

Peerless 2961

[Chapter 2961: Teng Jiao Qi Feng Dan's magical effect!](#)

"Now, he is afraid that even one-tenth of his power will not be used on me."

"It took less than one-tenth of the strength to deal with me, and it was weakened by the ragged iron armor. Even so, I can easily be seriously injured by him!"

"It's terrible! It's terrible!"

"Fortunately, this time, I am not fighting alone!"

Chen Feng yelled, resisting the huge pain on his body, and rushed forward frantically again.

After this blow, Chen Feng is now only two kilometers away from Tengshe.

In the next moment, Chen Feng was already close to Tengshe!

A beam of brilliance burst into Huang Niao's eyes. She didn't think Chen Feng could do this at all, but now Chen Feng has subverted her mind, Chen Feng completely impressed her!

At this moment, Tengshe was almost crazy.

With Chen Feng's arrival, as Chen Feng got closer and closer, he felt an extreme threat, which kept pouring toward him.

He felt that this humble human being contained the power to destroy him.

There was extreme panic and fear in his heart, and there was a scream in his throat.

The huge mouth opened, loosening the yellow bird's neck.

He turned around, trying to deal with Chen Feng with all his strength.

He didn't even care about the yellow bird anymore, because the feeling that Chen Feng brought to him now was much more dangerous than the yellow bird.

His huge snakehead wanted to hit Chen Feng, wanting to kill Chen Feng.

But, at this moment, the yellow bird suddenly uttered a crisp chirp: "I want to run now? Can you run?"

Her slender neck was suddenly wrapped around the snake head!

Although the yellow bird's neck is not long, it is enough to wrap around the snake's head.

She stopped Teng Snake's offensive abruptly.

Teng Snake screamed furiously: "Smelly bitch, you let me go! You let me go!"

But how could Yellow Bird let him go?

At this time, Chen Feng had already come to him.

At this moment, the only thing Teng Snake can move is its tail.

So the giant snake tail hit Chen Feng fiercely again.

There was a loud bang. This time, after a flash of black light flashed through the tattered iron armor on Chen Feng's body, the black light finally disappeared.

The ragged iron armor turned into countless pieces and fell directly to the ground!

Tattered iron armor, finally can't bear it!

And this tattered iron armor only offset almost half of the power of this attack.

The other half of the power is directly borne by Chen Feng.

At this moment, Chen Feng raised his strength to the extreme.

The seven rounds of the big sun were running at almost a crazy speed, and the endless power of descending the dragon and the arhat permeated Chen Feng's body.

The snake's tail crashed down, and even if Chen Feng's power was turned to the extreme, he couldn't resist this move at all.

This is a force that Chen Feng cannot match at all.

Chen Feng felt that he had been hit. At this moment, Chen Feng felt that the flow of time had slowed down.

So, at the next moment, he felt that the right leg he was hit was directly shattered, and the flesh and blood were just tattered and hung on his body.

Then he felt the snake's tail hit his torso.

When he drove away, all his bones were broken, his internal organs trembled violently, he was bleeding crazily, and it was almost erosive.

In the next moment, he knew that this huge snake tail would fall on his chest.

At that time, as long as the heart is broken, he will die directly.

But Chen Feng didn't have any panic, his eyes were as deep as a pool of water.

Chen Feng is very clear about what he should do now.

And he had already prepared for it.

At the next moment, a pill appeared in Chen Feng's hand.

Green like jade, exuding a strong fragrance of medicine, it is the Tengjiao Qifeng Dan!

Afterwards, Chen Feng directly incorporated this pill into his own mouth at a very fast speed.

At the same moment, the giant snake's tail hit Chen Feng's chest.

Chen Feng's flesh and blood shattered, his bones turned into powder, and his internal organs were severely squeezed at this moment.

Seeing the next moment, Chen Feng is about to die!

Teng Snake's strength is too terrifying, one tenth of its strength is enough to kill Chen Feng in a second!

Teng She's proud eyes flickered, and it was at this moment.

That pill entered Chen Feng's mouth, into his blood, and quickly played its role.

In the next moment, the immense cooling medicinal power, full of healing power, instantly flowed through Chen Feng's body.

As a result, all of Chen Feng's bones reunited.

Chen Feng's internal organs all returned to normal, and Chen Feng's broken flesh and blood grew into immediately.

Even his skin became as smooth as jade.

Even his aging appearance has changed a bit.

In this instant, Chen Feng not only had all his injuries healed, but even his strength returned to its peak in an instant.

All the blows caused by these three snake tails had disappeared.

Teng Snake yelled in disbelief: "How is it possible? What kind of medicine is this?"

"How is it possible? Are you sure of my offensive?"

Of course Chen Feng would not tell him that before coming here, Chen Feng was studying him all the time, and of course he would make accurate judgments.

At this time, Chen Feng laughed loudly, extremely happy in his heart.

He knew that the preparations he had made before, after all, had an effect.

At this moment, in front of Chen Feng was the huge cross-shaped wound, and nothing else.

Chen Feng jumped directly into the huge cross-shaped wound in the midst of the laughter.

Each of the two wounds is hundreds of meters wide, and Chen Feng can easily stand inside.

At this time, Teng Snake could no longer attack him.

Because when he attacked Chen Feng, he was attacking himself.

Moreover, even if he killed himself, he might not be able to touch Chen Feng.

Because compared with him, Chen Feng is too small!

After Chen Feng came here, he went deep into it at a very fast speed.

Soon, he came to the innermost part of this huge cross-shaped wound.

The black and coke-like thing in front of him has disappeared, replaced by cyan flesh and blood.

At this time, in the flesh and blood, there was still cyan blood flowing out continuously.

Every drop of blood fell, Chen Feng must be careful to avoid it. Otherwise, it would be uncomfortable to be caught by a drop of snake blood.

At this time, Teng Snake finally recovered.

He stared at the yellow bird and said viciously: "I can't solve this little **** right now, I can only solve you first, and then kill him."

[Chapter 2962: Bai Hong Guan Ri Zi Lei Dan! burst!](#)

The yellow bird looked at him and said with disdain: "Do you want to solve me? Do you think it's that easy?"

"It's not that easy, I have to do it!"

Teng Snake's face showed a rare and solemn expression at this time: "I have lived for so many years, and I am very sensitive to danger."

"I didn't perceive any danger before, but after this little **** appeared, I immediately sensed a breath of despair in him."

"If I don't take it seriously today, I will definitely die!"

As he said, his aura slowly improved, and in an instant he changed from being extremely impatient just now to being extremely calm now.

There was also a solemn expression in the yellow bird's eyes. She knew that it was going to be desperate to Teng Snake.

The yellow bird struggled hard and escaped from a distance, staring at Teng Snake and said, "You are going to work hard, right?"

"Okay, I will accompany you to fight this time!"

"I want to see if you can beat me, or I can beat you!"

Teng Snake didn't stop him from leaving, and smiled coldly: "Okay, let's take a look!"

"But, before that, I'm going to trap this little **** inside!"

With that, the muscles on his body suddenly tightened.

Especially for the cross-shaped wound, the surrounding muscles began to squeeze toward the middle.

Constantly squeeze in the middle, the muscles become tighter and stronger.

And Chen Feng felt that the flesh and blood walls on both sides of him were constantly moving towards the middle.

It was hundreds of meters away, but now it's only tens of meters away.

He couldn't help feeling horrified: "This snake is really powerful. After suffering such a heavy injury, the muscles are still so powerful!"

At this moment, his muscles are squeezing in the middle, but after squeezing to a width of about tens of meters, his muscles can no longer squeeze in the middle.

This is the limit he can do.

However, he had done well enough, and the originally huge cross-shaped wound was squeezed by his muscles by 90%.

Only a few tens of meters in width is left. If he counts on his huge body, this tens of meters in width is just a seam.

It is as if a person was lightly cut with a small wound on the body by a paper-thin knife.

However, this wound is exceptionally deep.

A look of regret appeared in Teng Snake's eyes: "If it wasn't for your **** to figure it out before, now my muscles can be completely squeezed together, squeezing that little bug to my death. Inside."

"Now, I can only do this step, but well..." *ηoVεlusb.coM*

With a weird smile, he said triumphantly: "This step is enough."

"Now the innermost muscles on the inside of my cross-shaped wound are completely squeezed together. Does he think I can't see his plan?"

"He wants to get into my body through this wound of mine, but how is it possible?"

"Those strong muscles squeeze together, he can't break my defense at all!"

"Hahahaha..."

As he spoke, he gave out a weird smile.

Chen Feng naturally heard this laughter clearly. His figure was flashing rapidly at this time, and he had already reached the deepest part of the wound.

At this moment, Chen Feng faced layers of incomparably powerful cyan flesh and blood, filled with a large number of tendons, pulsating one by one, flashing an extremely strong sense of strength.

Teng Snake laughed wildly: "Little boy, now you have seen my flesh and blood?"

"Are you still trying to get into my body?"

"Hahaha, tell you, this is impossible! You should give up your delusion!"

At the corner of Chen Feng's mouth, there was a sneer, and he sighed softly: "Everything I gave in Tianzi City is worth it."

"All the preparations I made are useful!"

"Now, I will let you know if I know Chen Feng if I am wishful thinking!"

"Do you think this can stump me?"

The next moment, Chen Feng yelled, and a jade box appeared in his hands.

Then, the jade box shattered.

then,. Two things the size of a red fist were held by Chen Feng.

The next moment, he rushed forward fiercely, pressing these two things directly into the flesh and blood of the snake.

Then, Chen Feng quickly backed away and hid in a sunken flesh and blood.

Blocked himself with the flesh and bones of the snake.

Teng Snake immediately felt it, and he let out a fierce roar: "Little bastard, what the **** are you doing in my body?"

As soon as my muscles contract, I want to squeeze out those two things!

But how is it possible?

These two things have been activated in an instant!

The two things that Chen Feng stuffed in were exactly: Bai Hong Guan Ri Zi Lei Dan!

Just when Teng Snake wanted to squeeze his muscles, he forced out the two Baihong Guanri Purple Thunder Pills.

Bai Hong Guan Ri Zi Lei Dan was directly broken.

When the Baihong Guanri Purple Thunder Pill was broken, it did not make a loud noise like the previous moves and weapons used by Chen Feng, but only with a soft slap, a crack appeared on the surface.

Then, the crack gradually enlarged and penetrated the entire body of Baihong Guanri Zi Lei Dan.

The crackling sound was like the moment when a chick's egg shell cracked and broke out.

Not only did there not have the slightest sign of violence, there was no sign of killing, but it seemed to be full of life.

It feels very comfortable as if you are creating a new life.

However, what comes out of it makes people feel uncomfortable.

As the white rainbow pierced the sun and the purple thunder pill split, a purple thunder flew out directly from inside.

This purple thunder, shaped like a cloud, is extremely beautiful and gorgeous.

The shape is like Ganoderma lucidum, loose and about two feet in radius.

However, in that cloud, there are countless terrifying thunders.

Its color is crimson.

Crimson, like blood!

After seeing the thunder, Chen Feng suddenly trembled violently in his heart. There was a feeling of hairy in his heart, chills all over his body, and he shivered violently, and he couldn't help taking a step back.

That kind of despair, full of the danger of death, as if to annihilate himself alive, suddenly appeared.

He was incomparably shocked: "It turns out that the Thunder of self-consciousness and self-life has been produced in the Baihong Guanri Purple Thunder Pill!"

"It's horrible, I feel, how can I just wipe out the ashes that I chopped?"

These two thunders were full of overbearing and devastating aura.

And the next moment, Chen Feng suddenly felt that the two thunders seemed to face him, and a voice rang in his heart, as if asking where Chen Feng was attacking.

[Chapter 2963: Scary purple thundercloud!](#)

Purple thundercloud, red thunder!

Brilliant!

Chen Feng was immediately happy.

"Sure enough, the thunder that has produced consciousness, has produced its own life, will even ask me!"

At the next moment, Chen Feng didn't say anything, just pointed at the cyan flesh and blood.

As a result, the two purple thunderclouds understood and flew directly towards the blue flesh and blood.

The speed seemed unsatisfactory, but in fact it was almost at its extreme, and it was just an instant hit directly on the blue flesh and blood.

The purple lightning cloud is very subtle, and it is nothing compared to the numerous muscles that are as large as the same blue-blue mountain.

However, when it fell on the muscle, it made a soft piercing sound.

Then, Chen Feng saw that a huge hole had been broken in the red muscle.

The height is seven or eight meters, and the width is three or four meters.

When the purple thundercloud moved forward, there was almost no movement, it was very flat, as if it was sliding through the void, and it looked effortless.

Even the sound was very subtle, just a little sneer.

Even people who don't know will think this red thunder is powerless.

But in fact, Chen Feng was extremely shocked.

This thunder is too strong! so amazing!

Teng snake's muscles are not enough to describe it as hard as iron stone. It can be said that it is extremely hard, and it is many times harder than most orange material grade metals.

But at this time, he broke a big hole so easily.

The purple thundercloud slid forward in an extremely leisurely posture, wherever it passed, all the muscles were turned into a mass of flesh.

No, it should be said that it was directly vanished, turned into nothingness, and disappeared without a trace!

And after it moved forward, a huge passage appeared.

Only Chen Feng could hear its advancing sound, but Teng Snake and Yellow Bird could not even hear it.

But even though I couldn't hear it, the pain in my body was coming.

He let out a miserable scream, and he felt this extremely intense pain, which was countless times more intense than the pain that the yellow bird had caused him just now.

He yelled frantically, "Boy, what method did you use?"

"What method did you use? Can you break my flesh and blood? Can you break my defense?"

At this moment, the arrogance on his face, that full of disdain for Chen Feng, has disappeared without a trace.

Instead, it is extreme fear.

A smile appeared at the corner of Chen Feng's mouth, and after the purple thundercloud, he burst forward all the way.

The thickness of the muscles here has reached a full hundreds of meters, after all, Teng Snake's body is so huge.

If Chen Feng came by himself, I don't know how long it will take to break it open.

But the purple thundercloud only took a short moment to reach the end of this piece of flesh and blood.

At this time, what appeared in front of him was a light blue film.

It looks very thin, but it shows infinite power, with countless blood vessels on it.

After the purple thundercloud arrived here, it was actually blocked.

Chen Feng was stunned for a while, but then his heart was pounding.

"The last defense! This is the last defense in Teng Snake!"

"After breaking this defense, it is his internal organs!"

After the purple thundercloud was blocked, Chen Feng obviously felt a shock of consternation coming from him.

But the next moment, this consternation turned into extreme violence and anger!

That anger even made Chen Feng's heart trembled violently.

Then, the next moment, it seemed that the purple thundercloud that had been forbearing before, and the purple thundercloud that had not occurred, finally let Chen Feng see his true power.

Finally all his anger broke out!

There was a loud bang, and the silence just now was taken away in an instant!

A huge burst of sound suddenly sounded, and the two purple thunderclouds fiercely blasted on the cyan film.

With a loud bang, the purple thundercloud shattered directly, and the cyan film was also directly torn apart, exposing countless large and broken holes.

Tengshe's body stiffened in an instant, and he stiffly froze there for a moment.

And the next moment, he let out a terrifying howl, and his body slammed on the platform frantically. The whole platform that was hit was constantly broken and sank several meters.

The entire Tongtian Jianmu was swayed crazily by him, and uttered a shrill cry.

The roar this time was louder than any previous time, and it was even more miserable.

Obviously, the cyan film is his extremely important point.

Cyan film was first created, and he was also hit hard!

But at this time, Chen Feng no longer cared about his reaction.

Chen Feng was in ecstasy at this time, his figure flashed, and he immediately got in through the big hole.

In the next moment, Chen Feng felt as cold as ice around his body, as if he was in the ice and snow.

Chen Feng was horrified: "The temperature here is only a few hundred degrees below zero. It is the unprecedented cold I have experienced."

Then, Chen Feng looked around.

Suddenly, there was a look of wonder in his eyes.

At this time, what appeared in front of Chen Feng was a huge space.

This space has a radius of tens of thousands of meters and a height of hundreds of thousands of meters.

So huge, huge enough to hold many huge peaks!

But here is actually the body of Teng Snake! In the body of this behemoth!

As far as Chen Feng's eyes were, there was a faint blue color everywhere.

Chen Feng was floating in the air at this time, and hundreds of meters away from his right hand was a rock wall standing upright.

The stone wall is blue all over, and even a thin layer of blue ice has formed on the surface.

However, if you take a closer look, you will find that under the blue ice is a piece of bluish-blue flesh and blood.

Where is this stone wall?

It is clearly the body of the snake!

Not far in front of Chen Feng, there were huge blood vessels with a diameter of hundreds of meters.

The pulsation of this huge blood vessel throbbed, and there was blue blood flowing in it, and it exudes a deep chill.

Chen Feng looked far away, and he saw that there were many extremely huge internal organs.

The surface is also all a faint blue color, these faint blues are extremely deep, even about to become black.

Chen Feng exclaimed: "This is simply a huge miracle!"

Chen Feng didn't have time to think about it, and immediately started looking for the location of the inner alchemy.

Chen Feng saw other internal organs in his body, but these were not what he wanted. What he wanted to find was Tengshe's inner alchemy.

[Chapter 2964: Teng snake inner alchemy! I'm coming!](#)

Chen Feng dared to conclude that the inner alchemy was near this area, but did not know why Chen Feng could not find it.

He didn't see anything like it wherever he could.

However, Chen Feng didn't feel any panic. He immediately sat cross-legged in the void, carefully sensing it.

Especially let his dantian and his blood to perceive carefully.

After feeling for a while, Chen Feng felt that the deepest part of his soul and the lowest level of his bloodline, there was a vague desire to be revealed.

This desire is getting stronger and stronger, and in the end it has become an extreme desire.

And the root of desire points to...

Chen Feng opened his eyes suddenly, looked at one of them, and flew towards it.

A large blood vessel entangled there, blocking Chen Feng's vision.

Chen Feng separated the layers of blood vessels, and finally, a cyan light flashed in front of his eyes.

The cyan light is completely different from the blue light inside, and the toxins and ice-cold aura inside.

It is extremely noble, extremely vigorous, and it is filled with the breath of ancient wildness, and it is full of the pulse of life.

As if there is a fountain of life flowing inside!

Chen Feng laughed: "I found it, I finally found it!"

With a bang, his palms blasted out.

The power of Jianglong Arhat rushed out, directly smashing the dozens of thick blood vessels entwined in front of him.

Suddenly, blue blood spilt down, and Chen Feng could not care about so much, and went straight forward.

Finally, a huge ball appeared in front of him.

The diameter of this sphere reaches ten meters. Compared with the other internal organs in Teng Snake, it is almost negligibly small, but the breath that comes out of it is far more than other things, so that no one dare to ignore it. he.

The sphere is smooth and round, and the whole body is verdant, just like the best jade carving.

There seemed to be endless turquoise rays of light circulating inside, and every bit of light was full of the breath of life.

In Chen Feng's eyes, there was a touch of drunkenness, his hands opened, and he made a sound like amazement.

"Neidan! Tengshe Neidan! I found it! I finally found you!"

At this time, Chen Feng felt an unspeakable excitement in his heart, and his goose bumps were all over.

His heart was beating wildly, his face was instantly red, and the blood flow rushed through his body like a big river.

He was so excited!

You know, this is a decisive thing whether he can survive!

With the inner alchemy of the snake, he can survive!

If not, he will have at most three days of life span!

How does this make Chen Feng not excited?

Chen Feng yelled: "I found it, I finally found it!"

Chen Feng was immediately convinced that this was indeed Tengshe's inner alchemy.

Because he was still hundreds of meters away from the inner alchemy, and at this time, the aura from the inner alchemy made Chen Feng feel very comfortable, and he felt that his breath of life seemed to be recovering!

At this time, Teng Snake let out a roar, with unstoppable fear in his voice: "Inner alchemy? His target turned out to be my inner alchemy!"

He immediately stared at the yellow bird with blood red eyes, and shouted: "How could he know my inner alchemy?"

"How does he know where my inner alchemy is? Did you tell him? Did you two collude with me?"

Teng Snake smiled disdainfully and said: "You are worthy too? Why would I bother to do this kind of thing?"

"He should have come for your inner alchemy, and he found the position of the alchemy himself. We just accidentally partnered up this time."

Teng Snake let out a violent roar: "Does he think it is enough to get my inner alchemy? I will kill him now!"

"Even if he is inside me, I can kill him!"

In fact, he was completely bragging.

With Chen Feng in his body, it is very difficult for him to hurt Chen Feng. After all, the internal organs have almost no power.

Almost all of his strength is concentrated on the periphery of his body!

The yellow bird immediately exposed and smiled disdainfully: "You still want to kill him? Now you should take care of yourself!"

With that, he killed the snake again, with an unprecedentedly powerful posture, almost desperately trying to fight the snake.

Tengshe exclaimed: "You want to take this opportunity to kill me?"

The yellow bird's voice was filled with unspeakable firmness and a rare trace of ferociousness: "Do you finally understand? It's a pity that it's too late!"

"I just want to take this opportunity to kill you!"

With that, she was directly fighting Teng Snake's life, and madly killed Teng Snake, even more crazier than before.

Suddenly, the two were caught in a fight, which was more intense than the previous battle!

Following the battle between Tengshe and others, his body shook violently, and his body was turned upside down, which also caused Chen Feng to wake up immediately.

He instantly suppressed the ecstasy in his heart, and a voice in his heart yelled: "Chen Feng, you can't be proud of it until you fully recover!"

He took a deep breath and looked at the inner alchemy in front of him.

Then, in Chen Feng's dantian, the seven rounds of great suns were all rapidly rotating, and endless golden rays of light radiated from those seven rounds of great suns, converging into the power of the dragon descending Arhat.

The power of this dragon descending Arhat is like an angry dragon leaping out directly from Chen Feng's palms.

A huge golden angry dragon smashed forward frantically. His goal was the huge inner alchemy.

With a loud noise, the golden angry dragon slammed into the inner alchemy.

As soon as Chen Feng came up, he did his best to break this inner alchemy as quickly as possible.

He already knew how to absorb the inner alchemy before he came. After all, although few people have seen Teng Snake, there are many records about Teng Snake in ancient books.

Therefore, Chen Feng already knew how to absorb his inner alchemy.

That is to break it and absorb its essence!

And Chen Feng's full effort was also rewarded. With a loud bang, the golden dragon descending Arhat power hit the inner alchemy, and the inner alchemy trembled violently, slightly shifting to the side. Then he returned to where he was just now.

Chen Feng saw that the cyan surface of the inner alchemy was already slightly sunken.

Chen Feng was overjoyed, and the power of descending the dragon and Arhat continued to bombard madly.

There was another loud bang, and that little bit was a bit bigger than before.

At this time, Teng Snake was entangled with the yellow bird crazily, his huge beak bit one of the yellow bird's legs, and the yellow bird's two iron claws fixed his head.

[Chapter 2965: Shou Yuan is restored!](#)

The bird's beak was constantly sticking around his body, and he couldn't be distracted to deal with Chen Feng at all.

At this time, Chen Feng could attack him at will.

It was the third time that Chen Feng attacked it with the power of the descending dragon and Arhat, and this time, the small dot above was enlarged a bit, but it was still not broken.

Chen Feng frowned: "If the fight goes on like this, I don't know when it will break!"

Suddenly, at this time, Chen Feng slapped himself on the head and cursed secretly: "Chen Feng, why are you so uncomfortable?"

"Why did you forget your most powerful move?"

Chen Feng shook his head, suppressing all the impatience in his heart, and then yelled: "Wentian Swordsman, come out!"

Behind him, the natal knives appeared.

Wentianzhan's divine sword came out and hovered directly above Chen Feng's head. Fortunately, the space here was large enough, otherwise, it was not enough.

Chen Feng raised his hands and punched countless seals.

With a roar, the Buddha's Thunder Purgatory of Exterminating Demons, burst out!

Above his head, the Wentian Divine Sword Blade, wrapped in a golden dragon, slashed on the inner alchemy.

Wentian Zhan Shendao shot, really extraordinary.

With a loud bang, the inner alchemy trembled violently, and the position where the Heavenly Slash Divine Sword was asked was directly sunken. There were countless cracks beside it, and juice leaked from it.

Chen Feng laughed loudly: "Wentian Swordsman, come again!"

Then, the Buddha's Thunder Purgatory of Exterminating Demons, once again bombarded it.

Wentian Zhan's divine sword slashed on it, and the golden dragon slammed on it. There was a loud bang, and the sound of breaking suddenly came.

Above the inner alchemy, there was a big hole cracked directly, but what came out of this big hole was not juice, but countless green brilliance.

This green brilliance resembles gas, liquid and solid, but in fact it is nothing.

Chen Feng felt that there was a slight similarity to the origin of the soul power.

Chen Feng didn't know what it was, but he knew that in this green and misty brilliance, there was endless aura of life and endless aura of soul.

At the same time, it also attracted Chen Feng greatly.

As soon as this green and misty brilliance appeared, Chen Feng felt that the desire in his body suddenly increased countless times, and he couldn't wait to inhale all these green and misty brilliance in one bite!

Chen Feng trembled with excitement. He could hardly control his body: "This is what I want, this is what I want!"

"It is this power that can repair my life source, can repair my power, and can give me the same life span as a warrior of the same level! Not just this short three-day life span!"

"I got it, I finally got it!"

Chen Feng rushed forward frantically and plunged directly into the green brilliance.

Then, he took a deep breath, and a voice in his heart yelled frantically: "Chen Feng, you have to control yourself!"

"Chen Feng, you must be calm at this time, you must absorb it carefully, and absorb it carefully, otherwise, not only will it not save you today, but it will more likely cause you to suffer bad luck!"

"Chen Feng, you must calm down!"

Chen Feng took a few deep breaths, and finally calmed down his extremely excited heart.

Then, for an instant, the whole person was already feeling like water, and his emotions were extremely calm!

"To absorb the energy of this life source, neither Dantian nor my soul power can be used. There is only one way, that is..."

Chen Feng took a deep breath, spreading his hands and legs, and lying flat in this shining light in an extremely relaxed posture.

Then, in his body, in his blood, every inch of flesh and blood, and every bone, there seemed to be endless suction.

I saw small whirlpools appearing in Chen Feng's blood.

The blood all rotated in the opposite direction, forming one vortex after another, and in an instant, tens of millions of vortices were formed in Chen Feng's body.

Suction power came from these vortices. At the beginning, the suction power was still very small, but then it became bigger and bigger.

And as the suction came out from Chen Feng's body surface, the green brilliance suddenly began to rotate with a bang.

Then, he threw himself into those little whirlpools.

The green brilliance plunged directly into Chen Feng's body, into his blood, into his muscles, and into his bones.

And almost at the moment he entered, Chen Feng felt that his whole person was suddenly different.

The whole person seemed to be greatly satisfied and relieved.

At this moment, her body was indescribably comfortable.

This comfort is neither physical comfort nor spiritual comfort, but is somewhere in between. It is an indescribable feeling.

That was the great joy after Chen Feng's life source energy was complemented.

Chen Feng felt that his life was constantly increasing, from three days to ten days, one month, and then several months.

And at this time it is still growing, growing!

Chen Feng didn't even want to laugh out loud at this moment. He felt that his mind was empty at this moment, unspeakably comfortable, unspeakably comfortable.

There was a smile at the corner of his mouth, like a smile with a twist of flowers.

At this time, Chen Feng's body was also being transformed by the bright green brilliance.

Chen Feng's bones, which had become loose and aging, became extremely firm again, and his muscles became extremely tight, even firmer than before, full of golden color.

Chen Feng's skin also became firm and fair as jade.

Chen Feng's old face became young again at an extremely fast speed, and all the wrinkles on his face disappeared.

His face was fair and smooth, and his long white hair became black as jade again!

Even his face looks younger than before. He originally looked like a twenty-six or seven-year-old youth, but now it seems that he has returned to the way he was when he was sixteen or seventeen!

A beautiful young man, a country and a world!

This most original life force poured into Chen Feng's body, and Chen Feng's lifespan at this time continued to increase.

After a while, it has recovered to one year, then it has grown to three years, and then it has grown to five years.

At this time, although Chen Feng was comfortable to the extreme, Tengshe was suffering to the extreme.

The moment Neidan was smashed, he had already screamed and his body was struggling frantically.

[Chapter 2966: Domineering original toxin!](#)

The intense pain was much heavier than the huge wound he was scratched by a yellow bird on his body last time!

He twisted frantically, trying to fight back, but he was trapped by the yellow bird and couldn't fight back at all.

Moreover, it was not the pain that came that had the greatest impact on him at this time, but the damage to his inner alchemy, which directly caused him to suffer severe injuries.

In his throat, blood rushed out frantically, and his breath continued to drop.

The mere blow of Chen Feng's inner alchemy had already caused him serious injuries.

Moreover, his injuries continue to intensify.

Because Chen Feng is constantly absorbing the essence of the inner alchemy.

And this is equivalent to his essence is being consumed continuously!

A touch of joy appeared in the yellow bird's eyes: "Now, it's time!"

As a result, she beat the dog in the water and used her strongest strength to bombard the snake crazily.

Teng Snake was beaten so terribly, his body fell on the top of Tongtian Jianmu one after another, only to be beaten, not even able to fight back!

Chen Feng is still absorbing the power in the inner alchemy.

He felt that his life essence was getting more and more abundant, and his lifespan was getting longer and longer.

Finally, as another trace of green natal essence was sucked into Chen Feng's body, there was a huge hum in his mind.

This buzzing made Chen Feng extremely happy.

He felt as if there was something suddenly awakened in his heart.

So he naturally understood what happened.

There was a chuckle at the corner of his mouth, and he whispered to himself: "Now, my life span has risen to a full 100 years!"

Chen Feng is desperately absorbed, faster and faster.

In the end, even his entire body slowly floated forward, directly drifting into the inner alchemy.

In the inner alchemy, with a radius of ten meters, there is a space that is not too small.

And inside, it is full of that green brilliance.

Inside, the density of the green radiance is much denser than the one just leaked outside.

Chen Feng was floating in it, and the speed of absorption suddenly increased!

At this time, Teng She's eyes flashed with a strong to extreme cruel color: "Little bastard, do you want to absorb my inner alchemy?"

"Okay, then I will fulfill you!"

A hint of hatred flashed in his eyes: "I will pour the toxin into the inner alchemy, and I will pour my original toxin into it!"

"The slightest toxin in my blood is enough to poison you to death, let alone my original toxin that is thousands of times more toxic!"

"With just one drop, you will be poisoned to death!"

"This is how you dare to covet my inner alchemy!"

He let out a crazy roar!

Teng She has always been unwilling to pour his toxin into the inner alchemy, because the inner alchemy is the last hole card he left for himself, and the last back hand he left for himself.

If he can make good use of it, he can use this inner alchemy to reinvent himself.

Therefore, he is unwilling to inject toxins into it.

As long as it is injected, this inner alchemy will be destroyed.

But now, he can't care about it.

He looked up to the sky and yelled with extreme anger: "Little boy, you want my life, and I can't want you to live!"

The next moment, all the blood in his body was beating like crazy.

Those blue toxins surged wildly, instilling them in the direction of the inner alchemy.

Soon, I came to the sky above the inner alchemy. The next moment, the endless source of toxins directly penetrated into the inner alchemy.

And the green brilliance in the inner alchemy also brought a hint of blue light!

At this time, Chen Feng was still immersed in the comfort of absorbing the essence of the source.

At this moment, Chen Feng felt that there was another huge hum in his brain.

It's just that this time, it's completely different from just now.

The buzzing just now was bursting, brave, and breakthrough.

But this time the buzzing was gentle and natural.

Chen Feng felt as if something that was missing in his body had been supplemented instantly.

It was as if the last short board that was missing in his life and soul was suddenly and perfectly embedded at this time.

At this time, the comfort in Chen Feng's heart was many times stronger than before.

He was extremely happy in his heart, as if it were a great accomplishment.

Chen Feng said slowly: "I have completely restored the essence of my life that I had lost before."

"Those original powers have been completely made up, my life span has been completely made up, and I have returned to the age that a martial emperor realm powerhouse should have."

It's just that although Chen Feng was immersed in ecstasy, he was never overwhelmed.

He has been watching the surroundings very keenly.

Because Chen Feng knew that being in Teng Snake's body meant that he was in danger all the time, and he had to be careful.

Otherwise, if you are not careful, your life will be lost.

At this time, the original toxin had just appeared in the inner alchemy, and Chen Feng immediately noticed it.

So, what he instinctively used was to use the power of the dragon descending Arhat to greet him forward and resist the original toxins.

Those original toxins gave Chen Feng an extremely dangerous feeling.

As long as he is physically present, Chen Feng knows that he will definitely be killed.

The power of the dragon descending Arhat put a thick layer around Chen Feng's body, facing the original toxins.

And the strength of the dragon descending Arhat, which has always been disadvantageous, is actually a little struggling with the original toxin.

When the two met, it was immediately like a snowy ground splashed with boiling water, and there was a chuckle, chuckle, and countless craters were corroded.

Then, a big hole appeared directly above.

Chen Feng frantically urged the power of Jianglong Arhat to fill this gap.

But the original toxin was too violent. In an instant, the original toxin suddenly exerted its force, corroding the power of the dragon descending Arhat guarding his body, corroding countless large holes.

Chen Feng didn't have time to supplement, so the next moment, the original toxin immediately pounced on Chen Feng.

With the original toxin coming into the body, Chen Feng's heart immediately tightened.

After the original toxin came into his body, Chen Feng found that his body did not feel any pain or the like.

On the contrary, he felt that the location where he was touched by the original toxin was as comfortable as being soaked in warm water.

However, after getting comfortable, the whole body is numb.

After numbness, he lost consciousness.

Chen Feng looked there and saw that the parts of his limbs had already turned into a faint blue color, and under the blue, there was endless silence.

[Chapter 2967: Skinny Arhat! Suddenly attacked!](#)

Chen Feng had already lost control of that part of the body, which had been completely corroded.

Chen Feng was shocked: "I have such a strong strength, and I can't do anything with ordinary toxins."

"And this toxin is so domineering!"

"This toxin is really powerful!"

"Moreover, this blue is still spreading forward at an extremely fast speed!"

It was only one moment of zero, and Chen Feng saw that half of his body had lost control.

And the next moment, that half of Chen Feng's body revealed infinite silence.

Chen Feng knew that all his blood vessels, bones, and muscles had been eroded by the original toxin.

Before any toxin touched Chen Feng, Chen Feng always had room for resistance, but this time, he felt that his resistance was meaningless.

He didn't have any ability to resist, so he could only close his eyes and wait for death.

This feeling made Chen Feng unspeakable despair.

The power of the dragon descending Arhat was urged out by Chen Feng, but facing this toxin, the power of the dragon descending Arhat was not high enough, so it was destroyed again.

The original toxin has been driven in for a long time. The next moment, the original toxin has spread all over Chen Feng's body.

Even Chen Feng's head, Chen Feng's heart, and Chen Feng's dantian were all occupied by the original toxin.

At this time, Chen Feng only had consciousness or he could control.

A thought came into Chen Feng's mind: "I'm going to die? Am I going to die?"

It was ecstasy a moment ago, but now it has become a great compassion.

And Chen Feng almost just had the meaning that I was going to die, the next moment he was already occupied.

This original toxin is so overbearing!

In Chen Feng's heart, it felt extremely absurd, and even a feeling of wanting to laugh: "That's it? That's the end of my life? It's the end of it easily?"

"How can it?"

But in the next moment, the extremely absurd feeling in Chen Feng's heart, even the feeling of wanting to laugh, turned into endless anger and endless resistance.

There was a voice in his heart that was madly roaring: "How can I die? How can I, Chen Feng, die here?"

"I still have so many long-cherished wishes! I still have so many relatives to save!"

"I have to find the trace of my uncle! I have to rescue Senior Sister and An Lao! How can I die now!"

"Chen Feng! You have so many people's sustenance, you have so many things that you haven't done, how can you die here!"

Chen Feng's heart roared again and again.

And as the roar in Chen Feng's heart sounded, finally, a few golden lights flashed in his body, blocking the original toxin.

Although the original toxin was only blocked for a moment, Chen Feng's heart was immediately lifted up.

This is the first time the original toxin has been delayed.

Chen Feng's thoughts immediately sank, and he soon found the source of the toxin that blocked the original source.

Those seven points of light are the seven great suns.

At this time, the Seven Rounds of Great Sun had been oppressed to the limit.

But because of this, their power of descending the dragon and Arhat is extremely condensed.

Chen Feng even saw that these seven rounds of great sun, at this time, all the power in it was transformed into the essence of the power of the dragon descending Arhat.

You know, it turns out that Chen Feng only had two rounds of the power of the dragon descending Arhat condensed, and the other five rounds were the ordinary dragon descending Arhat power.

Now, under the tremendous pressure of this original toxin, they all transformed into the power of the dragon descending Arhat.

"Evolved?" Chen Feng smiled bitterly: "This is also a blessing in misfortune!"

Seven rounds of the sun, like a seven-point candle, swaying constantly, after all, it is still resisting strongly!

Chen Feng's thoughts sank into his dantian at this time, staring at the seven rounds of the big sun, because this was his last hope.

These seven dazzling candlelights were the last ray of life for Chen Feng to survive.

However, at this moment, Chen Feng suddenly felt something in his heart.

So, he immediately turned around in amazement and looked around.

The next moment, Chen Feng's pupils contracted and a look of horror appeared on his face.

He couldn't help shouting, "How is it possible? How could this be?"

Chen Feng, who had always been calm and calm, was so shocked, from this it can be seen how shocking things have happened.

It turned out that the place where Chen Feng's eyes were cast was the dark area in his dantian.

In his dantian, that piece of darkness is dead and silent, and I don't know how long there has been no movement.

When Chen Feng looked there, he seemed to be swallowed.

When I want to explore there, it feels like there is a giant beast living inside, there is no bones that can kill myself.

So he never entered there.

However, now, at this moment, that dark area, that dark area, suddenly split directly.

It was not until this time that Chen Feng realized that the darkness was so huge that it had already occupied a full half of his dantian in silence.

At this moment, the darkness cracked, as if the entire space was cracked.

Then, a bit of existence was slowly buffered from it.

After Chen Feng saw it, his pupils shrank instantly.

It turned out that Chen Feng knew this person who rushed out.

It turned out to be the skinny Luohan who had existed in his dantian at first, and then disappeared!

This skinny Arhat had his eyes closed, and there was only one tattered robe on his body.

That tattered robe was not the usual red and gold color, but the color of pitch black.

His body is thin, his face is thin, and the whole is like a few corpses.

The muscles on the body are like dry wood carvings.

Chen Feng yelled out: "It turned out to be you? It turned out to be you!"

Chen Feng knew this skinny Luohan. He had existed in his pubic area for a while, but later disappeared without a trace and his whereabouts are unknown.

Chen Feng searched for a long time but couldn't find it.

But he didn't expect that he was hiding in that dark corner!

At the next moment, Chen Feng exclaimed again after seeing the mount riding under the skinny Luohan.

It turned out that Chen Feng knew the mount riding under the skinny Luohan!

Not only do they know, but they are also very familiar!

This mount is exactly his huge Thunder Dragon!

However, at this time, Thunder Dragon, his eyes were dull, his face was dull, there was no expression in his eyes, but the aura on his body was indeed countless times stronger than before!

The skinny Luohan, riding a huge Thunder Dragon, jumped out from the darkness!

Charge outward a little, and his size will become one point bigger.

Afterwards, it has become overwhelming.

It's huge!

[Chapter 2968: Chen Feng! In desperation!](#)

At this moment, the skinny Luohan suddenly opened his eyes.

When Chen Feng met his gaze, he suddenly felt cold.

What kind of eyes are these!

It is full of silence, full of killing, full of blood, full of violence, full of all negative emotions!

In the next moment, as he opened his eyes, an endless black mist rose up on his body, as well as that of the Thunder Dragon.

The black mist, intermittently, felt like the mottled bark on the dead wood.

It is also like the breath before death, like a candle swaying in the wind.

In the black mist, there was a strong sense of death, and he rushed towards Chen Feng fiercely.

At this time, Chen Feng was only the soul body in his dantian.

After such a shock, he felt a buzzing in his brain, and felt that his entire soul seemed to be washed away, and his emotions were instantly overwhelmed!

The skinny Luohan stopped in the distance of Chen Feng, looked at Chen Feng, and made a strange laugh!

In Chen Feng's heart, there was a sudden light: "It's no wonder that the dried up remains of the martial arts Tianhe leads to the darkness,"

"I remember that the end of the martial arts Tianhe was the residence of the skinny Luohan."

"Sure enough, where are you hiding!"

"No wonder, my Thunder Dragon, unknowingly, disappeared without a trace, even that piece of Thunder Dragon pendant was quietly broken."

"It turns out that he was captured by you and became your mount!"

"No wonder, no wonder, it turns out that you have grown so quietly in my dantian!"

Chen Feng's phantom, standing in this dantian, looked at the thin and ferocious Arhat riding the giant Thunder Dragon, and said slowly.

At this time, he has no panic!

"Yes, it's me." The skinny Luohan looked at Chen Feng at this time, and finally spoke.

His voice was hoarse and dry, as if two pieces of iron sandpaper were constantly rubbing.

At this moment, he suddenly stood up on the thunder dragon and looked down at Chen Feng.

His eyes were full of arrogance and contempt, as if looking down at an ant.

Chen Feng said softly: "I only have one question now, that is..."

He stared at the skinny Luohan and said word by word: "Why does your strength grow so quickly?"

This was something that Chen Feng hadn't expected. At this time, the huge and skinny Luohan riding the Thunder Dragon appeared before him, whose strength was beyond his imagination.

He felt that he had no power to fight back.

Not to mention it is now, even in his heyday, without the original poison, he can't beat this skinny Arhat!

The skinny Luohan said coldly, "I can grow to what I am today, thanks to Chen Feng, your icy and exquisite heart!"

"You act stubbornly and fiercely, invincible, with a heart, and extremely strong."

"Your faith will never be shaken in any way. Your heart, your nature, are just like the scorching sun, and no defilement is allowed."

"So, you put all the waste generated during your cultivation process, the messy moods, and all the negative emotions during the growth process into my dark corner!"

"Chen Feng, you didn't even realize it yourself, but you are indeed doing this, and you may not know it!"

He looked up to the sky and let out a jealous smile: "These negative emotions, the crises that arise during cultivation, and the fears that arise in the heart, these are imaginary."

"And the wastes and toxins produced during your cultivation are real, and these imaginary and real are the best nourishment for me!"

"This is what allowed me to grow so rapidly today!"

Suddenly, he stared at Chen Feng and said: "If I change to a martial artist, I will never grow to this level in ten years, even thousands of years."

"And you, your cultivation speed is too fast."

"Your strength is too strong, so I am so strong now!"

Chen Feng suddenly said: "Sure enough, I guessed right before."

"It seems to be filled with all my negative emotions, and he has grown so quickly!"

"At this moment, he suddenly got into trouble!"

At this time, the skinny Luohan stared at Chen Feng, smiled and said, "Well, I don't want to have any nonsense with you."

"Now is a god-given opportunity. Although I have grown very strong and may not even be as good as you, I am still alive in your pubic area. You can mobilize infinite power to attack me."

"I have always had concerns, so I haven't launched it for a long time."

"This time, your body has been almost destroyed, and your dantian has been eroded. Only these seven rounds of great sun are left here. Now is the best opportunity."

He laughed wildly: "Chen Feng, you should thank me!"

"Because, if you don't have me, you will be directly corroded by this toxin into a pile of corpses, a carrion, and with me, you can survive in another form."

"Of course, your soul is gone, your body is already occupied by me."

With a sudden jump in Chen Feng's heart, he realized the real purpose of the skinny Luohan.

"It turns out that he actually wants to occupy my body!"

The skinny Luohan took a deep breath, his eyes fascinated.

He stared at Chen Feng and said in amazement, "What a delicious taste. Even though it has been eroded by toxins, the taste of your body, the taste of your blood, and the breath of your body are still extremely delicious."

"The reason why it is so delicious is due to your talent."

"Your talent for this body can really be regarded as unparalleled, tens of thousands of years and hundreds of thousands of years, and you may not even be able to produce one."

"But hahahaha..."

"From now on, this body is mine. After I eliminate the toxins, your body's talent will be damaged, but at least about 70% of it will remain."

"With your 70% talent as the foundation, my cultivation speed will be able to increase countless times!"

"At that time, I will grow into a terrifying powerhouse!"

He wants to occupy Chen Feng's body and start practicing again!

The next moment, amidst his wild laughter, his figure soared wildly.

Originally, his figure was already very terrifying just now, but now, his figure has become hundreds of times the original size.

In Chen Feng's dantian, heaven and earth are huge!

This skinny Arhat riding a Thunder Dragon has become a huge existence.

[Chapter 2969: Come out! Ba Snake Wuhun!](#)

The seven big suns were already huge enough before, and he was even bigger than these seven big suns.

Chen Feng's dantian is thousands of miles away. From now on, it seems very difficult to accommodate him.

His size has reached hundreds of thousands of meters, 200,000 meters.

In Chen Feng's heart, a sense of horror suddenly surged.

Because in his impression, the only thing that can be compared with such a huge existence is the face of the soul-suppressing heavenly king of the soul-killing hall!

At the same time, he instigated the Thunder Dragon under him and slowly came towards Chen Feng.

That Thunder Dragon has also become extremely huge.

The surface of his body became blood red.

No, not blood red, but real blood.

Endless blood oozes out of it, and it looks terrible!

Although his eyes were absent and he didn't have any reaction to Chen Feng, the breath of Thunder Dragon was countless times stronger than before.

Its huge mouth, every time it opens, it exudes endless aura of destruction from his mouth.

Moreover, every time his eyes are opened and closed, the world suddenly becomes obscure or bright.

Every time it swept its tail, it almost shattered this space.

It is already countless times stronger than the original Thunder Dragon!

Chen Feng looked at the skinny dragon riding Arhat, and said in anger, "What happened to you with my Thunder Dragon?"

"Your Thunder Dragon? No, he is neither yours nor the Thunder Dragon."

"I fed it with all kinds of negative emotions, and even I left your dantian, feeding it with all kinds of sinister, vicious, hate, spite, and so on outside."

"Now, it is no longer a Thunder Dragon, but a head..."

His voice is huge: "Extremely evil blood dragon!"

The next moment, the skinny dragon-riding Arhat stared at Chen Feng and said, "Well, there is no need for any nonsense. Now I will kill you and I will take your body!"

Then, he slowly pressed towards Chen Feng.

The aura is endless, and it is almost necessary to crush Chen Feng to death based on the aura alone!

At this time, Chen Feng's situation was extremely dangerous, and it could be described as internal and external troubles.

That violent toxin continued to erode his seven great suns.

The seven swaying candlelights seemed to be precarious.

Inside, in his dantian, the withered and ferocious Arhat riding a huge extremely evil blood dragon had already launched a fierce attack on Chen Feng.

He didn't directly attack Chen Feng, as if she thought it was very unpleasant.

Killing Chen Feng directly is a bit too cheap for him.

He just stretched out his huge paw and squeezed it slightly.

So, with a bang, the huge claws wiped out one of the big suns.

An extremely tyrannical round of big sun was directly extinguished by him, just like a person squeezed out a candle.

This shows that its strength is strong.

He looked at Chen Feng, smiled and said, "I will save you until the last one, I will let you experience a long period of fear, and finally kill you!"

At this time, Chen Feng was already in desperation.

He was already powerless to fight back.

At this time, Chen Feng looked at the skinny dragon riding Arhat, sighed softly, and said, "Do you think I have no trump cards?"

"You think I don't have any strength to fight back, do you?"

The skinny dragon riding Arhat sneered and said: "Chen Feng, you don't have to pretend to me here, I know very well, and I know all your cards."

Chen Feng smiled slightly, a weird smile appeared on the corner of his mouth: "Oh, really? I don't think so!"

The next moment, Chen Feng suddenly yelled, and the power of the martial soul burst out of his body.

It is the power of the martial soul, not the power of the soul.

Feeling the power of Chen Feng's martial spirit, the skinny dragon-riding Arhat seemed to wake up all at once, exclaimed, and shouted: "You, you actually..."

At this time, Chen Feng was already laughing: "My martial soul, come out!"

Chen Feng's laughter still contained extreme sadness, as if he was about to lose something extremely important.

However, it is full of determination!

His voice oscillated repeatedly in his dantian, becoming more and more majestic, more and more magnificent.

The next moment, he went directly out of the dantian and filled Teng Snake's body.

At this moment, Teng Snake was full of pride and said to Huang Niao: "That little **** is still quiet now."

"I feel that he can no longer absorb my essence essence. Now he should have been poisoned to death by my essence toxin."

"Hahaha, it's no wonder."

"My original poison is so tyrannical, he was poisoned to death, that is simply normal."

At this time, the yellow bird felt sad for a while.

Even she felt that Chen Feng should have been poisoned to death by the snake.

Otherwise, it wouldn't be so long without movement.

Actually, it took Chen Feng only two or three moments from his awareness to the present.

But for them, the most top powerhouses, two or three moments are enough to see a lot of things, it is already very long.

And in the distance, in the corner of the platform, Yuechan held the Black Water Profound Snake Queen's Tower in her arms, watching the scene before her with twinkling eyes!

She saw everything that happened just now.

When Chen Feng first appeared, she was shocked, and even the whole person was completely out of control, almost abnormal.

However, he is now fully recovered, just looking at Teng Snake and Yellow Bird with blinking eyes, and he doesn't know what he is making.

In his eyes, there was a vaguely unspeakable resentment.

And the object of her resentment, it goes without saying that Chen Feng is naturally!

At this moment, there was a sudden fluctuation in the void beside Chen Feng's body in Teng Snake's body.

The head of Ba Snake Wuhun suddenly appeared!

This time, Chen Feng's Ba Snake Martial Spirit, not just the head appeared in the void.

It's his whole body, all of a sudden appeared!

The huge Ba Snake Martial Spirit, which was 100,000 meters long, appeared directly in Teng Snake's body!

The body shape of the Ba Snake Wuhun reaches 100,000 meters.

But it was far behind Tengshe, so even though it appeared in Tengshe's body, it was enough to hold him.

However, there is a prerequisite, that is, he appears in Teng Snake's body vertically.

In other words, its direction is consistent with the direction of Tengshe's body, so Tengshe can of course hold him.

However, at this time, when the Ba Snake Wuhun appeared, it appeared sideways in Teng Snake's body.

Its length must be absolutely greater than the width of the snake.

Therefore, as soon as he appeared, he suddenly made two loud noises, and two big holes were suddenly poked out between the sides of Tengshe's body.

[Chapter 2970: Ba snake swallows](#)

Those two big holes can directly see the inside of his body.

Blood poured out frantically from it, Teng Snake let out a scream, his body twisted frantically.

He looked at the limbs of the Martial Spirit that came out of the big hole in his body, and let out a crazy roar: "What is this? What is this?"

"This little bastard, unexpectedly released a martial soul in my body! Ah!"

He was hit hard again, his body ached, and he let out a stern roar: "I'm going to kill him, I'm going to kill this little bunny!"

At this time, the yellow bird is in a good mood.

This means that Chen Feng is not dead.

She giggled and said, "How many times did you say you wanted to kill him? Isn't he alive and well?"

At this time, after the Ba Snake Wuhun appeared next to Chen Feng's body, the skinny dragon riding Arhat in Chen Feng's dantian was immediately sensed.

He roared out: "What's the use of you summoning your martial soul? Can he save your life?"

Chen Feng said coldly: "You know it by looking at it."

The next moment, Chen Feng gritted his teeth, his eyes were very reluctant and unwilling.

But in the end, he made up his mind.

At this moment, Ba Snake Wuhun looked back at Chen Feng, and there was an extremely complicated emotion in his gaze.

The next moment, he became decisive again, and then he opened his mouth.

However, he opened his mouth this time, neither exhaling flames nor roaring, but took a deep breath inward.

How huge is the Ba Snake Wuhun?

Moreover, the Ba snake swallows the sky, although it is an old story in ancient times, but it can also be seen that the Ba snake can swallow almost everything!

He sucked in deeply, and at this moment, there was an extremely huge suction force.

All other suctions have a relatively small source of suction. With its source as its tip, it forms a whirlpool and spreads outward.

And here, when he sucked, the source was its huge mouth, and the vortex of suction was very huge.

But it was like a funnel and a sharp cone, continuously contracting forward, contracting forward, and finally turned into a point, and in the end this point fell on Chen Feng.

At the next moment, it was possible to see that the original toxins on Chen Feng's body were being pulled out at a speed visible to the naked eye.

Following the whirlpool, straight forward, straight forward, and finally fell into the mouth of the Ba Snake Wuhun.

The vortex continued to rotate in reverse, the crazy suction came, and endless toxins were continuously absorbed.

An endless stream.

In a blink of an eye, the entire huge vortex has turned into a faint blue color, which has been completely filled with toxins.

At this time, the faint blue toxin had already filled the giant mouth of the Ba Snake Wuhun.

Ba Snake Wuhun's face showed an extremely painful color, and his entire mouth turned blue, which made his body extremely uncomfortable.

In the next moment, part of his face had already turned blue.

Moreover, this blue is continuously expanding forward at a very fast speed.

The pain on his face is getting thicker, but he is still absorbing it frantically.

It turned out that the Ba Snake Wuhun actually wanted to save Chen Feng's life with his own life!

He wants to use himself to absorb the toxins so as to rescue Chen Feng.

Because Ba Snake Wuhun is a Ba Snake!

Ba Snake Wuhun can swallow almost everything, naturally including toxins.

However, being able to swallow is one thing, whether it can be absorbed, and whether it can be resolved is another matter.

Teng Snake's toxin is extremely powerful, extremely terrifying.

Even the Ba Snake Wuhun couldn't resolve it, he could only swallow these toxins into his body.

However, this also made him inevitably invaded by this thing.

The blue on his body is getting bigger and bigger, but for a moment, that head has already turned blue!

Seeing this scene, the skinny dragon-riding Arhat exclaimed: "You, you still have such a second hand?"

Chen Feng sneered: "Do you think I was not aware of your existence?"

"Do you think I really know nothing about it?"

"Tell you, after knowing that I didn't know something in my dantian, I abandoned you when I did a lot of things."

"You don't even know that I own the Ba Snake Wuhun."

"Yes, or, you know I got an extremely huge martial soul, but you don't know it is the Ba snake martial soul."

"Do you know that the Ba Snake Wuhun can swallow everything?"

"This is my successor today!"

Chen Feng was laughing.

But with a smile, his tears almost fell, and there was an unspeakable sadness in his eyes, and his eyes were red.

He had long known that Ba Snake Wuhun could resolve all this.

But Chen Feng didn't use it for the first time, because he knew it might bring a disaster to the Ba Snake Wuhun!

This is what Chen Feng didn't want to see at all!

The Ba Snake Wuhun absorbed faster and faster, and absorbed more and more toxins. In a blink of an eye, half of his body had turned blue.

At this time, his hard work was also rewarded.

On Chen Feng's head, the blue was gradually fading, and after a while, there was no blue on his head.

Chen Feng immediately felt his control over his brain.

At the same time, he felt that his neck was under control.

Moreover, this control force is still spreading toward the chest.*novelusb.Com*

At this time, the blue on his chest was gradually fading.

As long as the blue faded, Chen Feng could control his heart.

By then, he could almost be said to be invincible.

Chen Feng's control over his body became stronger and stronger, and the long-lost feeling of being able to control his body made Chen Feng almost cry of joy.

"I finally feel my body again! The taste before is really uncomfortable!"

At this time, the skinny dragon-riding Arhat looked at the continual blue color in the dantian and the ever-changing strength, and the remaining six rounds of sun that became hot, revealed an extremely vicious look in his eyes.

"No, you can't wait any longer. If you wait any longer, you might really be able to overturn it today."

With that said, he didn't hesitate anymore, no longer attacking those big suns, but directly killed Chen Feng.

At this moment, in front of him, Chen Feng had no strength to fight back.

He smiled sullenly: "Even if you can pull out your toxin, what's the use?"

"I am in your dantian, and I will kill you directly. After you pull out the toxin, it is just right. I can just use your completely new body!"

"Hahahaha!"

He is extremely proud!

Seeing that Chen Feng was about to suffer the catastrophe, he was going to be completely wiped out.
