

## Peerless 411

### [Chapter 411: Vault](#)

Sun Hua shook his head and said with a wry smile: "I don't know about this. My Sun family has been doing this business for hundreds of years, but even within a few hundred years, there are very few Martial Spirit Amplifiers. No more than twenty."

"So this thing is very expensive. We only know that this thing can increase Wuhun, but the family elders have done a lot of research, but still can't figure out the origin of this thing, but can judge that it should be of a certain kind. Fragments."

"But..." He continued: "With the accumulation of these years, we can roughly judge the quality of a Martial Spirit Amplifier. The size of a Martial Spirit Amplifier, the bigger the better, the more brilliant the color, the better, Brother Chen, you If you encounter it in the future, you can give it a try."

Chen Feng nodded and said, "Junior Brother Sun, thank you very much. I know a little bit about this stuff."

Now on the road, and there are many people around, Chen Feng can't test the effect of this thing on the increase of Wuhun. He intends to test it immediately after the Great River City.

I don't know if it was because Sun Daoyuan was here or for other reasons. The road was calm and there was no situation. By the evening, he had already arrived at the Great River City.

It was too late today, and it was not convenient to choose medicinal materials and a pot for cultivation, so Sun Hua looked for an inn next to Sun's mansion and asked Chen Feng to settle down, and the two parties agreed that they would go to Sun's house early tomorrow morning. , Selected at the company headquarters in Great River City.

After arranging for Chen Feng to stay, Sun Hua and the others hurriedly returned to the Sun's house with the black python skin and scales. They should quickly ask the elders of the Sun's family to conduct a comprehensive evaluation of this thing. And see how it should be cut.

In the Sun Family, in the Family Council, the Patriarch of the Sun Family, a group of Supreme Elders, and the elders of the Family Presbyterian Council, but all the people in the Sun Family who have a head and face are all here at this time.

In the chamber, dozens of people are here, but they are quiet and silent.

Everyone's eyes fell on the huge black gold python skin and scale armor placed on the table in the middle of the chamber.

An old man with a pale hair and beard and gray hair and beard, walked around the table twice, he looked at the black python's scales for a long time, finally raised his head, facing everyone slowly Said: "Yes, it's the python skin of the Wujin Python."

"But the preservation is not very complete. Basically, the degree of completeness is about 75%. There are a dozen injuries on the body, but fortunately, they are all small injuries. Looking at his age, it is a full three hundred and seventy. Seven years."

He knocked on Wujin Python's python skin, and said, "This thing is not a problem to block the attacks of the fifth building master."

Everyone was shocked when they heard it.

It's not that common for the Fifth Floor Master in the Divine Sect Realm. In this Long River City, there are not many people at all. They can block the fifth floor master's attack. It can almost be thought that if you wear this black golden python Leather armor made of python skin is equivalent to one more life. Many people have a look of greed in their eyes, looking at this black golden python skin, wishing to take it for themselves.

At this time, the Patriarch Sun, who was sitting on the top, suddenly opened his eyes and looked over everyone's faces.

He slowly said: "Your mind, I understand that the leather armor made from the python skin of the black golden python can withstand the attacks of the fifth floor master. It is not an exaggeration to say that it is a treasure. If it is because of some spiritual stones, If it spreads to the outside world, it becomes a treasure for others to deal with my grandson family.

"I declare that this time all the leather armors made without the black python python skin will only circulate within the family."

Hearing these words, everyone was overjoyed, but the Patriarch of the Sun family suddenly changed his voice and continued: "Treasures cannot be given easily, otherwise it would be too trifling. Only those who have contributed to the family have the ability. Get one."

Having said that, he looked at Sun Hua with a gentle look in his eyes, and smiled: "Sun Hua, you met Chen Feng. This is the first great achievement. You can get the python skin of this black golden python. The second great work. Leather armor, you deserve your share."

Sun Hua quickly thanked him, with a smile on his face.

He is not so rare about this leather armor. He is not so keen on fighting, but prefers business. He was delighted that the Patriarch's actions represented that his achievements were recognized by the family.

Then the Patriarch of the Sun family faced everyone and said categorically: "There is another thing, that is, that Chen Feng, to be the key support object of our Sun family, we must increase our support for him."

"This kid is so tyrannical at a young age, and his future achievements are bound to be limitless. Do you have any opinions?"

His voice was very firm and his tone was extremely strong. Obviously, he couldn't dispute it at all. And the Patriarch of the Sun family has always been very strong in the Sun family. At the same time, what he said was very reasonable, so no one opposed it.

Soon, with everyone's approval, the resolution to strengthen support for Chen Feng was passed.

After everyone had dispersed, the Patriarch of the Sun family left Sun Hua, and he glanced at his young son with relief.

Before Sun Hua entered Qian Yuanzong, he had always been a very inconspicuous role in the Sun family. He had average talent in cultivation, and his body was a little weak since he was a child. Compared with other brothers, his realm is only average. The Patriarch of the Sun family did not pay much attention to him, but he did not expect that after entering Qian Yuanzong, he showed such a strong business talent, did so many things, and made such a promising young talent for the family. .

This really made the Sun Family Patriarch overjoyed.

After leaving Sun Hua, the Patriarch Sun looked at him and said in a deep voice: "Sun Hua, when you take Chen Feng to choose medicinal materials and pots tomorrow, you must do your best to befriend him, and you can even open the secret library. , Let him choose among them."

After hearing this, Sun Hua couldn't help but move.

"It turns out that the secret library can be opened. It turns out that my father's importance to Chen Feng is beyond my estimation!"

The secret storehouse can be said to be one of the most important core points of the Sun family. Almost all the things stored in it can be called treasures, and it is the most valuable thing in the entire Sun family.

Most people don't say they want to go in. Even the disciples of the Sun family have to get permission from the Patriarch if they want to go in, and to take something out of it, they have to get permission from the Family Presbyterian Church.

"Father, I know." He nodded and agreed.

#### [Chapter 412: Auction](#)

At the time of Sun's decision, Chen Feng had already arrived at the Xie's auction house.

This time, after the guard at the door of the Xie's auction house took him to Chen Feng, his face showed a very respectful look.

The last time Chen Feng and Xie Mingchang had a conflict outside the auction house, everyone could see clearly, knowing that this master was not an easy mess, and if it really provoked her, it would be a worry for his life.

So they were very respectful to Chen Feng and immediately went in to report and invited Xie Dongshan out.

After Xie Dongshan learned the news, he greeted him personally, and the two came to an elegant living room in the Xie's auction house.

A maid served tea, and the two were seated separately. Xie Dongshan looked at Chen Feng and smiled: "Brother Chen, every time before you come over, the magpies in the yard will call out. If you come here, you must have brought good news. There are a lot of good things, let us auction them, but I look forward to your coming every day!"

Chen Feng smiled and said: "Thank you brother, then this time, I really want to disappoint you! I didn't bring anything this time."

After listening to Xie Dongshan, his expression remained the same, nor did he become cold. He tapped on the table lightly, and laughed: "It's okay, Brother Chen, you can come. It doesn't matter whether you bring something or not. . Do you think I look like that snob, brother?"

Chen Feng smiled and said: "Thank you brother, I was so embarrassed just now, I was joking. To be honest, this time I brought a lot of things."

As he said, he stood up and poured out all the things he had brought to the Xie family for auction from the mustard bag.

Suddenly, an extremely strong smell of blood permeated the hall.

More than a dozen corpses of monsters appeared on the ground. Note that it was the entire corpse, not the skin and scales that had been peeled off.

These monsters were all killed by Chen Feng in the tide of beasts. Naturally, the monsters that Chen Feng killed by himself could not be cheaper for others.

Among these monster beasts, some of them are relatively low-level and do not have much use value. He only took the crystal core, and the monsters that can be put into the mustard bag by him and squeeze the space in the mustard bag are all powerful. Quite strong, the lowest is also the acquired nine peaks.

And most of them are monsters in the first floor of the Divine Gate Realm.

A full dozen monsters appeared on the ground, all of them huge in size, and instantly crowded the living room.

But Xie Dongshan didn't care about these details, he cares about the value of these things.

After seeing these monsters, a strong shock appeared on his face, and he exclaimed: "Iron claw pangolin, thick earth bear, unicorn tiger, Brother Chen, these monsters are very Not bad! They are all the monster beasts of the first building in the Divine Sect realm, and all the fur and scales on their bodies can be used!"

"And you see, the four iron claws on the giant pangolin beast, as well as the half-meter-long unicorn on the head of the giant unicorn tiger, are extremely precious materials and expensive."

Chen Feng smiled slightly: "If it's not a good thing, I wouldn't dare to bring it to Brother Xie and show it to you."

Xie Dongshan exclaimed: "These monsters are not only powerful, but they often occupy one side of each other and are not together. It must have taken a long time for you to hunt these monsters."

Chen Feng smiled and said, "Brother Xie, you are wrong. It took me less than an hour to hunt them down."

Xie Dongshan was shocked: "What? Less than an hour? How could it be possible?"

Chen Feng said: "What I said is true, because not long ago, Qian Yuanzong encountered a beast wave. It was quite large and many beasts were killed. These beasts were very concentrated at the time."

Chen Feng smiled and said, "Thank you, brother, let me tell you the news by the way. Those of you who are thanking the family, you can go to Qian Yuanzong for more activities during this time, and you should be able to acquire a lot of monsters."

"Among Qian Yuanzong's powerful disciples, there are many people who are dedicated to cultivation and are too lazy to go down the mountain. They have a lot of monsters. Moreover, they should not care about it because of their temperament, and they should be able to buy it at a low price. Come down."

Xie Dongshan gave an excited high-five, and laughed: "Brother Chen, this news of you is really timely, this news is extremely valuable!"

Chen Feng said: "In fact, it is not only Qian Yuanzong. I suspect that other sects in the Aomori Mountains should have been affected. This time the scale of the beast tide is very large. You can also go to other sects to check and touch. Take a chance."

Xie Dongshan nodded: "Brother Chen, don't worry, I know."

He asked again: "Brother Chen, you are here this time, you want to buy something!"

In fact, Chen Feng really wanted to buy a lot of things this time, and a considerable part of it was to buy for Shen Yanbing.

"Haha, Brother Xie, there are so many things I want to buy this time."

"The first is the medicine to repair the soul. Has it been available recently?"

Chen Feng never had too few medicines to repair the spirits. The more medicines used to repair the spirits, the longer Ziyue could exist.

After hearing this, Xie Dongshan looked a little embarrassed, and said with a wry smile:

"Brother Chen, this medicine is really gone. You may not know that after you came here last time, the batch of medicine that the eldest gave you to repair the soul was originally Master Ge Dan's. Miss deducted half for you."

#### [Chapter 413: Bully](#)

"Master Ge Dan was furious when he heard the news, and had a very quarrel with the eldest lady, and put down the cruel words and said that he would avenge our Xie family and you." *noVeluSB.com*

"The medicines for repairing spirits are indeed very precious, and we don't have them now."

After Chen Feng heard this, he was quite apologetic. After all, this incident was due to him.

Xie Dongshan smiled and said: "Brother Chen, you don't have to be like this. This matter was originally ours voluntary. What Master Ge Dan really wants to do is not easy for our Xie family."

Chen Feng nodded slightly and was not polite. It is unnecessary to say more about the relationship between him and Xie Dongshan.

At this time Xie Dongshan said again: "Brother Chen, are you in a hurry for Lingshi now?"

Chen Feng nodded: "I really need this thing more now."

Xie Dongshan said: "If this is the case, I'm afraid you will have to wait for a few days in this Great River City. In another ten days, it will be our annual winter auction at the Xiejia Auction House in Great River City."

"Winter auction?" Chen Feng raised his brows and asked in surprise.

After Xie Dongshan explained it, Chen Feng only understood what it meant.

It turns out that Xie's auction house is not only widely distributed in all the cities of Danyang County, it has a large power, rich resources and high-quality goods in hand, and it is better at making all kinds of gimmicks and flowers.

For example, Xie's auction house will hold an auction in the middle of each quarter, in spring, summer, autumn and winter.

Chen Feng did not catch up with the previous three quarterly auctions in spring, summer and autumn, but this time the winter auction was just in time and just happened to be able to catch up.

Xie Dongshan said: "In fact, there will be a small auction just three days later. Brother Chen, these items of yours should be sold at that small auction, but the price of the sale will be at least higher than At winter auctions, auctions are about 30% lower."

"This quarter's auction is already the second largest auction in my Xie's auction house, and the bigger one is the golden top auction held every three years. Of course, the last golden top auction was held last year. You It must be missed."

Chen Feng hesitated after hearing this.

At this time, Xie Dongshan said, "Brother Chen, when the young master left after you left last time, he asked me to say, if you come to Great River City again, let me tell her that she will come to Great River City to meet you in person. , Say something."

"The young master is now in the Xie family headquarters in White Rock City. If I send a call to inform the young master now, it will be almost ten days before she arrives."

When he said this, Chen Feng stopped hesitating and nodded and said: "Okay, then I will wait for the quarterly auction to end in ten days, and then meet your young master before leaving."

He remembered about Shen Yanbing and said, "Brother Xie, would you like to do me a favor?"

Xie Dongshan quickly said, "Brother Chen, just say it."

Chen Feng said: "During this period, please help me to check if there are any better healing medicines. If so, I hope to keep some for me. The more the quantity, the better, the higher the quality. Good. As for the price, it's easy to say."

Xie Dongshan nodded and agreed very quickly. He was also very witty and didn't ask Chen Sheng why he wanted these healing medicines.

Chen Feng actually bought these medicines for Shen Yanbing. After all, Shen Yanbing is going to experience the depths of the Aomori Mountains, and no one knows how long he will stay in it. And inside, it can be expected that it will not work without medicine.

So Chen Feng wanted to bring her a batch of high-quality healing medicines as much as possible.

After Xie Dongshan agreed, Chen Feng said again: "There is another thing that you also need to help find, which is the jade talisman for communication."

"Is it the jade talisman for communication?" Xie Dongshan nodded and said, "Okay, I wrote it down. This thing is very rare and usually impossible to find. It really takes chance and coincidence. I must Help you pay attention."

"But Brother Chen, let's talk ugly in front. I can definitely find some elixir for you, but this communication jade talisman, if it's not a coincidence, there really won't be any."

Chen Feng smiled slightly and said, "Brother Xie, I understand this truth, don't worry!"

Coming out of the Xie's auction house, it is already the beginning of the Hua Deng.

This is the first time Chen Feng has seen the night scene of Changhe City. Changhe Village has a population of millions and is a big city with a radius of hundreds of miles. It is indeed very prosperous and wealthy.

At this time, the city is littered with lights, and the restaurants and shops on both sides of the street are brightly lit. When you walk into the street, there is a bright light everywhere, like a city that never sleeps.

Chen Feng had just walked out of the Xie's auction house and turned a corner, and he saw a large group of people surrounded by crows. At least there are hundreds of numbers.

In the crowd, there were bursts of crying, and it seemed as if a woman was crying.

Chen Feng frowned and squeezed in from the crowd. There were a lot of people, but Chen Feng was so angry that he easily squeezed to the front.

Surrounded by the crowd is a clearing. At this time, two people are kneeling in the middle of the clearing.

Among them, two women and one man.

These two women, one is a woman in her thirties, and the other is a girl who is seven or eight years old. The man next to him, correctly speaking, should be called a boy more appropriately, but he is seven or eight years old. It's just a child.

All three of them were kneeling on the ground, with a grass sign stuck on their heads. Chen Feng asked the person next to him: "What are they doing?"

The person next to him glanced at him and saw that the boy was young and his clothes were ordinary, and his face suddenly showed disdain.

The corners of his mouth curled up, and he squinted at Chen Feng, and said disdainfully: "You don't know how to sell the first label? You can tell from the countryside, an ignorant kid?"

Chen Feng was not angry either. This man was obviously an ordinary person, not even a warrior. Why did Chen Feng be angry with him? Will elephants be angry with ants?

But as soon as he said that the first bid was inserted, Chen Feng knew what was going on.

According to the rules of Longmai Continent, if ordinary people want to sell themselves and sell themselves as slaves, they will kneel on both sides of the street and put a grass mark on their heads. This means that they are goods and are okay. Bought and sold.

The two women looked quite similar, they were clearly mother and daughter, and their faces were quite beautiful, and they were not like ordinary people in terms of temperament. And the little boy, although unkempt, but tender.

The family's origin should not be bad, and I don't know why it has fallen into this situation.

There was a lot of discussion among the crowd, but no one came forward to buy them. Even if there were a few who wanted to go up, after seeing the number written on the white cloth in front of them, they hesitated. Obviously, they were scared off by that number. Up.

It read: "Twelve thousand taels of silver."

Chen Feng was born in Qian Yuanzong since he was a child, and he rarely dealt with money and other things. He always used Lingshi as currency.

But he also knew that ten thousand taels of silver was almost equivalent to all the wealth of a hundred middle-class families. Even if it is a wealthy family, I am afraid that they rarely can come up with so much money.

At this time, outside the crowd, a very domineering voice suddenly sounded: "Get out, get out of the way, let me give in to Laozi!"

Then, the crowd was squeezed abruptly, and several big men walked in leisurely.

It is winter now. If ordinary people can't resist the cold at all and put on thick winter clothes, these people are all shirtless, showing their chests with hairy chests and large tattoos on their bodies.

Chen Feng glanced at them, but did not pay attention. Two of the three people are ordinary people who are stronger, and the leader in the middle is the three-fold cultivation base of the day after tomorrow. In his eyes, the lowly follow There is no difference between ants.

The three big men, seeing the mother and daughter, both showed lewdness on their faces, and walked towards them three with a lewd smile.

Hearing laughter, the three people who inserted the label and sold their heads raised their heads, and saw these wicked men, their faces were full of fear.

The young woman in her thirties turned pale, and said in a panic, "What are you going to do?"

"What are we going to do? Little lady, don't you know?" The big guy in the lead, chuckled, walked up to her, put his hand on her smooth and creamy face, and squeezed it twice. .

He smashed his mouth, nodded in satisfaction, and smiled.

#### [Chapter 414: Put them down!](#)

The big man said, "This little face is really tender and smooth, even tenderer than the egg white! The face above is really good."

"You two say, don't you?"

"Brother, have eyesight," the two followers behind him laughed. The three of them looked at each other, and they all laughed lustfully.

Several people molested the woman in public. The woman's face was flushed, shy and angry, but this did not end.

The big man said, suddenly he hugged her in his arms, hehe smirked:

"This little girl, I can't see it. She is dressed in fluffy clothes and covered her body. I didn't expect her body to be so raw! The place that should be big is big, and the place that should be upturned."

As he said, there was another presumptuous smile.

In his arms, the woman was already full of tears. She struggled hard and screamed, but she was two heads shorter than the big man, and the big man is a warrior. How could she break free? ?

The more she struggled, the more aroused the big man's desires grew, and he couldn't wait to rectify her right here.

The two children, the boy and the girl, were shocked when they saw this scene, and then the two of them rushed up like two wolf pups, pulling the arm of the big man vigorously, trying to rescue their mother go with.

At this time, the other two big men, one by one, hugged them separately.

The big guy in the lead, he glanced at the little girl who was already a pretty girl although she was very young. Heheyin smiled and said, "This pair of mother and daughter flowers, looks really good, and this little girl can eat too. If you're on the bed, press two people together, with two faces one big and one small in a row, tsk tsk, what it's like..."

The three big men were punishing the murderers here, and everyone was watching, but their faces were full of fear, and no one dared to come forward to help.

They all live not far from here, knowing the power of these three ground snakes, they are outsiders of the famous Tiger Gang in the city. Someone once provoke them, but the whole family was found killed the next morning.

These three people may not be of high status, but they are cruel, and no one wants to provoke them.

Seeing these people around you behave like this, the big guy in the lead was even more proud. He greeted the two subordinates and shouted: "Go back, enjoy them in bed!"

The three of them were about to leave, and suddenly at this moment, they found that one person was blocking their way.

The one standing in front of them was a fifteen or sixteen-year-old boy. Although he was tall and handsome, he was dressed in ordinary clothes and looked like an ordinary person.

Chen Feng stood in front of the three of them, with anger rising in his eyes, and said in a cold voice: "Put the three of them down."

"What? What did you say? You asked me to put the three of them down?" The big man looked at Chen Feng in disbelief, and then let out a burst of laughter like he heard the funniest joke.

He said to the two attendants, "Have you heard? What did this little \*\*\*\* say? Tell me to put these two people down, hahahaha..."

The two attendants also sneered with disdain.

Suddenly, his face became savage, looking at Chen Feng, his face was fierce: "Little bastard, you now kneel on the ground and give Lao Tzu a hundred beeps, and call Grandpa, Lao Tzu will only break your two legs. Otherwise I will kill you now, believe it or not?"

Chen Feng shook his head slightly: "I don't believe it."novElus6.cOm

"Little bastard, you're looking for death!" One of the two attendants screamed and punched Chen Feng hard.

Chen Feng did not evade, grabbed his fist as soon as he stretched out his hand, and then stretched out his hand to twist it gently.

The big man let out a scream, his right arm was twisted like a twist. As soon as Chen Feng raised his leg and kicked his chest, the big man vomited blood, stepped back and sat on the ground, clutching his chest and screaming in pain.

His chest collapsed, and his bones had been directly kicked by Chen Feng.

"Oh, boy, I didn't see it, you're still a practicer." A dignified look flashed across the face of the leading man, he put away his hippie smile, and let go of the woman in his arms.

The young woman hurriedly hugged her two children, and the three of them hugged and flinched to one side.

The big man twisted his fists. With a creaking sound, looking at Chen Feng, he said in a cold voice, "Even if you have a bit of a three-legged cat in your hand, you are dead today."

"Grandpa will teach you a truth today, instead of learning a little bit of superficial skills, you can learn from other people's chivalry and righteousness, and be careful with your life!"

As he said, he blasted Chen Feng out with a fierce punch. His punch was no longer a rough fist, but meant to bring some martial skills.

Obviously, he had also practiced some very low-level martial arts. Although low-level, it was enough to deal with ordinary people.

But Chen Feng just didn't evade, standing there blankly, and some people around exclaimed: "Is this kid scared stupid?"

"It's over, he must be smashed into his head by Qi Lao San with a punch."

#### [Chapter 415: Kill directly!](#)

Some timid people even close their eyes and dare not watch this scene again.

However, as everyone expected, Qi Laosan fisted away and Chen Feng's brain bursting did not happen. Instead, they let out a huge exclamation.

Because Chen Feng put up a finger, just a finger, blocking Qi Laosan's fist.

Qi Laosan's face was flushed, with blue veins jumping on his forehead, desperately moving forward, desperately pushing, but couldn't shake Chen Feng at all.

A smile appeared at the corner of Chen Feng's mouth, and he said lightly: "Is it enough?"

Seeing Chen Feng's understatement, Qi Laosan knew immediately that he had encountered hard stubble this time, and he was also a decisive person. He turned around and was directly ready to walk out.

But he only felt his eyes flashed, and he saw the young man who was still a few meters away just now, but he was blocking him.

Chen Feng looked at him with a stern look at the corners of his eyes and eyebrows: "Did I let you go?"

Oldest Qi glared at him, and screamed inwardly: "This friend, I'll accept it today, I don't want these people, you take it, you take it!"

As he said, he wanted to go around Chen Feng's side.

But there was another flower in front of him, and Chen Feng once again stood in front of him, repeating the words just now: "Did I say let you go?"

Older Qi screamed: "What do you want? Tell you, I'm from the Tiger Gang, isn't it easy to mess with the Tiger Gang?"

"Dare to provoke us, you don't know how to die!"

Chen Feng looked at him and said coldly: "First, the Tigers will definitely not offend me because of such a trash you; second, even if the masters of the Tigers are coming, I will not take it seriously!"

With that, his aura suddenly began to rise, rising again and again, breaking through the Divine Gate Realm and reaching the peak of the second highest building in the Divine Gate Realm.

And this majestic momentum, like a stormy sea, pressed towards Qi Laosan.

Qi Laosan felt like a giant mountain was pressing on top of him, and he directly pressed him to kneel on the ground. He couldn't even lift his head, breathing desperately, but still felt that he couldn't breathe.

The other onlookers were also struggling to breathe under pressure. Looking at Chen Feng, they were extremely shocked: "This young man is actually so tough!"

Chen Feng lightly slapped his head with a palm, directly shattering his head, and he couldn't die again. Then he slapped his two attendants with one palm, and ended it easily.

Then, Chen Feng walked to the mother and daughter and asked softly: "I think you are from a good background, how come you are in such a situation?"

The young woman had just fallen into that situation and was humiliated arbitrarily, but no one in the audience offered a helping hand, but the young man suddenly came out, killing her bully with a powerful posture.

His strength has already taken root in the hearts of young women, and at this time, in the hearts of these three people, Chen Feng is a very good person and a trustworthy person.

The young woman's eyes blushed, and she said with a weeping voice: "We were a big family in White Rock City and moved to Long River City, but on the way, we were robbed by bandits and our family wealth was looted."

"My husband desperately resisted and let the three of my mother and son escape, but my husband has fallen into the hands of thieves. The three of us, mother and son, have nothing to rely on, and have no money, so we have to sell ourselves for gain. Rich people are slaves and live in this world."

Chen Feng sighed lightly, took out five middle-grade spirit stones from the mustard bag, placed them in front of them, and said, "These are five middle-grade spirit stones, which can be replaced by gold and silver in any pawnshop in Great River City. , You can probably exchange five thousand taels of silver, which is enough for you to live a lifetime in the long river."

Five thousand taels of silver is not too much, and Chen Feng can put out more, but he understands that the more money, the more likely it is for the three people who have nothing to rely on.**Novelusb.com**

Five thousand taels of silver happened to be stuck at a critical point.

Looking at the five middle-grade spirit stones in front of them, the mother and child suddenly knelt on the ground, crying bitterly, and kowtow to Chen Feng while crying, and repeatedly thanked their benefactor.

Chen Feng helped them up, and then faced the crowd, shouting sternly: "I can't change my name or sit or change my surname, Qian Yuanzong Chen Feng, the peak of the second building in the Divine Door Realm! People of the Tiger Gang, if you want to give this You can come to me to get revenge on Xiaoluo!"

"And all of you, who would dare to covet the mother and son? As long as I dare to touch one of their hairs, I can do your mark and kill your whole family!"

By doing this, Chen Feng was also to avoid someone coveting them, and doing good things by himself would turn them into harm.

Chen Feng believed that the threat of a strong man in the second floor of the Divine Sect Realm was enough to make people fearful.

After saying this, he nodded slightly to the three of them, then turned and left.

But after Chen Feng turned and left, he didn't see it. Among the crowd of onlookers, there were a few sneaky people who were walking. After seeing him leave, they also quickly turned and left.

These people, walking around in the streets and alleys of the city, soon came to an abandoned house. I don't know how many years the house has been abandoned. There are weeds everywhere, and there is no people around.

After a few people came here, they entered the house, and then fumbled in the abandoned wing, they found a tunnel entrance, and they all jumped in.

#### [Chapter 416: Found him!](#)

Inside is a rather large basement. There is nothing in the basement. Only a person in a big red robe is sitting on a stone platform with his back to them. This person in a big red robe, clothes Embroidered with skulls. *NoveLuSB.com*

Several people knelt down. One of the leaders said respectfully: "Master, we have found the whereabouts of that person."

"Oh? Have you found the whereabouts of that person?" The person wearing a big red robe, who was respected by these people as the master, made a hoarse voice.

He turned around, but did not show his true face. He also wore a white and red skull mask on his face. He looked very hideous and terrifying.

After Chen Feng left here, he immediately returned to the inn.

The inn he stayed in was arranged for him by the Sun family. In fact, this inn was also opened by the Sun family. It was an inn in name, but in fact it does not accept foreign guests and does not open for business. In fact, it is equivalent to the Sun family. The villa.

The guest room is specially used to receive distinguished guests like Chen Feng. Chen Feng has a separate courtyard and a two-story pavilion inside. It is very large and comfortable to live in.

After returning, he closed the door and sat cross-legged in the living room, holding his breath.

Then, he released his Xiangliu Wuhun. The Xiangliu Wuhun was very huge. When he came out, the huge living room seemed very crowded and almost filled it up.

Then Chen Feng took out the piece, the Wuhun Amplifier.

The Wuhun Amplifier was shining in the dark night with a faint light of blue-gray. After Chen Feng took out the Wuhun Amplifier, he immediately felt something strange.

Chen Feng quickly turned around, suddenly startled.

I saw Xiang Liu Wuhun's six eyes that had been tightly closed at this time suddenly opened. Although he is a human head, these eyes are like snakes, but long and narrow vertical pupils.

At this moment, three human heads and six eyes were staring at this Martial Spirit Amplifier.

Then, Xiang Liu Wuhun approached a little forward, as if he wanted to approach the Wuhun booster, but after he got closer, he quickly backed away, so cautiously, it seemed that he was afraid of breaking this thing.

And the Wuhun Amplifier seemed to feel the breath of Xiangliu Wuhun, and suddenly a very strong blue-gray light radiated from the surface. This blue-gray light was hazy, like a mist, and it instantly spread in the hall. .

Chen Feng felt that there was a layer of fog in the living room, and after Xiang Liu Wuhun was in contact with the fog, Chen Feng could clearly feel that he gave out a very comfortable and comfortable breath.

Chen Feng could even feel Xiang Liu Wuhun bathed in the mist, becoming lazy, like a person lying in warm water.

And those blue-gray mists also slowly seeped into the Wu Spirit of the Willow. This speed was not fast, but it was always going on, slowly and firmly.

A smile appeared at the corner of Chen Feng's mouth. Sure enough, the Wuhun Amplifier was well-deserved. He could feel that if he was bathed in this blue-gray mist for a long time, it would have a very good effect on Xiang Liu Wuhun.

With the warmth of the aerosol, Wuhun's promotion speed is several times more than the original.

Chen Feng didn't know how effective the Martial Soul Amplifier would be on other people's Martial Soul, but at least it had a very good effect on Xiang Liu Martial Soul.

Wuhun was immersed in the blue-gray mist and was nourished, while Chen Feng was practicing cross-legged next to him. The whole night passed quickly. When the sky was bright outside the window, Chen Feng also opened his eyes, with a smile on his mouth.

The effect of this Martial Spirit Amplifier is indeed very extraordinary. In the past, Chen Feng's Martial Spirit could only stay outside for two hours. If it takes longer, it will consume a lot of energy and make Chen Feng a headache.

But this time, with the nourishment of the blue-gray mist, Wuhun stayed outside for two and a half hours before this happened.

And the longer the martial spirit was released, the more beneficial it was to Chen Feng's cultivation.

When the light came on, the martial spirit disappeared, and the blue-gray mist on the surface of the martial spirit amplifier was also completely dissipated, and it turned into a dusty appearance again, lying on the ground very inconspicuously.

Chen Feng cherished it and put it away. This is a good thing!

After washing and having breakfast, Sun Hua came to pick up Chen Feng, and then the two went to the headquarters of the Sun Chamber of Commerce in the east of the city.

Behind the headquarters of the Chamber of Commerce, there is a huge bluestone pavilion, all of which are built of large bluestone, extremely strong, and there is only one door, not even a window, obviously to prevent theft.

Moreover, there is an elder guard outside this bluestone pavilion, and this Sun family's supreme worshiper has reached the fourth floor of the gods.

When Chen Feng saw it, he was also slightly embarrassed. Watching and guarding it with the Supreme Enshrinement on the fourth floor of the Divine Sect Realm, it can be seen that the things inside are absolutely extraordinary.

Sun Hua respectfully spoke to the Supreme Envoy, and then took out half of the key. Supreme Envoy also took out half of the key from the mustard bag, and then faced each other before opening the door of the bluestone pavilion.

Taishang Enshrine's eyes narrowed slightly, took a look at Chen Feng, and said to Sun Hua lightly: "Hurry in, even if there is a leader of the Patriarch, you two can only stay in it for half an hour at most. Our family's secret storage pavilion is not for anyone who wants to enter or whoever wants to take it."

#### [Chapter 417: Four-legged Dragon Ding](#)

Sun Hua respectfully thanked him, and the two hurriedly entered the secret storage pavilion with Chen Feng.

As soon as he entered, Chen Feng felt that he was blinded.

In this secret storage pavilion, there are a lot of shelves made of huge stones, and there are many treasures on this shelf, most of which are medicinal materials in jade boxes. Even with the obstruction of the jade box, the scent of medicinal materials can be quietly diffused, and the entire secret storage pavilion is filled with a strong and fresh medicinal fragrance.

Chen Feng knew it at a glance. Many of the things placed in front of him were very valuable and precious.

Seeing the expression on Chen Feng's face, Sun Hua smiled and said, "Brother Chen, this is just the ground floor of the Mizang Pavilion. The most precious thing is not here, but in the basement of the Mizang Pavilion. The treasures inside are the rare things that are rarely seen outside."

"Oh?" Chen Feng smiled slightly: "Then, do I have permission to enter the basement floor today?"

Sun Hua smiled and said: "If Brother Chen you don't have the authority, I won't tell you about this. It would seem that I am too ignorant."

He looked at Chen Feng and said solemnly: "Brother Chen, the family elders passed a resolution that day, and their support for you has been increased. From then on, you buy everything at Sun's house, from the original 15% discount, to The current 30% off."

"Furthermore, according to family rules, the basement level of this secret storehouse is never open to outsiders, and even members of the family who want to come in must have a warrant from the head of the family. This time, it will be open to you as an exception."

Chen Feng listened. He couldn't help but moved slightly, and the Sun family really had a \*\*\*\* stake for themselves.

He looked at Sun Hua and said in a deep voice: "Junior Brother Sun, don't worry, I will never forget the Sun family sincerely treating me today."

Sun Hua smiled slightly, and did not speak any more. When it comes to this share, no matter how much he said, it would be meaningless. Both of them understood in their hearts anyway.

Two people, Sun Hua and Chen Feng, came to the depths of the first floor of the Mizang Pavilion, and then Sun Hua lightly pressed a secret spot on the shelf in the innermost row, and then turned it three times.

This row of shelves moved to the side, revealing a small black hole on the ground. Sun Hua reached into the small hole and pulled it hard again. At this time, the stone wall on the left of Chen Feng suddenly moved away. . A cave that can be entered by one person is exposed.

Chen Feng smiled and said, "This mechanism is secretive enough, and it is still a double-layer mechanism, which is simply unexpected."

Sun Hua said: "It's just a little trick."

The two went in one by one and came to the basement of Mizang Pavilion. This basement was very deep under the ground. The two of them went down thirty to fifty meters before they arrived.

The basement is very small, with a radius of no more than ten meters, and there are only three rows of shelves in it. Obviously there are very few things in it, but it is small and precise.

Before Sun Hua and Chen Feng brought them to a row of shelves, the row of shelves had three floors above and below, and there were all kinds of tripods. At a glance, there were almost twelve or three.

Sun Hua smiled and said: "Brother Chen. The medicinal materials you want are already ready for you to get up, but you don't need to search here anymore. This time, I came here mainly to find a more suitable pot." *NoVePusb.cOM*

"These tripods have been collected by my Sun family for hundreds of years. The best batches are here. You have seen them. Take a look."

Chen Feng nodded, and his eyes began to look over these one by one. These tripods were large and small, round and square, some vicissitudes of life and simplicity, some delicate and elegant.

In the end, Chen Feng's gaze fell on a large cauldron about one person tall.

This large tripod is not three sets of round ears, but a four-legged square tripod. The shape is very peculiar, and the overall shape is like a dragon.

The claws of the flood dragon formed four tripod feet, and the tail was rolled up to form a tripod body. The head of the huge flood dragon hung directly above.

If a person sits in the cauldron, it is as if the head is inserted into the huge open mouth of the dragon.

Chen Feng has always believed in his own instincts. When he saw this venerable tripod, he felt very fond of it, and intuitively felt that it would be very good for his own cultivation.

So Chen Feng immediately stretched out his hand: "Just this tripod!"

Sun Hua looked at it and smiled and explained, "This tripod, called the Four-legged Dragon Ding, was acquired by my grandson's parents in a secret realm three hundred years ago. During these three hundred years, my grandson's family made it. I tried no less than ten times. I want to test what the mystery is in this tripod and what specific effects it has. So, when it comes to selling out, there is a saying."

"But it's a pity that these ten experiments were considered successful and failed."

"Said it was a success, because it has been tested. This four-legged dragon ding, whether it is refining medicine or forging the body, has excellent effects and has no side effects. The reason why it is a failure is because of the magical effect. , Did not find it."

"It's just that, once when the wind and thunder were performing a test, I seemed to hear a wailing sound in the cauldron. I don't know anything else."

Chen Feng smiled and said: "It's okay, I can test the function of this tripod by myself."

Sun Hua nodded: "That's fine."

Then Chen Feng put the four-legged dragon pot into the mustard bag.

#### [Chapter 418: Goodbye Xie Zhuxin](#)

When he put the four-legged dragon in the mustard seed bag, when he touched the tripod body of the four-legged dragon, he seemed to have a feeling of spiritual communication.

Chen Feng immediately became sober. There was nothing wrong with what he chose. This tripod was definitely more compatible with him.

Then the two went out of the basement and came to the first floor of the secret storehouse.

On the open space in the middle of the first floor of the secret storehouse, there are three large boxes, each of which is as long as one person and as high as half a person.

Sun Hua smiled and said: "In these three big boxes, there are two boxes containing the medicinal materials that Brother Chen wants, and the other box releases a kind of carbon called Qingteng Qilian Charcoal. In the deep mountains, at least 300-year-old ivy was burned, and finally some other materials were added and refined by secret methods."

"After this kind of charcoal is burned, the temperature provided can reach 3,000 degrees, or even if it is violently urged, it can reach nearly 4,000 degrees."

Chen Feng nodded and opened the box.

Each piece of Qingteng Qilian Charcoal is as long as a finger, and the strands on it are very distinct, and the surface seems to be covered with thorns, which is extraordinary.

Then he filled the other two big boxes with all kinds of medicinal materials. The medicinal materials in these two boxes not only allowed him to complete the fourth level of the golden body, but could also supply the golden body. Determine the fifth level of cultivation!

Obviously there is time, and the cultivation level has reached that level, but due to the lack of medicinal materials, it is impossible to practice the Golden Body Jue. Chen Feng has endured this kind of taste for a long time, and he does not want to try again.*novElusb.coM*

Therefore, this time, he obtained a large amount of medicinal materials for the fourth and fifth levels of the Golden Body Jue, enough for him to use for a long time.

Chen Feng put these medicinal materials and Qingteng seven refining charcoal into the mustard bag.

Then Sun Hua said again: "Brother Chen, the thing you said yesterday was to make the black gold python skin into several pieces of leather armor. The family has agreed. But this black gold python skin is too hard. It's very difficult to make, and no one in the family can do this now."

"But there is a supreme worshiper in the family. There is no problem doing this. But that supreme worshiper is not in the city now, but in the mountains and forests outside the city. Now the family has sent someone to invite it. So this Something, you may have to wait a while, about ten days."

Chen Feng nodded and said, "Okay, it's okay, then wait a while."

Anyway, I have to wait for the winter auction to start, and in any case, I will stay in this city for a few days.

For the next ten days, Chen Feng stayed in the Great River City and stayed in the Sun's Inn, practicing meditation.

Sure enough, the past ten days were calm and the waves were calm, and the Tigers did not come to trouble Chen Feng, which was also expected by Chen Feng.

After all, to put it plainly, although the Tiger Gang is notorious among the lower classes of Long River City and can stop children from crying at night, their strength is only that, but it is just an underground gang. In terms of strength, it may not be as good as some middle-level members in Great River City. family.

How dare such a force easily provoke Chen Feng, the second-tier master of the Divine Sect Realm, to trouble?

Soon, the winter auction at Xie's auction house will be held.

The winter auctions have really had a great impact. These days, Long River City has poured in many people, most of them are warriors, and there are many powerful people, they are all for the auction.

The day before the auction started, Xie Zhuxin also arrived at the Great River City. Xie Dongshan personally came to invite Chen Feng and said: "Xie Zhuxin has come to the Great Wall City. The first thing is to invite Chen Feng to meet."

On the way to Xie's auction house, Chen Feng and Xie Dongshan also felt the difference in the recent Great River City. Apart from anything else, the number of warriors they saw far exceeded other times.

"Chen Feng, are you here?" Xie Zhuxin smiled when Chen Feng stepped into the living room in the backyard of the Xie family auction house.

The two were seated separately, the maid served tea, Xie Zhuxin waved her hand slightly, Xie Dongshan retired very wittily, and only two of them were left in the living room.

Xie Zhuxin smiled like a flower: "Chen Feng, long time no see."

Chen Feng nodded slightly: "It's been a long time since I saw you."

Then he teased him smoothly: "Thank you, the young master, the longer you are, the more beautiful you will be. If you grow up so beautifully, you will become a confidant after being careful, and being beautiful will not convince you."

Xie Zhuxin's pretty face suddenly turned red, staring at Chen Feng and said, "Looking at you as a serious person, why are you so serious?"

Chen Feng smiled slightly: "I don't know what's going on. I can't help but want to tease you when I see you."

What Chen Feng said is that he is not such a person normally, but when he saw Xie Zhuxin, he couldn't help but want to molest him, and he really didn't have any sexual affection for Xie Zhuxin.

The two felt like friends.

Chen Feng quickly found out the reason, probably because Xie Zhuxin wanted to inherit the Xie family's business and always looked serious and serious, and Chen Feng just wanted to see her showing some little daughters.

Xie Zhuxin rolled her eyes helplessly: "Okay, okay, I won't tell you these useless things."

She smiled and said, "Chen Feng, I want to thank you first."

#### [Chapter 419: Tian Er Dan!](#)

Chen Feng could roughly guess something, but still asked: "Because of what? Why do you thank you?"

Xie Zhuxin said: "The last time you killed Xie Mingchang and Xie Yinghao, this incident caused an uproar after it was passed back to the family. The family immediately sent someone to investigate, but you were careful and meticulous. Not only did you change your appearance beforehand, but also after the murder, Use corpse powder to completely destroy the corpse."

"The family members have checked here for more than a dozen days but nothing has been found. In the end, they had no choice but to stop. After Xie Mingchang and Xie Yinghao died, Xie Mingtang was furious, and their people definitely believed that I killed Xie Mingchang. "

"Actually, I did tell you to kill, but the problem is, they couldn't find evidence! They thought they could definitely find some clues, and then took advantage of the situation to get me down, so they were very sure in the family elders' meeting. China believes that I killed it."

"As a result, after a long time no evidence was found. At this point, they became passive. I immediately beat them back and said that Xie Mingtang and the others killed Xie Mingchang and Xie Yinghao, and then planted and framed me."

"Don't say that this argument has aroused the support of many elders in the family elders' meeting. They think that is really the case."

Having said that, Xie Zhuxin showed a smug smile at the corner of her mouth.

Chen Feng was stunned: "If Xie Zhuxin asked herself to kill Xie Yinghao and Xie Mingchang, she thought of all the things afterwards, thought of these things in the future, Xie Mingtang's counterattack, she took advantage of the situation to counterattack, then This person's scheming is really terrible."

This is no longer a question of taking one step and thinking one step at a time, but taking one step to think of the next three or five steps, which is really deep.

The corner of Xie Zhuxin's mouth showed a touch of pride and smiled: "In the family elders, because I was a woman, there were more people who supported Xie Mingtang. But because of this incident, everyone was very disappointed with Xie Mingtang. Instead, There are more people supporting me."

"And just three days ago, Xie Mingtang and her father were forced to apologize to me in public. After this time, the people of their line were no longer as arrogant as they used to be."

Chen Feng smiled slightly and said: "So, then congratulations."

Xie Zhuxin said: "Thanks to you, so I told Dongshan, as long as you come to Great River City, you must stay behind, and I must come to see you in person. In addition to thanking you in person, there are Some small gifts are for you."

"Oh? A small gift?" Chen Feng raised his brows and said, "What gift?"

He hadn't paid too much attention to it, and the rare and precious treasures he saw were not too few. The gift Xie Zhuxin took out might not make his heart move.

Xie Zhuxin looked at him up and down, and said, "Chen Feng, I heard that you are now the pinnacle of the second building."

Chen Feng nodded. He was so blatant a few days ago and openly showed his strength on the street. How could Xie Zhuxin not know?

Xie Zhuxin smiled and said: "That's a coincidence. The gift I brought this time, I thought it would take three or four months before you can use it, but I didn't expect to use it now."

"What gift?" Chen Feng asked, he had guessed something vaguely, and was very excited, even with a tremor in his voice.

Xie Zhuxin took out a small box made of jade, then opened the small box and handed it to Chen Feng.

When Chen Feng looked at it, there was a longan-sized pill inside. The pill was red, with a fragrant smell, and more passionate aura contained in it, which made people feel refreshed and refreshed when they smelled it. This pill is absolutely extraordinary.

Xie Zhuxin said word by word, softly: "This is Tian Er Dan. It can help you who are already the peak of the second building, get through the Tian Er Shen Aperture, and break into the third building."

When Chen Feng heard the three words Tian Er Dan, he was suddenly excited, and there was a trace of enthusiasm in his eyes.

Although he had guessed it, he couldn't help being excited when these three words were confirmed and spoken from Xie Zhuxin's mouth.

This is Tian Er Dan, enough to help oneself break through the third building from the peak of the second building, and if there is no Tian Er Dan, this process may take three to five months, or even six months.

Chen Feng said frankly: "This ear pill is really important to me, thank you girl, I won't refuse. Again, if there is anything I need to do in the future, I will speak directly."

Xie Zhuxin pursed her mouth and smiled: "Master Chen is really generous and unconventional. Don't worry, there are definitely many places where you will need your help in the future."

She went on to say: "Last time you told Dongshan, please pay attention to the medicine that can repair the soul and the medicine for healing. The medicine to repair the soul is very rare. Last time we found a batch now by accident, half of it For you, half to Gedan."

"There is definitely no such thing now, but we have been paying attention to you a lot during this period of healing medicine."

Saying that she patted her hands gently, Xie Dongshan walked in from outside, holding a huge jade box in his hand, he opened the jade box, and Chen Feng saw that there were many small jade boxes and wooden boxes densely packed inside. .

And he opened one casually, and every wooden box was filled with a healing pill. The quality was very high. At a glance, there were at least thirty or forty.

#### [Chapter 420: Communication ball](#)

Xie Zhuxin said: "We did our best to collect these."

Chen Feng said: "It's already a lot, thank you girl, thank you very much."

At this time, Xie Dongshan showed a hint of apology on his face and said, "Brother Chen, I'm really sorry. You asked me to help you collect communication jade charms. I'm really sorry. I haven't collected them these days. You can only be disappointed."

Chen Feng was inevitably lost in his heart, but he still smiled slightly and said, "Thank you brother, it's okay. If there is none here, I will look for it elsewhere."

Maybe it was a good thing. After Chen Feng left the Xie's auction house and just returned to the inn, Sun Hua came to him and said, "Brother Chen, good news, good news."

Chen Feng raised his brows and said, "But have the leather armors of those black golden pythons gone?"

Sun Hua nodded and said, "That's right, those few pieces of black gold python leather armor can basically be made by tomorrow."

He laughed and said: "In the past half a month, the one who is too enshrined, but almost never closed his eyes, he is making those pieces of black gold python leather armor for you!"

"These four leather armors are all made from the best selected and most complete leather."

There are a total of four leather armors. Chen Feng prepared one for himself, and Shen Yanbing, Hua Rongyan, and Han Yuer each prepared one.

The two said a few words and Sun Hua was about to leave. Chen Feng suddenly remembered the communication jade charm and asked: "Sun Hua, can you get the communication jade charm?"

"Communication jade talisman?" Sun Hua frowned, then looked at it with a very strange look, and said: "Brother Chen, your luck is really great, if I didn't know you are a loyal person, no Will calculate me, I must think you did it on purpose."

Chen Feng asked, "What's wrong?"

"You may not know. Just this morning, the family bought a communication jade charm at a high price. It was originally reserved for the bottom of the box, but since you need it, this communication jade charm can be sold to you."

Chen Feng was pleasantly surprised. He laughed and said, "Junior Brother Sun, this thing is really such a coincidence."

"But don't worry, I won't let you suffer, even if you sell it to me at the price."

Sun Hua said: "Brother Chen, what are you talking about, no matter what you are talking about, you only need a 30% discount, and you won't need more than half a senior."

Early the next morning, Sun Hua came to Chen Feng. He put a mustard bag in front of Chen Feng, and then lightly said a few words, and he took out something from the mustard bag.

After Chen Feng saw it, his eyes lit up. These were four pieces of leather armor. Every piece of leather armor showed a dark gray color, even if the sun was shining on it, it did not reflect light, as if the light had been absorbed.

Chen Feng looked at it and nodded slightly. The man who made this leather armor was indeed a master. This was handled very well. The leather armor did not reflect light, but absorbed light. In this way, people wearing leather armor reduce the possibility of exposure.

As for the color of the leather armor, there are traces of gold in the jet black, but it is not obvious. If you don't look closely, you can't see it clearly.

I don't know how he did it. The surface of the leather armor has completely eliminated the lines of snake scales. It looks like a gray torn jacket. It is inconspicuous at all. The kind you pick up.

Chen Feng picked up one piece casually and squeezed it in his hand, and then he looked more satisfied. This piece of leather armor weighs no more than two catties, and it can be said to be as light as nothing when worn on the body. Even if it is a weak woman who is not a warrior like Hua Ruyan, wearing it will not affect her actions. Sun Hua smiled and said: "Brother Chen, come and try the power of this black golden python leather armor!"

Chen Feng nodded, put the black gold python leather armor on the ground, and then took a deep breath, the index finger of his right hand turned into the color of purple jade, and he lightly tapped it.

After clicking on it, Chen Feng only heard a soft puff, and then his strength was abruptly blocked back. Then he looked closely and saw a very small, even negligible, small hole appeared on the surface of the Wujin Python leather armor.

In other words, the blow that he had just used 70% of his power had almost no effect on this black golden python leather armor.

Chen Feng clapped his hands and laughed: "Junior Brother Sun, this leather armor is really amazing."

Sun Hua said: "To be honest, the hardness of the leather armor of this black golden python is still higher than our previous estimate, and the python skin is also large, and the preservation is good. It can make a lot of leather armor and armor. So, This time in the family, the price of this black gold python skin has increased a bit, and it counts as 180,000 middle-grade spirit stones."

Then he took out a small wooden box to open it, and said to Chen Feng: "Brother Chen, that's the communication musical note you want."

There are two pieces of jade charm, each piece is only the length of the finger, the two pieces are exactly the same, as if they are separated from the middle, but the colors are different, one is cyan and the other is white.

Sun Hua said: "This cyan is the parent body, and the white one is the child. The cyan is crushed, but the white cannot be collected. But if the white is crushed, the cyan can be sensed."

Chen Feng nodded, indicating that he understood, and then asked, "I have taken a lot of gifts from you in the past few days. How many middle-grade spirit stones are these things counted as?"
