

Passive Skills 521

Chapter 521 The heart of a hero

Zhang Shan looked at the curved stick in his backpack and was very happy.

although this divine weapon quest item had nothing to do with him, whether it was the longbow or the staff, neither of them was something he could use.

Zhang Shan's attack-type divine weapons had all been gathered.

Even if he managed to get his hands on a Hunter's divine weapon, he would not be able to use it.

But it didn't matter.

As long as it was a divine artifact, it was a good thing.

if this was a longbow, it must be for the little fairy. she would probably jump up in joy.

The fairy had been waiting for a divine longbow for a long time.

even zhang shan was worried for her.

However, it was useless to be anxious. Even if this thing did not drop, he could not do anything about it.

Even if it was a staff, it didn't matter if the three of them couldn't use it.

If he couldn't use it, he could sell it.

A weapon-type divine artifact mission item could probably be sold for two to three hundred million gold coins.

Weapons were players' main source of damage, regardless of their rank.

It would be much more expensive than other equipment of the same level.

If this was a magic staff, it could be sold to the big shots in the Guild for a sky-high price.

However, Zhang Shan still hoped that it was a longbow.

If it was a longbow, it would solve the fairy's weapon problem.

This was to prevent her from always nagging Zhang Shan.

Although she had a piece of divine-level clothing, which was currently being forged through a mold, she still had a lot of equipment.

Moreover, he was almost done with the little fairy's material quest.

After the event ended, she would only need one or two days to collect materials, and she would probably be able to forge a divine weapon.

However, clothes were defensive equipment after all, and they were far less useful to players than weapons.

Zhang Shan knew that the little fairy had always wanted to get a longbow at the level of a divine weapon.

It was just that they had fought so many bosses in the past.

it had never dropped a longbow-type divine weapon.

Zhang Shan had no other choice. He could not help her.

If the curved stick was a longbow, the fairy would be so happy.

Later, he would ask little fairy to take this curved stick and try it on an NPC.

he wanted to see if he could activate the mission.

Fortunately, it was very convenient to find NPCs now.

Not to mention that everyone had mounts now, their running speed was much faster than before.

Furthermore, due to their titles, Zhang Shan and the rest could teleport within any human city.

it was much more convenient to find an NPC to do a quest than other people. they could just teleport to the right location.

he didn't even need to run, he arrived instantly.

Most importantly, the locations of the main NPCs had already been discovered by the players.

now, when he went to find an NPC to do a quest, he did not need to do it like zhang shan did before.

he had to search city by city slowly.

Back then, in order to activate the divine weapon mission, Zhang Shan had run around the East and West capital for five days before he met an Qisheng and activated the divine weapon mission.

Now, there was no need to go through so much trouble.

He could directly take the divine weapon quest item and show it to the few main divine craftsman NPCs to know if he could activate the quest.

It could be said that as long as one had a divine weapon mission item in hand, there was basically no difficulty in triggering a mission.

The prerequisite was that you had to first have a divine artifact as a mission item.

.....

after seeing zhang shan open the treasure chest, a purple light flashed. the little fairy asked zhang shan.

“Brother Butler, which class's divine weapon mold is it?”

The purple-gold treasure chest that the divine beast King dropped had a chance of dropping other items.

However, all the purple-gold treasure chests that everyone had obtained so far had only given out God-tier molds.

There were no unlucky players, only trash items.

No one was lucky enough to get an item that was more valuable than a divine weapon mold.

Everyone got the same thing, they were all God tool molds.

It was just the difference in class and equipment, and the slight difference in value.

...

The little fairy saw a purple light flash.

She also thought that Zhang Shan had opened a divine weapon mold, and there was no doubt about it.

Of course.

To them, there were also differences in the God weapon molds.

it would be best if the three of them could get a divine weapon mold that they could use.

It would save him the trouble of having to exchange with other players.

The three of them, Zhang Shan and the little fairy, were an agility-based job, while boss Wu was an intelligence-based job.

it was fine as long as the god equipment mold wasn't a strength-type.

If it wasn't a strength type, they would have someone who could use it.

Zhang Shan replied to the little fairy's question.

"It might be something you use."

...

"Is it an agility-type divine artifact mold? If I can use it, can't you use it too? Why don't I give you this first?"

"It's not a divine weapon mold."

"If it's not a divine weapon mold, what could it be?"

"It should be a divine artifact."

Zhang Shan did not say anything more. He displayed the curved stick on the team channel.

The little fairy looked at the item's attributes and couldn't help but shout in surprise.

"Haha, brother Guan, is this a longbow-type divine weapon mission item? Then, my weapon will be ready."

I can't be sure, but it could be a magic staff. Magic staffs are also curved.

"It can't be a staff, it must be a longbow. I've been waiting for a divine longbow for far too long. This must be a longbow, haha."

boss wu said after looking at the item's attributes.

"This item should be a longbow-type divine weapon quest. It doesn't look like a staff."

"That's right, it must be Zhang Gong."

Alright, you can guess as you wish.

whatever you say, that's it.

Anyway, Zhang Shan could not tell if it was a longbow or a staff.

The curved rod was completely indiscernible from the outside and looked like a longbow.

Of course, it did not look like a staff.

After all, it was only a divine artifact mission item, a damaged divine artifact.

It was not a complete divine artifact.

there was no point in looking at its appearance.

Before the divine artifact was repaired, its appearance could not be seen at all.

Just like the first divine weapon that Zhang Shan had obtained.

It was through that strange tube that the divine weapon mission was activated.

Who would associate a black and swarthy pipe with a divine artifact?

One could only guess what kind of divine weapon or equipment a divine weapon mission item was based on the item's description.

Of course.

It would be best if there was a direct hint on the item's description.

if there were no clear hints, he could only guess.

It could not be seen from the appearance of the item.

After making a rough guess from the item's description ...

Then, he asked the corresponding profession to bring the task item and try to activate the task.

Boss Wu and the little fairy both said that it was a longbow divine weapon mission.

Zhang Shan did not know how they were so sure.

But he didn't struggle.

Zhang Shan said as he handed the curved stick to the little fairy.

"Take this with you and ask the NPC if you can activate the quest."

you must be able to activate the mission. Thank you, brother Guan.

After the little fairy received the quest item, she teleported away and went to find an NPC to activate the quest.

Although no player in the game had made a longbow-type artifact yet, it was a longbow-type artifact.

However, it wasn't difficult to find a divine craftsman to repair a longbow-type divine artifact.

According to the game's mechanics, the longbow should be the same as the sword and axe. They should all go to the East Capital to find divine craftsman ou Zi.

After the little fairy left, Zhang Shan and boss Wu did not look for other divine beast Kings to fight.

Let's wait for the little demon.

Anyway, she was just going to find an NPC to try to activate the divine artifact mission.

It's not like I'm going to do a divine weapon mission.

It did not take long to activate the mission.

He just had to find the corresponding NPC.

No matter if he could activate the mission or not, the little fairy would be back soon.

The two of them waited in place.

Let's see if the little fairy can really activate the divine weapon mission.

Little fairy teleported to the teleportation Hall and teleported to the East Capital.

Then, he teleported and found ou Zi.

There was indeed a big question mark above ou Zi's head.

Little fairy was so happy that she shouted on the party channel.

haha, this curved rod is indeed a divine longbow. There's a big question mark above my head.

"Let's see what the mission is."

"Yes, yes. Wait for me for a while."

Zhang Shan and boss Wu just stayed where they were to farm some gold coin mythical beasts.

He was waiting for the little fairy to activate the mission.

Let's see what kind of mission ou Zi will give her.

if it was a simple mission, it would be easy.

If the mission was too difficult, the little fairy would have a hard time.

Generally speaking, the divine weapon mission activated by a divine weapon mission item was much more difficult than the mission activated by a divine weapon mold.

Just like Zhang Shan's previous mission.

he actually had to kill 81 red divine artifacts. the difficulty of such a task simply broke through the sky.

this was only zhang shan, if it was someone else.

He probably didn't even know where to start.

zhang shan could easily find red bosses to fight with just one or two people.

As long as he could find a red BOSS, he would be able to defeat it.

however, it was obviously not the case for others.

If the others wanted to fight the red BOSS, they would have to bring a large group of people.

If they had fewer people, they would not be able to defeat the red BOSS.

If the mission only required them to fight a few red bosses, it would be easy.

who didn't have a group of friends when they played games?

It would not be a problem to get a group of people to fight the red BOSS together.

However, if he had to fight 81 of them ...

That would be difficult.

You can't always have a bunch of people accompanying you to fight red bosses, right?

Other people also needed to farm monsters to level up.

This was not a problem that could be solved in a short time.

Furthermore, the rewards from killing the red BOSS were not much.

Usually, two or three pieces of red equipment would be dropped.

If a large group of people were to split it, there wouldn't be enough at all. It would be better to earn more by killing monsters.

Zhang Shan thought as he farmed the gold coin divine beast.

He hoped that the mission activated by the little fairy would not be too ridiculous.

Zhang Shan and boss Wu stayed where they were quietly, farming gold coin mythical beasts while waiting.

wait for the little demon to come back.

After a short while, the little fairy teleported to their side.

Zhang Shan looked at her.

The little fairy didn't look happy at all about getting a divine weapon.

Instead, he looked dejected.

Zhang Shan asked her.

“What’s the situation? Is the mission very difficult?”

The little fairy ridiculed.

“It’s not very difficult, it’s extremely difficult. I’m afraid that old man ou is deliberately making things difficult for me. Why is it that when other people find Lil ‘ou to repair their divine artifacts, it’s so smooth, but when it’s my turn, I’m given such a difficult task?”

What was going on?

Zhang Shan was very confused.

It didn’t matter if the mission was difficult, as long as he could complete it.

Besides, wasn’t he still here?

He could help the little demon with the mission.

To Zhang Shan, as long as he was not asked to challenge the demon God, everything else was not a problem.

there was no BOSS that he couldn’t defeat.

Even if he couldn’t defeat them now, he could wait for a while.

After he reached level 60, the artifact would be unsealed again.

Zhang Shan could defeat almost all the bosses that were known to him.

Why did the little goblin look so dejected?

That shouldn’t be the case.

Could it be that she had to complete the little demon’s mission on her own?

No other players can participate?

Zhang Shan continued to ask.

“What kind of mission? Is it that difficult?”

“It’s very difficult. Lil ‘ou actually asked me to kill nine bosses with real names. It doesn’t matter if I fight real-name bosses since I have brother Guan here. It’s not difficult to kill real-name bosses. But the problem is, where am I supposed to find nine real-name bosses? how long will it take for me to gather nine real-name bosses?”

after little fairy finished speaking, she displayed the mission description on the party channel.

Zhang Shan took a look at the mission description.

[heart of courage: those without the heart of a hero are not worthy of having a divine weapon. Go and challenge the powerful demons.]

[quest requirement: kill nine real name bosses.]

[degree of completion: 0/9]

Zhang Shan looked at the mission description. He subconsciously touched his chin.

it wasn't too difficult to beat a real-name BOSS.

this quest did not require the little fairy to challenge the nine real name bosses alone.

That meant that the real-name BOSS killed by the team should also be considered a completed mission.

The problem now was where to find nine real name bosses to kill.

A real-name BOSS was not easy to deal with.

However, with Zhang Shan around, this was not a problem.

there was no real name BOSS that he couldn't defeat.

However, real name bosses were simply too rare. He had no idea where to find one.

Other than the fact that real-name bosses would appear regularly during events, the only exception was ...

At other times, it would depend on luck to find a real-name BOSS.

Although there were real-name bosses in the wild maps, it was almost impossible to find them if one deliberately looked for them.

When Zhang Shan was doing the red BOSS mission, he had been running around the Heaven's Gate map for more than 20 days, but he had not encountered a real name BOSS.

it could be seen how difficult it was to find this thing.

If the little fairy wanted to complete the quest by fighting a real-name BOSS in the wild map ...

Even if she searched for a year, she might not be able to find the nine real-name bosses.

The only way for the little fairy to complete the quest was to kill as many real name bosses as possible in the event.

The problem was that there wouldn't be many real-name bosses in the event.

In the previous monster attack on Fengyun city, only two real-name bosses had appeared.

Furthermore, a player city like Wind Cloud City was not easy to build.

He did not know when he would be able to build a player city again.

The only activity left was the monthly monster attack.

in a normal monster attack, there were quite a few real name bosses.

Previously, outside Heaven's Gate, there were a total of seven real name bosses.

However, that was an event that all players in the game would participate in.

There were seven real name bosses. Normally, they would be lucky if they could get one.

They were lucky to have gotten two last time.

They might not be so lucky next time.

Moreover, the normal monster attack would only happen once a month.

In other words, if there were no unexpected gains.

the little fairy would probably need nine months to complete the heart of a hero mission.

no wonder she looked so dejected after activating the mission.

If it was Zhang Shan, he would have done the same.

Such a mission was simply too nonsensical.

This was probably a prank.

He could even issue such a ridiculous mission.

It was indeed too much.

Zhang Shan did not know how to comfort the little demon.

All he could do was to help when there was a real-name BOSS.

As for how to find a real-name BOSS ...

he was also powerless to answer this question.

At this moment, boss Wu said.

“Do you think the divine beast King is a real name BOSS? If that’s the case, then things will be much easier. There’s still two days left for this event, which is more than enough time for us to kill a few. If we’re lucky, we might be able to get nine before the event ends.”

brother Guan, is the divine beast King considered a real name BOSS? ”

The little fairy asked Zhang Shan with a blank face.

it was hard to say whether the divine beast king was a real name BOSS or not.

According to Zhang Shan’s previous knowledge, a real-name BOSS should have a name.

However, the godly beast King did not have a name.

On top of its head, there were only three big words: godly beast King.

Was that a name?

it shouldn’t be.

At most, it was a title.

However, the problem was that Zhang Shan Zhi had defeated the little red divine beast and was considered a red BOSS.

however, he had calculated the progress of the mission.

If not, Zhang Shan would not have been able to complete the task so easily and repair the divine weapon.

If it wasn't for the Spring Festival event.

If so many little red divine beasts appeared, and these little red divine beasts were also considered red bosses ...

Zhang Shan would probably need another month's time before he could gather 81 red bosses and complete the mission.

When he was doing missions, the little red divine beast could be considered a red boss.

The divine beast King was one level higher than the little red divine beast. It was reasonable to say that it was a real name boss.

moreover, the godly beast king had such a terrifying amount of blood.

The divine beast King had trillions of HP.

If this wasn't a boss with a real name, then there was no reason.

However, Zhang Shan had no say in this matter.

It would depend on how the system determined it.

If the system determined that the divine beast King was a real BOSS, then they would be able to defeat it.

The progress of the mission would only be calculated for the little fairy's mission.

Zhang Shan said after some consideration.

"Theoretically, the divine beast King should be considered a real name BOSS. However, we will only know if that is the case after we have fought it."

Boss Wu said.

" that's right. let's find another godly beast king and blow it up. "

then what are we still talking about? let's go and find the godly beast King. We'll snatch it whenever we see it. No one can stop me from completing my mission.

The little fairy shouted with a murderous look.

Zhang Shan could not help but want to laugh at this.

This girl was a little cute.

Chapter 522 Want to counter-Rob?

Zhang Shan and the other two were searching for their next target in the West capital.

They had come to the West capital to fight the divine beast King.

The little fairy's current mission might be to defeat the divine beast King, but it would also count the progress of the mission.

Then, he had to work even harder and fight the divine beast King.

As for whether they would fight from the beginning to the end, or would they find someone else to fight the godly beast King?

This would depend on fate.

If he was as lucky as before and happened to encounter a godly beast King that had almost no health left ...

Of course, that would be the best.

He could force people to retreat and then blow up the godly beast King.

In less than ten minutes, he had easily taken care of one.

Of course, such luck was not common.

The entire West capital was so big, but there were only twelve godly beast Kings.

Moreover, the players who were fighting the divine beast King were a large group of people.

However, those people were all very wretched.

They would drag the godly beast King to a remote place to fight.

Even if Zhang Shan wanted to find them, it would not be easy.

As for how he was going to snatch the godly beast King, he didn't really care.

Zhang Shan was not worried that he would not be able to snatch it if he encountered a tough opponent.

there was no need to worry about this at all.

As long as he wanted to, there was nothing he couldn't get.

However, if he happened to run into someone and beat the godly beast King to a pulp ...

Such an opportunity would probably be hard to come by again.

zhang shan and the other two were still searching for their next target in the west capital.

The state of Qin's national channel was already in an uproar.

The players whose mythological beast King had been snatched away by Zhang Shan were filled with anger and had nowhere to vent it.

They had spent so much time and had beaten the godly beast King to a pulp, but it had been snatched away by Zhang Shan and the other two.

ten thousand miles long. ninety-nine thousand.

He didn't expect that he would fail at the last step.

if zhang shan had not appeared, they would have been able to destroy the godly beast king in a few minutes.

That way, he would get a divine weapon mold.

To the top players in the state of Qin, this meant that a godly weapon had been found.

To the ordinary players of the state of Qin, they could get a lot of gold coins.

However, the final result was completely unacceptable to them.

They had worked for nothing for half a day, but they had made a wedding dress for Zhang Shan and the other two.

They had been on the country of Qin's national channel. Some of them were clamoring to take revenge on Zhang Shan.

Some complained about the domineering King for not providing timely assistance.

If only the reinforcements from the domineering King had come a little faster.

Then, they would be able to protect the godly beast King.

domineering King, why didn't you send your men over earlier? "

that's right. If we had come earlier, we would have killed six-barreled Bodhisattva and made him retreat. We've wasted half a day.

"Compensate me."

"Tyrant king, pay up."

"What are you guys shouting for? do you believe that I will cut You Down every time I see you? Your godly beast King was robbed by six-barreled Bodhisattva. What does it have to do with boss? If it wasn't for the boss, you wouldn't even be able to touch the fur of the godly beast King."

" that's right. if you don't want to stay, then get out of the qin country. "

"Get lost, you only know how to blame others for your own noob."

" what kind of people are you? if it wasn't for the boss, you would only be worthy of farming gold coin divine beasts in qin country. you even want to fight the divine beast king. are you worthy? "

don't bother with this trash. They don't know how to pay, they only know how to complain.

"Those who don't want to follow boss, get them out."

alright, don't care about these pieces of trash. They're just useless barking.

what should we do next? six-pipe Bodhisattva dared to steal our godly beast King. We can't let this go.

you're right. Find six-barreled Bodhisattva and kill him.

but we don't have time now. We haven't killed the godly beast King yet.

...

"it can't be that everyone is fighting the king of mythical beasts. there must be some people who are free. let's gather those who are free and fight six-pipe bodhisattva together."

"Ah, six-barreled Bodhisattva can teleport in the city. Even if we go over, we can't beat him to death."

who cares? even if he can teleport, we're going to do it. We can't let him be so arrogant.

you're right. Even if we can't kill six-barreled Bodhisattva, we should at least kill the two Taoist priests and the Archer.

those who are free, gather together. Let's go look for six-barreled Bodhisattva. We'll also look for the newly-spawned divine beast King.

"You're right. Six tube Bodhisattva just snatched a godly beast King, and a new one has already appeared. We have to find it as soon as possible, we can't let anyone else get there first."

"Let's go, let's do it."

"F * ck the Bodhisattva."

"I'm looking for the godly beast King,"

In the state of Qin's national channel.

The Qin players were furious, and they looked as if they would not stop until they killed Zhang Shan.

...

Of course, they were also clear about this.

it was almost impossible to beat zhang shan to death.

that was an existence that could take on 100000 people.

Moreover, it could even withstand the damage of two real-name bosses.

It was almost impossible to kill such a fierce person when he could teleport continuously.

Their clamoring was just a moment of anger.

their main goal was to find the newly spawned godly beast king.

after the godly beast kings were killed, a new one would appear.

One of the Qin players had been snatched away by Zhang Shan. Of course, they did not want to let go of this newly spawned mythological beast King.

They organized the players who had free time to move out together.

on the surface, he was going to fight zhang shan, but in reality, he was only going to find the godly beast king.

Everyone knew this in their hearts, but they didn't point it out.

Of course, if they were to meet Zhang Shan by accident.

The Qin players might really have to fight with Zhang Shan again.

After all, he couldn't be a coward when playing games.

If they were playing a game, they would all be terrified.

Then why would he play basic waves?

Zhang Shan was not aware of the Qin players 'actions.

Even if he knew, he would not care.

Zhang Shan only knew that he had just killed a mythological beast King. He had obtained a divine weapon from the purple-gold treasure chest.

Moreover, this divine weapon mission item was for little fairy.

It solved one of the little demon's problems.

So that she wouldn't keep nagging.

He was very happy.

As for whether or not the Qin Dynasty players would find trouble with them ...

zhang shan would not take it to heart.

To tell the truth.

With his current strength, he wasn't afraid of anyone if he were to fight with players.

only zhang shan could find trouble with others.

Whoever dared to find trouble with him would be killed.

.....

At this time, Zhang Shan brought boss Wu and the little fairy, riding horses in the West capital, speeding everywhere.

The most important thing now was to find a godly beast King and destroy it.

Let's see if killing the divine beast King counts as a little fairy and complete the mission.

If that was the case, they would have to work hard for the remaining two days.

He wanted to help the little fairy complete the mission during the event.

This was to prevent him from not knowing where to go in the future and finding a real name BOSS to fight.

As for the purple-gold treasure chest that the divine beast King had dropped, it was secondary.

Although the mold for a divine weapon was valuable, it was not difficult for Zhang Shan to get his hands on it.

At most, he could just get one during the monster siege every month.

Just as they were running.

Boss Wu suddenly pointed into the distance and shouted.

“there’s a godly beast king over there.”

Zhang Shan looked in the direction that boss Wu was pointing at.

In the distance, there was a beast King, quietly mixed in with a group of gold coin godly beasts.

they quickly rushed over.

the little fairy asked zhang shan.

“Brother Guan, should we fight this one? this one was full of health, and it would take a long time to kill it. Why don’t we just go and fight someone else? That way, they would fight faster. It would be perfect if we encountered an empty godly beast King like before.”

Hearing the little fairy’s words, Zhang Shan could not help but hold his forehead.

This little girl was probably a Bandit.

Why did he keep thinking about snatching other people’s godly beast Kings?

He could also fight the godly beast King that he found.

Although it might take a long time to kill him.

However, it would save him a lot of trouble to fight the godly beast King that he had found.

Moreover ...

even if they wanted to snatch the godly beast king, they had to know where the others were fighting.

There were only three of them, and they had come to the West capital.

the other members of the wind and cloud guild did not come together.

even though with zhang shan around, combat power was not a problem.

However, their intelligence support was too poor.

No one from the wind and cloud Guild came over, so no one provided them with any information.

Zhang Shan did not know where the other 11 godly beast Kings in the city had been dragged to.

Of course, he could find it if he really wanted to.

but that was very troublesome, wasn't it?

After all, the West capital was huge.

It would probably take a few hours.

Since he had encountered one, why did he have to go and snatch another godly beast King?

Wouldn't it be over if he just hit the one in front of him?

This was so simple.

zhang shan said.

"I'll fight this one. I estimate that it will take at most five hours to destroy it. "

Boss Wu said worriedly.

"What if someone comes to harass us while we're fighting? what should we do?"

"What are you afraid of? kill all those who dare to cause trouble."

" that's right. whoever dares to find trouble with us, i'll shoot them down with one arrow. "

"Alright, let's fight this one."

Boss Wu was just saying it casually. Since Zhang Shan and the little fairy insisted on fighting this one, he did not object.

they were here to fight the godly beast king. it was normal for them to have conflicts with others.

If they didn't take the initiative to find trouble with others, then it would be others who found trouble with them.

There was actually no difference.

they were going to fight anyway.

After the three of them reached a consensus, Zhang Shan aimed at the godly beast King and fired rapidly.

At the same time, he also kept on casting pomegranate bomb, clearing the other small divine beasts in the surroundings.

first, clear out an open space.

after a while, all the gold coin mythical beasts around him had been wiped out.

Only the godly beast King was left, and it was attacked by the three of them.

after zhang shan played for a while, he realized that this was not the right way.

now, there were no other small divine beasts around the divine beast king. his catapults were passive and could not be used at all.

Zhang Shan could only fire one shot at a time. It was too slow.

It had seriously affected his damage output.

He had to get a little red divine beast to act as a bridge for the catapulted damage.

He let the little red divine beast act as a bridge for the catapulting damage, allowing his catapulting to be passive and play its role.

Zhang Shan said to boss Wu.

“Go and pull a little red Spirit beast over. That way, the fight will be faster.”

“Alright,” he said.

Boss Wu left.

After a short while, he pulled a little red Spirit beast over.

Zhang Shan quickly turned his gun and attacked the little red beast. He quickly pulled the little red beast to stand with the divine beast King.

It felt great now.

zhang shan fired a shot, and the damage jumped back and forth between the little red divine beast and the divine beast king.

Each shot would cause damage to the godly beast King six times.

As for the little red divine beast, it was just a tool monster.

Zhang Shan did not mind. This was just a bonus.

In any case, the treasure chest that the little red divine beast dropped could only give red equipment.

That thing was not worth much.

At least for Zhang Shan, that was the case.

Zhang Shan only cared about the godly beast King.

Of course, the blood volume of the little red divine beast was only one-tenth of the blood volume of the divine beast King.

He would definitely fall to the ground before the divine beast King.

But it didn't matter.

If this little red divine beast fell, he could ask boss Wu to pull another one over to act as a bridge for the damage.

Zhang Shan and the other two surrounded the godly beast King and attacked it continuously.

All sorts of injuries appeared on the heads of the divine beast King and the small red divine beast.

However, the HP of a divine beast King was so high that it was a little scary.

They fought for a while, but the godly beast King's health did not change at all.

He was still at 100% health.

After all, he had obtained a new divine artifact ring today and activated the set attribute.

Zhang Shan's current damage ability was extremely terrifying.

The theoretical damage was over 240000.

He also had the passive boost of ejection.

Every time Zhang Shan attacked, the godly beast King would be injured six times.

In other words, even if the critical damage was not taken into account.

Every time Zhang Shan attacked with his spear, he could take down more than a million HP from the godly beast King.

If the critical hit was taken into account.

On average, the damage he dealt with each shot might be more than three million.

furthermore, zhang shan's attack speed was extremely fast.

He could fire at least five shots in two seconds.

In addition, he still had a few berserk skills.

Even so, after a few minutes of fighting, the health bar of the godly beast King did not change at all.

This thing was really too difficult to get.

His HP was so high that it was a little scary.

However, Zhang Shan was not flustered.

If other people could defeat a godly beast King, the three of them could do the same.

it would just take a little more time.

Just as Zhang Shan and the other two were attacking the godly beast King with all their might.

A large group of players from the state of Qin were scattered all over the West capital, looking for the newly spawned divine beast King.

They did not know that the godly beast King had already been found by Zhang Shan and the other two.

They were in the middle of a fight.

Of course, there were many players in Qin.

Furthermore, Zhang Shan and the rest did not purposely hide.

after they found the godly beast king, they started fighting on the spot. they did not drag the godly beast king to a remote place to fight.

To Zhang Shan, there was no need to do so.

he just wanted to fight so openly.

If you want to snatch his godly beast King, then come at me.

Zhang Shan and the rest's current location was not difficult to find.

Those Qin players would find their way here sooner or later.

As for the other players in the city, they didn't know yet.

The other players did not know that a godly beast King had just been killed.

Naturally, he didn't know that a new divine beast King would appear.

Moreover, each of them had a godly beast King fighting with them.

He would not come out to look for the godly beast King for the time being.

Only the players who had just teleported to the West capital would go around looking for the mythical beast King.

but no matter who it was, zhang shan did not care.

You guys fight your own battles, I'll fight mine.

Just don't come looking for trouble with me.

Unfortunately, Zhang Shan's thoughts were quickly shattered.

They had only been fighting for a few minutes, and the divine beast King had not even lost 1% of its health.

a group of qin players came over.

When the Qin players saw Zhang Shan and the other two, they were initially shocked.

The main reason was that Zhang Shan's reputation was too great.

furthermore, he had just fought with the qin players.

To be honest, even though the Qin players hated Zhang Shan to the bone.

however, they did not wish to meet zhang shan.

Because he couldn't win.

This group of Qin players, when they saw Zhang Shan and the other two, were thinking of taking a detour to escape.

However, they soon realized.

Zhang Shan and the other two were actually fighting the godly beast King.

in an instant, the hearts of the qin players came alive.

Previously, Zhang Shan had snatched one of their godly beast Kings.

This time, could they counter-Rob?

he snatched the godly beast king from zhang shan's hands.

Of course, they had to snatch Zhang Shan's godly beast King.

It was definitely not possible to do it with just the few of them.

This group of Qin players only had a few dozen people.

if they dared to rush over and snatch the divine beast king.

he was afraid that it would not be enough to take a few shots from zhang shan.

He had to shake him up.

they quickly called out in the state of qin's national channel.

"Godly beast King found."

"Where are you? Send me the location."

When they heard that they had found the mythological beast King, many of the players from the state of Qin were very happy.

This time, the newly spawned divine beast King was not found by the others.

In the end, the Qin players found him first.

As long as they had enough people, they could occupy the divine beast King.

However, their happiness did not last long.

he saw those people continue to speak on the state of qin's national channel.

but six-barreled Bodhisattva is fighting this divine beast King.

After hearing this, the entire state of Qin's national channel fell into dead silence.

The newly spawned godly beast King had already been taken by Zhang Shan.

This was both good and bad news for them.

The bad news was that they had five godly beast Kings in the West capital.

Now that this one was taken by Zhang Shan, it meant that they had one less to fight.

If he wanted to keep hitting five godly beast Kings, he would have to Rob others, or Zhang Shan's one.

Of course, Zhang Shan was fighting the godly beast King.

It was good news for the players from Qin who were fighting the mythical beast King.

This at least meant that Zhang Shan had something to do now and would not try to snatch the godly beast King in their hands.

But why did he feel that something was wrong?

in the state of qin's national channel, after a moment of silence, someone angrily said.

"Why aren't you talking? Six-pipe Bodhisattva stole one of our godly beast Kings, and now he still dares to stand there and challenge a newly spawned godly beast King. How is this going to embarrass the great Qin Kingdom?"

you're right. Let's kill six-barreled Bodhisattva and take back the king of divine beasts.

"Do you have any brothers who can go and kill six-barreled Bodhisattva together?"

"Count me in,"

location sent. Let's gather together to kill six-barreled Bodhisattva.

"Where's the domineering King? why aren't you saying anything? To kill the six-barreled Bodhisattva, we need a King to lead the team. Even if we go, we'll only be sending ourselves to our deaths."

At this moment, the domineering King was fighting the godly beast King.

As for the fact that Zhang Shan had stolen the mythological beast King from the Qin players, he was, of course, very angry.

However, he really couldn't leave.

It was impossible for him to leave the divine beast King in his hands and fight with Zhang Shan.

If he wanted to fight Zhang Shan, he would at least have to wait until he had destroyed the godly beast King in his hands.

The domineering King saw that there were players from the Qin country who had noticed Zhang Shan farming the newly spawned mythological beast King.

A group of Qin players were furious and wanted to go to Zhang Shan to fight again.

he spoke on the state of qin's national channel.

don't be in a hurry. Six-barreled Bodhisattva can't kill the godly beast King in a short time. After we blow up the godly beast King in our hands, we'll organize a group to kill him.

boss, you're so powerful! Kill six-barreled Bodhisattva!

all the best, finish off the godly beast King as soon as possible.

"report your progress, how much longer do we need to fight?"

soon. The godly beast King on our side only has less than five percent of its health left.

we're still early. There's still more than thirty percent of the godly beast King.

"F * ck, why are you guys so slow?"

"I have no choice. I was constantly harassed just now."

"it's fine. we don't need that many people to kill the six-guan bodhisattva. We'll just gather a few hundred thousand people. The key is to have a Big Shot to lead the team."

"When the boss is done here, let's go and kill six-barreled Bodhisattva together."

good luck, you guys. I'll farm some gold coin mythical beasts first. Remember to call when you gather.

After the domineering King's announcement, the state of Qin's national channel was in an uproar.

it was as if as long as the domineering king made a move, he would be able to kill zhang shan.

he had no choice.

they had been defeated by zhang shan too many times.

Especially after being robbed again.

They urgently needed to defeat Zhang Shan to regain some confidence.

Even if he could not kill Zhang Shan, it would be fine as long as he could snatch the godly beast King.

Chapter 523 killing without guarding the corpse, wouldn't it be a waste of time

, Some Qin players had already come over.

Boss Wu said worriedly.

"These Qin players, they can't be shaking people, right?"

Hmph, I don't need to think to know that they're calling for help. Otherwise, why would they stay beside us? "

"Then what should we do? Are we still going to continue fighting? If we start fighting, we won't be able to take care of the godly beast King."

"It's okay, let's fight first. It's just the beginning, and the godly beast King won't be killed so easily."

As for boss Wu's worry, Zhang Shan did not care at all.

who cared what those qin players wanted to do.

We'll just continue to fight the godly beast King.

If they really started fighting, he would just put the mythical beast King aside and kill the players from Qin first.

If the players from the state of Qin wanted to fight the mythical beast King, then let them fight.

After all, a divine beast King would not be killed so easily.

it would be better if the players from the state of qin only focused on fighting the mythical beast king.

Wouldn't that be helping Zhang Shan?

After Zhang Shan killed all of them, wouldn't the godly beast King still be theirs?

If the players from the state of Qin went to fight the mythological beast King, they would be helping them.

"how are we going to deal with them when they start fighting? If there are too many Qin players, you might be able to hold on, but we won't be able to."

Although Zhang Shan said that he did not mind, boss Wu still asked worriedly.

Regarding boss Wu's question, Zhang Shan seriously considered it for a while.

This was indeed a problem.

No matter who the Qin players were, how many of them came?

Zhang Shan did not take it to heart. He could not kill him anyway.

With his powerful strength and high HP, as long as he did not seek death, it would be strange if the Qin players could kill him.

But even if he couldn't, it didn't mean that the little fairy and boss Wu could.

If the players from the state of Qin used a powerful skill or scroll, boss Wu and the little fairy would probably be killed in seconds.

Even if the little fairy and boss Wu fell to the ground, it didn't matter.

After he had killed all the players from Zhang Shan and Qin country, he could naturally find more support to revive them.

He didn't need to worry about losing a level.

But of course, it was better not to fall to the ground.

Lying on the ground, how ugly would that be?

Zhang Shan said after careful consideration.

"When the players from the state of Qin come and attack us, you guys just teleport away. I'll fight them alone, and you guys just harass them from the surroundings."

brother Guan, how can we do that? if we're going to fight, we'll fight together. At most, after we die, we'll just call the Guild's support to come and revive.

that's right. We can't do much even if we teleport to the surrounding area to harass them. After all, our strength is only slightly stronger than the other players.

“Don’t worry, just teleport away later. It doesn’t matter if you harass them or not, as long as you don’t die. Leave these Qin players to me. If they don’t know what’s good for them, I’ll make sure they won’t be able to survive in the West capital.”

“Alright,” he said.

Boss Wu and the little fairy didn’t say anything else.

The two of them had followed Zhang Shan and were slackers to begin with.

They wouldn’t be of much help in a large-scale battle.

If it was not handled well, he might even drag Zhang Shan down.

he might as well listen to zhang shan and save his own life.

If the Qin players came to steal the king of beasts, they would have come prepared.

The formation of the Qin players would no longer be as weak as before.

This time, there would definitely be many high-end players coming from the state of Qin.

even the domineering king might come.

The lineup would definitely be huge, and they would definitely have some trump cards.

if it were the two of them, they would still insist on fighting with zhang shan against the qin players.

he would probably fall to the ground soon.

Boss Wu quickly figured out these problems.

However, he still continued to speak.

“If we don’t really fight later, I’ll use my big move first before leaving.”

“Alright, that’s good too.”

...

Ever since boss Wu had learned the big move, he had only used it once when he was defending Fengyun city.

He hadn’t even used it yet.

When they had been defending Fengyun city, their ultimate skills had been used to clear the small monsters.

It wasn’t for fighting, so he didn’t feel anything.

Boss Wu had not shown his ultimate skill in front of other players yet.

it was time for boss wu to show his face.

When they were snatching the godly beast King, little fairy had used a big move to let them get the godly beast King.

He didn't even give boss Wu a chance to perform.

.....

Zhang Shan and the other two were attacking the godly beast King while keeping an eye on the Qin players around them.

As time slowly passed, more and more Qin players gathered.

...

However, they did not go up to harass Zhang Shan and the other two. Instead, they stood and watched from afar.

The little fairy said as she drew her bow.

"what are the qin players doing? since they don't want to attack us, why are they gathering here and not leaving?"

you don't have to think about it. He's definitely waiting for someone.

"However, there are already over 100000 players from the state of Qin in the surrounding area. Are they still going to wait for someone? How many people do we have to wait for before they dare to come up and hit us?"

At this time, boss Wu guessed.

they should be waiting for the domineering King. Without the domineering King leading the way, these Qin players would not dare to come and find trouble with us.

that's possible. No matter how many normal players from the state of Qin there are, they can't do anything to us. Only someone like Subjugator, who has many tricks up his sleeve and is strong enough, has a chance of causing trouble for brother Guan.

"Don't worry about them. Let's fight the godly beast King first."

More and more Qin players gathered around them, but they did not dare to attack.

It was obvious that they did not have the confidence to defeat Zhang Shan and the other two.

He might have to wait for more people or make more preparations.

Of course, the biggest possibility was that the players were waiting for the arrival of the domineering King.

The domineering King must have been fighting the godly beast King in some corner, so he had not shown up.

he would definitely come after he killed the godly beast king.

it was a pity that zhang shan had searched for so long just now, but he could not find the position where the tyrant king had hit the divine beast king.

Otherwise, she would have just snatched him away. How good would that be?

the overbearing king was probably about to blow up the godly beast king.

If not, these Qin players would not have been waiting here.

if the domineering king was going to fight for a long time ...

Therefore, unless these Qin players 'brains were fried, they would not stay here.

wouldn't it be better to just find a place and farm some gold coin beasts?

After about half an hour, Zhang Shan and the other two had reduced the divine beast King's HP by about 10%.

The surrounding Qin players started to cheer.

Zhang Shan looked around. As long as the domineering King was there, there was a large group of people. He quickly rushed over on his horse.

Boss Wu reminded him.

"The tyrant king is here."

the little fairy said in disdain.

if he's coming, then so be it. What's there to be afraid of? old Wu's ultimate skill will be aimed at Subjugator. We'll try to kill him in one hit.

Boss Wu nodded to show that he understood.

In a battle within the city, even if Subjugator didn't lead the charge, he wouldn't be able to Dodge boss Wu's ultimate.

even if he was a domineering king, it would be useless to hide behind.

Boss Wu could teleport in the city.

As long as he teleported to the vicinity of the domineering King, he would be able to use his ultimate skill and leave.

He would definitely be able to kill a wave of the tyrant king.

Even if he fell to the ground, he would be quickly revived.

However, it was also good to kill the prestige of the domineering King first.

"let's go!" tyrant king said as he waved his hand.

"Attack and take this godly beast King."

Even though he really wanted to beat Zhang Shan to the ground.

however, the domineering king knew that if they wanted to kill Zhang Shan, it would be impossible.

This was because Zhang Shan and the other two could use teleportation.

If he really couldn't take it anymore, Zhang Shan would run.

Unless Zhang Shan was willing to stay and fight them head-on.

The main purpose of the overbearing King was to take the godly beast King.

As long as he could snatch the mythical beast King away, he would have taken revenge for the players of the state of Qin.

Previously, Zhang Shan and the other two had stolen the king of mythological beasts from the players of the Qin country.

Now that he had brought people to snatch it back, not only could he embarrass Zhang Shan, he could also greatly increase his prestige in the hearts of the Qin players.

Under the command of the domineering King, countless players from the state of Qin roared and rushed towards Zhang Shan and the other two.

Zhang Shan said to boss Wu.

"get ready to teleport over there and use your ultimate skill to kill off the tyrant king. after that, you guys leave immediately. don't stay."

"I understand."

Facing the charge of the Qin players, Zhang Shan immediately gave up on attacking the mythological beast King.

Instead, he turned his gun and fired at the players from the state of Qin.

As for boss Wu and the little fairy, they were not paid much attention to by the players of Qin.

although most of the Qin players around them weren't too strong, they were still strong.

However, the group of players that domineering King had brought over were quite a few high-end players.

They had spent a lot of money, and their equipment and skills were all top-notch.

In their hearts, in the entire game, other than Zhang Shan, they were not afraid of anyone.

Boss Wu and little fairy were much higher in level than them.

However, they would not be taken seriously by the Qin players.

They only stared at Zhang Shan, wanting to cut him down or force him to retreat.

As long as Zhang Shan gave up, they would win the fight for the godly beast King.

At this time, boss Wu, who had not been noticed, teleported directly to the side of domineering King.

Before the Qin players could react.

Boss Wu released the fury of Thunder, and countless Thunderbolts drowned the domineering King and the players of the state of Qin.

In an instant, he had killed the tyrant king.

Boss Wu's Fury of Thunder was the same as the Archer's wrath of the stars, which dealt 10 times the damage.

Don't look at boss Wu, he was just an auxiliary profession.

However, his level was high enough. He was over level 50.

His equipment was also very good, a full set of red equipment.

Except for the fact that he didn't have any godly items, Mr. Wu's equipment was the best in the game.

his current attack power was over 30000.

Thunder's Wrath dealt over 300000 damage.

Even Subjugator was instantly killed as long as he was grazed by the Thunder's Fury, let alone the players from the state of Qin.

Without even the slightest struggle, the domineering King had already fallen to the ground.

Boss Wu's Thunder's Fury skill, in addition to its high damage, was also a big move that lasted for five seconds.

After the Overlord fell to the ground.

Some of the Qin support players in the distance wanted to revive him.

However, when they got close to the damage range of Thunder's Wrath, they turned into ashes.

"F * ck, they killed boss in seconds."

f * ck, why does the Taoist profession also have such a powerful skill? "

"what is this skill? Does anyone know?"

"Who knows? I've never seen it before."

it should be a Daoist priest's big move. Otherwise, it can't be so powerful.

" nonsense, of course i know it's a big move. if it's not a big move, the taoist profession would be heaven-defying. "

why are you bullshitting? our boss is dead. Let's kill six-barreled Bodhisattva and avenge our boss.

"Let's charge together and kill six-barreled Bodhisattva."

A group of Qin players shouted and rushed towards Zhang Shan.

It wasn't that they didn't want to go and beat up the little fairy and boss Wu.

boss wu, in particular, had knocked down even subjugator with a wave of big moves.

He had gained a lot of hatred points.

Logically, these Qin players should go to boss Wu.

Unfortunately, boss Wu was very slippery.

After he had used his ultimate move, he had immediately used teleportation to escape.

He didn't even know where he had teleported to.

Even if these Qin players wanted to kill boss Wu, they had to find someone.

The entire West capital was so big, where could they find boss Wu?

Besides, even if they found boss Wu, what could they do?

Didn't boss Wu still know how to teleport away?

There was no target to vent his anger on.

The Qin players placed all their hatred on Zhang Shan.

a group of people charged at zhang shan without a care for their lives.

This stance was even fiercer than when they were snatching the divine beast King.

Seeing the Qin players charging forward without any regard for their lives ...

Zhang Shan could not help but admire the domineering King.

Although this iron-headed kid was nothing ...

However, his appeal among the players was nothing to scoff at.

Even though they had been attacked by the wind and cloud Guild countless times.

the qin players still believed that the conqueror would make them even stronger, and they were still willing to give their lives for the conqueror.

Zhang Shan could not help but admire her charm.

Of course, admiration was admiration. When it was time to make a move, Zhang Shan would not be soft-hearted.

Since Subjugator had fallen to the ground, he should just lie there. It would not be easy for him to revive.

When the duration of the fury of Thunder ended, the group of Qin reinforcements rushed forward again, trying to resurrect the tyrant.

however, zhang shan teleported and appeared where the corpse of the tyrant king was.

The bullets swept across and quickly killed a group of Qin support players.

Seeing such a situation, the Qin players were all furious.

f * ck, six-barreled Bodhisattva is too arrogant. Does he want to guard boss's corpse alone? "

"Don't say anything, let's attack together and cut him down."

"That's right. I hope he really dares to guard boss's corpse. That way, we'll have the chance to cut him down. It'll prevent him from constantly using teleportation to fly around."

needless to say, zhang shan really had such thoughts.

He did want to guard the corpse of the tyrant king.

In this game, killing without guarding the corpse was equivalent to killing for nothing.

Especially in the city.

If they didn't guard the corpse, others would be able to find a helper to resurrect quickly.

Even if they were killed, they would not suffer any losses.

It was nothing more than spending a few more gold coins to repair equipment.

Even though there were many Qin players around.

However, Zhang Shan still wanted to give it a try. He wanted to see if he could defend against a wave of the corpse of the tyrant king.

Defend until he lost all hope, defend until he resurrected, defend until he dropped a level.

He would feel heartache when Subjugator lost a level.

countless qin players were like a tide, rushing towards zhang shan.

However, Zhang Shan went all out, killing wave after wave of Qin players.

At this moment, Zhang Shan had not even activated the skill {God's descent}.

He felt that there was no need. These Qin players didn't have much of a chance to get close to him.

Even if there were some players from the state of Qin who could rush to his side, they would be quickly beaten to the ground by him.

Zhang Shan was like a reef in the sea, standing on top of the corpse of the tyrant king.

The players from the state of Qin charged at him like the ocean, but they could not do anything to him.

These Qin players, don't even talk about defeating Zhang Shan.

They could not even make Zhang Shan move.

The Qin players were furious.

However, they had no other choice.

Zhang Shan was simply too strong.

No matter how they charged, they could not do anything to Zhang Shan.

not to mention the melee classes.

They didn't even have the chance to rush to Zhang Shan's side. They couldn't even hurt a single hair on Zhang Shan.

As for the long-range jobs.

even though their injuries were constantly falling on zhang shan.

However, Zhang Shan's lifesteal effect was even stronger.

the damage of the qin players was even faster than zhang shan's lifesteal.

That was why they had fought for so long.

Zhang Shan's health bar had never been lower than half.

One had to know that Zhang Shan's current blood-sucking ability was unbelievably fierce.

All three accessories had a 10% lifesteal effect.

he also had a passive skill, life focus, which increased lifesteal by 5%.

all of zhang shan's lifesteal effects added up to 35%.

With Zhang Shan's terrifying damage ability, coupled with his powerful blood-sucking ability.

As long as he wasn't unconscious all the time, he could be said to be immortal.

no one could kill him.

As for Zhang Shan, he had yet to activate the [divine descent] skill.

Originally, he had planned to activate the God's descent skill when he couldn't hold on any longer, and leave after a violent wave.

Then, they would slowly move around the periphery and wear down the strength of the Qin players.

He would only attack the mythical beast King after he had defeated all the Qin players.

now, it seemed that there was no need.

He didn't even need to use his ultimate skill to prevent the players from the state of Qin from reaching him.

zhang shan's strength had caused the qin players to feel despair.

f * ck, why is the six tube Bodhisattva so powerful? "

that's right. His strength is too terrifying. It's so terrifying.

what do we do now? six-barreled Bodhisattva is guarding boss's corpse. We don't have a chance to resurrect boss.

what else can we do? of course, we'll continue charging. Are you guys going to give up on boss? "

"but it's useless to just charge forward. we can't even make six-barreled bodhisattva retreat a few steps, except for killing people continuously."

"I have to think of another way."

"Why don't we send some of our people to fight the godly beast King? I don't believe that six-pipe Bodhisattva will just stand by and watch us fight the godly beast King."

"That's a bad idea. Do you know how long it takes to kill a godly beast King? Even if an hour had passed and boss was forced to resurrect in the city, we wouldn't be able to deal much damage to the mythological beast King. Why does six-barreled Bodhisattva care about us? he can't wait for us to fight the godly beast King."

that's right. The key is to defeat six-barreled Bodhisattva. If we can't defeat him, it's unrealistic to say that we're fighting the godly beast King. It'll be a waste of time even if we fight it. It'll be snatched back by six-barreled Bodhisattva sooner or later.

A player from the state of Qin said.

"why don't i try using the scroll and see if i can force six-barreled bodhisattva to retreat?"

Upon hearing this, the surrounding Qin players could not help but show a surprised expression.

Scrolls were rare.

No matter what kind of scroll it was, they were all extremely rare.

Every time a scroll appeared in the auction house, it would be snatched away by the big shots at a high price.

This player from the state of Qin could only be considered a player with a small paywall. How did he get a scroll?

"You have a scroll? Is it a damage type scroll?"

yes, it's the one that boss asked me to bring over. I haven't had the time to use it yet, and boss didn't take it back.

Not many Qin players had seen Subjugator's order to bring scrolls over.

Everyone only knew that the domineering King had sent people with scrolls to help.

As for who it was with, they really didn't know.

The reason why the domineering King did this was to prevent others from finding out.

Then, he would kill the person with the scroll.

It would be a huge loss if the scroll dropped.

Even if the scroll didn't drop.

However, if the person carrying the scroll died, how would they be able to use the scroll?

Just like now, the domineering King also had a scroll on him.

however, he was now lying on the ground.

It was useless to have the scroll on him.

A dead person lying on the ground could not cast a scroll.

He had to be revived by others first.

Hearing that there was a scroll, the surrounding players from the state of Qin could not help but feel happy.

haha, then what's there to say? let's use the scroll to kill six-barreled Bodhisattva. Let's see how arrogant he can be after that. He actually dared to guard boss's corpse.

"How's the damage of that scroll of yours? Can he kill six-barreled Bodhisattva?"

Someone asked worriedly.

there were many types of scrolls, and even if they were all damage scrolls, the damage effects would vary greatly.

Powerful scrolls could even deal damage of several million per second and cover a 500-yard radius.

as for the weaker scrolls, some of them were even worse than the players' ultimate skills.

some of the qin players were worried that the scroll's damage effect was too weak and might not be able to force zhang shan back.

"It's very powerful. It's a lightning scroll."

The Qin player with the scroll replied with certainty.

everyone was relieved to hear that.

The Thunder scroll was not weak. It would definitely be able to force Zhang Shan back, and perhaps even defeat him.

"that's good. let's discuss how we should cooperate later. try to keep six-barreled bodhisattva here and don't give him the chance to escape using teleportation."

Chapter 524 The West capital is too dangerous, I want to return to LAN Tian

When the Qin players found out that there was another scroll, they could not help but become more confident.

initially, they had been shocked by zhang shan's strength.

If not for the fact that Zhang Shan was stepping on the corpse of the domineering King, they would have had to go to his rescue.

These Qin players had probably left long ago.

It was because there was no point in continuing the fight.

They could not kill Zhang Shan at all.

On the other hand, every time the Qin players charged, a large number of them would fall.

It felt like they were sending themselves to their deaths.

What was the point of such a battle?

It would be better to disperse as soon as possible.

However, the domineering King had fallen to the ground, and was being spawn camped by Zhang Shan.

If they were to abandon the domineering King and just leave, then the Qin country would never be able to rise again.

If the boss had been abandoned, how could he rise?

Could a faction still be considered a faction without its backbone?

They could only be considered a bunch of scattered soldiers.

Hence, even though every charge would cause countless Qin players to fall to the ground.

However, they still continued to charge forward.

the qin players thought.

He had to resurrect the tyrant king.

even if they couldn't resurrect, they would have to keep charging until an hour later.

The system had forcefully resurrected the Overlord.

even though the result would be the same.

But at least they did their best. Everyone's passion was still there, and the cohesion of the camp was still there.

If the boss falls, we won't give up.

Originally, the Qin players thought that they would continue to charge forward like this.

However, the tables had turned.

The scroll that the domineering King had given to the Qin player was still with him.

Furthermore, this fellow had not died all this while.

In other words, they still had one more scroll to use.

Not only that, but the scroll was also a powerful Thunder scroll.

With the help of this scroll, they might have a chance to completely keep Zhang Shan here.

When they thought of this, the players from the state of Qin became excited.

Ever since Zhang Shan rose to power, he had almost never been killed.

That is, if they could kill Zhang Shan once.

That would be famous.

He had to think of a way to cooperate and try to keep Zhang Shan.

Although Zhang Shan's strength was very strong, and he could use teleportation continuously in the West capital.

However, they felt that as long as they cooperated well, they should have a chance to do it.

I have to think of a way to make six-barreled Bodhisattva faint, even if it's just for a moment.

that's right. As long as we can stun six-barreled Bodhisattva and use the scroll, I don't believe he won't die.

"but it's going to be very difficult. melee classes like us can't even get close to him. if we want to stun six-barreled bodhisattva, we can only rely on ranged classes."

it's not good for ranged classes to stun six-barreled Bodhisattva either. The ice Wizard will be knocked down by six-barreled Bodhisattva before he can even get close enough to cast his spell.

we can only rely on the archers. The Archer's Meteor arrow skill has a long casting distance and can stun people from a long distance.

"it's a good idea, but six-barreled bodhisattva isn't a fool. once we fire the meteor arrow, he'll either dodge or activate his magic immunity skill to be immune to crowd control."

"As long as there are enough meteor arrows, even if six tube Bodhisattva wants to Dodge, he won't be able to."

"I'll use meteor arrow. All archers, form groups of 100 and fire meteor arrows continuously to exhaust six-barreled Bodhisattva's magic immunity skill."

"Let's do it this way. We have so many people here, and there are thousands of archers. If we take turns to shoot meteor arrows, I don't believe we can't stun six-barreled Bodhisattva."

that's right. Although six-barreled Bodhisattva has magic immunity skills, they have a cooldown time. As long as he uses magic immunity skills, we'll have the chance to stun him with meteor arrow.

get ready. Once six-barreled Bodhisattva is stunned, the rest of you, remember to use your stunning skills and stun him to death.

"do we still need to use the scroll?"

The Qin player who was holding the scroll asked carefully.

He had heard everyone's discussion about using the meteor arrow skill to stun Zhang Shan to death.

...

Since that was the case, did it not mean that he could kill Zhang Shan without using the scroll?

If that was the case, why would they need scrolls?

One had to know that scrolls were rare items. Even if you had money, you might not be able to buy them.

He thought that he would save it if he could.

After all, the scroll belonged to Subjugator, and he only carried it with him.

If he used it carelessly, he didn't even know how to explain it to the domineering King.

however, when the qin player said that, everyone looked at him as if he was an idiot.

A Big Shot player from the state of Qin said slowly.

we still need the scroll. Six-barreled Bodhisattva has such high HP. Even if we stun him, we might not be able to beat him without the scroll.

"Oh."

the qin player understood.

...

Everyone's heated discussion just now was just to boost morale.

everyone was actually placing their hopes on the scroll in his hand.

It was not true that he had the confidence to knock Zhang Shan out.

After the Qin players discussed for a while, they came up with a rough plan.

zhang shan stood on top of the corpse of subjugator, his hand cannon firing non-stop.

Any Qin players who dared to approach were all beaten to the ground.

But very quickly, the situation changed.

The Qin players changed their strategy.

They organized the archers and kept shooting meteor arrows.

Zhang Shan was not worried about this.

He had already considered this point.

For now, the skills that posed the greatest threat to him in the entire game were not the ultimate skills.

The players 'ultimate skills could not do anything to him.

With his over 800000 HP, most players 'attack power was at most 30000 to 50000.

Even an ultimate skill with ten times the damage couldn't kill him.

Unless there were multiple ultimate skills that could be cast at the same time.

Otherwise, Zhang Shan would not be afraid at all.

The most threatening skill to Zhang Shan was the Archer's Meteor arrow.

Although meteor arrow was only a minor skill of an Archer, this skill was really disgusting.

This was especially true when there were a lot of archers, and they all fired meteor arrows at the same time.

He couldn't Dodge it.

it would be troublesome if he was stunned by the meteor arrow.

Meteor arrow could stun for a maximum of five seconds.

If he was stunned by the enemy for five seconds, he would be finished.

The others would definitely do the same, continuously using their stun skills to stun him to death.

As for the tactics of the Qin players, Zhang Shan already had a countermeasure.

When a large number of meteor arrows had sealed off all his escape routes, he was finally able to Dodge.

Zhang Shan teleported to the side and dodged the meteor arrow.

After the meteor arrow passed, he teleported back to the corpse of the tyrant king.

Meteor Arrow's range was very far, and the stun time was very long.

However, this skill had a fatal weakness.

The meteor arrow was not fast and could be dodged by players.

As long as Zhang Shan was prepared, it would be impossible to hit him.

It would be strange if you could hit a person who could teleport continuously.

Seeing Zhang Shan's actions, the Qin players were completely dumbfounded.

"F * ck, teleportation can be played like this?"

what the f * ck? how can I make six-barreled Bodhisattva faint? "

"Continue to shoot meteor arrows, don't stop. The support will look for an opportunity to see if he can resurrect the boss."

he saw zhang shan constantly teleporting around.

the players from the state of qin at the scene immediately thought of a countermeasure.

and that was to use meteor arrow to cover the spot where subjugator had fallen.

they were thinking, zhang shan, can't you fly?

I'll use my meteor arrow to cover this entire area. Try flying one back.

As long as Zhang Shan dared to teleport back, he would definitely hit the meteor arrow and be stunned.

If Zhang Shan did not dare to teleport back, that would be good too.

they took the opportunity to revive the fallen subjugator.

As long as they could resurrect the tyrant king, their goal would be achieved.

As for his previous thoughts of using the scroll to keep Zhang Shan, it was a wild wish.

The chances of success were extremely slim.

Resurrecting the tyrant king was their number one priority.

when another wave of meteor arrows was shot over.

Zhang Shan used teleportation to leave again.

however, just as zhang shan was about to teleport back and continue to guard the corpse.

Zhang Shan realized that he could not go back.

this was because the archers from the state of qin were still casting meteor arrow continuously.

A distributary star arrow continued to fly in the air, completely covering the area where the tyrant king had fallen.

If he were to teleport over now, he would definitely collide with the meteor arrow and be stunned.

However, if he didn't teleport back, the Qin players would definitely revive him.

While Zhang Shan was still in a daze.

There were already support players from the state of Qin who were charging forward.

If they had been delayed for another one or two seconds, these Qin support players would have been able to charge forward and revive the tyrant king.

Seeing such a situation.

Zhang Shan could not help but be angry.

Damn it, you guys actually dared to resurrect the corpse that I wanted to guard.

Don't I care about my face?

Even if the gods were here today, they could forget about resurrecting the domineering King.

Zhang Shan immediately activated his berserk skill and teleported to the place where Subjugator had fallen.

The hand cannon shot out bullets that swept across the surrounding Qin players.

in an instant, a large number of them were swept down.

A distributary star arrow continuously hit Zhang Shan. One after another, the 'MISS' emerged from his body.

In the distance, the archers from the state of Qin were still casting meteor arrows.

However, Zhang Shan did not take it to heart.

he had activated his berserk skill.

Berserk skill grants immunity to crowd control spells for 10 seconds.

In these 10 seconds, no matter how many stunning skills you cast, you can forget about stunning him.

Zhang Shan had made up his mind.

If the players from the state of Qin continued to use the same method after the berserk skill's duration ended ...

At most, he would just activate God's descent.

Zhang Shan did not believe it.

The archers of the state of Qin could continuously shoot meteor arrows.

although there were many archers from the state of qin at the scene, there were still a lot of them.

there might be close to 10000 people.

However, not all archers had learned meteor arrow.

even if all the archers had learned the meteor arrow skill.

That didn't matter. How long would they be able to use meteor arrows like this?

Perhaps in less than two minutes, these archers from the state of Qin would not have any meteor arrows to shoot.

Skills had to have a cooldown time, right?

Meteor Arrow's cooldown time was not short.

meteor arrow has a cooldown of five minutes.

It was difficult to use it a second time in a battle.

Zhang Shan thought about dragging it out until these Qin Archer players had no more meteor arrow skills to use. Let's see what other tricks they can play.

zhang shan activated his berserk skill and teleported back.

The archers of the state of Qin on the scene quickly stopped shooting meteor arrows.

Now, Zhang Shan had magic immunity. When the meteor arrows hit him, they could only miss.

It was completely meaningless.

it would be a waste if they were to shoot meteor arrows at this moment.

Clearly, these Qin players were not fools.

they would not be so wasteful.

Zhang Shan stood on top of the corpse of the Subjugator. After the surrounding Qin players had been forced to retreat, he stood up.

He quickly teleported in front of the Qin players nearby.

Zhang Shan had also changed his strategy.

Whoever said to guard the corpse must stand on the corpse.

He could take the initiative to attack, as long as he killed all the Qin players around him.

naturally, no one was able to revive him.

After he teleported away, would there be players from the state of Qin who would take the opportunity to rush up and revive him?

zhang shan was not worried about this problem.

He would not teleport too far away.

As long as he could keep Subjugator's body under control, he would be fine.

Let's see who can break through his fire blockade and revive Subjugator.

Zhang Shan took the initiative.

He teleported in front of the Qin players.

After defeating a group, he used teleportation to change his position.

He didn't want the Qin players to have the chance to lock onto him.

He saw Zhang Shan flying around.

The Qin players were completely dumbfounded.

What was he going to do?

Initially, when Zhang Shan was guarding the corpse of the tyrant king, they still had some ideas.

now that zhang shan was flying around, they could not lock onto him at all.

Even the damage of long-ranged jobs would have a hard time hitting Zhang Shan.

Needless to say, Zhang Shan was stunned.

while zhang shan was teleporting.

It was not that the players from the state of Qin had not thought of using this opportunity to resurrect the overbearing King.

however, as long as the support got close to the corpse of the tyrant king ...

Zhang Shan's bullets would fly over like raindrops, knocking down all the support.

The players from the state of Qin were being beaten up.

if it could be said that when zhang shan was guarding the corpse of the tyrant king.

If they were still considered the attacking side.

Now, they were on the defensive.

Moreover, it could not be prevented.

Wherever Zhang Shan teleported to, a large number of people would fall.

It was as if Zhang Shan was attacking hundreds of thousands of Qin players alone.

It sounded unbelievable, but it was the truth.

After Zhang Shan had changed his strategy, the situation had changed.

The Qin players could only passively take the beating. They could no longer pose any threat to Zhang Shan.

The players from the state of Qin were helpless.

at this time, one of the qin players said angrily.

"use the scroll directly and cover the place where boss fell. support, get ready to charge forward and revive the boss."

"This is a good idea. Under the cover of the scroll's damage, it's impossible for six-barreled Bodhisattva to charge in and kill people."

"But the problem is, what happens after boss is resurrected? After boss was resurrected, didn't six-barreled Bodhisattva still teleport over and defeat boss?"

A player from the state of Qin reminded him in a low voice.

"That's right. Boss can't teleport in the West capital. Even if he's resurrected, he'll still be defeated by six-barreled Bodhisattva."

"F * ck, is there no solution?"

"Don't panic. After the boss resurrected, let him immediately cast a teleport spell. The scroll's duration shouldn't have ended by then, and six-barreled Bodhisattva can't possibly rush into the scroll's damage range and interrupt boss 'casting.'"

"Alright, let's do it this way."

The Conqueror King replied with a sigh.

Tyrant king was also quite depressed.

Initially, he had thought that even if he could not kill Zhang Shan, he could at least snatch the godly beast King.

But now, what was this?

A perfectly fine operation to steal the mythological beast King had turned into an operation to save the domineering King?

Thinking of this, the domineering King was so angry that he wanted to vomit blood.

However, this was something that could not be helped.

Zhang Shan's strength was simply too strong.

He was so strong that it was beyond everyone's imagination.

Even though the domineering King was already mentally prepared for Zhang Shan's strength, he was not afraid of Zhang Shan's strength.

but he had never thought that zhang shan could be this strong.

Not only was Zhang Shan powerful, but he could also teleport continuously in the West capital.

Teleportation coupled with Zhang Shan's powerful strength, he was completely invincible.

here, not to mention the qin players, even the demon god might not be able to kill zhang shan.

Tyrant king finally understood.

After he was resurrected, he would cast a teleport back to the city. He would no longer be with Zhang Shan and would do it in the West capital.

To fight with Zhang Shan here was simply asking for a beating.

They were in the West capital, fighting with Zhang Shan.

Other than sending himself to his death, he had no other chance of defeating Zhang Shan.

if he wanted to take down zhang shan, he would have to wait for an opportunity in the wild.

As for now, it was better for him to continue farming activities.

Even if they wanted to fight for the godly beast King, they would fight for someone else's and not Zhang Shan's.

Now that he had figured everything out, all he had to do was wait for the Qin players to activate the scroll and revive him.

Of course, Zhang Shan did not know what the domineering King was thinking.

He was still teleporting around, knocking down the Qin players one by one.

At the same time, he kept an eye on where Subjugator had fallen to prevent anyone from going over and resurrecting him.

When Zhang Shan changed his position again and was ready to harvest another wave of crops ...

He suddenly saw the sky full of lightning bolts falling toward where the overbearing King had fallen.

At the same time, a group of support players from the state of Qin quickly rushed forward and revived the domineering King.

After that, he stood in the middle of the Thunder and started channeling his Return Channel.

This was because the player from the state of Qin who had cast the scroll was using the National mode.

Therefore, even if the domineering King were to stand in the middle of the lightning, he would not be hurt at all.

Zhang Shan could not help but be stunned by the Qin players' actions.

He even forgot to shoot.

Was the domineering King running away?

How could this be?

He had said that he would guard him until his level dropped, so he had to guard him until his level dropped.

Zhang Shan couldn't let the domineering king cast a recall.

He had to defeat the domineering king again.

But the problem was that the lightning that filled the sky looked very powerful.

If he were to rush in and interrupt Subjugator's channeling, he might not be able to withstand the damage from the Thunder.

Zhang Shan looked at the sky full of Thunder and looked at the domineering king who was channeling. He was a little at a loss as to what to do.

However, this was not the time to hesitate. If he hesitated any longer, the domineering King might really run away.

It only took five seconds for players to return to the city.

The scroll's damage should also last for five seconds.

The Qin Dynasty's support who had resurrected Subjugator didn't waste any time at all.

the moment thunder appeared, they rushed forward and revived subjugator.

In other words, if Zhang Shan wanted to interrupt Subjugator's channeling, he would have to withstand the damage from the scroll.

By the time the scroll's damage dissipated, Subjugator would have finished his channeling and returned to LAN Tian city.

thinking of this, zhang shan no longer hesitated.

He quickly activated his God's descent skill and teleported to the side of the tyrant king. With two shots, he knocked the tyrant king to the ground again.

after defeating the tyrant king, zhang shan quickly used teleportation to leave the scroll's damage range.

Five seconds later.

The lightning dissipated, and the scroll's duration ended.

However, the players from the state of Qin were completely dumbfounded.

Just now, Zhang Shan's actions had truly shocked them.

Zhang Shan had actually used a big move, taking the damage from the Thunder and knocking down the tyrant king.

He was really ruthless.

After teleporting away, Zhang Shan could not help but feel a little scared.

he looked at his health bar and saw that he had less than one-third of his health left.

After activating the skill {God's descent}, his current HP had exceeded 1600000.

The scroll's lightning damage had only hit him once.

with just one hit, zhang shan's hp had been reduced to over a million.

What an awesome scroll, it dealt a lot of damage.

fortunately, he had not rashly charged over. instead, he had activated the skill, god's descent.

If he hadn't used his ultimate move just now ...

He would probably fall to the ground the moment he charged into the lightning.

The Qin player's scroll should be able to deal a million DPS.

Without using his ultimate skill, Zhang Shan only had 800000 HP. He could not even withstand a single hit.

After teleporting out, Zhang Shan quickly fired at the surrounding Qin players.

He had to quickly recover his HP.

Looking at the one-third health bar, Zhang Shan felt a little uncomfortable. It looked like his health was not full, and he felt very unsafe.

The current Zhang Shan was like a god that had descended to the mortal world.

Not only did his attack power and attack speed double, but more importantly, the God's descent skill made him immune to all control skills.

Zhang Shan charged towards the Qin players.

The Qin players didn't have any thoughts at all.

When Zhang Shan had not used his big move, they could not do anything to him.

Now that Zhang Shan had activated his ultimate, they had no way of dealing with him.

At this moment, the players from the state of Qin could no longer care about anything else as they lay on the ground, overbearing King.

Hundreds of thousands of Qin players were scattered by Zhang Shan.

It wasn't that they didn't want to revive the tyrant king, but Zhang Shan was too strong.

They had already tried their best.

Now, Zhang Shan was using his big move.

If they had stayed where they were, it would not have been long before they were all killed by Zhang Shan.

Even though they had more than 100000 people, Zhang Shan had killed them so quickly.

Their hundreds of thousands of people were not even enough for Zhang Shan to kill for a few minutes.

.....

while zhang shan was running amuck among the qin players, boss wu and the little fairy would teleport around from time to time to harvest some heads.

Even though their damage was not as severe as Zhang Shan's.

However, against the normal players from the state of Qin, he could kill them in two or three hits.

Under the swift and violent attacks of the three of them.

in a short while, the qin players around them were all killed and scattered, never to gather again.

There were even some Qin players who hid in remote places and directly returned to the city.

They no longer wanted to stay in such a dangerous place like the West capital.

To them, wherever Zhang Shan was, it would be extremely dangerous.

It was better to change places.

The West capital is too dangerous, I want to return to LAN Tian.

Chapter 525 The red sandalwood divine bow

The Qin players dispersed.

they came in high spirits.

He had once thought of defeating Zhang Shan and snatching the godly beast King away.

After the tyrant king fell to the ground ...

At the same time, they were also thinking that no matter what, they had to revive Subjugator.

Even their boss had been beaten down and stepped on. This was too ugly.

The Qin players felt that this was completely unacceptable.

However, no matter how hard they tried ...

Even though their expectations had been lowered time and time again, none of their goals had been achieved.

They could not even pose a threat to Zhang Shan, let alone defeat him.

Zhang Shan's strength was really too strong.

It was so strong that it made them feel despair.

Zhang Shan could even withstand the powerful damage from the scroll and rush in, knocking down the tyrant king.

When the Subjugator fell to the ground again, all the players from the kingdom of Qin broke down.

It wasn't that they didn't want to work hard, but all their efforts were in vain.

If this continued, there wouldn't be a second outcome, except for everyone dying.

Since that was the case, what was the point of staying there?

Could it be that he wanted to live and die together with the tyrant king?

this was completely meaningless.

When all their efforts were in vain, the players of the Qin country collapsed.

They had no choice but to scatter and flee, no longer caring about the tyrannical King.

After the Qin players left, the domineering King also left.

He left unwillingly.

It wasn't just because they would lose a level when they resurrected in the city.

Losing a level was a huge loss for Subjugator.

but it was not unacceptable.

As long as he achieved his goal, losing a level was nothing.

Even if their levels dropped, they could always get them back.

In the past, Subjugator had also died a few times and lost a few levels.

However, under his continuous efforts, he was able to escape.

His level was not lower than the mainstream players.

The problem now was that so many of their Qin players had died, and even their Subjugator had died.

However, none of their goals were achieved.

He had not defeated Zhang Shan, nor had he snatched the king of divine weapons. He might not even be able to continue staying in the West capital.

As long as Zhang Shan was still in the West capital, he would be a huge threat to them.

if they wanted to continue farming divine beast kings in the west capital, it would be extremely dangerous.

The tyrant king was unwilling to accept this, but he felt even more helpless.

Back in the days, he had dominated all kinds of games, but he had never been as powerless as he was now.

just zhang shan alone had beaten him to a pulp.

Even though they had more than 100000 people, they could even call more people if needed.

However, no matter how many people he called over, the domineering King could not see any hope of defeating Zhang Shan.

Zhang Shan's strength had already exceeded the level that could be crushed by numbers.

Perhaps in this game, Zhang Shan was really his nemesis.

The tyrant king thought.

Should he avoid Zhang Shan in the future?

If I can't beat you, I'll just avoid you.

.....

The players from the state of Qin dispersed, and so did the domineering King.

the scene quickly quieted down.

zhang shan brought boss wu and the little fairy and continued to find the previous godly beast king to fight.

For Zhang Shan and the other two, fighting was just an interlude in the game.

Their main goal was to kill the godly beast King.

...

It would be best if he could kill nine divine beast Kings before the event ended. He wanted to see if he could get little fairy to complete her divine weapon quest and get her divine weapon Bow.

Zhang Shan's battle with the Qin players did not cause much of a stir in the game.

This was because there were constant battles everywhere during the spring Festival.

although zhang shan's side had a more intense battle earlier.

However, other than the people involved, no one else paid attention to it. Not many people even knew about it.

After all, everyone was either busy killing the little divine beasts or snatching the divine beast King.

who had the time to care about what others were doing?

After being resurrected in the city, Subjugator did not teleport back to the West capital.

Instead, he brought the Qin players to the East Capital to fight for the mythological beast King.

with zhang shan around in the west capital, the overbearing king felt that he could not afford to offend zhang shan.

As for the players from the state of Qin who were still in the West capital, Subjugator had also asked them to head to the East Capital to develop themselves after killing the mythological beast King.

...

The domineering King felt that the Qin players should try their best to avoid Zhang Shan.

They couldn't win, and the hatred between the two sides was so great.

If the Qin players continued to stay in the West capital to fight the mythological beast King, Zhang Shan would probably snatch it.

It would be very bad if they did not manage to kill the divine beast King and a bunch of people died.

As for not fighting the godly beast King and going to the West capital to take revenge on Zhang Shan?

Tyrant king didn't have such thoughts at all.

Because in the West capital, it was impossible for them to beat Zhang Shan to death.

zhang shan was so powerful, and he could even teleport continuously within the city.

How could such a person be killed?

If he wanted revenge, he would have to find an opportunity in the wild in the future.

Tyrant king thought to himself.

It was never too late for a gentleman to take revenge.

Sooner or later, he would get his face back.

Whether or not it could be realized, that was what domineering King thought.

The spirit of Ah Q was nothing more than that.

The players from the state of Qin left the West Capital one after another, even the players from the state of Qin who were still fighting the mythical beast King.

After they had killed the godly beast King in their hands, they did not continue to search for the next godly beast King in the West capital.

Instead, he left the West capital and headed to the East Capital to meet up with Subjugator.

of course, although there were fewer qin players in the west capital, the number of players in the city didn't decrease. instead, it increased.

There were no Qin players blocking the teleportation formation.

Hence, there were players who would teleport to the West capital to try their luck.

However, Zhang Shan did not care about these. He only had eyes for the godly beast King.

As long as he didn't cause trouble for others, he would not kill the godly beast King.

Zhang Shan would not take the initiative to pick a fight with others.

There was no point in fighting, it was better to fight the divine beast King.

He wanted to take advantage of this Spring Festival event to farm more divine weapon molds so that he could make a full set of divine weapon equipment as soon as possible.

Of course, if this godly beast King was destroyed, they would naturally go and snatch another godly beast King.

By then, even if Zhang Shan did not want to fight, it would be inevitable.

because the number of godly beast kings was fixed, if they wanted to fight the godly beast kings, they had to snatch them from others.

To snatch someone else's godly beast King, they naturally had to fight.

if he didn't force them to retreat, how could they give up the godly beast king?

However, that was a matter for the future. For now, Zhang Shan and the other two had to first destroy the divine beast King in their hands.

However, just because Zhang Shan did not want to find trouble with others, it did not mean that others would not find trouble with him.

even though zhang shan was very famous.

Everyone knew that Zhang Shan's strength was terrifying.

However, there were always people who were not afraid of death. They saw that there were only three of them and they were fighting the godly beast King.

They couldn't help but come over to snatch it.

Of course, these people's actions were just courting death.

Towards the harassment of other players, Zhang Shan had never been polite. He would kill them if he saw one, and kill a pair if they came.

these people would not turn back until they hit the south wall.

If he did not show them some strength, Zhang Shan and the other two could forget about fighting the divine beast King in the West capital.

Gradually, many players came to know that the West capital's Zhang Shan was an existence that could not be provoked.

When they saw Zhang Shan, they quickly took a detour and ran further away.

As for snatching Zhang Shan's godly beast King, no one had such thoughts.

Even though Zhang Shan and the rest only had three people.

However, if they wanted to snatch Zhang Shan's godly beast King, they would be courting death.

He simply couldn't snatch it.

If Zhang Shan did not go and snatch their godly beast King, then they would have to thank the heavens.

If they wanted to snatch the godly beast King, they should go to others and not Zhang Shan.

Time passed by slowly.

Zhang Shan, boss Wu, and the little fairy played on and off for nearly five hours.

the divine beast king's hp was finally emptied by them.

They had fought all the way from the beginning to the end to get this godly beast King. They had not snatched it from anyone else.

after nearly five hours of fighting, they were finally about to be blown up. this speed could be said to be very fast.

boss wu said happily to zhang shan.

finally, we're almost done. This year's spring Festival event is really a bit of a joke. All the little divine beasts in the event have ridiculously high HP. It's only because you're strong enough that the others want to defeat the divine beast King alone. I'm afraid it'll take a month.

yeah, the divine beast King has trillions of HP. It's unbelievable.

Zhang Shan was also a little speechless about the amount of health of the divine beast King.

Fortunately, he had the ejection passive. One shot on the mythological beast King could cause six damage.

Otherwise, even if his attack power was high enough, it would take him one or two days to kill a godly beast King.

Just thinking about it was nonsense.

By relying on the ejection passive, Zhang Shan's output efficiency had increased by almost six times.

Of course, in order for the ejection passive to work, there had to be another monster at the side to act as a bridge for the ejection.

When Zhang Shan was fighting the spiritual beast King, he had always relied on the little red spiritual beast to act as a passive bridge for catapulting.

However, the little red divine beast only had 100 billion blood of a divine beast King, which was one-tenth of a divine beast King.

As Zhang Shan fought, the little red Spirit beast was gone.

From the beginning until now, Zhang Shan's ejection damage had already blown up nine red little divine beasts.

every time the little red godly beast was about to be blown up, boss wu would go and pull another one over.

This caused Zhang Shan's ejection to be passive, and it had never stopped.

That was how they managed to reduce the godly beast King's HP to zero in five hours.

now, the godly beast king was finally about to be blown up by them.

Zhang Shan could not help but look forward to it.

He wondered what the purple-gold treasure chest would give him this time.

He didn't know if he could still get a God artifact mission item.

Of course, Zhang Shan was just thinking about it.

In reality, the chances of obtaining a divine weapon from a purple-gold treasure chest were extremely low.

From the start of the event until now, Zhang Shan had not heard of any other players opening it.

Although it was possible for the purple-gold treasure chest to give other items, it was also possible for it to give other items.

However, everyone's purple-gold treasure chests only gave God-tier weapon molds.

Perhaps the number of purple-gold treasure chests was too few.

After all, the purple-gold treasure chest would only drop when the divine beast King was killed.

However, from the start of the event until now, not many godly beast Kings had been killed in the game.

It was already difficult to fight the divine beast King, and everyone had to fight for it.

They spent more time fighting than the divine beast King.

From the start of the event until now, it was unknown if the total number of mythical beast Kings killed by all the players was more than a hundred.

The purple-gold treasure chests did not drop many items, so the possibility of other items being dropped was not very high.

It was already unbelievable for Zhang Shan to be able to get a divine weapon mission item.

It was almost impossible to get a second one.

This time, he would probably only get one divine weapon mold.

However, a divine weapon mold would work too.

It would be best if he could get one that the three of them could use, so that they wouldn't have to find someone else to exchange for it.

In contrast to Zhang Shan and boss Wu's anticipation, the little fairy was a little worried.

The mythological beast King was about to be blown up. She wondered if it would calculate her mission progress.

If the divine beast King was not a real-name boss, then her divine weapon quest would be worth it.

They had to defeat nine real-name bosses to complete the mission.

Where was she supposed to go to find nine real-name bosses to fight?

Without the event, she would probably need more than half a year to complete the mission.

Thinking of this, the little demon felt a little desperate.

He hoped that the divine beast King in this event would be considered a real name BOSS.

She said, a little worried.

I'm so afraid that the divine beast King won't calculate my mission progress after it drops.

why are you worried about this? we'll know after we defeat the godly beast King.

" that's right. don't worry too much. just wait for fate's judgment, hehe. "

"Hmph, brother Guan Zi is a bad person."

After the divine beast King's health was empty, the three of them and the Panda ball fought for another two to three minutes.

Zhang Shan saw the opportunity and controlled the Panda ball. He used the combo skill and slapped it down a few times.

However, the godly beast King did not fall to the ground.

After emptying its HP, the godly beast King also had 10 billion HP. It was impossible to calculate its remaining HP.

The Panda bear's combo skill did not kill the divine beast King.

however, zhang shan was just trying. it was fine if he didn't blow it up.

After all, the items dropped by a divine beast King were fixed.

Every divine beast King would drop a purple-gold treasure chest, and no other items.

If one had to point out a difference, it would only be the items from the treasure chest.

However, opening the treasure chest had nothing to do with the drop rate. It depended on the luck of opening the treasure chest, and had nothing to do with the drop rate.

They continued to fight for a while, and as Zhang Shan's spear struck, the divine beast King fell to the ground and left.

Just as Zhang Shan was about to open his backpack and open the treasure chest, he heard the little goblin's happy shout.

Wahaha, the divine beast King is really a real name BOSS. I've completed my divine weapon quest.

that's normal. Even a small red mythical beast can be considered a red BOSS. Why can't a mythical beast King be considered a real name BOSS? "

"That's true, but I'm still a little worried before I see the results."

Zhang Shan said to the little fairy.

"It's easy now. As long as you continue to fight with the divine beast King, your divine weapon mission will be completed."

yes, yes. Let's hurry up and kill them for the king of the divine beasts.

The little fairy shouted with a murderous look.

.....

for the rest of the time, the three of them stayed in the west capital. after killing one divine beast king, they would go to the next one.

However, before every battle, it would not be too smooth.

Each godly beast King had to go through an intense fight before they could get it.

After all, it was impossible for them to find the newly spawned godly beast King.

In fact, other than the second godly beast King, Zhang Shan and the rest had defeated the godly beast King later on.

They were all snatched from others.

If they wanted to snatch someone else's godly beast King, the other party would not let them go so easily.

He had no choice but to kill first and then snatch the godly beast King.

This was good as well. It would be faster to fight over other people's divine beast Kings.

Because they had snatched the godly beast King, the others had already lost some HP.

When he was lucky, the others had already killed it, and the divine beast King had more than half of its HP.

This would save them a lot of time and allow them to fight more godly beast Kings.

On the third night of the event, they had already killed nine godly beast Kings.

When the ninth divine beast King fell to the ground, little fairy said happily.

haha, my mission is complete. I'll go hand in my mission now.

After little fairy finished speaking, she teleported away.

Seeing the little fairy's anxious look, Zhang Shan could not help but shake his head.

This little girl didn't seem to grow up. She wasn't calm at all.

After the little fairy left, Zhang Shan and boss Wu did not go to find the godly beast King.

It was already 10 p.m., Less than two hours before the event ended.

Even if they could find another godly beast King, they would not have enough time to destroy it.

It would be better to farm some gold coin mythical beasts nearby.

If he wanted to snatch the godly beast King, he would have to fight with others first. There was not enough time.

Unless he encountered a godly beast King that was about to be killed.

Zhang Shan did not expect that they would always have such good luck.

And in this Spring Festival, Zhang Shan had already killed enough people.

It was time for him to stop and return to his brush.

Zhang Shan thought to himself.

I'm a good person, and I never kill people unless I have no choice.

Anyway, they had already earned a lot from this Spring Festival.

He had obtained a total of one divine weapon quest item and nine divine weapon molds.

&Nbsp; the divine weapon quest item, little fairy, had been activated and the quest had been completed.

If everything went well, she would probably be able to create the first godly longbow in the game.

As for the nine god weapon molds, six of them could be used by them.

there were three agility-type molds and three intelligence-type molds.

For the agility-type God equipment mold, Zhang Shan split two for himself, and gave the other one to the little fairy.

As for the three intelligence-type divine weapon molds, they all belonged to boss Wu.

apart from that, there were also three strength-type divine weapon molds.

The three of them had no use for it.

Zhang Shan was considering waiting for the event to end before asking around to see if he could exchange for something that the three of them could use.

if he couldn't get it, he would just sell it.

Zhang Shan and boss Wu stood quietly in their original spots, farming gold coin mythical beasts.

After a while, the little fairy ran back excitedly.

She displayed a divine longbow on the party channel and said, "

"Haha, I'll show you my big treasure."

zhang shan took a look at the divine longbow that the little fairy had displayed.

[red sandalwood divine bow (divine weapon): physical attack 8000-8000, agility +800]

Equipment level (sealed): currently level 50. Godly equipment will gradually be unsealed as the player's level increases. It will be unsealed once every 10 levels.

[class requirement: Archer] It would never wear out. Bound to player's little fairy, can not be dropped.

[special effect 1: power attack. Increases physical attack power by 10%.]

[special effect 2: health conversion. when attacking, the damage is converted into health for the user. the conversion ratio is 10%.]

[special effect 3: Swift hand. Attack speed increased by 10%.]

[special effect 4: Holy Strike. When attacking, there is a chance to trigger the Holy Strike effect. It ignores the target's defense and deals 10x the damage. The chance of triggering it is 1%.]

Zhang Shan took a look at the attributes and special effects of the little fairy's longbow.

Not bad. This red sandalwood divine weapon could be said to be average.

It wasn't particularly outstanding, but it definitely wasn't bad either.

There was no need to talk about the attributes of divine weapons. Divine weapons of the same level and type had basically the same attributes.

The difference between artifacts was mainly in their special effects.

Only those divine artifacts with special effects that were very compatible with one's own body could be considered a true Supreme-grade divine artifact.

Little fairy's godly longbow didn't have any special effects.

However, it wasn't bad, at least it was very comprehensive.

One increased attack power, one increased attack speed, one lifesteal effect, and one Holy attack.

although the special effect of this divine weapon wasn't very outstanding, it wasn't bad.

It could be considered a smooth divine artifact.

Moreover, as long as it was a divine weapon, it would not be bad.

compared to red equipment, a divine weapon was several times more powerful.

Whether it was the attributes or the special effects of a divine weapon, red equipment could not compare to them.

After the little fairy equipped the red sandalwood bow, her damage output would be greatly improved.

even if the attack power didn't double, it would at least increase by a third.

Seeing the little fairy's happy face, Zhang Shan could not help but sigh in relief.

in the past, every time they obtained a divine artifact, the little fairy would talk about it.

Now that she had a divine longbow, she probably wouldn't keep harping on it.

Moreover, they each had a few divine weapon molds.

It would take a lot of time to forge these divine weapon molds into divine weapons.

especially boss wu, who was a support class and had a slower farming speed.

There was a natural disadvantage when grinding for materials for divine artifacts. He estimated that it would take a long time to forge the three divine artifact molds into divine artifacts.

Zhang Shan thought to himself.

It would probably take two to three months for them to complete all the divine weapon molds.

Chapter 526 There should be a World War at the end of the event

The little fairy had been very excited after she had obtained the divine longbow. She said to Zhang Shan.

"Brother Guan, are we still going to steal the godly beast King? It's a fresh divine artifact, just in time to find someone to test it out."

let's forget about it. The Spring Festival is ending soon. Even if we manage to snatch the godly beast King, we might not be able to do so. If we have the time, we should kill it. It's better not to do something that will harm others and not benefit ourselves.

“Oh, then what are we going to do now? are we going to farm gold coin mythical beasts here? This is quite boring.”

“I’m not farming anymore. Let’s go and do our own missions.”

Although the event wasn’t over yet, they didn’t need to continue farming gold coin mythical beasts.

The three of them didn’t care about the gold coins that dropped from the gold coin divine beast.

Even boss Wu didn’t lack this little bit of money.

Ever since boss Wu had followed Zhang Shan and entered the New World, he had earned quite a bit of money.

following zhang shan every day and dealing with all sorts of bosses everywhere, just selling trash equipment could earn him quite a bit of money.

The money that boss Wu earned in the game was far more than what he earned at work.

There wasn’t much time left before the event ended. The three of them didn’t want to continue farming the little divine beasts.

it just so happened that they all had divine weapon molds, so they might as well go and complete divine weapon missions.

Zhang Shan had two molds for divine weapons. If he wanted to forge these two molds into divine weapons, even if his speed of collecting materials was very fast ...

it would probably take many days.

Boss Wu was even more so. He had three molds for divine artifacts.

boss wu’s farming speed was much slower.

It would probably take him three months to forge all three divine weapon molds into divine weapons.

As for the little fairy, although she had only received one divine weapon mold, she still had one more in her hands and was currently doing a mission.

he should be done soon.

By the time she finished her previous quest and settled the next one, she would have three divine artifacts.

Thinking of this, everyone was very happy.

Before this, godly items were out of reach for boss Wu and the little fairy.

Now, they actually had to worry about completing a divine weapon mission.

He had to admit that the world had changed too quickly.

the main reason was that many godly beast kings were released during the spring festival.

Under normal circumstances, there would only be two or three godly beast Kings in each city. The next one would only appear after one was killed.

However, the number of cities in the game was not small.

Sub-cities, capital cities, and two player cities.

There were as many as 32 human cities in the game.

Moreover, after the divine beast King was killed, it would respawn again. It could be said that there was no end to it.

In the three days of the event, there were about 300 godly beast Kings that had been killed.

In other words, it wouldn't be long before close to three hundred divine weapons would appear.

From then on, God equipment was no longer exclusive to the wind and cloud Guild.

The other players would also be able to make godly items soon.

Some powerful big shots might even be able to create a full set of defensive divine artifacts.

However, Zhang Shan was not worried that others would pose a threat to him after obtaining the divine weapon.

Zhang Shan's power was all-round, and not just because of the divine weapon.

even if someone else had a full set of divine weapons, no one would be able to beat him.

Zhang Shan had a King's Cape and a killer book.

with one for attack and one for defense, the buffs from these two items would allow him to leave other players far behind.

Not to mention, he still had a large number of passive skills.

Those passive skills made him even stronger.

for now, as long as zhang shan went online every day, no one would be able to threaten him.

unless he was not online for a long time, it would be impossible for others to surpass him.

After all, time was invincible.

no matter how strong he was, if he didn't come online for a long time, no matter how strong he was, it would just be a fleeting cloud.

.....

there was still more than an hour left before the event ended.

Zhang Shan and the rest did not plan to continue farming monsters.

There wasn't enough time anyway. It was meaningless to kill the divine beast King and the other small divine beasts.

Whether it was the gold coins dropped by the gold coin divine beast, or the orange and red divine beasts, they all dropped equipment.

...

Zhang Shan did not mind.

Why would he want such a small amount of melon and two jujubes?

The gold coins that a random divine weapon mold could be sold for could be comparable to countless orange and red equipment.

The three of them continued to chat for a while before leaving.

Zhang Shan teleported to the teleportation Hall in the West capital and teleported to the East Capital.

Of the two God equipment molds, one was an agility-type shirt, and the other was an agility-type boots.

It was a divine weapon for the Hunter profession's leather armor. He had to go to the East Capital and find the divine craftsman Ji Xiling to forge it.

When Zhang Shan was teleported to the East Capital, he did not encounter any obstacles outside the teleportation Hall.

Although the Qin players were fighting the godly beast King at the East Capital, the Qin players were still fighting the godly beast King.

However, they did not block the teleportation Hall this time.

As the Spring Festival reached its later stages, the competition for the godly beast King became more and more intense.

...

Under the lead of the domineering King, the players from the state of Qin were fighting the mythological beast King everywhere in an attempt to get a few more divine weapon molds.

They no longer had the energy to block the teleportation Hall.

Zhang Shan walked out of the teleportation Hall and found the location of the divine craftsman Ji Xiling through the map.

Then, he teleported over.

However, when Zhang Shan landed, he realized that he was in the middle of a battlefield.

A group of Wei players and the Qin players were fighting.

Zhang Shan had just landed on the ground when a few lines of damage hit him.

This made him very angry.

Damn it, I was just passing by, why did you hit me?

However, the two parties involved in the chaotic battle did not care about that.

As long as they saw a purple name above their heads, they would kill players who were not from their own country.

To both the Qin and Wei country, they saw that Zhang Shan's name was purple.

As for who came, no one paid attention to it at all. When they saw a purple name, they would just kill it.

He didn't let go of the wrong person.

Hence, even if Zhang Shan did not hit anyone, and he was not a player from the Qin country, nor was he a player from the Wei country.

however, the two sides in the chaotic battle still attacked him with all kinds of attacks.

zhang shan was really angry.

however, he had no other choice.

Because the people who beat him up were not only Qin players, but also Wei players.

Who was he supposed to kill?

Could it be that he wanted to clear out both parties who were fighting?

That was obviously impossible.

It wasn't that he couldn't beat them, but that there was no need to. Zhang Shan didn't have the energy to do so.

if he had the time, he might as well go and do missions earlier.

The battlefield of the chaotic battle between the players of Qin and Wei was outside the small courtyard of divine craftsman Ji Xiling.

As long as he entered the small courtyard, these people probably wouldn't hit him again.

Zhang Shan did not think too much about it. He quickly rushed into the small courtyard.

I'll go and accept the mission first. After I receive the mission, I'll go and collect the mission materials.

As for the players from the Qin and Wei countries who were fighting outside the courtyard, Zhang Shan did not want to bother with them.

even if these people beat people's brains into dog's heads, it would not be his business.

Even though Zhang Shan had been injured a few times, there was no need to be calculative.

After all, these people were not targeting him on purpose. It was indeed an accident.

if they had seen zhang shan's name clearly and knew that he was zhang shan ...

even if they had a few more guts, they would not dare to touch zhang shan.

especially those qin players. in order to avoid zhang shan, they had specially come to the east capital to farm the mythological beast king.

How would they dare to provoke Zhang Shan?

It was purely an accident just now, and she didn't see his name clearly.

After Zhang Shan ran into the small courtyard, there were indeed no players inside.

they could only fight outside. they were not allowed to fight in an NPC's building.

Some of the NPC's buildings could not even be entered without a mission.

.....

The divine craftsman Ji Xiling was a beautiful NPC.

At this moment, she was busy with a needle and thread in her hands. The deafening fighting outside seemed to have nothing to do with her.

In fact, it really didn't matter.

NPCs and players were two completely different worlds.

In the game, other than the Army in the city, almost all NPCs would not attack players.

Of course, players were not allowed to attack NPCs.

Players couldn't deal any damage to NPCs at all, and all they did was miss.

Zhang Shan was carrying the mold for the divine weapon. When he saw the divine craftsman Ji Xiling, he was ready to go forward and talk to her.

However, in Zhang Shan's backpack, there were a total of five god weapon molds, three of which were strength-type.

he didn't ask ji xiling to forge the strength-type divine weapon mold, so that wasn't a problem.

However, Zhang Shan still had two more agility-type God equipment molds in his backpack.

one of them was the purple star godly armor (agility), and the other was the purple star boots (agility).

He had brought two divine weapon molds with him to trigger a quest with Ji Xiling. He wondered if there would be any chaos.

Zhang Shan felt a little dizzy.

However, he didn't think too much about it. Instead, he took out his zwei boots (agility) and went up to talk to them.

"Hello, I want to forge a divine weapon."

The divine craftsman Ji Xiling glanced at him and handed him a piece of paper.

forging a divine weapon requires a large amount of materials. After you've gathered all the materials, come and find me.

zhang shan took the note and quickly checked the mission panel.

on the mission panel, there was indeed a mission to collect materials.

The mission description was very long, with a total of more than 200 lines.

In other words, Zhang Shan had to collect more than 200 kinds of materials before he could make the boots into a divine weapon.

However, even though there were many requirements for the materials to forge a divine weapon, it was not difficult to obtain.

the mission description also gave hints on where these materials came from.

Most of the materials could be found in The Map of Heaven's Gate, while a few could be found in Dangyang city.

Other than wasting time, there wasn't much trouble.

Zhang Shan looked at the mission description and could not help but sigh.

It was no wonder that little fairy had been grinding for so long after getting the mold for the divine weapon, but she still hadn't forged it.

It was the same for the other players in the game.

In the previous monster siege at heaven's gate, several divine weapon molds had dropped.

However, up until now, no player had successfully used a divine weapon mold to forge a divine weapon.

There were simply too many materials that could be used to forge a divine weapon through a divine weapon mold.

Moreover, these materials could not be purchased from NPCs. Players had to farm for them themselves.

Although Zhang Shan's farming speed was very fast, he still had to collect all these 200 materials.

It should be about the same, probably ten days.

The main thing was that the monsters that dropped these quest materials were not in the same location.

He had to go from one place to the other. Just running the map would take a few days.

The actual time it took to farm monsters might be slightly less.

He would take it slow. Others had been grinding for more than 20 days, and he had been grinding faster than others. What was there to worry about?

Zhang Shan closed the mission panel and was about to leave.

He suddenly remembered.

In his backpack, wasn't there still an agility-type divine artifact mold? he wanted to see if he could accept the quest for both divine artifact molds at the same time.

If he could accept missions at the same time, it would probably be much more convenient.

Perhaps the materials needed for the two missions would overlap.

If that was the case, he would be able to go to fewer places and collect the materials for both missions at the same spot.

At this thought, Zhang Shan took out the Ziwei godly armor (agility) and asked Ji Xiling.

“Hello, I want to forge a divine weapon.”

Divine craftsman Ji Xiling rolled his eyes at him and said.

young man, you have to eat one bite at a time and do things one step at a time. You should collect all the materials from before.

Hearing Ji Xiling’s reply, Zhang Shan could not help but feel a little sad.

Damn it, I can’t take advantage of a loophole.

He had originally thought that he would complete both material collection missions at the same time.

However, it didn’t work.

Before he completed the first mission, Ji Xiling would not give him a second one.

alright, one by one then.

zhang shan kept the divine weapon mold back into his backpack and then cast a teleport back to the city.

He planned to return to Dangyang city first and gather all the materials he needed before heading to Heaven’s Gate.

When Zhang Shan returned to Dangyang city, he saw that the city was bustling with people.

The city was filled with players.

The game had started for so long, but Zhang Shan had never seen so many players in Dangyang city.

According to the statistics on the official website, after the start of the new year, the number of players online at the same time had once again broken a new high, exceeding 400 million.

So many people were playing the same game at the same time.

he had to admit that new world was really attractive.

Over 400 million players were split into seven countries and 21 sub-cities. On average, each sub-city had about 20 million players.

Although some cities had more players, some had fewer.

However, Dangyang city, where the wind and cloud Guild was located, had always been a popular city in the game.

Many of the players who had joined later had chosen to join Dangyang city.

the reason was simple. dangyang city had the wind and cloud guild and zhang shan.

For normal players, it was nice to enjoy the shade under a big tree.

Although they might not be able to join the wind and cloud Guild, they could still get closer to the wind and cloud Guild by choosing Dangyang city.

Moreover, the reputation of the wind and cloud Guild had always been very good. They had never competed with the civilian players for resources.

Being in the same city as the wind and cloud Guild meant that they could receive protection and not have to worry about their living space being squeezed.

If he was lucky, he might even be able to join the wind and cloud Guild.

After all, as the Guild's level increased, the wind and cloud Guild would always have to recruit people.

If there was a chance to sneak into the wind and cloud Guild, wouldn't it be a great opportunity for ordinary players?

At this moment, there were at least twenty to thirty million players online in Dangyang city.

Everyone took advantage of the fact that the event had not ended yet and was doing their best to farm all kinds of small divine beasts.

Zhang Shan looked at the players who were fighting in the city and could not help but feel emotional. If he was not lucky enough.

He was probably like these normal players, trying his best to farm gold coin mythical beasts.

After all, he could get at least a few hundred gold coins by killing gold coin divine beasts for a day, which was almost enough to pay for more than ten days of food.

It was just that the encounters in life were different.

After entering the New World, he had advanced by leaps and bounds.

First, he got the passive King talent, and then he got the divine weapon first. From then on, he reached the peak, leaving the other players far behind.

He had become the number one player in the game.

Zhang Shan had even received many interview invitations, but they were all rejected.

If he was willing to cooperate, he could probably become an internet celebrity.

However, Zhang Shan did not want to be famous, nor did he like the crowd. He only wanted to play his game quietly.

Anyway, he didn't have any needs for life now.

If it was for the sake of living, then it didn't matter if she became an internet celebrity.

After all, in order to make a living and earn money, there was nothing to be greedy about.

But he didn't need it now. No matter what, he was now a rich man. There was no need for him to do things he didn't like for money.

Now, other than missing one, the other half of his life, Zhang Shan seemed to lack nothing.

However, Zhang Shan did not understand anything about relationships. He had always been single.

Although he had money now and was somewhat famous, at least in the game, he was famous.

However, Zhang Shan did not manage to get rid of his status as a Bachelor.

He felt that the little fairy was not bad.

The little demon was quite beautiful, and her personality was normal.

zhang shan really wanted to further develop his relationship with the little fairy.

But the problem was, he didn't know how to tell her.

If she was not willing, wouldn't it be awkward in the future?

As for now, Zhang Shan still went to the little demon's house every day to freeloader for food. The two of them were considered to be very familiar with each other.

However, their relationship was only limited to being friends who played games together. That was all.

Zhang Shan thought.

should he find an opportunity to test it out in the future? perhaps he would succeed?

How good would it be if he could get rid of his single status as soon as possible?

Zhang Shan shook his head.

What nonsense was he thinking? he had to hurry up and collect materials for the quest.

Zhang Shan teleported to the city gate, then rode the red Hare, and galloped quickly out of the city.

At this time, there were monsters everywhere outside the city, but there was not a single player. All the players, regardless of their level, as long as they left the novice village, were farming little divine beasts in the city.

At this moment, who would still be in the mood to go outside the city to farm monsters?

All kinds of small divine beasts would drop gold coins and equipment. Wasn't it better than killing monsters in the wild?

.....

Very quickly, Zhang Shan followed the mission tips and found the first location. The materials dropped at that location, and he officially started farming.

time passed slowly, and at 12 o'clock in the evening, the spring festival event ended.

all the small divine beasts in the city disappeared in an instant.

All of a sudden, all the chat channels were filled with wailing.

The world Channel:

f * ck, my little red mythical beast is only 5% away from being killed. It'll be gone as soon as the event ends.

I'm the same. I'm about to kill the little divine beast in my hand and the event is over. How depressing.

"what are you guys doing? We fought the divine beast King with a large group of people until it was empty of health. In the end, we got nothing and wasted more than ten hours. What a f * cking waste."

"F * ck, there's such a function? It didn't explode even when it was empty?"

"What a pitiful man."

"No, it should be a group of miserable men."

how can they all be men? they are a large group of people fighting against the godly beast King. There must be women too. Hehe.

"Alright, what a pitiful bunch of men and women."

haha, seeing someone in a worse state than me, my pained mood is instantly much better.

"Seriously, can't you guys look at the time? Calculate the time before you fight."

"That's easy to say, but how do you calculate it? To put it bluntly, he's just greedy."

what's there to calculate? we could have killed the godly beast King, but a group of idiots from the state of Zheng came along the way and started a fight. That's why we're late.

"haha, so they went to fight. that's not strange."

what the f * ck? the mythical beast King that you guys fought was snatched from the hands of the players from the state of Zheng.

"so what if i rob you? Snatching from you means I'm looking up to you. If you're not convinced, then let's fight again."

f * ck you, you didn't kill the godly beast King and stole loneliness. You deserve it.

let's do it. Since the event is over, we'll take revenge. Don't be afraid.

"Haha, it's fun."

Zhang Shan was farming for materials while looking at the chat history on the world Channel. He found it very interesting.

This Spring Festival event was probably the most chaotic event since the start of the game.

Chaotic battles broke out everywhere. You robbed me, I robbed others, and the large-scale chaotic battles never stopped.

There were even some players who had organized cross-country operations to steal the divine beast King.

Of course, the players who had crossed countries were all beaten up by others and then went back with their tails between their legs.

After all, it was still possible to harass a foreign country, but to snatch the divine beast King, even with Zhang Shan's strength, it was impossible.

How many enemies would they have to face in someone else's territory?

Moreover, other people could teleport infinitely in their own country's cities. If they couldn't defeat the enemy, they could avoid it.

When you're fighting the godly beast King, you can teleport over and harass him.

No matter how powerful one was, it was impossible to defeat a godly beast King in another country's city.

Zhang Shan thought back to the Spring Festival event this time. The players from the various countries had all fought for the mythological beast King.

Who knew if it would trigger a country war?

According to the system's settings, when the hatred between two countries reached a certain level, a country war would be triggered.

Logically speaking, in the three days of the Spring Festival, the scale of the fights between the various parties might be much more than all the chaotic battles before this combined.

No matter what, it should trigger a country war.

Who knew when the country war announcement would be made, and which country would it be?

Chapter 527 Three Kingdom Wars

As Zhang Shan was farming monsters, he was also looking at the various chat channels and the players' complaints.

He couldn't help but think of the kingdom war.

the game new world had been launched for so long, and only chu state and qin state had had a country war once.

After that, no other country had ever fought a country war.

Logically speaking, this should not have happened.

although there was constant chaos between the state of qin and the wind and cloud guild, if one were to count the hatred points, there was still a lot of trouble.

The hatred between the two countries would indeed be much higher than the hatred between other countries.

But the problem was, which year and year had this happened?

it had been at least two to three months since their country war.

The trigger mechanism of the country war was based on the accumulated hatred points.

After such a long time, even if there were not many large-scale scuffles between the other countries, there would still be a lot of chaos.

However, there were many small conflicts.

No matter what, there should be a country war.

however, after such a long time, there was still no second country war.

Other times would be fine.

If after today, there was still no country war announcement, then it would really be a little unreasonable.

In the past three days of the Spring Festival, the players from the various countries had fought countless battles.

No matter if they were active or passive, as long as they appeared in a public city, they would inevitably have to fight with others.

Even if you were just passing by, you might get beaten up.

In these three days, the hatred between the countries should be high enough.

Zhang Shan felt that there was no need to talk about triggering only one country war.

Even if it was the same country, it was possible to trigger several country Wars in a row.

for example, their chu country.

feng yun realm brought his guild members to wind cloud city to fight against the godly beast king.

After the event started, that guy didn't even raise the teleportation fee of Fengyun city.

the teleportation fee was still 200 gold coins.

as a result, many players who had not managed to get the mythical beast king wanted to go to wind cloud city to get it.

although only two divine beast kings would appear in wind cloud city at a time, the competition was much smaller compared to the east and west regions.

Even though wind Cloud City was the home ground of wind cloud Guild, no one would care about this.

So what if it's your home ground? as long as I'm stronger than you, I'll still snatch it.

If it was not for Feng Yun realm, they might have been chased out of Feng Yun city by the other players with the help of the intermediate arrow tower's powerful firepower.

In Fengyun city, Feng Yun realm had led his guild members to repel countless invasions from various countries.

Or rather, he had accumulated enough hatred points.

Besides, the wind and cloud Guild was not the only one that existed in the entire Chu country.

Traversing Four Seas, unfettered Guild, and a few other smaller guilds had also been active in the public cities.

They had also fought with many others.

Even Zhang Shan and the other two had gotten into countless fights with others in the West capital.

Other than the Qin players, they had also fought with players from other countries.

After all, no one would give the godly beast King to them obediently. They had to fight for it.

Would there be any lack of fights when snatching other people's godly beast King?

Zhang Shan was killing monsters while quietly waiting for the World War announcement.

However, even after waiting until 1 am, he still did not see the world War announcement.

F * ck, it looks like this time ...

there was really no country war to fight.

Everyone had always suspected that the trigger mechanism for the World War was the result of human intervention by the game's operators.

The game designers felt that a country war would only happen when two countries were going to fight each other.

otherwise, even if two players fought each other every day, a world war might not even happen.

Initially, Zhang Shan felt that this was just a guess without any evidence.

However, there was no Kingdom war this time around. He could not help but suspect that this could be f * cking true.

Without a specific plan, the country war would not even start.

He was really F * cked up.

Originally, Zhang Shan had been looking forward to a country war. It would be best if their Chu country could fight a country war with other countries.

...

He wasn't doing it for the exciting scenes of the country war, but for the rewards after the country war.

Because the rewards for winning the country war were simply too tempting.

The side that won the World War would receive a full team reward, not to mention double the experience for a week.

The first to kill the other party's divine beast statue would also get a complete divine artifact.

The last time they had destroyed the statue of a divine beast in the Qin country, Zhang Shan had gotten his hands on a King's Cape.

If he didn't have this cloak, how could he have done it? he could take on more than ten people without any pressure.

the divine weapons dropped by the divine beast statues were just that amazing.

Where else could one find such a good thing other than a country war?

Although, Zhang Shan did not lack ordinary divine artifacts, even if he had the entire set. To him, none of them were too difficult.

However, even if it wasn't difficult to get a divine weapon, it would take a lot of time to complete the mission.

To forge a defensive divine weapon through a divine weapon mold, it would take him about ten days just to collect the materials.

...

Zhang Shan was still lacking five pieces of divine equipment to complete a set. Thinking about the many missions he still had to complete, he could not help but feel a headache.

If there was a shortcut and he could directly obtain a complete divine weapon, that would naturally be even better.

The most important thing was that the divine beast statue might drop a rare Supreme-grade divine weapon like the king's Cape.

Such a divine weapon was an existence that could only be encountered but not sought.

Even though Zhang Shan was already very powerful.

&Nbsp; but he was still looking forward to another world war to see if another Supreme-quality divine artifact would drop.

However, he did not.

He had waited for so long, but there was still no announcement of the country war. It seemed like there really wasn't going to be a country war.

Sigh, it's fine if you don't have it. I'm going offline to sleep.

Zhang Shan went offline unhappily.

He didn't even have any anticipation, so why was he still standing there in the middle of the night?

And he had not slept for three days.

That's all for today. I'll go play chess with Duke Zhou.

The next day, Zhang Shan had a good sleep. When he woke up, the sun was already high in the sky.

He looked at the time.

F * ck, it's almost nine O 'clock. Hurry up and wash up and go online.

Zhang Shan washed up, ate something, and quickly logged into the game.

When Zhang Shan entered the game, he realized that the various channels in the game had somehow become very popular.

It was even hotter than last night, when the Spring Festival had ended.

The world Channel, the regional channel, and even the Guild channel were flooded.

seeing such a heated scene, zhang shan's head was filled with question marks.

Did I miss something big?

why did it feel like the entire world had changed after he woke up?

Zhang Shan tried to look through the chat history on the various channels. He was prepared to look for keywords to see what had happened.

However, in the various chat channels, the speed of the comments was very fast, to the extent that Zhang Shan could not find the information he needed.

What the hell happened?

Why were these people so excited as if they had been injected with hormones?

Why don't you go to the forum and take a look?

Forget it, I'll just ask someone directly.

Zhang Shan had originally planned to go to the forum to take a look at what had happened.

However, he thought about it and realized that it didn't need to be so troublesome.

wouldn't he know everything if he just asked someone?

Zhang Shan called for wind and cloud blade.

"Brother, what happened? Why is it so lively now?"

"F * ck, you're really a Big Shot. Why are you online so late? The sun's already shining on my butt."

"Cut the crap. What happened?"

it's the World War. At 8 am in the morning, there were three world War announcements.

"What the f * ck, three country war announcements? Are there any from our Chu country?"

Hearing wind and cloud blade's words, Zhang Shan could not believe his eyes.

Although he felt that after this Spring Festival event, there should be a war between countries.

But last night, he had waited until 1 am, but there was no announcement, so he went offline to sleep.

However, Zhang Shan had not expected that not only would there be a World War announcement, but three of them would appear at the same time.

Didn't this mean that at eight o'clock tomorrow night, there would be three country Wars going on at the same time?

However, these were not the main focus of Zhang Shan's attention.

What Zhang Shan was concerned about was whether there would be a country war for their Chu country.

if it was a kingdom war between other kingdoms, it would have nothing to do with their chu kingdom, and they could only watch.

That would be too hurtful.

Luckily, wind and cloud blade's following words did not disappoint Zhang Shan.

Wind and cloud blade replied.

"There is. We will fight the state of Zheng, the state of Qin will fight the state of Wei, the state of Zhao will fight the state of Yan, and those cowards of the state of Qi will be fine. There are a total of three country Wars, all of which will start at 8 pm tomorrow night."

"We're attacking the state of Zheng? Wasn't that bullying? Hehe."

When he heard that their country war opponent was the state of Zheng, Zhang Shan could not help but smile evilly.

Among the seven great nations in the New World, the state of Zheng was considered a weak nation.

Although the Xuanyuan Guild and the Kyushu Guild were both in the state of Zheng.

However, this did not mean that the state of Zheng was very strong.

On the contrary, if the two guilds were in the same country's camp, it meant that the country was weak.

There were also strong and weak guilds in the top ten guilds. Moreover, the gap between the strong and the weak was extremely large.

The Xuanyuan Guild and the nine regions Guild were two relatively weaker player guilds. They were only slightly stronger than the previous wind cloud Guild, that was all.

The fact that these two weaker guilds were gathered in the state of Zheng was a clear indication of the problem.

This was because no one wanted to be in the same country as a strong Guild. They were worried that their living space would be squeezed.

only the relatively weaker guilds would gather together.

For example, the kingdom of Qin and the Kingdom of Wei only had the domineering aura Guild and the God of War Guild in their camps.

After domineering aura and Wargod chose their national camps, the other guilds didn't want to join them anymore.

Since they couldn't afford to offend those big shots, the other guilds could only avoid them and choose to side with other countries.

In fact, it was the same for Chu State.

In the past, Chu State had the wind and cloud Guild and the unfettered Guild.

However, the wind and cloud Guild of the past was not as strong as it was now. It could only be considered an existence that hung at the tail of the top ten guilds.

That was why two of the top ten guilds were in the same country.

.....

No matter how one looked at it, the state of Zheng wasn't too strong, and was much weaker than their Chu State.

Whether it was the number of players or the number of high-end players, the state of Zheng could not compare to the state of Chu.

Zhang Shan thought to himself.

This wave of the country war was stable. He had to destroy the divine beast statue of the state of Zheng and get another Supreme-grade divine weapon.

Wind and cloud blade had similar thoughts as Zhang Shan. He continued to speak.

it's good to be weak. It's easier to win the World War by fighting against weak players and get the reward.

"Haha, you're right."

Zhang Shan was very satisfied with the arrangements for this country war.

he was worried that they would fight another country war with the qin country.

Because to him, there was no meaning in fighting the Qin country.

It was not that Zhang Shan was afraid that the Chu country would not be able to defeat the Qin country.

During the previous Kingdom war, they were able to bring down the Qin Kingdom. Now, it was naturally even less of a problem.

However, the problem was that the divine beast statue of the state of Qin had already been destroyed by them once.

The next time they fought, there would be no divine weapon reward.

Without the divine weapon as a reward, this kingdom war was just lacking something.

It was a good thing that they were fighting against the state of Zheng, which was perfect.

Since he had gotten the information he wanted to know, Zhang Shan did not continue to chat with wind and cloud blade.

He was about to hang up.

At this moment, wind and cloud blade spoke again.

“Boss, I heard that the three of you killed a lot of mythical beast Kings during the spring Festival. Do you have a strength-type divine weapon mold? Sell me one or two.”

Hearing wind and cloud blade’s words, Zhang Shan finally remembered.

He still had three strength-type divine weapon molds in his backpack.

One purple Wei boots (strength), two purple Wei godly armor (strength).

Zhang Shan, boss Wu, and the little fairy had no use for these three items.

Zhang Shan was thinking about how to handle this.

The best way was, of course, to find someone else to exchange for something that was suitable for him.

However, a divine weapon mold was different from other items.

The production of this thing was really a little low.

Even if he wanted to trade with someone, they didn’t have a divine weapon mold.

Although there were at least 300 divine weapon molds dropped in this Spring Festival event, there were still a lot of them.

But you have to know, how many players are there in this game?

The number of players in the game had exceeded 400 million.

With so many people around, the God tool molds that other people had obtained would have been dealt with long ago.

Where would he have any extra God tool molds? he would use them to exchange with Zhang Shan.

He would probably have to sell the three divine weapon molds in the end.

Now that wind and cloud blade had come looking for him, he might as well sell it to him.

Zhang Shan said.

“There are also three strength-type divine weapon molds, a pair of boots, and two pieces of clothing. I’ll mail them to you later. If you don’t need it, help me deal with it and sell it to the big bosses in the Guild. Remember to transfer the money to me later.”

Zhang Shan also did not know what defensive artifacts wind cloud blade was lacking.

After all, he already had a mission to complete before this.

He believed that blade of wind and cloud must have obtained some items from this Spring Festival.

These three divine weapon molds might not necessarily be what wind and cloud blade needed.

However, Zhang Shan did not care so much. He mailed all of them to wind cloud blade and asked him to help handle them.

it was not that zhang shan could not sell them.

As long as an item like a divine weapon mold was put up for auction, it would definitely be fought over.

you don't have to worry about not buying it, you're just afraid that you don't have it.

but zhang shan felt that there was no need to do so.

There were still many big shots in the Guild who had yet to obtain a divine weapon mold.

Wouldn't it be better to sell it to one of their own?

he believed that these big shots would not cheat him. they would not give him a single cent less.

It was just that Zhang Shan did not want to look for those big bosses in the Guild. He asked wind and cloud blade to help him deal with it.

In any case, this brother Windcloud blade was very close to the other members of the Guild, and he also liked to do such things.

Windcloud blade said exaggeratedly after receiving the email.

" just how many mythological beast kings did you guys kill? just the strength-type divine weapon molds alone dropped three pieces. "

"Ten of them."

f * ck, our entire Guild attacked together and fought to the death, but we only managed to kill 12 divine beast Kings. The three of you killed 10. This is simply unreasonable. If I had known earlier, I would have joined you. It's a mistake.

"Hehe."

it just so happens that I'm still lacking a pair of boots. After I'm done with them, I'll transfer the gold coins to you.

"Yes."

As for wind cloud blade, Zhang Shan could understand why he did not join him in fighting the godly beast King.

this was because zhang shan's initial goal was not to fight the divine beast king. he only wanted to farm the little red divine beast.

He had to complete his mission of activating divinity first.

It was just that Zhang Shan himself had not expected this.

in less than a day's time, he had completed his task. for the rest of the time, they would go and fight the godly beast king.

Moreover, with the addition of a divine accessory and the activation of the set attribute, his strength had greatly improved.

It was extremely fast when it came to fighting divine beast Kings.

In just two days, he had killed ten godly beast Kings.

Not only that, the three of them had to fight other people from time to time in addition to fighting the godly beast King.

It could only be said that Zhang Shan's efficiency in dealing damage was indeed terrifyingly high.

One man forming an Army, that was how it was.

Zhang Shan thought as he killed the monsters.

Not long after, wind and cloud blade called over.

"Brother, I've transferred the gold coins to you. The boots are 60 million gold for a pair, and the clothes are 90 million gold for a total of 240 million. Please check your mail."

Zhang Shan opened the mail and saw the gold coins sent by wind and cloud blade.

He took out the gold coins from the mail, and 240 million gold coins were in his hands.

This money was really earned a little too easily. It felt a little unreal.

Of course, the 240 million gold coins were not all his.

This was the result of him, boss Wu, and the little fairy's hard work.

Although it was mainly Zhang Shan, the little fairy, and boss Wu, who were just two punks.

However, it was better to distribute it equally and not be too calculative.

If it wasn't for the little fairy and boss Wu accompanying him to kill the red mythical beast, it would be very boring for him to kill it alone.

boss wu and the little fairy weren't complete hoodlums. they were still useful.

Without boss Wu's attack blessing, Zhang Shan's damage output would be much lower.

The same was true for little fairy. At least she could still deal some damage.

If Zhang Shan went to farm the little red divine beast and complete missions alone.

perhaps by the time he completed the quest, the spring festival would have ended and he would not be able to fight any more mythical beast kings.

Therefore, it was better to distribute the gold coins earned from selling the divine weapon molds equally.

Moreover, everyone was so familiar with each other. Zhang Shan was not someone who lacked money. There was no need to be calculative. Whoever contributed more would get more.

That's so distant.

zhang shan said to wind and cloud blade after receiving the gold coins.

"Alright, I've received the gold coins."

After he finished speaking, Zhang Shan sent 8000 gold coins to boss Wu and the little fairy.

Then, he left them a message.

these are the gold coins from the three God-tier weapon molds sold yesterday. Each of them received 80 million.

"haha, thank you, officer, for making me rich."

"Received."

After Zhang Shan finished speaking, he did not continue to talk nonsense with them.

The little fairy and boss Wu were probably farming for the materials.

Especially boss Wu. As a Taoist, it wasn't easy for him to get materials for divine artifacts independently.

It was a pity that Zhang Shan could not help him with this.

The materials required for the mission could only be obtained by the person who received the corresponding mission.

Even if Zhang Shan followed boss Wu and killed the same monsters, he would not be able to get the materials that boss Wu needed.

He could only rely on himself.

.....

Zhang Shan was alone, farming monsters out of boredom. One by one, the mission materials kept falling into his backpack.

Soon, he found one of the materials needed for the mission.

Zhang Shan looked at the mission panel. Following the mission tips, he began to look for the next location.

then, he ran towards the target location.

As he rode on his horse, he opened the game's official website.

even though wind and cloud blade had already told him about the kingdom war tomorrow, he was still very confident in himself.

However, he still wanted to go to the official website to take a look.

Since he was free, there was no harm in looking.

chapter 528-all shot down

as zhang shan rode away, he opened the game's official website to check.

In the latest news on the official website, he saw three world War announcements.

The first was an announcement regarding the country war between Chu and Zheng. The time of the country war was set to be at 8 pm tomorrow night and would last for two hours.

As for the other country war details, it was no different from the country war that Zhang Shan and the rest had fought with the Qin country.

The second announcement was about the kingdom war between the Qin and the Wei.

The third announcement was about the country war between Zhao and Yan.

These three announcements, other than the countries that were participating in the country war, were all the same.

One had to say that the game producers were really generous this time, releasing three world wars in a row.

It would not be like in the past, where everyone wanted to fight a country war, but no one could wait.

There were even many big shots who had organized actions to gain hatred points in private.

However, it was of no use. There was no country war at all.

In fact, it wasn't too difficult to farm hatred points.

Even if they organized the players of the two countries to PK with each other.

However, he didn't really want to kill the opponent. After he had defeated the opponent, he could have the auxiliary classes revive him.

However, after a few attempts, they realized that there was no world War announcement, so they gave up.

It was unknown if the game's back-end system had avoided these loopholes or if it was really as everyone had guessed.

The country war was the result of game planning and human intervention.

However, none of that was important now.

Now that three country war announcements had appeared all at once, everyone was temporarily satisfied.

Three country Wars at the same time, one had to say, this was very exciting.

Other than the players of Qi, the players of other countries were very excited after the announcement.

How could he not be excited?

For normal players, as long as they won the World War, they would receive a week's worth of double experience.

For those big Shot players, if they destroyed the other party's divine beast statue, they could directly obtain a complete divine artifact.

Thinking of the king's Cape on Zhang Shan, many of the big shots could not help but feel very excited.

This was their chance.

It was their chance to catch up to Zhang Shan.

If they could also get their hands on an equipment like the king's Cape, then wouldn't they be as strong as Zhang Shan?

even in terms of attack power, he could not compare to zhang shan.

However, a King's Cape could directly increase his HP by hundreds of thousands, leaving those blue and purple capes in the dust.

If a Guardian had such a Cape, then tanking a boss would be child's play.

Zhang Shan was a fragile Hunter, but he was able to take on a real name boss. Wasn't he relying on the king's Cape?

Guardian Warriors had a Guardian's Heart skill, which doubled their health points and made them natural meat shields.

If he also had a King's Cape, his HP could easily exceed a million.

He was much meaty than Zhang Shan, and was an existence that could not be killed.

zhang shan could also guess the mood of the big shots from all sides.

However, it would not be easy for them to destroy the statue of the divine beast and get the divine weapon that it dropped.

One had to know that the divine beast statue had hundreds of billions of blood.

Although it was not as crazy as a divine beast King with trillions of HP.

However, 100 billion HP wasn't easy to deal with.

moreover, there were so many people on both sides of the country war. unless the other side made a mistake or they were overpowered.

Otherwise, it wouldn't have been so easy to get close to the other party's divine beast statue, let alone destroy it.

Of course, the most important point was that there would be three matches in the country war tomorrow.

However, the divine beast statue of the Qin country had already been destroyed by Zhang Shan and the others last time.

In other words, even if the Wei players destroyed the Qin's statue in this world War, there would be no divine weapon as a reward.

they had less hope for this country war.

God of War Li Jing and the others must be very depressed right now.

They could have fought a country war with anyone, but they had to fight the Qin country.

It was not easy for them to wait for a country war, but in the end, they were only eating the leftovers of Zhang Shan and the others.

Even if they won against the Qin country, they would only be able to get the double exp buff for a week.

Perhaps the ordinary players of Wei would be very happy.

However, big shots like Wargod Li Jing would definitely not be happy.

...

Of course, if the Qin players destroyed the statue of the divine beast in Wei, they would still be rewarded with a divine weapon.

However, it was almost impossible for the Qin State to win against the Wei State.

After all, the war god Guild, as the leader of the gaming world, was no laughing matter.

The fact that the war god Guild was able to suppress the domineering aura Guild for so long was a Testament to their strength.

It was already not bad that the Qin State could fight to a draw with the Wei State without any punishment for losing the country war.

But then again ...

The arrangements for this country war were very interesting.

He actually arranged for the Qin country and Wei country to fight country Wars together.

Was this a battle between the top of the gaming world and the eternal second place?

Perhaps after this world War, this year's ranking of the top ten guilds would be out.

It was a pity that the players of the Qi country didn't even get to participate in a country war.

...

This was unparalleled gentleman's fault.

Under the leadership of the unparalleled gentleman, the players of the entire Qi state seemed to be a little afraid.

When the Heaven's Gate map had just been released, he had fought with the wind and cloud Guild for a few waves.

Peerless didn't have any. They had also engaged in chaotic battles with other players.

They had always been weak, and their strength had been in vain.

Even for this year's spring Festival, peerless didn't participate in both.

Instead, they guarded their own cities and killed divine beast Kings.

He was really useless.

It was their fault that they didn't make it to the World War.

Of course, it might be their good fortune that the Qi players could not participate in the world War.

even though the rewards for winning the country war were extremely generous.

There was no need to talk about the reward of a complete divine artifact.

After winning the World War, all members would be rewarded with double experience for a week. This would definitely make everyone envious.

However, although the rewards for winning the country war were very generous ...

However, if they lost the country war, the punishment would be hard to accept.

one week's experience, drop, and consumption would be halved.

These three punishments were simply dissuading players.

It was possible that players with slightly less self-control would never play the game again.

Therefore, it might be their good fortune that the Qi Kingdom's players were not able to make it to the World War.

At least he didn't need to worry about the punishment of losing the country war.

.....

As Zhang Shan ran, he checked the World War announcement.

After a while, he ran to the next place to farm materials.

He closed the official website and continued to farm for quest materials.

In the afternoon, Zhang Shan had finished all the mission points in Dangyang city.

He opened the mission panel to check.

Today, he had completed seven of the material collection tasks.

There were a total of two hundred and thirty-three missions.

In other words, Zhang Shan had to run to 233 different locations and farm different monsters to complete the quest.

Thinking of this, Zhang Shan could not help but have a headache.

It was really difficult.

It was no wonder that no one had managed to forge a divine weapon after so long.

This was f * cking ridiculous.

Not to mention that it would take a lot of time to collect materials, just running to these 233 locations would be hard enough.

Slowly, he moved on to the next item.

Zhang Shan gathered his emotions and started to return to Dangyang city.

Then, he teleported to the teleportation Hall, to the Heaven's Gate pass, and to the gate of the pass.

Zhang Shan summoned his Red Hare and ran towards the target location indicated by the mission.

The current Map of Heaven's Gate was very peaceful, unlike the usual, where there were troublemakers everywhere.

Perhaps after three days of activity, everyone was tired of fighting and needed to take a break.

it could also be because there was a country war tomorrow.

Everyone was making their preparations.

Those who were just a little bit away from leveling up were all trying their best to kill monsters to level up.

Those with weaker equipment were working hard to get more equipment.

in short, he had to improve his strength as much as possible. even if it was just a last-minute preparation, he had to do it.

Everyone hoped that they would be in their best state to welcome the country war tomorrow.

After all, other than the players of Qi state, all the other players in the game were going to fight the World War tomorrow.

To normal players, they had to spend 100 gold coins to teleport to the Imperial City.

However, even the poorest players could take out 100 gold coins.

There was no reason for them to miss such an exciting event like the kingdom war.

Many people might be unlucky during the country war and be defeated the moment they entered the country war map.

But it didn't matter.

Even if he only stayed in the world War map for a few seconds, he would still have participated in the world War.

Zhang Shan believed that tomorrow's scene would definitely be very Grand. It would be far from the last time, when they fought with the Qin country.

Time passed slowly. Zhang Shan had been on The Map of Heaven's Gate, collecting materials and completing missions.

on the afternoon of the next day, feng yun realm, together with dragon king of the eastern sea and king xiaoyao, announced the mobilization order for the national war on the chu country's national channel.

The content was simple.

There would be meat to eat if they won the country war. They called on all the players of Chu State to come online and participate in the country war before 8 pm.

For the sake of the double exp, everyone worked together to defeat the state of Zheng.

After the three big shots issued the mobilization order, countless people responded.

in fact, the players of chu had already enjoyed the rewards for winning the country war once.

that feeling could only be described with one word.

It felt good.

A week of double experience was indeed very satisfying.

no matter what level of player it was, the double exp was an unparalleled attraction.

Farming for one day was better than farming for two days.

what could be a better reward than double experience?

of course, there were also divine artifacts.

However, the normal players had nothing to do with the divine weapon, so they didn't care about it.

That plaything would only be rewarded to the player who contributed the most to the World War.

With Zhang Shan around, not to mention the normal players, even the big bosses would probably not have the mood to do so.

As long as Zhang Shan participated in the country war, who could snatch it from him?

Zhang Shan casually fired a few shots, and the damage was much higher than other people's attacks.

.....

For normal players, it was fine as long as they had enough equipment. The key was to level up.

If he couldn't level up, everything else was just floating clouds.

and the double exp was the best item to level up.

Therefore, after having a taste of the sweetness, the players of Chu were very enthusiastic about the country war.

Zhang Shan believed that the number of players participating in the country war this time would far exceed the previous time.

Even though there were other factors.

For example, the number of players in Chu State was much higher than before.

After all, the number of players in the game had been increasing. Now, the number of players in the entire game had exceeded 400 million.

Chu country was a popular faction in the New World. Many new players would choose to join Chu country first when they were choosing a faction.

But more importantly, everyone's enthusiasm for the country war was high.

The last time they fought against the Qin country, this kind of tough guy might have met the players and was a little scared.

And this time, they were going against the state of Zheng, a weakling.

If he didn't come and try, wouldn't it be a waste of time playing the game?

.....

After dinner, Zhang Shan went through another round of mission materials.

It was half past seven in the evening.

Feng Yun realm said in the Guild channel.

"Pack up your things and gather at the palace earlier, so that we don't have to squeeze into a group later."

"Roger that. I'll return to the city after killing this monster."

he is already in the Imperial City. He is quietly waiting for the World War map to open.

f * ck, brother, you're ruthless. You're going there so early? "

we have to be early. Otherwise, when the world War starts, who knows how long we'll have to queue up to enter the World War map? don't you all remember the lesson from last time? "

damn, you're right. I'll also hurry up and cast a teleport back to the city.

.....

Zhang Shan looked at the mission panel. At his current position, the mission materials had not yet been refreshed.

however, zhang shan did not intend to continue.

When it came to obtaining mission materials, it often depended on one's luck.

If they were lucky, they could just kill a few monsters and get the materials needed for the quest.

If they were unlucky, they might not be able to get the materials required for the quest even after two to three hours.

He thought about how there would be a sea of players waiting to enter the World War map at the prime minister's residence in the palace.

Zhang Shan felt that it would be better for him to go over earlier.

This was to prevent them from being unable to enter the country war map at the first moment when the country war started.

Even though it didn't matter whether they entered the country war map sooner or later.

After all, the World War was not something that could be decided in a short time. The entrance to the World War map was always open during the World War.

As long as they had not entered the World War map, they could enter at any time during the World War.

Of course, each player could only enter once.

If it was on the World War map and he died, then he would never go again.

Even so, everyone still wanted to enter the country war map at the first opportunity.

this was the mentality of a human. one had to fight for first, just like how the person walking in front could pick up money.

Zhang Shan was also a layman. He also wanted to enter the country war map the moment the country war began.

Zhang Shan took out the positioning ball and marked the coordinates on the spot. Then, he started to read the return Channel.

He could leave the coordinates here and teleport over after the World War to continue farming for materials and completing the quest, so that he would not have to run away again.

it was very convenient to have a positioning bead.

After Zhang Shan returned to Dangyang city, he quickly repaired his equipment, bought supplies, and then teleported to the Imperial City.

When he arrived at the capital.

Outside the teleportation Hall of the royal city, a continuous stream of Chu players was being teleported over.

After everyone was teleported over, they quickly summoned their mounts and rode towards the prime minister's residence.

Seeing the surge of people, Zhang Shan could not help but complain.

F ** k, it was only 7:30 am, and the world War would only start at 8 am, so why were there so many people?

What were these people doing?

They could have just killed some monsters and come back later.

from the looks of it, there were really a lot of people who were very active.

Through the map, Zhang Shan locked onto the position of the prime minister's residence in the palace. Then, he teleported over.

However, after Zhang Shan landed.

He realized that he was still a few hundred yards away from the prime minister's residence.

Because the prime minister's residence had already been surrounded by players.

Even if Zhang Shan used teleportation, he would not be able to squeeze in.

The system randomly assigned him to the nearest empty space to his chosen location.

Zhang Shan raised his head and looked at the prime minister's residence. It was packed with people. He could not help but be a little speechless.

Damn it, he was already early enough, but someone else was even earlier than him.

And it wasn't just one or two people.

There were at least a few million people around the Prime Minister's estate.

were these people that bored?

Why did you come so early?

zhang shan had never thought about himself.

In fact, he had arrived very early.

There was still half an hour to go before the country war started.

If he wasn't bored, others wouldn't be bored either.

If Dao Lord mo left early, there would be early travelers.

.....

Zhang Shan looked around for a while. After seeing the countless heads around him, he began to pull his friends into the team.

Recently, everyone had been scattered all over the place, collecting materials and doing quests. They no longer teamed up to farm monsters.

Unless they won the country war and got double experience or other activities.

Otherwise, they probably wouldn't be able to team up and farm monsters together for a long time.

After all, everyone had a divine weapon mold in their hands and were busy doing missions.

After a short while, the little companions all joined the team.

Windcloud blade shouted in the party channel.

"Big Boss six-barreled, what are we going to do? Why don't we enter the World War map and go steal from the altar in the state of Zheng?"

"don't bring me along if you're looking for death. do you know how many people will be at the zheng country's altar when the country war begins?"

"That's right, there must be at least twenty to thirty million people, right? this was not just two or three thousand people. With just the few of us, if we were to go there, wouldn't we just be sending ourselves to our deaths?"

"Brother, be steady. Don't be too wild."

Zhang Shan said after thinking for a while.

"After we enter the World War map, let's gather together and hunt freely. Then, we'll go to our altar and meet up with the others. We'll see what the boss and the others have planned."

"Alright, then the five of us will gather earlier and go kill people together. Today, I want to kill ten thousand people. Hehe."

"Look at you, there are at least 50 to 60 million players in the state of Zheng, and you're satisfied just by killing 10 thousand people?"

today, I'm going to start a massacre. My divine longbow hasn't even had its engine fired yet. I won't stop until I've killed a hundred thousand.

you're just being cocky. In just three days of activity, not only did you get a divine artifact mission item, you even got a divine artifact. You're really lucky.

"Hmph, you're just jealous."

" what the hell am i jealous of? isn't my divine weapon battleaxe strong? "

"If you have a Bell, come and fight me one-on-one."

"A good man doesn't fight with a woman."

Windcloud blade and little fairy kept on shouting at each other in the party channel, not understanding boss Wu's feelings at all.

Among the five people in their team, only boss Wu didn't have a divine weapon.

Although boss Wu had received three God-tier weapon molds during the spring Festival, he was still very happy.

However, that was only a mold. It would take a long time to forge it into a divine weapon.

More importantly, the divine weapon mold could only be used to forge defensive divine weapons.

They didn't even see boss Wu.

It was not easy to get a divine weapon, and they had never seen a Taoist priest's magic sword before.

In the future, he had to find an opportunity to get boss Wu a godly weapon. Otherwise, it would be a little awkward for him.

Although the five of them didn't stand together, this didn't delay them. They kept bragging on the team channel.

Anyway, he had nothing to do now.

Was he supposed to just wait for half an hour?

If he didn't blow water, what else could he do?

As for the country war strategy, that was up to Feng Yun realm and the other elders.

As for Zhang Shan and the rest, they just had to listen to his orders.

He would hit wherever he was told to.

he was just an emotionless thug.

In the process of blowing the water, time passed very quickly, and it was soon eight o'clock in the evening.

the system announcements kept on ringing.

≪ system notification: the country war between Chu and Zheng has officially begun. Brave warriors, please enter the country war map. ≫

≪ system notification: the kingdom war between the kingdom of Qin and the Kingdom of Wei has officially begun. Brave warriors, please enter the kingdom war map. ≫

≪ system notification: the country war between Zhao and Yan has officially begun. Warriors, please enter the country war map. ≫

three country wars, three announcements.

After the announcement, Zhang Shan raised his head and looked forward.

the players from the prime minister's residence quickly disappeared.

The players standing at the very front had already entered the World War map.

Zhang Shan followed closely behind. With every step the players in front took, he would take a step forward.

Very quickly, he arrived in front of the Prime Minister's estate.

zhang shan quickly made his choice and entered the country war map.

The moment he entered the World War map, before he could even react, a few lines of damage landed on Zhang Shan's head.

"F * ck, it's so troublesome when changing the map."

Luckily, he was strong enough. Otherwise, he would have been killed the moment he entered the country war map.

zhang shan turned around to look. behind him, there were seven players from the state of zheng, who were waving their weapons and attacking him.

Zhang Shan turned around and fired.

The seven players from the state of Zheng were instantly killed.

The ejection passive was good, much better than the average AoE skill.

He didn't even need to do anything. As long as the enemies weren't scattered, he could kill 12 people with one shot.

with zhang shan's current damage ability, there were only a few players in the entire game who could take one shot from him and not die.

Except for a small number of Guardian Warriors who had very good equipment.

The rest of the people were under Zhang Shan's gun.

They were all killed in one shot.

Chapter 529

After Zhang Shan had defeated the seven players from the state of Zheng, he quickly rode his horse to find his next target.

He wanted to make use of the time when he had just entered the World War map to defeat more players from the state of Zheng.

He would try his best to weaken the state of Zheng.

Although, compared to the state of Zheng and the 50 to 60 million players, no matter how hard Zhang Shan tried, no matter how many people he killed, it was just a drop in the ocean. The effect would not be obvious.

However, no matter how small the effect was, he still had to kill as many as possible.

You kill more, he kills more, under everyone's joint efforts.

Then wouldn't the number of surviving players in the country of Zheng in the world War map be much lower?

Zhang Shan was riding on the red hares, hunting around the country war map at high speed. At the same time, he was checking the location of his friends through the team information.

The other members of the team had arrived at the palace later than Zhang Shan.

Hence, they had to enter the kingdom war map a little later.

However, they should have entered by now.

Zhang Shan opened the team information and was ready to check the position of his friends. With one look, he could not help but be stunned.

what was going on? why was wind and cloud blade's name gray?

Could it be that this brother had died the moment he entered the World War map?

This was too tragic.

Zhang Shan was just about to ask wind and cloud blade to see what exactly had happened to him.

However, before Zhang Shan could ask, he heard wind and cloud blade shouting in the team channel.

"Big brother carrying a saber, please come and save me. I'm hanging up."

Before Zhang Shan and boss Wu could say anything, the little fairy sneered.

"Haha, you're really a piece of trash. You just entered the World War map and you died. How did you die? He couldn't have been hacked to death by a bunch of noobs, right?"

Little fairy's words made wind and cloud blade even more depressed.

I'm so f * cking unlucky. The moment I entered the World War map, I was stunned by a group of players from the state of Zheng, and then there's no 'then'.

Zhang Shan asked wind cloud blade.

"No one is guarding the corpse, right?"

"No, the swordsmen left after beating me up. Don't let me see them again, or else I'll chop them into pieces."

Windcloud blade fiercely shouted.

then lie down on the ground for a while. When we meet up, we'll go and save you together.

Zhang Shan decided to wait for the four of them to gather before going over to revive wind and cloud blade.

At this moment, boss Wu and the little fairy still had the heart to follow me, but they had already entered the World War map.

However, when entering the world War map, the location was random.

The entire country war map was not small.

Everyone was scattered all over the place, and it would take some time to gather.

As for asking boss Wu to resurrect Windcloud blade first, it was better to forget about it. There was no need at all.

Wouldn't it be troublesome if boss Wu was killed while he was walking?

Boss Wu was the only support in their team.

If boss Wu fell, there would be no support, and he could resurrect the others.

he would have to call for help from the other big shots in the guild.

That would be so troublesome.

It would be better to wait for the four of them to meet up and then go together.

With Zhang Shan leading the way, if the four of them walked together, at least their safety would be guaranteed.

Under normal circumstances, with Zhang Shan around, it would be impossible for the Zheng players to kill them.

Of course.

In fact, it wasn't necessary to have wind and cloud blade. He could wait for boss Wu to revive him.

He could choose to resurrect on the spot.

In the world War map, there was a resurrection mechanism.

However, resurrecting in the world War map not only required a large amount of gold, but the number of resurrections was also very precious.

If it wasn't necessary, it was better to wait for the support to resurrect. It was better not to resurrect on the spot and waste the respawn count.

this was because in the world war map, the fee for resurrecting on the spot was established like this.

The first resurrection cost 1000 gold coins, the second 10000 gold coins, the third 100000 gold coins, and so on.

The sixth resurrection would cost 100 million gold, and the seventh would cost one billion gold.

Zhang Shan believed that no matter how rich the big boss was, it was impossible for him to revive seven times on the spot in the world War map.

This was simply unimaginable.

...

One billion gold coins could have been used for anything, why did he have to use it for resurrection?

One billion gold coins, even if it was used to buy divine artifacts, it could probably buy several pieces.

Of course, the premise was that there was a place to buy it.

.....

Zhang Shan looked at everyone's position and chose the nearest rendezvous point. He sent it to the team channel and said.

everyone, move closer to the coordinates. Let's meet up first.

"Received."

"I understand."

zhang shan and his friends rushed to their respective meeting points.

He galloped on his horse, and whenever he encountered players from the state of Zheng, he would shoot them down.

Two minutes later, other than the fallen Windcloud blade, the other four members of the party had gathered together.

...

zhang shan said.

"Let's go and revive one blade first."

wind and cloud blade is really a piece of trash. He even needs us to save him.

let's not talk about other things. This brother one blade sure has bad luck. He was actually cut down the moment he entered the map. How tragic, hehe.

it's mainly because he's too noob. Otherwise, how could he have been ambushed and fainted? "

stop bullshitting. Let's resurrect one blade first.

Windcloud blade, who was lying on the ground, silently looked at his teammates as he continuously complained in the party channel.

He simply wanted to cry but had no tears.

he didn't want to hang up either.

However, it was such a coincidence.

When he had first entered the map, he had encountered a group of players from the state of Zheng.

Of course, it was also due to wind cloud blade's carelessness.

if he had been more vigilant, he wouldn't have been so easily knocked out.

Although Berserkers did not have any skills that could dispel crowd control, they were still in a berserk state.

But he had the charge skill.

When he saw that someone was preparing to use a stun skill on him, he was stunned.

He could have charged at other targets first, put some distance between them, and then run.

this was a common move for berserkers to avoid being stunned and focused on.

It was likely that wind and cloud blade had become too arrogant and was not vigilant enough.

That was why the car flipped.

After a short while, Zhang Shan and the other three arrived at the place where wind cloud blade had fallen.

Boss Wu resurrected wind and cloud blade with one move.

f * ck, I'm really F * cked up. I was actually cut down by a bunch of noobs. I'm so angry.

don't yell. A noob is a noob. Why are you finding so many excuses? what a waste of your good equipment. You can't even handle a few noobs.

"F * ck, are those a few noobs? There were tens of Zheng players just now."

who knows? we didn't see it anyway.

Wind and cloud blade

He was completely unable to refute.

Zhang Shan said.

"Let's go. Let's go and kill some people together."

that's right, let's go and kill some players. Since everyone has just entered the World War map and has yet to gather together, let's kill more players from the state of Zheng.

"Where are we going? Are you running around without a target?"

what kind of target do I want? just run around. If I see one, I'll kill one. If I see a group, I'll kill a group.

"Don't do that. It's not efficient to kill people like this."

"Then what do you think we should do?"

why don't we go to the state of Zheng's altar and wait there? anyway, the players from the state of Zheng who have entered the World War map will gather there sooner or later. We'll just block the road there.

this isn't good, right? if there are more and more of them, we won't be able to take them on.

"What's there to be afraid of? if there are too many people, we'll just retreat. Who can stop us if we want to leave?"

alright, let's go to the other side's altar and intercept the state of Zheng's players. However, we should not get too close to them. We should just stay a little further away from their altar.

Zhang Shan decided.

"Very good, let's do it."

The benefits of going to the other party's altar to intercept them were obvious.

This was because no matter where the players from the state of Zheng ran, they would still have to gather at the altar.

Zhang Shan and the five of them only needed to wait there.

The players from the state of Zheng would naturally charge over like rabbits.

He did not need to search for the traces of the Zheng players in the entire world War map like before.

With such a method of interception, their efficiency in killing would be greatly improved.

of course, the disadvantages of blocking the enemy near the altar were also very obvious.

It was too dangerous to do so.

The players from the state of Zheng would continue to advance towards the altar.

No matter how fast they killed, they couldn't really stop all the Zheng players.

if the players from the state of zheng were slightly braver.

Perhaps, they would be easily drowned in the sea of Zheng players.

What Zhang Shan gambled was that those Zheng country players were all cowards.

Even if Zhang Shan and the rest were blocking the way to the altar, the players from the state of Zheng would choose to take a detour.

He didn't want to fight them head on.

Even if there was a portion of the Zheng players who were slightly braver, it would not matter.

As long as not all of the Zheng players were so brave, it would be fine.

As for the small number of Zheng players, they were still able to deal with them.

.....

Zhang Shan brought his friends along as they advanced. On the way, they encountered more and more players from the state of Zheng.

After all, they were getting closer and closer to the altar.

the wave of players from the state of zheng gathered towards the altar.

After a short while, Zhang Shan and the rest could already see the faint shadow of the altar in the state of Zheng.

"Let's intercept them here."

Zhang Shan took a look at the map.

The distance from here to the state of Zheng's altar was about less than a minute's journey.

This was the perfect place to intercept them.

It could both block off a portion of the Zheng players who were gathering at the altar.

they didn't have to worry about the players at the state of Zheng's altar coming out to attack them.

After all, they were still a minute away from the altar. It was not like they were really at the altar.

Would the players from the state of Zheng dare to leave the altar?

under normal circumstances, they would definitely not dare to do so.

Although Zhang Shan did not know how the country of Zheng's guild leaders had arranged for this country war.

However, he could guess it even with his heels.

the players from the state of Zheng would definitely defend the altar to the death.

They were guarding their divine beast statues.

As for asking them to come out and attack the Chu divine beast statue?

that was impossible.

No matter how arrogant the Zheng players were, they would not dare to do such a thing.

The difference in strength between the two sides of the kingdom war was obvious.

The Zheng players did not have any thoughts of winning the World War.

they could only pray that they could hold on until the country war was over, and both sides would end up in a draw.

Even though they would not be able to obtain the rewards for winning the country war, they would not be punished for losing the country war.

To the players of the state of Zheng, this was the best outcome for this world War.

Zhang Shan and the other four stood on the road to the altar and started to block the players from the state of Zheng.

The players from the state of Zheng who had just entered the World War map did not notice at first.

They had thought that they had met the Chu players who had just entered the country war map.

Some of them had even thought of charging forward and fighting with Zhang Shan and the other five.

Some didn't want to cause any trouble, so they took a detour and continued to run toward the altar.

After all, there were only five people in Zhang Shan's group.

They only had a small section of the way, so it was impossible for them to block all of the Zheng players.

Even if they managed to stop all the players from the state of Zheng, they would not be able to kill them all.

This wasn't just a few thousand or tens of thousands of people.

Instead, there would at most be tens of millions of people.

Most of the players from the state of Zheng chose to avoid Zhang Shan's group, taking a detour and continuing to advance towards the altar.

Of course, there were also some players from the state of Zheng who did not believe in the rumors. When they saw that Zhang Shan's group was only a five-man team, they were stunned.

Yet, he dared to cut off the path to the altar in the state of Zheng.

Some of the stubborn Zheng players were instantly enraged.

They felt insulted.

If it could be tolerated, then who couldn't?

Being blocked at the entrance and killed, how could he tolerate this?

Someone clamored.

"F * ck, there are only five of them and they dare to block the road. Brothers, let's go and kill them."

let's not. We'll just take a detour. Don't you see that six-barreled Bodhisattva is there too? "

"So what if six-barreled Bodhisattva is here? He was just a player, not a God. We have so many people here, do we need to be afraid of him?"

that's right. Let's charge together and kill six-barreled Bodhisattva.

"Brother, don't forget what the boss told us. After we enter the World War map, we have to quickly gather at the altar and defend it with all our might. There's no point in us fighting six-barreled Bodhisattva here."

Hmph, if you want to leave, you can leave. Even if I die Here, I'll fight six-pipe Bodhisattva.

"Brother, you're right. six-pipe bodhisattva is already riding on our heads. if we don't do it, we'll be no different from those cowards in qi state."

"indeed, six-barreled bodhisattva actually dared to intercept us here. this is outrageous. we have to kill him."

As more and more players entered the World War map.

As they passed by Zhang Shan's side, more and more players from the state of Zheng were heading towards the altar.

Although most of the Zheng country players would choose to take a detour when they saw Zhang Shan and the others, they were still a little worried.

However, the number of players from the state of Zheng that had gathered around them had also slowly reached a terrifying number.

it wasn't that the zheng players couldn't get through.

Zhang Shan and the other four blocked the path to the altar.

However, they couldn't stop the two sides of the open space.

After all, there were only five of them, and they could only block a small portion of the enemy's attacks.

The players from the state of Zheng only needed to take a detour to get around it.

However, there were still many Zheng players who did not choose to take a detour.

The door was already blocked, so what was the point of going around?

They were prepared to gather their strength and fight Zhang Shan head-on.

Zhang Shan led his friends and ignored the increasing number of players from the state of Zheng.

Instead, he continued to run left and right, killing as many players from the state of Zheng as he could.

After a while, the players from the state of Zheng gathered around them, under the organization of a few guilds, started to surround Zhang Shan and the rest.

Feng Yun Dao asked Zhang Shan after he had cut down a few people on his horse.

"what do we do now? Should we run away and kill them somewhere else, or should we continue fighting here?"

"Right here, let's continue fighting."

Even though there were so many Zheng players that it was impossible to see the end of them.

But Zhang Shan did not care.

In Zhang Shan's eyes, having more people did not mean that it was useful.

Perhaps the crowd would affect the other party's performance.

After a round of organizing, countless Zheng players charged towards Zhang Shan and the rest.

Zhang Shan summoned the Panda ball to protect him. At the same time, he kept shooting.

With a single shot, 12 players from the state of Zheng fell to the ground.

As long as they could withstand the enemy's charge.

the more zheng players gathered, the more ferociously they charged, and the more efficient they would be at killing.

He didn't even need to find people to kill. He just needed to keep shooting and it would be over.

Zhang Shan kept on firing, and at the same time, he would occasionally release the pomegranate bomb skill.

the players who participated in the world war were not like the usual chaotic battles.

To be honest, the players who could fight with Zhang Shan usually had some skill.

As for the players who participated in the world War, the quality was different.

Some of the players had just left the beginner village and were only around level 20.

Zhang Shan's shrapnel skill could knock down a large number of people.

This feeling was very good, it felt like a small skill had turned into a big move.

It wasn't like before, where he had to continuously fire two or three waves of shrapnel before he could knock someone down.

Even though the shrapnel skill only dealt 10% of the damage, it was still too weak.

However, with Zhang Shan's theoretical damage of 24, a wave of skills could deal more than 20000 damage.

Moreover, this was a 50-yard-wide area of damage.

The only exception was the mainstream players, whose equipment and level were not too bad.

Many of the weaker players from the state of Zheng could not even withstand a single wave of Zhang Shan's skills.

Against a bunch of weaklings, Zhang Shan's pomegranate grenade skill had the effect of an ultimate skill.

It was extremely fierce.

of course, not all of the players from the state of zheng were weak.

a significant portion of them were the main force of the various guilds in the state of zheng.

his equipment and level were not too bad.

Facing Zhang Shan's shrapnel skill, they could totally withstand it.

They used the weak chickens as cover and quickly approached Zhang Shan.

However, under Zhang Shan's rapid fire, their charge was quickly suppressed.

Other than Zhang Shan, the other four companions also went all out, using all sorts of skills to sweep at the players from the state of Zheng.

the fairy had become stronger after getting the divine longbow.

Most of the players from the state of Zheng could not even take a single arrow from the little fairy. The little fairy continuously drew her bow and shot arrows, killing them one after another.

The little fairy used the split arrow skill, and with one arrow, several players from the state of Zheng would fall to the ground.

The efficiency of this killing was shocking.

He was just slightly weaker than Zhang Shan.

Compared to the little fairy, he was waving his longbow and killing happily.

Wind and cloud blade and heart moves with me were slightly depressed.

It was indeed a little difficult for melee classes to play in a chaotic battle.

Originally, with their strength, even if they charged into the midst of the Zheng players, it would not be much of a problem.

But the problem was, how were they going to retreat after killing one wave?

If they couldn't retreat, wouldn't they be chopped into pieces?

Hence, Windcloud blade and heart moves did not dare to move when faced with the dense crowd of players from the state of Zheng.

They could only sneakily cut off a few heads under the cover of Zhang Shan's firepower. The efficiency of killing people was very low.

Even so, they wouldn't be able to hold on for long.

After every wave of attacks, the two brothers had to retreat and let boss Wu help them fill up their health before they dared to continue to attack.

.....

The group of Zheng players saw that no matter how hard they tried, they could not do anything to Zhang Shan's group of five. They could not help but feel anxious.

they had so many players from the country of zheng, but they could not even deal with zhang shan's small team of five.

It was simply a disgrace.

There were at least a few hundred Zheng players nearby.

However, it was impossible for all of the Zheng players to join in the attack.

after all, the space was limited, and the number of people who could participate was limited.

Even so, they had invested hundreds of thousands of people in this.

With so many people attacking together, not to mention cutting down Zhang Shan, they had not even managed to take down a single person.

On the other hand, the players from the country of Zheng did not know how many of them had been defeated by Zhang Shan's group of five.

It was completely uncountable.

It wasn't that they felt bad for the state of Zheng, for so many of their people had fallen.

to them, it didn't matter how many people died.

Anyway, during the country war, the number of people from both sides participating in the war was as many as rice.

Just the state of Zheng had close to 50 million players participating in the country war.

With so many people participating in the battle, even if Zhang Shan and the other four were to defeat a few million people, it would not matter much.

Furthermore, no matter how efficient Zhang Shan's team of five was at killing, it was impossible to kill millions of people in a short time.

This was something that even a God couldn't do.

The state of Zheng's big shots didn't feel any heartache at the number of players that had fallen.

They just wanted to fight for their pride.

They felt that they could not let Zhang Shan and the other four continue to be so arrogant. They had to defeat Zhang Shan.

If this continued, what would it be like?

The kingdom war had just begun, and they were already blocked by five people at the entrance. What was the point of the kingdom war?

He might as well just wash up and go to sleep.

One of the Xuanyuan Guild's big shots said to the Guild members around him.

hurry up and call the boss to bring reinforcements. We need high-end combat power to deal with people like six-barreled Bodhisattva. No amount of cannon fodder will be of any use.

that's right, let boss bring the scrolls over. I don't believe that six-barreled Bodhisattva can still withstand a few scrolls.

don't. The scrolls are too precious. We don't have many of them in total. We'll save them for the critical moment.

"Crucial time my ass, this is the crucial time. If we don't defeat six tube Bodhisattva, this kingdom war will be a joke."

"i'll talk to the boss and ask him to bring the scroll over,"

A group of Zheng players were completely enraged by Zhang Shan.

Even though Zhang Shan did not do anything.

He only guarded the path to the enemy's altar and killed any players from the state of Zheng that passed by.

However, the big shots of the state of Zheng did not think so.

to them, this place was so close to the zheng country's altar, yet zhang shan dared to block their way here.

Wouldn't that be the same as blocking their door?

the key was that they had originally wanted to rely on the players from the state of zheng that they had gathered nearby to defeat zhang shan and the other four in one fell swoop.

After all, there would always be a large number of Zheng players passing by.

all they needed to do was to call out and millions of people would come.

In fact, they had indeed called a lot of people.

However, these scattered players from the state of Zheng did not have any battle power to speak of.

After many charges, they had not even hurt a hair of Zhang Shan's group.

on the other hand, who knew how many people on his side had fallen.

He had to get the boss of the Xuanyuan Guild to bring the scroll over.

As long as they had the scroll, coupled with the few ultimate skills of the Guild, they did not believe that they could not destroy Zhang Shan's five-man team here.

Even if they had to use up all their scrolls and ultimate skills, they would not hesitate.

Even if they lost the country war, they had to defeat Zhang Shan.

This was a battle of dignity. He would not stop until he defeated Zhang Shan.

Chapter 530 A man with two lives

Xuanyuan Ziyu, the big boss of the Xuanyuan Guild, couldn't help but fall into deep thought after receiving the call from his guild member.

Whether or not they should go over to help was a problem.

to be honest, he didn't want to go over to help.

Although Zhang Shan had brought his men to stop the players from the state of Zheng less than a minute away from the altar, it was indeed infuriating.

This was simply a slap to the face for the state of Zheng's players.

However, in Xuanyuan Ziyu's opinion, this didn't matter much.

They just needed to survive the country war.

He didn't dare to think about winning the country war, but he wanted to at least fight to a draw with Chu country.

If not, the punishment for losing the country war would be too unbearable.

If Zhang Shan wanted to stop him, then let him.

It wasn't like they were really blocking their door.

The place where Zhang Shan had intercepted was still quite a distance away from the altar.

Furthermore, it was impossible for Zhang Shan to block all the Zheng players.

the players from the state of zheng who had just entered the world war map could have avoided zhang shan and ran to the altar.

From Xuanyuan Ziyu's point of view, Zhang Shan's interception did not have much of an impact on the entire Kingdom war.

after all, for someone like zhang shan, even if he did not intercept them near the altar, he would have intercepted and killed the zheng players somewhere else.

No matter where Zhang Shan killed, it did not matter. They did not need to care at all. They just needed to guard the altar.

No matter how ferocious Zhang Shan was, no matter how many he killed, so what?

The power of one person was insignificant in the entire country war.

Even if Zhang Shan could kill a few million, it would not matter.

As compared to the 50 million players from the state of Zheng who had participated in the country war, there were only 1000000 of them.

The few people that Zhang Shan had killed were not a problem at all.

It didn't have any effect on the overall country war, but at the very least, it didn't have much of an effect.

Xuanyuan Ziyu didn't want to go over to help his guild members.

First, he felt that it was unnecessary. Second, he was really busy now and could not leave at all.

At this time, Xuanyuan Ziyu and the nine states Guild's boss, the nine states Daoist, were arranging the defense on the altar.

Currently, there were 20 to 30 million players from the state of Zheng near the altar.

With so many people gathered together, if they didn't make proper arrangements, there would be trouble.

they didn't want to be in a mess before the players of chu attacked.

That would be a joke.

However, it seemed like he had no choice but to go.

The Guild members who were attacking Zhang Shan kept calling out in the Guild channel.

If he didn't go to support them, it was obvious that he, as the boss, didn't take care of his brothers.

This was not good.

Furthermore, the few hundred players from the state of Zheng were fighting outside, while the Guild leaders were staying on the altar.

This didn't seem right.

xuanyuan ziyu said to the jiuzhou priest beside him after thinking for a while.

"Brother, you take care of this place first and arrange for everyone to set up a defense. I'm going to help my brothers in the Guild. They're attacking six-barreled Bodhisattva, but they can't take him down. Let me go and help them."

Oh my God, what are the people in your Guild doing there? why aren't they coming over to join us? why are they still wasting time with six-pipe Bodhisattva? isn't that a waste of time? "

"I'll go take a look first. It'll be a good thing if I can defeat six-barreled Bodhisattva. Without six tube Bodhisattva in Chu, the impact of their attack should be less. "

When the nine states Daoist heard Xuanyuan Ziyu's words, he subconsciously nodded.

Xuanyuan Ziyu's words made sense.

Although it could be said that no matter how strong Zhang Shan was, there were so many Zheng country players participating in the country war, and he could not kill that many.

But the problem was, if Zhang Shan took the lead in an assault, then the meaning would be different.

on the side of the zheng country, it was likely that they would not be able to block zhang shan's sharp edge.

Even though the number of people they sent to participate in the kingdom war wasn't much less than the Chu country.

But it was also impossible to stop Zhang Shan's sudden attack.

The moment Zhang Shan brought his men and messed up their defense, the country war that followed would not be easy.

It was better to take advantage of the current situation, where Zhang Shan had left the main group and was surrounded by a large group of Zheng players.

He directly knocked Zhang Shan down to guard the corpse.

Although Zhang Shan was very strong, for the sake of the World War, both Xuanyuan Guild and nine states Guild had made ample preparations. They both had their own trump cards.

As long as he was willing to pay the price, Jiuzhou Daoist believed that Xuanyuan Ziyu could defeat Zhang Shan.

...

jiuzhou daoist said to xuanyuan ziyu as he thought of this.

“Then go quickly and come back quickly. Our main goal is still to guard the altar. if there’s a chance to defeat six-barreled bodhisattva, do your best to defeat him. then arrange for people to guard the corpse for as long as possible. it’ll be more beneficial to them if they can stall for time.”

“I know that.”

After Xuanyuan Ziyu had finished speaking, he led a group of Guild’s main force members and rushed down from the altar. They quickly rushed towards Zhang Shan’s position.

at this moment, zhang shan did not know that danger was approaching.

He and his friends were happily killing.

Not bad.

In Zhang Shan’s eyes, the players from the state of Zheng around him were no different from wild monsters.

In fact, many of the players from the state of Zheng were not even as strong as the monsters.

Zhang Shan and the rest dealt with it easily. It felt even easier than killing monsters.

At times, when the Zheng players were having trouble, Zhang Shan would take the initiative to charge forward, forcing the Zheng players to retreat.

...

even though there were a few million zheng players around, there were still many of them.

But these people really did not pose much of a threat to Zhang Shan and the other four.

There were simply too many noobs among these people.

The number of players with real strength was very small.

Of course, this did not include the so-called powerful players from the state of Zheng.

In front of Zhang Shan, there was not much difference.

anyway, he would be shot down in one shot.

Unless it was multiple ultimate skills or scroll damage that was thrown at him.

otherwise, zhang shan would not have died.

The five of them faced the millions of players from the state of Zheng, and they continued to attack while chatting and laughing. They did not take the players from the state of Zheng seriously.

the little fairy said happily.

"It's still so cool to kill people like this. These Zheng players must be fools. They know that they can't kill us, but they still line up to give up their lives."

Haha, maybe they think that since they have so many people, it doesn't matter if they let us kill them.

"I'm already a little numb from all the killing."

Me too, I'm getting a little tired from killing so many Zheng players. There's no way we can kill all of them.

"Haha, don't tell me that these Zheng players are planning to tire us to death."

"F * ck, it's okay to kill people until they die of exhaustion."

This is a game. Don't worry, you won't die of exhaustion. Hehe.

"There's a problem now. How are we going to leave later? The players from the state of Zheng have been surrounding us and attacking us. Although we're farming without any pressure, we can't get out either. We can't possibly keep doing this until the end of the kingdom war, right?"

"Don't worry. The boss and the others must be organizing their men now. When they're all here, they'll head over here."

That's right. What are you worried about? Boss will bring people over later. Otherwise, how can we go over and cut the other party's divine beast statue?"

That's right. In this world war, we will definitely take the initiative to attack. When boss and the others arrive, the state of Zheng's players will not be able to handle them.

Even though they were surrounded by millions of Zheng players, it was almost impossible for them to escape.

But Zhang Shan and the rest were not worried.

After all, these players from the state of Zheng could not surround them forever.

When the players of Chu attacked the altar, he would be able to help them out.

This was the main road leading to the altar in the state of Zheng. If the players of Chu wanted to attack the altar, they would have to pass through this road.

When the large group of Chu players arrived, the Zheng players could only run for their lives.

It was impossible for them to fight head-on with a large group of Chu players.

Even if there were a few million Zheng players around, it was useless.

This was because when the Chu country players organized an attack, there might be 50 to 60 million people coming together.

In the face of such a terrifying power, it would be a miracle if the state of Zheng's players dared to remain here.

However, Zhang Shan and the rest had never thought that there would be people coming to the Zheng country's altar to help.

Zhang Shan felt that the most important task for the Zheng country was to take advantage of the fact that the Chu country players had yet to attack.

Set up as many defenses as possible.

At this moment, the state of Zheng should be arranging their troops at the altar.

how could he have the time to come over and care about them?

however, zhang shan quickly realized that they had miscalculated.

just as they were happily killing, a group of players from the state of zheng arrived.

the players from the state of zheng that had surrounded them quickly opened up a path.

Xuanyuan Ziyu and his men quickly arrived at the battlefield.

When he arrived at the battlefield, he immediately took out a scroll and released it in the direction of Zhang Shan and the other five.

Xuanyuan Ziyu didn't speak much ruthlessly.

He used a scroll right away, which stunned his friends.

"Holy F * ck, this is a scroll?"

"F * ck, we're finished. We can't run."

When Xuanyuan Ziyu came over, Zhang Shan and the others didn't pay much attention to him.

Anyway, there were already enough players from the state of Zheng.

Even if they came to support him, it didn't matter.

Then, they completely didn't expect ...

the boss of the xuanyuan guild was a ruthless man.

He immediately took out a scroll and started to work.

He didn't even order his men to charge and test the waters, and directly attacked the scrolls.

This was the first time Zhang Shan had seen such a ruthless person in the game.

The scroll in Xuanyuan Ziyu's hand disappeared.

Around Zhang Shan and the rest, endless flames rose to the sky.

Zhang Shan saw that the situation was not good, and he quickly activated his God's descent skill.

If he didn't use his big move now, he probably wouldn't be able to hold on.

He didn't know what the scroll that Xuanyuan Ziyu had released was.

The boundless flames covered a huge area, and on top of Zhang Shan's head, damage values of 500000 kept popping up.

The damage of Xuanyuan Ziyu's scroll was very high.

If he did not use his ultimate, Zhang Shan would fall to the ground in less than two seconds.

zhang shan activated the skill {god's descent}. he withstood the damage from the scroll and started to fire at the players from the state of zheng.

this time, he was really anxious.

Zhang Shan had never thought that Xuanyuan Ziyu would be so ruthless.

Was there a need for scrolls to deal with the five of them?

The scroll had such a large area of effect and such high damage. Shouldn't he save it for the big battle later?

in order to deal with the five of them, xuanyuan ziyu had used a scroll.

This brother was really too ruthless.

Zhang Shan activated his ultimate skill and charged towards the players from the Zheng country.

As for his four companions, they had all fallen to the ground the moment Xuanyuan Ziyu's scroll had hit them.

In the face of such powerful scroll damage, no matter how strong their equipment was, it was useless.

He was instantly knocked out.

Only Zhang Shan was still standing.

After activating his ultimate skill, Zhang Shan's HP had exceeded 1.6 million.

His firepower had also increased by several times.

With his high health, coupled with Zhang Shan's powerful lifesteal ability, even if he had to withstand the damage from Xuanyuan Ziyu's scroll, it would not be a big problem.

However, even though it seemed like there was no problem for the time being, Zhang Shan was still very anxious.

That was because even though he had used his ultimate move, he couldn't get out of there.

He was surrounded by players from the state of Zheng, and he was surrounded by three layers.

No matter how fierce his attacks were, no matter how fast his speed was.

It was also impossible for Zhang Shan to kill his way out from the middle of millions of people.

Even if there were a few million wooden pillars blocking his way, he would not be able to break through, let alone the millions of players from the state of Zheng.

Of course.

From the looks of it, Zhang Shan would not die for a while.

After activating his ultimate, his firepower was very strong.

The bullets swept across the area, suppressing the players from the state of Zheng so much that they couldn't even raise their heads.

It was impossible for the Zheng players to reach him.

Unfortunately, this was only temporary.

His God's descent skill only lasted for one minute.

After the duration of the God's descent ended, he might not be able to suppress the players from the state of Zheng anymore.

even if he could suppress it for a while, who knew if xuanyuan ziyu would send another wave of scrolls?

if another scroll like the one he had just used was used after his big move was over ...

Zhang Shan would definitely not be able to hold on.

"I was too careless."

zhang shan could not help but feel a little regretful.

He had truly underestimated the players from the state of Zheng.

Zhang Shan had always felt that the Zheng country was a weak country.

When the Zheng players were at a disadvantage, they would most likely hide at the altar and not come out to fight.

however, the actions of the zheng country's players had completely exceeded zhang shan's expectations.

Not only did the players from the state of Zheng dare to come out, but they also did not hold back when they used the scrolls.

One had to know that items like scrolls were usually only used at critical moments.

Zhang Shan had not expected that Xuanyuan Ziyu would be so decisive.

He didn't give him any time to react. He immediately attacked with the scroll and beat his four friends to the ground.

Even Zhang Shan himself could not rush out in a short time.

He couldn't help but sigh.

"The Zheng nation also has ruthless people."

Zhang Shan rode on his horse and fired, charging left and right.

even though he was facing countless players from the state of zheng, he had no chance of escaping.

But Zhang Shan did not give up.

He continued to shoot and sweep, and he kept moving forward, trying to kill a way out.

Zhang Shan was thinking as he attacked.

If he had known earlier, he would have marked a coordinate on the World War map.

In that case, he could still use the positioning bead to teleport away.

He wouldn't have been trapped here by the Zheng players.

however, there was no such thing as 'knowing early' in this world.

When Zhang Shan had entered the World War map, he had not used the positioning ball to mark the coordinates.

The main reason was that Zhang Shan felt that the power of the Zheng country was much weaker than that of the Chu country.

This country war should be easy and there was no need to be too serious.

But now, he was screwed.

even if he wanted to set the coordinates now, it was too late.

The positioning ball could only mark the coordinates of the current location.

It was completely meaningless for him to mark the coordinates here, and it couldn't send him out.

Now that Zhang Shan wanted to escape, the only way was to fight his way out.

If he really couldn't kill his way out, then he had no choice but to die Here.

When the main force of Chu arrived, he would resurrect on the spot or let the support revive him.

as zhang shan continued to charge forward, xuanyuan ziyu commanded the players from the state of zheng to continuously adjust their positions and seal off his escape route.

Xuanyuan Ziyu had planned to wait for Zhang Shan's ultimate move to end before using another scroll to send Zhang Shan on his way.

The current Zhang Shan was like a tiger in a cage.

although it looked terrifying, they could not break out of the encirclement no matter how hard they tried. they were trapped by the players from the state of zheng.

If this continued, he would die sooner or later.

While Zhang Shan was still struggling on his deathbed, wind and cloud blade, who was lying on the ground, was constantly calling for help.

" boss, please come and save us. we're all dead. "

At this moment, Feng Yun realm, Eastern Sea Dragon King, freedom King, and 50 to 60 million Chu players were marching towards the altar in the state of Zheng.

After receiving wind cloud blade's call, he could not help but be stunned.

after wind and cloud blade entered the world war map, he formed a team with zhang shan and a few others and went hunting in the world war map.

He knew about this.

But the question was, why did wind and cloud blade need to call for help?

With Zhang Shan around, when they were hunting, would they still be able to encounter any strong obstacles?

Also, Windcloud blade had said that they were all dead. What did he mean?

Could it be that Zhang Shan had also died?

That's impossible.

In Feng Yun realm's impression, Zhang Shan's strength was so strong that it was unbelievable.

Especially when Zhang Shan had activated his ultimate skill, no matter how powerful the real name boss was, it could not do anything to him.

Would a person like Zhang Shan be cut down?

This was simply unimaginable.

Feng Yun realm asked Feng Yun one blade.

"You all died? How about six?"

Oh, the six-barreled boss isn't dead yet, but he'll be dead soon. He should be on the ground after his big move ends.

"What's going on? who can kill six tubes?"

"We're at the state of Zheng's altar and are prepared to intercept any players from the state of Zheng who are passing by. Who knew that the more they blocked, the more Zheng players there would be? in the end, there were millions of Zheng players gathered around. That's not all. That fellow, Xuanyuan Ziyu, came directly from the altar to support us. He used a scroll as soon as he arrived and killed us in seconds."

Windcloud blade said a long string of words, but he seemed to be speaking without much thought.

However, Feng Yun realm understood.

He couldn't help but sigh.

Zhang Shan and the others were really crazy. During the country war, they even dared to block the other party's door and kill.

Didn't they know how many people the other side would have during the kingdom war?

Furthermore, Xuanyuan Ziyu was a ruthless character. In order to deal with five people, he had actually used a scroll.

Feng Yun realm said to wind cloud blade.

we're on our way, but we probably won't be able to save Liu Guan in time. It'll take us a few minutes to run over from here.

alright, then we'll lie on the ground for a while. When you guys come over, we'll find a support to resurrect you.

Zhang Shan was not aware of wind and cloud blade's request for help.

Even if he knew, he wouldn't count on others to save him.

because zhang shan knew that no one could save him now.

After all, this was close to the sacrificial altar of the state of Zheng.

The altar of Chu State was on the other side of the map.

The distance between the two sides was about 15 minutes.

Even if Feng Yun realm came to his rescue, he would not be able to make it in time.

Zhang Shan could only rely on himself.

He wondered how many scrolls Xuanyuan Ziyu had on him.

He hoped that this guy would stop using scrolls.

Otherwise, he really wouldn't be able to handle it.

After a short while, the deity's descent's duration ended.

zhang shan's firepower quickly slowed down, and at the same time, his health returned to normal.

However, under normal circumstances, he still had more than 800000 HP. It would not be easy to kill him.

Without the blessing of the God's descent, Zhang Shan decided not to run.

He rode his horse and stood in place, his hand cannon continuously firing bullets in all directions.

Although he was not in the God's descent state, the damage to Zhang Shan's body was still very terrifying.

he could still suppress the players from the state of zheng around him, preventing them from reaching zhang shan.

Xuanyuan Ziyu, who was standing nearby, couldn't help but frown.

He had not expected that Zhang Shan would still be so strong even without the support of his ultimate move.

If they were to rely on the players from the state of Zheng here, who knew how long it would take for them to grind Zhang Shan to death.

Xuanyuan Ziyu didn't want to waste any more time here with Zhang Shan.

He took out another scroll and used it without hesitation.

Endless lightning fell from the sky, drowning Zhang Shan in an instant.

Zhang Shan stood in the middle of the lightning and only managed to hold on for two seconds before falling to the ground.

The scroll's damage was still quite strong. Without a high-level skill, he couldn't withstand it at all.

zhang shan lay on the ground, silently counting down.

Although Xuanyuan Ziyu had used a scroll to knock him down ...

But Zhang Shan would not die so easily.

He also had a passive skill called [rebirth], which could be activated ten seconds after he fell to the ground.

Zhang Shan was a man with two lives. He could still struggle a little.

If Xuanyuan Ziyu didn't use the scroll in the future.

Perhaps, he might not even die.
