

## Peerless 3031

### [Chapter 3031: After January, Wuhun test!](#)

"It really deserves to be the person whom Elder Xiaoyue valued."

He respectfully said to Chen Feng: "Master Chen, the ancestor has requested, please come with me."

Chen Feng nodded slowly and glanced at him.

Then, he followed behind him and left here.

Chen Feng guessed it very clearly that Xuanyuan Xiaoyue should find herself almost at the same time.

Soon, before coming to the main hall.

In the main hall, the door is still open.

Xuanyuan Xiaoyue stood there, waiting for Chen Feng.

Seeing Xuanyuan Xiaoyue standing there, the face of the person who went to meet Chen Feng changed dramatically.

At this moment, he felt fortunate: "It turns out that Chen Feng is so valued by Elder Xiaoyue."

"He dealt with me that way before, and I still want to file a lawsuit in front of Elder Xiaoyue. Now when I think about it, fortunately, I didn't file a lawsuit."

"Otherwise, it is absolutely impossible for him to be punished."

"Elder Xiaoyue will definitely punish me severely."

"Oh, Chen Feng is here?" Elder Xiaoyue looked at Chen Feng, smiled slightly, and the two of them entered.

With a bang, the door closed directly.

Then, the two were seated separately.

As soon as Xuanyuan Xiaoyue was about to speak, a solemn expression appeared on her face.

The next moment, this dignified touch turned into a trace of disbelief.

He looked at Chen Feng and exclaimed: "Chen Feng, you, you actually condensed the embryonic form?"

This was the first time that Chen Feng had such a look on Xuanyuan Xiaoyue's face after he met Xuanyuan Xiaoyue.

In the past, no matter what happened, Xuanyuan Xiaoyue always had a calm expression.

Now, he was shocked.

Chen Feng smiled and said, "It's just the prototype of the divine essence condensed."

"It's just a rudimentary form, Elder Xiaoyue, why are you so surprised?"

The shock on Xuanyuan Xiaoyue's face finally faded slowly, and then turned into a bitter smile.

He pointed to Chen Feng and said, "You fellow, what you said is really easy. It's an understatement. Are you just a prototype of the gods?"

"Do you know that this is the embryonic form of a divine essence! It is so rare for a powerhouse who has surpassed the Eight-Star Martial Emperor level!"

"Do you know how many warriors have not been able to condense the gods in their entire lives."

"Do you know how many powerhouses are better than the Nine-Star Martial Emperor, because they have not condensed the prototype of the gods, they can't go further, and they are suppressed by martial artists of the same level or even lower than them. ."

He shook his head and said: "The prototype of Shen Yuan is so precious that it is hard to imagine, but it has become a very worthless and easily available thing here."

"Okay." Chen Feng laughed and said, "I was joking."

"I am also overjoyed to be able to condense the prototype of the gods."

Xuanyuan Xiaoyue stared at Chen Feng and said, "Chen Feng, you are indeed a genius. If you don't see him for a few days, you will be able to rise to the next level."

Chen Feng said: "Speaking of theory, after stepping into the Eight-Star Martial Emperor and becoming the Great Martial Emperor, you can be condensed."

"Yes, but that's just logical."

Xuanyuan Xiaoyue smiled and said, "Many things are just unreasonable."

"In fact, there are definitely not many that can condense the prototype of the divine essence in the realm of the Eight-Star Wuhuang.

He said to Chen Feng: "Come on, let me see what the prototype of your condensed divine essence looks like."

Chen Feng nodded, and then, an aura rose straight from his dantian and slowly penetrated.

In the next moment, an orange-yellow, full of thin branches, like something that weaves a lightning bolt, appeared in front of Xuanyuan Xiaoyue.

After Xuanyuan Xiaoyue looked at it, she immediately frowned.

Then, he felt it carefully for a long time, and even touched it with his hand.

Then, with a look of doubt on his face, he shook his head and said, "I don't know the origin of this thing."

"I just can feel that his aura is extremely large, and his potential is endless."

When he heard these four words, Chen Feng immediately lifted his spirits.

The four words of infinite potential can be said from Xuanyuan Xiaoyue's mouth, that is really incredible.

This shows that the rudimentary form of his own divine essence is indeed extremely outstanding.

Since she couldn't see why she came, Xuanyuan Xiaoyue didn't look at it anymore.

He smiled at Chen Feng and said, "I call you over this time, but there is actually a very important thing to tell you."

"What's the matter?" Chen Feng asked.

Xuanyuan Xiaoyue said, "Do you remember that if I told you to enter the inner sect, there would be two thresholds, right?"

Chen Feng nodded and said, "Of course I remember, the first threshold is the test of the people who came to pick me up."

"Yes, you have passed that threshold, and now you have to cross the second threshold."

"Oh? What's the threshold?" Chen Feng immediately lifted his spirits when he heard it.

Xuanyuan Xiaoyue said, "The second threshold is a test one month later."

"Testing?" Chen Feng raised his brows.

"Yes, Wuhun test." Xuanyuan Xiaoyue said: "The first thing Nei Sect hires disciples does not look at other things, but the potential."

"And for a warrior, his potential depends only on one thing, that is..."

Chen Feng said in an interface: "Wuhun!"

"Yes, it is Wuhun, and only Wuhun!"

"So, after entering the inner sect, there will be a martial arts test."

"This Martial Spirit Test is the real threshold. If it performs well enough in the Martial Spirit Test, it is called a step to the sky."

When Xuanyuan Xiaoyue said this, she couldn't help but feel a little excited.

"One step to the sky?"

Chen Feng smiled and said, "What are the benefits?"

"The benefits are much gone."

Xuanyuan Xiaoyue looked at Chen Feng and said, "Now, there are some well-informed people in the Nei Zong who already know that I value you, but that's just my personal value of you."

"Many people will disagree, and even many people will deliberately embarrass you and weigh your weight."

"However, if you perform well in the Wuhun test, that's different."

"If you perform well in the Martial Soul Test, you will get all the elders of the entire Inner Sect, or at least most of them valued."

"Because most of the high-level officials of the inner sect still understand the general situation and the overall situation."

"They naturally like you as an extremely outstanding young disciple, so they can attract the attention of the entire Nei Zong, and a lot of resources will be tilted towards you."

Chen Feng originally had a smile on his face, but now he has a solemn expression: "What if the performance is not good?"

"If you do badly?"

Xuanyuan Xiaoyue's face suddenly turned gloomy: "At that time, if someone makes you embarrassed and cleans you up, then maybe I can't control it."

### [Chapter 3032: Cultivator!](#)

Hearing this, Chen Feng did not change his expression.

He had known for a long time that warriors were weak and strong, and this weak and strong would only be more obvious in Nei Zong.

"so!"

Xuanyuan Xiaoyue stared at Chen Feng and said, "I want you to have the upper hand in this competition."

"No! It's not enough to have the upper hand, you must surprise Nei Zong!"

"In this way, you will be able to win more support, and then I will have the upper hand in the competition with that old thing."

Chen Feng nodded and said slowly: "Okay, I understand."

Xuanyuan Xiaoyue sighed and said, "Chen Feng, I'm a bit harsh on you, but it's actually for your good."

"Do you know that if you miss this opportunity, then you may never be able to become a cultivator."

Xuanyuan Xiaoyue looked at Chen Feng and said with a smile: "A long time ago, when there were still immortal cultivators who could leave the mainland and fly into other worlds in my Dragon Vein Continent..."

"Oh? Immortal cultivator?" Chen Feng suddenly trembled when he heard these three words.

All he heard before were martial artists, but he had never heard of the three words cultivator.

As soon as these three words were spoken, Chen Feng immediately gave Chen Feng a sense of magnificent and infinite future, which made him feel a bitter tremor in his heart!

Xuanyuan Xiaoyue smiled and said, "These three words naturally carry majestic power, which makes people look forward to it when they hear it."

Chen Feng was excited: "Sure enough, entering the Nei Sect and getting in touch with them really opened up a new world."

"The Legend of Xiu Xian! There is such a existence, where are they stronger than martial artists? How taller? How powerful is their strength? Is it a whole new realm?"

There were infinite questions in his heart, but he didn't say anything, just waiting for Xuanyuan Xiaoyue to continue speaking.

Xuanyuan Xiaoyue seemed to understand Chen Feng's thoughts, but sold Guanzi and said, "The so-called immortal cultivator, I can't tell you yet, you will know when the time comes."

"In short, it is extremely difficult to become a cultivator. If the difficulty is unimaginable, you will know it later."

He continued: "Among immortal cultivators, the most important things are: wealth, law, companions, and land."

Chen Feng smiled and said, "Treasury, presumably means having enough money. To put it bluntly, it means having enough resources."

"The law is the exercise method and martial arts."

"As for the couple?"

He pondered for a while and said, "Cultivation partner?"

Xuanyuan Xiaoyue said: "Yes, you don't have to be a lover. As long as you get along, your cultivation can complement each other, and you will get twice the result with half the effort."

Chen Feng nodded and continued: "As for this place, it is a blessed land."

Xuanyuan Xiaoyue said: "For you, the land has been settled. Our Nei Sect, especially the mountain I'm on, is the strongest spiritual energy on the Nei Sect. You cultivate here, and you can do it all day long."

"Gong law and martial arts, you say to solve it yourself."

"Actually, as long as you perform well in the Martial Spirit Test, Nei Zong can solve everything for you. Even this companion."

Chen Feng smiled slightly: "There are some things that I can only take by myself, and I don't want them from others."

Xuanyuan Xiaoyue clicked on him: "You kid, I knew you would say that."

He smiled and said, "I just want to tell you what I have done in this Nei Sect."

"I remember well, you probably got a lot of tyrannical disposable items from the Seven-Star Chamber of Commerce a while ago, right?"

Chen Feng raised his brows, narrowed his eyes, and said, "Elder, it seems that you are looking for someone to stare at me?"

"I really haven't found anyone to stare at you."

Xuanyuan Xiaoyue said, "It's just that there are some things I don't want to know, but they will be passed on to my ears."

"Do you think the tattered iron armor and the two beads that you consumed are common things? Tell you, these things are extremely rare and precious."

"There are in the Seven-Star Chamber of Commerce, and we also know they are in it."

"And once it disappeared, we had to track it down where we went, but in the end we didn't expect it to be consumed by you."

"In this way, naturally there will be no problems."

Chen Feng nodded, his expression slightly relaxed: "That's it."

Xuanyuan Xiaoyue smiled and said, "How about it? After using that thing, do you feel that your strength has increased in that instant by how many times?"

Chen Feng nodded: "Yes, without those two things, I'm afraid I won't be able to achieve my goal at all."

"That's it."

Xuanyuan Xiaoyue said: "This is the function of having powerful weapons and powerful armor. If there are some extremely powerful magic weapons that can be consumed at once, then it would be great."

Chen Feng shook his head and smiled bitterly: "How can it be so easy? Just those few things have consumed all my accumulation since I came to Tianzi City. It cost me more than 20 million dragon blood amethysts. Where can I get it? Dragon Blood Amethyst?"

Xuanyuan Xiaoyue looked at Chen Feng and said, "There is a way. Do you know that the most indispensable thing in our Xuanyuan family's inner sect is to fish for dragon blood amethyst."

"Oh? What do you say?" Chen Feng looked at him.

Xuanyuan Xiaoyue did not answer immediately, but looked at him and said, "Do you know about how many disciples our Xuanyuan family's inner sect has?" **novelSb.cOm**

"I heard about it when I came, there are probably about a thousand people," Chen Feng replied.

Xuanyuan Xiaoyue nodded, and then said: "To be precise, there are 1,097 disciples."

"Furthermore, there are high and low strengths in it, and there are many people with average strength. They can only stay in the inner sect and dare not let them go, for fear of being hunted down by other powerful powers from other families."

"There will be such a thing?" Chen Feng raised his eyebrows.

"Of course, the inner sect disciples are the foundations of the future family, and these foundations are what many hostile families try to destroy every day."

"Of course."

Xuanyuan Xiaoyue smiled coldly, and said, "This method shouldn't be too obvious, and it shouldn't be obvious to kill our people."

"We have to use various methods to kill people, but without leaving any traces, so that our Xuanyuan family can't find out who the murderer is, let alone catch them."

"That's it." Chen Feng nodded.

"Okay, let's not talk about anything else, continue just now." Xuanyuan Xiaoyue said: "That's all for our Nei Sect disciples, and the number of elders will not exceed 1,200."

"That's it, it's almost all the terminals and high-end combat power of our Xuanyuan family."

"And how much is their Xuanyuan family's foundation?"

He patted his hand lightly, and the door opened with a bang.

### [Chapter 3033: Explore the ruins](#)

He looked at the infinite rivers and mountains in the distance, with a hint of emotion in his eyes: "Our Xuanyuan family's foundation, just the current Xuanyuan family's inner sect, has hundreds of millions of miles."

"Besides, do you think that Nei Zong can be maintained by itself just like this? That would be too naive."

"Why is Nei Zong's location so strong? Why is it such a good hole in the sky? It's because its location is above the West Sea, very close to the sky."

"Then why are we occupying such a good position? No one wants to grab it? Or to take a step back, don't anyone want to sneak into it secretly and practice secretly in it?"

"Anyway, it's so big, it's not easy for us to find it."

Chen Feng heard this and suddenly said, "It is true, there will definitely be such a existence."

"That's right, so the Xuanyuan family needs a lot of manpower every year to hunt down these strong men, hunt down these guys from the Dragon Vein Continent."

"But you also know that all of us martial artists want to practice with peace of mind. Who wants to go out and do those things? If this is the case, there will be a lot of dragon blood amethyst before they are willing to go."

Chen Feng suddenly said, "So that's it."

"Moreover, it's not just defense, it's only defense internal, and external."

"If our Xuanyuan family wants to become stronger, we can't stay the same, we have to explore the ruins on the mainland."

"You know, in these ruins on the mainland, there are countless rare treasures and powerful martial arts!"

"Do you know that 60% of our Xuanyuan family's current martial arts and martial arts are not owned by our Xuanyuan family, but obtained from other relics!"

Chen Feng nodded.

Xuanyuan Xiaoyue pointed to the center and highest among the five huge peaks and said:

"The other four mountain peaks are all occupied by the inexperienced powerhouses of Nei Sect. Only the middle mountain is the core of our Xuanyuan family's Nei Sect."

"There is the secret treasure Jinjing Pavilion, and there are also two mission halls."

"The mission hall is divided into internal and external."

"Internally, it is the protection I just mentioned, hunting and killing foreign monsters and strong men."

"For the outside, it is to explore those ruins."

Chen Feng said: "It's been so many years, those ruins have not been explored yet?"

"Where can it be! The difference is far!" Xuanyuan Xiaoyue said: "The Dragon Vein Continent has a long history. After hundreds of thousands of years of time, countless family sects have risen and fallen, prospered, and then declined."

"These forces have disappeared. There is even no record in the ancient books. Only the ruins are left."

"On the mainland, there are all kinds of ruins, not to mention millions of sites, there are hundreds of thousands of sites after all."

"And our Xuanyuan Family Inner Sect, how many disciples do we have in total? Even if these disciples take on tasks every day, it will take hundreds of thousands of years to complete the exploration."

"Not to mention, usually after taking a task, stay outside for one or two years, even for ten or eight years."

"and....."

He said indifferently: "There are even more than 60% to 70%. After receiving the task, they never come back."

"So, these sites have been explored by us, only a few hundred!"

He has a flat voice, a flat expression, and no waves, but there is an indescribable cruelty in that tone.

One mission, ten or eight years, six or seven times out of ten, how cold it is!

But this is the way of warriors!

If you don't pay such a big price, how can you win huge returns?

Chen Feng thought to himself: "These tasks should actually be more suitable for me. After all, exploring these ruins is not only rewarding, but the ruins themselves have great gains."

"For me, what others can do well in ten or eight years, maybe I can do well in three months and five months."

"Moreover, in the process of exploring the ruins, you can get experience and fight, which will greatly improve yourself."

"For me, exploring the ruins, you can reap rewards, you can get treasures, and you can improve your strength. Why not do it?"

As for the dangers that others see as fearful, Chen Feng has no scruples at all. He is full of confidence in himself!

Chen Feng said proudly: "After I figure out the situation of Nei Zong, I will pick up a few tasks and go out for a round."

"It's not that easy to accept the task." Xuanyuan Xiaoyue looked at Chen Feng and said with a smile: "Our family won't let the disciple go out for nothing."

"Therefore, there is a certain level for the division of inner sect disciples, and only after the level is reached can the corresponding tasks be accepted."

"You have just entered now. You are only a first-grade disciple. If you want to take on those high-level tasks, you can't do it at all."

Chen Feng was stunned: "It turns out that there is still such a situation."

"Of course."

Xuanyuan Xiaoyue said, "How can a force develop to the present level without any rules?"

Chen Feng smiled slightly, not in a hurry, and said, "How can I improve my level?"

"Very simple."

Xuanyuan Xiaoyue raised her brows: "Go and challenge, challenge those who are stronger than you."

"If he is a third-rank disciple and you win him, then you are a third-rank disciple."

Chen Feng asked, "I don't look at the level or age, right?"

"It doesn't look at level or age! It only depends on strength!"

Xuanyuan Xiaoyue smiled and said: "Here we are, we only look at our strength."

Chen Feng laughed loudly: "Okay!"

While talking, Chen Feng already had a clear step in his mind.

After he came here, what he needs to do now: First, first find out the situation of Nei Zong.

Second, go to the tomb of the Great Emperor Yin and Yang to find out.

Third, it is to improve one's own strength while cultivating, and at the same time to challenge, obtain the qualification of high-level disciple as soon as possible.

Fourth, it was amazing in the Wuhun test!

Chen Feng's thinking became extremely clear.

Chen Feng suddenly asked, "Elder Xiaoyue, I have a question."

"Among Nei Sect, how many personal strengths are above me?"

"Are you talking about level or strength?" Xuanyuan Xiaoyue said.

Chen Feng said: "Strength."

"For strength..."

Xuanyuan Xiaoyue pondered for a moment, and then said, "Now, there should be at least a hundred people above you."

"I remember well, you should just barely be able to deal with the half-step Wudi now."

"That's right." Chen Feng nodded and said: "It's flattering to say that I can barely deal with it. To Emperor Wu in the first half of the move, I must have suffered a big defeat. Maybe I can't escape."

[Chapter 3034: Go to an interesting place](#)

Xuanyuan Xiaoyue said, "Among Nei Zong, there are already hundreds of masters at the half-step Martial Emperor level."

"And there are more than a dozen people whose strength is close to Emperor Wu's level. As for those who have entered the realm of Emperor Wu..."

He looked at Chen Feng and smiled secretly: "I don't know, and not many people know, but it doesn't mean there is no, do you understand what I mean?"

Chen Feng trembled all over and took a deep breath, he naturally understood what Xuanyuan Xiaoyue meant.

It seemed that among the disciples of the Xuanyuan family's inner sect, there were already martial arts masters.

Moreover, Xuanyuan Xiaoyue still kept secret about this, which meant that this martial emperor realm master was definitely not simple.

"There are so many masters above me."

"There are so many peaks, wait for me to climb!"

Not only did Chen Feng not be discouraged at all, on the contrary, he clenched his fists, his eyes were hot and full of fighting spirit!

"Okay, then come on, I Chen Feng, how can I be afraid!"

Xuanyuan Xiaoyue said: "Generally speaking, Nei Zong's own rank, first-rank disciples are the nine-star martial emperor in the early and middle stage, and second-rank disciples are the nine-star martial emperor peak."

"The third-grade disciple has a realm close to half a step Wudi."

"Fourth Grade disciple, the strength must reach half a step Wudi."

Having said that, he paused.

Chen Feng asked, "Where are the fifth-grade disciples?"

"As for the fifth-grade disciples, they must have the strength to surpass half a step of the emperor martial arts, and some have even reached the emperor martial realm, and the level in the emperor martial arts is not low!"

When Chen Feng heard this, he sighed more and more in his heart: "Xuanyuan Nei Sect, I don't know how many times stronger than I expected before."

"But you don't have to worry too much."

Xuanyuan Xiaoyue said, "Don't talk about fifth-rank disciples, they are fourth-rank disciples, and it is difficult to see them. If they have the strength of third-rank disciples, Nei Zong can be regarded as a good powerhouse."

Chen Feng nodded, then Wu Xinghe should be a third-grade disciple.

"Of course," Xuanyuan Xiaoyue said when looking at Chen Feng, "You don't have to belittle yourself, they have their advantages, but you also have your advantages."

"Your combat effectiveness is extremely strong. This is a very scary thing, because you have so many ways to increase your strength beyond your level, and they are different."

"What level they are is their level of strength, so when you play against them, they will definitely relax and will not put you in their eyes. This is an opportunity for you."

"Well, I have said a lot today."

Xuanyuan Xiaoyue said, "I told you this this time to remove the doubts and fears that you may have in your heart and make you clearer about the road ahead."

Chen Feng said: "The goal has been achieved, and I am very clear about what I am going to do next."

"Okay, that's good."

When he walked out of the hall of Xuanyuan Xiaoyue, the relaxed color on Chen Feng's face disappeared without a trace, replaced by a trace of solemnity.

Because he knows how many cards he has now.

He now has no hole cards in the martial arts side, because the Ba snake martial arts soul has fallen into silence.

When Chen Feng returned from Nanhuang, he tried countless times to awaken the Ba Snake Wuhun, but the Ba Snake Wuhun was still asleep and did not give Chen Feng a reaction.

Chen Feng took a deep breath. After returning to Mirror Valley, he tried to awaken the Ba Snake spirit again.

However, Chen Feng exhausted his strength and spent a whole short period of time before he finally opened his eyes and sighed.

He whispered to himself: "Awakening the Ba Snake spirit is still impossible!"

At this time, Chen Feng felt a rare emotion called frustration in his heart.

But soon, Chen Feng expelled this frustration.

He suddenly smiled and said to himself: "Chen Feng, when did you become like this?"

"What if the spirit cannot be awakened? You can think of a way!"

"Even if the martial spirit cannot be awakened in the end, you still have other cards, and you have other talents!"

"With these, you can also become an unworldly strong man!"

At this moment, Chen Feng suddenly heard a voice from far away from Jinggu: "Is Brother Chen Feng here?"

The voice was clear and sweet, and at the same time there was a hint of inexplicable flattery.

The flattery seemed to come from the bones, and it couldn't be erased.

Chen Feng heard this voice very familiar, and he remembered it in a blink of an eye. Isn't this the voice of Hua Lengshuang?

A smile appeared at the corner of Chen Feng's mouth, and he raised his voice: "Junior Sister Hua, Chen is here, just come in."

There was a burst of sound from the mouth of the valley. The next moment, a dark green figure came into the valley of the mirror and flew above the giant pine. It was Hua Lengshuang,

When Chen Feng saw Hua Lengshuang, none of them raised their brows slightly.

It turned out that after a few days of absence, Hua Lengshuang was like a different person than before.

The aura on her body is even greater, and it is a bit more ghostly.

Chen Feng knew it in his heart, knowing that it must be within these few days that the person who led her into the Nei Sect helped him to improve his strength.

Chen Feng smiled and said, "Sister Hua, why are you free to come over?"

Hua Lengshuang smiled slightly and said: "There is a place in the Nei Sect. I have long admired the reputation, but I have never been to it."

"After I came here, I wanted to go, but I didn't dare to go alone, so I wanted to invite Brother Chen Feng with you. I don't know what Brother Chen Feng wants?"

"Oh? Interesting place? What interesting place?" Chen Feng couldn't help showing a very interested expression after listening.

Hua Lengshuang is a very insightful person. She said it was an interesting place, so it must be.

Hua Lengshuang smiled and said, "It's meaningless to say that it is broken. Brother Chen Feng will know when you get there."

"The little girl only said one thing to Brother Chen Feng, it is definitely worthwhile for you to go there."

"Okay." Chen Feng gave a high-five and said: "Then let's go!"

Chen Feng had just reached a bottleneck in his cultivation, and Chen Feng couldn't ask for it to go there and open his eyes.**novelUsb.com**

Hua Lengshuang nodded, and the two of them flew down from the giant pine and headed out of Jinggu.

When passing by the big lake, suddenly, Hua Lengshuang's eyes flowed and glanced towards the lake.

Where her eyes drifted, there happened to be a small green grass with a white root beside it.

It is Qingmu and Wuling.

Qing Mu and Wu Ling were cultivating with Chen Feng just now. When Hua Lengshuang came over, the two of them quickly turned into vegetation.

When Chen Feng saw Hua Lengshuang's eyes, she immediately understood that she was afraid that Qing Mu and Wu Ling had already seen the real body.

#### [Chapter 3035: Who breaks through?](#)

After all, she felt extremely tyrannical.

However, Hua Lengshuang did not say anything, and continued to walk outside the valley.

She didn't say broken, so Chen Feng would naturally not say much.

The two left Jinggu, Hua Lengshuang looked for a direction and headed southeast.

Soon, the two left the Canglang Xiaoyue Peak, and after a while, they left the scope of these five huge mountain peaks.

Buying that piece of mountain, you can't see the end at a glance, it seems to stretch to the end of Nei Zong.

But at this moment, Chen Feng suddenly heard that not far to the left, among the mountains, there was a loud roar that sounded like earth-shaking.

This earth-shaking roar was like an ancient fierce beast, possessing shocking intimidation, revealing an unspeakable ancient and wild aura.

Hearing this huge roar, Chen Feng's heart suddenly felt excited.

Hua Lengshuang also exclaimed: "Is this giant beast awakening?"

Chen Feng raised his eyebrows, but then, after taking a closer look, he said in a deep voice, "It should not be a giant beast, it should be the awakening of Wuhun."

At this moment, Chen Feng felt the power of the martial arts surging.

After hearing this, Hua Lengshuang felt a bit, nodded and said: "Yes, it is indeed Wuhun."

She looked at Chen Feng and said, "Brother Chen Feng feels that his ability is better than the younger sister."

Chen Feng smiled slightly and did not answer.

The two looked in the direction from which the roar came.

Chen Feng quickly discovered that the direction from which the roar came was the core area of Nei Zong.

Although it is not one of the five peaks, it is just beside the five peaks.

Obviously, the owner of that mountain is also a powerful existence in the inner sect, at the core.

The height and beauty of that mountain is only second to one of the five main peaks.

In the next moment, they saw that on the slender mountain that looked like a snake, a green light burst into the extreme.

This green light was not emerald green, but dark green like an old vine that had grown for many years.

Even the dark green is a little black.

And in this green, there is also a little crystal red.

At the same time, Chen Feng smelled a sweet smell in the wind.

After smelling this sweet smell, Chen Feng couldn't help but turn black before his eyes, and he almost fainted directly.

Chen Feng was shocked, and quickly took a deep breath, and the power of the dragon and the arhat turned.

In an instant, this smelly toxin was resolved.

Chen Feng said to himself in amazement: "I was hundreds of miles away from the mountain, and the wind blew it over a little bit, and it almost made me faint."

"This toxin is really domineering! Who is living on the mountain, and the martial soul who broke through is so domineering?"

And Hua Lengshuang was almost caught.

But she was obviously also prepared, and quickly took a pill to resolve it.

Chen Feng sighed softly, "I guess the martial soul that this person broke through should have a very strong poison."

Hua Lengshuang also nodded and said, "That's right."

The two watched here for a while, the dark green color getting deeper and deeper, and the golden red color getting better and better.

In the end, the green turned into a large cloud, covering the entire mountain peak.

"Actually, there is nothing to look good." Hua Lengshuang said with a smile: "In this Nei Sect, strong people emerge in endlessly, and there are often breakthroughs."

"Furthermore, those top powerhouses are often accompanied by heaven and earth visions when they break through."

She covered her lips and smiled: "In this situation, we are afraid we will meet more."

Chen Feng glanced at her and said, "Sister Hua, I think you have just entered the inner sect, but you seem to be very familiar with the inner sect."

Hua Lengshuang smiled and nodded: "I do have some understanding of Nei Zong's affairs, but if you are familiar with it, it doesn't count."

Chen Feng nodded slowly, without asking why, he didn't want to spy on others' privacy.

Hua Lengshuang took the initiative to say.

She smiled and said, "Speaking of which, I have to thank my master for this."

"Your master?" Chen Feng glanced at her and asked: "I wonder who your master is?"

"My master is the Lingque Master, one of the ten Nei Zong elders."

"Master Ling Magpie?" Chen Feng couldn't help but shocked after hearing this.

He did not expect that Hua Lengshuang's background could be so big.

A few days after arriving in Nei Zong, Chen Feng also had a little understanding of Nei Zong's power and power.

The ten elders of Nei Zong naturally included Xuanyuan Xiaoyue.

Among the ten Nei Zong elders, the five strongest are those who live on the top of the five main peaks.

There are also five slightly weaker ones. These ten people form the strongest combat power of the Nei Sect and can determine almost anything in the Nei Sect.

And Master Ling Magpie was the only woman among the ten elders.

I heard that Master Ling Que was not originally the foundation of the Xuanyuan family's inner sect. She was another top powerhouse of a hostile force. Later, hundreds of years ago, for some reason, she joined the Xuanyuan family's inner sect.

Since then, he has become one of the ten elders of the inner sect of the Xuanyuan family.

She is not very high among the ten elders.

But Chen Feng knew that it was because she didn't like fame and fortune, and because of her indifferent nature.

Her strength is actually very scary, and her few shots shocked Nei Zong.

Therefore, she belongs to the kind that no one wants to provoke easily.

Unexpectedly, Hua Lengshuang turned out to be a disciple of Master Lingque.

However, Chen Feng didn't care too much. As far as he was concerned, he and Hua Lengshuang only valued her, and had nothing to do with the forces behind her.

Hua Lengshuang looked at Chen Feng and said in a low voice, "I also ask my senior to keep it secret for me."

"Why is this again?" Chen Feng asked.

"Because my master has a very high level of cultivation, and many of the methods I practice are from other sects. It's not like other inner sect elders who practiced the Xuanyuan family's martial arts."

"Therefore, there have always been many people in the Xuanyuan family, hoping to find a disciple for my master as soon as possible, in order to learn all of my master's skills, so that all these skills can remain in the Xuanyuan family."

Chen Feng suddenly realized: "But your master has always refused to accept disciples, right?"

"Yes."

Hua Lengshuang said: "Master is most concerned about predestined conditions when accepting disciples. He doesn't know how, so he has predestined relationship with me and accepts me as a disciple."

"However, she accepted me as an apprentice, but she rejected many other relatives and children of Nei Zong elders before, so she naturally offended many people." *novelusb.Com*

"Master doesn't want to cause trouble, so he warns me not to reveal my identity for the time being."

Chen Feng nodded and said, "Okay, don't worry about that."

The two walked forward again.

#### [Chapter 3036: Black cloak](#)

As he walked, Hua Lengshuang smiled and said: "After Master met me in the Eastern Wilderness, I saw it right away."

"Speaking of mentoring and apprenticeship, in fact, it is more about the relationship of year-end friendship."

"Master's biggest dream in this life is to travel around the world and see those worlds. Later, she accepted me as an apprentice and led me into the inner sect."

After going forward for more than two hours, Chen Feng estimated that at least he had already walked one hundred thousand miles.

Here is a large barren mountain.

The shapes of the mountains are extremely ferocious, revealing unspeakable wildness, like giant beasts squatting.

At this time, two black cloaks appeared in Hua Lengshuang's hands.

Put one on himself, and then handed another one to Chen Feng.

Chen Feng asked, "What is this?"

But he didn't hesitate, he was already wearing this cloak while he was speaking.

As soon as the cloak was put on, Chen Feng suddenly felt a very strange feeling.

He felt that the power of the space around him fluctuated in an instant.

The power of this space was immediately chaotic, but the chaos was only concentrated beside his body.

It's just that thin layer.

Chen Feng looked at Hua Lengshuang again, and then was slightly surprised.

Because, at this moment, he saw that the space around Hua Lengshuang's body was also in disorder.

Originally, he could see Hua Lengshuang's face, and even if Hua Lengshuang was wearing an ordinary black cloak, he could see it through the black cloak.

But now, he felt that what he saw was a blur.

It wasn't nothingness, the power of the space on the cloak hadn't been so strong yet, it didn't make people very emptiness, but it shattered the space around them so little.

Therefore, when he saw it, it was a blurry face, and he couldn't tell who it was at all.

Chen Feng exclaimed: "This cloak contains the power of space, this thing is very precious, I can't ask for it!"

Hua Lengshuang shook his head and smiled: "It's not a cloak of the power of eternal space, it's just a trick to cover up."

"Don't worry, one hour, the effect of this thing can only last one hour."

"After an hour, it will lose its effectiveness and become an ordinary black cloak."

"Oh, it's still like this? It turned out to be just a one-time consumable, so the value will be much lower."

Chen Feng said.**nOvElusB.com**

Hua Lengshuang smiled and said: "The place we are going to this time is very strange and mysterious, and people who go there don't want to be known by others."

"Therefore, there is no real face in it, and our level of strength, wearing an ordinary black cloak, is equivalent to wearing nothing, and people will see clearly."

"So, there is a cloak of the power of this disordered space."

"I don't know which genius made it. Now, this cloak has to be worn to enter there."

"Furthermore, the price is not expensive. Anyway, it only needs to be worn for one hour. Many people can afford it. If they can't afford it..."

She smiled and said, "Then, I don't even have the qualification to enter there."

"You can't even buy this cloak, so what precious things can you take out?"

"Also, this cloak has another function. I wonder if Brother Chen Feng, have you guessed it?"

She giggled and looked at Chen Feng.

Chen Feng raised his eyebrows and said: "After an hour, the cloak will lose its effect, and if you change the cloak, you will be seen what you really are in the process."

"Then, presumably, the time that people can stay in is at most one hour, and more will come out."

Hua Lengshuang applauded and nodded: "Hahaha, yes, Brother Chen is really smart."

"This place is very secretive, and there are many people who go there, so if someone takes it in every day, it would be annoying, so I came up with such a way."

"If you want to go in again, you can come out and buy another black cloak. Anyway, this black cloak was originally sold by the people who opened it here."

Chen Feng admired: "This person is really good at making money!"

Hua Lengshuang smiled and walked forward with Chen Feng for a while, then pointed to the front and said: "I see it, there is this kind of black cloak."

Chen Feng looked there, and as expected, there was a small mountain peak there.

At the foot of the mountain, there is a small pavilion.

The pavilion was black and unremarkable, it looked like an ordinary tea pavilion.

However, what is sold in this pavilion is not tea, but black cloaks.

Most people who come here will go there, say a few words, and hand over something.

Then, the man in black who bowed his head and was taciturn in the pavilion would hand them a black cloak.

They should even wear it.

In this moment, at least dozens of pieces of this black cloak have been sold.

Chen Feng looked at Hua Lengshuang and asked, "I don't know how many dragon blood amethysts are sold for the black cloak?"

Hua Lengshuang stretched out his right hand and turned over, and said: "One hundred thousand dragon blood amethyst."

Chen Feng shook his head, and then smiled bitterly: "This price is really extremely high, and there are so many people buying it every day."

"Moreover, they don't buy it once. If they come every day, they have to buy it every day."

"On this day, here, at least tens of millions of dragon blood amethyst can be earned."

He thought that he was working hard in Chaoge Tianzi City, fighting for life and death. He had another chance to take a few treasures, and only then had 20 million dragon blood amethysts.

And people can get so much into the account on this day, which makes him really envious.

But he was not jealous, but admired very much.

You know, wanting to do this business is not that simple, it's not enough to refine this black cloak.

This person needs to make a strong guarantee for the quality of the black cloak, to ensure that no one can break it, no one can see through the black cloak, so as to get a glimpse of the true appearance of others behind the cloak.

It is easy to sell, but difficult to do.

Moreover, as long as one or two cloaks are destroyed, his credibility is over!

What seems to be an ordinary thing, behind it is actually powerful strength,

Chen Feng clenched his fists: "Strength, everything is strength!"

Chen Feng was even more curious about there, but he didn't ask any more.

She seemed to know Chen Feng's mood at this time, Hua Lengshuang smiled and said: "Brother Chen, it's not far ahead, here we are."

While talking, the two had already walked past the pavilion, and the two of them obviously did not buy black cloaks in the pavilion.

### [Chapter 3037: Welcome to the underground black market!](#)

The people standing in the pavilion didn't pay attention either, just glanced at them, and then bowed their heads.

Chen Feng also saw this person clearly.

This is a dry and thin boy with a pale face.

He did not hide his face, his face was full of dullness, sluggishness, and no expression at all.

But Chen Feng noticed his hands, his hands were slender, white, delicate, and extremely beautiful.

Yes, although they are a pair of men's hands, they can be described as beautiful!

It's just that Chen Feng just took a look, then retracted his gaze and moved forward.

After bypassing the mountain in front, a small canyon appeared in front of him.

The gorge is not high, but a few hundred meters, but it is very steep, and the gorge is very narrow, only a few tens of meters, and the narrower it goes in.

The people around them all gathered here, but they all wore black cloaks, hurrying on the road, and no one paid any attention.

The gorge narrowed and narrowed, and soon a small cave was formed at the end, which could only accommodate one person.

Everyone went in one by one, and Chen Feng was not in a hurry and waited there.

Soon it was Chen Feng's turn, and he deliberately felt it when he stepped in.

Because when he wanted to come in, there might be a breath that felt his own fluctuations, but he didn't expect that there was no breath at all.

Chen Feng couldn't help but stunned, then smiled: "The owner here is really confident and disdains to do this kind of thing, and he doesn't need to perceive the person who comes in."

"Think about it, he has extremely strong confidence in his own strength, and thinks that he can suppress all people with strange ideas!"

The next moment, Chen Feng felt that he had the familiar illusion of time and space again.

He has long been used to it and doesn't care much anymore.

This feeling quickly disappeared. The next moment, Chen Feng saw a huge square appear in front of him.

At this time, Hua Lengshuang also appeared from behind him.

Hua Lengshuang looked at Chen Feng and giggled, "Brother, welcome to here!"

"Here is the Xuanyuan Family Inner Sect, the biggest underground black market!"

At this time, Chen Feng noticed that her voice had changed a little, and it was indistinguishable from male and female, and it was extremely sharp.

Moreover, she also deliberately didn't mention her surname, just named her as her brother!

"Underground black market!"

Chen Feng trembled in his heart, nodded lightly, looked far away, and was shocked. *NoVeLUs&.com*

This is a huge underground cave, or it shouldn't be underground, because I don't know where it is, but Chen Feng is sure this is another space and another world.

There was a misty area all around, filled with black mist.

The only open space in the middle was a square with a length of hundreds of miles.

At this time, there were many hundreds of people standing on the square.

Among these hundreds of people, none of them was making loud noises, basically looking down at things.

It turned out that there were many stalls on the edge of the square.

There are also people wearing black cloaks in the stalls.

Chen Feng glanced away, and there were at least dozens of stalls.

And these people in black cloaks shuttled from stall to stall, looking down to see if they had what they wanted.

Chen Feng swept it, and some people stopped there for a while, and then they talked in a low voice with the stall owner.

When talking, one after another light appeared in the hand from time to time.

Chen Feng knew what kind of treasure that light was mostly.

Hua Lengshuang smiled and said: "The bargaining is still maintained here."

"This is the largest underground black market in our Nei Zong. Most of the Nei Zong disciples will come here to choose what they like, and at the same time exchange their treasures."

"And here, there is everything, everything is covered."

"Powerful martial arts and martial arts, extremely high-level orange materials, all kinds of armor, all kinds of pills, and even the fur, scale armor, etc. of some Demon Emperor and even Demon Emperor level monsters."

"and....."

He lowered his voice and said, "Here, you can even receive or send some tasks."

"These tasks are usually killings, but they are different from the killing tasks issued by the sect."

"The mission issued by the sect, even if it is to kill people, is to kill the enemy, and the mission here is..."

Chen Feng said lowly: "Kill yourself."

"Yes." Hua Lengshuang nodded.

Chen Feng let out a long breath, this place is really interesting!

Chen Feng came to a booth and took a closer look there.

This is a stall he chose randomly, with pieces of jade suspended above it.

Chen Feng didn't understand how this was done, but after looking at others, Chen Feng knew how to control it.

His hand hovered over one of the jade stones, and immediately, a message was passed into Chen Feng's hand from the jade piece.

There was a shock in Chen Feng's mind, and a piece of information was understood by him.

His pupils shrank: "Huang-level second-grade technique! The jade piece I am touching now is actually a wild-grade second-grade technique!"

But soon, Chen Feng saw that under this introduction, there were two big characters: "Fragment!"

It turned out that this was just a fragment of the Wild Grade Second Grade cultivation technique.

But even so, Chen Feng's heart was set off by stormy waves.

"This Nei Zong black market is really all odd, and the things in it are really precious. It is the place where I have been here in my life and sell things at the highest level."

"Any stall, a random choice, it turned out to be a barren grade second-grade technique, even if it's just a fragment, it's amazing."

Chen Feng touched a few more times, and paragraph after paragraph of information flooded into Chen Feng's mind.

It turns out that most of the items sold in this stall are martial arts techniques, and the level is quite high.

The lowest level also reached the ninth rank of the heavenly rank, but most of them were fragments, and some of them were quite severe.

Chen Feng picked a few in succession, and found that the most complete one was only 30% complete.

Others are only 20% to 25% complete.

Chen Feng picked a few and found that their attributes were all similar, all of them were fire attributes, and the surface was emitting a hazy light.

There were a lot of people choosing from this stall, but Chen Feng stayed here for half an hour and found dozens of people coming and going, but in the end none of them bought.

And the seller was not in a hurry, just sitting cross-legged behind the stall.

It seemed that he was actually practicing, and his mood was very calm.

Hua Lengshuang whispered beside Chen Feng: "Brother, there are quite a few stalls selling various martial arts techniques in this black market, accounting for about 20%."

[Chapter 3038: Xiaoding! back to normal!](#)

"And these martial arts techniques are basically they brought out from various sites."

"They experienced a lot in those ruins, and at the same time they got many fragments of martial arts techniques, but these are just fragments, some are not even fragments, and some are only one-tenth of the total."

"So, in fact, the value of cultivation is not great, but the level of these martial arts techniques is extremely high."

"Therefore, it is extremely expensive to sell."

"Yes, this thing is not sold very well, but some people with special needs will pick one or two with a higher degree of completion and take it back."

"That's it." Chen Feng nodded.

It turned out that these were all obtained from those ruins. No wonder Chen Feng felt that in every booth, basically the martial arts and techniques belonged to the same department.

At most they belong to two lines or three lines, all originally obtained from the same site.

No wonder that.

Chen Feng shook his head and turned around to leave.

For him, these things have no value.

But at this moment, suddenly Chen Feng felt something strange in his dantian, with a trace of shock coming from the bottom of his dantian.

Chen Feng was shocked: "What happened to my pubic area?"

He hurriedly held his breath, and his whole person instantly entered a state of concentration.

At the next moment, the mind was already sinking into the Dantian.

At this time, Hua Lengshuang saw Chen Feng's strangeness and understood what had happened.

She quietly moved to the side of Chen Feng to protect Chen Feng's law.

And Chen Feng's mind has sunk into his dantian.

Suddenly, he let out a huge exclamation of disbelief, with a shocked expression on his face.

With Chen Feng's disposition, it is very difficult to make him show this expression. It must be something that is extremely unbelievable.

But the next moment, the extreme shock on Chen Feng's face turned into a deep ecstasy.

He laughed, his voice echoed in his dantian: "Great, great!"

"It turns out that you are not broken, it turns out that you have not disappeared, you are just silent!"

"You've been silent for so many years!"

"Now, you finally show up again!"

It turned out that in Chen Feng's line of sight at this time, the bottom of his dantian was originally a golden ocean condensed by the power of the giant dragon descending Arhat.

At this time, in the golden ocean, there were infinite waves.

The golden waves swept wildly, and the next moment, it turned into a huge vortex, spinning wildly in the ocean.

The whirlpool turned faster and faster, and swept the entire golden ocean.

Finally, as the whirlpool turned, the water surface gradually rose.

Chen Feng glanced, where is the surface of the water? It is clear that there is a huge monster slowly coming out below!

Finally, with a loud bang and a bang, the surface of the water exploded, and a behemoth appeared.

This thing is as huge as an island.

From the center of the water surface, it slowly rises upward, gradually revealing its appearance.

Finally, it took almost a quarter of an hour before he fully revealed his true face.

This is actually a huge bronze giant tripod!

This huge bronze cauldron is huge, like a blue mountain rising from the sea.

The height has reached a full 500 meters, and the width has reached three or four hundred meters, which is very huge.

On this giant bronze cauldron, there are huge and primitive runes and carvings.

The four sides of the giant bronze cauldron each have a pattern.

Above the four patterns, the lines are rough, primitive and majestic, full of wild and ancient atmosphere.

The appearance of the entire giant cauldron is also domineering and vigorous, as if the ancient ancestors were fighting, as if they were making that fearless cry.

After reading it, there will be a feeling that the soul is shocked, and the whole person can't help but shudder.

The most important thing is that this giant tripod is very familiar to Chen Feng.

No, it can't even be described with familiarity.

Because this giant bronze tripod originally belonged to Chen Feng![nOvelusb.Com](http://nOvelusb.Com)

At the beginning, Chen Feng spent time with this giant bronze cauldron.

However, it was not what it is now.

At that time, it was just a small, rather exquisite small tripod in Chen Feng's Dantian.

Chen Feng almost swooped in front of the giant bronze cauldron with a gesture of incomparable surprise.

He seemed to be looking for something on the giant bronze cauldron.

And when Chen Feng looked around and found that he hadn't found the thing, he laughed and was extremely happy.

"Little tripod...oh no, you should be called a giant bronze tripod now."

"You have fully recovered? Have you closed that huge rift?"

Chen Feng suddenly came to the bronze giant cauldron, holding the bronze giant cauldron, almost crying.

His emotions were released instantly!

The reason why he was able to rise against the sky at the beginning was because he had obtained Xiaoding and Dragon Blood.

Later, a huge crack appeared on this small tripod. In order to protect Chen Feng, it did not hesitate to withstand the powerful offensive itself, cracks appeared on it, and fell into silence.

Now, it is finally resurrected!

Chen Feng's heart can be said to be extremely happy, and his emotions are almost hard to stabilize.

After a while, his mood stabilized.

When Chen Feng looked at the huge bronze giant cauldron, the joy in his eyes had quietly disappeared, and instead he was thinking about it.

He whispered to himself: "I basically understand what's going on."

"That small tripod fell into a deep sleep due to heavy damage that day, but after all, this small tripod is a powerful treasure that appeared in my Dantian, possessing mysterious power."

"So, in these years, it has actually been accumulating power."

"Now that it has been silent for all these years, it finally recovered."

Chen Feng looked forward to it and smiled and whispered: "Xiao Ding is extremely mysterious and unpredictable. I am very much looking forward to what he can bring to me after this recovery!"

Chen Feng flew around the giant bronze cauldron twice, and suddenly his eyes narrowed.

He saw that on the giant bronze cauldron, there were many golden lakes pouring down from above.

Seeing this, the golden lake seemed to flow out of a giant bronze cauldron.

Chen Feng raised his brows: "What's going on?"

He flew up and saw that among the giant bronze cauldrons, he was still riding most of the golden lake.

I think it was there when it rose from the lake just now.

But now, the lake water is getting less and less, and a lot of it is pouring down from the giant bronze cauldron.

### [Chapter 3039: Can you afford it?](#)

Chen Feng was stunned, and his expression changed in the next moment.

It turned out that on this giant bronze cauldron, there were densely packed with numerous gaps, and there were so many gaps, like a spider web.

However, because the fissure is very small, Chen Feng didn't pay attention just now.

But now, he noticed, and suddenly he was not in a good mood.

Chen Feng observed carefully, and then finally confirmed.

It turned out that this giant bronze cauldron has not recovered.

In fact, there shouldn't be much recovery at all, it's just that the huge gap has been closed, but there are countless more thin gaps above it.

With so many such small gaps, Chen Feng felt as if his hand touched it and it would break it.

Chen Feng smiled bitterly: "Why is this? Then how can this be used?"

But then, Chen Feng shook his head: "Initially, I had no hope of recovering from it."

"Even, in my opinion, he will never recover at all."

"But now, he has suddenly recovered. This was originally a surprise."

"Chen Feng, Chen Feng, what else are you forcing?"

Thinking of this, Chen Feng suddenly felt calm.

At the next moment, Chen Feng suddenly felt a movement in his heart: "Originally, the giant bronze cauldron will not appear, but when I touched the fragments of exercises and martial skills just now, it seemed to have touched something."

"So, it immediately stimulated the giant bronze cauldron, and made the giant bronze cauldron automatically emerge."

"Could it be that there is any relationship between the two?"

Chen Feng was curious at this time.

So, he immediately observed it carefully for a moment, but found nothing.

Chen Feng frowned and suddenly had an idea, sitting cross-legged on the giant bronze cauldron.

Then, connect the soul with the giant bronze cauldron, and feel the giant bronze cauldron with heart.

The giant bronze cauldron is an ancient treasure, extremely rare, and it can vaguely reveal a lot of information.

Chen Feng felt this way and was immediately shocked.

It turned out that Chen Feng felt an extremely strong, almost instinctive desire on the giant bronze cauldron at this time.

This longing was so strong that it awakened the bronze giant cauldron in advance.

And the object of this longing is indeed...

Chen Feng narrowed his eyes: "Those fragments of martial arts and martial arts!"

Chen Feng lowered his head and whispered softly: "Do you want the fragments of the martial arts and martial arts?"

As soon as Chen Feng said these words, a very strong emotion came from above the giant bronze cauldron.

At the same time, the giant bronze cauldron was shaking.

Chen Feng hurriedly held it with his hand and said with a wry smile: "It's OK, I know you want it especially, but don't shake it. Otherwise, what should I do if I shake myself apart?"

The giant bronze cauldron just stopped its movement.

Chen Feng smiled and said, "Although I don't know what use you want these fragments of exercises and martial arts, but I know that you were a great help to me in the first place."

"Without you, I wouldn't have achieved what I am today, so I will agree to all your requirements."

"Whatever you want, I will do it for you."

"Those martial arts..."

He said in a deep voice, "I'm Chen Feng, I'm going to make a decision!"

In the next moment, Chen Feng left directly from the dantian and returned to the black market.

Beside, Hua Lengshuang asked worriedly: "Brother, are you okay?"

Chen Feng shook his head slightly: "Don't worry, I'm fine."

Chen Feng looked at the stall owner and said in a deep voice, "I don't know how to sell these things?"

The stall owner glanced at Chen Feng, then said lightly: "I'm afraid you can't afford it."

His voice is very flat, without any emotions.

Chen Feng could hear that he was not malicious, just stating a fact.

This person saw that after Chen Feng came here, everything was explained by Hua Lengshuang, and he knew that Chen Feng was a newcomer.

It is basically impossible for newcomers to have any financial resources to buy these things.

Chen Feng looked at him and smiled and said, "Why not tell the price? Maybe I can afford it!"

The stall owner gave Chen Feng a surprised look, and then said lightly: "One million dragon blood amethyst."

"One million dragon blood amethyst?" Chen Feng raised his brows.

This price is indeed quite expensive.

You know, when he went to the Southern Wilderness, he prepared for so long and used so many precious things, but it was just tens of millions of dragon blood amethysts.

And this fragment would cost one million dragon blood amethyst.

But thinking about it is normal. After all, the level of these martial arts techniques is really too high. It is enough to reach the level of the second-rank and third-ranks of the wild, no wonder it is so expensive.

And Chen Feng hadn't spoken yet, suddenly at this moment, a hoarse and arrogant voice sounded next to him:

"I'll buy half of these, let's make a price!"

With that, from the side, a burly black figure walked over directly.

After he walked over, Ruo Ruo hit Chen Feng on his shoulder intentionally or unintentionally.

Chen Feng was unprepared, shook after being hit, and took two steps to the side.

The booth was quite wide next to it, and there was no need to squeeze with others, but this person hit Chen Feng, but deliberately provoked.

Chen Feng frowned and glanced at him.

Although he couldn't see the appearance of this person, Chen Feng could feel the strong arrogant and domineering spirit emanating from him.

He glared at Chen Feng and said fiercely, "Little boy, what do you look at?"

Chen Feng didn't want to argue with him, but said indifferently: "It seems that I came here first and asked about the price."

"Yes, you came here to ask the price first, so what?" There was a trace of joking in the voice of the burly figure:

"I'm here to grab it, do you have an opinion?"

He just made it clear and unreasonable, and made it clear that he wanted to grab it.

Chen Feng didn't want to make trouble, and ignored him.

This person was even more arrogant to see that Chen Feng ignored him.

He thought Chen Feng was afraid and showed weakness, so he mocked and said, "Boy, I think you have been standing here for a long time, but you haven't bought anything."

"Can you afford it? Buy if you can, or get out if you can't! Don't install it here!"

When Chen Feng heard this, his body slowly stopped.

He turned around, took a deep look at him, still did not speak, took a deep breath, and held it down.

Chen Feng had just arrived here, and he was a newcomer, unwilling to conflict with others.

He just looked at the stall owner again and said, "Apart from Dragon Blood Amethyst, you can still accept bartering?"

"Yes, of course it is acceptable." The stall owner said: "In this black market, all the stalls accept bartering."

"What? Is there any special precious treasure in your place?"

[Chapter 3040: Do you think I can't afford it?](#)

He looked at Chen Feng with a careful look.

Before Chen Feng spoke, the burly man in black laughed disdainfully: "Little boy, just you? Can you still bring out precious treasures?"

"Do you think you can come up with enough treasures in exchange for this thing?"

"Hahaha, bastard, what are you? You want to make this thing too? You simply can't afford it!"

His last words were absolutely incomparable, as if he said Chen Feng could not afford it, Chen Feng must not be able to afford it.

In Chen Feng's eyes, the icy color flashed past.

Chen Feng didn't want to pay attention to this person at first, but he didn't expect that he would have to make an inch, and he would mock here endlessly.

He looked at the burly man in black, with a sneer at the corner of his mouth, and said faintly: "So, you are very financially rich? Can you easily buy this thing?"

"Of course!" The burly man in black raised his chin and said arrogantly: "My financial resources can definitely crush you easily."

With that said, he looked at the stall owner, then picked and picked from it, and finally selected ten.

The ten he selected are basically the most complete ones, and they are also the ones with the highest rank. They already occupy the essence of the entire booth.

He said solemnly: "How much do these ten add up?"

Chen Feng looked at the stall owner quietly.

The stall owner took a cold look at the burly man in black, and said lightly, "50 million dragon blood amethysts."

"What? 50 million dragon blood amethyst?" After hearing these words, the burly man in black exclaimed.

Although Chen Feng couldn't see his face clearly, he could also think that his face must have changed drastically at this time.

The burly black roared anxiously, "How could it be so expensive? Isn't one piece only worth one million dragon blood amethysts? I picked ten, but it is only 10 million dragon blood amethysts."

The stall owner said coldly: "One million dragon blood amethysts are just the price of ordinary fragments."

"The ones you picked are the best in my place. After picking them away, my stall probably won't be able to hold them anymore. Basically, you picked up the essence and the price will naturally be expensive!"

The burly man in black said angrily: "You fucking, this is the lion's big mouth."

The stall owner sneered coldly and said: "A price of 50 million dragon blood amethyst!"

After speaking, he just sat down next to him and stopped talking.

Chen Feng heard the squeaking fists of the burly man creaking, obviously he was already extremely angry.

But naturally he dare not do anything in this black market, and he dare not defy the rules in the black market.

At this moment, Chen Feng gave a sneer. He stepped forward and said to the stall owner: "I want all the things on you."

"How many dragon blood amethysts are there? Let's make a price!"

Anyway, what the giant bronze cauldron desires is all the above, not a single one.

Therefore, Chen Feng judged that these should be more in line with the appetite of the bronze giant. Of course, the high-quality ones are definitely better.

"what?"

After hearing these words, the stall owner had not had time to react, and the burly man already let out an unbelievable exclamation: "Little boy, I heard that right?"

"You, you actually said that you want to buy all the items on this? Do you know how much the items are worth?"

Chen Feng looked at him and smiled coldly: "Of course I know."

"Then you dare to give up such bullshit? Are you talking so arrogantly here?" The burly middle-aged man shook his head: "Boy, you are really ignorant and fearless."

"I know!"

He suddenly said in a tone of seeing everything through: "You just let me talk so much, it's very shameless."

"So, I want to win back a city at this time, but..."

He sneered disdainfully and said: "It's not like you if you want to save face. You will only make you more faceless."

"Because you said you want to buy these things, but you can't afford them."

"Oh?" Chen Feng looked at him and said, "In your opinion, it is impossible for me to afford it?"

"Of course!" With an extremely arrogant look, the burly man said flatly: "You can't get so many dragon blood amethysts, and you can't get the treasures corresponding to their value."

"is it?"

Chen Feng smiled coldly: "If I take it out, what about you?"

Almost without thinking, the burly man said: "If you can get it, I will kneel down and give you a knock!"

He did not hesitate to say this, because in his opinion, Chen Feng is impossible to take out, impossible to do.

As soon as he finished speaking, Chen Feng laughed loudly: "Okay, today I will make you knock your head!"

Hearing Chen Feng's so determined voice, an ominous premonition flashed across the burly man's heart.

He secretly said in his heart: "This kid won't have any cards!"

But then, he expelled his worry from his mind: "How is it possible? How could this kid have such a strong hole card? Absolutely not!"

He settled down a little bit, and even more brazenly mocked: "Little boy, if you can't take it out, you have to kneel down and kowtow to me!"

At this time, Chen Feng smiled coldly: "Today, someone will kneel and kowtow."

"But it's definitely not me!"

At this time, the conflict between the two has attracted the attention of many people.

Surrounded by hundreds of people, all wearing black cloaks, the scene looked rather strange.

Everyone's eyes fell on Chen Feng, wanting to see what he could bring out.

A mocking voice came from the crowd: "I really don't know how high the sky is, and I want to buy all the things in this stall?"

"All the things on this stall, I am afraid that there are 70 to 80 million dragon blood amethysts, how can he buy it?"

Obviously, he is not optimistic that Chen Feng can afford it.

Many people nodded one after another to look down upon Chen Feng.

At this moment, Chen Feng smiled coldly, staring at the burly man and said: "Open your dog's eyes and see clearly!"

The next moment, Chen Feng roared.

Suddenly, above his body, the power of a soul person suddenly fluctuated.

Chen Feng suddenly activated the soul space.

At the next moment, he had already arrived in the soul-man space.

There is a lot of life in the soul space.

And in the space of the soul, there are huge objects floating one after another.

There are snake scales and yellow bird feathers.

Chen Feng's mind was directly connected with a piece of vine snake scale armor.

The next moment, there was a huge bang, and the snake scales disappeared directly in Chen Feng's soul space.

Chen Feng returned to the black market.
