

## Peerless 3961

### [Chapter 3961: Devour!](#)

At the next moment, Chen Feng saw that the fragment of the artifact turned into a silver creature like a huge caterpillar, fell on the ground, and then wriggled forward.

And the direction it wriggled was unexpectedly at the location of Gao Wen's body!

No, to be precise, it should be...

Chen Feng suddenly raised his brows, he discovered the true purpose of this artifact fragment!

It turned out to be that pair of huge warhammers that fell on the ground at this time!

The artifact fragments squirmed lazily to the side of the pair of warhammers, and then, with a body, directly wrapped the pair of warhammers in it.

At this moment, its body was pulled to the extreme, just like a silver water wave emitting a faint light.

However, the breath that wrapped the pair of warhammers couldn't be revealed.

Mei Wuxian and the others are all curious: "What is this guy doing?"

Before Chen Feng could speak, the pair of warhammers actually heard two screams.

Chen Feng knew that the weapon spirit of the pair of warhammers had already been wiped out at this time.

And they are being...

Chen Feng slowly spit out two words: "Swallow!"

"Swallow? Is it actually devouring this pair of warhammers?"

Mei Wuxie's eyes widened, her face showing shock.

She is also knowledgeable, but this is the first time she has heard of this situation.

At this time, Chen Feng had a thought in his heart:

"It turns out that this artifact fragment is not only the function I thought of before, it can not only upgrade the level of the magic weapon, but it can also swallow some high-level weapons!"

"This warhammer level has reached the level of the third rank magic weapon. Although it is far inferior to the Celestial White Dragon Spear, it should not be underestimated."

At this time, on the fragments of the artifact, there was a burst of very happy aura.

Chen Feng knew it: "I guess, the higher the level of the magic weapon, the more it likes to swallow it."

"I want to come, for it, it is a rare delicacy!"

Looking at the feasting artifact fragments, Chen Feng's eyes flashed, and he sighed softly, "I guessed it before, and it's true!"

"It is estimated that these two copper hammers are very likely to be the other two fragments of the fallen Thor's hammer!"

"That's why the artifact fragments will show such great interest!"

This process of swallowing was quite slow, and Chen Feng and others had to wait nearby.

Waited four or five hours!

It wasn't until the next day, when the sky broke, and the morning light was faint, the fragments of the artifact had only been shot up and hovered in the air.

At this time, the two bronze warhammers had disappeared without a trace.

No, to be precise, most of them disappeared, leaving only some residue in place.

Chen Feng saw that the artifact fragments had already changed a bit compared to before. *nOvelus***b.coM**

It used to be mercury-like with a bit of transparency, but now it is a bit thicker than bronze.

Moreover, there are more complicated textures on it.

Chen Feng breathed a sigh of relief: "This ancestor is finally swallowed!"

Then the fragment of the artifact fell on the extremely white dragon spear that day, and became invisible.

Chen Feng smiled slightly, his mind moved, and the Tianji White Dragon Spear turned into a belt and returned to his waist.

However, Chen Feng always felt something was wrong.

He took out the extremely white dragon spear that day again, and after careful examination, he was shocked.

Chen Feng exclaimed: "How can this be?"

Mei Wuxian and others hurried over and asked, "Brother Chen Feng, what's wrong?"

Chen Feng pointed to the celestial white dragon spear in his hand and said solemnly: "My celestial white dragon spear, at this time, has already fallen back to the second-tier magic weapon!"

It turned out that Chen Feng suddenly realized why he felt strange before.

Because above the Heavenly Extreme White Dragon Spear, the momentum has already plummeted, and it's not the previous Fourth Grade Divine Weapon at all!

Instead, it has become the second-tier magic weapon now!

Chen Feng was stunned.

He looked at the dim celestial white dragon spear in front of him in disbelief, and cried out, "What's the matter?"

He didn't know what happened.

But the next moment, when Chen Feng felt that on the extremely white dragon spear that day, no, to be precise, it should be an extremely lazy aura from the fragments of the artifact, he immediately understood.

At this time, the artifact fragments lazily rolled down from the celestial pole white dragon spear, rolling around on the ground.

Then, he returned to the celestial pole white dragon spear, and his breath disappeared directly.

However, the breath of the Celestial White Dragon Spear was still as weak as before.

It was as if the power of artifact fragments didn't seem to penetrate at all!

So Chen Feng knew what was going on.

A wry smile appeared at the corner of his mouth, pointing to the fragment of the artifact, and said to Mei Wuxian, "Do you think this guy looks like a person who has eaten and drank enough and is about to sleep?"

Mei Wuxia covered her mouth and smiled: "What you said is really alike!"

Chen Feng smiled bitterly: "That will hurt me, I probably know what happened now."

"It should be this guy who has swallowed the pair of bronze warhammers, which are not low-level, and has greatly supplemented it."

"But, it also fell into dormancy because of this."

"It can't upgrade my Celestial White Dragon Lance now, which means..."

Chen Feng spread out his hands: "One of my biggest hole cards is discarded, and I don't know when it will be restored!"

Mei Wuxiao and the others smiled bitterly at each other.

This incident is of course a good thing for the artifact fragments.

But it's not so good for Chen Feng.

Chen Feng couldn't think of it, so he had to put away the Celestial White Dragon Spear and took everyone away.

"This is it!"

Chen Feng sighed slightly, stopped abruptly, pointed in front of him, and said slowly.

Mei Wuxia and others all came over.

At this time, the location of Chen Feng and others was a huge wasteland of rocks.

Here, it is a common terrain after entering the depths of the sorghum mountain.

The mountain of sorghum is also vast in the depths. There are towering mountains and dry rivers everywhere, and there is also a plain like this kind of mountain with its spire cut off.

This is already three days after Chen Feng and others left Xian Yu Gaowen.

For these three days, Chen Feng has been searching for the traces of the people in Chaoge Tianzi City based on the clues provided by Xian Yu Gaowen.

These three days have never stopped.

But now, he stopped.

Chen Feng's face has a dusty and simple look, and there is a trace of fatigue between his eyebrows.

Even if he was as powerful as him, he was exhausted after three days of non-stop searching.

At this moment, in front of where Chen Feng was staying, there was a huge crack unexpectedly.

There are dozens of huge gaps in this area.

These cracks are intricate and intertwined like a spider web.

[Chapter 3962: Find the entrance!](#)

Each crack is thousands of meters long, and the width is only tens of meters, which is not very wide, but the depth is scary.

Chen Feng stood by and looked down. He couldn't see the end at a glance, and couldn't see the bottom at all.

It was just faintly visible at the bottom, with a faint red light.

Mei Wuxia came to Chen Feng's side, glanced down, and couldn't help taking a breath.

She stuck her tongue out, with a hint of a childish gesture: "It feels like the \*\*\*\* I heard of when I was a child! It's as if here goes straight to the depths of the hell!"

Chen Feng smiled: "I don't know if it leads to the depths of hell, but it must lead to our destination."

"To..."

He whispered: "Where are the people in Chaoge Tianzi City!"

then. Everyone searched in this area.

Soon, Wu Linghan gained something and shouted: "Chen Feng, come and see!"

Everyone hurriedly came to the crack.

This crack is rather inconspicuous at the corners, and it is much smaller than other cracks.

And beside this crack, on the rock, there is a clear palm mark.

Chen Feng clapped his hands and said, "Yes, this is it!"

Xian Yu Gaowen left a mark here.

"It seems..."

He pointed to this crack and said: "Through this crack, all the way down, you can find the traces of the people in Chaoge Tianzi City."

On that day, after hearing the news, Chen Feng was also very shocked.

It turned out that Xian Yu Gaowen told him that the people in Chaoge Tianzi City are no longer in the Gaoliang Mountain.

Or, to be precise, it is no longer on the surface of the sorghum mountain.*novelusb.com*

But through these underground cracks that do not know how deep the ground is, they slowly walked all the way to the core of the sorghum mountain.

After Chen Feng heard it at first, he was shocked and inexplicable.

But soon, he discovered that this is the most reasonable and most likely situation.

From this, he determined that Xian Yu Gaowen absolutely did not lie.

You know, what fell from the sky was a fragment of a star.

What a great power!

The surface of this earth couldn't bear it at all!

Therefore, the star fragments are most likely to have smashed into the depths of the earth.

And Xian Yu Gaowen also confirmed this.

It turned out that after the star fragment fell, it directly slammed into the depths of the ground diagonally, and caused the entire collapse of that area.

Countless mountains and rivers collapsed, and the passage that directly smashed out the star fragments was strictly blocked, and it was impossible to go deep into the ground there.

Therefore, there is only one way to find the star fragment:

Enter from the ground through the numerous huge gaps that appeared due to the shards of stars hitting the mountain of sorghum, and the underground passages that followed!

As a result, the core area where the star fragment is located can be found!

As early as a few months ago, everyone in Chaoge Tianzi City had already arrived here and had already discovered this.

So, as early as a few months ago, they had already pushed there along these underground passages.

In order to track the people in Chaoge Tianzi City, Xian Yu Gaowen also found a hidden passage.

But he didn't go too deep, he just made a mark and returned after making sure that he could reach the destination.

According to Xian Yu Gaowen, the underground passage is actually extremely dangerous.

It is not enough to use the four words of crisis all over.

All of this originated from that star fragment.

After the star fragments hit the sorghum mountain, they were able to mutate the surrounding monster beasts and become extremely powerful.

Well, let alone their core.

The closer the monster is to the core, the stronger it is.

And the most important point is that this star fragment has an unparalleled attraction to these monsters!

Its power makes them mutate.

And the closer you get to it, and even the ability to enter the inside of this star fragment, then it will be of great benefit to these mutant monsters!

Therefore, they are all frantically flocking to where this star fragment is.

This is instinct!

Therefore, in each channel, there may be numerous and very powerful mutant monsters!

Everyone in Chaoge Tianzi City just kills little by little, and pushes towards there little by little!

However, they have been here for so long after all.

According to Xian Yu Gaowen's estimation, they are the most, and there are still about half a month, and it should be close to the core.

At this time, Chen Feng deeply felt a strong sense of urgency.

He didn't hesitate, and led everyone to whereabouts.

This crack, the more downward, the more difficult it is to pass.

The further down, everyone feels the temperature, the hotter it gets.

Even the air smelled of sulfur.

Fortunately, everyone is a high-level warrior, and they are not afraid of this.

And along the way, various monsters are constantly attacking on this cliff.

However, they were all resolved by Chen Feng.

This crack is deeper than imagined.

The crowd drifted down slowly for almost an hour, and Chen Feng estimated that at least it had reached a hundred thousand meters deep underground.

Chen Feng finally saw a red light flashing below.

As a jet of magma ejected, everyone avoided, and they also saw the bottom of the crack.

At this time, hundreds of meters below them is the point of this crack.

And in this crack, there is turbulent magma, roaring and flowing like a river.

However, in the middle of the magma river, there is a bulge like a mountain beam for everyone to settle down.

Chen Feng looked around, and then a smile appeared on the corner of his mouth: "Sure enough, I guessed it!"

Chen Feng had known for a long time that there could not be just magma under this crack.

If there is magma under this crack, it will not go deep at all.

It is true that magma does not cause much damage to Chen Feng, but it is no different from a dream to find a passage in this endless magma.

Chen Feng believed that Xian Yu Gaowen would not be so stupid.

Therefore, there must be more than magma under this crack, there must be a passage.

Sure enough, Chen Feng was right.

Everyone fell on the stone beam, and then they saw that at the end of the lava river turbulent, that is, at the end of the gap, there was a huge hole.

In the hole, red light flickered, and I didn't know what was inside.

Chen Feng looked around and said slowly, "The direction of the entrance of the cave is the direction leading to the core of the mountain of sorghum."

"It seems there is nothing wrong with this path."

[Chapter 3963: Temporarily separate](#)

As soon as Chen Feng's voice fell, a burst of crazy and violent monsters roared from the passage.

Only at the beginning, there was a sound, followed by countless roars of monster beasts bursting at the same time!

Converged into a huge sound wave, bursting out from the gap.

Even, this lava river has set off a big wave.

Everyone's expressions changed.

Although he only heard the sound and didn't see it, in this crazy roar, there was already a hint of the monster inside.

Chen Feng's face is solemn:

"Just now, during this roar, I could at least hear the voices of dozens of three or four-star monster emperors."

"This means that in this crack alone, I am afraid that there are quite a few strong monsters."

"The road ahead is long, and I don't know how many monsters are waiting for us!"

Chen Feng suddenly had a decision in his heart and looked at everyone and said, "I have decided. I will go there this time."

"what?"

When Mei Wuxia and the others heard this, they were stunned for a moment, and then immediately objected without hesitation.

"Brother Chen Feng, absolutely not!"

"Yes, Chen Feng, we will never leave you, we will fight together!"

Chen Feng's face was firm: "No, you can't help this matter. I have decided. This time I can only go by myself, and you all will go back to me and stay honestly!"

"Did you hear me?"

Chen Feng said that afterwards, his voice was also very severe.

If it were for someone else, after hearing Chen Feng's stern tone, I'm afraid I would dare not say anything long ago.

But Mei Wuxia, Wu Linghan and the others don't take him.

Mei Wuxia did not speak, but stared at Chen Feng with bowing eyes, with a trace of pity like a weak Liu Fufeng.

Wu Linghan snorted directly, without even looking at Chen Feng.

Qing Mu and Wu Ling hugged Chen Feng's arm, pitifully.

Chen Feng looked at it and had no choice but to smile. The anger that had been forced on his face just disappeared.

He smiled bitterly: "I'm telling you the truth!"

"This trip is too dangerous, you have heard it just now, I'm afraid there are a lot of monsters in the depths of this passage."

"Moreover, I don't know how many difficulties and obstacles there are."

"Chaoze Tianzi City has a lot of people, strong and powerful, and can be killed little by little. We are no better than others!"

"If we pass along the way, I can't bear any casualties! That would be a lifelong regret!"

Chen Feng looked at them with a serious expression:

"I have yin and yang ghost steps, I can easily get out wherever I go."

"What I fear most is that I can't take care of you!"

"So, you go up and wait for my good news, will you?"

When everyone heard it, they were all moved in their hearts.

They actually all understood what Chen Feng meant.

After hesitating for a while, Mei Wuxia said first: "Okay! Brother Chen, then I won't follow, and following is also a drag."

Wu Ling gave a cold snort, and stood next to Mei Wuxia, which was considered tacit.

Although Qing Mu and Wu Ling are reluctant, they are also very sensible.

Chen Feng looked at it and was very pleased: "Go up and wait for my good news!"

There was a sudden movement in his heart, calling everyone over, and whispered.

After listening, everyone looked at Chen Feng with a weird look on his face.

Mei Wuxia giggled and said, "Brother Chen Feng, you can really calculate!"

Wu Linghan gave Chen Feng a blank look: "Fortunately, I know that you are not a bad person, or else you have to count the money for you if you sell it!"

Chen Feng looked aggrieved and said, "Look at what you said, it's the same as what I did. Am I just a little calculation?"

Everyone laughed and bid farewell to Chen Fengfeng.

However, they did not drive the Qingluan Ruyi Boat, leaving here, Chen Feng had other arrangements.

It turned out that just now, Chen Feng came up with a strategy.

Let them stay here, while Qingluan Ruyizhou, he continues to hold it in his hands.

Only in this way can we make a move!

This move may not be used, but if it is used, it may be a wonderful move to reverse the situation!

After everyone left, Chen Feng slowly approached the cave.

The cave is not big from a distance, but it is hundreds of meters high.

As soon as Chen Feng entered the cave, he suddenly felt his stature fall heavily, almost falling directly into the magma.

He quickly slid down onto a boulder.

Chen Feng was secretly surprised: "What the \*\*\*\* is going on?"

But he took a closer look and understood in his heart.

It turned out that in this cave, in the depths of the earth, there was an inexplicable force, which was severely suppressed, as if the void above was filled with something.

Then naturally you can't fly.

Chen Feng looked far away.

In this passage, in this underground passage, is a lava river traversing it, spreading from left to right, there is no other place to settle.

Moreover, in the lava, there was a sense of danger.

Chen Feng saw that in some magma, there were strings of bubbles coming out.

Obviously, there are some very powerful monsters below.

But I don't know why, they didn't kill it.

It was as if there was some force controlling them and not allowed to leave the magma.

But Chen Feng believes that as long as they fall into the magma, they will definitely shoot!

"Then, never fall into the magma!"

Chen Feng secretly said in his heart.

He looked far away, and in the distance, huge bluestones appeared one after another.

Every once in a while, there is a huge bluestone like this, which seems to be for people who come here.

Presumably, even people who are not very strong can follow these boulders and move forward.

"but....."

Chen Feng frowned, "Will there be such a kind heart?"

"Who left this secret path? Who arranged it? Would the people who want to enter the core and those who want to enter the star shards to leave such a channel for others?"

Chen Feng absolutely didn't believe it!

This road was not walked by Chaoze Tianzi City and others, but rarely discovered by Gao Wen himself.

But no matter who it was, Chen Feng didn't believe they would be so kind.

Chen Feng wanted to float up.

But he felt as if there was a huge force, pressing him so hard that he could not float.

The power was depressed, extremely huge.

Not only can he not fly, but he can't even stand upright!

That force began to squeeze crazily, and finally, when it was still five feet away from the lava, it stopped!

Chen Feng can't compete with this force at all!

#### [Chapter 3964: trap](#)

At a height of five feet, Chen Feng could only bend over.

Chen Feng was shocked. He knew that this power originated from the mountain of sorghum or the fragments of stars.

So I can't compete.

"Then, why do you want to resist? Can't I take tricks?"

Chen Feng's heart suddenly moved.

And at the moment when this thought came to him, suddenly, the mentality of Yin and Yang ghost steps flowed in his heart.

At the next moment, Chen Feng suddenly felt that what he couldn't help but raised his head and looked up.

Then, he saw that in the endless void in front of him, a thick layer of earth-yellow power was densely covered!

From the top of his head, it spread to the top of the cave.

This khaki power formed an enchantment!

Like a large iron plate, it was pressed down hard.

Chen Feng was clear in his heart: "This khaki enchantment is formed by the power of the fragments of stars?"

But suddenly, Chen Feng's eyes lit up: "What is this?"

Then, did he see that there were actually small cracks and cracks above the strength of that earthy yellow enchantment.

This crack is enough to accommodate!

Chen Feng immediately moved in his heart, and his figure flickered.

Suddenly, he appeared in a crack.

And when he appeared inside the crack, Chen Feng found that he was only a dozen meters high from the lava ground at this time, and he could already fly and float!

The next moment, his eyes changed, the earthy yellow barrier completely disappeared, and the scenery in front of him was no different from just now.

Chen Feng had already seen everything clearly at this time.

He laughed loudly: "Yin and Yang ghost steps, really amazing! It turned out to be so!"

Chen Feng discovered that after this Yin-Yang ghost step mental technique was operated, he could actually discover some defects in this enchantment.

"It turns out that this place is not absolutely non-flying, but most places can not fly."

"It's just that there are some places where you can fly over, but ordinary warriors are absolutely invisible."

"Even if the level is high, if you don't practice Yin and Yang ghost steps, you will never see it!"

"If it's just luck, then the chances of bumping into the flyable area are too small!"

Chen Feng took up the Yin-Yang Ghost Step Mind and looked forward again.

I saw that these earthy-yellow barriers passed from the bottom to the top, spreading deeply into the mountain of sorghum, and it was impossible to pass through with other methods.

And where I was at this time was a small gap.

Chen Feng saw that there was also a small gap in front, but there was only a very narrow passage between these two gaps.

I can only go there by following this passage that only allows one person to pass through.

Therefore, Chen Feng's figure flashed and flew to the next gap again.

Therefore, Chen Feng kept flying in it, kept moving forward, and was at ease.

This barrier is extremely large, aurora, and the gap inside is extremely small.

Chen Feng is like a little ant walking through the underground ant den.

If there are outsiders at this time, from their point of view, Chen Feng's flight here seems to be without obstacles, free to shuttle, and with some strange rhythms.

However, the so-called laws that Chen Feng followed were nothing more than the small gaps in this earthy yellow barrier.

Chen Feng is very happy:

"The Yin and Yang ghost step is really amazing!"

"But when you think about it, it's normal. The ghost steps of Yin and Yang can even see the gaps in the void, let alone this, but it's just a piece of cake!"

Chen Feng secretly said in his heart: "Others can't fly here, but I can fly here."

"Then in this way, the advantage will be much greater than others."

"If you are chased by then, you just have to escape here..."

Chen Feng was extremely excited.

"Facing the people in Chaoge Tianzi City, I say that hard power is definitely not their opponent."

"What they rely on is the ghost steps of Yin and Yang, and they don't know my existence, but now I have one more thing I can rely on!"

At this time, Chen Feng's figure was already flying above the second bluestone.

This second bluestone should have been his foothold.

As soon as Chen Feng stretched out his hand, a stone appeared and smashed against the blue round stone.

The moment the stone fell on the cyan round stone, the cyan stone suddenly sank.

In the next moment, a deep abyss appeared in the place where the cyan round stone was.

The surrounding lava coiled around, but it couldn't flow there.

The next moment, in this void, there was a very miserable, contemplative sound.

Chen Feng is very familiar with this voice.

It was the roar of the beast that I heard before entering.

The next moment, in front of Chen Feng, a black mist appeared.

In this huge black hole, dozens of bats flew out directly.

No, it should be said that there are dozens of bat monsters.

Every bat-like monster is small, no more than one foot long, and only two feet long with its wings spread.

But the roar was so loud that Chen Feng's eardrum was sore that he almost vomited blood.

They all have a golden color, and each one has an extremely terrifying and powerful aura.

After Chen Feng felt it for a while, his entire body was erected, and he felt cold all over his body!

It turned out that the threat that every bat monster brings to him is extremely huge.

The strength is not weaker than the Samsung Demon Emperor!

"The strength of this bat is not weaker than the three-star monster emperor? That means that this is a total of dozens of four-star martial emperors flying out together!"

Chen Feng looked at these bat monsters, and a chill rose in his heart.

"If I didn't choose to fly just now, but continued to set foot on this bluestone, then these bat monsters would surround me at the moment this bluestone fell!"

Chen Feng thought about this scene, but felt extremely afraid.

Even if the strength is as powerful as him. Facing the siege and bite of dozens of four-star Wudi masters, it is absolutely impossible to get out when caught off guard!

Chen Feng couldn't help sighing: "Sure enough, this road to the core of the star, although it is the right road, it is a shortcut, but at the same time, it is also a dangerous road, even a dead end!"

Fortunately, the range of activities of these bats seems to be restricted to a certain range, and they cannot fly to where Chen Feng is.

Their activity height was also suppressed below five feet.

Chen Feng was in a gap higher than them at this time, and they simply couldn't make it through.

Chen Feng felt a chill in his heart at this time: "What if I don't have a yin and yang ghost step?"

Chen Feng can almost foresee the outcome of other warriors who have not practiced Yin-Yang Ghost Step.

[Chapter 3965: See Shenyuan again!](#)

Since they can't fly, they can only step on the bluestone to move forward.

Then you will fall into the trap, even if you escape from the trap by chance, it is easy to fall into the magma.

And the fate of falling into the magma... I'm afraid he is no more than falling into the trap.

It is indescribable with nine deaths and a whole life, I am afraid it is nine deaths without life!

These golden bats did not appear for long, only about thirty breaths.

But within the time of these thirty breaths, countless fragments of spatial cracks have appeared in that space.

These spatial cracks were all cut out by their sharp double teeth and pointed mouth.

They can even shred the space. It is conceivable that if a person is surrounded by them at this time, then I am afraid that it has become a fan.

Then, these golden bats returned to the passage.

The cyan cobblestone reappeared again, returning to its original state, no different from the previous one.

Chen Feng continued to move forward, and came to the next cyan round stone, and threw another stone.

As a result, another vicious trap appeared.

Chen Feng went all the way forward. Since he was here, he had to carefully look for the gap above the barrier, so he didn't move very fast.

It took about three hours for Chen Feng to travel about a hundred miles.

But the passage itself is not particularly long.

At this moment, after Chen Feng turned the front corner, he found that the front had suddenly come to an end.

At the end is a huge arched coupon door.

Chen Feng quickly passed this huge arch, and as soon as he passed the arch, Chen Feng suddenly felt black in front of him.

The hue in front of him instantly changed from the crimson of the magma just now to the current blue.

It turned out that what appeared in front of Chen Feng was an underground ocean.

This underground ocean has a huge area, with a radius of thousands of miles, and you can't see the end at a glance.

The turbulent blue waves swept across and slapped, looking no different from the ocean above the surface.

However, even if the waves swept here, they could only hit a height of about five feet above the water.

Still sealed an enchantment.

A smile appeared at the corner of Chen Feng's mouth: "Sure enough, it's the same virtue as the passage just now, forcing people to stick to the surface of the water, or even walk in the water!"

"But if you walk in the water, you don't know how dangerous it is!"

Chen Feng looked forward, and as expected, he saw that not far in front, there was a black reef, which was obviously a place for people to settle down.

Of course, it is very likely to be a vicious trap.

Chen Feng didn't care about this, he just carried the Yin and Yang ghost steps and looked up, and he saw that at a height of about five feet from the water, there was a blue enchantment seal.

It is no different from the seal just now.

Chen Feng quickly found a gap in it and hurried away.

Then, it came to the next gap in the barrier.

And when he passed the black reef in the sea, he also flicked a stone over.

Unsurprisingly, this is also a vicious trap.

The difference is that there is a powerful monster inside.

This demon snake is not big, about a hundred meters long, about the thickness of a bucket, and black.

However, the momentum is extremely powerful, such as those bats that add up to no weakness.

Moreover, this demon snake seemed to have no eyes. Chen Feng was clearly not far away from it, but it couldn't see it. It could only perceive desperately and sway around.

Chen Feng nodded slowly: "Presumably, whether it's a bat or this kind of poisonous snake, it should have been born underground."

"They were originally natives of this place. They may not have been strong, but they mutated because of that mysterious power."

"However, affected by a mysterious force, I am lying in ambush here as a trap."

Chen Feng came along this way, becoming more and more strange. He felt as if there was a huge and vast power affecting the monsters here.

It seems that this is like a trap again, but it is more like a level, one test after another, only those who have experienced these tests are qualified to enter that core place.

It's just that Chen Feng suddenly felt: "This person who set the trap seems to have a bit...monotonous thinking?"

Chen Feng felt that this word was more appropriate.

All the way down, just use this trap, nothing else.

Chen Feng shook his head and put this idea behind.

This time, Chen Feng took much shorter time than before. The field of vision here is very good. At first glance, there are many cracks, and Chen Feng has a lot more room to sway.

After about an hour, he crossed the ocean.

At the end, there is another huge arch.

After Chen Feng stepped into this huge arch, he only felt a flower in front of him.

An extremely bright, hot, and at the same time a sulphurous power, rushed toward his face fiercely, making Chen Feng almost unable to adapt.

And the front suddenly became extremely bright.

After Chen Feng adjusted to a moment, his eyes widened.

Then, he couldn't help but let out a sigh.

"Really, superb workmanship! Good luck Zhong Shenxiu is nothing more than that!"

It turned out that at this time, there was a huge space in front of Chen Feng.

This space is many times larger than the underground ocean just now. It feels like it has hollowed out the entire mountain of sorghum.

This huge space is very wide and wide, and you can't see the end at a glance.

The sky was covered with a cloud of gray and red.

And below the ground, the radius is at least one hundred thousand li!

There are huge magma erupting everywhere, volcanoes everywhere, magma rushing frantically everywhere.

At a glance, it is a doomsday scene!

"and....."

Chen Feng's pupils suddenly shrank. It turned out that he saw several clouds floating in the sky.

This thing is more condensed than clouds, and the aura it exudes is even more terrifying!

They are long or short, the long ones are thousands of meters, the short ones are only tens of meters!

But each one exudes an aura of terror!

And most importantly, Chen Feng has seen this thing!

At the next moment, Chen Feng shouted in ecstasy: "There are many gods floating here!"

It turned out that those few floating things turned out to be gods!

Chen Feng suddenly flickered and rose into the air.

After arriving in this space, he found that the power of the enchantment had also disappeared, and he could fly freely in the air here.

Chen Feng immediately came to the side of the gods and watched carefully.

He didn't show any aura, so the few gods were floating there quietly at this time.

[Chapter 3966: Forty-Ninety-Seven Gods!](#)

Chen Feng saw that all of the four gods were of fire attributes.

Two of them are in the fire attribute, and they also carry a strong earth attribute.

The other \*\*\*\* is with a strong white metal.

Chen Feng knew clearly: "I don't know why there are so many gods here, but there are magma volcanoes everywhere, and they live deep underground."

"There may be a lot of rare metals, so the gods here are basically the three attributes of gold, fire and earth!"

"As for wood properties and water properties, it is naturally unlikely to exist!"

He felt it again, and then the smile at the corner of his mouth grew deeper and deeper.

The Shen Yuan here, although the attributes are quite single, but the power is very powerful!

It is not worse than those in the ancient ruins.

"And what I value is not attribute at all, but its strength and tyranny!"

"After all, any divine essence with any attribute, after I absorb it, can be transformed into the most original and pure power!"

"It doesn't matter what attribute it is!"

At this time, these gods were already very close to Chen Feng.

They sensed the aura on Chen Feng's body, and they suddenly became manic.

Even a divine essence has begun to transform, from its present cloud-like appearance, into an aggressive beast, and attack Chen Feng!

A smile appeared at the corner of Chen Feng's mouth: "The gods here don't have a good temper!"

"Then I will!"

Chen Feng's volume suddenly increased: "Let you be quiet and quiet!"

He didn't care about it at all, and went straight forward with a punch, which almost dissipated this divine essence!

Frightened this god, he left immediately and quickly.

Chen Feng didn't catch up, these few gods were just at the edge, and they were still relatively weak. He still didn't look good.

Chen Feng looked far away again.

Just to see, under this thick, hot, bright sky, there are many gods floating.

It's definitely not just the few words in front of me.

A smile appeared at the corner of Chen Feng's mouth, and then the smile became more and more prosperous, turning into a loud laugh!

"Here, it is my home court!"

Chen Feng is not wrong, this is indeed his home court, and his advantage here is too great.

There are floating gods everywhere here, and Chen Feng's yin and yang ghost steps, which Chen Feng relies on most during this trip, need to consume the gods!

If it was on the Dragon Vein Continent, the divine essence he consumed would be difficult to replenish, but here it is different.

After Chen Feng consumed the Shen Yuan, he could make up for it as quickly as possible.

It is equivalent to the countless times that his shadow ghost walk can be used out of thin air!

Moreover, Chen Feng had long wanted to continue to absorb the gods, only because he had left the barren ancient ruins, and the number of gods on the Dragon Vein Continent was almost equal to nothing.

Chen Feng really didn't have time to fly above those nine days to absorb, so he just stopped.

Now that he has such a great opportunity, how could he not grasp it?

As a result, Chen Feng hurried forward, and soon caught up with a huge god.

Without hesitation, he immediately sat cross-legged.

In his body, the idol quietly circulated in his innocent spirit.

Above his head, the Tengtian idol combat body suddenly appeared.

After that, the powers spread down like fishing nets, shrouded in one of the gods.

An hour later, Chen Feng suddenly opened his eyes, exhaled and shook his whole body.

A turbid air slowly escaped from his body, and his whole person was refreshed, feeling from the inside to the outside, from the body and mind to the soul, to the extreme.

"We still have to break through, we still have to improve strength! This kind of strength increase feeling is really wonderful!"

A smile appeared at the corner of Chen Feng's mouth.

Now, the number of gods in his body has surpassed before, reaching a full nineteen!

Chen Feng continued to absorb without stopping.

In a blink of an eye, days passed by.

This is the top of a huge volcano.

This crater is at least several thousand meters in diameter.

Inside the volcano, lava rolled, and extreme heat spurted out of it.

And Chen Feng sat hanging directly above the crater, his face solemn and his eyes closed slightly.

His hands fell naturally.

It's just that in those hands, there are waves of power surging out, like holding a giant net.

This giant net went directly into the depths of the lava, as if it were catching a prey!

The next moment, as Chen Feng's idol stepped on the innocent essence of mind, he was suddenly mobilized to the extreme, and suddenly, he let out a hey low growl!

Lift your hands up!

Suddenly, the giant net shrank fiercely and pulled it up frantically.

At the same time, a violent roar was suddenly remembered.

It turned out that at this time, the giant net shrank, revealing the prey in the giant net.

This prey turned out to be a huge lava tiger.

This huge lava tiger is more than 800 meters long and extremely fierce.

Moreover, there are wings on the double ribs.

It was originally living in this lava volcano, but at this time it was turned into this tyrannical giant net by Chen Feng's idol stepping on the innocent vitality, and it was directly mentioned.

It struggled madly in the giant net, screaming desperately.

However, it has no effect at all.

Chen Feng looked at him with a smile on his lips.

"This divine essence is generated in lava, like a heaven, spirit and earth treasure, extremely pure, without any impurities, only the purest fire attribute power!"

"Absorbing this one is equivalent to absorbing three other gods!"

Chen Feng didn't hesitate at all, but immediately began to absorb it quickly.

As the net tightened and the power inside was drawn out, the roar and struggle of the giant lava tiger gradually weakened.

In the end, it was completely absorbed by Chen Feng!

After absorbing it, Chen Feng exhaled, and only felt that the divine essence in his body was swelling. At this time, he had reached an extreme suddenly!

"Now, the number of gods in my body has reached seven or seventy-nine Dao!"

"Seven, seven, forty-nine divine essences are already nearly double my previous divine essence!"

Chen Feng only felt that at this time, the strength in his body was filled to the extreme!

It seems that cultivation has reached a bottleneck and needs to vent! Need a breakthrough!

He let out a roar, his arms shook, and the idol stepped on his innocent vitality and began to work, and he was about to break through!

His power slammed into the bottleneck frantically!

Originally, if it was for Chen Feng in the past, with this sense of breakthrough, opportunity for breakthrough, and strong enough strength, then breaking through to the next major level was originally a matter of course!

#### [Chapter 3967: Cohesion! The prototype of Shenyuan Zhanzun!](#)

You can easily break this bottleneck in front of you!

But at this time, his power hits under the bottleneck, but it feels like the bottleneck is indestructible!

There is no way to break it!

The force hit it and was directly bounced back.

Chen Feng shook his whole body, wow, spurted out a mouthful of blood, almost seriously injured!

"What's the matter? Why can't it break through?"

For an instant, Chen Feng was a little shocked!

The next moment, he did not believe in evil, and the power surged forward frantically.

But this time, it was still fruitless!

Chen Feng did not panic, but frowned and began to observe himself.

The power of the idol's innocent vitality wandered through his body, and Chen Feng regarded himself as if he realized that his body was like a high tower at this time.

All the power of the gods was sealed on this high tower, madly rushing towards the top of the tower.

However, the top of this tower is indestructible, and it is impossible to break through.

"Do not!"

Chen Feng suddenly exclaimed: "To be correct, it's not that the top of the tower is indestructible, it's not that the top of the tower cannot be broken, but!"

Chen Feng exhaled a deep breath and said slowly: "There is no tower top at all!"

It turned out that at this time, Chen Feng found that he could not break through to the next step at all!

Not because you can't open the door, but because there is no door.

Because there is no way to go!

And the reason for this is because...

Chen Feng hurriedly turned out that idol's innocent vitality mind, carefully observed for a moment, and then let out a wry smile: "I know why."

It turned out that Chen Feng discovered that his idol was in innocent vitality, and by this time he had already reached the end of his cultivation.

The idols stepped on the innocent vitality mental method, and they have all cultivated!

Without the next mental method, then naturally you can no longer practice, and naturally you can't break through the top of the tower!

Chen Feng got up and looked into the distance: "I see."

"The secret book of my idol stepping on the innocent vitality is the spirit of Zhong Tiandi, born on the Seven Treasure Tree of the gods."

"In the leaves above the Seven Treasure Tree of God's Origin, each one is a part of recording the true vitality of the idol's footsteps."

"At the beginning, the Xuanyuan family's Inner Sect only grabbed a few fragments, not even one-ninth of the full text."

"The remaining ones are scattered in the hands of the other people of the nine major forces. Now I have completed the cultivation of this part of the Xuanyuan Family Inner Sect!"

"If I want to continue to absorb the gods, if I want to completely condense the gods, then I have to get the secrets of this idol to step on the innocent vitality from others!"

"As for how to get it..."

A smile appeared at the corner of Chen Feng's mouth, and he slowly clenched his fists: "Of course he came to ask for it! If he doesn't give it, I will grab it!"

Although he couldn't continue to cultivate God Essence Zhanzun, and was unable to absorb God Essence, Chen Feng felt quite distressed, but this was not the time to think about it.

"I have absorbed more than 30 divine essences in the past three days, so I should be content!

"In fact, even if you can continue to absorb it now, and then continue to absorb it, it will cause the foundation to be unstable."

Chen Feng would also stop and rest for a while.

So, it happened to give her a chance to meditate!

"Furthermore, now with these forty-nine divine essences, the number of times my Yin and Yang ghost steps are used has greatly increased, and my survivability has increased many times!"

In the next moment, Chen Feng stopped thinking about these things, but slowly stood there.

After his body, all forty-nine gods appeared.

Then, the forty-nine Dao to Shen Yuan began to blend, begin to condense, and begin to converge.

Three hours later, there was a loud bang, and then a long roar that almost shook the world!

Chen Feng's stepping idol battle body appeared again.

It's just that, at this time, the Tiantian idol battle body has completely changed from before.

The body of Tatian Idol is already three times larger than before, and it is now about sixty meters in size.

Although the previous stepping-on idol battle body was powerful, it could still be seen that it was a phantom and had no entity.

The whole body is hazy and a little weak.

But now, the surface of this godlike battle body looked very condensed, just like a real thing.

Even more hard, heavy, wrinkled gray crust appeared on the body surface.

On the surface of his body, there is even more golden lines.

It's just that most of these lines are gray, and only on his two front feet, the golden lines light up a little.

Stepping on the sky, the idol war body roared upward, and the momentum was crazy and threatening!

I don't know how many monsters are making crazy roars at the same time.

Suddenly, the roars here came and went one after another.

Chen Feng closed his eyes and felt it carefully.

"Although I can't continue to practice in the next step now, I already have forty-nine divine essences!"

"These forty-nine divine essences, the condensed divine essence battle body has already got rid of the category of battle body!"

Chen Feng abruptly exhaled, with a loud and inexplicable voice: "Now, it can be called the prototype of Shenyuan Zhanzun!"

Between Chen Feng's eyebrows, the color of confidence flashed past!

"What if there is no Shenyuan Zhanzun?"

"The rudimentary form of the Divine Essence Sovereign I condensed with forty-nine divine essences is enough to swallow any Divine Essence Battle Body alive!"

However, what made Chen Feng most happy was not just the cohesion of the prototype of Shenyuan Zhanzun.

Rather, the ability of the prototype of Shenyuan Zhanzun has been greatly strengthened than before!

The previous prototype of Shenyuan Zhanzun had two great abilities.

The first is the sealed space.

The second is to shatter the space, and directly shatter the space that seals the enemy!

The enemy is naturally dead and thorough.

It's just that Chen Feng is using less and less of these two abilities.*NoVELusℙ.cOm*

Because his strength is getting stronger and stronger, and the enemies he faces are getting stronger and stronger, these two abilities are already somewhat incapable.

Only the three-star Wudi could be sealed, and the four-star Wudi could not be sealed, so it seemed quite tasteless.

After all, Chen Feng's current enemies are generally not weaker than the four-star Wudi.

"And now..."

A smile appeared at the corner of Chen Feng's mouth: "Now these two abilities are each upgraded to level 1, and now it is possible to completely seal the four-star Wudi in it, making it impossible to escape!"

"The sealing time is even more than a whole cup of tea!"

"And even the Five-Star Emperor Wu will be sealed in that whole ten breathing world!"

"Ten breaths, I can't break free. These ten breaths are enough for me to do a lot of things!"

"Now that I have the prototype of Shenyuan Zhanzun, my strength is even further!"

[Chapter 3968: See also the giant bronze gate!](#)

"Even the four-star Wudi peak powerhouse, I can easily kill him!"

"Even if it is a five-star Wudi strong, I don't need to use the Celestial White Dragon Spear!"

"With my prototype of God Yuan Zhan Zun, you can fight against one of you! Even if you can't beat the opponent, you will never fall behind!"

A smile appeared at the corner of Chen Feng's mouth, extremely excited.

After possessing this prototype of the God-Essence Battle Sovereign, it means that Chen Feng's strength has gone further.

Without resorting to foreign objects or relying on the Celestial White Dragon Spear, they can fight the Five-Star Emperor Wudi in the early stage.

And now. When his celestial white dragon spear cannot be used, it is even more meaningful to him to be able to obtain such strength.

Chen Feng looked into the distance, his eyes full of longing: "I have a hunch, when I have a hundred divine essence, when the prototype of my divine origin warlord, completely transformed into a divine origin warlord!"

"Then, my God Yuan Zhan Zun, at least can get another ability!"

"At that time, with the cooperation of the three abilities, it will be absolutely invincible!"

Then, Chen Feng put away the prototype of Shenyuan Zhanzun.*novelUsB.com*

Then, move on.

The place is extremely vast, but Chen Feng can also fly, and the forward speed is not slow.

Moreover, the further Chen Feng moved forward, the more he discovered that the entire terrain here was actually more like a huge but not steep mountain.

I was walking from the bottom to the top of the slope, and the terrain was getting higher and higher.

Chen Feng had an inexplicable feeling in his heart, as if his current position was a small hill on the periphery of a sacred place, and now he was gradually moving forward, and gradually moving forward, he was moving towards the top of the sacred mountain. .

There is a feeling like a pilgrimage.

Finally, on this day, Chen Feng flew out of a canyon.

Suddenly, there was a clear view in front of him, and there was nothing else!

He actually has reached the end of this place.

After arriving at this end, Chen Feng couldn't help but let out a shock when seeing the scene in front of him.

It turned out that what appeared in front of Chen Feng at this time was a huge cliff after the sky!

And in the very center of the cliff, there is a huge bronze gate!

That huge bronze gate, about a hundred meters high, looks extremely heavy!

There are many horizontal barbs on it, forming a circle around it, like fangs.

It is so tightly embedded on the cliff, overlooking the world below.

After Chen Feng watched it, his heart jumped fiercely.

"Here, a huge bronze gate has appeared!"

"What's behind this huge bronze gate? Where does it lead?"

Chen Feng didn't know all of these.

But the reason why he was shocked was that Chen Feng had seen this giant bronze gate before!

Before, when he was in the deserted ancient ruins, he entered the deserted ancient secret realm left by Master Yan Qingyu.

At the end of that desolate ancient secret realm, there is also such a huge bronze giant gate with countless huge barbs like fangs!

It was exactly the same as the door in front of me.

The only difference is that this giant gate is much smaller than the bronze giant gate in the deserted ancient ruins.

Its size is probably less than one percent of the huge bronze gate in the deserted ancient ruins, and its momentum is much weaker.

The comparison between the two is like the difference between an ordinary warrior and a strong man even though both are human races!

Countless questions arose in his heart instantly.

"Why is this huge bronze gate exactly the same as the huge bronze gate left by Master? What kind of connection is there?"

Chen Feng didn't know anything about these things.

But he knows that to get here means that he is on the right path.

It means that I am one step closer to the star fragments and the core secret of the sorghum mountain!

Chen Feng left those emotions behind and came to the giant bronze gate, trying to open it.

But Chen Feng changed countless methods, and the bronze giant gate remained motionless.

Finally, Chen Feng moved his attention to the giant bronze gate, a depression above it.

A wry smile appeared at the corner of his mouth: "It seems that I still need the key? I can't open it without the key, right?"

But the point is, where does he get the key?

But at this moment, Chen Feng's heart suddenly jumped violently, his blood accelerated in an instant, and even his face was flushed.

At this moment, he was extremely excited!

It turns out that just now, he actually heard the voice of two people talking!

Here, it is almost close to the core, close to the ultimate secret of the star fragment!

"So, who is most likely to be here?"

There is no doubt that they are naturally the people of Chaoge Tianzi City.

Chen Feng quickly took a deep breath, and instantly calmed down the excitement.

At this moment, he had already heard the voices of the two people talking, which actually came from behind this giant gate.

The next moment, the huge bronze door shook violently and made a croaking sound, and it seemed that it was about to open.

"They turned out to be inside this bronze door? How could they open this bronze door? Where are they?"

Chen Feng didn't have time to think about it, his figure flashed, and he disappeared.

The next moment, he quietly emerged in a small shadow hundreds of meters away.

And as soon as he left there, two people appeared there.

If Chen Feng was a moment later, he would be discovered directly by them.

Then, he silently slid down the boulder and came between the two boulders.

The gap here is very small, the next step is the lava ocean, there is no risk of being discovered.

At this time, the sound of footsteps and words became even clearer, and finally stopped at a distance of several hundred meters from Chen Feng.

Chen Feng roughly figured it out, and found that they were staying right next to the giant bronze gate.

Chen Feng was already clear in his mind.

At this time, he also heard the voice more clearly.

There are two people in total, one of them has a rough and steady voice, and the other one is a bit thin.

It sounded that the rough voice seemed to be younger, but it was much calmer than the owner of the shrill voice.

There was a hint of cunning and cunning in that shrill voice.

The rude voice said in a deep voice: "Tu Zhengqing, you have to watch this for me!"

His voice became abrupt: "The Lord of the City has an order. Anyone who comes here, no matter what his identity or background, is to say nothing, kill him!"

"Understand?"

At this moment, Chen Feng's breathing stopped instantly when he heard the words 'Sir'.

But in his eyes, there was a flame suddenly burning!

Bright and hot!

Tu Zhengqing, with a greasy face, said with a smile, "Yes, yes, I can understand."

[Chapter 3969: capture!](#)

"This time, it's a big matter, it's about the rise and fall of our Chaoge Tianzi City. We must monopolize this secret, and we will never allow others to interfere!"

The rough voice continued: "Don't let me slack off!"

"The Lord of the City led us to fight in this ghost place for three full months before we came here!"

"Now, we have discovered these sixteen giant bronze gates in total!"

He paused, and then solemnly said: "The only possible way to reach the core is these sixteen giant bronze gates. Apart from that, there is no other way!"

"Therefore, every door is very relevant and important!"

His voice rose suddenly, with a stern tone: "Do you understand?"

The shrill voice gave a grin, and quickly said: "I understand, I understand!"

"Vice-City Lord, don't worry!"

"Although his subordinates usually do nothing, they never get confused about such major events!"

"I know the pros and cons of this matter."

What he said was very quick, and he promised very simply, but in other words, he gave people a look that he didn't care much about.

The tone of that rough voice suddenly rose: "You kid, don't take it seriously!"

"In seven days, the treasure will be born!"

"For this matter, Lord City Lord's family has waited for tens of thousands of years, Lord City Lord has planned for 50 years!"

"If it's because of you, the major event of Lord City Lord has been broken!"

His voice suddenly became cold and stern with a hint of murderous intent: "I've skinned you!"

As soon as he said this, Tu Zhengqing was also a little scared, and he hurriedly took a few serious points, and after a curse and swearing, the city lord let him go.

It seemed that he was still a little worried, and he left after another warning.

Chen Feng only heard a rolling sound from the giant bronze gate, and then another similar sound.

Obviously, he opened the giant bronze gate and entered it.

Chen Feng secretly said in his heart: "This huge bronze gate, I just thought of many ways to open it, it seems that a special method is needed."

"And they were able to open it. Seeing this, they should have opened more than this door."

"It can be seen that they have indeed planned for a long time!"

"Compared to them..."

Chen Feng lowered his head and smiled bitterly: "I can be regarded as a mantis arm as a car!"

"What I have to face is a master who surpasses the six-star martial emperor, and a dozen five-star martial emperors!"

"But, so what!"

If there was flame burning in Chen Feng's eyes, it actually aroused his fighting spirit: "Since we are going to divide the life and death!"

"Then, you die, I live!"

At this time, as the master of the rough voice left, Tu Zhengqing suddenly spit out a thick sputum on the ground.

The respect just now disappeared immediately, replaced by endless curses.

He cursed there: "Fuck, Luan Feiluan, you a dog!"

"You are training me like a dog! What do you think you are?"

"Isn't it just being trusted by Zhao Haochu? If I hadn't been afraid of Zhao Haochu behind you, I would have killed you directly!"

However, when he talked about it at the end, he was a little lacking in confidence.

Obviously, his strength should be inferior to that rough middle-aged Luan Feiluan.

Then, he fell silent.

Chen Feng's figure slipped out quietly and looked over there.

Then he saw an old man in red sitting on the boulder beside the huge bronze gate.

He has white hair, a long white beard, messy, and he feels very sloppy.

His face flushed, and the whole person showed a strange excitement.

Suddenly, he stood up, walked back and forth, while walking, cursing in a low voice:

"His mother, Zhao Haochu, this old thing, with the group of people he trusts the most, is waiting for the birth of the treasure at the core!"

"But sent us to the outside to see the door!"

"You eat meat and don't even give us a sip of soup?"

Listening to him complaining and cursing there, Chen Feng probably understood what was going on.

It turned out that many people came to Chaoge Tianzi City during this trip.

And there are more than ten of them. In the City Lord's Mansion of the Heavenly City, even if their strength is relatively low, they are not often regarded by the Lord Lord.

Therefore, they were sent to guard each door.

Of course, this so-called relatively low is also relative.

The strength of this person has also reached the early stage of the Five-Star Emperor Wu, and he definitely should not be underestimated!

At this moment, Chen Feng was hiding in the dark, but there was already a smile on the corner of his mouth, and he was so excited that he almost shouted out:

"Found it, found it!"

"Really let me find the traces of these people in Chaoge Tianzi City!"

"Except for the city lord of Chaoge Tianzi City, who else can the lord of the city be?"

"God pays off! I've been searching here for a few days, feeling embarrassed and frustrated. I finally found it!"

It turned out that the people in the City Lord's Mansion of Chaoge Tianzi City were somewhere behind this giant bronze gate.

Chen Feng was secretly surprised that they had made so much progress, had obtained so much information, and had controlled such a huge amount of secrets.

But at the same time, his heart is also burning.

Because Chen Fengfeng knew very well that all they did was just making wedding clothes for themselves!

After the Celestial White Dragon Spear evolves, you can kill the Five-Star Martial Emperor.

The red-clothed old man complained for a moment, then shook his head and sat there sulking.

Chen Feng looked at him from a distance, with a hint of thought in his eyes, and whispered to himself:

"Although I have been here now, I have received a lot of news from the two of them, but it is not enough."

"I need to know more!"

"I want to know how many people there are in Chaoge Tianzi City, their cultivation level? What are their weaknesses? And how they are distributed!"

"but....."

Chen Feng smiled bitterly: "He will certainly not tell me these words himself, so he must be caught and tortured!"

Catch it!

Torture!

If someone knows Chen Feng's thoughts at this time, I'm afraid he will laugh out loud.

Chen Feng is just a three-star martial emperor, and he wants to capture and torture a five-star martial emperor!

You know, catching is not the same as killing!

The difficulty is at least ten times that of kills.

If it is possible for Chen Feng to kill a five-star martial emperor, then it is absolutely impossible to capture him!

You know, his current cultivation base is just in the early stage of being able to match a five-star martial emperor.

[Chapter 3970: Show the enemy's weakness!](#)

Even Chen Feng felt extremely absurd when he had this thought.

Generally speaking, only one level higher than the opponent can capture the opponent.

Can he do it?

But Chen Feng didn't regard this as a joke, his eyes were deep and he began to think quickly in his mind.

After a long time, Chen Feng's frowning brows suddenly stretched out, and there was also a touch of relief in his eyes.

He sighed softly and whispered to himself: "If this is the case, then you should be 70% sure!"

A 70% certainty is high enough!

"Then, the biggest problem I need to solve now is..."

Chen Feng looked at the red-clothed old man, and his eyes flashed with a clear and clear light: "Let him not be able to send information to others!"

"In a short time, if I pay a great price, then it is possible to catch him."

"After all. His strength is in the early stage of the Five-Star Emperor Wudi, and he has not yet entered the middle stage of the Five-Star Emperor Wudi. If he is in the mid-term, then I would be very difficult to deal with."

"Now he, after I use the prototype of Shenyuan Zhanzun, he should still be able to deal with it!"

"but!"

Chen Feng frowned: "The biggest difficulty lies in how to make him different from other people?"

After all, if he sees a powerful enemy coming, his first reaction should be to report to others.

"Unless, I am not a strong enemy!"

A glimmer of brilliance flashed across Chen Feng's eyes.

A smile was drawn at the corners of his mouth, and he was confident.

At the same time, Chen Feng's right hand turned quietly, turning the emerald green finger that he was carrying slightly, making the finger more conspicuous.

This emerald green finger seals his Qingluan Ruyi Boat.

In Chen Feng's mind, a strategy gradually took shape.

At this time, Tu Zhengqing had already taken out a huge sapphire gourd, opened it, and drank on his back.

An amber liquor flowed out of it.

At the same time, a red lacquered food box appeared in his left hand at some point.

After opening the food box, a strong smell of meat came out of the food box, and it was actually a few large pieces of roasted superior monster meat.

These large pieces of monster meat are derived from the one-star monster and the two-star monster. The meat is not only delicious and melts in the mouth, but also contains huge power.

He ate and drank there, heartily and unhappily.

But even so, his ears were always trembling slightly, capturing the information around him.

He did not relax in the slightest.

Being able to become a warrior of this level is definitely not a fluke.

But at this moment, suddenly, his ears trembled, a look of extreme alertness suddenly appeared in his eyes, and he suddenly looked back.

His eyes were extremely sharp, like two cold electricity, looking in the direction of the sound.

Where is there half a point of drunkenness?

It turns out that just now, he actually heard a sound!

This sound is exactly the movement of rocks falling down!

"Why are there rocks falling down here? Why is there such a sound?"

He immediately looked there, but he saw nothing. *novelsb.com*

It is a cliff, and under the cliff is magma.

It was very calm there, no waves, as if nothing had happened just now.

Only a small stone rolled down from the rock wall, falling into the magma.

Tu Zhengqing remained silent, but stood up slowly.

His hand also stretched out slowly.

And in his hand, a fiery red dagger appeared.

He did not make any movement, did not speak, and even drank two sips of wine.

He did this naturally to let the person who hides in the dark and can't see him, relax his guard.

His eyes were very clear, and in an instant, a cold and harsh expression flashed in his eyes, and he suddenly shouted: "Get out of me!"

The short sword in his hand slashed forward fiercely!

His sword was no more than a foot long, so it was more like a dagger than a sword.

The surface was blazing, like a burning torch.

You can't even see the appearance of the sword. Although it is short, this sword has a tyrannical momentum!

After a sword was drawn, a flame trail resembling a rainbow burst out of the sky that day, as if it could divide the sky in half!

In the air, the temperature rose instantly.

And an extremely fierce sword aura was also smashed out fiercely, smashing towards the hidden place of Chen Feng!

At this moment, there was directly hit into powder!

And Chen Feng was forced to jump out of it.

He looked at Tu Zhengqing anxiously, and then fled outwards quickly.

Tu Zhengqing also saw a figure flying out from there in an instant, and hurried to the distance, and suddenly laughed proudly: "Boy, I have forced it out!"

He swept towards Chen Feng. Although Chen Feng was running away at this time, Tu Zhengqing was a five-star martial emperor after all, and he could roughly see Chen Feng's strength.

Dang Even chuckled: "It's just a three-star Wudi's ant. How dare you spy on your grandfather? Even dare to beat our idea of Chaoge Tianzicheng?"

There was a hideous look on his face: "You are looking for death!"

But then, he raised his eyebrows, his eyes were a little surprised: "Boy, you are not slow!"

It turned out that what Chen Feng showed at this time was the daily Golden Crow footwork.

Although for Chen Feng, the Jinwu footwork is too slow and will be eliminated, but in the eyes of others, this speed is still extremely fast, and it is also an extremely rare footwork martial art.

"but....."

Tu Zhengqing grinned and said, "No matter how fast you are, where can you go? It will be easy for me to catch up with you!"

After all, his figure flashed and he was chasing Chen Feng.

In a blink of an eye, it greatly shortened the distance with Chen Feng, chasing closer and closer.

The look on his face was even more triumphant, and he raised his voice: "Boy, I said, you can't run away!"

At this time, Chen Feng, who was escaping in front, had a smile on his mouth.

Because Tu Zhengqing had no intention of sending signals to others at all.

Chen Feng sighed softly: "The first step is right!"

"The first goal has also been achieved!"

It turned out that Chen Feng's first step was to show the enemy's weakness and let him chase him.

For Tu Zhengqing, Chen Feng is a mere three-star martial emperor so weak, if he still tells others to know, wouldn't it be too shameful?

Now, the first step, Chen Feng has been completed.

Then...

Chen Feng's eyes flashed: "The second step!"

Chen Feng looked panicked in this fashion, turned his head fiercely, and then, there was a look of horror on his face.
