[Chapter 1521: Blood of the wolf god!](#)

Chen Feng let out a long breath!

Yong Xi also killed, the Great Asura Martial Spirit also absorbed it, and Chen Feng's purpose of coming here was considered achieved, and he was about to leave.

But suddenly at this moment, Chen Feng felt that there seemed to be something in the depths of this mansion that appealed to him. This thing made waves of calls, constantly beckoning him to move forward.

Without any hesitation, Chen Feng immediately walked toward the depths of the mansion based on his feelings.

He stepped through a heavy courtyard and soon came to the garden deep in the mansion.

The garden occupies a huge area with mountains and lakes inside. Chen Feng leaped up into the sky, felt it a little, and then slammed directly into the depths of the lake.

Like a cannonball, he smashed into the depths of the lake fiercely, and went directly to the bottom of the lake. There was a huge secret door at the bottom of the lake. The secret door was hundreds of meters in radius. If there is no key to the mechanism, it cannot be opened.

Chen Feng smiled coldly, stretched out his hand, plunged his arms directly into the steel secret door, and then with a roar, he lifted the secret door directly and threw it out.

A huge amount of lake water poured into the secret door, and instantly the lake water flowed clean.

Chen Feng stepped into it, and there was a deep tunnel inside. After turning a few turns, Chen Feng's breathing suddenly became heavy, because there was an aura he was very familiar with.

This is in the same line as the breath of Blood Wind!

Chen Feng smashed seven portals one after another, and then came into a huge space, and then he held his breath.

Because there is nothing in this huge space, only a stone platform in the most central position, and on the stone platform, there is a drop of red liquid the size of a human head suspended.

This is actually a drop of blood!

There is only one drop, but there is a human head as big as the red color mixed with gold, which looks very noble!

This blood definitely comes from a very pure and noble blood.

Chen Feng said softly: "This, this is the blood of the wolf god!"

His tone was very positive.

It turned out that the drop of blood he found here was the same as the blood of the wolf **** before.

No, it should be said that there is a big difference, because the breath from this drop of essence and blood is far more powerful than the bloodline of the wolf **** swallowed by the blood wind before, and the nobility is also far greater!

Excited on Chen Feng's face, he whispered to himself: "This wolf god's blood is very noble. If the blood wind can swallow it, he can definitely wake up from a coma, and maybe his strength can be even higher!"

Chen Feng stepped forward, put the blood of the wolf **** in the jade box, sealed it tightly, and then carefully put it into the golden dragon ring.

Leaving here quickly, Chen Feng couldn't wait to return to his residence. He wanted to see what would happen after the blood wind swallowed the blood of this wolf god.

Soon, Chen Feng returned to Wuyang City. He entered Yongzhou like a thunder and raging fire, killed Yong Xi, swallowed up the great Asura martial arts, and then quickly returned.

The whole process does not even exceed three days.

At this time, Yongzhou City hadn't even reacted yet, when they could react, Chen Feng had already returned.

Chen Feng was not afraid of their revenge, because everyone who had seen him had been beheaded by him or escaped, and it was impossible for those people to come to Emperor Qin to sue him.

Even if it was a report, Chen Feng was not afraid, after all, it was not someone else standing behind him, but Long Shenhou, one of the four great masters of the Great Qin Dynasty!

At the gate of Wuyang City, when Chen Feng was about to walk slowly into the city, suddenly a burst of cursing came from behind him: "Untouchables, go aside!"

Then, there was a deafening sound of hoofs, but not horseshoes.

Chen Feng looked back and saw that a huge black shadow appeared in his sight, and the black shadow was still getting bigger and bigger. It was a huge profound beast with a height of 100 meters, with a very powerful aura, like It is a combination of rhino and giant elephant, but it is covered with a thick layer of heavy armor.

Judging from his aura, he was at least a first-grade profound beast.

A horrified scream came, and Chen Feng's eyes suddenly shrank. It turned out that it was a girl who stood in front of the huge profound beast.

The girl is only twelve or thirteen years old, cute and cute, dressed in common clothes and carrying a flower basket in her hand, like a peasant girl who goes to the city to sell flowers.

But suddenly such a huge profound beast rushed out behind him, and the knight above the profound beast obviously saw the girl, but he didn't have any intention to stop.

With a grinning smile on his face, he let out a big laugh, the profound beast raised its giant hoof high, and seeing the next moment, the girl was about to be trampled into a mass of flesh by the profound beast!

At this time, there were at least hundreds of people on the road, and everyone was busy taking refuge, and no one reached out to help the little girl.

Seeing this scene, many people screamed in horror!

Chen Feng narrowed his eyes, revealing a touch of anger, his figure flashed, and he appeared directly beside the girl, and he held her into his arms as soon as he reached out.

After that, Chen Feng was not hiding, just standing straight in the middle of the road.

The huge hoofs of the profound beast were getting bigger and bigger in front of him, and they were about to fall, and the people around were all talking about it.

"This boy is so fast, it seems that he should be a warrior."

"Yes, and his level should not be low, but he is too arrogant, what is he doing? Do you think he can block this powerful profound beast on his own?"

"Yes, this person is really too arrogant. This is an iron-clad elephant dragon beast that is ridden by the army of Hou Flame Hou. How can he easily match it?"

The bearded middle-aged man riding on the iron-clad elephant dragon, with a grinning smile on his mouth, screamed: "Little boy, let's die!"

With that, the huge hoof trampled down at a faster speed.

Everyone exclaimed. They thought Chen Feng would be trampled directly into fleshy flesh, but the next moment, everyone was shocked, their expressions frozen on their faces.

Because they all saw Chen Feng stretch out his right hand to withstand the huge hoof.

Moreover, he only extended one finger!

That huge hoof, the power that weighs more than ten thousand jin, is nothing to do with this young man.

The two stood in a stalemate for a second, and then the young man's right index finger flicked upwards, and a powerful force surged. The iron-clad elephant dragon beast was actually overturned to the ground with a bang, fell out more than ten meters, and fell heavily to the ground, smashing a large piece of earth and stone ground.

"What?" Everyone shouted in shock.

"This young man has such a powerful strength that he can overturn this iron-clad elephant dragon beast with one hand?"

[Chapter 1522: I just deceived people too much!](#)

"Yes, what does this mean? The strength of this young man has definitely surpassed the triple and four levels of Martial Sovereign Realm, so this young man is definitely not an unknown person, he must be a genius in Wuyang City!"

The bearded middle-aged man stood up from the ground embarrassedly. He stared at Chen Feng with a sullen look on his face: "Little boy, you are so brave, you know who I am, so you dare to call me Overturned!"

Chen Feng looked cold and said: "You almost trampled this little girl to death just now, now, you roll over and apologize to her!"

"What?" The middle-aged man showed disbelief on his face: "What did you say? You asked me to apologize to her?"

Chen Feng said coldly: "I let you kneel down and apologize to her!"

The bearded middle-aged man showed a hideous and bloodthirsty color on his face: "Little boy, tell you, I'm a soldier of Rae Yanhou!"

"Oh, right?" Chen Feng immediately remembered the wind like fire.

The bearded middle-aged man looked at Chen Feng triumphantly, and said proudly, "How about it? Are you afraid? If you are afraid, you will kneel down and apologize to me, and then offer this little lady both hands!"

He licked his lips and said greedily: "I can only see now that although this little lady is not old, she is really in good shape. Fortunately, I didn't trample her to death just now, or I will probably regret it now!"

Chen Feng stared at him, and repeated it coldly: "I will let you roll over and apologize to her!"

"What?" The bearded middle-aged man looked incredulous: "Do you know that I am a pro-jun Liyanhou, how dare you talk to me like this?"

He coldly roared: "Little boy, you are looking for death. Now your life is no longer yours. I want it. You can take it away at any time. You have completely offended me."

Chen Feng stared at him and suddenly stretched out three fingers: "I've said it three times!"

"No more than three things! Since you refuse to roll over and apologize, I have to do it myself!"

"What? Do you still want to do something with me?" The bearded middle-aged man laughed, extremely disdainful: "Do you think you will be my opponent?"

"Boy, you are so arrogant!"

The people onlookers also made contemptuous voices.

"The pro-army of Marquis of Flame, the lowest strength has reached the Martial Sovereign Realm, this young man is definitely not an opponent."

"Yes, this young man is so arrogant that he even dared to challenge Raeyanhou's army. Alas, he is young and ignorant!"

The bearded middle-aged man said proudly: "Little boy, I have the strength of the Martial Sovereign Realm. I was just taken off by you, but I was caught off guard. If you really want to do it, I can easily kill you!"

Chen Feng sneered: "Really?"

The middle-aged man shouted: "I will kill you now!"

As he said, he leaped into the air, and the black iron long knife in his hand was taken out of its sheath.

This long knife was also cast with a special material. It was extremely strong. It was cut out with a single knife. There was a sneer everywhere in the air, and countless small black space cracks appeared in an instant.

Then these black space cracks, along with the long knife, fell towards Chen Feng.

If Chen Feng were to be touched, he would be torn into thousands of pieces by countless spatial cracks, and would be cut by thousands!

Chen Feng smiled coldly, punched out, and with a loud noise, Chen Feng's fist and the long knife slammed together.

An extremely violent air wave came, and with a bang, the long knife in the hand of the bearded middle-aged man, the gap in the space, and the tyrannical aura were all shattered in an instant.

Chen Feng's fist seemed to have penetrated the sky, traversing a powerful momentum, and was directly printed on his chest.

The bearded middle-aged man made a scream, a mouthful of blood spurted out and fell heavily to the ground, and all his chest bones collapsed.

He looked at Chen Feng in horror, and shouted: "You can actually reward me who is the fifth-tier of the Martial Sovereign realm. What kind of strength do you have, boy?"

A smile appeared on Chen Feng's face.

This is because he didn't use his full strength, if he wanted to, the punch he just now could directly kill the bearded middle-aged man!

The reason why he didn't kill him was because it was useful to keep him.

Chen Feng slowly walked over, but the bearded middle-aged man was still not afraid at this time, with a very arrogant look on his face, and said:

"Little boy, don't think you are strong, I am a soldier of Marquis of Flames, if you dare to do anything to me. Marquis of Flames will never let you go, you will not survive for three days at all!"

Chen Feng smiled and said, "Oh? Really?"

He stepped forward and suddenly slapped the bearded middle-aged man's face with a severe slap. The bearded middle-aged man's head tilted, a mouthful of blood mixed with broken teeth sprayed out, and he let out a scream.

He stared at Chen Feng, his face full of resentment: "Okay, boy, I won't spare you!"

"Slap!" Another slap.

He still has a bitter face.

So, "pop", another slap.

Pros and cons, Chen Feng slapped dozens of big ear scrapers and beat him into a pig's head.

The bearded middle-aged man finally showed a look of fear on his face. Chen Feng did not hesitate to start, his face was extremely cold, he suddenly realized that this young man really dared to kill him.

Even, would beat him to death like this alive!

Chen Feng said coldly: "Dare you still dare to be tough?"

He swallowed his breath, feeling extremely humiliated and said, "Don't dare!"

Chen Feng said coldly: "Then go over and apologize to her!"

It was a middle-aged man with a big beard who never dared to disobey Chen Feng's words. He walked over to the little girl, knelt on the ground, banged his head, and yelled unwillingly, "Almost just now. I'm sorry to kill you!"

Then Huo Ran stood up and stared at Chen Feng kindly: "Is it all right?"

Chen Feng said coldly: "How can an apology only have one head? Is there any sincerity?"

The bearded middle-aged man said angrily: "Don't deceive people too much!"

Chen Feng sneered and said, "I was deceiving too much today!"

As he said, his stature came to the middle-aged bearded man in a flash, pressed his head, knocked his head a dozen times, and then let him stand up.

The bearded middle-aged man's eyes flashed with unnoticeable resentment, and he pretended to be submissive: "May I go now?"

Chen Feng sneered coldly: "The bill between you and him is over, but we still have to settle the bill!"

"What do you mean?" The bearded middle-aged man had a bad feeling.

"What do you mean?" Chen Feng said coldly: "Just now you called a pariah or a little bastard, I'll punch you a few times, isn't it too much?"

There was a cold smile on Chen Feng's face, and suddenly there was a violent roar, and his fists burst out.

At this time, there was a roar in the distance: "Stop!"

Chen Feng listened, and his figure paused slightly, but then he continued to move forward, but the attack became even more fierce.

[Chapter 1523: Sleeping blood wind](#)

In an instant, eight punches were blasted.

Eight punches in succession hit the bearded middle-aged man. The bearded middle-aged man showed a look of stunned expression on his face. Then he moved his hands and feet and found that he was okay. So he immediately laughed loudly and said: "Little boy, you are here. Do you have some skills?"

Before he finished his words, there was a sudden bang, and his body exploded directly into a **** fog, with no bones left!

At this time, the sound of hoofs resounded like thunder, and dozens of armored elephant dragon beasts had already arrived.

The knight on top of the armored elephant dragon stared at Chen Feng, with cold killing intent on his face.

Among them, surrounded by an exceptionally huge iron-clad elephant dragon beast, six to seven hundred meters high, sitting on it was a noble man, dressed in a red robe, like a fire, tumbling in the wind.

He looked down at Chen Feng and said lightly: "Why are you killing him?"

Chen Feng looked at him without showing any fear on his face: "Because I want to kill, so I will kill him!"

"Okay, so bold! What a big tone! It is indeed the fortunate generation, nouveau riche are like you."

A disdainful smile appeared on the corner of Hongpao's mouth.

Chen Feng's eyes gradually became cold, and Young Master Hongpao said faintly: "I know you are Chen Feng, the new disciple of the Dragon God Hou Mansion. Sure enough, you were an inexperienced pariah before, and suddenly gained such a powerful power. , I don't know what my last name is."

"Being arrogant, regardless of the consequences!"

He said lightly: "I can easily kill you now, believe it or not?"

The guard next to him said: "Haha, son, why do you have to tell such a fact? It would be boring to tell the fact. Isn't it easy for you to kill this little bastard?"

"Yes, son, you are in the Eastern Flame Mountain, killing those tyrannical alien races to throw away their helmets and armor, let alone such a waste!"

"Don't talk about you, I can kill him when I get down!"

They all asked for a fight, wanting to kill Chen Feng and vent their anger to the Hongpao young man.

The young man in the red robe gave a long laugh, looked at Chen Feng and said, "Chen Feng, I can kill you now, but I won't do that. I'm here to participate in the Big Four Houfu Competition this time. It's too cheap to kill you."

"I want to beat you on the arena of the Big Four Hou Mansions, all kinds of humiliation, in front of everyone, let you lose face, and then kill you, so that I can vent my heart. hate!"

The people around all exclaimed: "It turns out that this young man is Chen Feng!"

"I have heard of Chen Feng. It is said that he is a genius, and he has great strength at a young age!"

"Haha, so what?" Someone next to him immediately said with disdain: "He has offended the eldest son of the flames, he will definitely die!"

"That's right, the day of the Big Four Hou Mansion Competition is when Chen Feng died."

These people talked a lot, they all looked down on him, and never thought that he was an opponent of Lord Ryyanhou.

Master Lieyanhou stared at Chen Feng: "Remember my name, my name is Feng Rulie!"

As he said, he patted the iron-clad dragon beast under his body, rushing towards the city, leaving behind a burst of extremely arrogant laughter.

The guards under him stared at Chen Feng with disdainful eyes, and then left.

Xuefeng's body is not in the Dragon God Mansion, but in the small courtyard where Chen Feng lives. This is why he wants to return to Wuyang City!

Chen Feng returned to his residence, feeling a little heavy on the road. The power and oppression that Feng Rulie brought to him just now was extremely powerful, far surpassing his younger brother Feng Rulie.

That power represents Feng Rulie's strength, and Chen Feng really doesn't have much confidence that he can beat him.

"These four great mansions are really hidden dragons and crouching tigers! I don't know how many young masters there are!" Chen Feng muttered to himself: "Furthermore, these are the ones that have been revealed, and they have not been revealed. I'm afraid there are more. More powerful."

"Shangguan Yunxiang, the wind is like strong, at least two have appeared now."

Even if Chen Feng's strength was raised to the current state, he might not dare to say that he would definitely win, but then Chen Feng shook his head and put this worries behind.

He smiled freely, and said somewhat self-deprecatingly: "Chen Feng, what are you afraid of? Now your strength is stronger than when you first learned that there was a big match between the Four Hou Mansions. I don't know how many times the situation is getting better. Many, what to worry about, but it's just one stop!"

"Fighting hard, no matter what the result is, there is no regret!"

Chen Feng wanted to understand this, and his mood immediately became relaxed and free and easy.

Moreover, he also has some hole cards, which have not been used. If used, he can definitely defeat Feng Rulie easily.

Soon Chen Feng returned to the courtyard. As soon as he knocked on the door, Luo Zilan walked out to greet her with a worried expression on her face.

Seeing that Chen Feng is safe and sound, she sighed softly, patted her chest, and smiled: "Chen Feng, you are fine, that's great."

Chen Feng smiled and said, "Sister Luo, somehow have some confidence in your man!"

Luo Zilan was very shy when he said your man's words, and gave him a sip, but her expression was very shy and very happy.

Chen Feng watched this scene, but was not happy at all. Instead, his mood was extremely low, as if he was hit by a sledgehammer.

When he first came in, Luo Zilan's mood was so depressed, her face was pale and very weak, but now she was radiant. The reason for all this was because she was fine.

Now Luo Zilan, all her joys, angers and sorrows all originated from her. [novelupdates.com](http://www.novelupdates.com)

If you are good, she will be good; if you are bad, she will be bad.

And this is what Chen Feng would never want to see. What he wanted to see was the self-confident and elegant Luo Zilan who killed invisible while talking and laughing. It was the independent, self-loving, powerful and cunning sister Luo.

If Luo Zilan goes on like this again, she is like a vine coiled on a tree, and since then she has lost her vitality and vitality!

But Chen Feng didn't say it, he was afraid of ruining Luo Zilan's mood.

Chen Feng smiled and said: "This time I went out, not only was revenge, but also quite rewarding."

As he said, he took out the blood of the wolf god, and when he saw the blood of the wolf god, Zi Lanhua exclaimed, her eyes brightened and said, "This, is this the blood of the wolf god?"

She has been with Chen Feng for a long time, and she naturally knows the position of Blood Wind in Chen Feng's mind.

Chen Feng smiled and said, "That's right."

With that said, he walked into the courtyard. Under the courtyard, there was a secret room opened by Chen Feng, and the body of Blood Wind was stored in it.

At this time, the blood wind was still asleep, and he was still breathing and the body was lying down together. The breathing pulse and even the Qi machine were very stable and long.

[Chapter 1524: Blood wind! Crazy evolution!](#)

Chen Feng pressed his hand on his belly, and he could still feel the beating of his heart. Its hair was also very bright and lively. It looked like he was asleep, but he just couldn't wake up.

Chen Feng whispered in his ear: "Bloodwind and Bloodwind, you have been asleep for too long. I hope this drop of blood of the wolf **** can help you wake up. Do you know how much I miss you?"

There was a gentle smile on his face, and then he opened his big blood-red mouth, and put that drop of wolf **** blood into the mouth of Blood Wind!

This drop of blood of the wolf god, as soon as he entered the mouth of the blood wind, he immediately felt the breath of the blood of the wolf **** hidden in the blood.

Suddenly, a sense of familiarity spread, and then this drop of blood of the wolf **** the size of a human head suddenly burst into thousands of tiny bloodshots.

These bloodshots poured into Bloodwind's body almost in an instant.

Chen Feng suddenly felt that the blood wind's body was like a river surging, with infinite energy surging in his body.

And the heartbeat of the blood wind immediately became heavy and thick, bang bang bang, and powerful.

At the beginning, it was like a fist tapping on the ground, and then it turned into a hammer to smash the anvil, and at the end, the sound became extremely loud.

Chen Feng's cultivation level was so shocked that his eardrums were painful, and his face was pale. Chong Yu Xiu and Luo Zilan had long been unable to bear it and retired.

At this time, the sound was as loud as a meteorite hitting the ground!

The blood wind's body also swelled rapidly at a speed visible to the naked eye. His body was originally only more than 100 meters long, but now it has suddenly grown to more than 200 meters long.

It has doubled, and it's still growing!

This underground secret room was directly filled with blood wind and collapsed suddenly.

Chen Feng shook his arms and roared, and this large piece of ground with a radius of several kilometers was directly lifted out, and there were countless exclamations in the surrounding houses.

Fortunately, the place where Chen Feng is located is empty, and there are no humans, so no casualties were caused. Many strong people felt the breath here and came to check!

Chen Feng felt anxious, and immediately said to Zhong Yuxiu: "You will leave here with Sister Luo right now."

Zhong Yuxiu knew that the matter was urgent, nodded, and left with Luo Zilan.

But Chen Feng stayed here. He looked at Xuefeng's body with an anxious expression on his face, and muttered: "Bloodwind, you evolve faster, evolve faster, otherwise, if you are affected by those hostile forces in Wuyang City The person found that you are over, and I may not have the strength to protect you!"

Xuefeng's body was still swelling, and it quickly became more than 500 meters long, and then expanded, then expanded, reaching a length of thousands of meters.

But what shocked Chen Feng was that its size was still getting bigger!

Chen Feng was shocked, the kilometer length had already reached the realm of a profound beast! It symbolizes the watershed of entering the profound beast!

Chen Feng was surprised and delighted, this drop of blood of the wolf **** is indeed extremely noble. Just a drop of the blood of the wolf **** has caused such a huge change in the blood wind!

Xuefeng's body has been growing and growing, and when it reached a length of 1,500 meters, it had not stopped.

And at this time, all of the hair on his body surface changed suddenly. Those red hairs that were as red as fire began to change from the roots, from red as fire to a little bit of orange.

And this faint orange is constantly deepening, and after a quarter of an hour, it finally turns into that extremely conspicuous orange color.

The orange-yellow color continued to spread, and eventually, Bloodwind's body hair had all turned into an orange-yellow color.

And Chen Feng could feel that he wasn't just a simple discoloration of his body's hair. The energy in his body seemed to have undergone a qualitative change.[novels8.com](http://www.novels8.com)

If Chen Feng is more powerful at this time, he will definitely be able to see that at this time, the orange-yellow powerful energy flowing through the meridians in Chen Feng's body.

This orange-yellow powerful energy is more than ten times more powerful than the same amount of red-red energy!

And the crimson energy flowing in the original blood wind body!

At this time, the blood wind's body had grown to more than 1,700 meters, and it still did not stop.

Chen Feng had already seen dozens of rays of light coming through the air, swiftly approaching here.

He knew that these people were here to investigate. These figures were getting closer and closer. Suddenly, a voice full of greed came over: "Haha, what did I see?"

"There is an evolving wolf-type monster here. No, it should be a wolf-type profound beast!"

"Master, please!" The person next to him also exclaimed: "This orange-yellow giant wolf has become more than 1,700 meters long, and it is still growing. Is it possible that he could become More than two thousand meters long?"

"I think it's very possible!" The hoarse voice that was full of greed before he said with a smile: "This is obviously a wolf-like profound beast that can evolve."

"His bloodline must be exceptionally strong, such a profound beast may even be promoted to the Demon King in the future!"

"Hahaha..." He arrogantly laughed: "This wolf-like monster beast is mine!"

A cold snort came: "What You See Is Yours" is really unreasonable. I saw it too, but I said it was mine!"

Then, a messy voice came: "Yes, we saw this wolf-like profound beast together. We must have a share!"

With that said, more than a dozen figures fell beside the blood wind.

Chen Feng saw these more than a dozen figures, all of whom were quite powerful, and each of them had the weakest breath in the fourth or fifth level of Martial Sovereign Realm.

Two of them have reached the seventh peak of Martial Sovereign Realm in strength.

These two people are bald, one is tall and thin, and the other is short and fat. They are all full of flesh, with a trace of hideous color, and they have heavy and thick weapons in their hands!

After the two fell, they immediately faced the crowd and shouted: "This wolf-like profound beast belongs to our brothers. Who dares not accept it?"

He said this for granted, as if Bloodwind were really their personal belongings!

Chen Feng stood by, and they regarded Chen Feng as nothing. They glanced over Chen Feng without stopping, and then they were full of disdain, with a cold snort, as if Chen Feng did not exist at all!

As soon as the two of them had finished speaking, a middle-aged man who was wearing a large long robe and was tall and thin like a bamboo pole said coldly: "Suo Kuang Suo Heng, you two brothers have always been domineering, but this time Shame on the wrong object!"

"None of us are easy to provoke. You just want to take away a powerful profound beast that may evolve into a Demon King. We will definitely not agree!"

[Chapter 1525: Deceive too much](#)

Suo Kuang, it was the short and fat man, his eyes were cold and he said, "You don't agree? If you don't agree, then we will fight until you agree!"

Suo Heng rubbed his fists fiercely.

The middle-aged man said coldly: "I admit that none of us, fighting alone, is not an opponent of your two brothers, but we are large in number, and a dozen of us shot together. Are your two brothers opponents?"

Both Suo Kuang Suo Heng's faces showed a touch of jealousy.

Then, the middle-aged man's expression became more relaxed, and the conversation turned, and he said, "We can give you this noble blood beast, but we have to get some compensation!"

"What compensation do you want?" Suo Kuang muttered for a moment, then slowly said.

When he speaks this way, he obviously intends to agree to their terms.

The middle-aged man showed a touch of joy and smiled and said, "Don't be too much. One million yuan is enough for one person."

"One million yuan stone per person?" Suo Kuang sneered, "You have such a big appetite!"

The middle-aged man said: "This appetite is not too big anymore. You know, if this monster beast has unlimited potential, if it evolves into a demon king, tens of millions, hundreds of millions of yuan stones will not be difficult for you. It's only 13 million yuan now, which is definitely not unbearable for you."

This middle-aged man has rich experience and even knows the wealth of Suo Kuang Suo Heng and knows that they can come up with these yuan stones.

Suo Kuang Suo Heng glanced at each other, gritted their teeth, and then slowly nodded.

Suo Kuang said loudly to them: "Okay, then it's settled, one million yuan stone per person! This noble blood beast belongs to us!"

"Good!" The others nodded one after another.

The middle-aged man smiled and said: "Suo Kuang, Suo Heng, although you two are tyrannical, but you have always believed in your words, these primordial stones can be given to us later, and you can catch this profound beast first."

With that, a few of them backed away.

As for Suo Kuang Suo Heng, he turned around and looked at the blood wind with pride.

Chen Feng stood by, wringing his brows, his eyes were cold!

He was standing next to the blood wind, but these people seemed to have not seen him at all, completely treating the blood wind as nothing.

Right in front of him, the blood wind was divided up, Suo Kuang Suo and the two walked quickly toward the blood wind.

Chen Feng took a deep breath and stood in front of them.

Suo Kuang coldly shouted impatiently, "Where did you come from? Get out of the way! Blocking the way of the uncle, I slap you to death!"

Chen Feng looked at them and said lightly: "This monster is mine, his name is Blood Wind!"

"What? This monster is yours?" Suo Kuang sneered, looked at Chen Feng up and down, and said disdainfully: "Little boy. You don't look at what strength you are!"

"With your strength, you don't deserve to have such a powerful profound beast!"

Suo Heng laughed beside him and said, "Big brother is right, you little bastard, don't seek your own death, hurry away!" *ηOveLusb.com*

Chen Feng stared at them and said again: "This is my monster, his name is Blood Wind!"

"What a bullshit! Tell you boy, this monster is now back to Lao Tzu, and Lao Tzu named him Blood Fire!" Suo Kuang said forcefully.

"Since Lao Tzu has taken a fancy to this monster beast, it belongs to Lao Tzu. I don't care who is its owner! If you don't leave, I really want to destroy you!"

Chen Feng took a deep breath, his eyes full of anger, these people knew that the blood wind was his, but they wanted to grab it!

He said for the third time: "This is my monster, he is called Blood Wind! I will never allow you to take him away!"

"Little boy, it seems that you are really looking for death!" Suo Heng sneered, his figure flashed, and he slaughtered towards Chen Feng.

Suo Kuang shook his head, disdainfully said: "Things that do not live or die."

Then he walked towards the blood wind, and didn't care about it at all. In his opinion, his brother Suo Heng could easily kill this ignorant boy.

The people next to him also sneered, very disdainful.

"This little bastard, it's really a lard, and even with his strength, he dare to stop the madness?"

"Yes, Suo Kuang tried to kill him, as easily as crushing an ant. He is paying his life, and he deserves it!"

They are all ridiculing their faces, thinking that this young man who doesn't know what to do is absolutely impossible to be a defiant opponent.

Chen Feng looked at the attacking Suo Heng, looked at the increasingly larger fist in his vision, and a touch of coldness flashed in his eyes.

He didn't want to cause trouble. He only wanted the blood wind to evolve smoothly, and then left here immediately with the blood wind, but he didn't expect these people to deceive people too much.

They didn't make sense at all, and in front of their own face, they immediately divided up the blood wind, which Chen Feng absolutely couldn't allow!

He roared, his fist blasted out fiercely, and his aura suddenly pulled up.

Originally, his aura was only the sixth level of the Martial Sovereign Realm, but now after this punch, his realm has not changed at all, but his aura has increased by two big realms.

At this time, his aura and tyrannical degree came to Wujun Realm Eightfold, which was comparable to Suo Heng.

Suo Heng let out an exclamation: "How is it possible? Are you not the Sixth Layer of Martial Sovereign Realm? How can such a powerful fighting force burst out?"

Chen Feng smiled coldly: "This question, you can ask when you go to hell!"

His figure flickered, rushing quickly, and came directly to Suo Heng's body, and blasted out with a fist.

His fist collided with Suo Heng's fist, and Chen Feng didn't move, while Suo Heng stepped back seven or eight steps, his fist was extremely painful, and blood leaked from the surface of his arm.

He blushed, groaned, and swallowed a mouthful of blood abruptly.

The crowd around the audience all exclaimed: "This young man turned back with a punch? It seems we underestimated him before!"

"This young man's strength is not worse than the peso, and he has reached the eighth level of the Martial Sovereign Realm!"

"Yes, Suo Heng lost his adult this time, and was rewarded by a teenager!"

Everyone talked, Suo Heng's face flushed when he heard the discussion around him, and he felt that he had lost face greatly.

He stared at Chen Feng sullenly, and Sen Han said, "Little boy, how dare you still resist? If you don't resist, Lao Tzu may not kill you. If you dare to do it, then you will die here today!"

"Do you think that punch just now is my true strength? Tell you, boy, I only used 70% of my power just now!"

"Now, I'm going to use ten percent of my strength, and I can definitely kill you!"

[Chapter 1526: One knife!](#)

As he said, he took a deep breath, took out a thick, three-meter-long giant knife, leaped into the air, and slashed at Chen Feng with one knife!

With this cut, he already had the power of the eighth peak of the Martial Sovereign Realm, and the faces of the people around him were relaxed:

"Haha, Suo has suffered such a big loss just now, and now he is so angry that he has to use his full strength."

"Suo Heng's strength is still much higher than this little boy. If he uses his full strength, this little boy cannot be his opponent at all."

"Yes, this little **** will definitely be killed by this knife!"

Although Chen Feng hit Suo Heng with a punch just now, they didn't think Chen Feng was Suo Heng's opponent and continued to look down on Chen Feng!

Chen Feng smiled coldly: "Do you want to play with swords? Do you want to play with swords with me? Then I will have fun with you!"

As he said, the Dragon Slaying Sword in his hand suddenly came out of its sheath, and this huge 20-meter-long sword appeared, and those onlookers suddenly took a breath and exclaimed.

"This, this knife is so powerful! What level of spirit tool can this aura emit?"

"This is at least the Ninth Stage Spirit Tool!"

"Yes, this breath is extremely powerful. This should be the first Ninth-Rank Spirit Tool I have ever seen in my life. What is the origin of this young man and possesses such a powerful weapon?"

"This Ninth-Rank Spirit Tool is extremely powerful. If you want to control it easily, it absolutely requires extremely strong strength. Can it be said that even though we have already taken a look at him, we actually underestimate him?"

Everyone looked at Chen Feng with admiration, shocked!

Because they found that the strength of this teenager seemed beyond their imagination!

Chen Feng held the Dragon Slaying Knife in his hand and slowly slashed forward. He didn't use any moves, let alone the powerful martial arts such as thunder rushing into the sky to break the stars. He just slashed out.

Nothing fancy!

But with this sword, it seemed to have engulfed the power of the world, extremely powerful.

Suo Heng was extremely horrified, because he felt that as the big knife slashed towards him, it seemed that the world in front of him had collapsed, and there was only this giant knife where he could see.

It seems that this world is filled with a giant knife!

There was a sudden surge of despair in his heart. He felt that he would inevitably die under this knife. He yelled in horror: "How is it possible? You little boy, how can you have such a powerful strength, I Don't believe it! Ah..."

He let out a stern cry.

Chen Feng sneered and said: "If you don't believe it, you have to believe it. This is the fact!"

While speaking, the Dragon Slayer Blade was already slashing down fiercely, Suo Heng's huge powerful sword was as vulnerable as a piece of paper in front of the Dragon Sword Blade.

The Dragon Slaying Knife directly smashed the dead, easily smashed his black giant knife, and then smashed his sword power to pieces, the next moment, it was hit on him!

Yes, it was smashed, not slashed, because the Dragon Sword is too huge!

Suo Heng let out a scream, madly resisted, but unfortunately, his resistance was like an ant against a person, and it had no effect in front of the Dragon Slayer's body.

With a loud 'bang', the Dragon Slaying Sword hit the ground with a heavy weight, smashing a deep hole on the ground.

In the center of the pit, there is a mass of fleshy mud.

That's right, Suo Heng was completely smashed into a pool of flesh by the Dragon Slayer!

Everyone around exclaimed: "God, what did I see?"

"Suo Heng, at the eighth peak of the Martial King Realm, was killed by this young man with a single knife?"

"Yes, it's easy, there is no force to fight back!"

"The strength of this young man is terrifying, how could he be so powerful?"

They looked at Chen Feng with shocked faces!

A smile appeared at the corner of Chen Feng's mouth: "This complete version of the Dragon Slaying Knife is indeed much stronger than before! Before I drove the Dragon Slaying Knife as light as a feather, I couldn't exert my power at all!"

"And now, I only use the power of the Dragon Slaying Sword itself, without any martial skills, can easily kill the Martial Sovereign Realm eight-fold pinnacle master!"

"It turned out that the Dragon Slaying Knife is not worthy of my strength, but now my strength is not worthy of such a powerful Dragon Slaying Knife! The dragon sword is too heavy and the level is too high!"

"However, even relying only on the weight of the Dragon Slaying Knife itself and the tyranny of the blade is enough to kill powerful enemies!"

At this time, Suo Kuang also turned his head. He saw this scene, his eyes were cracked, his eyes were red, and he let out a violent roar: "Second brother!"

The figure flashed and came into the big pit, but unfortunately, only the puddle of meat greeted him.

He raised his head and stared at Chen Feng's eyes, showing extreme hatred: "Little boy, you dare to kill my second brother?"

Chen Feng said coldly: "You want to kill me and rob my profound beasts. Can I stand here and be killed by you?"

"Since you want to kill others, be prepared to be killed by me!"

"Good good, good kid! If you dare to talk to me like this, I must have killed you!" Suo Kuang gritted his teeth, his face showing an extremely vicious look.

Chen Feng said coldly: "Then a fight!"

Suo Kuang sneered, "Do you think you can kill me if you can beat my second brother?"

"Tell you, my strength is far better than my second brother!"

"That's right, that's right." People around said one after another: "Suo Kuang's strength has reached the Ninth Level of the Martial Sovereign Realm. This is the powerhouse of the Ninth Level of the Martial Sovereign Realm. It is only a thin line away from the Martial King Realm!"

"The eight layers of the Martial King Realm and the nine layers of the Martial King Realm are one realm different, but in fact, the difference is far greater than the gap between any great realm!"

"The martial arts realm nine-fold powerhouse is definitely not something this young man can handle. Suo Kuang should be able to easily defeat this young man!"

Suo Kuang listened to the words of the people around him, and was even more proud, and said coldly: "Little boy, have you heard? I can easily kill you!"

As he said, he roared and jumped into the air.

He has no other weapons, just his fists. His fists turned into a piece of steel, shining brightly, his fists blasted out one after another, and a fist emerged before his fists. These fists turned into A long dragon of the color of steel.

A fist connected to a fist quickly spread towards Chen Feng, as if a bridge continued to extend in the air, spreading hundreds of meters.

And when the front fist was 50 meters away from Chen Feng, suddenly, the back fists hit one by one and merged one by one. This long fist was all gathered in the front one.

[Chapter 1527: Blood wind! Sixth Stage Profound Beast!](#)

The fist in front of that suddenly became extremely powerful.

Then suddenly cut through the space and came directly in front of Chen Feng at an extremely fast speed!

"This is Bai Gang's wrong fist, Suo Kuang used his true strength, and once he came up, he did his best!"

"This Hundred Steel Wrong Fist is extremely weird and difficult to guard against. It started very slowly, but then suddenly speeds up. All the fists gather together and cause a fatal blow to the enemy. It will also create a visual illusion that makes people unpredictable!"

"This young man will definitely die directly under these two punches. These two punches already have the strength of the mid-ninth stage of the Martial Sovereign Realm. How could the young man be an opponent?"

Suo Kuang laughed loudly and roared ferociously: "Little boy, die under my fists!"

Chen Feng smiled coldly and stood still, just making a move.

He just crossed the Dragon Slaying Knife in his hand, and then came out with a horizontal cut.

After this move, after the blast, everyone felt that the wind in front of them seemed to have stopped, everything was stagnant, and there seemed to be only the huge black giant knife left in front of them!

Then, in the shocked gaze of Suo Kuang and everyone around, Tu Long Sword slashed on Bai Gang's wrong fist, directly smashing these two fists into pieces easily.

Then, Chen Feng's body flashed, and the speed was extremely fast, and he came directly to a place tens of meters in front of Suo Kuang, and then leaped up into the air.

Suo Kuang felt the tyrannical death threat and immediately resisted it crazily, but it had no effect.

The next moment, Suo Kuang let out a scream, and after half a breath, the scream stopped abruptly.

His figure disappeared directly, and he was directly chopped into fragments by the Dragon Sword, and burst into pieces!

Crush! Extremely easy rolling!

Those onlookers around were completely stunned. They thought Suo Kuang could kill this young man, but they didn't expect that the beheaded was Suo Kuang instead.

And the process was so easy and so fast that Suo Kuang had no power to fight back and was directly crushed into a pool of flesh!

It was exactly the same as his brother's end, very miserable.

With one sword and two swords, the two famous masters in Wuyang City were easily solved by this young man!

Everyone looked at this young man and the giant knife in his hand with shocked eyes!

They all know that this giant knife is really powerful, but if you want to control it, you also need extremely strong strength.

The youth's strength obviously far exceeded their imagination.

They felt so ridiculous. Just now they looked down on this young man at all, the profound beast who wanted to **** him even wanted to **** his weapon, but now they knew that the strength of the people was enough to crush them all!

"It's so ridiculous that we want to offend such a powerful person. It's really not wrong to die!"

At this moment, Chen Feng suddenly turned around and looked at them, his eyes full of murderous intent.

After these people came into contact with Chen Feng's gaze, they all shuddered.

Chen Feng looked at them with a smile, and said, "You are here to kill me and want to **** my monster beast, don't you?"

These people had been frightened by Chen Feng's tyrannical fright just now, and they waved their hands again and again: "No, no, it's a misunderstanding!"

"How can we dare to do this kind of thing?" The middle-aged man smiled and said, "How dare we deal with you?"

Chen Feng coldly shouted, "If this is the case, don't you hurry up?"

"Fuck..." When it came to the last scroll, the volume suddenly rose, and there was already a violent roar.

These people were all humiliated on their faces, and being yelled at by a teenager so much younger than them made them feel extremely humiliated, but they didn't dare to have any nonsense, and they were so scared. One by one, they fled frantically, and disappeared in an instant!

Chen Feng suddenly felt shocked in his heart, if he felt it.

So he immediately turned his head, and then Chen Feng saw a scene that shocked him.

At this time, Xuefeng's body had actually reached a full two kilometers in length, which was extremely huge, as if it could not be seen at a glance.

At this time, the blood wind finally stopped growing, and then Chen Feng saw an orange ball of light rolling on the surface of his body.

Wherever it passed, the hair on the surface of Blood Wind's body was emitting a glow of orange light, extremely bright!

The momentum suddenly rose, the fourth-rank profound beast, the fifth-rank profound beast, the sixth-rank profound beast... it was directly elevated to the level of the sixth-rank profound beast, and then stopped!

Xuefeng suddenly opened his huge eyes, but instead of looking at Chen Feng, he stared at the sky.

Suddenly, his body stood up straight and let out a long wolf howl into the sky.

This long wolf howl, I'm afraid that the entire Wuyang City can hear it clearly, shaking the sky, and it seems to be able to reach the sky!

Chen Feng was watching from the side, not knowing why, suddenly there was a feeling of tears in his eyes.

"This is the blood wind, this is my partner, my brother! You finally woke up, you not only woke up, but also became stronger than before!"

Then, the **** head turned around, looking at Chen Feng, first in confusion, then in extreme ecstasy.

He rushed towards Chen Feng, and Chen Feng laughed: "Bloodwind, are you trying to crush me to death like this?"

The blood wind shook his head, as if he was a little embarrassed, and then I saw that he brushed the surface of his body from extreme expansion to extreme contraction, all at once introverted.

And his body size is constantly getting smaller and smaller, from a behemoth more than two thousand meters long to only half a meter long, like an orange dog, to the extreme.

Then, he rushed directly to Chen Feng's body, and his little head slammed into Chen Feng's arms, rubbing against Chen Feng's chest, humming in his mouth, and closing his eyes.

Until I found a comfortable posture, I stopped moving.

Leaning so softly in Chen Feng's arms, he was extremely peaceful.

Chen Feng smiled and said softly while touching his head: "Bloodwind, this place is not a long-term place, go, let's leave here first."

With that said, he quickly left with the blood wind, leaving Wuyang City, and came to the surrounding remote mountains and forests.

Not long after Chen Feng left, several figures came to the place where they were just now.

The auras in these figures are extremely terrifying, and these are the real powerhouses in Wuyang City.

Just now, they respected their identities and didn't come here the first time, but wanted to wait and see, but they didn't expect it to be too late when they came!

[Chapter 1528: Bloodwind speaks!](#)

Chen Feng lifted the blood wind high, staring at him, his eyes were full of softness: "Blood wind, do you know how much I miss you during these days?"

"Do you know that I am always worried about you!"

There was a whimper in Xuefeng's throat, and when he looked at Chen Feng, his little head plunged into Chen Feng's arms, as if he was about to behave like a coquettish as usual.

But when he made that whimper, his whole body suddenly froze, his eyes rolled, thoughtful.

Then he opened his mouth, but there was no sound. Chen Feng asked in surprise: "Bloodwind, what's wrong with you?"

Xuefeng shook his head, his eyes were contemplative, and then a few syllables suddenly uttered in his throat.

When Chen Feng heard this, his whole body was shocked, and he was completely dull there.

The syllables produced by the blood wind are very primitive and short, and they can't even be called words, but Chen Feng can hear a bit of human language in it.

Chen Feng said in surprise: "Bloodwind, you, are you trying to speak?"

Xuefeng nodded and continued to work hard, his mouth babbled and babbled, which was completely different from the usual sobs and growls.

Finally, after he tried many times, a clear voice suddenly came out from his throat: "Boss Chen Feng!"

Chen Feng was extremely excited, and at this time seemed to have experience, the voice of the blood wind became clearer, and he could speak longer sentences.

His voice rang again: "Boss Chen Feng, I know you miss me very much, but can you be a little bit more energetic? You are about to pinch me to death like this!"

Chen Feng was taken aback for a moment, then laughed, stretched out his hand and twisted it on the round and cute wolf ears in the blood wind: "You little guy, you are a chicken thief!"

Bloodwind grunted twice, like a well-behaved puppy.

This voice was surprisingly the voice of a little boy, immature, well-behaved, and lovely, and full of dependence on Chen Feng!

Chen Feng didn't know how powerful the monsters and beasts could make sounds, but he only knew that he thought he could make sounds when he reached the Divine Gate Realm, which was actually an illusion.

Only certain special monsters can speak human words at low levels, such as snake monsters.

Because snake-like dragons, dragons-like dragons, snake monsters are an extremely powerful race, there are snake monsters of any level.

And the most powerful among snakes, even more powerful than dragons!

Snakes are psychic, so they can speak at low levels. Other monsters are very difficult. At least Chen Feng has not seen a few until now!

The **** wind's eyes rolled around, and there was a thief in the voice, like a child with a ghost spirit, although simple, but with such a little bit of bad thoughts, this made Chen Feng like it more!

Xuefeng had just learned to speak and seemed to be particularly excited. He held Chen Feng and Barabara and said a big deal, and almost all ears Chen Feng said.

Unconsciously, it was almost dawn.

At this time, Chen Feng suddenly remembered and asked: "Bloodwind, you seem to have evolved again."

"That's right." Xuefeng's little head nodded seriously, and said: "My bloodline is the blood of the wolf god. As long as I absorb enough and pure enough blood of the wolf god, I can evolve."

"The first time it evolved was a giant red wolf, and this time, it evolved into a giant orange wolf!"

Chen Feng asked expectantly: "Then after you evolve this time, do you have new abilities?"

Xuefeng nodded: "Yes, it has a new ability."

Chen Feng quickly asked: "What is it? Tell me quickly."

Xuefeng smiled suddenly, and Mai Guanzi said, "Boss Chen Feng, I won't tell you anymore. You will know it then, don't worry!"

His wolf paw patted his chest, and he promised to say: "This ability is absolutely powerful, and you will never be disappointed by then!"

Chen Feng laughed, nodded and said, "You guys, you have all learned to sell things."

Chen Feng didn't ask any more questions, and soon Chen Feng returned to the Dragon God Mansion with a **** wind.

After he settled there, he returned to Wuyang City.

This time, he picked up Zhong Yuxiu and Luo Zilan from Wuyang City and settled in the Dragon God Mansion.

This time the incident reminded him that the place where he lives is far less safe than he thought. Perhaps many people know the existence of Zhong Yuxiu and Luo Zilan, but they have never started.

So Chen Feng decided to let them live in a safer place. He reported the matter to Long Shenhou. Long Shenhou did not have the slightest opinion. Instead, he met with the two of them and gave Chen Feng enough face.

Next, Chen Feng retreats in her own small courtyard to meditate.

There is not much time left. Ten days later, it will be the Big Four Hou Mansion Competition. Chen Feng must seize all the time to cultivate well!

Two days later, Chen Feng suddenly heard a knock on the door of the small courtyard.

Chen Feng raised his eyebrows, feeling a little surprised, not knowing who was knocking on his door.

The news of his retreat was well known from all over the Dragon God Hou Mansion, and no one would disturb him easily.

Chen Feng came out of the closed state, went out to open the door, and saw the senior brother Zhou Yang standing outside the door.

At this moment, Zhou Yang showed a touch of worry on his face, and Chen Feng smiled and said, "Big brother, what's wrong?"

Zhou Yang looked at Chen Feng and smiled and said, "I don't know if it is good or bad news to tell you."

Chen Feng said in amazement: "Please speak."

Zhou Yang said: "The Four Great Hou Mansions after ten days have been renamed the Five Great Hou Mansions."

"What?" Chen Feng couldn't help being stunned.

Zhou Yang smiled bitterly and said: "Just yesterday, your Majesty, because of the outstanding performance and outstanding merits of the Shui Family during the expedition of the Heishui Marsh in Southern Xinjiang, he specially designated the Shui Family as Heishuihou!"

"Now, the Great Qin Kingdom is not the four great princes, but the five great princes. Now that it has been named Lord Hou, the Shui family is naturally eligible to participate in the Houfu Grand Competition."

"On the same day, the Patriarch of the Shui Family asked his Majesty to participate in the Five Great Hou Mansion Competition, and his Majesty also readily agreed."

Zhou Yang looked at Chen Feng and said: "The Shui family has always had a lot of talents, and there are a few extremely outstanding characters who are not inferior or even surpassing the others."

"As soon as their family joined, they immediately added a lot of variables to the Big Five."

Chen Feng asked: "What kind of masters does his family have?"

Zhou Yang said: "Don't talk about anything else, just take Shui Changyong, the eldest son of the water family, for example. It is said that his strength has reached the ninth level of the Martial Sovereign Realm."

[Chapter 1529: Water sword wind!](#)

He paused, then said two more words: "Peak!"

"What? The Ninth Peak of Martial Sovereign Realm?" Chen Feng couldn't help but feel a little surprised: "How old is he?"

"It's only twenty-seven years old!" Zhou Yang said.

Chen Feng took a deep breath. At the age of twenty-seven, he was able to reach the ninth peak of the Martial Sovereign Realm. Such a talent is absolutely appalling.

Extremely talented and strong!

"Moreover," Zhou Yang said with a wry smile at the corner of his mouth, "His strength was three years ago. Three years ago, when he was ordered to guard the Blackwater Marsh and suppress those barbarians, he had already reached this strength."

"Three years have passed, who knows what level of strength his strength has reached? Don't run into him!"

Zhou Yang thought for a while, then shook his head again and said, "Even if I run into him, there is no chance of winning. Now I can only hope that he is a hundred thousand miles away in the South Wilderness, even if I get news. I can't make it back!"

"In short, the addition of the Shui Family may disrupt the plans of all families, including us."

"Chen Feng, if you want to get this number one, you must work harder." As he said, he patted Chen Feng on the shoulder, and a warm current surged in Chen Feng's heart.

He looked at Zhou Yang and solemnly said: "Big brother, rest assured, I will definitely not disappoint you and Master's expectations!"

Zhou Yang left and stood there thinking for a moment. Chen Feng showed a faint bitter smile at the corner of his mouth, and said to himself: "If you want to worry, the person who is most worried about it should be me. After all, I and the water chief of the water family Xu has been in conflict."

"This time, if the Shui Family participates in the Big Five Houfu Competition, it will definitely target me."

"But, what then?" Chen Feng suddenly blushed, straightened his waist, his heart surged with pride!

"These five Houfu, except for the Dragon God Mansion, I have offended many times. The people of the other four families all want to kill me and then quickly. One more water family is not much, and one less water family is a lot!"

"It's nothing more than a battle, let's come, see me in this big competition, break the ten guilds with one force, let your conspiracies and tricks, demons, **** calculations, I will blow it to pieces!"

"I want to see who can overwhelm anyone. Come on, I, Chen Feng, would be afraid of you people?"

Chen Feng's heart was frank and magnificent, and he continued to return to the secret room to practice in retreat.

While he was practicing in retreat, a large group of cavalry rushed from the south of Wuyang City.

These cavalry riders are all giant crocodiles, hundreds of meters long and tens of meters high. They are covered with heavy black scales. They are covered with huge folds and four strong legs, like a hill. .

Stepping on the ground is a huge pit.

On these giant crocodiles, black venom was constantly dripping down, and when it fell on the ground, a large pit was corroded.

A faint water vapor filled the surface of their bodies. Obviously, these monsters came from the swamps in the southern wilderness area.

Nowhere else, there is no such huge monster beast like a crocodile!

Especially huge, the gray giant crocodile at the front is exceptionally huge, and on top of its head, a young man in a blue robe is sitting cross-legged.

The giant crocodile ran, up and down, but he was extremely smooth, and then up and down.

His body is indifferent, and people don't seem to notice that there is still this on the head of the giant crocodile at a glance.

And if there are powerful people here, they will surely shout out in astonishment.

original. This person has almost reached the realm of being integrated with nature, this realm is generally only reachable by the strong who transcend the realm of Wujun!

Soon, this team of knights came to the gate of the city, one holding a banner. The guards in iron armor came to the gate of the city and shouted loudly: "Heishuihou Shizi Shui Jianfeng, lead the Heishuihou pro-army, return to Beijing to report on duty, please let go!"

Those city guards, who sounded like Heishuihou Shizi, suddenly showed flattery on their faces.

Just kidding, how many people don't know about the reputation of Hou Shizi in Heishui, the entire Great Qin Kingdom?

Heishui Houye, who had outstanding meritorious service, was named Hou Ye. It is said that when Heishuihou conquered the Heishui Marsh, the one who contributed the most and made the most meritorious services was Heishuihoushizi.

This Heishui Hou Shizi, at a young age, has the power to reach the sky and the earth, leading Heishui's pro-army, and has not yet failed.

Even, he used to rush into 30,000 li within a month, and within a month, he fought 36 battles, won consecutive battles, beheaded more than 8 million enemies, and laid 30,000 li for the Great Qin Kingdom.

This is simply a myth!

He is now almost regarded as one of the best among the younger generation, second only to the princes in the palace.

The city guards hurriedly nodded and bowed to open the city gate and let go. The city gate official also specially rushed over to curry favor with Shui Jianfeng.

Shui Jianfeng was very kind, and even said a few words to him softly.

In this world, he looks good, he doesn't look like a man, but like a weak girl. Not only is the complexion fair, but he speaks softly and softly. It's really hard to imagine. This person is on the battlefield. The above is so violent!

Heishuihou rallied and rushed towards the city. Many people who saw it were shocked.

Those with well-informed information are speculating: "Heishui Hou Shizi returned to Beijing this time and said it was a debriefing, but most of it should have come to participate in the Big Five Houfu Competition."

"Yes, it is the first time that Heishui Hou Mansion participated in the Big Five Hou Mansion Competition. It must be a name that shocked everyone."

"So, Shui Jianfeng is the best candidate."

"Yes, Shui Jianfeng should be a coercive existence among the younger generation of the Five Hou Mansions, and everyone is unlikely to be his opponent."

"Yes, as soon as he comes back, the number one is already set, and no one can take it away!"

In the eyes of many people, the final suspense of these five Houfu Grand Tournaments has been lost!

Chen Feng didn't know all of this, he was still retreating in the mansion.

In the secret room, Chen Feng sat cross-legged, without the relaxation he had before. The expression is very solemn.

And slowly, in his dantian, a golden light flashed quietly, this golden light was so weak that it could not even be seen outside.

Only at this time, the golden light in the pubic area was shining, like a sun, exuding golden light.

And the source of this golden light is Chen Feng's Great Asura Martial Spirit. At this time, the Great Asura Martial Spirit has no peace at all, but is extremely greedy. It seems to be extremely eager, eager for power, eager to swallow, and devour the same kind!

[Chapter 1530: Late](#)

This golden light is what it emits.

The strong desire and the majestic power, and in this greed and viciousness, there is a magical Buddha nature.

It was this faint Buddha nature that was instantly sensed by Chen Feng. Chen Feng was originally focused on practicing in retreat, and he hadn't felt the abnormality in his dantian, but he felt it at this time.

It is because of the Buddha nature!

Because what Chen Feng was cultivating at this time was the Little Diamond Technique, he wanted to cultivate the Little Diamond Technique to the realm of Dzogchen before the Grand Competition.

All the martial arts gods are transformed into the power of Little King Kong!

The Little Vajra Art is closely related to the Buddha Nature, so Chen Feng immediately felt it. He immediately felt happy, and then slowly pulled out a trace of Buddha Nature in his dantian, and merged with the Little Vajra Art he was practicing. .

Chen Feng did it little by little, working slowly and without any urgency.

So it was very safe, without any mistake, the golden light in his body became more and more prosperous, and finally came out from the dantian, as if there was a sun in the dantian of Chen Feng.

At first, half of the pubic area was shining.

Later, the entire pubic area shined brightly.

Later, Chen Feng's belly radiated golden light.

After waiting for three days, Chen Feng's entire body surface was already surrounded by golden light, as if wrapped in a golden silk cocoon.

Moreover, Chen Feng also incorporated this silk buddha nature into his martial arts gods and into the small vajra art.

The martial arts gods in the martial arts Tianhe continue to turn into gold, constantly condense, become pure, and transform into the power of the little diamond, very fast.

The speed visible to the naked eye continues to spread and extend, and the Little Diamond Technique seems to have some effects. In the process of cultivation, the faster the progress, the greater the joy of the cultivator.

Chen Feng devoted himself to this joy and comfort, and even forgot the time.

Time passed bit by bit, until the tenth day.

Today is the day when the five great marquis are compared, but Chen Feng is still immersed in this joy and joy at this time, and he does not know the changes in time outside.

At this time, the martial arts gods in the martial arts Tianhe have basically been transformed into the power of the little diamond, and only the last point is left, only the last one meter from the end of the martial arts Tianhe.

In the 6,000-meter martial arts Tianhe, 5,999 meters are transformed into the power of Little King Kong, but when the last meter is left, it doesn't move forward anymore and just stops like this. Come down.

Chen Feng suddenly felt anxious, he took a deep breath, forcibly calmed the anxious emotions in his heart, and then continued to urge.

But it didn't have any effect at all, the power of Little King Kong didn't spread forward at all, I don't know how many times it was activated.

Chen Feng became more and more anxious. In the end, he sighed softly, retreated from the state of concentration, and said softly: "I tried many times, but it didn't work. It seems that I can't reach this state now.

"Oh," a look of unwillingness appeared on his face: "One meter, just one meter away, I can thoroughly practice the Little King Kong Art and transform all the martial arts gods into the power of Little King Kong. "

"But now, it can only be so."

Chen Feng suddenly remembered something, raised his head, patted his head, and said in horror: "It's broken, today is the day of the Big Competition!"

He looked outside, the sun was shining outside at this time, I'm afraid it's almost noon.

Chen Feng shook his head: "Oh, this time the retreat is too long!"

He didn't dare to have any delay, he immediately went out to clean up, and then hurried to the place of Dabi!

The specific location of the Five Great Houfu Dabi is in the east of the city.

Here is a mountain range that is extremely tall and beautiful.

In front of the mountain range, there is a wide river with a width of tens of thousands of meters. This river is the largest water vein in the Great Qin Kingdom. From west to east, it traverses the entire Great Qin Kingdom and rolls away.

Just at this location, surrounded by mountains and rivers, a huge ring was built. It is close to the mountains and facing the big river, with a radius of several kilometers, enough to display!

Even the ring is made of stainless steel to prevent them from being too strong and destroying it.

On the mountain, many gorgeous white jade pavilions have been built relying on the mountain, and the decoration is extremely luxurious.

These were prepared for the people of the five great marquis and the nobles of the big families who came to watch the ceremony.

At this time, there were already a lot of people sitting on the huge stand surrounded by mountains and rivers.

These people are basically very luxuriously dressed people. If someone from the Great Qin Kingdom glanced here, I was afraid that they would be extremely shocked.

Because, at this time, the thousands of people sitting on the stands almost included more than 80% of the nobles in Wuyang City, the capital of the Great Qin Emperor.

From the first-rate Houfu, to the second-rate big family family, to the third-rate ordinary family, to the fourth-rate middle-class family, and the fifth-rate small families, all are here.

It can be said that almost there are people with faces in Wuyang City, and Bacheng has already arrived here, which is also normal.

The Five Great Hou Mansion Competition is an annual event in Wuyang City, the capital of the Great Qin Emperor, and it is even more precious than the new pharmacist's new talented Great Competition.

To put it bluntly, there are some nobles among those alchemists, but most of them are civilians, so naturally they will not attract the attention of nobles.

The nobles, even if they recruit the best alchemists, are just to give their families a bit of help, but it is the direct line of the top families of the Daqin Kingdom that participated in the five great Houfu competitions. Children, people will naturally care more about their children.

This is human nature!

Moreover, the five great marquis competition, whoever emerges of young talents to win, may represent that this marquis can occupy an advantageous position among the five great marquis in the future.

Basically, the other aristocratic families in the Great Qin Kingdom are dependent on the existence of the five great princes. If a certain prince is strong, those families that depend on him will also become stronger and can occupy more resources, and the days will pass. Very good.

If a prince's palace decays, then the family that is attached to him will either follow the silence or change to another master.

Therefore, it can be said that the five great Houfu Grand Competition affects the changes in the power of the entire Great Qin Emperor. How could they not care?

At the top of the stands, that is, the farthest from the ring, seated are the nobles of the Wuliu clan of the Great Qin Emperor. They are said to be the Wuliu clan. However, if each of these families is taken to Yongzhou, Qingzhou outside, absolutely They are all first-class families.
