

Passive Skills 49

Chapter 49 Elite team leader

Feng Yun realm and the rest ran over.

Everyone observed the situation of the elite monsters and the BOSS.

the elite monsters shouldn't be the same. It's just that there are more of them than before. There are more than 50 of them. I don't think we can handle them as a team, right? "

"Let's take it slow. If the two teams fight together, when the system calculates the contribution to the defense of the city, I'm afraid it will only count the team that dealt the last damage."

"That's true. If that's the case, it would be too unfair for the team that didn't get the last hit."

"let's split up. you guys go find the other purple bosses, and we'll fight this orange one. i'll give you guys a red packet after the event."

Feng Yun realm said in the Guild channel.

After all, the boss had been found by another team, even though they might not be able to defeat it.

However, he couldn't just take over without saying anything. That wouldn't be good. Feng Yun realm was still quite a good person.

"Okay, boss, you guys fight, we'll go find the purple ones to kill."

After everyone had finished observing the situation of the monsters.

it's not easy for me to pull this boss first, "the Secretary said. if I rush up, the boss and more than 50 elite monsters will hit me once. I won't be able to take it.

"Don't be afraid. When you're charging at the boss, we'll charge at the smaller monsters and help you pull them away."

"That's true, but I'm afraid you guys won't be able to pull away many monsters in a short time."

that's true. Even if each of us can pull one monster, we can only pull around 40 monsters at most. Moreover, mages aren't suitable for pulling monsters, and brittleskin runs slow.

yeah, if that's the case, he can only pull less than 30 monsters at the start. If the rest of the monsters are all killed by the little Secretary, he won't be able to handle it.

"I'll do it. I'll attack first and separate the boss from the monsters. The Secretary will then use charge to pull the boss."

Zhang Shan thought for a moment and said.

Since the boss ran much faster than the minions, they could easily separate the elite monster from the boss.

alright, you go first. After you pull the boss out of the monster horde, I'll charge at the boss. The rest of you, stop the small monsters.

Zhang Shan didn't waste any words. After attacking, he turned around and ran.

Soon, the boss took the lead and chased after him. The other elite monsters followed behind and they were separated.

The Secretary used charge to pull the boss, and a few support came forward to help him heal.

The others intercepted the elite monsters that were chasing after them, perfectly dividing the battlefield.

After the Secretary pulled the boss, Zhang Shan quickly turned to attack the elite monster behind him.

However, there were still many people in the team who couldn't withstand a few hits from the monsters and were being chased around.

This wouldn't do. Running around like this was too inefficient. Who knew how long it would take to clear the small monsters?

"If you can't handle the elite monsters, run to me. Get two supports to help me heal. I'll tank the small monsters."

Zhang Shan looked at the chaotic battlefield behind him and shouted.

After hearing Zhang Shan's call, those fragile jobs pulled the small monsters and ran over to him.

He pulled the aggro of all the elite monsters that passed by him, and in an instant, more than ten small monsters began to attack him.

Fortunately, they had enough support, so they could still hold on even if two of them helped him heal.

Moreover, with his powerful damage output, he could quickly defeat them one by one. The others did not have to pull the monsters and run around, so they could join in the attack.

The efficiency of clearing the small monsters was much higher than before.

"brother artifact is still amazing. the purple cape is so awesome. the brittleskin can even be used as a tank."

"that's for sure. if they can even take on a red boss, what's a bunch of elite monsters to them?"

I really want a purple cape. If I had a purple cape, I'd be able to fight a bunch of elite monsters.

put your pillow higher when you sleep at night. You'll have all kinds of dreams.

"Stir-fry, why don't you think about it?"

"Hehe."

stop bullshitting. Quickly clear the small monsters and then fight the boss. It has 10 million HP, it'll take a long time.

what are you afraid of? with brother artifact around, no matter how strong the boss is, it will still take ten minutes to kill it.

Zhang Shan was stunned.

He was a little speechless. It would take him at least half an hour to defeat a boss with 10 million HP. By then, the city defense event would have ended.

The group of players cleared the elite monsters faster and faster. With so many people attacking at the same time, the effect was obvious. In the beginning, he could only kill two or three in a minute.

As more and more players freed up their hands, they were able to take down five or six elite monsters in a minute.

guys, good luck. Let's clear the small monsters in 10 minutes and then take down the BOSS in another 10 minutes. We still have time to find the next BOSS.

don't save those who have skills. There's no fight, so what's the point of saving skills? "

"Didn't they say that after the event is over, they're going to clear the people from the heaven and earth Guild out of Danyang city?"

those trash from the heaven and earth Guild, do you really think they're a dish? if they dare to fight head-on, brother divine equipment can take them all down with a support.

that's true. One shot for one kill. Brother artifact's damage is so high, his attack speed is fast, and his range is far. Anyone who dares to fight him will have no way to survive.

let's finish the city defense event first. After the event, kill anyone from the heaven and earth Guild who dares to leave the city. Arrange for people to guard the four city gates.

...

Feng Yun realm said.

He was also disgusted by the heaven and earth Guild. They always made moves when they couldn't beat him, which was very annoying.

In any case, the wind and cloud Guild had already recruited 1000 people. The more people there were, the more powerful they were. It was not difficult to deal with the people from the world Guild.

This was the advantage of being ahead of other guilds. They could quickly expand their Guild's team, have more people than attack, and even if their equipment and skills were lacking, they could still crush the opponents.

Not to mention, their overall equipment was not bad.

As long as they were willing, the wind cloud Guild could completely dominate Danyang city for a long time.

boss, you're so domineering. I'll keep an eye on them. I'm already level 15 anyway, and it's still too early to level up to level 20. Let's find some fun first and play with the trash of the heaven and earth Guild for two days.

I'll come too. As a thief, this is the only time I have a sense of presence.

let's not talk about this for now. Let's clear the small monsters quickly. I want to be in the top ten of the contribution list. I want to open the chest. I want to get a divine weapon.

"you fool, you can get a treasure chest even if you don't do anything."

"Hype! Will you get anything good from the one-star Treasure chest? I'll need at least a 3-star Treasure chest to have a chance."

...

look at you. Even if I give you a 5-star Treasure chest, it'll still be trash.

"Bar spirit."

"Hehe."

Right now, only Zhang Shan and Feng Yun realm were in the top ten of the Guild contribution list.

Needless to say, Zhang Shan's damage output was unparalleled.

After Feng Yun realm reached level 15, he was basically wearing a full set of orange equipment. With the addition of the heavenly Fire meteor skill, his damage output was also very explosive.

If not for the freak Zhang Shan, there really weren't many people who could compare to him in terms of damage output.

Currently, on the contribution board, Zhang Shan was ranked first, Feng Yun realm was third, and in second place was war god Lu Bu, a member of the war god Guild. It was said that he was a Berserker.

As for the other members of the Guild, they were currently ranked at the bottom ten.

The war god Guild had always been the number one Guild in the gaming world. They had occupied the number one spot on the Guild rankings for a long time, and no one dared to touch them.

Their strength and popularity were obvious. If it wasn't for the wind cloud Guild's Zhang Shan, they wouldn't be able to compare to them at all.

they didn't know if the wind and cloud guild would have a conflict with them in the future. the strength of the number one guild was no joke.

Fortunately, it was said that Feng Yun realm had a good relationship with them. Moreover, war god Guild was not only in a different city from them, but they were even in a different country.

The God of War Guild had settled in Wei Kingdom's an Yi city. For a long time, they would not have any contact with the wind cloud Guild.

There wouldn't be any chance for conflict, so he didn't have to worry about this for the time being.

He wondered what other functions would be available in the New World as the players 'levels increased.

for example, guild wars, city wars, country wars, and so on.

He was looking forward to it.
