

## Peerless 3701

### [Chapter 3701: Wuling Yuanyang Fire is here!](#)

The attack range is near, medium, and far.

Ximen Mountain is invincible in close combat, while Sirius's long-range attack is extremely powerful.

This mid-range attack is the dead snake.

This dead snake is extremely fast, so it can appear everywhere to make up for loopholes.

At the same time, although it is not as resistant to fighting as the Simon Mountain, it is more resistant to fighting, and it can also carry the enemies in front of the Simon Mountain for a while.

"It turns out that the weird black profound fire is called Wuling Yuanyang Fire."

"It turned out to be the seventh-ranked powerful \*\*\*\* on the Continent Profound Fire Ranking!"

This powerful profound fire was obtained by him unintentionally.

On the same day, the Sirius team tried their best to besieged and killed a strong man who had just arrived in the deserted ruins and was not familiar with anything.

This strong man is extremely overbearing in strength. Even though he is new to the first time and is unfamiliar with anything, he has inhaled a lot of poisonous gas, and his strength has been damaged. However, all three Sirius teams who killed were seriously injured.

However, besieging this strong, the harvest is also extremely huge.

He got a kind of treasure from him, and this kind of treasure, after absorbing it, can make people possess this powerful mysterious fire within a short period of time.

Of course, this is similar to wearable items.

It's over when it's consumed, and it can't recover by itself.

It wasn't that he had surrendered this kind of profound fire, to put it bluntly, it was just that it probably used the power of this kind of profound fire.

Chen Feng wanted to think about this, and couldn't help but feel lucky in his heart.

"Fortunately, the dead snake has not really mastered the powerful power of the five-spirit Yuanyang Fire. If not, it is probably Chen Feng who is dead now."

"This is the seventh-ranked powerful profound fire. Its true power bursts out. I'm afraid that even if it is only stained with a strand, it can directly burn me to ashes!"

"Probably he can only use 10% of the power of the Five Spirit Yuanyang Fire, and he can beat me so miserably."

"It's so powerful, you can imagine it!"

"And now, I can see the power of this profound fire firsthand!"

"Because, now, I even have the opportunity to control this flame!"

A smile appeared at the corner of Chen Feng's mouth, and he slowly spread his right hand. In the palm of his hand, there was a small black orb.

This black orb was about the size of an egg, and was black all over, just like the night sky, shining brightly.

It seems that the entire night sky is enclosed in it.

But in this pitch black, there is, more dazzling, deeper, more gray, and also, a more terrifying black, jumping!

This turned out to be a black flame!

"This is a ray of Five Spirit Yuanyang Fire that has been weakened by 90%!"

Chen Feng took a deep look at it and put it away.

He was afraid that if he didn't put it away, he couldn't help but want to absorb it and melt it into his body!

And Chen Feng knew that once he absorbed it, it was definitely better than what a dead snake did.

After all, he had extremely rich experience in the use of profound fire before!

"Smelt it later, just in time, I want to start practicing alchemy again!"

"With the Five Spirits Yuanyang Fire, you can get twice the result with half the effort!"

"However, this is not even the most precious treasure in the dead snake, the most precious thing in him is..."

Chen Feng let out a foul breath and looked down at a small gray cloth bag in his hand.

This gray cloth bag looks rather crude, and the surface seems to be woven from the most common linen.

The whole shape is similar to the shape of a bow and arrow.

Chen Feng is no stranger to this thing.

After all, when he was in the Longmai Continent, he was also a person who had been a general in command of the army.

This thing, at a glance, knows that it is a bow bag.

The so-called bow bag refers to a piece of equipment for archers and cavalry that can put both bows and arrows in it.

At this time, the bow bag in Chen Feng's hand was about 90% smaller than a normal bow bag, only the size of a palm.

It looks rough, as if the urchin made it himself.

However, there was a faintly terrifying breath coming from inside, like a wild beast that was sealed.

And without waiting for Chen Feng to make any movements, all of a sudden, this little bow bag flew directly.

Then with a bang, it rose up against the wind, and in a flash it turned into a few meters long and wide.

Although not as prominent as Chen Feng's Nine Dragons Quiver, it is also powerful enough.

The next moment, a thick cyan streamer poured out from it.

With this cyan stream pouring, the air is a little more terrifying.

In the next moment, there seemed to be buzzing in the air, and there was an emotion called awe.

It's as if the surrounding air and everything around are expressing their fear and admiration towards the thing that is about to appear!

Even Chen Feng held his breath, he also wanted to know what this thing was?

This bow bag was found from the dead snake, and it was also the most terrifying thing found from the dead snake. The contents in it were definitely not trivial.

And the next moment, suddenly, a bright blue light suddenly appeared.

Amidst the red light, something floated up and down, the light was so dazzling that Chen Feng couldn't see clearly.

Finally, when the light gradually dimmed, Chen Feng also saw clearly what was floating in the beam of light in front of him.

This is actually a big bow!

This big bow is about two meters high, and its arms are as thick as Chen Feng's.

The shape of this bow looks extremely simple, as if a piece of emerald green vines was forced into the shape of the current bow, and then, a thick as thick as a thumb was added, I don't know. The thick tendons drawn from what kind of beast!

It became such a bow and arrow.

The shape of the big bow is extremely simple, even with a hint of primitiveness, revealing a strong natural breath.

However, as soon as this bow and arrow appeared, that savage and ancient aura suddenly rushed out!

Chen Feng almost suffocated!

With the appearance of this bow, in the beam of light, there are three things that fall together.

Chen Feng could see clearly that these three things were actually three giant arrows!

Each giant arrow is two and a half meters long, as thick as a teacup, and it is not known what kind of wood it was cut from. The whole body shone with golden light.

This golden light is not light, but very strong, as if it is flowing out from the golden wood.

Even on the arrow body, some wood scars are clearly visible.

And the point of the sword is the size of a wine jar, the whole body is black, hideous, heavy, twisted, and huge!

There is an unspeakable force of tyrannical power!

This breath rushed towards his face and pressed it down, making Chen Feng's heart tremble.

#### [Chapter 3702: A drop of blood!](#)

It has been a long time since Chen Feng felt that kind of feeling.

Before he faced no matter how powerful a weapon was, he wouldn't think so, and the appearance of this bow and arrow made Chen Feng aware of it instantly.

That's when Chen Feng wanted to make it clear, his heart could not help but almost moaned like amazement, and it was full of ecstasy!

It turned out that this bow turned out to be a magic weapon!

Magic weapon level!

Chen Feng doesn't know how many supernatural soldiers are, but they are definitely supernatural soldiers!

This is the first time Chen Feng has seen a divine weapon, and the level of this divine weapon has already surpassed the Nine Dragon Aotian Sword in Chen Feng's Nine Dragon Sword Pouch.

Among the four weapons in the Nine Dragon Sword Pouch, only the white dragon spear, which Chen Feng didn't know the details or depth, seemed to reach the level of a first-class magic weapon, comparable to the big bow in front of him!

Chen Feng sighed for a long time: "Fortunately, this bow and arrow is just a magic weapon that the Sirius team just got."

"Fortunately, he was assigned to the weakest dead snake among the three, in order to increase his strength."

"Fortunately, after he got this weapon, he came to chase me down."

"Fortunately, he didn't have the time to be proficient, and he didn't even have time to shed blood with this weapon to recognize the master."

"Fortunately, fortunately, otherwise I am afraid that I no longer exist in this world."

Chen Feng couldn't help but sigh.

But soon, he cleared up his emotions, and his heart was full of joy.

It is of course extremely happy to be able to get such a bow and arrow.

Chen Feng naturally knew: "This bow is called Falling Star!"

"Starfall!"

A smile was drawn at the corner of Chen Feng's mouth.

When he uttered these two words, he naturally had a vast breath, rising from before his eyes.

Just as if he came to the ancient wilderness in an instant, amidst the roar and admiration of thousands of ancestors, on the high cliff, a tall figure with only animal skins, suddenly in between, before stepping on, he pulled the giant bow and shot the giant long arrow toward the sun above the sky!

Falling Star God Bow!

Shoot down the stars!

How powerful this must be to be able to call it this name!

Chen Feng's heart was surging.

Of course, the most important thing right now is not to shock, but to shed blood to recognize the Lord, first take this bow and arrow as his own.

Chen Feng immediately stepped forward, trying to shed blood to recognize the Lord.

However, he found that he could not do this at all!

Chen Feng squeezed out the blood and dripped towards the Divine Falling Star Bow, but after the blood infiltrated the Divine Falling Star Bow, there was no movement.

Chen Feng widened his eyes: "It disappeared? Just disappeared like this?"

He also confessed to the Lord with some weapons, but there has never been one who hasn't given him any response like this.

Then, Chen Feng dropped a few more drops, but there was still no response.

Chen Feng couldn't help but smile, and he probably understood what was going on.

"You fellow, too greedy, you think I have too little blood?"

"You know, these are my blood! It's different from the usual blood!"

Chen Feng didn't dare to drop it anymore.

Now the enemy is in danger, and now all he consumes is extremely precious blood. When will it drop?

In desperation, Chen Feng had to put away the star falling bow.

Then, it counts other gains.

In fact, apart from that, there is no other gain.

This was also in Chen Feng's expectation, the dead snake belonged to the kind of strong man who was very good at using his body, and his body was his most powerful weapon.

In addition, Chen Feng also harvested seventeen life gems from him. This amount made Chen Feng feel a bit too small, and pitiful.

But when I thought about it, I understood in my heart.

The misty bird is also extremely difficult to hunt. I can hunt hundreds of misty bird at once, I'm afraid that no one can do it when looking at the entire desolate ancient ruins.

They usually want to hunt so hard, so naturally they can't save much.

As for the atomized gems, none of them were harvested.

Chen Feng shook his head and took all these things into his arms.

Then, he lowered his head and glanced at the dead snake's body, pulling his legs out to leave here.

He doesn't want to stay here anymore. It's not safe here. What's more, the life of the dead snake is so powerful, and his breath is also very attractive to certain monsters.

If you are here, I'm afraid the trouble will continue.

Chen Feng was about to leave and head out.

And at this moment, suddenly, a very strange feeling came out of his heart.

This feeling is like missing something very precious and rare.

But Chen Feng was sure that he hadn't forgotten anything.

He knew this very firmly in his heart.

So, Chen Feng continued to walk outward.

However, the more he walked outwards, the more awkward he couldn't tell, and there was still a hint of panic.

"wrong!"

Chen Feng knocked his head: "There must be something I missed."

And at this moment, suddenly, a thought flashed through his mind like a flash of lightning.

In an instant, his mind was very clear: "I know, I know! I know what it is!"

In the next moment, Chen Feng suddenly turned his head, his eyes fixed on the ground.

And the direction he was staring at was the dead snake's body.

It turned out that at the moment when Chen Feng saw the dead snake corpse, he discovered that there had been slight changes on the dead snake corpse, but he didn't care too much.

But that scene has entered the bottom of Chen Feng's heart, and the powerful perception and instinct in Chen Feng's heart tells him: This is not right!

That's why Chen Feng realized this.

At this time, Chen Feng stared at the dead snake's body on the ground without blinking.

I saw that the dirty things on the surface of the dead snake's body had begun to slowly change color, and then the next moment, suddenly, it was directly burnt.

Suddenly, it burned out.

An extremely unpleasant black smell continued to spread.

And when these flames burned out, Chen Feng saw that only bursts of black gas remained in place.

Chen Feng could obviously feel that the faint power disappeared as the transpiring black energy disappeared.

But in the end, when everything disappeared, only a drop of blood remained in place!

A drop of blood like a bead.

This drop of blood was as big as most of a fist, the whole body was crystal clear, and the shape was slightly drop-shaped.

The surface shone with black brilliance, very beautiful.

"This thing? It turned out to be this thing?"

Chen Feng couldn't help but gasped. He even held his breath, looking at this huge drop of black blood with a shocked face.

#### [Chapter 3703: The second drop of blood](#)

This black blood, said to be black, is actually the color of a psychic body.

It's just that there is a strong and extremely powerful atmosphere of demons, which constantly rushes out, rendering it black.

With it as the core, a black hole is formed even around it.

Even light can almost be swallowed!

Chen Feng is no stranger to this breath!

Because this is not the first time he has seen this kind of blood!

Chen Feng flashed his hand, and suddenly, a black brilliant gem appeared in the palm of his hand.

This dazzling gem can seem to be able to cut off all breath.

After he took out the gem, he immediately saw a huge drop of blood floating inside.

This drop of blood was even larger than the blood of the dead snake in front of Chen Feng at this time.

It was the drop of Heavenly Demon blood that Chen Feng got from Chu Shaoyang that day after he killed Chu Shaoyang!

But at this time, this drop of Heavenly Demon's essence blood, after feeling the breath of the essence and blood that the dead snake turned into, turned into an instant humming and restlessness!

It seems to have become extremely anxious, like wanting to rush out!

However, with a slender and white hand, it did slowly tighten this gem!

With a snap, Chen Feng put away the gem.

Now, it is not the time to merge.

Then, a smile appeared at the corner of his mouth.

Now, he was sure that the essence and blood that this dead snake turned into came from the Demon Realm!

It's the same drop of Heavenly Demon blood!

However, the two are slightly different.

Chu Shaoyang turned into the magic blood of the day, and the aura revealed in it was majestic and majestic, as solid as the earth.

It's just that the earth was scorched and turned into a barren and ruined land!

At this time, the drop of Heavenly Demon's blood that was condensed by the dead snake had an indescribable aura of lightness, swift as the wind, and flickering.

Chen Feng whispered to himself: "I probably guessed it. These two drops of heavenly demon blood must have been condensed by the strong in the demon world."

"Of course, it may be just a drop of their blood."

"It's just that the races, strengths, and even characteristics of these two kinds of demons are completely different, so this difference appears."

He looked into the distance and said leisurely: "Mozu! Devil world!"

"What kind of existence are you?"

"I knew of your existence when my strength was low, but now I still keep getting information from you."

"When I was growing up, it seemed that you were always with you, but it was like looking at a flower in a fog. I couldn't really see it."

Chen Feng now only roughly knows that the Devil Realm is an extremely powerful world and plane!

Its power level is much more powerful than the Dragon Vein Continent, but it doesn't know anything else.

"It's no wonder that when I confronted the dead snake just now, I always felt that he not only revealed the silence of the deserted ancient ruins, but also had a strong devilish energy."

"It turns out that it came from this drop of heavenly demon blood!"

"It seems that his body should have been transformed by this drop of heavenly demon essence blood, and his previous ability to transform may even be directly given by this heavenly demon essence blood!"

"There are many differences between these two drops of Heavenly Demon Essence Blood, but the same is true!"

Chen Feng slowly clenched his fists, his eyes gleamed: "They also contain incomparable power!"

"Use it well, it will bring an unparalleled improvement to my strength."

Chen Feng was able to feel the extremely terrifying aura from these two drops of Heavenly Demon Essence, which was obviously absolutely extraordinary, and the power inside was even more mysterious.

However, Chen Feng estimated that the power in the blood condensed from the dead snake was far beyond the strength of the dead snake.

The dead snake can reach its current strength, this drop of heavenly demon blood is absolutely indispensable.

According to Chen Feng's estimation, he only exerted less than 10% of the power in the blood of the demon essence of this day.

Less than 10% of the power has created such a four-star Wudi mid-term powerhouse!

So, how terrifying is actual power?

"When I can absorb this power, what kind of powerful existence will I become?"

Chen Feng was full of expectations.

However, he knew that he was absolutely unable to absorb the blood of the devil's essence of this heaven now.

The faintly terrifying power inside made him feel extremely jealous.

He knew that if he wanted to forcibly absorb it, he would only have to burst into death, so he put it away simply and neatly.

This was the second drop of Heavenly Demon Essence that Chen Feng had obtained.

After putting these things away, the strange feeling in Chen Feng's heart completely disappeared.

He knew it in his heart, knowing that there was nothing worthy of his attention, so he turned to leave.

The curse of the misty bird just now let Chen Feng know that it is not suitable to stay here for long.

After all, these natives who grew up in desolate ancient ruins, who knows what weird abilities they have?

When Chen Feng was about to leave, suddenly, he frowned.

Because at this time, Chen Feng could vaguely perceive that it was in the place just now, where the dead snake's body dissipated, as if there was a spiritual connection, stretching into the distance!

That spiritual connection, if there is nothing, stretches into the distance, but still refuses to dissipate.

Just like a tough filament, although weak, it has never been cut off.

Chen Feng's brow twitched and he was surprised.

But soon, he came back to his senses: "I know, I know what's going on!"

"This dead snake belongs to the Wolves team that day. He and the Sirius team also have some mysterious connections."

"Although he is now dead, the spiritual link is unbroken, which means..."

Chen Feng's eyes flashed brightly: "Now, if the people of Sirius have to pay a price, they should be able to perceive its existence."

"Even, I can feel everything happening here!"

Thinking of this, Chen Feng's mouth suddenly showed a smile.

The smile is full of incomparable confidence, unrestrained and arrogant!

The youthful spirit is full of expression!

He suddenly walked to the place where the dead snake corpse had disappeared, and then suddenly raised his head to look at the void in front of him, in the direction where the spiritual connection stretched away, raised his head, with a sharp sneer at the corner of his mouth!

The palm of his hand suddenly wiped his throat, making a throat cut gesture!

Saying word by word: "Sirius, I know you won't let go!"

"I don't care if you guys just let it go!"

"Remember my name!"

His voice exploded like a sky thunder: "I'm called Chen Feng, any tricks, just come!"

[Chapter 3704: The real Sirius!](#)

"Come and kill one!"

"Come two, kill one!"

After all, Chen Feng laughed!

He stretched out his hand and slapped the spirit directly to crush it.

Then turn around and walk away!

At this time, it was tens of millions of miles away from here.

Here, it is a mountain that soars into the clouds, and the entire mountain looks like a giant wolf sitting on the ground.

This mountain is not so huge, but it is extremely high, and the figure is very thin.

It feels like a strip that has been hungry for dozens of days, hungry and skinny, the skin is tightly attached to the bones, the hair color is already dull, and there is no luster, but the eyes are green, all the time Choosing someone to eat, like a very cold and vicious wolf!

This place is famous throughout the entire deserted ruins!

Because this is the location of the Sirius team.

The Sirius team, even if you look at the entire deserted ruins, are quite famous powerful forces.

And their boss, Sirius, even has a fierce reputation.

On top of this mountain, there are some small low stone houses scattered and scattered.

The largest of these stone houses is only three or four meters high, with a radius of about two or three meters, and can only accommodate one person.

It looked gray and inconspicuous.*noveLus&.com*

And above these stone houses, each has a brilliant green light flashing out.

This green light is quite similar to the green light flashing on the life gem produced by Yunwu Mountain Bird, and the breath is also very similar, both full of rich life breath.

However, compared with the life gems on the misty bird, the richness and purity are very different, and it cannot be calculated.

Probably only about one percent of life gems.

And if you get closer, you will find that on the four corners of these houses, each corner is inlaid with a green spar.

This spar was about half the size of a palm, and it was also emerald green.

It's just that there is a trace of confusion on it, and the light is not so pure.

It is very similar to the life gem, but like a very poor quality life gem.

In fact, this kind of thing is called life spar.

The life spar, in the deserted ancient ruins, is just like the dragon blood amethyst in the dragon vein continent. It is the most versatile hard currency and can be used as currency.

The reason for this is because it has a powerful ability:

That is, let people survive here!

No matter where it is, what can make people survive is the most precious.

This life spar can be produced on some inferior ancient Ming beasts.

The larger amount is the veins mined in the mountains.

In terms of purity and effectiveness, it is naturally far from being comparable to the gem of life.

Life gems have a very strong healing effect, which can restore their strength, but this kind of life spar has no such effect at all.

The gem of life allows people to stay inside and feel extremely comfortable.

And this life spar makes people stay in it, but it feels like they can breathe smoothly without being poisoned by that poisonous gas.

But in fact, barely enough is enough.

And the most important point is that the output of this kind of life spar is many times larger than that of life gems!

The gems of life are beyond expectation, but the gems of life are quite easy to obtain.

Of course, this ease is also compared with the gem of life.

In fact, in this barren ancient ruin, there is nothing that is easy to get, it all needs to be exchanged for life.

For example, these members of the Sirius team, the life spar inlaid on the house where they live, is that they have completed the task for the Sirius team, hunted monsters, or mined some rare mineral veins before replacing them. of.

That's right, the members of the Sirius team live in these houses.

In fact, the Sirius team is not just three players: Sirius, Dead Snake and Simon Mountain.

The three of them are just the core members.

In addition, there are some peripheral members.

The number of these peripheral members was close to twenty. For example, Ran Chenyi, who was beheaded by Chen Feng that day, was one of the peripheral members.

The outside members are naturally far inferior to the three of them, and they are also unable to access the secrets of the team.

Even if there are any benefits, Sirius and the three of them will pick first, and they will divide the rest so that these peripheral members can divide it.

When encountering some difficult situations, they are the first to find the way.

If Sirius and the others find this task easy, they will sit back and enjoy their success. If this task is difficult, Sirius will only take action.

To put it bluntly, they just started, pawns, cannon fodder...

The three people including Sirius ate meat, they drank soup, sometimes they couldn't even drink the soup.

It can be said to be extremely miserable.

But in this barren ancient ruins, there are still not many warriors who are vying to join the Sirius team.

Without him, because after entering the Sirius team, they were protected by the Sirius trio.

Anyone who dares to attack them, the three Sirius will crush them to pieces.

This is in the deserted ancient ruins, in this dangerous desert ancient ruins, what a good thing to be able to live safely!

The reason why the houses here are built so small is naturally because this kind of life spar is quite precious.

If the house is too big and there are few inlays, it will not be overwhelmed.

And if there are too many inlays, then even if the Sirius team is rich and powerful, it will not be able to withstand such a large consumption.

In fact, these houses are a symbol of the Sirius team's financial strength, which means that they can obtain a large number of life spars, which means their financial strength and strength!

And the most prominent building on this mountain is undoubtedly the palace at the wolf's mouth.

The palace was actually half-embedded into the wolf's beak. The wolf's beak was actually a depression in the mountain, but it was more than ten meters high.

And above, it is densely inlaid with dozens of life spars.

This is a big deal among the desolate ancient ruins.

It's just that, in this palace at this time, a terrifying and cold aura is constantly rising.

The horror and coldness was also mixed with unspeakable rage, as if there was an existence in it, who was furious.

This made all the members of the Sirius team silent on the hillside, hiding in their residences, and no one dared to appear.

And the fact is exactly the same.

At this time, in this hall, there was darkness.

At the very center of the hall is a small stone platform.

On the stone platform, an irregular stone was placed impressively.

This stone was about the size of a wine jar, and it was cut into countless ridges, reflecting light.

[Chapter 3705: Hound bite](#)

It looks extremely bright.

These rays of light condensed into three patterns in the air, and these three patterns were surprisingly the appearance of three people.

They are Sirius, Ximen Mountain, and Dead Snake.

The three are on each side of the stone.

However, at this time, the figure of the dead snake twitched violently, with unspeakable pain on his face, and the figure continued to grow bigger.

And finally, with a snap, the figure faded directly.

And above this stone, one-third of it was blown to pieces alive, shaking violently, and the light dimmed a lot.

Although finally stabilized, the figures of Sirius and Ximen Mountain had dimmed a lot.

Moreover, many cracks appeared on this stone.

At this moment, Sirius and Ximen Mountain were sitting next to them.

In fact, they have been sitting there since they discovered the abnormality on this symbiosis stone.

It turned out that this stone was called the symbiosis stone, and it was also a kind of treasure produced in the deserted ancient ruins, and its level was extremely high.

Even more precious than life gems and atomized gems.

Among the deserted ancient ruins, among the teams with higher levels, basically there is such a stone.

Through this piece of stone only produced in the deserted ancient ruins, the location of the members of the team can be sensed.

And if an accident happens to a member of the team, the symbiosis stone will essentially respond accordingly.

For a team, this is simply invaluable!

They watched, watching the breath of the dead snake continue to weaken, and the figure continues to dissipate.

Obviously, suffered an extremely deadly crisis.

Finally, the breath died out.

The symbiotic stone is broken, and the dead snake is dead.

Just now, after seeing this scene, Sirius roared insane and violent.

But now, the roar stopped completely.

Instead, he sat there, like a pool of stagnant water, without any waves.

It's just that the cold murderous intent of Sen Han in those eyes makes people shudder.

Obviously, he was so angry that he didn't speak.

After a long time, he said in a faint voice: "Dead snake, dead."

"Dead snake, dead, dead in the hands of that little bastard!"

Ximen Shanyue's voice was heavy and slow: "Although I don't know how the little \*\*\*\* killed the dead snake, since he has this ability, then we underestimated him before."

Sirius did not speak, but gritted his teeth, with murderous intent in his eyes.

At this moment, suddenly, the light flickered a few more times.

On the odd-shaped stone that they called the symbiosis stone, there was light shining out again, and then, a scene condensed in the air.

It was the sight of Chen Feng in that underground cave.

The two of them were stunned at once, wondering what was going on.

Next, they saw that this tall, handsome young man came to the front, and then compared them with a cut-throat pose and said the following!

"I'm called Chen Feng!"

These five words reverberated in this small hall, and it was an instant that both Sirius and Ximen Shanyue's faces were flushed.

They felt that Chen Feng's words were like a slap in the face, slapped the two of them fiercely, making their faces bewildered!

However, obviously, Ximen Mountain City Mansion was going to be deeper and more stable, and it returned to normal in an instant.

Sirius yelled frantically and violently: "Chen Feng! Is your name Chen Feng?"

"You \*\*\*\* dare to provoke me so?"

"You killed the dead snake, you dare to provoke me so? I'm afraid I don't know what your name is!"

"You dog, \*\*\*\* you!"

He roared one after another.

Chen Feng killed the dead snake just now, and did not irritate her much, but now it completely irritated him!

He is almost crazy!

At this time, Ximen Mountain suddenly said in a heavy voice: "The name Chen Feng is familiar to me."

Then, he frowned and said: "I remember."

"This person should be a strong man who has emerged in the past two years. When we entered the deserted ancient ruins, we had not heard of him."

"However, people who have just come here once told me that Chen Feng is a member of the Xuanyuan family, and a rather powerful young hero!"

"A member of the Xuanyuan family?"

After hearing the four words of Xuanyuan Family, Sky Wolf's expression instantly became more solemn.

After that, he pondered for a moment, and suddenly shouted: "Little boys who are still on the mountain, get out of me!"

His voice came from afar.

Suddenly, the peripheral members of the Sirius team stood up one after another, got up, and respectfully came to the front of the hall, kneeling there, dare not say a word.

Sirius' voice came faintly: "Now, immediately roll down the mountain to besiege and kill a man named Chen Feng."

After all, he waved his hand.

Suddenly, outside the hall, light scattered, revealing Chen Feng's appearance.

It was in the last scene that Chen Feng's face was full of rebelliousness and youthful spirit!

And this face is also deeply remembered by the perimeter members of these Sirius teams.

Sirius said coldly: "Anyone who can kill him will be promoted to a full member. If you can't kill him, you..."

His voice was as cold as ice: "All are going to die!"

The faces of these members of the Sirius team suddenly showed a look of ecstasy and fear.

Ecstasy, because this reward is too generous and huge.

God! This is a promotion to a full member!

It is self-evident that there are so many benefits for full membership, and if it fails, the ending is a dead word.

"Yes!"

They responded one after another, and then left quickly.

In the hall, Ximen Mountain looked at Sirius, and said solemnly: "They are not Chen Feng's opponents. If you let them do this, don't you let them die?"

"What do you know!"

Sirius stood proudly on the spot, his face showed a self-confidence that everything was under control: "I don't know that their strength is low? I don't know that they are not Chen Feng's opponents?"

"But, I don't want them to kill Chen Feng at all!"

"They are just a bunch of hounds."

"They chased Chen Feng, constantly inquired about his fictitiousness, and when he heard about him, when everything became clear, in the end, it was me who would strike him a fatal blow!"

He slowly clenched his fist, and a sneer appeared at the corner of his mouth: "Chen Feng, right?"

"I care about what you are the proud son of the Xuanyuan family! I care about what you are a young hero from the Dragon Vein Continent!"

"If you dare to touch my Sirius team, I will kill you!"

His eyes are full of confidence and arrogance.

"And the most important reason I did this is..."

He suddenly smiled: "Chen Feng turned out to be a strong man in the Xuanyuan family, a young hero."

#### [Chapter 3706: I am a soft persimmon?](#)

"He is here again, so the Xuanyuan family will definitely be worried and will definitely prepare many treasures for him."

"If I kill him now and can't figure out what he is, although I can kill him easily, it will take a while."

"For this period of time, if he consumes all those treasures, wouldn't I get nothing?"

"This bastard, this life is worthless, but those treasures are very valuable!"

He smiled slightly: "These treasures are already mine. In order to take back these treasures of mine completely, what are you afraid of hurting some people?"

This person is really unbelievable, and even more dismissive of Chen Feng.

In his opinion, Chen Feng's treasures are even his.

Obviously, he did not regard Chen Feng as a master at the same level as himself.

In his opinion, the reason why the dead snake lost to Chen Feng must be due to Chen Feng's tricks or good luck.

He has always believed that as long as he shot himself, he could easily kill Chen Feng.

And he just wanted to kill Chen Feng in an instant with the force of a thunderous force, so he sent people to constantly probe his reality and feel his bottom.

And the reason why he needed to kill Chen Feng instantly was to get those treasures from Chen Feng.

He didn't even want to let those treasures have a chance to be consumed.

When Ximen Mountain heard this, he nodded slowly, and did not raise any questions.

Obviously, in his opinion, what Sirius said was not wrong.

They have confidence in themselves.

A green light beam continuously refracted on the vast black ground of this desolate ancient ruin, at an extremely fast speed.

This is a floating green bubble, and it is Chen Feng that is wrapped in this bubble.

At this time, his eyes were condensed and he looked north.

And without stopping, he hurried to the north.

Because Chen Feng knew that the direction he was going was the north.

This also means that the message left by Yan Qingyu must be in the north.

Although Chen Feng had already learned from the previous few people, the valley of silence in the south was the most likely direction for the substitute puppet.

It seems that it is quite different from what he is currently heading, but in reality, Chen Feng did this to pursue the greatest effect.

He had to go north as far as possible before the news from You Shaojun.

Although he knew that this would be farther and farther away from the valley of dead silence, but now, after all, the news of You Shaojun hasn't arrived yet!

It's useless to go to the Valley of Dead Silence now, so it's better to walk north.

In that case, you might be able to find the remains of Yan Qingyu before the news.

Of course, Chen Feng knew that this hope was very slim.

"However, no matter how small the hope is, I have to fight for it!"

Chen Feng clenched his fists, his eyes full of persistence.

You know, it's not someone else who left the news, but his uncle, his master!

He is the person who cares best about him and is the most important person.

In the ruins he left, there must be many secrets that he wanted to know, able to solve his own puzzles.

At this moment, suddenly, Chen Feng stopped.

At this time, the place where he stopped was a mountain valley.

Chen Feng stopped here, suddenly a cold smile appeared on the corner of his mouth, looking at the corner of the valley in front, coldly shouted: "Get out, don't hide your head and tail!"

Following Chen Feng's soft drink, there was a strange laugh at that corner:

"As expected to be the son of Chen Feng from the Xuanyuan family, he is from a great family after all, and he can even perceive my breath."

"Tsk tut, not bad, not ordinary."

These remarks sounded like they were praising Chen Feng, but in fact they were full of irony.

Before the words fell, someone turned out after the stone wall.

This person is about thirty years old and is a one-eyed dragon.

The left eye was covered by a black eye mask.

He has big bones and a stout body, his face is full of murderous intent, and his hand is a dark blue long knife.

Looking at Chen Feng, a bloodthirsty expression was outlined at the corner of his mouth.

Chen Feng looked at him, suddenly smiled, and then understood in his heart, and said slowly: "Are you from the Sirius team?"

Hearing Chen Feng's words, this person was stunned for a moment.

Then he laughed: "Yes, your grandfather is the Sirius team, Yu Wenmin!"

Chen Feng wanted to guess this, but it was actually quite easy.

After he came to this desolate ancient ruin, he only revealed his name to one person or force, that is, the Sirius team.

This person can call out his name accurately, so who is it that is not the Sirius team?

Yu Wenmin licked his lips and looked at Chen Feng, his eyes were full of excited flames jumping: "I really have good luck. I caught you first."

"Hahaha, grabbed it in front of everyone!"

He was extremely excited.

Chen Feng looked at him, and asked with interest: "Oh, it seems that I am quite valuable?"

"Hahaha, that's right!"

He looked at Chen Feng and laughed wildly: "Boy, do you know how valuable you are now?"

"As long as I can kill you, after I go back, I will be an official member of the Sirius team!"

"At that time, I can have endless benefits!"

"It sounds like there are indeed many benefits!"

Chen Feng said with a smile.

"It's just..."

He looked at Yu Wenmin: "Are you so sure that you can kill me?"

Yu Wenmin froze for a moment, and then shook his head and laughed: "Chen Feng, Chen Feng, you are just a little two-star Martial Emperor, how could you be my opponent?"

"I'm already Samsung Wudi!"

After all, the breath of the body was released.

Sure enough, the strength has reached Samsung Wudi.

However, it was only in the early days of Samsung Wudi.

Yu Wenmin looked at Chen Feng and laughed: "For me, the difficulty of finding you is nine, and the difficulty of killing you is just one!"

"Chen Feng, your little strength is like a skater mouse!"

"It's a bit difficult to find you, but it's easy to kill you!"

He looked at Chen Feng's eyes as if he was looking at the meat on the sticky board. Obviously he didn't think that Chen Feng was an opponent of the same level as himself, and he was extremely contemptuous of Chen Feng.

"It seems that you think you have picked up a big deal, don't you?"

"You think I'm just a soft persimmon, right?"

Chen Feng touched his nose and looked at Yu Wenmin.

Yu Wenmin said, "Yes, aren't you?"

Chen Feng shook his head, and an indescribable ridicule flashed in his eyes.

The taste of being kneaded as a soft persimmon is really not so good!

#### [Chapter 3707: Shameless, right?](#)

Most of the peripheral members of the Sirius team are two-star Wudi, three-star Wudi, but not four-star Wudi.

However, even the weakest one has reached the peak of the Second Star Emperor Wudi.

And they only learned of Chen Feng's name from Sirius before, and learned of his appearance, but the only thing they didn't know was Chen Feng's strength.

I don't even know that the dead snake died in Chen Feng's hands!

Therefore, as soon as Yu Wenmin saw Chen Feng, he was immediately extremely ecstatic, thinking that he had picked up a big deal!

Of course he knew that Sirius was very angry about this man named Chen Feng, but he didn't take it seriously.

Because this is not the first time Sirius has done this.

Even if it is as powerful as Sirius, it will face some enemies like ants.

And he didn't even bother to find it out, so he would drive them to siege.

It is like a group of hounds to bite the enemy.

Therefore, they don't think there is any difference between this time and before.

Yu Wenmin looked at Chen Feng and said with disdain: "Sirius is the master, like a hunter coming out to hunt."

"And we are the hounds driven by him."

"As for you..."

He looked at Chen Feng and said with a disdainful face: "You little bastard, at best is a pheasant rabbit."

"The hunter, of course, can easily kill the pheasant rabbit, but it takes a lot of hands and feet and is not worth it."

"That's why I went to rush us to hunt you, and then reward us with some bones."

"Why, is there a problem?"

In his mouth, Sirius was as powerful as a hunter.

And Chen Feng was just a hurried escape, at best a rabbit pheasant that was hard to find.

In his opinion, his own wild dog can easily tear Chen Feng into pieces!

Chen Feng showed a ridiculous smile, he immediately guessed what Sirius was thinking, and also guessed his intentions.

Chen Feng looked at Yu Wenmin and said lightly: "Go back and tell Sirius that he wants to kill me and let him do it himself."

"It's not necessary to send you to die."

"Today, I spared you."

After all, Chen Feng waved his hand and walked forward.

He didn't really want to kill people today, and he did want to tell Sirius this news through the mouth of a human being.

However, he did not expect that Chen Feng's move to spare Yu Wenmin and his life caused Yu Wenmin to let out an extremely disdainful laugh.

With a flash of his figure, he stopped in front of Chen Feng, and pointed his long knife at Chen Feng:

"Chen Feng, are you crazy?"

"You spared me? What are you? You are also worthy to say such a thing?"

"Who gave you the courage?"

He stared at Chen Feng, frothing and disdainful.

Chen Feng looked at him and shook his head, feeling cold in his heart.

He didn't want to kill, and wanted to let this person go back to send a letter to Sirius, but he didn't expect this person to be so unsure of what is good or bad.

"In that case, then..."

The expression on Chen Feng's face was still faint, he just looked at Yu Wenmin and slowly said: "Shame on your face, right?"

Yu Wenmin's face changed suddenly, and he let out a savage roar: "Little bunny, you are the only one who is shameless!"

He looked at Chen Feng, every word, his face was extremely hideous: "I will definitely become an official member of the Sirius team!"

"I will definitely have a strong strength!"

"I, I will definitely be able to survive in this barren ancient ruin and gain powerful strength!"

"And you, Chen Feng!"

He stared at Chen Feng, saying every word: "Just be my stepping stone!"

This person is really arrogant, in his opinion Chen Feng is just his stepping stone.

He wants to step on Chen Feng to achieve his goal!

The next moment, he opened his hands.

Then, in an instant, on him, there was an extremely powerful blue light that suddenly appeared.

This blue light suddenly spread outward.

This blue light spread directly in the air, and then a giant net was formed in an instant.

This huge net has a radius of two to three hundred meters!

Each of the meshes above is very large, with a radius of one meter!

At this time, Chen Feng also saw that the blue light turned out to be a blue flame!

The flame was burning rapidly in the air, making a sneer, and even the space was a bit distorted, showing how high the temperature of the flame is.

Then the next moment, he shouted, this blue flame giant net, shrouded directly towards Chen Feng.

And after enshrouding Chen Feng, Chen Feng immediately felt that there was an extreme burning power from the giant blue net.

It seems to burn yourself to ashes!

Chen Feng raised his brows: "This attack method is a bit interesting."

It turned out that this Yu Wenmin's attack turned out to be a giant net with flames, which netted the enemy.

Then, burn it to death!

Therefore, Chen Feng was a little curious, and wanted to see the difference between his flame and the flame of the dead snake that day.

So, don't worry, let the big net trap yourself.

Yu Wenmin had been staring at this scene with piercing eyes just now.

It was not until he saw the big net trap Chen Feng that he sighed softly.

Obviously, in order to catch Chen Feng, he also used his strongest strength.

At this time, his nervousness no longer disappeared, instead he turned into an unspeakable laughter: "Hahahahaha, Chen Feng, after you are covered by my giant flame net, it will be difficult to escape!"

The next moment, he flicked his right hand, just like a fisherman, making a fishing net.

So, the next moment, the giant net will shrink sharply!

Directly from a radius of hundreds of meters to a radius of tens of meters!

Those meshes became only the size of a fist.

Then, it continued to shrink and shrink.

At first sight, it became a few meters in size.

In the next instant, it seemed that those flames were about to touch Chen Feng.

At this time, Chen Feng was probably able to judge the temperature of the flame.

Chen Feng shook his head, disappointed.

The temperature of this flame is still much worse than that of a dead snake.

Now that this conclusion has been reached, Chen Feng has no patience to play with Yu Wenmin anymore.

But Yu Wenmin laughed wildly at this moment: "Chen Feng, you will die in the next moment!"

"You will be burned to ashes by my giant flame net!"

At this moment, his eyes were full of viciousness and expectation.

But at this moment, he saw that the white-clothed young man took a look at himself.

Those eyes were indescribable, full of disdain, and seemed to have some playfulness.

Then, he heard that the white-clothed youth slowly said: "Only you? Is it worth it?"

[Chapter 3708: Fight hard!](#)

At the next moment, Chen Feng made an action.

He just flicked his fingers.

It's just a flick of your finger!

Yu Wenmin gave out a hahaha laugh: "Little bunny, what are you doing with your fingers? Do you want to give me these blue flames with this action..."

The next moment, he choked in his throat before he said those words.

It turned out that he was shocked to see, following Chen Feng's lightly finger movement.

Suddenly, with a loud bang, his blue flame, which was already about to tighten, seemed to be pinched by a big hand!

Then the next moment, it bulged!

The next moment, it was directly blasted to pieces, turned into countless light spots, and disappeared directly!

An expression of disbelief appeared on his face: "This is me...I, I...you, you actually shattered my giant flame net?"

"This, this is my most powerful trick!"

"You flicked your finger and smashed it to pieces?"

He was sluggish there directly, without even coming back to his senses.

He was already shocked and incoherent.

At this time, Chen Feng suddenly raised his head, and under the black hair, his eyes were as bright as stars, but it was cold.

Just like the cold and dark universe!

"Now it is your turn!"

At the next moment, Chen Feng started the Golden Crow step by day, and his figure flashed and came directly in front of him.

Then, a punch was smashed out.

As if there were twelve golden dragons flashing by, in the sky, facing the roar of the dragon, it exploded!

Yu Wenmin let out a stern scream and threw his fist to resist.

But how can you resist it?

Chen Feng's punch smashed all his defenses, and it was directly printed on his chest.

Suddenly, a force of 12 billion catties crashed into his body, directly hitting him with blood spurting, and he was already severely injured and dying!

He finally struggled to sit up and looked at Chen Feng, the shock on his face had disappeared.

Instead, there is intense fear.

Where could he not see at this time, this Chen Feng's strength has far surpassed his imagination?

Chen Feng slowly walked towards him, smiled and said, "I just said let you go, but you didn't."

"I said, you shamelessly, why, is there a problem?"

This is the second time Chen Feng said this today.

When he said this, Yu Wenmin was full of disdain and even extremely angry.

He thought that Chen Feng was arrogant, but now, when Chen Feng said this sentence again, Yu Wenmin was full of horror and despair.

He looked at Chen Feng and muttered, "You, how come you are so strong?"

He just looked at Chen Feng and yelled frantically: "You, your strength far surpasses the second-star Wudi!"

"I see. It turns out that Sirius is not for us to kill you, but for us to trap you and detect your true strength!"

He roared crazy!

Suddenly, he stopped crying, looked at Chen Feng, and said loudly while scientifically: "You said that, no problem, no problem at all!"

"I'm really shameless!"

"It turns out that you said to spare me, you really gave me a chance to survive!"

He suddenly slapped his face with a slap in the face, and shouted frantically: "Yu Wenmin, you \*\*\*\* shameless!"

He was full of regrets!

Chen Feng laughed loudly, looked down at him, a cold smile appeared at the corner of his mouth, and said with a smile:

"Sirius must have not told you that I broke him before, and even the dead snake died in my hands, right?"

After hearing these words, Yu Wenmin's face showed extreme fear.

His pupils shrank instantly, and his eyes were filled with despair.

At this moment, he immediately understood everything in his heart.

He screamed sternly: "I regret it! It turns out that you are so powerful, why bother to provoke you!"

"What am I worthy to provoke you?"

"In front of you, I am like an ant that is easily pinched to death!"

His heart was filled with regret.

Unfortunately, it is too late to regret at this time.

Chen Feng smiled slightly and stretched out his hand to snap his neck off.

In an instant, Yu Wenmin's regretful voice was buried in his throat.

He skewed and died directly.

Chen Feng didn't stay on Yu Wenmin much, took a look, and after taking away the precious things from her, he left here directly.

With a soft bang, a stern scream was directly cut off, and it disappeared in the air.

A burly man crowed and fell heavily to the ground.

And Chen Feng slowly retracted his fist and looked down.

Looking at the corpse in front of him, his eyes were calm, without waves or waves.

It was as if what he had just killed was not a strong man at the pinnacle of Emperor Wudi, but just killed an ant.

Then, a smile was drawn at the corner of Chen Feng's mouth, he sighed softly, and looked into the distance:

"These mad dogs of the Sirius team are really persevering!"

"In three days, nine people have come to me!"

It turned out that this was the ninth Sirius team killed by Chen Feng in the past three days!

At this time, Chen Feng's situation is not optimistic.

In fact, it seems more appropriate to describe it as tragic.

On his body, there were more than a dozen huge scars and blood all over.

There was even a huge wound that directly penetrated Chen Feng's chest and abdomen.

There was a huge penetrating wound the size of a bowl, and it was bloody.

Inside, there are even golden bones with the luster of fine jade!

In Chen Feng's body, the power of the dragon descending Arhat rushed continuously, trying to repair the wound.

However, there was a burst of blue gas on the wound, which continued to spread out, extinguishing the power of the dragon descending Arhat.

The wound could not be repaired!

Even if it is the power to lower the dragon and Arhat, it is helpless!

And every time Chen Feng raised his hand, every step, and even every laugh, it would affect the huge wound and bring him tremendous pain.

But Chen Feng didn't care about it. On the contrary, he felt that the pain of the wound seemed to remind him of his existence, giving him a very real feeling.

Even the wound gave Chen Feng a strange illusion of vitality.

This wound was brought to him when Chen Feng killed a short and thin member of the Sirius team who was wearing a black robe and looked inconspicuous.

This temporary member of the Sirius team, who has reached the mid-term of the Samsung Martial Emperor, witnessed Chen Feng's strength, and directly sacrificed his life in exchange for an extremely powerful attack. Huge wound.

In fact, apart from killing Yu Wenmin, the first temporary member of the Sirius team, Chen Feng could not easily kill any of the following people.

It takes a lot of effort to kill everyone.

Obviously, everyone should not be underestimated to gain a foothold in the ancient ruins.

And these people also brought him powerful attacks and painful trauma.

Moreover, the later, these people seem to be able to face his weaknesses to strike.

#### [Chapter 3709: Breakthrough opportunity](#)

Obviously, there must be someone behind these things.

He has deepened his understanding of Chen Feng!

Chen Feng knew very well that Sirius must be watching everything secretly.

He should have a way to get some secrets about himself through his temporary members who were killed!

Now, Chen Feng's whole person has entered a situation where he is seriously injured and dying, even worse than he was beaten by a dead snake last time.

However, at this time, Chen Feng not only had no pain, no screams, no showing of weakness, on the contrary, there was a leisurely smile on his face!

He felt alive in his body, as if an incomparable vitality lurked there.

It's just that a seal stamped it.

However, at this time, the seal has become extremely weak, just like a layer of window paper, it will be broken with a light poke!

Just one step away!

When the time comes, it will be unimaginable horror when this power bursts out!

A smile appeared at the corner of Chen Feng's mouth, and he felt the vitality in his body.

"Sure enough, my choice is right!"

Chen Feng had already thought of this scene when he discovered the spiritual link after killing the dead snake and made those actions.

In fact, if Chen Feng doesn't want to be spied on his secrets, he can just smash that spiritual link.

Sirius would not know that he did it.

Why do that move to Sirius? Even, why tell Sirius his name?

In fact, Chen Feng did this to reveal his information to Sirius!

Just for the Sirius team to chase itself like crazy wolves!

Even, just to draw Sirius out!

Because at that moment, Chen Feng suddenly thought that he seemed to have changed in order to kill Xuanyuan Zixi, as if to obtain the substitute puppet!

Become conservative, weakened, and retreated.

There is no longer the original one!

This feeling made Chen Feng extremely uncomfortable!

Almost at that instant, he decided to make a change!

A voice resounded in his heart: "This desolate ancient ruin is infinite danger, endless enemies and powerful!"

"This is precisely, it is also the best opportunity to forge yourself!"

Therefore, Chen Feng did those things.

Therefore, Chen Feng has faced so many opponents in the past few days!

But instead, he felt the blood all over his body was boiling and burning, without the slightest fear!

Moreover, he felt that there seemed to be a kind of power in his body, faintly, about to burst out!

In the next moment, Chen Feng's eyes became as cold as ice and snow, as if he was thinking about something.

Chen Feng knew that there were already nine members of the Sirius team who had died under his own hands.

And these nine people, their death marks, and their information must have all been passed back to Sirius.

And they, without a doubt, clearly showed all of their own situation, and even more clearly marked their position.

Chen Feng knew very well that what he faced next was not the peripheral members of these Sirius teams, but the terrifying, extremely powerful, legendary Sirius who had reached the level of the five-star Wudi!

Chen Feng sighed slightly, looking far away, but his eyes were full of enthusiasm.

And his heart is full of eagerness.

That kind of eagerness, like a flame blazing.

In that eagerness, there is even more unspeakable desire.

"Now, even if the strength of Sirius has not reached the five-star Wudi level, at least the four-star Wudi peak is still there."

"And his strength is definitely not what I can match now!"

"Before he catches up, I must eagerly improve my strength!"

"I must at least be promoted to Samsung Wudi to be able to compete with it!"

"And now, I'm only in the middle stage of the Second-Star Emperor Wu, and I still have to experience the threshold of the second-star Emperor Wu's peak!"

"I still need to cross at least two big steps to advance to the Samsung Martial Emperor!"

"If I were to change to the previous me, with this kind of evasion and unhurriedness, it would take months or even years to break through to go out among the barren ruins."

A smile appeared at the corner of Chen Feng's mouth, and he clenched his fists:

"But now, under my active request for battle, and under the chase of the Sirius team like crazy dogs, I feel that the time for me to break through to the peak of the two-star Wudi is not far away!"

Chen Feng's eyes were full of confidence!

"And more importantly..."

A strong smile appeared at the corner of his mouth: "I feel now that the opportunity for my breakthrough has arrived."

The next moment, Chen Feng's figure flashed and left here.

Soon, he found a hidden cave.

Blocking the entrance of the cave, Chen Feng went to the depths of the cave.

He took out a golden thread kit and opened it, and suddenly, a thick vigorous emerald light overflowed directly from it, filling the entire cave!

Chen Feng crashed and poured out all the things inside.

It turned out that all the gems stored in it were all life gems.

During the subsequent beheading of these temporary members of the Sirius team, Chen Feng obtained some gems of life.

Now, the number of his life gems has reached nearly 600.

This is an extremely terrible number.

You should know that even some three-star four-star martial emperors who have spent three or four years in the deserted ancient ruins will not have more than twenty life gems in their hands.

Chen Feng took a deep breath, then first crushed a gem of life.

Suddenly, after crushing this gem of life, a green mask appeared around his body.

After the green bubbles appeared, Chen Feng panted heavily, feeling that the burning pain on his body seemed to have weakened a lot.

Relax the whole person.

Then he lay there, motionless.

It turned out to be lethargic.

After sleeping for three hours, he just jumped up.

During these three hours, he did nothing, just fell asleep completely.

And this effect is also very good. At this time, his whole person's state of mind is already ethereal, and even the burning mind has quietly dropped.

It's just a decline, but there is no dissipation.

On the contrary, because it was suppressed by Chen Feng, this hot power to burst, and the surging feeling of wanting to break through, became even stronger!

Can this be suppressed?

On the contrary, it is like the temporarily sealed volcano, it will erupt when it will be more violent!

Chen Feng was full of ethereal meaning.

In the next moment, a lot of life gems appeared in his left and right hands.

[Chapter 3710: breakthrough! Two-star Wudi peak!](#)

This life gem is ten, and the life gems he holds in these two hands add up to twenty!

Then, with a snap, everything was broken.

If this scene is seen by people in this barren ancient ruin, it will definitely be heartbroken.

They attach great importance to this kind of thing and regard it as a treasure.

I usually use one piece carefully, but Chen Feng actually crushed two pieces at the same time?

It can be said to be a great waste.

However, Chen Feng's doing this is naturally justified.

These twenty life gems were crushed at the same time, and suddenly an extremely fierce and powerful force appeared in Chen Feng's hands.

The incomparable emerald light illuminates the space of 100 meters in an instant.

Even at this time, in the sky, there appeared the great river of power that rushed like a river!

This road is full of emerald green light, full of vitality, full of tyrannical power

In an instant, Chen Feng's physical injuries were all healed.

In the huge wound on his chest and abdomen, there was a strong black force surging in it, trying to stop it.

But, with its little power, how can it be organized?

But in an instant, those black forces were defeated one after another.

Chen Feng's wound was healing at a speed visible to the naked eye.

After the treatment, Chen Feng's injuries that caused him to be seriously injured and dying these days were even a small consumption of 10% of this huge power.

In the next moment, all the remaining power poured into Chen Feng's body and merged into his Dantian.

In the dantian of his meridians, it settled down, and then slowly transformed into Chen Feng's own power.

So Chen Feng's breath is constantly improving.

The power in his body is like that huge wave, constantly impacting the dam of the peak of Emperor Wudi!

Finally, I don't know how long after the dam was hit, a crack appeared on it, and then a big hole appeared.

Then, it started to break!

Finally, with a loud bang, the dam was directly broken!

And Chen Feng's aura, suddenly, he reached the pinnacle of Emperor Wudi!

At this moment, Chen Feng clenched his fists and laughed.

He opened his eyes, and his gaze was full of vigor: "I have now broken through to the peak of the Second Star Martial Emperor!"

He felt the surging power in his body, and sneered:

"Sirius, you must think you know me very well now!"

"Presumably, you already think that you will get all my hole cards open!"

"Presumably, you now think that I am seriously injured and dying, even waiting for death!"

"Hahaha, how can you think that before killing the dead snake, I took him to the settlement of the misty bird and hunted down thousands of misty bird?"

"These hundreds of atomized gems and life gems are my trump card!"

"Not only did my injuries heal all my injuries, but it even allowed me to make a breakthrough in my strength. This is my hole card that you can't imagine!"

Chen Feng took a deep breath and looked into the distance:

"And this is just one of my countless hole cards, it's the shallowest one!"

"I prepared four full hole cards for you!"

"And you ignore my hole cards, then when you face me, you have to pay a heavy price, this price, there is only one end!"

"That is....."

Chen Feng coldly spit out a word: "Dead!"

At this moment, it was millions of miles away, above Sirius Peak.

In that small hall.

At this time, in front of Sirius and Ximen Mountain, there was a small water mirror.

In the water mirror, sparkling and blurry.

However, one can probably see the scene in which Chen Feng killed the ninth temporary member of the Sirius team.

Sirius pressed his hands on the water mirror, and blue light waves continuously flowed out of him, maintaining the water mirror.

Finally, when the picture was frozen when Chen Feng beheaded the ninth Sirius team member!

Sirius snapped his hands, and the water mirror shattered directly.

Then, he leaned back and leaned back, gasping for breath.

His forehead was sweating profusely, and his breath was unstable.

Obviously, for him, maintaining this water mirror that spans tens of millions of miles to spy on other warriors is also extremely expensive.

After a while, he took out a green bamboo tube from behind and opened it.

Suddenly, a strong fragrance came.

He guzzled, took a few sips into the bamboo bucket, and then carefully closed it.

Close your eyes and rest your mind for a while before opening them.

In that gaze, the look was already restored!

Then, a smile was drawn at the corner of his mouth, and he slowly said: "Now, I have a basic understanding of Chen Feng's details."

"Yes, Chen Feng is okay. He actually possesses several powerful weapons that are almost close to the first-grade magic weapon."

"I also have a boxing technique that presses the bottom of the box and a very fast body technique."

"Awesome, it deserves to come from a big family, and sure enough there are many cards."

"However, this should be all his hole cards."

"Everything about him now has been controlled by me, I know it!"

He slowly clenched his fist, as if he was about to squeeze Chen Feng to death, his face showed a strong confidence: "When I face him, I can crush him to death like an ant!"

I have to say that Sirius is really an extremely careful and at the same time an extremely careful person.

Although he thought that Chen Feng was far inferior to himself, he still tried his best to weaken him when facing him.

One of the most important purposes he sent these people was to weaken Chen Feng and bring him back Chen Feng's details.

Therefore, before Chen Feng faced his men, he only used a limited number of hole cards.

Of course, these limited hole cards are also extremely powerful in the eyes of outsiders.

For example, a powerful fist with a force of 12 billion catties!

For example, the Nine Dragon Aotian Sword and Extreme Longyang Sword in the Nine Dragon Sword Pouch.

Therefore, in the eyes of Sirius, this is probably all Chen Feng's hole cards.

However, he did not know that he had far underestimated Chen Feng!

At this moment, even though he had broken through to the peak of Emperor Wudi, Chen Feng still had a feeling of unfulfilled meaning.

He felt that the power in his body was lively like a river rushing and the waves hitting the shore.

This lively force is so powerful that it seems to be breaking out.

He feels that he can still break through!

But Chen Feng knew that he still needed to accumulate.

Breakthrough at this time is bound to be exhausted, and even if you barely break through, the effect is extremely poor.

"It won't be long!"

"I can feel it, it won't be long!"

Chen Feng clenched his fists!
