

Peerless 3191

[Chapter 3191: Kinko Samurai Kamimoto body!](#)

The next moment, he let out a roar and raised his arms. In his dantian, bursts of power suddenly waved out.

There seemed to be countless stars spilling out in his dantian.

Then, these stars condensed into a phantom behind his body.

This phantom, about six or seven meters in height, turned out to be a golden armored warrior.

This golden armor warrior is wearing extremely heavy golden armor all over his body.

The armor is all made of large pieces of golden rare metal, and looks extremely thick and powerful.

The height of this golden armor warrior is six meters, the width of the shoulders is almost six meters, the waist is very thick, the arms and thighs are very thick, and the head is huge, as if it is directly mounted on the shoulder.

Kong Wu is extremely powerful and extremely strong.

His face was extremely ferocious, and two copper bell-like eyes stared at Chen Feng fiercely.

Chen Feng felt that as soon as this golden armored warrior appeared, the pressure in the air immediately seemed to be several times greater than before, and Chen Feng was almost out of breath!

Chen Feng was startled: "Is this Zhong Fenglin's..."

Zhong Fenglin laughed loudly: "Chen Feng, have you seen it? This is my Shenyuan combat body!"

"It turns out that this is the Shenyuan combat body?"

Chen Feng carefully looked at the golden armored warrior, at this moment he did not have any fear, but rather interested.

Because, in Chen Feng's view, this is a rare learning opportunity.

This was the first time he saw the Shenyuan battle body. Chen Feng wanted to know what kind of power the Shenyuan Shenyuan battle body had.

Chen Feng looked at the divine origin battle body and felt his heart surging, full of power!

His fighting spirit was inspired.

This Shen Yuan battle body is so powerful, I am afraid that the Shen Yuan it condenses is at least as many as three ways!

Zhong Fenglin smiled triumphantly: "Have you seen it? This is my Shenyuan combat body!"

As if he could guess Chen Feng's thoughts, Zhong Fenglin paused and continued: "My divine essence battle body is made up of five divine essences!"

"The five gods are condensed?"

Chen Feng trembled heavily in his heart.

You know, as long as you have three gods, you are stepping into the Martial Emperor realm, and he actually has five gods?

What a horror is this!

Zhong Fenglin said triumphantly: "The three gods are now Emperor Wu."

"The ten gods are the peak of the one-star martial emperor."

"And I, possessing the five gods, are already in the middle stage of the one-star martial emperor, and I don't know how much stronger than the first-star martial emperor I entered!"

"Boy, you are not even a half-step Martial Emperor, a mere nine-star Martial Emperor peak!"

He looked at Chen Feng contemptuously, stretched out two fingers, and rubbed it gently:

"You are also worthy to compare with me? You are also worthy to fight with me? You are also worthy to be compared with me?"

He said three sentences that you are worthy of, very contemptuous.

The action is like pinching an ant to death.

He didn't have any nonsense, directly screamed and raised his hands.

Then, he fell heavily and made a down strike!

So his divine body battle body also roared, and flew directly towards Chen Feng, smashing both fists severely.

At this moment, Chen Feng felt that the sky went dark, as if the entire sky was covered.

It was as if there was a big mountain smashing down from the sky, and the endless power felt like it was pouring fiercely, making him feel that his body was almost to be smashed to pieces.

Chen Feng was shocked!

"What is the power of his Divine Origin Battle Body? It is so strong?"

Chen Feng didn't have time to think too much, his thoughts flashed, and the golden lightning spirit in his dantian suddenly burst out of the water.

With a single brush, it blocked Chen Feng.

At this time, the length of the golden lightning **** element had reached nearly five meters, and branches were growing.

Then, at the next moment, the golden lightning **** and the golden armor warrior **** smashed together.

Chen Feng's Golden Lightning Spiritual Essence, before colliding with anyone's Spiritual Essence, has never fallen into the wind, and can directly smash his Spiritual Essence to pieces.

But this time, it was different from before.

Because what he is facing now is the Shenyuan combat body!

It is a battle body composed of five gods, which is stronger than the gods that Chen Feng fought against before!

The golden lightning gods hit the right fist of the golden armor warrior gods body.

With a loud bang, the golden lightning **** essence actually flew back directly, and the light on his body shook violently, almost breaking apart alive.

And the right fist of the golden armor warrior Shenyuan battle body also made a cracking sound, fractured directly, and the light was dim.

The Golden Lightning Shenyuan suffered a big loss, and the Golden Armor Warrior Shenyuan battle body also suffered a little loss, but it still had the upper hand.

The golden armor warrior Shenyuan battle body let out a crazy roar, seeming to feel like losing face.

The figure flashed sharply, grabbed the golden lightning gods in his hand, and then smashed his right fist.

The Golden Lightning Spiritual Yuan couldn't resist at all and couldn't escape.

After being hit with a fist, there was a violent shaking, the light broke, and he was almost beaten in two directly.

At the same time, Chen Feng felt black.

He was the head of the gods, and he was also badly injured. With a wow, a mouthful of blood came out.

Chen Feng looked at the golden armor warrior Shenyuan battle body in shock, and said, "I know what his power is!"

"At that moment, I felt as if there was a billion catties of power smashed down!"

"It turns out that there is only one power of his golden armor warrior Shenyuan battle body, and that is power!"

"However, it is extremely powerful, almost unmatched!"

Then, the golden armor warrior Shenyuan battle body was smashed with a punch.

After this fist was hit, Chen Feng's golden lightning gods uttered a violent hum, and the light dimmed to the extreme.

Seeing, it was about to be annihilated by smashing. *ovelus&.com*

At this time, Chen Feng was embarrassed!

With a violent roar, he rushed forward and fiercely attacked the golden armor warrior Shenyuan combat body.

And the golden armor warrior Shenyuan combat body just smiled contemptuously and stretched out his left fist.

Immediately, Chen Feng felt that he was gently pressed down by this fist, as if being pressed down by a huge mountain.

This punch instantly caused Chen Feng to spurt blood and fractured his muscles.

With a click, countless bones on his body were broken in an instant.

His body fell heavily to the ground!

Just for a while, Chen Feng was already seriously injured.

An expression of shock appeared in Chen Feng's eyes.

He had known for a long time that there was a huge gap between himself and Zhong Fenglin in strength, but he did not expect that the gap in strength would be so big!

Not an order of magnitude at all!

Zhong Fenglin can completely crush it!

[Chapter 3192: I, Chen Feng, would rather die than accept!](#)

"Is this the strength of a Wudi realm powerhouse?"

For the first time, Chen Feng realized how terrifying the strength of a real Wudi realm powerhouse is.

Zhong Fenglin laughed loudly, triumphantly: "Chen Feng, have you seen it?"

"My strength is enough to easily crush you!"

"In front of me, you are not worth mentioning, you don't know how to die!"

"Hahaha..."

The next moment, with a click, the golden armored samurai spirit body directly pinched Chen Feng's golden lightning spirit into two halves.

The golden lightning gods uttered a whining sound like a weep before dying.

Suddenly, the light flickered, and then disappeared, returning to Chen Feng's Dantian.

Golden lightning **** element. broken!

Chen Feng felt a great pain, because at that moment, he felt that the golden lightning spirit seemed to have died.

As for Chen Feng, he didn't hesitate at this time, and he didn't have time to check what happened to the golden lightning god.

Chen Feng's figure flashed, and he ran away frantically!

The Sun-Daily Golden Crow footwork was activated instantly, and golden boots appeared on his legs.

Chen Feng exploded with extremely swift speed.

"Want to escape? Can you escape?"

Zhong Fenglin let out a sneer, and gave his feet a fierce meal.

With a bang, a cyan light burst out under his feet.

With a sharp scream, at this moment, it unexpectedly broke out at a speed faster than Chen Feng's day-by-day Golden Crow footwork, and came directly behind Chen Feng.

Then, with a punch, he slammed into Chen Feng's heart.

This fist hit the back of Chen Feng's heart, and Chen Feng was directly hit with a huge wound on his back. Even his fist passed through Chen Feng's body and exposed directly in front of Chen Feng's chest.

Chen Feng let out a muffled snort, his figure was thrown away from a distance, and fell to the ground again.

Breathing blood!

The blood flowed from his wound, and the ground was stained blood red in an instant!

Zhong Fenglin walked slowly in front of Chen Feng and looked at her, with a cold expression on his face: "Little bastard, I know you are fast, do you think I am not wary of it?"

"Tell you, I have been searching hard for the past few days, and finally found a martial art that can make me burst out with great speed in a short time."

"This thing is useless, and the loss is great, but I just use it to deal with you!"

Chen Feng's face was pale.

This Zhong Fenglin was so deliberate, in order to kill his own life.

Zhong Fenglin stared at Chen Feng and said fiercely: "Boy, now, hand over the secrets you got from the fifth floor of the Da Ri Jin Jing Pavilion, and I will let you die a little faster."

A smile appeared at the corner of Chen Feng's mouth: "The blame has to kill me directly. It turns out that I want to get this secret!"

"Nonsense, do you think I will save your life until now? I would have killed you long ago!"

He stared at Chen Feng and screamed: "Hurry up! Don't think about playing any tricks now!"

Chen Feng nodded and said, "Hold your ears and I will tell you."

His voice was faint and his face was like gold paper. *NoVELusB.com*

Zhong Fenglin was taken aback for a moment.

He didn't expect Chen Feng to agree so simply.

There was a touch of joy on his face, staring at Chen Feng, and said with disdain: "Boy, everyone in the Nei Zong said that your bones are hard, I don't think your bones are too hard!"

"Now that I have been so forced, haven't you said everything?"

He smiled triumphantly, and then moved his ears to the side, waiting for Chen Feng to tell the secret he got in the fifth floor of the Dari Jinjing Pavilion.

At this moment, suddenly, a smile appeared at the corner of Chen Feng's mouth.

Then, with a bang, a big mouthful of saliva happened to spit on Zhong Fenglin's face.

Zhong Fenglin didn't have any defense, didn't even dodge, and was just thrown up.

Chen Feng looked at Zhong Fenglin and grinned: "Be your mother's spring and autumn dream!"

"Even if I die, I will never tell you this secret!"

"I, Chen Feng, would rather die than accept!"

His voice was faint, his face was like gold paper, and the corners of his mouth were still bloodstained because of his serious injury, but his face slowly became disdainful!

That comes from the bones, pride!

The pride of Chen Feng!

Zhong Fenglin was stupid, completely stunned, standing there blankly, without even coming back to his senses.

He never thought that Chen Feng would dare to do this, nor that Chen Feng would have such courage!

He was silly there.

After a long while, he just came back to his senses.

Then, he straightened up slowly.

The look on his face was calm first, then furious.

The next moment, he yelled frantically, and yelled frantically: "Chen Feng, you little bastard, how dare you? How dare you?"

He was almost insane with anger.

The whole person yelled crazy, hit the ground fiercely with both fists, stared at Chen Feng, angered to the extreme, hatred to the extreme!

But at this moment, Chen Feng raised his mouth slightly, with a haughty expression on his face, without even looking at him.

At this time, Chen Feng had already set aside his life and death.

The battle with Zhong Fenglin was one of Chen Feng's most difficult battles in recent years, and it was also the worst he was beaten. There was no possibility of a comeback.

But Chen Feng is not afraid!

The death of a big man is dead! How can you give in to such a person?

Zhong Fenglin's face was completely distorted.

He yelled frantically: "Little bastard, even if I can't get that secret today, I will kill you!"

"I'm going to kill you! I'm going to break your body into pieces! I'm going to tear you into pieces!"

"I want to make you painful before you die!"

The next moment, he stepped on Chen Feng's left arm with one foot.

Suddenly, there was a crisp sound, and the palm of Chen Feng's left hand was bloody, bloody, and bones shattered.

The painful Chen Feng trembled violently, but Chen Feng gritted his teeth without saying a word, still smiling at Zhong Fenglin.

Chen Feng's slightly mocking smile made Zhong Fenglin even more crazy.

He yelled: "Little boy, die!"

With that, his right foot slammed towards Chen Feng's left arm, and directly smashed Chen Feng's left arm.

The muscles on Chen Feng's painful face twitched, but he laughed loudly, "Zhong Fenglin, didn't you eat? Harder! Harder!"

Zhong Fenglin is going crazy!

Just when he was about to crush other body parts of Chen Feng.

At this moment, there was a sudden shout in the distance: "Who is such a brutality? Stop!"

This person's voice is very cold and steady.

In the next moment, two figures came quickly towards this side.

Zhong Fenglin was taken aback for a moment and looked into the distance.

However, Chen Feng was brilliant in his eyes. He saw the opportunity in an instant.

[Chapter 3193: Lin Yi, Xue Qing](#)

Soon, the two figures came to the front and landed on the cliff.

At this time, Chen Feng saw that the figure was a young couple.

Both men and women are about thirty years old.

The man's appearance is quite handsome, and the woman's appearance is also extremely beautiful.

What is especially rare is that both of them are full of heroic spirits, and they don't have any evil spirits.

At first glance, he knew that he was a disciple from a prominent school, and his martial arts and martial arts were definitely upright.

After the two of them came to the front, seeing Chen Feng's situation at this time and seeing him in such a miserable state, their faces were unbearable.

The young man clasped his fist to Zhong Fenglin and said in a deep voice: "This dear fellow, he has become like this, kill if you want."

"Even if it is killed, we won't say anything more, but you are still torturing like this now, is it a bit too much?"

Zhong Fenglin was in anger at this time, and the evil fire in his heart had not yet come out. Hearing what he said at this time, he immediately turned around.

The expression on his face was twisted, his muscles jumped wildly, staring at them two, and said viciously:

"You two, what are you guys dare to talk to me like this?"

Hearing what he said, the two men and women immediately lost their faces.

Seeing their faces like this, Zhong Fenglin was even more furious: "Oh, dare you dare to show your face to me? He's looking for death!"

next moment. With a flash of his body, he rushed directly towards the two young men and women.

He smiled miserably: "Since you two dare to be nosy, then you should stay together!"

He didn't pay attention to these two people at all.

In his opinion, even though these two people looked like a big sect, they wanted to be strong, but at such a young age, where could they be strong?

Seeing him attack directly, the young man smiled coldly.

Swipe it and draw out a long sword.

This long sword, about four feet long, is extremely wide and thick, and it looks like it is made of a wooden heart of some kind of wood, with a dense green-green texture on it!

With a stab forward with the long sword in his hand, he met Zhong Fenglin.

When Chen Feng saw it, he raised his brow slightly.

When this young man opened his posture, he opened and closed, extremely domineering and tough.

This swordsmanship is absolutely unusual!

With a bang, Zhong Fenglin's fist hit the young man's long sword.

The young man staggered back several steps, but Zhong Fenglin also raised his brows and looked at his fists.

On his fist, a drop of blood quietly bloomed.

Obviously, this collision caused the young man to suffer.

But Zhong Fenglin is not without paying the price.

It can be seen that Zhong Fenglin's strength is stronger than that of young men, but he has not reached the level of superiority.

Zhong Fenglin sneered coldly: "I didn't expect to have some strength?"

"Okay, then I have to kill you even more!"

There was also a shocked expression on the young man's face. Obviously he did not expect that Zhong Fenglin's strength would be so strong.

He looked at the young woman and said, "Sister Qing, come together."

"Okay, Brother Yi." The young woman nodded, and also took out a sword from behind.

Her sword is quite short and exquisite, and it looks really cute.

With a soft drink, the two greeted Zhong Fenglin, and instantly they were fighting with Zhong Fenglin.

They have two long swords, one is huge and mighty and domineering, the other is light and floaty, extremely light and agile.

Each of these two swordsmanship is very tyrannical, and Chen Feng estimates that at least they are at least a barren level.

And these two swordsmanship combined together, two completely different martial arts combined together, they complement each other and are extremely perfect.

Round and mellow, without flaws.

Suddenly, their offensive penetrated directly like the dense Yangtze River, splashing everywhere.

The needle was impenetrable and the water could not be splashed in, and Zhong Fenglin was surrounded in a sudden.

Zhong Fenglin raised his eyebrows at this time, punched one after another, and shot out.

But every one of his offensives was like a mud cow entering the sea, hitting the dense double-sword combined offensive.

In an instant, it was cancelled out.

It actually made him feel that he couldn't be powerful!

Suddenly, he was at a disadvantage.

Chen Feng's eyes flashed at this time: "If you don't leave at this time, what else will you do?"

In the next moment, his figure flashed, and the Golden Crow footwork was suddenly activated day by day.

It turned out that Chen Feng's injuries looked extremely serious, but they were actually skin injuries.

It's just that the golden lightning **** is the most injured, but the power of the dragon descending Arhat has not actually suffered any damage.

Especially his daily Golden Crow footwork can be activated.

Chen Feng was extremely fast, and in a blink of an eye he was far away from the cliff and came over the ocean.

Seeing this scene, the young men and women frowned. Obviously they didn't expect Chen Feng to escape by himself!

But at this moment, Chen Feng suddenly yelled, "Wuhun, come!" *NovelUsB.com*

In the next moment, above Chen Feng's head, the Naba Snake Martial Spirit suddenly appeared.

The moment the giant Ba snake spirit appeared, Zhong Fenglin and the young men and women were shocked.

The eyes of the young men and women looking at Chen Feng were full of surprise and shock. They didn't expect that this miserable young man who seemed to be beaten would have such a terrifying spirit.

Zhong Fenglin was also stunned, wondering what Chen Feng was doing.

At the next moment, Naba Snake Wuhun suddenly swelled up.

Then, his huge mouth opened, and a stream of air burst out.

With a bang, it hit Zhong Fenglin.

This one is extremely powerful and full of impact!

Zhong Fenglin was directly hit and flew out, and his figure flew out at least thousands of miles away.

However, he was not injured.

But after the Ba Snake Wuhun made this move, he immediately languished, and instantly disappeared.

Chen Feng shouted to the young men and women: "Two, I am Chen Feng, the inner clan of the Xuanyuan family."

"Today's life-saving kindness, Chen Feng, I will remember in my heart!"

"This person is Zhong Fenglin, a strong man in my Xuanyuan family, and he is very powerful."

"Although the two of you seem to have the upper hand, if he uses his Shen Yuan combat body, you two will not be spared."

"So, I will force him away for the time being, you two should also run for your life!"

Hearing this, the young men and women immediately changed their colors.

The young man clasped his fists and said, "In Xia Nai is Lin Yi of Shuijing Academy. This is my junior sister, Xue Qing."

Chen Feng took a deep look at them and said in a deep voice: "The mountains are high and the rivers are long. When there is a goodbye, I will say goodbye."

After that, he just turned around and left, started the Golden Crow footwork day by day, and disappeared in a blink of an eye.

Lin Yi and Xueqing glanced at Chen Feng deeply, with a hint of gratitude in their eyes.

[Chapter 3194: Into the sea of death](#)

They thought that this young man would run away immediately after they were rescued, but they didn't expect that they looked down at him.

He knew the horror of Zhong Fenglin, so before escaping, he attacked Zhong Fenglin with the strongest moves in order to give them a chance to escape.

The two of them also left quickly!

Zhong Fenglin didn't rush back until they left.

He was blown out a long time ago without any injuries, but he bought precious time for Chen Feng and the others to escape.

At this time, he could no longer see Chen Feng's trace.

There was a regretful expression on his face. At this time, he finally struggled out of the anger and madness just now, gritted his teeth and said with a cold voice:

"Just now, it was indeed my mistake, I should kill Chen Feng directly!"

"I shouldn't provoke those two people either!"

"Zhong Fenglin ah Zhong Fenglin, you were anxious just now, this is something you did not do right, but!"

He stared at the distance and said cruelly: "Chen Feng, I won't spare you!"

"You are sure to die!"

With that, he chased directly in the direction of Chen Feng's escape.

Chen Feng almost fled forward with a crazy attitude, he urged his power of descending the dragon to the extreme.

On the two pairs of boots made in the tenth round of the big day, the light flashed crazily, making Chen Feng's speed 30% higher than usual.

All the power was urged out, which also directly caused Chen Feng's Sun-Raising Golden Crow footwork to sway violently after an hour, and he could no longer support it..NOVELUSB.cOm

Fortunately, at this time, Chen Feng had already seen the huge shadow that lay above the ocean like an endless behemoth!

This is a completely dead ocean!

There was no sound, and no monsters, just lying there in silence!

"It turns out that the sea of death is like this!"

Chen Feng looked at the dead ocean in front of him, shrouded in mist, and couldn't help but feel awe-inspiring in his eyes.

Chen Feng finally arrived at the sea of death!

This ocean is different from those that Chen Feng has seen along the way.

Chen Feng came all the way, and everything he passed in the West Sea was full of stormy waves.

Huge waves of tens of thousands of meters high and hundreds of thousands of meters high can be seen everywhere.

At this time, the dead sea in front of Chen Feng was indescribably calm.

The surface of the sea was black, without waves, and did not even look like a ripple, as if it were cast from a huge piece of black iron.

And above the sea, a thick fog rose.

Chen Feng raised his head and looked towards the sky, and saw this cloud and mist spread upward.

The scope of proliferation is getting bigger and bigger, and there is no end in sight.

"Legend, the sea of death is so powerful here."

Chen Feng muttered to himself: "There is a mist above it, and this mist has great restrictions on the flight of the martial artist."

"If you fly in it, it will be dangerous and you will even fall directly."

There was a thoughtful look in his eyes: "I guess, there should be countless formations controlling the sea of death."

"There are huge restrictions on the flight of human warriors, and only in this way, they can only be forced to enter from above the sea."

"And if you enter from above the sea..."

Chen Feng shuddered at the thought of the mighty sea monsters he had seen along the way, and when he thought of being dragged into the endless abyss of unknown depth and darkness.

However, he had no time to think about it.

Chen Feng lowered his head and looked at the huge wound between his chest and abdomen.

The wound still hasn't healed, and bursts of black energy are running around, like small black fishes, preventing Chen Feng's wound from healing.

The blood kept pouring out, and Chen Feng felt his heart beating.

But the beating is getting weaker and weaker.

Even his brain is a little dizzy because of excessive blood loss.

Chen Feng felt pain in all parts of his body.

He was exhausted to the extreme, exhausted to the extreme, wishing to lie down on the ground and fall asleep.

But Chen Feng knew that he could not sleep.

He turned his head and looked back, and above the sky in the distance, a black light and shadow quickly approached here, getting bigger and bigger.

At the same time, an arrogant voice came: "Hahaha, Chen Feng, there is a sea of death ahead!"

"To be killed by me is to die, and to enter the sea of death is also to die! You must die today."

It was Zhong Fenglin's voice.

After Chen Feng was seriously injured, his speed slowed down, so Zhong Fenglin chased him up.

If it is normal, with Chen Feng's temperament, he must think well and be well prepared before entering the sea of death.

But now he can't tolerate any more thoughts.

In a blink of an eye, Zhong Fenglin was already close.

He looked at Chen Feng with a joking smile at the corner of his mouth, and said, "Little bunny, run, then run again, why don't you run?"

"I see where you can go! Hahaha!"

He let out a big laugh, extremely proud.

Obviously, in his opinion, Chen Feng is already the meat on his chopping board, and he slaughtered him at will!

Chen Feng looked back at Zhong Fenglin and suddenly smiled.

He did not hesitate, his figure flashed, and he threw directly into the sea of death.

Zhong Fenglin did not expect that Chen Feng would directly enter the sea of death without hesitation. You must know that if you enter it, you will definitely die!

He roared in anger: "Little boy, you..."

The figure rushed forward, trying to catch Chen Feng.

However, it was too late.

He only caught the corner of Chen Feng's clothes.

With a sneer, the corners of the clothes were torn off.

And Chen Feng's figure has disappeared into that endless darkness.

Zhong Fenglin was taken aback for a moment, and then yelled furiously: "Chen Feng, you wait for me!"

"I'm just waiting outside this dead world. If you die inside, it's fine. If you escape from the inside, I will kill you as soon as possible!"

After Chen Feng entered here, he immediately felt that the air was black, as if he could not see anything.

And obviously there is no change in the light at this time.

Even though he entered this thick fog, it actually didn't become so dark.

Chen Feng immediately understood that it was not his own vision but his own perception that was blacked out.

In this thick fog, his perception is greatly restricted, so he feels black in front of him.

In fact, the sky here is still sunny.

This is also a very weird place here.

Obviously it is in a thick fog, but the partial light is not bad.

The boundless light is constantly refracting from the dense fog, which is a bit dazzling, but it is better than seeing nothing.

[Chapter 3195: Cautiously](#)

Chen Feng didn't have time to think about it, because he wasn't sure if Zhong Fenglin would catch up.

In case Zhong Fenglin catches up, it will be bad.

Therefore, Chen Feng kept escaping inside, escaping for about half an hour, making sure that there were no more chasing soldiers behind him, and then he let out a sigh of relief.

At this moment, as soon as he relaxed, he immediately felt the pressure around him.

Especially above the sky, a powerful force pressed down fiercely, almost crushing him alive.

It is forcing him not to stay in the sky!

Chen Feng gritted his teeth and carried it hard, but found that the more he carried, the greater his strength. After each confrontation, it doubled compared to before.

Soon, with that power, Chen Feng felt that he was much stronger than Zhong Fenglin, and he pressed his bones to creak, almost directly breaking.

Chen Feng had no choice but to slowly fall downward.

And the more he fell, the less pressure he found.

When he fell close to the sea, the pressure was already much less.

At this time, Chen Feng was about to reach the surface of the sea, and the seawater here was completely different from other places.

The water in the West Sea is deep and blue, but the water here is pitch black, and you can't see anything below.

There seems to be a force that has isolated perception.

Chen Feng sighed softly: "Sure enough!"

"This sea of death does not allow people to fly in the air, only above the sea."

If it were in other places in the West Sea, Chen Feng would not dare to fall at such a low height above the sea, but he did.

The look is very calm.

Chen Feng fell to a height of only one meter from the sea. Seeing nothing unusual, a smile appeared on the corner of his mouth and said, "Sure enough, the information is correct."

This Sea of Death is different from other places in the West Sea. When approaching the sea, it will not be attacked by monsters in the sea.

Only fall into the sea.

It turned out that this was exactly why Chen Feng dared to fall very close to the sea.

It's normal to think about it, this sea of death, above the sky, don't let you stay at all, and huge pressure will push people down.

And there are endless dangers in the sea.

If there is no way to stay above the sea, then this sea of death will not be able to enter at all.

Chen Feng came to a distance of one meter from the sea. Although the sea was pitch black and seemed to be able to completely isolate the sea from the top and bottom, Chen Feng could still feel that there seemed to be endless danger in the sea.

Getting closer, Chen Feng even shrank his pupils.

Because his powerful perception told him that just under this thin layer of sea water, just below this sea surface, there were countless beasts at this time.

Across the thin ten centimeters of seawater, they sneaked over silently, opened their mouths wide, stared at him with blood-red eyes, and looked at him covetously.

It seems to want to swallow him in the belly!

This feeling, I'm afraid it can drive others crazy!

In an instant, Chen Feng's cold hair stood up, and goose bumps all over his body.

The feeling of extreme danger came.

But the next moment, Chen Feng felt extremely exciting again.

Right here, they take themselves, helpless!

This feeling of being in infinite danger but unharmed, made Chen Feng feel extremely exciting.

The blood all over his body was boiling.

Suddenly, Chen Feng took out a small boat from the golden thread kit. This was a solo boat that Chen Feng had prepared long ago.

Throwing the boat into the water, Chen Feng stepped on it and stood firmly on the bow.

With a small boat, Chen Feng is not afraid of anything unless it falls into the water.

Then, Chen Feng felt it, nodded slowly and said, "I feel that my perception here is limited to a range of about 100 meters."

Chen Feng understood in his heart and stopped staying.

He recalled all the maps he had seen before.

Those maps, extremely clear, flashed in his mind.

Chen Feng looked around, but did not see any landmark buildings.

He didn't panic, and said softly: "Go ahead."

Chen Feng urged his momentum and moved forward slowly.

The speed is not so fast, but it is very stable.

Chen Feng seemed to be able to feel the dissatisfaction of the water monster beasts with his departure.

They were chasing frantically in the water, and soon, Chen Feng suddenly saw a towering stone wall suddenly appeared in front of him.

But Chen Feng soon knew that this was not a sudden appearance, but could have been seen long ago.

But because my own perception is limited, so I didn't find out early.

Seeing this stone wall, Chen Feng immediately felt happy.

Then, the flanking boat circled the stone wall.

After a lap, Chen Feng understood.

This is actually a reef in the sea, about a hundred meters high, and shaped like a huge steamed bun.

Chen Feng immediately recalled, a smile appeared on the corner of his mouth.

"Is it a steamed bun-shaped reef? If I expected it, this reef should be the one they named the steamed bun stone."

"There are two water channels next to this stone, so you can go forward."

Chen Feng immediately found the right waterway based on the memory in his mind, and then went all the way forward.

With this waterway, there is much more left to say.

Chen Feng can perceive the change of the sky, because as the sky changes outside, the light inside is constantly changing.

Chen Feng estimated that he had been here for three or four hours.

At this time, the sky was also dimmed, and in the end, the light was completely gone and turned into pitch black!

Chen Feng sighed softly, at this moment an endless sense of loneliness surged in his heart.

He can only perceive within a hundred meters, what he sees is at a loss.

There was endless dark sea water beneath him, and Chen Feng was in it, feeling as if the world was boundless, and he was alone.

Here, Chen Feng could not see light, nothing, and no people.

Even, he could not hear any sound.

The boat ran across the water, silently, not even the sound of the waves.

Chen Feng almost couldn't help but stretched out his hand to slap the ship's side violently, breaking the silence.

But he took a deep breath and forcibly held it back.

A moment later, a smile appeared on the corner of Chen Feng's mouth, and he whispered to himself: "This is the most test of the mood."

"Chen Feng, if you can't even endure this loneliness, how can you endure the loneliness on this long road to immortality?"

Thinking of this, Chen Feng's heart was at peace, no more boring.

With the memory in his mind, although he could not see clearly, he still controlled the boat to go in the right direction.

Soon, a few more hours passed.

At this moment, Chen Feng suddenly saw the light.

Yes, it is light.

[Chapter 3196: Scary black mist!](#)

He was overjoyed in his heart, and then Chen Feng saw that from the sea, dots of light rose up.

These rays of light rose from the sea, and then appeared in the sky.

There is such a light in the direction of the boat.

Chen Feng was ready in his heart, but he was not very nervous.

Because he is now familiar with the rules of the sea of death, since these creatures in the sea can be allowed to emerge, there is no lethal power to come.

Chen Feng's guess was indeed correct, and the boat soon came under the spot of light.

And they didn't launch any attacks. At this time, Chen Feng also saw clearly that the light spots that appeared in the air turned out to be jellyfish after another.

These jellyfish are about the size of a thumb, and the whole shape is like a peony.

The petals of the peony are transparent, and the buds emit a pink light.

These peony jellyfish gather together, and the pink light illuminates the sea, like a dream or an illusion!

There was a smile on the corners of Chen Feng's mouth, and he was very happy.

At this moment, Chen Feng suddenly shivered.

He felt an insidious, evil, terrifying, and hideous aura coming towards him quickly.

Chen Feng's heart beat fiercely.

He quickly turned his head and looked around.

The next moment, Chen Feng's pupils shrank.

It turned out that he actually saw the skull of a huge dragon.

The dragon's skull rushed towards him fiercely.

The dragon's skull is about three to four meters in size, and the extremely sinister, evil and terrifying aura is revealed from this head. **novelUsb.com**

The two green fires in his eyes looked at Chen Feng as if he had his own sane.

Chen Feng's heart jumped: "What the **** is this? Why does it suddenly appear here?"

And soon, Chen Feng knew what it was.

After getting closer, he discovered that the skull was not actually substantial, but was made up of countless black mists.

The black mist was scattered there, condensing the shape of this skull.

Chen Feng felt that there was an unspeakable horror in the mist.

He whispered to himself: "I feel that as long as I am touched by this mist, I will definitely die!"

Chen Feng was shocked: "How can this be? How can this be? How long have I not felt this way!"

"Even when facing Zhong Fenglin, I didn't feel that way, but now facing this black mist, I actually feel like I can't resist at all and can only be killed?"

"How terrifying is this thing?"

At this moment, the black mist came to Chen Feng, but it stopped.

Chen Feng could feel that there was a strong dragon breath in the black mist.

And in the fog, there was a ghost of a dragon from time to time quietly flashing, with bursts of roars.

Chen Feng knew that this place used to be the nest of countless dragons, and this black mist must have been after the death of those dragons. Their souls are transformed.

Either their souls, or their will, or even their strength in life.

Chen Feng was already clear in his heart.

These dragons were extremely powerful before they were alive, so the black mist formed after they died is also very powerful.

At this moment, the dragon skull slammed into Chen Feng.

Chen Feng was shocked, but he knew that at this time, he could only do it hard.

Chen Feng took a deep breath and tried to repel it.

But at this moment, a magical scene appeared.

After the black mist touched Chen Feng's body, an emotion called fear came out of the black mist.

That emotion directly entered Chen Feng's mind, as if he let out a horrified scream, the fear was extreme.

The object of his fear was unexpectedly Chen Feng.

At the next moment, Chen Feng discovered that there was a golden breath coming out of his body.

This golden breath turned into a hazy shadow in the air, which turned out to be a giant.

One after another, huge and mighty, like a giant golden armor suppressing the entire continent!

It's so hazy, so blurry, that Chen Feng himself can't see clearly!

Chen Feng was shocked in his heart, this turned out to be a giant of golden armor.

After this golden armor giant appeared, he reached out his hand and made a deafening loud noise: "Spread!"

The voice was extremely thick and desolate.

Not only is the sound magnificent, it also carries practical power!

The dragon's skull was even more frightened. It was a scream, and it was directly shaken and turned into countless black mists, and then all plunged into Chen Feng's Dantian, and disappeared without a trace in an instant.

After the black mist entered the dantian, Chen Feng immediately felt his power meet them, and was instantly torn apart, turned into countless debris, and then disappeared invisible.

In an instant, his strength was lost by a full 30%.

Chen Feng was incomparably shocked: "No wonder I was so scared just now, that is the instinct of my body, that is the fear of these black mists in my body, the power instinct."

"It turns out that these black mists can directly melt my power!"

"so horrible!"

"If this goes on, after a few moments, I will become a useless person!"

But at this moment, suddenly the golden armored giant hung over Chen Feng's head and let out a roar.

With this anger, the black mist that entered Chen Feng's dantian actually began to transform in an instant.

Soon, it turned from black to gold.

Then, not only did they vomit out 30% of Chen Feng's reduced power, but they also began to transform into Chen Feng's power and entered Chen Feng's ten rounds of great days.

These forces are constantly instilled.

Chen Feng was overjoyed: "This golden armor giant is really powerful, this black mist is so terrifying, but he easily surrendered."

Chen Feng didn't have time to think, sat cross-legged, and began to absorb and practice carefully.

It took him two or three hours, until the side of the day had turned white, and the light could be seen again in the mist, before he absorbed all the black mist!

Chen Feng opened his eyes suddenly, and his gaze was full of exquisite expression.

At this time, on the surface of his body, those wounds began to slowly recover, and soon they became scabs.

And Chen Feng's aura was much stronger than when he had just entered the Sea of Death.

A smile appeared at the corner of Chen Feng's mouth: "Although these black mists are terrifying, they are also a great tonic."

"After absorbing them, I feel that my strength has been restored from 20% of the previous peak period to 50% now."

[Chapter 3197: Are you worthy to enter the sea of death?](#)

"Hahaha, if I absorb a few more, my strength will be stronger!"

At this moment, Chen Feng looked up and found that the golden armor giant had disappeared without a trace.

Chen Feng showed a deep thought in his eyes, and whispered to himself: "What is this golden armored giant?"

After thinking for a moment, Chen Feng suddenly patted his head, and said to himself a little annoyed: "Chen Feng, you are so stupid! Have you forgotten?"

"You have the blood of a giant!"

Chen Feng suddenly remembered that he was carrying the blood of a giant.

"and....."

A smile appeared at the corner of Chen Feng's mouth: "My giant bloodline has been silent for so long that I almost forget it."

"However, at this time he quietly woke up."

"But it should not be a simple giant bloodline, but a trace of the giant's spiritual sense buried deep in my body. It is far more powerful than all the giant bloodlines I have absorbed before, and the power of all giants is countless times higher! The level is countless times higher. !"

"These dragons were extremely high-level during their lifetime, and the remnant soul level they formed was also very high."

"And when this giant appeared, they were terrified."

"I feel that this is a kind of fear from the soul level, which means..."

Wisdom flashed in Chen Feng's eyes: "This giant is many times higher than them, but it is a noble species that is powerful and unknown!"

Chen Feng's heart flashed: "Now he has a glimpse, I will find ways to see how to tap the potential of this bloodline."

"It's not the time to think about this, but, with the protection of this golden armor giant, I can go to this sea of death!"

Chen Feng had already thought very well now.

The reason why the sea of death has come and gone, presumably this black mist is an important reason.

Being able to resolve it does not mean that others can do as well. I am afraid that he is the culprit responsible for the death of many masters.

After all, it is directly reduced to power, and it is almost impossible to resist. Who can withstand this kind of attack?

But now, Chen Feng is not afraid.

After thinking about this level, Chen Feng became more confident.

He continued to move forward.

Soon, several hours passed.

The sky was bright at this time, and it was clear that the sun had appeared outside the mist.

At this moment, Chen Feng suddenly heard the sound of water rushing in front of him.

Chen Feng raised his eyebrows. His boat cut across the sea without a sound, but there was such a rushing sound of water from the opposite side. What was going on?

Soon, Chen Feng saw a huge shadow coming out of the fog in front.

Chen Feng immediately saw that the shadow turned out to be a big ship.

This ship is much larger than Chen Feng's, with a height of more than ten meters and a length of sixty to seventy meters. It looks very sturdy and quite domineering.

The most important thing is not this ship, but the sound from time to time on that ship.

It is the human voice!

Chen Feng's heart was hot: "In this sea of death, there are other living people besides me?"

But when Chen Feng changed his mind, he also understood.

Since he can come to the sea of death, why can't others come?

At this time, everyone on the big ship also discovered Chen Feng.

As a result, they all gathered at the bow and pointed towards Chen Feng.

Chen Feng also saw that a flag was erected on the big ship.

On the banner is a big word "cast"!

Cast casting!

The word "cast" is extremely conspicuous, and under the word "cast", there is a huge hammer pattern.

I don't know what it means.

After seeing this pattern, Chen Feng raised his brows, and he had some guesses in his heart.

It's just that I don't know if my guess is correct.

At this time, four or five people stood on the bow. These four or five people were tall and short, fat and thin, but without exception, they were all dressed in linen clothes.

The linen clothes looked rather crude.*novelusb.com*

And with two arms exposed, the lower legs and ankles are also exposed, and there are some holes in each linen garment.

It looks rather tattered.

Chen Feng raised his brows: "It shouldn't be!"

"The auras these people gave me are very powerful and tyrannical. How could their clothes be so tattered?"

"Moreover, I took a closer look. The holes in their clothes were obviously not caused by wearing them for too long or because of external damage, but by cutting them out."

Because, Chen Feng saw that there were some exquisite patterns on the edges of some holes, which were obviously for decoration.

Chen Feng was even more puzzled.

At this time, those people also saw Chen Feng clearly, and naturally saw his strength clearly.

Suddenly, a ridicule sounded from above the big ship.

Standing in the forefront, the big and burly man, more than two meters tall, with muscular knots all over his body, looked up to the sky in disdain, haha:

"It's weird, this time entering the sea of death, anyone can really meet it!"

"A mere nine-star martial emperor peak, something like ants, dare to enter the sea of death?"

"Haha, what the big brother said."

A short fat man beside him also smiled disdainfully: "What kind of person is this kind of thing? Is it worthy to enter the sea of death?"

After that, he raised his neck and shouted to Chen Feng: "You trash, what did you enter into the sea of death?"

"The sea is below, and you can see what you are like when you lower your head."

"You also don't look at yourself, are you worthy to enter the sea of death?"

"With your strength, entering here is simply looking for death!"

Chen Feng raised his brows.

Each of these people is quite strong, several of them are already strong in the realm of Emperor Wudi, and the others are also half-step Wudi level.

However, Chen Feng is not afraid if he really wants to fight.

However, Chen Feng entered the sea of death, there were still important things, and did not want to entangle them.

Therefore, he frowned, but did not speak.

Seeing that Chen Feng didn't speak, those people became even more arrogant, thinking Chen Feng was showing weakness.

The short fat man laughed wildly: "Boy, how long have you been in the sea of death? Is there any important information?"

"Hurry up and explain everything to your grandpa, and your grandpa will spare you a dog's life."

Everyone burst into laughter.

The senior brother applauded and said, "Junior Brother You Hongbo, he has enough thoughts."

"Although this kid is a trash, since he has entered the Sea of Death, he is still somewhat useful. He can always provide us with some news."

Chen Feng frowned and said nothing.

The boat and the ship are about to collide.

[Chapter 3198: Association of Founders!](#)

The waterways of the two boats are the same. Chen Feng didn't want to cause trouble, his internal force was running, and he drove the boat to draw an arc, just wanting to pass by the big boat.

And at this moment, on the big ship, the big brother smiled, and the corners of his mouth showed coldness.

Then, the power in his body urged.

With a bang, the big ship moved directly to the side.

Then, he crashed directly into Chen Feng's boat.

Chen Feng's boat was skewed in various ways, and it almost capsized directly.

And Chen Feng also shook his body and almost fell directly into the sea.

However, fortunately he was strong and powerful, the boat turned three times directly in the air, and then landed on the sea again.

Chen Feng also stood firmly on the boat!

At this time, there was a laughter from the ship.

"Hahaha, look at how embarrassed this kid is!"

"Yes, he was almost about to be knocked over by our boat and fell into the sea, and was eaten by those monsters!"

They all looked at Chen Feng and made a joke.

Seeing that Chen Feng hadn't fallen into the water, the big brother couldn't help but raised his brow, a little surprised.

Then, he grinned and said: "You trash, you still have some skill!"

"I wanted to crash you into the sea, but I didn't expect you to be able to stabilize it."

His tone was completely irrelevant.

Obviously, in his opinion, trying to knock over Chen Feng's boat just now was not a big deal.

At this time, Chen Feng's originally bent waist slowly straightened.

His body also turned slowly.

His face was expressionless and indifferent.

Even his eyes were extremely calm, just looking at these people so quietly.

However, Chen Feng's eyes were full of coldness.

Boundless chills radiated from it, and the few people on the big ship who were in contact with Chen Feng's eyes shivered involuntarily!

At this time, Chen Feng had indeed hated to the extreme.

In his heart, the killing intent rose up!

Chen Feng knew how dangerous it was just now. As long as the boat capsized and fell into the sea, the long-awaited infinite monsters would immediately tear themselves to pieces under the sea.

Facing those powerful monsters, he has no way to survive at all!

There is only a dead end!

"These people want my life!"

A voice echoed in Chen Feng's heart.

He looked at these people, saying word by word, coldly: "You just kept making provocations."

"I didn't want to be familiar with you, but you still dare to attack assassins!"

"it is good!"

He paused and looked at them, and suddenly a cold smile burst out from the corner of his mouth: "Since you want my life, then I will kill you!"

After hearing this sentence, everyone on the big ship was taken aback.

Then, everyone laughed loudly.

The senior brother pointed at Chen Feng and said, "Are you crazy? What did you use to kill us? You are just the pinnacle of the nine-star martial emperor!"

"In our place, either Emperor Wu or Emperor Wu in half a step. Anyone who goes out can crush you to pieces!"

You Hongbo smiled coldly: "Boy, you are fat enough, do you know who we are?"

"Tell you, we are disciples of the Founders Association!"

"Hahaha, and, even if we are not from the Foundry Masters Association, we are just an ordinary warrior, you are not my opponents, each of us, our strength can crush you!"

"People from the Foundry Association!"

After hearing what he said, Chen Feng was shocked.

Some ambiguities in my thoughts just now became clear immediately.

Suddenly, there was a flash of inspiration in his heart, and suddenly he remembered something Xuanyuan Xiaoyue had talked with herself.

Chen Feng suddenly exclaimed: "It turns out that they are from the Foundry Association. No wonder, no wonder their clothes look like this!"

The Foundry Association is one of the nine major forces on the Dragon Vein Continent.

In terms of strength, it was no worse than a big family like the Xuanyuan family.

Even better than the Xuanyuan family and the winner.

This is because the Xuanyuan family and the winner are inherited in the form of a family after all. Although they will absorb the strong from outside, they are a minority.

However, such as the Foundry Association is not the case. They are an association in themselves, and the association is divided into several forces and several families.

And these forces, these families, in order to compete for control in the association, each of them desperately to absorb foreign forces.

It is because of the arrival of foreign forces that they can enhance their family's strength and improve their family's status in the association.

Therefore, forces like the Association of Founders and Alchemists Association, they replenish new blood very quickly.

The power has expanded extremely quickly, with many masters.

Of course there may be mixed good and bad, but the power is really big!

The Foundry Association has a very distinctive feature. Legend has it that the ancestor of the Foundry Association was the first god-level great foundry on the Dragon Vein Continent.

Its status is basically equivalent to the ninth-rank golden robe great alchemist in the Alchemist Association, and it may even surpass the golden robe caster.

According to legend, this god-level foundry was originally just an ordinary blacksmith, wearing linen shorts all day long, and his clothes were burned by sparks with numerous holes.

He has been living extremely poorly, and later got an adventure, his strength skyrocketed, he forged a legendary story, and he also established the reputation of the Foundry Association, and he has the foundation today.

The requirements of the Association of Founders to all the strong players in the association are all to wear linen clothes with holes in them to commemorate their ancestors.

Seeing Chen Feng's performance, they were even more proud.

Uncle You Hong pointed at Chen Feng and said with disdain: "Little bastard, when you hear that we are from the Foundry Association, you are scared, right?"

"Tell you, even if we are not from the Founder Association, even if we are just ordinary warriors, we can still kill you!"

"Take me as an example, I don't know how much my cultivation base is worse than the senior brother, but even so, I can easily crush you to death!"

He said arrogantly.

"Oh, is it so?"

Chen Feng looked at him, smiled and said, "Do you want to crush me to death? Then, why not come and try!"

Uncle You Hong laughed wildly: "Since you are looking for death like this, okay! Then I will fulfill you!"

The next moment, he flashed his figure and came to the very tip of the bow.

At this time, the big brother also controlled the big boat and stopped, about ten meters away from Chen Feng's boat.

Uncle You Hong looked at Chen Feng and said arrogantly: "Boy, now choose a method of death, I can fulfill you any way you want to die!"

He raised his chin, his attitude was extremely arrogant, and he obviously didn't put Chen Feng in his eyes at all.

[Chapter 3199: You really think too much!](#)

But at this moment, a large cloud of black mist suddenly floated over in the distance.

This time, the black mist was no longer the appearance of a dragon's skull, but a huge dragon claw of the dragon.

The black dragon's claws that were craggy, with a radius of more than 30 meters, were actually caught directly at the crowd.

After seeing the black dragon claw, everyone on the big ship exclaimed.

"Evil Dragon Qi, Evil Dragon Qi has appeared again!"

"This is the evil spirit dragon spirit, quickly open the defensive cover!"

As they said, someone immediately pressed several organs on the ship.

Another person pressed his hand on a large blue stone on the bed.

Suddenly, light radiated from the blue stone, and then, the light on the ship was released, and it was obvious that the formation had been activated. [novel113.com](#)

Then, a semi-circular blue cover appeared on the big ship, protecting the big ship strictly.

The black dragon claws hit it with a loud bang.

The blue hood shook violently, but it didn't break, while the black dragon claws retreated directly, turning into a black mist.

Chen Feng looked on with cold eyes: "It turns out that this thing is called the evil demon dragon energy."

"And it seems that they are extremely afraid of the evil spirit dragon."

"Think about it, except that I have the blood of a giant and can suppress the evil spirit dragon energy, how can anyone else be so relaxed?"

Having resisted this wave of evil spirit dragon aura, seeing that the evil spirit dragon aura had no intention of attacking, the disciples of the Foundry Master Association suddenly breathed a sigh of relief.

Then, he also turned his attention to Chen Feng,

At this time, You Hongbo suddenly brightened his eyes.

He laughed and said with a joking look: "Big brother, why kill him?"

"If you kill him, wouldn't it be too cheap for him?"

"Let's push him into the evil spirit dragon, what do you think?"

"Yes indeed!"

The big brother's eyes lit up, he clapped his hands, haha smiled and said, "You Hongbo, your idea is good."

"Putting this kid into the evil demon dragon energy made him extremely painful. He watched his own cultivation level disappear a little bit, but he was helpless."

"It's more painful than killing him!"

"Okay, that's it!"

At this time, those evil demon dragon qi continued to float around.

In this evil demon dragon energy, there was a pulse after another, and the emotion brewing in it was quite greedy.

It seems that for them, the power of the warrior on this big ship is the most eager nourishment.

They want to devour them very much.

But he knocked his nose on the big ship just now, and then he didn't dare to act in such a hurry.

At this time, he hesitated outside, trying to find an opportunity to attack.

Suddenly, the evil spirit dragon qi floated behind the boat, but did not launch an attack on Chen Feng.

A smile appeared at the corner of Chen Feng's mouth. He knew that this evil demon dragon energy could sense the power of the golden armored giant's supreme blood in his body, and he did not dare to attack at all.

But he knows, it doesn't mean these people from the Foundry Association know.

Seeing that these evil spirits did not attack Chen Feng, they said one after another: "This kid is really **** luck."

"I think the evil demon dragon spirit looks down on this kid, and thinks his power is boring to swallow, too little."

"Yeah, this kid is too weak, haha!"

They were really ignorant, Chen Feng was not swallowed, not because he was too weak, but because he was too strong!

At this moment, Uncle You Hong saw this scene with a smug expression on his face, and suddenly he let out a joking laugh: "Boy, I'll send you to the west!"

His figure flashed, and he directly attacked Chen Feng.

In their view, this is an opportunity!

In a blink of an eye, he came to the boat, and then grabbed Chen Feng's neck with one hand, he sneered: "You don't know how to live or die, get me into this evil dragon spirit!"

On the big boat, everyone clamored.

"You can squeeze his neck directly!"

"What's the point of squeezing his neck, it's just squeezing his neck, throwing him into the Evil Dragon Qi, watching his cultivation a little bit absorbed, watching his painful cry for mercy, that's interesting! "

You Hongbo laughed loudly.

In his opinion, his move could easily capture Chen Feng, grab him by the neck, and throw him into the evil spirit dragon energy.

Chen Feng had nothing to fight back.

At this time, a sneer appeared at the corner of Chen Feng's mouth: "You want to grab my neck and throw me into the evil spirit dragon, right?"

"You think too much!"

At the next moment, Chen Feng shot out with a punch, and it collided with You Hongbo's claws.

The smug smile on You Hongbo's face instantly solidified.

After the two collided, he felt an extremely powerful force directly from Chen Feng's hand.

This force cannot be resisted!

He couldn't resist it at all, and with a cracking sound, his palm was directly interrupted.

The blood shot out, and then Chen Feng did not stop, and the punch continued upward.

With a boom, his entire arm was shaken off.

Then, as soon as Chen Feng stretched out his hand, he grabbed his neck.

You Hongbo screamed terribly, but the scream stopped abruptly.

Chen Feng grabbed his neck with more strength.

His face was swollen and flushed, his throat made a whine, and his limbs were waving vigorously, trying to resist.

However, it was impossible to struggle out of Chen Feng's hands.

Seeing this scene, those in the Foundry Association were shocked.

"What? Uncle You Hong was caught by him? Uncle You Hong was not his opponent at all?"

"How is this possible? Although You Hongbo is the weakest among us, he is also a half-step martial emperor level master, so he is not even his enemy?"

"Could it be that this kid concealed his strength?:"

They were all extremely shocked. Unbelievable expressions appeared on You Hongbo's face, and he forcibly squeezed out a few words from his throat: "How can you..."

At this time, a smile burst out from the corner of Chen Feng's mouth: "You want to pinch my neck and throw me into the evil spirit dragon, right?"

"I told you just now, you really think too much!"

The next moment, Chen Feng pinched his neck and turned around.

At this moment, in front of Chen Feng was that piece of evil spirit dragon energy.

At this time, Uncle You Hong seemed to think of something in general, with great fear in his eyes, and screamed crazy: "Please, don't... don't..."

At this time, the big brother on the big ship also roared in anger: "Dare you!"

Chen Feng suddenly turned around, looked at him, smiled and said, "Guess I dare?"

In the next moment, his right hand did not stop at all, and directly grabbed You Hongbo's neck and stuffed him into the evil spirit dragon energy.

[Chapter 3200: So what?](#)

Uncle You Hong was struggling madly, but how did he start struggling?

As soon as the evil demon dragon energy touched his body, it was like a person who had been hungry for not knowing how long he had encountered delicious food, and he rushed on it crazy.

Then, along every pore of his, along his seven orifices, along every place on his body that can reach his dantian, he went crazy.

In a blink of an eye, countless black air currents penetrated like small snakes and came directly into his dantian.

The long-cultivation power in his dantian touched these black evil demon dragon qi, just like seeing the ice and snow of the sun, the ice melted and the snow disappeared instantly and vanished.

There was extreme fear in his eyes, and he yelled frantically: "Ah! Ah! My power!"

"My power, I feel my power is disappearing!"

He yelled frantically!

Chen Feng held him in one hand, smiled and said, "Didn't you just say that I live and die?"

"Just now, didn't you want to drag me into the evil spirit dragon energy and let me lose my strength?"

"Now, who is the one who lives and lives?"

At this time, Chen Feng's volume suddenly increased, and he watched the people on the big ship roared: "Now tell me, who the **** was just now?"

Everyone on the big ship lost their voices and could not say a word.

You Hongbo was so arrogant just now, but in the end he didn't expect that it was him who lost the ultimate strength.

After a while, those evil demon dragon energy swallowed up Uncle You's power.

After swallowing Uncle You Hong, he seemed to be still in the mood, still hiding next to him, as if he wanted to swallow a few more.

As soon as Chen Feng stretched out his hand, he grabbed Uncle You Hong.

At this time, You Hongbo's face was extremely pale, there was no aura in his body, and his whole body collapsed without a trace of strength.

Not only was the cultivation base abolished, but it also gave people the feeling that even the bones were taken out.

Chen Feng smiled slightly and looked at You Hongbo and said, "You Hongbo, now you know how serious the fate that provokes me is?"

"Now I know, did I lie?"

"Now, tell me, am I arrogant, or do I have such an ability?"

Uncle You Hong stared at Chen Feng with a daze, unable to say a word.

His spirit has broken down.

The martial artist was abolished and his cultivation base was more uncomfortable than killing him.

Then, Chen Feng stretched out his hand and Uncle You Hong flew up and landed on the big ship with a snap.

And this snap, like a slap in the face, slapped everyone on the big ship's face fiercely.

Chen Feng could kill him, but Chen Feng did not choose to kill him.

You Hongbo's body slammed heavily on the board of the ship.

All the eyes of everyone on the big ship fell on him. On the big ship, he fell into an embarrassing and unspeakable silence.

Everyone was silent and did not speak.

Especially a few half-step martial emperor level people who are similar to You Hongbo Xiu were standing there blankly.

There was even a hint of fear and happiness in their eyes towards Chen Feng.

Many people thought in their hearts: "Fortunately, it was not me who came out to provoke this young man just now. Otherwise, I'm afraid it's me who is lying here now!"

In this awkward silence, suddenly, an extremely strange laughter rang.

There was a squeak, like that night owl screamed at night.

Then there was another giggle, which finally turned into a giggle.

When everyone looked at it, they saw that the laughter was their big brother!

The big brother giggled, and the laughter seemed to come from his throat, but there was no smile on his face, but rather cold.

This strange laugh makes people feel that their hair is standing up.

Chen Feng stood there without fear.

Suddenly, the big brother stopped the laughter, his expression was cold, full of cold murderous intent.

He looked at Chen Feng and said softly: "Okay, very good! Boy, you are very good!"

Chen Feng smiled and said, "Of course I am fine, but it seems that Junior Brother You Hong is not very good!:"

The big brother looked colder and looked at Chen Feng and said, "You successfully angered me!"

Chen Feng spread his hands, his face looked indifferent, and said, "So what?"

The crowd was in an uproar.

Chen Feng's attitude was extremely contemptuous, and he obviously didn't pay attention to the big brother at all.

The big brother looked at Chen Feng, he was so angry that even the flesh on his face jumped suddenly.

However, he is ultimately very human and has a strong ability to control his emotions.

Looking at Chen Feng, he slowly said, "I am the Association of Founders, Chao Hongxuan under the elders of Huai'anping, I don't know your Excellency, Gao's name?"

He officially gave Chen Feng his name.

It meant that he felt that Chen Feng was qualified to fight them.

Before, they didn't even bother to ask Chen Feng's name.

Chen Feng looked at him, smiled slightly, and slowly uttered two words: "Chen Feng!"

"What, you are Chen Feng?"

These two words immediately stirred up a wave among the people.

"Are you that Chen Feng with an 80,000-year-level martial spirit?"

"He is Chen Feng! I heard that he is a legend in the Xuanyuan family. In the martial arts test, it was found that he possessed an 80,000-year-level martial arts spirit, and he was a peerless genius!"

"Yes, it turned out to be him!"

"He has the ability to kill You Hongbo, so I am not surprised, after all, he can be called a legend among the younger generation!"

Everyone was a little shocked.

The big brother Chao Hongxuan was shocked for a moment after hearing these two words.

Then, the shock on his face turned into a trace of jealousy to the extreme.

In the next moment, this jealousy turned into extreme greed.

He looked at Chen Feng and sneered: "It turned out to be Chen Feng, it turned out to be Chen Feng who is quite famous in the Xuanyuan family! No wonder it is so arrogant! No wonder there are such methods!"

"but!"

His face suddenly changed, becoming vicious and vicious: "Little boy, your martial arts are really strong, and your potential is really great."

"But, what? You are not my opponent now, I can easily kill you!"

He was extremely proud.

"and....."

He suddenly said: "Our Association of Founders can not only cast weapons, but also cast human souls and even martial souls into tools."

"Recently, I was fighting a magic weapon, and now this magic weapon just lacks a martial arts spirit with a high enough level and a long enough age!"

"As a result, you came, hahaha..."

He triumphantly said: "Boy, I will kill you today, and then smelt your martial spirit into my weapon!"

His intentions were extremely vicious. Not only did he want to kill Chen Feng, he even wanted to strip Chen Feng's martial spirit and cast it into a weapon.
