

Peerless 4841

[Chapter 4841: unbelievable! Tianlei destroys the world!](#)

The brutality of the witch demons is jaw-dropping.

This behavior of the witch demons is quite effective.

Not only did it reduce the wounded for himself, but it also made these human race powerhouses less morale and excited after victory.

At this time, far away in the Witch camp.

The powerhouses on the top of the sky, seeing this scene, are all chilling.

Can't help but glance at Zhan Xiu.

Xian Yu Wan Beast gritted his teeth and cursed in a low voice: "Damn, you really don't treat us as human beings."

A killer flashed in Zhan Xiu's eyes, and he didn't know what he was thinking.

On the second day, it was still a hundred thousand servants who killed them.

But this time, it has changed a direction.

Obviously, the Witch Clan demons are testing!

They are testing which direction to attack from, but this is the weakness of the Thunder and Destroying World Array.

But the problem is that when they got the map, they knew where the weakness was.

They seem to be hiding something.

An hour later, these 100,000 servants were seriously injured once again and fell to the ground.

Not surprisingly, after a while, they were once again beheaded to death by their master!

On the third day, continue.

On the fourth day, continue.

...

It's like this every day.

Every day, the Witch Clan demons will send out 100,000 servants to attack a certain direction.

In the past ten days, he had already beaten all directions of the Tianlei World Destroying Array.

In ten days, the millions of servants had almost died.

Few people died under the hands of the strong human race, and many died under their own hands.

On the eleventh day, many human experts were relieved.

Their servant army is finally over, right?

Ten days have caused them considerable psychological pressure.

However, on this day, at a far distance, another million servants came here!

Then, the attack continued.

This offensive lasted for a whole month!

That's right, three million servants died in thirty days a month!

Although it did not cause any substantial harm to the human race powerhouse.

However, this kind of tactics that seem to be endless, not enough to kill, endless, endless, endless crowds, but it puts them under great mental pressure.

Many people were even more shocked.

"These servants, are they endless? Are they endless?"

The morale of the strong people in this race is quite low.

It's the thirty-first day.

Finally, everyone was refreshed.

In the Witch Clan camp, countless strong figures appeared.

They are all witch demons.

They rode huge witch beasts, and the distance between them was huge, and the number of them was about a thousand.

Then, came to the southeast.

With a loud roar, all the evil demons of the witch race were killed!

They finally got real!

All the strong people are refreshed.

It seems that after this month of testing, they have already found the weakness of the Sky Lei World Destroying Array.

Now, finally began to use his true power!

Among the thousand evil demons of the Wu Clan, most of them are of the Nine Star Wudi level.

However, there are also more than a hundred famous Star Soul Martial God Realm first building.

Dozens of famous Star Soul Martial God Realm second floor, and even seven or eight Star Soul Martial God Realm third floor.

This kind of strength surpassed the sum of the three million troops that had been beheaded before.

These powerhouses are of course nothing to the entire Tianlei World Destroying Array.

But the key is that the object of their attack is not all of the Tianlei World Destroying Array!

Just a small corner in the southeast!

A large swarm of strong men is surrounded there.

Suddenly, it caused great pressure there!

Countless witch demons, riding on witch beasts, stepped into the air.

Crazy use of his own aggressive offensive, bombing above the blue light barrier!

Even, directly hitting up with his powerful body.

Bang bang bang!

No longer like a mud cow entering the sea, but hitting the blue light barrier, numerous blue ripples appeared.

The most ruthless point is that almost all the offensives of thousands of people fell on the same point.

Falling on a blue light barrier with a radius of about tens of meters, trying to break this!

Such a dense and tyrannical offensive in a short time, such a huge pressure, instantly made this blue light barrier unbearable!

The light above flashed sharply.

There was even a crisp sound and cracks appeared.

For a moment, it seemed that these witch demons had the upper hand.

But the next moment, a shocking scene appeared.

Following several celebrities and powerful people, they sneered and roared, waving their hands again and again.

Above the body, there was a power that had the same origin as that of the Thunder Destroying World Array.

In an instant, there was no movement on the Lei Mieshi Great Formation that day, and the cyan thunder group that quietly suspended there suddenly moved!

Boom boom boom!

More than a dozen blue thunder groups smashed at the thousand powerful evil spirits of the Wu Clan.

In a blink of an eye, it burst into pieces!

The screaming screams suddenly sounded.

In an instant, hundreds of evil demons of the witch clan were killed to the dregs!

At this time, Chen Feng finally saw the power of the blue thunder group!

When a thunder group went down, it happened to fall among more than a dozen witch demons.

As the thunder group blasted to pieces, the endless blue sky thunders emerged from the void and fell fiercely!

There are hundreds of sky thunders brewed by a thunder group.

Every sky thunder is as thick as a bucket!

There is an extremely violent and powerful force in it.

As the huge violent thunder blasted down, the dozen or so witch demons who were enveloped in it were all blasted into nothingness!

Among them, one of the second floor of the Star Soul Martial God Realm was directly bombarded into sky debris, and even the entire body was not left behind.

That's it!

This is the second floor of a Star Soul Martial God Realm!

Even if it is placed in the Xuanhuang Middle Thousand Worlds, or placed on the top of the sky, it is not considered weak as the second building of the Star Soul Martial God Realm!

That's it, dead silently and extremely cheap!

A dozen cyan thunder regiments killed hundreds of witch demons!

The power is so terrible!

And there are more than hundreds of thousands of such thunder groups in the entire Tianlei World Destroying Array?

Chen Feng felt that compared with the immense power of this blue thunder group, this sense of cheapness before death was the most desperate thing.

No matter what power you are, no matter what you are, no matter what glorious past you have.

Everything is not worth mentioning on this battlefield.

A blue rolling thunder came down, and he didn't even have the ability to say a word, so he was directly blasted into scum!

It's so cruel!

However, for this, these witch demons are also psychologically prepared.

Did not repel them.

Instead, as there were several experts in the third floor of the Star Soul Martial God Realm in the team, they roared.

In the next moment, these powerful evil demons of the witch clan roared one after another, and their bodies began to change.

Then, all turned into a great witch **** body!

[Chapter 4842: Join the battle group](#)

The strength of these thousands of Witch Clan demons has once again climbed a step!

At this moment, although their strength cannot break through the realm, it has also improved a lot.

In the early stage of the first building in the Star Soul Martial Realm, it turned into the peak of the first building in the Star Soul Martial Realm.

Even some who were in the pinnacle state have already broken through their own realm.

In an instant, the number of their first building in the Star Soul Martial God Realm increased to about three hundred.

The number of strong people in the second floor of the Star Soul Martial God Realm reached more than one hundred.

There are even nearly ten martial artists in the third floor of the Star Soul Martial God Realm!

Even for the evil demon of the witch race, the time for incarnation of the great witch **** body is extremely limited.

At the same time, the consumption is huge.

It is even possible that the body will be sucked dry by the great witch **** body.

Therefore, they will not turn into a great witch **** body at the beginning, but at this critical moment!

Then, a tyrannical attack came again!

And this time, the pressure on the blue light barrier of the Tianlei World Destroying Array was ten times more than just now!

After being transformed into a great witch **** body, the body control ability of these witch demons has been further enhanced.

All the offensives fell on one of the points with great precision.

Moreover, they are clearly well-trained and have already practiced countless times.

Everyone, advance and retreat together.

The effect is also obvious.

As the offensive continued to fall, numerous white light spots appeared on this blue light barrier.

Then, with the white light spot as the center, countless cracks appeared.

The cracks are extremely deep, almost running through the blue light barrier.

Seeing the next moment, this glaucoma barrier with a radius of about fifty meters was about to be shattered.

They will break this piece and break in!

Chen Feng stared unblinkingly.

For him, it was quite interesting for Chen Feng to figure out how these witches and demons powerhouses used the great witch divine body at close range.

At this time, the situation seems critical.

But Fang Wanjian next to Chen Feng had a faint expression without any fluctuations.

And the next moment, the Tianlei World Destroying Array finally revealed its hideous side!

There are more than 10,000 strong people in the Tianlei World Destroying Array.

And for every one hundred strong, there is a centurion.

At this time, the location that the thousand witch demons attacked was exactly the area of a centurion.

The centurion was the pinnacle of the second building in the Star Soul Martial God Realm.

Very calm and calm.

When thousands of witch clan demons attacked again, he suddenly slammed his fist down.

Above the body, blue light surged.

In an instant, the sky thunder destroyed the world, and the light shone.

The dense cyan light diffused out, like a cyan cloud, covering the evil spirits of the witch race.

Then, countless cyan thunder groups poured into this cloud and mist.

Boom, boom, boom, the cyan thunder group continued to blast.

At the same time, the cyan cloud is also, with an extremely magical effect, it can ban all the power of the cyan thunder group, without leaking it.

As a result, the power of these cyan thunderbolts blasted back and forth in the cyan clouds.

Washing the bodies of these witch demons back and forth.

The screams are endless.

The broken arm flew across, splashing flesh and blood.

When the cyan cloud and mist dissipated, the power of the cyan thunder group finally disappeared.

On the spot, the number of Witch clan powerhouses was only about 600 left.

Two or three hundred witch demons died.

Most of the others were also injured.

And what makes them most desperate is that the power of the blue sky thunder after the explosion will be absorbed by the blue light barrier.

The blue light barrier was supposed to be broken, but at this time it was fed back to its peak state.

These witch demons are equivalent to dead in vain.

There was the sound of the horn from the Witch Clan Camp.

Thousands of evil demons of the witch race have come again.

It seems that this time the determination is great and must be broken.

Chen Feng finally understood what the Heavenly Thunder Destroying World Array meant to Bai Bone Peak Camp.

If it was said that it took two strong Bone Peak camps of the same level to beat a witch demon.

So, now, a strong man in the White Bone Peak camp is using the power of the sky thunder to destroy the world.

Use the cyan thunder group as a means of attack.

They can deal with three to five witch demons of the same level alone.

This is a desperate improvement!

This means that the strength of the White Bone Peak Daying Powerhouse has instantly increased by six to eight times!

It is not just the improvement of strength, but the more important point is the psychological impact.

Imagine that when these evil demons of the witch race found out that this was originally a strong human race who was far from his opponent.

At this time, hiding in the big formation, easily smashing himself with several times his own strength.

How will their psychology collapse?

One thousand six hundred witch demons attacked again.

In an instant, that area was caught in a fierce battle!

One thousand six hundred witch demons continued to attack.

At this moment, Fang Wanjian suddenly waved his hand slightly and gave several orders.

Soon, Chen Feng saw that more than four thousand human race powerhouses were concentrated in that area.

However, he did not enter the combat position, but stood by on the inside.

The next moment, under the attack of 1,600 witch demons, the blue light barrier in that area shattered directly.

Did not add it immediately.

Then, more than one thousand six hundred evil demons of the witch clan came in cheering.

Fight hard together with countless strong Bone Peak camp.

The strong human race has lost the shelter of the big formation.

However, there are more than four thousand people and still have the upper hand.

In addition, with the support of the strong human races in the nearby area, they attacked with the blue thunder group from time to time.

The strong human race completely suppressed the opponent.

Chen Feng looked at it and raised his brows slightly: "No, they shouldn't have come in so easily."

But then, with a move in his heart, he already understood Fang Wanjian's strategy.

Obviously, he wanted to let the Witch Clan demons taste a bit of sweetness.

In this way, they will continue to send troops over.

And he was going to treat that place as a Shura field that caused the Witch Clan to bleed and break down.

It became the biggest wound carved on You Xiong's body!

Chen Feng suddenly moved in his heart and fell into thought.

"According to the rules set by the Lord of Heaven, each of us needs to kill ten Nine Star Martial Emperors, two Star Soul Martial God Realm first floor, and one Star Soul Martial God Realm second floor."

"This task, I have never completed it."

"I killed so many witch demons before, but this task has not been completed. It seems..."

Chen Feng's gaze revealed a touch of clarity: "It doesn't count if you use the power of others to make a plan."

"Only if you kill yourself is counted."

"In this case..."

A smile appeared at the corner of his mouth, and between the flip of his fingers, a white jade hand bone appeared quietly.

"Old man, in the next war, you will show your power."

Chen Feng said, "Marshal, I also want to fight the enemy bravely.

Fang Wanjian raised his eyebrows and gave Chen Feng a deep look.

He naturally knew that Chen Feng would never kill the enemy so easily.

But he didn't bother to care about it.

As long as Chen Feng works for himself, he can turn one eye off for many things.

Fang Wanjian gave an order, but after a cup of tea time, two jade medals with special aura appeared in the hands of Chen Feng and Tianchou Beast Slave.

[Chapter 4843: let's start! Human emperor hand bones!](#)

There are two big characters engraved on it: Supervision!

Highlight the special identities of the two.

Fang Wanjian said indifferently: "Yan Changfeng, with this token, you two can freely enter and exit anywhere in the Tianlei World Destruction Array."

On the four words 'anywhere', his tone was particularly emphasized.

Ji Wanhao was beside him, his expression a little dissatisfied, and he said solemnly:

"This is a great trust. Don't let the two of you fail, let alone cause any disturbances."

There was a threat in the words.

Chen Feng laughed: "Don't worry."

After all, the two left quickly.

Inside the large array, there are countless cyan rays, forming one bridge after another.

It is convenient for internal transportation of troops.

Soon, Chen Feng and the two came to the fighting area.

At this time, this area of war has expanded to a radius of hundreds of miles.

In the meantime, the canine teeth are intertwined, and the powerful evil spirits of the Witch Clan and the powerful Bone Peak camp are fighting each other.

This piece of space with a radius of several hundred miles and a height of about fifty miles is full of people fighting on the three-dimensional battlefield.

People die anytime!

Thousands of Star Soul Martial God Realm powerhouses are fighting!

How spectacular!

How fierce!

The sky seems to be shattered.

The broken space is everywhere.

The bodies of countless strong men float here.

But the other strong players in the White Bone Peak camp are performing their duties and guarding their own areas.

Therefore, naturally no one noticed the two Chen Feng who sneaked into this place quietly.

They are also wearing the standard armor of the White Bone Peak strong camp, so they will not be accidentally injured by their own people.

And those centurions also received Fang Wanjian's order, and would not send them two to do anything at will.

As a result, the two sneaked to the edge of the battlefield.

The human emperor's hand bones hovered at Chen Feng's fingertips.

Chen Feng has many methods.

But there is no doubt that in this case, the human emperor skull is most applicable.

The reason why Chen Feng had never killed people by himself before was that he could not kill people by himself.

In that case, his strength will be exposed.

The mysterious, powerful and invincible image that he has carefully created will be destroyed once.

Therefore, he cannot make a move.

And now, his strength has been accumulated high enough to be able to shoot.

However, in this kind of battle between the two armies, they transformed into the evil demon of the witch race, and even transformed into the great witch **** body.

It's so stupid to find his own death.

I'm afraid that I would be beaten to death by myself as soon as I turned into a body.

But this man's hand bones were different.

Not only is it extremely powerful, it is very suitable for sneak attacks, and it can kill a severely injured enemy with one blow.

Moreover, it can also absorb blood energy and enhance the strength of the human emperor's hand bones.

Chen Feng smiled slightly, the situation before him is simply made for the emperor's hand!

This is the most suitable treasure for the moment.

At this moment, in front of the two, not far away.

There are three strong men fighting desperately.

Two strong human races, a witch demon.

The strength of the human race is in the middle stage of the first floor of the Star Soul Martial God Realm.

And the evil demon of the witch race, after incarnation of the great witch **** body, the strength has reached the peak of the first building in the star soul martial **** realm.

Suppress these two powerful celebrities!

He roared wildly and punched a strong human race back.

Then, both fists fell like raindrops and attacked another strong human race.

He was actually going to be killed in a short time, each one defeated.

The strong celebrity hit six punches in an instant.

He was beaten to broken bones, spurted blood, and fell seriously injured.

Seeing that I can't live anymore.

When this evil demon of the witch race laughed wildly and killed another strong human race.

Suddenly, a huge blue thunder group exploded fiercely not far from him.

Although it was not at him, there were dozens of huge lightning bolts with the thickness of buckets struck him.

In an instant, this Witch Clan evil demon, the top powerhouse of the first floor of the Star Soul Martial God Realm, was shocked and screamed again and again.

His body was directly split into a scorched black color, and his breath quickly declined.

Has been seriously injured!

Chen Feng's eyes flashed: "It's now!"

"Let's start! Human Emperor's hand bone!"

Between the palms of the hands, the human emperor's hand bones appeared quietly and flew out fiercely.

Boom in the heart of the witch demons!

Suddenly, the figure of the evil demon of the witch race solidified!

A big hole was directly blasted out of his body.

The endless vitality was absorbed by the human emperor's hand bones.

And his figure is directly turned into fly ash.

In Chen Feng's mind, the voice of the ruler of the heavens rang out: "Kill the first building in the Star Soul Martial God Realm!"

Chen Feng was overjoyed.

"Sure enough, as long as I kill it, then it can be counted as mine."

Thinking of this, a smile was drawn at the corner of his mouth, and he was excited!

"This is a huge loophole!"

"If it can be used well, at this point, I'm afraid I can get great benefits again!"

Chen Feng will not forget the sentence said by the Lord of Heaven:

"If you kill the Star Soul Martial God Realm and above the second floor, you will get extra benefits!"

The additional benefits that the Lord of Heaven said are absolutely not bad!

Then, Chen Feng controlled the human emperor's hand bones, constantly looking for opportunities, and frantically beheading the witch demons!

He can now control the time of the human emperor's hand bones, but only a hundred breaths.

Every second must be cherished!

On this chaotic battlefield, opportunities are everywhere.

However, after ten breaths, Chen Feng had already killed two Star Soul Martial God Realm first building and one Star Soul Martial God Realm second building.

In Chen Feng's mind, the voice of heaven dominates:

"Trial fairy Chen Feng has been completed, the **** and **** battlefield mission without rules, do you choose to return now?"

Chen Feng raised his eyebrows.

"That's the case, although the time limit given to us is half a year."

"But as long as you complete this task, you can return to the top of the sky."

He was thoughtful, and of course he would not choose to return now.

He quickly took back the human emperor's hand bones.

Then, it took three breaths to perceive the power in the human emperor's hand bones.

Before, the human emperor's hand bone absorbed the blood qi of the three strong men on the top of the sky, and today it has absorbed three more.

And the more it absorbs, the stronger it is.

Chen Feng felt it carefully.

In an instant, boundless murderous aura surged, almost freezing him into ice.

Chen Feng's heart jumped fiercely, but he had already sensed the power of this man's hand bone.

A smile was drawn at the corner of his mouth:

"The power of the human emperor's hand bones has now been fully restored."

"Even, stronger than before."

"I feel that if the human emperor's hand bones, with a full blow, burst out all the power accumulated in it, it can even severely injure an early stage powerhouse in the third floor of the Star Soul Martial God Realm!"

Just hit hard.

Can't do a kill.

But it's scary enough!

The human emperor's hand bones are now so strong!

[Chapter 4844: aims! Star Soul Martial God Realm third floor powerhouse!](#)

Chen Feng quickly understood the reason.

The three people who beheaded behind him were evil demons of the witch clan.

The evil demon of the witch family is extremely powerful and full of blood.

Killing a powerful wizard from the first floor of the Star Soul Martial God Realm, the energy absorbed is equivalent to killing three powerful humans of the same level.

Of course very impressive!

Then, Chen Feng helped the Heavenly Cruel Beast Slave complete his killing mission.

This makes it impossible to use the human hand bones.

However, Chen Feng's current strength is not weak.

It took another thirty breaths, and the task of the Heavenly Canine Beast Slave was completed.

He also did not choose to return.

Then, Chen Feng quietly swept his gaze to the higher powers on the battlefield.

After all, that was his goal.

Now, Chen Feng has two goals.

First, kill the stronger enemies above the second floor of the Star Soul Martial God Realm.

Chen Feng wanted to know what special rewards the Lord of Heaven gave him.

Second, let the bones of the emperor's hand absorb as much as possible, and as large as possible!

Chen Feng wanted to see how the human emperor's hand bones could raise his strength to such an extent!

After it has absorbed enough blood, what is the upper limit it can kill?

These two points are extremely important for Chen Feng's next plan!

Soon, Chen Feng determined his goal.

He quietly came to the edge of the battlefield on the other side.

Here, it is beside the ribs of the ancient giant beast.

There are several ribs like huge mountains, lined up side by side here.

On the outside of the ribs, a battle was extremely fierce.

A total of ten powerful celebrities are attacking a witch demon who has turned into a great witch god!

This is a Witch Clan demons in the third floor of the Star Soul Martial God Realm.

However, he had just stepped into the third floor of the Star Soul Martial God Realm.

Before the transformation of the Great Sorcerer Divine Body, his strength was only the peak of the second building in the Star Soul Martial God Realm.

But now he is a real-life martial artist in the third floor of the Star Soul Martial God Realm.

Moreover, on this battlefield, there are very few martial artists in the third floor of the Star Soul Martial God Realm, and they are already the most high-end combat power.

If killing the first floor of the Star Soul Martial Realm and the second floor of the Star Soul Martial Realm would not be so eye-catching, killing a strong person in the third floor of the Star Soul Martial Realm would definitely attract the attention of both parties. .

Chen Feng's first key at this time is to keep a low profile and definitely not attract anyone's attention.

Otherwise, once the opponent determines it as the main target of attack.

Several strong men gathered around, and Chen Feng was about to reveal his cards immediately.

Even, there is a disaster!

Then, how can you kill the opponent concealedly and unobtrusively?

Chen Feng was not in a hurry and observed carefully.

Although there were as many as ten strong human races besieging him, only one of them was the third floor of the Star Soul Martial God Realm.

Therefore, even if there were ten people, he was beaten to the left and the right, embarrassed, and backed again and again.

During the period, he even killed two people!

This evil demon of the witch clan roared so proudly.

But Chen Feng's eyes flickered slightly.

He saw that although these human race powerhouses suffered heavy casualties, they did not panic.

Moreover, under the leadership of the only Martial Artist of the third floor of the Human Race Star Soul Martial God Realm, he stepped back in an orderly manner.

It seems that he was introduced into a trap.

After three breaths, Chen Feng knew what the trap was.

The witch demon roared wildly and killed it again.

The strong man in the third floor of the Human Star Soul Martial God Realm was full of fear, as if he knew that he was invincible, and backed back again and again.

The witch demons laughed and chased after him.

But he didn't realize that at this time, he had already come to the edge of a blue light barrier!

Before, they had been fighting in the gap.

The gap was formed after the blue light barrier was broken, and of course it would be farther away from the other blue light barriers.

When they were far away from the blue light barrier, the blue thunder group above the blue light barrier couldn't help them.

But now, after he had been close to the blue light barrier inadvertently, the celebrity Star Soul Martial God Realm third-level strong man shouted wildly: "Kill!"

In an instant, a few roars came from the blue light barrier!

Several strong human races in combat positions surging in strength at the same time.

Controlling several cyan thunder groups, rushing towards him together.

Three cyan thunder regiments surrounded the witch tribe and demons regiment, and then burst into pieces.

Countless huge blue thunder pillars blasted him fiercely.

Suddenly, a terrible scream sounded.

He was slapped frantically by Thor's whips, and numerous huge blood stains appeared on his body.

Muscles exploded, blood rushed, bones were even chopped off!

In an instant, he was beaten out of human form.

Severely injured and twisted limbs.

And he is worthy of being the third floor of the Star Soul Martial God Realm, and his strength is really extremely powerful.

After being hit hard, he is not dead yet!

On the contrary, his eyes were blood red, and he went crazy towards the inside of the big formation.

Before he was dying, he wanted to enter the inside of the big formation to seek that ray of life!

This scene stunned the strong people of the human race.

For a while, there was no time to stop him.

After recovering, it was too late.

At this time, the witch demons had already penetrated the inside of their ribs.

This is the deepest position that all the witch demons have penetrated in this battle.

No one else has reached this position.

And because he came here, his figure was blocked by the huge ribs.

As a result, other powerful Wu clan can't see him.

Chen Feng was overjoyed: "God helps me too!"

At this moment, this is the best opportunity!

A white jade-like light flashed suddenly, with extremely fast speed.

He appeared directly behind his heart!

When he felt it, it was too late to dodge.

With a loud bang, his body that was about 20 meters high was directly blasted through a big hole, which was extremely smooth.

In an instant, all the vitality was absorbed by the human emperor's hand bones, and he let out a scream.

After the human emperor's hand bone blasted his body out of a big hole, he turned around and stared at him again.

Chen Feng sighed lightly, and slowly exhaled three words: "First blow!"

Then, he killed it again.

At the same time, Chen Feng also felt his spiritual world twitch.

The rate of mental power loss instantly expanded several times.

It is indeed an extremely tenacious witch demon. After transforming into a great witch divine body, it is several times more powerful. Not only is it not dead at this time, but it is madly roaring toward the human emperor's hand bones.

Then, there was another crash!

A big hole appeared in the chest again, and it appeared in the position of the heart.

But even so, he is not dead yet!

Chen Feng said slowly: "Second blow!"

[Chapter 4845: Guards ability! The origin of supernatural powers!](#)

Fear flashed in the eyes of the strong witch race evil demon.

He finally realized that he couldn't stop this trick.

There is no way to deal with it, and how long it takes to kill himself depends purely on the power of this weird hand bone.

"What kind of evil is this?"

He was completely frightened, turned around and fled!

He dared not fight again.

Suddenly, a figure appeared in front of him.

It is the celestial beast slave.

With a wild roar, golden light gleamed all over his body.

A punch came out.

This powerful evil demon of the witch clan growled dully: "Get out of my way!"

But the Tiancun Beast Slave was not afraid, and instead greeted him.

Head-to-head!

With a punch, he shot out fiercely.

Above the body, golden light shined.

With a bang, the two crashed together.

The Tianchou Beast Slave was hit and flew out several hundred meters, hitting the huge rib.

Pain all over, like falling apart.

Instead, he laughed loudly: "Hahaha, happy!"

After the witch demons were blocked by him, they stagnated for that moment.

So the next moment, his figure was completely frozen there.

In the next instant, with a soft bang, his entire body disappeared as a faint flying ash.

Endless blood, all absorbed by the human emperor's hand bones.

In an instant, on the human emperor's hand bones, there was a burst of emotion called ecstasy.

Almost all Chen Feng's spiritual world was shaken.

For the first time, he has absorbed such a sweet, pure, rich and endless blood!

Chen Feng felt very clear about such happiness.

At this time, Chen Feng also said three words coldly: "The third blow!"

The whole process lasted about ten breaths.

At the same time, he already felt his head start to ache.

It means that his mental power is being consumed a lot.

With a brush, the human emperor's hand bone returned to his palm.

Chen Feng immediately took it back, so that no more mental power was lost.

He felt for a moment, and his eyes flashed a little.

"Killing this badly wounded Star Soul Martial God Realm third floor martial artist, used three attacks from the human emperor's hand bones."

"And when dealing with this level of power, I control the human emperor's hand bones, and the loss of mental power will increase three times."

"In other words, I was able to control the human emperor's hand bones for a hundred breaths. Now, if I deal with the third-tier powerhouse of the Star Soul Martial God Realm, I'm afraid I can only support 30 breaths."

"If you deal with the stronger, the time will be shorter!"

It also meant that if Chen Feng controlled the human emperor's hand bones, he would deal with the powerhouse of the third floor of the Star Soul Martial God Realm.

Only able to deal with three or so, the mental power will be exhausted!

Right now!

In the minds of Chen Feng and Tiancun Beast Slave, the vast voice of the Lord of Heaven rang.

"Reincarnation fairy Chen Feng, kill a martial artist in the third floor of the Star Soul Martial God Realm, and reward a supernatural power source!"

"The origin of supernatural powers?"

Chen Feng raised his eyebrows: "What is this?"

But then, his heart shook wildly.

It turned out that what followed was an explanation of the origin of supernatural powers by the Lord of Heaven.

After reading this explanation, Chen Feng was silent for a moment.

In the next moment, he was so excited that he almost screamed out loud!

He never expected that the reward for killing high-level warriors would be so generous!

The source of this supernatural power is so perverted!

It turns out that the source of magical powers is extremely rare even at the top of the sky.

And its usefulness is to raise the martial artist's supernatural power level!

For example, Chen Feng's Buddha's angry eyes lion roar exercise only reached the first level.

At the same time, he also possesses a source of magical powers.

Then, Chen Feng could be in a special place on the top of the sky, branding the source of supernatural powers on his Buddha's screaming lion roar.

In that case, his Buddha's Angry Lion Roar skill can be directly promoted to the second level!

That's right!

No need to practice!

There is no process!

Don't wait long!

No need to painstakingly comprehend!

Eliminate all troubles, as long as the source of this supernatural power is imprinted on it, after the Buddha's angry eyes and lion roar kung is absorbed, this supernatural martial art can directly improve a realm!

Chen Feng slowly exhaled a suffocating breath: "This usefulness is really a bit too much against the sky!"

He has cultivated himself for so many years, naturally, he is very clear.

Like them, the high-level supernatural powers they cultivate are so difficult to break through!

It takes decades and hundreds of years of painstaking practice at every level.

Even with the insight of chance and coincidence, it can be done.

And now, with this source of magical power, all this can be avoided!

Chen Feng's heart was agitated, extremely happy.

At this time, I deeply realized what Fairy Yuheng said to himself that this place is the true meaning of a place where dreams come true!

Just look at the treasures of the level of the source of magical powers, and look at the mysterious yellow world, I am afraid that even the top adults may not be able to get it!

But you can get it when you are on top of the sky.

Moreover, this time you can get more than one mission!

Chen Feng roughly knows why.

Presumably, in the eyes of the Lord of Heaven, the biggest storm that people like themselves may have when they come to this world is to encircle and annihilate a battle team of witches and demons.

Or it was just dozens of people who wiped out the strongest of the White Bone Peak.

The strongest person who can beheaded is just the second-tier strongest person in the Star Soul Martial God Realm.

Therefore, in the eyes of the Lord of Heaven, it would be extremely overjoyed if he and others were able to kill the martial artist of the third floor of the Star Soul Martial God Realm.

Even, it can be said that it completely exceeds the set goal and one's own ability.

Heaven dominates, always just.

If you complete it in a satisfactory manner, you can only get a satisfactory reward.

If he is overjoyed, he will be able to get a generous reward!

The fact is also true.

If someone of the same level as Chen Feng came here, he would definitely not be able to do this.

It was even extremely difficult to complete the task of killing the second strongest in the Star Soul Martial God Realm.

It may be necessary to do everything possible.

It's not that the source of magical powers is easy to get, it's that Chen Feng is too bad!

Chen Feng whispered about the origin of supernatural powers to the Celestial Beast Slave, and the Celestial Beast Slave was also extremely excited.

The two looked at those witch demons.

In the eyes of both of them, these evil demons of the witch clan had become a golden source of magical powers.

Chen Feng chuckles: "The first question has been resolved, so now it's the second question."

Chen Feng just felt that after the human emperor's hand bones absorbed the blood of the martial artist of the third floor of the Star Soul Martial God Realm, there was still a little bit of meaning.

Explain that it has not reached the upper limit!

"What is your upper limit?"

The next moment, Chen Feng and the two entered the battlefield silently, looking for the next target.

At this time, their goal is only the opponent's Star Soul Martial God Realm third floor powerhouse!

[Chapter 4846: The day of the decisive battle! arrival!](#)

Just now, no witch demons saw this scene.

However, there are quite a few strong human races above the combat position who saw this scene.

Within a few breaths, the witch demons were killed.

Although he has been seriously injured, he still has the strength of the third-tier martial artist of the Star Soul Martial God Realm!

As a result, they were killed within three breaths with two people behind!

They looked at Yan Changfeng and Tian Can's gaze, and there was a little awe in an instant.

"Before, it was rumored that Yan Changfeng and Tiancan were weak."

"It's just relying on the trust of the general manager to get to the present, but now it seems that these two men are extremely powerful!"

After ten breaths.

When a powerful Wu clan in the third floor of the Star Soul Martial God Realm was hit by a violent blue thunder.

Chen Feng and Tianchou Beast Slave, once again killed.

The human emperor's hand banged, almost extinguishing his head.

The Tiancun Beast Slave then attacked fiercely, and the offensive of the second floor of the Star Soul Martial God Realm was launched, extinguishing the last trace of vitality of the Witch Clan demons.

As a result, he also got a source of magic power!

The battle continues.

Fang Wanjian's original intention was to turn this place into a wound that caused the Wu Clan to bleed continuously.

This decoy caused the Wu Clan to continuously send reinforcements to attack.

He kept sending people to expand the wound, leaving enough blood for the Wu Clan.

But obviously, the Wu clan was not fooled either.

This short and intense battle, with countless casualties, did not last long.

Or, to be precise, it lasted only 120 breaths.

Because the time for these witch clan demons to transform into a great witch **** body is only one hundred and twenty breaths.

After time passed, the great witch divine body dissipated.

In an instant, the immense pain enveloped them, and the physical weakness made them unable to adapt.

In an instant, more than a dozen people were beheaded.

At this time, among the Witch Clan camp, it seemed that it was unsustainable today.

As a result, the sonorous sound of gold continued to sound.

These evil demons of the witch race yelled at each other and retreated.

Chen Feng was still unfinished.

After all, this battle is like a fish in water for him!

However, he also knew not to be too greedy.

There is enough today.

It turned out that in that short period of time, Chen Feng and the two had already killed four experts in the third floor of the Star Soul Martial God Realm.

Chen Feng got three supernatural powers, and the Heavenly Canal Beast Slave also got one.

At this time, the light of the sky thunder destroying the world was shining, and the blue light barrier spread.

In an instant, the gap was refilled.

It's equivalent to the Witch Clan demons, people are dead in vain.

On the second day, the fighting continued.

However, the scale is much smaller.

On the third day, it was the same.

On the third day, in the evening.

The setting sun was like blood, and the Witch Clan demons who had suffered heavy losses retreated suddenly.

Above the big formation, there was a burst of cheers from the human race powerhouse.

Fighting for three days also made the Bai Bone Peak big camp powerhouse completely relaxed.

The tension before, disappeared.

After three days, the evil demon of the witch clan lost about two thousand people.

There are tens of thousands of strong people in their clan, which is about 20% of their troops.

And they are still making no progress.

It seems that this time the witch demons will be as futile as before.

Finally, angrily left.

Of course, the strong human races who have lost the protection of the Sky Lei World Destroying Array have no ability to keep them.

After they went back, they were dormant for more than ten years before they could make a comeback.

Both sides want to completely destroy each other.

However, it was impossible.

And this is almost the common cognition of all the powerhouses and the witch demons.

During these three days, Chen Feng and the Tiancun Beast Slave had gained a lot.

Chen Feng got five supernatural powers, and the Heavenly Canal Beast Slave also got two.

Especially after the third day.

Chen Feng felt that his human emperor's hand bones had killed the seventh strong man in the third floor of the Star Soul Martial God Realm.

The absorbed power seems to have finally reached a limit!

Because, this time, above the human emperor's hand bones, finally came a feeling of contentment!

This is what Chen Feng had never felt before on the human emperor's hand bones!

At the huge gap, the blue light barrier slowly spread.

The formation became a whole body again.

Chen Feng is sitting cross-legged at the tip of the tall behemoth's skeleton.

Here is a platform with a radius of 100 meters, and it is also the highest point among hundreds of thousands of miles in radius.

Seems to overlook this world.

The human emperor's hand bones slowly rotated between his hands, and Chen Feng's spirit was revealed and he felt carefully.

In the next moment, he felt the endless blood, like a sea of blood, rushing towards him in an endless violent posture.

The ferocity of the power almost smashed Chen Feng's spiritual world in an instant!

Chen Feng yelled, opened his eyes violently, spit out several mouthfuls of blood with a wow.

After a long time, he stabilized again.

He let out a sigh of foul breath.

"Human Sovereign hand bones are now too terrifying, the power inside is so violent and terrifying!"

But then, a smile appeared at the corner of Chen Feng's mouth.

He has discovered the current lethality of this man's hand bone.

"Star Soul Martial God Realm fourth floor!"

That's right, now after absorbing this endless blood energy, the human emperor's hand bones finally raised his power to the upper limit that can be reached at present.

At this time, with a full blow, he was able to cause all the strong people in the fourth floor of the Star Soul Martial God Realm to be injured!

"but....."

Chen Feng whispered: "It's only a blow."

"This blow will exhaust all the power he has stored."

"Unless, with this blow, he can kill the fourth floor of the Star Soul Martial God Realm before he can replenish the consumed power."

"Otherwise, after one blow, the power stored in the human emperor's hand bones will be cleared!"

Need to start again!

But enough!

Chen Feng's goal can already be achieved by being able to injure the strong man in the fourth floor of the Star Soul Martial God Realm!

At a critical moment, this will become a final card and even a hole card to reverse the situation.

Chen Feng suddenly got up and looked into the distance.

The setting sun is like blood.

Looking at the thick clouded Witch Clan camp: "After three months of coming here, I finally made my strongest hole card grow up!"

He slowly clenched his fists: "Everything is under control, and the most important day should come!"

At the same time, the Witch family camp.

Among the handsome accounts, Zhan Xiu smiled and said: "My patriarch, my friend, is ready."

"Tomorrow, the day of the decisive battle!"

Xiong Jie nodded solemnly.

After half an hour, Chen Feng was in the big tent.

Chen Feng sat cross-legged, and the Great Wu Huitian Gong was working.

In front of him, there were about five hundred drops of Wu Clan blood.

The evil demon of the witch ethnic group suffered nearly two thousand casualties, but less than one thousand died.

[Chapter 4847: Xiong Jie shot!](#)

Most of the corpses were snatched back by his own people, and the five hundred drops of blood in front of them were all the blood of the witch race demons collected in the entire White Bone Peak Camp in the past few days.

Chen Feng sucked all the blood into his Dantian.

In the great witch blood pool, the blood is vast and flourishing.

The Great Witch Blood Pool seemed to be overwhelmed, with a faint light, as if to break through into the next stage.

Then, Chen Feng quickly withdrew from the transformation state.

He wants to fill his great witch blood pool extremely.

Chen Feng will adjust his strength to the peak before the most important day!

It's completely beyond the expectations of all the powerhouses.

On the fourth day, the scene of the retreat of the Witch tribe army they expected did not appear.

On the contrary, a heavy horn sounded in the early morning in the Witch Clan demons camp.

Teams of strong people lined up and came outside the camp.

An hour later, outside the camp, millions of servants gathered.

In the next moment, the army of millions of servants rushed towards the Tianlei World Extinguishing Array at the same time.

This is nothing.

But what makes everyone's heart jump is.

Soon, a whole 10,000 army of the Xiong family appeared outside the camp.

They are not only the supervising team of the millions of servants, but at the same time, they slowly rushed forward.

Seeing that it was actually going to be the second wave of attacks on the Tianlei World Destroying Array.

"Is it crazy to have Xiong?"

"Thousands of powerful people, I am afraid that he has all the strength of the Xiong clan, but he actually put all the strength in?"

"He wants to let Xiong's fall, and does he want Xiong's entire army to be annihilated under the thunder and destruction of the world?"

Above the head of the giant beast, Ji Hao-wan looked at Fang Wanjian, a look of worry flashed in his eyes.

Fang Wanjian waved his hand lightly: "It's okay."

Order one after another.

As a result, all the powerhouses moved.

In the large formation, about 20,000 human race powerhouses rushed towards the southeast.

Here is exactly the direction of every Xiong's attack in the past few days.

And here, it is indeed the weakest point of the entire array.

Ji Hao-hao glared at Chen Feng and said coldly: "If this kid hadn't given the formation of the Sky Lei World Destroying Array to the Witch Clan demons, it wouldn't be the case."

Chen Feng flicked his fingers and said leisurely:

"For the formation, the commander agreed."

"Why, are you questioning Marshal's decision?"

Ji Wanhao couldn't say a word that was blocked, his eyes seemed to burst into flames.

Fang Wanjian waved his hand lightly: "Okay, don't make a noise, do your thing quickly."

Ji Wanhao departed angrily.

But an hour.

Millions of servants were killed and wounded again.

However, this also makes the clan powerhouse a little tired.

The next moment, there is a Xiong's army, and the whole army is pressed.

Everyone thought it was crazy to have Xions.

However, this seemingly crazy move in Xiongshi City has also brought tremendous impact and pressure to the Tianlei World Destruction Array!

Almost just for a moment!

As the tens of thousands of Xiong's army rushed forward, a huge gap appeared in the southeast direction.

More than 20,000 celebrities are strong, only 10,000 reserve teams are left, and the rest are made up.

There, fighting fiercely with the Xiong's army.

In an instant, it turned into a Shura slaughterhouse!

But for a moment, the 10,000 reserve team was filled with another 2,000.

Now there are only eight thousand left.

Even the hundreds of thousands of wandering powerhouses in the camp below are always on standby, ready to fill in.

At this time, the strong human race also stabilized the situation.

Even, there is plenty of energy.

He didn't use all his power at all, more than enough.

If this continues, there will be a Xiong today, and it will end in a disastrous defeat!

Like many years in the past, there is an army of the Xiong family, and it still can't break the big formation!

Many people feel a little stable in their hearts.

But, at this moment, suddenly there were dozens of powerful auras in the Xiong's camp, instantly rising up.

Killed fiercely towards the Tianlei World Exterminating Array!

The strong human race exclaimed: "This is the high-end combat power among the Xiong's army!"

"All are experts in the third floor of the Star Soul Martial God Realm!"

Moreover, if they were to transform into a great witch **** body.

I'm afraid that many people can reach the peak of the third floor of the Star Soul Martial God Realm, and even enter the fourth floor of the Star Soul Martial God Realm!

Many strong human races exclaimed again and again!

Fang Wanjian's eyes were cold.

If these people pounced on and rushed into the crowd, then the situation would be precarious.

However, he was also prepared.

He stopped drinking and gave an order.

In an instant, there were hundreds of celebrities and powerhouses on the Baibone Peak camp.

All of these are also experts in the third floor of the Star Soul Martial God Realm.

Among them, the leader is Ji Wanhao.

Hundreds of celebrities, Star Soul Martial God Realm third floor warriors, greeted dozens of powerful wizards.

Chen Feng looked at it, and his pupils shrank.

Unexpectedly, there is such a terrible power hidden in the White Bone Peak Camp!

Almost instantly, hundreds of martial artists from the third floor of the Star Soul Martial God Realm fought into a group.

The evil demons of the witch race have transformed into the great witch **** body one after another, and instantly gain the upper hand.

However, it only has the upper hand.

On the side of the strong human race, after all, the number is dominant.

Therefore, they will not be defeated in a short time.

Even after their great witch divine body change is over, the human race powerhouse can still counter-suppress.

It was at this same moment in the Witch camp.

Zhan Xiu strode into Xiong Jie's handsome account.

Xiong Jie, as if he felt something, raised his head sharply and stared at him closely.

Zhan Xiu smiled slightly: "My leader, the moment I told you before has arrived."

"Now, it's your turn!"

Xiong Jie nodded solemnly.

Without any hesitation, he strode out of the camp.

The next moment, there was a loud bang, and his feet stamped on the ground fiercely.

Unexpectedly, this piece of ground as hard as iron stone was stamped out into a big pit with a diameter of hundreds of miles!

It can be seen how terrifying the power is!

In the next moment, he rose up like a cannonball, with extremely fast speed.

In an instant, I came to an altitude of thousands of miles.

He jumped to this height without resorting to any martial arts or martial arts, relying solely on physical strength!

It can be seen how tyrannical is his body!

Above the head of the giant beast, Chen Feng saw this scene clearly.

Looking at each other with the Tianchou Beast Slave, both saw a touch of horror in the other's eyes.

Only relying on physical strength, without relying on anything else, can reach the level of a powerful person in the fourth floor of the Star Soul Martial God Realm!

The strength of this person can only be described with the word terror.

Chen Feng estimated that he had to deal with the two of him, making two punches and punching them casually, and he would beat his two lives into nothingness!

This is the Wu Clan!

[Chapter 4848: Muddy water makes it easy to fish](#)

Their bodies of demons, their bodies of great witch gods, all they pursue are the ultimate physical power!

He faced the Tianlei World Destroying Array, his sight seemed to travel through space, staring straight at Fang Wanjian's body.

"You humble human races, can anyone dare to fight me?"

Fang Wanjian took a deep breath and gave Chen Feng a deep look.

Then, his body suddenly violent, and he let out a wild roar: "A mean beast, how dare you provoke?"

Above the body, there was endless purple brilliance.

Cut down with one sword!

No nonsense.

Xiong Jie laughed wildly: "Fang Wanjian, it's you again!"

His body flickered, and instantly he and Fang Wanjian became a ball.

The two of them have been enemies for many years.

For hundreds of years, I don't know how many times I have fought, and I am already very familiar with the opponent.

When I first came up, I used my strongest moves to fight life and death.

The two martial artists of the fourth floor of the Star Soul Martial God Realm, their incomparable offensive made up for the sky, almost smashing the sky.

Incomparably powerful force, madly escape everywhere.

Even if it gets a little bit, I'm afraid it will be broken!

Chen Feng thought secretly.

Fang Wanjian already has such strength, so what kind of strength is the Lord of Righteous Path, the head of the Immortal Gate of Destiny?

At least, it has reached the fifth floor of the Star Soul Martial God Realm!

"It seems that our estimate of the strength of this world is somewhat low!"

At this time, Fang Wanjian faced You Xiong Jie.

The strong third floor of the Human Star Soul Martial God Realm, against the strong third floor of the Witch Star Soul Martial God Realm.

The tens of thousands of people and the powerful witches below killed them heartily.

However, it seems that Baigufeng Daying is completely dominant.

This offensive by the Witch army is more like that crazy and futile effort after knowing that there is no hope!

At this time, for Chen Feng and Tianchou Beast Slave, it seemed that it was the best chance to go to the battlefield below to kill the enemy and obtain the source of supernatural power.

However, he did not do so.

Just took a breath and looked around.

At this time, Daying, next to the handsome account.

Fang Wanjian is not there, nor is Ji Manhao.

There were only two of them and some of Fang Wanjian's black guards.

Tiancun Beast Slave looked at Chen Feng: "Big Brother, what shall we do?"

"Of course, to make them mess up."

Chen Feng smiled lowly: "The muddy water makes it easy to fish."

He looked at the sky in the distance, his eyes far away: "After raising them for so long, it's time to use them."

Tianchou beast slave knows.

He was also extremely excited.

"Big Brother has been planning for a long time for this and will finally close the net today!"

His hand quietly fell into the sleeve.

With a 'pop', a purple jade slip was gently crushed.

If there is Dragon Vein Continent, if Chen Feng's friend is here, he can probably recognize it.

This purple jade slip is called "Zimu Lianxin".

It was what Chen Feng used frequently when he was on the Longmai Continent.

Many of his friends have been left, as long as they are crushed in danger, Chen Feng can feel it.

Now, it appeared in the hands of Tianchou Beast Slave.

In fact, it is not so strange to appear in the hands of Tianchou Beast Slave.

But the problem is that this thing also appeared in the hands of several people in the lower camp at the same time.

That's right, it's below the Tianlei World Destroying Array and above the ground.

In the camp where hundreds of thousands of wandering powerhouses were placed.

Almost at the same moment, there were several people, and at the same time, the mother-in-the-child heart symbol appeared in their hands.

At the same moment, they all burst into pieces.

They suddenly felt awe-inspiring.

After looking at each other, they all saw a weirdness in each other's eyes.

Then, several people each whispered a few words to the person next to them.

The people beside him spread to the side again.

Almost in an instant, there were thousands of people who passed a certain message.

At this time, below, in the White Bone Peak camp, hundreds of thousands of wandering powerhouses were all outside the camp, standing in a queue, waiting for orders at any time.

Just give an order, and they will also participate in the war.

These wandering powerhouses are generally much weaker.

Therefore, one by one was frightened.

In the past few days, they had seen many servants of the Witch Clan, coming up to die.

Naturally, they understand in their hearts that if their strength is on the battlefield, only that one will end.

I'm afraid it won't be used up for a while.

There was fear, sadness, and anxiety in everyone's hearts.

On the side, there are hundreds of strong people from the White Bone Peak camp.

Since it is surveillance, if there is a war later, it will lead them to participate in the war.

Or to be precise, to die.

This uneasy emotion grew deeper and deeper.

Like a turbulent volcano waiting to erupt, it seems that a little spark can ignite.

At this moment, suddenly, among the crowd, a roar came to mind:

"Damn, I don't want to be cannon fodder, I don't want to die!"

The speaker is a rough man.

Friends are vast, and among these wandering powerhouses, they are quite prestigious.

And more importantly, he is one of the many leaders under Chen Feng's ninth thousand people.

He stared at the guarded Bai Bone Peak strong man, and shouted sharply: "Now open the big formation and let the Laozi go!"

"I don't want to be cannon fodder here, I don't want to die!"

"Yes!"

The people next to him also shouted loudly: "You gods are fighting, don't bring us mortals in and suffer."

"Yes!"

The moment this person spoke, hundreds of people clamored loudly.

And there was someone who yelled at all the wandering powerhouses:

"Everyone, you have seen the fate of those servants of the Witch Clan a few days ago!"

"How miserable one is to die!"

"Let's go up, I'm afraid we will die in half an hour!"

"Furthermore, it has no effect on the war. If you die, you will die for nothing!"

"You said, what use is there for us to stay here?"

These words are deeply rooted in the hearts of the people.

Suddenly, everyone was clamoring.

Thousands of people shouted.

And the wandering powerhouses here are just hundreds of thousands.

Thousands of people clamored in it, and almost instantly, the emotions spread to everyone.

This volcano, with a bang, was exploded!

Everyone yelled crazy.

Someone even rushed out.

Prepare to attack the Lei Mieshi Great Array that day, leave here.

They are not stupid either, the direction they ran towards was the west.

You know, the evil demons of the witch race are attacking from the southeast.

On the west side, there is neither the Witch Clan demons compulsory nor the White Bone Peak stronghold!

In an instant, there was a mess under the great formation of Tianlei Destroying the World!

And the more than a hundred strong Bai Bone Peak big camp leaders who were in charge of them had not recovered yet, they were all stunned.

[Chapter 4849: Tianlei destroys the world! broken!](#)

I don't know how to deal with this situation.

In an instant, there was chaos!

Some wandering powerhouses began to deal with them, and some White Bone Peak big camp powerhouses began to roar and suppress!

Seal them one by one, throw them around, or even kill them directly!

More people rushed out frantically, fleeing everywhere.

It made a mess of the Tianlei World Destruction Array.

The leader among the 8,000 left-behind Bone Peak big camp powerhouses is also a bold person.

Immediately, an order was issued, three thousand people were separated, and they went to suppress.

But, where can it be suppressed for a while?

Chen Feng sighed lightly and said lightly: "It's done."

The ecstasy in the eyes of the Tiancun Beast Slave surged: "Brother, you are really a god!"

In his heart, he admired Chen Feng's five bodies.

It turned out that my eldest brother had anticipated this scene a few months ago, so he laid this chess piece and firmly controlled the nine thousand people in his hands!

Just for today!

There was a mess, and no one cared about Chen Feng and others.

And at this time, before the handsome account.

The dozen or so guards in black were also attracted and looked there.

There are a hundred guards in black.

The others were sent by Fang Wanjian to join the battle group, leaving only a dozen of them here.

Chen Feng suddenly smiled: "Everyone."

Suddenly, these people all turned around and looked at Chen Feng.

But, in the next moment, they only saw a huge purple-blue lion head rising suddenly!

The Buddha's angry eyes and lion roaring power was launched suddenly!

In an instant, the silent and powerful sound wave turned into a tangible and qualitative shock wave!

Directly enshroud all these dozen people.

Then, it turned into an extremely powerful mental shock!

After Chen Feng's realm ascended to the nine-star Wudi, the power of the Buddha's angry lion roar was also greatly improved.

More than a dozen guards in black only felt their heads bang.

Then, the spirit seemed to be directly photographed into pieces.

In front of him, there was nothingness.

The whole person straightened and fell to the ground, knowing nothing.

They were also unable to control their bodies simultaneously shaken by the Buddha's angry lion roaring power, for an instant!

A moment!

Enough to do many things.

The Tiancun Beast slave flew upwards, connected his hands with dots, and sealed all their meridians.

More than a dozen black guards were all resolved.

However, Chen Feng didn't kill them, he just knocked them out and sealed them.

Now, before the entire handsome account, only Chen Feng is left, that's it!

Or, to be precise, there were only two of them left above the big camp above the entire behemoth.

Originally, all other troops had been drawn out to make reserve teams, and the hidden Star Soul Martial God Realm third-tier strongmen were also caught by the evil spirits of the witch race.

Fang Wanjian and Ji Manhao were not there either.

Chen Feng, and that huge handsome account, there is no obstacle.

Without hesitation, he strode into the handsome account!

Inside, it was quiet.

Chen Feng didn't go forward. As soon as he entered the door, he turned right and turned into an altar.

No matter how Fang Wanjian's handsome account changes, there is a small altar on the right hand side of the door.

When Chen Feng first entered Fang Wanjian to settle accounts, he saw it, as well as the small statue inside.

But after that, he didn't look at it again.

Today, he is standing in front of this little statue with deep eyes.

Then, he suddenly smiled.

But his hand suddenly raised.

With a light bang, the statue was shattered by Chen Feng.

As the statue shattered, the entire Tianlei World Extinguishing Array seemed to sway slightly.

Then, it seemed that a little cyan light faded and disappeared quietly.

Like a candle, blown out.

Then Chen Feng turned around without looking back.

After coming out of it, Chen Feng did not hesitate.

Immediately and the Heavenly Remnant Beast Slave, followed the roads in the formation and hurried forward.

And the direction they are heading is actually the head of this giant beast bone.

All the way forward, I saw that the chaos got worse.

Chen Feng naturally knew that these wandering powerhouses could not make much noise.

It only takes a thousand strong Bone Peak Big Camp to suppress them all.

But he knew that these Bai Bone Peak big camp powerhouses would absolutely not dare to do this until they were ordered.

So, they need orders.

However, those who can give orders are all in the midst of the fierce battle, and they are all dragged by the witch demons.

Therefore, they don't know what to do.

And those wandering powerhouses are making trouble again.

In the next period of time, Bai Bone Peak Camp, the entire Heavenly Thunder Destroying Array, will be plunged into unprecedented chaos.

"And this chaos!"

Chen Feng ticked the corner of his mouth slightly: "Exactly what I want!"

People rushed to and fro everywhere, and some wandering powerhouses even rushed here.

And there are many strong players in the White Bone Peak, hunting everywhere.

But when they saw the token held in Chen Feng's hands, they all respectfully stepped aside.

With two Supervisory War tokens, Chen Feng and the two were unimpeded.

Soon, it was the destination.

Without these two tokens, I'm afraid they would have been stopped long ago.

It turned out that Chen Feng was about to go to various places on the battlefield to kill the enemy and asked Fang Wanjian to supervise the battle for the gold medal.

We are ready for this step now!

Soon, Chen Feng and the two came to the inside of their heads.

On the right hand side, there is a huge suture that looks plain.

Chen Feng flashed in instantly.

After walking two steps inside and turning forward, a cave appeared in front of him.

Follow the cave, all the way forward.

After a while, the front suddenly opened up.

There was a huge space with a radius of hundreds of meters.

In the center of this space, there was a burning blue flame.

The light is fierce, and it contains unparalleled power.

It is exactly the same as the power of the Tianlei World Destruction Array.

Moreover, the most important thing is that around this group of cyan flames, there are wisps of light, and countless cyan rays like plant roots diffuse towards the surroundings.

To every place of the bones of this giant beast.

It seems that the Lei Mieshi Great Array that day was emitted from it.

The voice of the beast slaves was trembling: "Is this the eye of the Tianlei World Destroying Array?"

Chen Feng nodded slowly: "Accurately speaking, it is one of the eyes."

"One of the eyes, above the handsome account statue, has been destroyed by me."

Then, Chen Feng did not hesitate, and walked to the cyan flame.

Smiled slightly: "Offended."

In the next moment, the Buddha's angry eyes and lion roaring power was activated again.

The extremely tyrannical mental impact fell on the cyan flame.

Suddenly, the cyan light flame seemed to let out a scream.

Then there was a 'click', a crisp cracking sound.

[Chapter 4850: Desperate!](#)

As if something was broken directly.

In an instant, the flame became much weaker.

Then, Chen Feng, the Great Witch Huitian Gong, turned into a witch demon and further transformed into a great witch ***** body.

With a low growl, palms shot out.

The blood-red power with strong earth power that belonged to the evil demon of the witch clan slapped fiercely on the blue flame.

This time, the cyan glow struggling for a while, it broke directly.

Chen Feng suddenly returned to his original state.

At this point, Chen Feng's eyes were completely shattered by Chen Feng!

The sky thunder destroys the world big array, from the cyan flame, spread out with the power of the formation, and it is built with the bones of the ancient beast.

Of course very powerful.

But its core is extremely fragile.

Breaking from the outside is naturally difficult.

But to get rid of it from the core is simply unimaginable.

Chen Feng first shattered his spirit with the Buddha's angry eyes and lion roar, and then annihilated him with the power of the evil spirits of the witch family.

Everyone would guess that that huge unicorn is the core of the entire array.

But, who could have thought that the real hub of this big formation, the real core, turned out to be here?

The enemy will not deliberately attack here.

Of course, Fang Wanjian could not be unprepared.

After all, if the enemy is evil, lucky, and by chance, if you storm this place and break it, wouldn't it be wrong to lose?

Therefore, there are two hubs.

One was in Fang Wanjian's handsome tent, under the little idol.

One place is here.

The possibility of two places being broken at the same time is close to zero.

However, it was still destroyed in Chen Feng's hands.

As the sky thunder destroys the world, the front eye is broken.

At this time, the situation outside the battle suddenly changed drastically.

Everyone was fighting fiercely, and suddenly felt the sky thunder destroying the world, shaking violently.

Then, the earth shook violently.

Those blue light barriers, those blue thunder groups, and even the bones of the giant beast were shaking violently.

Everyone was shocked and couldn't help slowing down their hand movements.

Focus on the Tianlei World Extinguishing Array.

However, the difference is that the powerful Wu clan is full of surprises.

And the many strong human races are unspeakable panic.

The next moment, with a loud bang.

A crack appeared on a blue light barrier.

And there, no witch clan evil spirit powerhouse is attacking.

The next moment, the fissure suddenly enlarged and spread to the surroundings.

Then, with a boom, it spread to the entire Tianlei World Destroying Array.

At this moment, the entire sky thunder destroys the world, with cracks all over it, and its momentum and defensive power dropped rapidly.

Everyone exclaimed in disbelief.

And many strong human races are even more flustered.

In the next moment, their most worried scene happened.

With a loud bang, the blue light barrier of the Tianlei World Destroying Array collapsed!

That's right, it just broke up!

It turned into countless cyan light spots and disappeared.

And those cyan thunder regiments are splashing everywhere, breaking up everywhere.

There were bursts of explosions.

But it was not only the Witch clan powerhouses who were killed by them, but also a large number of human clan powerhouses!

This also means that these cyan thunder regiments have completely lost control!

be quiet!

In an instant, on the entire battlefield and around the entire Tianlei Destroying Array, there was a moment of silence.

Suddenly, the many powerful Wu clan seemed to realize something.

Suddenly, there were bursts of crazy cheers!

The strong human race is desperate.

Then, it turned into a deep fear, and morale fell sharply in an instant.

Even, the desire to fight disappeared instantly, looking around, almost want to escape!

It's very simple, because the Great Thunder Destroying the World Array is broken!

The Tianlei World Destroying Array was shattered, shattering their courage, confidence, and desire to fight together!

Because everyone is very clear.

They can stop these powerful Witch Clan demons army, relying on the Heavenly Thunder Destroying the World Array.

No matter how big the gap is, it is because of this, the Marshal wants to become a **** wound from the Witch Clan demons.

If you want to make up, you can make up at any time.

No matter how powerful the enemy is, as long as they hide in the Tianlei World Destroying Array, they can easily kill the opponent by various means.

Everything comes from the Tianlei World Destroying Array!

And now, the big array is broken!

Their biggest and only reliance is gone!

The destruction of the Tianlei World Destroying Array will have disastrous consequences.

Almost instantly, the strong and the weak changed hands.

Originally a strong human race, he had the upper hand, not in a hurry.

After losing the shelter of the Heavenly Lei World Destroying Array all of a sudden, the Witch Clan powerhouse went crazy.

One after another they turned into great witch gods and attacked fiercely.

For an instant, the screams were endless.

Most of the dead and injured were human powerhouses.

In an instant, thousands of casualties were extremely heavy.

It was severely crushed and beaten.

The human warrior is hesitating and has nowhere to go.

Many people even left the battlefield and wanted to escape.

At this moment, Fang Wanjian above the sky saw this scene, and his pupils contracted sharply.

There was a huge shock on his face, even a bit confused!

That is what I have always believed in, the confusion after disappearing!

Finally, it turned into a frightened roar: "How is it possible! @"

However, he also reacted extremely quickly, instantly calming down his mind, with a gloomy face, playing his strongest offensive, and Xiong Jie will temporarily retreat.

Then, he quickly moved down.

Loudly shouted: "Everyone, listen to my orders! Gather towards the head of the giant beast!"

Hearing his orders, the many strong human races seemed to have the backbone.

Quickly roared and gathered towards the head of the giant beast.

But everyone is frightened and depressed.

Everyone is very clear: today, lost!

Moreover, it will be a fiasco!

If you are lucky, there will be a thousand remnants left and escape.

However, the White Bone Peak Camp was also completely lost.

And if it's bad luck...

Thinking of this, many people shudder cleverly.

If you are unlucky, all of them will explain here today.

The White Bone Peak Camp will wipe out the entire army!

Xiong Jie didn't care about Fang Wanjian's escape.

Even to cooperate with him, he was forced to retreat.

Because, at this time, his heart is already occupied by unparalleled great ecstasy!

"Hahaha, Zhan Xiu didn't lie to me!"

"Sure enough, he has the means to break the Tianlei Destroying Array, and he didn't use my own hands!"

"Great, great!"

He laughed wildly, his voice shook everywhere.

All the powerful evil demons of the witch clan can hear clearly:

"Today is the best opportunity to turn into a great witch divine body at all costs and kill me! Kill! Kill!"

Many powerful witches, laughed wildly and transformed, and went crazy to kill.
