

Peerless 3101

[Chapter 3101: Relic!](#)

He shouted: "Today, you are the one who was minced into flesh!"

Then, Chen Feng's figure flashed, and he came directly to his huge mouth, and then slammed a punch.

With a loud bang, Chen Feng's fist and the white python's head collided violently.

An extremely powerful force shook out directly, and the supposedly crazy laughter came to an abrupt end.

Then, at the next moment, an unbelievable look appeared in his eyes, and he let out a crazy roar.

"What? You have such a powerful force? I actually feel that I will be directly crushed by your power! How is it possible?"

He let out a scream.

And this scream was not over yet, it just disappeared.

Because his head has disappeared directly.

With a bang, it turned into a blood mist in the violent turbulence and dissipated with the wind, leaving only a huge snake standing there, swaying wildly.

Chen Feng's figure slowly rose as the blood mist poured down.

In the reflection of the **** Beijing, it was like a **** of war.

At this time, the valley of ten thousand snakes, which had been so noisy just now, suddenly became extremely silent.

All the giant snakes were stunned, they all showed incredulous eyes.

They looked at Chen Feng, the arrogant, teasing, and juggling in their eyes just now seemed to freeze there, and a faint emotion called fear emerged!

In the next moment, they screamed in disbelief from their throats.

"Unexpectedly, he was killed by him?"

"Yeah, and he actually took only one punch, it seems to be an understatement, it seems to be effortless."

"How can his strength be so strong? Doesn't that mean that his strength has surpassed the Nine-Star Martial Emperor and is infinitely close to the half-step Martial Emperor?"

"Yes, yeah, this is terrifying, his strength is too strong!"

They are all panicked.

At this time, the roar from the pure white python finally dissipated in the air.

His huge body, with a bang, fell directly to the ground, blood splattered everywhere.

The giant snakes around quickly recovered.

They turned their attention from Chen Feng to the huge corpse, and their eyes were full of greed.

They gave Chen Feng a tentative look, and Chen Feng naturally knew what idea they were making.

He smiled and said, "To you, this thing is a treasure, but to me, it's a waste."

Upon hearing this, the many giant snakes who coveted the pure white python corpse suddenly showed joy on their faces.

"but....."

However, Chen Feng changed the conversation, looked at them, and said with a sneer: "This thing is not good for me, it is good for you."

"But, why should I give it to you?"

Suddenly, these giant snakes stayed there one by one, not knowing how to answer.

Chen Feng smiled and said, "But, if you are honest later, then we can discuss everything."

After these giant snakes heard this, they immediately knew that things had changed.

Where did they dare to hesitate and nodded hurriedly.

Originally, they were shocked by Chen Feng.

Now that Chen Feng said this again, they naturally didn't dare to have any other thoughts about Chen Feng.

Chen Feng nodded and said, "Okay, let's eat!"

Suddenly, those giant snakes rushed on with joy.

One by one, they fought for you, biting the body of the pure white python one after another.

And Chen Feng also deliberately controlled them, and didn't let anyone eat more, lest they evolve into a stronger one.

Although Chen Feng is not afraid, it is always a trouble.

Seeing them busy eating, Chen Feng was relieved.

Although he is not afraid of these giant snakes, there are so many of them. If Chen Feng is really going to besiege Chen Feng, Chen Feng will deal with it, I am afraid it will also be overwhelmed.

While they were eating, Chen Feng was about to cross Shibuya.

At this moment, Chen Feng's eyes shrank suddenly, his heart seemed to be tightened all of a sudden.

His eyes were staring at a place above the ground suddenly, without blinking, a look of horror appeared in his eyes.

It turned out that at that moment, Chen Feng was in the twist of the giant snake, and from the gap between them, he saw something on the ground, and it flashed past.

Chen Feng recognized that thing at once, and it turned out to be a corner of a person's clothing.

There, there is a corner of clothing!

"There will be a piece of clothing here? Who left it? Is it someone who has been here before?"

Chen Feng thought in amazement.

After that, he moved forward and fell slowly.

Seeing, in the next moment, he will fall into the middle of the countless giant snakes.

If it were a quarter of an hour ago, these snakes would be overjoyed beyond words, and would be extremely happy.

Because in their opinion, Chen Feng was sent to death in this way. They can share a piece of the pie, and can tear a piece of flesh and blood from this talented and powerful human powerhouse.

Then, it is of great benefit to their cultivation.

And now, when they saw Chen Feng slowly falling, they all screamed in horror, evading frantically.

Just like Chen Feng is a plague, he will even lose his life directly.

They ran away frantically, and no one dared to touch Chen Feng.

Upon seeing this scene, Chen Feng's mouth showed a calm smile.

Then, the center of the valley was squeezed out of a clearing, and these snakes all ran to other places.

Chen Feng landed on the clearing.

At this moment, getting closer, he finally saw the corner of the cyan shirt that he had just glimpsed.

It really is a piece of clothing.

This dress is lying on the ground at this time, and it looks extremely old. It is not known how many years have passed.

However, the clothes are as clean as new.

This is a long cyan dress, and I don't know what material it is made of. It is very delicate and there are stains of blood on it.

However, there is no damage, and there is an obscure light on the surface that is constantly wandering and stirring.

Chen Feng raised his eyebrows: "This dress should still be a treasure."

With that, he took a palm shot.

With a boom, the dress bulged.

Chen Feng's palm shot, extremely hard metal, I'm afraid it will be blasted into fragments, but this dress only floated for a while, but it was safe and sound.

Chen Feng raised his eyebrows: "As long as the level of this dress is higher than the rank 5 emperor's soldier, then it seems that its owner was definitely very powerful back then!"

Chen Feng looked at a huge white snake nearby.

Seeing Chen Feng's gaze, the white snake shivered all over, trying to shrink back and hide among the snakes.

But how could the snakes make him do what he wanted, and quickly squeezed him out again.

[Chapter 3102: Secret](#)

The white snake saw no hope of avoiding it, and quickly turned around and looked at Chen Feng with a flattering expression, nodding and bowing, and said, "My lord, what do you want?"

Chen Feng smiled and said, "I just have a question for you."

He pointed to the green blood-stained dress, and said, "How long ago did the owner of this dress come here?"

The White Snake didn't expect that he asked such a simple question, and he breathed a sigh of relief.

He quickly said: "This is a woman, about twenty-seven or eighteen years old."

"I still remember that she was using a long sword, and she was extremely powerful."

There was a look of remembrance in his eyes, and he said, "He came here before 3,079."

"Oh? Your memory is so good?" Chen Feng said while looking at him.

The white snake smiled bitterly: "In this ghost place, there is a rare new thing, can you remember it clearly?"

Chen Feng said, "I'll talk a little more in detail."

"Okay." White Snake nodded, and now he relaxed, and said: "This woman is about 27 or 18 years old, wearing a lake-green dress and holding a jet black sword."

"She was very strong, and we were bloodshed in the beginning. At least ten percent of the brothers were killed by her."

"However, after all, she was not strong enough, so she fell into a siege."

"Furthermore, she was too poorly resistant to poison. She was attacked by a few poisonous snakes. After being poisoned, she moved slowly and died here."

"Her long sword was chewed up by our boss at the time."

"Oh? What about this dress?" Chen Feng said, "I don't believe you will let this dress go."

An awkward color appeared in the white snake's eyes and said, "I really didn't let it go."

"In fact, the strong breath on this piece of clothing at that time made many guys very coveted, wanting to tear it up and absorb the breath on it."

"But they didn't do it no matter how they pulled it, so our boss simply swallowed it."

"As a result, after a while, what I swallowed came out of him."

"After that, many snakes tried to swallow them, but they were all fruitless. In the end, no one was interested and threw them here."

Chen Feng nodded: "That's it."

He discovered that this is not actually a clearing, but a depression with a radius of about 100 meters, like a valley in a valley.

There are many other relics scattered inside, and this green dress is just one of them.

Chen Feng walked around here and found a lot of strange shapes in these relics.

There is a skull, the size of a water tank, and the body is shining with golden light.

But there is only one skull.

It must be that the martial artist's body-refining technique is extremely strong, but he only practiced the head, not the other bodies, so the bones and flesh were eaten, leaving only this skull.

In addition to this, the most are some clothes, armor, and weapons.

Chen Feng counted it roughly, and there were only seven of the battle armors and eleven of the weapons.

Chen Feng couldn't help being dumbfounded, and said in amazement: "It seems that there are a lot of people here! If you count, there are at least thirty or forty people, right?"

"Moreover, everyone who came here is very powerful, and their protective gear or weapons are very powerful, so there is something left more or less."

Chen Feng couldn't help but rejoice in his heart: "Fortunately, I am strong enough. If not, after thousands of years, someone will come to see here again, I am afraid I only have a little clothing or weapons left?"

Chen Feng looked at him, then laughed at himself: "Don't say anything else, the Shadow Robe will definitely be able to stay!"

At this time, the white snake cautiously said: "This lord, there are not so many people here."

"It's just that there was a very large number of people who came here once, there were a dozen of them!"

"Oh? There are so many people here?" Chen Feng raised his brows.

He thought it was a little weird.

After all, the people who came here either got the clues to the tomb of the Great Emperor Yin and Yang, or got the clues to the fourth ring of existence, and no matter what, they were afraid that they were not willing to share with others.

So many people came this time?

"Yes, one of them is clearly headed, and the others should be his subordinates," said the white snake.

Chen Feng said, "Go on."

The white snake nodded, and he turned his head back to look at the other snakes somewhat proudly, seeing the envy in their eyes, making him even more proud.

He is already climbing Chen Feng, and he is obviously closer to Chen Feng, so he doesn't need to worry about his safety anymore.

He triumphantly said: "That young man, about 30 years old."

"The feeling he gave me is just two words: domineering!"

"Oh? Domineering?" Chen Feng thoughtfully.

"Yes, it seems that you are born to be extremely domineering, and everything has to surrender to him. It feels extremely domineering. In front of him, it seems that he is going to be shorter, and he can show his strength by ten percent. Sixty to seventy percent."

Chen Feng's heart shuddered: "This is really amazing."

"He took eleven people, all of them were his subordinates."

"However, those people are not weaker than him."

"What? Isn't it weaker than him?" Chen Feng raised his eyebrows: "How is it possible? Could it be that he is a child of a big family, or a core disciple of some school?"

"This, we don't know, but their strength is not weak, and those people don't seem to be very convinced of him, but they are very afraid, or even hate it."

"We speculate that it should be controlled by some means."

Chen Feng nodded: "I think it should be."

White Snake nodded towards the golden skeleton, and said, "This is the bones left by the person under his hand."

"Every one of his people is not weak, and each has a strong ability. He let the eleven people do it first, and kill them facing us."

Chen Feng suddenly said, "Then, he took the opportunity to go deep, right?"

The white snake showed admiration on his face and said: "The young man is right."

"These eleven people are too strong. When they moved forward, they almost killed more than half of us."

"Of course, we also kept all eleven of them."

"We have been beheaded for 70% to 80%, and at this moment, he seemed to be completely ignoring the lives of his subordinates, alone, taking advantage of the opportunity that we were all entangled in. ."

Chen Feng suddenly felt stunned and said, "He is so powerful, then, must he have taken that treasure away?"

[Chapter 3103: Was taken away? !](#)

"No." Bai Snake said with a smile: "He came about a year ago, only a year earlier than you."

"Only a year earlier than me?"

Suddenly, Chen Feng seemed to realize something: "Why can't he get it? Besides, he can't get it. What does it have to do with the time it came? It hasn't gotten it a year earlier than me?"

But ask again, White Snake won't say anything.

However, meaningful emotions appeared in his eyes.

In this case, Chen Feng stopped asking.

White Snake sighed and continued: "As soon as we appeared here, a piece of news was instilled in our mind, and that is our mission, which is to protect the treasures in the depths."

"We can't go where the treasure is, nor can we get it, but we can't let others get it."

"Our purpose is to protect this place, but..."

He sighed and said very sadly: "But, everyone who comes here, every good thing!"

"If one comes, kill one, if one comes, kill one. Fortunately, there are new appearances here, otherwise it would be dead."

Chen Feng nodded lightly, feeling a bit complicated in his heart.

He went around here, and suddenly, the complex emotions in his heart were dispelled.

Instead, there is a touch of joy.

The joy grew more and more, and finally turned into ecstasy.

Chen Feng let out a silent laugh: "The things left here are all treasures!"

"The combined value of these things is probably not much worse than the ultimate treasure left in the fourth ring clue, right?"

"Even if I don't use these things, I can sell them at a high price after taking them out."

"Great, haha, these things add up to sell for tens of millions of white crystals. In the black market, I am afraid they can sell for a large price."

Chen Feng was extremely happy, and put all these things into the soul-man space.

He scanned it again, and there was nothing else, and he was about to leave.

But at this moment, suddenly, he gave a soft voice, paused in his footsteps, and looked under his feet.

Chen Feng saw that there were a few scratches on the stony ground where he was standing.

Chen Feng didn't pay attention at first, but now when he looks closely, he finds where is the scratch? It is clearly some handwriting!

However, Chen Feng didn't have time to look more, stretched out his right hand, and a force surged out.

Kakaka, he directly cut the stone ground and threw it into the soul-man space.

Then, he rose into the air, came to the sky above the Valley of Ten Thousand Snakes, looked down at them, and walked straight forward.

Those giant snakes are sad to the extreme, their mission is to stop Chen Feng.

But if Chen Feng went to win the treasure this time, they didn't dare to hinder it.

If blocked, they will die now.

Seeing their expressions and their slightly weird eyes, Chen Feng slowly shook his head.

He knows, I'm afraid that there is a back hand behind this, things are not that simple.

However, Chen Feng could no longer take care of that much.

He moved forward quickly, and soon passed the scope of the Snake Valley. At the end of the Snake Valley was a small open space.

At the end of the open space, there is a towering white barrier.

Behind the barrier. I don't know what it is, and Chen Feng can't manage that much for the time being.

All his attention now is on the clearing.

The clearing was extremely narrow, much higher than Snake Valley, and looked like a high cliff at the end of Snake Valley.

The width is about thirty or forty meters, and the length is as much as several kilometers.

On this side of the Snake Valley, there are also many giant snakes, and those giant snakes, with their size, can even come out of the valley and onto this clearing with a single probe.

However, there was something magical in this clearing, and all the giant snakes were far away, as if they were afraid to avoid them.

Chen Feng knew that there was something weird about this high platform.

It is estimated that the ultimate secret of this fourth ring clue should be on this high platform.**novelusb.com**

Chen Feng stepped on it.

At this time, not far in front of Chen Feng, was a small altar.

The height of this altar is about three meters, and the diameter is about ten meters. The whole body is made of various jewels.

It is not inlaid with various jewels, but its body is formed by the solidification of many jewels.

Chen Feng saw the red agate the size of a human head, the white and misty pearls the size of a water tank, and other precious and rare treasures, all rare treasures in the world.

Among the Nei Zong, it is quite rare to take out one at random.

So many such rare treasures are gathered together to make an altar.

Obviously, the things on the altar must be more precious.

Chen Feng's heart thumped and jumped up, even if it was him, he was quite excited at this time.

He took a deep breath, forced his excitement down, and then raised his head to look above the altar.

Suddenly, Chen Feng's expression froze on his face.

At first there was a touch of disbelief in his eyes, and the next moment, this touch of disbelief turned into shock.

Then, it was a deep disappointment!

It turned out that when Chen Feng looked at the altar hopefully, he found that the altar was actually empty.

Nothing at all!

Chen Feng strode forward in disbelief and exclaimed: "Impossible, how is it possible? How can there be nothing on this altar?"

Chen Feng searched frantically, searching every inch of the altar.

However, there is still nothing.

The surface of this altar is so big and extremely strong.

Chen Feng searched everywhere and found that there was no secret grid.

Obviously, it is impossible to hide in that altar.

Finally, after Chen Feng saw something on the altar, he sighed slightly, the irritability on his face reached its peak.

It turns out that that thing is a groove.

This is a ring-shaped groove, and it can be seen that there should have been something left inside, most likely it was a jade ring, about the size of a palm.

Even, there are many fine fonts in the groove, and obviously there are corresponding bumps on the jade ring.

It can be described as extremely fine.

Because Chen Feng saw that those fonts were extremely small, how many times smaller than the tip of a needle, if it weren't for Chen Feng's excellent eyes, he wouldn't be able to see it.

Obviously, the jade ring has to be designed extremely delicately to be able to fit in here.

But now, the jade ring has disappeared, and there is only one groove left.

The blue veins on Chen Feng's forehead jumped wildly, his brows were twisted tightly, and the muscles on his face burst.

[Chapter 3104: It turns out that this is the real secret!](#)

After he was silent for a while, he suddenly let out an extremely violent roar, and slammed his fists on the altar, directly smashing the altar for a while.

"What's going on! Damn it! What's going on?"

"How could someone take this away? This treasure of the fourth ring! The reward of the fourth ring! It is also a clue to the fifth ring, how could it be taken away like this?"

Chen Feng's mood collapsed instantly, and his whole body was extremely irritable.

While muttering to himself, he smacked the altar.

Qing Mu and Wu Ling were a little scared when they watched them nearby, but Blood Wind had been with Chen Feng for a long time, but they were not afraid of him.

He flew directly in front of Chen Feng, first grinned and made a grimace at Chen Feng, then turned around, turned his **** towards Chen Feng, shook his **** towards Chen Feng, and dangled his tail.

Seeing him like this, Chen Feng couldn't help but smile at the corner of his mouth, even if he was angry.

He shook his head, but most of the anger in his heart was gone.

He was Chen Feng after all, and soon adjusted his mood.

He sighed softly and said to himself: "What's the point of being angry? What's the use of being angry now?"

"The reward of the fourth ring, the clue of the fifth ring, is that it has been taken away, Chen Feng, why bother?"

"No matter how angry I am, I just can't get along with myself."

Soon, Chen Feng adjusted his mood.

Anyway, the clues of the fourth ring have been broken, and it's no use thinking about it.

Although Chen Feng was very distressed, and his heart was almost frustrated. After all, he had put in so much effort for the clues of the previous links, but now he has all cut off.

All previous efforts were in vain!

More importantly, the following clues are all broken, and Chen Feng will not be able to get all the benefits in the future!

How can I not irritate him?

In other words, if you encounter this situation, I am afraid that my emotions will collapse!

But Chen Feng's mood adjusted quickly. He sighed softly and said, "If you break the clues of the fourth ring, you can break it. This is also a helpless thing. It is impossible to settle accounts with the ancients thousands of years ago. "

"There are so many people here, who knows who took it?"

Chen Feng finally knew why White Snake's eyes were thoughtful.

It turned out that the treasures here had been taken away long ago, so the overbearing existence in Bai Shekou's mouth also came to nothing, because he was only a year earlier than Chen Feng.

And he was a year earlier than Chen Feng, and he was empty, so there is no doubt that Chen Feng will naturally also be empty.

Then he looked up at the barrier in front of him,

Suddenly, a smile appeared at the corner of his mouth, and he said softly: "It turns out that this is not the end."

"It turns out that the exploration this time is not over. It seems that I still have some new discoveries!"

At this time, Chen Feng's gaze had already fallen on a stone tablet nearby.

It turned out that there was a stone tablet behind the altar, and the stone tablet was tightly attached to the white barrier.

On the stone stele, dozens of ancient seal characters were written impressively.

Chen Feng looked at Qingmu and Wuling, and asked, "You two, can you read the words on it?"

Qing Mu and Wu Ling looked at them, then looked at each other, both slowly shaking their heads.

Chen Feng smiled slightly.

The green curtain and the fog have been flexible for thousands of years, and they have a wide range of knowledge, and they don't know the ancient seal characters.

It can be seen that this ancient seal character must have originated in ancient times or even from another world, and obviously the latter is more likely.

Because these dozen ancient seal characters say that Qingmu Wuling doesn't know them, but Chen Feng knows them!

Because, the words on this are exactly the same as the fonts he saw when he got the master of the Dragon-Dragon Arhat Scriptures!

This is the font used in the General Outline of Jianglong Arhat Scripture!

And those few words were written astonishingly: "Those who have the power to descend the dragon and arhat must not be touched! Otherwise, there will be a risk of life!"

"There must be a risk of life?" Chen Feng looked at it, and felt happy first.

Then, it was shocking again.

How powerful is the power here.

He has always known that some places will have strong protection and cannot be easily entered, but this place is obviously different from other places.

If you touch it, you might not get in, but you will lose your life!

Chen Feng walked forward for a while, then his pupils shrank.

Because he saw that there was a corpse on the ground. I don't know how many years have passed, only the bones are left.

The clothes on her body still look quite new.

Chen Feng looked at him like that, but lying on the ground facing the barrier.

In Chen Feng's mind, he automatically added the scene of the day.

It should be because he wanted to touch this ratio, and then he was bounced back directly and landed here, so he died.

This shows that he was most likely to be killed by a live reaction.

And soon Chen Feng confirmed his idea, because when he looked forward again, he found another such corpse.

The death state is no different from the previous one.

Then there is another one.

In this way, there were three corpses, their bones broken, and even their skulls shattered.

Obviously, they were all shocked to death by extremely powerful forces.

It turns out that those people can pass the Valley of Ten Thousand Serpents as the fourth ring, but they can't pass this level!

Obviously, if they can't understand, then they will definitely touch this barrier, because they will be curious about what is inside.

And if he can read the text, he will touch it even more. After all, it is written in the font of the power of the dragon descending Arhat, indicating that the secret treasure inside is definitely related to the power of the dragon descending Arhat!

As a warrior, who can resist the temptation of the Dragon Dragon Arhat Scriptures?

"You can't enter without the power of the dragon descending Arhat!"

Chen Feng muttered a few words in a low voice, and a smile appeared at the corner of his mouth: "Isn't that me?"

He laughed, and the depressed feelings in his heart just disappeared without a trace.

"It seems that above the altar at the end of the Valley of Ten Thousand Snakes, there should be the reward of the fourth ring, the clue of the fifth ring."

"The fourth ring refers to this valley of ten thousand snakes."

"And at the end of the Valley of Ten Thousand Snakes, the clue from the fourth ring to the fifth ring is obviously taken away!"

"But! So what?"

Chen Feng laughed openly: "The fourth ring has come to an end, but the second floor of the tomb of the Great Emperor Yin and Yang hasn't come to an end yet!"

"It turns out that this is a very delicate game within the game."

"The second floor of the Mausoleum of the Great Emperor Yin and Yang is divided into inner and outer layers. The outer layer is the fourth ring, but the inner layer is only accessible to those who possess the power of the dragon descending Arhat."

"Explain what's buried in the inner layer..."

He sighed softly and said word by word: "That's the real secret!"

[Chapter 3105: enter!](#)

Chen Feng laughed. He didn't feel any frustration just now, but was thinking about how to get in.

The towering barrier in front of others, for others, may be the sky.

For Chen Feng, it is easy.

In Chen Feng's dantian, the sun turned, and the power of the dragon descending Arhat burst forth.

The next moment, his hands were covered with the strength of the dragon descending Arhat, and he pressed on this barrier.

The barrier hummed slightly, seeming to be sensing something.

On its surface, a cloud of spiritual power gleamed, and it seemed that as long as the power used by Chen Feng was wrong, it would immediately be countered by this cloud of power!

Respond directly to death!

But soon, after feeling Chen Fenglong's power of descending the dragon and Arhat, there was a light crack in the barrier.

Then, the white misty light instantly disappeared without a trace.

The next moment, with a light sneer, Chen Feng's hands were actually directly submerged in it.

Obviously, the barrier had already sensed that Chen Feng was using the power of the dragon descending Arhat, so he was very friendly to him.

Chen Feng smiled slightly and took a step forward.

As a result, half of his body was submerged.

Chen Feng nodded, turned around, waved to Qingmu and Wuling, and said, "Come on, come in together."

"Good!" Qing Mu and Wu Ling walked over.

Chen Feng grabbed the hands of the two of them, and let the blood wind shrink into his arms.

Then, one step is to step in without hindrance.

Chen Feng's figure passed directly through this barrier, unscathed.

But when he looked back, he found that the white barrier still stood behind him, separating the Valley of Ten Thousand Snakes from it.

After coming here, Chen Feng immediately took a deep breath of air.

He was gasping for breath, as did Qing Mu and Wu Ling.

Because just now in the area of the Valley of Ten Thousand Snakes, the breath was too dirty, and it was so dirty that people didn't want to breathe.

But after coming here, the breath here is extremely refreshing, and it contains powerful and vigorous power that makes people feel extremely comfortable!

In front of him, it was a very vast space.

From Chen Feng's point of view, I was afraid that it would not be less than thousands of miles.

And this space is extremely beautiful, with green mountains and green water everywhere.

At this time, the area where Chen Feng and the others were located was a small plain, surrounded by green water in front, and boundless green mountains at the end.

After entering here, Chen Feng felt extremely comfortable, not only because the aura here was extremely abundant and the air was extremely fresh.

And even more because...

Chen Feng suddenly took a step forward, closed his eyes and stretched out his arms.

At this moment, without his drive, the eight rounds of big sun in his dantian shining together.

Then, these eight rounds of big day spin together crazy.

It's just that when they rotate, they usually release the power of the dragon descending Arhat, and this time the direction of rotation is exactly the opposite of the previous one.

A wave of suction came from it, forming eight huge vortexes next to the eight round big sun.

The powerful suction power is transmitted to the Dantian, and then to the outside.

After feeling the power of the dragon descending and Arhat, Chen Feng felt that the space in front of him suddenly changed its appearance!

In fact, nothing has changed, but in Chen Feng's eyes it has changed.

He saw that in that space, a little golden light appeared.

Moreover, after Chen Feng perceives the golden light spot, he is immediately ecstatic.

Every point of this golden light is actually a ray of power to lower the dragon.

In Chen Feng's eyes, it was like a candle lit in a dark room.

It was as if the sun rose slowly from the horizon, illuminating the whole world.

It was like a little light that suddenly appeared, solving a puzzle that had been perplexed for a long time.

"From then on, the breakthrough is no problem!"

Chen Feng sighed softly, "This feeling is really wonderful."

An extremely enjoyable feeling appeared on his face, and then closed his eyes.

Even though he closed his eyes at this time, at this time, in Chen Feng's mind, he saw very clearly.

He saw that in front of him, there were countless golden light spots flying towards him.

These golden light spots flew into his dantian at an extremely fast speed, and then turned into the power of the dragon descending Arhat and merged into his eight rounds of great sun.

Originally, due to the fierce battle with Sang Zijin before, Chen Feng almost exhausted the power of descending the dragon.

But now, at a speed visible to the naked eye, he started to recover quickly and began to replenish.

Chen Feng opened his eyes and looked at the green screen, Wuling, and blood wind.

Not only him, Qing Mu and Wu Ling, their faces also showed drunken expressions at this time.

Qing Mu murmured: "I feel that the spiritual power here is unimaginable, much more abundant than Nei Zong."

Chen Feng smiled and said, "That's right, the spiritual power here is really abundant."

But Wu Ling was young and didn't think too much. He sat cross-legged and began to practice.

Soon, an hour passed, and Chen Feng's four big days were all completed.

Two hours have passed, and his eight rounds of big days have been completely completed and all recovered.

This speed is extremely terrifying, you know, if it is outside, Chen Feng wants to absorb them all, and it will take at least a few months.

And here, two hours, two short hours, Chen Feng has already done it!

But at this time, not only did Chen Feng's absorption rate not slow down, but on the contrary, his absorption rate became faster and faster.

The eight-wheeled big sun was spinning faster and faster in his dantian, the vortex was getting bigger and bigger, and the suction was getting stronger and stronger.

Therefore, Chen Feng saw that from a great distance, there were countless golden light spots formed by the power of the dragon descending arhat flying here at an extremely fast speed.

In a blink of an eye, all the golden light spots within a hundred miles of the circle were absorbed.

They gathered together to form a huge golden torrent that was hundreds of miles long and tens of miles wide.

This golden torrent revolves crazily around Chen Feng, and Chen Feng is in the middle of this golden torrent.

The golden torrent turned faster and faster, and its source was thrown into Chen Feng's Dantian.

A huge mountain whistling and tsunami sounded in the entire space.

The space seems to be shaking.

At this moment, the huge movement stunned Qing Mu and Wu Ling. They had already stopped their cultivation, staring at Chen Feng blankly, watching the changes in the world vision caused by Chen Feng.

Because at this time, they even saw that the peak of this space, the boundless clouds all began to rotate.

Wuling still didn't think there was anything, Qingshi had more knowledge than him, and his heart was full of shock at this time.

[Chapter 3106: Mu Zhanpeng's relic?](#)

"How powerful is the existence of Master Chen? How powerful are the techniques that Master Chen cultivates? Will it cause a change in this vision of heaven and earth?"

And it was not only Green Screen and Wuling who were alarmed.

After feeling this shock, suddenly, from the depths of this space, a terrifying aura suddenly appeared.

The appearance of this breath caused the entire space to vigorously shake, as if a behemoth had been sleeping before.

And now, he is finally awake!

This breath was extremely terrifying, and with a trace of ferocity, it rushed straight into the sky.

Both Qing Mu and Wu Ling looked up in shock.

Then I saw that in the deepest part of this space, a black air rushed straight into the sky, like a huge black pillar.

There is an unspeakable fierce and terrifying atmosphere in this black pillar, as if there is a terrifying evil existence, hiding there and making a silent provocation to them!

Qing Mu and Wu Ling both exclaimed, "What's going on? What kind of terrifying existence is this?"

They all looked at Chen Feng.

But at this time, Chen Feng was completely unhappy, he was already sitting cross-legged on the ground.

The golden torrent surrounded him and was continuously absorbed by Chen Feng!

It was as if Chen Feng hadn't noticed the breath, hadn't seen the black giant pillar.

In fact, Chen Feng knows everything at this time, but he has no time to manage so much!

Because at this time, Chen Feng's cultivation has reached a most important moment.

At this time, Chen Feng had been practicing here for several hours, and the eight rounds of his dantian had been completely completed.

And the eighth round of the big sun at this time is even more crystal clear, as if the finest jade was carved.

Not only that, but its size is constantly getting bigger, and while getting bigger, the body is almost transparent.

In the end, all the power of the dragon descending Arhat rushed towards him madly.

In the eighth round, the size of the big day is already a lap larger than the others, and it is still growing.

Finally, when another hour passed, there was a loud bang, and the eighth round of the big day no longer grew, but stopped, turned frantically, and buzzed.

Chen Feng sighed softly, then suddenly opened his eyes.

The golden light spots around him also dispersed.

Chen Feng had already completed his training at this time. At this time, the eighth round of the big sun was already bigger than the other three big suns combined.

Chen Feng looked inside carefully for a moment, and then a slight smile appeared at the corner of his mouth, and whispered to himself: "This eighth round of the Great Sun is already at its extreme. It turns out that this is the ultimate form of the eighth round of Great Sun."n0vELusb.COM

"It turns out that this is the true profound meaning of the general outline of the Jianglong Arhat Scriptures."

It turned out that after Chen Feng came here, he was very happy and began to practice.

And he also comprehended a little of the profound meaning behind the general outline of the Dragon-Jinglong Arhat Scriptures.

It turns out that these rounds of the big days created by the General Outline of the Dragon Arhat Scriptures were all the same size before, but after the latter, each round was much bigger than the previous one.

Before, the eighth round of the big day was as big as the others, and Chen Feng thought that this was the normal form of the eighth round of the big day. As everyone knows, the eighth round of the big day was not complete at all at that time.

Chen Feng whispered to himself: "Now, my eighth round of the big day has reached the extreme, and it is possible to break through at any time!"

"It's just..."

He raised his brows slightly, as if telling himself something, and said: "If you want to break through to the ninth round of the Great Sun, and want to condense the ninth round of the Great Sun, it is absolutely impossible with my current practice."

"I have practiced the fragments of the Jianglong Arhat scripture to the extreme, and I can only do this now."

"I want to condense the ninth round of the Great Sun and break through to Emperor Wudi, I still need the following chapter."

"So..."

Chen Feng cast his gaze into the distance, his eyes shot sharply: "It depends on what you gain here!"

Of course, Chen Feng also saw the huge black column in the distance.

But he didn't take it to heart, only a slight smile appeared at the corner of his mouth, and he looked at Qing Mu and Wu Ling and said, "Are you two still going to practice?"

"If you don't practice, let's go!"

"If it is for cultivation, let's stay here for a while."

Qing Mu and Wu Ling shook their heads together.

Chen Feng nodded, and a group of people moved forward.

Soon, Chen Feng and the others came to the front of the mountain, and there turned out to be a stone road in the mountain, winding forward.

It can be seen that the traces of this stone road have been extremely mottled. I don't know how many years it has existed here. There are even some damage on it, and the moss on both sides is already very thick.

Chen Feng touched it, feeling wet.

He raised his brows: "It turns out this is really a real world."

Chen Feng has been to many such worlds, but many of them are illusioned, and this world is real.

All these mountains and rivers are real.

Chen Feng is even more looking forward to it. You must know that it is much more difficult to construct such a world than an imaginary world.

What is the ultimate secret here?

At this time, Qing Mu suddenly said to Chen Feng: "Master Chen, among the things in that space you just received, can we see one of them?"

"What is it?" Chen Feng couldn't help but asked, raising his brows.

Qing Mu was obviously very emotional at this time, her eyes were a little red, and her body was trembling slightly.

She forcibly suppressed her excitement, and whispered to Chen Feng: "It is the relics left by those who have been to the second floor of the Yin-Yang Emperor's Mausoleum that you collected just now."

"One of the relics, I seem a little familiar."

"Oh? A acquaintance?" Chen Feng raised his brows, he didn't ask much, anyway, he would know everything soon.

Therefore, Chen Feng waved his hand to release all those things and lined them up on the ground.

After seeing these things, Qing Mu didn't hesitate at all, just flashed away, and rushed towards one of them.

Soon, he came to the front and took it in his hand.

Not only him, Wu Ling also came to the front with excitement.

Qing Mu looked at Wu Ling and said, "Did you see it? Is it him? That's right?"

Wu Ling nodded heavily and said, "That's right."

"At the beginning, Mr. Mu Zhanpeng, holding them in his hands every day, how could I make a mistake?"

"Mu Zhanpeng?" Chen Feng heard the conversation between them, and suddenly a flash of light flashed in his mind.

Like electric light and flint, suddenly thought of a possibility: "What? Mu Zhanpeng?"

[Chapter 3107: The fifth ring clue! I found you!](#)

"Mu Zhanpeng will come here too?"

Chen Feng looked at Qing Mu and said: "Remember about this thing."

As he said, he shook the thing in his hand.

This is a short sword, about a foot in length, almost like a dagger.

The outer scabbard is very simple and looks like a black wood.

But Chen Feng knew the extraordinary product at a glance.

The texture of this black wood is extremely vague, as if the space has been chaotic.

It seems that this wood has the ability to confuse the space and turn the surrounding into chaos.

When Chen Feng saw it, he was shocked and whispered to himself: "It is really wonderful to use this kind of wood as a scabbard! It is impossible to know what the sword inside is, and it is impossible for people to observe it. come out."

"Moreover, this kind of thing is used as a box. It is also great to preserve some precious treasures. It will not rot for hundreds of thousands of years."

He clicked and pressed the circlip to pull out the dagger.

As soon as it was pulled out, there was a bit of green in the air.

At the same time, an aura of life is also radiating.

When Chen Feng saw the side, that piece of grass suddenly grew vigorously.

Then, it blooms and bears fruit, and even withers.

Obviously, there is a strong breath of life inside.

This short sword is no more than a foot long, and it is green and thin as a wing.

After pulling it out, it has been trembling slightly in the air.

Chen Feng looked at it and raised his brows.

"This short sword, I'm afraid it can reach the rank of a rank 6 and 7 emperor."

Thin as Chanyi, always trembling.

But the trembling was not because he was pulled out just now, but because he had maintained such a trembling state.

Maintaining this state is actually wonderful, because in this state, the sharpness of this short sword will increase by many times.

This tremor allows him to easily cut through many extremely hard materials!

"That's right, it's him!" Qing Mu sighed slightly and said, "I remember it very clearly."

"At the beginning, when he rescued the two of us, this sword was hanging from his waist."

"And I saw him use this sword to practice swordsmanship more than once, but later, when he returned to Mirror Valley, he didn't have this sword. I thought he was left here."

"I asked him at the time, but he didn't say much."

Chen Feng said slowly: "It seems that it is not left behind, but this sword was used by him as a way to get out."

Chen Feng whispered to himself: "Mu Zhanpeng has already come here, but after he came here, obviously there is no way to enter the inner layer of the second floor of the tomb of the Great Emperor Yin and Yang."

"He is the farthest, he can only reach the barrier just now."

"And where the barrier was just now, the things there have already been taken away, which means..."

Chen Feng's eyes suddenly flashed, and he blurted out, and said, "It turns out that the person who took away the rewards of the fourth ring and the clues of the fifth ring is most likely Mu Zhanpeng!"

Qing Mu listened by the side, nodded quietly, and said, "Yes, it should be him."

Chen Feng continued speaking very quickly: "I remember, you mentioned it to me before."

"Mu Zhanpeng went to a place later, as if to perform a sect mission there, but never came back, did he?"

"Yes." Qing Mu nodded.

She looked at Chen Feng and suddenly exclaimed: "Master Chen, you mean, Master Mu Zhanpeng got the clue to the fifth ring, so he took that mission? That's why he went there?"

"Could it be that? Is the clue to the fifth ring there?"

"I dare not say absolutely, but it is very possible."

Chen Feng was excited and clapped his hands with a smile: "It should be there, there should be the clue to the fifth ring."

At this time, Chen Feng was even more excited.

At first, he thought that this clue would be cut off, and he was extremely sorry in his heart.

After all, according to Zihuo True Spirit, among these nine-ring clues, every clue has a reward.

Moreover, the farther to the back, the greater the reward.

When it came to the ninth ring clue, the reward was even more powerful and incredible, enough to forge a strong man standing at the peak of the Dragon Vein Continent.

After all, the person who left the clues to the Nine Rings was initially disdainful of the entire Dragon Vein Continent.

And he is most likely to leave his lifelong martial arts experience, final secrets, and final strength in the clues of the ninth ring.

This shows how huge the value is.

Chen Feng suddenly learned that he might never get this clue again, and he was still very disappointed.

It's just that the other party can control his emotions.

But now, this clue was lost and recovered, and not only that, he can even get the fifth ring clue relatively easily.

How could this make Chen Feng unhappy?

Chen Feng looked at Qing Mu and said, "Do you still remember the name of the place where Mu Zhanpeng went?"

Qing Mu thought for a while, then solemnly nodded and said firmly: "I remember it very clearly."

"On the same day, he specifically told me before going out, telling me that he would be back in half a year, but he..."

The look on her face turned gloomy, and she said softly, "Never come back."

Chen Feng was silent, patted Qing Mu and Wu Ling lightly, and said, "Don't worry, I will fulfill his last wish for him."

"The two of us are destined in the end. We both live in Mirror Valley, and we also got the first four rings among the clues of the nine rings."

Chen Feng sighed softly, and couldn't help but feel a little fascinated by the senior a thousand years ago.

He whispered: "What you have not completed, let me do it!"

"Don't worry, I won't let you down anyway!"

Both Qing Mu and Wu Ling nodded solemnly.

Both of them have great trust in Chen Feng.

Chen Feng sighed softly: "When the time comes, if I want to find the fifth ring, I can go back to the emperor city first and bring the true spirit of Zihuo with him."

"That little guy, although he can't tell me the specific clues of the fifth ring, he can at least tell me whether my guess is right or wrong."

Thinking of the true spirit of Zihuo, Chen Feng shook his head gently.

When he went to the Xuanyuan Family Inner Sect this time, he was afraid that Shen Yanbing and the others would be disadvantaged in Chaoge Tianzi City, so he left Zi Ling there.

Chen Feng whispered: "Yan Bing, Yan Bing, I don't know how you are now!"

The group continued on.

In fact, this place is not particularly big, after all, it is a real world, and it is very difficult to make it so big.

After walking for about a day, from a distance, Chen Feng saw the stretch of mountains reach the end.

[Chapter 3108: The real body of the yin and yang panshan giant snake!](#)

Finally, after walking for a while, turning around a mountain col, Chen Feng saw it, and suddenly he opened up.

There is a big lake in front of here!

However, all eyes did not fall on this big lake.

Because at this time, suddenly, a voice slowly sounded in the hearts of everyone: "Are you finally here to die?"

The voice was very deep, deep, and hoarse.

There is even more the meaning of greed and killing that people can't hide!

Chen Feng and others all looked across the Dahu Lake.

Then I saw that across the big lake, it was the towering cloud pillar.

And under the cloud pillar, where is a huge beast!

This is a serpentine behemoth!

Chen Feng couldn't help taking a breath after seeing this giant snake-shaped beast.

Because this behemoth is the strongest one he has seen since entering the secret realm here, and it is also the largest.

His body has reached two to three hundred meters in diameter, and the strangest thing is that his whole body is half white and half black, and the division is particularly clear!

The left half is white, the right half is black, the two sides are the same size, and the colors are completely different.

It's like taking a ruler to measure with extreme precision from the middle and separate them.

The surface of its body was covered with huge, thick, shiny scales, and his body was unexpectedly wrapped around the cloud pillar, circle after circle, without knowing how long.

Looking at it this way, it seems that the cloud pillar is to be crushed.

At this time, after seeing Chen Feng, he didn't show the slightest fear in his eyes.

On the contrary, his eyes were full of viciousness, pride, and expectation for an instant.

In the next moment, this complex emotion only turned into one, that is, deep greed.

He looked at Chen Feng, greedy to the extreme, as if he saw his own food.

At this moment, Chen Feng's hearts were stirred.

"He actually wanted to swallow me. He actually knew that after swallowing me, he would be able to soar in strength?"

In Chen Feng's heart, suddenly something was broken.

It was as if some secret had been solved, so he knew immediately, this giant snake was named Yinyang Panshan giant snake.

The origin of this yin-yang panshan giant snake is also very special. Chen Feng wanted to think about it, but found that his thoughts were vague.

Chen Feng didn't know why he knew these things.

But he only knew that he knew these things, as if sealed in his mind.

At this moment, it was broken, so he digested and accepted this memory naturally, without the slightest lag or the slightest sense of isolation.

Because of these things, the feeling for Chen Feng is Chen Feng's original memory.

Chen Feng is as natural as he forgot to remember now!

Looking at the giant snake, Chen Feng not only was not afraid, but frowned thoughtfully.

At this moment, he didn't have any fear, instead he was thinking about these things.

A voice sounded in my heart: "This giant snake is here in the deepest part of this place, then does it mean that he is related to the remaining fragments of the Jianglong Arhat scriptures?"

Suddenly, Chen Feng felt something wrong.

Because he looked at the Yin-Yang Panshan giant snake for a few more times, but found that although the color of the giant snake was black and white, the golden light on the surface was really hot.

This is a very normal phenomenon. After all, many powerful monsters emit light, but what is abnormal is that the golden light on his body is too hot.

As if it was, Chen Feng's heart suddenly flashed, and he blurted out, exclaiming: "It seems to be hiding something!"

The golden light on his body is too strong, as if he was trying to hide the truth.

After thinking of this layer, Chen Feng got goose bumps all over his body.

He felt that he was about to come into contact with the truth.

Chen Feng took a deep breath and calmed himself down.

Then, he looked forward and observed carefully.

And soon, Chen Feng found another clue, because he felt that the golden light on his body was a bit familiar to himself.

Not only is it familiar, but it seems that the light is quite close to him.

"It shouldn't be!" Chen Feng whispered to himself: "The main aura of this giant snake is evil, harsh, ferocious, and full of killing."

"I have never had much contact with this kind of breath. He is different from any of the martial arts and martial arts I practice. How can he have a feeling of familiarity and kindness?"

Chen Feng watched for a long time, but did not see clearly.

So he simply closed his eyes and felt it carefully.

Suddenly, as soon as Chen Feng closed his eyes, the breath in his mind immediately became clear countless times.

Chen Feng immediately felt that breath became clear, and Chen Feng instantly distinguished the breath on his body.

Not all of them are kind to myself, but there is a warm golden light inside, which is kind to myself.

As for this warm golden light, after Chen Feng peeled it off, he immediately knew why he felt friendly.

He finally remembered where he had seen this warm golden light before!

"I did see it before, but it's far bigger than the current golden light, how many times! I don't know how many times it is strong!"

"This turned out to be!"

Chen Feng suddenly opened his eyes, took a deep breath, and said in a slow voice, "This is exactly what I saw in the Buddha dragon bone space. It is the warm golden light gleaming on the Buddha dragon bone.!"

After thinking of this, Chen Feng suddenly felt shocked and shocked.

"This giant snake is actually related to the Buddha's bones? It is actually related to the Buddha's bones?"

He was shocked, but when he thought about it, it was quite reasonable.

After all, this place has an inexplicable relationship with the Jianglong Arhat scripture.

And the Jianglong Arhat scripture has a very deep relationship with the Buddha dragon bones, and it is normal for the two to be related!

Thinking of this, Chen Feng immediately filled his eyes with the power of taking off and landing the dragon and Arhat, and then looked towards the other side.

The next moment, the giant snake in his eyes became different, and the golden light on its surface slowly dissipated.

The fact that he had always wanted to hide was finally exposed in Chen Feng's eyes.

Therefore, Chen Feng suddenly exclaimed, because he could clearly see the essence of the giant snake under its appearance.

He finally knew what this giant snake looked like.

At this moment, the giant snake that appeared in Chen Feng's eyes, after the golden light dissipated, what was left in place was a bone!

A huge, slightly curved, slightly curved color, crystal clear as jade, looks very holy white bone!

Chen Feng looked very familiar with this bone.

[Chapter 3109: A rib of Buddha!](#)

Because he had seen it more than once before, this white bone was indeed a rib of Buddha!

Chen Feng had also refined such a rib before and obtained the Ba Snake Wuhun. How could he be unfamiliar with it?

Chen Feng exclaimed: "The rib! The essence of this giant snake turned out to be a huge rib! It is the rib of the Buddha dragon's bones!"

Chen Feng finally knew the origin of this giant snake, and he also finally knew why the remaining secrets of the Dragon-Jinglong Arhat Scriptures were found here.

It turned out that this giant snake was turned into a part of the body of the Buddha's bones, but it was turned into a rib of the Buddha's bones!

Originally, when the Buddha's skeleton looked at Chen Feng, his eyes were very lazy, and even some languid.

The eyelids drooped down, and they didn't turn up. He didn't even glance at Chen Feng.

Obviously, he didn't pay attention to Chen Feng at all.

Later, when Chen Feng came to the front, the mountain-like giant snake raised its head slightly and looked at Chen Feng, but his eyes were full of disdain.

But now, his eyes became very fierce, staring at Chen Feng, there was a murderous intent inside.

He hadn't paid attention to Chen Feng at all.

But at this moment, he felt that Chen Feng looked at his gaze, which made him very uncomfortable. There was a kind of illusion that he wanted to see him thoroughly and see clearly from the inside out, without the slightest secret.

He stared at Chen Feng and let out a cold howl: "Little boy, what are you looking at? Look again, believe it or not, I've destroyed your eyes!"

Chen Feng looked at him, smiled slightly and said, "I don't know if you can give up my eyes."

"But I know, I should have used your eyes."

As soon as this sentence was said, the yin-yang panshan giant snake like a mountain was furious for it. "

He let out a roar of incomparable fright: "The roar was full of viciousness and violence."

He stared at Chen Feng and said coldly, "Boy, what did you say? You try it again?"

Chen Feng's words completely angered him.

Chen Feng looked at him, smiled and said again: "I said you can't kill my eyes, but I can kill yours."

After hearing this sentence, the Yin-Yang Panshan Giant Snake was taken aback.

Then, there was a burst of laughter, which was full of disdain.

After a while, the laughter stopped.

He looked at Chen Feng, his voice was full of sarcasm: "You said you want to destroy my eyes, what do you use to destroy? Is it your mouth?"

"Just relying on these few unfounded big words?"

"Boy, what else do you have besides talking nonsense here?"

Obviously, he didn't believe Chen Feng's words at all, and he still didn't pay attention to Chen Feng.

Although Chen Feng's gaze made him feel very uncomfortable just now, it was just very uncomfortable.

He didn't think Chen Feng could pose any threat to himself.

Chen Feng didn't get angry, because at this time, in his opinion, this yin-yang panshan giant snake was just a delicious cake.

About to be swallowed by myself.

Chen Feng looked at the Yin-Yang Panshan Giant Snake, and suddenly asked: "What is your origin? Tell me honestly."

Hearing these words, the Yin Yang Panshan Giant Snake trembled violently.

Staring at Chen Feng, the light in his eyes suddenly became full of panic.

He stared at Chen Feng and yelled in disbelief: "Boy, what are you talking about? I don't understand!"

"What are you talking about? I don't understand!"

Chen Feng looked on coldly and smiled slightly.

He could see that although the Yin Yang Panshan Giant Snake had lost his words and denied it, in fact he was already very flustered.

Obviously, he revealed the real secret.

Chen Feng smiled slightly and said, "Of course you are telling me how you came here from the big desert south of the Dragon Vein Continent!"

Listening to Chen Feng specifically uttering the two words desert, and even the location of the desert, this yin-yang panshan giant suddenly became very flustered.

He roared in anger and anger: "How do you know? Ah? How can you know my secret?"

Chen Feng smiled slightly and said, "You don't need to worry about how I know, you just need to answer my question."

At this time, the look of the yin and yang panshan giant snake quickly calmed down.

He suddenly felt ashamed that he couldn't tell: "What am I afraid of? What am I afraid of him?"

"Even if this kid knows a little bit of my secret, what about it?"

"Even if he knows my secret, what can he do with me?"

"It's just an Eight-Star Martial Emperor!"

"And me? My strength is far better than him!"

"If this is the case, what am I afraid of him doing?"

When he thought of this, his heart calmed down, and the panic and bewilderment on his face disappeared.

Instead, it was a terrifying and hideous horror.

He stared at Chen Feng with a vicious light flashing in his eyes, the mouth of the snake opened, and a bright red snake letter hissed, vomiting nonstop.

He stared at Chen Feng and said, "Boy, I admit that you have indeed peeked through some of my secrets."

"But, so what?"

"You don't have the corresponding strength. Knowing this secret can only make you kill yourself. It can only make you die faster!"

"I will kill you now!"

He gritted his teeth and said: "Just take your secret and go to hell!"

Chen Feng smiled slightly, looked at him and said, "I don't think you have the strength to kill me."

"Little bastard, you are simply arrogant."

The Yin-Yang Panshan Giant Snake let out a roar, shook its body, and went straight from its twisted state.

Facing Chen Feng fiercely.

He opened his huge mouth and seemed to want to swallow Chen Feng.

Chen Feng smiled slightly without panic, just standing there.

The yin-yang panshan giant snake madly attacked Chen Feng, getting closer and closer.

Soon, its huge mouth has come over Chen Feng.

Chen Feng could be swallowed up in the next moment.

At this moment, the trace of anxiety that was in his heart completely disappeared, haha laughed wildly:

"Boy, I thought you had any special skills!"

"I thought, what special reliance is there for you to come here!"

"Unexpectedly, you would just put a few words on your lips!"

"It turns out that you are nothing but rubbish! Hahaha! I can swallow you with this one, leaving you completely dead!"

At this time, Chen Feng's eyes flashed with a cold light, and he sneered and said, "I am a waste of nothing, am I?"

[Chapter 3110: Seriously injured!](#)

"Okay, then you might as well keep your eyes open and watch how a trash can beat you!"

The more Chen Feng talked about later, the higher his voice became, and in the end it was almost like a roar.

At the same time, in Chen Feng's dantian, eight rounds of the big sun circulated wildly, and eight vortexes suddenly formed, sending an extremely powerful suction.

Especially in the eighth round of the big day, the suction is almost equal to the sum of the previous seven rounds of the big day.

After gathering together, a larger vortex formed above the dantian, and even the sea water in the golden ocean at the bottom of the dantian was sucked up, forming a huge golden pillar that penetrates the dantian.

The next moment, Chen Feng shook his arms, raised his head, and let out a huge roar.

The roar spread far away.

At the same time, golden light bursts from his body, and the power of the dragon descending Arhat radiates.

With a bang, a huge whirlpool formed above Chen Feng's body in the next moment.

The whirlpool is more than ten meters in radius, and a golden beam of light connects Chen Feng and the whirlpool.

To be correct, it should be connected to Chen Feng's Dantian and this vortex.

In his dantian, golden rays of light continuously emerged and poured into the whirlpool.

As a result, the vortex became bigger and bigger, and the momentum became stronger and stronger, and a huge and incomparable force came from the vortex, which directly smashed the yin-yang panshan giant snake.

It collided fiercely with the Yin Yang Panshan Giant Snake.

With a loud bang, the Yin-Yang Panshan Giant Snake trembled so much that it couldn't move forward at all, so it froze here.

Therefore, Qing Mu and Wu Ling saw this scene:

Chen Feng stood there, with his own strength, withstood this huge existence tens of thousands of times larger than him, and did not let the wind fall.

Chen Feng stood on the ground, and in front of him was the huge whirlpool that had reached a radius of several hundred meters, like a golden shield.

He used this golden shield to withstand the huge Yin-Yang Panshan giant snake opposite.

The Yin-Yang Panshan Giant Snake was stupid, and roared in disbelief: "How is it possible? How can you have such a strong power?"

And the next moment, the look on his face was no longer disbelief, but with a trace of fear.

"Is this power so familiar to me?"

It turned out that at this time, he found that the power coming from the golden vortex was extremely familiar to him.

Because this is amazingly...

Chen Feng suddenly opened his eyes, stared at him, and smiled brightly: "Because this is your original strength, and this is the source of all your strength!"

"This is the power of the dragon descending Arhat!"

The next moment, Chen Feng roared: "Breaking out!"

As a result, the power of the golden dragon descending arhat pouring from his body suddenly increased tenfold.

And that vortex suddenly became several times larger, directly from a radius of a few hundred meters to a full kilometer in diameter, extremely huge!

At the same time, the power in the golden vortex suddenly changed.

Originally, the power in the golden vortex of Chen Feng was restrained, absorbed inside, or even attracted but not emitted, just like the huge wave hidden under the water surface, without breaking out of his own power.

At this time, in Chen Feng's dantian, the eight rounds of the sun had been completely emptied, and all the power had been extracted, making Chen Feng a little unsustainable.

But he gritted his teeth and let out an extremely angry roar, and his arms pushed out completely.

As a result, the huge golden beam of light became thicker again.

At the same time, the power in the golden vortex, due to Chen Feng's eruption this time, also broke out completely.

With a loud bang, an incomparable force directly hit the golden vortex, bombarding the body of the Yin-Yang Panshan Giant Snake.

A touch of horror appeared in the eyes of the Yin-Yang Panshan Giant Snake.

Because he could feel how powerful Chen Feng burst out at this time, but he couldn't avoid it and could only resist.

As a result, his huge head also rammed toward this force.

With a boom, the two collided.

Just now, Chen Feng's golden vortex and his head had hit the same level, not to mention that the golden vortex is now dozens of times stronger.

After the two collided, the strength of the golden vortex did not change at all, and it continued to move forward.

The Yin-Yang Panshan Giant Snake let out a scream.

He only heard a crisp sound, his snake head was directly knocked down, and his skull collapsed.

Numerous golden scales soared out, flying everywhere, golden blood like a fountain.

A huge wound appeared on his head, shocking.

A smile appeared at the corner of Chen Feng's mouth and continued to urge.

As a result, the golden vortex flew forward again and hit his body again.

This time, it hit the middle of his body.

He let out a scream again and a crisp sound, the snake body was directly discounted, almost two sections of the snake body stuck together.

A huge wound appeared, and blood flowed madly outward.

The blood gathered, almost forming a big lake under him.

Two strokes, just two strokes, he was already severely injured, lying on the ground, screaming screaming.

At this moment, Chen Feng looked at him with a burst of light in his eyes.

Because at this time, he could see more clearly, the light on the surface of the Yin-Yang Panshan Giant Serpent's body swayed for a while, and it became more and more unable to play a concealed role.

Therefore, Chen Feng can almost directly see its subject with the naked eye.

That is the huge rib.

In Chen Feng's eyes, this is the boundless power to lower the dragon and Arhat!

Thus, Chen Feng's golden vortex flew past again.

However, this time, the golden vortex did not attack the Yin-Yang Panshan Giant Snake, but hovered over his body, and the power was no longer released outwards like the one just now, but as at the beginning. Start sucking in.

Suddenly, a huge suction force came out from the golden vortex.

The blood flowing out of the yin and yang panshan giant snake and the flying scales were all directly sucked in by the golden vortex.

Then, after turning around in the golden vortex, he lost his body and directly transformed into the power of the dragon descending Arhat, flowing back into Chen Feng's Dantian.

Suddenly, Chen Feng felt unspeakably comfortable.

A smile appeared on the corner of his mouth.

At this time, the Yin-Yang Panshan Giant Snake uttered disbelief, and at the same time it roared in grief:
"My power of the dragon descending Arhat, the power of the dragon descending Arhat that I have worked so hard for so many years, has been given by you. Absorbed?"
