

Chapter 187

"Yes, Master! Do it now!" The bodyguard replied.

Lanita's legs softened and almost fell to the ground. The reason why she could not fall was because she was supported by the bodyguard next to her. Arron's bodyguards were all very well trained. Since Arron had ordered it, let her watch Lanita, can't let the fetus in Lanita's belly make any mistakes, then the bodyguards will naturally take the responsibility.

Lanita was helped up.

However, Jarod and Moira both fell to the ground. The couple sat on the ground for a long time without reacting, only staring blankly at Arron's back.

"No..." Moira screamed and fainted on the spot.

Jarod also looked at his wife and his daughter supported by two bodyguards.

A family of three was taken care of like prisoners.

Arron walked out of the auditorium and came to his car. Christopher was waiting for him: "Master, Suzi was knocked over by a heavy truck and his whereabouts were unknown. The truck company also escaped."

Arron: "I see."

"Four Lord, where are you going now?" Christopher asked worriedly.

Arron withdrew from the wedding, Christopher was actually pleased. He did not approve of Master and Lanita getting married, but Christopher had no right to stop Master. Fortunately, Master braked and retreated in time.

Arron did not answer Christopher's words.

Where to go?

Arron didn't know, he only knew that at the most critical moment of marriage, he suddenly retreated.

Lanita is not the woman he wants. Most importantly, there is Suzi's marriage.

Suzi said that she was carrying his child in her belly. She said that she was the woman who had spent the night with him?

"Go to Suzi!" Arron said.

Christopher: "... " Where can I find it?

As if he knew what Christopher wanted to ask, Arron said, "Search the whole city."

Christopher: "Good Fourth Master." After he finished speaking, he started the engine and drove away from the wedding scene with a swish of his bike.

On the road, Christopher drove all the way, confessing to all the people, searching for Suzi all the way.

On this side, Jarod, Moira, and Lanita's family of three at the wedding were also escorted by Fu's bodyguard and sent back to Lin's house.

The servants were replaced in an hour.

The speed made Jarod shudder.

Fortunately, it was just a change of servants, who was just watching over the whole process, but not to the point of eavesdropping on their family of three. After arranging the servants, the bodyguard formation headed by Jarod said: "Mr. Lin, you better guarantee you The personal safety of your wife and your daughter, especially the children in your stomach. If anything goes wrong, unless all three of your family die, you are better off than life."

Jarod: "..."

When the bodyguard finished speaking, except for the gate, he only guarded the periphery.

Jarod had the opportunity to question Moira and Lanita: "I'll ask you two, what happened! Why did Arron suddenly repent? And also! Why is Suzi going to get married in the eyes of your marriage today? How did she know that she was pregnant with Arron's child?"

Moira looked at Jarod with tears up her eyes: "I... revealed it to her."

Chapter 188

Jarod: "What did you say?"

Moira hugged Jarod's leg: "Jarod, think of a way, what shall we do now? Arron locks us here, we will not be able to escape, if Lanita gives birth to a child, Arron knows it is not his. Child, he will torture us to death, Jarod..."

"Dad! Daddy, think about a solution, dad..." Lanita also cried and climbed to Jarod's side and hugged Jarod's legs.

Jarod's angry eyes widened.

He grabbed Moira by the hair, and asked fiercely, "What the hell is going on! Say it!"

Moira didn't dare to fight back, but the ninja said in pain: "I just want Arron to hate Suzi even more. I think that Suzi's reputation is so bad, he was insulted by Huo Jianshan, and Joan was insulted. Sandwiched with Sanford, they were slapped by the master of the Shu family and their disgust. Suzi was already notorious in the entire Nancheng, and Master Fu had already intervened in this matter.

If at this time, at the wedding of Lanita and Arron, we can make another fire and force Suzi to make trouble at the wedding of Arron and Lanita, Arron will definitely kick Suzi flying on the spot, and he will belly Suzi. The child here kicked her directly, and then ordered someone to kill Suzi.

I originally thought this way, and I thought that if this were the case, we would have no worries in the future.

I would never have thought that Suzi would be like this. Arron didn't kick her into the air, but just let the bodyguards blast Suzi out, not allowing the bodyguards to hurt her. I didn't expect it to be like this, Jarod! "

Moira cried with grievance and resentment.

She was explaining to her husband that she originally planned to directly wipe out Suzi. From then on, everyone can sit back and relax.

After hearing Moira's words, Jarod once again grabbed Moira's hair and almost smashed Moira's hair out: "You woman, you are so vicious! You do not say that you have taken everything about her, but you still want it. I thought that this way killed her! Why are you so vicious!"

Moira was hurt, and she cursed Jarod: "Jarod! It is you who don't want their mother and daughter! You are a ba5tard! You blame me now? If I don't kill her, Arron will Will kill us all!"

I'm all for you! For you!

You ba5tard! "

Jarod was suddenly decadent when he was scolded by Moira. He let go of Moira's hair, and looked at Moira with a sneer and decadence: "But what about the facts? The fact is that Arron did not kill Suzi, but we, He was put under house arrest by Arron.

After six and a half months, Lanita gave birth to a child. Arron would be able to confirm that the child in Lanita's belly was not his as long as he took it for a paternity test.

By then, we will all die miserably.

It's a terrible death, you know! "

"So Jarod, what should we do now?" Moira didn't have time to take care of Jarod's tousled hair, and asked Jarod crying and trembling.

Jarod is a man, he is calmer than his wife and daughter: "First of all, Suzi must die!"

Moira sneered: "Suzi should be dead by now!"

Jarod was startled again: "What?"

Moira said triumphantly: "I was originally a serial strategy. First, I took a group photo of Joan, Suzi and Sanford, and took an indecent video like that, and then asked Lanita to tell Suzi that she was the one who had been with Arron. The woman who passed the night would prompt Suzi to go to the wedding at all costs, and then completely anger Arron and let Arron kick her to death on the spot."

"But he didn't kick her to death!"

"So, I still have a spare trick!" Moira said viciously: "Even if Arron doesn't kick Suzi to death, Suzi can't survive, because as soon as Suzi walks out of the wedding scene, he walks on the road outside. , Someone will kill her!"

Jarod looked at Moira incredulously: "You bought the driver?"
