it would be useless.

“Boss, what should we do?”

let’s run over there and take a look. I’ll contact Li Jing. We can’t take down seven real name bosses.

After Feng Yun realm finished speaking, he took the lead and ran towards the target location.

After running for about two minutes, they finally saw the seven real name bosses.

The seven demon representatives didn’t ride horses. Instead, they formed a small circle, as if they were having a small meeting.

The names of the seven bosses were:

Demon member of the House of Commons, higlari.

Demon member of the lower house of parliament, bisistre.

Arhan, a member of the demon's House of Commons.

The demon's parliament member, Omar wood.

The demon's House of Commons Member of Parliament, Rajiv.

Demon member of the lower house, Nelson.

Sisos, a member of the demon's House of Commons.

The seven real name bosses gathered together, and Zhang Shan felt a little dizzy.

Damn it, normally, he couldn't even find a real name boss.

all of a sudden, there were seven real name bosses together.

There was no way to do it.

He had to separate these seven real name bosses.

Otherwise, they would not be able to fight at all.

Another thing was that it was the event period.

There were foreign players everywhere.

although no one else had found this place yet.

However, it was impossible for them to secretly kill the BOSS.

Others would come over sooner or later.

now, they had to face seven real name bosses.

moreover, he had to face opponents who could come looking for him at any time.

This was a little difficult to deal with.

Zhang Shan could see the difficulty of the problem. Naturally, the others could see it as well.

Feng Yun realm said after walking around.

"Don't make a move yet. Wait until our Guild's members are all here. In addition, I've also called Wargod Li Jing and asked him to bring the members of the Wargod Guild here."

Feng Yun realm had already informed all the Guild members in the Guild channel to gather here.

They didn't expect the other guild members to come and fight the boss together.

the main thing was to wait for the other guilds to come over.

they had to rely on their guild members to help them stall the enemy so that they could focus on fighting the boss.

Otherwise, there was really no way to do it.

Besides, Feng Yun realm had also informed his guild members.

He even called the God of War Li Jing.

Right now, Wei's war god Guild should also be on their way here.

However, even though they had the war god Guild's help, everyone was still a little worried.

The main thing was that these seven real-name bosses didn't care about martial virtue at all.

They were all standing together.

What was he going to do?

no one knew if they could pull apart the seven real name bosses.

If he couldn't pull it open, then there was really no way to do it.

However, there was no way to try it now.

There was only one team here, and there were too few of them.

No one was suitable to be cannon fodder.

Moreover, it wasn't very useful.

He would have to wait until there were more people and let a large number of cannon fodders try.

He wanted to see if he could separate these seven real name bosses.

If they could separate the bosses, then there was still a chance.

If they really couldn't be separated, then they could only continue to farm for spearmen commanders.

These seven real name bosses were not something they could hope to defeat.

However, everyone was still a little worried. Someone asked Feng Yun realm on the party channel.

"Just our two guilds? i feel like even if the two guilds work together, they won't be able to take down these seven bosses."

"That's it for now. When the war god Guild's people arrive, we'll set up a large defensive circle around the periphery, and the others will fight the boss."

"i'm afraid this won't work. if the other guilds find out that we're fighting a real-name boss here, they'll probably rush over like crazy. i don't think we can stop them with just our two guilds."

I know. I'll pull in partners when the time comes. I'll pull in those who are willing to cooperate, and block those who aren't.

that's a good idea. I'm afraid that the overbearing King will be angered to death. He will definitely not cooperate with us.

"Domineering aura has already been excluded. Just let him bring his people to fight."

Not long after, Li Jing, the God of War, arrived first with his men.

The other players from the two guilds also ran over.

God of War Li Jing said as he ran to Feng Yun realm after looking at the seven bosses.

bro, these seven bosses aren't easy to deal with. What's your plan? "

let's try it later and see if we can separate the BOSS. As long as we can separate the BOSS, it'll be easy.

"this shouldn't be a problem. although these seven bosses are all demon representatives, they are not one, so they can definitely be separated. but what if we split up the bosses? seven bosses is a bit too many. i'm afraid our two guilds won't be able to take them all."

that's easy. There will definitely be other guilds coming over later. If they're willing to cooperate, we'll give them a BOSS to fight.

sigh, that's true, but this cooperation isn't going to be easy.

god of war li jing was telling the truth.

The major guilds belonged to different countries. Even if they worked together temporarily, it would be a bit difficult to operate.

when fighting a boss, it was easy to accidentally hurt allies.

He couldn't possibly say that everyone was in peace mode.

That won't do either.

Not everyone was willing to cooperate.

For those who were unwilling to cooperate, they would definitely be blocked outside.

If that was the case, they would have to turn the PK mode into a National mode.

In this case, the problem was back.

What if they accidentally injured their allies?

All in all, this was not an easy task.

In the game, there was no alliance system yet.

Otherwise, there might be another alliance model to choose from.

but the problem was that he didn't have any now.

When the fight started, everyone would definitely use National mode.

He had to think about how to avoid friendly fire now.

“Let’s split up and guard a place each. This way, we can avoid accidental injuries. As for when we fight the BOSS, we can try to put as much distance between us as possible.”

“Alright, let’s do that for now. One more question, how are we going to split the seven bosses?”

When it came to BOSS distribution, it was both profit and responsibility.

It was easy to understand that it was a benefit. If they defeated a real-name BOSS, they would definitely get good items, and everyone liked it.

But the problem was that you had to be able to beat him.

you have to hold onto your respective bosses.

They could not allow the boss to run around and interfere with the movements of the others.

If the boss you were in charge of ran around, how could others fight the boss?

The problem was that a real-name boss was not as simple as a normal red boss.

It wasn’t that easy to pull him down.

Those without strength could not even get close to the boss before they fell to the ground.

In the entire game, there were only a few guilds that could take down a real-name boss.

“Our wind and cloud Guild will be responsible for two. You can arrange the rest.”

Feng Yun realm replied indifferently to God of War Li Jing’s question.

He didn’t try to be brave.

Out of the seven real-name bosses, the wind and cloud Guild only needed two.

this was feng yun realm’s conclusion after careful consideration.

He didn’t plan to gather too many guild members to fight the boss together.

It was fine as long as they continued to be in their team.

If that was the case, Zhang Shan alone would be able to take on two real name bosses.

He should be able to withstand it by relying on his catapulting passive and lifesteal effect.

If there were any more, Zhang Shan might not be able to handle it.

Their party could only deal with two real name bosses at most. They definitely couldn’t deal with more.

As for the other members of the Guild ...

They were not allowed to participate in the BOSS fight.

The main thing was, other than their team.

It would be very difficult for the entire wind and cloud Guild to organize another powerful BOSS team.

Even if they had other guild members fight a real name BOSS, they would still be able to defeat it.

He probably wouldn't be able to defeat the BOSS before the event ended.

In that case, what was the point of fighting?

it would be better to stay on the outside and help them fight the BOSS, defending against enemies.

Chapter 467 split

He heard from Feng Yun realm that out of the seven real name bosses, Feng Yun Guild had taken over two of them.

The God of War Li Jing was not surprised.

With wind cloud Guild's historical records, taking down two real-name bosses was no problem.

He said to Feng Yun realm after some careful consideration.

"Our war god Guild also needs two, so we only have three left. We need to find allies to deal with them. Who do you think will be more suitable?"

"You can call for people. Call whoever you think is suitable, except for Guild Subjugator."

There were seven real name bosses on the scene.

normally, it would be easy.

With the strength of these two guilds, even if they slowly grinded against each other, they would still be able to win.

he could also grind the 7 demon representatives to death.

But not now.

It was the monster siege event.

The event time was limited.

There were so many real-name bosses.

If he didn't find someone to share the burden.

If they were not careful, they might not even be able to kill a single one.

As for why he had asked Li Jing to come and get people, wasn't it obvious?

As the top dog of the gaming world.

God of War Li Jing had wide connections and a lot of face.

The people he called over were definitely reliable.

He didn't have to worry about people turning against him when they fought the BOSS.

Of course, God of War Li Jing could call anyone he wanted.

However, they could not be called the domineering aura Guild.

He was an old enemy of the wind and cloud Guild. Moreover, he was the kind of person who liked to cause trouble.

Feng Yun realm did not want to team up with Subjugator to fight a BOSS.

Even if they fought each other, it wouldn't work.

War god Li Jing expressed his understanding towards Feng Yun realm's words.

He told Feng Yun realm.

then call freedom King, fearless, and the cavalry leader. Let them bring some people over and fight the BOSS together.

"Sure, I don't have any objections,"

The three people that the God of War Li Jing had mentioned.

king xiaoyao was the boss of the xiaoyao association in the cloud dream city of chu state.

Fearless was from Lulong city in the country of Yan, the boss of the pugilistic world Guild.

The leader of the cavalymen was the leader of the Central Plains 'steel cavalry Association, Changping city of the state of zhao.

Among the top ten guilds, in terms of strength.

The strength of Guild Subjugator and Guild peerless was definitely much stronger than these three guilds.

However, Li Jing also knew.

The two guilds, peerless and Subjugator, had conflicts with the wind cloud Guild.

This was especially so for domineering aura. Feng Yun realm had specifically mentioned that he did not want them to join.

God of War Li Jing was also a tactful person. He simply called three guilds that had nothing to do with the wind and cloud Guild to come together and split the BOSS.

after the god of war li jing's call.

Freedom King and the others immediately led their guild members and rushed over.

How could they not be happy to have a real name boss to fight?

That was a boss that would drop a divine weapon mold.

They were still thinking about it just now.

Why did the monster siege take so long?

The big boss had yet to appear.

It turned out that the bosses had appeared a long time ago, and seven of them had appeared at once.

They were found by the wind and cloud Guild.

However, even with the wind and cloud Guild and the war god Guild, they could not take down seven bosses at once.

That's why he asked them to come.

The other three guilds were still on their way.

...

However, Feng Yun realm and God of War Li Jing could not just sit around and wait.

Although not all of them were here and the BOSS could not be fought yet, they could set up the defense first.

Who knew when the other guilds would find their way here, other than the people they had invited?

Feng Yun realm said to God of War Li Jing.

"Let's set up our defenses first. When they come, we'll start fighting the BOSS. We don't have much time left."

"Alright, let's each guard one side first. When the other three guilds arrive, we'll give them a spot to defend."

The players from the other three guilds had not arrived yet.

However, most of the players from the wind and cloud Guild and the war god Guild had already arrived.

Under the arrangement of the two bosses.

they surrounded the seven real name bosses and formed a huge defensive circle.

after the other three guilds arrived.

...

He continued to expand the defensive circle.

After all, there were seven bosses.

Moreover, the five guilds were fighting together.

It would require a lot of space.

Otherwise, they wouldn't be able to use their skills.

Not long after, the bosses of the other three guilds arrived.

The five guild leaders discussed for a while.

He began to adjust the defensive arrangement.

It was divided into pieces.

Each of them was responsible for the defense of an area.

Other than the members of the five great guilds, no outsider could be allowed in.

Feng Yun realm said after everything was arranged.

“Since everyone is here, let’s start the BOSS fight. We don’t have much time left. If we’re any later, we might not be able to kill the BOSS.”

“Alright, then let’s start.”

After some coordination.

God of War Li Jing arranged for a few hundred cannon fodders to go forward.

Separate the seven real name bosses.

Each time a monster was pulled out, a group of people would go up and pull it.

according to the order they had discussed earlier.

The wind and cloud Guild took over the first two.

Zhang Shan looked at the cannon fodders that God of War Li Jing had arranged.

He quickly rode his horse over.

After pulling the first BOSS, he said, ”

“Pull another BOSS over.”

zhang shan’s words stunned the people from the other guilds.

Someone asked in confusion.

“Are you guys going to fight the two bosses together?”

“Yes, hurry up and pull another boss over.”

To Zhang Shan, it would be better to fight two bosses at the same time.

It was even more beneficial for the passive effect of catapulting.

Zhang Shan carried the first boss, and the six supports in the team quickly went forward to heal him.

the first boss that zhang shan had pulled was the demon’s lower house member, biswood.

After the cannon fodder had lured the boss over, the boss was already dead.

Zhang Shan fired rapidly.

with his rapid damage output, he easily pulled biswood’s aggro to him.

Under Zhang Shan's Swift and violent attacks, biswood, who had been chasing the cannon fodder and killing them, quickly turned to Zhang Shan.

Biswood, who had been empty-handed before, suddenly took out a large knife from somewhere.

Facing Zhang Shan, he slashed down from the top.

-180952 damage.

Looking at the damage value, Zhang Shan was a little dumbfounded.

This biswood's damage was a little fierce.

The damage was almost on par with that of Magnus, the son of the beast God.

These seven real name bosses couldn't all be this powerful, right?

if that was the case ...

If that was the case, he would be under a lot of pressure taking on the damage of two bosses at the same time.

If the two bosses were to deal critical hits at the same time, he would be dead meat.

However, he had already said it.

Even if he was really going to die, he had to carry on.

after all, in the wind and cloud guild, no one but him could take on such a powerful boss.

Even Secretary Feng Yun was no exception.

Although the little Secretary's maximum HP had increased greatly after she was promoted to level 40, she was still a little weak.

Now, he had over 200000 HP.

But even so ...

At most, the Secretary could only tank a normal red boss.

He would be the one to deal with a boss as fierce as biswood.

That would be a little difficult.

Before Zhang Shan had the time to check out biswood's attributes and skills.

The cannon fodder players arranged by God of War Li Jing quickly lured the second boss to his side.

The second boss that was lured over was the Nephilim representative, higlari.

Zhang Shan saw that the second boss had been lured over.

He quickly changed his target.

He turned the muzzle of his gun towards higlari.

the god-tier hand cannon continued to fire bullets at Higlari.

In an instant, Higlari's hatred was drawn over.

After being attacked by Zhang Shan.

Higlari stretched out his hand.

A long spear appeared in his hand.

Higlari, who was holding the spear, seemed to be teleporting.

He went straight to Zhang Shan.

The spear stabbed out, and the damage was -181372.

F*ck, are all these bosses this powerful?

He could do all of them and dealt nearly 200000 damage.

Fortunately, Zhang Shan's health was high enough.

Otherwise, he really wouldn't have been able to take it.

These two real name bosses could each deal around 180000 to 190000 damage.

If the damage was dealt at the same time.

Just like that, he had dealt nearly 400000 damage.

This was not even considered a critical hit.

If he were to add on the critical damage, then wouldn't Zhang Shan's health bar be emptied?

What a terrifying real-name boss.

However, Zhang Shan was not flustered.

Higlari and Biswood, these two real name bosses, were very fierce.

But Zhang Shan was not bad either.

When the two real name bosses stood together and attacked Zhang Shan at the same time ...

His passive ejection had finally begun to show its effect.

Relying on the catapulting passive, Zhang Shan's damage was jumping back and forth between the two bosses.

Every time he fired a shot, he would deal six damage to each of the two bosses.

The effect of such damage was really powerful.

In terms of damage, Zhang Shan's damage was much higher.

In fact, it was several times higher than the two bosses.

He didn't know who the BOSS was.

Not only that, because of the passive boost from the catapulting skill, Zhang Shan's lifesteal effect was also very powerful.

Each time he dealt damage, it was more than 50000.

If the damage jumped twelve times in a row ...

That was over 600000 damage.

this was not even including the critical hit effect.

With Zhang Shan's 25% lifesteal effect.

Every time he fired a shot, he would recover more than 150000 HP.

Furthermore, Zhang Shan's attack speed was extremely fast.

He could fire two or three shots every second.

After calculating ...

Zhang Shan could absorb 340000 health points per second.

As for the BOSS's attack speed, compared to Zhang Shan.

It was much slower.

That was about one slash per second.

Under normal circumstances, if the boss didn't deal a critical hit.

Zhang Shan did not need the support to heal.

With his lifesteal, he could withstand the damage of these two real name bosses.

in fact, even if the boss dealt a critical hit, it would not matter.

This was because it wasn't only bosses that could deal critical hits.

In reality, Zhang Shan's critical hit effect had been unleashed more frequently.

He relied on seven or eight critical hit passive skills and the critical hit special effect on his equipment.

For every three or four shots that Zhang Shan fired, there would be a critical hit.

It could almost be said that he could hit a critical hit every second.

However, the degree of damage from the critical hit would be slightly different.

Some critical hits only dealt double the damage.

Most critical hits dealt five times the damage.

If he could use the effect of the Holy Strike.

the damage would be even more severe.

A single Holy Strike from the spear could take out more than 1000000 HP from the BOSS.

Therefore, just Zhang Shan's injury alone was very terrifying.

Zhang Shan held his hand cannon and pulled the two real name bosses, firing bullets non-stop.

All sorts of damage kept popping up between the two bosses.

Of course, these two bosses were not weak either.

Higlari and biswood, one shot, one knife, the damage was non-stop, hitting Zhang Shan.

every time the boss's attack landed, the boss would attack.

He could take away half of Zhang Shan's health.

If the damage was dealt at the same time, he would lose almost half of his health.

This was especially true when the boss dealt critical damage.

That would be even more exaggerated. It would almost empty Zhang Shan's health bar.

Of course, the damage of the two bosses was very scary.

However, Zhang Shan had relied on his own lifesteal effect.

There were also six teammates behind him who kept healing him.

his health had always been in a healthy state.

after zhang shan had pulled the boss's aggro steadily.

Feng Yun realm led the rest of the party and quickly joined the ranks of attacking the boss.

As Zhang Shan fired at the bosses, he checked the attributes and skills of the two bosses.

Demon lower house member higrari (red): Level 70, attack 100000, HP 1 billion.

Skill 1, death spear, skill 2, scattered spear, skill 3, Demon God's will, skill 4, myriad incarnations. [status: Holy demon's protection]

[spear of death: a mysterious spear technique practiced by demon representative higrari. When the spear is thrust out, it is imbued with the power of death.]

Increases damage by 100%.

[scattered spear: a special spear technique practiced by demon representative higlari. After activating the skill.]

The spear will split into multiple spear shadows and randomly attack the surrounding targets, causing three times the damage to the target.

[demon will: demon representative higlari will summon the demon God's will to assist in battle when he is in danger.]

[myriad incarnations: demon representative higlari can transform into myriad incarnations to attack the enemy.]

Each incarnation has the same attributes as the user, lasts for five seconds.

Holy demon protection:

demon lower house member, biswood (red): Level 70, attack 100000, HP 1 billion.

Skill 1, unity blade technique, skill 2, heavy slash, skill 3, Demon God's will, skill 4, whirlwind slash.

status: holy demon's protection.

[unity blade technique], demon representative biswood's unique secret skill. Blade technique unity, increases damage by 100%.

[heavy slash: a skill that demon representative biswood came up with by chance. Deals 500% damage to the target with one slash.]

[Demon God's will: demon representative biswood will summon the demon God's will to assist in battle when he is in danger.]

[tornado slash]: demon representative biswood's famous ultimate skill, the long blade slashing out like a storm.

Deals five times the damage to surrounding targets.

Effective range: 50 yards. Duration: 5 seconds.

Holy demon protection:

After looking at the attributes and skills of the two bosses.

Zhang Shan could not help but let out a long sigh.

It was still considered good.

He had never thought that there would be a final BOSS in this monster attack.

It was actually a level 70 BOSS with a real name.

He had thought that it would be the same as last time, a level 60 real name BOSS.

The attributes of a level 70 real name BOSS were really strong.

Without the Buffs of any skills, just its attributes alone had 100000 attack and 1 billion HP.

Such attributes were truly terrifying.

However, the attributes of these two bosses were unexpectedly strong.

however, when it came to the skills of these two bosses ...

Zhang Shan only wanted to say that it was really a trashy skill.

It did not mean that the skills of these two bosses were really weak.

If it was an ordinary red BOSS ...

The skills of these two bosses were considered normal.

But this was a real-name BOSS.

Compared to a real name BOSS, this skill was very weak.

However, it was a good thing that the BOSS's skills were weak.

If these two demon representatives were like the other real-name bosses ...

high attributes, coupled with ferocious skills.

Zhang Shan would definitely not be able to hold on.

in particular, these two real-name bosses did not have any skills that could increase their attack power.

Therefore, as a level 70 real name boss, it was a level 70 boss.

He only had powerful attributes.

However, without a powerful skill to complement it, it was not a big threat to Zhang Shan.

of course, it was only a small threat to zhang shan.

But for others, it might not be the case.

The two bosses 'ultimate skills were obvious.

Whether it was higlari's myriad of incarnations or biswood's whirlwind slash.

none of those present could block it.

Not even Zhang Shan.

He had to use the God of creation skill to withstand the damage from the two bosses 'ultimate skills.

The BOSS's ultimate skill didn't count.

Even those small skills were a huge threat to other players.

For example, higrain's scattered spear skill.

The description of this skill was a little strange.

before they saw the BOSS use this skill, they would have to wait.

He didn't know what form this scattered spear skill would take.

However, there was no doubt that this was an AoE skill, and it was an AoE skill that dealt three times the damage.

as for how many targets it could hit and how large the damage range was, it was hard to say.

This was because the BOSS's skill description did not state it clearly.

guessing blindly was definitely not reliable.

He had to see the skill for himself to know what it was like.

Other than this scattered spear skill.

All that was left was the demon God's will skill.

Higrai and biswood were the demon representatives.

They all had the demon God's will skill.

The demon God's will skill of a level 70 true name BOSS would be terrifying.

Looking at the skills of a level 60 BOSS, he could guess a thing or two.

back then, when they were dealing with a level 60 true-name BOSS.

Whenever the BOSS used its Demon God skills, it would clear out a large area of players.

One could only imagine how powerful the demonic will of these two bosses would be.

Zhang Shan suspected that they did not actually need to defend against the harassment of other players.

This was because after these two bosses used the demon God's will skill, they had all been killed.

It was hard to say how many players were left outside Heaven's Gate pass.

Perhaps those players would die from this skill for no reason.

Then what's the point of defending?

Of course, this was only Zhang Shan's guess.

they still had to defend themselves.

After Zhang Shan and the rest had pulled the first two bosses.

The other four guilds also split the other five bosses.

The war god Guild was divided into two BOSS teams.

Each of them pulled a BOSS and started to gather around.

As for the three guilds that came later, they each pulled a BOSS and launched a fierce attack.

of course, they did not have a meat shield like zhang shan.

The war god Guild was slightly better off.

At the very least, one of the bosses had the God of War, Li Jing.

Li Jing, the God of War, had an upper limit of more than 300000 HP.

He could still tank the BOSS's damage.

even though he would fall to the ground as he carried on.

however, as long as someone could hold on for a while, it would be a great help in fighting the BOSS.

Every time the God of War Li Jing fell to the ground, he would be quickly resurrected by the support and then continue to pull the BOSS.

Except for the God of War Li Jing.

The other four BOSS teams no longer had anyone who could withstand the BOSS's damage.

they could only rely on the constant use of cannon fodder to slowly wear the BOSS down.

Zhang Shan suspected that in the short amount of time that they had left, they might really be able to kill the BOSS.

Of course, for other guilds.

even if they couldn't kill the BOSS, they still had to give it a try.

After all, bosses with real names were rare.

Usually, he couldn't even find it if he wanted to.

This was especially so after the new system was opened, and there was a new way to obtain divine artifacts.

There was a high chance that a real-name boss would drop a divine weapon mold.

For the sake of the divine weapon mold, they had to give it a shot.

Moreover, the monster attack this time was different from the previous ones.

In the previous few monster sieges.

The final boss would only respawn in the last 15 minutes.

They really didn't have enough time to kill the boss.

However, it was different this time.

The time before that was not counted.

Even now, there were still 21 to 22 minutes before the monster attack.

Compared to the previous events ...

This time, they had more time to fight the BOSS, so the chances of killing the BOSS were much higher.

After all, the result would be very different if there were a few more minutes.

Of course, this time, everyone spent more time fighting the BOSS.

However, the BOSS was also more powerful.

The BOSS's health was also much higher.

This time, it was a level 70 BOSS with a real name.

Compared to the level 60 real name bosses they had fought before, the difference in attributes was like heaven and earth.

It had almost doubled.

If they wanted to defeat the boss, the difficulty would also increase by a lot.

Even so, the war god Guild was no exception.

The other four guilds didn't have any thoughts of giving up.

They were still a large group of people, each surrounding the boss and attacking fiercely.

Chapter 468-a BOSS inside and a strong enemy outside

the five guilds pulled the seven bosses and started to fight each other not far away.

as for the other guild members, they formed a huge defensive formation to block the players who might come to harass them.

They were the ones fighting the BOSS, so they kept attacking the BOSS within the circle.

at the same time, they were also observing each other's battle situation.

however, after seeing the situation on the wind and cloud guild's side, the others were shocked.

It was as sour as countless lemons.

F * ck, it's hard to compare people.

They had so many cannon fodders, one after another, and yet they still couldn't completely take down the BOSS.

but what was going on with the wind and cloud guild?

Zhang Shan was actually the only one who was able to tank the damage from the two bosses.

Moreover, they didn't seem to be under any pressure.

there were only six supports standing behind zhang shan to heal.

Even with these six supports, they did not have to keep healing Zhang Shan.

This was because Zhang Shan's blood volume had always been stable and healthy.

If not for the stability.

Perhaps Zhang Shan did not even need the healer.

With his lifesteal, he could completely withstand the damage of the two real-name bosses.

The players from the other four guilds couldn't help but feel jealous when they saw this situation.

Was he still human?

Damn, this was a humanoid BOSS.

on the side of the wind and cloud guild, there was no sign of them fighting a BOSS.

This was basically crushing the BOSS.

They were fighting a real name BOSS.

If he didn't know about it beforehand.

They might have mistakenly thought that the people from wind and cloud Guild were only fighting an orange BOSS.

How could it be so easy to deal with two real-name bosses at the same time?

this was simply not scientific.

God of War Li Jing brought his men to a place not far from Zhang Shan's group to fight the BOSS.

Their team's Wargod Lu Bu was simply stunned when he saw the situation on the wind cloud Guild's side.

He shouted.

"F * ck, so this is how you guys fight bosses? This is too simple."

He already knew that the wind and cloud Guild was very good at fighting bosses.

However, he had never seen how powerful it was.

The video of Zhang Shan and the rest fighting the BOSS had almost never been circulated.

Now, they saw that Zhang Shan had so easily taken the damage of two real-name bosses.

As for the other members of the wind and cloud Guild, they were simply hitting wooden stakes.

As long as he kept throwing out damage skills, it would be fine.

there was no technical content at all.

Unlike the players.

In order to fight a BOSS, they had to put in a lot of effort.

If they encountered a slightly stronger BOSS, they would have to sacrifice a large number of cannon fodders.

Even the war god Guild had a powerful Guardian warrior like Wargod Li Jing.

Every time they fought a BOSS, they had to be very careful.

There was no need to talk about fighting a real-name BOSS.

Even if it was against a normal red BOSS.

It was hard for them to not lose any members after a BOSS battle.

When they encountered a powerful BOSS, they could only use their lives to push the BOSS to its death.

however, how did the wind and cloud guild fight the BOSS?

This scene simply subverted his imagination.

Why was Zhang Shan so strong?

He could withstand the damage of two real-name bosses at the same time without the help of a healer.

This was too exaggerated. It was simply a little unreal.

...

Zhang Shan's maximum health was fine.

After all, they had also heard that Zhang Shan had obtained a divine cloak during the last world war.

High HP was also acceptable.

But why was Zhang Shan's lifesteal effect so strong?

This made people very puzzled.

Everyone knew about the lifesteal effect.

in fact, many players had the lifesteal effect.

After all, some red-colored accessories had a lifesteal effect.

When everyone was farming monsters, it was already very good to rely on the lifesteal effect to recover some HP.

How was it possible for him to use the lifesteal effect to recover his HP when he was fighting a BOSS?

War god Lu Bu expressed that he was very confused.

...

He could not understand it at all.

Windcloud blade said happily as he swung his divine weapon, the battle axe, at the BOSS.

"Haha, servant of the three surnames, learn a little. It's that simple to fight a BOSS."

"Get lost, what does this have to do with you? you're just a lying boss."

"so what if it's a BOSS? Being able to lie down is also a skill, hehe."

"Shameless."

what's the use of face? can face be exchanged for a divine weapon? "

After saying that, wind cloud blade even deliberately raised the God equipment battle axe in his hand.

This fellow was simply too much.

he was afraid that he would be infuriated to death.

Seeing wind cloud blade call out so shamelessly, even Zhang Shan felt embarrassed for him.

Zhang Shan said to wind and cloud blade as he continuously fired at the BOSS.

cut the crap. Hurry up and kill the BOSS. Don't wait for Subjugator to come over with his men. That'll be troublesome.

what's there to be afraid of? we have five guilds here. Even if Subjugator comes, he won't be able to get away.

"let's do it as quickly as possible. otherwise, we'll have to fight the BOSS while guarding against other people's harassment. it's not easy."

that's right. The Subjugator is a good troublemaker. If he brings millions of people here, we'll be in big trouble.

"Hurry up, hurry up."

Just as Zhang Shan and the rest were doing their best to attack the BOSS.

the other players in the game also quickly discovered the problem.

First of all, it had been so long since the event started, but they still hadn't seen the final BOSS. This didn't make sense.

In addition, the five guilds, including Windcloud and Wargod, were no longer attacking the Spearman commander. Some of the Spearman commanders had almost lost half of their HP.

In the end, they all gave up and ran away.

The five guilds "abnormal actions naturally attracted the attention of the other players.

Although the position that Zhang Shan and the rest were fighting the BOSS at was relatively hidden.

However, there were still hundreds of thousands of them.

No matter how well-hidden the location was, with so many people coming here one after another, it would be easy for others to discover their whereabouts.

what's the matter? " Subjugator asked the Guild members beside him after he had killed a Spearman commander.

"have you figured out what the wind and cloud guild and the other guilds are doing there?"

"I'm not sure. I only know that the players from their guilds are all gathered there. As for what they're doing there, our people can't get close to them and can't see."

don't even think about it. They must be fighting the big BOSS. Let's go and take a look.

after the domineering king finished speaking, he led his men and charged towards zhang shan's position.

However, they were not sure if there was really a Big Boss here.

The Overlord didn't bring too many people with him.

He just wanted to figure out the situation first.

not long after, the domineering king led his men and ran to the outer perimeter of zhang shan's joint defense line.

Subjugator rode on his horse and looked at the members of the five guilds from afar.

They were arranged into a super large defensive formation.

As for the situation inside the formation ...

He could not see it at all.

However, even if he couldn't see the specific situation ...

Tyrant king could easily guess.

These five guilds had gathered together and had prepared their defenses.

Obviously, they were not playing a ranked match.

They must be fighting the big boss inside.

No wonder they couldn't find the big boss after searching for so long.

At first, Subjugator had thought that the final boss would be the same as the previous ones, and would only respawn in the last fifteen minutes of the event.

However, looking at the five guilds "formation, he had clearly guessed wrong.

The tyrant king was very frustrated right now.

How could domineering aura not be involved in the fight against the boss?

now, even the members of the getaway guild and the pugilistic world guild could participate in the fight against the big boss, while the members of the domineering aura guild could only watch from the side.

For the Overlord, this was something he couldn't tolerate.

He didn't know who had organized the five guilds to fight the BOSS together.

However, they couldn't put their Guild domineering aura in the line.

No matter what, their Guild, domineering aura, had to get involved.

However, even the domineering King couldn't just rush over.

There were at least 300000 to 400000 players defending the five guilds "joint defense line.

The domineering King had brought so few people over.

If they charged forward, they would only be courting death.

The domineering King was an iron-headed boy.

But he wouldn't do things like sending himself to death often.

After observing the situation for a while, tyrant king ran to the war God's defensive line and shouted at the Guild's members.

"What are you guys doing?"

One of the war god Guild's players said.

"Don't disturb us, we're playing fight the landlord."

Hearing this, the domineering King was enraged.

Damn it, was it just anyone who didn't care about him anymore?

Even a small fry from the God of War Guild dared to speak to him in such a manner.

The tyrant king shouted.

"Go to the side and call the God of War Li Jing out to talk."

How could Li Jing, the God of War, speak at this time?

Not to mention that Feng Yun realm had already excluded Guild domineering from the start.
even without feng yun realm's help.

The God of War Li Jing didn't have the time to deal with the domineering King.

He was busy fighting the BOSS.

a level 70 real name boss was so ferocious.

Even if there were dozens of supports and God of War Li Jing who kept healing.

he could only hold on for a short while and would soon fall to the ground.

They still had to rely on the support to revive and continue to pull the boss.

At this moment, God of War Li Jing had been in a nervous state the entire time. How could he have the time to bother with the domineering King?

"Our boss is not free."

Hearing this, the domineering King's heart burned with anger.

Damn it, a small fry from the God of War Guild dared to be so arrogant in front of him.

The tyrant king couldn't take it anymore.

"You want to shake off our Guild while fighting a boss? Since that's the case, don't even think about fighting."

After saying that, he started shaking people.

To the tyrant king, the final boss was not easy to defeat, but it was easy to cause destruction.

Not only was he constantly recruiting soldiers on the state of Qin's national channel, but he was also on the world Channel.

They announced that the wind and cloud Guild and the other major guilds were fighting a real-name boss here.

interested players, please hurry up and snatch the boss.

The Overlord King even made it clear.

A real-name BOSS would definitely drop a divine weapon mold, so this was the only way to get a divine weapon.

He must not let Feng Yun realm and the others monopolize it.

The domineering King's announcement was very effective.

The divine weapon was simply too alluring.

Not long after the domineering King spoke.

The players who were scattered outside Heaven's Gate fortress began to gather in large numbers.

They rushed towards Zhang Shan and the rest.

Zhang Shan and the rest who were fighting bosses were shocked by domineering King's actions.

Of course, they paid a lot of attention to it.

However, they couldn't find the time to deal with the domineering King.

he could only hope that the guild members defending the perimeter would put in more effort.

It was able to block all of the domineering King and the others outside.

It was to buy time for them to attack the BOSS.

After Subjugator's announcement, many players put down their work.

he rushed towards zhang shan and the rest.

some of these players were from major guilds.

Most of them were casual players who were slacking off.

There were at least a few million of them.

This was only the first batch of players.

Some of the remaining players might not want to participate in this kind of thing.

Some of them were probably spearmen commanders who didn't want to give up halfway.

therefore, he couldn't do anything for the time being.

If the time dragged on for too long.

Sooner or later, they would come and get involved.

It was easy to imagine that as time passed, the number of players who came to steal the BOSS would increase, and it might exceed ten million people.

On Zhang Shan's side, the members of the five guilds in charge of defense only had three to four hundred thousand people.

By relying on these people.

it was almost impossible to completely block out the tyrannical king and the others.

They definitely wouldn't be able to hold on for long.

Zhang Shan and the others who were fighting the BOSS could also see the severity of the situation.

But they had no other choice.

he could only focus on fighting the BOSS, hoping to kill the BOSS as soon as possible.

as long as they could defeat the BOSS as soon as possible.

That would not be a problem.

without the BOSS's interference, they had no reason to fear subjugator.

Even though the number of players who rushed over to steal the BOSS was ridiculous.

however, most of these people were here to slack off.

the only ones with real strength were the members of the domineering aura guild and some of the other guilds.

As for Zhang Shan's side, among the top 10 guilds, they occupied five.

Moreover, the war god Guild and the wind and cloud Guild were also present.

How could that be possible? he was afraid that he couldn't handle the people from tyrannical King.

But now, the main force members of the various guilds were all fighting bosses.

Their main combat power was being held back by the BOSS.

Otherwise, they would have won in a head-on battle.

But what could he do?

They couldn't just give up on the boss.

that was impossible.

in fact, if they didn't fight the boss, the domineering king wouldn't dare to come over and cause trouble for them.

That was exactly what Subjugator was doing. He was taking advantage of the fact that their main combat power was being held back by the boss.

They came here to cause trouble.

If I can't fight the boss, then you guys can forget about fighting it.

What domineering King wanted was to make sure that no one could defeat the boss. His idea was that if he couldn't get it, then none of them could get it either.

Everyone went their separate ways.

That was if they gave up on the BOSS.

Wouldn't that be exactly what the overbearing King wanted?

Therefore, they had to continue fighting the BOSS.

Now, he could only try his best and play faster.

kill the BOSS as soon as possible.

Zhang Shan and the rest were the ones fighting the BOSS.

After the domineering King came to find them, they were no longer like before.

He could still boast and brag with ease.

Instead, they each brandished their weapons and attacked the BOSS continuously.

On the wind cloud Guild's side, higlari and biswood were under the fierce attack of Zhang Shan and the others.

His health dropped rapidly.

Especially Zhang Shan's damage output, it was terrifying.

Each time he fired a shot, twelve lines of damage appeared above the heads of the two bosses.

zhang shan's damage alone was almost equivalent to the total damage of the rest of their team.

Moreover, there were two witch doctors in their team who had curse skills.

when the witch doctor cast a curse skill, everyone would take the opportunity to deal a wave of rapid damage.

Zhang Shan was the same.

Just as Feng Yun Qing Qing cast her first curse skill ...

Zhang Shan went all out.

He activated his berserk and fanatic skills, as well as his shadow clone skill.

The three Zhang Shans stood in a line, and the bullets rained down on the BOSS.

The clone would also inherit Zhang Shan's passive skills.

In other words, the bullets fired by his two clones also had a rebound effect.

After going all out.

Countless damage values jumped back and forth between the two bosses.

In an instant, the BOSS's health was reduced by a large amount.

Even though they were fighting two bosses at the same time.

however, everyone knew that they had to try their best to maintain the health of the two bosses in a balanced state.

This allowed the health bars of the two bosses to decrease at the same rate.

This way, Zhang Shan's flicking would be passive, and it would be effective until the two bosses were destroyed at the same time.

After all, there were only 50 of them in this BOSS fight.

Feng Yun realm didn't do so. Instead, he pulled more guild members to help them fight the BOSS.

after all, if there were too many people participating, it would be troublesome when it came to distributing the items later.

They could beat him now anyway.

There were only 50 of them fighting the BOSS.

That would mainly depend on Zhang Shan's damage output.

By relying on the passive damage effect of the ejection.

Zhang Shan's damage alone could be compared to everyone else's.

Of course, they had to try their best to keep the health of the two bosses at the same level.

This allowed Zhang Shan's ejection damage to continue.

It didn't take long for them to bring the two bosses' health down to 80%.

When the BOSS's health dropped to 80% ...

The two bosses unleashed their second skills one after another.

Biswood was the first to launch a heavy slash skill.

A heavy slash landed on Zhang Shan's body, dealing five times the damage.

In an instant, Zhang Shan's health bar was reduced to a critical state.

The six supports standing behind Zhang Shan were madly healing Zhang Shan.

At the same time, Zhang Shan's lifesteal effect was also constantly triggered.

just as he pulled his hp back to half.

Higlari also used his second skill.

Higlari thrust his long spear at Zhang Shan.

The shadow of the spear instantly dispersed. With Zhang Shan as the center, it burst out in all directions.

At the scene, other than Zhang Shan, the only person left in the team was the little Secretary, who was barely alive.

The others instantly fell to the ground.

higlari's second skill was completely out of everyone's expectations.

When he first came into contact with the boss.

Everyone had checked the attributes and skills of the two bosses.

Of course, everyone had seen higlari's scattered spear skill.

However, from the skill description, he could not tell that this scattered spear skill would be so powerful.

Although everyone could see that higlari's scattered spear skill was an area of effect skill, it was still not enough.

However, this area of effect skill was too exaggerated.

It was just a small skill, not a boss's ultimate skill.

The boss's small skill was actually able to kill all of them in an instant.

She was Secretary Feng Yun.

because he was equipped with the divine shield, his hp was high enough, with more than 200000 hp.

Moreover, the divine Shield had a blocking effect.

That was why he was able to hold on and survive the BOSS's skill damage.

Wind cloud blade, who was lying on the ground, said gloomily.

f * ck, even the BOSS's minor skills are so powerful? "

stop talking nonsense. Speed, assist us. Pull us up.

The wind and cloud guild members who were defending the perimeter saw that Zhang Shan's side had almost completely fallen.

He could not help but be shocked.

Dozens of support players quickly stepped forward and revived the fallen players.

Fortunately, the thugs that tyrant king had summoned had not arrived yet.

Otherwise, they wouldn't have been able to find the manpower to resurrect the fallen people.

after being resurrected, windcloud blade and the others immediately joined the ranks of attacking the BOSS.

he said unhappily as he waved the divine weapon battle axe and attacked the BOSS.

I've had enough of this. We couldn't even handle a BOSS's minor skill.

"What are you saying? Are we not able to withstand the BOSS's small skills? We can't even take a single hit from the BOSS."

"that's right. the BOSS's normal attack can deal nearly 200000 damage. who can withstand that?"

"damn it, the bosses in this game are getting more and more powerful. i wonder how i'm going to fight the bosses in the future."

don't worry, with the six-barreled boss here, we just have to lie down and be done with it. Hehe.

haha, that makes sense. Let's fight the BOSS.

The moment his teammate fell to the ground.

Zhang Shan alone, without any support to heal, still managed to withstand the damage of the two bosses.

This feeling was really good.

He was fighting two real name bosses alone.

Of course, this was also because there were two bosses.

The two bosses were just enough to make his ejection passive, and it was a perfect display.

If it was just a BOSS, after the support fell to the ground, the boss would have been killed.

if zhang shan relied on his own blood-sucking abilities, he would not be able to withstand it.

If he didn't have the passive buff of ejection, how could he absorb all the blood by himself?

Zhang Shan and the rest continued to attack the BOSS.

The thugs that domineering King had summoned also arrived at the scene one after another.

Especially the Qin players, they came especially quickly.

Not long after, hundreds of thousands of Qin players had arrived.

After seeing that there were already enough people present, they were all stunned.

The domineering King didn't wait for anyone else.

He said to the other players.

the wind and cloud Guild has brought some of the Guild's members and surrounded all the big bosses in this event.

"They still want to continue monopolizing the divine artifacts. Can we agree to this? We can't agree to that."

since the people from wind and cloud Guild don't want us to reach the big BOSS, we'll just let them.

everyone, let's charge together and annihilate them. We might even be able to snatch the BOSS.

if we can kill them before the event ends and kill the BOSS, we'll be rich.

"Brothers, let's charge together. The divine weapon is right in front of us. Leave the people from wind and cloud Guild to us. You guys go attack the other direction."

After giving a passionate speech, Subjugator brought his guild members and some of the players from the state of Qin.

They charged towards the position where the wind and cloud Guild was defending.

Chapter 469 Being defeated by the BOSS

As the domineering King continued his passionate speech.

All the players present were mobilized by him.

for the sake of the divine weapon, the players who had come to slack off had to start fighting with their lives.

They bravely charged towards the five guilds "defensive line.

subjugator brought his guild members and some of the players from the state of qin.

They took the lead and charged towards wind and cloud's defense line.

A super chaotic battle instantly broke out.

Due to the absolute disadvantage in numbers.

The defense line of the five great guilds had been on the verge of collapse from the very beginning.

However, even though the five great guilds had a small number of people, they still had a lot of people.

However, they were all members of the top ten guilds.

their strength was much higher than ordinary players.

Although they were having a hard time defending, they should be able to hold on for a while.

Especially the wind and cloud Guild's line of defense.

Even though they were facing a domineering King.

The domineering King brought all his guild members and some of the players from the state of Qin.

Compared to other directions.

The pressure on the wind cloud Guild's defensive line was even greater.

However, the wind and cloud Guild was more well-prepared than the other guilds.

Because they had the fool's bomb made by Zhang Shan.

Just as the domineering King and his men were about to reach them ...

The wind and cloud guild members standing in the front row threw fool's bombs one after another.

in an instant, a large number of domineering king's people were blown away.

This made the domineering King extremely angry.

He knew about the fool's bomb.

moreover, domineering aura had also collected a few.

However, it was only a little.

After all, Zhang Shan could only sell 10000 fool's bombs at the auction house.

Other than the first few days, he had been delayed by various matters. Zhang Shan was also making fool's bombs every day.

From the beginning to the end, the fool's bomb that Zhang Shan had put up for auction was at most a hundred thousand.

This number seemed to be a lot.

However, it also depended on how many players there were in the game.

Even if only a small portion of the players would buy Zhang Shan's fool bomb.

They would still fight to the death.

When it came to the domineering King, how much could he buy?

It was just the number of fool's bombs that domineering King had collected.

In the usual small-scale conflicts, it might be able to change the situation of the war.

However, in a large-scale battle like this, the fool's bomb he had was not enough.

Subjugator could not understand why the wind and cloud Guild had so many idiot bombs.

however, he quickly reacted.

These fool's bombs must have been made by the wind and cloud Guild.

Otherwise, the wind cloud Guild wouldn't have so many fool's bombs.

Thinking up to this point, the overbearing King suddenly felt like he had been played.

Damn it, he had worked so hard to collect fool's bombs everywhere.

He usually kept it like a treasure.

In the end, the people from wind and cloud Guild threw them like cabbages, non-stop.

And it was thrown at their heads.

How could the tyrant king not be angry?

The more he thought about it, the angrier he became. He shouted at the members of domineering aura beside him.

" those who have big moves and scrolls, don't hold back. use them all and destroy the people from wind and cloud guild. "

after he finished speaking ...

The members of domineering aura around him used all kinds of skills to attack the defense line of wind and cloud Guild.

...

Among them, four of the big moves of different classes landed on the defense line of the wind and cloud Guild.

Not only that, but Subjugator also took out two scrolls and used them on the defense line of wind and cloud Guild.

Six more AoE attacks landed on the defense line of the wind and cloud Guild.

They had knocked out nearly half of the defense members of wind and cloud Guild.

zhang shan and the others who were fighting the BOSS also saw the danger in the situation.

However, they really couldn't get away.

But now, even if he couldn't, he had to.

if there was a problem with the defense of the outer perimeter.

Then, they could forget about fighting the BOSS.

If the domineering King charged over with millions of people ...

How were they supposed to fight the BOSS?

...

Feng Yun realm asked war god Li Jing who was not far away.

what do we do now? the domineering King will soon break through our line of defense and charge in.

They were in urgent need of reinforcements.

even though most of the guild members of the five great guilds were here.

However, everyone could still call for people outside of the Guild to come over and help.

However, Feng Yun realm had never thought of calling for help himself.

He could only count on the God of War, Li Jing.

In fact, although the wind and cloud Guild's reputation was not small.

However, in terms of shaking people, it was a serious weakness.

That was why Feng Yun realm asked God of War Li Jing.

feng yun realm might not be able to call for help, but god of war li jing definitely could.

In terms of influence.

In the entire gaming world, who could compare to the God of War, Li Jing?

Even the domineering King, who claimed to have 30 million fans, could not compare to the God of War Li Jing.

God of War Li Jing replied to Feng Yun realm's question.

tell everyone to hold on a little longer. I've already told all the online players in Wei to move closer to us.

Wargod Li Jing's words sounded very awesome.

With a single call, all the online players in the Wei country camp were called over.

none of the people present thought that li jing was bragging.

He had this strength.

Although Li Jing wasn't as high-profile as the domineering King, he didn't have a high profile.

However, in terms of shaking people, he was definitely not inferior to the domineering King.

In fact, he was much stronger.

After all, even though domineering King claimed to have 30 million fans, he also had a lot of anti-fans.

he wasn't like the god of war li jing, who could maintain a positive image.

To many gamers, the God of War, Li Jing, was their idol.

it was too easy to get people to support him.

With a single call, countless people followed.

Even though the God of War Li Jing was already shaking people.

However, the situation was already very dangerous.

everyone was a little worried about whether their defense line could hold on until the wei country players arrived.

At this crucial moment.

Higlari and biswood, who had been attacked by Zhang Shan's team, had their health dropped to 70%.

Behind the two bosses.

A Demon God's Phantom slowly rose from each of them.

Seeing this situation.

windcloud blade shouted.

"Damn, I didn't think of this before. if the two bosses "skills are stacked together, we won't be unable to hold on, right?"

The only thing that came to Windcloud blade's mind was that his party, who was fighting the BOSS, was worried that they would not be able to withstand the stacked demon will skills of the two bosses.

However, Feng Yun realm thought of someone else.

He shouted to the God of War Li Jing.

get ready, the demon God's will skill is about to appear. There are two Demon God's will skills stacked together.

Hearing Feng Yun realm's call.

The war god Guild's members were shocked.

How could it be just right? the two bosses that the wind and cloud Guild was fighting were using the demon God's will skill at the same time.

Can't you just stagger a little?

A Demon God's will skill was not difficult to deal with for everyone.

The number of guilds supporting them was enough.

He could definitely heal her.

However, it would be hard to say if he could deal with two overlapping Demon God's will skills at the same time.

This was a damage that was greater than one plus one.

Moreover, it was a level 70 real name boss that could summon a Demon God's shadow.

He didn't know how terrible the damage would be.

However, it was too late to say anything now.

they had just informed each other of their positions.

The damage caused by the two demonic god phantoms had already been covered.

It wasn't just their surroundings.

All the players who were participating in the monster attack outside the Heaven's Gate fortress were injured by the demon God's Phantom.

f * ck, what kind of damage is this? it's taking 20000 HP in a second.

damn it, I only have 40000 HP. I can only hold on for two seconds. Support, quickly heal me.

"Add my A * s, how can I add all of them?"

after the two demonic god phantoms appeared.

The entire area outside Heaven's Gate seemed to have experienced a great extinction.

Countless players fell to the ground.

Even more than half of the thugs that had been summoned by the domineering King were quickly killed.

As for the five guilds 'defenders, they weren't much better than those people, only slightly better.

After all, they had Feng Yun realm's warning.

They pulled back the line of defense and tried to get closer to the support.

it was a pity that although the five guilds had enough support, they had enough.

However, he couldn't heal them.

the original defense line of 300000 to 400000 soldiers was instantly reduced to only 100000.

At this moment, the demonic God's apparition had yet to disappear.

The continuous damage continued.

Soon, more players would fall to the ground.

Subjugator, who was leading his men to attack the wind cloud Guild's defensive line, was suddenly dumbfounded.

He looked at his health, which was dropping rapidly.

However, Subjugator's HP was very high. He had over 100000 HP.

There was still a support behind him, healing him.

The two stacked Demon God's will skills dealt a lot of damage.

however, it was not enough to kill him.

However, even though the tyrant king wouldn't die ...

However, the hatchet men he had recruited did not have as much HP as him.

There weren't that many supports to heal them.

the players who had reached level 40 were better off.

After putting on the level 40 Cape.

Even for jobs with low defense, as long as the quality of the cloak was good enough ...

if he had a blue cape, he could raise his hp to 50000 to 60000.

However, many players had not even reached level 40 yet.

Those who had yet to upgrade their capes to level 40.

The upper limit of his HP was only 30000 to 40000.

the damage from the two demon god's will skills was stacked.

It only took two seconds to get a large piece of it.

not to mention, the domineering king had brought so many people with him.

There wasn't enough support at all, and they couldn't heal at all.

It was only two seconds, and some of the support players didn't even have time to react.

Many people had already fallen to the ground.

Even the supporting occupations themselves had fallen.

Logically speaking.

Against the demon God's will, this kind of continuous damage skill ...

As long as the auxiliary classes still had mana, they would definitely not die.

If he healed himself, would he still die?

However, the problem was that it was a level 70 boss with a real name.

The demonic god apparition that he had summoned was simply too fearsome.

10,000 damage per second.

Furthermore, it was two skills that were stacked together and released at the same time.

The support team was also weak.

Except for some of the Guild's elite support.

As he had already reached level 40, he had changed into a new cloak.

he raised his hp to the maximum and withstood the damage from the demon god's will skill.

As for those auxiliary professions below rank 40.

The upper limit of his HP was not high enough to begin with, and he was completely unprepared for it.

They were focused on healing someone else.

He would die if he wasn't careful.

The domineering King looked at the people around him, who fell to the ground as quickly as chopping firewood.

His entire person was stunned.

Even though many of the five guilds "players had fallen on the defensive line.

However, even if all the players from the five great guilds died ...

There were only three to four hundred thousand people.

Not to mention, not all of the five guilds had died.

There were at least 100000 players on the field, relying on the support's healing and their own constant potions to survive.

And the people that tyrant king had brought with him were in the millions.

By the time the demon God's will skill ended, there were not many people left.

Tyrant king looked over.

The millions of players that he had called over.

There were no more than five hundred thousand people still alive.

This was too ruthless.

A wave of boss skills came down.

Less than one-tenth of the people he had brought over were left.

what was he supposed to do?

The Overlord was completely dumbfounded.

Let these people continue to attack the five great guilds 'defensive line.

It was already good enough that they could keep their lives.

A round of stacked Demon God's will skills came down.

The players who were still alive only had a sliver of health left.

What kind of f * cking fight was this?

He would run to a safe place first and recover his HP.

after everyone had survived the demon god's will, they had already started to run in all directions.

They didn't dare to continue attacking the five guilds "defensive line.

Most of the five guilds 'defenders only had a sliver of health left.

And their numbers were much fewer than theirs.

However, no one dared to charge forward again.

This was too frightening.

They all knew that within the five guilds "defensive circle, they were definitely fighting the boss.

However, this BOSS was too strong.

Such a large area of effect damage.

And the damage was so great.

even if they could break through the five guilds "defense, they would still be able to escape.

But what could he do?

could they really defeat such a powerful BOSS?

His passion for fighting for bosses and obtaining divine weapon molds after being tricked by domineering King had long disappeared.

Besides, the boss was going to use its skills again.

Millions of people fell.

the remaining people's anger had long dissipated.

what kind of f * cking fight was this?

Let's just go back to our own homes.

He watched as the other players scattered in all directions.

There was nothing tyrant king could do.

He didn't try to stop her, nor did he try to persuade her.

Too many people had collapsed in a short time.

Everyone's hearts were scattered.

Moreover, Subjugator had no control over the other players.

Those people weren't members of the domineering aura Guild.

The domineering King simply couldn't control them.

They had responded to the call of the domineering King.

the original purpose was just to fish.

They wanted to see if there was a chance to steal a BOSS.

As for now, he could forget about the BOSS.

They hadn't even seen a single strand of the BOSS's hair.

Almost all of them died.

No matter how big-hearted a person was, they wouldn't dare to go up now.

Subjugator waved his hand helplessly as he looked at the Guild members who were still following him.

"Let's retreat and go fight the Spearman commander,"

after saying that, he left the scene with his men.

He had originally thought that this was an opportunity.

Feng Yun realm brought the other four guilds to fight the big BOSS together.

He excluded the other players.

Wouldn't that mean that he had offended everyone?

Everyone was envious. A real-name BOSS might drop a divine weapon mold.

The tyrant king took advantage of the situation and guided a wave.

It was a call to all players to come and steal the BOSS.

In his opinion, this was a sure-win situation.

The wind cloud Guild and the other four guilds were very strong.

But against all the players in the game ...

The strength of the five guilds was clearly not enough.

However, the domineering King had never expected this.

The Guild that had defeated them was not the wind and cloud Guild, nor was it the war god Guild.

It wasn't the other three guilds either.

They had been defeated by the boss.

The boss released a terrifying demonic will skill, directly summoning all the players from the domineering King.

More than 90% of them were knocked down.

such a terrifying damage simply subverted his imagination.

What Subjugator did not know was that it was two real name bosses that had used the demon God's will skill at the same time.

He still thought that it was just a skill cast by a boss with a real name.

He was also shocked.

Even Subjugator did not know about such a powerful boss.

What did they rely on to fight the boss?

In truth, tyrant king was overthinking things.

The demon's will skill that was cast by the two bosses together was extremely powerful.

However, Zhang Shan and the others who were fighting the BOSS basically did not fall much.

The wind and cloud Guild didn't say anything.

Even though they only had six support players in their team, they were still in the same team.

However, Feng Yun Qing Qing had a totem skill.

Moreover, they had all reached level 40, so they all had level 40 blue cloaks.

Even the person with the least HP had more than 50000 to 60000.

Relying on Feng Yun Qing Qing's totem technique and his own potions, he easily got through this wave of BOSS skills.

As for the other four guilds.

Although they did not have a skill like Feng Yun Qing Qing's.

However, their formation for the BOSS was also very powerful.

in addition to bringing a large number of cannon fodders.

They had brought a large number of support classes to fight the BOSS.

Therefore, higrain and biswood's Devil's will skills were very powerful.

However, not many of them had fallen.

the BOSS battle could still be fought.

After a wave of attacks from the BOSS ...

Wind and cloud blade said happily.

haha, the domineering King has run away. I didn't think that even an iron-headed boy like him would have a time when he would admit defeat.

"Can he not run? They only have a few people left. If they dare to continue charging, we'll find time to go over. Each of us can use a big move and exterminate them."

that's true. Anyway, we don't need to do it. Big Boss six-pipe can take on two bosses alone.

sigh, why is the domineering King so scared? if he had continued to charge, wouldn't that have been great? I would have been able to use my ultimate skill.

Feng Yun Kuang, who had just learned his ultimate skill today, said with a little regret.

don't think too much about it. Let's hurry up and kill the BOSS. After we kill the BOSS, we'll go and settle the score with Subjugator.

"That's right. After we're done with the BOSS, we'll go find Subjugator and settle the score. Damn it, this brat is actually trying to snatch the food from me. If I don't mess with him, he won't know how many eyes the horse King has."

that's right. After we kill the BOSS, we'll go for another wave.

The domineering King led the rest of the people away.

Everyone instantly felt no pressure. They happily killed the BOSS while discussing.

After killing the BOSS, he would go to the domineering aura Guild and make a big move.

In case this kid always liked to cause trouble.

He wanted to teach him a lesson so that he would have a deeper memory.

In the wave of BOSS skills just now.

Whether it was the top five guilds or the domineering aura Guild, many of their players had just fallen.

In the five guilds, other than the players who were fighting the boss.

There were at least three to four hundred thousand Guild players participating in the defense.

After a round of boss skills.

there were less than 100000 players left.

This included the players who had just been resurrected.

It was a heavy loss.

It was the same for tyrannical ambition.

Not to mention the others who had been incited by the domineering King.

Just domineering Aura's players had already lost over 60000 to 70000 players.

Even the domineering King left unwillingly.

Many of their guild members were still lying on the ground.

However, he couldn't find enough support classes to resurrect the fallen guild members.

He could only wait for the support's resurrection skill to cool down before resurrecting these people.

As for the reward for resurrection?

Don't think about this now.

There were so many people who had fallen just now, and there were people everywhere who needed help to resurrect.

Even if Subjugator offered a reward now, he wouldn't be able to find many helpers.

He might as well wait.

In any case, their Guild had enough support classes.

as long as they waited for two more rounds of cooldown, they would be able to revive all of their guild members.

Compared to the people involved ...

The other players who were fighting the bosses outside Heaven's Gate were the ones who suffered the real losses.

And what they had suffered was an undeserved disaster.

In the previous round, the two bosses 'will of the demon God was used.

almost all the players outside heaven's gate who were leading the spearmen had died.

There were only a few survivors.

To normal players, they had a lot of people.

Not only that, but he had not even reached level 40.

And they didn't even have a blue cape.

most of the players were still wearing green capes.

Strength-type players might be better off.

After all, the strength attribute would also increase the maximum HP.

As for those fragile professions ...

He might only have around 30000 HP.

Under the demonic will skill of the two bosses, they would fall to the ground in an instant.

Many of them were still attacking the Spearman commander.

In the end, they were not killed by the Spearman commander.

Instead, the entire team died from unknown damage.

The BOSS that he had gotten his hands on had flown away, while he was still lying on the ground.

One could imagine how depressed these players were.

all of a sudden, the world channel exploded with activity.

"f * ck, what just happened? why did i die for no reason?"

do you even need to think about it? it must be the demon God's will skill of the big BOSS. It's simply too powerful. It's killing everyone in the entire map.

"Damn it, do you have to be so ruthless? you won't even know how you died. It's simply ridiculous."

silly Bao, look at the battle records. I was killed by the demon's lower house member, higrain. You guys are the same, right? "

I'm not. I was killed by the demon's lower house member, biswood.

"Eh? What's going on? isn't it a BOSS?"

"f * ck, did two bosses use the demon god's will skill at the same time? He's simply not giving anyone a way out."

"there's no difference. even if there's only one big BOSS, we can't withstand the demon god's will skill. "

that's right. This monster siege event is not fun for us newbie players.

yeah, he fell to the ground for no reason. It's really too painful.

f * ck, I'm not going to participate in the second half of the next monster attack. The boss 'will of the demon God skill is a little too strong.

"We can't even withstand the damage from the aftershock of such a powerful BOSS. I really don't know how other people managed to kill the BOSS."

it's not strange. You can do whatever you want with a divine weapon. When you have a divine weapon, you can do it too.

I don't even dare to think about getting a divine weapon. I'm going to drop another level today. I'd better go and farm monsters.

"Those who have lost their levels are waiting for someone to resurrect them."

"How can you even revive the fundamentals? do you know how many people were killed by the BOSS's skill just now? Where are we going to find so many support players to revive?"

I don't care. I'll just lie down and raise the price. There'll always be a helper who'll take the order and come over to resurrect me.

I'll also lie down for a while. Losing a level is too painful. Now, it takes one to two weeks to level up, so it's fine even if I lie down for an hour.

The demon God's will skill of a real name BOSS was too powerful.

Damage swept across the entire area outside Heaven's Gate pass, knocking countless players to the ground.

Some of the players, in particular, had almost blown up the Spearman commander.

In the end, this happened.

he simply wanted to cry but had no tears.

However, they had no other choice.

In order to participate in the monster siege event, in order to kill the boss, they had to face all kinds of risks.

In fact, everyone already knew that this was a possibility.

After all, the demon God's will skill of a real-name boss had wiped out a large number of players.

It was not the first time it had appeared.

The same thing had happened in the previous two monster sieges.

However, everyone had the mentality of getting lucky.

Everyone thought that it would be fine this time. After all, the monster attack event had been revised.

The demon God's will skill of the real name boss was very powerful.

However, it only covered a single gate of a city.

The number of players who were defeated by the BOSS was not small.

However, the players outside the city gate were also fine.

The monster attack this time would be held outside Heaven's Gate pass.

Heaven's Gate only opened one city gate.

There were so many players gathered together.

Everyone thought that it was impossible for a BOSS to defeat so many players at once.

Perhaps this BOSS did not have the demon God's will skill.

In short, under all sorts of wishful thinking.

There were still many players who stayed outside Heaven's Gate to fight the BOSS during the monster attack.

However, the result subverted everyone's imagination.

All the players who participated in the monster siege event, as long as they stayed near the heaven's gate pass.

No one was spared. All of them were hit by the demonic will of the big BOSS.

Of course, after this lesson ...

He believed that there would not be many players participating in the next monster attack.

Even if they were to participate, they would only be involved in the first half of the journey.

When the big BOSS respawned ...

Those players would definitely not dare to stay outside of Heaven's Gate pass.

he really couldn't afford to be injured if he died mysteriously like this.

Chapter 470-taking two big moves

subjugator retreated to the outside of the five guilds 'defensive perimeter.

Although there were still some players who were watching.

However, these people would not be able to do much.

It was impossible for them to pose any threat to their boss fight.

as for the wei players who had been called over by li jing, the god of war, they were not there.

First of all, they couldn't come over. There were seven real name bosses in total.

Every boss had the demon God's will skill.

Other than the two that Zhang Shan and the rest were fighting, they had already used the demon God's will skill once.

The other five bosses had yet to cast it.

Furthermore, the boss 'will of the demon God could be used more than once.

If they had been slower, each boss might have been able to use the demon God's will skill three or four times.

There were so many bosses and so many powerful skills.

It was better for the Wei players to not come over.

Even if he came, he would have died from unknown injuries.

What was the point of this?

Therefore, after the tyrant king left, Li Jing told the Wei players not to come over to help.

It was no longer necessary.

Without the threat of the other players, they had no more concerns and attacked the boss with full force.

Other than the wind and cloud Guild.

The other four guilds had transferred quite a bit of manpower from the defensive line to join the ranks of fighting the BOSS.

After all, none of them could tank the BOSS's damage.

They needed a lot of cannon fodder to stall the BOSS.

In the beginning, he had too many concerns.

They didn't dare to move too many people from the defense line.

but it was different now.

There was no one else that could threaten their BOSS fight.

Their current goal was to defeat the BOSS before the event ended.

After all, there were only ten minutes left before the event ended.

the fastest players among them were the war god guild.

it was the team led by the god of war, li jing.

However, they had only just reduced the boss's health to 80%.

As for the other four teams, they didn't even have anyone who could take the boss 'damage.

They fought even slower.

Almost all of them had just reduced the boss's health by 10%.

Other than Li Jing's team.

With their current progress, it was unlikely that they would be able to defeat the boss before the event.

therefore, they had to step up their efforts.

They were constantly transferring manpower from the defensive line.

The cannon fodder continued to attack.

as for the other main attackers, they usually had to avoid the BOSS's attacks.

They had to constantly adjust their positions.

So much so that he couldn't deal much damage.

now, they were all going all out.

No matter who it was, when faced with the BOSS's attack, they would not even try to Dodge.

Just like the players from wind and cloud Guild, they stood still and dealt damage.

Although many of the main players would be defeated by the BOSS after a few attacks, the BOSS would still be able to defeat them.

but it didn't matter.

They had more people.

If they fell to the ground, they would either revive and continue to attack, or someone else would take their place and continue to attack the BOSS.

anyway, the damage could not stop.

He maintained full damage output.

it didn't matter how many people died or who died.

...

Even the boss of a Guild was no different from an ordinary fighter.

they stood in front of the boss and attacked it continuously.

In order to kill the BOSS, in order to obtain the divine weapon mold.

these guilds had put their lives on the line.

compared to the other four guilds, they were fighting with their lives on the line to fight the BOSS.

the wind and cloud guild was much more relaxed.

With Zhang Shan tanking the damage from the two bosses.

The others didn't even need to do anything.

He just needed to deal the maximum damage.

This made the players from the other guilds who were fighting the BOSS around them extremely jealous.

at the same time, they were even more determined to defeat the BOSS.

...

In their eyes, Zhang Shan's strength could be attributed to many factors.

However, the divine artifact was definitely the main reason.

As long as they killed the BOSS, there was a high chance that it would drop a divine weapon mold.

In that case, it wouldn't be long before they could get their hands on a divine weapon.

With the divine weapon, even if they could not be as strong as Zhang Shan.

But the gap would definitely be reduced by a lot.

In order to obtain the divine weapon, they had to defeat the BOSS.

Even if the entire Guild had to die, they wouldn't hesitate.

Zhang Shan kept shooting at the BOSS, while observing the progress of the other guilds.

Seeing their desperate posture ...

He couldn't help but sigh.

in new world, the difficulty of fighting bosses was really high.

if the wind and cloud guild wasn't, with a bug-like person like him around, they would probably be the same as the other guilds.

Fighting a BOSS required one to risk their lives.

If they didn't go all out, it would be impossible to take down a real name BOSS.

Under their relentless attacks.

The health of the two real-name bosses dropped rapidly.

Very quickly, the BOSS's health was reduced by more than 40%.

This was also because of these two bosses.

It was a level 70 boss with a real name.

His HP was ridiculously high.

Otherwise, they would have been beaten to death.

Zhang Shan's ejection damage could hit both bosses at the same time.

It was truly terrifying.

After just five minutes of fighting, the two bosses had already lost more than 40% of their health.

and this was after they had all fallen once.

It took a little time to call people over to resurrect. Otherwise, they could have fought even faster.

The boss's health was getting closer and closer to half.

Windcloud blade asked.

what are we going to do when the boss uses its ultimate skill? are we going to retreat early like we did before? "

"of course. do you want to take the damage of a big move?"

six tubes is the only one left. Can he take the damage from the two bosses 'ultimate skills? he better not die.

he'll definitely be fine. The six-barreled Big Boss is very fierce when he descends to the mortal world.

it's hard to say. These two bosses 'ultimate skills are continuous damage. I'm not sure if the six-barreled boss can completely withstand it.

"What did six-man Butler say?"

Asked Feng Yun realm.

They would soon be able to reduce the boss to half health.

The boss's ultimate skill was a problem that had to be considered.

the normal damage of the two bosses, zhang shan could almost tank it alone without using his big move.

However, the damage of a high-level skill was completely different.

In fact, Zhang Shan was not sure if he could withstand the damage from the two bosses 'ultimate skills at the same time.

Even though the skills of these two bosses were not that good, they were still very powerful.

However, no matter how weak it was, it was still a BOSS with a real name.

and it was a level 70 BOSS with a real name.

Its attributes were terrifyingly high.

The most important thing was that the two real name bosses 'ultimate skills were continuous damage that lasted for five seconds.

There was a problem here that Zhang Shan could not be sure of.

That was higrain's ultimate move, but he couldn't be sure what it was exactly.

Zhang Shan could not understand the description of the skill.

Higrain's ultimate move was to transform into thousands of clones.

When the boss used its ultimate skill, the doppelganger that was created would inherit all the attributes.

This was not a problem. It was easy to understand.

However, higrain had created so many doppelgangers.

Would they all attack Zhang Shan?

If there were only one or two doppelgangers that could attack Zhang Shan, then there would be no problem at all.

The attack of a clone was equivalent to double the damage.

The attacks of the two clones dealt double the damage.

however, the skill description said that higrain had thousands of doppelgangers.

If these clones could all attack Zhang Shan, then he would be dead in seconds.

Not to mention the thousands of clones, even if there were ten or so clones, they would all attack Zhang Shan at the same time.

He might not be able to take it.

Even if Zhang Shan activated the God's descent skill and increased his maximum HP to more than 1.3 million.

It was impossible for him to face the attacks of more than a dozen real name bosses at the same time.

as for biswood's big move, it was easy to understand.

[tornado slash] was a proper skill that dealt five times the damage.

With biswood's attack power of 100000.

The theoretical damage of [tornado slash] was 500000.

Even though the damage would last for five seconds.

But this wasn't too difficult.

After activating God's descent, not only had Zhang Shan's maximum health increased, but he had also increased his health points.

His attack power and attack speed would also increase greatly.

At that time, his lifesteal effect would also increase by several times.

Although the damage of biswood's big move was also very high, it was not a threat to Zhang Shan.

The only thing he wasn't sure about was what higlari's ultimate move would be like.

However, under normal circumstances, it was unlikely that all of his clones would attack Zhang Shan.

if that was the case, it would really be too nonsensical.

Zhang Shan guessed that at most three to five of his clones would be able to attack him at the same time.

Based on their past experience with bosses ...

a BOSS's ultimate skill would usually deal five times the damage.

only a few bosses 'ultimate skills would deal ten times the damage.

They had never encountered anything more ferocious than this.

For a fake real-name BOSS like higlari, its ultimate skill couldn't possibly be too strong.

I'll just take it as five times the damage.

If there were two bosses, each of them had a big move that dealt five times the damage and lasted for five seconds.

After Zhang Shan had activated his divine descent, he should still be able to hold on.

After careful consideration, Zhang Shan said to Feng Yun realm.

it's fine, I should be able to hold on. When the BOSS's health drops to half, you guys can retreat first.

"Alright, we'll do that for now."

As they continued to attack.

Higlari and biswood's health quickly reached 50%.

Feng Yun realm waved to the others and said,

"Let's retreat first."

After Feng Yun realm retreated with his other party members.

Only Zhang Shan was left on the scene, attacking the BOSS alone.

The damage he dealt bounced back and forth between the two bosses.

After a while, the two bosses 'HP had reached the critical point of half.

Zhang Shan quickly activated his God's descent skill.

A violent amount of damage was dealt to the BOSS.

After activating his ultimate skill, Zhang Shan's theoretical damage had exceeded 220000.

Even if it was because the BOSS had the Holy demon's protection, which reduced the damage by 50%.

The damage that Zhang Shan dealt each time still exceeded 110000.

moreover, each shot would deal 12 damage.

Such high damage was simply outrageous.

After Zhang Shan had activated his God's descent skill.

Not only was his attack power terrifyingly high, but his attack speed was also almost doubled.

Previously, Zhang Shan could probably fire two to three shots per second.

After activating his ultimate skill, Zhang Shan could deal about five shots of damage per second.

In an instant, the two bosses 'health was reduced to half.

When his HP dropped to 50%.

Higrai and biswood used their big moves one after another.

Biswood was the first to cast whirlwind slash.

When his health dropped to 50%, biswood waved his broad sword.

he swung the big knife in a big circle.

The blade light spread out like a Gale.

In an instant, over 400000 damage points appeared above Zhang Shan's head.

Not only that, but after biswood released his big move ...

Higrai also began to cast his ultimate skill.

With a wave of its long spear, countless higlaris appeared in all directions.

In front, behind, left, and right of Zhang Shan, there were two of higrai's doppelgangers. They were waving their long Spears and stabbing toward him.

Holy sh * t, there were actually eight clones attacking him at the same time.

Seeing this, Zhang Shan could not help but feel guilty.

This was a little f * cking fierce.

Thinking of this, Zhang Shan did not hesitate to activate his fanaticism skill, increasing his attack speed by 100% for six seconds.

Violent damage instantly shot out from Zhang Shan's gun.

Zhang Shan's current attack speed had already reached an exaggerated level.

Zhang Shan himself could not even calculate how fast his current attack speed was.

How many shots could he fire in a second?

Anyway, it was super fast.

The two bosses' ultimate attacks landed on Zhang Shan at the same time.

It almost emptied his HP.

One had to know that after activating his ultimate skill.

Zhang Shan's current HP had already exceeded 1.3 million.

With such a high HP, he still couldn't take the damage from two real name bosses' big moves at the same time.

however, the BOSS's damage was very high.

But Zhang Shan was even more ferocious.

after activating his ultimate skill and fanatic skill ...

Zhang Shan's damage was terrifyingly high.

When highlari and biswood had beaten him to a state of empty health.

It relied on the violent damage and the additional lifesteal effect.

in an instant, zhang shan's health was back to full.

the BOSS's ultimate skill dealt damage for five seconds.

It would only deal one damage per second.

In other words, within a second.

Zhang Shan was relying on the lifesteal effect to reduce his health.

from an empty state, it was absorbed back to full health.

it could be seen how terrifying the damage that zhang shan had dealt was.

He looked at his health two times in a row and pulled it back from empty to full.

Zhang Shan was completely at ease.

Although higrain's ultimate move was a little out of his expectations.

Initially, Zhang Shan had thought that at most, there would be three to five doppelgangers that could attack him.

In the end, after higrain used his big move, he was still in shock.

There were actually eight clones attacking him at the same time.

He almost screwed him over.

Fortunately, the deity's descent skill was powerful enough.

The God's descent was a powerful skill that was a little too overpowered.

It was a pity that the cooldown time of his ultimate skill was a little long.

It would be perfect if the cooldown time could be shortened.

Of course, Zhang Shan was just fantasizing about it.

Zhang Shan was enduring the damage from the two bosses' ultimate skills.

The hand cannon continuously shot out bullets, dealing a violent amount of damage.

Five seconds later.

Biswood's whirlwind slash disappeared.

Following that, higrain's thousands of doppelgangers also disappeared without a trace.

A wave of the boss's big move was just endured by Zhang Shan.

After the big move ended.

The other party members quickly moved forward and used all kinds of skills on the boss.

Windcloud blade exclaimed as he brandished his divine weapon, the battle axe, and continuously hacked at the boss.

Six-barreled is getting more and more insane. He's taking the damage of two real-name bosses' ultimate skills at the same time and is still fine.

"What's so strange about that? The power of the six-barreled boss has long exceeded my imagination. I'm neither jealous nor envious."

"Haha, the Buddha style is not bad."

"Speaking of which, the big move of the six-barreled boss is really powerful. It's much better than those big AoE skills."

"Yes, whether it's fighting a BOSS or fighting with others. The Hunter's skill, [God's descent], can tank damage and deal damage. It's much more useful than other classes' big moves."

don't say anymore. Why do I also play as a Hunter? I don't have an ultimate skill book.

One of the senior hunters in the team said gloomily.

don't panic, brother. We don't have any ultimate skills either.

keep it up! Maybe after we kill these two bosses, they will drop an ultimate skill book.

no, I prefer divine weapons to ultimate skills.

of course. A divine weapon is much more difficult to obtain than an ultimate skill book.

that's true. A normal red BOSS might drop an ultimate skill book, but the chances of a God-tier quest item dropping are too low.

don't worry, there are two real-name bosses this time. They'll definitely drop a divine weapon quest item or a divine weapon mold.

"It's best if a few of each type drops, hehe."

"f * ck, you guys are really daring. it's already very good if you can get one or two divine weapon task items or molds, and you actually want a few more?"

"What's wrong with thinking about it? the more daring a person is, the more fertile the land is."

"you're right. if you dare to think and do, quickly put the divine artifact into the bowl."

you guys are really too much. The BOSS hasn't even been killed, and you're already thinking about dropping a divine weapon.

"this is called planning in advance, hehe."

"no, you guys call this a dream."

haha, just treat it as a dream. People still have dreams.

"damn it, are dreams and dreams the same thing?"

"More or less."

"It's scary to be uncultured."

After a round of the BOSS's ultimate skills, everyone continued to surround the two real name bosses and attack them.

Even though he was killing the boss and blowing water at the same time.

However, they didn't dare to delay their attacks.

The boss's health was dropping rapidly.

In order to worry about the boss, they would even cast a second wave of big moves.

Now, everyone's attacks were even more intense.

Other than the few ultimate skills, the rest of the skills were immediately thrown at the boss as soon as they were on cooldown.

He did not dare to delay at all.

The boss's ultimate skill was no joke.

Even though higrain and biswood, the two real name bosses, had a little bit of skill, they were not as good as the others.

However, as a real-name boss ...

The damage of their big moves was not vague at all.

If the boss were to use its ultimate skill again ...

They wouldn't be able to do it.

Zhang Shan's God's descent skill had already been used.

if they were to face the boss's ultimate again ...

It was impossible for him to hold on any longer.

He would definitely fail.

therefore, even though everyone was joking, they were still in a bad mood.

However, they were all very nervous.

He hoped that he could defeat the BOSS as soon as possible.

Don't drag it out, wait for the BOSS to use his big move again.

Based on their past experience, there was no fixed interval between the BOSS's two ultimate skills.

however, it would usually take more than three minutes.

Most bosses had an interval of five to ten minutes between their ultimate skills.

in three minutes, they would definitely not be able to deal 50% of the BOSS's damage.

However, he could still fight for five minutes.

they had to defeat the two real-name bosses within five minutes.

That was a very high possibility.

It could prevent higrain and biswood from using their big moves again.

if they were really unlucky.

The interval between the two real-name bosses' ultimate skills was exactly three to five minutes.

There was no other way.

In that case, they could only transfer more people from the defense line to be cannon fodder.

After Zhang Shan fell to the ground, they temporarily held the boss back.
