

Passive Skills 491

Chapter 491 He was the only one left

Under the continuous attacks of the group of people, the HP of the demon City Lord Brooks was very high.

However, they were still being beaten up by them.

The main reason was that Zhang Shan's damage was too high.

Each time he fired, twelve lines of damage would appear on the two heads of the demon City Lord.

Even if it wasn't a critical hit, every shot he fired would deal more than 700000 damage.

Furthermore, Zhang Shan's attack speed was extremely fast.

Under normal circumstances, he could deal more than five shots of damage in two seconds.

Zhang Shan made a rough estimate.

It didn't count as a critical hit.

With his normal damage output, he could take out hundreds of millions of HP from the demon Castellan within a minute.

This amount of damage was terrifying.

in addition to the damage dealt by the others, it was also very impressive.

Therefore, even though the demon City Lord Brooks 'health was very high, his health bar was still low.

He was still being beaten up.

At the very least, it would be much easier to defeat than the commander of the garrison.

Zhang Shan said to Feng Yun realm as he looked at the demon City Lord's HP which was dropping rapidly.

"Boss, why don't you ask the support to withdraw a few people first and leave two or three people behind to heal me? i'm afraid that when the demon city lord uses chaotic blade cut, he will kill the support."

There was a reason for Zhang Shan's worry.

Although the damage dealt by the demon City Lord's slash was also considered high, it was not a big deal.

however, zhang shan was under the passive support of catapulting.

His lifesteal efficiency was very high.

Even though he couldn't do it, he was completely self-sufficient.

But it wasn't too far off.

As long as he had two or three supports to help him recover, it would be enough.

He didn't need much support and just kept healing him.

There was no need for that.

The main thing was that Zhang Shan was worried about the demon City Lord's chaotic slash skill.

Zhang Shan could not quite understand what kind of damage mechanism the demon city's chaotic slash skill would have.

However, in order to prevent any accidents, it would be better to keep a portion of the support.

He couldn't let the demon City Lord wipe them all out.

Hearing Zhang Shan's words, Feng Yun realm nodded and said.

"Sure, as long as you can handle it."

after feng yun realm finished speaking, he arranged for the other support to retreat.

Only the three support players were left on the scene, healing Zhang Shan.

At this time, the others also complained.

"This Demon City Lord's skills all feel ridiculous."

that's right. That chaotic slash skill feels like a lottery. Whoever gets it will be unlucky, hehe.

"Haha, that seems to be the case."

but the problem is, how many targets will this chaotic slash cut, and what is the damage range? "

"Who knows? the skill description didn't say anything."

sigh, we can't let the demon City Lord kill us all with a single chaotic slash.

that's impossible. Chaotic slash is only a small skill. It shouldn't be that powerful.

"Why are you thinking about such useless things? anyway, we can't avoid this skill. We can't just not attack the BOSS."

"That's true, let's leave it to fate."

did you guys see the demon City Lord's big move? it feels a little too fierce.

it's nothing. Even if it's not a powerful big move, we can't take it. It has nothing to do with us.

"Haha, you're right. It doesn't matter how powerful the big move is, as long as the six-barreled boss can withstand it. We don't care."

"That's true. The BOSS's ultimate skill has nothing to do with us anyway, hehe."

As they blew water, they continuously dealt rapid damage to the demon City Lord.

Under everyone's continuous attacks, the blood of the demon City Lord Brooks was quickly reduced by 10%.

When his HP dropped to 90%.

The demon City Lord Brooks seemed to have suddenly disappeared from Zhang Shan's eyes.

...

Like a Phantom, he shuttled through the group of people.

The speed of the demon City Lord was too fast. Zhang Shan could not even lock onto him and attack.

He couldn't even see clearly.

Zhang Shan could only see a shadow waving a knife continuously, cutting down their people.

until the demon city lord returned to normal.

Only then did Zhang Shan lock the damage onto it again.

However, in that instant, more than twenty of them had been cut down by the demon City Lord.

Was this the demon City Lord's chaotic slash skill?

It felt like a f * cking Phantom kill.

There weren't many of them who participated in the BOSS fight to begin with.

The battle had just started, and more than 20 of them had been killed by the demon City Lord.

...

It made everyone very depressed.

At this moment, Feng Yun realm was also lying on the ground.

Just now, he had also hit the jackpot and was cut down by the demon City Lord's chaotic slash skill.

the only fortunate thing was that none of the supports died.

Not only did the support players who had retreated earlier not fall to the ground, but they also had a lot of equipment.

Even the three supports, who had been healing Zhang Shan, were not cut by the demon City Lord's chaotic slash.

It had to be said that they were quite lucky.

Seeing that Feng Yun realm was on the ground, the few support players who were on standby outside were ready to use their resurrection skills to revive Feng Yun realm.

However, Feng Yun realm rejected him.

Feng Yun realm said to everyone.

it doesn't matter if we all fall, but six-barreled and the support can't fall. We'll save the support's resurrection skill for the time being to save each other.

that's right. As long as there's a support, six-barreled boss can beat the demon City Lord to death.

these words were very true.

The support's resurrection skill could not be used recklessly now.

the support's [resurrection] skill had a long cooldown time.

Once it was used, it would take five minutes before it could be used again.

in order to ensure that there would always be a support alive, zhang shan had previously deliberately let a portion of the support retreat.

He was worried that they would be killed by the demon City Lord's random slash skill.

If the support was divided into a few parts.

Even if a portion of them were cut down by the demon City Lord, it wouldn't matter much.

The backup supports could quickly take over and help Zhang Shan heal. At the same time, they could revive the fallen supports.

In this case, the seven or eight support classes present were divided into two or three groups.

After they were knocked down, they took turns to go forward and heal Zhang Shan.

At the same time, they could resurrect each other.

that would do, and he would try his best to keep the support around.

Of course, in order to achieve the desired effect, he had to do it.

The support resurrection skill could not be used casually.

Otherwise, if the other support fell to the ground and the resurrection skill was on cooldown, it would be a big deal.

as for the others, they were all cut down by the demon city lord.

In fact, the impact was not big.

Although they could also help deal a lot of damage.

However, the main damage output still had to be dealt by Zhang Shan.

It didn't matter much even if the others all died.

In any case, the damage to the others was just adding flowers to the brocade and not very important.

As long as Zhang Shan was still alive.

He brought along a few support classes and could blow up the demon City Lord.

And it didn't even take too long.

one had to know that with the passive enhancement of ejection.

Just in the usual way of dealing damage, Zhang Shan could deal hundreds of millions of damage in a minute.

If one were to include Zhang Shan's explosive skills and all sorts of critical hit passive skills.

On average, the damage he dealt every minute should be more than 200 million.

The demon City Lord had a lot of blood.

It had reached an exaggerated five billion HP.

However, against Zhang Shan's violent output, the blood of the demon City Lord was nothing.

Even if he was alone, he would only need 20 minutes at most to blow up the demon City Lord.

Hence, damage output was never a problem.

The problem was to ensure that Zhang Shan would always be alive until the demon City Lord was destroyed.

In order to ensure that Zhang Shan was still alive, there had to be a support profession.

If there was no support to heal him.

Zhang Shan alone would not be able to take on the demon City Lord.

Even though he had the passive buff of catapulting, his lifesteal effect was still able to suck him up.

however, this was still not enough.

This Demon City Lord, Brooks, was really a little too fierce.

Even though Brooks 'single damage wasn't considered too strong ...

it was less than 200000 yuan.

he was not much stronger than the red bosses that were more powerful.

However, the four-armed Brooks 'attack speed was simply too fast.

Brooks 'attack speed was almost the same as Zhang Shan's.

Within a second, he could deal two or three slashes of damage.

one had to know that zhang shan had the support of various items and skills, and he had added all his points to agility.

Only then could he increase his attack speed to such a level.

The fact that Brooks 'attack speed could actually catch up with him was an exaggeration.

Brooks 'attack speed was at least twice as fast as other normal bosses.

With one shot, Zhang Shan could drain more than 100000 blood.

However, a slash from Brooks's blade would reduce his HP by nearly 200000.

If both sides had similar attack speeds.

If he had to rely on himself to suck blood, Zhang Shan would not be able to last for long.

Therefore, he needed a healer to help him heal.

That was why Zhang Shan was able to withstand the damage from the demon City Lord Brooks.

only if the support survived could this BOSS battle continue.

In a short while, the demon City Lord's health was reduced to 80%.

A huge demonic Phantom slowly rose from behind Brooks.

Everyone's HP started to drop rapidly.

losing 20,000 hp every second was terrifying.

Almost at the same time the demonic god apparition appeared.

Feng Yun Qing Qing placed a totem pole in the middle of the crowd.

It increases everyone's health recovery speed.

even with the totem pillar's recovery effect.

however, the demonic god apparition summoned by the demon race's city lord, Brooks, was simply too powerful.

There were still many people on the field who simply couldn't hold on.

They kept shouting.

"Hurry up and heal me, I'm going to die."

The five who stayed at the back, as backup support classes, quickly went up to heal the others.

everyone did not have to worry about being cut down by the demon city lord's chaotic slash.

The reason was simple. Right now, the demon City Lord was summoning the demon God apparition.

The BOSS did not know how to use two different skills at the same time.

Fifteen seconds later, the demonic God's Phantom behind Brooks disappeared.

Almost at the same time the demonic god Phantom disappeared.

The demon City Lord brandished his four large blades and turned into a Phantom as he charged into the crowd.

Brooks used another wave of random slash skills, cutting down more than twenty of them.

Other than the hatchet man, two of the support who had been healing Zhang Shan had also been cut down.

Standing at the back, the substitute support quickly stepped forward and added blood to Zhang Shan.

He also revived the support that had fallen to the ground.

The demon City Lord's wave of Demon God's will skill was very powerful.

But none of them fell because of this skill.

however, the demon city lord's two random slashes were truly too ruthless.

In total, they had more than forty people.

Now, other than the eight auxiliary classes, there were less than 20 fighters still alive.

Without a doubt, after the demon City Lord's next wave of chaotic slash, Zhang Shan would probably be the only one left.

Such a situation made everyone speechless.

"F * ck, we've only lost 20% of our health, and we're all going to die? Then what's the point of fighting?"

"Brother, don't be so excited."

"That's right, why are you so excited? isn't the six-barreled Big Boss still alive? As long as the six-barreled boss is alive, it's not a problem to defeat the boss. There's no difference whether we're Dead or Alive."

brother, you have to be clear about your position. We're just slackers. Even if we all fall, it doesn't matter much, hehe.

"Alright, you guys have a good attitude."

"So what if I have a bad mentality? Don't tell me you can still get up and fight with the demon City Lord for 300 rounds?"

sigh, I'd better just lie down and wait for Big Boss six-barreled to blow up the demon City Lord.

"Hehe, this is called lying down to win."

The demon City Lord had cut down more than 40 of them in two waves of random slashes.

This was not all.

The key was that the demon City Lord's chaotic blade skill had a very short casting interval.

The interval between the two skills was only slightly more than a minute.

At this rate, the demon City Lord could at least use chaotic blade cut ten times.

This was the rhythm of him cutting down all the others.

As expected, after another minute.

the demon city lord brooks once again turned into a phantom.

A wave of chaotic slash skills had almost cut down everyone else.

Even the three supports who were healing Zhang Shan all fell to the ground.

The support standing at the back quickly went forward to add blood to Zhang Shan.

He also revived the three support classes that had fallen to the ground.

Zhang Shan observed the situation.

He felt that it would not work if this continued.

If this continued, the supporting classes would all die very soon.

Because there was no other target by his side now.

Every time the demon City Lord used the chaotic slash skill, he would definitely hit the support.

If that was the case, the healer that healed him would definitely fall to the ground.

On average, three supports would fall every minute.

If that happened, their resurrection skills would soon be insufficient.

In other words, as long as the demon City Lord used a few more rounds of chaotic blade slash, he would be able to kill the boss.

All of the support classes would probably fall to the ground.

No one could resurrect them.

Zhang Shan said to the support behind him.

“Those who have just used their resurrection skills, quickly get someone else to come over.”

“Change? Who?”

the people blocking the gate, their resurrection skills should not have been used yet. Hurry up and replace them. Otherwise, you won't last long.

“Oh, I understand.”

in total, they had more than 20 helpers, and they were attacking the demon city together.

However, in order to block the gate just now, he had left more than a dozen assistants at the two gates.

However, the support on the other side only needed to heal the meat shield blocking the door.

He probably didn't need to use the resurrection skill.

thus, zhang shan was thinking of letting the support who had already used the resurrection skill on this side to exchange with the goalkeeper.

Only by rotating like this would they have a chance to last until the end.

Otherwise ...

The demon City Lord used the chaotic slash skill with every wave.

They would defeat all three of their supports.

In at most four to five minutes, the resurrection skills of the eight support players would all be on cooldown.

In that case, the next wave of chaotic slash would come.

If another support was cut down, there would be no way to revive.

if he could not continue to revive and assist.

They only had eight supports here.

He simply couldn't hold on for too long.

Just like that, under Zhang Shan's arrangements.

After every wave of chaotic slash, three support players fell to the ground.

Then, he was resurrected by other assistants.

He had just used his resurrection skill to assist her, so he quickly ran toward the gate.

they would rotate with the support classes.

Time passed by slowly.

The entire time, Zhang Shan was the only one dealing damage.

Behind him, there were three support players who kept healing him.

Further away, there were five more assistants on standby.

As for the others ...

Other than the people at the gate, everyone else was lying on the ground.

The demon City Lord, Brooks, only used three waves of chaotic blade cuts to cut them down.

If it weren't for the fact that they had to rely on each other's resurrection, those auxiliary classes would have died long ago.

Zhang Shan was alone. He bore the damage from the demon City Lord and kept shooting.

He had only used his two berserk skills once in the beginning.

After that, it was never opened again.

He was not in a hurry.

Now was not the time to be anxious.

The most important thing now was to be stable.

He tried his best to save all his berserk skills.

If there was an accident, they could still be saved.

However, it was the shadow clone skill.

as long as the skill was on cooldown, zhang shan would activate it.

Activating the shadow clone skill was equivalent to having two more helpers.

The damage output was very high.

However, its life-saving ability was not too strong.

The shadow clone skill was not like the fanatic skill.

After the fanaticism skill was activated.

Increases attack speed by 100%.

When he was in danger, he could activate fanaticism and suck a wave of blood.

It would allow him to hold on for a while longer.

however, the shadow clone skill did not have such an effect.

moreover, the cooldown time of the shadow clone skill was even shorter.

it would cool down after three minutes.

It was not like fanaticism, which had a cooldown of five minutes.

under zhang shan's continuous attacks.

After about ten minutes.

The health bar of the demon City Lord Brooks slowly approached half.

Seeing this situation, Zhang Shan said to the support behind him.

"You guys back off first. I'll use my big move in advance, so I don't need to heal for the time being."

"Alright," he said.

Looking at the demon City Lord's HP, it was almost at half.

Zhang Shan asked the support behind him to back off.

He was going to use his ultimate move sooner or later anyway.

Since that was the case, it would be better to start early.

This way, the support would die less.

He told the support to retreat in advance so that they didn't have to accompany him and face the demon City Lord's big move together.

After all, after activating the God's descent skill, Zhang Shan would be extremely strong.

He didn't even need the support to heal him, and he could beat the demon City Lord.

Chapter 492 The second player city

after the demon city lord's flurry of attacks, the other hatchet men in the team all fell to the ground.

Now, only Zhang Shan was left, along with eight other supporting jobs, still fighting with the demon City Lord.

Under Zhang Shan's continuous attacks, the demon City Lord's HP slowly approached half.

In order to reduce the number of times the support died.

zhang shan activated the god's descent in advance and had all the support retreat.

Anyway, after activating his big move ...

his strength was explosive, and he didn't need any healing at all.

Zhang Shan activated his God's descent skill, and his damage output instantly increased by three to four times.

The God's descent skill had not only doubled Zhang Shan's health.

it also greatly increased his damage output.

Its attack power doubled, and its attack speed almost doubled as well.

in other words, zhang shan's current damage output was almost four times that of before. it was a fierce one.

Under Zhang Shan's Swift and violent attacks.

The HP of the demon City Lord Brooks quickly dropped to half.

When his HP dropped to 50%.

The four blades in the hands of the demon City Lord Brooks flew out and shot straight into the sky.

In the sky, the four blades combined into a huge blade that slashed down at Zhang Shan.

There was a loud boom.

With Zhang Shan as the center, a shocking wave spread out in all directions.

At the same time, a terrifying damage value appeared above Zhang Shan's head.

-980057?

A damage of nearly a million was extremely terrifying.

The demon City Lord used a big move to damage Zhang Shan's health, leaving him with only a sliver of health.

However, Zhang Shan did not panic.

After Zhang Shan activated his ultimate skill, he had more than 1.3 million HP.

Even if there was only a sliver of health left, it would still be more than 300000.

He didn't panic at all.

When the demon City Lord, Brook, released his big move.

Zhang Shan's attack did not stop for a moment.

He held the hand cannon and continuously shot bullets at the demon City Lord.

The amount of HP that had been reduced by the demon City Lord's big move.

He slowly pulled her back.

The demon City Lord Brooks 'big move was a one-time damage.

As long as he could survive one wave of damage, he would be done for.

The demon City Lord Brooks 'big move was gone.

However, Zhang Shan's God's descent state had not ended.

The deity's descent skill only lasted for one minute.

It had just opened not long ago, and it was still very early.

In the state of God's descent, Zhang Shan quickly dealt high damage.

Each shot dealt more than 100000 damage.

And this damage would jump twelve times in a row.

Not only that, under the God's descent state, Zhang Shan's attack speed was still super fast.

he could fire about five shots in one second.

zhang shan was the only one left at the scene, and he was firing non-stop.

A few of the support classes stood at the back and watched the show.

Anyway, Zhang Shan did not need them to heal him.

it was better if they didn't come up.

Although auxiliary classes could also deal some damage, they could still deal some damage.

However, such a small amount of damage was nothing to Brooks, who had five billion HP.

It's fine if you don't fight.

As for the matter of dealing damage, let Zhang Shan do it alone.

Moreover, if they came up to attack him, he would be in trouble.

...

If he happened to run into the demon City Lord and used chaotic blade cut, wouldn't he die in vain again?

That would be a huge loss.

In order for the support classes to accompany him to the end.

Zhang Shan had been thinking of all sorts of ways to let them live as long as possible.

Just like now, there was no need for them to step forward at all.

When his God's descent skill ended, he would let the support come forward to help him heal.

Other than Zhang Shan and a few other support.

the bosses of the other guilds were all lying on the ground.

Even Feng Yun realm was no exception.

They lay on the ground and watched as Zhang Shan challenged the demon City Lord. They could not help but curse.

the six-barreled boss is really too powerful. Soloing a real name boss, and it's even the demon race's city Lord. Such a powerful real name boss."

...

"Who the hell is the boss here? I feel sorry for Brooks, hehe."

"Brooks is a deformed child. Why are you so sad for him?"

"Could it be that you're also deformed, psychologically deformed?"

"F * ck you, you're the one who's deformed. Your whole family is deformed."

who cares if it's deformed or not. It'll be good as long as it drops a divine weapon mold. It's best if it drops a few more.

don't worry, there will definitely be a divine weapon mold. It would be weird if such a powerful real name BOSS didn't drop a divine weapon mold.

"Yes, yes, it will definitely explode. I hope it drops a divine weapon mold that I can use, hehe."

"For someone like you who died at the start, what does it have to do with you if a divine weapon mold drops?"

"F * ck, you speak as if you're standing. You're still lying down."

haha, everyone's lying down too. Big brother won't say anything about second brother.

let's put aside the divine artifact for now. I hope that this Brooks will obediently drop the city Lord golden seal.

that's right. This is the real business. I have to get the position of a city Lord for boss. Hehe.

don't worry. If Brooks doesn't drop the city master's golden seal, then it would be a ghost.

that's right. Don't worry too much. Just lie down in peace.

Speaking of the problem of the dropped items, Zhang Shan suddenly remembered.

he still had the heavenly eagle king's ring, which he might need Brooks to drop.

Last time, an Qisheng had told him that the last ring of the heavenly Eagle King had been lost in a Demon City.

It was picked up by a pair of twin demons.

at that time, Zhang Shan did not quite understand what the hell twin demons were.

However, since there was a Twin City, the Twin demons would naturally be in the Twin City.

However, now that he saw the appearance of the demon City Lord Brooks ...

Zhang Shan finally understood what the Twin demons were.

A demon with two bodies like Brooks, wasn't that a twin demon?

The last ring of the heavenly Eagle King was most likely with Brooks.

This matter had to be mentioned in advance.

Otherwise, it would not be good to wait until the distribution of the items.

Zhang Shan said to Feng Yun realm.

boss, I still have a heavenly Eagle king's ring. According to an Qisheng's instructions, this Brooks should drop it. I've reserved it in advance.

"sure."

Feng Yun realm had no objections to Zhang Shan's request.

Even the BOSS had to be defeated by Zhang Shan, so of course he would not have any objections.

After the others heard Zhang Shan's words, they had no objections.

They just said sourly.

no way, the six-barreled boss is going to get another divine artifact? "

"I'm not too sure. An Qisheng said so, but I don't know if he's right."

"What the f * ck, there's such a good thing? will the NPCs tell the players which bosses will drop divine weapons? why didn't I encounter such a good thing?"

what's the point of you running into one? can you even defeat the BOSS? "

that's right. Even if an Qisheng doesn't say it, a real-name BOSS like Brooks will definitely drop a divine artifact.

"That's true."

"I'm finished, finished. If a divine weapon mission item drops, then my divine weapon mold will be gone. This Demon City Lord can't be so generous as to drop both a divine weapon mission item and a divine weapon mold, right?"

"Holy sh * t, it's true."

" that will depend on our luck. if we're lucky enough, it's possible for two items to drop at the same time. "

"Sigh, the problem is that good luck doesn't come often."

" you don't have to worry about this. with the six-barreled boss's panda ball, anything is possible. "

that's right. You're just a corpse lying on the ground. Why do you have to worry so much? "

"That's right, the cute panda dumpling is omnipotent."

just like that, a group of guild bosses lay on the ground, bragging.

The other eight supports stood in the distance and watched the show.

Zhang Shan was alone, using the big move [God's descent] to fight against the demon City Lord, Brooks.

Zhang Shan took a look at his skills panel.

Originally, he had wanted to save his berserk skills for later.

However, now that he thought about it ...

While he still had the God's descent, he should try to deal as much damage as possible.

Thinking of this, Zhang Shan activated all his explosive skills.

Three Zhang Shans stood in a row.

After activating his berserk skill, Zhang Shan's damage output instantly exploded.

The health bar of the demon City Lord, Brooks, was dropping rapidly at a speed visible to the naked eye.

Even though Brooks 'HP was as high as five billion.

He could not block it either. Zhang Shan exploded in his God's descent state.

After activating fanatic and berserk skills, he could now fire more than ten shots in a second.

Such an attack speed was simply terrifyingly fast.

Furthermore, berserk skills could increase one's attack power.

Each shot he fired now dealt over 150000 damage.

plus the damage from the bullet.

In other words, every shot that Zhang Shan fired would deal close to two million damage.

and this was only taking into account the damage to zhang shan's main body. the damage to his two clones had not been calculated yet.

Unfortunately, the duration of the berserk and fanatic skills was very short.

If only he could maintain this rate of damage.

In that case, within a minute, Zhang Shan might be able to take down Brooks, who had more than 700 to 800 million HP.

Of course, that was impossible.

Berserk and fanatic skills could only be used occasionally.

Under normal circumstances, he could only rely on his regular damage output.

fortunately, his regular damage output was not considered weak.

Including the critical hit effect, he could take out more than 200 million HP from Brooks in a minute.

Time passed by slowly.

Zhang Shan took a look at his own condition.

the deity's descent's duration was about to end.

At this time, the blood volume of the demon City Lord Brooks had almost dropped to 40%.

He relied on the deity's descent and his other berserk skills to deal rapid damage.

In less than a minute, Zhang Shan had almost taken out the 500 million HP of Brooks, the demon City Lord.

this damage efficiency was simply terrifying.

It was a pity that such a powerful skill like God's descent could only give him a minute of pleasure a day.

It's gone after use.

it would be great if he could shorten the cooldown time of the god's descent.

of course, that was impossible.

Zhang Shan was only a small Hunter, not a great mage.

Only on magic equipment would there be a special effect that could shorten the cooldown time.

And it didn't shorten much.

Perhaps the special effects of a God-level magic equipment would be useful in this aspect.

For example, a God equipment had a special effect that reduced the cooldown time by 10%.

As long as he could get three to five of these special effects, the effect would be very impressive.

of course.

This was only Zhang Shan's guess. Would a magical equipment at the level of a divine weapon have such a special effect?

All of this was uncertain.

The God's descent was about to end.

Zhang Shan said loudly to the support behind him.

"I'm almost out of big moves, get ready to add blood."

"Okay, got it."

The support standing behind Zhang Shan quickly sent three people forward, ready to heal Zhang Shan.

not long after.

Zhang Shan's God's descent state disappeared.

The damage he dealt was reduced by more than half in an instant.

This situation made Zhang Shan extremely unhappy.

He had just had a meal of seafood, and now he had to eat steamed buns. This made Zhang Shan very uncomfortable.

However, he had no other choice.

Now that he was done with his big move, he could only take it slow.

Fortunately, the demon City Lord only had 40% of his health left.

Even if he didn't have a big move, he would be able to blow Brooks up in less than ten minutes.

Time passed slowly. Zhang Shan alone, kept firing at the demon Race City Lord.

Behind him, there were three support classes that constantly healed him.

even though every time the demon city lord used chaotic blade cut, he would still be able to use it.

The three support players behind him would fall to the ground.

However, with their constant rotation, they had never lost any members.

As long as a support fell to the ground, they would be revived very quickly.

almost all of the auxiliary vocations that had come to twin city had died.

Everyone's resurrection skill had been used at least once.

However, it was not a big problem. The resurrection skills between the supports could be linked together.

Under Zhang Shan's continuous attacks, the blood volume of the demon City Lord Brooks continued to drop.

40%, 30%, 20%.

After another five minutes, the demon City Lord was sent into a berserk state by Zhang Shan.

The demon City Lord in his berserk state became extremely ferocious.

Not only was the damage dealt higher.

More importantly, after going berserk, the demon City Lord's attack speed became even more exaggerated.

The speed of the demon City Lord's attack was much faster than the speed of Zhang Shan's gun.

He could deal about four to five slashes of damage every second.

The three support classes stood behind Zhang Shan, continuously healing him. It was almost too much. the situation became a little tense.

But Zhang Shan was not flustered.

What was there to panic about?

the demon city lord only had less than one billion hp left, so he couldn't do anything.

The support who was healing Zhang Shan felt that he could not keep up.

One of the supports shouted.

one more. Don't let the six-barreled boss die.

Out of the eight support classes that were originally fighting the BOSS, three of them had been healing Zhang Shan, while the other five were standing by at the back.

After the demon castellans went into berserk mode, it quickly became a situation where four of them came up to heal and four were on standby.

After a while, the demon City Lord Brooks used the chaotic slash skill and cut down the four supports to the ground.

The four support players who were on standby at the back quickly stepped forward to heal Zhang Shan.

He also revived the support on the ground.

The four revived supports took over the task of healing Zhang Shan.

as for the other four, they were support classes who had just used their resurrection skills.

He quickly ran towards the gate.

If they wanted to go, they had to get other helpers with resurrection skills.

Even though the situation was very tense.

however, with the cooperation of a group of support, zhang shan had never fallen to the ground.

As for the demon City Lord's HP, it continued to drop.

zhang shan had fought for less than five minutes, and the demon city lord brooks had been beaten to an empty state.

However, with Brooks 'five billion HP ...

Even after his HP was empty, he still had 50 million HP.

Zhang Shan controlled the Panda dumpling to move forward.

However, he was a little confused.

Damn it, the demon race's city Lord Brooks had two health bars.

And the Panda ball's combo skill could only hit one target.

What was he going to do?

Zhang Shan controlled the Panda dumpling and stayed beside the demon City Lord, but he didn't know where to start.

Forget it, I'll just randomly call one. There's nothing to be conflicted about.

Zhang Shan roughly estimated the remaining health of the demon race's city Lord Brooks.

looking for the right time, he controlled the panda ball and randomly chose one of the demon city lord's bodies to launch a combo skill.

Seven consecutive slaps were sent out.

the demon city lord directly fell to the ground.

≪ system announcement: congratulations to Feng Yun realm, six-barrelled Bodhisattva and heart follows me monastic robe for killing the Twin Demon City Lord Brooks. ≫

Skill point +1, medal +100.

After seeing the system announcement, Zhang Shan was still a little confused.

The Panda ball had only attacked one of the demon City Lord's bodies.

Why did it just fall to the ground?

Perhaps the health bars of the demon City Lord's two bodies complemented each other.

This should be the case.

the total hp of the demon city lord brooks was five billion.

each body had 2.5 billion hp.

However, the health bars of these two bodies were the same.

When one of the health bars was reduced, it would be replenished by another health bar.

If he couldn't replenish it, he could only fall to the ground.

After the demon City Lord fell to the ground, his corpse slowly disappeared.

At the spot where it had fallen.

a huge golden seal appeared there.

At this moment, the support from behind quickly ran up and revived Feng Yun realm.

As for the rest of the fallen players, they might have to wait a little longer.

almost all of the resurrection skills of the auxiliary classes were on cooldown.

It would be a while longer before they could be resurrected.

After Feng Yun realm was revived, he looked at the golden seal on the ground and asked Zhang Shan.

"Six tubes, how do I use this? do I pick it up directly?"

" yes. after picking it up and placing it on the stone tablet, you can control the entire city. "

"i'll try."

feng yun realm excitedly picked up the golden seal from the ground and ran to the stone tablet to set up the city management.

The others looked at Feng Yun realm's actions and asked in surprise.

" f * ck! the BOSS in this game drops items on the ground? "

"Don't the items dropped by monsters usually fall directly into the player's backpack? Why are there items on the ground?"

"Why do you care so much? don't tell me you still want to argue with the system?"

"Argue my A * s, it's just so strange."

"don't be too serious. there are many things in this game that you don't understand."

that's true. For example, I don't understand why the six-barreled Big Shot is so strong.

"Haha, it's good that you don't understand."

When Feng Yun realm was setting up the city management.

The big shots of the guilds who had been blocking the front and back gates all ran over.

After the demon City Lord was blown up.

The wild monsters in the city instantly disappeared.

Because the city Lord of the demon race was gone, and the city Lord's golden seal was lost.

In Twin City.

Oh, that's not right. Perhaps in a while, it would be called wind Cloud City or some other city.

From then on, it would no longer belong to the demon race, but to the human players.

After the monsters disappeared, they didn't need to block the gate anymore.

They ran over together.

They were waiting in line to eat the fruits.

After killing the demon City Lord, he should at least drop some good stuff.

However, there was no hurry.

Let's wait for Feng Yun realm to set up the city management.

Besides, there were still fifty to sixty bosses lying on the ground.

he had to resurrect them first.

Not long after Feng Yun realm placed the golden seal on the stone tablet.

A beam of golden light shot up into the sky and spread to all the maps in the game.

There was the previous time when Zhang Shan had taken over the demon suppressing city.

Seeing such a scene.

Everyone knew that the second player city had been born.

Everyone couldn't help but feel jealous.

Chapter 493 the second ring

while feng yun realm was setting up the city management, he suddenly turned around and asked zhang shan.

"six-man butler, don't you want to recruit npcs such as grocer and tailor? I think there are only pharmacists and blacksmiths in the demon-suppressing city."

Hearing Feng Yun realm's words, Zhang Shan felt a little sour.

Was he the one who didn't want to recruit them?

It was the system that didn't allocate any for him.

Even if Zhang Shan wanted to recruit them, he could not.

Since Feng Yun realm asked this, it must be from the Twin City. Besides the blacksmith and medicine master, they could also recruit other NPCs.

But it was normal.

Twin City was much larger than demon-suppressing city.

It was understandable that NPCs had more functions than the demon-suppressing city.

Being able to recruit more NPCs meant that this city was more profitable than the demon suppressing city.

Even though recruiting NPCs required money.

However, compared to the gold coins invested, the gold coins that could be earned in the future would only be more.

Hearing Feng Yun realm's question, Zhang Shan replied sourly.

"Can you still recruit other NPCs? There were only two NPCs that could be recruited in the demon-suppressing city, and there were no other options."

Oh, I thought you didn't want to recruit them. Then I'll recruit all the NPCs I can.

To this, Zhang Shan only wanted to say, "rich dog."

Recruiting NPCs required money, and it was not cheap.

When Zhang Shan first recruited blacksmiths and pharmacists, it was one million gold coins per person.

He did not know how much gold Feng Yun realm had to spend to recruit an NPC.

Zhang Shan asked him.

"How many gold coins do you need to recruit an NPC?"

10 million gold coins for one. There are five NPCs in total: blacksmith, apothecary, engineer, tailor, and grocery merchant.

Hearing Feng Yun realm's words, Zhang Shan was truly shocked.

10,000,000 gold coins for each of the five NPCs?

If he recruited all of them, he would have to spend 50 million gold coins.

He was really ruthless.

and this was only the recruitment of npcs.

Opening the teleportation formation would cost even more gold.

who said that one didn't need to spend money to play this game?

He was spending so much money.

Thinking of this, Zhang Shan could not help but shake his head.

It was not easy to be a player's city Lord.

It looked glorious, and after the city was built, there would be profits every day.

however, not many people could afford to invest so much in the construction of the city.

Just to open a teleportation portal, Zhang Shan had spent 100 million gold.

This Twin City was even larger.

Zhang Shan suspected that Feng Yun realm would have to spend even more gold coins to open the teleportation array.

She wondered if Feng Yun realm had brought enough gold coins with him.

Initially, Zhang Shan thought that Feng Yun realm was not lacking in money.

He probably wouldn't be worried about the gold coins.

But now, that was not necessarily the case.

Zhang Shan felt that Feng Yun realm might not have prepared enough gold.

The cost of building the city was out of his expectations.

As expected, after a while.

After Feng Yun realm had recruited all the NPCs.

He asked everyone awkwardly.

"Is there anyone with more gold coins on them that is not enough to activate the teleportation array?"

"F * ck, boss also needs money? It's truly a world-changing story, hehe."

"Gold coins are a small matter. How much do you want? I've brought more than 20 million gold coins."

"It'll cost one billion gold to open the teleportation formation."

"f * ck, did i hear wrong? A terrifying amount like one billion gold coins, is this a number that should appear in a game?"

...

"That's ridiculous. A teleportation formation costs a billion gold? It's ridiculous."

f * ck, I thought that 20 million gold coins was enough, but now it seems that I'm just a little brother. It's not even enough to open the teleportation portal.

sigh, I've spent too much money. I feel like I've made a loss.

"It's alright. I can earn back the money I spend now. Look at six-barreled boss's demon suppression city, he's making a lot of money."

"That's for sure. This Twin City is so big, and there are wild monsters above level 70 all around. When everyone's level is up, we'll come to this area to farm monsters."

that's right. Only big investments have big returns.

but one billion gold coins is really a bit too much. Even the gold coins we have on us all combined don't amount to that much.

"Why don't we send someone back to exchange for gold coins and mail it to the boss?"

"Let's take a look first. Boss, how many gold coins are you short of?"

feng yun realm replied.

"I'm still short of 550 million,"

...

Before coming here, Feng Yun realm had made preparations.

He knew that players would need to spend a lot of gold to occupy a city, so he had exchanged 500 million gold in advance.

Apart from recruiting NPCs, he had spent 50 million gold coins.

He still had 450 million gold left.

However, Feng Yun realm had never expected that the teleportation portal in Twin City would be so expensive.

He actually had to spend one billion gold.

Hence, Feng Yun realm did not have enough gold coins and could only borrow from everyone.

but the problem was that under normal circumstances, no one would carry such a large amount of gold on them.

Everyone thought that they should gather together first.

There were quite a few of them here anyway, so maybe they could gather enough gold coins.

He didn't want to send people back to the city.

It was impossible for normal players to carry so many gold coins on them.

However, there was an exception, and that was Zhang Shan.

Zhang Shan had six to seven hundred million gold coins on him.

This was because his gold coins were all earned in the game.

they weren't like those guild bosses, whose gold coins were basically exchanged with blue coins.

If it wasn't necessary, no one would exchange so many gold coins for no reason.

Zhang Shan took a look. The gold balance in his account was about 700 million.

he told feng yun realm.

“No need, I have some here. I’ll transfer it to you immediately.”

After Zhang Shan finished speaking, he transferred the 550 million gold to Feng Yun realm through mail.

When everyone heard Zhang Shan’s words, they could not help but be stunned.

f * ck, it turns out that six-barreled is the real hidden rich boss. He actually has so many gold coins on him.

“You have so many gold coins on you? A moving billionaire?”

“F * ck, I’m the one who’s inexperienced.”

“Beating the nouveau riche and splitting the gold coins, hehe.”

With the gold that Zhang Shan lent out, Feng Yun realm quickly finished setting up the city.

After a short while, a system announcement sounded.

≪ system announcement: congratulations to Feng Yun realm for building Feng Yun city. You are the second player to build a city. ≫

All attributes +100.

hearing this system announcement, everyone felt a little strange.

“eh, there’s even a system announcement when building a city?”

” i remember that when the six-barrel boss built the demon-suppressing city, there was no announcement. ”

“Maybe it was a little different that time with the six-barreled Big Shot. They brought a mission with them that time, and the mission reward replaced the announcement.”

“That’s possible.”

“Speaking of which, boss is the second player to build a city. Why is the reward only 100 points for all attributes? that’s too little.”

“That’s right, Big Boss six-Guan is the first to build a city, so he’ll be rewarded with 1000 points of all attributes. Boss, the reward for the second one is only 100 points for all attributes. Doesn’t that mean that the third one is gone?”

“Maybe 10 more, hehe.”

Bullsh * t. He wants the fundamental wave at ten.

“Why are you thinking so much? we need a third city. Where are we going to find a third Demon City?”

that’s right. We don’t even know where the demon cities are. We can’t find them at all.

maybe it’s on the other side of Twin City. That’s probably the territory of the demons. There must be many demon cities there.

“F * ck, that seems to be the case. After I’m done, I’ll go take a look. I’m going to find a Demon City and become its city Lord.”

“Hehe.”

“Same, hehe.”

after feng yun realm settled the settings of the city, the system announcement sounded.

All the players in the game were jealous.

The world Channel:

f * ck! The wind and cloud Guild really took down Twin City.

f * ck, there are only two demon cities so far, and they’re all occupied by the wind cloud Guild. This is too unreasonable.

justice my ass! Strength is King!

yeah, Twin City has been there for so long. No one can move it.

“the wind cloud guild is still the strongest.”

“how can i not be strong? With six-barreled Bodhisattva around, fighting bosses is as easy as cutting vegetables.”

“Brother, that’s a little exaggerated.”

“it’s not an exaggeration. you guys didn’t see the last time when the monsters attacked the city. Six-barreled Bodhisattva took the damage of two real-name bosses and was sent flying. In the eyes of six-barreled Bodhisattva, fighting a BOSS is no harder than killing a small monster.”

“F * ck, why don’t I believe it? this is too fake.”

“how can this be fake? there were at least hundreds of thousands of people who saw it. you can ask others.”

that’s right. I saw it the other day too. Six-pipe Bodhisattva is indeed unbelievably powerful.

don’t mention the six-barreled Bodhisattva. He’s a BUG, the shame of the New World.

haha, the disgrace of the New World is not bad.

I hope that the game will open up more demon cities. Otherwise, there are only two cities in total, and they’re both occupied by the wind and cloud Guild. What’s the point of playing then? ”

“Don’t worry, if you can think of it, the game producers must have thought of it. I estimate that many demon cities will appear soon. As for whether we can take them down, it will depend on our own abilities.”

“It’s another matter whether we can take down the demon race’s city or not. At least we have to get the demon race’s city out and let everyone see some hope.”

“Just wait, there will definitely be one.”

Zhang Shan and the rest did not care about the chaos in the world Channel.

After Feng Yun realm finished setting up the city, they had to start distributing the items.

It was rare for Zhang Shan to look forward to it.

He hoped that Brooks would drop the other ring of the sky Eagle King.

Otherwise, he would never know where to get the last ring.

Some of the Guild leaders lying on the ground had already been revived.

However, there were still many people who were still lying on the ground.

He would have to wait for the next wave of skills to cool down before he could resurrect them.

however, their lying down did not affect the distribution of the items.

The people lying on the ground could roll anyway.

Feng Yun realm displayed the items dropped by the demonic city Lord Brooks on the party channel.

Zhang Shan took a look.

There were three red equipment and one red material.

The key was the big head behind.

A divine artifact mission item, a broken ring.

One relic mold, crape myrtle divine armor (strength).

There was also an ultimate skill book, Spellblade’s invincible slash.

After seeing Feng Yun realm’s items, they were stunned.

Everyone was shocked.

This Brooks was really too generous.

It actually dropped three of the highest grade items at once.

No matter if it was a divine weapon quest item, a divine weapon mold, or an ultimate skill book.

They were all top-tier existences in the current game.

They didn’t expect that Brooks would drop one of each item for them.

Everyone was stunned by this unexpected surprise.

Holy F * ck, my dog eyes are blinded. Did this one drop so well? ”

“Hahaha, super big drop.”

“We’re rich, we’re rich, brothers!”

I've never seen such a generous boss. Brooks is really awesome.

"I just want to say, niubilus, the demon City Lord."

"there's nothing else to say. boss, quickly roll and distribute the equipment."

To be honest, everyone was experienced.

The game new world had opened so many times.

They had defeated so many bosses.

What good things had he not seen?

However, this was the first time they had seen a BOSS drop so many top-tier items.

Everyone was overjoyed.

Although the damaged ring had already been reserved by Zhang Shan in advance.

However, they still had two items that could be split.

This was much better than what everyone had expected.

Originally, everyone thought that besides the ring mission item that dropped from Brooks, there was nothing else.

He might not get any good items.

After all, it was already good enough for a real-name BOSS to drop a divine-level item.

He really didn't dare to think that there would be a second one.

However, accidents were always everywhere.

other than the ring quest item that zhang shan needed.

Brooks also gave them an extra drop of a divine weapon mold and an ultimate skill book.

It was a super big surprise.

Everyone was immersed in joy.

Feng Yun realm said.

"Everyone has seen the item. The damaged ring belongs to the six managers. No objections, right?"

no problem. If the six-barreled Big Boss is strong, then we are strong, hehe.

"Haha, you're right. We're all relying on the six-barreled boss to carry us."

Feng Yun realm gave the broken ring to Zhang Shan.

After Zhang Shan received the ring, he took a closer look.

[damaged ring: legend has it that this is a relic of the heavenly eagle king, and has been kept by the demon race's city lord Brooks to this day.]

The description of the ring was that simple.

If not for the fact that Zhang Shan already had two Sky Eagle King Accessories.

Normal players would be completely confused when they saw the item's description.

How would others know what kind of person the sky Eagle King was?

What use would his relics have?

It might just be a collectible.

The item description did not mention anything about divinity at all.

If not for an Qisheng's words to Zhang Shan.

It was hard for him to be sure that this was a divine weapon.

However, after looking through all the items dropped by Brooks, he was shocked.

Without even thinking, this must be the last ring of the sky Eagle King.

However, it would not be easy to repair this thing.

He didn't know how an Qisheng would trick him when the time came.

However, Zhang Shan's current strength was already so powerful.

He wasn't afraid of being tricked by an Qisheng.

how else could he trick him?

He still had hundreds of millions of gold coins. He could use money to crush him.

If he had to do a mission, it would be easy.

As long as he was not asked to fight the demon God alone, Zhang Shan felt that there was no mission that could be difficult for him.

with his strength, he could do any kind of mission.

Zhang Shan kept the broken ring.

now that he had obtained the quest item, he could take things slowly. there was no rush now.

He would wait for the others to distribute the items first.

After the ring was given to Zhang Shan.

Feng Yun realm rolled for the purple crape divine armor (strength).

He said.

all strength-type classes are to participate in the ROLL.

After Feng Yun realm finished speaking, someone immediately objected.

“Boss, this isn’t right. One blade can’t participate in the ROLL since he already has a mold for the godly armor.”

Oh my God, I forgot just now. One slash doesn’t count. The other strength types will ROLL for it too.

A few days ago, during the monster siege event, he had also obtained the purple Wei godly armor (strength).

The previous one had been rolled for by blade of wind and cloud.

Hence, he could no longer participate in the roll this time.

Perhaps Feng Yun realm had just become the city Lord today, so he was a little too happy.

She had forgotten about it.

he didn’t remember this, but others did.

Of course, even if no one mentioned it.

it was also impossible for windcloud blade to roll for this godly armor mold.

He already had one, so why would he need a second one?

He couldn’t possibly say that he was going to sell it for money.

After the item ROLL was activated.

After an intense fight.

In the end, the crape myrtle divine armor (strength) was rolled for by a Big Shot Berserker.

the first item had been distributed.

Feng Yun realm used the invincible slash skill book and rolled for it.

At the same time, he said.

all spellblades participate in the roll, except for Big Boss heart.

Other than heart moves, the other spellblades in the team had never learned the invincible slash skill.

However, among the people who came this time.

There weren’t many Spellblade classes.

including “heart moves with me,” there were only six people.

In other words, the remaining five people would participate in the ROLL for this ultimate skill book.

They stared at the skill book with a burning expression.

After silently praying in their hearts, they all threw the dice in their hands.

5,26,17,42,30.

The Big Shot who had rolled 42 points couldn't help but jump.

haha, the invincible slash is mine. Brothers, you've let me win.

f * ck, watching you guys roll is so boring.

"Yeah, a typical pair of rookies pecking at each other."

"I don't need too many points, just a little more than others will do, hehe."

after distributing the main items.

Feng Yun realm began to distribute the other items.

when they were attacking the nephilim race's city, they had fought a total of eight orange bosses, four normal red bosses, and the real name BOSS, the nephilim city lord.

after killing so many bosses, they had obtained quite a lot of trash items.

There were more than 20 pieces of orange equipment and more than 10 pieces of red equipment.

each BOSS also dropped a material.

With so many items, Feng Yun realm began to ROLL for them one by one.

One by one, the items were rolled and distributed.

Although these were all trash items, no one was looking forward to them.

However, no matter how trashy an item was, it could still be sold for some gold coins.

After a long time, all the Guild leaders on the ground were revived.

He had finally distributed all the items.

Zhang Shan had rolled another red equipment, an orange equipment, and two materials.

There were more than one hundred and twenty of them present, and they rolled together.

zhang shan could get four items.

he had to admit that his luck in rolling was really good.

He did not know if it had anything to do with his luck.

However, these items were all insignificant.

To Zhang Shan, it was almost useless.

Lucky only needed to burst out at the critical moment.

It was such a waste to use it here.

after all the items were distributed.

Feng Yun realm said to everyone.

“This time, I have to thank everyone for letting me become a city Lord.”

“Boss, you’re welcome. We didn’t do anything. We just came here to earn some experience points.”

“Haha, you’re right. after fighting so many bosses, i’ve already leveled up.”

if you want to thank someone, thank Big Boss Liu Guan. We’re just some trash, we can’t help with anything, hehe.

Chapter 494 Mass-production of intermediate arrow towers

All the bosses had been killed, and the equipment and items had been distributed. The Twin Cities of the demonic race had now become the human race’s wind Cloud City.

The matter was considered to have come to an end.

The teleportation formation of wind Cloud City had been activated.

As for the teleportation fee, Feng Yun realm referred to the settings of demon suppression city.

Members of the Guild will be teleported for one gold coin each time.

Everyone outside of the Guild would be charged 200 gold each time.

This price was not considered expensive, but it was not considered cheap either.

After the teleportation formation in wind Cloud City was activated.

There were already many players who had tried to teleport to wind Cloud City first.

After Zhang Shan and the rest had settled the matter, wind and cloud blade said loudly.

“I’m leaving first. I’m going up the city walls to see the scenery outside the city, hehe.”

After saying so, Windcloud blade teleported and disappeared.

the five of them had the title of human hero, so they could teleport to any human city.

However, no one else could do that except for Feng Yun realm, the city Lord.

the others had to run in the city and couldn’t use teleportation.

Seeing Windcloud blade’s smug look, the others shed tears of envy.

“F * ck, one blade is really cheap.”

“Sigh, he has a title.”

f * ck, will this title still exist in the future? I want to get one too.

in your dreams. I don’t even know where to get the most common title, let alone the title of human hero.

that's right, titles are too rare. There's no fixed way to obtain titles. It's all up to luck.

"actually, there's a fixed way to get a title. you just have to be ahead of others and discover new things."

"that's the same as not saying anything."

that's right. If I can be like the six-barreled Big Shot and keep leading, would I still have to worry about titles? "

sigh, let's not say anything else. Let's run over and see what the other side of Twin City looks like.

"That's right. Let's go and take a look. On the other side of the Twin Cities should be the demon race's territory. Perhaps there are many cities there and we can take down a few demon cities at will. Hehe."

"In your dreams. They might have a city, but if you want to casually take down a Demon City, then you're thinking too much."

"Who cares, let's go over and take a look first."

Everyone quickly ran out of the city Lord's mansion and ran towards the other side of wind Cloud City.

As for Zhang Shan and a few others who could teleport, they used teleportation and teleported directly to the city wall.

After he teleported to the city wall.

he looked out of the city.

he saw that the area near fengyun city and the demon territory was a vast plain.

outside the city, demon tribes were scattered all over.

As for the demon City, he didn't see it.

Perhaps it was because they were too far away, so they couldn't see if there was a Demon City in the distance.

It would probably take a while to see it.

after all, there were so many demon tribes there, so it didn't make sense that there weren't any demon cities.

Zhang Shan stood on the city wall. After watching for a while, wind and cloud blade ran over and said to him.

"Why don't we go out of the city and see if we can find a new city of the demon race?"

"alright, let's go then."

After Zhang Shan finished speaking, he teleported to the city gate.

The two of them ran along the main road outside the city towards the demon territory.

it was just that they had not run far when they were surrounded and attacked by the fiends.

the monsters surrounding them weren't level 70 demon warriors.

instead, they were lv 80 strong men of the demon tribe.

On the other side of wind Cloud City, the monsters were all at least level 80.

They were only running on the main road and did not approach the demon tribe.

However, the aggro range of these demonic strongmen was very far.

Even if they were walking on the road, they would attract the aggro of the monsters.

The monsters in the distance would rush over to attack them after seeing them.

Even if their mounts were hero mounts that could run extremely fast, they could not shake off the monsters 'pursuit.

...

Just as he shook off the monsters behind him, another monster appeared in front of him.

they cleared the monsters as they advanced.

However, there were more and more monsters in the surroundings.

After a short while, Zhang Shan gave up.

clear my ass.

With their current speed, they couldn't run fast at all, and it was impossible to find the demon City.

He said to wind cloud blade.

" let's go back. don't go there anymore. they're all level 80 monsters. there's no point in fighting them. they're too slow. "

"Alright," he said.

The two of them had only run for less than three minutes from the city before they could no longer run.

The monsters outside the city were too strong.

...

LV 80 tribal strongmen had 150000 to 160000 blood.

Its attack power was also over 10000.

each of the normal monsters was similar to the mini bosses they had fought before.

Furthermore, the level suppression was especially powerful.

Even for Zhang Shan, he had to hit it more than ten times before he could kill a small monster.

Not only that, but these level 80 demon strongmen would also take the initiative to attack.

even if they were far away, they would still attract the attacks of the demon strongmen.

they had no choice but to continue running forward.

If he continued to run, he might be killed by the monsters.

if that was the case, it would be nonsense.

zhang shan and wind and cloud blade, after being besieged by the demon strongmen a few times.

He gave up on the idea of continuing to explore.

he could only return the way he came.

When they were near the city gate, they ran into a group of guild leaders who were about to leave the city.

Windcloud blade shouted at them.

don't go. The monsters here are very fierce. We can't beat them at all.

" why would we fight small monsters? we just want to go and see if there are any demon cities. we'll just take a detour when we see small monsters. "

"Don't even think about it, we can't get through at all."

everyone could not help but be shocked when they heard what windcloud blade said.

"No way, we can't even go around it?"

"We can't. The monsters over there have a huge aggro range. They'll chase us and kill us. If we don't clear the monsters, there will only be more and more monsters chasing us, and we won't be able to come back."

f * ck, I can't even defeat the small monsters. Then, my dream of being the city Lord is shattered again, right? "

"Can you call that a dream? It can only be called a dream."

"Forget it, let's go back. If even the six-barreled boss can't get past it, we don't even have to try."

"That's true, then let's go back."

When Zhang Shan returned to wind Cloud City, he looked for Feng Yun realm and asked him.

"Boss, did the system give you any notifications? will there be monsters attacking the city tomorrow?"

According to the strategy of the demon-suppressing city, there should be another monster attack after the players took down the demon City.

However, Feng Yun realm did not mention this, so Zhang Shan had to ask first.

He had to clarify the matter first so that he could make arrangements for the follow-up.

Hearing Zhang Shan's question, Feng Yun realm replied.

yes, just like the last time in the demon-suppressing city, it will start at eight o'clock tomorrow night and last for two hours. I'm worried about this. This place is not like the demon-suppressing city. The monsters here are of a higher level. I'm afraid that it will be difficult for us to hold on, so I'm going to call for some reinforcements."

Feng Yun realm's worry was reasonable.

the lowest-level monsters around wind cloud city were all level 70 demon warriors.

In the direction of the demons' territory, the monsters there were even higher-leveled, starting from level 80.

He could imagine that when the monsters attacked the city tomorrow, there would definitely be level 80 monsters.

It was even possible for him to exceed rank 80.

However, Zhang Shan did not support Feng Yun realm's decision to call for external help.

As for whether or not they could defend the city, it was not a problem of numbers.

Fengyun city was huge, much bigger than the demon-suppressing city.

However, when facing level 70 to 80 monsters, having more people might not be of much use.

Unless a few million players could be transferred over, the players would not be of much use.

The reason was simple. Most players had just reached level 40.

It would be a bit difficult for them to deal with level 80 monsters.

Just the 40-level difference was enough to make a player despair.

With such a huge level difference, the level suppression effect would be extremely exaggerated.

It could be said that for a normal player, dealing with a small monster that was only in the 80s was no easier than dealing with a BOSS.

During a monster siege, there would be a huge number of monsters.

To the current players, it was equivalent to a sea of mini-bosses.

how could players defend the city?

If they wanted to defend the city, they had to think of a way to use the defensive equipment.

Zhang Shan said to Feng Yun realm.

"It's not that useful to call for reinforcements. Our Guild has a lot of people, but the monsters' levels are too high, so no one can beat them. Even if we call for reinforcements, they can't beat them either."

"I know that, but I have no choice. By the way, how much of that fire god cannon of yours do you have? sell all of them to me. we'll use them to defend the city tomorrow."

Before Zhang Shan could reply, Feng Yun realm sighed and said.

it's a pity that the materials for the fire god cannons are too difficult to obtain, so we can't build them on a large scale. Otherwise, we could use the fire god cannons to defend the city, and that would be much easier.

Regarding Feng Yun realm's troubles, Zhang Shan had already thought of a solution. Otherwise, he would not have asked.

He told Feng Yun realm.

"Boss, I'll show you something good. With this, tomorrow's city defense won't be too difficult, hehe."

After Zhang Shan finished, he shared the intermediate arrow tower blueprint with Feng Yun realm.

Feng Yun realm cried out in surprise when he saw the blueprint that Zhang Shan had shared.

"Can you build an intermediate arrow tower like this?"

Zhang Shan nodded his head and said.

I'll be done soon. I'm still short of ten or so proficiency points before I can be promoted to a level 5 Grandmaster engineer and build an intermediate arrow tower.

"Then what's the point of talking? hurry up and build it on a large scale. I'll go buy as many materials as you have. I'm going to fill the walls of wind Cloud City with these arrow towers."

seeing how excited feng yun realm was, zhang shan was a little speechless.

in zhang shan's image, feng yun realm had always been a cold and aloof guy. he always had a calm look on his face.

Why wasn't he calm now?

okay.

Actually, Zhang Shan could understand.

feng yun realm finally became a city lord after much difficulty.

However, no matter how hard he thought about it, he did not know how he could withstand the monster attack tomorrow.

If wind Cloud City was destroyed by the demons tomorrow ...

Then his position as the city Lord would also come to an end.

Being a city Lord for a day was probably much more difficult than not being a city Lord.

Not to mention other things, just the investment in building the city.

Feng Yun realm had already spent more than one billion gold coins.

He had spent so many gold coins.

If the city was breached by the demons after being the city Lord for only one day ...

Wouldn't that make him stomp his feet in anger?

However, the reality was as such. Feng Yun realm had thought about it many times but there was no feasible way for him to defend wind Cloud City.

As for calling for outside help, there was no other way.

It was a last resort.

It could only be said that they had chosen the wrong time to attack the demon City.

It's still too early. Everyone's level hasn't increased yet.

They would have to face level 70 – 80 monsters.

The difference in power was too great and Feng Yun realm could not think of an effective method.

Zhang Shan's intermediate arrow tower blueprint was his last hope. It was only natural for Feng Yun realm to be excited.

However, the materials used to build intermediate arrow towers were common.

However, common didn't mean cheap.

Zhang Shan estimated that each set of materials for the intermediate arrow tower would cost about five to six thousand gold coins.

If Feng Yun realm were to purchase the materials on a large scale, the price would probably be even higher.

If he really wanted it to be real, he would have to cover the walls of Fengyun city with intermediate language.

The cost would definitely be frighteningly high.

Of course, this was not a problem that Zhang Shan was concerned about.

He was only in charge of the production. As for the materials, of course, they would have to be provided by the realm of wind and cloud.

Zhang Shan said to Feng Yun realm.

“alright, then i'll go back first.”

After Zhang Shan finished, he returned to Danyang city.

He cleaned up his backpack first, then took out the materials for the fire god cannon from the warehouse.

During this period of time, he had collected some more materials.

It should be enough for him to raise the fire god Cannon's proficiency to 100 points.

As long as he could raise the fire god Cannon's proficiency to the maximum, he would be able to raise his engineering level to Level 5 Grandmaster.

Zhang Shan brought the materials and teleported to the Guild base. He used his Guild contribution points to enter the workshop.

Then, he began to work on the fire god cannon.

He had successfully produced the fire god cannon more than 80 times, and his current success rate was basically 100%.

In a short while, he had used up all the materials.

A total of fifteen fire god cannons were made.

In addition to the fire god cannons he had saved up, he now had 90 fire god cannons in his possession.

In the demon-suppressing city, Zhang Shan had set up 15.

He'd keep the remaining fire god cannons for the time being. They might come in handy in the future.

Even if it was not useful, it did not matter. He would just treat it as a collection.

After the fire god cannon was completed.

Zhang Shan took a look. His engineering level had now risen to a level 5 engineering Grandmaster.

Zhang Shan took out the intermediate arrow tower blueprint and learned it.

When the blueprint disappeared, Zhang Shan had already learned how to build an intermediate arrow tower.

Learning in the game was always so simple.

He just had to click to use it.

Since he had already learned the blueprint, he could start making it when Feng Yun realm's materials arrived.

Of course, in the beginning, he could only fail continuously.

However, it didn't matter if he failed.

This time, it was Feng Yun realm who provided the materials. It was not like Zhang Shan had to spend a single cent to buy the materials.

Zhang Shan left the workshop.

At this moment, Feng Yun realm teleported over.

He said after handing over a bunch of materials to Zhang Shan.

"That's all I've bought for now. I'm still getting people to collect the materials. Also, the gold coins I borrowed from you before have been mailed to you. Please check and receive them."

"alright, i'll call you after i've built a batch of arrow towers."

After Zhang Shan finished speaking, he first looked at his email.

As expected, the 550 million gold coins had been transferred to his account.

He took out the gold coins from the mail.

The gold in his game account had returned to 600 million, close to 700 million.

Now that he had the materials, he could start building the arrow tower.

zhang shan bid farewell to feng yun realm and entered the guild workshop again.

He opened his backpack and was about to take out a set of materials.

however, when he saw the materials in his backpack, he couldn't help but be shocked.

This was too much.

there were over 30000 sets of materials.

when they were trading just now, he really did not check the amount of materials that feng yun realm had traded.

He did not expect Feng Yun realm to actually buy so many materials.

Feng Yun realm bought so many materials, he was afraid that Zhang Shan would die of exhaustion.

Although it didn't take much effort to make engineering products, it was still very easy.

He just placed the materials on the operating table and then took out the finished product.

A single production, regardless of success or failure, would only take two to three seconds at most.

However, 30,000 sets of materials was a little too much.

Furthermore, Feng Yun realm was still sending people to continue gathering materials.

Was he really going to turn Fengyun city into a city of porcupines?

Thinking of this, Zhang Shan could not help but shake his head.

Forget it, he was just an emotionless machine, a robot that made arrow towers.

Hurry up and start.

Zhang Shan placed a set of materials on the operating table.

A spark of fire flashed.

Production failed.

It's okay, again.

Zhang Shan continuously placed the materials on the operating table.

However, it was similar to the time when he made engineering products.

Every engineering product would experience countless failures on its first try.

zhang shan's face was expressionless. he kept putting the materials on the operating table.

So what if he failed?

Wasn't it just a waste of some materials?

it didn't matter.

He had more than 30000 sets in his backpack.

It was enough for him to struggle for a long time.

After hundreds of failures.

Once again, Zhang Shan numbly placed the materials on the operating table.

A ray of light flashed.

Eh, did this mean that the production was successful?

zhang shan looked at the controls. a mini arrow tower stood there quietly.

He took the arrow tower from the console and examined it carefully.

[intermediate arrow tower: city defense facility. Attack power: 50000. Health: 500000. Range: 100 yards. Attack interval: 0.5 seconds.]

seeing the first finished product, zhang shan was a little happy.

This arrow tower was not bad.

Although it was not as cool as the six-barrel fire god cannon in terms of appearance.

However, in a game, only attributes were the most practical.

The appearance was like floating clouds.

The intermediate arrow tower was a level five engineering product and was not inferior to a level four fire god cannon.

The attributes of the two were similar, except for the slight difference in health points.

They both had 50000 attack power, a range of 100 yards, and an attack interval of 0.5 seconds.

It could be said to be extremely powerful.

at the very least, he was much stronger than the current players.

with the intermediate arrow tower, helping feng yun realm defend wind cloud city would not be a problem.

The level 80 monsters had over 10000 attack power and 150000 HP.

However, these intermediate arrow towers were not weak.

it had 50000 attack power and could attack twice in a second.

It would take them about 3 seconds to kill a LV 80 demon strongman.

if it was seventy demon soldiers, then it would be even simpler.

They could kill one in a second.

As long as there were enough arrow towers.

No matter how many monsters there were, they could not get close to the walls of wind Cloud City.

of course, this was referring to the small monsters.

if a BOSS appeared during a monster attack, they would have to intercept it.

After all, no matter how strong the arrow tower was, it was impossible to kill the BOSS in one hit.

Even if there were a lot of arrow towers, it was impossible to kill the BOSS in one go.

However, he didn't need to think about this problem for the time being. He would think about it tomorrow.

To Zhang Shan, he was needed now to mass-produce intermediate arrow towers.

Zhang Shan kept the arrow tower in his hand into his backpack, and then continued to build.

One by one, the ingredients were placed on the operating table.

One by one, mini arrow towers were created by him.

In the beginning, he would often fail.

However, after Zhang Shan had successfully created dozens of arrow towers, he rarely failed again.

After a short while, his Level 5 Grandmaster engineering proficiency rose by 100 points.

In other words, he had successfully built a hundred intermediate arrow towers.

However, it was still too early.

Feng Yun realm had obtained over 30000 sets of materials.

He had only consumed three to four hundred portions.

This was really a hard job.

Zhang Shan's hands were busy.

this reminded him of his work days.

It was a job that could never be finished.

However, he didn't expect that it would be the same in the game.

how long would it take for him to consume all thirty thousand sets of materials?

The liver.

Zhang Shan had never thought about it.

He had to put in a lot of effort just to produce engineering products.

Chapter 495 city of hedgehogs

He raised the intermediate arrow tower's proficiency to 100 points.

Zhang Shan did not stop, but continued to make.

There were still nearly thirty thousand sets of materials.

What the f * ck, with his near 100% success rate.

they probably could build 30 thousand arrow towers.

This Feng Yun realm was really too exaggerated.

The materials for the middle arrow tower were easy to collect.

but he had to spend money too.

he had probably spent two to three hundred million gold coins to buy so many materials.

Although, during normal times ...

Each set of intermediate arrow tower materials was only five to six thousand gold coins.

However, Feng Yun realm's large-scale purchase of materials ...

It would be weird if he didn't increase the price of the materials.

He had bought more than 30000 sets of materials, so it was definitely not just 5000 to 6000 gold coins per set.

on average, it was possible that the price of each material would exceed ten thousand gold.

Of course, Zhang Shan would not feel the pinch for others.

He just wanted to complain about how rich she was.

With so much money, he could buy a city.

Zhang Shan kept on placing materials on his hands, and then kept the completed arrow towers.

He couldn't help shaking his head.

He really didn't understand the world of the rich.

Even though he was considered a rich man now.

However, Zhang Shan could only be considered a nouveau riche. He had yet to realize that he was a rich man.

He did not have the habit of spending a lot of money.

Zhang Shan continued to build arrow towers.

suddenly, when he put the finished product from the operating table into his backpack, he realized that it was full.

This was really F ***.

City defense facilities such as arrow towers and Vulcan cannons could not be stacked when placed in the backpack.

one arrow tower was enough, and it took up one backpack slot.

Even Zhang Shan's backpack, after a special upgrade, had become super large, with a full 1000 slots.

However, his backpack was now full.

Ever since he had expanded his backpack to 1000 slots, he had never experienced the feeling of a full backpack.

however, he had experienced it today.

However, Zhang Shan did not feel the least bit surprised.

It was extremely boring.

These were all other people's things, and he was just a brick-moving machine.

Since his backpack was full, he could not continue to build arrow towers.

His backpack didn't even have any slots, so it would be a waste to make more.

there was no place to put it.

he couldn't possibly be holding them all in his hands.

Holding an arrow tower in one hand?

Just thinking about it was nonsense.

Zhang Shan left the Guild workshop and called for Feng Yun realm.

boss, where are you? my bag is full. Come and take the arrow tower.

"Alright, I'll be there soon."

At this moment, Feng Yun realm did not go to farm monsters. Instead, he stayed in Dangyang city and strolled around.

they were just waiting for zhang shan's arrow tower.

In a short while, Feng Yun realm teleported to the side of the Guild workshop.

After seeing Feng Yun realm's arrival.

Zhang Shan asked him.

“How many empty slots do you have in your backpack?”

windcloud blade was taken aback by his question. he then looked at his bag and said, ”

...

“What’s wrong? I still have 72 empty slots.”

hearing feng yun realm’s words, zhang shan was speechless.

How the f * ck was this a deal?

Zhang Shan had just built more than 900 arrow towers.

He had to trade more than ten times with Feng Yun realm before he could complete all the arrow towers.

Zhang Shan said to Feng Yun realm.

let’s go to wind Cloud City and do the trade there. We can set up the arrow towers while we do the trade.

Hearing Zhang Shan’s words, Feng Yun realm was a little confused.

He asked Zhang Shan.

“How many arrow towers did you just build? Can’t these arrow towers be stacked in the backpack?”

“I’ve already made more than nine hundred of them, and they can’t be stacked. An arrow tower will take up one backpack slot.”

...

Feng Yun realm finally understood.

Zhang Shan was disdainful of the small space in his bag if he did not go to wind Cloud City to trade.

He was afraid that Zhang Shan wanted this place and was waiting for him to run back and forth.

Feng Yun realm didn’t think too much and said.

“Alright, let’s go to wind Cloud City to make the deal.”

Then, the two of them teleported to the teleportation Hall and teleported to wind Cloud City.

After arriving at wind Cloud City, the two of them teleported to the city gate tower near the demon race.

Because wind Cloud City was larger in scale, it had two city gates.

The eastern city gate faced Heaven’s Gate, while the Western City Gate faced the demons.

Feng Yun realm planned to set up the defense in the direction of the demon race first.

According to normal understanding, when the demons attacked the city tomorrow, the pressure on the demons 'side should be greater.

Of course, Zhang Shan felt that this was just the psychological effect of the players.

In fact, when the monsters attacked the city, the monsters attacking the city from all directions should be similar.

Even though Zhang Shan thought so, he did not say anything.

There were still so many materials left anyway.

He estimated that he could build more than 30000 intermediate arrow towers.

With so many arrow towers, there was no need to focus on defense.

In any case, all the city walls could be filled with arrow towers.

The two of them arrived at the West Gate Tower. Zhang Shan first handed over the seventy arrow towers to Feng Yun realm.

After Feng Yun realm received the arrow towers, he immediately placed twenty-four arrow towers on the city gate tower.

it wasn't that he didn't want to set up more.

It was just that the city gate tower was only that big.

Setting up twenty-four arrow towers was already the limit.

Even if he wanted to set up more arrow towers on the city gate tower, there was no place to put them.
after setting up arrow towers on the west gate tower.

Feng Yun realm began to set up arrow towers along the city wall.

However, the city wall was much larger than the city gate tower.

Even if Zhang Shan could make more arrow towers, it was impossible to arrange the arrow towers one by one.

Zhang Shan could not be sure of the exact size of wind Cloud City.

However, the city wall was very long.

Standing at one end of the city wall, one couldn't even see the other end.

The length of each wall was probably ten to twenty kilometers.

If the city wall was also densely packed with arrow towers.

no matter how many arrow towers there were, it would probably not be enough.

feng yun realm had set up the first arrow tower on the city wall.

Then, he set up one at every five meters.

According to him, this was how things should be done.

If there were more arrow towers at the end of the formation, they would add more to the middle.

If that was not enough, the arrow towers at the back could be arranged more loosely.

In a short while, the 70 arrow towers that Zhang Shan had previously traded had been completed by Feng Yun realm.

Zhang Shan, who was following behind, quickly traded the second batch of arrow towers.

just like that, feng yun realm set up an arrow tower in front.

Zhang Shan followed behind.

After he had used up all 70 arrow towers, he would continue with the trade.

It had to be said that this was a very nonsensical matter.

f * ck, if feng yun realm's backpack was the same as his and had a thousand slots ...

Wouldn't that be much more convenient?

unfortunately, there were no 'if's.

Thus, Zhang Shan could only follow behind slowly.

After about ten minutes, Feng Yun realm had finally finished setting up the nine hundred arrow towers.

damn it, the time it took to set up the arrow towers was even longer than the time it took zhang shan to build the arrow towers.

It was simply too much.

We can't do this to the arrow tower at the back anymore.

this was too much nonsense.

he had to think of a way.

After trading the last batch of arrow towers to Feng Yun realm.

Zhang Shan thought for a while and said to Feng Yun realm.

"Boss, get two people to transport the arrow towers at the back. It's too slow."

alright, I'll get someone to wait at the Guild's workshop. After you're done with the arrow tower, get them to bring it over.

Feng Yun realm also realized that this could not go on.

He had bought more than 30000 sets of arrow tower materials.

Then, they would not be able to sleep tonight.

“Then I’ll go back first.”

After Zhang Shan finished, he returned to Dangyang city.

He teleported to the Guild workshop.

After that, he began to make the card.

In a short while, he had built a hundred arrow towers.

Zhang Shan walked out of the workshop and saw the little Secretary standing outside.

he said to his secretary.

“Boss asked you to come to the arrow transporting tower?”

“yup.”

that’s a waste of talent. Just send someone over. You don’t have to personally move the workers, hehe.

“It’s fine. I’m free anyway.”

zhang shan continued to ask the secretary.

“How many empty slots do you have in your backpack?”

“Ninety-five squares, all empty. I’ll temporarily store the other items in the warehouse.”

Hearing the Secretary’s words, Zhang Shan only wanted to say:

He was a ruthless person.

unless they were like zhang shan, who had special opportunities, otherwise, a player’s backpack could only be expanded to 95 slots at most.

Secretary Feng Yun was obviously one of them. She only had 95 slots.

But for himself, he didn’t even use a single grid. It was all empty.

The little Secretary didn’t even bring her identity token with her. She had stored it in the warehouse.

He was really ruthless.

In new world, the identity token was equivalent to the return city stone.

He couldn’t even return to the city without his identity token.

However, the little Secretary was only working as a Transportation Worker.

They were transported back and forth between Dangyang city and Fengyun city.

He didn’t need to return to the city.

There were teleportation arrays on both sides.

He could teleport back and forth without being affected at all.

Hearing the Secretary say this, Zhang Shan did not say anything more.

He traded the 95 arrow towers to the little Secretary.

Then, he continued to build arrow towers.

Just like that, Zhang Shan began to continuously make intermediate arrow towers.

As long as he could build 100 arrow towers, he would leave the Guild workshop and hand the arrow towers over to the little Secretary.

Then, the Secretary teleported to wind Cloud City and handed the arrow tower to Feng Yun realm.

he would continue to come back and transport the next batch.

Only Feng Yun realm, who was the city Lord, could arrange the arrow towers.

Even if the others wanted to help, they couldn't.

As for the task of making arrow towers, in the wind cloud Guild, there was only one level 5 Grandmaster engineer, Zhang Shan.

No one could do it for him.

The three of them had been busy.

Although it was an engineering product, it wasn't too strenuous.

He placed the materials on the operating table and took out the finished product.

The entire process only took two to three seconds at most.

however, when the number reached more than 30000, the time spent was very significant.

Zhang Shan continued to build. He could only build less than 2000 arrow towers in an hour.

He had been building arrow towers since they had taken down the demon City in the morning.

Even at night, the 30000 sets of materials were still not consumed.

This was after Zhang Shan had asked Feng Yun realm to stop purchasing materials.

If he continued to purchase materials, Zhang Shan would not be able to sleep today.

As time slowly passed ...

Zhang Shan continued to build arrow towers.

Meanwhile, the Secretary kept moving them.

feng yun realm stayed in wind cloud city, endlessly setting up arrow towers.

Slowly, the entire city wall of wind Cloud City was filled with intermediate arrow towers.

in the beginning, feng yun realm arranged the arrow towers with a five meter interval.

But in the end, all four walls of wind Cloud City had been set up.

However, the materials had not been used up yet. Zhang Shan was still making.

For the arrow towers that were built later on, Feng Yun realm continued to fill in the middle of the other arrow towers.

In the afternoon, the changes in wind Cloud City were discovered by other players.

Some players noticed that the walls of wind Cloud City were filled with arrow towers and complained in the world Channel.

“Are there any brothers who are strolling around wind Cloud City? There are many arrow towers on the walls of wind Cloud City. What the hell are these?”

“Do you still need to ask? Of course, the Archer towers are used for defense.”

“that can't be. is there a need for so many arrow towers for defense? i can see that the walls of wind cloud city are filled with arrow towers. there are so many of them that i can't even count them.”

“Look at the attributes of the arrow tower. When I was in wind Cloud City, I saw Feng Yun realm continuously setting up arrow towers on the city wall. The attributes of those arrow towers are extremely high. They have 50000 attack power and a range of 100 yards. They can attack twice per second.”

“f * ck, do these arrow towers have attributes? I really didn't pay much attention to that.”

“Damn, I remember now. These arrow towers are the city's defense facilities, right? the demon-suppressing city has similar things, but the demon-suppressing city has fire god cannons.”

“Where did Feng Yun realm go to get so many arrow towers? don't they cost money?”

“You're thinking too much. Money is definitely needed and it probably won't be cheap. But would Feng Yun realm care about money?”

“That's true. But where did these arrow towers come from? What kind of monster would drop such an arrow tower?”

“Are you an idiot? arrow towers are definitely made by players.”

yes, it should be an engineering class. It should be an engineering product.

“F * ck, can engineering also build arrow towers? Why didn't I know about this? I'm also an engineer.”

“there are many things you don't know. we'll talk about it after you level up your engineering. I don't know where the wind and cloud Guild got the blueprint for this kind of arrow tower.”

“they fight a lot of bosses, so i won't be surprised if they drop anything.”

“That's true.”

is there a monster attack in Fengyun city tomorrow? ”

“there must be. otherwise, why would feng yun realm build so many arrow towers?”

“There will definitely be a monster attack in Fengyun city tomorrow. according to the routine of the demon-suppressing city last time, after the players attacked the demon city, there would be monsters attacking the city the next day.”

“Yeah, it’s a pity we can’t see it. Before the monster attack begins tomorrow, Feng Yun realm will probably clear the area in advance.”

“Of course. If he doesn’t clear the area in advance, what if someone causes trouble when the monsters attack the city?”

sigh, I really want to see what it’s like when so many arrow Towers Open Fire at the same time. It’s a pity I can’t see it.

“let feng yun realm livestream tomorrow when the monsters attack the city. then, we can watch it, right? Hehe.”

“You’re thinking too much. Feng Yun realm would never do a live broadcast.”

“It’s easy to see the power of the arrow tower. Just walk to the side of the arrow tower and hit it. ”

“I’m not that cheap.”

“Enough nonsense, let’s go kill some monsters.”

As more and more arrow towers were set up in Fengyun city, the number of people in the city increased.

Everyone was amazed.

feng yun realm’s plan was indeed a little too big.

All the walls of Fengyun city were filled with arrow towers.

This scene looked very exaggerated.

It was simply a city of porcupines.

back then, when the monsters attacked the demon-suppressing city, there were still people who came to destroy it.

In that case, no one would dare to come and cause trouble for the monster attack tomorrow.

It was not to say that Feng Yun realm was more influential than Zhang Shan.

It was just that there were so many arrow towers. It was a little scary to look at.

Since Feng Yun realm could set up so many arrow towers on the city wall, he could also set up some other arrow towers in other parts of the city.

No one would be stubborn enough to fight these arrow towers head-on.

With the current strength of the players, no one could withstand the attack of the arrow tower.

Not to mention others.

Even Zhang Shan had to spend a lot of effort to deal with the four arrow towers on the city gate tower.

If it was anyone else, even if it was an arrow tower, no one would be able to withstand it.

Therefore, the monster attack on Fengyun city tomorrow should be very safe.

At least, he didn't have to consider the players' harassment.

As for the monsters attacking the city ...

It should not be a big problem.

There were so many arrow towers.

Even if those demons were all level 80 monsters, they couldn't get close to the walls of wind Cloud City.

The only thing they had to worry about was the BOSS that might appear.

the BOSS that attacked the city would definitely not be weak.

it was the BOSS that would appear in the monster attack tomorrow.

They were all bosses that were at least level 70.

The final BOSS might even be over level 80.

Not to mention the BOSS's attributes and skills, how crazy would they be?

Just that level alone was already very frightening.

Although there were so many arrow towers on the city wall of wind Cloud City, there were still a lot of arrows.

However, if he wanted to stop the BOSS, he would probably still be a little lacking.

the BOSS still had to be dealt with by them.

As long as they could pull the boss.

The monster attack on Fengyun city the next day should be easy to pass.

Zhang Shan continued to build arrow towers, working until 11 O'clock at night.

He had finally consumed all 30000 sets of materials.

He could not even remember how many arrow towers he had built.

After the arrow tower was completed, it was handed over to the little Secretary.

After that, he would bring the Secretary to Fengyun city and hand her over to Feng Yun realm to arrange for her to be on the city wall.

The three of them had spent an entire day working on the side axis and had collected more than 30000 sets of materials.

They turned into arrow towers on the walls of wind Cloud City.

When all the materials were used up.

Zhang Shan was teleported to wind Cloud City.

He wanted to see what it would be like to have more than thirty thousand arrow towers on the city wall.

When Zhang Shan teleported to the top of the city gate, he looked at the city walls on both sides.

On the city wall, there was a long row of arrow towers that extended into the distance until they could not be seen.

In the face of such a scene.

Zhang Shan only wanted to say two words.

Spectacular.

Not to mention the power of these arrow towers.

Just this scene alone was scary enough.

Compared to wind Cloud City ...

Zhang Shan felt that his demon suppressing city was in a state of running naked.

They saw wind Cloud City and the powerful arrow towers on the city wall.

Zhang Shan was considering if he should arm the demon suppressing city as well.

he would build a batch of intermediate arrow towers and fill up the entire city wall of the demon-suppressing city.

However, this thought only flashed through his mind for a moment before he gave up.

I can't buy the materials now.

Almost all the arrow tower materials on the market had been swept clean by Feng Yun realm.

If Zhang Shan wanted to arm the demon-suppressing city to the same level as wind Cloud City.

He would have to wait for a while.

He had to wait for the materials on the market to be sufficient.

however, compared to wind cloud city ...

The demon-suppressing city was much smaller in size.

He probably did not need too many arrow towers.

Zhang Shan estimated that he would only need three to five thousand arrow towers to arm the demon-suppressing city.

He couldn't buy the materials now, but it shouldn't be a problem in the future.

After some time, he should be able to buy the materials for the intermediate arrow tower.

He would find some free time in the future.

Let's arm the demon-suppressing city as well.

The demon-suppressing city, which was running around naked, looked very insecure.

Especially after comparing it to Wind Cloud City.

Zhang Shan felt that the demon-suppressing city was not safe.

Although there seemed to be nothing that could threaten the demon-suppressing city at the moment.

However, one had to look at the problem from the perspective of development.

What if the game producers came up with something in the future?

For example, they could organize some special monster attack.

The players' levels were also slowly increasing.

When everyone's level had reached a certain level.

Perhaps there would be people who would be jealous of Zhang Shan's demon-suppressing city.

sneakily stealing the city.

However, with the current strength of the players, it was impossible for them to take away the demon-suppressing city.

Even if Zhang Shan went offline to sleep, no one could enter the city Lord's residence and break the city Lord's golden seal.

This was because Zhang Shan had installed three fire god cannons at the main entrance of the city Lord's residence.

With the players' current strength, no one could break through the blockade of the three fire god cannons.

But it would be hard to say in the future.

After all, the players' strength was growing.

In a few months' time, there might be someone who could withstand the fire of the fire god cannon and break into the city Lord's residence.

If someone were to charge into the city Lord's Manor and break the city Lord's golden seal, Zhang Shan would have no place to cry.

Chapter 496 The fifth level of the demon-suppressing dais

Zhang Shan was on the city gate tower. After watching for a while.

Feng Yun's realm had already finished setting up the remaining arrow towers.

He teleported to the top of the city gate tower and said to Zhang Shan.

"Thank you so much. Otherwise, I really don't know how to deal with the monster attack tomorrow."

Zhang Shan waved his hand and said.

“It’s a small matter. I’ve earned some proficiency points anyway.”

to the realm of wind and cloud, zhang shan had indeed been a great help.

without zhang shan, these intermediate arrow towers would have been impossible.

Tomorrow’s monster attack was most likely over.

It was very likely that the demon race’s wild monsters would break through wind Cloud City.

However, to Zhang Shan, this was indeed a small matter.

It was just a waste of his time.

It had been almost half a year since the game started.

Time was no longer as precious as it had been at the beginning of the game.

It’s not too bad now.

To Zhang Shan, even if he had to farm monsters for a day, he would still be able to survive.

He might not even be able to level up to one-tenth of the original level.

Hence, helping Feng Yun realm build arrow towers was not a problem at all.

Moreover, he had earned some proficiency points.

His engineering level was now Level 5 Grandmaster, and he already had 100 proficiency points.

As long as he could obtain another 200 proficiency points, he would be able to advance to a level 6 engineering Grandmaster.

Of course, these 200 proficiency points were not easy to obtain.

The main problem was that he didn’t have a blueprint.

He did not have any other Level 5 engineering blueprints on hand.

He couldn’t even increase his proficiency.

He could only slowly get the blueprints in the future.

Zhang Shan looked at the time. It was already past 11 O’clock.

He had originally planned to go to the West capital to find an Qisheng.

Let’s see how I should complete the ring mission.

However, it was too late now and he was too lazy to do it. He would wait until tomorrow.

Zhang Shan returned to Dangyang city and went offline to sleep.

The next morning.

After washing up and eating something, he entered the game.

When Zhang Shan appeared in Dangyang city, he realized that his surroundings were quiet. There were almost no people in sight.

it was still early, so there weren't many players online.

after zhang shan went online, he did not plan to do anything else.

He had to find an Qisheng first and activate the divine weapon mission.

He hoped that an Qisheng wouldn't cause him any trouble this time.

With Zhang Shan's strength, he did not have to worry about the mission being too difficult and not being able to complete it.

However, if the mission was not easy and too troublesome, it would not be a good thing.

If he were to encounter a mission that was too troublesome, wouldn't that waste a lot of his time?

Zhang Shan went through the teleportation Hall and teleported to the West capital.

Then, he directly teleported to the door of an Qisheng's alchemy laboratory.

the door of the laboratory was open.

It was good.

An Qisheng didn't reject his guests.

Zhang Shan walked straight into the small courtyard of the laboratory.

He saw an Qisheng holding a teacup and drinking tea in the courtyard.

these days were simply too free and unfettered.

Zhang Shan had seen many NPCs in the game, but none of them had lived as carefreely as an Qisheng.

Speaking of which, an Qisheng was a beggar before.

Zhang Shan made a malicious guess.

...

Did he not want to fight anymore after a sudden outburst?

Of course, although Zhang Shan was complaining in his heart.

however, he still had a smile on his face.

How could Zhang Shan not laugh?

at this moment, there was a huge question mark above an qisheng's head.

This meant that he was the right person to look for to repair the ring.

Of course, he had to prepare a smiling face when he was asking for help.

Zhang Shan walked forward.

He took out the broken ring and said to an Qisheng.

“Master, look at this ring, is this the second ring of the heavenly Eagle King?”

After an Qisheng took the ring, he looked at Zhang Shan with a smile, as if he was looking at a fat sheep.

...

An Qisheng said to Zhang Shan after carefully examining the damaged ring.

“not bad, not bad, young hunter, you’re not bad. I remember that this ring eventually fell into the hands of a powerful demon. Did you kill that demon and take back the ring?”

“yes, yesterday i killed a demon race city lord and took back this ring. may i ask master, is this the ring of the heavenly eagle king?”

“that’s right, this is the heavenly eagle king’s second ring. it’s a pity that this ring is too badly damaged.”

hearing an qisheng’s words, zhang shan’s heart sank.

Does this mean that I’ll have to go through a lot of trouble to repair this ring?

f * ck, can’t you just let him go a little more smoothly?

Zhang Shan felt that ever since he had found an Qisheng, all the divine weapon missions that he had taken on were not simple.

At least, compared to the other big shots in the Guild.

The divine weapon mission he was doing was much more difficult than the other missions.

This an Qisheng couldn’t be a bad person, right?

Was he here to make things difficult for him?

The divine weapon missions that the others received from ou Zi and Xu Fu were so simple.

He just had to keep on collecting materials.

No one would be like Zhang Shan, who had to go through endless trouble just to repair a divine artifact.

zhang shan asked an qisheng in an unhappy mood.

“Master, can this ring still be repaired?”

To be honest, Zhang Shan was a little worried. This damaged ring could have been damaged to the point that it could not be repaired.

This was because the description of the ring only said that it was a relic of the heavenly Eagle King. It was not like the other God equipment quest items.

On the item's description, it indicated that the item was emitting divinity.

In other words, this damaged ring might no longer have any divinity.

could an item without divinity still be considered a divine artifact?

zhang shan was a little worried.

as expected, an qisheng said emotionally.

"It'll be very difficult to repair this ring. The divinity in the ring has been completely lost. I have to reactivate the divinity in it first."

Hearing an Qisheng's words ...

Not only was Zhang Shan not disappointed, but he was also very happy.

It was difficult to repair a ring, but it could be repaired.

Zhang Shan was not afraid of difficulties.

No matter how difficult the mission was, would it be difficult for him?

At most, it would just be a little more complicated.

At most, he could just take it slowly.

Zhang Shan asked an Qisheng.

"Master, I want to repair this ring. What do I need to do?"

He couldn't be bothered to beat around the bush with an Qisheng.

If there's a mission, then hurry up and post it. There's no need for so much nonsense.

An Qisheng said to Zhang Shan.

"To activate the divinity in the ring, you need to pour the blood of a strong person. Take this ring and go kill those powerful demons. As long as you kill enough demon powerhouses, you'll be able to activate the divinity in the ring sooner or later."

After an Qisheng finished speaking, he picked up his teacup and closed his eyes to rest.

Seeing such a situation.

Zhang Shan knew that an Qisheng had probably already given him a mission.

he opened the mission panel.

Indeed, there was an additional mission.

[activate divinity: kill powerful demons and use their blood to awaken the divinity in the divine weapon.
]

[requirement: kill 81 red bosses.]

[mission completion rate: 0/81]

Seeing this mission, Zhang Shan wanted to curse.

An Qisheng, this useless person, should be a human.

He had actually given him such a simple mission.

Is this a human? can he complete the mission?

81 red bosses? He was probably not joking.

Do you know how hard it is to find a red boss?

zhang shan was not worried that he would not be able to defeat the red boss.

He could solo the weaker red bosses.

But where was he going to find 81 red bosses?

He had to kill 81 of them, not just eight.

This quantity requirement was really a little too much.

Elder Tang had only faced eighty-one difficulties when he went to heaven to retrieve Sutras.

Zhang Shan was only trying to repair the divine weapon.

In order to complete the preparatory mission, he had to kill 81 red bosses.

Seeing this mission, Zhang Shan could not help but feel a headache.

Zhang Shan wanted to scream.

It was too difficult for me.

However, he couldn't haggle over the mission in the game.

Since the mission was out, he had to do it.

Unless he didn't want to repair this divine artifact ring.

As long as he still wanted to repair the divine artifact, he would have to obediently complete an Qisheng's mission.

For the sake of the divine weapon, he had to find a way to complete the mission no matter how ridiculous it was.

Zhang Shan left an Qisheng's laboratory courtyard and returned to Dangyang city.

Looking at the mission on the mission panel, Zhang Shan fell into deep thought.

It was not impossible for him to complete this mission to activate divinity.

wasn't it just killing a red boss?

Actually, it wasn't difficult at all.

those normal red bosses below level 56, zhang shan could take them on alone.

The problem now was that there were too many mission requirements.

In total, they would need to kill 81 red bosses.

This would take a long time.

How could he find so many red bosses?

normally, there would be a red boss in the demon suppression city instance every week.

However, it was unrealistic to complete the mission by clearing Dungeons.

this was too slow.

There were also many red bosses that would appear during monster sieges.

however, this month's monster siege had just ended.

There were still more than 20 days until the next event.

Moreover, a normal monster attack would only last for an hour.

In such a short period of time, Zhang Shan would not be able to defeat many red bosses.

In addition, there would be a few red bosses appearing during the monster attack on Fengyun city tomorrow.

However, this was still too little.

It was impossible to gather all 81 bosses through these events.

Unless Zhang Shan planned to complete the mission for a few months.

He didn't want to drag it out for so long.

Other than that, there would be boss activities.

in that case, he could only go to the wild to find bosses.

In fact, there were many different bosses in the Heaven's Gate map.

Of course, there were also many red bosses.

But the problem was that The Map of Heaven's Gate was too big.

It would not be easy to find the red boss.

If they were lucky, they could find one or two red bosses every day.

if they were unlucky, they might not be able to find a red boss even after running for an entire day.

however, zhang shan had no other way out.

He could only rely on searching the entire map for bosses.

This was the only way to speed up the progress of the mission.

Zhang Shan closed the mission panel and teleported to the auction house.

He planned to walk around the auction house first.

He had nothing to do now anyway.

Even if they went to the Heaven's Gate map to find the boss, they would have to wait for the others to come online first.

He couldn't possibly go and find the boss alone.

Even though he could solo a lot of normal red bosses.

However, if he encountered a boss that he couldn't defeat alone, wouldn't that be a huge loss?

therefore, he had to find some helpers.

After boss Wu and the little fairy came online, they would go and find the boss together.

as for wind cloud blade and heart moves with me ...

These two big shots were probably busy recently.

They had all gotten their hands on the divine weapon molds.

He was currently collecting materials and preparing to forge a divine artifact.

I won't trouble them.

In the previous monster siege and the attack on Twin City, the players had been killed.

The wind and cloud Guild had dropped a total of four divine weapon molds and two divine weapon quest items.

other than zhang shan's damaged ring.

There were also five people who were doing the divine weapon mission.

Perhaps after a period of time, there would be a large number of divine weapons coming into being.

Zhang Shan strolled around the auction house for a while and did not pick up anything.

he only casually swept through some materials.

after a while, boss wu and the little fairy came online.

Zhang Shan pulled the two of them into the team and said on the team channel.

"Come to Dangyang city and clear a dungeon."

Zhang Shan planned to finish this week's dungeon entry before he went to find the BOSS.

Even though there was only one red BOSS in the dungeon.

Compared to the mission requirement of 81 red bosses, it was still far from enough.

However, little by little, he could do it one by one.

he would be able to gather 81 sooner or later.

Now that boss Wu and the little fairy had reached level 50, the three of them were just enough to go to the fifth floor of the demon-subduing stand dungeon.

Although there were only three of them, it didn't matter.

He might not be able to beat the instance dungeons of other difficulties.

However, they shouldn't have any problems clearing the normal difficulty.

Hearing Zhang Shan's words, boss Wu asked on the team channel.

"Is it just the three of us going to clear the dungeon? not waiting for the others?"

yeah, it's just the three of us. Wind and cloud blade and heart moves with me are both busy with their quests. I guess they're not free.

"Alright, I'll immediately return to Dangyang city."

After a while, boss Wu, I, the little fairy, returned to Dangyang city.

The three of them met up with the military officer.

The little fairy said happily to Zhang Shan.

haha, I won't bring Windcloud blade along this time. I'll piss him off.

Seeing the little fairy like this, Zhang Shan could not help but hold his forehead.

What the f * ck is this?

Was it because he did not want to carry wind and cloud blade?

He was simply too busy.

However, Zhang Shan did not do so. He continued to ponder over this problem.

Instead, he said to them.

"let's go for the normal difficulty."

no way, brother Guan. Although there are only three of us, you're so strong. It shouldn't be a problem for you to clear the hard mode.

Of course, Zhang Shan knew that even if it was the hard mode, they would be able to clear it.

But he had to play it safe.

His purpose for clearing the dungeon was not for anything else.

Instead, it was to steadily defeat the dungeon's final BOSS.

It was an ordinary red BOSS.

Every time they killed one, the mission progress would move forward.

He didn't want to take any risks.

Right now, his only goal was to defeat the red BOSS.

As for the rest, they were all fleeting clouds.

Zhang Shan displayed the description of the mission to activate divinity on the team channel and said.

" i want to do a quest. nothing else is important. i just want to defeat the red BOSS. "

Seeing the mission that Zhang Shan displayed, boss Wu and the little fairy were both stunned.

"Brother Guan, did you do something bad? Why did I receive such a terrifying mission?"

"That's right, this mission is too outrageous. Killing 81 red bosses? that's too much. Where can we find so many red bosses to kill?"

doesn't that mean that it will take a few months to complete this quest? "

They couldn't help but be shocked. The mission that an Qisheng had issued was indeed ridiculous.

Even Zhang Shan, when he first saw the mission, was a little stunned.

However, he had no choice. For the sake of the divine weapon, he had to complete the mission no matter how ridiculous it was.

Zhang Shan said.

"It's okay. After we finish the dungeon, we'll go find bosses to fight. From now on, we'll fight bosses every day and stop farming monsters. After one or two months of fighting bosses, I should be able to complete the mission requirements."

"haha, this is good. It's much better to fight a BOSS than to kill monsters."

When she heard that Zhang Shan planned to fight bosses every day, the little fairy was happy.

She didn't want to farm monsters for a long time. She only wanted to fight the BOSS.

however, if zhang shan did not go, she would not be able to defeat the BOSS alone.

Even if it was a purple BOSS, she would not be able to defeat it.

Now that Zhang Shan was leading the way, it was not a problem.

zhang shan did not waste any more time. he directly selected the normal difficulty from the military affairs officer and entered the demon-subduing stand instance dungeon's fifth level.

The demon-subduing platform's fifth floor dungeon had yet to be cleared by anyone.

It was actually normal.

Other than Zhang Shan and the five of them.

The other mainstream players had only just reached level 40.

The other players were still far from reaching level 50.

If they farmed monsters normally, in another two or three months, there probably wouldn't be many people who could reach level 50.

In terms of level, Zhang Shan and the rest had left the other players far behind.

After entering the demon subduing platform instance.

Looking at the dungeon, there were monsters everywhere.

They had to clear all these monsters first before the final BOSS would appear.

However, this time, it was only the normal difficulty.

Although there were many wild monsters in the dungeon, they were not difficult to deal with in extreme mode.

Zhang Shan and the other two quickly rushed towards the monsters in the distance.

He started swiping.

Zhang Shan kept firing at the monsters.

with one shot, 12 monsters fell to the ground.

the wild monsters in the demon-suppressing dais 'fifth-floor dungeon were all level 60 ronin.

This was a type of monster that Zhang Shan had never seen before.

The Ronin held a long, thin blade and kept jumping up and slashing people.

This action looked very strange.

However, Zhang Shan did not mind.

The level 60 monsters in the dungeon didn't have the Holy demon's protection, so they were all killed in one shot by his bullets.

As Zhang Shan fired his gun, he checked the attributes of the Ronin.

It was a new type of monster, so it might have a passive skill.

However, after checking the attributes and skills of the Ronin, Zhang Shan was disappointed.

These demon Ronin didn't have any passive skills.

[Ronin demon: level 60, attack 7000, HP 55000, skill: leap strike]

[jumping slash: Ronin wields a blade and jumps, increasing damage by 50%.]

For a small monster, the demon Ronin's skill was pretty good.

However, to Zhang Shan, this jumping hack skill was completely useless.

It was not a passive skill.

Zhang Shan continued to fire his guns and pushed forward. Groups of Ronin were beaten to the ground by him.

Little fairy and boss Wu were also killing monsters nearby.

After learning the chain Lightning Skill, boss Wu finally had a certain ability to kill monsters.

A Chain Lightning Skill could injure nine targets.

However, compared to Zhang Shan's speed of clearing monsters, the speed of the two of them was really slow.

Zhang Shan said to boss Wu and the little fairy after watching for a while.

"You guys go and lure the monsters. I'll clear the monsters by myself."

"Ah, I'm such a powerful Archer. Am I only worthy of doing the job of luring monsters?"

The little demon was very depressed.

Her equipment and skills were all very good.

other than the fact that he did not have a divine weapon.

No matter how one looked at it, she was the top existence among the current players.

However, compared to Zhang Shan, the little fairy was still a burden.

Her farming speed was still too slow.

It was better to let them lure the monsters.

As for the matter of farming monsters, it would be left to Zhang Shan alone.

In this case, Zhang Shan could just stand there and continue to farm monsters.

The speed could be even faster.

After Zhang Shan had finished.

Boss Wu quickly rode his horse to lure the monsters in the distance.

Little fairy was unhappy.

However, he also went in another direction to lure the monsters.

After all, they could only see the final BOSS when they cleared the monsters earlier.

Chapter 497 passive skill fearless

Zhang Shan stood at his original position. He did not need to do anything. He only needed to keep shooting.

There would be a large number of demon Ronin falling to the ground and leaving.

At the same time as Zhang Shan opened fire.

every fifteen seconds, he would fire a wave of shrapnel at the distant ronin.

Although the damage of the shrapnel skill was very low, only 10%, it was still very weak.

With Zhang Shan's current attack power, each wave of skills could only take out these demon Ronin, which was about 10000 health.

The Ronin, on the other hand, had a total of 55000 HP.

He had to use four to five waves of shrapnel in a row to clear out a batch of monsters.

However, the damage range of the shrapnel skill was huge.

in a situation where the monsters were concentrated together, a 50-yard damage range could hit at least two to three thousand monsters.

In other words, just by relying on the pomegranate grenade skill.

Zhang Shan could clear two to three thousand monsters in a minute.

This clearing speed was no slower than him using catapults to clear monsters.

Under the combined attack of the pomegranate grenade skill and the passive ejection, a large number of Ronin fell to the ground.

However, around Zhang Shan, the number of demon Ronin did not decrease. Instead, they increased.

Boss Wu and the little fairy had attracted these Ronin from a distance.

Just like that, the three of them stayed on the fifth floor of the demon-suppressing dais.

Zhang Shan was in charge of clearing the monsters, while boss Wu and the little fairy were in charge of luring the monsters.

After about an hour, they had basically cleared out all the small monsters in the dungeon.

During this time, Zhang Shan had also defeated two orange Ronin leaders.

However, Zhang Shan did not give any special treatment to these two Ronin leaders.

Mixed in with the ordinary Ronin, and was killed by Zhang Shan like a small monster.

After Zhang Shan had cleared out all the demon Ronin around him.

he did not receive any system notification.

In other words, the dungeon's final boss had yet to appear.

Zhang Shan looked at boss Wu and the little fairy and said.

“The BOSS hasn’t respawned yet. You guys haven’t lured all the small monsters here, have you?”

I don’t know. I’ve lured all the small monsters I saw over.

“Let’s split up and look for him.”

The three of them split up in the dungeon to look for the monsters they had missed.

Zhang Shan was riding on the red Hare, speeding through the dungeon.

He really did find a few small monsters.

Boss Wu and the little fairy were a little unreliable.

He had actually missed so many monsters.

After they had cleared the instance dungeon once more, they were finally done.

A system notification sounded.

[system notification: as a large number of Ronin have died, the Ronin commander of the demon race will come to the demon subduing platform instance dungeon’s fifth floor for an inspection.]

At the same time as the system notification, it also gave the coordinates of the landing of the Ronin commander of the demonic race.

Zhang Shan quickly ran to the coordinates.

After a short while, he saw the Ronin commander of the demon race.

he saw the ronin commander of the demon race, with two sabers at his waist, one long and one short, walking back and forth near the coordinates, like a lord patrolling his territory.

After seeing the Ronin commander of the demon race.

Zhang Shan did not rush forward.

A normal level 60 red BOSS shouldn’t be too strong.

He could defeat them by himself.

but he still planned to wait for boss wu and the little fairy to come.

With boss Wu as the support, the game was more stable.

After a while, boss Wu and the little fairy arrived.

Zhang Shan didn’t waste any time and went up to attack the BOSS.

When they saw Zhang Shan approaching.

the ronin commander of the demon race suddenly jumped up and drew his long blade in the air, slashing down at zhang shan.

Seeing this, even Zhang Shan was a little speechless.

...

It's just a game, do you have to make it so exaggerated?

Although the Ronin commander had already jumped into the air.

however, this did not stop zhang shan from shooting.

As long as it was within his shooting range, it didn't matter if it was in the air or on the ground, he could attack it.

Zhang Shan held his hand cannon and fired continuously.

As for the Ronin commander, he quickly descended from the sky and slashed at Zhang Shan.

Damage 126822.

Holy sh * t, this Ronin commander of the demon race still had a lot of damage.

A level 60 red boss could actually deal 120000 damage.

Luckily, Zhang Shan had chosen the normal difficulty.

If he had chosen the ultimate mode, the three of them would not have been able to take down the boss.

...

However, it was not a big problem now.

Although the Ronin commander of the Infernals could deal 120000 damage with a single slash, he was still very powerful.

However, with Zhang Shan's own lifesteal effect and boss Wu's healing, he was able to heal himself.

It wasn't a big problem to withstand the damage of the Ronin commander.

After Zhang Shan had pulled the boss.

Boss Wu quickly rushed up and healed him.

The little fairy stood in the distance and began to shoot arrows.

As Zhang Shan opened fire, he checked the attributes and skills of the Ronin commander.

[Ronin commander (red): level 60, attack 70000, HP 35000000]

Skill 1, jumping slash; skill 2, fearless (passive); skill 3, two-blade stream; skill 4, one-blade slash.

[jumping strike: every time the Ronin commander attacks, he will use all his strength to jump strike, increasing the damage by 100%.]

[fearless (passive): the Ronin commander of the demon race has a fearless nature, greatly increasing his attack power.]

[two blade stream: when the Ronin demon commander uses a short blade while wearing two blades.]

there will be an additional damage effect and double the damage.

[one slash: the Ronin commander slashes forward with all his strength, dealing 500% damage to the target in front of him. The damage range is 50 yards in front of him.]

After looking at the attributes and skills of the Ronin commander, Zhang Shan was relieved.

after all, it was only a level 60 red BOSS, so it wasn't that strong.

However, that passive skill of the Ronin commander of the demon race made Zhang Shan very jealous.

He didn't know if he would be able to get this passive skill out after he destroyed it.

Hopefully, he could get it.

The effect of such a passive skill that increased attack power was almost equivalent to half a divine weapon.

Of course, even though Zhang Shan really wanted this passive skill.

However, the problem of probability was not under his control.

He could do nothing but pray silently.

The Ronin commander of the demon race wielded a long blade, and slashed at Zhang Shan.

Each of his slashes dealt around 120000 to 130000 damage.

But Zhang Shan was not weak either.

The bosses in the dungeon were not like the ones in Heaven's Gate.

All the demonic monsters in the Heaven's Gate map had a Holy demon protection state, which reduced damage by 50%.

It was very annoying.

The bosses in the instance dungeon did not have this state.

With Zhang Shan's current attack power, plus boss Wu's attack blessing.

Every time he attacked, he would deal more than 120000 damage.

Furthermore, the speed at which Zhang Shan fired his gun was much faster than the jumping speed of the Ronin commander.

zhang shan fired two to three shots, and the ronin commander of the demon race could only deal one hit of damage.

In other words ...

the ronin commander of the demon race had killed 100 thousand of zhang shan's blood.

zhang shan relied on his own lifesteal effect and could absorb back 80000 to 90000.

Boss Wu could totally cover the remaining difference.

And this was only Zhang Shan's normal damage output.

If he activated his berserk skill ...

They would fight even faster.

he didn't need boss wu's healing to withstand the damage from the ronin commander.

After pulling the boss steadily.

zhang shan and the little fairy kept on attacking the ronin commander of the demon race.

this ronin commander of the demon race had 350 million hp.

they would probably have to fight for a long time before they could blow it up.

Zhang Shan estimated his output efficiency.

After taking into account the various critical effects, he should be able to deal more than 30 million damage per minute.

In other words, he could defeat the Ronin commander of the demon race in ten minutes.

And this was without counting Zhang Shan's explosive skill.

if he activated his berserk skill, his damage output would be greatly increased.

The little fairy's output efficiency was far from Zhang Shan's.

However, the damage she had done was not too bad.

He should be able to match up to a tenth of Zhang Shan.

By normal calculations, they should only need seven to eight minutes to blow up the Ronin commander of the demon race.

Under the continuous attacks of Zhang Shan and the little fairy, the health of the Ronin commander of the demon race was dropping rapidly.

In a short while, the Ronin commander's health had been reduced by 20%.

When his health dropped to 80%.

The Ronin commander of the demon race suddenly drew the short knife at his waist.

Both blades struck out, and two lines of damage appeared above Zhang Shan's head.

-130566,-259368?

The Ronin commander of the demonic race used his two blade stream skill, reducing Zhang Shan's health bar by half.

However, Zhang Shan did not panic.

Even if he lost half of his HP, he still had over 300000 HP.

It was impossible for this Ronin commander of the demon race to kill him.

Zhang Shan quickly activated his berserk and fanatic skills, and at the same time, he activated his shadow clone skill.

Three Zhang Shans stood in a row.

countless bullets swept towards the ronin commander like raindrops.

After activating his berserk skill, Zhang Shan was terrifyingly fierce.

A violent amount of damage was dealt, and the HP bar was instantly full.

As for the Ronin commander, his HP dropped even faster under this wave of fierce attacks.

after all, this ronin commander was only a level 60 red BOSS.

To Zhang Shan and the rest.

A BOSS like this was a little weak and couldn't possibly cause any waves.

Under their continuous attacks.

In a short while, they were the only ones who had reduced the Ronin commander's health to half.

The Ronin commander, who had only half of his health left, suddenly retracted his blade and retreated.

He then slashed out with his blade.

A huge blade of light was coming towards Zhang Shan.

-340051 damage.

One slash and Zhang Shan's health was reduced by 340000.

But it was just that.

The ultimate move of this Ronin commander of The Fiend Race wasn't too strong.

Even though it was still five times the damage.

However, its ultimate skill could only deal damage to the target in front of it.

boss wu and little fairy had been hiding behind the ronin commander ever since they had checked the BOSS's attributes and skills.

This one slash skill did not pose any threat to them.

As for Zhang Shan, there was no need to even mention him.

With his 660000 HP ...

Facing the Ronin commander's one slash skill, he didn't even need to use a big move.

He easily withstood the damage.

After the Ronin commander of the demon race had used his big move.

The little fairy said.

"This BOSS is so weak."

it's not considered weak, right? the damage of the Ronin commander of the demon race is quite fierce.

what's so strong about it? it's just a big move, but it didn't even take away half of brother Guan's HP.

Hearing this, Zhang Shan was a little speechless.

Is there anyone who speaks like this?

What did he mean by not even taking half of his HP?

he was very strong.

A BOSS that could take away half of his HP was already considered powerful.

Of course, Zhang Shan did not want to refute the little fairy's words.

Arguing with a woman would not end well.

Of course, Zhang Shan understood this logic.

The little fairy spoke again after a while.

"Brother Guan, do you think this Ronin commander will drop a divine artifact?"

"I don't think so."

Zhang Shan could not bear to see the little fairy, who had been blinded by the divine weapon, and told the truth.

However, this was the truth.

The Ronin commander of the demonic race was just a normal red BOSS.

And they had chosen the normal difficulty.

The chances of dropping a divine artifact item were next to nothing.

Hearing Zhang Shan's words, the little fairy said unhappily.

Hmph, why can't it drop a divine weapon? this Ronin commander will definitely drop a divine longbow.

"Alright," he said.

zhang shan did not want to say anything.

If you say there is, then there is.

After all, they just had to not be disappointed after they defeated the BOSS.

However, he had finished speaking.

the number of god-level items that they had dropped recently was not small.

However, boss Wu and the little fairy didn't get a single item.

It could only be said that the luck of these two people was really not very good.

Either it didn't drop any godly items that they could use.

Or, when he rolled, he did not get it.

In comparison, boss Wu was only a supporting profession.

There was no need to have high requirements for equipment.

To him, as long as he had a set of red equipment, he would be able to fully display his abilities.

but it was a different story for the fairy.

The Archer class was similar to the Hunter class in that they both relied on the effects of equipment.

If the equipment was slightly worse, the damage would be much worse.

It was no wonder that the little demon had been thinking about her divine weapon.

unfortunately, this zhang shan really had no choice.

Even if she didn't drop the godly items that she used, Zhang Shan would be helpless.

Under their continuous attacks, the health of the Ronin commander gradually dropped to 20%.

The BOSS had been forced into a berserk state by them.

After going berserk, the Ronin commander became even more fragile, and his HP dropped even faster.

Although the Ronin commander was in a berserk state, the damage he dealt was higher.

But to Zhang Shan.

The damage from the Ronin commander was nothing.

He just had to keep shooting. In any case, the Ronin commander of the demon race couldn't kill him.

Under their continuous attacks, the health of the Ronin commander was dropping rapidly.

it didn't take long for them to beat him to an empty state.

Zhang Shan looked at the time and controlled the Panda ball. He used a combo skill and smashed the Ronin commander.

≪ system announcement: congratulations to six-barreled Bodhisattva, a little fairy, and Daoist for killing the Ronin commander of the Infernals with a blade. ≫

Skill point +1, medal +100.

≪ system announcement: congratulations to six-barreled Bodhisattva, a little fairy, and Daoist with a blade for successfully clearing the demon suppression altar dungeon's fifth floor (normal mode). ≫
skill point +1.

[system notification: your passive King talent has been triggered by killing the Ronin commander of the demonic race.]

Passive skill acquired: fearless.

Haha, soul imprint.

He had really managed to trigger the passive skill of the Ronin commander.

As for the two consecutive system announcements, Zhang Shan did not take them to heart.

The first kill of a BOSS and the first clear of a dungeon only rewarded two skill points.

To Zhang Shan, this reward was not essential.

Why did he need so many skill points?

He couldn't use it at all, and he had no skills to learn.

However, when Zhang Shan saw the system notification that the passive King talent had been triggered.

He was so happy that he almost jumped up.

This fearless passive skill was a good skill.

He had really managed to get it.

His luck today was pretty good.

His depression from receiving the mission to activate divinity from an Qisheng was swept away after seeing the system notification.

Zhang Shan quickly opened the skills panel to check the effects of the newly acquired fearless skill.

[fearless (passive): increases attack power by 10%. Acquired talent. Can not be upgraded.]

The skill description was plain.

But Zhang Shan did not care about this.

the most practical thing was to increase the attack power by 10%.

He took a look at his character's stats.

With the addition of this fearless passive.

The attack power on his Character panel had already exceeded 42000.

It must be known that this was only the attack power on the interface and did not include the effect of the killer book.

if the killer book's double effect was included ...

His current attack power had already exceeded 85000.

in addition to boss wu's attack blessing status, he had also gained a lot of strength.

Zhang Shan's attack power had definitely exceeded 100000.

and zhang shan also had three special effects and titles that increased damage by 10%.

After careful calculation, Zhang Shan's current theoretical damage had already exceeded 130000.

this kind of damage was simply terrifying.

It must be known that the attack power of many other players was still in the thousands.

Even top players, as long as they didn't have a divine weapon.

Its attack power was at most a little over 10000.

Taking into account the various bonus effects, there were only a few who could deal more than 20000 damage.

And Zhang Shan's theoretical damage had exceeded 130000.

Other people's damage was not even a fraction of Zhang Shan's.

It had to be said that this was a little overbearing.

If Zhang Shan had sent a screenshot of his Character panel to the forum for other players to see ...

Many players would probably be dissuaded.

After all, if the gap was too big, it would make people despair.

As Zhang Shan looked at the newly acquired passive skill, he was feeling very happy.

the little fairy was so happy that she started to cry out.

"haha, i'm on the system announcement again, and twice in a row."

Seeing the little fairy like this, Zhang Shan could not help but hold his forehead.

was this girl so easily satisfied?

it was just a system announcement, was it really worth being happy about?

This was not all.

After the little fairy finished speaking.

Zhang Shan received another call from wind cloud blade.

f * ck, six-man, you're so mean. You didn't even call me when you were clearing a dungeon.

Zhang Shan was especially speechless.

Was he the one who didn't want to?

You're the one who doesn't have time at all.

Zhang Shan replied.

"Didn't you want to do the divine weapon mission? Why would he have the time to come and clear the instance?"

you can also find time to clear a dungeon when you're doing a quest. Remember to call me next time.

"Alright," he said.

After Zhang Shan finished speaking, he hung up the call.

Chapter 498 The demon Army's commander

After killing the Ronin commander, he had obtained another passive skill.

Moreover, fearless passive was a passive skill that directly increased attack power.

a passive skill had increased zhang shan's attack power by almost four thousand.

It was comparable to the increase in attack power of more than half a divine weapon.

Zhang Shan was very happy.

If he had a few more of these passive skills, his attack power would double again.

zhang shan opened the mission panel again and looked at the mission progress.

[activate divinity: kill powerful demons and use their blood to awaken the divinity in the divine weapon.]

[requirement: kill 81 red bosses.]

[mission completion rate: 1/81]

It was good.

The mission progress had finally broken through zero.

Now, it was 1/81.

It seemed like this mission wasn't that difficult.

As long as he kept looking for bosses, he would be able to complete the quest sooner or later.

The little fairy said to him.

" brother guan, let's see what good stuff dropped. is there a divine weapon that i can use? "

Zhang Shan nodded and opened his backpack to check.

As for the second half of the little fairy's sentence, he ignored it.

Of course, there were no divine artifacts.

the ronin commander of the demonic race had dropped a total of two red equipment and one red material.

In addition, it also dropped a purple cloak.

This is good.

It exploded.

[Ronin's Cape (purple): level 60, increases health points by 150000, profession requirements: All classes.

Zhang Shan took a look at the cloak's attributes.

it was still pretty good.

the purple cloak was strong.

The level 60 Cape increased 150000 HP.

Even though it was far from being comparable to Zhang Shan's King's Cape.

but to other players ...

A purple cloak could be said to be a quality change suit.

Most importantly, the drop rate of the purple cloak was extremely low.

Zhang Shan and the others had fought so many bosses, but they had never dropped a few purple cloaks.

This time, they only had to clear the normal difficulty dungeon once, and a purple cape had dropped.

They had profited from this dungeon raid.

Zhang Shan displayed the dropped items on the team channel and said.

" there's no divine weapon, but it dropped a purple cloak. "

Little fairy said unhappily after seeing the items.

"Hmph, there's no divine artifact or item. Trash."

"This is already very good, okay? a purple cloak, how rare."

"How can a purple cape be better than a divine weapon?"

The little fairy's obsession with the divine weapon left Zhang Shan speechless.

He had to quickly change the topic.

let's distribute the cloaks first. The two of you can ROLL for it.

After Zhang Shan had finished speaking, the little fairy said.

“I don’t want it. This cloak is too ugly. Give it to old Wu.”

zhang shan could not help but facepalm.

Was this Ronin’s Cape very ugly?

It was very cool.

just now, the ronin commander of the demon race was wearing a ronin cloak and had a long and short knife at his waist.

That would be so cool.

...

This little goblin really didn’t know how to appreciate things.

Of course, since she didn’t want it, Zhang Shan didn’t say much. He directly gave the Ronin cloak to boss Wu.

In comparison, support classes needed more HP than archers.

It would be good to give this Ronin cloak to boss Wu.

Anyway, little fairy already had a purple cape.

Even though the ant Queen’s Cape she was wearing was only a level 40 purple cape, she was still wearing it.

But it didn’t matter.

A level 40 purple cape was still very strong.

The ant Queen’s Cape also increased his HP by over 60000.

After the Ronin’s Cape was distributed.

Zhang Shan gave the remaining red equipment to boss Wu and the little fairy, one for each.

...

as for the red material, he kept it for himself.

After everything was settled, Zhang Shan spoke.

“let’s go. we’re going to heaven’s gate to find the BOSS.”

After saying that, they left the instance dungeon and returned to Dangyang city.

Everyone, please repair your equipment and teleport to wind Cloud City.

Zhang Shan had considered it.

It would be better to find the BOSS in wind Cloud City.

The monsters in wind Cloud City were very high-level.

Other players would not stay here for long, except for visiting the place.

After all, the monsters here were at least level 70.

The current mainstream players had only just reached level 40.

They couldn't even handle level 70 monsters.

It was the same for the boss here.

They all started at rank 70.

there were also very few players who came to wind cloud city to find the boss.

For most players ...

At most, they could only defeat a level 70 mini-boss.

However, a small boss would not drop a divine weapon mold.

Even red bosses only had a small chance of dropping divine weapon molds.

As for the purple and orange bosses, the chances of them dropping a divine weapon mold were as high as one could imagine.

It wasn't much stronger than the small monsters.

There weren't many red bosses above level 70, and players could still defeat them.

Therefore, not many players would come to wind Cloud City to look for bosses.

They would usually fight bosses near Heaven's Gate or demon-suppressing city.

Other people might not be able to defeat the red boss in wind Cloud City, but for Zhang Shan, it should not be a problem.

As long as it wasn't a particularly powerful red boss, he would be able to defeat it.

He should be able to beat them.

even if they did, it would be a ferocious red boss.

That didn't matter. At most, he would just use a big move.

His deity's descent could be activated once a day.

After activating the skill {God's descent}, a level 70 red BOSS should be a piece of cake.

The three of them teleported to the East Gate of wind Cloud City.

They would not go to the West Gate.

That was the true territory of the demon race, and the wild monsters there were all at least level 80.

Zhang Shan expressed that he could not afford to offend them at the moment.

Not to mention a level 80 BOSS, even if it was a normal level 80 monster ...

It was very difficult to fight.

The East Gate was much easier to deal with.

The East Gate of Fengyun city faced the direction of Heaven's Gate, and the monsters there were basically level 70.

For a monster of this level, it was not too difficult for Zhang Shan to deal with.

They rushed out of the east Gate of Fengyun city and ran along the main road.

They passed by the farming spots.

Every time they saw a farming spot, they would walk around to see if there was a BOSS.

Generally speaking, the chances of a BOSS appearing in a place with monsters were higher.

Of course, there were also some bosses that would stay away from other monsters and farm alone.

Zhang Shan did not care if it was a waste of time.

Whenever he saw a farming spot, he would check it carefully.

They were afraid that they would miss the BOSS.

Just like that, they flew aimlessly across the map.

However, in the afternoon.

Other than the two purple bosses that they had managed to defeat.

They didn't even see an orange BOSS.

Not to mention the red BOSS.

But Zhang Shan was not disheartened.

This was how it was like to find a BOSS. Finding a BOSS was just luck.

It was normal that they couldn't find it.

That is, if they could find the BOSS as soon as they left.

In that case, the equipment and items dropped by the BOSS would not be so valuable.

In the afternoon, Feng Yun realm posted an announcement on the Guild channel regarding the monster attack at night.

The content of the announcement was simple.

The general meaning was that there would be a monster attack on Fengyun city at eight o'clock that night.

I hope that everyone will participate in the defense of the city.

and that was it.

Feng Yun realm did not and explained the other arrangements in detail.

After the announcement was made, the Guild channel suddenly became lively.

“What? there’s another monster attack tonight?”

“Brother, are you an alien? Yesterday, boss and the others took down the demon City. Today, there will be a monster attack, right?”

“F * ck, I went out to have fun the whole day yesterday and didn’t come online. Did the big bosses make some big news again yesterday?”

yes, our Guild has another wind Cloud City. We can visit it when we have time. It’s very spectacular, hehe.

by the way, why didn’t the boss tell us about the monster attack at night? what are the arrangements? ”

there’s no need to arrange anything. You can just go there directly. It’s not like we’re really going to defend the city.

“What’s the meaning of this? If we don’t, how are we going to stop the monsters?”

“You’ll know when you go to Fengyun city.”

that’s right. The walls of wind Cloud City are densely covered with arrow towers. How can the monsters that are attacking the city get up? ”

“F * ck, what’s an arrow tower? Where did you get it from?”

“I don’t know, maybe boss bought it from somewhere.”

that’s awesome. No, I’ll go and take a look now.

Feng Yun realm posted an announcement in the Guild channel. Zhang Shan only took a glance and did not bother about it.

To be honest, he was not worried about the monster attack at night.

With over thirty thousand arrow towers, it would be unreasonable if they still couldn’t defend the city.

Moreover, the city belonged to Feng Yun realm so it was Feng Yun realm’s turn to worry.

What did it have to do with Zhang Shan?

Zhang Shan could only hope that when the monsters attacked the city at night, there would be more red bosses.

He wanted him to complete a few more missions.

However, in order to complete an Qisheng’s task, he still needed to kill 80 red bosses.

It was obviously not enough to just rely on a single monster attack.

However, it was also good to be able to complete a few more targets.

One more completed meant one less.

Zhang Shan's current goal was to find the red BOSS.

as for the monster attack in wind cloud city, he would wait until night time.

Zhang Shan brought boss Wu and the little fairy, flying around on the map.

Suddenly, he saw a large group of monsters in front of him.

They encountered another farming spot.

However, it was normal to encounter a farming spot on The Map of Heaven's Gate.

There were as many spawn points on The Map of Heaven's Gate as there were hairs on an ox.

It was just that the number of monsters in this spawn point seemed to be a little high.

Zhang Shan stopped his Mount and looked at the densely packed monsters in the distance. He could not see the end of it.

He said to boss Wu and the little fairy.

let's look around here. There are so many monsters here, so there might be a BOSS.

Zhang Shan rode the red hares along the periphery of the monster-farming point, checking carefully as he galloped.

However, he couldn't find the BOSS even after looking for a long time.

After a few minutes, the three of them regrouped.

Boss Wu said.

"I don't see the boss."

zhang shan looked at the monsters in the distance and could not help but fall into deep thought.

That's impossible. With so many monsters, how could there not be a boss?

Even if there was no red boss, there should at least be an orange boss.

Zhang Shan said.

let's keep looking. There are so many monsters here. It's impossible that we can't find the BOSS, unless the BOSS was killed by someone else.

"That's impossible. We've been running for half a day and haven't met many people. There shouldn't be many people here looking for bosses."

"Yes, let's look carefully again."

After Zhang Shan finished speaking, he continued to circle around the densely packed wild monsters, slowly checking the periphery.

He felt that the BOSS might be hiding among the small monsters.

Although they had looked around, they didn't see it clearly, so they didn't see it.

This time, he slowed down and searched slowly.

suddenly, he saw a flash of red light among the monsters in the distance.

It seemed to be the name of the red boss.

However, when he looked at the group of monsters again, he couldn't find the boss no matter how hard he searched.

'Damn, was I seeing things just now?'

That was impossible.

He had clearly seen a red light just now.

It was just that the monsters in the distance were too dense.

Moreover, this farming spot was simply too big.

He couldn't see clearly from too far away.

but he couldn't do anything about it, so he went closer to check.

if that was the case, he would have to clear out the monsters for a while.

Thinking of this, Zhang Shan directly rushed towards the group of monsters in the distance.

he believed that he had not seen wrongly just now.

There must be a red boss in this group of wild monsters.

However, it was blocked by other monsters, so no matter how hard he tried, he couldn't find it.

since that was the case, he decided to clear out all the monsters in the area.

He believed that he would be able to find the boss once he had cleared all the monsters nearby.

zhang shan rushed out of the group of wild monsters and fired a shrapnel skill. then, he began to fire continuously.

The catapulted damage he dealt kept popping up above the wild monsters' heads.

However, these level 70 monsters had high HP to begin with.

each monster had 85000 hp.

moreover, these monsters all had the holy demon's protection.

even with zhang shan's high damage, he could not kill the monster.

Unless it was a critical hit.

he had to fire two shots for every monster he killed.

The efficiency of clearing monsters was really a little slow.

Zhang Shan, who had been used to killing monsters in seconds, felt very unhappy.

He shouted to boss Wu and little fairy in the party channel.

“Have you guys found the boss yet? if you haven’t, come to me.”

“i didn’t find it. did you find a boss?”

“i haven’t seen it yet, but i saw a red light just now. there should be a red boss here, but it should be blocked by the wild monsters now. i plan to clear the wild monsters here first.”

“Brother Guan Zi, are you seeing things?”

The little fairy said suspiciously.

of course, there was a possibility that zhang shan had made a mistake.

however, he firmly believed that there was definitely a BOSS in there.

He said in the party channel.

“Whether I’m seeing things or not, I’ll know after I clear the monsters around me.”

“alright, i’ll come over immediately.”

After a while, boss Wu and the little fairy also ran over.

The three of them started to clear the monsters nearby.

Even though these level 70 monsters weren’t easy to deal with, they weren’t easy to deal with.

however, the three of them were very strong, especially with zhang shan.

Under their continuous clearing, they quickly cleared out the monsters, leaving behind a large number of small monsters.

Suddenly, boss Wu pointed to a place not far away and said.

there’s a BOSS there, a red demonic soldier commander.

Zhang Shan looked in the direction where boss Wu was pointing.

Not far from them, there was indeed a red BOSS, the demonic blade commander.

However, this weapon commander looked exactly the same as the surrounding monsters.

It was the same armor and the same blade.

no wonder he couldn’t find it after searching for so long.

The commander of the demon soldiers was mixed in with a group of demon soldiers.

If one didn't look at the monster's name.

He couldn't tell at all.

haha, you guys move back a little. I'll pull the BOSS.

After Zhang Shan finished speaking, he cleared the monsters while advancing towards the position of the demon Army's commander.

In a short while, he was within the aggro range of the demonic soldiers.

The demon commander charged out from a group of monsters.

He waved the big knife and slashed at Zhang Shan.

damage -92356.

The BOSS's damage was not too high.

Zhang Shan retaliated. He raised his hand cannon and countless bullets rained down on the demon commander.

the damage kept on jumping back and forth between the BOSS and the surrounding monsters.

As Zhang Shan fired his gun, he checked the attributes and skills of the demon race's sword soldier commander.

[demonic blade commander (red): level 70, attack 50000, hp 500 million]

Skill 1, Army obliteration; skill 2, violent blade; skill 3, Devil's will; skill 4, Earth King saber. [status: Holy demon's protection]

[Army obliteration: the demonic swordsman commander sweeps his long saber, dealing double damage to a target in front of him. Damage range is five yards in front of him.]

[violent blade: the demonic Army's blade soldier commander quickly swings his blade, quickly slashing out five times, causing five damage.]

[Demon God's will: when in danger, the demon weapon commander will summon the demon God's apparition to assist in battle.]

[Earth King saber: the demonic blade commander obtained an ancient saber technique. Deals 5x damage to surrounding targets. Damage range: 50 yards.]

[Holy demon's protection: Suan ni]

After seeing the skills of the demon soldiers, Zhang Shan let out a sigh of relief.

this BOSS wasn't that strong.

It could be said to be very weak.

Compared to the demon blacksmiths in Twin City, they were much worse.

It wasn't difficult to destroy.

It was just that the amount of blood of the demon soldiers was a little difficult for Zhang Shan to deal with.

It couldn't be helped. A level 70 red BOSS seemed to have at least 500 million hp.

Moreover, in the Heaven's Gate map, bosses had a Holy demon's protection state, which reduced their damage by 50%.

Over here, they were basically relying on Zhang Shan to deal damage.

It would take very little time to blow up the demon commander.

Of course, it didn't matter how long they fought.

It was fine as long as he could be beaten to death.

After Zhang Shan had pulled the BOSS.

Boss Wu and Little Fairy stood behind him and joined the attack.

As for the surrounding monsters, they didn't bother to clear them.

With the presence of the monsters, Zhang Shan's catapulting ability was passive and effective.

As for Boss Wu and the Little Fairy's safety ...

They just had to think of a way and take care of themselves.

Chapter 499: Defending against the enemy outside the city

Zhang Shan activated his firepower and fired continuously at the demon commander.

The ejection passive did not stop, and it bounced back and forth above the heads of the surrounding monsters, shooting out damage.

In a short while, all the small monsters around him were cleared by his bullet damage.

Without the mobs, Zhang Shan's lifesteal efficiency had greatly decreased.

A single attack from the demon Blade commander could cause close to 100,000 damage.

In a situation where there were no small monsters around, Zhang Shan's single attack could only drain around 20,000 HP.

Although his attack speed was much faster than the demon commander's, and he could often deal critical hits, he was still a demon.

However, Zhang Shan's lifesteal speed still could not keep up with the rate of his health loss. His health bar kept dropping.

Boss Wu stopped attacking the BOSS when he saw the situation.

Instead, he focused on healing him.

With boss Wu's healing, Zhang Shan's health bar quickly stabilized.

Just like that, the three of them.

Zhang Shan withstood the damage from the demon commander, and continued to fire.

The little fairy was beside him, shooting arrows.

As for boss Wu, he was focused on healing Zhang Shan.

Under Zhang Shan and the little fairy's continuous attacks, the demon soldier commander's HP was slowly decreasing.

After two to three minutes, the demonic soldier commander's hp had dropped to 90%.

The long blade in its hand suddenly moved as fast as lightning, and it slashed five times in a row.

Zhang Shan's health bar was almost empty.

Boss Wu stood behind him and kept healing him.

Just now, the demonic blade soldier commander had suddenly gone berserk. It should have used the frenzied blade skill.

After five consecutive slashes, each slash could cut off Zhang Shan's HP. With close to 100000, five slashes would be more than 400000.

Fortunately, Zhang Shan's health bar was long enough. Otherwise, he would have been killed by that blow.

Seeing Zhang Shan's health bar suddenly almost empty, the little fairy said in shock.

What happened just now? Why did brother Guan's health drop so quickly? "

"Don't worry, it's the second skill of the commander of the weapons."

Oh, I hope the boss doesn't keep using this skill. Otherwise, I'm afraid brother Guan won't be able to take it.

"Don't worry, there should be a certain interval between skills like this."

Although the demonic army commander's violent blade skill dealt a lot of damage, it wasn't the same.

But Zhang Shan was not worried.

It would be strange if the boss could keep using its skills.

As long as the interval between skills was slightly longer, there would not be much of a problem.

With boss Wu around, they could heal him.

That was indeed the case. After a while, the demon commander didn't continue to use the violent blade skill.

Instead, he used army obliteration to sweep the area continuously.

However, Zhang Shan was the only one around.

The demon Army obliteration skill was an AoE skill.

however, it could only hurt zhang shan alone.

The little fairy and boss Wu had already spread out.

They wouldn't give the demon soldiers a chance to sweep them.

After another two minutes, the demonic blade soldier commander's HP dropped to 80%.

A demonic God's shadow slowly rose behind the demon commander.

The three of them started to lose HP under the influence of the demonic God's shadow.

However, it wasn't a big problem. A normal level 70 red BOSS would be able to summon a Demon God's shadow.

To the three of them, the damage wasn't too high.

8,000 damage per second.

The three of them could totally hold on.

Little fairy had a level 40 purple cape and close to 100000 HP.

even if she didn't need mr. wu's healing, she could survive by taking red medicine.

As for Zhang Shan, that was even less of a problem.

Compared to the damage caused by the demon General's slash, it was much more powerful.

The damage to the demonic god Phantom was insignificant.

...

Boss Wu didn't have a problem with it.

Even though boss Wu had the lowest HP among the three of them.

However, he was a support. He only needed to heal himself once or twice when he was healing Zhang Shan.

He would be able to easily survive this wave of Demon God's will.

Fifteen seconds passed, and the demonic God's apparition disappeared.

After a short while, the demonic soldier commander used another violent blade skill, cutting off more than 400000 of Zhang Shan's HP.

Zhang Shan estimated that the interval between the two uses of the violent blade skill of the demon Army's blade commander was about three minutes.

A skill that could be used once every three minutes.

They were of no threat to Zhang Shan at all.

of course.

Although the demon soldiers could not kill Zhang Shan.

...

However, they couldn't beat the BOSS fast either.

A BOSS with the Holy demon's protection would directly reduce their damage by half, which was very annoying.

Under the continuous attacks of Zhang Shan and the little fairy, they had been fighting for more than ten minutes.

The demonic soldier commander's HP was finally close to half.

Boss Wu said to Zhang Shan.

"The BOSS is almost at half health, what should we do next? After I retreat, will you be able to hold on?"

"it's okay, i'll use fanatic later, i can handle it."

"Alright," he said.

When he saw that the demon General's HP was infinitely close to half, he was shocked.

The little fairy and boss Wu quickly retreated on their horses.

the surrounding monsters, which had been damaged by zhang shan's bullet attacks, were all cleared.

There would not be any monsters that would affect their retreat.

After boss Wu and the little fairy left.

Very quickly, Zhang Shan had beaten the demon general to half health.

He quickly activated fanaticism, doubling his attack speed for six seconds.

The violent bullets swept towards the BOSS.

As his attack speed was doubled, Zhang Shan's lifesteal effect was also doubled.

After activating the fanatic skill.

Zhang Shan's health bar had been stabilized at full health.

When the demon General's HP dropped to 50% ...

it suddenly held the knife with both hands and slashed at zhang shan.

A violent wave, with Zhang Shan as the center, spread to the surrounding.

Damage -480679.

The demonic Army's blade commander used a big move and took away nearly 500000 of his HP.

Fortunately, he had activated fanaticism in advance.

He kept his health at full health.

If his health wasn't enough just now, he probably wouldn't have been able to hold on.

After the demon General's big move was over ...

Little fairy and boss Wu quickly stepped forward.

Boss Wu waved his magic sword and kept healing Zhang Shan.

Very quickly, Zhang Shan's health bar was pulled back up.

After a wave of big moves, they continued to attack the BOSS.

Just like that, after more than 30 minutes of fighting.

As the Panda fighter's combo skill was used, the demon Army's blade soldier commander was finally destroyed.

There was no first nail announcement.

There should be many of these demon weapon commanders.

It had probably been blown up in other places.

After the BOSS fell to the ground.

The little fairy said, exhaling.

I'm so tired. I can't believe it took so long to fight a BOSS.

"It's alright. It's only been half an hour."

"Isn't half an hour long enough? In the past, we only took a few minutes to defeat the BOSS."

"That can't be helped. As the level increases, the BOSS' HP will also increase. Our damage growth isn't as fast as the BOSS's HP growth."

that's right. It's mainly because I don't have a divine weapon. Otherwise, I would have fought much faster.

okay.

Hearing the little fairy's words, Zhang Shan did not know how to continue.

no matter what she said, she could always talk about the divine artifact.

This girl was already possessed for the sake of the divine weapon.

Zhang Shan felt that he should quickly get the little fairy a relic or relic mold.

he told her to go on a mission.

Otherwise ...

The little demon was not crazy, but Zhang Shan was.

Zhang Shan didn't want to answer the little fairy's words. He just silently opened his backpack and looked at the items dropped by the boss.

After opening his backpack, Zhang Shan's eyes lit up.

Eh, what skill book is this?

Holy sh * t, that was awesome.

The demonic blade commander had actually dropped an ultimate skill book.

it was a skill book for the taoist profession, which boss wu could use.

[thunder's fury: gather a field of lightning and launch a destructive attack on a designated area, dealing 10x the damage.]

Damage range of 50 yards, lasts for five seconds.

[mana cost: 20000] [cooldown time: [24 hours] [profession requirement: Taoist]

Zhang Shan displayed the items dropped by the demonic soldiers 'commander on the team channel and said.

boss Wu, you're in luck. You got an ultimate skill book for the Taoist profession.

Hearing Zhang Shan's words, boss Wu didn't say anything, but the little fairy shouted.

what? it's something that old Wu used again? why didn't it drop the divine artifact that I used? "

what's there to shout about? you already have a big move, okay? "

Boss Wu said.

eh, why is the Taoist priest's ultimate skill a damage skill? it's not a support skill like the witch doctor's.

this damage skill is good. This skill is fierce.

This skill, Fury of Thunder, did indeed deal a lot of damage.

ten times the damage, a damage range of 50 yards.

Among the ultimate skills of the various classes, the priest's skill was one of the strongest.

A Taoist priest who had learned a big move was no longer a simple auxiliary profession.

If someone saw a Daoist priest who was alone, they would think that he was just a support without any damage and would want to bully him.

it would be interesting if the opponent used a big move.

Speaking of which, before this, Zhang Shan had never seen any other Taoist players who had learned such a big move.

He didn't know if boss Wu was the first Taoist player to learn a big move.

However, it shouldn't be.

Even though ultimate skill books were rare, there was a chance that they would drop from normal red bosses.

There must have been other players who had dropped this skill book before, but he had not noticed it.

After all, there were many players in this game.

Perhaps if someone else learned a skill and didn't use it publicly, no one would know.

he had gotten an ultimate skill book for boss wu, which was a big harvest.

Zhang Shan said with a wave of his hand after distributing the rest of the equipment.

"Let's go. Let's continue looking for the boss."

then, the three of them wandered around the map.

However, they didn't encounter any more red bosses until 7 pm.

They had only fought one purple boss and two orange bosses.

These mini bosses were of no use to Zhang Shan.

he had to fight the red boss.

After a whole day, he was considered a Ronin commander that had been killed in the dungeon.

As for Zhang Shan's mission to activate divinity, he had only completed two so far. He was still short of 79.

He really didn't know how long this mission would last.

After killing an orange-colored BOSS, Zhang Shan looked at the time.

It was now past 7:20.

The monster attack in wind Cloud City started at eight o'clock.

He said to boss Wu and the little fairy.

"Let's go back,"

"We're going back? It's still early, there's still more than half an hour before the monster attack event. Why don't we look for more bosses?"

forget it. Even if we find the BOSS later, we won't have enough time to fight it. Let's go to wind Cloud City to defend the city first.

“Alright then, let’s go back.”

The three of them started channeling their teleportation bars back to the city.

They had been fighting bosses the entire day, and their gains were not bad.

A purple cloak was dropped from the dungeon, and an ultimate skill book was dropped from a wild BOSS.

However, these were all boss Wu’s gains.

To Zhang Shan, he did not earn anything today.

The main thing was that they did not find the red BOSS.

The Ronin demon commander in the dungeon didn’t count.

They had searched for an entire day, and they had only found one red BOSS.

It was less than what Zhang Shan had expected.

He had originally thought that he would only fight two or three red bosses a day.

In addition, there were Dungeons and events.

He would be able to complete the mission in about a month’s time.

However, the results of today’s battle made him very disappointed.

They only found one wild BOSS.

if things continued at this rate ...

It would probably take two months to complete the mission.

it felt very ridiculous.

thinking of this, zhang shan could not help but feel a little melancholic.

However, there was no way to solve this problem.

This had nothing to do with strength. There really weren’t that many bosses for him to fight.

Forget it, I’ll take my time with the mission.

after zhang shan returned to dangyang city, he felt that it was still early.

He took the time to make some fool’s bombs.

It had been a while since he had made a fool’s bomb.

The main thing was that he had no use for these things.

If he put it up for auction ...

Zhang Shan felt that there was no need.

His current purpose of playing games was no longer the same as before, which was to make money.

In Zhang Shan's account, there were still 600 to 700 million gold.

as long as he didn't seek death.

He wouldn't be able to finish spending so much money even in eight lifetimes.

Why did he need so much money?

For people like Zhang Shan, who had no ambition, money was not a big deal. It was enough.

In the past, when he was poor, Zhang Shan was very envious of those rich big shots.

he used to think that he would be invincible as long as he spent money in the game.

If there was no invincibility, it meant that he did not spend enough money.

But now he understood.

After the game reached a certain level.

In-game purchases were no longer of much use.

Most of the time, in-game purchases could not solve the problem.

For example, Zhang Shan's current mission.

If spending money could solve the problem.

Even if it cost him 300 to 500 million gold coins, he was willing.

However, that was impossible.

It was useless to spend money on this mission.

He wanted to put a bounty on someone to help him find the boss.

But the map was so big.

Even if someone found the BOSS's coordinates, it would be too late by the time he ran over.

Spending money could not speed up the progress of his mission.

he still had to take it slowly.

.....

Zhang Shan planned to make a batch of fool's bombs and throw them into the Guild warehouse, letting the Guild members exchange for them.

Anyway, he had nothing to do now.

There was still half an hour to go before the monster attack.

It was a little awkward at this time, and waiting was not a good idea.

However, he couldn't just go and farm monsters.

In such a short amount of time, he wouldn't be able to create a bright Hall by killing monsters.

He might as well make some fool bombs and some bullets for himself.

zhang shan teleported to the auction house and bought a batch of materials.

Then, he went to the warehouse and took out the materials he had stored before teleporting to the Guild base.

Enter the workshop by using Guild contribution points.

time slowly passed.

Batch after batch of fool's bombs were made by him.

At the same time, the stock of bullets in his backpack had increased by another batch.

It was enough for him to use for a month or two.

Zhang Shan looked at the time.

It was now 7:40.

That's enough, the monster attack is about to begin.

Zhang Shan donated the fool's bomb that he had just made to the Guild's warehouse.

There were about twenty thousand of them.

To the Guild's 100000-Plus members, it wasn't even enough for each of them to get one.

Let him be, first come, first served.

Zhang Shan took a look at the wind cloud Guild's total contribution.

at the moment, they had over nine million contribution points. they were still a few hundred thousand contribution points away from becoming a level 5 guild.

Soon.

Every guild member donated a gold coin a day, which only took a few days.

After the matter was settled.

Zhang Shan called for Feng Yun realm.

"Boss, I've donated 20000 or so fool's bombs in the Guild's warehouse. Get them to exchange for them."

"Alright, thank you."

After Zhang Shan finished speaking, he teleported to the teleportation Hall and teleported to wind Cloud City.

There were still about ten minutes before the monster attack.

At this moment, Feng Yun realm was leading a group of people to clear the area in wind Cloud City.

Although no one would come to cause trouble in today's monster attack, there was no way anyone would come.

However, Feng Yun realm did not let his guard down.

Let's clear the city first.

No matter who it was, even if it was the king of the heavens.

As long as they were not members of the Guild.

In wind Cloud City, he would kill any other player he saw.

If Feng Yun realm really managed to find a group of foreign players in wind Cloud City ...

These people were hiding in every corner of the city, and no one knew what their purpose was.

Perhaps it was to see how they were going to defend the city and purely wanted to be a bystander.

Perhaps it was really to cause destruction.

But no matter what they were planning to do.

Feng Yun realm did not hold back and sent the other party back to the city for free.

After cleaning up the city.

Feng Yun realm increased the teleportation fee to 10000 gold coins per teleportation.

He had also set up ten arrow towers outside the teleportation Hall of Wind Cloud City.

Fengyun city could be said to be as stable as Mount Tai.

At the very least, there wouldn't be any threat from players.

As long as they could stop the demons from attacking the city, Fengyun city would be safe.

From then on, he stood tall in the world.

When Zhang Shan found Feng Yun realm.

He had just finished dealing with the matters in the city and went to the West Gate Tower, waiting for the monster attack to begin.

feng yun realm said after seeing zhang shan arrive.

"i'm still a little worried. i'm afraid we can't defend the city."

"Don't worry, with so many arrow towers, the demonic monsters won't be able to attack."

"That's true, but who knows how the demons will attack the city? Just like last time in the demon suppression city, the siege beasts were very troublesome. I was worried that a large number of similar

siege beasts would appear. These things can't be dealt with by the arrow towers alone. Our guild members are weaker than the arrow towers, so it's even more difficult to deal with these things."

regarding Feng Yun realm's worry, Zhang Shan did not directly answer.

Feng Yun realm's worry was reasonable.

The last time in the demon-suppressing city, those siege beasts had made Zhang Shan miserable.

Breaking down the city walls twice, just the repair of the walls had cost Zhang Shan tens of millions of gold.

The situation in Wind Cloud City was obviously more serious.

Although the arrow tower could block the monsters, it was still too late.

However, those bosses and siege beasts ...

The arrow towers definitely could not be solved.

And their own strength was not too strong.

At least to the monsters that were attacking the city, they were not strong.

The level difference was too big.

This was not something that equipment and skills could make up for.

Furthermore, Wind Cloud City was larger in scale, so there should be more siege beasts and bosses.

If he didn't plan properly, there might really be an accident.

Zhang Shan asked Feng Yun realm.

"What's your plan?"

"I don't know what to do either."

At this moment, Zhang Shan suggested.

"How about this, we'll defend the city. Half of you go out of the city and intercept any possible bosses or monsters that may appear. The rest of you will fill up the positions on the city wall."

At this moment, the little Secretary beside him also chimed in.

That's right. We should go out of the city and defend. If we defend outside the city, we can stop the BOSS and prevent it from destroying the city walls. As for the small monsters, we don't have to worry at all. If so many arrow towers can't stop the small monsters, then we don't have to defend the city.

The main purpose of leaving the city is to block the possible bosses and attacking behemoths. Even if we can't kill them, we have to delay them first and then slowly fight them. We can't let them get close to the city wall.

Zhang Shan's goal was very clear. He wanted the Guild members to form a large team and stand outside the city walls.

Although they might not be able to kill the boss, they would not be able to kill the behemoths either. after all, the level difference was too big.

Other than Zhang Shan and a few others who had reached level 50.

It would be a little difficult for others to fight the 80 bosses that might appear.

Just the level suppression alone would reach an exaggerated level. They would not be able to deal any damage at all.

However, even if they couldn't kill the boss, they could at least stall it.

As long as they could stall for a while, the arrow towers on the city wall would attack.

Or wait for Zhang Shan and the rest to finish off the boss before going over to help.

in short, they could not let the siege beasts and bosses get close to the city walls.

Their destructive power against the city walls was simply too great.

This was not a matter of how much money it would cost to repair the city walls.

Instead, if too much of the city wall was destroyed, the city might be gone.

"Alright, let's do that. I'll make the arrangements."

Feng Yun realm considered for a while and agreed to Zhang Shan's plan.

He left the city.

Chapter 500 The demon race's city-attacking carriage

Feng Yun realm listened to Zhang Shan's suggestion and chose to let everyone out of the city to defend.

This was because the demons 'attack this time was different from the previous one.

The last time he was suppressing the demons, Zhang Shan could not make too many city defense equipment.

they had only made about ten fire god cannons in total, which were only enough to be placed on the city gate tower.

As for the defense on the city walls, they still had to rely on their guild members.

However, it was different this time.

This time, Zhang Shan had built more than thirty thousand arrow towers for Feng Yun realm. They were densely packed on the city wall.

It was enough to defend against the mobs that were attacking the city walls.

They did not need to worry about the threat of the small monsters to wind Cloud City.

The problem now was if everyone stayed on the city wall.

When the BOSS and the siege beast got close to the city wall, they could not kill them in time.

Such words.

Those bosses and siege beasts could easily knock down a large section of the city wall with a few hits.

In the beginning, it might have been better.

The demons that attacked the city in the first few waves should be level 70.

With the dense arrow towers and guild members on the city walls, they should be able to hold off the level 70 BOSS and the siege behemoths.

However, when the monsters' levels increased, they would definitely not be able to stop them.

In the later stages of the event, the demonic monsters that would attack the city would definitely be level 80.

a level 80 boss or a siege beast.

Not to mention others, even Zhang Shan might not be able to block it.

Therefore, it was the best choice to arrange for everyone to defend outside the city.

everyone, stay outside the city and hold the boss and the behemoths back.

they would not let them get close to the city wall, and then let the arrow towers shoot them to death.

Feng Yun realm quickly arranged the Guild members into groups.

Out of the 100000 guild members, 60000 went out to defend the city, while 40000 stayed on the city wall.

The Guild members who left the city were split into groups of 500. They left the city ahead of time and spread out to defend the four walls.

When the monster attack began.

If you see a siege beast or boss, you will fight it in advance.

After everything was arranged, everyone quietly waited for the arrival of the attacking demons.

It was eight o'clock.

A system notification rang out.

[system announcement: the demonic race is unwilling to lose the city. They will mobilize their Army and launch an attack on wind Cloud City.]

Warriors, please fight back bravely and let the city of humans stand in the world forever.

Horns sounded, and war drums beat.

Zhang Shan and the rest stood on the West Gate Tower of wind Cloud City, looking at the demons in the distance. They were like a Black Tide, surging towards wind Cloud City.

Their team did not go down the city for the time being.

We'll talk about it when the assaulters get close.

Anyway, they were staying at the city gate, so it was convenient for them to leave the city.

Soon, countless demons were approaching wind Cloud City.

the arrow towers on the city wall began to shoot.

A dense rain of arrows headed straight for the demons.

The demons were shot down by the arrow towers when they were 70 to 80 yards away from the city wall.

The demons attacking the city were like the surging ocean, while the arrow towers on the city walls were like a solid breakwaters, blocking all the demons outside the city.

The range of an intermediate arrow tower was 100 yards, and it had high attack power and fast attack speed.

the first wave of demons attacking the city were only some level 70 demon warriors with 85000 hp.

Each intermediate arrow tower could kill one demon warrior in a second.

There were more than 30000 intermediate arrow towers on the walls of wind Cloud City.

He could kill over 30000 demon fighters in one second. What a terrifying farming efficiency!

Zhang Shan and the rest stood on top of the city gate, watching the arrow tower display its might.

It felt like nothing.

the demon soldiers attacking the city were all taken care of by the arrow towers. they were like spectators, not needing to do anything.

There was no need to talk about Zhang Shan and the rest, as there were no people who had yet to leave the city.

...

Even the Guild members who had left the city in advance to defend were left with nothing to do.

the demon soldiers attacking the city were all swept away by the arrow towers before they could even get close.

there was no room for them to display their skills.

The intense battle of attacking and defending the city that they had imagined did not happen.

everyone stayed in and out of the city and could only chat idly.

Guild channel:

it feels like we're just spectators. We have nothing to do with this monster attack.

that's right. With these intermediate arrow towers, it's easy to kill a monster with two arrows.

these arrow towers are really strong. It's a pity that we're losing experience. The monsters killed by the arrow towers don't give us any experience.

you're just daydreaming. If the monsters killed by the arrow towers also give experience points, then boss can reach level 100 today.

"Level 100 is too much. If that's the case, reaching level 70 or 80 shouldn't be a problem."

...

sigh, looking at the large number of wild monsters falling to the ground without giving any experience points, my heart hurts.

"didn't you guys notice? As long as you deal damage, whether it's the arrow tower who killed it or you who killed it, we'll get a little bit of experience."

f * ck, is it true? I'm going to try and kill a wild monster.

"Haha, it's really worth it. Don't stop me, I'm going up to kill some monsters."

The Guild members who were originally bored saw them killing monsters, even if they didn't kill wild monsters.

The system would also distribute experience points to them according to the proportion of damage dealt.

The Guild members defending outside the city were originally leaning against the base of the city wall.

Now, they all rushed forward to kill the monsters.

The main thing was that it was safe to kill monsters like this.

behind them, there was a powerful arrow tower supporting them.

they just had to deal as much damage as they could.

As long as there was damage, there would be experience points.

It was simply too satisfying.

This made the Guild members on the city wall extremely envious.

Because of Feng Yun realm's arrangement.

Out of the 100000 guild members, only 60000 were assigned to defend outside the city.

The remaining 40000 were still on the city wall.

The demon soldiers attacking the city couldn't even get 50 yards away from the city wall.

Naturally, the Guild members on the city wall had no monsters to kill.

They could only watch as the other guild members below the city wall brandished their weapons and wantonly harvested exp.

it's so cool to kill monsters like this. A large number of them will be killed with one slash.

"Cool my ass, what does that large field of wild monsters that fell have anything to do with you? They were all knocked down by the arrow towers."

"How could it not matter? I also dealt damage. The system even gave me experience points, hehe."

"But I don't have much experience points,"

"That's not nonsense. How much damage can you do? The less damage you deal, the less experience you get."

the main thing is that these demon Warriors all have a Holy demon's protection state, which directly reduces their damage by half. It's very annoying.

"It's fine even if the experience points are a little less. It's just a good feeling to stand out."

haha, well said. Why would I need experience points for such a satisfying thing? "

that's right. Facing countless high-level monsters, we can still kill them without any injuries. It's so cool, hehe.

The Guild members outside the city were happily killing monsters under the cover of the arrow towers.

Even though the experience points they could gain were not much.

After all, they could not deal much damage.

As soon as the wild monsters rushed up, they were shot down by two arrows from the arrow tower.

Basically, they could only deal damage once, and the monsters would be killed.

With their low attack power, in addition to the monsters and the damage reduction effect of the Holy demon's protection, they had no choice but to attack.

The damage they could deal with a single slash was not even one-tenth of a wild monster's HP.

Even so, it could not stop everyone's joy.

It was just being poor and happy.

If it wasn't for the powerful intermediate arrow towers behind them ...

They didn't dare to face so many high-level monsters.

If not for the arrow tower.

With their small bodies.

If he was surrounded by dozens of monsters, he would be chopped to death.

How could he be so happy like now?

While the others were happily hacking away.

Zhang Shan, Feng Yun realm and the rest were still standing on the West Gate Tower.

Their team's mission was to deal with the bosses that might appear outside the West Gate.

As for the East Gate, the Secretary would lead another team to deal with it.

According to everyone's speculations.

The final BOSS of this monster attack would probably appear outside the West Gate.

after all, this was the main territory of the demon race.

Compared to the other guild members, they were in a happy mood.

On the other hand, Feng Yun realm's expression was serious.

The first wave of monsters was easily blocked by the arrow tower.

However, this was not something to be happy about.

This was normal.

If more than 30000 intermediate arrow towers could not even stop the first wave of wild monsters, then

...

That would be a ghost.

However, when he saw that the first wave of demonic monsters had so many demonic soldiers, Feng Yun realm's heart sank.

this was just the beginning.

The demons attacking the city were only level 70 monsters.

If there were still this many monsters, then it would be a little difficult to deal with.

The intermediate arrow tower could kill a level 70 demon warrior with two arrows.

however, when the level of the demons attacking the city rose to level 80, they would be killed.

These intermediate arrow towers might need to shoot three or four arrows to kill a monster.

If that was the case, the demons would be able to reach the city wall.

This was only a small monster. The siege beasts and bosses had not appeared yet.

If we include the siege beasts and bosses, then ...

They might have a hard time defending.

As everyone was happily killing monsters, time slowly passed.

Fifteen minutes into the monster siege.

Wind and cloud blade, who was beside Zhang Shan, suddenly shouted.

“Look, what’s that? Is it a siege beast or a BOSS?”

” holy f * ck! what the hell is that? how can it be so big? ”

it doesn’t look like a siege beast. Why does it look like a super large truck? ”

Zhang looked in the direction Feng Yun realm was pointing at.

A huge object appeared in the distance.

Although it was too far away and he couldn’t see it clearly.

However, just by looking at its appearance, it did not look like a siege beast.

Its appearance was completely different from the giant beast that had appeared in the demon-suppressing city last time.

Feng Yun realm asked in the Guild channel.

” report to the other directions quickly. have there been any bosses or siege beasts on your side? ”

” there’s no siege beast. it looks like a big carriage. ”

“How many are there in total? Report the numbers.”

1,2,3,4?

“Just four? are you sure?”

” that’s right. there’s only one big guy in each direction. ”

when he heard that only four big guys would appear, feng yun realm heaved a sigh of relief.

But at the same time, he felt very strange.

last time in the demon-suppressing city.

Every time, eight siege beasts would appear.

why were there only four of them this time? this shouldn’t be.

Logically speaking, the intensity of the demon attack this time should be even stronger.

Compared to the demon-suppressing city ...

Fengyun city was much more important to the demon race.

The demon-suppressing city had the most demons, but it could only be regarded as the advanced base of the demon race.

Wind Cloud City was equivalent to the gateway of the demon race.

After losing the door, the demons should be fighting for it crazily.

Even though this was just a game setting.

However, the setting of the game should also follow normal logic.

Could it be that these big guys were special?

However, Feng Yun realm could no longer care about that.

he quickly ordered.

“The people outside the city, gather at the target. Try to block these big guys at a distance of 100 yards.”

Feng Yun realm said to the person beside him after he was done.

“Let’s go down too.”

“alright,” he said.

Zhang Shan teleported to the city gate, then rode his horse out of the city.

There were 24 intermediate arrow towers on the city gate.

The density of the firepower was not something that the other city walls could compare to.

Within a 100-yard radius of the city gate, there were almost no monsters that could approach.

zhang shan quickly ran to the edge of the arrow tower’s firing range.

That was about a hundred yards away from the city gate.

He fired his hand cannon, and countless bullets swept toward the wild monsters in front of him.

As Zhang Shan attacked, he also looked into the distance.

He saw that the big guy he had seen before was slowly approaching.

at this time, zhang shan had already gotten a rough idea of what was going on.

it was indeed not a siege beast. it looked like an ancient siege vehicle.

Behind Zhang Shan, Feng Yun realm and the rest also ran over.

When everyone saw the big guy in the distance clearly, they couldn’t help but be stunned.

Windcloud blade shouted.

“Holy sh * t, this is a siege vehicle?”

“It should be,”

“But how could the demons have siege vehicles? This doesn’t make any sense.”

“Why is it unscientific? The demon race is such a powerful race, what’s so strange about them being able to build siege vehicles?”

“You’re right. But this siege vehicle, why is it so big?”

“Yeah, it’s a little too big.”

He looked at the siege vehicle that was slowly approaching.

Zhang Shan could not help but exclaim.

It was really f * cking big.

It was at least a few stories high.

when the siege vehicles of the demon race got close to a certain distance.

Everyone finally saw the full appearance of the demon siege vehicle.

It was an extremely large wooden wheelbarrow.

This demon siege vehicle had dozens of wooden wheels on both sides.

In front of the siege vehicle, there was a huge arrow.

The arrows were thicker than a few people.

If such a thick arrow were to hit a player, who knew what the consequences would be?

He didn’t say how high the damage would be.

Just look at this exaggerated appearance.

Zhang Shan felt that even if he activated the God’s descent, he would not be able to block one arrow.

Around the siege vehicles, there were countless demon soldiers pushing the siege vehicles forward.

The most ridiculous thing was that this demonic siege vehicle actually had a health bar.

Well, in the game, anything with blood was a monster.

In theory, he could be beaten to death.

Zhang Shan looked at the health bar of the siege vehicle, and at the same time, he saw the name of the siege vehicle.

A demonic siege cannon.

Cannon vehicle?

Damn it, there was clearly a giant arrow in front of the siege vehicle.

It should be called an arrow chariot.

but that was not the main point.

The main point was that the name of this demonic siege cannon was actually red.

In other words, it was a red BOSS.

Haha, red is good.

As long as Zhang Shan could destroy it, it should be considered as completing a mission.

Not only was the name of the demonic siege cannon in red.

On top of the cannon, there was a Nephilim BOSS.

The captain of the godfiend guards.

It was also a red name.

two red bosses appeared in an instant.

Zhang Shan could not help but feel happy.

If he could defeat both of these red bosses, he would be able to complete two missions.

It was simply perfect.

Of course, Zhang Shan did not call out.

he was just happy in silence.

Didn't he see Feng Yun realm's nervous expression?

If he were to laugh now, it would be too inappropriate, hehe.

Looking at the approaching demonic cannon chariots, they were all shocked.

Windcloud blade asked.

"How do we deal with this big guy?"

"What else can we do? let's just go up and kill them. Aren't they just two red bosses? With the big boss six-barreled, it's a piece of cake."

"Is that what you think? I'm just afraid that this big guy's target is wind Cloud City behind us and not us."

"yeah, if this demonic siege cannon doesn't care about us at all and keeps driving towards fengyun city, we'll be finished."

holy sh * t, that's possible. It's a cannon for attacking cities. Just by looking at the name, you can tell that it's definitely meant to deal with cities.

damn it! I have to think of a way to stall it.

"How? With such a big body, if you go up, I'm afraid you'll be crushed into dregs."

Everyone looked at the approaching demonic cannon chariots in the distance and kept discussing countermeasures.

Zhang Shan said after observing for a while.

"This big guy doesn't seem to be able to move forward on its own. It can only rely on the demons to push it. We'll take a leave of absence and get close to it, clearing out the surrounding demons. Then it shouldn't be able to run anymore."

” that can’t be. there are so many demons around. if we clear out the demons pushing the cannon carts, won’t there be other demons pushing them? ”

no, look at those demons pushing the cannon carts. Their names are different from the other demons. They are called the divine demon guards and not ordinary demon soldiers.

“Haha, that’s true. Then what’s the point of saying that? charge and kill these godfiend guards. That big guy is a dead thing.”

that’s right. Get rid of the godfiend guards pushing the cannon carts. The rest is to kill the dogs.

Feng Yun realm said.

“Let’s go up and kill this big guy before it comes up.”

“Alright,” he said.

After the plan was arranged.

Zhang Shan took the lead and charged towards the dense group of demon monsters.

The place they were at was still within the shooting range of the arrow tower.

There weren’t many wild monsters that could rush over.

But if they wanted to move forward ...

That was not easy.

The demon monsters were all level 70 demon Warriors.

They wanted to kill the demon cannon chariots through so many demon fighters.

Ordinary people couldn’t do that.

zhang shan held his hand cannon and led the way.

The others quickly followed behind.

They had only advanced a few steps when they very quickly fell into the encirclement of demon soldiers.

However, they did not panic.

everyone present was a big shot in a guild.

And there was also Zhang Shan.

Although there were many of these monsters, they couldn’t do anything to them.

Zhang Shan quickly cleared the way in front while the others protected his left and right.

after a short while, they advanced to the front of the demon siege cannon.

Zhang Shan looked up at the huge monster in front of him.

He felt like an ant that wanted to challenge an elephant.

However, he didn't think too much about it.

Instead, they quickly activated their firepower and swept towards the godfiend guards beside the siege cannon.

Zhang Shan held the hand cannon, and countless bullets rained down on the godfiend guards pushing the cannon Cart.

In his imagination, these divine demon guards were just ordinary monsters.

Even if it was stronger than the other monsters.

That wouldn't be much stronger.

no matter how strong they were, they were just small monsters.

He would be able to take down a large number of them with three to five shots at most.

however, as zhang shan's injuries landed on these divine demon guards ...

he could not help but be shocked.

Damages of over-60000 points appeared above these God-demon guards 'heads.

However, they only managed to hit the divine tribulation guards.

Holy sh * t, did these godfiend guards have such high HP? This was still a small monster?
