

Peerless 4151

[Chapter 4151: The channel is open!](#)

"The passage to the inner valley of the Valley of Fallen Stars has been modified by someone?"

"Could it be that before me, there was already a strong man who entered the valley of the fallen stars?"

"Moreover, the strength of this strong man is absolutely terrifying! It is far from what I can compare!"

Chen Feng immediately realized this.

Because he was very sure, not to mention modifying the passage into the Valley of the Fallen Stars, even if he was looking for it, he couldn't find it.

The opponent's strength is obviously higher than his own by more than one level.

Suddenly something like this happened at this time, a splinter!

Even with Chen Feng's mind, he couldn't help but feel a little worried.

After all, this valley in the valley where the stars have fallen is related to the ultimate secret of the Xuanming Seven Seas Realm.

But it is related to the ultimate goal of his trip!

It is more about Hua Lengshuang!

How could he not be in a hurry?

But Chen Feng was Chen Fengfeng after all, and soon he calmed down and waited quietly beside him.

At this moment, he couldn't get any hands in, so he could only give this trust to the fat golden crow.

I only hope that the fat golden crow can live up to the trust.

At this time, the channel shook more violently.

The surrounding clouds are boiling again!

Obviously, it is about to collapse!

Moreover, the rate of collapse is getting faster and faster.

On the monument of falling that day, rainbow-like rays of light continued to spill out and poured into the clouds!

The fat golden crow kept yelling, and his expression was quite panic!

He is desperately blocking the collapse of the passage!

But obviously, something to no avail!

The channel was still firm and collapsed without hesitation!

At this moment, the Fatty Golden Crow suddenly realized something and shouted: "I'm not blocking it!"

The next moment, as it stopped blocking, the rainbow-like power instantly recovered.

Suddenly, there was a loud bang, and the passage was actually broken!

The tumbling clouds returned to where he was.

The clouds quickly recovered calm, and the channel that had originally appeared disappeared.

But at this moment, the rainbow-like power above the fat golden crow's meteor monument appeared again.

It's just that it's not like splashing around like water waves just now, but condensed into needles, tracing the lines where the clouds disappeared, and forcing them forward!

Chen Feng looked at it and couldn't help admiring: "This fat golden crow is really thoughtful."

"He didn't stop it just now, just let the channel collapse, and now he is taking advantage of the collapse of the opponent, tracing the source and finding the cause."

As those forces pierced out, the fat golden crow was silent.

Obviously thinking quickly there!

As for almost a cup of tea, the fat golden crow suddenly yelled recently, and the voice was full of surprises:

"I see! I found the reason!"

"Hahahaha..."

But soon the laughter lowered, and the fat golden black little Jin looked back at Chen Feng, with some hesitation in his eyes.

"Master Chen, this passage has been modified, and I don't know what danger is behind it. Do you want to go in?"

But Chen Feng did not hesitate!

He just spit out one word: "Go!"

He doesn't know how powerful it is to change the channel!

I don't know when he entered the Valley of the Fallen Stars, let alone what he got after entering the Valley of the Fallen Stars, what was left in it, and how many treasures there are left!

Chen Feng doesn't know all of this!

But he has no choice, he can only enter.

The fat golden crow hesitated for a moment, and then shouted to Chen Feng: "Don't worry, Master Chen, I will definitely let you in!"

Then, the power of the rainbow appeared again.

The clouds shook again.

It's just that this time, the vibration frequency of that cloud is completely different from just now.

Those rainbow powers are no longer laid out outward.

It's like attracting something!

Amidst the vibration of the clouds, there was suddenly a gleam of light, which flashed past the corner of Chen Feng's eyes, and flew out with a swish.

Chen Feng frowned.

But I saw that this flying out turned out to be a broken sword aura!

"Broken sword spirit?"

Chen Feng raised his eyebrows: "Why does this broken sword aura appear here?"

Everyone rushed to the valley of the fallen stars. At the entrance, the boat was traveling above the sea of clouds. Chen Feng and others had seen this broken sword energy.

That endless broken sword spirit!

At that time, someone was injured by a broken sword attack.

But Chen Feng was not injured. This broken sword aura seemed quite close to him, and he even felt a deep sense of closeness and familiarity from above.

But at this time, with the appearance of the first broken sword qi, the broken sword qi continued to emerge between the sea of clouds.

Soon, the number has reached thousands.

More than that, there are countless broken sword auras that are constantly emerging here.

These broken sword qi gathered around the Monument of Sun's Fall, layered on top of each other, endless.

Moreover, Chen Feng saw that these broken sword qi began to connect end to end, forming a ring of thousands of meters long around the monument of the sun's fall.

After that, it began to form another ring.

There are tens of thousands of broken sword energy on each ring.

But in an instant, dozens of rings were formed.

Still forming.

Finally, after an hour, no new broken sword energy emerged from the sea of clouds.

And at this time, the ring formed around the Monument of Sunfall has hundreds of ways.

In other words, there are millions of broken sword auras here.

Countless broken knife gas cut the air, making a burst of tearing noise.

These broken swords are extremely fierce, and mixed with strange power, wrapped around the monument of the sun's fall, constantly rotating.

Suddenly, there was a violent tremor from the Monument of Rimet.

As it vibrated, those broken sword qi began to spin.

One by one, like a ribbon, a long ribbon composed entirely of broken sword energy began to spin, twist, and twist together.

Finally, a tunnel with a diameter of one foot and a length of one foot was formed.

This tunnel is entirely composed of broken sword energy.

And inside, there are countless broken sword auras.

Countless broken sword qi in the passage is densely packed, forming a big net.

Let alone people, I'm afraid that mosquitoes won't fly in.

To be cut to pieces!

And that channel leads to nowhere!

The passage was very unstable at first, but as the rainbow light in the Monument of Sunfall continued to pour into it, finally, it took a full half an hour for the passage to stabilize.

At this scene, Chen Feng couldn't help but his eyes widened, with a look of shock on his face.

[Chapter 4152: I bet right!](#)

Suddenly, there was a vague feeling in his heart:

"Just now the Fatty Golden Crow said that this channel has been modified, but now that cloud-like channel is gone. These broken sword auras, sweeping like a blade storm, have formed a channel composed of a blade storm!"

"Could it be that the modification of this passage has something to do with the masters of these broken sword spirits?"

The familiar feeling surged in Chen Feng's heart again.

It was the familiarity that this broken sword spirit brought him!

At this time, the tired voice of the fat golden crow finally sounded: "Master Chen Feng, I finally solidified this passage!"

The channel is already formed!

Before the Fatty Golden Crow could finish speaking, Chen Feng waved his hand and said, "Wait for me."

Chen Feng thought of the third sentence that Sikong Jinglong said!

"Those who enter the inner valley must step out of the demon blood!"

Chen Feng pondered: "This should mean that you must be bathed in magic blood to be safe in the passage, right?"

Although he was dubious about this, Chen Feng decided to respect those senior warriors who had some contact with Neigu.

The three sentences they exchanged for their lives are meaningful!

"Devil blood? Easy to handle!"

Chen Feng flickered one after another, and soon returned to the platform.

He smiled slightly, looked at Sikong Jinglong, smiled and said, "Elder Sikong, it's like borrowing the blood from you."

Sikong Jinglong let out a wry smile, dare to say anything.

Sikong Jinglong directly transformed into the blood of the demon race. After the transformation of his bloodline was completed, he immediately swiped his right hand. Suddenly, a big wound appeared on Sikong Jinglong's body.

The devil blood spilt down, flooding Chen Feng's head all over!

Then, Chen Feng sealed Sikong Jinglong's meridians again, and wanted Pei Muyu grinning, then turned and left.

Soon, Chen Feng returned to the passage.

The fat golden crow's voice sounded: "This is the modified channel, and at the end of the channel is the inner valley of the valley of falling stars!"

"just....."

There was a bit of hesitation in his voice: "This passage is full of powerful blades."

"These blades, I can feel them, are extremely sharp."

"Even my hard body can be smashed by them. I don't know if you can bear it?"

There was a smile at the corner of Chen Feng's mouth.

In this smile, there was unspeakable confidence and a trace of treacherousness.

He said softly: "Maybe, this passage is really not dangerous to me!"

After all, Chen Feng walked directly towards the passage without hesitation.

He didn't even do any protection.

Seeing this scene, Xiao Jin was shocked and exclaimed: "Master Chen Feng, no!"

But the next moment, his voice stopped abruptly, turning into a deep shock: "How is it possible?"

It turned out that at this time, he saw that Chen Feng stepped into the passage that was made up of countless broken sword auras, although dreamy but full of extreme danger.

Seeing the next moment, Chen Feng was about to be shattered by the broken sword energy.

But it is also strange to say that those fierce and powerful broken sword qi suddenly stopped when they touched Chen Feng's body.

They make people feel hesitant.

Then, their movements turned out to be unspeakable and intimate, circling and surrounding Chen Feng's body.

There is a strong sense of intimacy inside, without murder!

Seeing this scene, the fat golden crow was stunned, and even said: "How is it possible? How is it possible?"

At this moment, Chen Feng showed a smile at the corner of his mouth and sighed softly:

"Sure enough, I didn't expect it!"

He could feel a strong sense of intimacy from these broken sword auras, they didn't even want to kill Chen Feng.

"This is consistent with my previous speculation."

"When I came into contact with these broken sword auras before, I could feel that they are very familiar with me, very close, and seem to have a deep connection!"

"My bet is that they won't do it to me, sure enough, now, I bet it right!" **Novelusb.com**

Chen Feng walked forward.

The more you move forward, the more intense the admiration exuded by those sword auras.

Those broken sword qi hovered around his body, lingering.

Chen Feng turned around and said loudly to the fat golden crow: "Wait for me here!"

His tone was full of determination and heroism.

Chen Feng didn't know the way forward, nor did he know what kind of dangers lie in the valley where the stars fell.

He didn't even know whether he could come out alive.

However, he has no choice!

Having said that, he waved his hand without turning his head back, but stepped straight into it.

Chen Feng was in it, but couldn't raise the speed at all, and could only move forward step by step.

But he has a very psychedelic feeling, he feels that every step forward seems to have taken an infinite distance.

The sense of chaos between time and space, time and space, came again.

Around Chen Feng's body, there was also the power of time surging from time to time.

Black and white lines crossed, and he felt as if there were countless scenery in front of him.

A glance passed, the feeling of time and space countercurrent came, making him vomit blood uncomfortably.

But Chen Feng still gritted his teeth and moved forward firmly step by step!

I don't know how long it has been!

Finally, Chen Feng has even seen a bright white light.

It seems that in the next moment, you can leave the channel and enter the valley of the fallen stars!

And at this moment, the direction of the valley of the falling stars suddenly felt an extremely strong sense of rejection.

That sense of rejection was overwhelming, and it was severely suppressed!

From all directions, squeeze towards Chen Feng!

It feels like he has suddenly come to a strange world!

Then, everything in that unfamiliar world, everything in the world itself, was madly repelling Chen Feng, insulting Chen Feng, and squeezing Chen Feng!

I want to blow him out from here abruptly!

Inside that rejection, there is a strong breath of demon blood!

Chen Feng suddenly felt in his heart: "Presumably, this is the true meaning of the third sentence!"

"If you don't have the blood of the Demon Race, you will be directly pressed out by this breath, and you will not be able to enter the valley of the fallen stars!"

Chen Feng instantly understood.

"Think about it, the original creator of the Valley of Fallen Stars, that terrifying existence, his original intention should be for the sake of the demons."

"What they envisioned is to allow people with the blood of the Demon Race to come here."

"And if I don't have the blood of the Demon Race, I will naturally suffer rejection."

At this time, the repelling breath had already touched the surface of Chen Feng's body.

Chen Feng didn't panic, and smiled slightly: "Fortunately, I was prepared."

Before that breath came into contact with Chen Feng's body, the first thing that came into contact was the magic blood that Chen Feng applied to the surface of his body from the body of Sikong Jinglong!

[Chapter 4153: Valley of the Fallen Stars!](#)

The blood of the demons is hidden in the body.

And he wiped the demon blood outside of his body, and when the repelling breath touched, in the perception of that breath, the blood of the demon in the guy in front of him at this time was extremely full and pure!

So that when you just touched it, you can feel the rich demon aura!

As a result, this repulsive breath was immediately retracted and disappeared without a trace.

In front of Chen Feng, there was a smooth journey without any obstacles!

Chen Feng laughed, put his hands apart, and stepped out!

The familiar feeling of weightlessness, the feeling of chaos in time and space, is extremely strong.

But after all, Chen Feng was a person who came to the world of Xuanming Seven Seas Realm from the Dragon Vein Continent, and his body was only slightly out of control.

I don't know how long it took, and Chen Feng suddenly felt empty in front of him.

Then, it fell heavily to the ground.

A smile appeared at the corner of Chen Feng's mouth, and his figure stabilized. After a while, he felt that he was on the ground.

His figure was light and fluttering, and he didn't even startle a trace of dust.

Like a feather quietly falling on the ground.

As soon as he landed, Chen Feng frowned.

It turned out that his feet touched the ground, and he felt his feet sink down, and a strong suction came from the ground. *NovelusB.com*

He almost dragged his whole person below the ground!

Chen Feng suddenly opened his eyes.

I saw that on the ground at this time, there were countless black magic qi lingering out!

This black devilish energy turned out to have formed two big hands, grabbing his ankle at this time, trying to drag him under the ground fiercely.

What surprised Chen Feng was not the large hands of the devilish energy, but the breath!

This strength gave him the feeling that it was very powerful!

Chen Feng shook his body, and the Donkey Kong Arhat immortal body was activated, and immediately he was immobile.

No matter how hard he pulled the two big hands that were condensed with devilish energy, he remained still.

But Chen Feng did not rush to fight back, but stood there frowning and watching.

Those two big hands didn't give up, but they tugged again.

Chen Feng nodded slowly: "From the perspective of this strength, this big hand, in terms of strength, is at least equivalent to the three-star martial emperor."

"Is this monster so strong as soon as I came in?"

A shadow flashed quietly in Chen Feng's heart.

However, his expression did not change, he just punched and punched!

Bombard directly on the ground!

The light lingers on it, and the golden light flickers!

It is the power of the dragon descending Arhat!

The power of descending the dragon and Arhat is exactly the nemesis of this evil power!

If it had been the case before, Chen Feng used the power of the dragon-dropping arhat, I was afraid that it would immediately be like boiling oil and splashing snow, and instantly annihilate this magic power.

But after Chen Feng used it this time, there was indeed a screaming sound on the ground, and screams came out from the black energy. The black energy was also eliminated by the power of the dragon descending Arhat. But the speed is quite slow.

Chen Feng blasted three punches one after another, using the power of the dragon and Arhat three times before he reached out and grasped his dark claws to completely dissolve them.

Chen Feng sighed gently, with a touch of worry in his eyes.

"My basic exercises used to be the general outline of the dragon descending Arhat scriptures, and my power is the power of descending the dragon Arhat."

"The power of the dragon and arhat can not only attack, but also heal injuries, and it has extremely strong damage to the evil spirits. It can be described as omnipotent and extremely powerful."

"But now, relative to my strength and the enemies I face, the power of the dragon descending Arhat is obviously too weak."

"Unfortunately, although I have already obtained the advanced exercises from the general outline of the Dragon-Jinglong Arhat Scriptures: the Golden Scripture of the Great Bodhisattva Avalokitesvara."

"However, the Golden Sutra of the Great Bodhisattva of Comprehension of Freedom has been unable to untie the seal for a long time and cannot cultivate!"

Chen Feng was very anxious.

But now he has no choice but to find a way as soon as possible to unprint the Golden Sutra of the Great Bodhisattva Avalokitesvara so that he can practice as soon as possible.

In the short period of time that Chen Feng was thinking about, the black magic energy condensed on the ground.

It turned into two big hands and grabbed him again, and this time it was even more fierce.

and. The devilish energy gradually increased, the claws gradually rose, and the wrists and arms with knotted muscles gradually appeared underneath.

Obviously, Chen Feng just melted away the two exposed demon claws, and did not deal a real fatal blow to the big demon hiding in the ground.

At this moment, this great demon was struggling to come out and behead Chen Feng.

A sneer appeared at the corner of Chen Feng's mouth: "It's not over yet, right?"

"You want to come out? Okay! Then I'll wait for you to come out!"

Chen Feng did not run away, nor did he act at this time.

Instead, he took a step back and waited beside him in his spare time.

Chen Feng was going to wait for the great demon in the ground to appear completely before doing anything.

He also wanted to weigh the real strength of these existences in this world!

There is still a little time before this big monster comes out.

Chen Feng also has free time to look around.

He looked around, and there was an unspeakable feeling in his heart.

The place where Chen Feng appeared at this time was on a small mound.

The height is no more than ten meters, and the radius is only two to three hundred meters.

But as far as he could see it, it was a vast land.

Crimson!

The eyes are full of intense crimson!

Above the ground here, it was like having experienced countless fights, infested with not knowing how much blood.

At this time, when the blood had dried up, the ground was still patched with brown red.

Chen Feng bowed his head and grabbed a handful of soil.

He found that the soil here is all fine gravel.

Chen Feng looked at it at a glance. This area of thousands of miles, all of which is a vast and huge wasteland, with small hills undulating occasionally.

There are no towering mountains at all.

The huge scarlet wasteland can't see the end at a glance.

Chen Feng spread his hand and spread his five fingers.

The sand grains in his hands fell slowly, accurately and vertically.

There is no deviation to the surroundings.

Because there is no wind here.

There is no wind at all!

It seems that even this air is not flowing, just like an eternal silence.

From afar, there is a huge white mountain range in the distance.

Chen Feng was too far away, so he couldn't really see it.

I saw that the mountains were extremely steep and stretched for more than tens of thousands of miles.

Chen Feng nodded slowly: "In a few days, I can go there and have a look."

Then, Chen Feng raised his head again and looked above that Cangyu.

Suddenly took a breath!

"What kind of sky is this?"

It turned out that Chen Feng saw that the sky above his head did not know how high or how wide it was!

It feels like there is no sky above your head, only the emptiness of the universe.

[Chapter 4154: Isn't it just a dog?](#)

But Chen Feng could vaguely see a trace of thrilling blood.

This is a blood-colored world, even the sky and the ground are blood-colored!

When Chen Feng turned his eyes, he saw that the edge of the sky was probably on his left hand. There were two huge and extremely big suns in that very high and far place!

That's right, they are two huge big days!

Those two big days stand side by side, giving the impression that they are not very far apart.

And those two big days, the rays of light exuding are extremely regular, forming a sharp contrast with this blood-colored world.

The light emitted by the two big days is very beautiful and colorful.

From time to time there are reflections of stars, floating down in it.

There is a light like a gorgeous aurora, drifting through it.

The blood-colored world and the incomparably gorgeous day gave Chen Feng a great shock!

However, he always felt that the two big days standing side by side seemed a bit wrong.

As for what was wrong, I couldn't tell.

This is a world that is desolate and icy without any breath of living beings.

And Chen Feng, don't know if it is the first person to set foot here in thousands of years!

This is the true core of the Valley of Fallen Stars!

While thinking about it, suddenly, the ground shook, with a bang, and sand splashed!

A huge black shadow already appeared in front of Chen Feng.

It is the great demon who has just hidden in the ground!

Chen Feng can also see clearly that this big monster is like a strong giant wolf magnified dozens of times.

But the looks are extremely ugly.

The muscles on the surface of the body are exposed and dripping with blood.

There were big chunks of knotted muscles everywhere, and the big claws were shining coldly.

On its forehead, there are two extremely sharp horns.

The two large nostrils on the front end were constantly twitching.

The next moment, its big **** mouth opened, and the thick, foul **** water ticked out from it.

"what!"

"The smell of fresh blood! I smell it! This is the smell of fresh blood!"

"Furthermore, the blood is so strong, it must be extremely delicious and can provide me with great strength!"

"I feel like I swallowed this bite and I won't have to eat for decades!"

Its expression became extremely greedy, and the next moment, that face suddenly turned to Chen Feng.

The turbid eyes suddenly glowed, staring at Chen Feng, extremely hideous.

"Humble human, you should feel lucky!"

"It is an honor for you to be able to swallow your flesh and blood!"

Chen Fengfeng looked at him, smiled and said, "Dare to ask your Excellency, what kind of demons is it?"

He is not interested in anything else about this great demon. The only thing he is interested in is which clan it is? What about the combat effectiveness? What are the characteristics of this family of great demons?

Chen Feng had a vague feeling.

The fate of myself and this place is extremely long-term. Collect more information at this time, there are only benefits and no harm.

The big demon spoke slowly, his face full of arrogance: "You are going to die, then I might as well tell you!"

"Our clan is a bloodthirsty unicorn wolf!"

"Oh? Bloodthirsty unicorn wolf demon?"

Chen Feng heard this and raised his eyebrows.

Then, looking at it, smiling and saying: "Isn't that just a wild dog?"

This bloodthirsty one-horned wolf demon seemed extremely disgusted to hear the word dog!

Chen Feng's words immediately angered him.

It let out a crazy and fierce roar: "Boy, I want you to die without a place to bury you!"

Before the roar fell, he rushed towards Chen Feng, revealing his murderous intentions!

Obviously, Chen Feng's words have completely angered him!

Chen Feng looked at him and sneered: "I care about you bloodthirsty wolf monster. Now, I will beat you up like a dog and begging for mercy!"

In this matter, the bloodthirsty unihorn wolf demon rushed towards Chen Feng at a very fast speed.

Chen Feng only felt a flower in front of him.

It seems that the bloodthirsty unihorn wolf demon was still grinning just now, and in the next instant, he came directly in front of him.

Only two afterimages flowed down in the air.

Obviously, its speed has already reached a very terrifying level.

Even, it means teleporting!

It's not just the speed, but also the power of time and space!

Chen Feng raised his eyebrows: "It's kind of interesting."

He was already a bloodthirsty unicorn wolf demon and wrote down one: "Very fast!"

The bloodthirsty unihorn wolf demon arrived in front of him in a blink of an eye, and Chen Feng stood proudly there, motionless.

The bloodthirsty one-horned wolf demon roared fiercely, and the ferocious mouth suddenly lowered, biting Chen Feng's upper body fiercely.

Seeing him, if he is firm, he will be able to cut Chen Feng completely!

At the same time, on its right front paw, there was a soft sniff, and a sharp claw that was two meters long and about a foot wide suddenly bounced off like a blade!

A fierce crosscut is cutting to Chen Feng's legs!

This blade is extremely sharp, I am afraid that no matter how hard the metal is, it can be cut directly by it!

This bloodthirsty one-horned wolf demon turned out to attack all the way from top to bottom!

Chen Feng smiled faintly, and fists together.

One arm is up and the other is down, as if embracing the world.

Then, his arms shook, and a burst of strength burst out.

At present, Chen Feng did not have a boxing technique that could match his current level.

The boxing techniques and palm techniques he had cultivated in the past are all lagging behind his strength and no longer matching his opponents.

But this does not mean that Chen Feng has nothing to do.

In fact, this trick came from his own comprehension.

Chen Fengru embraced the world, his arms shook outward!

Suddenly, the tyrannical power oscillated out, covering his body!

With a bang, it collided with the offensive of the bloodthirsty unihorn wolf demon!

Chen Feng did not try his best.

After all, if the first big demon he met here just came here, if he has to do his best to deal with it, then how can he go next?

Chen Feng only used 10% of his power. **Novelusb.com**

His purpose is also to test the strength of this bloodthirsty unihorn wolf demon.

In fact, Chen Feng didn't want to kill this bloodthirsty unicorn wolf so quickly.

He still wants to play with it more!

Of course, Chen Feng had no desire to kill, he just wanted to thoroughly understand the bloodthirsty unihorn wolf demons through the process of fighting with him.

Then, if you encounter other bloodthirsty unihorned wolves in the future, it will be easy to solve.

This bloodthirsty unihorn wolf demon, Chen Feng estimates that there are definitely a lot of them in the valley of the fallen stars.

boom!

Chen Feng's power collided with the offensive of the bloodthirsty unihorn wolf monster!

With a crisp sound, the barrier of power created by Chen Feng broke directly!

[Chapter 4155: Serve?](#)

Bloodthirsty unihorn wolf demon, his body stagnated!

But Chen Feng took a step back.

Chen Feng nodded slowly in his heart: "I use 10% of my strength, and it uses the forward force!"

"I suffer a little bit, which means that his strength is about one-tenth of mine!"

Chen Feng looked at the bloodthirsty unihorn wolf demon, and said indifferently: "I can kill it with a single palm!"

And what Chen Feng wanted was this conclusion.

But at this time, the bloodthirsty unihorn wolf demon saw Chen Feng being pushed back by his own offensive, but he thought he was powerful.

The corner of his mouth twitched, revealing a grinning smile, and he smiled: "The sound of the sound just blown, I thought how strong you are!"

"Unexpectedly, it is a waste human!"

It gave out an arrogant laugh: "I was a little bit jealous of you just now! Not anymore!"

"You are in my eyes!"

It squeezed out a word viciously: "It's just fresh blood!"

Its attitude was extremely arrogant, and it didn't pay attention to Chen Feng at all.

Obviously, from its point of view, Chen Feng was already the meat on the sticky board, and he was ravaged by himself.

When Chen Feng heard this, he couldn't help laughing.

He only used 10% of his power, and this bloodthirsty unicorn wolf demon thought he was not his opponent, which was really ridiculous.

Chen Feng shook his head and chuckled, too lazy to say anything.

With his attitude, after the bloodthirsty unihorn wolf demon looked at it, he said with disdain: "When things are coming, you still pretend here?"

"What pretend to be? Huh? I'll let you show it right now!"

It snarled frantically and jumped forward!

Furiously attack Chen Feng!

It wanted to beat this humble and weak human warrior seriously and screamed, kowtow in front of it to beg for mercy!

It wants him to pay for his arrogance!

He rushed forward frantically and attacked Chen Feng frantically!

Chen Feng shook his head, smiled and said, "I just said, even if you are a bloodthirsty unihorn wolf monster, in front of me, you will only be a dog wagging its tail!"

Chen Feng said every word: "I do what I say!"

The next moment, Chen Feng blasted out with a punch!

After this punch was blasted, the world changed color instantly!

It seems that in the depths of the valley of the ancient and dead stars, there is a gale whizzing past, sweeping countless dust!

The bloodthirsty unihorn wolf demon's eyes changed instantly!

It feels that the person is still this person, but his offensive is actually countless times stronger in an instant!

As this punch blasted out, that powerful force surged!

It's like a mountain, slam it down!

It made him feel that he couldn't resist this extremely powerful force at all!

I can only close my eyes and wait for death!

He exclaimed in disbelief: "How is it possible, how can your strength suddenly become so strong!"

Before the words were over, Chen Feng's offensive was already here!

The bloodthirsty one-horned wolf demon screamed sternly, exhausted all his strength and resisted frantically!

But it's useless!

It is not Chen Feng's opponent at all!

All of its resistance, in the face of Chen Feng's true power, was smashed and easily destroyed!

With a loud bang, Chen Feng's fist was heavily printed on his head!

The bloodthirsty unicorn wolf demon trembling violently all over!

It's like sifting chaff.

Then, with a scream, he flew out several hundred meters and fell to the ground.

It was lying on the ground, with numerous wounds bursting up and down all over its body!

A stream of black blood with a strong demon energy rushed out wildly.

And he can't even stand up!

Paralyzed there, like a pool of rotten meat.

It turned out that the punch just now shattered all its bones!

It could barely raise its head at this time and let out screams.

Big mouthfuls of black blood gush out!

Staring at Chen Feng, he didn't dare to say: "How is it possible? How is it possible?"

Suddenly, a light flashed in its heart, and it exclaimed, "Did you hide your strength just now?"

Chen Feng smiled slightly, walked in front of him, and said lightly: "It seems that he is not stupid enough yet!"

The bloodthirsty unihorn wolf demon's pupils shrank sharply.

It suddenly remembered the words it had said just now, and suddenly felt that those words were like slapped in the face, slapped on its face, and hit it for a while!

There was a deep shame in its eyes.

"I really can't help myself!"

"It turns out that the strength of this human warrior is so strong. He didn't use his full strength to deal with me just now, I'm afraid it was playing me!"

"I really thought he was weaker than me? That's ridiculous! It's shameful!"

The bloodthirsty unihorn wolf demon collapsed there, watching Chen Feng slowly walking towards him.

Chen Feng slowly raised his right palm while walking, and his strength slowly gathered.

Then, towards the bloodthirsty unihorn wolf demon, he took a palm shot from a distance.

The incomparable power smashed its head, and instantly awakened the bloodthirsty unihorn wolf demon from the shame and shame.

It wailed, let out a scream, and suddenly realized that it was going to die!

This human warrior will kill himself!

"I don't want to die, I don't want to die!"

At this moment, it had only this idea in its mind!

Suddenly, he let out a miserable cry, looked at Chen Feng, and begged frantically: "Please don't kill me! Don't kill me!"

The bloodthirsty one-horned wolf demon screamed there, begging for mercy, like a dog wagging its tail.

If, at this time, it could get up, it would definitely kneel there and bang its head at Chen Feng.

Unfortunately, it can't even do it now.

It is no more arrogant and arrogant just now.

Chen Feng looked at him with a smile, and said, "Did you not yell at me just now?"

"Just now, didn't you say you were going to swallow me?"

"Come on! Go ahead now! I'm Chen Feng waiting here!"

The bloodthirsty one-horned wolf demon just shook his head frantically and begged, and he dared not say a word.

Chen Feng laughed loudly, walked forward, reached out and patted his head: "I said, you are a dog in front of me!"

"How is it? Take it?"

"Served! Taken! I took it!"

The bloodthirsty unicorn wolf demon nodded quickly.

Chen Feng laughed.

The bloodthirsty unihorn wolf demon trembled and said cautiously: "I've been kowtow begging for mercy, can you spare me?"

Chen Feng looked at him, smiled and said, "I tell you, with me, you are not qualified to bargain."

He stared at the bloodthirsty unihorn wolf demon, and said slowly: "I will ask you a few questions now."

"If you answer me, I will give you a happy one!"

When the bloodthirsty unicorn wolf demon heard this, his expression immediately changed: "You won't forgive me after I said it, so why should I say it?"

Chen Feng laughed, pointing at him and said: "Okay, no one is forcing you!"

[Chapter 4156: Condensation of different treasures!](#)

The bloodthirsty unihorn wolf demon just gritted his teeth and said nothing.

Staring at Chen Feng with a fierce expression.

Chen Feng laughed: "Well, since you want to try, then I will fulfill you!"

After that, he walked to the side of the bloodthirsty unihorn wolf demon, came to its right front leg, patted it lightly, and said: "You just had all your bones broken into pieces by me, and I haven't been shocked yet. Into powder."

"Now, I will let you taste that taste!"

After all, Chen Feng slapped it lightly.

Suddenly, a long and dense force poured directly into the bloodthirsty unihorn wolf demon's front legs.

Where that power passed, all the bones of the bloodthirsty unihorn wolf demon that had been shattered into pieces, all shuddered and were shaken into bursts of powder.

Suddenly, immense pain completely swept this bloodthirsty unihorn wolf demon.

At this moment, his eyes were so painful that he stared at the stars, and his face turned black, and he almost died of pain!

He howled frantically: "I said, I said, I said everything!"

"Just ask, just beg you to give me a good time!"

At this time, he no longer seeks to survive, only to stop suffering from this kind of pain.

Chen Feng smiled and clapped his hands: "It should have been so long ago!"

Chen Feng looked at it, stretched out three fingers and said, "I don't make it difficult for you. I will ask three questions."

"the first!"

He pointed to the ground under his feet: "Where is this place?"

"Where is this, we don't know, we just call this place the Wasteland of Blood."

He raised the other front paw with difficulty, and drew a large circle, drawing in the area where Chen Feng could see.

"Have you never been anywhere else?"

"No, I was here since I was born, until you appeared."

Chen Feng frowned and said, "How many years have you been here?"

"How many years? I don't know!"

The bloodthirsty unicorn wolf demon showed confusion in his eyes.

Chen Feng frowned, but his expression did not seem to be fake.

He shook his head and smiled bitterly in his heart.

"The second question, how many demons are there? How many races? To what extent are they strong?"

The bloodthirsty unicorn wolf demon said: "This wasteland of blood has a radius of tens of thousands of miles, and there are a lot of demons on it, about dozens of them."

With that, he listed the demons above.

Chen Feng took down one by one.

And he was keenly aware that the bloodthirsty unihorned wolf demon used the demon race, not the race.

Obviously, this also means that all the demons living on this wasteland of blood are.

Chen Feng wrote down the dozens of demons he was talking about, and said in his heart: "The demons here are quite complete."

At the same time, he has more expectations in his heart.

After Chen Feng finished speaking, he asked again: "Third, where did you come from? When did you come here? How did you come here?"

After asking this question, Chen Feng immediately stared at the bloodthirsty unihorn wolf demon without blinking, wanting to get an answer from him.

In fact, this issue is the one that Chen Feng values most.

When asking the Xuanjin Jiaohuang outside, Chen Feng felt something was wrong.

The Emperor Xuanjin Jiao didn't belong to this Xuanming Seven Seas Realm, but he ended up here for some reason.

Moreover, Chen Feng felt that the demons in front of him did not originally belong to the Xuanming Seven Seas Realm.

For them, the world of the Xuanming Seven Seas Realm was really a world with too low a power level.

I just entered here, and I just met the weakest Xiaoluo, and in the end he has such a strong strength!

A demon race randomly ran out here, not to mention anything else, the one in front of him, placed in the Xuanming Seven Seas realm is also the peak of the four heavens in the Xuantian realm, and it is enough to mess up one party.

Run out and be a little stronger, I'm afraid the martial arts of the Xuanming Seven Seas Realm will be destroyed.

Hearing this, the bloodthirsty unicorn wolf demon couldn't help showing a deep confusion in his eyes, as if he was thinking about something.

After a long while, he said in a daze, "I only remember that our clan seems to come from the Demon Realm."

"As for where it came from, or anything else, I don't even know."

When Chen Feng heard this, his brows wrinkled.

Devildom. He knew it.

As early as in the Dragon Vein Continent, he had dealt with great demons from the Demon Realm, and had a little understanding of the Demon Realm, but it was very limited.

Chen Feng used to think that the devil world was another world.

However, the more he learned later, after traveling through several worlds, he understood. I am afraid that the Demon Realm is definitely not just a world.

There are hundreds of worlds in it, and the situation is very complicated.

Chen Feng asked a few more questions on the sidelines, but the bloodthirsty unicorn wolf demon didn't know everything.

Chen Feng saw that it was not a lie, but really didn't know.

Chen Feng frowned, and he felt a vague feeling in his heart: "There is something wrong with this matter. When the bloodthirsty unicorn wolf demon answers other questions, he is quite clear."

"But why, when it comes to this problem, you don't know anything?"

"It's like, a piece of it has been dug out abruptly in its memory!"

Chen Feng shook his head, no longer entangled with this question, just said slowly: "Okay, I'm finished asking, I'll send you on the road!"

The bloodthirsty unicorn wolf demon's eyes showed extreme despair and let out a scream.

But then, the scream stopped abruptly.

Chen Feng's palm was already printed on his head.

The bloodthirsty unicorn wolf demon trembled violently, and died immediately.

Chen Feng was about to turn around and leave, suddenly a look of surprise flashed in his eyes.

He whispered softly, turned around, his eyes fell on the body of the bloodthirsty unihorn wolf demon.

It turned out that at that moment, when Chen Feng was about to leave, he felt a strange breath suddenly coming from the bloodthirsty unihorn wolf demon.

Although this breath is extremely weird, it is extremely grand.

It even gave Chen Feng a shocking feeling.

Chen Feng squinted his eyes and looked there, calmly.

I saw that on the corpse of the bloodthirsty unihorned wolf demon, there were countless black energy steaming up.

His body was actually Huawei's thick black devilish energy, it began to drift, began to scatter in the air, and immediately dissipated!

Then, the corpse disappeared directly.

What remained in place was only a hand-sized fragment, like a black crystal.

"What is this?"

Chen Feng frowned.

This fragment is about the size of a palm.

But when Chen Feng saw it, he was shocked.

It turned out that this black crystal had an extremely magnificent, awe-inspiring, majestic, and extremely powerful aura!

At this moment, Chen Feng felt that the overwhelming devilish energy surged toward him.

It's like, at this moment, he is not facing a small black fragment, but the entire demon world!

[Chapter 4157: True magic seed fragments!](#)

It's an entire boundless world!

The breath shook even Chen Feng's heart, and he couldn't help taking a step back, and it was a mouthful of blood that spurted out.

Chen Feng wiped off the blood stains at the corners of his mouth, and looked at the black fragments, shocked!

"What is this black fragment? It is so terrifying?"

"I feel that facing it is just like facing the entire world of demons!"

There was a flame burning in Chen Feng's eyes, and there was a touch of excitement in his eyes!

"Although I don't know what this thing is, this thing is absolutely extraordinary, maybe it is a treasure!"

After entering the inner valley of the Valley of Falling Stars, killing the first big demon, and getting something of this kind, Chen Feng was quite excited.

He took a deep breath and walked forward slowly.

Then, as soon as he stretched out his hand, he grabbed the fragment in his hand.

Chen Feng was already prepared, this thing should have extremely strong power that he could not control.

As a result, he didn't expect that he reached out and took it over.

And the moment Chen Feng took this thing in his hand, he suddenly felt that a huge flow of information was suddenly transferred from this fragment into his mind.

The next moment, Chen Feng buzzed in his mind, as if there was a muffled thunder.

In an instant, a piece of information was stamped into his mind fiercely.

Chen Feng's eyes instantly became a little dull.

His body shook slightly and took a step back.

After a while, he sighed slightly and his eyes became agile again.

He lowered his head and looked at the black fragment in his hand with complicated eyes.

"It turns out that this object is called True Demon Seed Fragment!"

"This True Demon Seed Fragment, to these demons, is a bit like the soul to human beings."

"A person without a soul is just a walking dead, and if a demon race does not have this true demon seed fragment, then it is just a walking dead."

"However, this true magic seed is more complicated than the soul."

"Because it is not simply a soul, a life-giving concept, and it contains extremely large power and energy!"

It turned out that at that moment, a piece of information poured into Chen Feng's mind.

Also let Chen Feng understand what this thing is!

This thing, called the true demon seed fragment, can be said to be the essence of all the body of a demon clan.

After the death of a demon, its breath, its soul, and even its strength before alive, its cultivation...

Everything about it is condensed into this true magic seed fragment.

However, the formation of true demon seed fragments is quite demanding, and not all demon races can condense.

For example, the demons that Chen Feng had seen in the Dragon Vessel Continent did not exist.

Because the level of the demons is too low, it can't even be regarded as a real demons.

Only the real demons can condense such a real demonic fragment after death.

The true demon seed fragments also symbolize that this demon race is a true part of the demon world.

This true demon seed fragment is the deepest connection between this demon clan and that demon world.

After all, all demons were born from the demon world.

And the reason why they can be bred is because the Demon Realm has given it a piece of true magic seed fragments.

Therefore, it can use this as its core and grow into a demons.**no1Elusb.COM**

In other words, this true demon seed fragment is actually part of the demon world.

"No wonder..."

Chen Feng's heart was stunned: "When I face this true demon seed fragment, I have a feeling of facing the entire demon world."

"In a sense, a real demon is immortal."

"After it dies, all of it belongs to this true magic seed fragment, but this true magic seed fragment cannot be destroyed."

"Of course, not all demons are like this."

"The demons, including the demons of countless worlds, are only like this for the demons of this special world."

"It's as if human warriors are distributed in various worlds, and only human warriors in a certain world have a specific ability."

Chen Feng sighed lightly, looking down at the fragments of the true magic seed in his hand, he still felt a little shocked in his heart!

At this moment, what he was holding was part of an extremely large, extremely high-level, and extremely high-level Demon World!

"This True Demon Seed Fragment is worthy of being a part of the entire Demon Race world, so powerful."

"Forcibly poured this information into my mind, and even my spiritual world didn't have time to react."

"It's not malicious, otherwise, I'm afraid my situation is already very dangerous."

However, in an instant, Chen Feng was excited again!

It turned out that at this moment just now, when the real demon seed fragments started, the moment the huge information poured in, somewhere in Chen Feng's arms, there was a sudden flow of heat flowing out!

Just now, Chen Feng was shocked by the influx of information, and did not pay attention.

At this time, just realized.

So the next moment, Chen Feng's heart jumped wildly.

Because, he suddenly discovered that the thing that reacted in his arms was actually the Golden Sutra of the Great Bodhisattva Avalokitesvara!

View the Golden Sutra of the Great Bodhisattva!

Ever since Chen Feng obtained that scripture, it has always been regarded as the most precious thing.

But there was always no response, just staying in his arms.

Now there was a sudden reaction. How did this make Chen Feng not excited?

Chen Feng took out the simple and simple scriptures of the Golden Sutra of the Great Bodhisattva Avalokitesvara. Originally, the scriptures had been heavy without any response.

At this moment, Chen Feng saw that there was a golden light shining out of the ancient scriptures.

Chen Feng quickly opened the scriptures. There was no word on the scriptures.

But at this time, where it was unrolled, there was a small character.

The little characters are looming and vague.

Chen Feng could not see clearly after exhausting his eyes, let alone what it meant.

The little characters kept emitting golden light, and there was a trace of desire in them.

That longing target was actually the real magic seed fragment in Chen Feng's hand!

Karala!

In Chen Feng's mind, as if a flash of lightning flashed across, he instantly understood what was going on.

He was so excited that he couldn't help yelling: "I see!"

"Although I have entered the world of the Golden Sutra of the Great Bodhisattva, I only know how strong this Golden Sutra is."

"I only know some introductions of the Golden Sutra of the Great Bodhisattva, I don't know anything else."

"What is the general outline of the Golden Sutra of the Great Freedom Bodhisattva, and what is contained in it, I can't even practice it."

[Chapter 4158: Unlock the seal! View the Golden Sutra of the Great Bodhisattva!](#)

"I don't even know how to learn what is going on!"

"But now, I know! I know!"

Chen Feng exclaimed excitedly: "It turns out that the Golden Sutra of the Great Freedom Bodhisattva requires a very high energy thing!"

"Things with a very large background and a very high level can be taken into consideration by the golden scriptures of the Great Bodhisattva of Comprehension and absorbed into it."

"In the final analysis, the Golden Sutra of the Great Liberty Bodhisattva should be very vast and majestic. It seems to be able to fill the world with power to open it!"

Chen Feng had to admit a sad fact:

The reason why the Golden Sutra of the Great Bodhisattva Avalokitesvara has been unable to be unlocked is not that there is no way, but that the level of the treasures I have obtained before is too low.

So far, this true magic seed fragment should be the highest-level treasure he has obtained.

That's why the Golden Sutra of the Great Bodhisattva Avalokitesvara will be taken in the eye.

Chen Feng sighed softly and didn't think much.

As soon as the left hand was loosened, the real demon seed fragments flashed directly and were absorbed by the simple scroll of the Golden Sutra of the Great Bodhisattva Avalokitesvara.

As the true magic seed fragments disappeared, an extremely vast force suddenly radiated out.

A powerful majesty to the extreme, terror to the extreme coercion, slowly appeared from the simple scriptures.

What appeared was not fast, only slowly, but very firm.

It's as if it can't be resisted at all.

At this moment, Chen Feng felt that he was almost pressured by this coercion to directly kneel down, as if there was a huge deity slowly descending.

It was like a huge world, slowly opening in front of Chen Feng.

At this time, facing this simple scripture, he had the sense of insignificance of facing a whole world!

This feeling diffused and disappeared after a long time.

Chen Feng let out a long suffocation and looked there.

I saw that half of the handwriting that jumped just now on the scriptures appeared.

Chen Feng was ecstatic: "It's really useful!"

"This real demon seed fragment can really be unraveled, the Golden Sutra of the Great Bodhisattva of Vipassana!"

Although this bloodthirsty unihorn wolf demon's true demon seed fragment has only unlocked half a word.

but!

Chen Feng suddenly raised his head and looked into the distance: "The great demon here is endless, as long as you give me enough time!"

"The Golden Sutra of Avalokitesvara Bodhisattva will definitely be able to unlock more! At least..."

Chen Feng had a small expectation: "At least I can untie one of them!"

Chen Feng was full of fighting spirit in his heart.

What he couldn't let go of before was the unlocking of the Golden Sutra of Avalokitesvara Bodhisattva, but now he sees hope and knows the way!

Chen Feng looked into the distance, and the world filled with **** light was vast.

Here and now, quiet.

But Chen Feng knew that in front of him, on this land, there was only one human race of the demons everywhere!

The road ahead is vast and unpredictable.

But Chen Feng has absolutely no fear!

He strode forward and stepped into this vast land!

"boom!"

A loud noise!

After a mountain-like black shadow shook twice, it fell down fiercely and fell on the ground.

Even the earth was shaking.

This black shadow is a tall and strong mountain-like creature, with a height of about a hundred meters, like a giant ape magnified dozens of times.

And his whole body is covered with an extremely heavy black armor.

He even had a huge black hammer as a weapon in his hand!

At this time, countless cracks appeared on his black hammer, and countless cracks were smashed out of his body.

Thick black devilish energy poured out from it, and the black blood completely soaked this large area of ground.

The huge black demons trembled twice, and with a hoarse howl, they did not move anymore.

Chen Feng sighed lightly and shook his sleeves, showing a tired look on his face.

He stood on the spot for a long time before mixing his breathing evenly, only to feel that there was a trace of blood in his breath.

Chen Feng frowned: "It's only ten hours since I entered this place, and I have already encountered the five great demons."

"And the strength of this demons has even reached the five-star Wudi!"

"Five-star Wudi is fine, but the key is that the black armor covering his whole body is extremely strong, and his defense is so strong that it is terrifying!"

"His two-handed sledgehammer doesn't even know how many jins there are. Every attack is vigorous and vigorous!"

It was quite difficult for Chen Feng to break through its defenses.

And the most important point is that Chen Feng still has to preserve his strength and cannot suffer too much.

After all, the road ahead is vast, and he doesn't know how much danger awaits him!

Chen Feng didn't know what kind of race the demon who died in front of him was at this time, because after meeting him, this guy covered in heavy armor didn't say a word, just roared and attacked frantically!

Until Chen Feng beheaded!

After a full half hour of fighting, Chen Feng just solved it.

"but....."

Chen Feng looked excited, looking at the corpse of the iron armored demon.

"This iron armor great demon has reached the five-star Wudi, should he be able to gather a more powerful true demon seed fragment for me?"

"In this case, I can have three true magic seed fragments here!"

"Then the first character should appear completely, right?"

It turns out that not all the big demons here can condense the fragments of true demons.

The four big demons killed by Chen Feng only provided him with two true demonic seed fragments.

Moreover, the second true magic seed fragment only unlocked less than one-third of the first character.

This also made Chen Feng realize that it is not that the stronger the strength, the stronger the condensed True Demon Seed Fragments.

This thing should still have something to do with his bloodline.

It was like the first big demon he encountered, the bloodthirsty unihorn wolf demon.

Although the strength of the five great demons he killed was the weakest, it should be because the bloodline was pure, so the condensed True Demon Seed Fragments were the strongest.

Chen Feng took a deep breath and waited while resting beside him.

The body of the iron armored demon disappeared faster and faster, and finally only the last cloud of black energy remained.

Then there was a light bang, and the last devilish energy disappeared without a trace.

Nothing remains in place.

Nothing left?

Chen Feng's eyes widened fiercely, and he looked at the ground in disbelief!

There is nothing here, Chen Feng hurried forward, and stretched out his hand to explore there, indeed there was nothing.

Chen Feng was stunned: "How is it possible? This iron armor demon is so strong!"

"Furthermore, it makes me feel."

[Chapter 4159: Artifact fragments! Devour!](#)

"Every one of his moves is full of devilish energy. Obviously, his blood is pure, how could he have nothing?"

But this is the fact.

Chen Feng was quite disappointed.

But suddenly, his eyes flashed and fell to the side.

It turned out that the huge hammer used by the big iron armor next to him was still there.

The hammer is tens of meters long and as high as a dozen meters.

Throw it there, like a hill.

The dissipation of the Iron Armored Demon did not have any effect on this huge warhammer.

Even at this moment, the dozens of cracks on the surface of the huge warhammer that were shaken out by Chen Feng just now had all been closed.

It's as if this huge warhammer has its own life.

It is a living body with its own spiritual consciousness!

Chen Feng's heart suddenly flashed: "A life form with its own spiritual consciousness?"

He clapped his hands and laughed: "I know, I know why!"

However, Chen Feng didn't say it through at once, but smiled slightly at the corner of his mouth: "I want to verify my guess, so now, this is the most appropriate thing."

After that, Chen Feng stretched out his right hand and thought.

Suddenly, his belt flew over.

It's just that when the belt flew over, it was lazy, and it seemed extremely reluctant.

This is the belt formed by the fragments of the artifact attached to the Celestial White Dragon Spear!

Chen Feng shook his head: "You guy is getting lazy."

He felt that this artifact fragment seemed to be getting more and more lazy, before he would take the initiative to appear, devouring some rare metal weapons and so on.

It hasn't appeared for a while now.

Chen Feng felt that he seemed to be gestating something.

That's right, the inexplicable thing is to give birth to these two words!

Chen Feng didn't know why he thought so, but such a thought arose.

In the next moment, the artifact fragments smelled of the giant warhammer.

So in an instant, his aura changed.

Just now he was lazy, but now he suddenly became extremely alert and extremely excited.

Chen Feng even felt that the hair all over his body seemed to explode in an instant.

Then, the fragment of this artifact revealed its original form with a bang.

It rushed directly on the giant warhammer, and instantly spread like water waves like mercury.

Cover the giant warhammer directly!

The small artifact fragments stretched to the extreme in an instant, almost several times thinner than paper, extending themselves to the extreme, completely wrapping the giant warhammer.

He was almost greedy and excited, and eagerly rushed forward.

And as soon as it came up, it showed the greed of taking that giant warhammer for himself!

Even at this moment, Chen Feng felt that his momentum had become extremely vicious and aggressive!

It seems that if anyone dares to rob him of this giant warhammer, he will have to fight the opponent!

Chen Feng laughed loudly: "Sure enough! Let me guess right!"

"It turns out that the fighting power of this big iron armor is entirely derived from this huge warhammer."

"Although I don't know what the origin of this giant warhammer is, and what it means in the devil world, this thing is absolutely extraordinary."

"Aside from anything else, I have never seen the artifact fragments have such an interest in anything."

"Obviously, he made the artifact fragments covetous and greedy, even crazy!"

"Being able to be treated like this by the fragments of the artifact, I don't know where the level of this thing is. I'm afraid that the fourth-rank and fifth-rank gods cannot describe its level!"

Chen Feng clapped his hands, and suddenly there was a breath of extreme alertness from the fragments of the artifact.

Chen Feng laughed loudly: "Okay, don't worry, no one will grab this from you."

"but....."

He stared at the artifact fragment and said, "You have to hurry, we won't stay here long."

Upon hearing the fragments of the artifact, a small hand suddenly turned out, and it shook a lot there.

It was as if someone nodded quickly there.

After that, he stopped paying attention to Chen Feng and began to devour the giant warhammer intently.

On top of the giant warhammer, devilish energy suddenly lingered.

Chen Feng even heard a sorrowful scream.

The devilish energy rose up and turned into the image of a great demon in the air, seeming to be there, howling in anger and bitterness.

Before he could say anything, a flash of mercury flashed past.

In an instant, he tore him to pieces and dissipated directly.

Chen Feng smiled slightly: "Sure enough, the iron armor demon before is just a cover."

"This real monster is actually this giant warhammer."

"No wonder the Iron Armored Demon didn't leave the real demon seed fragments. It turns out that the secret is here. My previous guess is really good!"

Chen Feng couldn't help but sigh, this Demon Realm is really amazing.

Some great demons exist in the form of weapons.

what is this?

Soldier demon?

The artifact fragments were absorbed there, and Chen Feng began to take out a few things.

The things he took out were all used by Hua Lengshuang that day.

After entering the valley of the fallen stars, Chen Feng discovered that this was a completely different world.

The snow-capped mountains and so on that could be seen in the outer valley of the Valley of Fallen Stars were all missing, so he had to re-orientate here.

To find someone, you have to know where to look.

Chen Feng put a few things that Hua Lengshuang had used before, especially the ribbon.

There was no response to these things, but the next moment, Chen Feng took out a small white jade bottle.

After crushing the small white jade bottle, a magic energy appeared in the jade bottle.

As soon as this demonic energy came out, the air suddenly exploded like a muffled thunder.

It was an instant gurgling sound as if porridge was boiled.

It seems that all the magic energy in this space and this world boils at this moment.

It turned out that this was exactly the demonic energy that Chen Feng had on Hua Lengshuang's body that day.

He thought of today.

This devilish energy dissipated in an instant, and the great movement just now disappeared, as if it had never happened.

But the ribbon suddenly became energetic, suddenly stretched straight and pointed in the direction of true north.

Chen Feng hesitated every day and looked at Zhengbei: "That's it!"

After three hours, only a short section of the giant warhammer remained.

At this time, the fragments of the artifact were no longer the same as in the past, turning into a thriving water wave covering it.

Instead, the original body has suddenly appeared.

Chen Feng saw that his body was already several times larger than before.

Originally only the size of a fist, it is now the size of a small wine jar.

In the silver light like mercury, there was a continuous wave of black formation, and then disappeared.

[Chapter 4160: Leave the Soul Destruction Hall!](#)

In the next moment, this artifact fragment was like a hungry wolf, rushing on the last remaining section of the giant warhammer, directly swallowing the giant warhammer clean!

At this time, the artifact fragments seemed to be somewhat unfinished.

And his breath is completely different from before. Before that, he was lazy and idle, but now his breath is like a beast that has just seen blood.

Gritting his teeth, looking forward to the next fight and devouring!

Chen Feng had felt a lazy aura on this artifact fragment before.

However, in this laziness, there is endless hope for life, and the hugeness that makes him a little scared.

Obviously, this artifact fragment had already entered a state of breeding and purification before.

It may be able to go further and become more powerful.

But now, Chen Feng abruptly interrupted his evolution.

This is not a bad thing for artifact fragments.

Because, although his evolution was interrupted, Chen Feng let it swallow the giant warhammer, such a treasure from the Demon Realm, possessing terrifying power, and super high-level, he can directly cross this evolution and enter the next evolution!

Chen Feng beckoned, and the artifact fragment was attached to the Tianji White Dragon Spear again.

At this time, Chen Feng also clearly felt his difference.

This aura is much stronger than before. Although he seems to have not completely completed the evolution and is still in a dormant state, Chen Feng is already able to sense the enormous aura contained within!

Chen Feng was extremely expecting: "After he completes his evolution, I don't know what level he can reach?"

"Rank 6 or 7? Even higher?"

This is an extremely vast and huge forest.

Towering ancient trees, haunting mist.

No one knows how big this forest is.

Even, few people on the Dragon Vein Continent knew where this forest was.

And those few people who are qualified and capable of knowing are also silent and will not talk about it.

After all, this forest and the terrifying force entrenched in this forest are synonymous with invincibility on the Dragon Vein Continent!

If the nine powers are the strongest on the bright side, then Soul Destruction Hall is a dark side above the Dragon Vein Continent!

It is that hide in the darkness, a terrifying behemoth!

Even, it is enough to shred all the nine forces!

The whole pattern of Soul Destruction Hall is actually like this.

Soul Destruction Hall is located in a huge mountain. This mountain has a radius of hundreds of thousands of miles. It is extremely tall, extremely sinister, and extremely treacherous and hidden.

On the Dragon Vein Continent, no one knew where their location was.

And this huge mountain with a radius of thousands of miles is covered with towering dense forests, and the dense forests are filled with thick white fog several kilometers high.

It is not so much that the huge Soul Destruction Hall was cut into pieces by this forest.

Rather, this Soul Destruction Hall is in this forest, and small areas have been opened up to live in.

Therefore, in fact, there are vast forests between the various areas of Soul Destruction Hall.

These forests are not only barriers that separate places, but also roads.

However, for the martial artist, this path is not working.

Because among all the forests, as long as it is not an area that was deliberately set aside by Soul Destruction Hall for them to live in, then this forest is filled with endless thick fog.

And the thick fog is full of endless ghosts and ghosts!

These ghosts and ghosts completely sealed the forest.

For millions of years, it is not that there is no outside powerhouse who wants to enter the Temple of Soul Destruction through this forest, and lurking in various places of the Temple of Soul Destruction.

But without exception, they all failed, not only did they fail.

Moreover, he has become one of the endless ghosts in the endless forest!

Not to mention them, even the disciples in the Soul Destruction Palace.

Even those with extremely high levels dare not rush into the endless forest.

It is fine to let him go through a forest that is hundreds of meters and thousands of meters long, but if he is allowed to go deep into this endless forest, no matter how high his level is, he will be consumed to death by the endless ghosts and ghosts!

Even if it is a Horcrux holding a ghost and a ghost, the number of times that Horcrux can be used is limited.

And the most desperate thing about this endless forest is that the ghosts and ghosts inside are not only powerful, but their number is almost endless!

Therefore, in this vast and endless, criss-crossing endless forest, even the disciples of the Temple of Soul Destruction, if there is no special reason, they will not come here.

Here, countless ghosts and ghosts were imprisoned in this thick fog.

They cannot get out, but they will not allow strangers to leave the dense fog alive.

Therefore, they constitute the strongest protection of this Soul Destruction Hall!

At this time, in an endless forest, countless wandering souls wandered in it.

But if you look closely, you will find that all wandering souls are aimless.

Among them, there is a wandering soul. Although he tried his best to pretend to be aimless, in fact the traces of his wandering are different from other wandering souls.

He did not move fast, so he did not attract any wandering souls' attention.

Generally speaking, his wandering direction is the periphery of this endless forest.

And the direction he came was from the inner abdomen of Soul Destruction Hall, almost the most central position.

There, Han Yu'er and Qingqiu were also imprisoned where the valley was located!

The location of Soul Destruction Hall is too large, and the area covered by this endless forest is too wide.

And he can't express too fast, so as not to attract the attention of other ghosts.

Therefore, it took him seven or eight days before he finally came to the periphery of this endless forest.

The inside and outside of the endless forest are actually very easy to distinguish.

The endless forest is shrouded in heavy fog all day long. Although there is light in it, there is no sunlight.

The entire scope of Soul Destruction Hall covered by endless forest is like this.

The night here is extremely dark.

In the daytime here, it was foggy.

Outside the endless forest, one step away is the sun.

Here is an extremely high cliff!

Under the cliff, the sun is shining.

Above the cliff, is the black forest covered with clouds and mist.

There are very few ghosts and ghosts here.

After all, what they hate most is the smell of sunlight.

Here, the smell of sunlight is already quite strong.

When we reached the periphery, there were not many ghosts and ghosts here.

But at this time, the ghost ghost, who had been firm and went out without hesitation, appeared particularly conspicuous.
