

Chapter 207

The people who came down were also more decent than the other light.

However, standing behind Arron, they all trembled.

Sanford took a look at it, and there were some familiar and some face-to-face.

These are all the people with faces above the boundary of Quxian County, and today they all came outside his courtyard.

Just to welcome Arron?

This shows how powerful and famous Arron is.

Arron looked indifferently at these people like an emperor was watching his subjects, and said in a cool tone: "Fu is here for a little personal business, it is not convenient to meet guests!"

A group of people: "..."

Christopher stood up and gave orders: "Leave all of you within five minutes!"

Boldly asked: "Then, when can we invite Fourth Master Fu to dinner?"

Christopher said: "I'll talk about it tomorrow!"

"Okay, okay, we won't bother Fourth Master Fu, let's go first, but we will wait for Fourth Master Fu's summons at any time."

After speaking, they left quickly.

Everyone wanted to flatter the Fourth Master Fu from Yuncheng. Everyone wants to have a relationship with Fourth Master Fu, but they also know that they must not provoke Fourth Master Fu.

Outsiders left, only Suzi, Arron, Sanford and Shen Tong were left outside the courtyard.

Lilly nestled between Suzi's legs, scared to speak.

The little girl has always been naughty and deceitful, but in front of the stranger Arron, she did not dare to say a word in shock. Arron looked at Suzi coldly: "Just let me talk to you about compensation outside your house?"

Suzi looked around and didn't want to disturb the neighbors, so he opened the fence and let Arron in.

As soon as he entered the flowery courtyard, Arron had a refreshing feeling. He suddenly seemed to be in a dream, so he followed Suzi into the room.

The living room is large and not much furniture.

There is no high-end furniture, but there is a breath of life everywhere.

The place is clean and tidy, which makes people very comfortable.

Arron sat on the sofa like a master, looking at Suzi, Sanford, and Shen the only three with deep eyes.

"Four Lord Fu." Sanford said humbly: "Before in Nancheng, our Xu family couldn't compare with the Fu family. I have nothing to negotiate with you. Anyway, you want to get rid of the anger in your heart. Of.

It was I who saved Suzi, and then took Suzi away. Siye Fu, the enemy you are looking for should be me. You see, it's been six years. Suzi has never taken a child to harass you, and he won't do it in the future.

I promise that they will never interfere with your life again. "

Arron cast a look at Christopher.

Christopher immediately pushed Sanford and left.

"Brother!" Suzi shouted, then looked at Arron angrily: "Where are you going to push my brother!"

Arron couldn't bear Suzi, and only calmly said, "I pushed Sanford away because he didn't want to hurt his innocence. He is already paralyzed for you. Do you still want him to take his life for you?"

Suzi: "... " Just watched Sanford being pushed away.

Only Suzi and Shen Unique are left in the huge living room.

Lilly looked at Arron with a horrified look while his small body was protecting his mother: "It was Song Xingchen who beat me, you villain, beat me if you want to beat me, don't beat my mother!"

Arron suddenly asked gently: "Do you know what you should call me?"

Chapter 208

Lilly looked at Arron with a frightened look, but he didn't flinch at all: "Of course he knows what to call you!"

Suzi: "?"

Even when he just came back, Christopher, who was standing at the door, had his eyes widened.

This little princess, this is the first time I see my father, I know what to shout?

"Of course I called you a stinky villain! You stinky villain, you returned my uncle to me, where did you get my uncle! I'm fighting with you! The stinky villain!" Lilly suddenly rushed to Arron. Kicked and beaten Arron, tore and bite.

Don't even think that Lilly is only five years old, but the little girl is very energetic.

Especially when he was angry, his strength was even stronger, and his two short legs kept kicking Arron's legs and feet.

Arron had a pair of leather shoes worth hundreds of thousands of dollars in a few minutes before the little girl stepped on it.

Suzi on the side already shed tears of despair.

The only child has the same qualities as Arron in his bones, smart, strong, and unwilling to admit defeat. So at this moment, even if the little thing is so scared in her heart, she will still stand up and want to protect her mother.

Originally, Arron would not let them go, and let the only one make such a fuss, their mother and daughter 200% would have no way to survive.

That's good too!

Don't keep the only person in this world, she is lonely in the province.

Thinking like this in his heart, Suzi no longer prevented the only one to kick and beat Arron.

Arron had lifted Lilly up with both hands, but Lilly kicked even more happily. She kicked and beat Arron's legs, her two small hands also clenched her small fists, and punched Arron with one punch.

Whoops!

Christopher didn't even look at him behind him.

For so many years, no one in the entire Nancheng dared to sneeze loudly in front of the Fourth Master, let alone offend Arron. Not to mention that someone beat Arron.

In the past six years, this little princess has come out on top.

It really deserves to be a father and a daughter.

During the years of searching for Suzi, Christopher never suspected that the child in Suzi's belly was Arron's. Until he followed the Fourth Master to this remote small county, and after seeing the little princess, Christopher was even more sure that the little princess was the seed of the Fourth Master.

This can't be wrong.

"You stinky ba5tard, stinky ba5tard, you let me go, or I will kill you stinky ba5tard!" The little girl became more and more brave.

At first, Lilly thought that the man in front of her mother who was most afraid of him would kick her away. Who knew that she had stepped on his shoes so dirty, but he didn't fight back, just picked her up.

Lilly made another heavy punch, slamming Arron's eyes.

Ouch!

Christopher closed his eyes subconsciously.

Opening his eyes again, he saw that Arron had let go of the little princess, covering his eyes alone.

The loosened Lilly immediately ran into her mother's arms and cried and looked at Arron, as if she had been wronged.

Arron rubbed his eyes for a while, and after releasing it again, Christopher almost laughed.

The eyes that have been slapped are really a bit like pandas.

This embarrassing situation is really a gift for the fourth master to meet with a daughter.

Arron stood up steadily and looked at Suzi and Shen's only mother and daughter.

Suzi calmly said: "If you want to kill or slash, whatever you want."

After that, she looked at Christopher again, and said in a choked voice: "Assistant Yan, can you... can it be up to me... I once gave you a hand warmer. We mother and daughter, buried together again?"
