

Peerless 4341

[Chapter 4341: Endless elixir!](#)

Feeling the extreme scorching heat from the stony ground, but gently exhaling.

Seeing the sky that became turbid and yellow due to the flames lingering and burning, and filled with heavy smoke, a voice resounded in my heart:

"I'm here, I'm finally here!"

"Take great pains, all kinds of precautions, all kinds of hard work, not hesitate to get seriously injured!"

"I finally came here!"

"I'm finally going to be thrown into the furnace of the Emperor of Heaven by him! I'm finally going to the last step!"

If the soul slave could hear Chen Feng's heart at this time, his shocked eyes would fall.

This Chen Feng, who seems to be seriously injured and extremely desperate!

This seems to be Chen Feng who was caught by his praying mantis and the oriole was behind easily!

This Chen Feng who seemed to fall into his calculations!

It turned out to be, I want to take the initiative to come here!

Everything he did before, he wanted to come here on his own initiative!

Take the initiative and enter his Heavenly Emperor's Furnace!

In the next moment, the soul slave is a big sleeve.

Suddenly, his gray sleeves rolled the three of Chen Feng in them.

With a flash of figure, he came to the top of the Emperor Hong furnace that day.

It seemed that he had sensed his arrival, and with a sharp and sharp sound, the lid of the Emperor Hong furnace flew directly that day, directly revealing the situation inside.

Only then did Chen Feng see that in the emperor's furnace that day, it was extremely big.

Far bigger than it looks outside.

The outside looks only a few thousand meters high and low, while inside, the radius is hundreds of thousands of meters!

Obviously, the inside has its own universe and its own space.

And at the moment when the stove lid was completely opened, Chen Feng also smelled an extremely strong medicinal fragrance!

When the richness was reached, Chen Feng smelled it and felt uncomfortable all over.

Even, the injury is improving rapidly, and the whole body is cold.

These various rich medicinal fragrances were brewing, stirring, and transforming into power in his body.

After Han Yu'er and Qingqiu Yaoguang next to Chen Feng smelled it, in an instant, the situation of the two of them was almost relieved.

The whole person has become extremely vigorous and the body is recovering.

Even their cultivation base is increasing at a slow but visible speed.

The momentum continues to improve!

Chen Feng was incredibly shocked: "With our current strength, just smelling this medicine chest can actually feel improved."

"How powerful are these elixir? How strong are they?"

"How terrible is it after refining it?"

At the same time, Chen Feng even smelled that the medicinal scent was not only rich, but also had an indescribable freshness.

He took a closer look, only then did he know the reason.

It turned out that at this time, there were thousands of elixir suspended in the huge furnace of the Emperor of Heaven.

Thousands of elixir!

Each one is extremely rare.

Inside, Chen Feng saw a huge golden Ganoderma lucidum with a diameter of about 100 meters, shimmering with bright clouds, and stacked like colorful clouds.

I saw a huge blood ginseng that was as tall as two or three people, and the whole body was shining with blood.

I saw the whole body exuding a misty silver light, and countless spatial vortices were constantly growing on it, and there were many void spirit grasses with spatial cracks around it!

Wait, wait, there's more.

If any one of them is taken to the Dragon Vein Continent, I am afraid that it will cause a great disturbance, and it will attract an unknown number of Martial Emperor level masters.

I am afraid that even the nine major forces at this level will covet them.

But here, there are thousands of elixir of this level!

When Chen Feng saw it, he couldn't help being shocked!

He is quite determined, if he is seen by other Dragon Vein Continent experts, I am afraid he will go crazy!

With so many spirit medicines and herbs, I am afraid that the nine major forces mobilize all their staff and collect them for a hundred years to accumulate these!

Chen Feng glanced at the soul slave, and there was a hint of admiration in his eyes.

"This soul slave is indeed an old monster who has lived for thousands of years."

"It deserves to be the Soul Destruction Hall, the secret controller of one of the largest forces in the Dragon Vein Continent."

"I don't know how much effort he has spent, how much manpower he has spent, and how much manpower and material resources he has spent to gather so many spiritual medicines!"

At this moment, Chen Feng suddenly realized how violent the Heaven Stealing God Pill was!

It needs so many spiritual herbs and elixirs to be refined as adjuvants.

Moreover, I don't know what method this soul slave uses. These spiritual herbs and elixir, even if they are placed in the Emperor's furnace, under such a high temperature, they are still extremely fresh.

Some even have dewdrops on them!

It's as if it was just picked, with an indescribable fresh breath.

In Chen Feng's eyes, as if there was a flame burning, staring at the elixir spirit grass, a voice in his heart roared:

"Sure enough, I came right, I came right, I took the initiative to choose to come here!"

"If I collect these spiritual herbs and medicines by myself, I'm afraid I won't be able to do them for hundreds of years!"

"But now, I am here, they..."

A sneer appeared at the corner of Chen Feng's mouth: "But it's cheaper for me!"

Before throwing Chen Feng in, the soul slave smiled strangely: "Chen Feng, I know that you, as the first person of the nine major forces in the Dragon Vessel Continent, must have countless treasures and countless cards."

"I know, these things, I can't search them, nor can I get them."

"I guess, you shouldn't die immediately in my emperor's furnace."

"However, even if it is supported, it is a matter of one and three quarters!"

He paused, and grinned gloomily: "I have to refine this fire for ninety-nine and eighty-one days!"

"The Red Lotus Karma Fire, ranked third on the Profound Fire List of the Mainland, has been refined for ninety-nine and eighty-one days, I am afraid that you will not even have ashes!"

"Only the ray of luck is left for me to use! Hahahaha..."

"Nine-nine-eighty-one days?"

Chen Feng bowed his head, his face as gray as death, unchanged.

However, there was a flash of light in his eyes where the soul slave could not see it.

"Then, the day when the furnace is opened, it happens to be the time when the nine major forces encircle the Hall of Soul Destruction!"

"Soul slave, soul slave, your choice at this time is really good!"

The soul slave smiled and broke: "You know, how long have these adjuvants been waiting for the three of you here?"

"Now, go and reunite with them!"

After that, he directly stretched out his hand and threw the three of Chen Feng into the emperor's furnace that day.

His power envelops the three of Chen Feng, and the three of them cannot break free.

The moment he was thrown into the furnace of the Emperor of Heaven, Chen Feng suddenly turned his head and met the eyes of the soul slave!

The soul slave's eyes were filled with excitement, ecstasy, madness, and so on!

He was so excited that he seemed to tremble.

[Chapter 4342: Chen Feng's first hole card!](#)

He laughed wildly and opened his arms:

"A hundred years of long-cherished wish, achieved today!"

"A hundred years of long-cherished wish, achieved today!"

"Hahaha, soon I will be in charge of the Soul Destroyer Hall and seek the dragon vein continent!"

"At that time, after I take this pill, I will see who can be my opponent!"

At this moment, he seems to have come to the world!

Chen Feng withdrew his eyes, looked at the place where the soul slave could not see, a smile was drawn at the corner of his mouth, and he whispered to himself:

"Soul slave, if I don't come here, how can I kill you?"

"You are, looking for death!"

Then, the three of Chen Feng hovered in the emperor's furnace just like those medicines and spirits.
noVelo**Sb.cOm**

The next moment, the soul slave gave them a deep look.

With a bang, the huge heavenly emperor's furnace cover was fiercely covered.

At this moment, the three of them seemed to be in the void of the universe.

For a time, there was no sound around, no sound, or even any light.

Everything, instantly became like dead silence.

They seemed to be thrown into the eternal darkness and desolation of the universe.

This is cutting off all contact with the outside world!

Obviously, the airtightness of this Heavenly Emperor Hong Furnace can be said to be extremely good.

Think about it too, only in this way can these precious elixir and spiritual energy be prevented from overflowing and wasting in vain.

A smile appeared at the corner of Chen Feng's mouth: "Is it good isolation? This is just right, it can make things easier for me."

At the next moment, the three suddenly saw light.

At the bottom of the Emperor Hong furnace that day rose!

Then they saw that this is not a light!

It's a touch of flames that are extremely bright, extremely hot, and extremely exuberant!

This flame is about ten meters in diameter!

Compared with the huge volcanic flames outside that were like huge pillars of heaven and earth, it was so small that it was invisible.

However, the aura is that the nine flames can't be compared!

This thin, bright flame, winding upward like a snake, hovered and came quickly.

And as soon as it appeared, the temperature inside the Emperor Hong Furnace rose instantly!

Then, the dazzling flame hovered up, rushing towards the three of them.

No, it should be said that it is constantly circling and expanding.

In this way, it is to fill the entire Tiandi Hong furnace!

Chi Chi Chi Chi...

There were constantly powerful elixir, shrouded in this flame, and immediately began to be refined.

Some, even directly turned into the essence of the original medicinal liquid, suspended there.

It can be seen how overbearing this flame is and how high the temperature is!

This bright flame rises extremely fast.

Almost as soon as they appeared in the sight of Chen Feng and the others, they almost came to their side.

The temperature here is getting higher and higher.

When this huge bright flame was about to come next to the three of them, the temperature here was already two to three times the temperature outside.

Seeing, the next moment, it will swallow the three of them.

However, Han Yuer and Qingqiu Yaoguang did not panic, they just looked at Chen Feng quietly.

Because they know that Chen Feng will protect them!

Chen Feng looked at Han Yu'er and Qingqiu Yaoguang, smiled slightly, and said softly, "Don't worry, I am here."

At this time, the dazzling flame has come to the feet of the three!

Chen Feng lowered his head and watched carefully.

This is the heart of Chi Yan!

Known as melting everything, all invincible, Chiyan Earth's Heart Fire!

What's more, the amount is still so huge!

Quantity is the most important thing!

These Chiyan Geocentric Fires of average wrist thickness are already overbearing enough!

What's more, there are so many here!

Seeing the next moment, the extremely hot high temperature would swallow the three of them.

At this moment, Chen Feng suddenly smiled and took out something from his arms.

That is a leaf!

A whole body of emerald green, full of vitality leaves.

As soon as the leaf was taken out, it seemed that the world had become quiet.

It seemed that the world had stopped for a moment.

In this heavenly emperor's furnace, an oblique yellow moonlight was born out of thin air, and the leaf was enveloped in it.

There is indescribable obscurity and mystery, and even more leisurely.

It seems that this is not the inside of the Tiandi Honglu where the temperature reaches hundreds of thousands of degrees, but in their own backyard, leisurely watching the sunset and sipping tea.

It's just one leaf!

Chen Feng said softly: "Come on!"

The next moment, the dim moonlight shattered with a snap.

Then, all the dim moonlight was collected in that leaf.

The next moment, this leaf suddenly grew rapidly.

In an instant, there was already a distance of five or six meters.

Then, the leaf stretched out, and it turned out to be rolled into a cylindrical shape, instantly sealing the three of Chen Feng inside.

It's like forming a house.

However, this house is only a cylindrical shape, not completely sealed, and there are gaps at the front and rear ends.

But it is also strange to say that once the volume is like this, it seems to form a world by itself.

All other things are sealed outside.

Chen Feng can clearly see that there are countless spatial cracks on the edge of the blade, which instantly rise and die!

The line of sight suddenly became distorted.

Obviously, the area where the blades roll is already an independent space.

In an instant, the extremely scorching high temperature outside, the threat of death, and the hot flames all disappeared.

The temperature suddenly returned to normal.

Moreover, in it, the surrounding leaves exude a fresh and elegant fragrance.

Uncomfortable.

Chen Feng and the others were no longer in danger of their lives. With a scream, the scorching red flames of the heart of the earth swept crazily from both sides of the leaves, and hit the huge stove cover.

Then, in an instant, the flames of Chi Yan's heart spread out.

As a result, the interior of the Heavenly Emperor Honglu was filled with this bright red flame that could melt everything.

Chiyen Earth's heart fire seemed extremely dissatisfied with the leaves.

Crazy hit this leaf, trying to burn it.

However, it had no effect. Chen Feng and others were in it, and they were not affected in any way!

It turns out that this is Chen Feng's hole card!

This is the trump card of Chen Feng who dares to come here and dare to enter this Heavenly Emperor Honglu!

His hole card is this blind leaf!

Blindfolded, Shu rolled up, covering a radius of two feet, and resisting all attacks below the peak of Emperor Wudi Nine Stars for a full twelve hours!

This is Chen Feng's hole card!

However, it's only the first one!

Jiuxing Wudi attacks below the peak!

This Chiyan Earth's heart fire, although extremely tyrannical and extremely hot, it did not reach the level of the peak of Emperor Nine Star Wudi.

And, most importantly, what Chen Feng fancied was that this hole card lasted exactly twelve hours.

[Chapter 4343: Will count!](#)

Although within these twelve hours, he was trapped within the range of two feet and could not move.

However, being unable to move is not the point. Even if he can't move, Chen Feng can do everything he wants to do.

Chen Feng sighed lightly and lay directly on the thick leaves. *novelsb.com*

The veins of the leaves are warm and soft, lying on it, unexplainably comfortable.

Han Yu'er and He Qingqiu Yaoguang's tight hearts suddenly relaxed, and the three of them lay down beside Chen Feng and smiled at each other.

Han Yu'er looked at Chen Feng and said softly: "Junior Brother, can you tell us about your plans now?"

Chen Feng glanced at the two women, a touch of guilt appeared in his eyes, and said softly:

"Senior Sister, Yaoguang, I guessed that the soul slave was always watching."

"So I dare not tell you my secret plan, for fear that the soul slave will learn it."

"It made you two worry."

Han Yuer smiled and said: "Where are you talking? How can I be dissatisfied with your hard work?"

Qingqiu Yaoguang also nodded again and again, with a smile on her small face.

Chen Feng took a deep breath and said slowly, "Actually, when you told me about it, I felt that it was a little strange."

"What's strange?"

Han Yuer faintly felt that something was wrong, but hadn't thought of coming over yet.

Chen Feng looked at the two women and said slowly: "What are the identities of the two of you? You two are the main criminals caught by the soul slaves!"

"If the refining level is extremely high, it can even be said to be one of the best medicine in the Dragon Vein Continent!"

"And this pill is extremely important to him!"

"Even decided, whether he will be in charge of Soul Destruction Hall in the future and become the strongest person in Soul Destruction Hall!"

Upon hearing this, Han Yuer and Qingqiu Yaoguang were both thoughtful.

Chen Feng paused, then said, "What is the background of the soul slave?"

"Such a background can be said to be extremely humble. It is no different from the slave servants in the human empire. It is even worse than them."

"Because, he himself should die with the death of his master."

"He didn't die, he was doing well."

"With such an existence, the entire Soul Destruction Hall can't accommodate him!"

Han Yuer and Qingqiu Yaoguang nodded.

"He is discriminated against by everyone, so he should hate them so much that he wants to press on their heads!"

Han Yuer and Qingqiu Yaoguang continued to nod their heads.

Chen Feng smiled slightly: "You two are the key to whether he can fulfill his long-cherished wish."

"Just imagine, if you get along with soul slaves, such an important person, would you be indifferent?"

"Will the two of them be thrown into this Soul Destruction Hall and go wandering by themselves?"

The eyes of Han Yu'er and the two girls flashed, and they said in shock: "Could it be that he did it on purpose?"

"Yes, he definitely did it on purpose!"

Chen Feng said softly: "I didn't think of this layer before."

"But when Kong Yangyu went to find you and passed this news to you, I thought about it."

"Because it is too easy for you to get the news, and it is too easy for Kong Yangyu to get in."

"This is the description!"

Chen Feng stretched out a finger: "First, the soul slaves have been laying this trap, waiting for Kong Yangyu to step on it!"

Han Yu'er said: "In that case, he can catch the evidence of Kong Yang Yu. He is famous for his teacher, and he can do something against Kong Yang Yu and the others."

Chen Feng smiled slightly: "Sister, what you think of is only the first layer, and there is a deeper layer."

He sighed softly and said every word:

"I'm afraid, he wants to take this opportunity and use the hands of the two of you to bring me in!"

"Therefore, catch me!"

"You two, it's not his real goal. I, a person with unparalleled talent and good luck, is what he really needs!"

Han Yu'er and Qingqiu Yaoguang couldn't help being stunned, and they were shocked with goose bumps all over.

But then, they thought of the words that the soul slave had said while looking at Chen Feng just outside.

Suddenly, I felt that Chen Feng's words were absolutely true!

It turns out that the soul slave's scheming is so deep!

He has such a plan!

Both of them showed a touch of lingering fear.

Chen Feng smiled and said, "So, I will do everything..."

In the Heavenly Emperor Honglu, after listening to what Chen Feng said, Han Yuer and Qingqiu Yaoguang were shocked and suddenly realized.

It turned out that Chen Feng's previous miscalculations and the embarrassment that was easily captured by the soul slave were all pretends.

His purpose is only one:

That is, to enter here without causing the soul slave to doubt and fear!

Han Yuer giggled:

"Let me just say, Junior Brother, you are considered to have done nothing. Nothing can escape your expectations."

"Why this time, I was easily caught by the soul slave, the mantis caught the cicada and the oriole? So you did it on purpose."

Chen Feng smiled slightly: "Not only did it deliberately, but in order not to arouse his suspicion, I also tried to be a little embarrassed and stupid."

He shrugged: "You don't know how hard it is to make me pretend to be stupid."

Han Yuer couldn't help but smile.

Han Yu'er looked at Chen Feng and said softly: "Then, Junior Brother, even if you guessed that he is behind the mantis catching the cicada and the oriole, there must be other ways to deal with it."

"But why do you have to enter here? There must be other plans?"

Chen Feng nodded.

That's right, Chen Feng changed his mind, in fact, after Kongsang discussed the sword.

To be precise, it was after his Ba Snake Wuhun Wuhun swallowed the remnant soul of Dongyang Emperor.

And, after he got a blind leaf!

Chen Feng suddenly realized that he seemed to have an excellent opportunity.

And this wonderful opportunity, if you can make good use of it, it is possible to kill the soul slave in one fell swoop!

Chen Feng had obtained many treasures before and had many hole cards.

But this did not give him the confidence to kill the soul slave.

However, when he went to the mansion of Emperor Dongyang, after all those gains, Chen Feng was able to grasp the big gain at once!

Chen Feng smiled and said:

"I came here, in fact, at the beginning, there was only one purpose."

"But later, after hearing the soul slave talk about the stealing **** pill, I had a second purpose."

Han Yuer smiled sweetly: "Presumably, you heard that the God Stealing Pill is so powerful, you should be thinking about it, right?"

"Haha, that's right."

"Stealing God Pill, who can not be tempted?"

Han Yuer said: "Then, what is the first purpose?"

Chen Feng smiled slightly: "Now, you will know it immediately!"

The next moment, Chen Feng let out a low growl: "Ba Snake Wuhun, show up!"

[Chapter 4344: Fire quenches true soul!](#)

The Wuhun space suddenly appeared.

Then, the huge Ba Snake Martial Spirit came out from it.

The Ba Snake Wuhun is extremely large, but this heaven and earth furnace has its own universe, far from the height and size of several kilometers outside.

The space inside is hundreds of thousands of meters.

Although Chen Feng was trapped here and could not get out, his martial spirit was not restricted by this!

The Ba Snake Wuhun suddenly appeared at this time.

All of a sudden, he was exposed to the extreme high temperature of hundreds of thousands of degrees.

Such extreme high temperature, even the strong of the Emperor Martial Realm, will be alive and exploding!

Even a stone mountain will be burnt directly into powder!

Even the seawater in the sea of mulberry will be boiled and vaporized directly!

However, the Ba Snake Wuhun appeared in it, but did not suffer any harm.

Even, it's still a bit enjoyable!

When the Ba Snake Wuhun first appeared inside, he was still a little confused.

Chen Feng suddenly released it, causing it to be directly interrupted, which was originally dormant, and seemed to be somewhat dissatisfied.

But then, when it felt the extreme heat around it and saw the boundless flames, its eyes lit up instantly.

Suddenly became very excited!

It seems that these red flames can't bring any harm to him, on the contrary, they are very happy.

Then, he twisted his body and rushed directly into the endless flames.

Those blazing flames were originally going to refine these spiritual herbs and medicines.

At this moment, when the Ba Snake spirit appeared, they seemed to have spirituality, leaving only a shallow layer of red flames, surrounding the spirit medicine and grass.

The rest of Chiyan Earth's heart fire swarmed towards the Ba Snake Wuhun.

Start to burn fiercely!

Chen Feng sighed softly and let go:

"Fire quenches the true soul! It really is!"

"The winner of the Eastern Wilderness, did not lie to me!"

"Using the world's most powerful and fierce Chiyan Earth Heart Fire to temper the martial soul, it really is the best way!" *NoVe1usb.cOm*

That's right, it turns out that Chen Feng's purpose for entering here is one small and one big!

The small purpose turned out to be to use the extremely strong red flames to temper the Naba snake spirit!

Help it refining the remnant soul of Emperor Dongyang, thereby evolving.

Chen Feng was an exhaustive plan. When his Ba Snake Wuhun had just swallowed the remnant soul of Dongyang Emperor, and it seemed that it would take a long time to digest and absorb the remnant soul of Dongyang Emperor, Chen Feng had this idea in his mind.

Knowing that some external means must be used to help the Ba Snake Wuhun accelerate the absorption and refinement!

When the East Wilderness Winner, Chen Feng and the East Wilderness winner Patriarch discussed this matter in detail.

The winner of the Eastern Wilderness is one of the nine powers, the origin of family learning.

Ziyue's father is even a top figure in the Dragon Vein Mainland. He has lived for hundreds of years and is well informed.

Now I was telling Chen Feng that there is only one way to do this!

That is: the fiery flame quenches the true soul!

That's right, it's like refining a pill!

If you want to accelerate the upgrade and evolution of your martial soul, tempering with flames is the best way.

Of course, it cannot be a normal flame.

At least those who ranked relatively high on the mainland Profound Fire Ranking.

At that time, Chen Feng's heart moved, and instantly thought of this Soul Destruction Hall.

He was just about to put out the fire, and the news that came out earlier was that the soul slave wanted to refine Han Yu'er, Qingqiu Yaoguang and others into the pill.

If he wants to refine the pill, he must have a powerful alchemy furnace and a strong enough flame.

With the strength of the Soul Slave and the resources of the Soul Destruction Hall, will the flame be worse?

I'm afraid it's much better than what I've worked so hard to find!

Instead of looking for it yourself, why not just go there?

Moreover, killing two birds with one stone, he happened to be going there too!

Sure enough, what he expected was correct. The soul slave was condensed by nine giant volcanoes to form the red flames of the heart of the earth. Although it was ranked third in the mainland Profound Fire Ranking, this amount was unimaginable!

In terms of power and power, I am afraid that it is no more than the flame that ranks first on the mainland Profound Fire Ranking!

Horrible!

At this time, the Ba Snake Wuhun was swimming freely in this sea of red flames.

I was so excited that I roared again and again!

Chen Feng looked at him and shouted: "You fellow, I didn't let you out to play!"

"Hurry up and take this opportunity to refine the remnant soul of Emperor Dongyang in your body!"

The Naba Snake Wuhun roared, seeming to be responding to Chen Feng's words.

The next moment, Ba Snake Wuhun roared and rushed directly into the heart of the endless red flame!

Then, he opened his huge mouth directly and sucked fiercely.

Suddenly, he directly sucked in the infinite red flames of the heart of the earth.

The heart of the Chiyan Earth here is almost endless.

And so much was sucked in by him, which shows how powerful the Ba Snake Wuhun can swallow.

Both Han Yuer and Qingqiu Yaoguang were dumbfounded.

Chen Feng smiled slightly, Ba Snake Wuhun was originally known for its ability to swallow.

After all, the snake swallows the elephant!

Even Jiuxing Wudi's remnant soul can be swallowed, let alone this.

In the next moment, the body of the Naba Snake Martial Spirit swelled rapidly, like a sphere.

Perhaps it was because the amount of the Chiyan Earth Heart Fire he inhaled was too large, so that his body was supported, and it felt like it might explode at any time!

Even the body of the Ba Snake Martial Spirit was already somewhat transparent.

Chen Feng could clearly see what was inside him.

At this moment, his body was already full of flames.

Countless Chiyan Earth's heart fire was rolling frantically, shuttle fiercely.

The soul slave, in his body, has become like a small Tiandi Honglu!

And in his body, in addition to the red flames, there are several things that are ups and downs!

Exudes a bright light, with different colors and different attributes.

The most dazzling one is a human figure.

Holding a long sword, Eguan Bo belt, a style of antiquity, extremely grand.

It is the remnant soul of Emperor Dongyang!

What surprised Chen Feng was that besides the remnant soul of Emperor Dongyang, there were still several remnant souls.

Chen Feng looked familiar.

Then, he suddenly remembered: "Aren't these all the spirits swallowed by the Ba Snake spirit?"

It's just that most of these martial arts have been melted away.

At this time, what is left in it is just a eukaryote!

Wuhun eukaryotic!

Chen Feng's heart jumped fiercely, remembering what he said to himself when he was the winner of the Eastern Wilderness.

"My nephew, your Ba Snake spirit is very powerful, it can swallow almost everything."

"Even, he can swallow a martial soul that is more powerful than himself, but I am afraid that there are a lot of martial arts eukaryotes."

[Chapter 4345: Thorough refining!](#)

Chen Feng raised his eyebrows and said: "Wuhun Eukaryote?"

The Patriarch of the Eastern Wilderness Winner said slowly: "The eukaryote of a martial soul is transformed by the core essence of a martial soul. The root power lies in it, and it is extremely difficult to dissolve."

"Inside, there is even a trace of the martial soul's memory sealed."

"Even if you swallow this martial soul, the eukaryote of the martial soul can hardly be refined and melted!"

"The existence of Wuhun eukaryote is a great hidden danger, and it may even cause backlash!"

Chen Feng had heard this before, so at this time, his heart was stunned.

Because he knew that the Ba Snake spirit had swallowed a lot before, wouldn't it mean that there was a lot of hidden danger in its body at this time?

In the next moment, the Chiyen Earth Heart Fire that was sucked into the body by the Ba Snake Wuhun spirit, after feeling the existence of the remnant soul of the Emperor Dongyang, and feeling the eukaryotes of the Wuhun that have not been refined, they suddenly became excited. stand up!

Then, it began to spin frantically at an extremely fast speed.

In an instant, they are no longer like just now, scattered around endlessly.

Instead, they flocked to the few martial arts eukaryotes and the remnant souls of Dongyang Emperor.

Immediately, several large groups formed.

Especially the remnant soul of the emperor of Dongyang, Chiyen Earth Heart Fire wrapped the three layers inside and three layers outside, surging crazily, wanting to refine it.

It seems that for these red flames, the remnant soul of Emperor Dongyang is the supreme delicacy.

Chiyen Earth's Heart Fire seemed to have spirituality, first surrounded it, and couldn't bear it.

Then, a very strong energy burst out suddenly!

All the Chiyen Earth's hearts are on fire at the same time!

From all directions, toward the remnant soul of Emperor Dongyang surged wildly!

The remnant soul of Emperor Dongyang had already lost any consciousness, so there was no resistance.

It's just that with the erosion of the red flames of the earth's heart, it is constantly being melted at a speed visible to the naked eye.

When Chen Feng saw it, he couldn't help feeling happy.

"This refining speed is many times faster than the Ba Snake Wuhun refining itself!"

Chen Feng learned that Ba Snake Wuhun was such a training method.

It turned out to be this extremely overbearing, it seems to be able to swallow everything, dissolve all the red flames of the earth's heart, and swallow the body!

Let this Chi Yan Earth's heart fire, and help yourself to refine!

Obviously, Ba Snake Wuhun had a good idea.

Not only did he want to refine the remnant souls of Emperor Dongyang, he also wanted to take this opportunity to consume him before, but those spirits that had not been melted were all melted!

After all!

Chen Feng's heart was overjoyed: "This is great."

Dongyang Emperor's remnant soul, and those martial soul eukaryotes, are constantly shrinking and being refined and melted.

And the ones that were refined were the purest original soul power that was dispersed.

These original spirit powers spread out like patches of cyan clouds

Then, it was absorbed by the Ba Snake Wuhun!

Soul power is more vague than normal spiritual power, and there is no trace at all, but it can be felt in the dark.

And now, it can be visible to the naked eye.

It can be seen how strong this spirit power is at this time.

The remnant soul of the Emperor Dongyang is being smelted faster and faster, and the azure cloud-like soul power is pouring down, as if it rained one after another in the body of the Ba Snake Wuhun!

This also made the Ba Snake Wuhun extremely comfortable, and his whole body trembled.

Chen Feng could feel the indescribable joy from his body.

Chen Feng was also happy for it:

"This is my martial soul!"

"More importantly, my martial soul is about to transform and improve!"

Chen Feng stared at Ba Snake Wuhun without blinking.

At the same time, several other Wuhun eukaryotes were also being refined.

Finally, with a loud bang, a Wuhun eukaryote was directly exploded and turned into a huge blue cloud with a radius of three to five kilometers, which was absorbed by the Ba Snake Wuhun!

And this Wuhun eukaryote has been thoroughly refined

Then, another Wuhun eukaryote was refined.

Each eukaryotic martial arts spirit is refined, which greatly enhances the aura of the martial arts spirit of Ba Snake.

Chen Feng frowned: "It stands to reason that the Ba Snake Wuhun can break through now, but it hasn't, but continues to absorb it."

Chen Feng knew what he was waiting for!

Refining these martial soul eukaryotes is obviously much easier than refining the remnant souls of Emperor Dongyang.

And as the eukaryotes of martial arts were refined one after another, all of these Chiyan Geocentric fires were all concentrated around the remnant soul of Emperor Dongyang.

Therefore, the remnant soul of the Emperor Dongyang was refined faster.

Finally, how long has passed!

There seemed to be a popping sound in Chen Feng's ear!

As if Chen Feng heard it, a sigh sounded between the heavens and the earth.

With a few traces of nostalgia, with a bit of loss, but there is still the ease after these few breaks!

The sigh fell, and with a soft bang, the remnant soul of Emperor Dongyang disappeared completely!**NOVELUS.COM**

Suddenly turned into a huge amount of original soul power, these original soul powers are so huge, so magnificent, and so many!

As a result, it is not only the blue clouds and mist falling like rain, but also the blue stormy waves after another!

The original spirit power directly formed a sea in the body of the Ba Snake Wuhun!

A turbulent sea composed entirely of spirit power!

At this moment, even Chen Feng's golden spiritual world couldn't help but tremble slightly, seemingly moved by this complex soul power.

Ba Snake Wuhun let out a low roar, and began to absorb it with excitement!

At this time, those Chiyan Earth's hearts that had lost their goals were swept out in madness.

Appearing from the Ba Snake Wuhun body, rotating around his body circle after time, trying to invade into the Ba Snake Wuhun!

They began to bite back!

Chi Yan Jixinhuo seemed to be extremely interested in the soul body. When they lost their target, they aimed at the only soul body here:

Ba Snake Wuhun!

They want to tear and melt the Ba Snake Wuhun!

And this is also Chen Feng's purpose!

How can you be reborn from the ashes without breaking out in extreme danger!

The instinct of the Ba Snake Wuhun was to feel the huge threat from the red flames outside.

He resisted frantically, so the spirit power of the Ba Snake Wuhun was rapidly consumed!

And as his spirit power was rapidly consumed while resisting the flames of the Chiyan Earth's heart, the spirit power in the ocean formed by the soul power in his body was quickly absorbed by him.

With such a consumption and absorption, in this continuous process, the soul power is getting stronger and stronger, and the more refined is getting more and more refined!

Finally, after three more hours, the ocean of soul power in the Ba Snake Wuhun body had already bottomed out.

In the next moment, the last ray of pure light blue spirit power was also absorbed by the Ba Snake Martial Spirit.

[Chapter 4346: breakthrough! breakthrough!](#)

So far, all Wuhun eukaryotes, and the remnant souls of Dongyang Emperor, have been completely absorbed by the Ba Snake Wuhun refining!

If it were normal, it would take at least three years for the Ba Snake Wuhun to refine the Dongyang Emperor's remnant soul and these Wuhun eukaryotes.

It will take at least three years to absorb these again.

That is six years.

Now, it was abruptly broken within a few hours!

This is the meaning of burning true soul!

But at this moment, the Ba Snake Wuhun suddenly stopped.

Chen Feng felt that at this moment, time seemed to stand still.

Even the flames of the Chiyan Earth's heart seemed to be frozen by ice!

In the next moment, the body shape of Ba Snake Wuhun changed rapidly!

His size is crazy swelling.

It's getting bigger and bigger, even bigger than after he absorbed the massive Chiyan Geocentric Fire just now!

The body shape of the Ba Snake Wuhun was originally only tens of thousands of meters in size.

Just now, it has expanded to a size of hundreds of thousands of meters!

And now, it is still swelling crazily!

Soon, it reached the size of millions of meters!

As his size continued to swell, his expression became more and more painful, screaming screams and screaming wildly!

The whole body was trembling, and it seemed to be suffering great suffering!

This Heavenly Emperor Hong Furnace is probably one of the best in all the Heavenly Emperor Hong Furnace in the entire Dragon Vein Continent.

This is also a normal thing.

After all, Chiyen Earth's heart fire, burning ability, penetrating ability, are extremely strong!

And the higher the grade and the stronger the medicine, the stronger the vitality and the stronger the struggle.

If you want to deal with the domineering red flames below, and want to trap these medicinal materials that are not inferior to high-level warriors, how can this Tiandi Honglu be not strong?

However, even if the sealing is good to this degree.

At this time, the soul slaves outside can also vaguely hear the dragons, roars, and the sound of the earth and the earth coming from inside!

It was as if a world was sealed in the Emperor's Furnace!

All kinds of power, in which all kinds of sounds are erupting!

This is Chen Feng's Ba Snake Wuhun tossing inside.

If it's someone else, I'm afraid it will be a little suspicious.

But the soul slave knew Chen Feng's strength well, and because he knew Chen Feng's strength well and knew Chen Feng's details, he didn't have any doubts.

On the contrary, a cold smile appeared on the corner of the soul slave's mouth, stroked the gray beard that stroked his chin, and said with a light smile:

"This Chen Feng really deserves to be the first person in the young generation in the Dragon Vein Continent. There really are so many cards!"

"I'm afraid that at this time, he is desperately opening all kinds of hole cards to resist the burning of the red flames, just to save his life!"

It turned out that he regarded the evolution of Chen Feng's Naba Snake Spirit, etc., as Chen Feng's life-saving action.

As everyone knows, Chen Feng is not to save his life, but to seek a breakthrough!

Instead, it takes his life!

At this time, the size of the Ba Snake Wuhun continued to expand.

Chen Feng was dumbfounded.

At this time, the Ba Snake Wuhun was already a million meters in size.

Almost filled the space inside the Emperor Hong furnace.

The obscure leaf where Chen Feng and the others were located was originally in the middle of the Heavenly Emperor Honglu.

And now, he has been squeezed to the edge of the Emperor's Furnace!

With the continuous changes in the body shape of the trekking Wuhun, his aura also rises crazily, becoming more and more magnificent.

Chen Feng felt that the mountain-like aura was severely suppressed, as if what he was facing was not a martial soul, but a sea, a mountain, and even a world!

Chen Feng had this feeling only when facing Xiahou Jiuyuan.

Even the soul slave almost meant it.

Chen Feng was astonished: "How powerful is the Ba Snake Wuhun at this time?"

But then, horror was replaced by a deep joy.

"This is my martial soul, I don't know what it will evolve into!"

At this time, it seemed to have reached the limit of the Ba Snake Wuhun.

He is now suffering to the extreme!

The Ba Snake Wuhun frantically hit the furnace wall of the Emperor Hong Furnace that day, even if the Emperor Hong Furnace was so huge and mighty this day, he was knocked into a buzzing sound!

Even the soul slaves outside saw that the Emperor Hong Lu was slightly shaken that day!

However, it was only slightly shaken.

It is far from reaching the level of overturning, it is impossible!

"It seems that Chen Feng's hole cards are not bad, he can make such a big movement!"

"Unexpectedly, the emperor's furnace of this day has been knocked unstable!"

"But, so what?"

A grinning smile appeared at the corner of the soul slave's mouth: "When you enter the Emperor Honglu of my day, let alone you, I am afraid that even Xiahou Jiuyuan wants to go out!"

"Chen Feng, you can honestly be refined into a part of the pill by me!"

"Don't struggle to death!"

If the soul slave knew what was happening inside the Emperor's furnace at this time, his expression would be very exciting.

Chen Feng watched carefully, and suddenly, his eyes lit up and he finally understood why the Ba Snake Wuhun had fallen into such a painful situation!

It turned out that at this time, every part of the body of Ba Snake Wuhun's body, and even every part of his body, its soul power was losing!

No, to be precise, it is not a loss or decline, but a retraction!

All the spirit power of his body is shrinking towards the deepest point, the core.

Chen Feng didn't know where these spirit powers had retracted, but he knew that these spirit powers were still in the body of the Ba Snake Martial Spirit.

However, this process is destined to be extremely painful.

This is equivalent to a person's human body, his skin, his muscles, every piece of his bones, even his limbs, all beginning to lose vitality!

Become withered, become gray!

Although these vitalities were still in his body, they contracted to the deepest part of his body.

His body is slowly decayed.

And he can only watch!

What a great pain and despair!

Chen Feng saw this scene, but took a deep breath.

Then, the mind moves.

He is controlling the Ba Snake Martial Spirit, and is constantly actively retracting his spirit power!

At this moment, Ba Snake Wuhun was in extreme pain, struggling and howling frantically.

A look of unbearable expression appeared in Chen Feng's eyes, but he still gritted his teeth and continued to drive the Ba Snake Wuhun without any hesitation!

Because, he knows very well that this is a link that Ba Snake Wuhun must experience in order to advance!

How can we turn the cocoon into a butterfly without suffering?

Finally, I don't know how long it took.

The surface of the incomparably large body of the Ba Snake Wuhun was already completely gray, and even a little hazy.

[Chapter 4347: Heavenly rank 9 martial soul!](#)

There is no vitality and vitality.

And he was tired even when he was yelling, his voice was intermittent, and he seemed dying.

Chen Feng felt unspeakably distressed, but still controlled and continued to shrink!

At this moment, Chen Feng suddenly felt an inexplicable emotion!

The heartstrings were violently moved!

Chen Feng's heart banged wildly, his eyes stared at Ba Snake Wuhun unblinkingly, and he roared: "It's done!"

Chen Feng feels that the critical point has been reached!

And it was at this moment, that Ba Snake Wuhun suddenly banged and exploded into pieces!

That's right, it was blown to pieces!

It was exploded into countless powder!

Those powders were directly swallowed, refined, and disappeared by those hot Chiyan Earth Hearts!

With the explosion of the Ba Snake Wuhun, this space of the Heavenly Emperor's Furnace suddenly became radiant!

With an extremely bright and rich golden light, it suddenly lit up, illuminating this space.

Seeing this golden light, Chen Feng's heart jumped fiercely!

He is very familiar with this light.

It was the cyan light that appeared that day when Wuhun was promoted to the heavenly rank!

It's just that the azure light that Chen Feng saw this time was brighter and more intense than the light he had seen any time when a martial soul was promoted to the sky level, and it was pure and condensed countless times!

The azure light glided across this space of one million meters, giving people the ultimate shock.

As if this place has become the endless sky!

Then, the light dimmed.

Before it disappeared completely, the second azure light appeared again!

Then, it's the third way!

Fourth way!

The azure light appeared one after another!

Finally, in Chen Feng's extremely expectant gaze, the eighth azure light finally disappeared!

Then, the light suddenly appeared!

"The Ninth Way!"

Chen Feng's heart jumped fiercely!

The ninth azure light also suddenly lit up!

And Chen Feng is even more keenly aware that this ninth cyan light is different from every one before!

Not only is it smoother and more dazzling, but in this azure light, there is actually a little bit of starlight!

Just like, there will be stars that day!

It was as if it was not the cyan light that appeared in front of him now, passing his sight.

But, a complete sky!

On that sky, there are moons and stars, so bright!

Chen Feng was instantly surprised: "Why is this?"

"Why is there a little starlight above the ninth light? What does this mean?"

But Chen Feng couldn't think much anymore.

At this time, his heart was already filled with great joy!

Because this is the ninth azure light!

Chen Feng's extremely nervous mood suddenly relaxed.

He felt his body soften, his heart was empty, and he was actually sitting on the ground, unable to stand up.

However, Chen Feng no longer cared about his gaffe.

He sat on the ground, dancing with his hands, laughing loudly: "Nineth-Rank Heaven! Nineth-Rank Heaven!" *noVelusB.cOM*

"Hahaha, my martial soul has finally been promoted to the ninth rank of heaven!"

That's right, the nine azure rays of light flashed, which meant that Chen Feng's martial arts had reached the ninth rank of heaven!

Heavenly rank 9 martial soul!

Chen Feng finally got what he wanted!

As the azure light finally slowly disappeared, dissipating into the void, there was nothingness left in the same place.

That's right, nothingness!

Gone!

I can't see anything! nothing left!

Chen Feng exclaimed, "What is going on?"

It turned out that he discovered that the Ba Snake Wuhun had completely disappeared! The whole is blown up!

It seems that in the crash just now, the entire Ba Snake Wuhun was gone.

"how is this possible?"

Chen Feng shouted in horror: "How can the Ba Snake Wuhun disappear? If it disappears, why did the nine azure rays of light appear just now?"

For an instant, Chen Feng was a little panicked.

He couldn't help but not panic, after all, the matter was really important.

Even with Chen Feng's dexterity and the city government, he can't help but suffer from gains and losses!

But the next moment, suddenly, the darkness in front of Chen Feng!

I can't see anything!

At the same time, Han Yuer and Qingqiu Yaoguang exclaimed: "Brother Chen Feng, what's the matter? Why can't I see anything?"

"Junior Brother Chen Feng, it's pitch black before my eyes!"

Chen Feng was also surprised.

Then he discovered that he was not losing his eyesight.

However, the light of the world in front of me seemed to be cut off, and there was no light at all.

Even the light of the red flames in the heart of the earth disappeared, so I fell into the ultimate darkness, it is not that I am blind.

The next moment, all of a sudden, there was another bright scene in front of you!

The flames of the Chiyan Earth's heart lighted up again, returning to just now!

When Chen Feng was wondering, he suddenly felt that the temperature inside the Emperor's furnace had risen extremely!

It seems to have risen by more than half at once!

He felt that his surroundings had become extremely hot, uncomfortable unspeakably.

However, soon, the power of this blind leaf dispelled the heat.

Chen Feng's brows twitched: "What's going on? Is it possible that the flames of the red flames are rising again?"

Because, most of the Chiyan Earth's heart fire just now was first used by the Ba Snake Wuhun to smelt Wuhun Eukaryote and Dongyang Emperor Remnant Soul.

Then, relying on these red flames to absorb soul power and evolution.

Most of the previous Chiyan Earth Heart Fire was consumed by the Ba Snake Martial Spirit.

"Now, is it possible that these Chiyan Earth's hearts are on fire again, so the temperature is so high?"

But when Chen Feng looked down, he saw the remaining red flames burning quietly, smelting spirit grass and elixir.

There is no new Chiyan Earth Heart Fire.

"Without Chi Yan, why would the temperature rise sharply?"

Chen Feng frowned.

And at this moment, suddenly, he felt that the temperature dropped sharply!

In an instant, from the extreme scorching heat just now, it turned into the extreme coldness now, a chill.

Chen Feng couldn't help but shivered.

There is almost a feeling of being attacked by the Jiutian Gangfeng.

This extreme cold even caused a layer of ice on Han Yuer and Qingqiu Yaoguang.

And Chen Feng even saw that there was a shallow layer of frost on the green veins of the blinding leaf.

It can be seen how cold the temperature is.

Chen Feng was shocked again: "What is going on?"

He felt that he didn't understand anything.

Why is there a light in the Emperor's furnace, a darkness, a hot, and a cold?

What exactly is going on?

If it is someone else, I am afraid that it will be extremely flustered, and it will be extremely upset.

However, Chen Feng was Chen Feng after all, and soon suppressed the panic, quietly thinking.

Suddenly, in Chen Feng's mind, there seemed to be a flash of light!

[Chapter 4348: this is! Nine Yin candles!](#)

He suddenly exclaimed, his face was extremely shocked and unbelievable, as if he had thought of something!

And then, this unbelievable color turned into an intense to extreme joy!

Chen Feng yelled with joy:

"Open your eyes and it is day!"

"Close your eyes, it's the dark night!"

"When you exhale, it's hot summer!"

"When you breathe in, it's cold winter!"

"This, this, this is not the ancient mythical beast in the legend, the wild alien!"

"When the heaven and the earth first opened, was there a powerful existence in the universe?"

Chen Feng's voice was trembling: "This, yes, the candle nine yin!"

"This is, the candle nine yin!"

At the moment when the three words Zhu Jiu Yin were spoken, the entire inside of the Heavenly Emperor Honglu trembled!

An inexplicable grand atmosphere suddenly came!

That kind of breath is extremely noble and extremely gorgeous!

Just like the creatures that only exist in the fairy myth.

But at the same time, this breath is also extremely weak.

Chen Feng was like facing the juvenile of an ancient beast.

The next moment, he heard a cheer that was extremely crisp, like a child's cry.

The most important thing is that this cheer sounded from the bottom of Chen Feng's heart!

Then he felt that there was something connected with his soul.

It seems that there is a feeling between myself and that certain existence.

Chen Feng's heart suddenly moved.

It turned out that he was familiar with this feeling.

This is exactly the kind of connection between his life and Wuhun, which is closely related to each other!

However, it disappeared when the Ba Snake Wuhun exploded just now.

But now, this feeling is coming out again!

So, Chen Feng thought about it.

The next moment, suddenly, red light flashed by.

Then, a figure appeared in front of Chen Feng.

This is actually a little snake!

One, a little red snake.

It's no more than five feet long, and it looks a bit ferocious.

The whole body is red, dull and deep.

And his Shekou, slightly opened, there was a cloud of darkness lingering inside!

That cloud of pitch black, if there is nothing, seems true and illusion.

It seems to exist in this world, and it seems to be hidden in another world.

However, Chen Feng discovered that the middle of the pitch-black mass was actually a flower that was in bud!

Yes, it's just a flower.

To be precise, it is a flower bone!

This flower bone is a deep and bright dark red.

Chen Feng glanced at it, and his heart beat fiercely!

In an instant, a flame was born from the bottom of my heart and burned all over the body!

It feels so hot all over, there is almost a feeling of being burned!

That kind of scorching heat is tens of thousands of times hotter than Chiyan Earth's heart fire just now!

Chen Feng was hit hard, and with a wow, blood spurted out!

And that blood, still in the air, is directly turned into a bright golden fire!

Then, it slowly disappeared.

Chen Feng was extremely shocked: "What is this flower bone flower? How can it be so terrifying and domineering?"

"I just took a look, and I was hit hard!"

Chen Feng could feel it, that there was an extremely terrifying power in it, and it was hidden.

But the sudden horror aura made Chen Feng chill!

Chen Feng quickly looked away and stopped looking.

At this time, the scarlet little snake looked at Chen Feng and giggled.

The laughter was crisp and sweet, without the ferociousness of appearance!

Chen Feng could feel the involvement and dependence from the depths of his soul!

"Is this my Nine-Yin Candlestick Martial Soul?"

There was an inexplicable touch in Chen Feng's heart, a heart that was indescribably soft.

He stared blankly, and for a while, he was actually silly.

After a while, Chen Feng beckoned slightly.

Suddenly, Zhu Jiuyin Martial Soul came to Chen Feng.

The body is wrapped around his arm.

"This is the candle nine yin!"

"This is my Heavenly Ninth Grade Martial Spirit, Jiu Yin!"

Obviously, the current Nine Yin Martial Soul of the Candle is just a larva that cannot be smaller.

But even with this juvenile body, Chen Feng could feel the horror and intrepidity, far surpassing the original Ba Snake Wuhun!

The ninth grade of heavenly rank, well-deserved reputation!

From time to time in his body, there was a terrifying pressure that originated from not knowing how powerful it was.

Although, this coercion is extremely small and dim on the larvae.

It can be said that it is less than one ten millionth, one billionth of his complete body.

However, even the remaining ten millionth of the coercion made Han Yu'er and Qingqiu Yaoguang pale, afraid to approach!

Chen Feng felt that joy almost filled his chest.

It throbbed in the chest, almost gushing out!

He was at a loss even for joy, just let out a series of laughs:

"Hahaha, great, great!"

"My martial soul, my new martial soul!"

"It's the candle nine yin! Unimaginable powerful!"

"I never thought that I could possess the Nine Yin Wuhun Soul!"

Yes, even in Chen Feng's wildest dreams, even in his deepest expectations.

I never thought that my Ba Snake Wuhun could be promoted to the Candle Nine Yin Wuhun!

God, this is the nine shades of candles!

Nine Yin candles!

All just because of these three words!

That's right, Zhu Jiuyin is a snake, but it is stronger than all dragons. I don't know how many times!

Zhu Jiu Yin is not a species produced on the Dragon Vein Continent at all.

A small world like the Dragon Vein Continent could not tolerate existence of this level!

Chen Feng has heard two people mention about the nine Yin Zhu Yin.

One is the yellow bird on the top of the built wood that day.

He once heard the Yellow Bird mention the existence of Zhu Jiu Yin.

It is said that it is a kind of monster that exists in the middle thousand worlds higher than the dragon vein continent.

This kind of monster has reached the level of the ancient sacred beast.

Even in the mid-thousand world, it can be regarded as the top one!

As for how the yellow bird knew, Chen Feng didn't know.

The other time I mentioned it was in the travel notes left by the unknown surname.

That predecessor had traveled many worlds, and he clearly recorded it.

He was once in a medium-thousand world, a level of strength that far surpassed that of a large-scale medium-thousand world in the Dragon Vein Continent, and heard people mention the creature like Zhu Jiu Yin.

It is said that this creature has a red body and an artifact in its mouth.

Located on the highest mountain in the world, Zhongshen Mountain.

This Zhong Shenshan occupies the entire Northland of Zhongqian World.

The tip of the mountain has been pierced into the 33 days.

And Jiuyin of the candle is on this sacred mountain.

The tail of the Nine Yin candles is at the foot of the mountain.

Snake head has already come to the realm of the day.

[Chapter 4349: Chen Feng's second goal!](#)

Its big, I don't know its tens of millions of miles!

And his supernatural power is even more terrifying!

It is regarded as day!

Its sleep is night!

It's winter!

Call for summer

It's Jiu Yin!

When you open your eyes, the whole world will turn into daylight.

When I close my eyes, the world is plunged into darkness!

As soon as you breathe out, the world becomes a hot summer day.

When you inhale, it turns into a bitter winter!

This is no longer what common sense can guess.

That is the great horror power that can affect a world and destroy a world easily!

Even in this mid-thousand world, this candle nine yin is the top existence.

At that time, when he saw that travel note, Chen Feng was extremely interested in it.

It is even more fascinating for this extremely powerful monster named Zhu Jiuyin!

However, he never even dreamed of possessing this kind of beast as a martial soul!

This kind of dream, even he didn't dare to think or do it!

Because the gap between him and Zhu Jiuyin is not an ordinary gap, but the huge gap between the two big worlds!

It can even be said that Zhu Jiuyin belongs to the kind of realm that is seven or eight realms higher than the Wudi realm.

It's not a small realm, not the small realm between the one-star Wudi and the two-star Wudi, but the big realm between the Wuhuang and the Wudi!

"What is the level of this nine-yin candle?"

Chen Feng couldn't even imagine that state!

Looking at the little Nine Yin Martial Soul Candle in front of him, he felt the warmth hovering around his body.

Feeling the kind of dependence and joy from his heart, Chen Feng's heart was unspeakable.

"With this nine-yin candle as a martial soul, my Chen Feng's future can really be called limitless!"

"I'm afraid now, even if I go to a Middle Thousand World, I will be the person with the greatest Wuhun potential!"

"Even in a Middle Thousand World, no one can have Jiu Yin as a martial soul!"

How can this not make Chen Feng ecstatic?

Even with Chen Feng's experience, knowledge, and city government, he was dancing with excitement at this time, like a child.

And Han Yuer and Qingqiu Yaoguang, although they don't know what kind of existence Zhu Jiuyin is, but seeing Chen Feng like this, they also know that this Wuhun must be extremely remarkable.

They were all happy for him.

After Chen Feng told them, Han Yuer and Qingqiu Yaoguang were also shocked and speechless.

This kind of existence really has surpassed the limit of their imagination!

After a long time, Chen Feng calmed down.

A smile appeared at the corner of his mouth, and he put away the Nine Yin Martial Soul.

Then, looking at the raging red flames that was re-burning, "With this Nine Yin Martial Soul, Soul Slave, I am more sure about dealing with you now!"

At this time, the Ba Snake Wuhun has successfully advanced to become the Nine Yin Wuhun.

It was so natural that he would no longer hit the Tiandi Honglu.

The Emperor Honglu also stabilized instantly.

At this time, in the eyes of the soul slaves outside, the Emperor Honglu was instantly stabilized, and there was no more waves.

He laughed loudly: "Chen Feng, presumably all your hole cards have been destroyed."

"You are now completely refined!"

"You are a little more powerful than I guessed, and you lasted about an hour in it!"

In his opinion, Chen Feng has been refined.

Little did they know that the Ba Snake Wuhun had already been promoted.

No movement, not because of death, but because of becoming stronger!

A smile appeared at the corner of Chen Feng's mouth: "The Nine Yin Martial Soul of the Candle has formed, and the first ring of my plan is complete!"

Chen Feng's first goal was the evolution of the Ba Snake Wuhun.

And the second goal is to outrageously kill the soul slave!

The goal of killing soul slaves sounds like a fantasy, completely impossible to achieve!

Who is the soul slave, that is the person in charge behind the Soul Destruction Hall, whose strength has almost reached the realm of the Eight-Star Martial Emperor!

No matter how strong Chen Feng is, he can only match the Six-Star Emperor Wu.

Moreover, the strength reached the Emperor Wu realm, the higher the height, the greater the gap at each level.

In the realm of the six-star Wudi, wanting to kill the eight-star Wudi is definitely a fantasy!

But in Chen Feng's view, this is not impossible.

Because the heavens and the earth repeatedly reincarnate!

Chen Feng's plan is one after another.

His first goal is actually to build the foundation for his second goal!

That's right, the reason why he wanted to use the incomparable red flames in the Heavenly Emperor Hong Furnace here to temper the Ba Snake martial arts soul, so that it can completely absorb the remnant soul of the Emperor Dongyang and upgrade it to the ninth level. The degree of quality martial soul.

Thus, let oneself be able to practice heaven and earth reincarnation magic.

After all, cultivating heaven and earth repetitive reincarnation magic requires a ninth rank martial arts spirit.

It is not his purpose to cultivate the world of repetitive reincarnation, but to kill soul slaves!

Soul slaves are soul bodies!

Heaven and earth repetitive reincarnation magic has always been the most effective on the soul body.

If he had practiced the heaven and earth repetitive reincarnation magic and at the same time added the card of Qibao Yuanyang Shendou, then Chen Feng was at least two and a half sure that he would be able to kill the soul slave unexpectedly.

At least, it can be seriously injured by 30%!

That's enough!

For someone else, maybe not, but Chen Feng will do it!

Because, he was seeking a living from death!

Because the soul slave is equivalent to threatening Han Yuer and Qingqiu Yaoguang, the soul slave sends a message to Chen Feng through Kong Yangyu:

"Within a month, if you don't come, Han Yuer and Qingqiu Yaoguang will be completely dead."

Chen Feng guessed that the purpose of the soul slave might be himself, but he knew it was a trap, and he had to come!

Because here are his beloved Han Yuer and Qingqiu Yaoguang!

His first purpose was to temper the Ba snake martial arts soul, and his second purpose was to kill or severely wound the soul slave.

However, his ultimate goal is actually to rescue Han Yuer and Qingqiu Yaoguang!

Because Chen Feng had guessed and understood the soul slave's conspiracy before, and knew that this was a delicious cake, and this was a bait.

As long as you come by yourself, you will definitely be caught by the soul slaves.

It is impossible to escape from your own strength, whatever method you think of, whatever method you use.

However, this deep sense of powerlessness and the huge gap in strength did not make Chen Feng feel desperate!

On the contrary, he was extremely excited!

In his opinion, this is an extremely difficult challenge, but it is also an excellent opportunity!

"Since you want to capture me, then I will come here and use your Chiyan Earth Heart to practice my martial arts!"

"Then, while you are not prepared, I will kill you!"

"Everything about you will be mine!"

Of course, if it were not to save Han Yuer and Qingqiu Yaoguang, Chen Feng would definitely not take such a risk!

These three goals are actually one after another.

[Chapter 4350: Stealing God Pill is mine!](#)

If according to his original plan, Chen Feng should now find a way to leave the Heavenly Emperor Honglu, and then practice Heaven and Earth's reincarnation magic.

After all, there is not much time for Blindfold Yiye to support.

But Chen Feng changed his mind now and left here in no hurry.

Because of stealing **** pill!

The appearance of the Jiuyin Martial Soul of the Candle, made Chen Feng's grasp suddenly increase to 50%!

And the appearance of another thing made Chen Feng's certainty suddenly increased to 70%!

That is, Stealing God Pill!

At the beginning, seeing these spiritual herbs, Chen Feng thought about how much he could absorb these spiritual herbs.

On the one hand, improve oneself, on the other hand, destroy the soul slaves to refine the Heaven Stealing Pill.

But now, he changed his mind.

"No matter how good these elixirs and grasses are, are they better than stealing the gods?"

"Then, why should I take these things instead of stealing the **** pill?"

In the end, Chen Feng came to the conclusion that the combined value of these things, even if multiplied by three times, is not as good as a God Stealing Pill!

That is the God Stealing Pill, the Ninth Grade Golden Pill!

The Dragon Vein Continent has been tens of millions of years since ancient times, and I am afraid that the number of 9th-Rank Golden Cores is extremely limited!

It may appear in the ancient times. I am afraid that it will be nearly a million years. Since the aura has been exhausted, this is the only one of the 9th grade golden pill!

Now, Chen Feng has one more thing to do.

Moreover, it is an important thing to his big plan!

Devour the God Stealing Pill!

Looking at the spirit grass and elixir in front of him, Chen Feng showed a smile at the corner of his mouth: "I'm sorry for the soul slave, you have worked so hard for hundreds of years to steal the **** pill, but it's going to make me cheap!"

"It's just that, to refine the Heaven Stealing Pill, it takes my life, the lives of Senior Sister and Yaoguang!"

This is absolutely unacceptable to Chen Feng!

How can the lives of three people be taken in for this pill?

"Then, how should this problem be solved?"

A bright light flashed in Chen Feng's mind: "I want to figure out one thing, stealing the **** pill, what exactly do I want?"

Chen Feng was lost in thought.

"This Stealing God Pill is saying that it wants my life."

"Actually, what I want is not my life, but something of mine!"

Thinking of this, Chen Feng's thinking has gradually become clear.

After he pondered for a while, he suddenly clapped his hands and said excitedly: "I know, I know what to do!"

At this time, the smelting of the Ba Snake Martial Spirit is completed, after the achievement of the Nine Yin Martial Spirit of the Candle.

The red flames of the heart of the earth inside the Emperor's Furnace finally don't need to be distracted anymore.

Then, suddenly, the momentum of Chi Yan Earth's Heart Fire increased.

Then, they all turned to the spiritual herbs inside!

Suddenly, on the inner wall of the formation, there are countless lines that suddenly light up.

Chen Feng suddenly rounded his eyes.

As the lines lit up, Chen Feng saw that these lines were extremely mysterious and full of ancient meaning.

About half an hour later, tens of thousands of lines on the inner wall of the Emperor Hong Furnace in this day were all illuminated.

These lines actually formed a huge and mysterious array.

Then, in the magic circle, an inexplicable force poured in, controlling the spiritual herbs and elixir.

These spiritual herbs are constantly fusing with each other in a mysterious law.

When Chen Feng saw it, he couldn't help being shocked. novelusb.com

There are tens of thousands of elixir here, each with different properties, properties, and even strengths.

And each elixir, in the first step, with which elixir.

In the second step, which kinds of elixir will be integrated with.

What about the third step and what kind of control is needed.

The too weak cannot be combined with the too strong at the beginning, otherwise it will be swallowed and lose its medicinal properties.

Etc., etc.....

At any step, there can be absolutely no omissions and mistakes.

If there are only three or five elixir, this is of course very simple.

But here, there are thousands of elixir!

The steps that need to be manipulated have reached millions of times!

In other words, if you want to practice such a pill, you need to control it millions of times.

And every time, there can be no mistakes, no errors in weight, size, order.

If there is, then all previous efforts will be discarded!

How precise is this control?

Chen Feng asked himself: "If I were to refining, I am afraid that the chance of success will not exceed one in a thousand!"

After all, Chen Feng hadn't made alchemy for many years, and everything needed to be re-acquainted.

Moreover, his pharmacist level was too low compared to this stealing **** pill.

At this time, he could clearly feel the unique rhythm of the Chi Yan Earth Heart Fire.

Even those spiritual herbs and medicines have become very orderly.

And all of this is controlled by the pattern formation of the Emperor Honglu,

Obviously, this Heavenly Emperor Honglu's level is already ridiculously high, and his strength is beyond imagination!

The Emperor Honglu didn't even need to worry about alchemists.

It only needs to put enough and good enough medicinal materials into it, and it can use that formation to make the pill by itself.

Next, those red flames began to slowly recover.

Then condense these spiritual herbs.

Most of the previous Chiyen Geocentric Fire had been consumed by the Ba Snake Martial Spirit, but the current Chiyen Geocentric Fire was once again extracted from the nine giant volcanoes.

The nine giant volcanoes are constantly trembling slightly.

One after another strength was extracted from it and entered into the furnace of this heavenly emperor.

The color of the craters of the nine volcanoes has changed from the hot dark red to brilliant red.

Then, it became light red.

Even some of the reds directly become jagged and intermittent.

Obviously, the power of the volcano's veins is almost exhausted.

However, the look of the soul slave who was watching from the high platform remained unchanged.

For him, as long as he can practice the God Stealing Pill, any price can be paid!

At this time, inside the Tiandi Honglu, Chen Feng's eyes were clear, looking at the spiritual herbs that were constantly merging.

The speed of these spiritual herbs and medicines fusion was quite fast, at least much faster than most alchemists Chen Feng had seen.

But there are too many lingcao elixirs here, and the steps that need to be carried out are really too cumbersome.

At least, these spirit herbs and elixir will never be smelted in a short time.

"Before, the soul slave said that we were going to be smelted in it for ninety-nine-eighty-one days. It seems that what he said was true."

"I'm afraid it really takes ninety-nine-eighty-one days to finish smelting this Heaven Stealing God Pill!"

Chen Feng frowned.

"Could it be that we really want to stay here for ninety and eighty-one days?"

Chen Feng's original plan was to enter here and use a blinding leaf to protect his body.
