

Peerless 2701

[Chapter 2701: I found it!](#)

There is a five-element demon jade that is the size of a human head. It is many times more refined than the five-element demon jade that Chen Feng obtained before, and how many times the specifications are high!

The energy in it is even more magnificent!

Ji Caixuan said excitedly: "Master, this five-element demon jade can sell at least fifty thousand dragon blood amethysts at a price that is absolutely sky-high!"

A smile appeared at the corner of Chen Feng's mouth, and then the smile turned into a burst of laughter!

This is really a good place!

He stepped forward and stretched out his hand, trying to take the thing out.

But he found that his hands had all broken bones.

Chen Feng showed a wry smile. At this time, Ji Caixuan came forward cleverly, took out two pills from her arms, crushed them, and put them on Chen Feng's arm.

Chen Feng was taken aback: "What are you doing?"

Ji Caixuan hurriedly explained: "Master, slave maid, these two medicines here are the best medicine for strengthening muscles and muscles."

"After applying it, your injury will recover quickly."

There was a deep panic in her eyes.

When Chen Feng looked at it, his heart moved.

No matter what Ji Caixuan sat on before, but after being taken into a slave and maid by herself, she performed quite well.

He smiled slightly and said, "Thank you very much."

As soon as Ji Caixuan saw Chen Feng's smile, her heart was pounded like a deer, and she felt that with Chen Feng's smile, she was willing to die for her master.

She hurriedly lowered her head, blushed, and said, "Master, this is what slaves and maids should do."

She lowered her head and picked up the five-element devil jade, and put it into Chen Feng's golden thread kit.

Chen Feng jumped in and entered the bottom of the lake.

At this time, the bottom of the lake has dried up.

However, there are still five-colored molten metal flowing into it continuously.

It is conceivable that in time, perhaps thousands of years, or even tens of thousands of years, this lake will be full again.

And inside, life will be brewed again.

At this time, Chen Feng wandered around the bottom of the lake.

What he murmured: "In the map that Old Wei gave me, this is the point."

"In this secret realm of the chessboard, I can get clues for the next step, so the secret here is definitely not limited to these five elements ligers." *NoVeiusB.com*

"There must be a bigger secret!"

He walked around here, but there was no gain.

But Chen Feng didn't have the slightest impatience in his heart, he was already patient.

If he is impatient, many opportunities will be missed with him.

A few hours passed, and soon it was night.

The time in the secret realm of this chessboard was the same as outside, and it was already night.

I don't know where this chessboard secret realm is located, or where it is on the edge of the Dragon Vein Continent.

But here, Chen Feng saw that the sky was exceptionally high that day, and the bright outside the star space was extremely quiet.

On this day, this star seemed to be very close to him, within reach.

Much closer than when it was in Chaoge Tianzi City.

Chen Feng just lay on the ground, looking into the distance.

It is as if the sky is the quilt and the earth is the bed.

Chen Feng sighed softly, feeling peace in his heart.

Not far from him, Sha Junfeng was already asleep, while Ji Caixuan was sitting there with her arms in her arms, looking at Chen Feng quietly.

Suddenly she turned her head and whispered to Chen Feng: "Master, you can rest, and the servants come to watch the night."

Chen Feng shook his head and said nothing.

Suddenly, he jumped up, looked at the sky blankly, and muttered: "Impossible, impossible!"

"It turned out to be such a design, it turned out to be this way?"

Ji Caixuan was frightened and panicked: "Master, what's the matter?"

At the next moment, Chen Feng suddenly let out a surprise shout: "Hahahaha, I found it, I found it, that's it!"

"So it is!"

Chen Feng raised his hand, pointed to the sky, and said, "Did you see it?"

"Ji Caixuan, have you seen it? Have you seen what it looks like?"

Ji Caixuan looked up to the sky, following the direction of Chen Feng's finger.

There is a piece of stars.

She didn't see anything at first, but after a closer look, with Chen Feng's reminder, she exclaimed and said, "These stars, the more they look like..."

"Yes! Hahahaha!"

Chen Feng laughed and said, "These stars are just like a long knife. They are arranged like a long knife!"

It turns out that these hundreds of stars, from this perspective, actually constitute a long knife.

Chen Feng exclaimed: "What kind of ancient power can actually manipulate the stars like this? It's too powerful!"

But then, he woke up: "Impossible, it is impossible for the Dragon Vein Continent to have such a powerful person."

"Those stars, each of them is not necessarily worse than the Dragon Vein Continent, how can they be manipulated so easily?"

Chen Feng immediately realized that this was a coincidence.

A smile appeared at the corner of Chen Feng's mouth: "This coincidence was used by someone who wanted to give me directions!"

With that, he came to the lake again.

At this time, there was already a thin layer of molten metal in the lake.

And the shadow of the long knife formed by the stars on that day fell into the lake, leaving a faint reflection.

Chen Feng came to the sky above the reflection and laughed loudly: "This is it!"

As he said, he punched fiercely and thumped at this position.

There was a loud bang, and the earthquake trembled, not moving.

Not discouraged, Chen Feng gave another punch, and then another punch.

Boom boom boom boom, Chen Feng's fist kept falling.

Finally, with a buzzing sound, the entire chessboard secret realm was trembling.

The next moment, the bottom of the lake hit by Chen Feng suddenly sank downward.

As if some mechanism was activated, the metal solution disappeared without a trace, and all leaked from there.

Then, continue to fall.

So, a hole appeared here, and in that hole, there were steps going down.

Chen Feng laughed loudly: "I found it, I found a clue!"

He was about to step into the stairs. At this time, Ji Caixuan walked up to him and said, "Master, let me go first. Your life is worth more than the life of a servant."

"If there is any danger ahead, the slave and maid will find out first, so you can deal with it."

After she said this, she went straight on.

Chen Feng was stunned for a while, and only after a long time did he recover, with a look of contemplation in his eyes, and followed him.

The passage is very narrow, all the way down.

There was a deep depth in front of me, and I couldn't see what was ahead.

[Chapter 2702: New map](#)

Moreover, this deepness is not the kind of pure black, but just like here, the light seems to be swallowed.

In fact, there is light outside, and the light emitted by the purple fire is continuous, instead of going deep into the ground for a few meters, the light should also be able to shine in.

However, at this moment, the light has completely disappeared, as if being swallowed by here

As soon as Chen Feng walked into this thick darkness, he felt that his consciousness seemed to disappear.

This feeling made Chen Feng very uncomfortable, as if he could not control his body!

Chen Feng sighed slightly, the power of the dragon descending arhat circulated in his body, and the power of heaven and earth was suddenly released.

As a result, around his body, the power of the orange heaven and earth appeared like a tablet.

Huh, after the orange light appeared, it was not swallowed up by the hollow darkness, but illuminated it instead.

At this time, Chen Feng also saw Ji Caixuan in front of him.

Ji Caixuan was walking stumblingly there, her hands rubbing around, obviously she also lost consciousness and was very flustered.

In fact, Ji Caixuan's heart was panic and desperate at this time. She had never felt this way before. This made her mentally collapsed and there was a possibility of death at any time.

At this moment, she saw the orange light.

So the next moment, she cried directly, turned her head, looked at Chen Feng, and said with tears: "Master, Master, I just thought I was going to die, you know?"

"Great, you are here, great!"

With that, she turned around and threw herself into Chen Feng's arms, holding her tightly, without moving.

Chen Feng said softly: "Don't worry, everything has me."

When Ji Caixuan's mood calmed down for a while, Chen Feng continued to move forward, the orange power of heaven and earth stretching beside him. *NoVELus&.com*

When Ji Caixuan saw the power of the orange heaven and earth, there was a flash of surprise in her eyes, but she didn't ask too much.

Chen Feng continued to walk forward, and soon the downward passage came to an end.

In front of him was a long corridor.

The material of this long corridor is very special, and it seems that I don't know what it is made of.

Not gold or jade.

And on the surface of this kind of thing, one after another pattern is raised.

These patterns are very neat, and Chen Feng immediately saw that this pattern was definitely not artificially portrayed, but formed naturally.

Chen Feng looked familiar with these patterns.

Suddenly he remembered and knew why he was so familiar.

Because the shape of this pattern is like a knife, almost the same as the long knife formed by the stars outside.

Chen Feng sighed softly: "It seems that the master here likes knives very much!"

Ji Caixuan said, "Master, I think so too."

"His clue is a knife, and the mural inside is a knife, so will the end be a peerless sword?"

Chen Feng was shocked after hearing this.

If that is the case, that would be great, he is currently lacking such a weapon!

Chen Feng continued to move forward and soon reached the end of the tunnel.

The end of the tunnel is a gate.

Chen Feng originally thought that there must be many agencies above this gate, which needed to be detected to be able to enter.

But the next moment, he saw that several lines of text suddenly appeared above the gate.

After Chen Feng saw it, he couldn't help but smile.

It turned out that the text turned out to be:

"Hahaha, boy, when you came here, did you think you would break in? How could the old man do such boring things!"

"Since you have come here, then you are a destined person, and this gate can't stop you, and the old man doesn't want to embarrass you with him, lest you be looked down upon!"

"Now push the door and go in! There is no trap behind the door! This door opens as soon as you push it, hahahaha!"

This text, painted on a silver hook, is full of pride.

Although he only read the words, did not hear the sound, and did not see the person, Chen Feng seemed to have heard his voice and the person who saw him.

Chen Feng felt like there was a heroic old man with white hair and beard, laughing outright in front of him.

The whole person is hearty and mad!

Chen Feng couldn't help but smiled, and said softly, "This senior is a wonderful person."

Without hesitation, he strode forward and directly pushed the door open.

When he did this action, Ji Caixuan exclaimed: "Master, be careful."

Chen Feng smiled: "Don't worry, I can trust him."

At this time, he seemed to have a trace of telepathy with the ancient power that had left a trace here years ago.

Chen Feng trusted him, and he also understood that Chen Feng trusted him.

Chen Feng opened the door and walked in. Inside was a stone room.

In the stone room, there was nothing but a stone platform in the middle.

On the stone platform, something similar to a scroll is placed.

Chen Feng walked over and took the scroll in his hand.

Sure enough, this scroll is also a roll of parchment, and this parchment is also a winding line.

At the end of the route, there was a small mountain-like icon with four words written on it.

Chen Feng smiled slightly: "Sure enough, I didn't expect it. How can the ancient treasure be obtained so easily?"

"What I got here is the clue to the second paragraph!"

A faint smile appeared at the corner of Chen Feng's mouth, and he said to himself: "It seems that the mighty man who left the ancient treasure is really a wonderful person!"

"Not to you, but not to let you lose hope, but to interlock with each other and let you get clues bit by bit."

"It's just that this ancient power is indeed powerful. Although he did not leave ancient treasures here in the first ring, he has left behind the chessboard secret realm, leaving us with so many five-element demon jade."

"Only the first ring, I have been able to get such a big advantage, so what about the second and third rings below?"

"What great benefits will you get?"

"Then the last ancient treasure? How huge will it be? How rich?"

Chen Feng was full of expectation. He looked at the map and kept the four words of the map and the place pointed to by the map firmly in his mind.

Chen Feng included the map in the golden line kit.

Then, he turned around and left.

He didn't even look at the other parts of this stone room, because he knew very well that with that ancient mighty temperament, there would be nothing left here except for clues.

Ji Caixuan didn't have any doubts about Chen Feng, and quickly followed Chen Feng out.

That Sha Junfeng seemed a little unwilling, and he went around here for a few times, trying to find something.

But unfortunately, as Chen Feng expected, there is nothing here.

He found nothing.

[Chapter 2703: I want revenge!](#)

When Chen Feng left here, the sky was already full of red clouds and the night sky disappeared.

It turned out that they had already spent a few hours inside unknowingly. Obviously, the flow of time inside is different from that outside!

Chen Feng scanned the secret realm of the chessboard and sighed softly.

Inside the chessboard secret: "I don't know if the Five Elements Demon Jade that has been accumulated over tens of thousands of years or hundreds of thousands of years has been taken away by me. This place has no value for the time being, and it is time to leave."

He doesn't intend to destroy this place. Who knows, after tens of thousands of years and hundreds of thousands of years, will it become the same as when they first came in?

Chen Feng decided to leave this place to future generations.

Leaving the chessboard secret realm, once again returned to the purple fire swamp.

Chen Feng looked at Ji Caixuan and Sha Junfeng and said, "You two, what are your plans?"

Ji Caixuan hurriedly looked at Chen Feng and said, "Of course the slave maid followed the master. The slave goes wherever the master goes."

Sha Junfeng thought for a while and said, "I want to go back."

Chen Feng nodded: "Okay, then you can go back."

He thought for a while, took out a piece of Five Elements Demon God Jade, handed it to Sha Junfeng, and said, "This piece of Five Elements Demon God Jade, here you are."

Sha Junfeng's eyes widened, his face showed an expression of disbelief.

He looked at Chen Feng and said with a trembling, "You, you actually gave this to me?"

He knows how expensive this thing is, worth ten thousand dragon blood amethysts!

Just give it to yourself?

He looked at Chen Feng, his face was full of disbelief.

Chen Feng smiled and said, "For you, take it!" *nOveLuSb.com*

"A acquaintance is also fate."

"So, thank you Master Chen Feng." Sha Junfeng said quickly.

But Chen Feng was in deep thought.

At this time, Ji Caixuan whispered: "Master, let's take a step to speak."

Chen Feng nodded, looked at Sha Junfeng, and said, "So, let's not pass it now!"

Sha Junfeng nodded and said, "Okay."

Chen Feng turned and left

At this time, what Chen Feng didn't know was that at this time Sha Junfeng looked at his back, but the gratitude in his eyes slowly disappeared.

He showed thoughtfulness, and then it turned into a thick bit of resentment.

He murmured: "Okay, this will send me away, right? You two can divide the rest, right?"

"You got twelve pieces of ordinary five-element demon jade in it, and a king of the five-element demon jade, you just give me such a piece?"

"You **** treat me as a beggar! This one can get me away?"

He snorted coldly: "I won't let you succeed like this. There is a copy of mine in there, and I want to get back what belongs to me!"

As he said, he gritted his teeth as if he had made a decision, and turned and left quickly.

It turned out that this person was frantic. He obviously didn't contribute any strength, but he felt that he had done a lot, and felt that Chen Feng had only given him a piece of it because he had lost it.

Thoughts of revenge surged in his heart!

After walking away from Chen Feng for a while, Ji Caixuan looked at Chen Feng and said, "Master, do you want to go back like this?"

Chen Feng did have this idea, so he nodded.

Ji Caixuan persuaded and said: "Master, I know, you have not been here since you have been here, and you may not know much about it."

She chose her words carefully, for fear that she would upset Chen Feng.

She said: "Actually, in this Chaoze Tianzi City, tens of thousands of dragon blood amethysts are really nothing!"

"Tens of thousands of dragon blood amethysts can probably only help you improve your strength by one level, from a five-star martial emperor to a six-star martial emperor's level."

"Of course, your actual strength is far higher than your level."

"As far as weapons are concerned, as long as an emperor's soldier reaches the second rank, it needs tens of thousands of dragon blood amethysts. Think about your dragon blood amethysts, it is almost not enough. "

"So, you don't have to go out in a hurry, you can get some other resources here."

"Getting more dragon blood amethysts is the truth!"

Chen Feng nodded slowly, she was really reasonable.

Seeing that Chen Feng agreed with her words, Ji Caixuan gained more confidence and asked, "Master, are you not used to using weapons?"

"It's not that I'm not accustomed to using weapons, it's just that I have used some before, but I haven't gotten a chance now." Chen Feng said the truth.

The dragon knife and other weapons he used before were very powerful at his level at the time.

Later, after Chen Feng stepped into the Martial Emperor Realm, he never got a handy weapon.

Like the previous killing knife, now he is completely inappropriate, and his power overflows, and even directly shatters the killing knife!

"Then you really need to buy an emperor's soldier."

Ji Caixuan said: "Like the former Ximen Xiuyuan, fortunately he did not hold the emperor's soldiers. Otherwise, although you are much stronger than him, you will never kill him so easily."

"Your current strength is probably equivalent to that of the Eight-Star Martial Emperor Peak. You can kill the Eight-Star Martial Emperor Peak. But if Ximen Xiuyuan at the Eight-Star Martial Emperor Peak held the Emperor's soldiers, which one of you would win Who loses is not always certain!"

Chen Feng was shocked when he heard this.

He suddenly realized that he had been making a mistake before, a very big mistake.

He didn't realize that in this Chaoge Tianzi City, almost everyone valued weapons.

Because he didn't pay much attention to the role of weapons before, and felt that the bonuses that weapons brought to him were dispensable, so after he came here, his concept has not changed.

But in fact, the reason why he has such a concept is because the weapons that he can access before are all too low-level, and they bring him too little benefit.

However, in Chaoge Tianzi City, there are countless high-level weapons, and many people hold weapons that are much higher than their own.

Therefore, they also have strength far beyond their own level.

Chen Feng was shocked, and said in his heart: "Fortunately, I realize this now, so I can't get a few good weapons quickly."

"Otherwise, if you find out later in the battle, you will suffer a lot!"

Chen Feng said softly: "Okay, then I will listen to you, we will stay here for a while longer."

"My goal is to buy at least a handful of Dragon Blood Amethyst from the Second Rank Emperor's Soldier."

Ji Caixuan smiled and said: "The slave servant will accompany the master!"

Here is a huge hillside with a radius of tens of miles.

On the hillside are boulders.

What is strange is that there are deep pits among these huge rocks.

In the deep pit, a huge pillar of fire rose into the air.

[Chapter 2704: Bloodthirsty Balrog!](#)

In that pillar of fire, there are still figures flying constantly.

This figure is very slender, and the whole body is red. It looks like a long snake with long limbs, giving people a very disgusting feeling.

Although it was hot, there was an indescribable femininity.

"Master, this is it."

On the edge of the hillside, Ji Caixuan looked at Chen Feng and said softly: "Here is the location of the Blood Devouring Flame Demon."

"Blood Devouring Flame Demon, the strength is equivalent to the eight-star Martial Emperor of human beings, the most suitable for the master your current strength."

"Moreover, this kind of bloodthirsty flame demon, the area where they live, has a lot of red feather thunder tartar."

"This red feather thunder tartar is an orange first-class material, which can greatly enhance the flexibility of the weapon, and even improve the blood and courage of the warrior. It is very amazing."

Chen Feng listened and nodded slowly

At this moment, Ji Caixuan looked at Chen Feng, blinked her eyes mischievously, and said:

"Master, in fact, exploring in this purple fire swamp, besides being able to kill those powerful monsters, obtain many rare items, and exchange for a lot of resources, there are also some other surprises!"

"What surprise?" Chen Feng asked.

At this time, Ji Caixuan looked a little embarrassed, looking at Chen Feng, pouting:

"The servant girl didn't want to hide anything from the master, and the servant girl didn't dare to hide anything from the master."

"If the master asks, the maidservant will definitely say it, but unfortunately, the maidservant doesn't want to say it now. I want the master to have a surprise. What should I do?"

When she said this, she didn't make any pretense.

Obviously, that's what she thought in her heart.

As long as Chen Feng asks, she will answer.

Chen Feng looked at her expression and laughed: "Okay, then don't ask, I'll watch it myself when the time comes!"

Ji Caixuan nodded with a smile.

Chen Feng walked in front, and Ji Caixuan followed behind, but the expressions of the two were very guarded, and they looked around vigilantly.

In the Purple Fire Marsh, the greatest danger will never come from the monsters, but from the warriors.

Chen Feng had personally seen the scene where the Nine-Star Martial Emperor with a heavy treasure was killed on the way back.

And he, that is just an example.

Because, it is generally established by convention that after exiting the Purple Fire Marsh, he will not intercept and kill others.

Only the Black Mountain Five Tigers who are bold enough to do it in the Purple Fire Swamp at the same time will intercept them on the road.

More interceptions, looting, appeared in the purple fire swamp.

Therefore, although the behavior of the Black Mountain Five Tigers is bold, Chen Feng understands their thoughts better.

Because, every warrior who can leave the purple fire swamp must have killed many other warriors in the purple fire swamp, and robbed them of what they don't know.

Therefore, there is more on them.

Because this may be the result of gathering a few or even a dozen warriors or even more warriors!

Ji Caixuan said in a slow voice: "The orange first-class material, the main material for casting the first-grade emperor's soldiers."

"In Chaoze Tianzi City, where most warriors are still using weapons of the king's level, this is already a very good material!"

"It's just that if you want to get this kind of material, you need to deal with those bloodthirsty flame demons first."

Ji Caixuan said: "This kind of material is the most delicious food for the bloodthirsty flame demon, and it can greatly enhance their strength."

"And if humans want to snatch, naturally they want their lives."

"We are already on the second level of the Purple Fire Marsh. We have penetrated into the Purple Fire Marsh for more than one hundred and fifty miles. Even in the second level, the bloodthirsty flame demon here can be regarded as more difficult to deal with."

Chen Feng pondered for a moment, and then walked forward without hesitation.

Ji Caixuan looked at him from behind, her eyes full of calmness.

She is full of confidence in Chen Feng.

Soon, Chen Feng walked forward more than 100 meters.

Chen Feng looked around, but did not find the Akabane thunderstone.

However, this is also normal.

Akabane thunder tartar does not exist on the ground at all, but exists in these burrows where flames appear.

Generally speaking, it is impossible for humans to obtain the red feather thunder tartar, because the temperature of these flames is too high to remove the flames, and if the flames cannot be removed, there is no way to get deep in the cave. That red feather thunder tartar.

However, the existence of the bloodthirsty flame demon gave humans such an opportunity.

Because they themselves are the embodiment of this flame.

Chen Feng just walked here, and suddenly, a roar came.

The next moment, in a huge flame column hundreds of meters in front of Chen Feng, a long and narrow figure suddenly flashed out, it was a bloodthirsty flame demon.

About ten meters high, his body was burning with raging fire.

And that head is a skull made of flames, looking quite terrifying!

He stared at Chen Feng, his eyes were two burning purple flames.

At this time, in the purple flame, the reflection of Chen Feng was reflected.

The next moment, he roared, his eyes became extremely resentful, and he rushed towards Chen Feng madly.

He didn't have any weapons, he looked like he was just bare-handed, hissing sharply in the air: "Humble humans, how dare you come here? You are looking for death!"

The next moment, in the palm of his hand, the purple flame rushed out, turning into a huge spear.

The huge spear he was holding pierced towards Chen Feng fiercely.

Chen Feng also roared and rushed forward.

His fist fiercely blasted towards the flame spear, and with a bang, the two collided.

The flame spear shook violently, and Chen Feng let out a muffled snort, his body flew back more than ten meters, and the surface of his body was surrounded by purple.

His body was burnt to black, and his right arm was burnt, his skin was rotten. *NoVeluS&B.Com*

Chen Feng snorted, blood overflowing from the corner of his mouth.

With this, Chen Feng was already slightly injured.

Chen Feng's eyes became serious: "This bloodthirsty flame spear is really a bit evil!"

In fact, the average Eight-Star Martial Emperor, Chen Feng would not take it seriously.

However, this **** demon is powerful in its flames.

Its flame was taken directly from the purple fire, and Chen Feng did not dare to touch it directly now.

The power of Zi Huo is something he cannot bear now!

Chen Feng whispered: "It seems that this bloodthirsty flame demon is powerful in its flames. If his hand is not a flame spear, but another substance, I have already killed him at his level. "

[Chapter 2705: Giant blood, jade bone and golden muscle!](#)

"But now, I have nothing to do with him."

At this time, the bloodthirsty flame demon saw Chen Feng's injury, and was even more proud, and rushed forward with a roar.

Chen Feng could only greet him with a fist.

This time, Chen Feng was injured again.

The bloodthirsty flame demon continued to attack Chen Feng, but Chen Feng couldn't help it for a while, left and right, was beaten in embarrassment, and retreated one after another.

In a blink of an eye, countless wounds appeared all over his body.

And that bloodthirsty flame demon was laughing, his voice hoarse and sharp!

Chen Feng was beaten helpless!

This is the first time Chen Feng has been so miserable since entering the Purple Fire Marsh.

But Chen Feng, without any panic, his brain was running fast, thinking of a way quickly.

He took out a fire snake grass, wiped it on his body, and then bombarded the bloodthirsty flame demon again.

With a bang, this time, after the purple flame of the bloodthirsty flame demon blasted towards Chen Feng, Chen Feng felt that when the flame was about to hit his body, he brushed it, it was given by the fiery red power on the surface of his body. Neutralized, disappeared without a trace.

At this time, Chen Feng was overjoyed and threw a punch.

Without the purple flame, relying solely on strength, where the bloodthirsty flame demon was Chen Feng's opponent, he was hit directly and shattered the flame spear.

One punch smashed the flame spear, and then hit his body again, smashing half of his body.

The bloodthirsty flame demon let out an astonishing roar, and Chen Feng wanted to continue to attack, but he realized that he could only stop there.

Because the power of his Fire Snake Grass has been exhausted.

At this moment, the bloodthirsty flame demon saw Chen Feng stop attacking, and attacked again!

Chen Feng gritted his teeth and used another fire snake grass.

This time. Chen Feng was enough to hold his attack again, and then moved forward again.

With a bang, a punch hit his head.

The bloodthirsty flame demon trembled violently, and the body directly turned into countless flames, falling one after another!

The bloodthirsty flame demon disappeared, and the flame pillar in the flame pit he appeared just now also blasted and dissipated directly.

Then, Chen Feng's figure flashed, and he came to the flame pit and looked down.

I saw that at the bottom of this deep flame pit, there was a fiery red spar, lying there quietly.

Chen Feng sighed lightly, stretched out his hand, a suction came, and held the spar in his hand.

This spar has a hexagonal shape, like the best ruby, with red brilliance flowing in it.

And the most amazing thing is that there is a huge fire attribute power inside.

Generally speaking, the fire attribute power is very manic, but the fire attribute power in this spar is very gentle, which made Chen Feng a little surprised.

It is Akabane thunder tartar!

Up to now, Chen Feng has obtained a red feather thunder tooth stone.

But the process is very difficult.

Chen Feng sighed softly: "Although this monster has the same strength as the Eight-Star Martial Emperor, it actually far exceeds the Eight-Star Martial Emperor."

"It's very difficult even for me to fight. When the ordinary Eight-Star Wuhuang comes over, he will just give him food! No wonder there are not many people on the way."

Although he killed a bloodthirsty flame demon, Chen Feng was not happy.

Because, at this time, Chen Feng saw that in the two flame pits not far away, two bloodthirsty flame demons emerged from those two purple flames.

The two of them slowly approached Chen Feng.

Chen Feng wrinkled his brows and muttered to himself slowly: "My fire snake grass can withstand two attacks by him. I need two to kill one."

"As for me, there are only seven left."

"However, there is absolutely no way that there are only four bloodthirsty flame demons left here."

He looked into the distance.

On the hillside. One after another huge flame column, I don't know how many bloodthirsty flame demons are hidden inside!

At this time, the two bloodthirsty flame demons had already forced Chen Feng over.

Chen Feng instinctively wanted to use fire snake grass.

But he reacted immediately and couldn't use it in this way, otherwise, these fire snake grass would not last long.

Chen Fengming thought hard, but these bloodthirsty flame demons would not give him time.

Two Hell Rock Demons rushed towards Chen Feng frantically, and in a blink of an eye, they surrounded Chen Feng and attacked frantically.

Chen Feng swayed from the left to the right, a little difficult to fight, and backed back one after another.

At this moment, there was a flash of light in his mind, and a thought suddenly flashed: "I can try this trick."*noVelusB.com*

"Yes! This trick will definitely work!"

Chen Feng's eyes flashed with precision.

Suddenly, he took a deep breath, like the whale in the angry sea, sucking all the water in a radius of a hundred miles into his belly in an instant.

In the air, there was a burst of air.

Chen Feng's suction was extremely powerful.

Then the next moment, in his body, all of a sudden, in the blood, dots light up quietly.

In his blood, golden silk threads like cow hair appeared quietly and quickly spread all over his body.

In the next moment, Chen Feng was full of energy.

His whole body seemed to swell out with a punch.

There is no change in his body shape, but it gives people a feeling that he is like a mountain, standing upright!

It turned out that Chen Feng had already activated his giant bloodline at this time.

The blood of the giant circulated in Chen Feng's body, radiant.

The next moment, his muscles turned into a golden color.

And where no one can see, his bones are as white as jade!

Jade bone and golden muscle, suddenly activated!

Chen Feng not only mobilized the giant bloodline, but also mobilized the jade bone and golden muscle!

Then, Chen Feng yelled and blasted out with both fists, and a fist blasted towards a bloodthirsty flame demon.

Before, when Chen Feng fisted out, there was only the power of the dragon descending Arhat, and only his martial art realm.

But this time, when Chen Feng struck with both fists, it started from the first knuckle of his finger.

There was a cracking sound, then the second knuckle, and the third knuckle.

Then, the bones of the wrist, and then the bones of the arm.

Then the next moment, Chen Feng's joints burst, like fried beans.

Click! Click!

His fist, full of fierce power, banged heavily against the flame.

The purple flames hit Chen Feng!

At this time, the surface of Chen Feng's body flashed a hot yellow light mingled with golden cow hair.

Then the next moment, those golden bull-hair-like powers roared and fought bravely.

[Chapter 2706: Opportunity for breakthrough!](#)

The purple flames were hit like a sieve, and most of the power of these purple flames was cancelled out.

Only part of the purple flame blasted on Chen Feng.

The golden muscle was burned in the flame, but it became more and more dazzling, without the slightest damage!

Chen Feng laughed, ecstatic in his heart.

At the same time, Chen Feng's fists penetrated the flame, bombarded the body of the bloodthirsty flame demon, directly smashing their two arms. **NovelUsB.com**

Without the protection of Zi Huo, this bloodthirsty flame demon was nothing in front of Chen Feng.

Chen Feng laughed loudly: "Giant bloodline, really works!"

Behind him, Ji Caixuan clapped her palms and clapped her feet, very happy.

When Chen Feng was beaten just now, she had always been worried, and there were even tears in her eyes.

But she knew that she couldn't cry and couldn't distract Chen Feng's attention, so she endured it all the time.

At this time, this happy mood was finally out of control!

Chen Feng laughed, suddenly his voice was cold, and he shouted: "Just now, you guys played very well, now it's my turn, right?"

As he said, Chen Feng roared and rushed forward, bombarding out with his fists one after another, extremely powerful.

His fist fiercely bombarded the two bloodthirsty flame demons, and quickly smashed the two bloodthirsty flame demons to pieces.

Then, Chen Feng once again harvested two red feather thunder tartar stones. Up to now, he has three red feather thunder tartar stones.

Chen Feng found a way to deal with the bloodthirsty flame demon and was extremely happy.

And at this moment, suddenly, there was a flash of light in the dozen or so fire pillars beside it.

Then, ten bloodthirsty flame demons appeared.

Seeing this scene, Ji Caixuan yelled in panic: "Master, be careful, be careful!"

Chen Feng laughed: "Don't worry, I'm fine."

At this moment, the ten bloodthirsty flame demons had already rushed towards him.

He quickly surrounded him.

These bloodthirsty flame demons looked at Chen Feng with a fierce light!

A smile appeared at the corner of Chen Feng's mouth, and he didn't put them in his eyes at all.

At this time, seeing the ten bloodthirsty flame demon besieging around, Chen Feng's eyes moved slightly, and suddenly he thought of something.

At the next moment, he suddenly laughed loudly: "Is there just a lot of you?"

"Now, I also let you see and see, and I am also crowded!"

The next moment, Chen Feng gave a long scream.

Then, the Floating Light and Glimpse Technique was suddenly activated.

Chen Feng had been useless for a long time with the technique of floating light and glancing shadows, but it was not at all unfamiliar.

At the next moment, five identical existences appeared around Chen Feng's body.

The bloodthirsty flame demons were stunned after seeing them. They all had IQs, but they weren't very high, and they didn't understand what was going on for a while.

And Ji Caixuan, who was behind her, was even more shocked.

She looked at Chen Feng and murmured: "Master, how many secrets did you hide? How many cards did you not reveal?"

The floating light and glancing shadow technique was activated, and six Chen Feng appeared, and then these six Chen Feng, without the slightest hesitation, all rushed towards the bloodthirsty flame demon.

These bloodthirsty flame demons froze for a moment before they began to fight back.

In addition to the main body of Chen Feng, the other five Chen Feng clones all reached the Martial Emperor Realm in strength.

However, it is not so high, at least not an opponent in front of these bloodthirsty flame demons.

But what Chen Feng wanted was not that they could kill the bloodthirsty flame demon, but rather bewilderment.

The five Chen Feng took the initiative to attack the bloodthirsty flame demon, bewildering the bloodthirsty flame demon, leaving these bloodthirsty flame demon wondering what was going on for a while.

Therefore, Chen Feng faced only two opponents.

In a short moment, Chen Feng killed those two opponents.

Then he killed the other bloodthirsty flame demon.

Those clones of Chen Feng were smashed to pieces by the bloodthirsty flame demon one after another at this time, and none of the ones that disappeared were left, but they had bought time for Chen Feng.

If not, it would be very difficult for Chen Feng to face the dozen or so bloodthirsty flame demons on his own!

At this time, Chen Feng killed two, and there were eight in front of him.

At the next moment, next to Chen Feng's body, there were five more clones.

Then, the six Chen Feng rushed towards them again.

At this time, a strange feeling suddenly flashed in Chen Feng's heart, vaguely feeling that something was wrong.

And the next moment, he knew something was wrong.

Chen Feng was overjoyed and said with a smile: "My Floating Light and Glimpse Technique has improved from before, and there are signs of breakthrough again."

It turned out that Chen Feng's Floating Light and Shadowing Technique was extremely expensive for him. One use only lasted three hundred breaths, which is the time of a cup of tea, and it took three days to use it once.

But now, after Chen Feng used it this time, he used it again immediately. He didn't feel any major reaction in his body.

This made Chen Feng realize that his floating light and glancing shadow technique has ushered in another breakthrough opportunity!

This time, the five other clones of Chen Feng once again won him the opportunity.

Thus, Chen Feng killed two bloodthirsty flame demons.

The next moment, those five clones were killed.

Then Chen Feng laughed, and five more clones appeared.

In this way, Chen Feng repeated it four times, and finally killed two bloodthirsty flame demons.

The next moment, Chen Feng used the Floating Light and Glimpse Technique again.

In fact, when using the floating light and glancing shadow technique for the fourth time, Chen Feng felt that his chest was stuffy and he couldn't breathe.

When Chen Feng used the floating light and glancing technique for the fifth time, he felt dizzy in his brain.

After the dizziness, there is severe pain.

An extremely disgusting feeling came, and he couldn't help but want to vomit.

He felt a stray golden star in front of him, his body slanted, and he almost fell directly to the ground.

Chen Feng knew immediately that this was a sign that his mental strength was extremely exhausted, almost all disappeared, and he was on the verge of exhaustion.

Chen Feng gritted his teeth and shouted, finally using the Floating Light and Glimpse Technique.

In fact, there are only two bloodthirsty flame demons left at this time, and Chen Feng is completely useless, but Chen Feng now uses this not to deal with bloodthirsty flame demons, but to squeeze his potential to the limit.

Unlimited crazy use of floating light and glancing shadows, thereby promoting their breakthrough.

Chen Feng has always been so cruel to himself.

The next moment, when five Chen Feng appeared, suddenly, Chen Feng's heart moved.

Then, he fisted forward and killed the remaining two bloodthirsty flame demons.

Then, Chen Feng felt that several acupuncture points in his body suddenly lit up.

No, not feeling, but real.

At this time, on Chen Feng's body, nine acupuncture points suddenly appeared.

[Chapter 2707: breakthrough! Floating Light Glimpse!](#)

These nine acupuncture points were clearly seen when Chen Feng looked inside himself.

Among the nine acupuncture points, the six acupuncture points flickered, and the remaining three acupuncture points were dim.

Chen Feng knew that the six acupuncture points represented that his technique of floating light and glancing shadow had broken through to the second level.

And if all the remaining three acupoints can be lit, it means that Chen Feng's Floating Light and Glimpse Technique can already reach the third level.

Chen Feng felt that although the brain was suffering from severe pain at this time, it was almost unbearable, but the desire to break through was extremely powerful and difficult to control.

Chen Feng let out a long howl: "Breakthrough! Now I want to break through!"

At the next moment, he instigated the last remaining trace of mental power, surging all the power towards the remaining three acupuncture points.

Then, with a loud bang, the channels between the remaining three acupoints and the three lighted acupoints were directly opened.

With a loud noise, the three acupoints were broken open at the same time, and powerful forces poured into them.

Then, these three acupuncture points were finally opened.

Chen Feng felt that his head was about to explode, but he still gritted his teeth, desperately urging that powerful force to these three acupuncture points.

As a result, the three acupuncture points finally began to slowly light up.

Chen Feng sat cross-legged on the ground, Ji Caixuan hurried over and guarded him.

At this time, Chen Feng's brain was in severe pain, and all his attention was used to break through the three acupoints.

At this time, he can be said to be very fragile. If Ji Caixuan attacked him sneakily, he might be seriously injured.

But Ji Caixuan didn't even have this idea in her heart. She just stood there, her face full of worry.

Then, she stood by to protect Chen Feng.

Chen Feng didn't know how long he had used it, nor could he tell the time, he just clenched his teeth and persisted.

The sharp pain can't shake his confidence!

Finally, there was a loud bang, the next moment, three bangs, and Chen Feng's last three acupuncture points were also bright.

All the meridians were unblocked, and the power of the floating light and glancing shadow technique circulated at an extremely rapid speed among the nine acupoints.

Then, with a boom, it reappeared in Chen Feng's body.

The nine acupuncture points all shine brightly.

Chen Feng's headache also disappeared without a trace, and his whole body was completely restored to normal, and his eyes were clear.

His heart was full of enthusiasm, and he laughed loudly: "Floating Light and Glimpse Technique, my Floating Light and Glimpse Technique has already reached the third level!"

"Now, I can summon eight clones, nine in total including me."

"Furthermore, the strength of each clone has been increased to 30% of my strength, hahahaha!"

Chen Feng laughed very openly.

Beside, Ji Caixuan patted her chest with a look of rejoicing: "Great, Master, you finally woke up in time, great."

Chen Feng looked at him and smiled slightly.

He didn't say anything, but when he was in that state just now, Chen Feng saw Ji Caixuan's performance.

Moreover, he will remember it in his heart.

At this time, Chen Feng's impression of him had already changed a lot!

And Chen Feng also discovered that the more high-level areas, such as Chaoge Tianzi City, the size of the monster beast cannot be judged by its size.

Take this purple fire swamp as an example. The monsters inside, such as bloodthirsty flame demon, are no more than ten meters high, but if you take it out, you will kill those huge monsters that are tens of thousands of meters long. .

Chen Feng thoughtfully.

He felt that this should be regarded as a reflection of returning to the original and returning to the original.

Although the size is reduced, all of them are useful, just like a combat weapon, without the slightest cumbersomeness, without any redundancy!

Everywhere on his body is full of deadly murderous opportunities!

Like the bloodthirsty flame demon that Chen Feng killed just now, in terms of size, they may not even be as big as a tooth of the southern barbarian dragon that Chen Feng killed before, but this bloodthirsty flame demon wants to kill Nan Desolate giant savage dragon, but it is easy.

Because his power is too strong!

If Chen Feng has realized, if he is still huge in this kind of place, then he must be incredible!

At this time, as these bloodthirsty flame demons all died, all the pillars of fire on this hillside with a radius of tens of miles were extinguished in this instant.

Chen Feng knew it in his heart. He knew that this happened because these bloodthirsty flame demons were born on the flames of this area.

They are equivalent to the flame essence of this area.

The entire Purple Fire Swamp, although there are flames rising, each type of flame is still different, and there are quite big differences among them. Take the flame here, it is the bloodthirsty flame demon!

These flame pits were already empty, and naturally there was no threat to Chen Feng. Chen Feng searched for one flame pit one after another.

He discovered that not every flame pit contained the scarlet feather thunder tartar, only those flame pits that gave birth to the bloodthirsty flame demon.novelusb.com

And these flame pits that gave birth to the bloodthirsty flame demon were dozens of times larger than other flame pits.

Obviously, the essence of other flame pits was sucked by these flame pits.

Soon, when Chen Feng lowered his head to pick up a red feather thunder tooth stone, his expression suddenly became serious, his eyes condensed slightly, and he looked forward and settled there.

In front of Chen Feng, on the ground, there was a scabbard stuck in it!

"There is a scabbard?" Chen Feng was surprised.

These bloodthirsty flame demons never use swords, so there is only one possibility, indicating that a warrior once came here, and his sword was left behind.

Chen Feng walked over, stretched out his hand, and pulled out the scabbard from the ground.

He also used a lot of strength. The scabbard was two feet deep into the ground, and it was not easy to pull it out.

The scabbard was pulled out and Chen Feng saw it. This scabbard is made of a kind of extremely powerful gold and iron. Although I don't know how many years here, it still hasn't decayed.

However, the patterns on the surface have been smoothed.

Ji Caixuan walked over with joy and said, "Master, since the scabbard left by this person has not changed for so many years, it shows that this person is definitely strong."

"He may have left something behind."

Chen Feng nodded slowly and continued to walk forward.

Soon, he found the sword, but unfortunately, the sword had been broken into many pieces, and it was completely unusable.

Chen Feng continued to walk forward, and as he walked, he felt the breath of a human warrior.

[Chapter 2708: The recipe of Burning Blood Pill!](#)

Even if that person is dead, I don't know how many years, the things he left should still have this kind of breath.

And soon, Chen Feng stopped beside the biggest flame pit.

This flame pit, Chen Feng remembered that the strongest and largest among the bloodthirsty flame demons he had killed just now came from this flame pit. *nOveLuSB.com*

Chen Feng came to the flame pit and looked down.

In the flame pit was just a huge red feather thunder tartar lying quietly, but nothing else.

Chen Feng stretched out his hand and sucked up the red feather thunder tartar.

Then, he walked around here twice, his brows raised slightly: "No, I obviously feel the breath of a human warrior here, why can't I find it?"

Chen Feng suddenly stretched his brows, and laughed: "Unexpectedly, this bloodthirsty flame demon would even play around."

With that, Chen Feng jumped directly into the flame pit without any hesitation.

Seeing this situation, Ji Caixuan exclaimed: "Master."

Chen Feng's voice came from the flame pit: "Don't worry, I'm fine."

The flame pit was not so deep, only more than a hundred meters long, and Chen Feng drifted down slowly.

It was still hot inside, but the flame disappeared, and it was not too dangerous for Chen Feng.

When Chen Feng came to the bottom of the flame pit, he found that it turned out that the flame pit had a small mouth and a big belly, and there was a full 100-meter radius below.

Chen Feng looked around and saw that the stone walls here were extremely smooth, burned to a blue color by the flames, a bit more condensed than the strongest metal.

But suddenly, Chen Feng frowned and stared at one of them.

He shook his figure, flashed directly, and came to a rock wall.

There were several small holes on this rock wall. This small hole seemed uncommon, but Chen Feng immediately discovered that it was wrong.

Because this small hole was definitely caught artificially, Chen Feng directly inserted his five fingers into it.

Then, he felt a slight looseness at the end of the room.

Chen Feng's heart was shocked, and he pressed his finger inward, then he pressed in.

Then, he turned his hand aside.

As he turned around, the rock wall beside him cracked directly, and a gap appeared for one person to enter.

Chen Feng looked inside and didn't feel the slightest danger, so he just stepped in.

He came into this gap.

The gap was very shallow, only three or four meters in length. When Chen Feng came to the end, a stone chamber appeared in front of him.

This stone chamber is not too big, the height is only two or three meters, the width and length are about the same number, and it can only accommodate a few people.

After Chen Feng came in, his eyes suddenly narrowed.

In the middle of this room, a skeleton was sitting cross-legged, and his palm was holding a black scroll.

This skeleton has existed here for many years, and an extremely old aura hits his face.

Chen Feng glanced away, and everything in this stone room fell into his eyes.

He raised his eyebrows and gave a soft hey.

It turned out that in this stone room, it was not that simple. A long metal rod was placed in front of the skeleton.

The metallic end is connected to a huge metal gear. At the end of the metallic gear, there are dozens of small metal gears. These gears constitute a rather complex device.

The equipment went deep into the stone wall, and looked at the direction of the equipment, which was the direction of the largest flame pit.

At this moment, Chen Feng seemed to have thought of something in his heart, so he walked to the position of the skeleton and looked forward.

Sure enough, he saw that there were two small holes in his direction, through which he could see the location of the flame pit.

Chen Feng gently shook the metal rod, and as he swayed slightly, suddenly, there was a soft sound, and all the instruments were all running.

Then the stone wall made a huge vibration, and it stopped with a light click.

Chen Feng's figure flashed, and when he entered the flame pit, he saw that a huge alchemy furnace was already spinning down in the center of the flame pit.

At this time, the alchemy furnace was selected at the center of the flame pit, where the flame was the strongest.

Chen Feng clapped his hands and said, "Sure enough, this is no different from what I thought."

There was a look of wonder in his eyes: "The predecessor who sat in the stone room and turned into a skeleton is definitely an inexperienced strong, powerful and clever in mind."

"He actually thought of using the purple fire here to refine the pill. The flames here are extremely overbearing, but if used well, it will have a very powerful help to refine the pill."

"I'm afraid that the profound fires I got before can't compare to this purple fire."

The profound fire that Chen Feng had obtained before was quite tyrannical, but it was still a bit worse than the current Zihuo. There was no way, after all, it was the profound fire he got at a low level!

"The Purple Fire Swamp is so dangerous, everyone can't avoid it and can't wait to stay far away."

"And this senior, who is ingenious, actually uses the flames here to refine alchemy, it is really amazing."

"It's just a pity, somehow, died here."

Chen Feng also has no way of knowing who this senior is and where he comes from!

Chen Feng glanced at the alchemy furnace and shook his head. It was a pity that the alchemy furnace was decayed and could not be used.

He returned to the stone chamber and pulled the metal rod back.

Suddenly, the alchemy furnace shrank back again.

As soon as Chen Feng stretched out his hand, he picked up the black scripture in his hand. After opening the black scripture, there were seven big characters in it: the formula of Burning Blood and Naturalization Pill!

There was a burst of ecstasy in Chen Feng's heart.

"The formula of Burning Blood Pill, I got the formula of Burning Blood Pill?"

The formula of Burning Blood Creation Pill is what Chen Feng dreams of. Chen Feng needs an extremely large amount of Burning Blood Creation Pill to upgrade his level.

He is short on time, and his absorption speed is more than a hundred times that of others, so his demand for this is hundreds of times higher than that of warriors of the same level, which is extremely huge.

Just buying it can't even satisfy him, Chen Feng needs to refine it himself.

However, his current pharmacist level cannot be reached, because he was originally an 8-rank pharmacist, and to refine the Burning Blood Pill, at least a golden robe pharmacist of the first rank is required.

And he has no prescription.

Chen Feng once asked Lu Yutang about something about the prescription. Lu Yutang didn't hide anything from him. He directly frankly said that the price of the formula is very different because of the different levels of Burning Blood Pill.

Like the first-level formula of Burning Blood Pill, you can buy more than a thousand dragon blood amethysts.

[Chapter 2709: Xueguangyanyangcao](#)

Level two requires tens of thousands, and level three requires tens of thousands of dragon blood amethysts.

When Chen Feng heard it, he immediately stopped thinking.

He simply can't afford it!

This is still priceless, because the major clans, major powers, and even the Alchemist Association, all cling to this prescription for fear of letting it go out.

Moreover, each pharmacist is different, and the prescriptions for the Burning Blood and Naturalization Pill they leave behind are also different.

Some may be suitable for you, some may not be suitable, and it is just a piece of waste paper to buy it at a big price.

Because these prescriptions were all written by senior alchemists, there is no uniform standard.

They are the summaries of their experience, and some are suitable for their exercises, suitable for a certain medicinal material they particularly like to use, but not suitable for others!

Chen Feng glanced at it, and the prescription of the Burning Blood Pill that he found was applicable to all Burning Blood Pills from Grade 1 to 6.

This even made Chen Feng ecstatic, which at least means that this prescription can sell for hundreds of thousands of Dragon Blood Amethyst at a sky-high price!

At this time, Ji Caixuan was also in the deep pit.

Chen Feng laughed loudly: "Ji Caixuan, is this the windfall you mentioned?"

"That's right." Ji Caixuan said with a smile: "The slave maid is here to congratulate the master!"

The smile on Chen Feng's face was even greater, and he had never expected such an unexpected joy.

Ji Caixuan smiled and said: "In the past few years, there have been endless numbers of warriors who have come to the Purple Fire Marsh, I'm afraid there will always be tens of thousands."

"These warriors, who can leave alive, it would be nice to have one out of ten, and all the others died here."

"And among the warriors who died here, half died of monsters, and at least half died by the hands of other warriors."

"Those warriors who killed other people may not have much luck, but they were killed by other warriors or monsters."

"There are many warriors who died in the hands of monsters, and when they died, the monsters died together, or the monsters were less intelligent, so some of his relics were preserved."

"In this purple fire swamp, there are all kinds of relics."

She paused, and continued: "People exploring in this purple fire swamp can hear from time to time that they have gotten the news that some or a few ancient seniors have died, and their strength has improved."

"Of course, many of the relics you get are not good at all, because the opponent's level may be lower than you."

"But, Master, you are obviously lucky."

Chen Feng nodded, Ji Caixuan said nothing wrong!

After that, Chen Feng and Ji Caixuan left here and changed another area.

This area is rich in a kind of medicinal herb called Xueguang Yanyang Grass.

This kind of blood radiance sungrass is an essential medicine for many pill, and the price is quite expensive, at least far above the fire snake grass that Chen Feng used before!

The monster here is an existence called amethyst water snake.

This amethyst water snake, said to be a water snake, does not actually live in water at all, on the contrary, they live in the flame.

Take the flame as water, shuttle it freely and absorb its essence.

This amethyst water snake has no means of attack, the only means of attack is to breathe flames.

However, the flames they breathed out were extremely powerful, and it was no less than the purple fire.

As long as it is stuck to a point, it will be burnt to the skin and flesh, and the whole body will be turned into coke, which is quite difficult to get around.

Chen Feng came here, and it took a long time before he picked two blood-glow sun grass.

And just when Chen Feng was about to deal with another amethyst water snake, a loud voice suddenly came from a distance.

This magnificent voice was very domineering, full of majesty, rumbling, and shaking the purple fire above the sky with a wave of swaying.

Even a dark cloud appeared above the sky, but it was quickly dissipated by the flames here.

The huge voice sounded: "Now, everyone who can hear my voice shows that you are within the range of my Shadow Gang."

"Now, as long as you hear my voice, get out of here quickly, this area, I have a shadow bag!"

"If anyone dares to take advantage of my shadow gang, it's all right to kill!"

When it comes to the last word, the murderous aura is overflowing and floating.

He repeated these words three times in succession.

Chen Feng raised his brow slightly after listening.

"The Shadow Gang? This is the Shadow Gang again!"

After arriving in Zihuo Town and Zihuo Marsh, Chen Feng heard this name many times!

He asked Ji Caixuan with great interest: "What's the matter?"

A look of panic and fear appeared on Ji Caixuan's face, and she said, "Master, this is what the Shadow Gang often does!"

"The Shadow Gang is the number one force entrenched in the Purple Fire Marsh and Purple Fire Town, very powerful."

"It is said that the leader of the Shadow Gang is a peak powerhouse of the Nine-Star Martial Emperor, who has been entrenched for many years and has reaped countless benefits."

"He has many powerful men, and there are close to ten nine-star martial emperors alone, and the eight-star martial emperors below are countless."

"The Shadow Gang is very domineering, and it seems to use this purple fire swamp as its own garden."

She paused, and continued: "In that Purple Fire Town, almost all the medicine shops and weapons shops were opened by them."

"The warriors who come here must buy weapons and pills from them, and they will earn a lot of dragon blood amethyst."

"Moreover, they will enter a certain place in the Purple Fire Swamp from time to time, designate this place as their own hunting ground, drive out all the other warriors inside, and take advantage of it!"

"Oh, that's the case! This Shadow Gang is still doing such a thing?" Chen Feng raised his brows, and his eyes flashed sharply.

He would never forget the things that Shadow helped.

They opened the Shadow Medicine Shop, and Chen Feng still remembered the oppression of the old man.

Moreover, Chen Feng also promised that the old man would definitely avenge him.

Chen Feng asked faintly: "What if you don't leave?"

"If they do what they say, they will definitely kill people."

A deep look of fear appeared on Ji Caixuan's face. Looking at Chen Feng, she trembled and said, "Master, let's go quickly!"

"The shadow gang is so powerful, it's not appropriate to face them head-on!"

Chen Feng laughed, suddenly glanced at her, smiled and said, "Do you have confidence in me?"

Ji Caixuan was taken aback for a moment, then quickly nodded, and said with certainty: "Of course the slave and maid have confidence in the master."

"Well, since you have confidence in me, then the two of us will stay here today and not go anywhere."

Chen Feng laughed and said, "I have to see what the Shadow Gang can do to me."

[Chapter 2710: Sneak attack](#)

"Anyway, sooner or later we have to face the Shadow Gang, so a moment later is worse than a moment earlier!"

Chen Feng would like to see their strength!

Therefore, Chen Feng ignored the voice and continued to deal with the amethyst water snake.

This amethyst water snake, about two meters long, is floating in the flames.

And not far from it, there was a clump of grass that was as tall as half a person, and lightly wafting like a reed.

It was the **** sun grass that Chen Feng wanted.

Chen Feng walked slowly towards the **** sun grass, and when he was about to reach the **** sun grass, the amethyst water snake suddenly tilted its body and headed towards Chen Feng.

He turned his head, those two thin eyes stared at Chen Feng, and they were full of cruel and tyrannical colors.

Suddenly, he opened his throat and let out a sharp yell, directly rushing towards Chen Feng.

He was four or five meters away from Chen Feng, the huge sharp mouth suddenly opened.

Inside the sharp mouth of that fang, there are hundreds of extremely small and extremely sharp teeth.

Looks hideous and terrifying!

His mouth opened to an incomprehensible huge arc, and there seemed to be infinite flames brewing in his throat.

Chen Feng hummed softly, his figure flashed, and he came directly to his body.

At the same time, the flame hadn't spit out, the next moment, Chen Feng's right hand severely cut in the middle of the amethyst water snake. *nOveLusB.com*

No more, no less, just the middle point.

Then, directly grabbing its head and tail, and turning it around, forming a circle.

Then, Chen Feng squeezed the upper and lower parts of his snake head and squeezed it in the middle.

With a click, all his extremely small sharp teeth were stuck in his tail.

in this way. He is equivalent to biting his tail with his tongue!

The whole is connected end to end, forming a ring.

After Chen Feng had done all this, his figure flickered and he quickly retreated backward.

His heart was beating wildly, and a layer of cold sweat had leaked out of his head, and he felt a panic.

This is a manifestation of extreme consumption of power.

Regardless of the moment just now, it was extremely fast, it took no more than a moment of zero, but it had almost exhausted Chen Feng's strength.

In such a short period of time, Chen Feng's eyesight, physical strength, and hand strength are all needed.

And the most difficult thing is the timing of his judgment, the timing of his hands.

Chen Feng also had previous combat experience, and only then knew that at the moment before the amethyst water snake spit out the flames, in that one-to-one moment, his body was frozen and he had no ability to resist.

This is his only weakness.

You have to do all this in such a short period of time to be able to win, otherwise, wait for it to spit out flames, then everything will stop!

At this time, the teeth of the amethyst water snake were deeply embedded in the scales of his tail.

He wanted to struggle frantically, but unfortunately, its teeth. It's thin and long, and they all have barbs, so they can't get out of it for a while.

At this time, the flames had already spit out from his throat.

He wanted to take it back, it was impossible.

With a bang, the flame spit out frantically, and the amethyst water snake uttered a sharp scream, and the whole body was burnt instantly.

The flame burned up along its body, without letting it go.

It burned its scales to pieces, and burned its muscles into coke. Then, its entire body turned into a black fly ash, which drifted away in the wind.

Chen Feng's eyelids jumped wildly when he was watching.

If I was entangled just now, I am afraid that I will also be burned to a terrible level.

This kind of flame is really terrible!

Chen Feng felt quite relaxed and found a way to deal with the amethyst water snake.

He smiled and pulled out the **** sun grass.

And at this moment, suddenly there was a cold snort of disdain from a distance.

With a squeak, a sharp howling ripped through the sky, and a long and narrow black shadow hurriedly towards this side.

The black shadow turned out to be a long arrow about two meters long, and its direction was actually Chen Feng's hand.

Chen Feng's hand was about to be nailed to the ground by this long arrow.

This long arrow is extremely powerful and domineering, full of unspeakable surging power.

At the same time, there was a burst of laughter not far from the side: "Master, your archery skills are really powerful. If you go down with this arrow, I am afraid that you can smash the little boy's hand!"

At this time, an arrogant voice sounded: "More than just smashing his hand, if I didn't want to torture him, my arrow is enough to smash his whole body!"

After Chen Feng saw that long arrow fiercely, murderous intent flashed past.

This long arrow wanted to destroy his hand!

At this moment, Chen Feng could smash this long arrow with one punch.

But Chen Feng's heart moved, instead of hard-wired, instead, he backed away one after another and took a few steps away.

With a bang, the long arrow was directly nailed to the ground. It was completely fixed into the ground and disappeared.

Only leave a small hole in the ground.

Chen Feng's face was even colder, this arrow was powerful, and the ground was so strong that he could even be nailed into it.

"Oh, I don't have any other strength, but I can avoid it very quickly. It seems that I can run away normally!"

The extremely haughty voice before gave a cold snort of disdain, full of contempt for Chen Feng.

Chen Feng squinted, looking in the direction of the sound.

I saw two people appeared there, one of them was thin, holding a huge long bow in his hands, and carrying a dozen long arrows on his back, looking like a storm archer.

Storm Archer is also one of Zhongzhou's professions, and it belongs to long-range attacks with Thousands of Madness.

And beside him, there was a man in Tsing Yi.

The man bowed his waist, looking like a slave.

This storm archer looked at Chen Feng, his face was full of arrogance and disdain.

He raised his chin, walked slowly toward this side, and stopped a hundred meters away.

Chen Feng looked at him, his eyes condensed, and said, "Who are you? Why did you attack me just now?"

The storm archer laughed: "You still ask me this question? Why did I attack you?"

"Here, it belongs to our Shadow Gang territory. If you hunt on our Shadow Gang territory, you have already offended my Shadow Gang. You deserve to die!"

"Oh, you are from the Shadow Gang?"

Chen Feng narrowed his eyes and looked at him.

"Okay, kid, don't talk nonsense." The storm archer looked at Chen Feng, curled his mouth impatiently, pointed his finger at him, and then pointed to the ground in front of him, and said:
