

Peerless 241

[Chapter 241: track](#)

At this time, Qian Yitong was already sweating on his forehead, and the young master of the Bai family was also shaking with nervousness.

One hundred thousand middle-grade spirit stones, even for these two big forces, is an incredible amount of money.

When the young master of the Bai family raised the price to 110,000 middle-grade spirit stones again, Qian Tong finally gave up. He glanced at each other very bitterly, and said sharply: "Okay, two Broken Pills, take them! The little master won't fight with you anymore."

With that, the person with Skeleton Valley turned and left.

Chen Feng looked at the triumphant Bai Family Young Master, but shook his head slightly.

He also felt something was wrong just now, and now he wants to understand it.

This auction is actually a trap with sinister intentions. Needless to say, these two Broken Mirror Pills must have been bought by the City Lord's Mansion. And the City Lord's Mansion should also know that the two forces of Skull Valley and Bai Family are determined to win these two Boundary Pills. If these two Pills can be bought alone, maybe the two powers competing for him will get one and each will get what they want, and they will all be satisfied, so they won't fight.

Therefore, the City Lord's Mansion made a special request that two Boundary Pills cannot be bought alone, which means that two Boundary Pills will be taken away by the same force. Of course, the other force that didn't get the broken mirror pill would not let it go, so there must be a fierce battle.

Chen Feng secretly said: "This City Lord's Mansion is really a vicious calculation."

But he is still an upright conspiracy, so you can't help but be fooled.

Even if Skeleton Valley and Bai Jiaming knew this was a trap, they could only jump inside, they had no choice.

The auction officially ended, everyone left one after another, and Chen Feng also saw Xie Dongshan.

Xie Dongshan said: "Brother Chen, I'm really sorry, this time your things are not auctioned, I am in charge."

"To be honest, this time everyone's eyes were attracted by the two Po Boundary Pills. Even if they were sold, they could not be sold at a good price. The quality of your things was extremely high. It would be a shame if that were the case. So I Decided to postpone it to the next time."

Chen Feng nodded, and said, "It's okay."

Chen Feng still had his thoughts in his heart, and he didn't say much to Xie Dongshan. He just dropped a sentence and talked back, and then hurriedly left the auction house.

After leaving the auction room, Chen Feng quickly discovered the whereabouts of the skeletons and the group of people. After all, they were wearing scarlet robes and skull masks, which were very eye-catching.

Chen Feng followed them from a distance and found that the people in Skull Valley were heading north of the city.

They are fast, riding horses with the blood of monsters, but Chen Feng has already achieved a small amount of melancholy cultivation, and it is not difficult to keep up with them.

An hour later, Chen Feng followed them and left Long River City.

After leaving the city and coming to the wilderness, they immediately increased their speed and rushed forward. Chen Feng ran a vicious pace with all his strength. The speed was extremely fast, like a galloping horse, but they could barely keep up.

However, Chen Feng knew very well that it would consume a lot of time to operate in such a way, and he could only support one hour at most.

At this time, Chen Feng suddenly discovered that there seemed to be a group of people on his left rear. The number was about 20 or 30. It was not clear from the clothes and clothes which force they belonged to, but each of them was very well equipped and imposing. Tough.

Chen Feng was cold in his heart. He didn't expect that it was not just himself who wanted the oriole to be behind, but there was actually a force following Skeleton Valley.

He suddenly became vigilant in his heart, more careful, trying to hide his whereabouts, and try not to let them discover himself.

Fortunately, that centaur put all their attention on Skull Valley, so they didn't notice Chen Feng.

At this time, Chen Feng also discovered that the people in Skull Valley were obviously tracking someone.

A smile appeared at the corner of Chen Feng's mouth: "Sure enough, I guess the people of the Bai family are in trouble. Skull Valley has always been tyrannical. This time, the people of the Bai family abruptly snatched Po Jing Dan from the mouth. How can I endure this anger? I must have followed them as soon as they left the auction room. I guess they were right in the wild to intercept them!"

At this time, the front was dusty, and Chen Feng could already see the whereabouts of the Bai family.

There was a big river in front of it, and there were no bridges on it. The people of the Bai family came to the river to take a look. The young master of the Bai family was shocked and angry. He shouted: "I obviously put a dozen boats here. And the ship that keeps people guarded? What about the people?"

They cannot cross the river without a boat.

At this time, the people of Skeleton Valley had already approached.

Young Master Qian of Skull Valley shouted arrogantly: "Bai Hongxuan, run! Why didn't you run? Haha, I'm still waiting to chase!"

Bai Hongxuan turned around, squinted, and a cold light flashed in his eyes. He stared at Qian Tong and said in a cold voice, "The surname Qian, you did this, didn't you?"

Qian Yitong was about to say that he had been wronged, but they never knew that the Bai family had left behind by the river and the boat.

He wanted to say that he didn't do it by himself, but suddenly he changed his mind and felt that saying so did not weaken his momentum.

[Chapter 242: Sneak attack!](#)

Immediately sneered: "Yes, I did it, how are you doing?"

Bai Hongxuan took a deep breath and suppressed his anger: "For those of you surname Qian, your Skeleton Valley and our Bai family have always been well watered and not offending rivers. What do you want after chasing us today?"

Qian Yitong said in a cold voice, "Don't you know what I want? Hand in the Po Boundary Pill, otherwise your Bai family will die here today!"

Bai Hongxuan shook his head and said firmly: "No, my little girl is already at the Nine Peaks of the day after tomorrow, and has been trapped for three full years, so the broken realm pill must be used for her."

"What about another one?" Qian asked together.

Bai Hongxuan said: "There is one more, just in case you need it."

"Then you just don't give it?" Qian sneered together and shouted loudly: "What is that nonsense? Kill, follow me! Kill all the Bai family!"

"Kill!" The people in Skeleton Valley shouted in unison, waved their weapons and surged up, surrounding the people of the Bai family, preparing to kill them all.

At this time, from the group of people in the skeleton bones, a very agile figure suddenly swept out and rushed towards the Bai family.

His weapon was a sharp axe, with extremely powerful aura and strength, extremely vigorous, and instantly cut the five masters of the Bai family into two!

For a time, no one can stop!

Chen Feng, who was hiding in a dense forest, was secretly shocked when he saw this scene. This big man with an axe should be no less powerful than Zhang De.

"Boss Qian, haven't changed for so many years, are you still so mean?"

An old voice rang out from the Bai family's team, a white figure threw out, and his hands shot out, the extremely powerful palm power turned into a strong wind, blocking the big man with the axe.

Bai Hongxuan exclaimed: "It's really mean, the master of Skeleton Valley, disguised as hiding among ordinary masters, carrying out sneak attacks, shameless!"

It turned out that this man with an axe turned out to be Qian Dachuan, the master of Skull Valley.

Qian Dachuan hid among the group of ordinary masters in Skull Valley, and carried out a sneak attack. Sure enough, he received a miraculous effect. He met and killed the five masters of the Bai family. Originally, the strength of Skeleton Valley and Bai Family were basically the same, so Skull Valley would have an advantage.

Qian Dachuan laughed and said, "You dare to call me mean? Your Bai family can't be far from the light. You have a dignified consecration and hide your head and show your tail. Do you dare to say that it was not for sneak attack? It's just that I was one step ahead!"

The old voice roared: "Don't talk nonsense!"

The two had already fought together in an instant.

One is the Valley Master of Skeleton Valley, the master of the family, and the other is the Supreme Envoy of the Bai Family. His strength has surpassed the Bai Family Patriarch, and he is the number one master of the Bai Family. The two are half a catty, no one can do anything about it?

The young master Qian of Skull Valley shouted arrogantly: "Kill, kill me, kill all the Bai family."

Except for these two masters, the other people fought into a group, and they were incomparable for a while, blood and blood flowed, people were constantly being killed, and screams of screams came and went one after another.

However, five people from the Bai family were killed just now, and the people from Skeleton Valley had the upper hand.

If this continues, the Bai family must be the one who is unlucky in the end. The Bai family's supreme worshiper couldn't see how it could be done, so he roared and used a trick to temporarily retreat Qian Dachuan, then his palms came out again, beating a few people from Skull Valley torso, his mouth was high. The voice shouted: "Young Master, you take Po Jingdan and leave quickly."

Bai Hongxuan shouted: "Grandpa Sun, what do you do then?"

The Taishang Enshrine sternly shouted: "Don't worry about my old bones, hurry away! The Bai family has a great favor to me. Even if I send my life here today, I don't regret it. I will treat it as repaying the kindness of the Bai family!"

"Go! Go!"

Bai Hongxuan stomped his feet heavily and turned around to leave.

"Want to go? How could it be that easy?" Qian Dachuan laughed wildly, and suddenly shouted at the back of a hill: "Friends who follow, don't hide, take action now, otherwise, there will be no chance to take action. Up!"

His voice fell, and more than twenty people came out behind the hills.

These people all wore large burqas outside, and at this time they tore the burqa apart, revealing the black leather armor inside, and everyone dressed the same.

Chen Feng looked at him and felt stunned. These people turned out to be the main guard of the Great River City.

The young man standing in front of the city's main guard was the Young Master Xue Shan of Long River City, and Chen Feng had even met him.

At this time, Xue Shan deliberately let go of his aura, and Chen Feng felt very clear that his aura was completely different from when he met more than half a month ago. At that time, it was still the pinnacle of the Nine Layers of the day after tomorrow, but now it has broken through the Divine Gate Realm. Obviously, one of the three Boundary Breaking Pills made by the Alchemist Master Ge Dan had already been eaten by him, and his strength successfully broke through to the first building of the Divine Sect Realm.

Xue Shan, the young master of Great River City, was extremely arrogant and laughed wildly:

[Chapter 243: Siskin behind](#)

"Hahaha, my calculations are really right, you are really fooled! This time Master Gedan has practiced three Pojing Pills. After I took one, those two were put out for auction, and I told the Xie family to auction it. In the field, if you want to buy, you can only buy two tablets together, you can't buy them separately. The purpose is to draw out your two forces, so that you can fight desperately to consume each other, hahahaha!"

His face was full of arrogance and arrogance: "I'm so smart, you trash, all of you have fallen into my trap."

The people of the Bai family and the Skeleton Valley were trembling with anger. At this time, Qian Dachuan showed the temperament that a hero should have, and said lightly: "Yes, we are in the trap, we are in a trap. . But, now we are a cooperative relationship, I know that you hate the Bai family more than our Skull Valley. Especially for Bai Hongxuan, you really hate it! So you definitely want to keep him, right? Do it now, don't talk about nonsense!"

Xue Shan made him speak with a gloomy face, and felt greatly lost face, but he also knew that Qian Dachuan was telling the truth.

He snorted coldly, pointed at the desperate young master of the Bai family and others, and shouted: "Go, kill them all!"

"Yes."

The twenty-odd Great River City Guards around him chased quickly, and soon after hundreds of meters away, they intercepted Bai Hongxuan and a few others and smashed into a group.

There are several small hills separated from the battle group of Qian Dachuan and the Bai family.

A smug grin appeared on Xue Shan's face. Indeed, he hated the Bai family more than Skull Valley, especially Bai Hongxuan. The last time the two people competed at the auction site, this hatred was intensified.

This time, he brought someone from behind, but he didn't get his father's consent. He sneaked out to kill Bai Hongxuan, the young master of the Bai family. He doesn't care that the broken world pill falls into the hands of Skeleton Valley, he only wants the life of the enemy!

It's just that things didn't progress as smoothly as the Young Master of Long River City thought. Although there were a lot of people on their side, his guards were all masters of the Houtian Jiuzhong. The young master of the Bai family is the pinnacle master of the first building in the gods. With him, the Bai family supported it for a long time.

After almost a cup of tea time, the other masters of the Bai family were all killed, and Bai Hongxuan fell into the siege.

Soon, his body was dripping with blood and he was seriously injured.

Xue Shan, the young master of Great River City, slashed out, grinning and said: "Die, take my life!"

At this moment, the young master of Skull Valley, together with Qian, came with a few people, and shouted: "Xue Shan, father asked me to help you."

Although he shouted so, he rushed directly at the young master of the Bai family, and instead broke the encirclement.

Bai Hongxuan looked at the opportunity, and threw the box with Pojing Pill in his hand at the money, shouting loudly: "I will give you Pojing Pill, I don't want it."

Then, he immediately escaped from the gap in the enclosure.

Xue Shan glared at Qian fiercely, and yelled: "Success is not enough to fail."

Then immediately took people to chase Bai Hongxuan.

Qian Tong's goal has been achieved. He has already obtained Po Jing Dan, and laughed happily: "Bao Jing Dan, finally fell into my hands. Haha, you idiots, Bai family, spent so much middle-grade for nothing. Lingshi, uncle, I didn't spend anything. Didn't I get a broken mirror pill in the end?"

It was at this moment that Chen Feng, who was hiding next to him, flashed a sharp light in his eyes, leaped out of the sky, the Thunder Ba knife was launched, and the violent thunder cut out, nine knives in succession, all smashed into Qian together.

Qian Yitong was only the peak of the Nine Layers of the acquired day, and couldn't hide it. He was directly chopped into pieces by the nine knives.

The box in his hand flew up, Chen Feng caught it in his arms, then turned and fled.

He knew that neither the Bai family's consecration nor Qian Dachuan, the master of the Valley of Skulls, could provoke him. If they rushed over, the consequences would be disastrous. So he grabbed Po Jing Dan and fled immediately.

All of this happened between the electric light and flint. When Chen Feng was gone, several guards with Qian and Qian reacted and hurriedly chased after him, but how could he catch up?

After a while, Qian Dachuan, who was covered in blood, came here and saw his son's miserable condition. His eyes were flushed, and his face was sullen and shouted: "If I find out who did it, you must be broken into pieces. Kill the whole family!"

After Chen Feng escaped, he immediately found a secret place, then took off his human skin mask and replaced it with a new one. He changed his outfit all over again, and even the weapon used as a cover changed from a long sword to a long spear. The whole person straightened his waist again, and his spirit and temperament were completely similar to the first person he disguised. It's different.

[Chapter 244: Have fallen](#)

When Chen Feng did this, he wouldn't believe it, and he would really be recognized.

After Chen Feng killed Qian Tong just now, in addition to getting two Broken Mirror Pills, he also touched a mustard bag from Qian Tong.

However, he did not open it at this time, and waited until he returned to a safe place.

Chen Feng returned to Qian Yuanzong and recruited Xu Lao immediately.

Xu Lao seemed to have just returned, and his expression was a little tired, but he was filled with unbearable joy.

Chen Feng looked at it and asked in surprise, "Old Xu, has the pill matter gone?"

Old Xu laughed: "That old guy still has such a weird temper. I went to find him to make alchemy, but he insisted on forcing me to fight him. We fought for a day and two nights, regardless of the outcome. , He still had to agree to help me refine this pill."

Xu Laozhong patted Chen Feng on the shoulder again, and laughed: "You are a good kid, and you are lucky. That old man has not been in the sect for more than half a year. In the small half of the sect, the big I was in a bad mood part of the time. If I asked him to do alchemy when he was in a bad mood, he would never agree."

Chen Feng smiled and said: "Old Xu still has a lot of face. If I ask for it, he won't agree even if he is in a good mood."

"You kid can talk." Old Xu nodded Chen Feng and smiled.

Xu Lao continued: "This kind of pill is mainly because the materials are difficult to match. In fact, it is not very difficult to refine. It should be fine in half a month."

He paused and then said: "This time Han Yu'er can be said to be a blessing in disguise, because after swallowing this pill, not only can she completely treat her injuries, but it can even make her stronger."

Chen Feng was even more pleasantly surprised and thanked him again and again.

Old Xu waved his hand and said, "You kid don't need to be so polite to me."

He suddenly narrowed his eyes to look at Chen Feng and asked, "Chen Feng, have you provoke a terrible person recently?"

Chen Feng immediately asked astutely, "Old Xu, what's the matter? Did you hear any news?"

Old Xu said indifferently: "I haven't heard much of the news, but I know that recently someone seems to be inquiring about your whereabouts."

Chen Feng smiled and said, "It provokes one or two people."

Then he said all the things that happened in the Black Rock Mountains.

After listening, Mr. Xu clapped his hands and laughed. He laughed and said, "You kid did a good job of doing these things with such a low level of strength. It's not bad, it's quite good. This method, this scheming, is a bit of me. The style of the year."

Chen Feng looked at the arrogant Xu Lao, and couldn't help being speechless for a while, but he felt that the relationship between the two people suddenly became much closer.

I feel that the original Xu Lao was aloof, but now Xu Lao is more real and a living person.

Old Xu asked, "What do you plan to do if you offend them? Do you want me to take action?"

Chen Feng said: "No, if anything troubles you, how can I get exercise? I don't need you to take care of this matter, I can handle it by myself, don't worry."

"Okay." Old Xu nodded and looked at him, with a hint of approval in his eyes: "The big man should take a little responsibility. Okay, I'll just sit back and watch this matter."

Chen Feng stayed with Han Yu'er for about half an hour, held her in his arms, said something softly, and then left.

On the way back, the Ying Ziyue Knife in Chen Feng's hand suddenly said softly: "Chen Feng, you are so kind to your senior sister. The words just said are so gentle and sweet, and I feel warm after hearing them."

Chen Feng listened and squeezed the handle of the knife, hehe smiled: "Little yellow girl, what kind of love between men and women understand?"

Ying Ziyue snorted softly: "It sounds like you are how much older than me."

In the evening, Chen Feng ventured out to hunt and kill a few monsters, absorb their essence, and then immediately returned to the sect. He now dare not stay outside for a long time, lest he be found by his enemies.

Back to the sect. Chen Feng went directly to his dormitory. He hasn't returned to live in the dormitory for a long time.

Opening the door, Chen Feng saw that the South and West Wing rooms were all lit, but the East Wing was dark, while the lights of the North Wing where he lived in the main room came out through the windows.

Seeing this scene, Chen Feng's eyes immediately narrowed slightly, and there was a hint of coldness in his eyes.

It seems that someone is occupying his room. Although he didn't put any valuables in it, he would never tolerate blasphemy in his territory.

Chen Feng pushed open the door to enter, and saw the lights flickering in the north room, and a person was sitting cross-legged on the ground practicing.

It is Linanxing.

On the first day of staying in the dormitory, Li Nanxing provoked Chen Feng and was injured by Chen Feng. Then two other teenagers took the opportunity to beat him up and threw him into the worst south room. However, after Li Nanxing recovered from the injury, he cleaned up each of the two severely, vomiting blood directly, and occupied a wing again.

[Chapter 245: Get out of me!](#)

Linanxing saw Chen Feng opening the door and was immediately shocked. He quickly stood up and panicked: "Chen, Brother Chen, why are you back?"

Chen Feng sneered and said: "If I don't come back, I still don't know that my training room has already been occupied by you."

Chen Feng said lightly: "Get out."

After Linan Xing finished listening, his face immediately flushed, and he felt that he was greatly humiliated. But he didn't want to think that he had occupied Chen Feng's training room first.

Then Li Nanxing seemed to think of something. Suddenly the panic on his face disappeared. He was confident and shouted at Chen Feng: "Chen Feng, you trash, don't think I don't know your details. It will not be long before you are strong. No matter how much progress is made, I will always stay at this stage, and I will rise all the way. Sing forward and become a disciple of the inner sect at least in the top fifty! Do you still dare to be arrogant in front of me? Believe it or not, I will meet and humiliate you in the future once?"

"Really?" Chen Feng glanced at him with a smile, no nonsense, and straight forward, the index finger of his right hand turned into a hazy golden color, and he touched several acupuncture points on Li Nanxing's body.

He moved extremely fast, and his golden and jade fingers were so powerful that Li Nanxing didn't react at all and was already hit.

Several blood holes appeared in his body, blood swelling out, and he even felt that his qi was rapidly losing.

There was great fear in his heart, and he cried out in shock: "Chen Feng, you trash, what did you do to me?"

Chen Feng said lightly: "I didn't do anything to you. Since you refused to roll by yourself, I had to personally let you roll. But if I did it, it can't be done in vain. There is a certain reward. I just abolished your title. The four acupoints that have been opened in Yizhonglou. And your Foot Jueyin Liver Meridian will be abolished. If you want to practice, you can go back to Houtian Jiuzhong and start from the beginning!"

It turned out that just now, Chen Feng directly used the golden and jade fingers to break the acupuncture points that Linan Xing had opened, and crushed all the cyclones inside.

This trick was ruthless enough. Not only was the cyclone shattered, but the acupoint was also extremely severely traumatized. When Li Nanxing re-cultivation in the future, even if he could open the acupuncture, it would be difficult to repair it.

It can even be said that he may never be able to return to the Divine Gate Realm, and he will directly become a useless person.

The doors of the West Wing and the South Wing were opened, and the other two people in the same dormitory with Chen Feng watched this scene and were silent.

Not long after, there was a scream from the yard, and when I saw Chen Feng, I saw that the man who originally lived in the South Room threw Li Nanxing into the South Room and then occupied the East Room.

Taking advantage of his illness, killing him, the weak and the prey, and all kinds of methods, Nei Zong is so cruel.

For the next three days, Chen Feng had been cultivating in the dormitory. He would dress up for a period of time every day and go out to hunt monsters.

And this time is not fixed, and his changing status is also not fixed. Today may be a twenty-year-old youth, and tomorrow may be a forty-year-old middle-aged. Anyway, all the disciples and elders of the Nei Sect, plus the people who do business inside, etc., add up to at least thousands of people, and no one is possible. Recognize him easily.

Therefore, Chen Feng was still surprised and never encountered Ran Yuxue and Zhang De.

After absorbing the blood of the monster beast, Chen Feng refined the blood.

And he would go to Xu Lao for a period of time every day. He knew that the pill must not be practiced. The purpose of where he went was very simple, that is, to accompany Han Yuer, and then talk to Xu Lao.

Xu Lao guards the Wuji Pavilion by himself, but he is actually very lonely. Chen Feng is also very happy when he has gone. Old people like him, no matter how high their cultivation level, always like young people to talk and chat with themselves.

One early morning three days later, Chen Feng slowly opened his eyes and let out a suffocating breath.

At this time, his Dragon Elephant Fighting Tian Jue, the nine cyclones of Nei Zong in the ninth orifice point of the Foot Jueyin Liver Channel had all condensed.

If it is someone else, you can now attack the Foot Jueyin Liver Meridian, and the main meridian along with the nine orifice points should have been opened up, and then attack the Tianyan orifice.

But Chen Feng couldn't do it. Chen Feng had to break through another 21 orifice points.

Chen Feng smiled bitterly and murmured to himself: "It's not going to work like this. The Dragon Elephant Fighting Heaven Art is powerful, but it comes with a powerful price. If I can break through 30

acupuncture points in the first building, others only If I can break through the nine acupuncture points in the first building, then my total qi will be three times that of them, and my qi quality will be several times that of them, and my combat effectiveness will far exceed them."

"But for the same reason, I have to break through 30 holes in the first building. Maybe when I reach the end of the first building, people with exceptional talents like Shen Yanbing and Yang Jingtian have already stepped into the third building. They have too many advantages in the realm!"

Chen Feng stood up, a sharp light flashed in his eyes.

[Chapter 246: I must be number one!](#)

"Whether it is cultivation base or realm, I can't fall, my strength is stronger than you, and at the same time, my realm cannot be lower than you!"

"It's time to practice Hun Yuan Yi Qigong!" He whispered softly.

Hunyuan Yi Qigong, like the Longxiang Zhantian Jue, has a level of twelve floors, and requires twelve meridians to be opened up, but this exercise does not need to be the same as the Longxiang Zhantian Jue. Ten acupoints, but like other exercises, only one hundred and eight acupoints need to be opened.

There are nine orifice points on each meridian.

Chen Feng took a deep breath, ready to start practicing Hunyuan Yi Qigong now.

Hunyuan Yi Qigong is the most powerful, the highest level, and the most difficult to cultivate among all the exercises of Qianyuanzong's inner sect.

This kind of exercise requires extremely high physical strength.

The characteristics of the exercises are different, and the biggest characteristic of Hunyuan Yi Qigong is: cohesion.

Gang Qi is condensed into a cone, like an iron cone, extremely sharp, condensing all the power to one point, directly breaking the defense in front of it.

The ability to break through defenses, Qian Yuanzong first!

The same strength, condensed into a cone, and condensed into a hammer, its armor piercing ability may be more than ten times different!

Hunyuan Yi Qigong can condense and utilize Gang Qi to the greatest extent, and it will never be wasted.

However, there are also flaws.

Gang qi is like a knife, a needle, or a sharp arrow. It is extremely sharp and invincible, but it destroys the enemy while also destroying itself, causing great damage to the meridians and acupuncture points. When the Gang Qi condenses and circulates in the meridians and acupuncture points, it is like being cut by a sharp blade, and it hurts to several points.

If the physical strength is not strong enough, it can't hold it at all.

Whether in the process of opening the orifice points, condensing the cyclone, or in the later process of opening the meridians, the meridians will be greatly hurt.

Chen Feng pondered for a moment, and secretly said in his heart: "I have had a dragon blood forging body, and the first weight of the golden body is already small. The flesh is strong and the meridians are also very strong. It should be able to bear it."

The first thing Chen Feng wanted to open was the Zu Jueyin Liver Meridian.

The source of Gang Qi for practicing Hunyuan Yi Qigong can't be the essence of monsters. It needs to absorb the spiritual energy of heaven and earth just like other exercises.

But Chen Feng would naturally not use such a dumb method.

He sat cross-legged, with a thick pile of medium-grade spirit stones piled in front of him, with hundreds of pieces. Chen Feng pressed his hands on the spirit stones, then closed his eyes and focused, and began to operate the Hunyuan Yi Qigong mental method.

The Lingshi in front of him suddenly disappeared, and then instantly appeared in Chen Feng's Dantian.

Then the spirit stone was absorbed into the ancient ding, and the ancient ding immediately spun. A large amount of the spirit stone was crushed and turned into a huge amount of spiritual energy, which gushed out of the ancient ding, surged in the dantian, and then was Chen Feng guided and entered the first orifice point of Chen Feng's foot Jueyin Liver Channel.

Da Dunqiao Point.

The spiritual energy poured in, began to rotate slowly in the Dadunqiao point, and slowly condensed.

About a quarter of an hour later, the embryonic form of a cyclone appeared in the Dadunqiao point.

This cyclone is roughly the same shape as the nine blood-red cyclones next to it, but when you look closely, there is a huge difference in the specific appearance.

The blood-red cyclone slowly turned, like a Milky Way falling into it, as if there was a big world hidden inside, little by little. And countless stars form two patterns, a dragon and an idol!

Incomparable, it represents the Dragon Elephant Fighting Heaven Jue.

And the cyclone formed by Hun Yuan Yi Qigong is like a ball of steel needles frozen in ice, pierced everywhere, like an iron hedgehog, the countless needles feel very hideous.

The cyclone slowly formed and circulated in the acupoints, and Chen Feng suddenly felt a pain like a needle stick.

Due to the unspeakable pain, Chen Feng's body instinctively twitched slightly, but he then controlled it.

Although this pain is severe, it is actually much worse than the pain during the practice of 'Golden Body Jue'.

For Chen Feng, it was just drizzle.

It can be easily carried down.

The violent sting continued, but Chen Feng didn't seem to feel it. He continuously absorbed the middle-grade spirit stones, transformed them into spiritual energy, and then into gang energy.

In the Dadunqiao Point, the Gang Qi continuously condenses into needle-like cyclones.

Soon, nine snow-white cyclones have formed.

And Chen Feng's Dadunqiao acupoint was also like a thousand needles.

The pain is extremely painful.

He looked pale, but despite this, he managed to hold on.

At this time, the middle-grade spirit stone in front of Chen Feng was already less than half.

He has consumed at least five thousand middle-grade spirit stones.

Not to mention five thousand yuan, for the martial artist of the gods, more than one hundred middle-grade spirit stones is a huge sum of money.

The warriors are also not rich, most of the warriors are relatively poor. These spirit stones need to buy weapons, pill medicine, exercises, etc...How can they be used so wantonly as Chen Feng.

Therefore, they can only honestly absorb the aura of heaven and earth to increase their strength, and the speed is far inferior to Chen Feng.

[Chapter 247: Nine Orifices Open](#)

Chen Feng has some spirit stones, which is willful.

He opened the mustard bag with Qian, and the middle-grade spirit stones in it had all been consumed.

In the liver meridian of Chen Feng's foot Jueyin, the first nine acupoints have been opened, and these nine acupoints are required by Hunyuan Yi Qigong. Therefore, Chen Feng does not need to open the orifice acupuncture, just need to condense the cyclone.

So the speed is very fast.

In a day, Chen Feng condensed the cyclones of the three acupoints, and he also consumed more than 15,000 middle-grade spirit stones.

Such a huge consumption is appalling.

The medium-grade spirit stones that were saved before consumed a considerable part of it.

For the next few days, Chen Feng stayed behind closed doors, practicing Hunyuan Yi Qigong with peace of mind.

In the evening of the third day, Chen Feng finally condensed the cyclone in the ninth acupoint.

At this time, Chen Feng was already trembling, his face was pale, and his face was dripping with cold sweat.

He hurts.

Nine acupoints, eighty-one cyclones, seemed to have become eighty-one steel needles, crazily piercing the acupuncture points in Chen Feng's body, causing huge pain, making him almost fainted.

Chen Feng forced a bitter smile on his face. He finally knew why Hun Yuan Yi Qigong was so powerful, but there were so few practitioners.

It's so **** pain! It really hurts people alive.

That is, Chen Feng, who can condense the qi by absorbing a lot of spirit stones. If it is someone else, the pain is not condensed. What about quiet cultivation?

Can't practice at all.

Next, what Chen Feng has to do is to connect the nine acupoints into a string.

When Chen Feng started to get through the liver meridian of Foot Jueyin, more severe pain came. This time, it was the meridians, not the acupoints, that stung.

Chen Feng felt that his Jueyin Liver Meridian was about to break, and his body was trembling with pain, and he almost couldn't sit still, and his hands were firmly grasping the ground. Because of too much effort, he caught several holes on the bluestone ground.

But Chen Feng still gritted his teeth, desperately urging his qi to strike the Zu Jueyin Liver Channel.

There were waves of intense pain, which made him unconscious and almost fainted.

Chen Feng didn't know when he fainted. When he woke up, it was already the next morning.

Chen Feng was surprised to find that at this time, there was no pain in his body. On the contrary, the meridians and acupoints were cold and refreshing.

Chen Feng looked inside and found the needle-like qi in the nine acupoints, calm and calm. And the meridians are open, and the liver meridian of Foot Jueyin has been opened up.

The pain disappeared without a trace, and the whole person was extremely comfortable.

Chen Feng could feel that his vigor was at least 30% stronger than before!

So far, Hun Yuan Yi Qigong's first stage has been small.

As long as you open the eyes of the sky and step into the second floor, you will be successful!

The speed of Chen Feng's cultivation was terrifying.

Generally speaking, even for people with extremely high talents, according to the cheat book, it takes at least three months to one year to practice Hunyuan Yi Qigong.

However, Chen Feng had successfully cultivated in just three days. If this speed were to spread, it would definitely scare others to death.

Chen Feng felt that his strong strength had increased by at least 30%.

He stood up and came to the courtyard. Chen Feng drew out the Purple Moon Knife, leaped up into the air, and cut nine swords!

This time, Chen Feng used Hunyuan Yi Qigong instead of Longxiang Zhantian Jue to drive Thunder Tyrant Blade.

All the cyclones in the inner sect of Chen Feng's Acupuncture Point circulate together, and the pure white ice-like cold qi gushes out of the Acupuncture Point. Chen Feng suddenly felt that the Acupuncture Point and the Meridians once again produced extremely unbearable. The pain. Like a needle stick, like a knife cut.

But Chen Feng was not surprised and rejoiced.

If every battle, not every movement, will produce this kind of pain, then his physical resistance will be greatly enhanced. It coincides with the key to the Golden Body Jue, which is equivalent to Chen Feng exercising the Golden Body Jue all the time.

On the purple moon knife, a layer of pure white cold light immediately appeared, like a thick layer of ice, making people feel a cold breath when they are far away, just like being in an ice world.

At exactly this time, someone in the wing opened the door and shivered as soon as he left the door. I was wondering that it was autumn now, why is it still snowing?

Chen Feng cut out nine knives in succession, and nine huge cracks appeared on the ground built of solid bluestone. Each crack is more than one foot long and three feet deep, like being scratched by a giant beast. It is very scary.

Chen Feng fell to the ground, sighed softly, and looked at the effect he had caused, a smile was drawn at the corner of his mouth.

Sure enough, Hunyuan Yi Qigong is worthy of being the most brilliant exercise in the entire Qianyuan School, and it is also very powerful.

Moreover, Hun Yuan Yi Qigong is fierce and fierce, like a needle like a knife, powerful and overbearing, using this method to drive the knife, the power is also very strong, even not much worse than the Dragon Elephant Zhan Tian Jue.

Moreover, Chen Feng had another important discovery. He discovered that if he runs Hunyuan Yiqi Gong, after a single cut, there seem to be thousands of small knives cutting at a very fast frequency on the edge of the sword qi.

[Chapter 248: Unstoppable!](#)

So beside the huge cracks on the ground, there are many small cutting marks.

Chen Feng doesn't know the use of this for the time being, but at least one thing he understands is beneficial and harmless.

The most important thing is that Hunyuan Yi Qigong can easily explain the source, and it will not be regarded as unknown. So in the future, when fighting the enemy, I will use Hunyuan Yi Qigong. Unless it is a time of extreme danger, or when there is no one around and is absolutely sure to kill the opponent, you will no longer use the Dragon Elephant Fighting Sky Technique, so as not to be recognized and cause some trouble.

Chen Feng secretly thought of telling himself.

After Hun Yuan Yi Qigong Nine Orifices were opened, and the Zu Jueyin Liver Meridian was opened, Chen Feng's first style of Thunder Tyrant Sword, Kuang Lei Slash, has also been thoroughly cultivated to the highest level, and there is also an additional edge shock cutting. The special effects are very powerful.

Then Chen Feng used Hunyuan Yi Qigong to drive the broken jade fingers of the hole gold, and the Gang Qi of Hunyuan Yi Qigong came to his hand. When Chen Feng thought about it, the broken jade fingers of the hole gold were activated immediately.

At this moment, Chen Feng suddenly had a feeling of being born in nature, combining with his body and becoming one.

It seemed that there was no effort at all. His right index finger immediately turned into a pale jade white color. Chen Feng's skin was originally quite fair, and his right index finger turned into this color, and there was hardly anything special. But Chen Feng was delighted, knowing that this meant that his golden and broken jade fingers had stepped onto a new level.

Hole gold and broken jade refers to the first layer, which is the golden realm. The fingers will first turn pale yellow, then golden, and then thick golden. And the second layer of the broken jade finger of the hole is the white jade realm. The fingers turned a faint jade white color, representing the second realm of white jade realm, which had reached the level of first glimpse of the doorway.

Chen Feng's right index finger slowly pointed out, an extremely slender, extremely sharp, and extremely sharp needle-like gas, bursting out, and pierced a small hole in a stone the size of a small house.

The hole is small, only the thickness of the index finger, but it is very deep, and the strength is highly condensed.

Chen Feng sighed slightly. Sure enough, Hunyuan Yi Qigong was the best match for Dongjin and Broken Jade Fingers.

Using Hunyuan Yi Qigong to drive the golden and broken jade fingers, he easily stepped into the white jade realm and got the first glimpse of the doorway. The power multiplied very powerfully.

After practicing Hunyuan Yi Qigong, and then using Dongjin and Jade Fingers, it really doubled the power! These two should be used in combination by nature!

Golden body decision!

Hunyuan Yi Qigong!

Hole gold and broken jade fingers!

Thunder Dominator!

The golden body decides, tempers the diamond body, strong and strong, no one can urge!

Hun Yuan Yi Qigong, Gang Qi condenses, turning into a sharp blade and breaking out of the body. It is extremely sharp and comparable to a magic weapon!

Hole gold and broken jade fingers, one finger pierces the fine gold, tears the body protection gas, breaks the enemy's body, tears all defenses!

Thunder Tyrant Sword, trained to great success, even has the power of profound level exercises.

Chen Feng's use of the knife and finger was extremely terrifying, causing the other three people who stood watching at the door of the wing to have an incredible feeling.

Too tough, Chen Feng is so tough that they can't even think of resisting them. The gap is huge.

No matter what they thought, Chen Feng turned around and returned to his room after training.

He still has some regrets now. He originally wanted to use the opportunity of practicing Hunyuan Yi Qigong this time to get a glimpse of the third secret of the Guangming Mahamudra, but it was a pity that he still failed this time.

Although the Guangming Mahamudra was a martial art practiced by Chen Feng a long time ago, even for him now, it is quite powerful and will not become a burden at all. And the most important thing is that every move of Guangming Da Mudra has its own characteristics and is very targeted. If you use it well, you can get miraculous effects.

For example, the first palm, Fudo Mingwang Seal, is very good at defense. The second trick, the Big Diamond Wheel Seal, is very effective in restraining ghosts, demons and evil spirits, and can be used for healing.

Just don't know what the third trick is, and what's the effect? Chen Feng looks forward to it very much.

After doing the math, Chen Feng found that half a month was about to come, so he went to Xu Lao, Xu Lao glanced at him, and a smile was drawn on the corner of his mouth, and said lightly: "Hunyuan Yi Qigong has been cultivated to the point. The nine orifices are open, and the meridians are unblocked, right?"

Chen Feng smiled and said, "Yes, I just broke through today."

Old Xu nodded approvingly: "Yes, it's been less than three months since you entered the inner sect!"

Chen Feng nodded: "Three months will be full in ten days."

Old Xu sighed, but there was a faint satisfaction in his eyes: "Do you know? In the past ten years, all the new disciples who have entered the Nei Sect have broken through to the nine orifices and opened the foot Jueyin. The person with the fastest progress in the liver meridian is your master Yan Qingyu. It took him two and a half months to break through, which is exactly five days faster than you."

"He was also hailed as the rare genius of Qian Yuanzong in a century. Apart from him, no one has achieved this in the past ten years."

[Chapter 249: Sister wakes up](#)

"And you can be called the talents of Tian Zong, the golden generation. You are five days slower than your master, besides you, there are two that are only a little slower than you."

Chen Feng asked, "Are they Yang Jingtian and Shen Yanbing?"

Old Xu nodded slightly.

He waved his hand and smiled: "Forget it, let's not mention these things, today is a great day."

He said a little bit Chen Feng: "Your day of great joy."

Then he took out a small jade box and opened the jade box. Suddenly, a refreshing medicinal fragrance filled the whole room, and he felt refreshed after smelling it. It was a snow-white pill the size of a longan. It looked crystal clear, and it seemed to freeze an entire world of ice and snow.

Chen Feng looked a little bit drunk.

Old Xu's voice slowly sounded: "This is the pill I mentioned to you. It took half a month for that old thing to finally make it. Now you can feed this pill for your senior sister. ."

Chen Feng nodded slightly, picked up the pill and walked to the bed, leaning over to look at Han Yuer. Han Yuer's expression was calm, as if sleeping, Chen Feng whispered: "Sister, take this pill, you will soon wake up. Up."

He gently parted Han Yu'er's lips and put the pill in. The pill melted in his mouth, and it flowed into his belly along Han Yu'er's throat.

At this time, Xu Lao took the initiative to walk out of the room and closed the door. Only Chen Feng and Han Yuer were left in the room.

Chen Feng was a little stunned, not knowing why this happened.

But he soon knew the reason.

As the pill was lowered, Han Yu'er's body, from the inside out, emitted bursts of snow-white light. And the position of her lower abdomen turned out to be as transparent as the snow-white light circulated slowly, clearing Han Yu'er's severely injured dantian injury at a speed visible to the naked eye.

The white light is like a night pearl, shining from the inside to the outside. The clothes on the surface of Han Yuer's body are no different from nothing. Chen Feng can see all the details at a glance. At this time, Han Yu'er is naked in front of him.

Chen Feng quickly turned his head, not daring to look again.

After not knowing how long, Chen Feng suddenly heard a soft sound from behind him, he quickly turned his head, only to see Han Yu'er had opened his eyes, looking at him with eyes full of confusion.

Chen Feng was surprised: "Sister, are you awake?"

Han Yu'er stared at him blankly for a long time. After a while, his eyes had their focus, nailed to his face, and there was a strong surprise in his eyes. He exclaimed, "Junior, where am I? I'm not dead. ?"

"What's not going to die? You are not allowed to say such unlucky words." Chen Feng immediately covered her mouth and smiled: "Yes, Sister, you are not dead, you have been rescued. Now the battle is over. For a long time."

"I'm not dead, it turns out I'm really not dead."

Han Yuer stared at him blankly, and suddenly two lines of tears flowed from his eyes.

Suddenly he hugged Chen Feng and cried loudly. He sobbed while crying, and said, "Chen Feng, I will never be so naive anymore, and I will never be so impulsive anymore. No matter how others arouse me, I will not be fooled. . You don't know, after I was seriously injured, I was so scared and so scared to die. I was not afraid of dying by myself, I was afraid that I would never see you again."

"Moreover, I know, I caused you trouble. I shouldn't have been like that at the time and forced you to go to life and death. I'm sorry, I'm sorry, woo..."

Chen Feng gently embraced her in his arms, patted her back, and said softly: "It's okay, Senior Sister, don't think about it anymore, it's all past."

After crying for a while, Han Yuer's mood calmed down, and Chen Feng told her the general process of the matter.

Han Yu'er looked at her with full eyes after listening, "Junior brother, I know you are the best."

"Those things that happened in the Black Rock Mountains, which you can do, have been crushed to pieces by another person."

Her expression then turned into guilt, and her voice lowered: "I'm sorry, Junior Brother, if it wasn't for me, you wouldn't have to take such a big risk."

"It's okay, it's okay, Senior Sister. I've told you how many times, this is what I'm willing to do. Besides, these things are facts that have already happened. Up."

When he said this, he meant to teach Han Yuer a bit, but Han Yuer nodded obediently, very docile, just like a submissive little wife.

"By the way, Senior Sister, I have heard from Mr. Xu that this time, after you take this medicine, not only can your injuries heal, but you can also get great benefits. Come and feel it."

"Okay, then I'll try it now." Han Yuer always believed his words extremely, and immediately looked into her pubic area and felt the changes in her body.

He closed his eyes, and after a while, he said in surprise: "Junior Brother, I, I have already stepped into the Divine Gate Realm."

From the Ninth Level of the Acquired Peak to the Divine Gate Stage, it is very difficult. Many people have been stuck for many years.

[Chapter 250: Seed Wuhun](#)

Han Yu'er has also been stuck here for two months. He always thinks about breakthroughs every day, but he did not expect to break through when he wakes up.

"Breakthrough?" Chen Feng said in surprise: "This is really a great benefit. Originally, I also prepared a Boundary Pill for Senior Sister, and I was going to give it to you after you woke up and let you step into the gate of God. It's difficult, but now it seems that Po Jing Pill is no longer needed."

Chen Feng eagerly said: "Sister, did you awaken a martial soul or blood or something else?"

Han Yuer said, "It's Wuhun."

Chen Feng eagerly said, "Let me see what Martial Soul is?"

Han Yu'er nodded, closed her eyes and concentrated. Soon, behind her, a soft blue light appeared, like an ocean, and in this blue light, there was a green dot that was undulating.

Chen Feng took a closer look and discovered that this green dot turned out to be a seed. The seeds are small, that is, only the size of wheat grains.

Chen Feng's eyes widened in surprise, what kind of spirit is this, it turned out to be a seed? It's incredible, can the seed become a martial soul?

But when I think about it, it's not surprising. Logically speaking, everything in the world can become a martial soul. Not only a seed, but also a grass, a tree, a piece of stone, and even a handful of soil. May become Wuhun. It's just that most of such martial spirits are abandoned. Holding a martial soul in your hand, you can use the power of the soul, but what power can a martial artist use? The weak grass itself can be broken at any time, and what power can it bring to the warrior?

So generally speaking, the most powerful and powerful spirits are those spirits of beasts, especially some powerful spirits, and even the spirits of ancient divine beasts are even more powerful.

Martial souls also need to grow. When the spirits are just awakened, they may not be able to draw on the power of this monster beast, but as long as they can use one ten thousandth of the actual power of this monster, or even a millionth. One is enough to make the warrior extremely powerful. For example, Chen Feng's Xiangliu Wuhun, if it were a pinnacle of the ancient monster Xiangliu, it would be enough to destroy the city and destroy the pond. Of course, Chen Feng can't do this now, but even with the help of the ancient demon **** Xiangliu. A tiny bit of strength is enough to make him very powerful.

Han Yuer's eyes widened in astonishment, the seed turned out to be a martial soul, which she had never seen before.

She felt a little nervous, and asked, "Junior Brother, how is my spirit? Is it weak? Can I help you?"

Chen Feng shook his head slightly, and said, "I don't know, I'm going to ask Mr. Xu for advice."

After speaking, Chen Feng opened the door and walked out.

"What? It turned out to be a seed martial arts soul?" After hearing Chen Feng's words, Old Xu opened his eyes wide, and his eyes showed a look of surprise that could not be concealed, even astonished.

At this moment, he was playing against himself under the tree, his hand trembled, and he didn't even notice the chess piece in his hand fell on the ground.

This is the first time Chen Feng has seen Xu Lao behave like this. He was overjoyed and thought to himself: "Xu Lao was so behaved, it shows that Seed Martial Spirit is definitely not trivial."

Old Xu stood up and said, "Go, go in first."

He pushed the door into the room, looked at the Seed Martial Soul behind Han Yuer, and said nothing.

Chen Feng asked eagerly: "Old Xu, how is it? How is this martial spirit? Is it powerful?"

Old Xu shook his head slightly: "It's hard to tell, it's really hard to tell."

Chen Feng was taken aback. He didn't expect Mr. Xu to make such an answer. Before he could ask a question, Mr. Xu slowly explained: "I wonder if you have ever heard of hidden martial arts?"

Hidden Wuhun, Chen Feng and Han Yuer shook their heads, neither of them had heard of it.

"Hiding the martial soul refers to," Xu Lao explained: "Now, the form of this martial soul is not its true form, but just a bud. After the martial soul has absorbed enough energy, it can mutate. Appear in its true form."

Chen Feng inferred from one another and said, "Seed Martial Soul is one of the hidden Martial Souls, right?"

Old Xu nodded: "Yes, the seed martial soul is the most typical hidden martial soul, because it is a seed that has not germinated, let alone grown, and no one knows that this seed will grow into it in the future. The eternal celestial dome above your head, the footsteps on the endless continent, the Pangu sacred tree that runs through the entire world and suppresses the entire dragon vein continent. Or after it germinates, it can only become a very inconspicuous grass that can be easily trampled on."

"This kind of hidden Wuhun may have unlimited development potential, or it may be useless at all."

Chen Feng heard that both of them had a better understanding of hidden martial arts. Han Yuer was a little less confident, and said timidly, "My hidden martial arts, I don't know what I will look like in the future."

Chen Feng thought more about it and asked, "Old Xu, what will Hidden Martial Soul grow into in the future? Can manpower be changed? Can manpower influence it? Or is it entirely dependent on talent?"
