

Chapter 391

"The only one Li's wife?" Suzi hurriedly came to the kitchen and asked when she looked at Li's wife who was making soup.

Aunt Li smiled and looked at Suzi: "Mrs., why don't you sleep more? The little princess was picked up by Yan Zhu early in the morning, saying that she was ordered by the fourth master to take the little princess to the playground to play. The little princess was very happy when she went out. She told me not to disturb her mother to sleep."

"Um...Thank you Li Sao." Suzi smiled at Li Sao.

When I heard Sister Li say this, Suzi realized that as Christopher had said yesterday, today Arron is going to take her to learn to drive.

To learn to drive, naturally you can't take the only one.

However, Suzi, who is the only one who is controlled by Yan Broadband, is also very relieved.

After eating, Arron drove Suzi to the driving school they had visited last time. The last time they went to the driving school was near dusk, but this time, it was in the morning and on the weekend, but they came to the driving school. Later, Suzi found that there was no one else in the entire driving school except the principal, finance, and two or three coaches.

He watched Arron hand over the money to Finance, but the principal of the driving school only dared not accept it. When Arron repeatedly ordered: "Take it!", the principal dared to let Finance accept the money.

Twenty thousand yuan!

Is it 20,000 yuan to learn a driver's license?

Seeing the principal go in and give Arron the receipt, Suzi looked around, outside, looking everywhere, and then she whispered to Arron, "I...I don't want to learn a driver's license here. ."

Arron: "Why! I paid all the money."

Suzi had a bit of a complaining tone: "When you paid the money... and... you didn't discuss it with me. Besides, why don't you pay it yourself without taking a look at the situation here. Money?"

"What's the situation?" Arron looked at Suzi, who was babbling in a daze.

She is not like this normally, she is always calm and calm, what happened today?

"Look at this driving school, plus the principal, finance, coaches, all together, but four or five people, and such a remote venue, today is the weekend, Sunday, there is not even a student to learn to drive, just Such three or two coaches are still idle.

Which of the driving schools I saw before was not a coach followed by a dozen colleges, taking turns to learn to drive.

Business here is very deserted.

Being so deserted indicates that the reputation is not good and the coaching skills are not good.

For such word-of-mouth, they still charge 20,000 yuan? "

After all, Suzi has never had any money. Every penny she spends has to be calculated in her heart for a long time.

Learning a driver's license is 20,000 yuan, which really makes her feel distressed.

But after she said this, the man looked at her, she didn't know what kind of expression a man was, she looked weird.

"What...what's wrong?" Suzi asked.

The man sneered: "..."

At this moment, the principal came over and handed the receipt to Arron respectfully: "Four Lord, please take it away..."

Suzi seized the opportunity to ask the principal immediately: "The principal, may I ask, why don't you have any other students here to learn to drive?"

The principal replied with fear and sincerity: "Madam, you and Fourth Master are here, where are we daring to let others in. At the Fourth Master's order, the venue was cleared early in the morning."

"Clear the field..." Suzi was stunned.

Chapter 392

Suzi looked back at Arron incredulously. There was no expression on Arron's stern face. He just said, "Do you think that at your level, it's okay to be unclear?"

You can be scared by learning a car. If you run into or scare others, can you afford the responsibility?

Your life is worthless!

You are also a frequent visitor there!

But my daughter can't live without her mother! "

Suzi: "... " I know he is cruel, but he doesn't know his mouth is poisonous.

However, she didn't want to refute him.

Because I know I can't talk about him.

Suzi changed the topic: "Which coach do you want to teach me?"

"Me!"

Suzi: "..."

Falling into silence again.

But her heart has already begun to slander. This person really has too much money to bite his hand, and he doesn't need the coach here to teach him, and he has to pay 20,000 yuan. This is not what a bite of money is.

Seeing her calm, Arron didn't let her go, but sneered coldly: "Don't slander me in your heart! With your level, your qualifications, Quannam City has no coach willing to teach you.

So I can only teach you personally!

Now that we have used the venue here, we naturally have to pay the venue fee. Besides, you still have to get your driver's license from someone else's hands. Is it reasonable if you don't pay for it! "

In fact, what he really wanted to say was that he couldn't see any male coaches teach her to drive. If there was such a person, he couldn't guarantee that he would not slaughter the man himself. However, it is impossible not to let her drive.

He is getting busier and busier, it is impossible to drive her and the only one to work, to kindergarten every day.

Therefore, he can only spend time on his own and teach her his hands.

Hearing his remarks, Suzi was stunned.

Is he reasonable?

Can he still say the word 'reasonable'?

But she didn't dare to slander him in her heart. The man's city was really bottomless, and she could not deal with it at all. She never knew what he was thinking, but he guessed her thoroughly.

In a daze, the man had already taken out two big bags from the trunk, and one of them was handed to her: "Go, put them in the women's bathroom."

Suzi guessed it was clothes, so he took it to the women's bathroom.

It is a white cotton sweater with outer wear. It feels very portable and comfortable when worn on the body. Not only has the sweater and pants, but also a soft-soled flat shoes, which fits the feet. Putting on this dress, Suzi suddenly thought that this man was really strange, he had never greeted her in advance when buying clothes for her.

However, every time I buy her clothes, I can feel very close to her body. Every time, it's not fat or thin, just right.

When Suzi thought that every time she asked him how he knew her size, he would say: "Which part of your body I don't know? Is it my hand that didn't pinch it?"

Therefore, she is now learning fine.

She didn't ask anything.

However, Suzi would be stunned for a second when he looked at himself in the mirror of the women's bathroom when he put on this style and simplicity, but the quality and workmanship belonged to the high-quality casual wear.

His vision is indeed very good.

Every time she chooses clothes for her, they are so suitable for her, suitable for her appearance, and suitable for her temperament.
