

PEERLESS MARTIAL SOUL

Chapter 11: Monster fight!

The acquired six-layer monster black blood snake, and the acquired five-layer monster thick soil wild bear!

When Chen Feng couldn't practice, Yan Qingyu taught him a lot of miscellaneous studies, including the identification of various monsters and elixir.

Chen Feng held his breath, neither of the two monsters could be dealt with. He now has two thousand catties of power, roughly equivalent to the five-layer martial artist of the acquired day, and monster beasts of the same level are basically better than martial artists.

But his eyes also flashed with excitement. When the two beasts fight, they will die, and he might be able to get a bargain. And what moved his heart even more was that the black blood snake, a monster beast, likes to guard the heaven, spirit and earth treasure the most. Wherever black blood snakes haunt, there are heaven, spirit and earth treasures.

However, all he needs to do now is to wait patiently.

The giant bear was covered in blood, and its fur was damaged in many places. Even the sturdy scales were lifted up several times, revealing the flesh and blood underneath. The black blood snake also had several damaged scales, but it was not severe. Obviously the black blood snake had the upper hand, and the thick soil wild bear was more injured.

The thick soil wild bear suddenly let out an angry roar, a forward charge, and it seemed to be desperate to fight the black blood snake. The black blood snake shrank back, putting on a defensive posture.

But at this moment, the thick earth bear suddenly turned around, turned his head, and ran in the opposite direction. It turned out that its desperate posture just now was just a false move, and it was actually trying to escape.

Chen Feng was slanderous in his heart, and the thick-earth savage bear was also enough to be a thief. The IQ of these monsters is not inferior to human beings! He secretly reminded that he must be careful not to underestimate these monsters.

A trace of human-like cunning flashed in the eyes of the black blood snake, and the tail that was originally rolled up suddenly stretched straight, and it was drawn on the thick soil wild bear from the side. It turned out that it had been prepared for a long time, and it looked like a snake was curled up, but in fact it was prepared and ejected quickly.

After being beaten, the thick-earth wild bear tilted its body and slammed it heavily on the ground, letting out a screaming howl. The black blood snake rushed forward very fast, the snake body rolled, and the thick soil savage bear was rolled in it, and then the snake body was tightened hard, the bones of the thick soil savage bear made a cracking sound. Can't move, can only make a miserable roar.

The snake's body tightened and the roar became lower and lower. When the black blood snake released the snake's body, the thick soil wild bear was already squeezed into a pancake.

The black blood snake used its fangs to tear open the thick earthy bear's body, took out a walnut-sized earthy yellow crystal core, swallowed it in one bite, and then the snake turned around and left here.

After it left, Chen Feng dared to come out of the hiding place. The strength of that black blood snake was too strong, and the pressure it caused was too great, he did not dare to breathe just now.

Walking to the corpse of the thick earth bear, Chen Feng took a look and shook his head, disappointed. The thick soil wild bear's fur, flesh and blood were squeezed into a ball, it became pulpy, it was inseparable, and there was nothing valuable on his body.

Chen Feng also left here quickly, chasing the black blood snake.

Snakes have snake paths. Snake monsters, especially the places where giant snakes swim, will leave obvious traces, which are still easy to track. Moreover, the black blood snake was dripping with snakes along the way, and traces of corrosion on the ground would be seen.

Soon, Chen Feng came to the lair of the black blood snake.

This is the bottom of a stone peak, which is very hidden. You have to go around a boulder that is several stories high to see it. Around the boulder, surrounded by a pile of rocks and green trees, is a black hole one square meter square.

A rotten stench came from the entrance of the cave, and Chen Feng felt a little dizzy after taking a sip. The black blood snake is too poisonous!

But he keenly discovered that in this stench of stench, there was also a touch of extremely cold and elegant fragrance, which made people smell it and shocked.

"Great, there must be treasures of heaven, spirit and earth in this snake cave, maybe they are extremely precious medicinal materials!"

"But I am definitely not Black Blood Snake's opponent, it is definitely impossible to take it away by force."

"Then I will wait patiently. I don't believe that the black blood snake can't get out of the hole to find food. As long as it goes out, my chance will come!"

With this idea in mind, Chen Feng settled down not far from the black blood snake lair. He found a small cave to live in. On weekdays, he ate wild fruits, drank mountain springs, hunted low-level monsters and eaten meat, and then practiced. Guangming Mahamudra and Bedoro Leaf Golden Sutra.

The black blood snake is huge, if he goes out, he can definitely hear it.

Five days passed quickly.

Chen Feng's realm has stabilized to the middle stage of the fourth stage, which is very stable, and the meridians have been enlarged and more stable. Guangming Mahamudra is also more pure and proficient. But because there has been no spirit stone to absorb, his realm has not grown much.

On this day, Chen Feng was practicing cross-legged in the cave. Suddenly, he felt a tremor on the ground. He quickly got up and quietly touched the stone cave.

Then he saw the huge body of the black blood snake swimming out of the snake hole and into the dense forest.

Want to come, it should be looking for food.

Chen Feng's heart thumped, but he did not act rashly, but patiently waited for the black blood snake to leave.

When the black blood snake finally disappeared, Chen Feng jumped up and plunged into the snake hole.
