

## Peerless 1461

### [Chapter 1461: Powerful!](#)

The guard commander instantly changed his face and exclaimed: "This, this is a powerful strength that surpasses the Sixth Rank of Martial King Realm. How can you have such a realm? You obviously only have the Martial King Realm triple!"

Chen Feng smiled, with an icy smile: "This question, you can ask when you go to hell!"

In the next moment, the Dragon Slaying Sword had already slashed to the front frantically.

The guard commander desperately resisted, but it didn't work. The Dragon Slaying Sword slashed down frantically, across his body, and then fell deeply on the profound beast under him.

One person, one beast, and at the same time let out a terrible scream.

Then the next moment, his body and the huge body of the profound beast, which reached a height of one hundred meters, exploded into a \*\*\*\* mist with a thud and spread out.

The faces of the people onlookers were covered with blood, and their faces were full of shock.

"This Chen Feng is so powerful, a Wujun realm five-tier master, plus such a powerful profound beast, is not his opponent!"

Everyone shouted in shock.

And even Mother Wang showed a look of surprise on her face, and said softly: "Unexpectedly, his strength is really a bit."

Chen Feng flickered again and again, rushing into these guards.

None of these Lie's guards were his enemy with one move. They were all wounded by him, lying on the ground, screaming.

In a blink of an eye, hundreds of Lie's guards actually lay on the ground. No one can stand.

Chen Feng's swift and lightning-like figure that everyone couldn't see clearly, he stopped directly, revealing Chen Feng's appearance.

Then Chen Feng clapped his hands, shook his sleeves, and smiled slightly, as if it was not a few hundred martial arts masters who had just knocked down, but only a few hundred ants were trampled to death.

"We knew that Chen Feng was very strong, but we didn't expect to underestimate him. Hundreds of martial arts masters were easily beaten to the ground by him!"

"This Chen Feng is less than twenty years old, he is really a young man! With such a strong strength, it is no wonder that he can be favored by beautiful women."

Chen Feng looked at Grandma Wang and said with a smile: "Grandma Wang, can I take the senior sister away now?"

A mocking smile suddenly appeared at the corner of Mother Wang's mouth, and an ominous premonition suddenly surged in Chen Feng's heart, and he instinctively blocked Han Yu'er.

Suddenly the next moment, Chen Feng noticed that Grandma Wang swiped it and appeared directly in front of him.

The distance between the two was a few hundred meters, but Mother Wang suddenly appeared, as if the distance of several hundred meters did not exist for him.

Chen Feng was shocked: "The speed of this mother Wang is so fast!"

Then Madam Wang slapped Chen Feng with a punch. Her fist was white and tender and delicate, and it didn't seem to have the slightest power on it, just like a punch made by someone who doesn't know how to martial arts.

But in front of Chen Feng, this fist suddenly filled the space between heaven and earth, as if there was only this fist in the entire space in front of him.

Chen Feng was shocked to find that he was unstoppable and inevitable.

Then the next moment, he banged, was beaten out hundreds of meters, groaned, blood spilled from the corner of his mouth, and he was already slightly injured.

The people around us exclaimed in unison.

"What's the origin of this grandmother Wang? It is so powerful? Chen Feng, who can easily defeat the five-tiered master of Martial Sovereign Realm, can't handle even a single move under her hands?"

"That's right, and she was about to beat him to death with a single punch. The Lie family is really unfathomable. A grandma has such a powerful strength!"

Mother Wang smiled, her figure flashed, and she walked hundreds of meters before she appeared directly in front of Chen Feng and punched again.

This time, Chen Feng still couldn't resist at all, he suddenly understood what was going on.

Because the realm of Grandma Wang was much higher than him, she completely suppressed him!

Chen Feng was blown away again, and this time, Chen Feng spewed out blood!

Then there was another punch, and then another punch...

Mother Wang punched five punches, each of which blasted Chen Feng hundreds of meters away. After the five punches, Chen Feng was directly beaten from one end to the other.

He was already seriously injured, and he spewed a dozen mouthfuls of blood, even mixed with internal organs.

Chen Feng had absolutely no power to fight back in front of her.

Everyone's eyes were deeply horrified: "This man is simply a master who only exists in the legend!"

Just when Mother Wang's fist was about to hit Chen Feng again, suddenly, her fist stopped in midair abruptly.

Because at this time, a cry came, and a figure rushed directly on Chen Feng's body, blocking the blow with his body.

If Mother Wang continued with this punch, it would hit her.

This person is Han Yuer.

She turned her head, looked at Mother Wang dimly, and shouted: "Don't fight, I beg you, don't fight!"

Mother Wang still looked cold, and said lightly: "Miss, come back to the house with me!"

Han Yuer nodded again and again: "Okay, okay, I'll go home with you, don't fight anymore!"

As she said, she turned around, kissed Chen Feng on Chen Feng's forehead affectionately, and said affectionately: "Junior Brother, I really can't bear you, but I have to go back."

A deep sadness appeared in Chen Feng's eyes, and he stretched out his hand to hold her, but in the end, his finger hovered in the air and did not reach out.

At this time, Chen Feng realized how arrogant and arrogant he was just now, that he actually thought he had the strength to challenge the Lie family.

But everyone did not know that a grandmother from Lie's family could beat herself like this!

But Chen Feng didn't have the slightest sense of frustration or despair in his heart. Instead, in his eyes, the flames burned and the fighting spirit was high.

A voice shouted loudly in his heart: "I will definitely be able to rescue Senior Sister. One day, I can compete head-on with Lie's family!"

Mother Wang grabbed Han Yu'er's wrist, turned her head, and glanced at Chen Feng lightly, looking down like an ant, without putting him in her eyes at all.

She said calmly: "Your name is Chen Feng, right? Arrogant! Ignorance!"

Talking, sneered, grabbed Han Yuer and left here!

Three days later, Chen Feng came to the General Assembly of the Daqin Alchemist Association.

At this time, his injuries did not recover. On the contrary, due to the battle three days ago, Chen Feng's injuries are now more serious than before. Three days ago, he was severely injured and vomited blood by the grandmother Wang.

When he came to the general meeting of the Alchemist Association, Chen Feng felt the abnormality here.

In the hall, the crowd was surging, and there were at least ten times more people than before. There was a black head of people in the hall, all wearing white alchemist robes.

[Chapter 1462: Newcomer alchemist competition!](#)

They all squeezed in one direction.

In the crowd, there are voices from time to time: "This time the reward is so generous?"

"Yeah, God, this turned out to be an eight-stage early stage pill. The highest-grade pill I have ever seen in my life is only a fifth-stage pill!"

"Haha, this eight-level pill can be said to be invaluable. If it is placed outside, it can even be replaced by a county like Qingzhou Mansion!"

"Yes, very precious!"

Someone shouted: "But, I want this Mahayana soul-casting pill to be of no use. The effect of this pill is to re-condense the martial soul for those who have broken martial souls. Have my martial soul broken? ..."

The man laughed and said, "If my spirit is broken, most of them will also die, and this pill will never be used.

Someone nearby laughed disdainfully and said: "First, you can't get the first place in this competition. Second, are you blind? Didn't you see what is said below?"

"On this jade board, the writing is clear and clear. If you don't want this pill, you can go to the Alchemist Association for 30 million yuan stone!"

Many people didn't pay attention to this detail. At this time, they quickly looked down, and after seeing that the writing was really true, many people took a breath of excitement on their faces.

"Thirty million yuan stones! This is equivalent to all the assets of a big family among the five great families!"

"Yes, with these 30 million yuan stones, as long as the talent is not too bad, you can even pile an ordinary Martial King Realm powerhouse all the way to the Seventh or Eighth Martial King Realm, or even the peak of the Martial King Realm! "

"Haha, if you can win the pharmacist association this time, the young pharmacist will be the first in the competition, he must be a genius, the talent of refining medicine, the talent of martial arts, how can it be so bad?"

Chen Feng also squeezed forward to look, only to see a huge jade card hung on the deepest wall of the Alchemist Association. At this time, two lines of words flashed on the jade card.

It turned out that after three days, it was the day for the newcomers of the Daqin Alchemist Association to compete.

The Daqin Apothecary Association Newcomer Competition is held once a year. The requirement is that young pharmacists under the age of 30 must participate. The intention is to select outstanding talents for the Alchemist Association and inject fresh blood.

The Association of Alchemists also attaches great importance to this.

After all, these outstanding young pharmacists will be the backbone and backbone of the pharmacists association in the future.

Therefore, the reward is extremely generous.

And for the same reward, it was actually the Mahayana Soul Casting Pill!

Seeing the word Mahayana Casting Soul Pill, Chen Feng's heart was full of enthusiasm: "God, this is the pill that Chen Feng wants most now!"

In normal times, it can be said that it is almost impossible to obtain an eight-pin pill, and it is such a rare eight-pin pill, but this time, he has such a good opportunity before.

As long as you win the first place in this newcomer contest, you can get this Mahayana soul-forging pill!

Chen Feng immediately made a decision in his heart and murmured: "This number one can only be mine. The Mahayana Soul Casting Pill must also be mine!"

At this time, on the jade board, suddenly there was another handwriting.

After reading the handwriting clearly, there was a loud voice in the hall, almost as if to explode the pot, almost lifting the roof.

"Oh my God, the second reward turned out to be so, this is an opportunity to climb the sky in one step!"

"Yes, with a fief and a noble name, you can enter the aristocratic class of the Great Qin Kingdom in the future, and if it develops well, a new family will be born! Maybe in a few decades, The five great families are about to become the six great families!"

Another young and frivolous voice laughed and said, "Maybe the four great masters will become the five great masters!"

The person next to him suddenly laughed, apparently thinking that he was too arrogant.

It turned out that the second reward was the grace that the Alchemists Association asked for from His Majesty the Emperor of the Great Qin Kingdom.

The newcomer will get the first place and will get a fief near the Eastern Blue Dragon Mountain Range. The fief is very large, almost equivalent to a county, and since they have obtained the fief, they will naturally have a considerable title of nobility, which can be said to be a step away. Stepped into the aristocratic class.

Chen Feng gasped, and this time the Association of Alchemists had really lost money.

This second reward can even be said to be more precious than the first reward.

In the Great Qin Kingdom, there is an insurmountable gap between the nobles and the common people. Even if their strength is extremely powerful, they are still common people, and they still want to succumb to the nobles.

Because of the nobles, they have the powerful army of Daqin and the most powerful warriors who belong to the court. If they offend them, they will be killed.

It is very difficult to become a nobleman. Not only must he have a fief, be strong, but also have military merit. But now, what is in front of everyone is an opportunity to rise to the sky.

As long as there is more than the first, then everything will be owned.

Chen Feng's eyes flickered, and his heart was hot. He didn't think that young and frivolous voice was wrong.

A voice yelled in Chen Feng's heart: "How about the four great princes? What about the five great families? Give me decades, no, just give me a few years, the four great princes will become the five great princes!"

"And I can even stand side by side with my master Long Shenhou!"

The atmosphere in the hall was ignited.

An old man in a white robe appeared quietly, hovering in the air, looking at everyone, and said lightly: "I am the vice president in charge of the newcomer pharmacist competition. You can call me Elder Liu."

"Now, all those who want to participate in the competition, come to me to sign up."

Then, hundreds of jade tiles appeared out of thin air in front of him, hovering there.

Everyone rushed to sign up, saying their names, where they came from, the level of alchemist,

Every time a person finished speaking, Elder Liu checked it, and then all the information of that person appeared on a kid's jade board. When he lifted his hand, the jade board fell into that person's hand and said lightly: "This A piece of jade board is your proof of participation in this competition, don't lose it."

The man nodded quickly.

Soon, hundreds of people signed up, and it was Chen Feng's turn.

Chen Feng said slowly: "Feng Chen, from Suiyang Town, a third-class alchemist."

"Oh? Feng Chen? Is he Feng Chen?"

After hearing the name, everyone suddenly exclaimed.

Everyone's eyes fell on Chen Feng, and there was a voice of discussion below: "This is Feng Chen, who was in the limelight in the Pharmacists Association some time ago?"

#### [Chapter 1463: Arrogant Qi Gongzi](#)

"Yes, that's him. He killed the Prince and Young Master Ling that day. He was really powerful, not afraid of heaven and earth!"

"Yes, this person is not only strong in martial arts, but also has an outstanding talent for refining medicine at a young age. He is already a third-rank pharmacist!"

Hearing the voice of the crowd, there were also many people in the crowd, and there was a trace of hostility in the eyes of Chen Feng.

These people's pharmacists are generally quite capable, rebellious and self-esteem, they feel that they have been robbed of the limelight by Chen Feng.

But there are a few people who don't even look at Chen Feng and look indifferent. These people are the most powerful kind, and they don't even bother!

One person exclaimed, "If I had half of Feng Chen's, I would be content."

At this moment, there was a powerful pharmacist next to him, who looked at him disdainfully, and said with a cold snort: "It's really an unseen bitch. Feng Chen's strength makes you so excited. If you are half of him, wouldn't you even be unable to keep up with my tenth?"

As he spoke, he burst into laughter.

There were several pharmacists next to him, but they all praised in unison, saying: "Yes, Master Qi is right!"

"Haha, Master Qi, how can Feng Chen compare to you, he is not even worthy of giving you shoes!"

"Prince Qi, if you want me to say that you put yourself and Feng Chen together, that would be a surrender of your status!"

The master Qi laughed proudly and looked at Chen Feng provocatively. Chen Feng only frowned slightly, but didn't even look at him.

This kind of contempt made Qi Gongzi's face even more ugly!

"Are you Feng Chen?" Elder Liu gave Chen Feng a thoughtful look and nodded slowly.

After everyone had received the number plates, Elder Liu said loudly: "Tomorrow morning, the big competition will begin, and you will be divided into teams by selecting the best."

"Refining medicine naturally needs a medicine refining cauldron. If there is no medicine refining cauldron, you can temporarily borrow one from the Pharmacists Association."

"Of course, the medicine refining cauldrons provided to you are the most common medicine refining cauldrons, without any special features, because financial resources are also part of the strength. With a good refining cauldron, the chances of refining high-quality medicine pill are greater. "

"So, I won't force the so-called fairness, let everyone use the same medicine cauldron. If your medicine cauldron is good, you can develop better medicinal pills. Then, this is your strength!

Everyone nodded, and no one was unconvinced. What Elder Liu said made sense!

"Alright," Elder Liu said with a smile: "Now, if you don't have a medicine cauldron, you can come forward and get it."

His voice fell, and with a wave of his hand, hundreds of people walked in, holding the medicine cauldron, and placed them in a row.

All medicine cauldrons are the same, there is nothing surprising, Chen Feng felt it, this medicine cauldron is the most common kind, the material is ordinary, and there is no special ability. This kind of medicine cauldron is used by the alchemist. In the mouth, it is called the white board medicine pot.

Many pharmacists come forward to receive them. After all, the medicine cauldron is extremely expensive, and although many pharmacists are richer than ordinary warriors, they are still unbearable.

Chen Feng thought for a while, and walked forward slowly and received a white board medicine pot.

Seeing this scene, Young Master Qi laughed and sneered disdainfully: "Feng Chen, don't you even have your own medicine cauldron?"

"Haha, such a poor man doesn't deserve to be called a genius? It's ridiculous!"

He ridiculed Chen Feng mercilessly: "Feng Chen, I advise you to go back to your hometown in Suiyang County. Emperor Qin is not a small place like you, and it's not like you can mix."

"A person like you might be called a genius in that small place, but in the capital of the Great Qin, you are not even considered a fart!"

Chen Feng glanced at him faintly, and there was a slight cold color in his eyes: "Is this person sick? It's not over yet?"

Chen Feng looked at him with a cold gaze. For some reason, Young Master Qi shivered suddenly, a great fear arose in his heart, and he involuntarily lowered his head, not daring to look at Chen Feng.

But then, he became furious: "How can I be afraid of him? How can I be afraid of such a pariah?"

He felt that he was humiliated, and then immediately stared back angrily, but at this time Chen Feng had already turned his head.

Seeing that Chen Feng had received the whiteboard medicine pot, many people were a little surprised, and they whispered.

"Could it be that Feng Chen is a fake genius? He doesn't even have his own medicine cauldron?"

"It doesn't make sense, let alone someone like him, even if they are weaker, they have their own special powerful medicine refining pots!"

"In my opinion, Feng Chen is mostly in vain."

As for the great alchemists who were originally hostile to Chen Feng, all of them showed disdain. They had already decided that Chen Feng was a vain name and did not have such a strong strength because he even had his own medicine. Ding is not there.

When Chen Feng saw this scene, he shook his head slightly and chuckled.

The reason why he received the whiteboard refining pot was just because he didn't want to expose his hole cards too early. These people were really superficial.

You know, Chen Feng's medicine cauldron is definitely better than most of them!

Chen Feng is determined to win, so he will act more carefully.

Early the next morning, the newcomer alchemist competition officially began. [novelusb.com](http://novelusb.com)

The location of Dabi is on the huge square in front of the Alchemist Association.

At this time, hundreds of arenas have been erected on the square, and many stands have been erected around the square, with many people sitting densely on it.

The Alchemists Association's newcomer Alchemist Competition has always been an annual event in Wuyang City, the capital of the Great Qin Emperor, and many people came to watch.

On the central stand, there were more than a dozen elderly people sitting. On top of the badges worn on their chests, the least was seven small tripods, and the most, even reached nine small tripods, indicating that this person has already reached The realm of the Nine-Rank Alchemist is very powerful.

This is the first game of the big competition. The subject is very simple. It is to refine a second-grade pill. Whoever practices it the fastest will win.

And if the two have the same speed, then the one with higher quality will win.

And if the speed and quality of the two are tied, then there will be an extra round!

Chen Feng stood on the ring, looking at his opponent.

His opponent was a twenty-five-six-year-old young man, a little older than Chen Feng.

He looked at Chen Feng with provocations in his eyes. Suddenly, he said loudly: "Feng Chen, I know you, you are very famous, you are known as a genius alchemist!"

"But a pity, you will be my stepping stone today!"

Chen Feng frowned and glanced at him without speaking.

#### [Chapter 1464: first round](#)

Seeing that Chen Feng hadn't spoken, this person thought Chen Feng was timid. He suddenly laughed, his momentum changed and he suddenly rose up.

His aura was originally a second-rank alchemist, but now he has directly reached the realm of a third-rank alchemist.

He looked at Chen Feng with a look of contempt and arrogance, and said: "Feng Chen, I didn't expect it, my strength is not a second-rank alchemist, but a third-rank alchemist."

"I broke through ten days ago. I concealed this secret just to make a blockbuster in today's competition!"

Chen Feng looked at him and shook his head slowly, feeling quite ridiculous in his heart, this person just broke through the third-ranking pharmacist, or is a very weak third-ranking pharmacist, he still wants to be a blockbuster?

Really think a little too much.

The man saw Chen Feng shaking his head, his face became cold, and said, "Feng Chen, what are you laughing at?"

Chen Feng looked at him and smiled slightly: "I laugh at you overpowering yourself!"

"I can't help myself?" The person's face turned cold, and he said with a cold voice: "Feng Chen, I will make you defeat very miserable this time, with no face!"

"Aren't you called a genius pharmacist? Okay! I will grab your title as a genius pharmacist and let you be the first stepping stone on my road to success!"

"As long as I replace you, I will become a genius alchemist!"

Chen Feng shook his head and chuckled slightly, without paying attention to him at all.

When this person saw Chen Feng doing this, his heart was even more angry, and he said loudly, "Feng Chen. You don't have to pretend to be here, I know you must be very flustered now!"

"I'll wait for a while and hit you in the face!"

Soon, a maid delivered medicinal materials, and the medicinal materials in front of everyone were the same, a total of 100 kinds.

There are thirty-seven kinds of medicinal materials needed to refine this second-class pill, and the dosage of each medicinal material is one catty, and the dose required for each medicinal material to refine this second-class pill will not exceed Ten grams.

Therefore, every pharmacist needs to accurately select the type and dosage he needs from the pile of medicinal materials in front of him.

This level alone will stump many people!

At this time, a jade bell next to the ring was lightly knocked, and with a soft sound, all the jade bells next to the ring were ringed at the same time.

Then Elder Liu's voice resounded throughout the square: "Now, the test begins!"

As this sentence fell, on the hundreds of arenas, almost everyone was busy.

They took out their medicine cauldron very quickly, and then started to choose the medicine they needed from the pile of medicines in front of them.

Chen Feng's opponent was no exception. He did not receive the white board medicine cauldron, but took out a medicine cauldron from his mustard bag.

This medicine refining cauldron, about one meter high, with the color of bronze, seemed to be alive, but it was definitely far behind Chen Feng's refining cauldron.

He directed at Chen Feng and smiled triumphantly: "Feng Chen, have you seen it? This is my medicine refining cauldron. This is a second-grade medicine refining cauldron. I don't know how much stronger it is than your white medicine refining cauldron! The efficiency of refining medicine must be at least five times higher!"

Chen Feng smiled slightly, disdainful in his heart.

His medicine cauldron didn't know how much higher it was than this person's medicine cauldron. This person was really ignorant, and he even dared to brag in front of him like this.

Chen Feng smiled and looked at him and said: "You can start quickly, there is not much time left for you."

This person was taken aback for a moment, waiting for Chen Feng and said, "What do you mean?"

Chen Feng shrugged: "It doesn't mean anything, just remind you to hurry up!"

The person hesitated for a while, and seemed to come back to his senses. Seeing that everyone around him had already begun to choose medicinal materials, he hurriedly chose medicinal materials from before him.

It took him about a cup of tea to select all the medicinal materials and put them in the medicine cauldron.

At this moment, he looked at Chen Feng and saw that Chen Fengfeng was standing still, he immediately felt relieved, he took a long breath, and a smug smile appeared at the corner of his mouth: "This time I will win!"

Then he looked at Chen Feng and laughed loudly: "Feng Chen, are you stupid? Why don't you even choose medicinal materials? Is it possible that you don't even know which medicinal materials are needed for this medicine? Am I right?"

Chen Feng smiled slightly and said nothing.

At this time, in the stands, many people also saw this scene, and they talked a lot.

"Is this person stupid? How to choose medicinal materials without doing it?"

"Yeah, doesn't he even know the medicinal materials? Shouldn't he, or is he too nervous and has been scared stupid?"

"I think there must be something strange. He is Feng Chen, a genius alchemist who is well-known for Daqin. He is already a third-rank alchemist before he is twenty! It's impossible not to be."

"Yes, I think so."

Many people are staring at Chen Feng, still have high expectations of him.

Then, Chen Feng's opponent began to refine, and soon, in his alchemy furnace, these medicinal materials had been turned into liquid medicine, and then began to slowly condense.

The second grade pill is indeed easier to refine, and he is about to succeed.

He looked at Chen Feng very proudly at this time, and laughed loudly: "Feng Chen, you are finished this time, I will definitely win this time!"

Because at this time, Chen Feng still stood still and didn't move!

At this point, a quarter of an hour has passed since the start of the game.

Many people have already succeeded in refining, and Chen Feng is still standing here without moving. The expressions of the people on the stands have also changed.

"What the \*\*\*\* is Feng Chen doing? Why haven't you started it yet?"

"I see, there must be something wrong with his name as a genius pharmacist. What kind of genius pharmacist is this person? Obviously, he is not as good as an apprentice of a pharmacist!"

"Yes, it's just a rubbish, what \*\*\*\* genius?"

Everyone opened their mouths to insult.

At this moment, Chen Feng smiled slightly, looked at his opponent, smiled and said, "Your name is Xu Chun, right?"

"Yes, yes!"

Chen Feng pointed at him, only to say three words: "You lost!"

The voice was extremely domineering, as if making a sentence, Xu Chun was immediately stunned, and said in disbelief: "What did you say? You said I lost?"

"Are you crazy? I have half a cup of tea to successfully refine the pill. You said I lost?" *η0vElusB.Com*

Chen Feng looked at him and said, "You have half a cup of tea, don't you?"

Xu Chun proudly said, "Yes!"

Chen Feng smiled slightly: "One tenth of a cup of tea is fifty breaths, okay!"

Chen Feng smiled slightly and suddenly moved.

Chen Feng brushed it, his figure flashed, and he came to the medicinal materials, and then began to pick from them at a very fast speed.

In just ten breaths, he has selected all the medicinal materials.

#### [Chapter 1465: Humiliation](#)

Then, he opened the white board medicine cauldron and threw the medicinal materials directly in, then lit the flame below, and then began to control the flame and burn slowly.

Although Chen Feng's own profound fire had disappeared, he was still extremely powerful in controlling the flames. At this time, controlling these flames was also extremely dexterous.

After another ten breaths, the liquid medicine in Chen Feng's medicine cauldron had all been melted.

Then after another ten breaths, there was a sudden buzzing sound. There was a buzzing in Chen Feng's white board medicine cauldron, and the top cover suddenly flew up.

With a swipe, a pill flew out of it, and Chen Feng stretched out his hand, the pill fell into his hand and turned around.

With a smile at the corner of Chen Feng's mouth: "Xu Chun, look, did I win?"

At this time, Xu Chun's pill was not formed at all.

Xu Chun looked at this scene, completely frightened, and did not react at all.

Because Chen Feng started to finish refining the pill. It took less than fifty breaths!

Fifty breaths, not enough for one percent of the time he had just used up!

He pointed to Chen Feng, and it took a long time to react, and shouted in disbelief, "You, how could you be so fast? How long did you use it, it's impossible?"

He almost broke down and shouted out of control: "How could you be so fast? You took less than fifty breaths!"

On the stands, those who followed Chen Feng were all inattentive. After seeing this scene, they were completely shocked.

They were stunned for a long time before they burst into a loud discussion.

"Have you seen it clearly? Feng Chen has refined this pill in fifty breaths!"

"That's right, from the beginning to the end he refines the pill. The time is very short, the speed is very fast, and the technique is dazzling, so we can't see clearly!"

Someone said with some shame: "We ridiculed him before, but now we know that he is really a genius pharmacist. If he were not a genius pharmacist, he would definitely not be able to do this!"

"Yes!" Everyone talked a lot, looking at Chen Feng, the contempt and suspicion just now disappeared without a trace, replaced by a strong respect and admiration.

At this time, the referee next to him took a look at the pill in Chen Feng's hand, took it in his hand, carefully checked it, and then announced loudly, "Feng Chen, the 67th ring, is the first to complete it. It takes a quarter of an hour and a half. A cup of tea, alchemy and color, super quality!"

When many people heard this voice, they turned their heads to look at Chen Feng. Just now, they didn't pay attention to the ring where Chen Feng's group was, and they didn't know what happened just now.

After someone heard this, he shook his head slowly: "It takes a quarter of an hour and a cup of tea, but I can't say it slowly, but it doesn't match Feng Chen's identity as a talented pharmacist. It seems that his talented pharmacist is indeed strange. ."

"Yes, some have false names." Someone said disapprovingly.

They didn't know how horrifying what Chen Feng did just now, but they just came here to speak out when they heard the result.

Because not many people paid attention to Chen Feng's ring.

As for Chen Feng, although he didn't move just now, he had to time it from the beginning, so his alchemy completion time wasn't very impressive.

Only those who have really watched Chen Feng's performance will know what a shocking thing he did to me just now.

Chen Feng looked at Xu Chun, smiled and said, "I seem to be faster than you, oh no, I seem to be much faster than you!"

Xu Chun's whole body was lost, as if he lost his soul in an instant.

He felt hot on his face, and the words he had just said echoed in his heart. Every time he thought of a sentence, it was like a big slapped slap on his face, making him extremely ashamed.

He felt that he was really ridiculous just now, and he dared to speak to Feng Chen like that. Feng Chen's strength and Feng Chen's pill refining strength were beyond his match!

"I was really crazy just now, I was so ridiculous just now, what I said just now is enough to make me remember it forever!"

"Feng Chen didn't humiliate me, I was humiliating myself!"

"Everything I say makes me ridiculous!"

He snapped, suddenly slapped his face a few times, and then he looked at Chen Feng, his face was ashamed: "Feng Chen, sorry, I was wrong just now, I shouldn't talk to you like that. Self-infuriating."

After finishing speaking, he smashed the medicine cauldron in his hand fiercely, without looking back, swept down the ring and ran away quickly!

Even the referee was stunned, and only a moment later announced in a loud voice: "Feng Chen wins the 67th ring."

Chen Feng's mood is unwavering, this is just the first game of this competition, but it's just the beginning.

Soon, in each arena, the winner was basically decided.

The first round of competition is over.

Everyone left one after another and walked out. Many of the young pharmacists who performed extremely well in this competition were sought after by many families.

This time, the young pharmacist conference is actually a conference where the major families in Wuyang City select pharmacists for their families.

The young pharmacists who performed well this time will be recruited by major families and hired heavily to be the exclusive pharmacists of their own families.

You know, if a family has such a powerful alchemist, it can even increase the family's strength by more than 30%!

Every year, the newly emerging young talents in the Alchemist Conference are sought after by major families, and some families even marry their daughters to him to win over.

At this time, although it was only the first round, the level of strength can also be judged. There are many young talents who are sought after by major families when they leave the square.

Those nobles in luxurious clothes leaned forward and approached them with a very flattering attitude.

But what they saw was the length of time each person spent, so in their eyes, Chen Feng did not perform well.

Therefore, there was no one around Chen Feng, and Chen Feng didn't care, and walked out silently.

Suddenly at this moment, a person stood in front of him.

Chen Feng raised his head, frowned, and saw that it was Master Qi.

At this time, Chen Feng already knew the origin of this person. The Qi family was a first-class family under the five great families in Wuyang City. Among the first-class families, it should be regarded as the last.

But this does not prevent him from being arrogant in front of ordinary civilians. This person is very flattering in front of nobles, but he is very rampant in front of civilians.

This person is named Qi Zhang.

Qi Zhang looked at Chen Feng, curled his mouth, revealed a disdainful smile, and smiled: "Oh, isn't this our genius alchemist Feng Chen?"

"Why? This time, Feng Tiancai, how long did it take you to finish refining the pill?"

Chen Feng frowned and ignored him, preparing to walk around.

Unexpectedly, Qi Zhang once again stood in front of Chen Feng and laughed: "Why, do you want to go if you lose someone? How can there be such a cheap thing?"

He said very contemptuously: "Do you think I don't know if you don't say it? Haha, it took our Feng Tiancai a full quarter of an hour and one cup of tea, that is, a full four cups of tea, to refine the pill Finished!"

#### [Chapter 1466: second round](#)

"Tsk tusk..." He tusks twice, looking at Chen Feng, hanging his eyes, with extremely disdainful attitude: "How about a genius? A \*\*\*\* genius!"

"I have never heard of a genius that takes so long to refine the second-grade pill, hahahaha, Feng Chen, you really made me laugh!"

He proudly said: "Do you know how long I have used it?"

By his side, several attendants immediately said: "Feng Chen, my son has only used a cup of tea!"

"Yes, the time is a quarter of yours, and the refined product is of superb quality!"

"Haha, what kind of \*\*\*\* genius are you? Comparing with our son, it's a complete trash!"

Young Master Qi laughed and looked at Chen Feng, very proud.

There were many people onlookers around, and they all echoed: "This Feng Chen is indeed far behind Qi Zhang."

"It took Qi Zhang a quarter of his time to develop superb quality, but Feng Chen, with the name of a genius pharmacist, has spent so long, absolutely no name!"

Qi Zhang looked at Chen Feng and said, "Feng Chen, have you heard? I am now looking forward to meeting you in the next round. At that time, I will make you faceless, and I will let you be in front of everyone in Wuyang City. All ashamed!"

Chen Feng looked at him with cold eyes.

He wanted to keep a low profile and didn't want to make trouble, but this Qi Zhang was repeatedly provoking, and he had already touched the bottom line he could bear.

He has now decided to teach this surname Qi a tough lesson.

Chen Feng pointed to Qi Zhang with a cold voice: "Qi Zhang, I am also very looking forward to being able to draw a group with you in the next round!"

Qi Zhang was taken aback, then furious, and shouted sternly: "Feng Chen, you are provoking me! You are really overweight, I want to defeat you, easily, you still want to share with me. group?"

"Okay, how about we make a bet?"

Chen Feng said, "How to bet?"

Qi Zhang said: "If the two of us can be grouped together, if whoever loses, we will give the winner a hundred knocks, kneel at the other party's designated place for three days, and then call the other party three grandpas. ,how about it?"

Chen Feng smiled slightly: "Okay, that's it!"

Qi Zhang didn't expect Chen Feng to agree so simply, and suddenly he felt guilty: "Is Feng Chen relying on something?"

But then, he drove away the emotion, stared at Chen Feng fiercely, and said, "Then I'll wait for you to call me Grandpa!"

The next day, the competition continued.

There are still very few people paying attention to Chen Feng, but those people yesterday looked at Chen Feng expectantly, hoping that he could create miracles again.

In the middle stand, there were many more people paying attention to Chen Feng, all of them powerful old men.

The old men looked at Li Yu suspiciously and said, "Li Yu, are you sure that he really did it in fifty breaths yesterday?"

Li Yu laughed and said, "What did I lie to you? That is what I saw with my own eyes. You just watch it today, and you will never be disappointed."

Everyone nodded in disbelief, but still somewhat disapproved of Chen Feng.

Chen Feng slowly walked to the ring, and the person opposite him also walked to the ring.

Then the next moment, Chen Feng's opponent burst into a burst of laughter: "Hahahaha, Feng Chen, what a coincidence, what I said yesterday has indeed been fulfilled, and the two of us have really been grouped together!"

"Hahaha..." His face flushed with excitement: "Feng Chen, just wait. This time, I will let you lose face in front of everyone, and I will slap your face deeply. !"

It turned out that Chen Feng's opponent this time was unexpectedly Qi Zhang.

Chen Feng looked at Qi Zhang without speaking, but Qi Zhang thought he was showing weakness. He suddenly stepped forward, looked at Chen Feng, and said in a low voice, "Feng Chen, do you know that this time we two can be grouped together? , It's not a coincidence at all."

"It was I who used a strong relationship to put the two of us into one group. I just wanted to humiliate you severely!"

Chen Feng looked at him, suddenly feeling very ridiculous, and said with a smile: "Qi Zhang, you are really seeking your own death, why are you so anxious to reincarnate?"

"If you don't form a group with me, you might be able to go forward a few more rounds, but unfortunately, your journey to the Alchemist Conference will be over today."

Qi Zhang did not dare to believe: "What are you talking about? Are you crazy? How dare you say such things here? Do you think you can defeat me?"

Chen Feng smiled slightly: "It's not that I think, but that I will definitely be able to defeat you!"

Qi Zhang was taken aback for a moment, then laughed loudly: "Okay, okay, okay, then I'll wait for you to defeat me!"

Many people who followed this group of arenas also heard what Chen Feng said.

Some people sneered: "This Feng Chen is really ignorant of the heights of the sky, and even daring to say that he can defeat Qi Zhang is crazy!"

"Is Qi Zhang that he can match?"

"Yes, this Feng Chen is really arrogant and reckless!"

And someone immediately retorted: "What do you know? Feng Chen is a worthy daughter of a genius alchemist, very powerful!"

This is the person who has seen Chen Feng's power yesterday.

Elder Liu announced loudly: "This second round of competition, the topic is, refining a third-grade pill, and a great pill!"

"Great for money?"

Many people have heard of it.

It turned out that the Qin Kingdom did not have this medicine. Later, Chen Feng successfully refined the Great Huan Pill in Suiyang County and spread it widely. Soon all the alchemists in the Great Qin Kingdom knew about the Great Huan Pill.

The difficulty of refining the Great Return Pill is medium to high, but most people have heard of it, but many alchemists below Rank 3 have a sad expression on one side.

Because they can't refine it.

A smile appeared at the corner of Chen Feng's mouth: "This great return pill, I should be the first person to succeed in refining it. I don't know how many times I have refined it. I am extremely skilled."

When Qi Zhang heard the words Da Huan Dan, his face immediately showed a smug look, and he was sure of winning.

He smiled at Chen Feng and said: "Feng Chen, do you know that Da Huan Dan, I have already refined it many times successfully, the refining speed is very fast, and I am very skilled."

"I could easily crush you, this time the topic is refining the Great Huandan again, haha, Feng Chen, do you plan to make a disastrous defeat!"

Chen Feng shook his head slightly, feeling very ridiculous. This person is really arrogant. Does he know that Da Huan Dan is his own initiative?

Elder Liu announced loudly: "Now I announce that the competition has officially started."

As his voice fell, everyone on each ring suddenly moved quickly.

#### [Chapter 1467: You are worthy to compare with me!](#)

Everyone took out their own medicine cauldron, and Qi Zhang opposite Chen Feng was no exception.

Qi Zhang took out a medicine refining cauldron from the mustard bag. The whole body of this medicine refining cauldron was pitch black, shaped like a tiger, cast in one piece, and the head of the tiger was the lid.

In those two huge tiger eyes, there was a gleam of light, like a living creature, with a hint of spirituality!

Qi Zhang patted his \*\*\*\* cauldron, and laughed, "Feng Chen, haven't you seen such an expensive thing?"

"This is my third-grade medicine refining tripod Tiger Ding! This Tiger Ding, I am afraid that it exceeds all your wealth, haha, how can you see such a precious thing as a pariah from the countryside?"

Chen Feng looked at him, shook his head slightly, but did not speak!

Seeing Chen Feng doing this, Qi Zhang was even more proud, and said with a joking expression: "You untouchable, you don't even have a good medicine refining pot, and you want to learn to be a medicine refining master? Go back to your hometown in the countryside as soon as possible to farm. !"

At this time, Chen Feng didn't move, and he didn't even open his white board medicine cauldron.

Qi Zhang laughed and began to choose among the hundreds of medicinal materials in front of him, and matched the dosage.

This time, there were more than 300 kinds of medicinal materials in front of them. One hundred and forty-seven kinds of medicinal materials needed for Great Huan Dan had to be selected from among them, and the dosage could not be the slightest error.

He chose very carefully. In his estimation, he could almost finish the selection in a cup of tea.

He glanced back and found that Chen Feng was still standing there motionless, so he laughed loudly; "Haha, Feng Chen, you don't even know how to choose medicinal materials? To be honest, I'm very curious, how do you mix into the third product? Where's the pharmacist?"

"You are a trash, not even an apprentice as a pharmacist!"

In the stands, his party members and supporters all made loud mockery.

The object of ridicule was naturally Chen Feng, unscrupulous!

At this moment, Chen Feng suddenly took a deep breath. A light flashed above the golden dragon ring in his hand.

Then, with a bang, a big tripod fell in the middle of the ring.

Seeing this great cauldron, the people around him suddenly exclaimed: "When this great cauldron appeared, the light shone and shined five times. Could it be that it was a fifth-grade medicine cauldron?"

"Yes, at least it is a fifth-grade medicine refining cauldron, and you see, this material is extremely powerful, this refining medicine cauldron is definitely very powerful, far surpassing Qi Zhang's third-grade medicine refining cauldron!"

"Hahahaha, Qi Zhang has been boasting about his three-grade medicine refining cauldron just now. As everyone knows, Feng Chen's medicine refining cauldron is much better than his. It's just that they are low-key and don't want to show it casually!"

"Haha, this Qi Zhang is really ridiculous, this time I was hit hard!"

And the people around who supported Qi Zhang were all shocked and speechless.

They know that speaking at this time is also self-insulting!

Some people who are quite knowledgeable have shocked expressions on their faces, and one person exclaimed softly: "This, is this Wuyang Yuanding?"

An old man next to him nodded slightly: "Yes, it is Wuyang Yuanding."

He looked at Chen Feng and said with a little horror: "I didn't expect this kid to hide so deeply and the medicine cauldron to be so powerful!"

The black-clothed old man Li Yu laughed and said, "How? I said, Feng Chen won't let you down!"

The two old men smiled and said, "It's useless to have a good medicine refining cauldron. You have to work hard."

Li Yu smiled slightly and said, "Let's keep watching."

Chen Feng gently stroked the Wuyang Yuanding Ding with his fingers, smiled and said, "Qi Zhang, do you think I don't have a good medicine refining cauldron?"

This is the first time he has asked Qi Zhang.

Qi Zhang's face flushed red, and he was also shocked. He didn't expect Chen Feng's medicine cauldron to be so powerful and its level to be so high that it far surpassed him.

His face was hot, as if being slapped severely.

Then Chen Feng flashed his hands continuously, copying all the more than one hundred kinds of medicinal materials needed to refine the Great Huan Pill in his hands, and then throwing them into the medicine cauldron.

"This....."

Everyone in the audience exclaimed again.

Chen Feng just used only three short breaths of time to select all over a hundred kinds of medicinal materials, skillfully, and the type and quantity were not wrong.

"Feng Chen's technique is even comparable to that of some Sixth-Rank pharmacists. Feng Chen is deeply hidden, but from the technique, he is very powerful!"

"That's right, the average fifth-rank and sixth-rank alchemist can't reach this level. Feng Chen is really too strong!"

"From this point of view, he is indeed very powerful. We underestimated him before."

The senior officials of the Alchemist Association in the middle stand said.

Those onlookers didn't know so much, and couldn't say so much, but they could see very clearly: Feng Chen spent less than one-tenth of Qi Zhang's time choosing medicinal materials.

Qi Zhang's supporters, one by one, their faces are hot and ugly.

They were beaten severely in the face again.

Chen Feng looked at Qi Zhang, smiled and said, "You just said that I would not choose medicinal materials, would you?"

This is the second time he asked Qi Zhang.

Qi Zhang said nothing, his face was pale and his lips trembled.

The flames under the tripod rose into the sky, and Chen Feng used extremely skillful operations, and then quickly began to refine.

He had already refined the Great Return Pill countless times, extremely skilled and extremely fast.

Seeing his proficient technique, everyone was exclaimed: "How many times did Feng Chen refine the Da Huan Pill, is he so skilled? It's almost the limit!"

Chen Feng's technique is simply dazzling.

Qi Zhang also yelled in disbelief: "How is it possible? I have refined Dahuandan hundreds of times. How could your technique be much more skilled than me?"

Chen Feng looked at him with a smile and said:

"Do you know that the first person in the entire Da Qin to successfully refine the Great Return Pill is me!"

"Do you know that Da Huan Dan was passed from me!"

"Do you know that I have already refined tens of thousands of tens of thousands of pill by refining a great deal of pill. What are you in front of me?"

Chen Feng's voice was proud, his figure was proud, and he stood upright, Qi Zhang was immediately pressed by the huge force, his legs softened, and he knelt to the ground with a bang.

But after a cup of tea, there was a buzzing sound, a pill flew out, and fell into Chen Feng's hands for a while.

Chen Feng raised the pill aloft, and from the stands, several exclams were heard at the same time: "Super grade, this is a super grade pill!"

"One cup of tea can make a super-grade Da Huan Pill, this Feng Chen is really amazing!"

Li Yu laughed loudly: "How about it, did you disappoint?"

There were smiles on the faces of several people, and they did not come for nothing today, did not look for nothing.

#### [Chapter 1468: Three questions](#)

The referee also announced loudly: "Feng Chen, with a cup of tea, the refining of Da Huan Dan is successful, and the quality is super quality!"

Chen Feng held up the Da Huan Pill and looked at Qi Zhang with a smile: "Just now you said I don't know how to make pill, do you?"

At this time, Qi Zhang hadn't even finished the selection of medicinal materials.

Chen Feng walked up to Qi Zhang, looked at Qi Zhang with a face of shame, smiled and said, "Master Qi Zhang, why are you not arrogant now? Why are you not taunting me now?"

Qi Zhang's face flushed, extremely embarrassed.

Chen Feng smiled slightly, patted his face, smiled and asked: "Between the two of us, who is so insightful? Don't even have a good medicine cauldron?"

Qi Zhang felt extremely humiliated by Chen Feng's question, but he was not stupid. Knowing Feng Chen of such a strength was definitely not something he could afford.

He felt extremely ashamed, but he still had to answer, daring not to answer, and said: "It's me!"

Chen Feng patted his face again, smiled and said, "Who is the one of us who can't even choose medicinal materials?"

Qi Zhang's face was so full that he almost bleeds: "It's me!"

Chen Feng patted his face again, then smiled and asked, "Between the two of us, who is the waste? Who is the name?"

Qi Zhang felt that he had been humiliated and was about to faint, and he suddenly let out a violent scream: "It's me, it's me! I'm a trash! I have no eyes! I shouldn't mock you!"

Chen Feng smiled and said: "It's pretty much the same, you can recognize yourself, Master Qi, this shows that you have made progress."

Suddenly, he threw a punch, directly on Qi Zhang's Dantian.

With a bang, Qi Zhang's dantian burst directly, countless blood gushing out, and true essence gushing from it.

Qi Zhang let out a scream, rolling back and forth on the ring, his strength dropped rapidly, he was directly abolished by Chen Feng!

He let out a scream, looked at Chen Feng with a bitter face, and screamed: "My cultivation base, my cultivation base, you actually abolished my cultivation base!"

Chen Feng stepped forward, leaned down, looked at him with a smile, and said softly: "Master Qi, brighten your eyes in the future. Some people are not something you can provoke!"

All the people onlookers around were silent, and Feng Chen's powerful and ruthless methods shocked them.

When Li Yu saw this scene, he laughed, and was extremely happy: "Feng Chen, you are powerful and talented in refining medicine. In my opinion, it's nothing more!"

"However, your enthusiasm for revenge is not overnight, but I like it tightly. Hahaha, the old man was as happy as you at the beginning. He didn't agree with him, and he drew his sword!"

"You offended me in the morning, and I will kill you in the afternoon. You kid, it suits my appetite!"

An old man in a blue shirt next to him nodded with a smile, and said, "I also appreciate Feng Chen very much."

Suddenly he frowned and looked at Chen Feng, and said, "Feng Chen, do you have any hidden injuries on your body? I think there was a lot of stagnation between your actions just now."

Chen Feng arched his hands and said respectfully: "In response to this adult, I have a very serious dark wound on my body, and now I can only have 30% of my strength."

The blue-shirted old man frowned and said with a smile: "This is not good. This is just the second round of the Alchemist Competition. It's easy."

"But you will indeed have a lot of strong opponents in the future, and there are many of them. Even at the peak, you may not be able to match, let alone what you are now."

As he said, he suddenly flicked his hand and a green pill flew towards Chen Feng.

Chen Feng took it in his hand, and then he was shocked. He felt that the verdant pill in his hand was full of unrestrained energy, and he seemed to be unwilling to be held by him, constantly rushing from left to right. , Want to jump out.

Chen Feng squeezed it hard to control it.

The blue-shirted old man smiled and said: "This pill has special healing effects. I just figured it out last year. This should be the only case in this world. After you swallow it, you can recover from your injuries."

"But if you swallow it now, it seems a bit wasteful."

He laughed and said: "It's best to swallow it when you are seriously injured and dying. It won't take long to recover to your peak strength!"

Li Yu was furious and looked at the blue-shirted old man, and said, "Gu Xifeng, did you deliberately? Obviously I valued him first, but when you came up, you gave such a heavy gift. Did you want me? Embarrassed?"

As he said, he himself laughed out loud, apparently just joking.

Then he spread his hand, and a pill flew towards Chen Feng.

This medicinal pill is pitch black, but it is not the black of that kind of poison, but crystal clear, like the night sky, extremely beautiful, and there are dots in it.

He smiled and said: "This pill is also a seven-rank, but it is not a healing medicine, but it is a pill that stimulates your potential."

"This medicine is called Xiaotian Devil Disintegration Pill!"

"It is an infinitely weakened version of the Heavenly Demon Disintegration Pill, which can make you suffer serious injuries and leave countless hidden dangers as the cost, stimulate your physical potential and double your strength!"

"The effect of this is much worse than that of the genuine Celestial Demon Disintegration Pill. The genuine Celestial Demon Disintegration Pill is enough to increase your strength tenfold! But, the price to pay is much smaller!"

Chen Feng took it, grateful in his heart, this Li Yu really didn't say to himself.

He smiled and said, "Thank you for the two masters, the kid remembers it in his heart!"

This time, Chen Feng completed it very quickly, so he still had time to go to other people's ring to see how they were doing.

What surprised Chen Feng was that he thought that he had completed it very quickly, but there were still a dozen people ahead of him, who were much faster than him, and he had completed it at this time.

When Chen Feng saw this scene, he was quite horrified: "Da Huan Dan was my first creation. I have refined it so many times. It stands to reason that I should be the first one, but these people can do it faster than me. "

"It can be seen that their alchemy ability should be higher than mine, and even better than mine is not a star or a half."

Chen Feng had great worries in his heart.

Next, he took a look around, and then he felt more shocked.

Because Chen Feng discovered that there are really a lot of geniuses here, and many people are very fast at making alchemy.

And there are also many people who have powerful refining pots.

Chen Feng saw that there are not even a few who are stronger than his own medicine training ability.

After leaving, Chen Feng returned to the small courtyard where Luo Zilan and Zhong Yuxiu lived. His expression was quite worried. He leaned against the table, squinted his eyes, and pondered.

#### [Chapter 1469: Third round](#)

"More than half a year ago, a year ago, I was considered a genius alchemist. At that time, I was less than eighteen years old, and I was already a third-class alchemist."

"But for more than a year, I have almost been immersed in cultivation, and I have made no progress in alchemy. It can be said that I have fallen behind others, and my beast, fire, sun and golden flames have been lost. It means that my alchemy ability is worse than before."

"Now after two rounds, there are still sixty or seventy people left. I can rank in the top 30 at most. This is far from enough. My goal is number one, but Mahayana Soul Pill!"

"Mahayana soul casting pill, I have to get it!" Chen Feng showed a firm look in his eyes and muttered to himself: "I must find a way to improve my alchemy ability!"

Zhong Yuxiu walked over and said with a smile, "Chen Feng, what are you doing with a long sigh?"

Chen Feng had always regarded her as a close friend, so he told her about the crisis facing this matter.

Chong Yuxiu slapped him and looked at Chen Feng, haha laughed: "Chen Feng, you really are in this mountain alone, you don't know how to sort out this matter?"

"To put it bluntly, if you want to enhance your medicine refining ability, there are nothing more than two points. First, improve your level as a pharmacist, and second, have a stronger flame."

"Upgrading your pharmacist's level should not be so easy, but the latter is very easy to do."

Chen Feng's eyes lit up and said, "What do you mean?"

"That's right! It's the red lotus heart fire!" Chong Yuxiu said flatly: "Not many people know the news that Yuwen's family has the red lotus heart fire, but I know that even I can feel the red lotus heart fire. position."

"I can take you to find the heart of the red lotus at Yuwen's house, and one of the purposes of our coming to the imperial capital is to get the heart of the red lotus?"

"Yes, yes, but..." Chen Feng still hesitated: "However, what I planned at the time was to wait for my strength to reach a very high level, then kill Yuwen's family, and take the heart of Honglian away. ."

Chen Feng is an extremely meticulous person, and he has always been tactical.

And if he were to seize the heart of the Red Lotus Earth now, his plan would be completely disrupted!

Chen Feng groaned: "And, you don't know the strength of the two worship elders of the Yuwen family who chased me back then, they are extremely terrifying."

"There are definitely more than one or two people like Yuwen's family. If we go now, we don't have such strength."

Zhong Yuxiu smiled: "If you don't have the strength to grab it, it doesn't mean you don't have the strength to grab it. Who told you to fight with them?"

As he said, he winked at Chen Feng mischievously.

Chen Feng's eyes suddenly brightened and he slapped his hands: "Yes, my mind really froze just now!"

The next day, the competition continued.

This time, it was the third round. Chen Feng's opponent was a rather low-key black-clad nobleman.

This person's family is considered third-rate in Wuyang City, and he, at the age of twenty-seven, has reached the level of a third-rank pharmacist, not high or low, and genius is not considered to be a genius, but he has to exceed the average person.

Regardless of life experience or personal strength, they are quite powerful.

Chen Feng spent a quarter of an hour and finally won!

But Chen Feng could already feel that this victory was quite difficult.

At this moment, from the stands, seeing Chen Feng winning, several old men glanced at each other, instead of expressing excitement on their faces, they were full of worries.

One of the elders was Gu Xifeng. He stretched out three fingers and said lightly: "It's been three games. This is already the third round."

"It can be seen that in the third round, Feng Chen performed very well, but it was very difficult to win, because now there are almost no people weaker than him."

Li Yu nodded slowly. At this moment, an old man next to him said lightly: "Everyone who is now in the fourth round, I just watched them. Feng Chen is the only one who doesn't have his own flame."

"Other people, either beast fire or plant fire, more or less, have their own flames. This flame is definitely much stronger than ordinary charcoal fire!"

Li Yu nodded, sighed and said, "I understand what you mean. If Feng Chen concealed his own strength, it would be okay, but if he really doesn't have his own flame, then it is unlikely that he wants to go to the end."

"Yes!" Everyone nodded.

Li Yu said: "Now I can only hope that Feng Chen is hiding his strength."

Not only did they see this incident, many people also saw it.

On the stands, many spectators were talking about it. Just as Chen Feng stepped off the ring, suddenly a white-robed young man walked over.

This person's white robe is embroidered with gold thread, and there are five small tripods on the left chest badge. He is a fifth-grade alchemist. He is not very old, but only twenty-three or four years old. It is surrounded by dozens of powerful guards.

It can be seen that his background is absolutely extraordinary!

He and Chen Feng were in the opposite direction and had the same route. When the guards saw Chen Feng, they immediately yelled at him very roughly: "Untouchables, get out! Give way to my son!"

Chen Feng stood there, squinting, motionless, just staring at them coldly.

The guards immediately flew into a rage and screamed: "Little bunny, let you make way, didn't you hear?"

"Hurry and roll aside, what are you? You dare to block my son's way!"

"How honorable is my son, are you looking for death?"

One is exceptionally strong. It seems that the middle-aged man led by the guards said coldly: "Little bastard, I'll give you one last chance. If you don't let go, I will have to kill you!"

Chen Feng just stood there, looking at them silently, without saying a word.

However, in Chen Feng's eyes, there was already a rush of anger. If these people dare not open their eyes and continue to provoke him, Chen Feng would not mind destroying them.

At this moment, the noble son wearing a white robe with gold thread suddenly waved his hand and said, "You all retreat to the side!"

These guards hurriedly nodded respectfully and stepped back.

Then the noble son Baipao stepped forward and looked up and down Chen Feng with a downward look. He suddenly chuckled and said, "Feng Chen? Haha, a genius alchemist?"

The laughter was full of contempt, and he said the five words genius alchemist in an extremely joking tone.

Then he laughed again: "A genius alchemist who doesn't even have his own flame, this is the first time I have seen him!"

He suddenly stepped forward, looked down at Chen Feng, and said with an extremely arrogant and superior attitude: "Feng Chen, this is not the kind of small place you come from. There are geniuses here. Not counting!"

#### [Chapter 1470: Dive into Yuwen Mansion](#)

"I don't even have my own flame. How dare I be called a genius alchemist? It's ridiculous! Tell you, everyone who is left is better than you, at least each of us has our own flame. At this point, we It's enough to crush you!"

He said, turning around and strode away, leaving only one voice: "Feng Chen, remember my name, I am Zhao Zijing!"

"From now on, my name will become your nightmarish existence. I will tell you what is truly powerful and true genius. When you think of my name in the future, you will tremble!"

And his guards also left one after another, and they didn't forget to mock Chen Feng when they left.

These people didn't know that they had already fought back and forth in front of Guimen Pass, and felt that Chen Feng could be bullied by them, and before leaving, they laughed loudly at Chen Feng.

Chen Feng's eyes were icy.

He left here slowly, and many people looked at Chen Feng with mockery on their faces.

The reason they laugh at Chen Feng is simple: Flame!

Because Chen Feng did not have his own flame, and at this level of competition, it would be difficult to go on without his own flame.

Chen Feng silently returned to the courtyard all the way, and then he found Zhong Yuxiu and said softly: "Tonight, we two will go to Yuwen's house and steal the heart of Honglian!"

Chong Yuxiu smiled and said, "Chen Feng, you finally made up your mind. Okay, then go tonight!"

Zhong Yuxiu continued: "However, there is one more thing now, that is, we are not very familiar with Yuwen's family."

Chen Feng smiled secretly: "Then you don't have to worry about it."

"Oh?" Zhong Yuxiu said, "Do you have any preparations?"

Chen Feng smiled slightly and said: "Don't forget, I was invited by Yuwen's family to go to their home to participate in a martial arts competition. That time I didn't go for nothing!"

Zhong Yuxiu was taken aback, then pointed at Chen Feng, haha said with a smile: "Chen Feng, it turns out that you were also prepared."

The night is deep, and there are still many places in Wuyang City with bright lights. This is a city that never sleeps.

But the bigger the houses, it was already pitch black, and only a few spots were lit up.

The rules of these families are very strict at home, and very few children can go out to party all night without returning at night, and the Yuwen family is no exception.

At this time, late at night, the entire Yuwen's house was immersed in blackness.

At this time, two figures approached the back door of Yuwen family quietly.

The Yuwen family has a towering city wall, which is several tens of feet long. It is simply a city within a city, but to these two shadows, it is nothing at all.

Even the weaker black shadow climbed up easily, while the stronger shadow seemed to dislike her for being too slow and directly stretched out his hand. With a light leap, it flew up, and then fell gently on the city wall like two feathers.

Soon, the two sneaked into Yuwen's house in a dark corner.

Chong Yuxiu took out a white jade plate from his arms, but there was a red dot flashing on the white jade plate.

The red dot was in the middle of the white jade plate. As soon as she took it out, the red dot seemed to perceive something and began to flicker violently.

In the end, the red dot stayed in the lower left direction of the white jade plate, and the lower left direction was now pointing to the southwest of Yuwen's house.

Zhong Yuxiu pointed in that direction and said excitedly: "The location of the heart of the red lotus is right there!"

Chen Feng nodded, and Zhong Yuxiu put away the white jade plate, and then the two slowly walked towards the southwest, slow and silent.

In Yuwen's mansion, guards in heavy armor kept walking by from time to time. Whenever a guard patrolled past, Chen Feng's aura suddenly rose, covering the two of them silently.

Sometimes, the two of them hid on the side of the road, and the guard passed by without noticing it at all.

Soon, the two went deep into Yuwen Mansion and came to the middle of the mansion.

Chen Feng discovered that this place was very familiar. It turned out to be the place where the five great families competed in the last time.

When he got here, suddenly, Zhong Yuxiu felt his heart hot, so he immediately took out the white jade plate.

I saw the white jade plate, and the red dots were scurrying at this time, and then after a while, the position of the red dot was immediately changed.

Chen Feng pointed to the three side roads in front of him and said, "Where should I go?"

Chong Yuxiu looked for a moment, pointed to one of them, and said, "Here."

The two of them continued along the path and walked forward for about a quarter of an hour. They found that the surrounding area had become extremely quiet, and the roadside was full of bamboo trees.

When he reached the end of the path and Zhong Yuxiu took out the white jade plate again, Chen Feng found that the light spots on the white jade plate had become extremely large at this time, and even illuminated the entire white jade plate.

There was a faint scorching heat from above, and Zhong Yuxiu excitedly pointed forward and said: "The red lotus heart fire is inside this."

There was a bamboo forest in front of it, which seemed boundless. Chen Feng estimated that there were at least thousands of acres, and the bamboo growing here, Chen Feng had never seen before.

This is a kind of purple bamboo. The thick one has the thickness of a bowl, and the thin one is as thick as an adult's arm. It is covered with purple spots, like tears, and is quite beautiful.

At this time, the night is deep, a solitary moon hangs high on the horizon, there is wind in the bamboo forest, the bamboo leaves are rustling, but the bamboo body is not moving.

Chen Feng felt that this wind seemed strange, because he didn't feel it when he was outside just now, but Chen Feng didn't take it to heart, and the two continued to move forward.

But soon, Chen Feng felt something wrong, because no matter how big the bamboo forest was, he should definitely be able to pass through the bamboo forest at this time.

Chen Feng found that he and the two of them seemed to be spinning around in the bamboo forest.

He suddenly stopped in one place and said softly: "Something is wrong!"

Chong Yuxiu said in surprise: "What's wrong?"

Chen Feng pointed to the three-stroke bamboo repair in front of him and said: "I remember clearly that we two walked from here just now. The distance between the three-stroke bamboo repair is one foot four inches eight minutes, and one foot nine inches seven. Points, one foot six and four points, I remember clearly."

"Furthermore, there is a scar on the bamboo stick on the left three feet above the ground. The scar is like a grimace, which is quite weird. So we should be doing a circle on the spot and returning to the spot."

"What?" Chong Yuxiu exclaimed, "Is this a formation?"
