

## Peerless 3201

### [Chapter 3201: Sky-Splitting Iron Hand God Yuan Battle Body!](#)

When Chen Feng heard this, his eyes became colder, and he looked at and said indifferently, "My martial soul is here! If you have the skills, come and get it!"

"Okay, then, I'll get it!"

He looked at Chen Feng, with a hideous look at the corner of his mouth, and slowly floated out of the big ship.

As soon as he stretched out his right hand, he grabbed Chen Feng's neck directly, exactly the same as You Hongbo's movements just now.

He sneered and said: "Just now, Uncle You Hong used this action to catch you and was killed by you."

"I want to see if you can still handle this trick now!"

"What can you do if you change me?"

With his shot, Chen Feng immediately felt it, completely different from the previous You Hongbo.

After his move now, that endless power surged like waves.

No, it should be said that instead of the waves, Chen Feng felt that the big hand in front of him turned into a giant metal hand with a radius of hundreds of meters, shining with bright golden light, extremely hard and heavy.

Moreover, completely covering the surroundings, you can't avoid it at all, you can only carry it hard!

However, it just couldn't hold it at all!

Because his power is too terrifying!

This power alone made Chen Feng feel his heart pounding.

The blood seemed to be squeezed out.

But he can still handle it!

Still standing majestically on the boat, his body motionless.

Seeing this scene, Chao Hongxuan showed a look of hideousness on his face.

He seemed to lose face a bit, and he smiled: "Unexpectedly, you are really capable, then look at what I will do next!"

The next moment, he roared, and a ray of light flashed in his dantian.

Then, above his head, a huge dark iron hand appeared.

This huge black giant hand, with five fingers spread out into a paw, exactly the same posture he grabbed now.

This black giant hand, with a radius of six or seven meters, is indeed his god-level battle body: the sky-splitting iron hand god-yuan battle body!

After his Sky-Splitting Iron Hand God Essence Battle Body appeared, Chen Feng felt that the pressure around him instantly increased by several times.

Moreover, it feels like the surroundings are solidified in a metal block, so hard that they cannot break free.

Chen Feng was shocked!

"Presumably, the characteristics of his gods should be pressure and metal!"

"Very strong, his \*\*\*\* is very strong!"

"I guess, this should at least condense the four gods! Although it is not as good as Zhong Fenglin's gods, it surpasses ordinary people who have just entered the Martial Emperor realm!"

But at this time, Chen Feng was not afraid.

He is very calm!

Chen Feng is not his opponent, but Chen Feng does not think that he has no hope of defeating him!

Chen Feng did not pretend this situation, because Chen Feng has his hole cards!

He was waiting for the moment when his hole cards were revealed!

At this time, Chao Hongxuan laughed loudly: "Little bastard, my god-level battle body has appeared, do you think you might come back?"

"My divine origin battle body can easily crush you to death!"

"What's more, you are now so crushed by me that you can't even move! How can you counter me?"

The next moment, his Heaven-Splitting Iron Hand Divine Essence Battle Body slammed down against Chen Feng.

And he was looking up to the sky and laughing.

In his view, this battle is a foregone conclusion.

Chen Feng's eyes flashed: "This is the moment!"

At this time, it was Chao Hongxuan's most slack moment, and he had no defense against Chen Feng.

As for Chen Feng, he could hardly move his hands now, because he was already completely under the pressure of the Heaven-Splitting Iron Hand Divine Yuan battle body and it was difficult to move.

It can be said that you can only close your eyes and wait for death.

But Chen Feng's inability to move at this time does not mean that other things cannot be moved.

The next moment, as a thought flashed across Chen Feng's heart like lightning, a purple light and shadow flashed suddenly in front of him.

The next moment, a purple crystal floated in front of Chen Feng.

A small red bow and arrow was also sealed in the purple crystal.

Although he is very small, he shows up with an extremely aggressive murderous aura when he appears!

At the next moment, Chen Feng yelled: "Broken Sky Bow! Kill!"

With a boom, the purple crystal broke directly.

Then, the small sealed bow and arrow inside began to grow in size at an extremely fast speed.

In a blink of an eye, it became a full ten meters huge.

The huge bow is as thick as a water tank, and the bowstring is as thick as a human waist.

The next moment, the endless red streamer condenses on the bowstring.

In a blink of an eye, it condensed into a huge red long sword with a length of 20 meters.

On this huge red long sword, it was as if there were countless dragons.

And the point of the arrow is even more condensed from the huge mouth of the dragon!

The next moment, with the bang of the bowstring, the bow and arrow shot forward wildly at an extremely fast speed.

The target of Biao shot was really Chao Hongxuan above the bow.

At this time, the Heavenly Cracking Iron Hand God Yuan battle body was still suppressing Chen Feng, but because Chen Feng's amethyst appeared directly outside of Chen Feng's body, it happened to avoid the Heaven Cracking Iron Hand God. Yuan battle body.

Therefore, it was not affected at all.

The speed of the long arrow reached the extreme, and it took almost a moment of effort to arrive in front of Chao Hongxuan.

From the moment Chao Hongxuan laughed up to the sky, it was only a short moment, and he hadn't even recovered.

When he lowered his head, he found that the huge long sword had reached his chest.

He didn't even have time to hide, he just let out a crazy shout, folded his arms on his chest, trying to block this move!

At the same time, a threat of death came suddenly, making him scream with canthus.

The next moment, with a bang, the arrow hit his chest heavily.

Moreover, the most amazing thing is that after the tip of the long arrow hit Chao Hongxuan, it immediately collapsed!

Then, in the back section of Changjian, it hit Chao Hongxuan again!

Then, it's the next section, continue to hit!

Bang bang bang!

After hitting Chao Hongxuan in each quarter, it was immediately broken and then handed over to the next quarter.

I hit nine times!

All nine quarters hit Chao Hongxuan's body!

Every impact caused Chao Hongxuan to let out a scream and spit blood!

The first impact broke his arms!

The second impact tore the defense on his chest!

The third impact, scorched his skin and flesh!

The fourth hit, tearing his muscles apart!

The fifth impact shattered his bones!

And the sixth, seventh, eighth, and ninth four hits all hit his internal organs!

Nine hits, extremely fierce, quick and incomparable, and extremely spicy!

Boom boom boom, nine loud noises in succession!

Then I saw that the red arrow disappeared and exploded!

[Chapter 3202: Chen Feng's real ultimate move!](#)

And Chao Hongxuan, he didn't even take a step back.

Not because the power of the long arrow is low, but because the sun-breaking bow is really amazing. The power of the long arrow, without wasting, all fell on him!

It even made him unable to unload this force by retreating!

Chen Feng looked dazzled and mysterious: "This is the real way to use power! Only then can the efficiency of power be maximized! It can cause the greatest damage to the enemy!"

"These martial arts are really powerful!"

"The whole story of the Sun-Breaking Sky Bow, I don't know how high it is!"

Chao Hongxuan screamed sternly, his face pale, his body was soaked with blood, his figure was swaying, almost unable to stabilize.

He glared at Chen Feng and yelled in utter anger: "Little boy, you, what kind of power are you? What kind of offensive are you? How can I be seriously injured in the Martial Emperor Realm!"

Chen Feng laughed loudly: "This trick is called Po Ri Tian Gong!"

It turned out that Chen Feng released the sun-breaking sky bow martial arts sealed in the amethyst smelted from the large bronze cauldron at this time.

This is also his hole card!

The reason why he didn't use this trick when facing Zhong Fenglin was because Zhong Fenglin was so defensive against Chen Feng, and Zhong Fenglin's strength was too terrifying.

Even if Chen Feng used the martial arts amethyst that sealed the sun-piercing bow, it might not be able to harm Zhong Fenglin.

However, Chao Hongxuan is different!

Chao Hongxuan was too big and did not pay attention to Chen Feng.

Moreover, his strength is far not as strong as Zhong Fenglin.

Therefore, Chen Feng can take the opportunity to see it!

And because Chao Hongxuan was seriously injured, his Shenyuan combat body was also greatly affected.

The Heaven-Splitting Iron Hand Divine Yuan battle body shook violently, but it dissipated directly and returned to his Dantian.

This is a way for Shenyuan combat body to protect him.

In this case, the power of the Shenyuan combat body can repair his body.

As soon as the Heaven-Splitting Iron Hand Divine Yuan Battle Body disappeared, Chen Feng immediately flashed a light in his eyes.

At the same time, he saw that the evil spirit dragon qi had drifted to the side of the big ship at this time, just opposite Chen Feng.

In other words, between the evil demon Dragon Qi and Chen Feng, it is just across the middle point of the bow of this big ship!

At that point, the one standing is Chao Hongxuan!

"It's now, now, is the real killer move!"

The next moment, he actually jumped directly on the big ship.

With a flash of body shape, he came to the big ship and at the same time played his strongest offensive.

He has been unable to sacrifice the gods, but it does not prevent Chen Feng's dragon descending and Arhat power from surging out!

"Boy, are you going to work hard?"

At this time, Chao Hongxuan, who was already seriously injured, instantly struggled out of the anger and panic he had just now, and became extremely calm again.

There was a sneer at the corner of his mouth, because he could see clearly that although he was seriously injured, his strength should be about the same as Chen Feng.

Even if he had to beat him a little bit, Chen Feng would still not be his opponent!

Therefore, he was very calm at this time, and said disdainfully: "Boy, still want to fight me hard?"

"Do you deserve to fight with me as a fate?"

"Do you want to take me to death? Dreaming?"

After all, he went on the offensive.

If he had launched this offensive just now, with his Shenyuan combat body, he would naturally be able to block Chen Feng.

But now, he can only match Chen Feng.

And he didn't want to kill Chen Feng, he just wanted to force Chen Feng back.

In his opinion, Chen Feng could only retreat when he played this move. If he did not retreat, he would be seriously injured.

However, a scene that shocked him appeared.

Chen Feng did not evade!

With a bang, he took his move with his chest!

At the same time, Chen Feng's offensive also hit his body severely.

Originally, Chao Hongxuan was already seriously injured, and when he was hit like this, he directly vomited blood and his face was extremely pale.

At the same time, his stature was bumped into a stagger, and he took a few steps back.

Chen Feng was unreasonable and slammed again with a punch, this time he was directly thrown into the air.

At this time, Chao Hongxuan suddenly felt something.

He turned his head suddenly, then his face changed drastically!

At that moment, the expression on his face was as if he had seen a ghost.

It turned out that he had already seen that right behind him was the evil spirit dragon energy.

At this moment, he also understood Chen Feng's thoughts at once.

He roared in utter anger: "You, you actually want to crash me into that evil spirit dragon energy?"

Chen Feng laughed: "I understand now, don't you? It's too late!"

After all, he already grabbed Chao Hongxuan's body!

Then, he hit Chao Hongxuan's chest with his right shoulder.

Chao Hongxuan yelled frantically. He glared at Chen Feng and screamed sternly: "Puppy boy, are you crazy? Do you want to catch me and die together?"

He did not expect Chen Feng to do this!

Because although he was seriously injured, he would never die.

Moreover, after his serious injury, his strength was similar to Chen Feng's.

Chen Feng couldn't kill him, and he couldn't help Chen Feng.

Therefore, the first judgment he made just now was that Chen Feng would definitely take the opportunity to escape at this time.

But he didn't expect that Chen Feng would drag him to fly into the Dragon Qi of Death!

This is to drag him to die together!

Chen Feng sneered, but used all his strength and slammed into his chest.

Chen Feng did his best this time!

With a loud bang, Chao Hongxuan's chest was directly hit by Chen Feng with a muffled sound, his tendons were broken and blood flowed.

However, this scary injury actually caused him only a small amount of damage.

The most terrible thing is that at this time, Chen Feng's impact was extremely powerful, and he directly knocked him out!

Facing the evil spirit dragon, he flew over fiercely!

He struggled madly and screamed sternly.

He seemed to have foreseen the tragic fate of falling into the evil spirit dragon.

Thinking of the tragic situation of Uncle You Hong just now, his heart was cold, and he shouted frantically: "Boy! You are looking for death! You are looking for death!"

He wanted to struggle, but Chen Feng desperately hugged him, making him unable to get away from the struggle.

Chen Feng let out a stern laugh: "Haha, you fall into this dragon spirit with me!"

Chao Hongxuan is crazy!

His fist hit Chen Feng's face fiercely, smashing Chen Feng's face to blood.

He hit Chen Feng's wound fiercely, and cracked Chen Feng's newly healed wound.

Blood poured out frantically, staining Chen Feng's body like a \*\*\*\* man!

Chen Feng's internal organs were shaken, he was vomiting blood and he was almost beaten to death!

### [Chapter 3203: You are worthy of this fate?](#)

But Chen Feng gritted his teeth and hugged him, rushing into the evil spirit dragon madly!

Everyone on the big ship was dumbfounded!

They had no idea that Chen Feng would do this!

This is a scene they couldn't even imagine!

The next moment, amidst the exclamations of everyone, Chen Feng slammed into the evil spirit dragon energy.

With him, of course, Chao Hongxuan!

At this moment, Chao Hongxuan felt that his brain was instantly empty!

At this moment, he felt that his mind was blank, and the next moment, the feeling of endless power flowing from his body.

He felt that countless little snakes drilled into his body along every pore of his own, causing him extreme pain.

And the next moment, the power in the dantian was disintegrating!

It was just a moment of effort, and all his power had disappeared!

In an instant, turned into a waste!

He couldn't believe it at this moment, he yelled frantically, his emotions almost collapsed.

He howled loudly: "How could it? How could it? How could I have fallen to this point! How could it?"

Not only him, the disciples of the Foundry Master Association on the big ship were all dumbfounded.

The battle just now was extremely fast, and before they could react, it was already in this situation.

They felt that just now their big brother still had the upper hand, and the next moment they were already turned into a waste by the evil spirit dragon!

They didn't recover at this time, they looked at each other one by one, all shouting in horror:

"Big brother has become a waste? The big brother has become a waste like this?"

"How is it possible? How could such a powerful big brother be abandoned by Chen Feng in a blink of an eye?"

"Why is Chen Feng safe and sound?"

The words this person said suddenly caused a thousand waves of waves with a single stone, and everyone came back to their senses.

They shouted in shock: "Yes, how can Chen Feng be safe and sound?"

"Chen Feng and the big brother fell into the evil spirit dragon together, why did Chen Feng not suffer any harm at all? What's the matter?"

They shouted in shock!

Even the desperate Chao Hongxuan looked at Chen Fengfeng in shock.

Chen Feng smiled slightly: "Not only is I safe and sound, but my strength is still growing!"

Just now, many of those evil demon dragon qi were inhaled by Chen Feng, turned into his own strength, and his strength recovered a little.

Facing everyone's horrified gaze, Chen Feng's expression remained unchanged.

He just lowered his head slowly, looking at Chao Hongxuan, who was like a puddle of mud without a trace of strength.

At this time, when Chen Feng looked at it, a sneer appeared at the corner of his mouth: "Just now, did you think I was going to die with you?"

"What are you?"

"Your horrible life is worthy of my own life?"

"Die with you? You are too high on yourself!"

As he said, Chen Feng laughed, extremely happy.

At this time, Chao Hongxuan's face turned pale first, then turned red.

In his eyes, there was a complex look of extreme despair, regret, fear, annoyance and so on.

These words are exactly what he said earlier that Chen Feng said.

He said that Chen Feng had a bad life, and wanted to drag himself to the funeral.

I don't know, in fact, I'm the one who's fate!

A voice in his heart echoed frantically at this time: "Why should I provoke him? Why provoke him? He is simply an existence I can't afford!"

Just now, when Chen Feng and You Hongbo fought, they didn't reveal that he could resist the evil dragon spirit.

Because, in his opinion, You Hongbo is not worthy of his exposure.

But now, to deal with Chao Hongxuan, it is impossible not to expose.

However, Chen Feng didn't care, because now Chao Hongxuan had lost his threat.

Then, Chen Feng is confident to subdue others.

At this time, as the sun slowly rose to a high place, the light here became the strongest in the day, and the evil spirit dragon energy was constantly rising around it.

These evil demon dragon qi appeared more than before, almost forming a barrier to surround them.

Inside the Evil Dragon Qi, it seems to be about to move, wanting to swallow them all!

Seeing this scene, Chen Feng smiled slightly: "God helps me. With these evil spirits, I am even more powerful."

On the ship, someone bravely shouted: "Chen Feng, hurry up and send us Brother Chao Hongxuan back!"

"If you dare to touch him, we will definitely not spare you today!"

"That's right, Chen Feng, our Foundry Association and your Xuanyuan family have always had a good relationship. Don't provoke the battle easily!"

A sneer appeared at the corner of Chen Feng's mouth, and he looked at them and said, "I remember this now? Now I know to say such things? Why didn't you say that when you wanted to kill me just now?"

Chen Feng's words directly blocked them speechless.

After that, Chen Feng didn't even look at them, and he grabbed Chao Hongxuan and returned to the boat.

Then he sat cross-legged on the boat without anyone else.

Then, Chen Feng suddenly stretched out his hand and beckoned to the evil dragon spirit floating outside.

Those evil demon dragon qi, first released an unbelievable emotion, and then furious.

How contemptuous is Chen Feng's action?

They are all spiritual things, so naturally they will not understand.

So they all yelled frantically, and rushed towards Chen Feng!

Everyone on the big ship was stunned: "Is Chen Feng crazy?"

"Yeah, I know, he may not be afraid of the evil spirit dragon, but he actually provokes it? Can he afford it?"

In their exclamation, those evil demon dragon qi lunged on Chen Feng's body, followed Chen Feng's pores and Qiqiao, and got in.

Chen Fengru drank alcohol and sighed softly, his face full of satisfaction.

After the evil spirit dragon energy penetrated into his body, it was instantly refined. *novelUsB.CoM*

Soon, it turned into the power of descending the dragon and Arhat, and entered his ten rounds of great sun.

The power of Chen Feng's consumption of the dragon descending arhat continued to recover at an extremely fast speed.

Time passed quickly, and soon, three hours passed, and Chen Feng trained for three hours.

And on the big ship opposite him, those people from the Foundry Association also waited there for three hours with big eyes and small eyes.

Behind Chen Feng, Chao Hongxuan lay on the board, and spent three hours in despair.

He had completely recovered at this time, looking at Chen Feng, his eyes were full of hatred and resentment.

His body moved, as if he wanted to take advantage of Chen Feng's cultivation and no time to take care of him, to kill Chen Feng.

#### [Chapter 3204: This is good!](#)

But how can he have this power now?

He didn't even have the ability to raise his arms.

At this time, Chen Feng had completely replenished five of the ten rounds of the big sun in his dantian, and his strength was restored to almost 50% of his own strength, which was a bit stronger than before the fight with Chao Hongxuan.

At this time, those people from the Foundry Association on the Big Ship could no longer wait.

They looked at each other, exchanged glances, and then nodded, obviously making a decision.

At this time, Chao Hongxuan also saw their expressions.

Suddenly, his face showed great horror.

Because he realized that his juniors and sisters would abandon him.

They have to decide to leave and not bring him.

The people of the Foundry Association made a decision.

Then, one of them slowly pressed his hands on the big ship, and they were about to drive the big ship to escape.

They didn't dare to provoke Chen Feng again, but they didn't want to spend it here anymore.

At this moment, at the moment when the ship just moved, Chen Feng suddenly turned around.

His eyes were extremely cold, he looked at them, and said with a smile on his mouth: "Everyone, where do you want to go?"

When the people from the Foundry Association came into contact with Chen Feng's gaze, their hearts trembled fiercely.

One of them was courageous and said, "Where are we going, what does it matter to you?"

"Our Founders Association, when did someone from the Xuanyuan family take care of you?"

Chen Feng sneered, and said lightly: "Okay, we are all in this sea of death at this time, you don't have to bring out any Foundry Masters Association and Xuanyuan Family."

"Here, there are no Founders Association and Xuanyuan Family!"

"some....."

Chen Feng paused, looked at them, and said word by word: "Only you and me, Chen Feng!"

"If you consider yourself to be my opponent, Chen Fengfeng, then there is no problem, you can choose to do anything."

"However, if you think it is not my Chen Feng's opponent, then stay there honestly!"

"If I don't let you move, you can't move! Understand?"

Chen Feng's last words were extremely domineering, condescending, and they all trembled fiercely in their hearts.

Their hearts are full of anger.

After all, as members of the Association of Founders, the pride of heaven, have they ever suffered such a loss?

However, despite their anger, they dare not say a word.

Because they know very well that they are definitely not Chen Feng's opponents, and if Chen Feng is angered, it will not do them any good!

The person who had the courage to talk to Chen Feng just now also sat back, and did not dare to speak any more.

They all wanted to do something, but now they all stopped.

The big ship was still floating in place.

A smile appeared at the corner of Chen Feng's mouth, and he looked at them and said softly: "This is good! If you have to force me to do it, isn't it beautiful?"

"At that time, I will find it troublesome, and you will also have casualties, right?"

The people from the Foundry Association are silent.

Chen Feng's words slapped their faces like a slap in the face, but they could not refute or resist.

Chen Feng stared at them coldly, and said in a deep voice: "Just wait for me honestly, have you heard clearly?"

After speaking, he sat cross-legged again, continued to practice, closed his eyes, and didn't pay attention to them at all.

Nor did they look at them at all.

Obviously, Chen Feng has this confidence.

After they said this, they didn't dare to make another mistake.

And the fact is exactly the same.

After Chen Feng said it, he practiced again, but they didn't dare to move again.

Chen Feng's practice was another day of training.

In this day's time, Chen Feng constantly provokes the evil demon dragon qi, let them attack him, and then constantly absorb it.

For a whole day, the sun rises and sunsets, the light becomes brighter and darker again.

Chen Feng's movements have not changed.

Until noon the next day, Chen Feng suddenly let out a long roar, his figure jumped up and laughed.

At this moment, Chen Feng's body was full of breath, full of energy, and the whole person was full of energy. He has completely recovered to his peak.

This day's cultivation not only brought him an increase in strength, but also allowed him to rest completely and relax his mind.

As for the evil demon dragon qi next to it, all of them have disappeared, they have been completely absorbed, and completely gone.

In the course of this day, a lot of evil demon dragon energy floated from outside, which was also absorbed by Chen Feng.

But then, it never floated over again.

Chen Feng estimated that the evil demon dragon qi in each area should be limited.

Chen Feng looked at his dantian inwardly, and the ten rounds had been completed.

And the golden ocean at the bottom of his dantian was also turbulent, returning to its peak state.*NOvelusb.cOm*

However, when Chen Feng took a deep look at the golden lightning \*\*\*\* soaked in the eyes of the sea, he sighed.

Because at this time, the golden lightning gods still had no breath.

The golden light on the surface disappeared, and it was gray.

It has been so since it was broken by Zhong Fenglin.

Chen Feng didn't know how to remedy it. He sighed and Chen Feng had to leave.

This is not the time to think about this.

At this time, the injuries on the surface of Chen Feng's body have almost recovered, and most of them have healed.

Chen Feng looked at the people on the big boat, smiled and said, "You guys are pretty good!"

On the big ship, those people from the Foundry Association forced a smile on their faces.

How dare they behave?

Chen Feng seemed to be practicing, but in fact, Chen Feng was staring at their every move!

If they dare to plot wrongdoing, Chen Feng will kill them immediately!

One of them forced a smile and looked at Chen Feng and said, "Master Chen Feng, we have listened to your instructions, so should we leave us?"

They have paid more respect to Chen Feng.

Chen Feng ignored it, just looked back.

Chao Hongxuan was thrown into the cabin of the small boat, unable to move.

He is now a useless person. For the whole day, he hasn't even entered, plus his feelings of grief and anger, plus the previous serious injury, his whole face is pale, and he is already extremely weak.

Chen Feng shook his head, glanced at him, and said nothing.

Just holding him, his figure flashed, and he came to the big ship.

Seeing Chen Feng coming to the big boat, everyone suddenly exclaimed, stepped back and looked at Chen Feng with fear.

Chen Feng looked at them, smiled and said, "I'm afraid I can still eat it and you won't make it?"

None of them knew what Chen Feng wanted to do.

[Chapter 3205: The ultimate secret! Sea Dragon Crystal Palace!](#)

Chen Feng glanced around on their ship, and soon raised his eyebrows, and a light smile appeared at the corner of his mouth: "Sure enough, their purpose is the same as mine. They are all here to explore this place."

It turned out that Chen Feng saw something here.

For example, a large sandalwood box with a few yellow stamps on it.

The yellow rune, Chen Feng knew, was to seal the rune to ensure that the power of the rune was not leaked.

Obviously, there are some talisman in this box. As for what it is, Chen Feng can guess it.

It must be a water avoidance symbol, and it can only be a water avoidance symbol!

Moreover, Chen Feng also saw some things like avoiding crystal stones.

Chen Feng smiled: "You are here to explore..."

With that, he pointed to the bottom of the sea.

Hearing this, everyone changed their colors and thought that their secret had been discovered by Chen Feng.

Chen Feng smiled slightly, he was actually just bluffing, and he didn't know exactly where they wanted to explore.

Chen Feng looked at them and said lightly: "Let's put it this way, everyone, you already know my Chen Feng's secret."

"Moreover, this kind of conflict between us is supposed to be endless."

"Now, if you want to survive, you must do something for me, Chen Feng."

"What's the matter?" they blurted out.

At this time, they actually felt some sense of relief in their hearts.

Because this means that Chen Feng can finally let them go.

No matter what you do, it is much more comfortable than waiting here for an unknown age.

Waiting here is really exhausting.

Chen Feng smiled and said, "The first thing is to tell me, where do you want to explore this time? What information do you know?"

These people looked at each other with hesitation on their faces, wondering if they should tell Chen Feng.

Chen Feng sketched a sneer at the corner of his mouth, and said, "You guys, do you still have to choose?"

"Tell me this and live, if you don't tell me, you die!"

"It's that simple!"

"If you want to die, you can refuse me, anyway, even if some of you died because you insisted not to tell me, the people behind will tell me."

A devilish smile appeared at the corner of Chen Feng's mouth.

This sentence completely defeated their psychological defense.

"Yeah, anyway, someone will say, why should I die for this?"

Immediately, everyone rushed to say: "Master Chen Feng, let me tell you!"

"Master Chen Feng, let me tell you what happened!"

Another person shouted directly: "Master Chen Feng, this time we are going to explore the Sea Dragon Crystal Palace, which is in the middle of this sea area."

He spoke extremely fast, and he said it directly before everyone had reacted.

Chen Feng smiled slightly, nodded, and said, "You, come over and say."

The man was so proud that he walked out of the crowd and glanced at others, full of superiority.

He bowed his hand respectfully to Chen Feng and said, "Master Chen Feng, so that you can know."

"The name we came here to explore this time is Sea Dragon Crystal Palace."

He pointed to the surrounding area and said, "This sea of death was previously said to be the location of a tribe where the forces of the Xihai Dragon tribe and the Beihai Dragon tribe intertwined."

"This tribe is extremely inconspicuous among the entire dragon clan. It is a rather marginal and low-strength tribe. It is similar to a border town in a certain country of our humanity."

"However, that is their position in the dragon clan. If they are compared to human warriors, they are extremely powerful and terrifying."

"This Sea Dragon Crystal Palace is their residence."

"It is said that in this Sea Dragon Crystal Palace, there are countless various jewels, various magical implements, and various exercise secret books that they collected back then."

"Even, it hides the secret why they disappeared."

After Chen Feng heard this, he shuddered all over and shivered slightly.

His whole body was extremely excited instantly!

The heart beats wildly and the blood flow accelerates!

"Hailong Crystal Palace, it turns out that what they want to explore is the Hailong Crystal Palace!"

"As soon as I hear it, this place is absolutely terrifying and mysterious!"

"And the most important thing is that I only knew about the sea of death before, but I didn't know where to go to the sea of death, I didn't know the specific location, and I didn't know what was inside!"

"Now, I know everything!"

Chen Feng sighed softly, his eyes were full of azure: "Is it Sea Dragon Crystal Palace?"

"Hahaha, I really can't find a place to break through the iron shoes, it's all effortless!"

"In the ancient books I got from the Xuanyuan family, and the secret records I got when I was on Yingzhou Island, there was no mention of the five words Hailong Crystal Palace."

"Obviously, the Sea Dragon Crystal Palace is the real secret of this sea of death. It may also be the place where Senior Mu Zhanpeng fell, and it is more likely..."

A smile was drawn at the corner of Chen Feng's mouth: "Then where is the clue to the fifth ring!"

"If I find it here myself, let alone ten and a half months, I'm afraid it may not be able to find it in a year or a half."

"And now, after I tortured these young men, I just put this secret in my pocket, so I don't have to bother myself."

Chen Feng was extremely excited. He knew that he was getting closer and closer to the final secret.

Then, Chen Feng looked at the man and said, "Go on."

"It is good!"

This person hurriedly said again: "We came here this time and brought a lot of things on the big ship. The son can check them one by one later."

"With these things, getting into the water is quite easy, and it shouldn't be difficult to do with the master's cultivation base!"

At this time, another person next to him scrambled and said, "My son, we still have a chart here. This chart is the biggest secret."

With that said, he ran directly to the middle of the cabin, and then came out in a moment, holding a scroll in his hand and handing it to Chen Feng.

Chen Feng smiled slightly and didn't open it. He knew that at this moment, these people would never lie to him.

It's never too late to look again later.

"Anything else?" Chen Feng asked everyone.

Everyone in the Foundry Association shook their heads, they had already told all the secrets.

Chen Feng also knew that they had nothing to say.

He smiled slightly: "Okay."

With that said, he walked around on the big ship and put all those things into the golden thread kit.

Then, he returned to the bow.

One of them trembled and said, "Master Chen Feng, we, can we go now?"

Chen Feng smiled: "There is one more thing, if you finish this, you can leave."

[Chapter 3206: One for one!](#)

As he said, without waiting for everyone to ask, he pointed to You Hongbo and Chao Hongxuan on the ground, and said, "Now, you will kill your two brothers!"

"One person, one knife, no one can hide! No one can be less! Let's do it together and kill them!"

"what?"

Hearing these words, everyone in the Foundry Association screamed in horror.

They did not expect that Chen Feng would actually put forward such a condition.

But in a blink of an eye, they all understood what Chen Feng meant.

Everyone is smart, and they guessed why.

Chen Feng abolished the two young powerhouses of the Foundry Master Association. One of them was still a big disciple of a promising elder. This charge was not a small one, and it was very easy to cause disputes between the Foundry Master Association and the Xuanyuan family.

What is conceivable is that after they return, they will definitely tell the elders in the association.

Then, Chen Feng will be hunted down immediately.

But now, Chen Feng asked them to do something to kill Chao Hongxuan, who had become a waste, and each of them was also burdened with a great crime.

This charge is even more serious than Chen Feng!

Because they killed their senior brothers, their seniors!

Then, they must find ways to cover up for Chen Feng.

Even if it can't be covered up in the end, it is enough to buy Chen Feng time, so that Chen Feng will not be chased immediately!

Chen Feng knew that they saw what they thought, he didn't care, and smiled and said, "Everyone, have you figured it out clearly?"

"If you think about it clearly, do it now!"

One of the disciples said loudly: "No, I won't do it! You, you devil!"

He pointed at Chen Feng and almost broke down.

Chen Feng smiled slightly, did not speak, his figure flashed, and when he came to him, he hit his chest with a punch.

The person screamed, staggered, stepped back, fell to the ground, vomited blood, twitched a few times, and then stopped moving.

It was actually killed by Chen Feng!

Chen Feng smiled and said, "Don't want to do it? You can, then, just go to death!"

His eyes swept across everyone: "Who else wants to learn from him?"

At this time, these people from the Foundry Association were trembling with fright.

They know that they have no choice.

I don't know who was the first to walk next to Chao Hongxuan, and with a sharp roar, he stabbed Chao Hongxuan with a sword.

With his lead, everyone came to Chao Hongxuan one after another, waving their weapons and beheading him.

At this time, Chao Hongxuan was desperate.

In fact, when Chen Feng said that, he had already foreseen his fate.

But at this time, he was still terrified to the extreme, and screamed: "You guys, do you dare? Do you dare!"

But why dare not?

Facing him who was already a useless person, these people showed no mercy, and weapons fell on him.

At almost the same time, Chao Hongxuan let out a scream, there were countless huge wounds on his body, his body jumped heavily, and he died immediately.

Then, You Hongbo was also beheaded.

At this moment, those people sat down weakly on the deck and looked at Chen Feng and said, "Now is the head office?"

Chen Feng smiled slightly and said nothing.

Those from the Foundry Association looked at Chen Feng with worry, their body trembling slightly, and their hearts full of fear.

Because they don't know what will happen to Chen Feng, or whether Chen Feng will perfidy, and kill them after getting the secret.

As soon as Chen Feng turned his head, he saw their expressions and guessed their thoughts.

A faint smile appeared at the corner of Chen Feng's mouth. He looked at them and said disdainfully: "Do you think I am the same person as you? Do you think I, Chen Feng, is the kind of person who is treachery and not trustworthy?"

He smiled coldly, suddenly his figure flashed, got off the big boat and returned to his own boat.

Then, he said lightly: "Okay, you can go away."

On the big ship, the people from the Foundry Association were all taken aback, but Chen Feng didn't expect them to be let go.

The next moment, everyone was ecstatic.

Chen Feng frowned and said, "Don't you go? You want to keep it and be killed by me, right?"

The people from the Foundry Association shook their heads hurriedly: "Let's go now, let's go now."

They hurriedly drove the big boat around in a circle, avoided Chen Feng's boat, and then went out.

They originally wanted to enter the core of the Sea Dragon Crystal Palace to explore, but now Chao Hongxuan is also dead, their most powerful figure is dead, and being hit by Chen Feng, they no longer have any mood.

He was so desperate and planned to leave.

Looking at the back of the big ship leaving, Chen Feng sighed softly without speaking.

He just sat down cross-legged and opened the chart he got from them.

After opening the chart, Chen Feng took a breath.

It turned out that as soon as the chart was opened, there were countless lights and shadows flashing out of it, and these lights and shadows were actually constructed directly in the air to form a three-dimensional map.

Not a flat map, but a three-dimensional map.

These lights and shadows intertwined, and there was a faint blue flake in the upper position. Chen Feng knew that this represented the sea surface.

And above the sea, those white masses are clouds and mist.

On the surface of the sea, there are still channels turning in and out.

Chen Feng knew that this was the waterway where he was at this time.

Below that sea surface, there are countless routes occupying 70% of the entire three-dimensional chart.

Chen Feng took a breath: "In other words, the Sea Dragon Crystal Palace should be in the deep ocean!"

This three-dimensional map has a radius of about seven or eight meters, and soon Chen Feng found a small blue light spot on almost the outermost position of the map.

The little blue spot hovered motionless, and Chen Feng thoughtfully, and soon steered the boat forward for dozens of meters.

Therefore, Chen Feng saw that the little blue light spot moved forward slightly invisible on the map.

It's about the thickness of a little bit of hair.

But Chen Feng was still keenly aware.

A smile appeared at the corner of Chen Feng's mouth: "Sure enough, this blue dot represents where I am!"

After thinking about this, Chen Feng didn't hesitate anymore, and directly steered the boat all the way forward.

Soon, he saw that the blue light spot kept moving forward on the line.

Chen Feng looked forward and said slowly: "I am in the right direction, and I am heading towards the center."

After walking forward for about half an hour, Chen Feng saw that the blue light spot had already reached the end of a route.

[Chapter 3207: It must be!](#)

Chen Feng immediately drove the boat to a stop here.

He looked forward and said in a deep voice, "This is the end of a line. It stands to reason that I should go to the right here, because this is a correct waterway."

"But what will happen if I go forward? What if I don't change the route?"

Chen Feng looked forward.

There is still a dark ocean ahead, still without any fluctuations.

The ocean was as silent as a black abyss, as if it had been so peaceful since ancient times.

After Chen Feng watched carefully for a long time, he suddenly shivered and felt shocked in his heart.

At this moment, he stared at the sea area, and at that instant, his eyes seemed to be able to see through the dark water, through the icy water, and all of a sudden, he could see under the ocean!

As a result, he suddenly saw that there were countless beasts under the ocean.

His mouth opened wide, his eyes widened, and he was looking at himself with greedy eyes.

These monsters look strange, terrifying, and hideous to the extreme.

Not just monsters, there are countless monsters that are like evil spirits covered in mud, crawling on the bottom of the sea, and there are only pale skeletons that are like ghosts!

terror! bloody! ferocious!

Chen Feng couldn't help but feel a layer of goose bumps. Just under this thin layer of sea water, just a few meters below, were these behemoths lurking.

At this time, Chen Feng suddenly realized.

"It turns out that the waterway I'm traveling now isn't actually the endless deep ocean."

"This waterway is actually safe. A few meters below this waterway is a rocky ground similar to a groove. It is safe and there is no covetousness of these monsters."

"However, just outside the waterway, there are endless monsters, and because of the ancient seal, these monsters cannot invade the waterway."

"As long as I am within the range of the waterway, it is safe, but if I leave this range and go to the deep ocean outside, I will definitely be swallowed up in an instant and there will be no bones left."

Thinking of this, Chen Feng tightened in his heart for a while, and quickly steered the boat forward in the right direction.

He still had lingering fears, and said softly: "The map I got before is actually quite accurate, but the scope is relatively small."

"The route on the map I got from the Xuanyuan family is only about 10% of this chart."

"The map obtained from Yingzhou City is probably only about two and a half of the route."

"Fortunately, the line at the beginning was correct. I was there according to those going forward. There will be no danger in the early stage, but it is limited to the early stage."

"When the lines recorded on the map are emptied and go to the end, and there is no line to guide me, I may stray into the deep sea area, and I will die by then without knowing how to die."

Chen Feng looked at the floating three-dimensional map in front of him, and he felt fortunate:

"Fortunately, I met them from the Foundry Association."

"Fortunately I got this treasure, otherwise, I will die this time!"

Chen Feng knows how the people who broke into the sea of death died before.

It must be that after the correct route came to an end, it was impossible to judge, and under the accidental collision, it was walking into the deep sea!

Then the consequences can be imagined.

Chen Feng looked into the distance, his eyes blank.

"Thousand years ago, Mu Zhanpeng must have been like me, driving a flat boat in this sea of death, slowly moving forward, cautiously."

"But in any case, this sea of death is extremely dangerous, and he is not here in the end."

Chen Feng thought of this, suddenly feeling sad.

"I just don't know what will happen to Chen Feng this time."

"Thousands of years later, will anyone in the Valley of Mirrors also find traces of a person named Chen Feng who lived here, and then follow there to come to the sea of death again, like another reincarnation. "

Chen Feng shook his head and expelled himself from this feeling.

There was lofty ambition on his face: "Chen Feng, how can you be like this?"

"Chen Feng, you just need to remember, you just need to tell yourself that you will be able to succeed this time!"

His gaze was far away, "There are still so many people waiting for me!"

"Senior sisters are still waiting for you to go to the soul hall to rescue them, Hua Lengshuang and Mei Wuxia are still waiting for you to return safely."

"How can you live up to the expectations of so many people?"

When Chen Feng thought of this, his heart was full of lofty ambitions, and he went forward.

The small boat also slapped, directly speeding up and drifting away at a very fast speed.

On the way, Chen Feng never met anyone else.

Think about it, after all, there are very few who can get this comprehensive map like the Foundry Association.

Even if someone else enters the sea of death from other directions, it will be difficult to meet oneself.

It took Chen Feng three days to go.

For three days, Chen Feng drove the boat ten hours forward every day, and the remaining two hours were used for cultivation.

Three days later, Chen Feng's injuries have fully recovered!

On the third day, the eve of the early morning.

The boat was still drifting forward in this black water, and Chen Feng was sitting cross-legged.

At this time, he seemed to be indifferent, but in fact he was extremely focused, manipulating the small boat to change the range little by little.

At this moment, the appearance of the boat seemed to be straight forward, but in fact it was totally different, but it was swaying in a very small range.

For a while to the left, and then to the right, the swing is very small, but extremely frequent. *NOVELSb.COM*

Chen Feng's forehead was sweaty and his face was pale, obviously extremely struggling.

In fact, Chen Feng was indeed exhausted at this time.

Because he was controlling the boat to move forward, by this time, the waterway was no longer going straight, but was constantly changing with very small steps.

The waterway has also become extremely narrow, and can only accommodate a small boat.

Chen Feng couldn't help but rejoice. Fortunately, he chose a small boat instead of a bigger one.

But even for this small boat, Chen Feng needs extremely precise control to stay within the scope of the waterway.

As long as it is out of the watercourse, Chen Feng knows that he has only one dead end.

So he was under great pressure.

Under such pressure, it is conceivable how exhausting such extreme manipulation is.

This situation lasted for an hour.

Finally, the boat sailed out of a curved, almost circular waterway and rushed into the wide waterway ahead.

Chen Feng opened his eyes suddenly, took a long breath, and immediately relaxed.

[Chapter 3208: Shenyuan, live!](#)

He looked at the blue light spot, which was at the beginning of a straight channel.

The end of this waterway is exactly the center of the water surface of this map.

A smile appeared at the corner of Chen Feng's mouth: "Come on, driving through this straight waterway, the end is the center of the water, and the entrance of the Sea Dragon Crystal Palace on the water."

"Furthermore, at this time the waterway is straight forward, without any twists and turns in the middle."

"So, I can also practice with confidence."

Chen Feng sighed slightly and looked to the sides.

At this time, there were large groups of evil spirit dragon energy on both sides of the waterway.

These evil demon dragon qis are much larger than those that Chen Feng encountered when he first entered the Sea of Death. When he first entered, they were generally only a dozen meters in size, but now they have reached tens of meters. size.

Many times bigger than before.

Moreover, the black is more pure, and the power is stronger and purer.

Obviously, if it is absorbed, the benefits are much greater than before.

Before, Chen Feng had not dared to be distracted and absorbed in order to control the boat, but now he can.

Chen Feng let out a long scream: "Come on!"

The next moment, a piece of evil spirit dragon air floated in front of Chen Feng.

Chen Feng opened his arms, and in his dantian, ten rounds of the sun turned, and he sucked sharply.

Suddenly, before the evil demon dragon energy penetrated into Chen Feng's body, he was directly sucked into the dantian by Chen Feng.

In the past few days, Chen Feng has been absorbing and groping out some experience.

At this time, the absorption speed is extremely fast.

Chen Feng spent almost an hour refining this group of evil demon dragon energy.

After this group of evil demon dragon qi was refined, Chen Feng was shocked, and black qi escaped from every pore.

These black qi were the waste in Chen Feng's body, as well as the bruises that had been produced during the previous injuries. At this time, all were squeezed out.

Chen Feng felt that he was refreshed and refreshed. He exhaled a \*\*\*\* muddy qi, and there was a trace of blood in his mouth.

"Now, my injury is healed."

Chen Feng looked down at his whole body. At this time, the injuries on his body had healed, and even the blood scabs in some places had fallen off, revealing the white skin below.

This is also the credit of these evil spirits. Otherwise, Chen Feng's injuries would not heal at all in a year or a half.

"Now that my injuries have healed, and my strength has returned to its peak, then the only thing that can make me suspicious is..."

Chen Feng entered the dantian, looked into the dantian sea, the golden lightning \*\*\*\* who was silent, and a touch of worry flashed in his eyes.

"That's it!"

The Golden Lightning Shen Yuan still hadn't recovered at this time, and still looked lifeless.

Chen Feng took a deep breath: "Now there is no more way. Only by practicing, and only by constantly instilling the power of the dragon descending Arhat, can there be such a glimmer of hope."

Thinking of this, Chen Feng never stopped.

With a thought, the golden pouring rain fell in the dantian.

The endless and endless power of the dragon descending arhat rushed to the spring eye, rushed to the golden lightning god.

The embryonic form of the golden lightning \*\*\*\* element was very silent at this time, and it could not even be absorbed.

But Chen Feng forced it into it. After an unknown period of time, finally, there was a little looseness on it.

A ray of the power of the dragon descending Arhat seeped in.

Chen Feng was ecstatic: "Haha, great!"

"Shen Yuan, live!"

So he persevered in absorbing the evil spirit dragon energy, while instilling the power of the dragon descending Arhat.

The gap is getting bigger and bigger, and the power of the dragon descending Arhat absorbs more and more.

Soon, one day passed, and Chen Feng did not expect that he would have been driving on this straight waterway for a whole day.

The huge sea of death is far beyond Chen Feng's imagination!

It was the early morning of the second day, the fourth day Chen Feng entered the Sea of Death.

It is still a darkness, that is before dawn, the last and deepest darkness!

Chen Feng once again refined a group of evil demon dragon energy and poured it into ten rounds of the sun.

And at this moment, suddenly, the golden lightning gods encased by the majestic dragon descending arhat's power suddenly uttered a huge hum, and the whole thing trembled.

Then, the golden lightning gods revolved frantically, running.

The golden light shines above!

With a swish, the entire golden ocean was instantly sucked out, and all the power of the dragon descending arhat was sucked in by the golden lightning gods.

The golden lightning \*\*\*\* essence shines brightly, and the cracks on it are slowly closing and slowly repairing.

Chen Feng couldn't help being ecstatic when he saw this scene.

Chen Feng was not afraid of being absorbed by the Golden Lightning Spirit, what he was afraid of was not being absorbed by the Golden Lightning Spirit!

Chen Feng desperately urged the ten rounds of the sun, and above the ten rounds of the sun, the power of the dragon descending arhat turned into golden light rain and fell, and as soon as it fell, it was absorbed by the golden lightning \*\*\*\* element.

At this time, the golden lightning gods were like a bottomless pit, absorbing it frantically.

Even later, he was no longer satisfied with absorbing the power of the dragon descending Arhat at the bottom.

A strong suction force came from above him, and the power in those ten rounds of great sun was directly stripped out at an extremely fast speed, and all of them were absorbed by him.

In a blink of an eye, all ten rounds of days have dried up.

He was still greedy and absorbed it!

Chen Feng was taken aback: "This golden lightning spirit wants to recover, but it has to consume so much power?"

He didn't hesitate, the suction in his dantian began to absorb the evil spirit dragon energy around him at an extremely fast speed.

Those evil demon dragon qi was constantly absorbed by Chen Feng, and after entering his dantian, it was directly transformed into the power of the dragon descending Arhat.

And the power of these dragon descending arhats didn't even have time to be absorbed by the ten rounds of the sun, but was directly absorbed by the golden lightning flash element.

Chen Feng continued to replenish, and the Golden Lightning Spiritual Yuan traveled continuously to absorb.*novelusB.com*

Finally, after I don't know how long it took, the momentum of the golden lightning gods' absorption stopped suddenly.

At this time, there was a clear buzzing, and the golden lightning soul floated directly.

At this time, the cracks on his body had disappeared without a trace, and the incomparable power flashed on his surface again.

The golden lightning gods are restored.

Chen Feng was overjoyed and laughed wildly.

And at this moment, suddenly his front also suddenly lit up.

The black ocean in front of him suddenly retreated like a tide.

The front is bright, hot, and boundless white!

No, not only the black color faded away, but even the mist that had been shrouded in the sea of death around Chen Feng faded away.

#### [Chapter 3209: one eye](#)

A round of red sun suddenly ejected from above the sea level, and boundless rays of light spilled onto the earth.

In front of Chen Feng, he was suddenly cheerful.

But the fog disappeared completely.

And in front of Chen Feng, a vast world appeared!

An ocean is boundless, and the radius does not know how many miles.

The sky was high and broad, the blue sky was blue, white clouds floated, and even the water surface turned into a clear blue.

No longer the darkness before!

Chen Feng was startled at first, and then shouted with great joy: "The entrance to the Sea Dragon Crystal Palace is here!"

Chen Feng finally came to the center of the Sea of Death!

At this moment, Chen Feng's mood was extremely happy and extremely relaxed, struggling from the previous depression.

The center of the sea of death. It is completely different from the rest of the Sea of Death.

The sea here is blue, the sky can be seen, and the white clouds in the sky are floating there slowly moving.

After Chen Feng came here, he only felt a breeze.

Moreover, the extremely dangerous feeling that had been lingering in his heart disappeared.

When he was driving on the waterway before, he could feel countless extremely dangerous monsters lurking under the dark waters on both sides.

She seemed to get up at any time to give herself a fatal blow, swallowing herself frantically.

However, after coming here, that feeling disappeared.

Chen Feng could perceive that there was no danger in this blue sea.

At this time, the boat rushed straight into the blue sea.

Chen Feng only discovered at this time that the surface of this blue sea was about two or three meters lower than the surrounding black sea, just like a valley.

But the magic is that the sea water next to it will not flow here.

A smile appeared at the corner of Chen Feng's mouth: "It's really interesting."

After coming here, Chen Feng found that the sea was highly visible.

Chen Feng looked down, and he felt as if he could see the bottom of the sea.

"It shouldn't? Is it so shallow here?"

Chen Feng wanted to go to the bottom of the sea to explore, but he knew he was not ready yet, so he forced this desire down.

Then, taking a deep breath, he read the map carefully again.

At this time, the blue light spot on the map has reached the center of the sea surface.

And below the blue light spot is a very complicated line.

Chen Feng looked towards these lines, then slowly nodded, memorizing all the routes inside, clearly and clearly.

He confirmed again and again, after confirming that he had remembered it, he put the scroll away and put it in his arms.

Then, Chen Feng opened the two boxes obtained from the Foundry Masters Association and covered the talisman in it all over his body.

And put all these talisman in the golden thread kit.

In the left hand, he holds the golden thread kit so that these talisman can be taken out of the water at any time.

Then, Chen Feng looked around, seeing that there was nothing to prepare anymore, he took a deep breath and steered the boat, like the arrow from the string, swish, towards the center of the blue sea .

Chen Feng looked up to the sky and roared, extremely happy.

This blue sea is so vast that there is no one else besides him!

There is no such thing as a lonely world.

This gave him an extremely comfortable feeling.

At the same time, the surrounding sun is warm, without the slightest cold and evil!

However, what Chen Feng didn't know was that while he looked up to the sky and smiled, the small boat sailed towards the center of the blue sea like an arrow from the mysterious.

At this moment, at the bottom of the blue sea, under the sea, even under the seabed.

Amidst the endless rocks, at this moment, he suddenly trembled slightly.

Then, suddenly, the two lands separated.

Two huge pieces of land, with a radius of more than a hundred miles, suddenly separated.

After the two pieces of land separated, a round thing was revealed.

This round thing has vertical lines inside, with a superb yellow light.

And if Chen Feng looked down at this time, he would be able to see clearly.

Moreover, he must be able to recognize it!

This turned out to be an eye!

This turned out to be an eye with a radius of hundreds of miles!

What is the concept of hundreds of miles?

That is a distance of tens of thousands of meters!

An eye is so huge, how terrifying is the owner of this eye?

Does his body traverse this continent?

If Chen Feng saw this eye at this time, I'm afraid it would be shocked.

This eye was cold and without the slightest emotion. After opening it, it seemed to just open it coldly, took a peek upwards, and then closed it again.

As a result, under the sea, calm was restored again.

This blue sea looked huge, but it was not. Soon Chen Feng came to the center of Bihai.

The blue here is extraordinarily clear and leisurely.

After confirming that this was the center position, Chen Feng took a deep breath and looked around.

then. Without any hesitation, he just turned around and jumped into the sea from the boat.

As soon as Chen Feng jumped into the sea, he immediately felt a feeling of suffocation spread.

He felt he couldn't breathe, and his face flushed red in an instant.

But Chen Feng didn't have the slightest expression of surprise in his heart, just a smile on his mouth.

"Sure enough!"

In the seawater of other places, Chen Feng entered the sea and never used these talisman because he could breathe freely underwater.

He can stay underwater for a long time.

But when he came to the sea of death, Chen Feng knew it would be different.

Those people in the Foundry Association are not stupid. Why do they prepare so many talisman?

It must be because the sea water here is different.

Sure enough, after Chen Feng entered here, he felt that the seemingly blue and gentle sea water was actually like a big iron block.

I enter it by myself, let alone the air in my lungs, even the blood and the internal organs seem to be squeezed out of the body.

Chen Feng hurriedly used the power of the dragon descending Arhat to enter the talisman.

Suddenly, a yellow light flashed in the talisman, and Chen Feng immediately felt his body lighten and his breathing returned to normal.

He sighed slightly: "That's all right."

Chen Feng dived down. At this moment, the visibility inside was extremely high, like a huge blue crystal.

Even further down, there is no such dark feeling.

Chen Feng went all the way down. There were no big monsters in this sea area, but there were endless fishes.

Various small fishes and shrimps, small monsters in the sea floated by Chen Feng.

[Chapter 3210: Sea Dragon Crystal Palace! Turn it on!](#)

These are harmless to Chen Feng. A smile appeared on the corner of Chen Feng's mouth. After entering the Sea of Death, he had never been so relaxed for a moment.

After entering the West Sea, he has been watching out for monsters, warriors, and Zhong Fenglin.

And now, Chen Feng can finally do not need to watch out for them.

This sea area is like the shallowest water on the seashore, there is no danger, and some are just calm.

He could see that there was a flat land just a thousand meters below, and beside that flat land there was still endless sea water.

Chen Feng soon settled on the flat ground.

He looked around and found that this flat land was circular, about three hundred meters in diameter.

Chen Feng squatted down and took a look, and countless seaweeds had grown on this flat ground, covering it firmly.

With a wave of his hand, Chen Feng suddenly shattered all these seaweeds, exposing the stony ground below.

Chen Feng looked all over here, and found that it was actually a stone platform.

No, to be precise, this is the top surface of a stone pillar in the sea.

On this stone, countless patterns and things similar to formations were also carved.

Chen Feng cleared all the seaweed on it, and then he saw the whole picture of the formation.

The lines on this formation are tens of thousands, which is extremely complicated. After Chen Feng glanced twice, he felt dizzy in front of him, his body swayed, and he almost fell.

He was shocked: "With my cultivation base, I almost fainted just by looking at this formation, which shows how powerful this formation is."

Chen Feng knew that this formation was of extremely high level, and it was almost impossible to unlock it.

And Chen Feng also knew very well that with his own strength, he would faint when he looked at it. I'm afraid that few people in the entire Dragon Vein Continent would be able to solve this formation.

"There must be other methods. It's impossible to set up a dead one. No one can get in here. What's the point?"

Chen Feng thought in his heart.

So, he walked around here, walking very carefully and observing very seriously.

Soon, Chen Feng made a new discovery.

He found a stone slab next to the formation. A few lines of words were written on the stone slab. It was an ancient seal, but Chen Feng knew it.

After Chen Feng watched it, he couldn't help but suddenly said, "That's it, it's that."

It turned out that what was carved on the stone slab was exactly the condition for opening this formation.

"It turns out that only by possessing the blood of the Anger Sea Bibolong or even a higher-level sea dragon can it be unlocked."

"If you don't have blood, your breath is fine! But the requirements are extremely high, at least Anger Sea Bibolong and above."

Chen Feng whispered softly: "The giant sea dragon like the Anger Sea Bibolong. I have seen it on the data I bought on Yingzhou Island. It is a very powerful race among the giant sea dragons in ancient times."

"The adult Anger Sea Bibolong is proficient in water spells and is extremely powerful in the water. Its level has reached the three-star monster emperor."

"In other words, how terrifying is the four-star Martial Emperor equivalent to humans?"

"Where can I get the blood of this Anger Sea Bibolong? This kind of dragon is already extinct, right?"

"And, even if there is, I am not an opponent at all now!"

But Chen Feng was not disappointed, let alone give up.

On the contrary, his mind was running fast at this time, thinking of other solutions.

Chen Feng suddenly had an idea in his heart at this time: "My martial soul has gone through many changes over the years."

"In the beginning, it was Xiangliu Wuhun, then Qinglong Wuhun, then five-clawed Golden Dragon Wuhun, and now it has become Ba Snake Wuhun. What does this mean?"

"This shows that my martial soul belongs to the dragon and snake!"

At this moment, Chen Feng suddenly flashed infinite aura in his mind, clapped his hands, and exclaimed: "The genus of dragons and snakes!"

"Dragons and snakes, dragons and snakes are not separated from each other!"

"So, my martial soul can evolve into a dragon from a giant snake like Xiangliu, or it can have a five-clawed golden dragon that can evolve into an ancient beast like a snake."

"So, the blood of the dragon is connected to the blood of the top ancient gods, beasts, and snakes!"

"Then, this Sea Dragon Crystal Palace can only be opened with the blood of the ancient raging wave dragon, which is also the lowest level of the three-star monster emperor, can my blood of the snake open it?"

"Can my Ba Snake Wuhun do this?"

When Chen Feng thought of this, his thoughts suddenly surged, and his thinking became extremely clear.

"Ba Snake Wuhun, in the last test, Wuhun has reached the level of 80,000 years."

"In fact, his level is far more than 80,000 years, at least a hundred thousand years."

"A martial soul with a level of more than 100,000 years, if it is a physical monster, I am afraid that the level will not be lower than the three-star monster emperor, my Ba Snake Wuhun can definitely do it!"

"What's more, the Ba snake martial arts soul itself is transformed from a rib of the Buddha, which shows that the Ba snake martial arts soul itself is a part of the Buddha!"

"Bulong is in the dragon clan, and his status is very noble. Can it be said that it is no better than the angry wave dragon?"

Thinking of this, Chen Feng didn't hesitate, and immediately released his Ba Snake spirit.

As soon as the Ba Snake Wuhun appeared, the sea water that was stirred immediately caused a huge wave.

At this time, the huge eyes on the bottom of the sea quietly opened again, but Chen Feng still didn't notice it at this time.

At this time, the look in these eyes was no longer indifferent, but with a hint of curiosity.

Then, Naba Snake Martial Spirit was inspired by Chen Feng's thoughts, and went around a few times, and then leaped heavily on the formation.

After his body slammed into the formation, the stone pillar, which was very delicate in comparison with his huge size, did not shake at all and was still as stable as Mount Tai.

The breath of Ba Snake Wuhun struck above this formation.

His breath penetrated at an extremely fast speed, and it seemed that he was touched by this breath, and the formation began to shake slightly.

Then, there was a rolling noise, as if something had been activated.

The next moment, above this formation is a bright light.

At the same time, a suction force came out.

This suction force directly fell on the Ba Snake Martial Spirit, and the Ba Snake Martial Spirit's body was sucked tightly against it.

The breath of the Ba Snake Wuhun continued to penetrate in, and then the light in the formation became stronger.

The entire stone ground has turned orange.

The endless orange-yellow light wanders through it, illuminating it transparently.

In the end, not only the stone ground has become like a beautiful orange jade, but the orange color is spreading downward.

Soon, the entire huge stone pillar turned into a transparent orange, extremely beautiful!

The next moment, there was a loud bang, and the momentum of absorbing breath finally stopped.

At the same time, the formation broke apart suddenly.

After the formation broke apart, nothing was revealed, and there was still a rocky ground below.

Chen Feng looked at it and was stunned.

But then, he saw that on the stony ground, two rays of light surged up to a height of more than two meters.

Then, at a height of more than two meters, the two rays of light turned and crossed to form a portal.

A portal of light quality.
