### [Chapter 2271: Taiyi Diling Snow Lotus](#)

At this time, although Chen Feng's strength has not reached his level, Liu Chengyi is a two-star martial emperor after all, but the speed of Chen Feng's growth makes Liu Chengyi very clear that it is only a matter of time before he catches up with himself.

Moreover, this time will not take long at all!

At this time, Chen Feng said eagerly: "Elder Liu, please also take a look. Look at my Uncle Dao. What kind of poison is in him?"

Liu Chengyi nodded and looked at Uncle Dao. At this look, he was shocked: "This is actually the poison of the boneless snake?"

"Snake and snake venom?" Chen Feng had some doubts in his eyes, he had never heard of it before.

Liu Chengyi said in a deep voice: "This kind of boneless snake is a very poisonous species produced in the Southern Famine."

"Bone and a hundred dead snakes have extremely harsh growth conditions."

When he said that, he was telling the birth process of the White-Bone Hundred-Dead Snake. After Chen Feng heard this, his expression changed in amazement.

"Millions of bones can give birth to a deadly snake? To be bitten by this deadly snake is indeed extremely serious."

He quickly asked: "Is there a way to save it? Is there any medicine to save it?"

"As long as the Tianyuan Dynasty has a pill to save, I will pay any price, and I will also rescue Uncle Dao!"

Liu Chengyi shook his head and smiled bitterly: "If there is a solution, I will definitely tell you, but the most unfortunate thing is that there is no solution at all!"

"The snake venom of this white-bone snake has appeared twice in the Tianyuan Imperial City, and the deaths are all shocking figures. Moreover, one of them is even a certain prince three thousand years ago, but even with the power of the royal family, Failed to rescue him!"

"What?" Chen Feng was already a little desperate at this time.

The imperial family is rich in the world, and the treasury of the Tianyuan imperial family is all-encompassing. It is countless times more complete than any big family. Even the royal family can't find the medicine that can cure this snake venom. So, what do you have? opportunity?

Hope is still extremely slim!

However, Chen Feng didn't have any plans to give up. He said loudly, "Is there really no way? I have to try it if I have a chance!"

At this time, Liu Chengyi suddenly said: "If there is no way at all, it is not the case."

He whispered: "I once saw the record of this kind of poisonous snake in an ancient book 10,000 years ago, and I also saw such a clue about snake venom."

"What clue?" Chen Feng asked eagerly.

Liu Chengyi said slowly: "In the Southern Wilderness, there is a strange flower called Taiyi Diling Xuelian."

"What? Taiyi Land Spirit Snow Lotus?" Chen Feng raised his eyebrows: "Don't snow lotuses usually grow on extremely high mountain peaks? The Southern Wilderness is so hot, and there are snow lotus?"

"Yes, the Southern Wilderness is very hot, but this kind of snow lotus grows in a very hot place, but it requires a piece of ice and cold around it, which is extremely harsh for the place to grow."

"In the Southern Wilderness, there are also towering mountains, and there are glaciers all over that mountain range, but if you look for hundreds of thousands or even millions of glaciers, you may not be able to find this kind of Taiyi Land Spirit Snow Lotus."

"Because it not only requires living in the icy and cold place of the hot land, but also requires an earth evil spirit vein beneath the earth!"

Liu Chengyi shook his head and smiled bitterly: "This condition is even more stringent than the conditions for the growth of the white-bone snake. How difficult is it to find?"

Chen Feng took a deep breath and said, "Taiyi Di Ling Xuelian, I remember this name, and I should bother you to tell me the appearance of this strange flower."

Liu Chengyi took a deep look at Chen Feng and said, "Are you going to find this kind of snow lotus?"

Chen Feng nodded: "Yes, I must save Uncle Dao, even after all the hardships, I will look for it!"

"Good!" Liu Chengyi nodded slowly.

Chen Feng made this decision without any surprise.

If Chen Feng is not such a person who values love and righteousness, I am afraid he would not value Chen Feng so much.

He stretched out his hand, and a mysterious ripple poured into Chen Feng's mind.

In an instant, Chen Feng clearly remembered the appearance of the Taiyi Diling Xuelian!

When Chen Feng saw this Taiyi Land Spirit Snow Lotus, he seemed to understand in an instant why this snow lotus could heal this kind of strange poison.

It was because this kind of snow lotus was so beautiful and so beautiful, and just to show Chen Feng, he had a feeling of being shocked in his heart, which seemed to be a strange thing that shouldn't belong to the world.

Chen Feng deeply imprinted it in his mind.

Then, Liu Chengyi said: "As for the current situation of Uncle Dao, although I cannot completely heal him, there is no problem in maintaining the current situation for a few months."

As he said, he mentioned Uncle Dao to the place where he was practicing, and then placed it on the altar, and took out a few artifacts that were very strange in Chen Feng's eyes, with a breath of ancient desolation. The mysterious rules are placed.

Then, lines are drawn from it, and countless light waves circulate in it.

Above the sky, although it was daytime, there were a few stars on the sky above the sky quietly flickering.

Then, a burst of dazzling star power is poured into the line by those magical instruments, and the stars shine brightly.

Then the next moment, these little stars poured into Uncle Dao's body.

Uncle Dao suddenly trembled all over, and then he saw that these little starlight stubbornly penetrated into his body, and within those blue rays of light, one line after another was forcibly split.

Chen Feng can see clearly that these lines are the most important meridians and internal organs.

The lines made by these stars obviously kept Uncle Dao's vitals, preventing him from being eroded and killed.

On the surface of his body, those injuries have also improved, and many huge blue scars were directly squeezed out of the pus and venom inside, and then began to scab to grow.

Uncle Dao still has large patches of blue on the surface, but at least the deterioration has stopped, his breathing has become stable, and the muscles on his face have slightly relaxed.

However, those blue venoms didn't mean to stop, they attacked frantically towards the lines of starlight.

At this time, Liu Chengyi was sweating profusely, and the wrinkles on his face seemed to have increased a lot, as if he was several years old.

He trembled slightly, looked at Chen Feng, and said with a trembling, "I have used astrology to help Uncle Dao to keep his heart, but it can only last for four months."

He stretched out four fingers: "Within four months, you have to find an antidote, otherwise, he won't be saved at all."

#### [Chapter 2272: Uncle Dao, trust me!](#)

Chen Feng nodded solemnly, and suddenly bowed deeply, saying word by word: "Elder Liu, today's kindness, Chen Feng will not dare to forget."

Liu Chengyi patted him on the shoulder, and said gratifiedly: "It's good if you have this heart. You don't need to be too polite with me about this matter.

Chen Feng knew that he said this only to comfort himself.

Looking at him, you know what a huge price he paid to heal Uncle Dao!

Chen Feng was extremely grateful to him in his heart. If he was grateful, even if Chen Feng said it once, he would only repay him with practical actions.

Uncle Dao woke up at this time, he looked at Chen Feng, panting violently, his voice was like a bellows.

His voice became extremely hoarse: "Little Master, you, are you all right?"

Chen Feng's tears came down immediately, Uncle Dao has become like this, and what he is worried about is that he is afraid of being hurt.

Chen Feng trembled: "Uncle Dao, don't worry, I'm fine, I'm fine."

"That's good, it's okay." Uncle Dao smiled comfortedly. He seemed to be extremely difficult to speak at this time. Obviously, the toxin also had a great impact on his lungs.

He trembled: "Little Master, you don't need to worry about me, you can just do your own thing. If the old slave can die to save you, it's a good death."

Chen Feng shook his head desperately, and he suddenly said loudly: "Uncle Dao, don't say it, you just have to remember one thing, that is, I will be able to save you!"

He held Uncle Dao's shoulder and stared into his eyes, and said word by word: "Uncle Dao, I said I can save you, do you believe it or not?"

"Do you believe me?"

Uncle Dao looked at Chen Feng's gaze, and his whole body trembled. He could feel the boundless and intense concern and obsession from Chen Feng's gaze!

He trembled in his heart and nodded, "Little Master, I have always believed in you."

"Okay, that's okay, you are here to heal your wounds, waiting for me, I will definitely save you."

After these few words, Uncle Dao was already too tired, and fell asleep again faintly.

Chen Feng turned his gaze to Lie Yang Mingxu, and he smiled coldly: "Lie Yang Mingxu, it's time to settle accounts with you!"

Chen Feng carried Lie Yang Mingxu, one reason was to torture the situation related to the poison in Uncle Dao, and now his question has been answered by Liu Chengyi. *NoVELsB.CoM*

Lieyang Mingxu has lost its value. What Chen Feng should do now is to kill him, but Chen Feng did not kill him, but took him back to the small courtyard where he lived in the outer courtyard.

There was no newcomer living in that small courtyard, it was Chen Feng.

After arriving there, Chen Feng threw Lie Yang Mingxu heavily on the ground.

Lieyang Mingxu was dying at this time. He stared at Chen Feng and said with a trembled: "Chen Feng, what are you going to do? If you want to kill me, just give me a good time!"

"I cannot know more about your Uncle Dao's poison than Liu Chengyi!"

Chen Feng looked at him and said, "I save you a life, not just for Uncle Dao's toxin, but also for..."

He suddenly lowered his voice and said word by word: "Clues to the tomb of the Great Emperor Yin and Yang, hand over!"

Hearing Chen Feng's words, Lie Yang Mingxu trembled violently. His face showed extreme horror, as if he had seen a ghost. He pointed at Chen Feng and said with a trembling voice: "You, how can you know?"

Chen Feng said lightly: "Don't worry about how I knew? You just need to tell me the clue."

Lieyang Mingxu sneered and said, "You are dreaming. This is the core secret of my Lieyang family and the root of my Lieyang family's rise."

"As long as there is this secret, in my Lieyang family, even if it is temporarily broken by you now, with this secret, it can still rise in the future!"

Chen Feng smiled and said, "So, I want this secret now."

His voice was very affirmative, saying every word, like the truth.

Although he was smiling, his face was as cold as ice.

Lie Yang Mingxu said loudly: "I will never tell you!"

"Oh? Really?" Chen Feng smiled slightly and grabbed him directly into the wing room.

After a while, there was a miserable cry in the wing room!

And the next moment, the screams stopped abruptly, as if they were blocked abruptly!

After about a cup of tea time, Chen Feng walked out, shaking his hands, as if nothing happened just now.

Behind him, Lie Yang Mingxu was already dead.

But even if he died, Chen Feng dug up all the secrets before he died.

Chen Feng has many methods, but he usually doesn't want to use them.

Then, Chen Feng swiftly left in the direction of the Lieyang family, and soon arrived.

At this time, under the Lieyang family, most of the people watching on the square had dispersed, and most of the people on the Lieyang family's floating mountain had also left, but some people remained there.

Most of them are unwilling to die, but for a while, they dare not move, thinking about leaving, and some are unwilling, so they stay here.

Seeing Chen Feng's return, there was no hope in their hearts, and they left one after another.

At this time, the blood wind was still standing there, staring at everyone with his head, looking around from time to time.

Seeing Chen Feng's arrival, he cheered and threw himself into Chen Feng's arms like a puppy.

Chen Feng rubbed his head vigorously, smiled and said, "Little guy, good job!"

The Lieyang family didn't have many heirs, but just a few people, all of whom had been killed by Chen Feng. As for the servants and slaves, they had all escaped.

However, they fled back and fled, but no one dared to take away anything from the Lieyang Family, because the blood wind was staring at it.

These servants of the Lieyang Clan, the blood wind dealt with them easily.

Several servants thought that the blood wind was good for bullying, and sneaked up a lot of rare and exotic treasures to leave, but they were directly seen through by the blood wind, and directly rushed to squeeze the three into flesh.

With the lessons learned from these three people, there is no longer a servant of the Lieyang Family, who dare to hack into any property, they can only leave alone!

But Chen Feng didn't care about the treasures of the Lieyang Family. In his eyes, those treasures combined were not as precious as the thing he was going to take next.

Chen Feng went straight to the east courtyard of the Lieyang Family. After entering, he couldn't help but let out a surprise.

This courtyard is extremely wide and huge, occupying almost half of the area of Fukong Mountain.

In this courtyard, there is a giant tree in the middle. This giant tree is red all over and exudes a dark glow, which is somewhat similar to Chen Feng's power of descending the dragon.

#### [Chapter 2273: Kill the Golden Crow](#)

Up to kilometers, the diameter reaches tens of meters.

This tree is very strange, without any branches, just so straight, from bottom to top.

The thickness of the upper and lower sides is almost normal. There are countless red leaves growing on the top. Each of these countless red leaves has a length of tens of meters and a width of about 20 to 30 meters, like a big ship.

The above is shining with red light, which looks extremely beautiful.

It was already at this time, the setting sun went down, the night was deep, and the countless red lights fluttered down from above, like endless fireflies, really beautiful.

There are hundreds of layers of these leaves.

And at the top of the tree, the nests are in a ball, it looks like a bird nest is built.

However, Chen Feng doesn't think any birds can survive in it.

The tree exudes extreme heat, and the leaves on the top of the tree are shining with red light and flames, causing the surrounding air to be distorted, as if burned by the high temperature.

So far away, Chen Feng could feel a heat wave.

He estimated that the temperature of these leaves had reached at least one hundred thousand degrees!

Chen Feng leaped up in the air and rushed directly towards the top of the tree.

It turned out that according to the information received from Lieyang Mingxu, Chen Feng knew that the clue about the tomb of the Great Emperor Yin and Yang was hidden by Wenrui Lieyang at the top of this giant golden ebony tree.

This place is really unexpected.

If it weren't for Lie Yang Mingxu's telling Chen Feng, Chen Feng would look for it himself, I'm afraid I won't find it for a few years!

And just when Chen Feng was about to come to the top of the tree, suddenly, from the top of the tree that was intertwined with the flaming red leaves like a bird's nest, suddenly a flaming figure flew out.

Chen Feng's expression changed, he never thought that there was something hidden in it.

And the thing that flew out turned out to be a huge flaming red crow.

This crow is not very huge, but it is a hundred meters long, with two or three hundred meters spread out its wings, but facing this crow, Chen Feng actually has a very dangerous feeling facing the ancient behemoth.

For an instant, his heart was pounding wildly, a layer of goose bumps appeared all over his body, and the cold hair on the surface of his body was erected!

This huge fiery red crow stared at Chen Feng coldly, his eyes cold.

Chen Feng was horrified: "He actually gave me such a powerful feeling, could it be said that his strength has surpassed the one-star Wuhuang Emperor?"

"I am not even afraid of the One-Star Martial Emperor!"

After Chen Feng looked at it, he was even more shocked. It turned out that there were hundreds of huge wounds on the body of this huge fire-red crow.

These wounds are like stab wounds, each with a length of more than ten meters, distributed throughout his body. These stab wounds have not yet healed, and a sharp snow-white knife gas rolls in the wounds from time to time. A bowl of festering flesh and blood came out.

And the biggest wound was at the root of his wing, almost cutting off his right wing!

At this time, the huge crow hovered on the tree without speaking, just staring at Chen Feng so coldly, the aura on his body was getting bigger and bigger, and it pressed towards Chen Feng fiercely.

Chen Feng calmed down after watching it for a while.

Instead, he smiled, and a smile appeared at the corner of his mouth: "What I said, it turned out to be just scaring me!"

"The original strength of this flat-haired beast is amazing. That's for sure, but that's just the original. He doesn't know who has cut so many wounds all over his body. There is not much strength left!"

"So, it's just to frighten me and press me with its once powerful breath."

"And his true strength is actually far inferior to Lie Yang Sheng and Lie Yang Mingxu! Otherwise, he would have taken the initiative to attack!"

After Chen Feng had figured this out, he smiled coldly, his figure flashed out quickly, a roar, and his palms blasted out.

King Kong pushes the mountain!

"Dare you pretend to be here? Take my hand and say it again!"

At this moment, a panic flashed in the eyes of the fiery red crow, and the aura of his pretending master instantly disappeared.

With his wings stirred, he barely avoided Chen Feng's move, and Chen Feng followed another move with King Kong playing the pipa, and continuously bombarded his body with extremely fast speed.

Now, he couldn't avoid it anymore and let out a scream.

Bang Bang Bang Bang, in a blink of an eye, Chen Feng didn't know how many shots he had hit, and then he saw his huge body swell up.

Then the next moment, with a loud bang, his body was directly smashed.

And at the moment before his death, he stared at Chen Feng fiercely with a bitter gaze, and let out a hoarse and sharp roar: "I was born in the Golden Crow Valley, wait for death!"

Chen Feng's eyes dazzled: "It turned out not to be a fire crow, but a golden crow!"

The next moment, in his bursting body, a red light shot out directly.

This red light was like a body shadow that had shrunk countless times. Chen Feng knew that this was the spirit of this fiery red crow.

He wanted to intercept, but it was too late.

The spirit of this fiery red crow stared at Chen Feng firmly, as if to remember his face, and then disappeared into the sky at an extremely fast speed. Chen Feng couldn't catch up with it.

However, Chen Feng didn't take it to heart, he just smiled coldly, and then stepped in.

Only then did he discover that the top of the tree was not like a bird's nest, but a bird's nest, presumably the huge fire-red crow should be living here.

After entering here, Chen Feng went all the way to the deepest part of the bird's nest, and then removed a large pile of fiery red tree trunks here, and opened a fiery red leaf, and then saw the naked tree trunk.

Chen Feng threw three punches, blasting a gap in the trunk, and as expected, a stone chamber appeared below.

This stone room was actually carved with a fiery red jade. The fiery red jade was extremely restrained, condensing all the breath in it, and isolating the breath in the stone room.

If Chen Feng finds it by himself, he will definitely not find it by breath.

When he came to this stone room, Chen Feng really saw that nothing was placed in the middle of the stone room, only an ancient scroll was placed.

This ancient scroll was spread out to the size of a bed. I don't know what material it was made of. It looked like gold and not gold, or jade and not jade, but it was extremely thin and thinner than paper.

Chen Feng almost trembled and stretched out his hand to hold the ancient scroll in his hand.

At this moment, his heart was surging, his heart was extremely excited, and even his lips trembled.

#### [Chapter 2274: The Secret of the Tomb of the Great Emperor Yin and Yang!](#)

"The secret of the tomb of Emperor Yin and Yang, I finally got it!"

When he got a clue about one-thousandth of the secret of the tomb of the Great Emperor Yin and Yang, Chen Feng only entered the first floor outside the tomb. He had already received such a huge benefit and laid a solid foundation for his future achievements.

And now, the secret of the core of the Lieyang family, about the real location of the tomb of the Great Emperor Yin and Yang, lies in front of Chen Fengfeng. How can he not get excited?

Obtaining the secret of this mausoleum, but it is possible that Chen Feng's strength will increase wildly.

The scroll in Chen Feng's hands slowly unfolded, and then he saw a topographic map.

There are mountains and water, large forests, and boundless deep valleys. The most conspicuous is a huge mountain peak and an extremely high white cliff.

Obviously, what was marked on this map was the location of a certain area. Chen Feng tried his best to recall all the places he had been. With his current strength, the places he had visited would probably not be forgotten.

But after Chen Feng thought for a long time, he sighed and gave up this plan.

He was sure that he had never been to this area.

Chen Feng swept his eyes back and forth several times, remembering all the characteristics of this area in his mind, and then slowly nodded.

Below the picture scroll, there is a text. Chen Feng read the text back and forth many times, and exclaimed: "It turns out that the tomb of the so-called Yin-Yang Emperor I went to before was just a grave of doubt!"

"The Great Emperor Yin and Yang was also afraid that someone would dig his tomb after he died. Therefore, a total of ninety-nine suspicious graves were built throughout this dragon vein continent."

"In every suspicion mound, there are many benefits, even enough to make the people who get that benefit rise to the sky in one step, crazy upgrades, and limitless future achievements. It is no longer a problem to become a martial king or even a powerful man!"

"In this way, it can be thought that what was excavated is his real tomb."

"As everyone knows, how can the tomb of the Great Emperor Yin and Yang be limited to this?"

Chen Feng laughed: "All the benefits of the ninety-nine suspicious graves add up to a fraction of the benefits of the real tomb of Emperor Yin Yang."

Chen Feng's blood was boiling, and a voice in his heart roared: "Just by getting the benefits of that mausoleum, you can accomplish such a feat. If you can get the secret of the real mausoleum, you can definitely set foot on the peak of the Dragon Vessel continent!"

Chen Feng slowly clenched his fists: "The tomb of the Great Emperor Yin and Yang, you are mine! You can only be mine!"

However, Chen Feng does not have time to find it now, nor does he have this thought.

What Chen Feng is thinking about now is to quickly cure Uncle Dao!

This ancient scroll is spread out very large, but when rolled up, it is only the size of a palm, and it is also very thin.

Chen Feng tried to put it in the golden dragon ring, but found that he couldn't do it at all, so he had to put it in his arms.

Chen Feng left the Lieyang family and headed for the outer courtyard of Wudong Academy.

All the people who saw Chen Feng along the way were extremely respectful, and some were even very afraid of worship.

They retreated to the side of the road and bowed to Chen Feng in a respectful manner.

Many people lowered their voices and said, "Bronze King Kong is here!"

"What? Bronze King Kong Chen Feng is here?"

Those who heard this all flocked to the street to look at Chen Feng.

From today onwards, the name of "Bronze King Kong" Chen Feng has spread like wildfire.

Bronze King Kong is a nickname they gave to Chen Feng, because Chen Feng is too tyrannical today. His seven-treasure body of bronze is like bronze casting an extremely hard body for everyone.

The most powerful impression, in people's impressions, Chen Feng's body is indestructible, that is, it cannot be broken at all, that is extremely powerful and hard, but it makes them ignore Chen Feng's attack!

And Chen Feng was shrouded in this boundless dark golden light, and his bright bronze body reminded them of the legendary Buddha King Kong!

Therefore, the name of the bronze King Kong Chen Feng spread throughout the entire Tianyuan Imperial City overnight, shocking everyone!**NOVELS123.COM**

Most people are showing their respect to Chen Feng, this is the treatment that the strong deserve!

After Chen Feng returned to Wudong Academy, he met Uncle Dao again.

Uncle Dao was sleeping, and Chen Feng did not wake her up, but asked Liu Chengyi to take good care of her. Then Chen Feng went to see Chen Ziyuan again, went back to the inner courtyard of Wudong Academy, and explained to Feng Hongyun clearly that she was going to be next. Traveling far away.

After clearing these hands and tails, Chen Feng returned to the small courtyard and left a message for Aunt Mei.

And next, he went with a \*\*\*\* wind, leaving Tianyuan Imperial City, and rushing wildly in the direction of the Southern Wilderness.

Chen Feng is going to find the Snow Lotus of Taiyi Land!

Southern Wilderness, the White Elephant Tribe.

The White Elephant Tribe is one of the three major tribes in the Southern Wilderness, and its strength is not weaker than that of the Black Water Black Snake Tribe.

However, that was the White Elephant tribe a year ago.

Since the Black Water Black Snake Tribe discovered the blood of the Black Water Black Snake a year ago and elected a queen, the situation has been completely different since the queen became the throne.

In this year's time, the Black Water Profound Snake Tribe conquered more than 3,700 large and small tribes, and its strength skyrocketed.

A year later, the Black Water Profound Snake Tribe is more than ten times more powerful than a year ago, and it is still growing at a crazy rate!

At this time, around the white elephant tribe, black clouds are already pressing against the city and want to destroy it.

This dark cloud is naturally the enemy.

And this enemy, of course, came from the Blackwater Black Snake Tribe.

The White Elephant Tribe was built on a white stone mountain. It looks very holy. It is thousands of miles away and contains tens of millions of people. They are all elites of the White Elephant tribe.

At this time, around this sacred mountain, there were countless black and heavy camps. These camps stretched for tens of thousands of miles, with no end in sight.

There are hundreds of millions of soldiers that can be accommodated in these camps, and each of them is a powerful elite.

Almost every camp has a similar pattern, with a length of several thousand meters and a width of only tens of meters, winding like a long snake.

Each camp represents 10,000 troops stationed in it, and there are 53,000 such camps around here!

In each camp, in the 10,000 army, about a thousand people are soldiers of the Black Water Black Snake Tribe, riding black panthers or flying tigers with wings.

This thousand people are the leaders in this camp, and the remaining nine thousand people are decorated with different decorations and even look very different, and the mounts they ride are even more diverse.

They all come from other tribes conquered by the Blackwater Black Snake Tribe.

#### [Chapter 2275: Destroy the White Elephant Tribe!](#)

After their tribe was annihilated by the Blackwater Black Snake Tribe, all the males in the tribe were dragged into the Blackwater Black Snake Tribe as slaves, and the strong and strong were dragged into the Blackwater Black Snake Tribe Army to serve. !

Now, the size of the Blackwater Black Snake Tribe's army has expanded tenfold.

It was similar to the White Elephant Tribe a year ago, but now it is part of the Stable White Elephant Tribe, and it should be said that it is far more than that.

At this moment, in the largest camp facing the south gate of the White Elephant Tribe.

This camp is magnificent and magnificent. It is not as simple as other camps. It is a luxurious palace with a radius of several thousand meters and dozens of stories high.

And this palace is entirely built of precious metal gems such as gold, jade, gems, amethyst, etc. It looks extremely gorgeous.

Under the light of the surrounding torches, there were bursts of bright light.

This is the palace of the supreme queen of the Black Water Black Snake Tribe!

The empress' palace is extremely high, hundreds of meters higher than the surrounding area, and the entire palace will shake from time to time, and it looks even more radiant.

If you look closely, it will definitely shock people.

It turned out that this palace was built on top of a giant.

This behemoth is a giant land turtle.

This giant tortoise has a body length difference of more than 10,000 meters, a width of several thousand meters, and a height of more than 300 meters. His two pillars stand on the ground like giant pillars, and the carapace on his body is even more impressive. There are tens of meters in thickness.

The whole color is like bronze, shining with the heavy light of metal.

Above his head, there is a huge bronze horn 100 meters long.

And behind this bronze horn, there is a row of plot spikes, stretching from the head to the back, and spreading to the huge tail!

This giant tortoise is actually about the same size as the dragon tortoise Chen Feng saw in the Tongtian River.

At this moment, he seemed to be asleep, closed his eyes, shaking from time to time, making a humming sound in his mouth.

And at this moment, on his back, in the palace of the empress, there was a bright light and a loud voice.

In the most central hall, the woman Yuechan stood high on the top seat, holding the little baby girl in her arms.

Next to her, there was Elder Wither Wood. Obviously, the status of Elder Wither Wood was distinguished from the others, which seemed very unusual.

On both sides of the lower head, there are hundreds of generals standing, and every general is full of spirits at this time!

One of them laughed loudly: "Congratulations to your Majesty, to my Blackwater Black Snake Tribe. This white elephant tribe has been under our siege for several months. The warriors in the tribe have suffered more than half of their injuries. If you can't go down anymore, you will surely open the city like her majesty the queen!"

Yuechan looked at them, smiled and said, "This is all the merits of the soldiers, of course,"

She looked at Elder Witherwood and said with a smile: "Elder Witherwood is in the middle of planning and planning, and the credit is the first."

Elder Withered Wood smiled and arched his hands and said, "Thank you for your compliments, Your Majesty, I dare not be the next."

He was extremely proud of himself, and suddenly felt a little bit emotional.

In this year, many things have really changed.

During this year, the cooperation between him and Yuechan became more and more tacit, Yuechan controlled the overall situation, and he was doing small moves in private.

In just one year, the other two elders who did the right thing were sent by him to attack the very hard bones, and they gave orders to die. If they can't be beaten, not only will he die, but the members of his clan will also suffer. Punishing.**noVelusb.com**

As a result, the two elders couldn't help but not work their lives.

As a result, the two elders were killed in battle, and even the elder who stood in line with the deadwood elder was forced to fight to death by his tricks.

Now, he is the only one left among the four elders, and he has the power!

"But..." He glanced at Yuechan, sighed secretly, suppressed the pride in his heart, and warned himself softly in his heart: "Your Majesty is not something you can provoke."

"Now she has gone through several years of conquests and repeated victories. In the Black Water Profound Snake Tribe and even among the hundreds of Southern Wilderness tribes, she can already be regarded as unparalleled. If she dares to move him, she will be The crowd began to punish!"

He has made up his mind now to help the queen well, not dare to give birth to strange thoughts.

Yuechan looked at everyone, her face suddenly became cold, and said coldly: "The generals listen to orders!"

"No!" everyone clasped their fists and bowed their heads, respectfully waiting for her to continue.

Yue Chan's voice is not loud, but every word is full of cold and solemn meaning: "Go back today, tell all the soldiers, replenish their energy, and make a full attack tomorrow morning. The White Elephant Tribe must be taken down within three days. !"

"Yes!" The crowd should be enthusiastic, imagining how much property they can grab and how many slaves they can get after taking the White Elephant Tribe.

Even more lustful, is already thinking about whether the famous beauties in the White Elephant tribe can take their turn to own them.

Following Her Majesty the Queen and Elder Withered Wood has such a benefit. Needless to say, Her Majesty the Queen, she is a woman, and Elder Withered Wood is not good at being a woman if she cultivates quietly.

Therefore, after each tribe is defeated, the most outstanding women are usually assigned by them, which makes them very happy!

Soon, everyone in this hall was gone, and they went down to prepare. Only Yuechan, the baby girl in her arms, and the dead wood elders were left.

Yuechan stood up slowly and walked forward. She walked out of the hall, and with a light jump, she landed on the huge spikes.

The surface of the spikes was so sharp that even the general martial emperor realm powerhouse could not stand on it, but it could not hurt her at all.

She jumped on it, and Elder Withered Wood felt a little astonished. It seemed that he didn't realize until then that this majesty, who had frightened the surrounding tens of millions of miles, was just a little girl less than twenty years old. what!

At this moment, she jumped on top of the spikes, her skirts flying, with a cheerful smile on her face, she seemed to be completely relaxed, she had forgotten everything behind her head, and her mood was unspeakably happy and relaxed.

Even chuckles like silver bells from time to time.

Behind her, Elder Withered Wood looked at with a smile.

After a while, she finally came to the head of the giant dragon tortoise, and then gently stroked the long bronze horns on the top of the dragon tortoise. The dragon tortoise seemed very comfortable and comfortable, and she couldn't help but shiver all over her throat. The gurgling sound.

[Chapter 2276: Li Binbai's pursuit!](#)

Elder Witherwood slowly walked behind her, and at this time, the complexion of Her Majesty the Queen had completely returned to normal, becoming cold and stern again.

Without looking back, she asked faintly: "Then Chen Feng's news has been confirmed?"

"Yes, I'm sure." Elder Witherwood whispered: "These days, the people I send out bring news back almost every few days."

"I have now determined that Chen Feng is in the imperial city of the Tianyuan Dynasty, and now he has gained fame in the Tianyuan Dynasty."

"Half a year ago, he killed a well-known young man of the Tianyuan Dynasty in a battle with only one move. He was a half-step martial arts emperor."

Her Majesty's face was extremely cold, like a glacier that never melted forever: "Awesome, in a mere one or two years, he has made such great progress again, really amazing!"

She suddenly turned her head and said: "Within three days, the White Elephant Tribe will be uprooted, and the hundreds of families in the southern wilderness will be completely unified, and then they will proceed to deal with Chen Feng."

"You personally select more than a dozen top powerhouses to kill in the Tianyuan Imperial City, telling Chen Feng to kill!"

"I'm afraid it's not that easy." Elder Wither Wood looked a little embarrassed, and said: "Then Chen Feng is now regarded as a top-notch young man in the Tianyuan Dynasty. He is highly valued. I'm afraid that if something happens to him, everyone will go forward. Come to the rescue."

"If the Tianyuan Dynasty refuses, then I will force them to surrender Chen Feng!"

Her Majesty is extremely domineering, and said coldly: "I don't believe it, they can still protect Chen Feng under the threat of annihilation of the country!"

"If they don't hand over Chen Feng, I will destroy their Tianyuan Dynasty!"

Her voice was filled with unparalleled determination!

The Elder Withered Wood was stunned. He knew that at this time, he seemed to remember that all this woman did seemed to have only one purpose, and that was to kill Chen Feng!

"What? Chen Feng left Tianyuan Imperial City and headed south?" In a secret room, an old man suddenly raised his head and opened his eyes.

As soon as he opened his eyes, the dark room, which was originally very gloomy, suddenly shined brightly, and electricity was generated in the empty room.

Here is the Tianyuan Imperial City, Wudong Academy, a small floating mountain.

These little floating mountains can only be used by the top elders in Wudong Academy, and ordinary elders are not qualified to use them!

The small floating mountain where he is located is very simple and unpretentious, like a bronze totem pole, lying in the sky, but it is extremely desolate and majestic, revealing an ancient and wild atmosphere.

Gu Zhuo, and full of bitter murderous aura!

In front of him, there was a person who knelt down. This person was ordinary, but he couldn't remember it at first glance.

The ordinary middle-aged man lowered his voice and said: "Our family has sent more than a hundred people to watch Chen Feng's movements all the time, and after these more than a hundred people, there are more than ten times more people who are inquiring about news everywhere."

He paused, and then said: "Now that Chen Feng left Tianyuan Imperial City and headed south, it is already certain, and I have also figured out the reason."

"What's the reason?" the old man said coldly.

"Before Chen Feng went south, he destroyed the Lieyang Family. During his battle with Lieyang Mingxu, the elder of the Lieyang Family, he was attacked by Lieyang Mingxu with a poisonous sword. A close elder next to him The slave blocked the sword."

"But the poison was taken extremely fast, causing the person to be seriously injured and almost dead on the spot. Chen Feng took him to Liu Chengyi. No one knew what happened inside."

"But then, Chen Feng went to a few more places, explained some things, and then went south."

"According to my guess, he must have gone to the Southern Wilderness to find a medicine to treat which toxin."

The old man asked: "What poison?"

"I've been inquiring about it all the time. That sword is made from a deadly snake with white bones. Only Nanhuang has medicine for this kind of poisonous snake!"

He is very clear and convincing, and the old man obviously believes his words.

He suddenly chuckled: "You know so clearly, presumably, your master has a relationship with that sword!"

The ordinary middle-aged is silent.

The old man smiled and said softly: "You did a good job, get out!"

"Yes!"

The person turned around without any hesitation.

When he first arrived at the door, the old man said softly: "Go back and tell your master, I will take his mind."

"Although I know that he was trying to make Chen Feng die, but I remember this love."

"After killing Chen Feng this time, within ten years, you beg me to take action once and deal with someone, and I will do it."

The middle-aged Ping Fan turned and bowed deeply, smiling and saying, "Thank you very much, then."

The old man grinned suddenly, and asked with interest: "Why is your master looking forward to Chen Feng's death so much? First, he gave the Lieyang family a poisonous device, and then he gave me a message."

The ordinary middle-aged was silent for a moment, and said word by word: "The vengeance of killing a child is not shared!"

"Yeah, the hatred of murder is not shared!" The old man took a deep breath and said word by word: "My grandson also died in his hands!"

"So, Chen Feng must die!"

Ordinary middle-aged did not say much, just left quickly.

After leaving, he has been out of Wudong Academy, and he took a heavy breath, his face pale.

At this time, he found that his clothes had been soaked in sweat, and he trembled to himself: "It's terrible, the powerhouse of the two-star Wuhuang realm, the elder Chongxiao of Wudong Academy, is really terrible."

"I can feel that when he faced me just now, he had been murderous three times and wanted to kill me directly, but he finally endured it. I really don't want to deal with this kind of person again."

"Especially this Li Binbai is known for his moodiness. Who knows what he will do?"

It turned out that the old man turned out to be Li Binbai, Li Sifeng's grandfather!

After Ordinary Middle-aged left, Li Binbai slowly stood up and looked at his fist. Although he was already very old, his fist was still extremely white and full.

He trembled all over, his bones crackled and crackled, and then he smiled slightly: "Old thing, you haven't made a shot for a long time. Some people have forgotten your reputation and even dared to kill your grandson."

"Can you bear this tone?"

"Now is the time to let these people have a long memory!"

He seemed to have sworn something, saying word by word: "Chen Feng, you must die, and you must die under my fist!"

When Li Binbai was young, he was known as the Ten Thousand Steps Divine Fist, and his fist was extremely powerful. With one punch, he could break through the ten thousand steps of the void, showing the violent and ferocious fist!

#### [Chapter 2277: Deep into the Southern Wilderness](#)

He turned around and left without any hesitation, and his direction was also to the south!

Here is an extremely prosperous town, located on the bank of the mountain and river, extremely rich.

And more importantly, this is the main way to communicate between the north and the south. If you want to go from the Tianyuan Imperial City to the Southern Wilderness, you will inevitably pass through here.

If you go to other places, you need to take a detour and walk a lot in vain.

An old man quietly appeared in the city. He took a deep breath and waved his hand, as if he wanted to distinguish the smell in the air.

After a long time, a slight smile appeared on the corner of his mouth, and he said softly: "Chen Feng, I caught your breath!"

He smiled slightly, walked around the city, and continued to chase south.

This city is several million miles away from Tianyuan Imperial City, and this is also the tenth day he has pursued Chen Feng.

He was not in a hurry to kill Chen Feng, but followed little by little to determine his whereabouts clues, ready to act after the Southern Wilderness!

Because he still has no plans.

One month later.

Chen Feng looked at the vast jungle in front of him and let out a long suffocation.

Here is the Southern Wilderness.

At this time, Chen Feng stood on the bank of a big river.

The width of the river is a hundred miles, and the smoke is steaming from it, and if it is an ordinary warrior, it is impossible to see everything on the opposite side.

Chen Feng looked carefully, and saw that the south bank of the river was a vast jungle. This jungle seemed to be endless. I don't know how many mountains there are and dense trees grow on it.

It's just separated by a river, but the trees over there give people a very rich feeling.

In fact, this is also true. At this time, the trees on this side have just spit out young buds, and the trees on the other side are already green, the green is so thick that it is almost a little black, and it can't be wiped off!

"There, it's Nanhuang!"

"To the north of this Nanjiang River is the territory of the Tianyuan Dynasty, and to the south is the territory of the Southern Wasteland."

And when Chen Feng came along, he also saw the ferocity of these southern barbarians.

Within a thousand miles north of this river, Chen Feng didn't see anyone. That's right. It should be said that there had been people here.

He saw many abandoned cities and towns along the way. Village, but there is no one left.

The bones are exposed in the wild, and there is no \*\*\*\* crowing for thousands of miles. *NoVelus&C.COM*

From the traders passing by, Chen Feng knew that they were killed by the barbarians in the Southern Wilderness.

There were countless hundreds of families in the Southern Wilderness. The officers and soldiers encircled and suppressed them. They hid in the mountains and forests. Once the officers and soldiers retreated, they came out again to kill.

Moreover, the truly powerful southern barbarians are hiding in the depths of the barbarians, and no officers and soldiers can touch them.

The officers and soldiers were too troubled, and finally gave up the land.

It's just that the fortress is set up in this place thousands of miles away from the north of the river, and the southern barbarians can't harass again.

Chen Feng took a deep breath: "The hope of curing Uncle Dao is there."

His figure flickered again and again, and soon he crossed the big river, and what appeared in front of him was the forest like splashing ink.

Chen Feng strode in.

Here is a small village.

No, strictly speaking, it should be a wild tribe, but it is more than a thousand households, and Dingkou is four to five thousand at most.

They lived in a small river valley, which was no more than tens of miles long, with a river about four to five feet wide in the middle, passing through the valley, and the village was next to the river.

Most of the villages are built of bamboo, which looks rather crude.

But there are exceptions.

In the center of this village is a palace, three stories high, and it is rare to be built with large stones and huge trees.

However, although it is much taller than other bamboo buildings, there is no glorious atmosphere at all.

Because the entire hall was smeared into a dark color by a strange paint!

In front of the hall, there are two wood-carved totem poles with strange figures carved on them.

On the top of the totem pole, there is a string of skulls. I don't know how to concoct these skulls. The whole body is pitch black, and the only contraction is the size of a child's fist, which looks terrifying.

At this time, a figure entered the village.

He didn't deliberately conceal his whereabouts, he just swaggered in.

In fact, he didn't need to deliberately conceal his strength, even if he walked into the village in broad daylight, no one would be able to find it inside.

Of course, the premise is that he is willing.

With a glance, he saw this hall, and then slowly nodded: "Yes, this is it."

This person is naturally Chen Feng.

It was just that his expression was a little embarrassed at this time, his shirt was a little torn, and there were several large and small wounds, which had not yet fully healed.

Chen Feng whispered to himself: "Since I entered the Southern Wilderness, I have walked hundreds of villages, and every village is like this!"

"Among the villages, the largest and most beautiful building is definitely the residence of witch doctors."

"And the witch doctor is the most knowledgeable person in this village. There is nothing wrong with asking them about the Taiyi Land Spirit Snow Lotus."

Chen Feng swaggered in and walked in.

In this hall, there is an old man sitting cross-legged. He is wearing a multicolored robe made of various bird feathers. There are also various messy decorations hanging on it.

For example, burnt skulls, teeth and toes of wild beasts.

He didn't know how long he hadn't taken a shower, his hair was in locks, his body was smelly, and his face was dark.

At this moment, he stared in front of him without blinking.

In front of him was a firepit, and there seemed to be some poisonous snakes burning in the firepit. These poisonous snakes were twisting and rolling, making a hissing sound in their mouths.

And waiting for the poisonous snake to be burned to half-rot and scorched black, the witch doctor grinned and revealed his pitch-black teeth.

To him, it seemed that the lump in his hand was extremely delicious food, and his greedy saliva flowed down.

He smiled, opened his big mouth, and stuffed the group of poisonous snakes that hadn't completely died into his own mouth, and then chewed it all over.

Blood splattered.

After a long time, he sighed long, his face was full of cozy and refreshing colors, as if he had eaten the supreme delicacy in the world!

At this time, a voice came from the side: "Is it delicious?"

"What?" The witch doctor almost jumped up in fright.

No, he must have jumped up, jumping three feet high, and then suddenly looking back, he saw a young man standing behind him at this time, looking at him with a smile on his face.

The witch doctor shouted in horror: "Who?"

#### [Chapter 2278: The clue of Taiyi Diling Xuelian!](#)

He strode back, and at the same time, his sleeves flicked forward.

Suddenly, a handful of colorful poisonous fog swept towards Chen Feng.

Chen Feng sighed, "Why do you witch doctors all have such a way?"

He didn't even move, only a muffled snort.

Suddenly, the colorful poisonous fog was directly shaken away, and the witch doctor retreated into the air. Before landing, he felt his body stiff and fell directly out of the air.

He looked at the young man with a look of extreme horror on his face.

He realized that there was a huge gap between the strength of himself and this young man, and he was definitely not his opponent.

Chen Feng walked over slowly and smiled and said, "Why didn't you sneak attack? Why didn't you run away?"

At this moment, the witch doctor was only able to move his mouth.

And he immediately heard that this young man was not using the language of the barbarian, but the words of the Yuan Dynasty from the northern side of the Tianyuan Dynasty.

The witch doctor is a special profession in the Southern Wilderness, and its status is respected. It is almost the most respected and highest status person in every tribe.

They blended multiple identities such as pharmacist, pharmacist, and warrior into one.

The level of witch doctors ranges from rank 9 to rank 1, and there is a huge gap in strength between rank 9 and rank 1 witch doctors.

This ninth-rank witch doctor was shocked, his face showed a sense of horror, and his pupils shrank sharply: "We have gone deep into the southern wilderness for 100,000 miles, why did you come here? I have never seen a member of the Tianyuan Dynasty. People come here!"

After entering the Southern Wilderness, Chen Feng's speed suddenly slowed down.

Because he came here not only to hurry, but also to look for the Taiyi Land Spirit Snow Lotus, so the speed could not be too fast, and Chen Feng did not dare to fly in the sky.

Because in that case, the goal is too obvious, and it is easy to attract the attention of the native monsters here.

The southern desolate monsters do not know where they are, and the powerful are endless, at least much more than in the Tongtian River.

Chen Feng had never looked down upon them, but even so, Chen Fengfeng had been spotted by a monster of the Demon Emperor level three days ago and chased him all day and night.

Chen Feng used infinite means to escape!

The witch doctor opened his mouth and said dry voice: "If you have anything you need me to do, I will definitely help."

Chen Feng smiled and said, "You are very smart."

The witch doctor forced a smile on his face, and said: "You want to kill me, kill me easily, why bother? I must want me to work for you."

Chen Feng said lightly: "You are right."

As he said, his hand shook, and a picture scroll appeared in his hand. On the picture scroll was a snow lotus in full bloom.

It is Taiyi Diling Xuelian.

He asked the witch doctor, "Do you know him?"

The witch doctor's pupils shrank, and he trembled: "Isn't this the snow lotus of Taiyi Land?"

"Oh? You know?" Chen Feng was overjoyed.

The witch doctor said: "Knowing is knowing, but I have never seen it before, let alone where it grew up."

Chen Feng said lightly: "I don't believe this."

As he said, there was already a sharp icy light in his eyes

Seeing the trace of murderous intent in Chen Fengfeng's eyes, the witch doctor was very flustered, and quickly argued loudly: "What I said is true, my lord, I really do not lie to you."

"My life is in your hands now, how dare I lie to you?"

He spoke very quickly: "The reason I have seen this is because we went to the White Elephant Tribe 30 years ago. The great witch doctor in the White Elephant Tribe is a very powerful first-grade witch doctor."  
."

"I was fortunate enough to have listened to a class under him. He once told us many exotic flowers and weeds in the Southern Wilderness, among which he focused on the Taiyi Land Spirit Snow Lotus."

"He said that this Taiyi Earth Spirit Snow Lotus is a strange treasure born from the aura of heaven and earth. It is extremely rare, and at the same time extremely precious, I only knew it."

"Oh, the great witch doctor of the White Elephant Tribe?" Chen Feng raised his brows.

"That's right, if you want to know the whereabouts of this Taiyi Land Spirit Snow Lotus, he should be the most likely to know."

The witch doctor said quickly.

Chen Feng was already a little excited at this time. He walked so many tribes in Nanhuang and asked so many people, this was the first useful clue he got.

He immediately asked: "Where is the White Elephant Tribe? How to get there?"

The witch doctor pointed to the southwestern Huangxiang and said: "From here, we have walked for 217,000 miles, where the White Elephant Tribe is located. We walked for two full years."

Chen Feng estimated that at this distance, he should be able to reach it in a few days if he hurried at full speed.

He nodded and stretched out his hand, and the witch doctor resumed his actions.

Chen Feng walked straight out.

The witch doctor finally couldn't bear the question in his heart and asked, "Aren't you afraid that I will confide in you?"

"What am I afraid of?"

Chen Feng smiled and said, "You choose the messenger who informs you, can you be faster than a strong man in the Martial King realm?"

With that, Chen Feng's figure flashed before disappearing.

The witch doctor stayed in place, patted his head, and cursed inwardly: "You are so stupid that you are too stupid!"

Three days later, Chen Feng stood on a high mountain, looking at the huge tribe that was burning below, and was silent.

Chen Feng at this time was even more embarrassed than he was three days ago.

Moreover, there was an extra huge wound on his body that almost ran through the entire upper body, which was a gift left to him by the Demon King with one star.

In the past three days, Chen Feng hurriedly hurried to the White Elephant Tribe.

But I didn't expect it. What appeared before him was such a scene.

This is a huge ruin with a radius of thousands of miles. It can be seen that there was originally an extremely huge tribe scattered in this wide mountain basin.

But at this time, this tribe is completely broken.

Chen Feng saw that there were corpses everywhere, broken walls everywhere, and traces of fire everywhere!

Chen Feng shook his head, his figure flashed and disappeared directly.

Such a huge tribe was conquered and destroyed by others, and Chen Feng did not believe that he could not find out the news.

And it did not disappoint him, but it was only half an hour later that Chen Feng got the specific situation among a group of shabby people hiding in the mountains nearby.

These people are the remnants of the White Elephant tribe. They fled into the mountains in a hurry.

After the Blackwater Black Snake Tribe captured the White Elephant Tribe, they had no time to digest the huge wealth of the White Elephant Tribe, so they had no intention of searching for these escaped people, and let them fend for themselves.

Chen Feng received all the news without much effort.

#### [Chapter 2279: trap](#)

After listening to it, his face showed a thoughtful look: "It turns out that the White Elephant Tribe has been destroyed by the Black Water Black Snake Tribe."

"And this is the last big tribe in the Southern Wilderness that was destroyed by the Black Water Profound Snake. So far, the Black Water Profound Snake Tribe has unified the entire Southern Wilderness."

Chen Feng didn't realize how this matter had anything to do with him, he just asked the whereabouts of the great witch doctor of the White Elephant tribe.

What comforted Chen Feng was that the great witch doctor of the White Elephant Tribe did not die, but was captured alive.

For these large tribes in the Southern Wilderness, every experienced and powerful witch doctor is a very valuable asset.

They don't have an alchemist, and many warriors want to improve their strength, rely on the strange but extremely effective prescriptions prepared by witch doctors.

When Chen Feng's figure disappeared, a moment later, the air on the spot suddenly fluctuated.

The next moment, a figure appeared out of thin air, with an old appearance and a trace of sadness on his face. It was Li Sifeng's grandfather, Li Binbai.

Li Binbai looked at Chen Feng's back, with a thoughtful expression: "So you little bastard, you came here to look for the Taiyi Land Spirit Snow Lotus!" *novelusb.com*

"Well, this time I have gained insights again. It turns out that the Taiyi Land Spirit Snow Lotus Certificate can decimate the snake venom of the white-bone snake!"

A weird look appeared on his face: "Now, I don't have to worry about deleting it. When you find Taiyi Di Ling Xuelian, I will kill you again."

"At that time, Taiyi Diling Xuelian will be mine!"

Not only was he going to kill him, but he also coveted Snow Lotus in the Taiyi Land.

Chen Feng finally arrived at the Black Snake Tribe.

At this time, another day was consumed.

This is a long valley outside the Heishui Profound Snake Tribe. A general of the Heishui Profound Snake Tribe is patrolling here with his guards.

Suddenly, he noticed a figure flashing by in the woods in front of him, paused for a moment, and then ran towards the depths of the woods, looking very hurriedly, and his behavior was very suspicious.

He immediately sneered: "It seems to be an escaped slave, and his strength should be pretty good."

This is not the first time. They have conquered so many tribes and captured so many slaves. Among them, there are always some strong men who are unwilling to be captured and plan to escape.

In the past few months, there have been four or five people caught by him himself.

And he obviously felt that this figure was an escaped slave. He laughed and said: "It's really good luck to be able to meet an escaped slave!"

"Yes!" Many soldiers behind him laughed.

According to the newly set rules of the Queen of the Black Snake Tribe, all slaves are property of the tribe and cannot be killed easily. If the slave is killed, the master will also be punished.

However, the escaped slaves are not protected.

This general was extremely cruel and bloodthirsty, and used to take pleasure in killing slaves.

After the new queen gave this order, he had no fun and was very irritable all day long, but he did not dare to violate the rules, and now he found an escaped slave, he was naturally very excited.

Immediately under his body, the two-winged and iron-clad flying tiger chased forward quickly, but the speed of this figure was really fast enough, he chased for more than an hour and did not catch up.

Not only did this not discourage him, it made him even more excited, because in his opinion, it meant that this person was not weak.

So, he chased forward more excitedly.

Before he knew it, the people around him were already far behind him.

The two-winged iron-clad flying tiger shuttled among the mountains and forests, chasing the cyan figure not far away.

Suddenly, he felt that something was wrong, because no matter how he chased, no matter how fast he moved, the distance between that cyan figure and him was almost the same.

He was slow several times in the middle, and the cyan figure also slowed down, as if waiting for him specially.

And just as doubts arose in his heart, suddenly, the figure in front stopped, then turned around and walked slowly towards him.

Smiled and said, "Just now, you chased me very enjoyable? Now, is it my turn?"

The general saw the true face of this figure clearly at this time, and he was a young man in his twenties.

He immediately relieved his mind, how strong can such a young person be?

But in the next moment, he deeply regretted the thought he had just now.

Because the young man's figure flashed, he came directly to him and shot out with a punch.

This general didn't even have the power to fight back, so he was beaten up and flew out.

Only then did he know how ridiculous he was just now, and only then did he know how terrifying it was that this young man turned out to be. In fact, he was not his opponent at all, and he had no power to fight back in front of him!

At this time, the young man walked over with a smile, looked at him and said lightly: "I have a few questions, I want to ask you."

The general gritted his teeth and shouted, "I won't tell you anything!"

Then, he saw that the young man was not angry, he just smiled and said, "Don't say anything so absolute."

The general soon knew what the young man meant by this sentence. He soon regretted what he said, and he really said it too absolute!

Under Chen Feng's method, he quickly explained all the questions Chen Feng asked.

Even Chen Feng didn't even ask him to explain carefully.

Chen Feng smiled and left here. Behind him, the general of the Black Water Black Snake Tribe had turned into a corpse.

In Chen Feng's hand, there was an extra topographic map of the Black Water Profound Snake Tribe, which marked everything clearly.

Among them, naturally there is also the residence of the great witch doctor.

At this moment, Chen Feng frowned. What he was worried about now was not whether he could find the residence of the great witch doctor.

Because the Heishui Profound Snake Tribe is now rapidly expanding, from tens of millions of people to hundreds of millions of people, the tribe is very chaotic, and it is easy to get in.

What he worries about is how to do this without disturbing others.

Because according to the news he received, a powerful person like the Great Witch Doctor had reached the peak of a one-star martial emperor.

If he doesn't cooperate, it will not be difficult for Chen Feng to kill him, but it is extremely difficult to ask what.

Chen Feng shook his head and expelled the thought from his mind. He has run out of time, thinking that some of these are useless, and everything must be done first before talking.

That night, the moon and the black wind were high, and Chen Feng quietly sneaked into the Blackwater Black Snake Tribe.

In the Black Water Profound Snake Tribe, most of the people are quite average, and it is simply impossible for Chen Feng to avoid their detection.

#### [Chapter 2280: Conditions of the Great Witch Doctor](#)

It's just that the Black Water Profound Snake Department is too large, even if Chen Feng is moving forward very fast, it took nearly four hours.

When the morning light was about to rise the next day, I came to the side of the towering tribal holy mountain!

Many continuous palaces have been built on the holy hill of the tribe, which are the residences of the queen and the elders.

And beside the sacred mountain, not far away is a luxurious mansion, these mansions are for those tribes who occupy high positions, as well as other tribes who surrendered.

Among them, the great witch doctor of the White Elephant tribe lived in it. He returned to the Black Water Profound Snake, and the Black Water Profound Snake Tribe also valued him quite a bit, and naturally would not treat him badly.

He was even allowed to erect a white elephant statue in front of the house to cherish memory.

Following this white elephant statue, Chen Feng easily found this huge house.

Chen Feng quickly sneaked in.

In the center is a three-story pavilion. Around the pavilion, powerful warriors of the Blackwater Black Snake Tribe with various weapons are constantly parading here.

However, they obviously couldn't find Chen Feng.

Chen Feng flashed around and went directly to the three-story roof tiles of this pavilion and lay quietly there.

This is naturally the residence of the great witch doctor of the White Elephant tribe, and at this moment, Chen Feng suddenly heard an old and tired voice ringing in his ears:

"The distinguished guest on the roof, come down and see you!"

Chen Feng was suddenly shocked, but when he glanced at the Black Water Profound Snake Tribe warriors in the courtyard, his heart moved.

Because those people have not changed the slightest body, let alone any alertness, obviously they not only did not find themselves, but also did not hear the sentence just now.

Chen Feng immediately moved in his heart, as if thinking of something.

He knew that the words only sounded in his ears.

As soon as Chen Feng's figure sank, an upside down golden hook quietly turned in from the window on the third floor without disturbing anyone.

And the third floor is a big space.

Chen Feng stepped in from the window and saw that in the middle of the third floor, an old man was sitting cross-legged.

This old man has no idea how old he is, and the wrinkles on his face are wrinkled, as if it could be like that dry bark.

His hair, beard and eyebrows were all gray, and his clothes were no different from other witch doctors in the South Wilderness, but Chen Feng still keenly felt a terrifying breath.

The feather clothes on other witch doctors, although colorful, were made of ordinary bird feathers.

And the feather robe he wore was extremely red, radiant, shining with extremely bright light, and even had a terrifying aura in it, very broad and powerful.

Chen Feng was shocked immediately: "This feather is definitely collected from the body of a strong Demon Emperor, and it may be more than that, and it may even surpass the Demon Emperor."

Although the old man was old, his gaze fixed on Chen Fengfeng, but he was still extremely sharp, full of wisdom!

He looked at Chen Fengfeng, a smile suddenly appeared on his face, slowly speaking, his eyes full of wisdom: "Why are you here? Well, let me guess."

As he said, he took a deep breath, sniffed, and then whispered: "Your body smells like a dead snake."

"However, it is not you who are poisoned. Based on the concentration of venom on your body, I can judge that you touched a person with a deadly snake and snake venom in him about forty days ago!"

He smiled slightly, and his gaze revealed a clear gesture: "Then, the purpose of your coming is ready to come out. It must be for people to seek medicine, looking for the snow lotus of the Taiyi land, and I found me around the corner!"

When Chen Feng heard this, he couldn't help but breathe a sigh of relief: "This old man is too terrifying, he actually guessed all this clearly!"

Moreover, even the date is not bad!

In front of such a wise and knowledgeable old man, Chen Feng has given up on his scheming, not to mention that he has always been a direct person.

Without any twists and turns, he nodded directly, and said frankly: "Yes, I am here for the Taiyi Land Spirit Snow Lotus."

"Okay, simply neat."

The great witch doctor smiled and said: "If you just quibbled, or evasive, and refused to explain directly, then you would have lost this opportunity."

Chen Feng looked at him and said, "I know your cultivation level, and I also know that although I can control you, it is almost impossible without anyone noticing it."

"So, the two of us need to cooperate and exchange interests."

"You tell me what price I have to pay before you can tell me the whereabouts of Taiyi Diling Xuelian!"

"It's refreshing, it's refreshing. Now there are not many people who are as refreshing and direct as you, while seeing things clearly and sharply."

When Chen Feng came in just now, he had waved his hand to prevent the conversation between the two from being heard by outsiders.

Therefore, although the two of them were talking here normally, there was no movement outside.

At this time, he waved his hand again, and planted an enchantment again, and the sound insulation effect was better.

He smiled proudly: "Why tell you the location of Snow Lotus in Taiyi Land?"

Chen Feng was stunned, and the next moment, what the great witch doctor said made him ecstatic: "I have a snow lotus of Taiyi Land here, and it is still 100,000 years old."

"After you go out, even if you look for another hundred years in the Southern Wilderness, you won't be able to find a Taiyi Di Ling Xuelian with such a year and such a medicinal effect!"

Chen Feng was extremely pleasantly surprised. His excited heart was pounding, his blood was boiling, his eyes were flushed, and his nose became thick and heavier. He shouted in surprise, "Is this true?"

The great witch doctor smiled and said, "What did I lie to you for?"

Chen Feng immediately realized that it was definitely not so easy in vain.

So he said in a deep voice: "Great Witch Doctor, I won't be oblivious to you anymore, the most beautiful Snow Lotus, I am determined to win, so I will consider any conditions you propose."

"But if I can't, I won't agree."

He took a deep breath: "In that case, I will only take a shot!"

The great witch doctor smiled and said, "I have high hopes for you, how can I force you to go that way?"

Suddenly he leaned forward and said word by word: "My request of you is very simple, that is..."

A light flashed in his eyes: "Save my saint of the White Elephant tribe!"

"The saint of the White Elephant Tribe?" Chen Feng raised his brows slightly and his eyes became very deep: "What is it then?"
