### [Chapter 1651: Ten heroes!](#)

Lieyanhou coldly snorted, and said, "Don't \*\*\*\* talk coldly here, don't forget, when you said you were looking for the Golden Wing Thunder Eagle King, you also agreed!"

Heishui Hou Yin smiled miserably: "Yes, I agree, but what about it?"

"The Golden Winged Thunder Eagle King is the person you advocated to find. As a result, the errands are not done well now. Not only did Chen Feng run away, but it also made him improve. Now it is more difficult to kill him!"

"You said it was wrong, who is it?"

Lieyanhou said angrily: "Fuck, what do you mean by saying this now?"

"What do you mean? Who is responsible for this mistake? Of course we have to understand it in theory now!" Heishuihou sneered and said, "It won't happen, let us see from the four of us, and let some incompetent person take the lead. Thing!"

His words were innuendo, and he was clearly talking about the Marquis of Flames.

Lieyanhou was furious. He was already a fiery temper, just a little bit. At this time, he was even more angry. He slapped the table fiercely, stood up, and shouted:

"You only know the bugs that shrunk in the water, who the \*\*\*\* are you talking about?"

"I mean you!" Heishui Hou Yin said coldly, his eyes flashed murderously!

The two of them had long since disliked each other, and now that the fuse was there, they blamed each other.

At this time, Tongtianhou opened his eyes and said lightly: "Okay, stop arguing with you two."

"Speaking of hatred, both of my sons died in his hands. I hate him more than you. Since you are not convinced with each other, then I will be the master. How about?"

He is considered a person of high morals, and his words are still very important among these few people.

Both Lieyanhou and Heishuihou could trust him.

Lieyanhou coldly snorted and said, "I don't care about you today, I'll give Tongtian Houye a face."

Heishuihou sneered and did not speak.

Tongtianhou said slowly: "Now, Chen Feng's strength is advancing by leaps and bounds, and the speed of this progress is beyond the imagination of the four of us."

The four of them were silent, and Tongtianhou was right. They were full of confidence, thinking that sending a Demon King with a one-star Wuwang realm would be enough to solve Chen Feng.

Unexpectedly, it was only a month's time that Chen Feng would even be able to kill even the two-star Martial King!

A look of horror appeared on Zhenxihou's face, and his voice even trembled: "This Chen Feng is too scary."

so horrible! This is the common idea in the hearts of the four of them.

Not long ago, they looked down on Chen Feng and didn't put Chen Feng in their eyes at all, and by this time Chen Feng was able to kill the two-star Martial King.

Its strength is even enough to be equal to the four of them.

You know, the four of them are just the realm of the two-star Wuwang!

Zhenxihou's voice trembled suddenly, as if he had made so much determination, he waved his right hand down and said: "We must, kill Chen Feng immediately, and we can't delay any longer!"

"Give him a while, who knows what terrifying situation he will grow into?"

"Yes, at all costs!" The others nodded.

Even Heishuihou and Lieyanhou stopped arguing, with a solemn expression on their faces, and agreed with this view.

Heishuihou said: "If we didn't kill him before he returned to Wuyang City, I'm afraid all of us will be destroyed by his hands."

"Chen Feng is fierce and fierce. If you have any grudges, you will get revenge. The four of us sent the Golden Winged Thunder Eagle King to kill him. I'm afraid he already knows the truth and will definitely not let the four of us go."

"The day he returned to Wuyang City smoothly was when our four houses were destroyed!"

"Either he is dead, or our four families are destroyed, there is no third way to go!"

The voice is as cold as ice, but this is the truth, cruel, either you die or I die!

"The four of us must not be able to move, otherwise, the royal family will definitely notice for the first time that the old thing values Chen Feng so much, and he will never allow others to kill his baby bumps."

In Tongtianhou's voice, there was no respect for His Majesty the Emperor, his voice said coldly.

Others nodded one after another: "If this is the case, then it's the old way? Just find someone to kill him."**NOVELUSB.COM**

"But the key is, what price can we pay? Who can we find? Can the people we find kill Chen Feng?"

Lieyanhou and others all expressed their opinions one after another, but after Tongtianhou had not spoken, after a while, he slowly coughed.

The other three immediately stopped and stared at him.

They all know that Tongtianhou is so savvy and easy to refrain from expressing opinions, but as long as he publishes it, he can make a final decision.

Sure enough, Tongtianhou slowly said: "Now, the people of the Great Qin Kingdom all know how good Chen Feng is, and they all know how important Chen Feng is to his Majesty the Emperor."

"Presumably, no one dares to take this risk to kill him, so we can only find someone from outside Daqin."

"Fortunately, outside of Da Qin, there are countless capable people, strangers and powerful generations, but they may not be impossible to find."

"Fuck it!" Lieyanhou shouted loudly: "Don't say it is to find someone to kill Chen Feng, even if it is treason, now as long as I can keep my Lieyanhou line, I will do it."

Tongtianhou smiled slightly and said, "It's not that serious. I have a choice here. It's very suitable to kill Chen Feng."

The other three were shocked and quickly asked, "Who is it?"

Tongtianhou slowly said, "Chu, Xiong Chengjing!"

"Xiong Chengjing, is one of the top ten heroes of the Thirty-seven Kingdoms of Slaying Dragons, Master Ziyang of Chu Kingdom, Xiong Chengjing?"

"Yes, it's him!" Tongtianhou said with a smile.

The Thirty-seven Kingdoms of Slaying Dragons were vast and boundless, with a radius of tens of millions of miles, while the Qin Kingdom was only one of the thirty-seven countries, and its strength was not so outstanding, it was just medium.

The population of the Thirty-seven Kingdoms of the Dragon Slayer is hundreds of billions or even trillions. Young people don't know how many.

And among all the young talents, the best masters are naturally the six masters!

And under these six great masters, some people were unwilling to be lonely, and they came up with a name called the Ten Great Heroes.

The top ten heroes are the ten top masters among all the young masters, except for the six great masters. These ten top masters are extremely powerful and powerful.

Tian Cheng, who died in Chen Feng's hands, could not even be among the top ten heroes!

Each of these ten great heroes is extremely powerful. In the entire Great Qin Kingdom, there is not even a master among the six great masters. Among the ten great heroes, only one place is occupied!

Everyone nodded one after another: "The top ten heroes, indeed, each of them has the ability to kill Chen Feng, very tyrannical."

[Chapter 1652: Breakthrough, Wujun Realm Nine Layers!](#)

"Moreover," Tongtianhou said with a smile on his mouth, "Don't forget, who is Xiong Chengjing's brother?"

"Xiong Chengjing, one of the top ten heroes, and Xiong Chengjing's brother, is one of the six great masters! That is the six top young masters in the Thirty-seven Kingdoms of Slaying Dragons. His strength is unfathomable, even comparable to the emperor. Overtake us!"

"Xiong Chengjing can kill Chen Feng smoothly, that's naturally good, and if he dies in Chen Feng's hands, haha..."

He laughed aloud, his smile full of calculation and pride.

Hei Shuihou applauded loudly and said: "Okay, Tongtianhou, or you think clearly, think well."

"If Chen Feng killed Xiong Chengjing, it would be a dead end. Xiong Chengjing's elder brother would never let him go. A trick! What a trick!"

The other two also laughed in relief.

Now, the only calculation is how to please Xiong Chengjing!

Zhenxihou said in a slow voice: "If you want to please him, I'm afraid the price is very high, but it is better than the destruction of all four of our families, right?"

"Even if you take out all your belongings, as long as you keep the family, you can earn them again."

"Yes!" The other few people were not short-sighted, and nodded one after another.

Tongtianhou said awe-inspiringly: "I have decided to take out 80% of my family property, a total of 100 million yuan stones, plus 3,000 pieces of heaven, spirit and earth treasures, and 1,000 beautiful women with excellent bloodlines as gifts to Xiong Chengjing. "

When the other three heard it, their hearts were stunned. The price was not small.

They all expressed their opinions one after another, and came up with a gift list no less than Tongtianhoufu!

"Everyone, although we paid a heavy price this time, it is worth it!"

"Chen Feng will definitely die this time!" Tongtianhou smiled.

Zhenxihou said in an interface: "Yes, I don't think that even the second step of the plan is even needed. Xiong Chengjing is enough to kill Chen Feng."

Tong Tianhou nodded: "I also just in case!"

The four of them looked at each other, and they all laughed triumphantly, as if they had secured a chance to win, and Chen Feng was already a dead person in their hearts!

A pillar of blood, like a rainbow, lay across the sky, spanning hundreds of meters, and entered Chen Feng's palms.

Then, it was rapidly transformed by the cyclone of Nine Yin and Nine Yang Divine Art, transformed into a vigorous spiritual energy, and then transformed into a tyrannical martial arts god, and entered Chen Feng's martial arts Tianhe.

Chen Feng's martial arts Tianhe, the river continues to rise.

The waves were turbulent, calm at first, but more and more turbulent.

The big waves are surging to the sky, constantly beating the void at the end of the martial arts Tianhe.

There was a loud bang, and the void was shaking, but there was no change.

There was an unspeakable excitement in Chen Feng's heart, because he knew very well that his current appearance was a breakthrough from the eighth peak of the Martial King realm to the ninthfold.

What he knew more clearly was that it was extremely difficult to break through the Nine Layers of Martial Sovereign Realm, much more difficult than any previous breakthrough!

Therefore, Chen Feng increased his strength even more. The Nine Yin and Nine Yang Divine Art madly extracted all the remaining power in the mountain swallowing violent ape with unprecedented strength.

Chen Feng started very quickly, and the power in the mountain swallowing ape hadn't had time to lose much, and he had already begun to transform it.

A burst of earth-yellow light flooded into Chen Feng's dantian with blood, and then this yellow power was also turned into spiritual energy.

But this aura is different from the others. The martial arts gods they transformed into did not directly enter the martial arts Tianhe, but penetrate into the two banks of the martial arts Tianhe, blessing the two banks of the martial arts Tianhe more firmly.

Even the two sides of the strait have been raised, and after the two sides are raised, the martial arts gods that can be accommodated in the martial arts Tianhe will be even more.

Finally, I don't know how long it has passed, or how many times the martial arts gods slapped it. At the end of the martial arts Tianhe, cracks finally appeared.

The huge mountain-swallowing violent ape in front of Chen Feng has become like a dry corpse, less than one-third the size of its peak period, with dry and cracked skin, tightly clinging to the bones.

Feeling that the flesh and blood seemed to disappear.

Finally, with a loud bang, the last bit of blood in his body also disappeared directly.

The essence and blood are transformed into martial arts gods, and after entering Tianhe, it is like the last straw to crush the camel.

With a bang, the martial arts \*\*\*\* Gang directly smashed the void at the end of the martial arts Tianhe.

There was a buzz in Chen Feng's brain, and he felt that his thinking seemed to radiate out a few times, very clear, and the whole body was inexplicably happy, and the martial arts gods rushed forward and pushed forward.

Once the breakthrough, there is an invincible posture, and always break through.

Eight thousand meters, eight thousand one hundred meters, eight thousand two hundred meters...

It didn't stop until the length reached eight thousand four hundred and ninety-nine meters.

Chen Feng opened his eyes and laughed up to the sky: "I am already in the Ninth Stage of the Martial King Realm, and I am only one step away from the middle stage of the Ninth Stage of the Martial King Realm!"

Chen Feng didn't expect his own strength to make another breakthrough. Although this place is dangerous, the harvest is also great.

This mountain-swallowing violent ape of the two-star Demon King level directly allowed Chen Feng to break through and enter the Ninth Level of Martial King Realm!

"In this, I don't know how many powerful existences of the Demon King level, hunting one can greatly increase my strength, but the price paid is too great."

There was a wry smile at the corner of Chen Feng's mouth, and he whispered to himself: "I'll still be careful in the future, but it's not that Wannian Chalcedony saves my life every time."

After learning this lesson, Chen Feng will act more carefully in the future. He goes out at night, because night is the time for the activities of those powerful beings.

Chen Feng traveled here for three more days, traveling thousands of miles.

On this day, he was standing on a ridge, one side of the ridge was a valley, and in the valley was a large river several hundred meters wide, rushing southward.

The big river nourishes the land on both sides of the valley, and at a glance, thousands of miles are rich and fertile.

"Something is wrong!" Chen Feng's heart suddenly moved, he quickly crossed the ridge, and then came into the valley.

His location was about ten meters away from the river. At this time, he discovered that the fertile soil at his location was actually full of crops.

The heavy ears of corn were drooping down and full, obviously, the crops here are growing very well.

Chen Feng stared for a moment and found someone here.

Moreover, he took a few ears of wheat in his hand and rubbed it carefully for a while, and then discovered a fact in shock.

Here, it was not eroded by the gray air current.

Chen Feng came dozens of miles away. There was a kind of tree here. As soon as he reached out his hand to pluck a berry and crushed it, he found that there was no grey air current inside.

[Chapter 1653: town](#)

Chen Feng changed dozens of places here, covering a range of hundreds of miles, and doing countless tests, and then he confirmed the fact: this huge river valley is thousands of miles long and hundreds of miles wide. In, everything is not corroded by the gray air current.

Here. One group is thriving, no different from the outside world.

No, it should be said that there is still a difference. The soil here is more fertile, and the aura is very rich, making people stay here extremely comfortable.

And Chen Feng can foresee that if the child has been here for a long time, then the child's success rate will definitely be much higher than outside. **novelusb.com**

quickly. Chen Feng discovered a town.

This town is not small. . There were tens of thousands of people. As soon as Chen Feng approached the town, he suddenly felt quite strange. It was as if he was being spied on by something.

It was like a basin of ice water, lifted the Tianling cover, poured it down from beginning to end, and drenched Chen Feng's whole body with ice cold.

Even when this power came, Chen Feng immediately shivered, feeling like being in the ice and snow.

This force is cold and evil, full of meaning of death!

On the surface of Chen Feng's body, the power of Little King Kong turned slightly, and he immediately gave this power a smile, and then he returned to normal.

Chen Feng was horrified: "What kind of power is this? It feels a bit similar to the gray power outside of the river valley, and it is full of the meaning of death."

"However, this force is obviously stronger and more condensed. The two seem to have the same origin."

"But in the end, they didn't go to the same destination by different paths, but took two forks. No, the force of nirvana that just struck was obviously more sharp and domineering."

"And the gray power outside the valley is full of insidious meaning, and it's a bit inferior."

Chen Feng shook his head, walking around here cautiously.

People come and go in this town, and Chen Feng meets many people. Their dress is no different from outside. With Chen Feng's current strength, if they don't want them to find out, they will naturally be unable to find out.

Chen Feng quickly realized that the people here were different from those outside, and they seemed to be full of hostility.

That's right, it's hostility. Their eyes are always cold, and the eyes when they look at others are full of murderous intent, as if they are about to be enemies with almost anyone.

It's not that you really want to confront each other, but such a person is absolutely surly temperament.

In the future, if you control a powerful force, you will definitely be the kind of person who will kill if you make a difference. This kind of person accounts for the majority. Of course, there are normal ones, but they are relatively rare!

Chen Feng also found that the people here are generally not bad.

In this small town, he only met a few hundred people, and there were no more than 100 young people under the age of twenty, but Chen Feng saw at least fifteen talented people.

Each of these fifteen people can reach the triple level of the mortal body.

This discovery shocked Chen Feng.

There are so many in this town. He came along the way, but he saw many towns, so how many together?

Chen Feng now finally confirmed the fact that the number of people with outstanding talents among the more than one hundred towns in this river valley is almost on the same level as Da Qin.

And all the towns here, all the young talents and outstanding talents in them, are all selected by the nirvana knife gate.

Chen Feng seemed to have explored the secret of why the sword gate of Nirvana could endure for a long time, and remain strong to this day.

And when Chen Feng came to the square in the center of this small town, he suddenly felt that the domineering and evil nirvana power that spied him before appeared again.

Chen Feng looked up, his eyes narrowed suddenly.

It turned out that a giant statue was erected in the center of the square.

The statue is 100 meters high. It is a middle-aged man in Tsing Yi, holding a thick-backed single-edged sword in his hand, and his face is full of the meaning of domineering the world.

Although the entire statue is a stone sculpture, it is full of amazing openings, and the momentum is released, and Chen Feng almost kneels down.

Chen Feng immediately awakened that the power of \*\*\*\* was actually emitted from this statue.

Such power radiated from the statue, covering the entire town, even to the edge of the river valley, so that those gray air currents that were also annihilating power dared not move forward.

Let the people and livestock here not be eroded by gray forces.

However, it is still affected after all. This force is domineering and tyrannical, but it is full of killing, so it will affect the character of the people here!

Soon, Chen Feng knew who this sculpture was.

It turns out that this sculpture is actually Han Tianya, the ancestor of the open school of the nirvana Taoist school, who is known as "a lonely knife in nirvana"!

Han Tianya, it is said that he was just an ordinary cow-herding baby in the countryside. When he was thirteen years old, he should not enter a cave.

Since then, the strength has increased crazily, unstoppable, and has risen between Daqin and Daqi.

Controlling the nirvana swordsmanship and coercing the Quartet, both Daqin and Daqi once sent troops to conquer, and even sent five million coalition troops to conquer the nirvana knife gate.

But Han Tianya slashed out in front of the Ten Thousand Army Formations, destroying five million troops!

The five million army was wiped out in ashes, together with the courage of everyone in Qin and Qi.

From then on, they never dared to provoke the nirvana knife gate.

Was beaten to fat, completely convinced!

It is said that Han Tianya has already practiced the Nirvana Sword Technique to a very high level, tyrannical to the extreme, with a single cut, everything in front of him will be directly broken, and nothing will be spared.

Although no one at the nirvana knife gate has practiced the nirvana knife technique to this level, it is enough to dominate here!

Han Tianya's statues are erected in every town, exuding a tyrannical aura, protecting the people here from the influence of the darkening force - they call the gray air current the darkening force.

And they also called the power emanating from the statue of Han Tianya the power of nirvana. This power of nirvana has a higher level and is more powerful.

After Chen Feng heard it, he felt quite reasonable.

Soon, Chen Feng left and continued to walk forward.

He traveled thousands of miles nearby, and then found that there were hundreds of towns with a population of tens of thousands.

This is only in this valley!

A river valley, hundreds of towns, tens of millions of people.

All cities and towns are all white, houses are white, people's clothing is white, everything is white as far as you can see, just like countless pure white flowers blooming on this vast land !

[Chapter 1654: Shocking secret](#)

Along the way, Chen Feng met even more talented youngsters.

Afterwards, he even became numb, feeling that this place was simply a place of miracles.

Chen Feng left here and continued to move forward. He soon discovered that there were no known how many valleys like this there were in this mountain range.

The big river he saw at first was just a tributary of a larger river, and the larger river was an inconspicuous tributary of a huge river with a width of five hundred miles.

This huge river is tens of thousands of miles long and cut the entire mountain range. Now Chen Feng also knows the name of this mountain range.

The vast mountains!

A huge river traverses it, with dozens of large tributaries and hundreds of small tributaries. Each small tributary represents a valley!

This also means that at least one billion people live in this mountain range at the junction of Qin and Qi, with a radius of hundreds of thousands of miles!

The more Chen Feng walked forward, the more he could feel how huge this mountain was, as if it were boundless.

After arriving here, Chen Feng was also pleasantly surprised to find that the markings on the map completely fit here.

He walked through the valleys along the route marked on the map, constantly moving north.

Soon, when Chen Feng turned around a mountain col, his face immediately showed shock, even his mouth opened wide and his face was full of disbelief.

The magnificent scene in front of him shocked him to the extreme.

Turning around this mountain col is a large plain in the middle of a mountain.

This large area is thousands of miles away. There is no soil or sand on the plain. There are stones everywhere, all white stones.

Piece by piece, smooth and round, extremely gorgeous, shone brightly under the sun, like a beautiful jade.

The more you go to the center, the bigger the stone, and in the middle of this plain is a huge white stone peak.

The height exceeds several hundred thousand meters, towering into the clouds, seeming to be able to pierce the sky.

Looking around, it was all white, holy white.

But in this whiteness, there is still a bitter killing intent in the holiness.

Chen Feng glanced at the Baishi Jufeng, and he felt as if his eyes were about to be stabbed.

There was a gale blowing, blowing the white stone, there was a clanging sound on the white stone. The gale blowing on it actually stirred up countless sparks, cutting countless deep marks on it.

Chen Feng was suddenly awe-inspiring: "Here, even the wind is so powerful!"

Chen Feng looked into the distance, and countless towering pavilions and palaces were built on the huge white stone peak, like a fairy family palace.

In front of the palace, a tall mountain gate stands proudly on the white stone giant peak. On the cliff next to it, there are four large characters, each with a radius of several hundred meters.

Even if Chen Feng was so far away, he could see clearly, his handwriting was as sharp as a blade, as if he could fly fiercely and pierce people's eyes.

These four characters were made by someone with a giant knife, and they seemed to have infinite mystery in them.

Chen Feng looked at it for a while, and felt that he had a better understanding of the sword technique!

Chen Feng took a deep breath: "This is the nirvana knife gate."

He unfolded the map. Above the map, there was a small white area, and in the white area was a white light spot.

Finally, the arrow of the route stabbed fiercely on the white light spot.

It turned out that the door of the nirvana sword was the entrance to the tomb of the Great Emperor Yin and Yang!

Chen Feng took a deep breath, with a look of sudden realization on his face, and whispered to himself: "It turns out that the entrance to the tomb of the Great Emperor Yin and Yang is here."

"Above the entrance, it was suppressed by the nirvana sword gate!"

At this moment, many problems in Chen Feng's mind were suddenly solved, and he suddenly realized: "I finally know why the Nirvana Sword Gate has risen so quickly!"

"I finally know why Han Tianya, the ancestor of the Nirvana Sword Sect, has risen like a meteor at such a fast speed, and has established Nuoda's foundation!"

"It turns out that he got the inheritance of the Great Emperor Yin and Yang, at least part of the inheritance."

"That nirvana sword technique must be one of the inheritance of the Great Emperor Yin and Yang!"

"I also finally know why even though the Great Qin imperial family knew that the Yin and Yang Emperor's mausoleum was located here, they did not dare to act rashly, but they have been so slow to look for it."

"I'm afraid, it's not that they don't want to, but that they don't dare, because they can't provoke the Silent Knife Gate!"

Chen Feng discovered this stunning secret. It turned out that the Gate of Nirvana was an entrance to the tomb of Emperor Yin and Yang.

Chen Feng's brows wrinkled, because he knew very well that the strength of the Nirvana Knife Sect was so large that even Qin and Qi would not dare to shake it hard. If he was against him, he would have no chance of winning at all. The behemoth was crushed directly.

If you are alone, then wanting to seize the secrets of the Great Emperor Yin and Yang's tomb is idiotic.

At this time, Chen Feng's heart suddenly rushed into a thought: "Tell the third princess about this news. If the third princess succeeds in ascending the throne, with the power of Qin, you may be able to destroy the nirvana sword gate."

However, Chen Feng immediately denied this idea.

He whispered softly: "The three princesses acted harshly. Once they act, they will never show mercy. Moreover, this person is quite impatient and even more mean. If I tell her the news, then I will be thorough. It has lost its use value."

"After she got the news, there was no difference between me and me?"

"After all, I am not even the Martial King Realm now!"

There was a sneer at the corner of Chen Feng's mouth, and he could even now imagine what the outcome would be if he told the third princess the news.

It's just that within a few days of effort, he will disappear directly, and most of the people who killed him were Yan Yu punishment.

Chen Feng frowned and looked at the Baishi Jufeng in the distance.

Suddenly, the corners of his mouth curled up slightly, revealing a smile.

The smile was full of pride, and there was a trace of madness who refused to accept it.

He said with a manly voice: "At the beginning, Qian Yuanzong's trash that could not even practice cultivation, but now he is called the first person in the Great Qin Kingdom 30 years later. Who can think of it?"

"At the beginning, a mountain villager could now become the Earl of Battle Dragon, commanding an army of 100,000. Who would have thought?"

"At the beginning, countless people looked down on me and called me an untouchable. Now, they are boneless and rotten, and I still stand proudly. Who can think of it?"

"This nirvana sword gate is certainly a giant, and I don't even have the qualifications to look up to it, but who can say that I can't force a blood path in this nirvana sword gate to get the secret of the tomb? "

Chen Feng's heart is full of pride, no more discouraged.

[Chapter 1655: The opportunity is here!](#)

He looked at the apprentice Jufeng in the distance, thinking for a while.

After a long time, Chen Feng had a clear thought in his heart: "If I sneak directly into the Netherworld Sword Gate, it will definitely not work. The Netherworld Sword Gate is so powerful and the defense is

very strong. I'm afraid that it won't take a moment or three to be discovered, and there will only be a dead end."

"If this is the case, then we have to think of another way."

Chen Feng showed a confident expression on his face, turned around and left here quickly!

Chen Feng didn't leave the range of the nirvana sword gate, but followed the road when he came back to a river valley.

He was in this valley, randomly selected a town, and settled on the stone mountain outside the town.

Chen Fengping was calm, neither irritable nor discouraged. He practiced on time every day.

In addition, one of the things he did the most was to observe the situation in the town not far from the mountain and observe all the changes there.

Chen Feng believes that since the gate of the nirvana swords governs these towns and relies on the fresh blood provided by these towns, he can definitely get something through these towns!

Soon, five or six days passed, and the time limit agreed by Chen Feng and Yan Yuxun was getting closer.

Chen Feng still didn't have any anxiety.

In the early morning of this day, Chen Feng walked out of the cave slowly, facing the rising sun, exhaling and inhaling, the silt that was filled in his heart seemed to disappear quickly, and the whole person was relaxed to the extreme.

His heart has no waves or waves.

The corner of Chen Feng's mouth curled up with a smile. He felt that his mood had been greatly improved in the past few days. Even if there were no other gains, this gain alone was already very good.

Chen Feng's mentality is very good now, a little bit unwilling to be strong!

Chen Feng glanced at the town below, observing what happened in the town.

Suddenly, Chen Feng's eyes froze.

Then, his eyes widened, and he observed without blinking, for fear of missing a detail.

Then, the corner of his mouth was picked up, and a smile came out quietly, rippled across his face.

"Haha, I knew that I would be able to get clues and opportunities. No, the opportunity is here!"

Chen Feng's figure flickered, and rushed towards the bottom of the mountain.

At this time, in the town below the mountain, a grand ceremony is being held.

In the center of this town, above the White Stone Square, countless torches were lit.

Everyone was laughing loudly around the torch, their faces were full of excitement and excitement, and this emotion came from the heart, without any pretentiousness!

Then, the people piled up countless very precious woods of the same length and thickness on the square.

After pre-processing, this kind of wood was soaked in extremely precious behemoth grease for a month, so the surface exudes a very strong and rich aroma.

The wood piled up like a mountain, and then a fire was lit.

Suddenly, the flames soared into the sky, and it was visible for dozens of miles.

Then, under the leadership of a few elders in white clothes, tens of thousands of people knelt in front of the flame, kowtow, and muttered words.

After the ceremony was over, four young girls were brought up.

An old man in white said with a majestic expression: "Kow his head!"

The four knocked their heads three times, and then they were taken to the statue of Han Tianya.

The elder said again: "Kow his head!"

This time, it was three times in a row, three times each time.

After nine ringings, the old man suddenly walked to the statue, and when he stretched out his hand, a short knife appeared in his hand.

He cut his wrist fiercely, and screamed feverishly in his mouth.

Not only him, but all the townspeople, and tens of thousands of people, actually took out short knives to cut their wrists at the same time.

There was a fanatical expression on their faces, as if they were doing the most sacred thing.

Tens of thousands of people severely cut their wrists, blood surged, and then under the leadership of the old man, they made the same movements, waving their wrists, and splashing the blood spewing on the statue.

With a bang, a burst of \*\*\*\* light rolled over the statue, and the blood almost instantly painted the statue into blood red.

Then, it penetrated inside at an extremely fast speed, and disappeared in no time.

The old man cut another knife and threw blood again, and tens of thousands of people followed suit again.

This was done nine times in a row, with nine knives cut, and the \*\*\*\* light rolled!

After nine times, everyone's complexion was already gray and ugly, and all the brilliance on their faces disappeared.

Many people even went directly from the prime of life to middle-aged and elderly people. The old man at the front had black hair and was very shabby, but now he has white hair.

They don't seem to be ten years old, but they are definitely ten years old.

When Chen Feng looked outside, his gaze suddenly shrank: "What kind of evil sacrificial ritual is this. It only absorbs human blood, but it also absorbs human life span?"

"All the people in it have been sucked out of their ten-year longevity!"

All the \*\*\*\* light fell silent, and suddenly gathered in.

Above the statue, a light gray began to appear. The gray became thicker and bulging, and began to expand outward.

However, it seemed that there was some lack of support. When the old man saw this scene, he was anxious and excited, fell to his knees, and shouted: "Master Qing, please be kind!"

"Master, please be kind!" Tens of thousands of people all knelt down, praying crazy loudly.

The next moment, it seemed that their prayers had worked, and the gray light suddenly flourished.

Swish, directly shrouded on the boys and girls who were kneeling in front of the statue, and the gray light continuously seeped into them.

There was extreme pain on their faces, and at the same time extremely comfortable expressions, trembling all over, they seemed to endure great pain, but their faces were full of enjoyment and full of contradictions.

After a long time, the gray light banged and fell into his four bodies.

After that, all four of them uttered a miserable hum, bleeding from the corners of their mouths, and the gray light disappeared.

The old man koozed his head quickly again: "Thank you, sir, for your kindness, thank you, Master Patriarch, for your kindness!"

Until all the light was silent, he dared to walk in front of the four boys and girls and asked anxiously: "How are you? How are you now?"

The four boys and girls stood up, with dazed but surprised expressions on their faces.

One of them was a burly, seventeen or eighteen-year-old boy who shouted: "Grandpa Zhu, my strength has improved by at least three major levels, and I am now close to the peak of the soul condensing state."

#### [Chapter 1656: Strong killing intent!](#)

Several other people also said one after another: "Our strength has been greatly improved, and we feel that our minds are very clear, and there seems to be an inexplicable force around us, which can make us seek good luck and avoid evil."

"Hahahaha!"

The old man laughed happily and said: "That's it, that's it, you got this, and our sacrifices were not in vain."

Suddenly, he turned his face, staring at the four of them, and said loudly: "I have gathered our whole city, 37,000 people, at the cost of 37,000 people, each of whom has contributed ten years of life. Bless you!"

"I have given you great strength, clever wisdom, and great fortune!"

"The four of you, we must not let down our expectations! We have contributed a full 370,000 years of life to you!"

"You must pass the trial journey and join the nirvana knife gate!"

"Yes!" All four of them showed fanatical expressions on their faces!

It seems that it is their supreme honor to join the nirvana knife gate.

But Chen Feng was in the distance, watching with cold eyes, only to find one of the young girls who was not very outstanding. At this time, in the frenzy, what was hiding was a smile of mockery and disdain from the corners of his mouth.

Chen Feng's whole body was struck by lightning, and there was a roar in his heart.

A voice in his heart shouted: "Finally found, finally found, I finally found a normal person in this town!"

Chen Feng has been in a weird shock for this period of time.

It's as if everyone here has been brainwashed. All they want to do is to contribute to the nirvana knife gate, not hesitate to dedicate themselves and life.

Such a big sacrifice is only to train these people, but also to make them contribute to the nirvana knife gate.

Chen Feng felt incredible, how could there be such a person in this world?

Chen Feng has also stayed here for a while. Observing the daily life of the people here, he discovered a very interesting phenomenon.

The people here don't even look like living people. They are not very angry. Instead, one by one is like a machine. They have been working from the first moment they opened their eyes in the morning.

The more Chen Feng looked, the more shocked he was, and even a shuddering feeling filled his heart.

What kind of people is this? They don't seem to live for themselves at all, as if everyone has a goal in their mind to let them work from morning to night, and they are willing to do so without any resistance.

Just doing things desperately, in order to kill the knife gate.

Chen Feng guessed that the reason for this is mostly the ghost of Nirvana Daomen!

Soon, the people in this town sent the boys and girls out of the town.

They stopped seeing each other, and the four boys and girls went north along the road, and soon disappeared.

However, Chen Feng didn't follow him, but after noting the direction they were going, he immediately went to other towns.

In just a moment, Chen Feng had already left four or five towns. He found that almost every town was doing the same thing, but the methods were different.

They sacrificed, they paid the price to give those boys and girls a powerful force, and then let them leave here to start the trial journey.

Almost all towns are average.

Chen Feng immediately understood in his heart and whispered to himself: "It seems that the end of this trial journey should be the Gate of Nirvana, right?"

"If my guess is correct, those who perform well in the trial journey should be qualified to enter the nirvana sword gate."

A smile appeared at the corner of Chen Feng's mouth: "The Emperor is worthy of his heart. I have waited for this opportunity after all!"

Chen Feng quickly returned to the position of the first town, and then chased in the direction of several boys and girls.

Soon, he had caught up with the other people.

Chen Feng didn't do it right away, but followed it quietly. After three days of tracking, they found that they were indeed going in the direction of the Nirvana Blade.

In these three days, they all walked through the vast mountains, traveling about two to three hundred miles.

And on this road, it is also very dangerous. There is a road from the town to the nirvana knife gate. This road should have been specially opened. I don't know how many years it has existed.

It was a thousand miles long, and the width was only a pitiful two or three meters, and they followed the road.

This place seems to have been specially opened for them to walk through. Some methods have been done, so the danger on both sides of the road has actually been much lower than other places. The monsters encountered are those of low level. Kind.

Really powerful and wise monsters, they are very smart, knowing that they can't provoke here, so they won't appear.

But even so, these four little guys have encountered a lot of danger!

Three days later, all were injured, and even one person was seriously injured. After three days, one of the four of them had already appeared a leader.

It was a height and weight. It was the burly boy who spoke first after the sacrificial ceremony. The burly boy was domineering, and he had a follower in the team, so he naturally became the head of the team.

Those two are equivalent to acquiescence.

It was not the burly boy who left the deepest impression on Chen Feng, but the girl who had been taciturn.

This girl seldom speaks, just moves silently and walks silently. She will not refute anything that the burly teenager said, but when Chen Feng happened to see her eyelids opened, there was a trace of coldness and disdain in her eyes.

In three days, Chen Feng had almost touched it, and he decided to do it tonight.

And at this moment, suddenly, Chen Feng felt that an extremely awe-inspiring killing intent from behind was swept toward him.

This killing intent was so huge that Chen Feng was almost unable to resist, and almost directly crushed his psychology.

Chen Feng was shocked. He didn't know who was coming, but he felt very clearly that this killing intent was directed at him.

Chen Feng glanced at the little guys a kilometer away, did not alarm them, but quickly swept toward the northeast.

Soon, Chen Feng had arrived hundreds of miles away. It was a large lake in the mountains, and there was no one around.

Here, it should be the territory of a certain Demon King, so there are no other monsters, let alone other humans, and it is very quiet.

At this moment, Chen Feng suddenly flashed his body, stopped directly, and came to a boulder.

Then, he slowly turned around and said lightly: "Okay, come out!"

"Yo, I didn't expect that you, a bitch, still have some strength, and you can perceive my existence?"

A voice of disdain rang out in a joke.

[Chapter 1657: Make you dead](#)

Then, a dark blue figure slowly emerged.

As soon as Chen Feng saw it, his brow furrowed. This faint blue figure was very weird, and it looked like his body was translucent.

Just like a jelly, but also like a jellyfish, just floating in the air.

His eyebrows are no different from humans, but at a glance, you can see the blue blood and blue internal organs in his body.

Chen Feng said in his heart: "What kind of blue ghost is this?"

He had never heard of anything similar before!

However, his expression did not change at all, he just said faintly: "Such a strong killing intent, if I still can't feel it, then what is the difference from a blind man?"

"You are not blind!" Youlan said with a smile: "But soon, I will make you a dead person!"

With a proud face on his face, he pointed to the ground and said: "Just here, take ten breaths, after ten breaths, you will die here! The blood is red!"

His voice is decisive, as if what he said was the truth.

It was as if he said that Chen Feng could be killed within ten breaths, and that would surely be the same.

Obviously, he hadn't paid attention to Chen Feng at all.

Chen Feng said slowly: "Who sent you here?"

He had never seen this person before, he had guessed a little in his heart, but he was not sure yet.

The blue figure said coldly, "Since you are dying, I can tell you compassionately."

"Someone offered a price that my master could not refuse, and asked my master to kill you, but what an honorable status my master is. Wouldn't it be a loss of status if he came to kill you?"

"Even if you kill you, there is nothing to be proud of, so the master ordered me to come and take your head away!"

"Who is your master?" Chen Feng said coldly.

Lan Gui was full of pride: "My master is one of the top ten young masters, Xiong Chengjing!"

Xiong Chengjing? Chen Feng has never heard of this name.

Chen Feng narrowed his eyes and shouted in a deep voice: "I asked your master to kill me. Isn't it the Four Great Halls of Qin Dynasty?"

A weird smile appeared on the blue figure's face: "Oh, it's really smart, I guessed it!"

Chen Feng smiled coldly: "If you want to kill, kill or fight, where is so much nonsense?"

The Youlan figure sneered, with a murderous expression on his face, obviously irritated by Chen Feng's words.

He rose vigorously, and went directly to the realm of the Second Star Martial King, and said coldly: "Remember my name, the one who killed you today is called the Blue Ghost!"

It turned out that his name was called Blue Ghost.

Although he was already a two-star martial king, and his strength was very strong, Chen Feng did not have any fear. He just smiled coldly and stunned with a silly cry.

A disdainful smile appeared on Lan Gui's face, looking at Chen Feng, his face was cold and cold: "Little bastard, how dare you resist?"

"Tell you, this is the worst decision you made today. If you don't resist and you are honestly killed by me, I can give you a happy life and let you suffer less!"

"But now..."

Chen Feng sneered and said, "What about now?"

"Now, you can't die even if you want to die!"

The corner of the blue ghost's mouth showed a hideous look: "Tell you, the most painful and fearsome thing in the world is not death, but not survival, not death!"

"Soon, you will fall into that situation!"

Chen Feng smiled coldly: "Really? I really want to learn it!"

The blue ghost roared loudly: "Boy. You really don't know how high the world is!"

He grinned and said with a mockery: "You are still talking here now, that's because you don't know how strong I am. Soon I will let you know that death is even the best relief for you. And ending!"

"Soon, you will kneel on the ground and cry bitterly, please me to kill you!"

As he said, his figure flashed rapidly, and in a blink of an eye, he actually pulled out many phantoms in the air.

It was only a hundredth of an instant, and he appeared directly in front of Chen Feng.

Chen Feng's eyes could not even catch its trace.

Chen Feng's heart shuddered: "His speed is really fast!"

With a grinning smile on the blue ghost's face, he stretched out his right hand, brushed it with his right hand, and opened it all at once, turning it into the size of a grinding plate.

Each finger became a huge sharp object more than two feet long.

The blue ghost claws were skinny and skinny. At the end of their fingers, there was a huge, sharp nail that was half a foot long and shone with blue light.

The giant claws like grinding discs slammed into Chen Feng, and on each finger, there was a blue air current directly piercing through the air.

After a sneer, he came to Chen Feng's eyes.

This blue power gave Chen Feng an extremely dangerous, threatening, and extremely vicious feeling, just like a poisonous snake trying to choose someone and eat it!

Chen Feng was astonished, this move definitely had the strength of the early two-star Wu Wang!

What is sacred Xiong Chengjing? One of his servants has such a powerful strength?

Chen Feng was about to fight back immediately, but at this moment, he suddenly discovered that those blue powers had suddenly accelerated and directly turned into five rays of light like poisonous snakes, haunting Chen Feng's body.

It was like a few blue chains that locked Chen Feng in it.

And Chen Feng suddenly felt that he was unable to move, he could only watch the huge blue paw grow bigger and bigger before his eyes.

It seems that the next moment, Chen Feng will be arrested alive.

Chen Feng knew that if he was hit by this move, he would definitely die!

Seeing this scene, the blue ghost showed a smug smile on his face, and laughed wildly: "Untouchables, do you know how good I am now?"

"Tell you, my move is extremely powerful, not only the power is insidious and powerful, but it can also lock the Qi machine!"

"Now, your opportunity is locked by me, let alone counterattack, I can't even move, I can only wait to die!"

He laughed wildly and said: "Untouchables, just die!"

He felt that he had seen the next scene, Chen Feng was directly torn into countless pieces by his hand, which was also his favorite way of killing!

But soon, the smile on his face solidified, turned into a touch of horror, and shouted in disbelief: "How is it possible?"

It turned out that a sneer at the corner of Chen Feng's mouth quietly flashed, and the golden light rolled on the surface of his body, and the power of Xiaojingang suddenly exploded.

Wherever the golden light went, the chain of blue light melted directly, just like a snow lion meeting the sun.

#### [Chapter 1658: Extreme crisis](#)

Chen Feng immediately felt his whole body loosened, and the cold and evil spirit also weakened a lot.

With a loud roar, the Dragon Slaying Sword slashed down fiercely.

With a loud bang, the Dragon Slaying Blade and the blue giant claw slammed together.

Chen Feng felt a cold and evil force, rushing towards him along the Dragon Sword.

In an instant, his right arm, as if being sealed by ice, even lost consciousness!

The power of Little King Kong suddenly surged, entered into the right arm, and the golden light flashed, which expelled this strange feeling.

Over there, the Blue Ghost took a step back.

On his right hand, a few blood stains shook out, dripping with blood!

He looked miserable, but he was actually not injured at all.

Chen Feng was awe-inspiring: "This blue ghost, if I try hard now, he is not his opponent."

"He is already a real two-star Do Not Forget, if I want to kill him, I must use the power of Little King Kong on the basis of the spirit possession!"

Thinking of this level, Chen Feng immediately expelled this idea. He couldn't bear the consequences. If he used the power of Little King Kong while possessing a martial spirit, he might have strength within half a month. All lost.

The strength was lost within half a month, and in this extremely dangerous place, it was tantamount to suicide.

Chen Feng dare not take this risk!

The blue ghost showed a strange look on his face, staring at Chen Feng, and let out a strange smile:

"Unexpectedly, you are a \*\*\*\* who has some strength, and you can even pick me up!"

"However," he said with a cold, weird smile: "Do you think this is my full strength?"

"Tell you, this is just the tip of the iceberg, kid, die!"

When the word 'death' was spoken, he had already flashed his figure, as fast as electricity, he actually made six palm prints directly in the air!

And because of his speed, these six palm prints seemed to exist at the same time.

When he flashed every phantom, he launched a powerful attack on Chen Feng.

Thus, in Chen Feng's view, six phantoms attacked him at the same time.

With every move, a giant sea-blue palm slapped him fiercely, which was even more powerful than the offensive just now.

This is actually no longer a phantom, he is extremely fast, making six moves, so it is equivalent to six him, attacking Chen Feng at the same time.

The blue ghost's arrogant laughter sounded: "Hahaha, untouchable, feel it! Six strokes attack, see if you can move on!"

Chen Feng was shocked, his eyes shrank sharply, and he attacked him at the same time with six strokes of the two-star Wuwang's initial offensive!

Chen Feng let out a violent roar, and the power of Little King Kong surged wildly, covering the surface of his body with golden light.

The dragon slaying knife was even more surrounded by golden light, just like a golden giant knife, and then he cut out six knives in succession with speed and incompetence.

Keng Keng, Chen Feng's six knives and Blue Ghost's six attacks all collided together.

Six huge explosions suddenly sounded, and the tyrannical air current surged around, suddenly exploding six huge pits on the ground.

The lake next to it was shocked to a huge water column up to a hundred meters tall!

Chen Feng felt that six tyrannical forces smashed directly at him, and Chen Feng was hit hard, wow, and a big mouthful of blood spurted out.

Pupupupu, on his arms and on his body, countless tiny blood holes were exploded, all of which were directly shaken by the powerful force.

The Blue Ghost stepped back dozens of steps, and also let out a cold snort, blood oozing from the corner of his mouth.

His blood turned out to be blue as well, and it smelled like a faint blue light.

Chen Feng was seriously injured, but he was only slightly injured.

Obviously, Chen Feng is definitely not his opponent when he only uses the power of Xiaojingang! *NovelSb.com*

Chen Feng smiled bitterly: "My current physical strength is too bad, and it's more than a star and a half short compared to the strong in the Martial King realm."

The blue ghost spit out a \*\*\*\* saliva on the ground nearby, and said in a negative way: "Untouchables, what do you have to do now?"

"I can see that your own strength is very average, only relying on this shining golden light power to be able to fight with me, but your golden light power has just become more and more powerful. The weaker, the dimmer."

"You should have exhausted this power? Haha, I see what you will do next!"

"Don't worry," he said sullenly, "After I catch you, I will never let you die so easily. I will catch you back and show me my master. What I have on the way is How to treat you well!"

With that said, he shouted again and attacked Chen Feng again.

And this time, his offensive was even stronger than before.

He just grabbed it with one hand, this time he grabbed it with both hands, ten huge fingers, stirred ten huge blue poisonous pythons in the air, and entangled them fiercely towards Chen Feng.

These ten blue poisonous pythons were originally entangled together, they looked like a rope tangled together, huge and huge, and they slammed into Chen Feng frantically.

Chen Feng was also ready for the battle, but just as these poisonous pythons were about to reach Chen Feng, suddenly ten blue giant pythons exploded!

In the next moment, these ten blue pythons attacked Chen Feng directly from ten directions, and their momentum was extremely fierce, reaching the extreme.

Chen Feng didn't expect his move at all, so that he couldn't even resist.

Wuhun hurriedly possessed his body, and the Dragon Slaying Sword slashed several times in succession, only to smash three of the blue giant pythons to pieces, and the remaining seven slammed into Chen Feng's body at the same time.

So the next moment, Chen Feng felt that the nine paths were extremely cold and fiercely powerful, violently walking through his body.

If it was just now, Chen Feng could naturally use the power of Little King Kong to dissolve it, but now his last bit of Little King Kong's power has already been used up.

Chen Feng felt like seven poisonous snakes had penetrated into his body, devouring his own flesh, skin, and bones, devouring his own soul, and destroying everything they could touch.

The intense pain came, making Chen Feng almost unable to control the screams.

But he still gritted his teeth and forcibly held back.

At the same time, the extreme cold and extreme cold made Chen Feng feel like he had fallen into an ice cellar. He was almost frozen.

There was even a thin layer of hoarfrost on his body, and he fell heavily to the ground, unable to control his body.

Chen Feng was shocked: "This trick has the strength of the second-star Wuwang mid-term!"

At this time, Chen Feng was in a great crisis.

[Chapter 1659: It's now!](#)

And issuing this move seems to make the blue ghost consume a lot.

He actually vomited three mouthfuls of blood one after another, staggered, and then stood still.

Obviously, in order to issue this trick, he paid an extremely heavy price. The breath has become a lot weaker.

He coughed up blood. Then he looked at Chen Feng and said proudly, "How about it, untouchable, isn't my trick? Isn't it powerful?"

"Although there is only one move, it is enough to kill you!"

Chen Feng's heart settled for a while, if he had made several moves like this, then he was equivalent to a higher level than Chen Feng.

However, if he can only make a move, then he is only one line better than Chen Feng!

A voice echoed in Chen Feng's heart: "Since he is only one line better than me, then I have the ability to fight back, run away, or even kill him!"

Chen Feng has never been a person waiting to die, and he has never been desperate. Even if the enemy is stronger than him, Chen Feng will fight back, look for opportunities, and kill him!

In fact, Chen Feng did not completely lose his combat effectiveness at this time. He still had the hole card possessed by the spirit of martial arts that he did not use, but he did not immediately use it. Instead, he just watched the changes and made an appearance that he was unable to resist.

Blue Ghost, approaching Chen Feng, is about to capture Chen Fengfeng!

At this moment, a fierce beast roar suddenly sounded.

A giant golden-winged tiger flew from the mountains in the distance.

While flying towards this side, he yelled again and again, an angry voice rolled in his throat, and he said: "Who is it? Who dares to break into my territory? Do you want me to treat you as a snack? Eat it?"

His voice is arrogant and high-pitched, it turns out that he is the demon king on this land!

He was asleep, and was suddenly awakened by the sound of a huge explosion. He felt the raging aura fluctuations, and immediately realized that someone was fighting on his territory.

He was immediately very angry, and flew over here quickly!

Chen Feng raised his brows, and a smile appeared at the corner of his mouth.

This demon king is just a mere one-star demon king.

Not to mention the blue ghost, he can easily behead him, and he just flew over so arrogantly, and he spoke to the two with arrogance, it was simply not knowing the height of the sky!

This golden-winged giant tiger club flew quickly toward this side, and in a blink of an eye there were only three or four kilometers left from here. **nOVeℓUSb.com**

And when he came to this distance, he could clearly see Chen Feng and the blue ghost, and he could feel the huge aura in them.

As a result, the golden-winged giant tiger was stunned immediately, he actually hovered directly in the air, staring at the two of them blankly.

Originally, he was awakened directly from his sleep, and his brain was still a little chaotic, so he flew over without much thought.

But at this time, he felt that the aura of the two people was as huge as a deep sea, and the blue ghost stared at him fiercely at this time, his eyes cold and stern.

He grinned: "Oh, there is a kitten here, is this sending food for the uncle?"

He didn't put the golden-winged giant tiger in his eyes at all, and directly called it a kitten.

If someone dared to say this in ordinary times, the golden-winged giant tiger would definitely rush forward in anger and tear it to pieces.

But at this time, he shivered heavily, with extreme fear on his face.

He felt that the blue ghost looked at him like a sharp needle. It was extremely sharp and pierced fiercely, directly piercing the deepest part of his heart, making him cold like an ice cellar!

There was a great fear in his heart: "This person's cultivation is absolutely extremely powerful, and I definitely can't afford it!"

He secretly cried out in his heart: "God, how come two evil stars are on my territory? And it seems that they all seem to be quite dissatisfied with me now!"

He rolled his eyes, suddenly let out a roar, and rushed forward fiercely.

The corner of the blue ghost's mouth showed a playful smile: "It's so reckless!"

He shook his arm and planned to clean up a kitten.

As for Chen Feng, there was a sneer at the corner of his mouth, and he glanced at Chen Feng faintly. In his opinion, Chen Feng is now completely dead, and there is no way to fight back.

Not to mention Chen Feng's current appearance, even if Chen Feng is intact, he is not afraid of attacking while he is fighting with this golden-winged giant tiger.

His strength can crush a person and a beast.

At this time, Chen Feng pretended to be unhappy, screaming loudly in his mouth, and his body kept rolling on the ground.

In fact, the pain and cold numbness could not affect him at all.

His eyes were still clear, his eyes fixed on the blue ghost, looking for that opportunity!

The golden-winged giant tiger threw out fiercely. Suddenly, when he just made a pounce, he turned his body, and flew to the distance without stopping.

The speed was as fast as lightning, and it was already tens of thousands of meters away in an instant, and it quickly turned into a small black spot and disappeared in the distance.

Seeing this scene, the blue ghost was stunned. After a while, he yelled, "Shameless!"

He didn't expect this golden-winged giant tiger to be so shameless and aggressive, but turned his head and ran away.

At this moment, Chen Feng's eyes flashed: "It's now! This is the best opportunity!"

The Blue Ghost was facing him at this time, and his body was very relaxed, because he thought that Chen Feng had no strength to fight back, so there was no guard at all!

Behind Chen Feng's body, Martial Soul suddenly flashed, and then plunged into Chen Feng's body.

Chen Feng's momentum skyrocketed, rising to the pinnacle of the One Star King.

At the same time, the mighty power gushed out again, expelling all the cold and vicious blue powers in Chen Feng's body.

Chen Feng regained his strength, and his combat effectiveness soared.

With a violent roar, Bailong turned the river and the world!

This move was suddenly activated, and at this time, the blue ghost realized that it was wrong, and immediately turned around, saw this scene, and exclaimed: "How can..."

Before he could spit out that word of ability, Chen Feng had already screamed, like a Tianhe rolled upside down, wrapped in a narrow boundless wind and thunder, and hit him fiercely.

From top to bottom, like the Milky Way falling, the momentum is extremely strong.

The blue ghost immediately waved his claws to resist. But he was caught off guard, and he didn't have time to mobilize much strength. This resistance was very weak.

With a direct bang, Chen Feng's arm suddenly smashed into pieces, and then bitterly slashed on his chest!

#### [Chapter 1660: Kill the ghost!](#)

The extremely powerful metal power, the metal gods spread everywhere, and countless extremely small but extremely sharp metal powers rushed in madly. The Dragon Swordsman wrapped this powerful force and slammed into his chest heavily. on.

The blue ghost's terrible scream suddenly sounded, and the sound shook everywhere.

At this moment, his body was trembling violently, and the shaking speed was so fast that countless tiny shadows were drawn in the air.

In fact, Chen Feng knew that this was not because he was trembling at all, but the incomparable metal power wrapped in Dragon Sword, cutting his body frantically at an extremely fast speed.

His body quivered with every cut.

And in this short tenth of an instant, he was cut a full tens of thousands of dollars, so there was such a severe tremor.

Finally, as the cutting was completed, with a bang, the last force burst out, knocking him into the air for hundreds of meters.

The blue ghost's screaming scream became even louder, and he was extremely miserable at this time, above his chest. A huge blood hole was directly cut open from the throat to the lower body, the internal organs and bones were exposed, and many internal organs had been destroyed.

His whole body was cut, and his skin was dripping with blood, and his whole person was like a \*\*\*\* man!

He had already suffered a very important injury, exclaimed in disbelief, pointed at Chen Feng, trembling all over, and shouted: "How is it possible? How could you suddenly burst into such a powerful strength?"

"How could you suddenly melt away the frozen power and resume action?"

"You have other hole cards?"

There are countless doubts in his heart!

At this time, Chen Feng also spouted a big mouthful of blood. He used his martial soul power to expel the icy blue evil force just now. Due to the excessive force and the short time, he had already suffered internal injuries.

Also by cutting such a tyrannical knife, the internal injuries were aggravated.

Chen Feng gritted his teeth, blood dripping down, looking full of hideous murderous intent, he said with a cold voice: "These questions, after you become a ghost, go to \*\*\*\* to ask!"

With that said, the Dragon Sword slashed and cut, and it was another move that the white dragon turned the river and the world!

His body drew a mysterious arc in the air, from top to bottom, slashed out with a single knife. With this knife, even the Blue Ghost didn't even have the ability to evade.

He wanted to escape, but his speed had been reduced by more than 80% under severe injuries, and he did not escape at all.

With this knife, Chen Feng slashed on his body, and there was a loud noise. The incredibly tyrannical cut appeared again, and the blue ghost screamed again.

But the next moment, it stopped abruptly.

Because with a loud bang, his body was directly cut into countless pieces, flying around.

The power of the tyrant was raging, and his body directly turned into a blood mist in the sky, and a strong wind hit, blowing the blood mist away.

The last trace of the blue ghost in the world has disappeared without a trace!

Chen Feng's body tilted, if it were not supported by the Dragon Sword, he would just kneel to the ground.

Chen Feng leaned on his knees and gasped for a long time before he stood up straight.

A smile appeared at the corner of his mouth, and then the smile rippled and turned into a big smile.

Chen Feng held up the Dragon Sword, and let out a burst of laughter.

The two-star martial king, the blue ghost, was beheaded by Chen Feng!

Chen Feng did not stay here, but left quickly.

At the same time, hundreds of thousands of people away from here to go abroad, Yingdu.

Ying is the capital city of the Chu Kingdom. It is not worse than Wuyang City in the Qin Kingdom. No, it should be said that it is even larger. The area is at least three times that of Wuyang City.

Because Ying is a city built on the water.

Here, there is a huge river with a width of several kilometers coming from north to south, and this huge river is here, converging with two other equally huge rivers to form a wide lake.

The lake is vast and vast, and there is a huge gap at the southern end of the lake. After the confluence of the three rivers, it flows southward. This big river is hundreds of miles wide!

This is the famous Han River.

The entire Han River is the largest river among the 37 countries in the Tulong Mountains.

Compared with those rivers in the Qin State, they are simply not enough to see.

Yingdu was built at the confluence of the three rivers. The three giant rivers divided it into four huge areas.

Each giant river has countless tributaries, which divide these areas into smaller, more trivial areas.

The people of Chu like water very much, and they also like to build their houses by the water. Almost all wealthy merchants, wealthy and powerful, their houses are built along the water.

Many people also circled a small area of water and built gardens, pavilions and pavilions on it, which is very quiet.

But this is not influential. The real family members who go abroad, the houses of princes, directly occupy a small area that is cut out like an island, facing the water, and use this as their own private residence!

Here, it is a huge mansion spanning dozens of miles, occupying a small island surrounded by rivers.

Reeds are planted all over the river.

At this time, the breeze came slowly, reeds whirling, and white reed flowers drifting around.

There are swans rising with the wind, making churns, quiet and beautiful!

Hanging above the gate, there are two words written on it: "Bear Mansion!"

In the depths of the mansion, there is a high platform, at the northeast corner of the mansion, facing the water on both sides, it is very elegant and quiet.

Below, there is a lotus.

At this time, it was summer, the moon was as cool as water, the breeze came slowly, and the lotus blossomed in the sky, a turquoise white.

The elegant fragrance wafts out gently, making people intoxicated in this night.

On the high platform, there is a pavilion, and the pavilion windows facing the water are open.

This pavilion is exquisite, and the materials used in it are all carefully selected and precious.

On a bed completely carved from jasper, a purple-robed man is sitting cross-legged.

He was twenty-three or four years old, his face was like a crown jade, his hair was like ink, and his appearance was very handsome. His body exuded a magnificent aura, facing the moonlight, the lotus and the river, he was practicing quietly.

But at this moment, there was a sudden creak and the door was pushed open.

Young Master Zipao frowned, his expression a little unhappy.

But when he turned his head and looked at the person who opened the door, the displeasure on his face disappeared, and he smiled and said, "Uncle Li, why are you here?"

The one who came in was an old man with gray hair. The old man Li Bo said softly: "Second Young Master, the blue ghost is dead."

"What? The blue ghost is dead?" The second young master was smiling, the younger one was very calm, but at this time, the smile was condensed on his face.
