[Chapter 1991: Wanli Buddha Dragon Skeleton!](#)

"After sitting down and listening to the scriptures for 300,000 years, Venerable Arhat of the Dragon will become a Buddha."

"Finally comprehend the power of one ten thousandth of the Venerable Dragon Arhat, and on the order of the Venerable Dragon Arhat to proclaim our Buddha's mercy in the world."

"Unexpectedly, in the Longmai Continent, I was attacked by seven strong men. My strength was exhausted and I was seriously injured. I didn't know it shortly before I knew it. Therefore, I compiled what I had learned throughout my life into a copy of the Dragon Arhat scripture."

"The Scriptures are divided into eleven parts, such as the general outline, scattered throughout the dragon vein continent, and only those who are predestined live there."

"I even sealed all my memories in a single Buddha dragon bone. Those who get this dragon bone can follow the route to find my bones."

"My bones, fell into some secret realm!"

The magnificent voice exploded one after another: "The person who gets my bones will get infinite benefits, of course, remember, remember, that is my disciple!"

"According to my inheritance, you must also bear my responsibility, spread my hatred, and avenge me!"

"Kill all those seven people who attacked me! Are you willing?"

Chen Feng had no other thoughts in his heart at this time, and a great voice echoed in his heart: "I am willing!"

"Okay!" Then, Chen Feng felt a sharp pain in his brain, and boundless memories were squeezed into his mind abruptly, and the pain penetrated his bones.

Ah, Chen Feng let out a loud cry, suddenly opened his eyes, sweating profusely.

He discovered at this time. He had already returned to the stone chamber inside the colossal statue of the fairy.

And the blue-gray object that he held in his hand just now has disappeared without a trace!

At this time, in Chen Feng's mind, the pain was like a tide, and the waves continued to hit.

Those memories were so huge that they entered his mind, and Chen Feng Qiang held back and said nothing.

After a while, the pain subsided.

Chen Feng sat in the same place for a long time before he got up, recovered and digested the information just now.

At this time, after Chen Feng came back to his senses, there was a huge shock in his heart: "It turns out that the blue-gray object is actually a keel."

"It turns out that the inheritance of the descending dragon Arhat was brought to the Dragon Vein Continent by this Buddha! And his dragon bones have fallen somewhere!"

Chen Feng can imagine that if he finds the skeleton, he will definitely get great benefits.

Chen Feng said slowly: "The Truth of Jianglong Arhat has eleven articles, and I only got two of them."

"Among them, the general outline of the Arhat Sutra is still incomplete! Maybe if you find the dragon bone, you may find a few others."

But soon, the smile and excitement on Chen Feng's face dissipated, replaced by a strong sense of responsibility and a trace of anger, before he whispered to himself:

"Senior, don't worry, since I promised you and inherited your inheritance, then I will avenge you and fulfill your wish!"

"The seven people who attacked you will definitely die! I, Chen Feng, will never let them go!"

Chen Feng said these words very solemnly, and he did think so too.

However, Chen Feng turned his gaze to another thing in the jade box, which was a palm-sized jade symbol, and the whole shape was like a small fish.

Chen Feng touched it with his hand, and immediately, a piece of information poured into his mind.

"I hid this big secret in the colossal statue of the fairy man, and before coming here, I asked a master to fortune telling."

"As a result, the master said that the colossus was in danger of overturning into the Tongtian River, so I deliberately left a white fish pill in this jade box."

"White fish transforming pills?" Chen Feng raised his eyebrows, and had never heard of this kind of pill.

But when he thought about it, he understood that there are no wonders of ammunition in the world. They are not only used for healing and training, but there are many pills that have a variety of very special effects, and they are very magical props.

Come to think of it, this white fish Huadan is also one of them.

Then, the voice in his mind continued: "After taking Baiyu Huadan, within the time of a cup of tea, the body exudes the aura of a fish monster."

"Among the Tongtian River, the monster beasts are blocked by the river water, and the deeper the river, the darker and groggy. Therefore, most monsters are accustomed to perceiving each other by perception."

"In the perception of these monsters, you are a fish, and you are a fish, neither strong nor weak. It will make them desire to swallow, but also a fish monster that needs to be weighed."

"So you should be safe and sound."

Chen Feng was ecstatic in his heart: "This way, I will have a way to leave this place. One cup of tea is enough!"

"As long as they are not directly seen by those monsters, they will not attack me. In this case, it is enough to be careful." Chen Feng whispered to himself.

Then, Chen Feng went around in this secret room again, making sure that there was nothing else, and he came to the entrance.

Then, he snapped, crushing the white fish transforming pill.

Then, Chen Feng felt that a fish-shaped protective cover seemed to form outside of him, with the faint scent of a fish monster.

A smile appeared at the corner of Chen Feng's mouth: "It really works."

Then, he pressed his palms on the connection of the door frame and slammed the door open. In an instant, countless water flowed in.

And this time, the secret door never closed automatically.

Chen Feng went upstream with a plop, really like a big fish leaping out of the water, into the Tongtian River.

However, Chen Feng did not act rashly, but waited and watched.

Sure enough, as he had guessed, the secret treasure in this secret room was taken out, and the mission of the secret room was naturally over.

Therefore, this time there is no protection in the secret room, let the water flow in.

Then, there was a loud noise, and the secret room collapsed directly.

In the next moment, this huge immortal road-guided colossus also began to collapse and collapse, which also caused a huge riot in the water.

Numerous metal blocks sank, creating whirlpools, and the mud and sand at the bottom of the Tongtian River were all rolled up.

The river was very muddy, and Chen Feng was happy: "It's now, this is the best time."

Thinking in his mind, Chen Feng immediately swam towards the surface of the Tongtian River.

He is fast, but without any panic, while walking, he is very keenly watching the surroundings.

Suddenly, a monster king like a giant snake swam past Chen Feng.

Chen Feng's thoughts flashed, then he flashed directly behind a large rock, avoiding the demon king's sight.

The Demon King seemed to have noticed it, and he stopped beside him, his nose twitching constantly. This scene made Chen Feng quietly overflowing with cold sweat.

But he didn't panic, but held his breath and continued to avoid.

[Chapter 1992: tyrannical! Shenlong destroys the world!](#)

The Demon King felt it for a long time, but didn't feel any strange aura, and left angrily.

Chen Feng happily patted his chest and continued to go upstream. He encountered this situation several times in the middle, but Chen Feng cleverly avoided it.

After nearly a cup of tea, Chen Feng could even see the sky above.

"If you swim out like this, it won't work." Chen Feng suddenly thought: "I'm afraid that the man in black is still on it now. If I go now, wouldn't it be my own death?"

Therefore, Chen Feng used the last little time to swim forward quickly, and in a blink of an eye he swam dozens of miles away.

At this time, time is finally running out.

So Chen Feng quietly came to the surface of the Tongtian River, came to the bank of the cliff, then climbed the bank of the river, and climbed out quietly without making a sound.

Then he did not hesitate, and climbed straight up, and in a flash, he came to the top of the river bank.

He glanced into the distance, and he saw the figure of the man in black walking around on the river bank.

A cold smile appeared at the corner of Chen Feng's mouth, and he said softly: "You have made me so miserable. We may settle this account!"

"I haven't had the strength to deal with the Eight-Star Martial King, but I will soon be able to do it, you wait!"

"I won't kill you, I swear not to be a man!"

After making this vow, Chen Feng turned and left quickly!

The stocky middle-aged man has been patrolling the cliff, staring unblinkingly into the river.

He saw huge waves in the river, and there seemed to be countless fierce beasts crashing underground.

Therefore, his attention was attracted by the huge wave. After a while, he suddenly realized: "Why hasn't Chen Feng come out yet?"

So he felt something in his heart and immediately realized that he had been run away by Chen Feng again.

There was a look of irritation on his face, and he slammed his fist fiercely: "Damn, this little boy is really cunning!"

But he is also an extremely determined person. He didn't feel discouraged. He said coldly: "However, he is from Wudong Academy, so he must return to Wudong Academy anyway. Then I will wait at Wudong Academy. Now, after all, there is time to wait for him!"

When Chen Feng returned to Wudong Academy, the panic in his heart finally disappeared a lot.

A basin of cold water poured down his head and Chen Feng took a cold shower comfortably.

Then, put on some clean clothes, sit cross-legged on the bed.

He muttered to himself slowly: "The two people I met this time were both quite powerful. The one who was killed by me was the pinnacle master of the Seven-Star Martial King, and the other one reached the Eight-Star Martial King. The realm."

"Today's battle has also greatly exposed my shortcomings. I relied on the first move of the Dragon Fantian Seal to print Sumeru Mountain, which is enough to kill any Seven-Star Martial King, but it has no effect on the Eight-Star Martial King. ."

"Even if the short, fat man in black is only in the early days of the Eight-Star King Wu, I can't deal with it!"

"Now, it's time to continue to understand the remaining tricks of the Dragon-Falling Seal. When dealing with the enemy in the future, in order not to reveal the strength, I will use the Imprint Sumeru Mountain, and when dealing with enemies of higher realms, we need more Powerful moves."

Chen Feng looked at the palm of his hand and sighed softly, "Because the upper limit of the trick to print broken Xumishan has been locked, no matter how strong I am, this trick is only the power of a hundred dragons."

Chen Feng stopped thinking, and immediately held his breath.

In the next instant, he entered the cultivation space of the Dragon-Jiang Arhat Scripture.

His gaze turned to the wall with the mark of Jianglong turning the sky over.

Above, the handwriting gradually lit up. It was the first move of the Jianglong Fantian Seal, the profound meaning of the broken Xumi Mountain.

And when Chen Feng thought, the font underneath Sumi Mountain of Imprinted Broken Xumi gradually brightened.

What it showed was the second move of Jianglong's Turning the Sky.

And Chen Feng also saw the name impressively!

The second trick of Jianglong Fantianyin: Shenlong destroys the world!

Shenlong destroys the world!

Seeing these five words, Chen Feng suddenly felt aroused in his heart, a touch of shock appeared in his eyes, and at the same time he was still burning with excitement.

The dragon destroys the world, and one knows that this trick must be extremely powerful.

Then, after Chen Feng read the following introduction clearly, the excitement in his eyes became more intense.

Destroying the heaven and the earth by the dragon is the tyrannical trick of the "Jianlong Jianglong" seal. There are only two tricks in total.

And this second move, the dragon destroys the world, surpasses the first move, and is ten times more powerful!

"Ten times as much as you go beyond the broken Sumeru Mountain!"

Seeing this, Chen Feng's eyes lit up immediately: "Yin Broken Xumi Mountain is already invincible in the Seven-Star Martial King realm, so how powerful will the Shenlong destroy the world?"

Then, he continued to look down.

The first move to print Broken Sumeru Mountain can only summon one seal, while the second move, Shenlong Destroy Heaven and Earth, can summon two huge seals.

One seal came out of the void, and the other surged from below the ground. The two powerful forces were intertwined, enough to tear the enemy into pieces.

The power is extremely powerful, even the eight-star Wuwang realm strong, can not resist the power of this trick!

"Can the eight-star Wuwang realm powerhouse resist?" Chen Feng's eyes sparkled, and his heart was extremely excited.

Then, he immediately began to study the self that flashed up above, carefully comprehending and comprehending the meaning in it.

That slight remarks gradually flashed through his mind.

Soon, Chen Feng was immersed in the profound understanding.

Tianyuan Imperial City, close to the periphery.

It's a few hundred miles away from the center of Tianyuan Imperial City. It does not rely on Lili or the outside, and the families on the floating mountain in this location are basically those in the Tianyuan Imperial City. First-class family, but not top-notch.

Because the top ones are in the closest position to the palace.

A floating mountain with a height of more than 700 meters. This height represents the power on the mountain. It is by no means top level, but it is definitely not weak and should not be underestimated.

At least, it has reached the first rank. Among the forces, there are at least a few Eight-Star Martial Kings, and there are even Nine Star Martial Kings.

Above the gate of this mountain, there is a huge plaque with only one big character written on it: Xu.

It turned out that this mountain was actually where the Xu family was located.

The big calligraphy, the pen with dragons and snakes, looks extremely weird, and it feels like a character formed by entangled tens of thousands of poisonous snakes.

The color was dark with blue, which made people feel dizzy after watching it for a while.

Wow, almost directly vomiting.

The fact is also true. It is said that the Xu family was originally from southern Xinjiang, and was good at manipulating Gu venomous snake venom.

[Chapter 1993: Never die!](#)

Later, in the process of the Tianyuan Dynasty attacking southern Xinjiang, he voluntarily surrendered to the Tianyuan Imperial City, led the army to expand 100,000 miles, and made great contributions, so he was made an earl!

In the Tianyuan imperial city, only the rank of Marquis can be called a super family.

The earl of the Xu family was a little bit close.

The mountain where the Xu family is located is not the same as the floating mountain where other families are located. Other families are always full of flowers, making this place like a big garden, very beautiful.

On the mountain where the Xu family is located, there are dark and compact forests everywhere, and if you look closely, you will find that these forests are black from the trunk to the leaves.

Not only that, but some fishy sap was dripping from above.

This stench is blowing in the wind, and it can be heard clearly around dozens of miles.

And the most shocking, and the most frightening thing is that there are countless snakes and venomous insects crawling around in the dark woods.

There are big and small, long and short, with different shapes.

They often climb under the tree and catch the smelly sap dripping from it with their mouths. After drinking a few sips, they immediately become very excited, and the gloss on the body surface seems to be brighter.

Even some of these venomous snakes have wings or grow several heads. They are obviously ancient alien species, extremely rare and powerful.

In this Hessian wood, is the Xu family's house.

The Xu family's house was also black, with an atmosphere of evil and terror.

Outside the house yard, there was a trench, and the trench was actually full of venomous snakes. At first glance, I was afraid that there were tens of millions of them, making a hissing noise.

Just the juice and breath they spit out formed a black wall around the house.

No one can sneak into Xu's family secretly, because all the poisonous snakes are their eyeliners and their guard posts.

At this time, in the hall at the highest point of the Xu family's central government, the powerful figures of the Xu family were all concentrated here. There were more than 30 people, most of them were middle-aged or older men, and a few young people!

Sitting in the center is a seventy or eighty-year-old man dressed in linen.

The old man looks very ugly, with a huge nose, wrinkled face, messy hair, and a sackcloth, filthy.

He was leaning on a strange long snake stick in his right hand, and on top of it was a small black snake about the length of a little finger, sprinting around, and from time to time an evil and poisonous light appeared in his eyes.

The old man was closing his eyes at this time, his fingers tapping rhythmically on the snake stick.

And none of the people sitting below dared to breathe loudly. They all lowered their heads. From time to time, some people raised their heads, looked at him with awe-inspiring eyes, and quickly lowered.

Obviously, they are extremely afraid of this old man.

After a long time, the old man finally opened his eyes.

Suddenly, there was a feeling of light in the empty room and thunder and lightning in this hall.

If there is a powerful person, he will definitely exclaim, it turns out that this old man has reached such a situation!

Only those who reach the peak of King Martial Realm can do this.

This person is the ancestor of the Xu family!

What is frightening is that his pupils are actually vertical, like the pupils of a viper, which is frightening.

And when he opened his eyes, everybody in the hall was sitting righteously, and they didn't dare to take a mouthful.

The old man's eyes slowly swept across their faces, and then he said in a deep voice, "Xu Changkong, dead."

He didn't seem to expect them to answer, paused, and then said to himself: "It was killed by a disciple named Chen Feng in Wudong Academy!"

The people below did not dare to breathe, it had been a few days since the news came to the Xu family.

After the ancestors of the Xu family heard this news, the Dharma reaction seal was very strange. He was not angry or abnormal, so he returned to his room and sat quietly for several days.

Then, we called everyone here today!

The ancestor of the Xu family suddenly fixed his gaze on the man in a brocade robe sitting below, and said lightly: "Ming Quan, you are the head of the Xu family, and Chang Kong is also your son."

"Zhangkong's future is all planned by you. You have to tell everyone what we originally expected for Changkong."

Xu Mingquan, more than fifty years old, was full of hatred and sadness at this time.

He stood up and said with a trembling, "Let Nagakong's reputation first, but not allow him to enter any power, and then let him go outside for experience."

"When he is strong enough, has enough practical experience, and is about the same age, let him enter the inner courtyard of Wudong Academy."

"His disposition is definitely more favored by the elders of the Wudong Academy than those so-called geniuses who have been spoiled since childhood and have never experienced the storm."

"Therefore, there is a high possibility of being taken as a closed disciple of some elders."

He took a deep breath: "And the facts are also true. He has been taken by an elder Chongxiao and accepted as a closed disciple."

"Furthermore, this elder Chongxiao said very clearly that after a hundred years, Changkong will inherit his mantle."

"In other words, it won't even take decades for our Xu family to have a Chongxiao elder from the Wudong Academy."

"Even, due to Chang Kong's young age, he can still compete for the position of the head of the Wudong Academy compound."

"If you become the head of the Wudong Academy, then we Xu family, promotion to the Super Grade family will definitely not be a problem!"

"And now, all of this!" At this point, he smashed the chair beside him with a fist, directly smashing the pure gold chair. Angrily roared: "All are destroyed in the hands of that little boy Chen Feng!"

Hearing this, everyone was in an uproar.

They all knew that the Xu family had high expectations for Xu Changkong, but they didn't expect to have such a big ambition.

"It turns out that the hope of Xu Family's promotion to the Super Product Family lies in Xu Changkong!"

"More than that, if Xu Changkong can become the head of the Wudong Academy, one of the eight major sects, then the benefits of the Xu family will definitely not stop there, and they can even go to the next level!"

The ancestors of the Xu family glanced at Xu Mingquan with a faint gaze, a mocking smile appeared on the corner of his mouth, and said, "What is the ability to breathe into a chair?"

"Whoever makes Xu Changkong die, who makes our Xu family's wishes shattered, you will deal with whom!"

Xu Mingquan said excitedly: "Ancestor, have you nodded? We can go to deal with Chen Feng? I've long wanted to clean up that kid!"

The ancestor of the Xu family slowly nodded his head, his eyes sullen and cold: "The little boy Chen Feng dares to make the Xu family suffer such a loss, then we must pay a price!"

"He is in Wudong Academy now, and we can't touch him, but he will leave Wudong Academy and Tianyuan Imperial City after all!"

"At that time, it will be the time for our Xu family to start!"

He gritted his teeth, his tone was harsh, and his voice was like a poisonous snake choosing someone to eat: "My Xu family, and Chen Feng, never die!"

At this time, it is the sun's mid-sky, the hottest time of the day.

The current season is the end of July, and July is also the hottest moment in Tianyuan Imperial City.

The sun was hanging high, radiantly hot, and extremely majestic, and the force of the sun was overwhelmingly strong from the sky.

[Chapter 1994: Comprehend 50%!](#)

Today, or even a year, is the most prominent moment of the power of the sun.

And now, it is also the hottest moment of the sun in the day.

Chen Feng stood proudly under this big day, above his body, a dark golden light surging, and in the dantian, two egg-sized bright beads of the dragon descending arhat turned crazily, and the power of the descending dragon arhat surged.

And he didn't stand still, but stepped on the seven stars, and his hands kept drawing a mysterious arc.

His hands, the arcs hitting them separately, the feeling, and the breath coming on his face are completely different.

The left hand is extremely masculine, and the right hand is illusory. Just looking at it gives people an extremely uncomfortable feeling.

These are two completely different styles.

Chen Feng is practising the second and last move of Jianglong Fantian Yin: Shenlong destroys the world!

Shenlong destroys the world, extremely powerful, but extremely difficult to cultivate.

Chen Feng has been studying for more than ten days, but only a little progress has been made. Around Chen Feng's body, the power of the sun continues to entangle and fluctuate.

Suddenly, Chen Feng opened his eyes, his whole body was suddenly shaken, and the power of the sun entangled around his body suddenly broke.

Then, Chen Feng let out a loud roar, and drew a mysterious arc with his left hand, rushing out from bottom to top.

But the right hand suddenly held high, then fell fiercely, and shot down fiercely from above.

The movements of the two hands are completely opposite, the left hand is extremely masculine, and the right hand is extremely soft.

At this time, on Chen Feng's body and his hands, there was an extremely tyrannical aura, as if he was a giant one after another at this time, and between his hands was a continent.

As soon as he stretched out his hands, the world would be completely shattered.

In an instant, when Chen Feng made this move, the sky was dark, and a cloud suddenly began to condense.

In this dark cloud, golden light shines with a huge seal, which is about to take shape!

On the ground, there was violent trembling, and huge cracks appeared.

In the cracks, there is a red flame about to burst out.

It seems that Chen Feng's move has the power of destroying the world, extremely powerful!

But at this moment, suddenly, Jianglong Luohan's Bright Pearl shook violently, and then, on Chen Feng's palms, the power was stopped.

The power of the dark golden dragon descending Arhat suddenly dissipated.

Then, in the next instant, the thundercloud in the sky that was about to condense, shattered directly with a bang.

And the red light under the ground flickered, and it also dissipated directly.

The crack gradually returned to normal.

Above the sky, it became clear again and there was no cloud.

Chen Feng clapped his hands in annoyance and said in a low voice, "This time, I failed again!"

Chen Feng knew the reason for the failure very well, that is, this trick was really weird.

Although it is one move, it contains two completely different powers, and both of these powers need to be released by Chen Feng, which must allow him to do two things at the same time. It also has two functions.

Just looking at it will give you a very strange feeling of vomiting blood, let alone making such moves in person.

He whispered to himself: "In this case, the requirements are too high, but there is no good way."

"There is only one way, and that is to practice, keep practicing. When I first started, I was totally confused, but now I can achieve the level of thundercloud condensing and earth fire shining."

"This means that I have realized that almost 30%."

"Eh, troops!" Suddenly, Chen Feng's heart moved, he slapped his head, and said in surprise, "Can I do this?"

"The two Dragon Dragon Arhat Bright Orbs are separated, one is used to support the power of the left hand, and the other is used to support the power of the right hand. This will definitely be a lot easier!"

Just thinking of it, Chen Feng didn't hesitate anymore, and started to spin two dragon descending Arhat Bright Orbs, one of which turned in a positive direction, still exuding the force of the powerful descending Arhat.

The other one rotates in the opposite direction.

In this way, Chen Feng immediately felt that a feminine force came into his right hand quietly.

Chen Feng was overjoyed, and laughed: "This really works."

Next, Chen Feng practiced like this.

And this also made his progress much faster.

In the evening of the same day, Chen Feng roared and struck out with both hands again, and the dragon ruined the world and burst out.

This time, it was a lot better than before.

The thundercloud has been able to condense and form, and the seal in the thundercloud is half condensed. The cracks on the ground are twice as large as before, and the flashing red light inside is even hotter.

Chen Feng was overjoyed: "In one afternoon, I have made progress again. Just now I have realized that it is 50%!"

"In a while, I will definitely be able to make this divine dragon destroy the world!"

The next day, Chen Feng was practicing. Suddenly, Jian Mingjun walked in outside.

When Chen Feng saw it, he raised his brows slightly, wondering why he came over.

Jian Mingjun looked at Chen Feng, smiled and said, "The first person in the outer courtyard wants to see you."

"Oh? The first person in the outer courtyard wants to see me?" Chen Feng was a little surprised, but didn't say much, just nodded, cleaned up, and then followed Jian Mingjun to the floating mountain where the upper courtyard was.

Then, he came to the palace at the highest point of the floating mountain.

At this time, on the platform in front of the palace, there were already three people waiting there. Seeing Chen Feng and the others, all three of them looked towards this side.

Chen Feng is a little familiar with these three people. They are all members of the upper house, and joined him in the final competition in the outer court.

Chen Feng knew that besides himself, they were the other three who entered the inner courtyard this time!

Among the three, one of them was indeed the beautiful girl.

This beautiful girl, holy and cold, just glanced at Chen Feng faintly, then turned her eyes to the mist between the clouds and mountains in the distance.

On the blue long sword on the back, the light flickered, especially dazzling.

Chen Feng said in his heart: "I'm afraid that this girl already has an eight-star Martial King level or even a higher level of cultivation. I don't think she is an opponent. If she can't enter the top ten, it would be strange."

In addition to him, there are two men.

One of them, 27 or 18 years old, looked a little dull, obviously a very silent temperament.

He glanced at Chen Feng, but nodded slightly without speaking.

The other person was a young man in Jin Yi who was in his early twenties. He looked very handsome, but his face was a little pale, giving a feeling of dysphoria.

He didn't even glance at Chen Feng, his face was arrogant.

If people don't speak to themselves, Chen Feng will naturally not get along.

[Chapter 1995: First in the outer courtyard!](#)

He also found a place to stand outside the hall, looking far away, waiting for the call in the hall.

After a while, the first seat of the upper house and the first seat of the Central Plains came over, and Chen Feng turned his head, his eyes swept across their faces.

Duan Yushan, the first in the middle courtyard, came into contact with Chen Feng's gaze, and there was a look of fear on his face. He hurriedly smiled at Chen Feng, with a hint of flattery in his smile!

Chen Feng raised his eyebrows, but immediately understood why he did it.

There was a sneer at the corner of his mouth: "This section of Yushan is really a bully and afraid of hardship. At first, I thought I was so weak, so I wantonly humiliated me and said anything."

"Now, I look so servile, it's nothing more than my strength is strong enough!"

A disdainful smile was drawn at the corner of Chen Feng's mouth, and he shook his head, without even paying attention to him.

This kind of person does not deserve Chen Feng's attention.

Soon, the main hall door suddenly opened, and an old hoarse voice came from inside: "You four, come in!"

Souren walked towards the gate of the hall, and when he came to the gate of the hall, suddenly, the arrogant young man in brocade coughed violently, covering his mouth.

He coughed so badly, blood seeped from his fingers, and after a while, he just recovered slightly.

Taking advantage of the incomprehensibility, he quickly stuffed a pill into his mouth, blood flashed across his face, and then he stopped coughing.

And just three steps into the hall door, his cough sounded again.

Chen Feng looked at him thoughtfully.

A warrior who has reached this state will hardly be infested by any disease, and in his case, there are only two explanations, either due to congenital deficiency or acquired cultivation techniques, which will greatly damage his body.

In Chen Feng's view, the latter should be more likely.

The teenager swallowed another pill and coughed violently before returning to normal.

He seemed to feel like he was just now, making himself very shameless, especially in front of the first seat in the outer courtyard that he had not seen yet, so he urgently needed to find some face.

So, he immediately glared at Chen Feng, and coldly reprimanded: "Untouchable, what do you look at? Can you stare at me with my identity?"

Chen Feng was a little inexplicable at once, and then his brows wrinkled, a sharp flash in his eyes.

He immediately understood the meaning of the Jinpao boy. He just lost face. He wanted to find some face by suppressing himself.

Chen Feng thought it was ridiculous, gave him a cold look, ignored him, and continued to move forward.

And Chen Feng's attitude made the Jin-robed young man even more furious, and he sternly shouted: "You humble uncle, how dare you ignore my words? Damn!"

Chen Feng stopped, and a coldness flashed in his heart: "I don't want to pay attention to you, it's endless?"

He turned his head suddenly, with two sharp gazes, looking at the Jinpao boy, Sen Han said: "You dare to spit out the word untouchable, believe it or not, I will let you blood on the spot?"

His voice was extremely cold, like ice that has never changed.

And his gaze was even more murderous. After the brocade-robed young man came into contact with it, he immediately felt trembling and sweating profusely.

Therefore, he did not dare to say a word, and there was a burst of inexplicable fear in his heart.

Chen Feng snorted coldly, then turned around and continued forward. The Jinpao boy recovered his senses at this time. His face immediately changed from white, and a thick shame flashed in his eyes, and a voice in his heart shouted: "I How can I be afraid of him? How can I be scared by him?"

But at this time, the other three have already gone far.

He felt hot on his face. He just wanted to regain face by suppressing Chen Feng, but he had completely failed. At this time, he was even more embarrassed.

He stared at Chen Feng's back, his eyes cold, as if thinking about what to do.

Soon, the four of them walked to the depths of the hall, and the deepest part of the hall was a high platform.

On the high platform, at this moment an old man with gray hair and beard was sitting on his own.

This old man was extremely tall and burly, wearing a purple robe, he looked down at Chen Feng and the other four people, and did not speak for a while.

Just when Chen Feng and the four were wondering, he suddenly spoke, his voice was as loud as Hong Zhong, rumbling, and the whole hall was humming.

"You four little dolls, they look a little bit better! It's better than the past few years when you entered the inner courtyard."

The four of Chen Feng and the others were all taken aback. In the past they came into contact with the first seat of the upper, middle and lower third hospitals. In any case, they always speak slowly and hold a posture, but this old man is like a bell. , Big scary.

The old man's gaze swept across the four faces one by one.

All four of them felt like they were thoroughly seen through. His eyes stopped for a long time on the cold girl's body, and a touch of surprise flashed in his eyes:

"This little girl is really good! The talent can even be said to be high-level. It is definitely a rare talent in the past ten years."

"Yes, yes, she should be the best in this class."

Then, look down.

When he saw Chen Feng, his gaze suddenly shrank. Just now, even when he saw the beautiful girl, he was just surprised.

Seeing Chen Feng, his expression was a little shocked, and he couldn't believe it.

Looking at Chen Feng, he whispered in his heart: "This, this young man has such a peculiar roots? This is the body of heaven!"

When he spit out these four words softly, he immediately felt that there seemed to be a sense of power in the void, thunder and lightning came out of the void, and the rumbling fell down.

What is more, it seems to have completely collapsed in this space!

It also seemed that in that deep void that didn't know how deep, a certain existence quietly opened his eyes.

So, suddenly, the world went back and forth!

The body of heavenly hatred is so powerful that just saying these words will produce such a reaction!

So scared the old man trembled in his heart and didn't dare to say these four words again.

He whispered to himself: "This young man, it's really... if his physique can have a big chance, then the future will be boundless."

"And if the chances are not enough, you may die directly."

Then, everyone saw that the old man seemed to be stunned. His eyes stayed on Chen Feng for a long time, but he didn't say a word.

As a result, everyone was shocked, looking at Chen Feng, wondering what was weird about him, because the old man's eyes had stayed on him for longer than the sum of the three people.

[Chapter 1996: Star weapon](#)

The brocade-robed boy who mocked Chen Feng before showed a touch of jealousy on his face.

Even the beautiful young girl glanced at Chen Feng, with a hint of surprise on her face.

After a while, the old man seemed to realize his gaffe, he hurriedly smiled like a cover, and then glanced at the head of the upper middle and lower third hospitals.

He first said loudly to the head of the upper house: "This time, you are quite satisfactory. Three people in the upper house are entering, similar to before."

Then, he cast his gaze on Jian Mingjun, the first seat of the House of Commons. This time, with a trace of praise in his eyes, he said, "Jane, you did a great job."

"Very well, there is one person in the lower house. This is your credit."

With a flattered expression on Jian Mingjun's face, he quickly nodded in thanks.

Then, the old man turned his gaze to Duan Yushan, the first place in the middle courtyard, with a very dissatisfied face, and said loudly, "Duan, you guys, you can't do it this time!"

"There isn't even one person in the middle court? Very embarrassed! They have all been compared by the lower court!"

Duan Yushan's face was very ugly, and the last person he wanted to lose was Jian Ming Junjun, but this time he lost.

He gritted his teeth without saying a word, his face showed humiliation!

The first person in the outer courtyard reprimanded him a few more words, and then said loudly: "Well, four little babies, you guys all tell your names!"

Chen Feng introduced the four in turn, and he also knew the names of the other three.

The beautiful girl's name is Que Qianqian.

The silent young man was named Jing Nanfeng.

And the frivolous young man who was hostile to Chen Feng and ridiculed was named Yu Shaoqi.

When Chen Feng said his name, the first seater of the outer courtyard slowly nodded, remembering these two words deeply.

The name of the first seat in the outer courtyard is Feng Hongyun.

He is obviously a person who is extremely quick and resolute in doing things. Without the slightest hesitation, he immediately got up and said loudly: "Everyone, I will take you to the inner courtyard today! Get familiar with the people in that inner courtyard first."

"After three months, I will officially enter the inner courtyard and participate in the assessment!"

Jian Mingjun looked at Chen Feng and said in a low voice: "Don't you have been very worried about Yu Shaoqi where the inner courtyard is? Today you will know."

Chen Feng smiled and nodded, looking forward to it.

Then, Feng Hongyun strode down and brought everyone to the hall.

Then, with a wave of his hand, a small flying sword flew out from his sleeve.

This little flying sword is no more than a foot long. The material is like gold, neither gold nor jade nor jade. The surface is still surrounded by a light mist like clouds. It does not seem to be powerful, and even a little cute. .

But after it appeared, it circled in the air, but it rose up against the wind. After a while, it became a huge sword, which was hundreds of meters long and 20 meters wide.

The huge and incomparable sword was suspended in the air, and everyone was shocked to see this scene.

Chen Feng's face was even more shocked, with the same constant shock in his heart, his eyes widened, and a voice in his heart echoed: "What is this? What level of weapon is this? It can be free to grow and shrink?"

Chen Feng felt that his face suddenly opened up, and the appearance of this flying sword seemed to have opened a brand new world for him!

No matter how much Chen Feng indulged his thinking before, in his boldest imagination, this scene had never appeared.

And now, it actually appeared.

This made him suddenly realize: "I am in Tianyuan Imperial City now, and I have come into contact with a group of people who are at the peak of the Martial King Realm, and may even surpass the Martial King Realm!"

"All of this is brand new! This is a complete new world!"

Thinking of this, Chen Feng trembled and was extremely excited!

His heart was extremely excited, and he felt his blood boil.

Everyone was shocked, including the first of the three houses.

Only the beautiful girl, her eyes flashed slightly, she didn't show any shock.

Obviously, her background should be extremely extraordinary, she should have seen something like this before.

Feng Hongyun didn't have the slightest restraint or take the air. He laughed and looked at Chen Feng and the four of them, and said with some pride: "You four little babies, don't envy me."

"When you enter the inner courtyard, your realm is high enough, you can naturally come into contact with such things."

He pointed to the giant sword and said: "This is just an ordinary half-star weapon! It's not even an official star-class weapon"

Star-level weapons, surpassing the weapons of the king's soldiers, possess all sorts of miracles!

"Boy, if you want to get it, then you can practice well and work hard!"

Chen Feng and a few people were full of enthusiasm, clenched their fists, and responded loudly.

Then, a few people all got on the flying sword.

Feng Hongyun muttered a word, and suddenly, the white light condensed on his hands, pressing fiercely on the flying sword.

So the next moment, this flying sword was swiped, at an extremely fast speed, like a bolt of lightning. It shoots out in the distance, much faster than the speed of the strong skimming the air!

The long sword pierced through the air, drawing a long trace, producing a huge thunderstorm in the air.

White light flashed across the sky, and the people of Tianyuan Imperial City below looked up, and when they saw this huge flying sword, they all shouted in shock.

This flying sword even flew out without any stop when it reached the walls of the Tianyuan Imperial City.

On the Tianyuan imperial city, the strong defenders bowed to salute in a show of respect.

Many of them knew the origin of this flying sword.

Chen Feng watched the blood surging.

Flying sword passing by, the world bows its head, this is domineering!

The Flying Sword was extremely stable, and the speed was also very fast. Even the gale rushed towards the face, making people almost unable to open their eyes.

And Chen Feng was also very surprised, because Feijian actually flew out of the city, and soon he left the Tianyuan Imperial City and came to the Tongtian River.

After arriving at the Tongtian River, he didn't even stop and flew directly towards the center of the Tongtian River.

Chen Feng's expression suddenly changed, and he was a little horrified.

Duan Yushan next to him had already asked his question. He was full of panic and shouted out: "The first lord, this Tongtian River is the land of the great monsters. Whether it is in the air or underwater, we humans can walk. It's just that bridge."

"You flew over the Tongtian River so hastily, but you are going to cause a catastrophe! Those big monsters will never turn a blind eye!"

Feng Hongyun glanced at him disdainfully, and said with a cold snort, "Look at your courage, as weak as a mouse!"

[Chapter 1997: Cracked Sky Island!](#)

As soon as the voice fell, there was a fierce roar in the Tongtianhe, and several powerful breaths poured out, bang bang bang, they directly jumped out of the water and rushed towards the big sword fiercely.

Each of these great monsters was over a kilometer in size, extremely huge.

There was even one, with a body size of nearly 10,000 meters, with flood dragons, big fishes, and even more weird monsters.

They roared fiercely and wanted to attack the big sword. Obviously, the big sword that crossed the Tongtian River had already angered them.

But, unfortunately, it was useless at all.

Because the big sword flew too high and the speed was too fast, it was just a momentary effort, and it was out of their range.

The great sword flew over the Tongtian River, during which the great demon kept flying in the air, trying to attack, but it was all in vain.

Standing on it, Feng Hongyun laughed loudly, shouting at the bottom: "Boys, did you hit your grandpa?"

He was so proud, Chen Feng took a deep breath, and felt the violent wind rushing towards him, and suddenly he screamed to the sky, reaching the extreme.

He looked at Feng Hongyun, a touch of envy flashed in his eyes.

This kind of tyrannical, this kind of pride, seeing so many great monsters as nothing, but he has this kind of pride and ability.

"This is the life I want Chen Feng!"

"Every time I come to the Tongtian River, I am trembling and afraid. I have had enough of these days!"

In a moment, the giant sword had flown four hundred miles, and it was already close to the center of the Tongtian River.

When Chen Feng looked down, his gaze suddenly shrank. It turned out that there was an island in the center of the Tongtian River.

The island is a hundred miles in radius. There are mountains and trees, it is quite steep, right in the middle of the Tongtian River, where the water is the most turbulent!

Feng Hongyun laughed loudly: "Our destination has arrived!"

As he said, he controlled the big sword and shot towards the island.

Chen Feng secretly said in his heart: "There is actually a small island in the Tongtian River. Is the inner courtyard on this small island? I have never heard of it before!"

Seeing the shock and confusion on the faces of Chen Feng and others, Feng Hongyun smiled triumphantly: "How are you, this time you have learned a lot?"

"I'll just say, you can't guess where this inner courtyard is. How about it, right?"

He pointed to the island below and laughed loudly: "The inner courtyard is on this island."

He suddenly turned his head and stared at the four of them, and said with awe-inspiring eyes: "You four, do you know why this is?"

The four shook their heads together: "The disciple doesn't know!"

A hint of concealed anger flashed across Feng Hongyun's face, and he said in a deep voice: "This Tongtianhe has always been the site of the great monsters, and it has always been like this!"

"My human race, can't enter the Tongtian River at all, why do my characters endure such humiliation? Why should my human race, on the side of the couch, let these big monsters sleep soundly?"

"I am a strong human race, there is such a reluctance in my heart, or such a anger!"

"So, ten thousand years ago, the ancestors of my martial arts academy used great magical powers and major repairs to unite with the other seven top powers and the power of eight people. In the middle of the Tongtian River, a small island rose forcibly. !"

"This is it, Split Sky Island!"

"Cracking Heaven Island!" Chen Feng's eyes shrank, "The river is named Tongtian River, and the island is called Cracking Island. This is also very vivid. This island is not like it is on the Tongtian River. Did you tear a huge gap?"

Feng Hongyun continued: "In the beginning, the big demons in the Tongtian River were naturally extremely reluctant. Every time they attacked Sky Splitting Island, the disciples of my martial arts college suffered countless deaths and injuries."

"However, my disciples in Wudong Academy just don't give in, just want to fight them hard to the end. That's how they insist!"

"The river monsters have contended for thousands of years, and my disciples in the martial arts academy have suffered countless deaths and injuries, and those big monsters have also suffered numerous casualties.

"Finally, nine thousand years ago, Wudong Academy came out of an amazing genius who smashed through the sky with a single sword, and killed those great monsters in the Tongtian River who screamed and suffered heavy losses!"

"Since then, the big monsters have reached a rule with Wudong Academy. From then on, they will not attack the Wudong Academy unscrupulously, but every ten years, those big monsters under certain realms can be free. Attacking Sky Splitting Island is not restricted by this rule!"

"And my Martial Academy, put the inner courtyard here, just to fight against these big monsters, just to let the disciples grow up in the real battle, tempered by blood and fire!"

Chen Feng and the other four people suddenly felt in their hearts.

Chen Feng's heart is full of respect for the ancestors and sages of Wudong Academy.

These people can be called people! He is the real powerhouse!

Because they have a strong heart, not bullying the weak, but daring to challenge opponents that seem absolutely invincible.

In addition, in order to maintain their beliefs, even at the cost of blood, and even life!

This is the heart of the warrior.

At this moment, Chen Feng seemed to have some understanding, and after he had some insight in his heart, he actually had an inexplicable connection with the big sword under him.

There was a buzzing on the big sword. Feng Hongyun looked at Chen Feng, and was surprised: "This Chen Feng is really amazing. Can you understand this?"

"Very strong! Really strong! This talent, this comprehension, is really no one can compare!"

After Feng Hongyun had finished speaking these words, suddenly, not far from Sky Splitting Island, suddenly, a breath of horror to the extreme, swept across the sky.

A huge shadow appeared quietly underwater.

When Chen Feng and the others saw it, they all felt their scalp exploded and their hairs were standing up!

It turned out that the huge figure floating in the water was almost the same size as the Sky Splitting Island next to it.

Everyone took a deep breath: "What a huge monster that can be as big as an island? This is too powerful!"

Then, the shadow got closer and closer to the water surface, and suddenly, with a bang, a water column as high as several thousand meters exploded.

Then, the monster exposed a huge head from the water. The head was a huge dragon head with a radius of more than a thousand meters. The head alone was bigger than Chen Feng's Azure Dragon Martial Spirit. .

And under this head, there is an unusually slender neck, and further down is an extremely swollen body.

It's just that, at this time, only a small section of the neck was exposed, not to mention the other bodies.

The huge monster uttered a voice with a deep voice: "Human, you have already violated the original rules by crossing the Tongtian River."

[Chapter 1998: Nine Star Demon King!](#)

At this moment, Feng Hongyun suddenly flashed a sly in his eyes, laughed, and with a bang, the long sword fell heavily on the island.

Then, he looked at the giant monster in the distance, spread his hands, and said with an innocent look: "With your strength, according to the rules, you can't attack Sky Splitting Island. I did cross the Tongtian River just now. It really violated the rules. ."

"However, according to the rules, you can only kill me when I cross the Tongtian River, so that you are accountable, which is completely possible."

"But, since I'm on the Sky Splitting Island, you can't move me!"

When these words fell, the huge monster was immediately blindfolded.

Chen Feng seemed to be able to see a circle of small stars rising in his eyes. He did not recover for a while. He seemed to stop there thinking for a long time, and then he nodded slowly and looked at Feng Hongyun with a look of approval. Said:

"You are right, I really can't touch you now."

With that said, he turned around and left without saying a word of nonsense.

Seeing this scene, Chen Feng was stunned.

Then the next moment everyone looked at each other, and they all showed a smile. Although this monster is huge, it is indeed silly, a little cute, and a little cute.

Seeing the monster leaving, Feng Hongyun breathed a long sigh of relief, patted his chest, and said in a shocked tone: "Thank you, this guy is a good coxer. Let him coax him away. Otherwise, take him away. I really may not be an opponent."

"This guy, I'm afraid it is already the Nine Star Demon King!"

Chen Feng's heart was awe-inspiring, but he didn't expect that this seemingly silly demon king would be so powerful that Feng Hongyun was so jealous!

The Nine-Star Demon King, that is equivalent to a human being who surpassed the Nine-Star Martial King realm.

Then, Feng Hongyun led Chen Feng and others to the depths of the island.

This small island, with a radius of a hundred li, was about the same size as the Demon King's body compared with that Demon King, but it was already very large for humans.

On the island, there are continuous mountains, waterfalls and springs, and the scenery is quite good.

After walking not far, when he came to a cliff, Feng Hongyun pointed to the distance and said, "I see it, there is the inner courtyard."

When Chen Feng and the others looked into the distance, they saw continuous mountains in the distance. These mountains were not very high, but each of them was extremely steep, with cliffs hundreds of meters high everywhere.

No mountain has a gentle slope. The four sides, southeast, northwest, and even all sides facing the interior, are all cliffs, just like the gentle slopes of the surrounding mountains have been cut off.

At a glance, the cliffs are densely covered and stand jagged.

And at the top of the cliff, every mountain range and the top of every mountain peak were built into a fortress several hundred meters high, completely cast from a black metal, shining with metallic light.

Above the fortress, there are powerful steel fighter machines everywhere, like giant beasts!

At a glance, the entire island is like a battle fortress.

Where is it like a place of practice? It is clearly a giant fortress!

"This, this is the inner courtyard?" Everyone asked in surprise.

"Very surprised, isn't it? Shocked, isn't it?" Feng Hongyun smiled and said:

"But think about it, it's normal. It turns out that you have to face offenses from those Demon Kings every day. Even after the rules are set, there will be an offensive every ten years."

"The wave of attacks by the small stock of monster beasts is not once every ten years, but once every once in a while. There is no way to find anyone to say, because these monster kings will shirk that these are not their subordinates."

"Later, we figured it out." Feng Hongyun said with a mocking smile at the corner of his mouth, "We want to use them to enhance the strength of our disciples, but these demon kings also use us to consume their men."

"Consumption of their men?" Yu Shaoqi asked: "What good is this for them?"

Chen Feng thought about it for a moment, then clapped his hands and said in a deep voice, "I know!"

"This Tongtian River is so big, and there are so many resources in this Tongtian River, and each Demon King needs a lot of resources. As the monsters become more and more, the resources are reduced."

"So, they actually hope that the following monsters will be better."

Feng Hongyun glanced at Chen Feng appreciatively, smiled and said, "Chen Feng, your kid has a flexible mind."

Then he said to Yu Shaoqi: "Learn from others."

Yu Shaoqi glanced at Chen Feng, a look of jealousy and resentment flashed in her eyes, she lowered her head and said nothing.

He felt that he was robbed of the limelight by Chen Feng again and lost face.

Feng Hongyun did not lead them to fly over, but walked down the cliff and walked towards the fortresses step by step.

Chen Feng and the others saw large patches of reddish-brown blood everywhere on the cliffs and the fortresses. They were shocking, and they knew how many tragic battles had taken place here.

All the way forward, soon everyone walked forward for dozens of miles, passing through hundreds of huge forts.

The farther they went, the higher the cliff, and finally, they came to the center of Sky Splitting Island, a huge cliff with a height of 10,000 meters.

And on the cliff, this is the largest fortress here.

On the entire cliff, there are various hidden passages, which can hide at least hundreds of masters. Anyone who wants to climb up will suffer the most fierce attack.

When we got here, someone asked: "The first lord, why didn't we encounter anyone's attack this way? We didn't even meet anyone?"

Feng Hongyun said: "Do you think their defense is lax?"

"Tell you, it's because when we just landed, they sensed our breath and naturally wouldn't stop them."

"On weekdays, they are scattered all over the island to practice meditation, and they are rarely seen here."

Everyone nodded, and then Feng Hongyun laughed: "Okay, I have taken you a long way. Let's go up now. Let these inner courtyard people see you, and I should take you back. ."

His figure shook, a cloud of white light wrapped Chen Feng and others brushing it, and he went upwards at a fast speed, appearing on the top of the cliff in a blink of an eye.

Above it is a huge square, and at the end of the square is the dark fortress that is thousands of meters high.

The name of the fortress: Poetry and Book of Sword Fort.

There are books and swords in the castle of poems and books, while studying martial arts.

As soon as a few people arrived, the door of Shishu Divine Sword Fort opened with a bang.

[Chapter 1999: Laugh, insult, and provoke!](#)

Then, a hearty and bold voice came: "Old Feng, which wind brought you here?"

Feng Hongyun laughed and said: "This year some disciples will enter the inner courtyard. I will first bring them to step on the hill to see the situation, so that they can get in touch with the disciples in the inner courtyard."

In the door, a purple light suddenly appeared, extending out like a carpet, extending to Chen Feng and the others.

It was about a few hundred meters long and five meters wide, and then four people stepped onto the purple light.

So, with a brush, the purple light collected, and the next moment, Chen Feng and others had already appeared in the hall.

This hall, completely cast from a special black metal, looks desolate, simple and atmospheric, without any luxury.

After arriving here, Chen Feng looked up and saw that there was no one on the first seat.

On both sides of the main hall, there were dozens of men and women standing, the oldest being no more than 40 years old, and generally around 30 years old. They were full of arrogance, looking at themselves and others with a point in their eyes Examine and disdain.

Feng Hongyun looked at Chen Feng and the others, and laughed: "I'm looking for my old friend to reminisce about the past. You stay here slowly, and I will come back to look for you later."

As he said, his figure flashed. He disappeared directly, leaving only a few of Chen Feng here.

As soon as he left, the dozens of inner court disciples in the main hall had a somewhat restrained look, but at this time they became completely unscrupulous.

They walked up slowly, looking down at Chen Feng and the others arrogantly, no, to be correct, it should be Chen Feng.

They targeted Chen Feng.

A young man in a green robe with an arrogant expression walked up to Chen Feng and looked at him up and down. The corners of his mouth curled slightly, his face full of disdain: "What is it? How come a waste with only a five-star Martial King level comes in? "

Many disciples in the inner courtyard murmured and shook their heads: "It's absurd that the five-star King Wu can enter the inner courtyard!"

The Qingpao youth said with a joking smile in his eyes: "Are you Chen Feng?"

Chen Feng nodded: "Yes, I am!"

"Hahahaha," the Qingpao youth suddenly raised the volume and laughed loudly: "Are you the famous waste Chen Feng in the outer courtyard?"

He looked at Chen Feng with disdain, and laughed loudly: "Are those people in the outer courtyard blind? You let you, a trash untouchable, into the inner courtyard?"

Chen Feng took a deep breath, suppressed the anger in his heart, and said slowly, "I came up by myself!"

"Ha, I hit it by myself?" The Qingpao youth sneered, "What kind of junk are the disciples in the outer courtyard? You can't even beat you?"

He looked at Chen Feng, slurped twice, and his face showed a deep disdain: "You are already wasteful enough. I didn't expect them to be wasteful than you."

Among the many disciples in the inner courtyard behind him, someone laughed and said, "Junior Brother Yun, why did you say that? I just looked at it. Chen Feng is indeed a little weaker, but to say that he is a trash. Right?"

He seemed to be speaking for Chen Feng when he said this, but when he said this, his face was full of playfulness.

Obviously, he cooperated with Junior Brother Yun to humiliate Chen Feng together.

Junior Brother Yun laughed, turning around, with a respectful expression: "Brother Zhuo, you don't know anything about that."

"This Chen Feng, when it comes to strength, it is extremely low-minded, and it is not a bad thing to say it is a waste."

"But, it would be a bit too much to say that he is a waste just because of his strength status. After all, some people are not strong now and can catch up in the future."

"Yes." The disciples in the inner courtyard nodded one after another.

"It's a pity!" Junior Brother Yun laughed and said, "The potential of Chen Feng is almost zero. The senior brothers, brothers, sisters, and sisters, do you know that Chen Feng's martial soul is a waste martial soul!"

"What? Abandoned Martial Spirit?" The many disciples in the inner courtyard really didn't know about this. When they heard it, they were shocked.

In the next moment, this shock turned into a deep disdain and ridicule.

They all looked at Chen Feng with contempt!

"It turned out to be a waste martial arts soul, that is really over. If the cultivation base is low now, there is still a possibility of catching up in the future, but the martial arts soul is a waste martial arts soul, which means that the potential is zero, and there is no hope in a lifetime. ."

Some people are full of dissatisfaction: "This kind of waste can even enter the inner courtyard, which is simply an insult to our inner courtyard!"

"Yes!" The people in the inner courtyard looked at Chen Feng with hostility and contempt.

At this time, Junior Brother Yun laughed and said: "Those people in the outer courtyard are blind, let him enter the inner courtyard, but we are not blind, let's teach him a lesson at that time."

"Helping this junior fellow to practice and improve his cultivation base, maybe his cultivation base can increase a lot! Do you think it is? Hahahaha."

After hearing this, the disciples in the inner courtyard were taken aback for a moment, and then burst into a burst of huge laughter.

"Yes," someone rubbed his hands and said with a look of anticipation: "Since I entered the inner courtyard, I haven't had much discussion with others!"

"This time it happens to be a good time to learn from this junior, I have increased, and his cultivation base has also increased."

They said it was a discussion, but in fact it was nothing more than an opportunity to teach Chen Feng, and it was a very vicious lesson.

Laughing, insulting, provoking, like a tide flooding crazily.

And Chen Feng, standing in the crowd like this, bowed his head and said nothing, just like an old monk entering concentration.

However, his trembling hands betrayed his mood at this time.

In Chen Feng's heart, the anger had already burned to the extreme.

He didn't expect that he hadn't stepped into the inner courtyard yet, and this was what greeted him.

In his eyes, anger slowly!

Brother Na Zhuo, with a long sword on his back, dressed in white, looked quite handsome.

The gaze that the girl disciple looked at him was also full of admiration.

He walked in front of Chen Feng with a haughty look, suddenly took off the long sword behind his back, attached it to the scabbard, and clicked it like Chen Feng.

Chen Feng did not evade, because he could see that there was no murder in this sword.

There is no murder, but there are thick contempt and humiliation.

The sheathed long sword was clicked on Chen Feng's chest, and then clicked three times.

Senior Brother Zhuo stared at Chen Feng and said coldly: "Chen Feng, I look at the look in your eyes just now, it seems that I am very dissatisfied!"

"I heard that you are very restless when the trash is in the outer courtyard and can cause trouble."

"I warn you, after you come to the inner courtyard, it's not your world. It's completely different from the outer courtyard. Perhaps your strength can make waves in the outer courtyard, but in the inner courtyard, whoever comes out can crush you to death like an ant!"

[Chapter 2000: I will make you pay!](#)

"You, it's best to be honest, otherwise, I will personally dispose of you!"

"I want to kill you with a long sword in my hand, that's easy!"

Chen Feng lowered his head and said nothing.

However, there was a flash of murderous intent in his eyes.

He clenched his fists, his anger was rising, and the feeling of being humiliated made him almost crazy.

But Chen Feng controlled his sanity.

He endured it, he didn't make a move.

This Senior Brother Zhuo was already a master of the Eight-Star Martial King, and Chen Feng was no opponent at all.

If he can't help but shoot, then it is very likely that Chen Feng will be killed directly as Senior Brother Zhuo said, with no bones left.

There was a voice in Chen Feng's heart that roared frantically:

"What you look down on is my disused martial soul! But, I know, he is not the disbanded martial soul, but the strongest!"

"I have remembered everything you said and everything you did today!"

"Wait, you dogs in the inner yard, wait for me. When I step into the inner yard again after three months, I will definitely make you admire!"

"I will definitely return these humiliating words and humiliating things today!"

"You people who dare to humiliate me, I must make you pay the price, the price of blood!"

At this time, suddenly, among the crowd, a gray-haired young man who had been taciturn before came out.

The young man stared at Chen Feng, there was no joking in his eyes, only a cold murderous intent.

He seems to have a deep grudge against Chen Feng, and he feels a bit familiar, as if he has seen it somewhere.

Suddenly, the gray-haired young man turned around, looked at the other disciples in the inner courtyard, and said in a deep voice: "Brothers and sisters, I am the one of you who looks forward to meeting him most."

"Why?" These inner courtyard disciples were stunned. "

"Because, my brother, he died at his hands!"

"What? Your brother was killed by his hands?" Everyone was stunned.

When Chen Feng heard this, he immediately remembered where he had seen Le.

It turned out that this person was just like the brother Zhuang he had killed before, and he was obviously a real brother.

"It looks like you remember it, right?"

The young man said coldly: "My name is Zhuang Tianxiong, and the one you killed before was my brother!"

There was a bitter resentment in his eyes: "You dare to kill my brother, I once swore that I will break your body into pieces!"

He turned around, looked at Brother Zhuo and Brother Yun, and pleaded a little: "Brothers and sisters, especially Brother Zhuo and Brother Yun, I beg you, if you encounter him, you can destroy him and try not to kill him. ."

"I want to keep his life, come and fetch it personally, and take him to my brother's grave, to pieces!"

Chen Feng sneered: "Your brother was beheaded by me for trying to belittle the female disciple! Why? Isn't I doing it right?"

When Chen Feng said this, the expression on Zhuang Tianxiong's face instantly turned red, revealing a trace of shame and guilty conscience.

Obviously, he also knew the virtue of his brother.

But then, he became angry and snarled: "So what? My brother is right in everything. If you dare to kill him, I will kill you!"

Obviously, he has now started to arrogant words.

Chen Feng shook his head, too lazy to speak.

And at this time, Junior Brother Yun Yuankai smiled and said, "Don't worry, Junior Brother Zhuang, we will keep it for you."

"Don't worry, we all have a sense of measure. It would be fine to maimed him. We won't kill him." The inner courtyard disciple named Lu Hongcai who had said before that he was going to teach Chen Feng also laughed.

Yun Yuankai and Lu Hongcai discussed there, as if Chen Feng was an object.

And they are discussing the ownership of Chen Feng, they are simply treating Chen Feng as if nothing, extremely contemptuous!

Suddenly, Yun Yuankai turned his head and said to Zhuang Tianxiong, "Junior Brother Zhuang, you said that if I can't hold back my hands for a while, what should I do if I kill him?"

"Then you just can't get what you want?"

Zhuang Tianxiong obviously didn't dare to provoke him, and said with a smile: "Senior Brother Yun, if you kill him, then kill him, but it's just to make him cheaper."

"Haha, don't worry, Junior Brother Zhuang, I was joking with you."

Yun Yuankai laughed loudly and pointed at Chen Feng and said, "I am so much stronger than him. It is so easy to play him but not die!"

"Don't worry, when the time comes, I will only abolish his cultivation base, causing him to suffer tremendous pain, but I won't let him die."

Zhuang Tianxiong smiled and said, "Then thank you Brother Yun."

Outside the main hall, two extremely strong auras suddenly approached.

Then in an instant, two old men appeared in the hall, one of them was Feng Hongyun, and the other was a man who looked rather refined.

Of course, he just seemed to be relatively young, but he was actually an old monster over several hundred years old.

This elegant old man raised his eyebrows and looked at these inner courtyard disciples, and said with some dissatisfaction: "I have just left for a while, and you have begun to restless?"

The disciples in the inner courtyard were obviously quite afraid of him. Hearing what he said, they all bowed their heads and said nothing.

Only Senior Brother Na Zhuo laughed and said, "Elder Qin, didn't Feng Shouzu just say, let us get close to these junior and senior juniors? We are now getting close to this junior! Also teach him some inner courtyard rules! "

After leaving the inner courtyard, everyone was silent on the way back.

The people in the inner courtyard attacked Chen Feng, but it was everyone's face that was wiped out.

Everyone in the outer courtyard has no face, only Yu Shaoqi. He looked at Chen Feng at this time, but his face was full of gloat, with a trace of joking.

Seeing Chen Feng being insulted, he felt very happy.

At this time, Que Qianqian suddenly walked to Chen Feng and said in a low voice, "Chen Feng, don't be familiar with those in the inner courtyard, we are all standing with you."

Chen Feng was silent at first, but he didn't have much anger, only anger and murder.

He knew that he would surely be able to step on these people who humiliated him today.

But at this moment, what the girl said suddenly surprised him. He looked at Que Qianqian. Que Qianqian's expression was cold and his eyes were clear, pure as the ice and snow that would never melt forever.

Chen Feng looked at him, suddenly smiled, nodded slightly, and said, "Thank you!"

After returning to his courtyard, before Chen Feng could enter the house, he suddenly heard a knock on the door outside the courtyard.

Chen Feng opened the door and was stunned. It turned out that it was Wei Wuji who was standing outside the door.

Chen Feng was a little surprised: "What is Wei Wuji doing here?"
