

## Peerless 3761

### [Chapter 3761: finally reached!](#)

There was a strong unwillingness in Chen Feng's eyes, and a voice in his heart yelled frantically: "I am unwilling! I am unwilling!"

"Seeing it, it's almost here, seeing it, it's just a moment!"

"I am not reconciled. At this time, being caught up by Sirius!"

Suddenly, after turning over the sand dune in front of him, Chen Feng suddenly became enlightened.

The wind in the black desert in front of me seemed to stop.

Everything here has become peaceful and silent.

At the end of his sight, a huge black tower appeared.

This huge black tower has a height of tens of thousands of meters!

At the same time, it is also extremely huge, as if to fill this line of sight.

And if you look carefully, you will find what kind of black tower is here, it is clearly a huge black mound!

It's just that the black soil piles are all condensed from large chunks of black soil.

This black clod, all round, is obviously earthy, but it has a texture of black pebbles, which is extremely strange.

These black things, like rocks and not rocks, or soil and not soil, piled up into this huge black mound.

Vaguely, revealing an indescribable weirdness and majesty.

After seeing the black mound, Chen Feng almost burst into tears at this moment, almost crying with excitement.

"Here, finally here!"

"My destination has finally arrived!"

It turned out that this was actually Chen Feng's destination!

Chen Feng continued to run forward.

And just when he reached about five hundred miles outside the huge black tower in front, when Chen Feng just entered this range, suddenly, on the huge black tower in front, black light seemed to flash past. !

The next moment, there was a sudden force of extreme coercion!

This extremely tyrannical coercion, domineering and fierce, is obviously mental power, but the tyrannical one is almost solidified!

Just like the will of a surviving wild giant hand, he pressed down fiercely towards Chen Feng!

Chen Feng only felt that in his mind, he buzzed, and the whole person seemed to be confused!

At this moment, blood was flowing out of all his seven orifices!

Chen Feng felt that his soul was about to be destroyed, and he would be crushed alive by this coercion!

This coercion contained great anger, murder, and contempt!*noVeloUSB.com*

It's like being a higher creature, suppressing the instinct of a lower creature who dares to offend his territory!

In Chen Feng's heart, there was a very dangerous and fearful emotion for no reason.

This is not Chen Feng wanting to produce such emotions, but an instinctive reaction!

For dangerous places, instinctive resistance!

Chen Feng was about to be held back by this emotion.

But at this moment, suddenly, in his mind, a gentle golden light flashed suddenly.

The consciousness that directly smashed into Chen Feng's mind was shattered!

Chen Feng returned to normal in an instant, looking far away, his eyes flickering: "It really is here!"

"Yes, this is my destination!"

He didn't hesitate, he simply ignored the coercion emanating from the huge black tower, and he entered the range of five hundred miles!

Then, he ran towards the huge black tower.

And the will in the black giant tower was obviously stunned for a while, as if he didn't expect that this humble human being under his own will would not be destroyed or become an idiot.

Instead, he still rushed towards this side!

In an instant, he exudes an instantaneous emotion called rage!

And he was about to deal with Chen Feng, when suddenly, the whole emotion was taken away, and he was heading into the distance!

It turned out that in the distant horizon, the figure of Sirius had already appeared.

As a result, the will in the huge black tower immediately focused all its attention on Sirius.

After all, compared to Chen Feng, Sirius poses a much greater threat to him.

When the wolf saw the huge black tower not far in front, he took a breath and let out an incredulous scream:

"Why did Chen Feng, a dog, come here because of a mistake?"

He took a deep breath, and uttered a word in a groaning tone: "This is the tribe of the Purgatory Fire Ants!"

There was a sense of horror in his eyes: "I have long heard of the name of Purgatory Fire Ant, but I have never dealt with them."

"Unexpectedly, I ran into it here today!"

"Chen Feng unexpectedly ran here? He unexpectedly ran towards the residence of the Purgatory Fire Ant?"

"He's going to die! He won't be dead!"

He yelled at Chen Feng frantically: "Chen Feng, are you looking for death?"

"The Purgatory Fire Ants in front are enough to tear you to pieces!"

"They can even swallow your soul!"

At this time, Chen Feng turned his head back!

The expression on his face was clear and relaxed just now, and all the calculations on his face had disappeared.

Instead, it deliberately pretended to be a kind of madness, a kind of madness that was forced to the extreme, like a desperate dog jumping over a wall!

He shouted at Sirius: "What can I do?"

"It's better to be killed by them than to be caught by you!"

"Anyway, it's a death, and I won't make you cheaper if I die!"

After all, turning around is going forward again!

When Sirius heard what Chen Feng said, he couldn't help but stop: "Yes, anyway, it's all dead. Change me, I will also break!"

And what Chen Feng said just now also dispelled the slightest change in his heart.

He was still thinking: "Did Chen Feng deliberately lead me here, or was he desperate and came here by accident?"

But Chen Feng's performance just now convinced him that Chen Feng came here by accident!

He weighed it quickly in his mind, and then immediately made a decision and moved forward quickly.

It was in hot pursuit!

And when he just entered the five-hundred-mile range, he was also severely hit by the huge consciousness under the huge black tower!

This mental attack directly made his mind dizzy, and a mouthful of blood spurted out.

But after all, he relied on mental power to eat, so he was not affected much, just swayed.

It turned out that at that moment, Sirius already wanted to understand.

"Anyway, I am determined to win Chen Feng, and although these purgatory fire ants are very strong, they may not be able to kill me easily!"

"In this case, there is still a chance to give it a try!"

"Even if you can't, you can \*\*\*\* Chen Feng out of the tiger's mouth, but kill him with your own hands, vent your hatred, and then run away, it's okay!"

#### [Chapter 3762: Purgatory Fire Ant!](#)

Chen Feng keeps going!

After moving forward for a while, I immediately felt that a huge consciousness had already shrouded myself in silence.

This consciousness is clearly mental power.

However, after shrouding yourself, it is like a real thing, making yourself feel like you are in a mire!

However, Chen Feng was not surprised and rejoiced, instead, a smile appeared at the corner of his mouth: "Sure enough, it is their settlement, and there really is an extremely terrifying existence here!"

"Sure enough, it's no difference from what the information shows."

"These beasts not only have extremely powerful bodies and extremely hard carapace, but their mental power is also very powerful!"

"No, to be precise, it should be said that these ordinary Purgatory Fire Ants do not have any mental power."

"However, their purgatory queen ant has terrifying mental power!"

"That is the spiritual power of the Purgatory Fire God Ants who have gathered hundreds of thousands, and the level has reached one-star Demon Emperor or higher, and formed a huge spiritual network!"

Chen Feng felt that this strong spiritual force had almost turned into substance, just like rosin.

I'm trapped inside, it's so sticky that I can't move anything.

He even felt that if this continued for a few minutes, he was afraid that he would soon become a bug wrapped in pine resin.

I don't know how many tens of thousands of years will be discovered before anyone, but at that time, the vitality has been completely cut off.

At this time, Chen Feng roared crazy!

His eyes were wide open, bloodshot in his eyes, and his arms shook hard!

Suddenly, all the wounds on his body burst open!

And in his mind, that spiritual power, that golden spiritual power, there was a loud bang, rippling with countless golden ripples, and spreading fiercely around!

This golden ripple rippled out, and after a moment, Chen Feng clearly heard it, as if there was an extremely sharp scream in this space!

It was like an instinctive scream from a woman who had been pierced by a needle.

And Chen Feng immediately felt that the pressure around him shrank like a tide.

In an instant, there was nothing around the body.

A smile appeared at the corner of Chen Feng's mouth: "I know you exist, very scary and very powerful."

"However, your mental power is after all covering a radius of five hundred miles!"

"And I just shape my mental power into a needle!"

"So, even if the difference in mental power between you and mine is extremely large, when the difference is huge, I really can't compete with you at all."

"However, I condensed all my mental power to one point and pierced it hard, which is enough to make you feel heartbroken!"

"Moreover, you should be spreading out your mental power now. When these mental powers are spread out, your reaction will be slow!"

"These mental powers are more like operating by instinct."

"After suffering, instinct shrinks."

"So now I can rush forward!"

The next moment, Chen Feng's figure rushed forward!

In an instant, he came to a place only three hundred miles away from the huge black tower. *NOVELUS&.com*

The desert here has turned into a fiery red color, a fiery red color, and there are countless huge lines on it.

It is like a huge formation.

These lines are full of weird and vital feelings, and they seem to be moving around, as if there are blood vessels underneath.

Some ground is cracked, and there is a faint red light shining inside.

It seems that there are countless volcanoes, below, it seems to burst at any time!

When he reached the top of the sand dune in front, Chen Feng sighed slightly and stopped abruptly.

At this time, what appeared in front of him was a huge and spectacular fire-red Gobi.

This is no longer a desert, but a Gobi, with rough and huge sands everywhere.

On the Gobi, there are countless huge cacti-like things growing.

It's just that it's huge and it's too much.

Each of these cacti has a height of tens of thousands of meters.

And their surface is not green, but red.

There are huge long thorns that are hundreds of meters long, and many berries grow between the branches.

These berries are full of emerald green color, full, full of soft green light.

It looks so cute.

There is an extremely strong vitality inside, and a faint fragrance floats over.

Even after a few hundred miles, Chen Feng could smell it real.

At this moment, on the ground in front, there was a squeaky voice suddenly, like something rubbing on the ground.

After a while, behind a stone mountain in front, several huge figures appeared.

Each of these figures is several hundred meters in size, and the whole body is shining with a dark, but steady and solid red light.

They turned over from the top of the sandy mountain in front, and stood on the sandy mountain, staring at Chen Feng coldly with their multiple eyes, a cold and cruel light gleaming inside!

This is actually a few monsters!

And the appearance of these monsters is very much like the ants on the dragon vein continent.

It's just how many times bigger than those ants don't know!

Chen Feng let out a groaning sigh: "This is the Purgatory Fire Ant! Moreover, it is the lowest level Purgatory Fire Ant."

That's right, in front of Chen Feng at this time, these ants that were huge like a hill, resembling ants magnified hundreds of millions and billions of times, were Purgatory Fire Ants.

Each of these purgatory fire ants is 500 meters in length.

The height is more than 200 meters.

They were covered in red all over.

Not the bright red, but the red with a hint of black in it, like half-solidified lava.

Their surface is covered with a heavy and hard carapace, with a faint red light.

And Chen Feng knew how thick and hard these carapaces were.

According to Lei's news, the thickness of the carapace of these ordinary Purgatory Fire Ants even reached up to 50 meters.

The hardness of these shells surpasses most metals currently known.

The grade of this carapace is even higher than that of the Dragon Vein Continent, and is even rated as a nine-grade orange material.

This ninth rank orange material is equivalent to the rank of the rank nine emperor's soldiers!

It was only one step away from the magic weapon level material.

This shows that it is hard!

And in front of their bodies, there is a huge head.

Two-thirds of his head is occupied by a huge mouth.

Jukou's constant opening and closing of works can open to a terrifying angle.

And their teeth are extremely sharp, extremely hard, and also gleaming with golden red light, and from time to time, powerful flames and corrosive power flash across them.

[Chapter 3763: Sirius, do you dare to come!](#)

On both sides of their heads, there were two large pliers, each of which was a full 100 meters in length, which opened and closed continuously.

These pliers and their huge mouths are enough for them to easily crush and cut the hellfire spar buried under the desert, and then transport them to the black giant tower for the superiors in their race to enjoy and absorb!

That's right, these huge purgatory fire ants are actually slaves in this race.

They only do these rough jobs.

But even so, their realm has reached a one-star monster emperor, equivalent to a human two-star martial emperor!

It stands to reason that this is just three ordinary one-star demon emperors, and Chen Feng would not care at all.

An ordinary one-star demon emperor, he waved his hand and was crushed to death.

But at this time Chen Feng did not dare to act rashly.

Because after seeing the situation clearly, he suddenly took a breath!

The pupils shrank and a shocking expression appeared on his face!

Because these three Purgatory Fire Ants are just the first three.

And after these three Purgatory Fire Ants, there is a mighty and mighty Purgatory Fire Ants.

Chen Feng glanced at it, and then he counted, this number is at least three thousand!

More than three thousand two-star Wudi!

What is this concept?

These purgatory fire \*\*\*\* ants are vast and mighty, like a red carpet, spread out on the land in front of them for hundreds of miles.

From a distance, it looked more like a red ocean, rolling towards Chen Feng.

It seems slow, but it is extremely fast.

In the next moment, Chen Feng is almost about to be submerged alive by this torrent of lava!

At this moment, if you look down from the sky, you will find that Chen Feng's small white spot stands on the sand dune.

Opposite him, under the sand dunes, on the big desert, countless red purgatory fire ants can already make a lava river.

Toward Chen Feng, billowing!

The volume of this lava river is more than tens of millions of times that of Chen Feng?

It seemed that the little white figure of Chen Feng was standing there, as weak as a man's arm as a car.

But at this time, Chen Feng slowly straightened his body.

There is wind.

Blowing the skirt of his clothes, brushing away his long hair, revealing the blood-stained face.

Those eyes, Can Ruo Chenxing, were full of incomparable determination.

He stood there, his lips pursed lightly, and the lines on his face were as hard as a knife and an axe!

He stood there, looking at the purgatory fire ants quietly.

No movement, no retreat, and no fear at all.

At this moment, Chen Feng turned his head back and stared at Sirius!

At this time, Sirius was ten thousand meters behind Chen Feng. [novelusb.com](http://novelusb.com)

At this time, he also saw the torrent of the Purgatory Fire God Ants, even if it was Sirius, he sucked in cold air, and there was a look of fear in his eyes.

The body shook, and my heart was terrified!

He gritted his teeth and whispered: "These beasts are really not easy to provoke!"

These purgatory fire ants, their carapace is extremely hard, their defense is extremely strong, and their speed is also very fast. The huge mouth and two large pliers can easily crush the ordinary two-star Wudi!

But the most terrifying thing about them is not these, or their slowness, but in fact they are extremely fast, coming and going like wind.

After all, such characteristics may be able to make those two-star Wudi and three-star Wudi afraid.

But once the level reaches the five-star Wudi, they can still be killed easily.

The most terrifying thing about them is that on the barren ancient ruins, even the five-star Wudi, the six-star Wudi, even the powerhouses of the level of Sirius, are extremely afraid:

That is, their number!

This black tower is a tribe of purgatory fire ants.

And in a tribe of Purgatory Fire Ants, the number of Purgatory Fire Ants is at least five thousand!

Five thousand, what a terrible number this is?

Five heads and one star demon emperor is nothing, fifty heads is nothing, but when it reaches five thousand heads, the ocean of countless purgatory fire \*\*\*\* ants is enough to swallow any enemy!

Kill one, come two!

Kill ten, come twenty!

Even if one hundred and two hundred can be killed, there are one thousand and two thousand behind!

Judging from the amount of this horror, that is the most terrifying point of this purgatory fire ant!

It is also the most fundamental reason why they are rampant and domineering in this desolate ancient ruin, and no one dares to provoke them for a while!

Therefore, the Purgatory Fire Ants can become one of the most powerful ancient beasts in this barren ancient ruin, occupying the site of the Yanyang Desert, and no one dares to provoke!

Faced with so many purgatory fire ants, Sirius knew that once he fell into their encirclement and fell into this ocean, then it is estimated that the end would be a life of nine deaths!

He was hesitant there, not knowing what to do.

At this moment, he saw Chen Feng turn his head, and saw Chen Feng look at him!

What kind of look is that!

In the pupils, it is as if flames are burning, as deep as the nine hells!

Sirius couldn't help but shudder!

Chen Feng stared at Sirius and shouted loudly, "Sirius, are you coming or not?"

"I, Chen Feng, stand here!"

"What the \*\*\*\* do you dare to come?"

"If you don't come, then, after they tore me to pieces, my secrets, my treasures. But I will be silent forever under this desert!"

"When the time comes, naturally the purgatory queen will have it!"

"You can do it, never imagine it again!"

With a slight smile on the corner of Chen Feng's mouth, he looked at Sirius.

After hearing what Chen Feng said, Sirius couldn't help but his heart tightened, staring at him, and said in a cold voice, "Chen Feng, don't think I don't know!"

"You want me to pass, isn't it just to calculate me?"

"Yes!"

Chen Feng laughed loudly: "I'm just calculating you, and I've made it clear to calculate you!"

"This is my conspiracy, do you have the courage to come?"

"Ni, are you reluctant to let the treasures and secrets on my body flow away in front of you?"

"If you are not willing, come and save me!"

"And I will drag you to die with these purgatory fire ants!"

"If you are willing, okay! Then I, Chen Feng, will die by myself!"

"And you will get nothing!"

Chen Feng stared at him, tapped his finger at him, and said word by word: "Fetching water in a bamboo basket will be empty!"

Sirius' face twitched instantly!

That's right, Chen Feng's actions at this time are arrogant!

This is an upright and open plan!

Chen Feng didn't play yin with him, and didn't tell him anything else, just here, put the facts before him!

[Chapter 3764: Disappeared?](#)

Just tell him plainly: "Sirius, if you want to be willing to those secrets, then I will die by myself!"

"If you are reluctant, then you come and I will drag you to die together!"

In this case, we must consider the strength and courage of Sirius!

Sirius stared at him, panting hard, like an angry bull.

At this moment, Chen Feng stood there in time and flicked his fingers.

Then, without looking back, he pointed to the mighty torrent of Purgatory Fire Ants behind him:

"As a reminder, you have up to five breaths to make a decision."

"Otherwise, after five breaths, they will come behind me and tear me apart!"

After all, Chen Feng stretched out five fingers.

Sirius trembled violently all over, yelling loudly, and his eyes showed an angry look.

He never thought that he would fall into such a situation!

He originally chased him, but at this moment, Chen Feng held the initiative completely.

At this time, he was in a panic, and he was completely playing around between applause!

Chen Feng ignored his yelling and cursing at all, just smiled, bent a finger, and slowly said, "Four!"

Sirius stared at Chen Feng fiercely!

At this moment, behind Chen Feng, the heads of the Purgatory Fire God Ants had already emerged.

They still have four breaths, and they can tear Chen Feng into pieces!

Chen Feng is forcing him!

It's just to see if he can let go, can he overcome his greed!

The corners of Chen Feng's mouth curled up: "Three!"

There are only three of his vertical fingers left.

Before Sirius hesitated, another breathing time passed.

And finally, when Chen Feng was about to yell the 'two', Sirius' eyes showed a madness and let out a violent roar:

"I don't care about it! I want to bet this one!"

After all, rushed towards Chen Feng frantically!

Seeing that the distance of 10,000 meters can be rushed past!

At this moment, when he rushed over, Chen Feng laughed loudly!

His heart is full of pleasure, full of confidence that counts as an exhaustive plan!

Even if Chen Feng arrived long ago, Sirius will definitely come, and Sirius must be reluctant to bear it!

Because Chen Feng had long judged that Sirius had too few adventures in his early years, and he really had no trump cards or treasures.

Therefore, while he was jealous of himself, he was also extremely envious of these treasures on his body.

He must not be able to defeat his greed, he will definitely come!

Moreover, he paid such a high price in the process of hunting down Chen Feng.

How can you give up at this time?

Sure enough, Chen Feng didn't make a mistake!

Chen Feng stood there with a small smile on the corner of his mouth, watching Sirius approach frantically.

In an instant, it was only a short walk from Chen Feng!

He stared at Chen Feng, and the smile at the corner of Chen Feng's mouth made him feel like a needle pricked into his eyes!

It made him feel like slapped on his face one by one!

He knew very well that he had already lost his face today.

Originally, he was chasing and killing Chen Feng, but he was played between the palms of his hands by Chen Feng, and Chen Feng forced him to face danger in person!

He gritted his teeth and stared at Chen Feng, yelling ferociously: "Little boy, tell you!"

"Don't you just want to drag me to die together?"

"I am a dignified five-star martial emperor, how can I die so easily?"

"Tell you, I still have no cards to use out!"

"I hold my hole card, after I use it, it will be enough to catch you, and then kill you from here!"

"When the time comes, let me see how I can fix you! I want your soul to cry day after day in purgatory, and suffer all the torture. It will not be free for thousands of years!"

His eyes were extremely bitter.

But at this time, Chen Feng shivered violently, and said in a trembled, "Oh, I'm so scared!"

Then there was laughter.

Although Chen Feng was talking about fear, did he have any fear on his face?

On the contrary, his eyes were full of confidence and indifference, as well as a hint of cunning.

"Cunning? How could he have such emotions?"

After seeing this expression on him, in an instant, a touch of badness flashed in Sirius' heart!

Suddenly, that bad premonition was frantically climbing, occupying his thoughts!

There was chaos in his mind, and only one voice was exploding: "No! Something is wrong!"

"How could this be?"

And just when he was about to react, Chen Feng suddenly smiled.

Looking at him, he said with a low smile: "Sorry, I can't do what you want!"

At the same time, his last finger was also bent down!

Those purgatory fire \*\*\*\* ants have already arrived!

In front of Chen Feng's eyes!

Also here, in front of Sirius!

In the next instant, two things appeared in Chen Feng's hands.

In the left hand is a cyan transparent crystal bottle.

In the crystal bottle, it was full of cyan liquid.

This cyan liquid is viscous and full of elasticity.

It doesn't look like a liquid, but rather like a solid gel.

And his right hand is a gauze that is as thin as a cicada's wings.

This thin gauze, like a cicada's wings, seemed to exist and not exist, if looming, as if it existed there, but as if it were in another dimension.

At this time, Sirius was only three hundred meters away from Chen Feng, and after one breath, he could arrive!

And the Purgatory Fire Ants behind him are only three hundred meters away from Chen Feng!

It's just around the corner!

Looking at it, Chen Feng would be blasted to pieces by these two forces at zero point and one instant!**NOVELSb.COM**

But at this moment!

With a crisp sound, Chen Feng raised his left hand and crushed the crystal bottle.

Suddenly, the cyan liquid dripped onto Chen Feng's body and covered his entire face.

In an instant, he dyed him a blue!

An unspeakable pungent smell appeared in the air!

This pungent smell made people smell, and I couldn't help but burst into tears, which was extremely uncomfortable.

But at this time, lingering at the tip of Chen Feng's nose, it was as sweet as that Qiongzhilyulu!

Because, as soon as this smell appeared, suddenly, those purgatory fire ants were messed up!

They looked around and looked around, squeaking and screaming in panic, full of panic.

It's like losing a goal all at once!

Because at this time, in their sight, in their perception, the enemy in front of them, the young man in white, the object they were going to kill, the \*\*\*\* little bug that broke into here suddenly Disappeared!

No more!

It just disappeared!

So, in the next moment, they turned their attention to another target!

### [Chapter 3765: Sirius, goodbye!](#)

It was transferred to the Sirius who had come to kill aggressively!

Chen Feng was their first goal, and Sirius was their second goal.

Now that Chen Feng has disappeared, Sirius has naturally become their first choice!

So, in the next moment, they made crazy squeaks again, and slammed into Sirius!

Sirius was stunned at this time, stupid!

He yelled in disbelief: "What's the matter? What's the matter?"

He could see Chen Feng, he could see the cyan juice all over his body, and he could also see Chen Feng standing there!

He could also feel that Chen Feng was indeed there!

However, he found that it seemed that the Purgatory Fire Ants couldn't perceive Chen Feng!

And they actually killed them for themselves!

He panicked instantly, wondering what happened.

At this moment, Chen Feng looked at him, waved his hand with a smile, and said, "Sirius, goodbye!"

The next moment, in his right hand, that thin as Zen wing, seemingly non-existent gauze, was suddenly draped by Chen Feng.

Then the next moment, a scene that Sirius could not believe appeared!

He saw that Chen Feng seemed to disappear in front of him out of thin air!

Gone!

There is no one, there is nothing, nothing!

In the next moment, he hit with a big punch and landed where Chen Feng was just now!

His instinctive hands waved forward, however, nothing was touched!

Gone!

Nothing!

Here, this space is already empty!

"What's the matter? What's the matter?"

Sirius muttered to himself, the whole person was stupid.

Suddenly, he had a nervous breakdown, let out a crazy roar, and slammed his fists on the ground:

"What's the matter? What the \*\*\*\* is going on!"

"Where's that \*\*\*\* Chen Feng? Why is it gone? Why has it disappeared?"

He was almost nervous!

I originally thought that I would win a situation, I originally thought that as long as I could capture Chen Feng and activate his hole cards, I could easily leave the situation here!

As a result, now, the situation is completely out of control!

Out of control!

Now, the Purgatory Fire Ant seems to be unable to perceive Chen Feng, and now, not only can he not see Chen Feng, he also cannot perceive Chen Feng!

Chen Feng's figure has disappeared, but a single sentence was dropped leisurely: "Sirius, enjoy it!"

Sirius heard this sentence very clearly.

In fact, this sentence is like a thunder, lingering in his ears.

"Sirius, enjoy it... enjoy it..."

He couldn't believe it, and stood there blankly, almost stupid.

All this happened, he almost collapsed.

However, he didn't have much time to spend in a daze here.

Because at this time, those purgatory fire \*\*\*\* ants have already been killed fiercely.

The few Purgatory Fire Ants in front had already opened their huge mouths, waved their giant tongs, and slew them towards him!

A sharp pain came from his body, causing Sirius to wake up suddenly.

At this moment, he saw that the huge pliers of a purgatory fire \*\*\*\* ant was already clamped on his body, and blood was already flowing out of the surface of his body.

The sharpness of the pliers can be seen from this.

Sirius roared frantically: "Get out of my way!"

Hit hard with a punch!

With a bang, it hit the body of the purgatory fire \*\*\*\* ant!

A force of strength spread all over its body instantly.

This purgatory fire \*\*\*\* ant sifted violently, and suddenly, red blood spurted wildly at the joints of the body!*NOVELUSB.com*

The light in his eyes dimmed instantly.

It hit the ground with a bang, and was actually killed by Sirius with this punch!

This purgatory fire \*\*\*\* ant was easily killed by Sirius.

However, the remaining Purgatory Fire God Ants didn't seem to have seen them at all, without any emotional fluctuations, and killed them all over the sky.

They don't care about the death of their companions at all.

At this time, their goal is only one, that is: to kill Sirius!

Sirius roared frantically and punched out one after another.

Every time he punches, he can almost take away the lives of several Purgatory Fire Ants.

These existed like nightmares in the eyes of ordinary warriors, but in the hands of Sirius, they could be slaughtered at will.

In a blink of an eye, the dozens of purgatory fire ants around Sirius had all been beheaded by Sirius.

But in an instant, the other Purgatory Fire Ants filled the gap again!

The Sirius offensive is deadly to these purgatory fire ants, but their numbers are too much!

Defeating death, fighting frantically, even if it is Sirius, it is instantly caught in a hard fight!

What Sirius didn't know was that at this time, Chen Feng was watching him quietly.

At this time, Chen Feng was in a very strange state.

In fact, even though Sirius could not see Chen Feng at this time, he could not touch Chen Fengfeng, and he didn't know where Chen Feng was, but Chen Feng was standing five feet beside him.

He stood there, quietly watching Sirius fighting with those purgatory fire ants there.

However, his figure is faint and faint, looming.

It's as if it exists in this space, but drifts outside of this space.

Suddenly, Chen Feng's figure surged.

It turned out that a purgatory fire \*\*\*\* ant passed through his body, but his figure did not dissipate, but waved like a water wave.

Then, it returned to normal.

At this time, Chen Feng looked down.

Of course, he just felt, just made such an action in his consciousness.

In fact, he has no way to do this action now, nor is he able to determine whether he has done it or not.

Because even he can't perceive his body at all.

But Chen Feng thought that he should have done the action of bowing his head because he saw his hands and legs.

At this moment, there are countless lines on his hands and legs.

These lines are neither black nor white, they are just gray.

Chen Feng is very familiar. Every time he travels through time and space, he has seen these lines that represent the origin of time and space!

Chen Feng whispered softly in his heart: "It turns out that it turned out to be like this after putting on this virgin and comfortable yarn."

"Unexpectedly, I can't be seen at all and I can't be perceived at all."

"Because I am, in fact, no longer exist in this world, and I have entered another dimension!"

Then, he raised his head and looked far away with a smile.

Then, that smile turned into a cheerful laugh.

Of course, Chen Feng could not hear this laughter, nor could anyone hear it.

But Chen Feng knew that he did laugh.

#### [Chapter 3766: Hidden secret](#)

The smile was extremely happy.

"All of this is as I expected! The score is not bad!"

"Lei family, I really have to thank you very much!"

At this time, Chen Feng came to a moment of free time, and he just sat there, his whole body relaxed.

He sat down slowly, leaning against a large rock.

Although he could not feel the presence of the body, Chen Feng's heart became very relaxed.

The battlefield of killing, although it was right next to him, could not affect him at all.

This relaxation even made him feel like he was going to fall asleep. After all, he has been chased and killed by Sirius in the past few days. It is really too hard, and the life is really too difficult, and his heart is always tight. Strained.

And now, you can even relax a little bit.

As a result, Chen Feng now has leisurely recalling what happened in the past few days.

Especially when recalling that day, when he opened the scroll of Lei's family, there were various details in it!

Time pushes forward one day.

That was just before Chen Feng met Sirius yesterday.

Chen Feng got a lot of information about the fallen Thor's hammer from the scroll, and then Chen Feng continued to turn the scroll back.

Soon, the scroll reached its end, and there was nothing else left.

The writing after Chen Feng had read it slowly disappeared and transpired.

At this time, there was already a blank above the piece of silk.

Even if someone later obtains this scroll, it is impossible to get any news about the Fallen Thor's Hammer.

"It seems that this is it, this is the news."

Chen Feng sighed softly.

On the scroll, the recorded information is very complete, almost clearly explaining the characteristics, strength, number, attack method, etc. of the purgatory fire ant.

Even the fragments of the fallen Thor warhammer, which Purgatory Fire God Ant tribe they are in, and their location are clearly written.

This information is already enough.

Chen Feng wanted to roll up the scroll and carefully put it away.

Although the writing above has disappeared, Chen Feng knew that the materials of these two items were extremely special, and they were also treasures.

There is no harm in keeping it.

And when he rolled up the scroll, there was always a vague anxiety in his heart, feeling that he seemed to be missing something.

Finally, when the scroll was rolled up by him, the anxiety in Chen Feng's heart suddenly reached its extreme.

Suddenly, his mind flashed, and he suddenly thought of what he had forgotten!

Chen Feng clapped his hands and yelled out: "I know what I missed!"

"The strength of Lei Xinglan is far inferior to me."

"And the purgatory fire \*\*\*\* ant tribe where this treasure is located has such a high level and such a strong strength, let alone me, even if it is a Sirius, I am afraid that I will not dare to force it."

"So, what on earth does Lei Xinglan rely on to be able to enter it?"

"Is it a secret passed down from their Lei family?"

He frowned, and then he said flatly to himself: "Impossible, it can't be any secret left by his Lei family!"

"His Lei Family, even if they are reluctantly, can have a little relationship with the Thunder God of the past, it is impossible to have any relationship with the existence that besieged the Thunder God."

"The inexplicable link between him and Thor, maybe, not only is it impossible for him to enter it safely, but it is very likely that he will be discovered by these purgatory fire ants more quickly!"

"Then, he must have another dependency!"

"And this reliance cannot be passed down from the Lei family."

"Only possible, it is the ancestors of the Lei family who have been in and out of the deserted ancient ruins countless times over the years, collecting countless news, and finally giving him the support!"

"So, what exactly is this dependence?"

"I have searched Lei Xinglan's body up and down just now, and I haven't got anything. Where will it be?"

Chen Feng tightened his brows, and the scroll in his hand hit the ground unconsciously.

After pondering for a long time, I didn't think of a reason.

His eyes flicked around several times, and finally, when he fell on one of the points, his eyes flashed, and his eyes were fixed there all of a sudden!

Settling there, he was holding it in his hand, unconsciously knocking on the scroll on the ground!

Chen Feng laughed loudly: "Chen Feng, Chen Feng, why are you so stupid? The typical dark under the lights!"

"This thing is in sight!"

No wonder Chen Feng would not pay attention to this thing.

In fact, he had already thought about what might be hidden in this scroll.

So, when I got this scroll at the beginning, I checked it carefully.

However, no space power was found on this scroll.

This means that there is nothing stored in this scroll like a golden silk kit or space ring.

Therefore, Chen Feng put down his guard and relaxed his vigilance.

Because generally speaking, there is no fluctuation of spatial force in this thing, which means that there is no hidden golden thread in this scroll.

Without the golden thread kit, it is naturally impossible to store other things!

"It's so logically speaking, it's not unexpected, but..."

Chen Feng's eyes were bright and his voice was leisurely: "What if there is an accident?"

After all, he put the scroll to his ear and tapped the scroll lightly.

Then, I felt it carefully for a moment.

Then a smile overflowed from the corner of his mouth, and he sighed softly: "Lei family, Lei family, you guys are really smart enough to come up with such a trick."

"good job!"

"Don't say this, if you are an ordinary person who is looking for the ordinary and has just become a martial artist, you may not be able to hide it from him."

"However, for those of us who are extremely high-level Martial Emperor Realm experts, it is really possible to hide it!"

"Because we are accustomed to prying into the power of space, without fluctuations in the power of space, we will think that there is no abnormality."

"And ordinary warriors, they don't even know the power of space, so they might find the real secret hidden in this scroll!"

At the next moment, Chen Feng snapped the scroll directly.

A treasure was directly broken by him, but Chen Feng did not have any emotional fluctuations on his face.

As the scroll was broken, with a snap, something fell out from the inside.

Chen Feng reached out and caught it.

It was discovered that this was actually a small bottle.

It is only about the thickness of a thumb, and the length is about three inches. It looks quite small, and it is carved out of crystal.

And in that bottle was a cyan viscous liquid.

Chen Feng tilted the bottle a bit, and only after the liquid was quiet for a long time did it return to a flat surface from the tilt.

#### [Chapter 3767: Two treasures!](#)

Obviously, it's extremely viscous, almost solid!

The bottle was obviously tightly closed, and Chen Feng didn't know what was inside.

He just looked at the section of the broken scroll.

It was empty and there was nothing else.

Chen Feng just nodded, and then took the silk scroll with the writing on the scroll and fumbled it inch by inch.

Suddenly, the corner of his mouth hooked, and then his hands tore!

With a sneer, the scroll was directly torn in half by him.

A thing flew out from inside.

This thing gleamed with silver-white light in the sun.

But suddenly, the silver-white light disappeared, as if even this thing disappeared.

Before Chen Feng had time to be surprised, this thing appeared again, and the silver-white light also appeared.

Chen Feng stretched out his hand and held it in his hand.

This is like a piece of veil, about six feet long and three feet wide.

The whole body is silvery white, cold and soft to the touch, and I don't know what treasure it is.

It's just looming, appearing here for a while, and then disappearing into another space for a while, giving people a very mysterious feeling.

But the strong and extreme spatial force fluctuations above told Chen Feng that this was a treasure.

Chen Feng sighed lightly, with a look of horror on his face: "The fluctuation of the spatial force on this thing is extremely rare."

"I have seen so many treasures, I have never seen such a strong one."

It turned out that the Lei family did not hide any space rings, gold thread kits and the like in this scroll. They just hid these two items into the scroll itself.

So, it is really hard to find.

Especially difficult to find by high-level warriors who have been accustomed to fluctuations in the power of space.

Then, Chen Feng looked for it carefully.

Then, he found some writing from the inner layer of the silk that he had torn apart.

And these handwritings turned out to be an introduction to these two things.

After reading it, Chen Feng sighed.

Then he laughed loudly, extremely happy!

"Lei Xinglan, Lei Xinglan, I finally know how you are going to get into that extremely dangerous place!"

"That's it, that's it!"

It turned out that these two things.

Among them, the cyan liquid is called lava thunderfire bile.

And the other one is called Qingxu free yarn.

Qingxu free yarn, speaking of it, is a thing of great origin, and it is the only thing that Thunder God gave to the ancestors of the Lei family.**noVELuSB.COM**

What kind of character is Thor?

Even the powerhouse beyond the realm of Emperor Wu was terrifying unimaginable.

The things he gave, don't need to think about how precious it is!

And the function of this treasure is that within an hour after using it, no Seven-Star Martial Emperor and human martial artist below the Seven-Star Martial Emperor realm will be able to discover the user's whereabouts!

This effect can be said to be against the sky!

Of course, such a heavenly treasure is naturally limited.

This clear and comfortable yarn can only be used once!

After one time, it will completely become nothingness!

But even so, Chen Feng estimated that the level of this virgin yarn was at least equivalent to a third-grade magic weapon!

Moreover, it is a third-grade magic weapon that can be consumed at once!

One can imagine how precious it is!

When Chen Feng held it in his hand, he sighed a little: "A treasure that is equivalent to the rank of the third rank \*\*\*\* soldier, once used, will be gone."

He felt distressed.

This treasure, he originally gave himself this loyal guard to save his life in times of danger.

Unexpectedly, the ancestors of the Lei family would be useless to death.

As a result, this treasure has been passed down from generation to generation in Lei's family.

The Lei family regarded it as a treasure, and this was indeed a treasure. The Lei family did not dare to let people know the existence of this thing, and even reluctant to use it.

But this time, they thought it was time to use this thing.

Anyway, as long as the fragments of the artifact are obtained, and the clues to find the artifact are obtained, the Lei Family can stand on the top of the Dragon Vein Continent.

It is worth paying all the price!

And that lava thunderfire bile, to put it plainly, is actually the bile essence of the purgatory fire \*\*\*\* ant.

However, it is not the ordinary purgatory fire ant, but the bile essence of the lava flying ant, which is quite high in the purgatory fire ant family!

The bottle in Chen Feng's hand is even more rare.

Because its source is extremely special, it is unique in the entire Purgatory Fire God Ant Clan, and its preciousness is even comparable to the Purgatory Queen Ant's bile.

It turns out that these purgatory fire \*\*\*\* ants are extremely hierarchical among the tribe.

It is roughly divided into four levels.

At the bottom are these huge purgatory fire ants, whose bodies are like magma.

In each big tribe, the number of these ordinary purgatory fire \*\*\*\* ants is about five thousand.

In fact, to put it plainly, they are slaves in the tribe.

They are the lowest level, and what they do daily is to mine crystals underground in this large desert, graze huge cacti, collect the fruits on the cacti, feed the fiend queen, and do some chores.

They are not specifically for fighters at all.

The real warrior is called a violent soldier ant.

Above the purgatory fire \*\*\*\* ants, the number is quite rare, only about three to four hundred.

These violent ant soldiers are actually the main combat force.

The level of each head has reached the two-star monster emperor, that is to say, the three-star martial emperor equivalent to a human.

But because they take both offense and defense into consideration, they are extremely fast, and they have the ability to sneak underground.

Therefore, their strength has actually reached the peak of the three-star Wudi.

Further up, there are lava flying ants.

These lava flying ants are even rarer.

They, like the generals in this group, command these purgatory fire ants and violent ants.

There are only a few dozen lava flying ants in each tribe.

But each one was a three-star monster emperor, a four-star martial emperor level powerhouse comparable to a dead snake.

And the one standing at the top is of course the purgatory queen!

The purgatory queen ant, in a large tribe, there is only one!

Its strength is unfathomable!

And about ten thousand years ago, an outlier appeared among the Purgatory Fire God Ants among the deserted ancient ruins.

This alien is an extremely powerful lava flying ant.

It stands to reason that although the lava flying ants are powerful, they are second only to the purgatory ants in this purgatory fire \*\*\*\* ant population, but in fact, they have nothing to do with the most common purgatory fire ants behind the purgatory ants. The difference.

In the future, they are all their own people, even their own children.

Although they are powerful, they must die if the purgatory queen wants them to die!

There is no resistance!

[Chapter 3768: I haven't worked hard yet!](#)

Because although they are powerful, they are powerful, only physically powerful.

They don't even have much of their own mental power.

Even their spiritual power is still gathered on the body of the purgatory ant queen.

The purgatory ant queen is still their master, in charge of everything.

In fact, apart from a stronger body, lava flying ants are no different from those purgatory fire ants.

They can all be summed up in the words "The Walking Dead".

Or to be precise, all slaves.

For tens of millions of years and hundreds of millions of years, among the purgatory fire \*\*\*\* ant colony on this desolate ancient ruin, all the existence except the purgatory ant queen have followed this seemingly natural rule.

I never thought about rebellion, or that the idea of rebellion was not even born.

However, that lava flying ant is different.

After the occasional encounter, he gave birth to his own consciousness, and while his strength increased crazily, he also had some ideas.

Even, once wanted to contend with the purgatory queen in their group.

I even want to kill the purgatory ant queen, and control this purgatory fire \*\*\*\* ant tribe by myself!

But it is a pity that the appearance of such an existence makes all the purgatory ant queens in the purgatory fire \*\*\*\* ant tribe panicked.

How many ant tribes of purgatory fire gods are in the deserted ancient ruins?

Thousands of large tribes are only necessary.

As a result, many fiend queens united and strangled this lava flying ant to death!

However, this lava flying ant was not to be outdone. Before he died, he brazenly launched a forbidden move and killed more than a dozen purgatory queens!

This secret story is an absolute taboo among the fire \*\*\*\* ants in Purgatory, and it is not allowed to be passed on, and outsiders are not allowed to know it.

However, the Lei family did not know where to get this secret.

It has even exhausted several generations, spending a whole hundred years, and constantly entering the deserted ruins.

Finally, from the black market of the deserted ancient ruins, I bought a treasure.

It was the bottle of bile left after the king of flying lava ants was beheaded.

Since this king of lava flying ants, its true strength is actually higher than that of the purgatory ant queen, so its bile has a powerful suppressing power for all purgatory fire ants.

There is no need to be afraid of being perceived by them!

Even this range includes the purgatory queen!

Sprinkle it on the body, and all the Purgatory Fire Ants will not be able to perceive its existence.

A bile, used to deal with purgatory fire ants.

A clear and free yarn, used to deal with possible human warriors.

It can be said that it is foolproof!

These two things. It is also the biggest support Lei Xinglan dares to enter here.

When he saw this, Chen Feng couldn't help but admire the Lei family.

The tenacity of this family can really be said to be extremely powerful, even worse than the nine major forces.

They spent tens of generations and thousands of years in order to obtain this treasure and the beginning of this clue.

I don't know how much manpower and material resources were spent, and I kept entering the barren ruins, and people kept coming in to die.

Finally, a little bit of twitching, the secret was slowly opened.

It's just a pity that their luck was a little worse, and they ran into Chen Feng.

If not, there really is a chance to rise up and become the largest family in the Dragon Vein Continent that is above the nine powers!

"It's just a pity that I met me."

Chen Feng smiled and put the two treasures up.

"Indeed, if you have these two treasures, you can enter the heart of the Purgatory Fire God Ant Tribe without any problems!"

Chen Feng couldn't help sighing: "Speaking of which, if it wasn't for the fragments of the artifact, I would be reluctant to use these two things!"

"Especially the pure and free yarn, which can save your life at the critical moment!"

Chen Feng shook his head and expelled this year from his mind.

I have already decided to use it, so don't worry about it.

"But, I am not willing to suffer!"

"It's just a waste of using these two treasures to get the artifact fragments and clues to the artifact!"

Suddenly the corners of his mouth moved slightly, revealing a smile: "Since it's time to use it, then scrabble the rabbits and tidy up Sirius!"

It turned out that, in Chen Feng's eyes, Sirius even dealt with it incidentally.

You don't even need to deal with it specifically!

This is the greatest contempt!

In the past few days, Chen Feng has continuously angered Sirius, tempted Sirius and paralyzed Sirius, for this moment.

The reason is to trick Sirius into coming in and be radical!

Then, open his third hole card!

This is his third hole card, but it is by no means his last hole card.

Chen Feng looked at Sirius, just watching him quietly.

Sirius just smashed a purgatory fire ant with a punch, and turned his right elbow to hit the other purgatory fire ant.

Directly hit the purgatory fire ant and screamed, and the blood flew out several kilometers, knocking down another purgatory fire ant.

At the same time, the left leg kicked three kicks in succession, directly denting the bend of another purgatory fire ant for a living kick.

In an instant, he killed three enemies.

But it's useless!

Because these purgatory fire \*\*\*\* ants are too many, the number is almost endless!

He was still hit by two Purgatory Fire Ants, leaving a severe wound on his body.

The blood rushed out suddenly, although at this moment, the Sirius muscle contracted, it was to close the wound, a trace of blood no longer leaked.

This wound only caused him negligible damage, and it seemed to have no effect.

But don't forget, this is how many times he has been hit!

At this time, on his body, such wounds were dense and endless!*novelusb.com*

And, as you can imagine, this is definitely not the last time he was hit!

In fact, next, there will be endless offensives waiting for him!

And offensive means injury!

Chen Feng chuckled softly: "Sirius, you fell down before I exerted my strength?"

"I have prepared many big gifts for you, and there are two more after this big gift."

"Unexpectedly, you didn't even make it to the end!"

Chen Feng just stood there quietly, staring at Sirius without blinking.

In fact, Chen Feng is not very leisurely.

At this time, his time is actually quite urgent, after all, the two things he just used have time limits!

An hour!

But Chen Feng is still here, because he wants to see if Sirius still has some spare power.

He wanted to see if Sirius still had a hole card, and what he had pushed him to.

#### [Chapter 3769: Accompany](#)

Now, Sirius' strength is only 20% of the peak period, and Chen Feng knows that this is definitely not all Sirius.

Finally, after about a cup of tea time, Sirius's punching speed became slower and slower, and the accuracy became lower and lower.

He hit two in a row before killing the three purgatory fire ants in front of him.

However, the time of these two punches also caused six or seven deep marks on his body.

Even his left leg was severely pinched by the pliers of a Purgatory Fire Ant!

Chen Feng clearly heard a click, the sound of broken bones.

Sirius looked up to the sky and let out a painful roar.

Then, suddenly roared fiercely: "You forced me!"

The next moment, his hands were raised high, and Wuhun fluctuation suddenly appeared.

Then, above his head, the huge metal giant hand formed by the superposition of the martial soul and his divine essence battle body also appeared directly.

In the next moment, the giant metal hand scratched it!

So, bang bang bang, on the ground, the dead purgatory fire \*\*\*\* ants, on their carapace, burst open.

Countless black and red metallic lusters all flew directly from above and were firmly grasped by the giant metal hand.

Soon, fifteen extremely thick metal spears appeared in the sky.

Chen Feng raised his eyebrows: "It turns out that this is actually the home of Sirius."

"In the carapace of these purgatory fire \*\*\*\* ants, there is a lot of precious metal."

"But think about it, if it wasn't for so much metal, how could their carapace be so hard?"

"In this way, Sirius will be cheaper."

Sirius laughed wildly, as the giant metal hand kneaded and absorbed it.

Even, some of the fire ants from Purgatory that have not been killed, the carapace on their bodies burst open, and a large amount of precious metals flew forward!

Then, the fifteen metal spears shot forward fiercely.

The screams of squeaks continued to sound, the sound of the carapace being crushed constantly sounded, and the sound of flesh and blood being penetrated constantly sounded.

In an instant, these 15 huge metal spears killed at least 30 purgatory fire ants!

Some metal spears even penetrated a few purgatory fire ants before they stopped.

Then, the giant metal hand kneaded again.

Soon, fifteen metal spears took shape in the sky!

Then, it shot forward again!

Then, it is forming again!

Keep shooting forward!

After using this trick, Sirius instantly gained the upper hand.

In fact, the most terrifying thing about these metal spears is not only their strong attack power and strong penetrating power, but their attack range is extremely wide, which is many times larger than the attack range of Sirius just now.

As a result, it was only a moment's time that his area of tens of thousands of meters was completely emptied!

Those purgatory fire ants here have been beheaded!

Sirius laughed wildly.

However, Chen Feng watched coldly, but saw that Sirius' body shook slightly, and the muscles on his face also twitched.

Obviously, it was extremely difficult for him to continuously urge the martial soul and the Shen yuan combat body to combine.

Even, it has suffered a dark injury.

At this moment, Chen Feng suddenly felt a dull sound from the ground, and the ground seemed to be shaking.

The surrounding purgatory fire \*\*\*\* ants made waves of excitement and panic.

Chen Feng looked at it, and then he saw that a few extraordinarily huge figures had emerged from the black giant tower.

Chen Feng took a closer look and discovered that beside the huge black tower, there were countless huge black caves.

These things got out of there.

These figures rushed to this side.

These extraordinarily huge figures are about three times larger than these Purgatory Fire God Ants.

They are thousands of meters long, and their whole body is also the color of magma, but there are many dark stripes on the body.

Their strength, giving people the feeling, is a level higher than these purgatory fire \*\*\*\* ants, reaching the realm of the two-star martial emperor.

There are dozens of these behemoths, slaying aggressively towards this side.

"Oh? Has the mad soldier ant appeared?"

Chen Feng raised his eyebrows.

A smile appeared at the corner of his mouth: "Sure enough, Sirius, you didn't disappoint me."

"Actually, if you really want to get serious, your current strength can reach at least 30-40% of the peak period!"

"I probably know your true strength now."

"Also, I thank you so much!"

"If it weren't for you to bring out these violent ant soldiers, then with the strong defense around the black giant tower, I'm afraid it wouldn't be so easy for me to enter!"

Soon, these violent ant soldiers came to the front and surrounded the Sirius again.

At that moment, Sirius didn't want to escape, but he couldn't escape.

The spiritual power of the purgatory queen ant spreads over hundreds of kilometers.

The spiritual power of the purgatory ant works naturally, and is not deliberately controlled. It is more like an automatic trigger.

The enemy is strong and strong, and the enemy is weak and weak.

The spiritual power of Sirius is so strong, so the spiritual power of the purgatory ant suppresses him extremely huge.

He even had the feeling of being stuck in place by resin, unable to move, let alone running away.

In fact, after he entered here, his speed dropped greatly.

"Now, I'm missing you!"

Chen Feng took a deep look at Sirius, then ignored it and went straight forward.

He has more important things to do.

In fact, coming here and coming to the black giant tower of the Purgatory Fire God Ant Tribe is Chen Feng's real goal.

Lure Sirius here, and put him in a desperate situation, it's just a piggyback.

If Sirius knew Chen Feng's thoughts, he would vomit blood and die with anger.

He is a dignified five-star Wudi, the Sirius team captain, and a well-known figure among the deserted ancient ruins, but in Chen Feng's eyes, he counts nothing.

Even, he doesn't even have the qualifications to be dealt with specifically by him, and he only deserves to be taken away by him!

Soon, Chen Feng traveled a full one or two hundred miles.

He was walking between these purgatory fire \*\*\*\* ants.

For these Purgatory Fire Ants, Chen Feng's body has become an illusory existence that they cannot perceive.

Chen Feng just slammed into their bodies, and the journey went unimpeded.

Just like a ghost, floating forward.

And just when Chen Feng entered the black giant tower only fifty miles away, suddenly a strange feeling surged in his heart.

It's like being stared at by something.

[Chapter 3770: Enter the black tower!](#)

Chen Feng looked around and found that the purgatory fire ants, including some raging soldiers rushing away, found nothing unusual.

None of the Purgatory Fire Ants were paying attention to themselves, all of them hurriedly headed in the direction of Sirius.

But Chen Feng always felt spied.

He took a deep breath, did not forget the crisis, nor did he relax. In fact, this had already aroused his vigilance.

But Chen Feng walked forward resolutely.

He knew that he had no retreat at this time!

If you don't move forward, you must move forward!

And in the process, there are constantly huge violent ant soldiers coming out of the black giant tower.

Chen Feng roughly counted them. At least two hundred violent ant soldiers came out of it.

At this time, it was already quite difficult for Sirius to fight fiercely with these violent soldiers.

And his metal control ability, after almost seven or eight rounds of use, is now somewhat exhausted.

So much so that he is now surrounded by him, playing so miserably, it seems that he is in danger, and he may die at any time!

At this time, Chen Feng had already reached the bottom of the huge black tower.

There are a large number of deep burrows around the black tower, which hides a large number of enemies, but they have all been attracted by Sirius.

At this moment, only after coming to the front of the huge black tower can I feel how huge an existence is.

When Chen Feng looked up, he couldn't even see the top of the huge black tower.

When he came to the black giant tower, he could see very clearly, there was a layer of black carapace-like coverage on the black giant tower.

It seems to know that it is extremely hard.

In the huge tower, there is a vaguely evil, huge, weird, and cold aura entrenched.

Instinctively, Chen Feng hardly dared to enter it.

But Chen Feng still gritted his teeth and walked forward!

The gate of the giant tower is thousands of meters high, open like a huge \*\*\*\* gate!

However, as soon as Chen Feng stepped into the black tower, he suddenly heard a crazy roar from a distance.

The roaring sound belongs to Sirius.

And he felt a wave of fluctuations, which belonged to the fluctuation of mental power.

This kind of fluctuation, Chen Feng is still quite familiar with, it is the unique fluctuation when the mind storm is launched.

At the same time, Chen Feng heard a burst of screams that sounded quickly and densely at almost the same time.

And the sound of explosions banging banging.

"The psychic storm has started, right?"

"It seems that your Wuhun and Shenyuan Zhanzun are no longer enough to deal with these violent gods, and you are forced to use the mind storm."

"Now, you are using Psionic Storm again when you are severely injured and only about 20% of your strength is left. How long can you use it? How many times can you use it?"

A smile appeared at the corner of Chen Feng's mouth:

"Furthermore, if you work so hard, you will even attract some stronger existences in this black tower."

Thinking of this, Chen Feng's foot that was going to step into the black tower suddenly retracted.

One side of the body, let to one side, waiting quietly.

Sure enough, before waiting for a while, Chen Feng suddenly heard a rapid vibration in the air.

It's as if something is flapping its wings quickly,

The next moment, he saw a black purgatory fire ant flying out of it.

This is a lava flying ant, not big in size, about fifty meters in length.

However, it was in the fiery red color of lava, but it was still faintly golden.

It feels extra hard, extra powerful, extra noble.

Moreover, on both sides of its body, each has three long, dragonfly-like wings flapping rapidly.

So that its speed is unimaginable.

Chen Feng just felt that a yellow and black light flashed in front of him, and the purgatory fire \*\*\*\* ant of this lava flying ant had already flown in the direction of Sirius.

Chen Feng's mouth smiled: "Have lava flying ants also appeared?"

Before waiting for a while, he heard a hoarse and sharp scream that was different from other Purgatory Fire God Ants.

Obviously, the lava flying ant had been killed by Sirius.

After a while, one after another, from the huge black tower, six more lava flying ants flew out.

Chen Feng waited for a while, only to step into it after seeing no lava flying ants came out.

After entering this, it should have been an extremely large space.

But what is surprising is that there is no such big space in front of it. It is just a small space with a radius of only a few thousand meters.

After thousands of meters, it is thick, like a huge black rock wall.

Beside the stone wall, there is a \*\*\*\* hole, underneath it is black, like an abyss.

Chen Feng didn't care about that much, and looked directly aside.

Sure enough, there was a long ladder beside it, spiraling upwards, with no end in sight.

Even around the corner, you can't see what is in front of you.

However, this ladder is very smooth, and it seems that something is often crawling on it.

Chen Feng took a deep breath, his heart pounding: "Alright, soon!"

"So soon, am I going to get in touch with the secret of the fallen Thor's hammer?"

"So soon, are you going to find a clue to this artifact?"

Chen Feng's heart was surging.

In fact, when Chen Feng learned this secret from Lei Xinglan for the first time, he never thought that he could come into contact with this secret so quickly and came to the source of the beginning of all this.

It was Sirius who accomplished him!

Without the control of Sirius, Chen Feng would not have come here so easily, even he would not even dare to think about it.

He originally regarded it as a goal two years later!

At this time, Chen Feng was not so unhurried or slow, but accelerated and rushed forward frantically.

He went all the way up the steps!

This step is surprisingly long, and Chen Feng quickly walked a whole tens of thousands of meters.

Next to this step, it was also getting more and more empty, and soon before it became a huge space.

Obviously, the upper part of this huge black tower is completely hollow.

The stairs spiral up, and there is an abyss in the middle.

At the bottom of this abyss is the hall where Chen Feng just entered.
