

Chapter 203

Where can they escape?

Suzi's eyes suddenly became sore, she bit her lip desperately not to let herself suffer, and she did not look at Arron.

Arron continued: "The daily income is more than one million! And he has to live here for at least one week. Do you say that his lost work expenses, medical expenses, nutrition expenses, and all kinds of expenses add up to more than five million? "

Suzi: "..."

"I don't see much, I should pay 10 million yuan!" Arron said flatly.

"Oh, Mr. Fu, thank you so much, thank you! You are right, you should compensate us 10 million!" Fatty Song became more confident.

Song Xingchen laughed at his age and was very fond of others. He yelled very sweetly with a small mouth, "Thank you, Uncle Fu."

"Huh! Even if you find a hundred uncles to help you, I am the only one who is not afraid of you, you are still my defeated man! Song Xingchen has a kind of you and me singled out, we fight, if I defeat you, You must not blackmail my mother!" A high-pitched and tender voice suddenly came from outside the ward.

Suzi turned his head back in shock, and saw Lilly standing at the door.

Sanford, who was already pushing the wheelchair and sitting behind Lilly, became an ice sculpture.

Sanford was really worried that Suzi came alone, so he pushed the wheelchair and led Lilly, went out and made a taxi and drove straight to the hospital. He

thought he was a man no matter how paralyzed he was, and he should stand in the front no matter what happened.

However, he never expected that he would see Arron here.

Sanford was stunned and couldn't even speak.

Song Xingchen, who stood at Sanford's feet, was proud: "Lilly, I don't stand up against you. I now have Uncle Fu to help me. If you don't kneel and kowtow, my Uncle Fu will kill you.

Not only to kill you, but also to kill your mother!

Humph!

Kneel down and kowtow to me! "Lilly's eyes widened, his hands clenched his fists, and before Song Xingchen could react, he rushed to Song Xingchen very quickly and pushed the triumphant Song Xingchen to the ground.

"Unique!" Suzi was frightened. She hugged Shen Unique in her arms and covered her ears and said: "Unique, run, run with uncle, don't care about things here, run away with uncle. ."

After speaking, she dragged Lilly to rush out.

But it was blocked by Christopher: "Miss Shen..."

Suzi looked at Christopher in fear.

Lilly also broke free of Suzi's hands, but shouted: "Mom, let's not be afraid of them. The only thing to protect mother and uncle is to protect me. I am not afraid of this ugly little fat man! Come on, Song Xingchen You have a kind of singles with me! I will kill you!"

The only person Shen patronized to challenge Song Xingchen did not even see Arron standing next to Song Fatty.

However, Arron saw Lilly truly.

The little girl is five years old, taller than her peers, thinner, and three-pointed like Suzi with a small face.

The other seven points are exactly the same as Arron.

Arron's heart was overwhelmed, and there was an unspeakable taste.

Six years!

He has been looking for them for six full years!

"Uncle Fu, help me kill Lilly, she is an illegitimate girl without a father! Little b!tch! uuu..." Song Xingchen was beaten and cried by Lilly.

Fatty Song on the hospital bed also grinned and yelled: "Oh, you little ba5tard, you dare to beat my son in front of us, and see if I don't live to stab you today!"

Fatty Song's wife had already rushed to the front, wanting to violently beat the only one by herself, but when she arrived, she was blocked by Christopher's raised wrist.

Arron squatted in front of Lilly and asked in a deep voice, "Your name, Lilly?"

Chapter 204

Lilly looked at the majestic man in front of him, and suddenly became timid.

She had seen this man on her mother's computer, and her mother often shed tears alone when she looked at the picture of this man in the dead of night. The five-year-old Lilly felt that her mother was crying because she was scared of this man.

What the mother is afraid of, the child will also have a fear.

Lilly was so frightened that he didn't dare to speak, and only slowly backed away.

Behind Arron, Song Xingchen became more and more frantic: "Uncle Fu, kill her! Kill Lilly!"

Sanford was scared and silly.

Suzi was also scared silly.

Lilly suddenly spoke bravely: "Will you let my mother go?"

"What?" Arron asked.

"My mother is very afraid of you. She will cry when she sees you. If you are willing to let my mother and my uncle go, I will agree with you to kill me." After that, Lilly looked at Arron timidly.

The five-year-old girl's slick eyes are exactly the same as those of Arron. If the girl walked inside the Fu Group, many people would definitely say that the girl came to Mr. Fu to ask for milk powder.

It's just that at this moment, Fatty Song and his wife were both excited, and they both arrogantly blackmailed Suzi, and their father didn't take a closer look.

But Christopher looked really real.

Christopher wanted to say to his father, "Master, are you here to give money for milk powder?"

But before he said this, he was calmed by Suzi's loud roar. "No! No...Arron, no! Please, Arron, the child is innocent. She is only five years old and she doesn't understand anything. Sanford is also innocent. Would you let them go? Let the

two of them fly far away, and never appear in front of you to bother you in this life. If you are willing to let them go, you want my life now, and I will give it to you now! I will give it to you right away!" Suzi Stepping forward, he pushed Arron away, holding Lilly tightly in his arms, and looking at Arron with horror.

Suzi knows how cruel this man is better than anyone else.

She helped him take care of his dying mother for more than two months. Even if there is no credit, she has toiled. He paid her only one hundred thousand, which is only for her own livelihood. She just broke a marriage he didn't want.

And he, as soon as he left the house, let a big truck hit her to death.

How cruel is that?

Suzi understood that Arron was definitely not a procrastinator, and since he found her, he would definitely let her die.

Arron smiled indifferently.

The smile seemed panicked in the eyes of Fatty Song and his wife, but Arron's tone was still calm and said: "Miss Shen, now is not a society of fighting and killing. No one in this world has the right to take your life privately. , I will not. I am just asking you for justice on behalf of my friend today, you just say, when can you take out ten million?"

Three days?

Or a week? "

Christopher: "..."

He really wanted to say, Lord, is there anyone like you who is selfless and righteous to destroy relatives? You may have forgotten that in the past six years, you have almost lost your hair when looking for them.

But Christopher was just slandering in his heart.

On the surface, he doesn't have any right to speak. Not only does he have no right to speak, he has to look at his face and act. His face was solemn, and Christopher could only look solemn.

Suzi looked at Arron desperately: "Ten million, you just killed my life, and neither did I. I said that my daughter and Sanford are innocent. Please let them go. I will take my life. Here you are!"
