

## Peerless 5291

### [Chapter 5291: This is to grab it?](#)

Chen Feng arrived for the first time, even if the aura of the Enforcer of Returning to the Market was not as good as him.

He also doesn't want to have a direct conflict with him for the time being.

It's not worth it for a few unpopular goods.

After Shang Yaoze and others left unwillingly, Chen Feng shook his head and continued to circle around the Guixu Sea City.

After he basically made a full circle.

Here, Chen Feng knew exactly what a trading method was.

Unlike other places, everyone can be a stall owner in Guixu Sea Market.

As long as you have something you want to sell, you can sell it here.

Moreover, Guixu Sea Market has clear rules specifically to restrict some buyers with ulterior motives.

Here, no snatching, no fighting and fighting!

It is these rules that basically keep the whole Guixu Market in a peaceful way.

"Hey....."

Chen Feng came to an empty corner and put a piece of cloth at random.

Begin to put out some useless things on hand one by one.

He is also preparing to set up a stall.

It's not because you have nothing to do and join in the fun.

The main thing is that the materials listed by Jin Sanye are indeed available in Guixu Sea Market-but they are too expensive!

As for the Star Yuan Stone that Chen Feng had mined in the Sword God Desolate Hill before, more of them had already been absorbed by him.

And, it is used to supplement the repair in the broken jade conference.

Another advantage of Guixu Market is the huge flow of people.

It didn't take long for Chen Feng to set up a stall, and he quickly attracted the attention of many people.

"Little brother, where did all these things come from?"

"It's impossible to get it by yourself based on your ability, right?"

A young man with a slightly wretched face approached and secretly looked at Chen Feng.

Chen Feng couldn't laugh or cry.

The things he wanted to sell were all treasures that were not very useful to him after he got them.

Including some general magic weapons, celestial materials, and high-level medicines from the six masters.

However, these things are useless to Chen Feng, but after all, the quality is extremely high and there are many in quantity.

At this moment, his cultivation was too much suppressed.

The result was such a misunderstanding.

In this regard, Chen Feng can only say in a unified manner: "There is no comment on the source, but it can be guaranteed that there is no problem."

However, as the number of onlookers increased, Chen Feng soon discovered some unkindness.

When several extremely faint auras quietly approached, Chen Feng sneered in his heart.

Want to mark his breath and follow him afterwards?

Really treat him as a newcomer who knows nothing, a fat sheep covered in meat?

With the concealment function of the black cloak.

Chen Feng doesn't have to worry about his true appearance being seen through by others.

He was not polite at all.

Regarding those breaths that tried to approach and secretly mark him, he ruthlessly cut off the connection with those breaths and the original body.

Some people standing in the crowd in the distance, the expressions on their faces changed slightly.

Chen Feng turned the other way around and released his spiritual consciousness.

Soon, I noticed the long-standing people in the crowd.

Sure enough, just after Chen Feng cut off those breaths.

Someone looked at Chen Feng's uncomfortable expression and walked forward.

Chen Feng glanced.

This person, also in a black cloak, could not see the real appearance.

It is vaguely visible that his body is burly, and he is a very unpleasant aura on the face.

"How much is it?"

The visitor pointed directly at a section of Lingxiao Yuansheng Wood on Chen Feng's booth.

Lingxiao Yuansheng Wood is also considered a rare natural treasure in the Eastern Wilderness.

Although Chen Feng is useless in his hands, for some cultivators who need it.

It may be as if Chen Feng needed the materials mentioned by Jin Sanye, but it was impossible to find it.

According to his talents, Chen Feng went around the "market price" he learned about in Guixu Sea.

The arm-long Lingxiao Yuansheng Wood in his hand is worth at least 300,000 star Yuanshi!

"One price, three hundred thousand stars yuan stone."

Chen Feng did not plan to engage in any psychological tactics.

Directly quoted the standard market price of this Lingxiao Yuanshengmu.

However, the burly man immediately let out a cold snort.

Through the black cloak, he can feel his dissatisfaction with the price.

I saw him squinting at Chen Feng coldly: "I am not afraid to tell you that this paragraph of Lingxiao Yuanshengmu, I have taken a fancy to."

"If you want to sell, I advise you to reconsider the offer."

"Otherwise...huh!"

Chen Feng only found it ridiculous.

But since there are mainly onlookers around him, he still patiently looks at the burly man:

"Then, what price do you think is appropriate?"

"Ten thousand, no more."

Hearing this offer, let alone Chen Feng.

Even some passers-by who knew this person was here to find fault almost didn't stretch their expressions.

They turned their eyes to the burly man.

For a time, almost everyone's eyes were on that person.

In this regard, the burly man didn't mean anything to hide.

Instead, he glared back at the surroundings fiercely.

Most of the crowd at the scene came back to the market to search for goods, not to make troubles.

After being confronted by the anger of the burly man.

Originally, those onlookers who looked at the burly man, even prepared to say a few words.

At this moment, all of a sudden it died down.

They have never met Chen Feng, and there is no need to offend an obvious local bully for a stranger.

Chen Feng also expressed understanding.

He tilted his head, raised his chin, and sneered at the burly man:

"Why, I didn't let you mark my breath successfully, planning to intercept it halfway."

"I'm planning to use 10,000 stars to take away the heavenly material spirit treasure in my hand?"

Was so straightforwardly exposed.

The burly man didn't even disguise himself.

He sneered directly: "Hehehe, since you dare to put your words on the surface."

"Then, Lao Tzu won't be oblivious."

"I advise you to obediently sell things cheaply to Lao Tzu."

"Otherwise, unless you stay in Guixu Sea Market forever, you might still have to save your life!"

Such a blatant threat once caused many cultivators who had been onlookers to fear that they might be contaminated with right and wrong.

He left quickly.

Originally a lively booth.

Suddenly, because of the burly man and several cultivators similar to him, suddenly became deserted and deserted.

If this continues, Chen Feng's business will be ruined!

Just when he was about to fight back.

The exuded divine sense suddenly noticed several other people walking towards him in the distance.

Old face, Shang Yaoze.

"you again."

Shang Yaoze also noticed the booth of Chen Feng for the first time.

He led many accomplices behind him, and in turn surrounded Chen Feng's entire booth.

Shang Yaoze saw Chen Feng's booth at a glance.

[Chapter 5292: Abolish your cultivation!](#)

Those heavenly materials and spiritual treasures, universal magical artifacts and so on placed there.

A touch of greed flashed across his eyes.

The burly man just turned his head to find when Shang Yaoze and others appeared.

The original arrogant attitude suddenly became friendly.

"Brother Shang, why are you here too."

"walk around."

Shang Yaoze stopped in front of Chen Feng's booth and glanced casually, "Here's not bad."

Speaking of this, Shang Yaoze put on a generous air.

He lifted his chin slightly and set his posture.

"Let's do it, I've made everything in your booth complete."

"I won't take your things for nothing, all of these, give you one hundred thousand stars."

As he spoke, he saw a jade pendant in his hand thrown randomly on Chen Feng's booth.

Chen Feng glanced casually, and indeed there were only one hundred thousand stars.

Good guy, dare to quote!

There are less than a dozen special treasures at Chen Feng's booth.

The value of each item is above the Lingxiao Yuansheng Wood just now.

All added up, the value is at least about five million stars.

And this Shang Yaoze actually planned to use one hundred thousand stars, all inclusive?

Go all the way with that burly man!

Seeing that Chen Feng didn't start to pick up the jade pendant, Shang Yaoze showed a mocking expression:

"Why, think I gave too much?"

"It doesn't matter, I will reward you for the extra."

For this kind of humiliation, Chen Feng doesn't hurt or itchy.

He even stood up straight, his expression calmly penetrating Shang Yaoze.

When Shang Yaoze and others appeared, there were more cultivators around.

Many people watched from a distance, wanting to see what Chen Feng would do.

Of course, the vast majority of onlookers have no hope for Chen Feng.

"It seems that this newcomer has suffered a lot today."

"So many heavenly materials and spirit treasures, they were all taken out at the beginning, but it is not cheap for Shang Yaoze's group."

"Pay attention, this newcomer actually still has the Lingxiao Yuansheng Wood!"

Even onlookers who came earlier have already witnessed the scene of the burly man.

Immediately, everything that had just happened was also spread out.

And Chen Feng this time, Zhang Mu looked far away.

It seems to be checking, who has come.

Shang Yaoze saw through his mind at a glance, and sneered at the corner of his mouth:

"Today, all six patrols of Guixu law enforcement officers have been completed."

"No matter how you look at it, no one will come."

"Those who are acquainted, quickly take the jade pendant."

"Otherwise, don't blame me for being impolite!"

Hearing Shang Yaoze's words, Chen Feng nodded.

"In that case, then I can rest assured."

Before the words fell, the originally chaotic and noisy scene suddenly became silent.

All the onlookers, including Shang Yaoze and the burly man, the expressions on their faces became unified and stagnant at this moment.

Immediately afterwards, some of the cultivators who were not strong enough changed their expressions!

The body bends uncontrollably!

After that, he knelt in front of Chen Feng!

Even Shang Yaoze, at this moment, was so shocked that he couldn't move anymore by this sudden terrorist coercion!

With a confident expression on his face that the deal would be successful, he had begun to stagnate and collapse at this moment.

The eyes began to turn into incredible fear.

Among all the people who cannot struggle.

Chen Feng strolled in the courtyard and came to Shang Yaoze in three or two steps.

Directly slapped him in the face!

boom!

With a loud noise, Shang Yaoze originally stood in front of the booth.

Being hit by this slap, he flew hundreds of meters upside down, and finally embedded in the crater wall!

At this moment, those onlookers who originally looked down on Chen Feng, the "newcomer".

On his face, all eyes widened without exception, as if seeing an extremely shocking picture!

As for Shang Yaoze himself, he was directly slapped by this slap, and his bones were broken!

He was hit by this slap and lost most of his life.

Even more terrifying!

Shang Yaoze's Dantian world was also shattered by this slap!

"No...no! Who are you! You actually abolished my cultivation!"

Shang Yaoze collapsed!

Without the cultivation base, he is like a cripple.

Previously offended so many fat sheep in Guixu Sea Market.

Just a few of the people present have always held grudges against him.

The cultivation base was abolished, and he could not survive today!

At this moment, all onlookers realized it.

The newcomers who they all think are good to bully are simply stubborn people who don't talk too much!

The faint and ordinary aura before was nothing more than a disguise.

Among the crowd, many people suddenly sighed in secret.

Xindao, fortunately, I did not intend to bully the newcomer.

Otherwise, the end will be worse than Shang Yaoze!

However, after this slap was over, Chen Feng did not stop.

He came to the burly man just now, also slapped.

And this slap directly slapped the burly man to death and died on the spot!

After slapped and slapped Chen Feng, he turned around and glanced at all the onlookers present.

In the end, he said coldly: "If you want to buy, get out if you don't."

At the same time, the original almost overwhelming coercion of terror.

In an instant, they were all taken back into his body.

Everyone instinctively breathed a sigh of relief.

It only took a few short breaths, but they felt as if they were being pinched around their necks, making it difficult to breathe.

But now, it feels like being alive again!

At this time, some of the people in the crowd who had planned to fish in troubled waters and tried to do the same were completely honest.

Chen Feng returned to his booth.

He continued to put some of his own useless things on the booth.

"Cang Lan Liu Soul Whip! There are so many dust-cleaning heart protection pills!"

"There is actually a gold and silver moon ring!"

...

Soon, the stalls were full of people.

Everyone honestly asked about the price, and after the two parties reached an agreement, they traded on the spot.

The originally stretched Xingchen Yuanshi suddenly filled up again.

time flies.

When all the things on the stall were swept away.

Chen Feng got up decisively, and once again went to the booth where the third master Jin listed the materials.

However, after purchasing a lot of materials smoothly, another accident happened.

A stall with a list of materials: Tianhaigen and Ziguang Liuli, the stall owner has already left!

Chen Feng had no choice but to look for stalls with Tianhaigen and Ziguang Liuli again in Guixu Sea City.

Finally found a booth with Tianhaigen.

Chen Feng made a decisive transaction and attributed the last Tianhaigen to his own.

Then, continue to look for the whereabouts of Ziguang Liuli.

After a while, there was a harvest.

[Chapter 5293: This person has what I want!](#)

He was in an old man's booth that looked like an old ruffian.

I found the purple colored glass I had been looking for for a long time.

But when Chen Feng asked about the price of purple colored glaze, the old ruffian's eyes turned around.

Then, squinting his eyes, twirling his goatee with fingers, shaking his head and opening his mind:

"One million star yuan stone."

one million!

Chen Feng's expression became gloomy when he heard this offer.

Although purple colored glaze is rare, it is usually capped at two to three million.

All the quotes above are intentional!

The old ruffian in front of him had obviously noticed that Chen Feng was looking for him in Guixu Sea Market.

I'm sure, my own purple colored glaze is very important to Chen Feng, and it is bound to win.

Therefore, he opened his mouth, intending to take the opportunity to make a fortune.

At this time, the onlookers passing by were also taken a breath of air-conditioning by the old ruffian's offer.

"This old thing didn't see that person slapped Shang Yaoze just now? How dare he deliberately provoke him?"

"Maybe, the old man is also a master who deliberately suppresses his breath?"

"It doesn't matter what he does, it's none of our business anyway."

"No, I haven't seen this old man just now."

"He should have just arrived."

The onlookers were talking about it.

Chen Feng also looked at the old ruffian in front of him and made sure that he had not seen this person in Guixu Sea Market before.

He should be a cultivator who entered the Guixu Sea Market midway.

At this moment, Chen Feng was almost squandering the Star Yuan Stone in his hand.

Even if he intends to pay according to the quotation, the balance can only give a mere four hundred thousand stars.

Chen Feng looked at the old ruffian: "A purple colored glass is at most two or three hundred thousand yuan."

"Your Excellency, this lion speaks loudly and asks for a million stars."

"Old man, my appetite is too big."

Facing Chen Feng's rhetoric, it didn't hurt the old ruffian at all:

"Do you want love!"

"I am happy to quote any price. You can kill me if you have the ability."

It looks like a rogue that you can do to me.

For Shang Yaoze's deliberately oppressive cultivators, Chen Feng was able to take action without hesitation.

But facing this kind of unreasonable old bastard, Chen Feng was annoyed in his heart.

However, there is no action for no reason.

Just when everyone thought that the old ruffian was going to end, Chen Feng unexpectedly clasped his fists at the old ruffian.

Then, he said respectfully: "The junior sincerely wants to ask for a purple glaze, and I hope the senior will complete it."

Seeing Chen Feng's reaction, the onlookers suddenly felt extremely surprised.  
from their perspective.

According to Chen Feng's strength and style of acting, he is not afraid of things at all.

Moreover, the six patrols by the law enforcement officers of the Huihui market have passed.

Even if he wants to forcefully grab him now, no one may intervene.

In this case, he was rather polite, which made people really confused.

Even the old ruffian was surprised by Chen Feng's behavior and looked over.

"Boy, you are a little patient."

The old ruffian said slowly, "How many stars do you have?"

Without any hesitation, Chen Feng handed over a jade pendant with four hundred thousand stars.

The old ruffian took it without lifting his eyelids.

"Okay, there are 600,000 left, just take it to make my old man happy."

Although I have gone through some twists and turns, I bought all the necessary materials.

After Chen Feng pretended to go around for a while, he soon left Guixu Market.

The next step is to find a place.

As soon as possible, refining the Luo Hong furnace of the Great Ding Da Xiu in his hand!

But what he didn't expect was.

Although the six patrols a day in Guixuhai City have ended.

However, it does not mean that the entire market belongs to the market.

After the sixth law enforcement patrol, it was completely unscrupulous.

The rules for returning to the market are still there.

It's just because the existence behind that sea market is too lazy to rectify the entire Guixu sea market too harshly.

Chen Feng's performance after the patrols left, in fact, had a pair of eyes staring at him.

Even if he left Guixu Sea Market.

Those eyes that fixed him still didn't mean to give up.

Very few people really know.

Guixu Sea Market, behind this special existence, in fact mainly relies on a powerful person near Guixu.

Fewer people know what identity this person is.

just. Occasionally I heard that that great power is super strong, surpassing the Star Soul Martial God Realm early!

It's just that this mighty power hasn't appeared in everyone's sight for a long time.

Even this huge Guixu Market was originally developed by the powerful man.

Now, let others help him take care of it temporarily.

It is his wife and brother Shen Yanghui who is now in charge of the market.

At this moment, it is this Shenyanghui.

Earlier, when Chen Feng and Shang Yaoze confronted those people, they focused on Chen Feng!

Compared with maintaining and supervising the various cumbersome order in Guixu Sea City.

What Shen Yanghui wanted to see more was whether there were some cultivators who did not seem to be strong, but carried some precious materials.

Best, but also newcomers who are not very familiar.

The appearance of Chen Feng perfectly met Shen Yanghui's requirements.

After all, in the Guixu Sea Market supervising the daily transactions of the cultivators, Shen Yang Hui is not very powerful even though he is not strong.

Talent, that's it, quite ordinary.

But he has a lot of knowledge.

At this moment, Shen Yanghui was standing in front of a subtle light curtain.

What was displayed inside the light curtain was the trace of Chen Feng.

After seeing Chen Feng leave quickly in one direction, he was about to disappear under his eyelids.

A dim light flashed under Shen Yanghui's eyes, which was full of greed.

Regarding the previous incident about Shang Yaoze and others in Guixuhai City.

In fact, he doesn't care about one or two lives.

What's more, people like Shang Yaoze don't hurt even if they die.

On the contrary, Chen Feng has a lot of treasures. This is what attracts Shen Yanghui the most.

The cultivators in dark red robes standing in the inner hall also saw clearly what was happening in the light curtain.

As soon as they saw Shen Yanghui's eyes, they suddenly had a judgment in their hearts.

"Master Shen, why don't we follow it up for you?"

The person who spoke, guessed Shen Yanghui's psychology.

Take the initiative to invite Ying, the posture is extremely low.

Shen Yanghui was very satisfied with the cleverness of his men.

However, he still wants to remind: "This person is extremely strong."

"I'm afraid, even if you go, you may not get what I want."

Shen Yanghui thought for a while: "Let's let Wen Xianghua leave the customs and take you to follow up."

"Yes!"

In this way, after Chen Feng left this huge crater.

[Chapter 5294: Great repair Luo Hong furnace! Refining is complete!](#)

A team also quietly moved in his direction and followed all the way.

However, at this moment Chen Feng is unaware of all this.

Just as usual, deliberately confuse others several times in the middle.

Just to prevent, there will be any tracking.

Chen Feng did not have any accidents along the way.

No tracker chased him, no stranger encountered in the middle, or the person who followed him.

Soon, he found a very hidden island.

Started the refining journey of the big Xiu Luohong furnace.

In order to make the process of refining and chemical master repair Luohong furnace smooth this time, it will not be interrupted by any other factors.

Even after Chen Feng found the small island in front of him, he arranged a lot of things outside.

After all this was prepared, Jin Sanye also took the opportunity to reveal its fat head.

Staring at a pair of black eyes, he pointed out unceremoniously.

Chen Feng took it out from the large Xiu Luohong furnace in the black space ring.

The magic fire continued to scorch the lower part of the four-legged Fangding.

The fragrance of different medicinal herbs instantly spread to every corner of the cave.

It seems that there are still many pills in the process of refining this great Luo Hong furnace.

"Okay, hurry up."

Following Jin Sanye's urging, Chen Feng withdrew his mind and began to refine Luo Hong furnace.

This four-legged square tripod is obviously a rare treasure in the Shura world.

The more exotic treasures, the harder it is to refine them.

Chen Feng had tried several times before, and all failed without exception.

After taking out all the materials obtained from Guixu Sea Market, his front was immediately full of things.

The cave, which was originally empty, suddenly seemed crowded.

"We can tell you again in advance, you only have one raw material for refining."

"If you can't succeed just once, then it will be troublesome."

When Jin Sanye said this, he was still like an old god, shaking his head constantly.

Chen Feng felt awe-inspiring.

Begin to follow the steps mentioned by Jin Sanye, throw the last piece of purple colored glass into the magic fire.

Hum!

The whole cave seemed to shake for a moment at this moment.

Chen Feng maintained a highly concentrated state.

Begin to use magic fire to melt the purple glaze, and then serve as a protective light film.

This is a crucial step.

This is the reason why there was no way to refine it several times before.

The demon fire below the Great Asura Hong Furnace will burn and be injured even if the Asura Demon touches it.

Not to mention the human race.

Only use purple glaze to melt and protect the heart.

Immediately afterwards, use the Heart Protection Ice Fruit to increase double protection and reduce the burning damage of the magic fire to the flesh.

In this way, Chen Feng is worthy of the initial conditions for the refining and chemical master repair Luohong furnace.

"Listen attentively, hold Zhongtian Haigen and start contacting the Great Xiu Luohong furnace!"

Under the guidance of Jin Sanye, Chen Feng raised his cultivation base to his heyday.

Then, gently and firmly pressed his hand on the Great Asura Hong Furnace.

boom!

At the next moment, Chen Feng only felt that his golden spiritual world seemed to explode instantly!

At the same time, a sharp pain began to spread to the body.

That is the instinctive damage belonging to the magic fire!

However, Ziguang Liuli and Huxin Hanbingguo also played corresponding effects at the same time.

The violent shock of the golden spiritual world quickly stabilized again.

Including the surface of his physical body, it was quickly covered by a layer of ice blue crystals!

The original sharp pain immediately eased into slight pain.

For Chen Feng, this kind of slight pain is of no importance at all.

After passing the most difficult level, Chen Feng finally showed a smile on his face.

Next, he only needs to refining according to the common method.

To be quite satisfactory, just complete the refinement of the large Xiu Luohong furnace in front of you.

After an hour, the slight pain that the physical body could feel completely disappeared.

The great Xiu Luohong furnace in front of him was finally completely refined!

"It's done!"

Not waiting for a smile on Chen Feng's face.

The great repair Luo Honglu suddenly shook loudly!

I saw inside the great Xiu Luohong furnace, suddenly began to spit out bright golden light.

In an instant, the entire cave was illuminated with golden light.

Chen Feng's face suddenly changed.

For the first time, it flashed to one side.

With his own body, he blocked the entrance of the cave.

So as not to leak the light.

The scent of the god-level pill became more intense.

Chen Feng, who has thoroughly refined the Luohong furnace, naturally knows why.

The pill that has been refined in Luohong's furnace for the great repair, under the urging of Chen Feng's refining, has accelerated the refining, and has become a pill!

After the golden light sprayed out, there were more than a dozen pills and other things in the cave!

Chen Feng was overjoyed and reached out to pick it up.

Even Jin Sanye, who only stuck out his head, grew his beak in surprise when he saw this scene.

A rounded pill was at Chen Feng's feet.

Jin Sanye glanced intently, his eyes gleaming:

"Crystal forever Golden Core!"

It quickly slapped Chen Feng with its wings, and the tone was a little frustrated:

"Such a life-saving pill, what are you still doing, pick it up quickly!"

You know, the endless golden pill is extremely magical.

As the name implies, as long as there is a breath.

Taking this pill, you can pull people back from the ghost gate!

It can be said that this endless golden core should belong to the greatest harvest in this great asura Luohong furnace.

At the same time, more than ten special blood-red pill were scattered on the ground.

"What Dan is this?"

A total of more than ten pieces of this special blood-red pill were spewed out of the Luohong furnace.

Obviously, compared to the eternal elixir, it should be a more common pill in the Asura world.

Sure enough, I just listened to Jin Sanye glanced at it: "The Shura Demon Clan's special cultivation is called the Asura Blood Pill."

"It's useless to you."

Chen Feng nodded and continued to look at the other spit out.

It seems that the great black flame giant flame demon can be regarded as storing a lot of things in this great asura red furnace.

Including many treasures of the Shura world.

"There is actually a martial arts supernatural power?"

Chen Feng glanced intently, and sure enough, among the treasures that were spit out along with the pills, there was a piece of black silk paper.

This is an unexpected gain.

This jet black silk paper has a special material.

Although it was pitch black, Chen Feng quickly discovered something special from above.

"Great Shura Burial Art?"

This turned out to be a martial arts supernatural power!

Moreover, it is also a supernatural power of the eighth grade of Hong!

Chen Feng's heart throbbed.

This level is extremely high.

He calmed down for a while, his eyes swept away.

Although this great Asura burial technique is a martial skill in the Asura world.

[Chapter 5295: Great Shura Burial Art! Shura blood!](#)

"What kind of magic?"

On the tip of the ears of San Ye Jin beside him, he heard the name Chen Feng said.

Was immediately attracted over.

Come over and look at the content on the black silk paper.

"You guy, you can actually get the great Shura burial art!"

Chen Feng glanced at it. This great Asura burial art is a ninth-grade Hong-rank martial skill.

It's another ninth-grade Hong-rank martial skill!

Not to mention what the "Hong-level Ninth Grade" means.

Just seeing Jin Sanye react like this, Chen Feng understood in his heart.

This great Shura burial art must be very special.

He looked at Jin Sanye: "Are there any particulars?"

"This great Shura funeral burial technique, the name should belong to the Shura world."

Jin Sanye nodded: "Not only that."

"This great Shura funeral burial technique was created by a top power in the Shura world when Xuanhuang Zhongqian world fought against the Shura world."

After hearing this, Chen Feng understood.

"This martial art seems to be created specifically to deal with our human monks?"

"Yes."

Jin Sanye gave a tut, looked at the black silk paper, and turned a few times:

"The great Shura burial technique has a special miraculous effect on the lethality of the human monks."

"On the contrary, it is only one-tenth of the damage to the Shura Demon."

Upon hearing this, Chen Feng's original surprise gradually faded.

Although this is a ninth-grade Hong-rank martial skill, it is very special and very powerful.

But Chen Feng, after all, is not the Shura Demon.

Even with this martial skill, it seems that it is impossible to cultivate.

The Jin Sanye next to him seemed to think of a lot of things in the past, and said again and again:

"Back then, after the war between the two worlds, this great Shura burial art was so famous!"

"I don't know how many human cultivators died under this magical power."

"Later, it was also spread in Xuanhuang Zhongqian World for a while."

Chen Feng turned his face and said, "Can human monks also practice?"

Jin Sanye lost his look: "The Dadao is the same clan. If you have to practice, you can practice."

"But let me advise you first, all those who practiced this skill were regarded as rebels by the human monks!"

"Everyone gets it!"

Speaking of this, Jin Sanye sneered disdainfully.

"Otherwise, why do you think there are no human monks practicing this skill now?"

"I was beheaded long ago and disappeared completely."

Listening to Jin Sanye's explanation, Chen Feng looked down at the ink black silk paper in his hand again.

He had just glanced roughly at the entire Great Asura Burial Art.

The profound meaning of this exercise is mainly in a moment.

Concentrate the power of the caster's whole body into a mouthful of Shura devilish energy.

Then, infiltrate the human monk!

As long as you enter, all the flesh and blood power of the human monk will be transformed into death in an instant!

Then, these dead airs will corrode the remaining vitality.

The most frightening thing is that even the body has long been dead.

But on the outside, the human monk still has no change!

It is equivalent to turning the body into an extremely hard corpse.

But at the same time, even the cultivator's soul couldn't leave, he was corroded together and disappeared completely!

All souls are destroyed!

Can't even save it!

In the war between humans and demons, many human monks suffered a great loss in this regard.

In particular, Chen Feng saw what it said clearly on the silk paper:

As long as it is below a certain realm, the stronger the human monk who has caught this method and the harder he struggles, the faster he will die.

In other words, as long as it does not reach a certain level.

Then, it can't stop this magical skill at all!

It's so straightforward and straightforward!

"According to my current strength, if I cultivate this first-level great Asura burial technique."

"Then, the monks of all races below the twelfth floor of the Star Soul Martial God Realm."

"In front of me, it's also a one-shot death!"

"Even the monk on the twelfth floor, I can't stand up to one or two!"

Such a powerful attack is a great temptation for Chen Feng at present.

Although the Jade Smashing Conference was very rewarding, it did encounter a lot of trouble.

And rely on the existing hole cards.

To be honest, Chen Feng is not very confident to avoid every sneak attack and interception.

At present, he is eager to have some new cards as soon as possible.

Sanye Jin seemed to see his thoughts and reminded him: "Don't think about it."

"You are not a Shura demon. Without that bloodline, you can't practice."

"Besides, even if you can practice, we advise you to think twice."

"Even if you are a god-devil body refiner, there are many god-devil bloodlines in your body, and you can achieve the conditions for cultivation by swallowing a bloodline of Shura."

Jin Sanye combed his golden feathers:

"But, let me remind you first, the blood of Shura is different from the blood of other gods and demons."

"The Shura bloodline and the Shura demon body have a very high degree of compatibility."

"If you swallow the blood of Shura and then practice this great Shura burial technique, after each use, your body will show the blood of Shura."

Chen Feng looked sideways, watching Jin Sanye's introduction.

"Do you know why those human cultivators were still discovered and hunted down even though they had cultivated such a powerful technique?"

Hearing the question of Jin Sanye, Chen Feng knew that there must be a problem.

He thought for a while: "Could it be that when Shura's bloodline manifests, there will be special changes that are difficult to conceal?"

"Correct!"

Jin Sanye nodded: "You are smart."

"Once the Asura bloodline manifests, whether you are a human or an Asura demon, your appearance will become like an Asura demon."

"At that time, anyone who sees it will know what you have cultivated."

Hearing this, Chen Feng understood.

If you have to practice this great Shura burial technique, I'm afraid Chen Feng can only do it every time.

Kill everyone present.

Otherwise, once it spreads out, the consequences will be disastrous!

With Jin Sanye's reminder, Chen Feng returned to his senses and no longer thought about those "ifs."

He nodded and refocused his attention on the Great Asura Honglu in front of him,

as well as. Above the more than ten Asura Blood Pills in his hand.

"It's a pity, except for the endless golden core and this great asura Luo Honglu that are useful to me."

"These piles of Asura Blood Pills and Great Asura burial techniques are wasteful to me."

Hearing this, Jin Sanye seemed to remember something suddenly, and laughed.

Chen Feng looked up at him with a smile, and asked casually: "What?"

I saw the old \*\*\*\* Jin Sanye nodding his head: "The Asura Blood Pill really cannot be swallowed by you, otherwise it will split and die."

"But... we can!"

"Don't see who we are!"

The movements of Chen Feng's hands suddenly stopped and looked up, staring at Sanye Jin.

Yes!

Jin Sanye can swallow even the ancient demon souls and the Shura demon soldiers.

[Chapter 5296: Only one step away is Dao Qi!](#)

Not to mention a few Asura blood pills!

Immediately afterwards, Jin Sanye jumped out of Chen Feng's arms.

She fluttered her golden feathers and stretched out a wing.

Like spreading hands, palms up: "Look at us swallowing it all in one breath."

Chen Feng handed over ten Asura Blood Pills to Jin Sanye.

In the next moment, I saw Jin Sanye as if he was eating collapsed beans.

open mouth. Just throw them all in.

The whole process is crisp and neat, without any muddles.

Seeing that Chen Feng hadn't reacted yet, Jin Sanye kindly reminded:

"This Asura Blood Pill, after all, is made with that great Asura Hong Furnace and a rare magic fire, and it has a good color."

"The implied power is quite powerful."

"Let's advise you. I'd better prepare quickly."

Without waiting for it to finish speaking, the meaning of this sentence has already passed through the warm current surging in the body, giving Chen Feng the most intuitive feeling!

Power back!

Chen Feng only felt that an extremely loud voice suddenly rang in his mind.

Regarding this voice, whether it comes from the top of the sky, belongs to the rule of heaven.

At this moment, none of it matters anymore.

The continuous power appeared in Chen Feng's body out of thin air.

It was like a sudden avalanche and flood, out of control.

The star map began to spread out again, and it was uncountable how many stars dotted it.

And those ten big moons burst out with bright light, far beyond normal.

Be surrounded by the center and rotate alone.

The big sun, which seemed to hang on a silver ocean, finally broke out with extraordinary movements.

The crimson brilliance continued to extend outward along with a stream of heat.

Chen Feng only felt that he had already reached the peak of the eighth floor of the Star Soul Martial God Realm.

At this moment, a strong support is injected.

As long as he has the heart, he can now directly break through to the ninth floor of the Star Soul Martial God Realm.

However, he chose to suppress.

Even in the current state of enthusiasm, Chen Feng still did not lose his sanity.

Breakthrough at this moment is not the best time.

"Let it be one of my hole cards, save it when it's critical, maybe it will come in handy."

Chen Feng thought to himself.

At the same time, Jin Sanye next to him was also changing.

As the most direct beneficiary of the Asura Blood Pill, Jin Sanye's changes are more intuitive than him.

First of all, her body size has grown a lot, and her whole body is constantly releasing golden light outwards.

Secondly, it is the long-closed vertical eye between its eyes.

Last time Jin Sanye demonstrated the effect of this vertical eye.

However, obviously, that is only its preliminary ability.

The true ability of vertical eyes will surely increase with the continuous enhancement of Jin Sanye.

This time, it was so!

After taking a dozen pills of Asura Blood Pill in one breath, Chen Feng was still worried about whether his small body could swallow so much.

But now, the interweaving of blood-red light and golden light is like a tug of war.

And with the vertical eyes trembling faintly.

Originally, those menacing red rays seemed to be guided.

Constantly invade towards the vertical eye.

It didn't take long for the huge red light that seemed to flow continuously, completely disappeared between the vertical eyes!

It looked like it had been easily swallowed by Jin Sanye.

Soon, Jin Sanye opened his eyes.

Its eyes suddenly shot out a golden light with a little crimson, shining straight on the four-legged square cauldron in front of them.

There is no doubt that Jin Sanye's strength has increased a lot from before!

However, it is surprising that after the light in its eyes gradually disappeared.

It fluttered the whole bird and flew directly towards the four-legged square tripod.

Chen Feng puzzled: "What are you going to do?"

I saw Jin Sanye's entire figure plunged into the four-legged square ding.

Chen Feng was worried about what happened to it, so he hurriedly looked closer.

However, Jin Sanye did not cause any serious problems.

It's inside the big Xiu Luohong furnace, its eyes are spinning but turning, and the whole body is turning around.

While turning, I still chanted words.

"It's incredible, it's incredible! I almost missed it!"

"This thing. It's even bigger than we thought before."

"Why do you say that?"

Today's Chen Feng already trusts Jin Sanye's knowledge.

Since Jin Sanye would say so now, that is the case in all likelihood.

But Chen Feng himself looked at the great Xiu Luohong furnace in front of him, but found nothing unusual.

It seems that at most, the modeling style is biased towards the Shura world, and the rest looks no different.

However, Jin Sanye vowed to say: "If we remember correctly, this is probably not just a good thing."

"It is very likely that it is one of the treasures of the entire Shura world!"

"I've watched it for a long time and won't go away."

"This thing can evolve into a Taoist artifact in just one step!"

Dao!

Just hearing this name made Chen Feng extremely shocked.

Although he has never heard of the concept of "Dao Qi"!

But since Jin Sanye said so, it must be an extremely terrifying existence.

"What is Dao Qi?"

Jin Sanye slapped his wings, listening to the ethereal and long echo from the body of the great Xiu Luohong furnace in front of him.

"The Dao Qi, and the Dao of Heaven and Earth came into being."

"Some Taoism even bred directly from the avenue."

"And more Dao artifacts, just like this tripod, relying on the continuous cultivation and breakthroughs acquired, and finally transforming from Dharma artifacts into Dao artifacts."

"Each Taoist implement has its own unique characteristics."

Speaking of this, Jin Sanye turned his head and looked at Chen Feng with piercing eyes:

"Even if you have enough Taoist artifacts, you may be able to penetrate one of the trails and the like just by owning it."

Chen Feng keenly captured the distinction of details in the words of Jin Sanye.

"You mentioned avenues and trails just now."

"I want to know, what is an avenue and what is a trail?"

Faced with Chen Feng's problem, Jin Sanye went uncharacteristically and did not tell him directly.

It returned to Chen Feng, and there was a brief silence in the cave.

Seeing Jin Sanye's reaction, Chen Feng suddenly had further guesses about this issue.

However, Jin Sanye and Chen Feng have been together for quite some time.

Seeing Chen Feng's reaction, Jin Sanye knew what he was thinking.

"It's not a good thing that you know those now."

In the end, Jin Sanye closed the coffin:

"All you need to know is that this great repair Luohong furnace, if it can further become a Taoist tool, its power is far beyond your imagination!"

Chen Feng picked it up casually and asked: "How strong can it be?"

"Can refine a small world!"

Hearing this, Chen Feng was immediately shocked.

What a terrifying power is that a Ding can refine a world!

[Chapter 5297: Remnant Soul of the Great Demon of Shura!](#)

He opened his eyes wide and looked at Jin Sanye incredulously: "Is it so powerful?"

Jin Sanye nodded: "So I said, this is very likely to be one of the treasures of the entire Asura world."

"Unexpectedly, you would be taken by this fellow and brought to the world of Xuanhuang Zhongqian."

"Hey, we can almost guess what those old guys look like at this moment..."

After digesting the power of the tract organs, Chen Feng calmed down again.

The great Xiu Luohong furnace he refined at this moment has not yet become a Taoist tool.

After listening to Jin Sanye talked about the power of Dao Qi, it was impossible to say that he was not moved.

If you can really upgrade the Luo Hong furnace to become a Taoist implement!

So, there is no doubt that this will be Chen Feng's biggest support at the moment!

Even if the nine major forces attacked together, it might not be dead!

Thinking of this, Chen Feng immediately looked at Jin Sanye:

"Then what is missing if this great Asura Luohong furnace is to become a Taoist implement?"

After having a basic concept of Dao Qi.

Chen Feng would not take it for granted that this step would be very simple.

Jin Sanye did not hide it from him: "Lack of a magic circle."

As he spoke, I saw it glowed with golden light, and monstrous power kept pouring out.

Wrap the big Xiu Luohong furnace, the whole package.

At the same time, some of the golden lights that wrapped the Great Asura Hong Furnace began to rise slowly.

In the void, the magic circle inside this great Xiu Luohong furnace evolved.

Eighty magic circles!

Every magic circle is extremely complicated, and each circle is interlocking, restraining and influencing each other.

And after all the eighty magic circles have evolved, the internal situation is clear at a glance.

There is a very obvious vacancy in the center of this eighty magic circle.

What Jin Sanye said of "the lack of a magic circle" refers to the most central core formation!

It can be said that the large core formation is the source of power for the remaining eighty magic formations!

Just set up this core formation and get it up and running.

Then, the nine-nine-nine-eighty-one array will unite the nine and nine into one, completely qualitatively changed.

And the Great Asura Luohong Furnace will also become a Taoist tool from a very powerful magical implement.

After watching the demo given by Jin Sanye, Chen Feng understood.

But the next problem appeared again.

"Where can I find such a big formation?"

Chen Feng suddenly felt a little frustrated.

After all, he is not a master of magic circle, nor does he know any related people.

At present, it is necessary to find such a magic circle that can match.

To him, it was completely confused and there was nowhere to start.

"This is going to happen."

"That's a Taoist artifact after all, where can you get it so easy?"

Chen Feng took Jin Sanye and continued to question:

"According to your logic, wouldn't it be the easiest way for those who specialize in cultivating the magic circle to make the debut?"

"Not so strict requirements."

Jin Sanye waved his wings: "Actually, if you have the ability, you can completely refine an existing large formation."

"It's not that you have to design a new and powerful array yourself."

"Is it possible to refining the existing actual big array?"

Jin Sanye nodded and laughed: "I'll give you a bad idea and come back to your Galaxy Sword Sect in a while."

"Directly refine the Galaxy Sword Sect's mountain guard array into this great Xiu Luohong furnace, and it will work."

Chen Feng: "..."

"It's really a bad idea."

The Galaxy Sword Sect is, anyhow, one of the nine major forces in the Eastern Desolation.

What a huge top-level formation is the guarding mountain formation, how can people of his current strength covet it.

It seems that the plan to make the Great Asura Luo Honglu a Taoist tool has to be temporarily shelved.

Chen Feng sighed, secretly saying that it was so.

Sure enough, the current crisis can only rely on myself to figure out a solution.

"Okay, don't think about that."

"Let's protect the law for you now. You will perform another blood sacrifice according to what we taught you before."

"After the matter is over, you will be able to completely control this great Xiu Luohong furnace."

Chen Feng cleared up his emotions and nodded.

One person and one bird immediately got busy again.

Earlier, many natural treasures were purchased in Guixu Sea Market.

In addition to the initial refining steps, the last batch is left for blood sacrifice.

Using his hand as the blade, Chen Feng opened his palm and drew a special formation around the large Xiu Luohong furnace.

And Jin Sanye set up several magic circles on the periphery of Chen Feng, just in case.

After all, although Jin Sanye has a wealth of knowledge.

But in terms of strength, if there is any accident, someone breaks in.

Not to mention, it cannot expose itself, even if it is exposed, it is afraid that it will be crushed to death.

No way, its offensive and defensive capabilities are almost zero now.

Therefore, he can only hide in Chen Feng's body for a long time.

Fortunately, the mountain they chose is still remote.

As long as there are no special circumstances, generally no cultivator will come here.

Soon, Chen Feng began the last special blood sacrifice.

However, this last blood sacrifice, which seemed to go smoothly, had an accident!

At the moment when Chen Feng had just cross-legged and started refining the big Xiu Luohong furnace.

He clearly felt that the blood of the gods and demons in his body suddenly spontaneously surged!

Chen Feng frowned and suddenly felt something was wrong.

Just among the lightning and flint, instinct gives rise to warning!

Chen Feng immediately ran his own cultivation base with all his strength!

as predicted!

The next moment, the magic sound fills your ears!

Roar--

The extremely penetrating and paralyzing mental attack almost made Chen Feng lose control of his physical body at that moment.

Even Jin Sanye, who was guarding the law by the side, had a bird's face and shouted "not good."

Unexpectedly, under the great Xiu Luohong furnace that they thought had been refined by them.

Actually, there is still the remnant soul of the Asura Demon!

The talented Third Master Jin was in the four-legged square cauldron, completely unaware of the trace of the remnant soul.

After checking his whereabouts, Jin Sanye repeatedly sighed that he was negligent!

Previously here, not only the Great Asura Luohong Furnace, but also a group of magic fire that has never been burned out!

The remnant soul of the Great Demon Shura was hiding in the demon fire.

As a result, they escaped the result of their detection.

"Jie Jie Jie Jie..."

Chen Feng closed his eyes tightly and his expression was unprecedentedly solemn.

Once the refining begins, unless his life is endangered, he will never interrupt it easily.

The remnant soul of the Asura Demon that came towards him was indeed very strong, and it could even be said to be comparable to the current Chen Feng.

But at this moment, Chen Feng felt that the blood of the gods and demons in his body was restless.

The remnant soul attached to the Great Asura oven.

After being burned by the magic fire, it seems that there is not much sanity left.

It is only by instinct to be able to wait for an opportunity to make a move.

However, at this time!

[Chapter 5298: The Shura bloodline that can be advanced!](#)

The Supreme God Demonizes Dragon Technique in Chen Feng's body.

Suddenly, it started running on its own again!

Can it be refined into the blood of Shura?

Thinking of this, Chen Feng did it instinctively for some reason.

In the world of dantian, the crimson sun that is constantly jetting flames is even more warm!

It is like the real sun, burning the pubic world forever.

Even now, Chen Feng can still feel the heat!

Chen Feng's breathing gradually became quicker.

A thought came from Chen Feng's mind, like a devil's heart, madness began to sprout and sprout, out of control.

Since it can be absorbed, then absorb it!

The Supreme God Demonizes the Dragon Art, and it runs at full capacity in an instant!

But the remnant soul that rushed towards Chen Feng instinctively realized that the situation was wrong.

The kid it was about to sneak attack suddenly exploded with a breath that made him fearful.

However, do not wait for it to think more about whether to give up or continue!

Chen Feng has already rushed over...

Not long after, a huge black chain of blood mist suddenly appeared in front of Chen Feng!

Suddenly, a perception suddenly appeared in Chen Feng's mind.

Nine products inferior!

"Huh? What's the matter?"

Chen Feng even thought that he had misunderstood when he learned that the black Shura bloodline in front of him had only the 9th rank inferior.

But this is the fact.

A Ninth-Rank inferior Shura bloodline could be successfully received by the Supreme God Demonized Dragon Art.

You know, the first bloodline of the gods and demons he absorbed and swallowed was not limited to the lower ranks.

Then, according to the rules of the Supreme God Demonizing the Dragon Art.

Each new bloodline of the gods and demon he absorbed will be stronger than the bloodline of the gods and demon that he had swallowed previously.

There must be a problem to be able to absorb such a special Shura bloodline right now!

Chen Feng immediately tried to stimulate this Shura bloodline.

Sure enough, something unexpected happened to him-this Shura bloodline could not be moved to replace it!

"In other words, this Shura bloodline."

"Among the swallowed blood vessels, it has an irreplaceable position!"

Chen Feng tried to inject a certain amount of blood into that Shura bloodline.

Originally only had the bloodline of Asura at the lower level of the Ninth Stage, not only was it completely swallowed, it even felt a little stronger than before.

"I know!"

Chen Feng understood it all at once.

Although the current level of this Shura bloodline is very low, it should be evolving!

As long as it can be continuously replenished, its level may continue to increase.

"Good stuff!"

Chen Feng suddenly became energetic.

But, at the same time, the great Shura burial art that he had put on hold before.

Another sign emerged from the bottom of Chen Feng's heart.

In order to confirm his conjecture, Chen Feng immediately recalled the great Shura funeral burial technique that he wrote down earlier.

Sure enough, when he tried to practice the Great Asura burial technique, Chen Feng hardly received any obstacles!

Everything went smoothly.

Soon, he actually mastered the first level of the Great Asura Burial Art.

Of course, it's just an introduction, and there is still a big gap from the first level!

This made him startled and serious.

Originally it was just an attempt, but I didn't expect it to be.

After mastering the first level of realm, rebelling against chaos yin and yang.

Chen Feng also has a deeper understanding of the current insights about the great asura burial art.

At present, with his ability, although he is basically a beginner, if he wants to use it once, I am afraid that most of his body's power will be drawn.

In other words, every time he uses it, he will be seriously injured.

Kill a thousand enemies, hurt yourself eight hundred, and even cause trouble!

Once the Shura bloodline is manifested, all the people present must be killed!

However, as long as he has survived the serious injury and has not died.

Then, you can directly turn the enemy's primordial spirit into Shura devil energy, absorb and refine, and use it for your own use!

Even to a certain extent, it can be added to the blood of Shura.

Chen Feng has so many opponents now!

At the Broken Jade Conference, eight of the nine major forces basically offended it again.

Including the Galaxy Sword Sect, there are also some obtrusive guys, ready to destroy Chen Feng at any time.

If you encounter someone like Luo Miaoyin and Yuan Changfeng again, bringing a bunch of people to kill him.

Relying on heaven and earth's repeated reincarnation magical arts, after all, is still incapable.

For the current Chen Feng, there are indeed fewer hole cards available.

Chen Feng had actually felt this way since the Jade Breaking Conference began.

Keep in mind whether he can master new, offensive and defensive martial arts and supernatural powers.

After a complicated mental journey, Chen Feng finally made a decision.

Since the blood of the gods and demons is urging him to practice, and he has successfully cultivated to the first level of entry, let's continue.

Strive to become the first layer of this great Asura burial technique as soon as possible.

Anyhow, there is a hole card for self-defense.

After resolving such an unexpected incident, Chen Feng focused again.

Begin to urge the blood sacrifice, trying to completely refine the Great Asura oven in front of him.

This time, the hidden remnant soul completely disappeared.

There was hardly any hindrance to the Great Asura oven, and Chen Feng began to refining very smoothly.

This makes Jin Sanye, who has been worrying beside him, often breathed a sigh of relief.

All the accidents of Fangcai, Jin Sanye were all in his eyes.

When I saw that Chen Feng finally practiced the great Shura burial technique.

It just sighed slightly, but in the end it didn't say anything.

This is probably already stipulated in the secret.

I only hope that the next Chen Feng can turn all dangers into a breeze.

Try not to be discovered by the human monks.

Seeing that the Blood Sacrifice had become regular, Jin Sanye, as a precaution, arranged several special protective arrays around Chen Feng's entire array.

Although Jin Sanye was mysterious and unpredictable, he had a very special ability.

But in fact, in terms of aggressiveness, with the current it, it can be said to be almost zero!

Any cultivator can crush it to death.

What's more, its existence is rather special and inconvenient to be discovered by others.

Therefore, as a protector of the law, the only thing Jin Sanye can do is to arrange some enchantments and magic circles for Chen Feng.

Time passed by every minute.

The refining process is very smooth, and it seems that the refining will be completed in less than one stick of incense.

But the plan can't keep up with the changes.

Just after Chen Feng had completely seated himself in the center of the blood sacrifice formation, fully refined and controlled the four-legged square cauldron.

There was a murderous look, suddenly coming!

The goal is directed at the cave where Chen Feng is located!

Jin Sanye noticed it for the first time, and disappeared into Chen Feng's arms.

Luo Miaoyin and others are here again!

boom!

The disguise used to cover up was blown up instantly!

Suddenly, this extremely hidden cave where Chen Feng was located was suddenly exposed to the heavens and the earth!

#### [Chapter 5299: Oh it's you!](#)

"What is he doing?" Luo Miaoyin saw Chen Feng sitting in the \*\*\*\* formation at a glance.

At this moment, standing beside her.

In addition to the two original disciples, there is also a new true disciple.

This person is Yu Nanhua whom Luo Miaoyin contacted earlier.

Among the three hundred and sixty true disciples of the Galaxy Sword Sect, the disciple ranked 25th in strength.

When Yu Nanhua saw the great Xiu Luohong furnace in front of Chen Feng, his eyes darkened instantly.

Individuals can see that this four-legged square tripod is definitely a good thing!

Chen Feng next to him had already devoted himself to refining, and the light on his body was indeterminate.

A layer of white mist containing special power rose up around him.

In the \*\*\*\* array below, it seemed particularly abrupt.

When Luo Miaoyin hadn't reacted yet.

Yu Nanhua next to him was the first to speak.

"Sister Luo, hurry up, you and I join hands!"

"Never let that kid take all the benefits for himself!"

As he said, Yu Nanhua glanced at the other two true disciples following him.

Sure enough, greedy desire also rose in their eyes.

Immediately, the four joined forces.

Even Luo Miaoyin was attracted by the extremely special four-legged square tripod in the circle.

At this time, I chose to stand side by side with Yu Nanhua.

With a cry!

The dazzling light resounded like thunder!

The powerful wave of air that bounced back almost even knocked the four of them out.

The light and shadow sword energy constantly rushed towards the magic circle where Chen Feng was.

The four people occupy the four directions, southeast, northwest, and overwhelming!

Attack from everywhere, leaving no dead ends.

However, Chen Feng has a special magic array protection around him.

Even if the four of them add up, their strength is even faint to the level of the twelfth floor of the Star Soul Martial God Realm.

However, what surprised them was.

Around Chen Feng, there was a special hazy array.

Strongly enveloped a radius of tens of meters.

Their full blow just now can only make the protective array creak.

Chen Feng in the protective array still closed his eyes tightly.

Not the slightest influence from the outside world.

"Sister Luo, didn't you bring an immortal rope?"

"It's not too late, please use it quickly." A true disciple said.

Yu Nanhua's eyes darkened, and the light was converged in it.

He also flipped his hand and took out a top magic weapon: "Junior Sister Luo, come again!"

...

Jin Sanye's current strength is still limited after all.

After the time of a cup of tea, with a loud breaking noise!

The protective array formed by several law formations was completely defeated.

The true appearance of Chen Feng and the Great Asura oven finally appeared in front of the four!

"this is....."

They were just outside the protective array, and they couldn't really see what the big Shura oven inside really looked like.

You can only perceive that it will not be an extraordinary thing through a trace of leaked breath.

And now, after breaking the magic circle, the aura of a huge and turbulent top magical weapon is blowing.

Almost instantly, the four people were submerged and covered.

Even if they don't know exactly what is the origin of the four-legged square tripod that Chen Feng is refining.

But it can also be perceived, this thing is incredible!

Yu Nanhua, who was still trying his best to converge, couldn't help it at this moment.

Even Luo Miaoyin's eyes were attracted by the Great Asura Oven.

The chance Chen Feng got in the Jade Smashing Conference was too great!

Seeing that Chen Feng was about to complete refining.

The four of them didn't need to say much at all, they all rushed towards Chen Feng.

Sword energy was everywhere, and the killing intent spread.

boom!

The power of terror fluctuates in all directions.

The murderous intent of the four directions, gathered to form a tyrannical storm!

As a result, the ground below began to vibrate violently!

Chen Feng closed his eyes tightly, his teeth closed, and he was running his own cultivation level with all his strength, but it was still too late.

Almost the attack on the twelfth floor of the Star Soul Martial God Realm had arrived!

Whether it is active hard resistance or timely withdrawal, the refining process will inevitably be interrupted.

At the last moment.

Chen Feng's eyes suddenly opened, and a red light burst out from it.

In the next moment, his figure quickly disappeared in place, and then appeared in the distance.

His face kept changing, from red to white!

The breath fluctuated violently.

There is only the last half of the incense left in the refining of the Great Asura oven, and he has refined it for 50%!

The last moment is interrupted, this kind of backlash is not something ordinary people can withstand!

Even though Chen Feng had a new high in his cultivation, he was staggering at this moment, trying to hold on, but still failed.

puff--

He knelt on one knee and spouted blood.

When he raised his eyes and looked at the four people in front of him, Chen Feng's eyes were colder than ever before, full of murderous air.

Luo Miaoyin!

It was another good thing that she led others to ruin him!

However, when Chen Feng's gaze turned to the man next to Luo Miaoyin, his brows frowned.

Then he curled his lips and laughed extremely mockingly.

This young man, who wore the exclusive costume of the true disciple of the Galaxy Sword Sect, looked plain.

But he has seen it.

It was at the end of the Jade Smashing Conference that day, the cultivator who asked the Wild God General Galaxy Sword Sect internal fighting in public!

"So you are from the Galaxy Sword Sect."

"No wonder, at the Jade Smashing Conference that day, you deliberately asked the Desolate God General whether the battle within the same door would lead to punishment from the Great Desolate Lord.

Seeing Luo Miaoyin still standing next to Nanhua, Chen Feng couldn't beat him.

If it weren't for the daughter of the sect master, she appeared here holding a purple celestial rope.

Chen Feng had already planned to kill him!

Even so, Chen Feng still stared at her coldly at this moment:

"I warned you last time, my patience is limited!"

"If it wasn't for the sect master's care for me, you would have died the last time!"

Looking at Chen Feng's ruthless and unkind words.

Luo Miaoyin's heart trembled, subconsciously feeling a little regretful.

However, without waiting for her to think about anything, Yu Nanhua next to him took a step forward and pointed at Chen Feng with a sword.

"As a disciple of the Galaxy Sword Sect, participate in the Jade Breaking Conference."

"Others won the championship to win glory for their own school, but you don't care about it and kill it."

"Now, among the nine major powers, the other eight are dismissive of our Galaxy Sword Sect."

"With you coming out like this, you have found an excuse to send us the Galaxy Sword!"

"It's all about this time. You look like a lonely person, regardless of the life and death of the Galaxy Sword Sect."

"It's fine if I don't return to the martial arts in time, and I intend to monopolize all the benefits here."

"You are too brazen!"

Yu Nanhua spoke outrightly, quite outrageously.

He stepped forward and shot out murderously, extremely sharp and sharp.

The formidable coercion came to Chen Feng's face.

[Chapter 5300: Survival from desperation!](#)

"Hand over this tripod, and honestly follow us back to the Galaxy Sword Sect, let us go!"

Yu Nanhua's words are sonorous and powerful, and his eyes are angry.

The aura of the twelfth floor of the Star Soul Martial God Realm stunned Chen Feng almost instantly.

Chen Feng has never seen such a brazen person!

Under the pressure of his breath, Chen Feng's bones were crackling and making noises.

At this moment, it seemed extremely difficult for him to move.

It is indeed the true disciple of the Galaxy Sword Sect ranked twenty-five!

I have to admit that it is indeed very strong.

Chen Fengqiang looked up desperately, glaring at Nanhua under the pressure.

He tried his best to yell, "Speak up!"

"You dare to say that you want my tripod, isn't it for your own sake!"

"Why should I hand over what I got after desperately?"

However, do not wait for him to finish.

The pressure on the body is even worse!

The blood slipped from the corners of Chen Feng's lips, his bones crunched, warning of danger.

Looking at Chen Feng who was so embarrassed in front of him, Yu Nanhua narrowed his eyes and laughed in disdain.

"No matter how sharp your teeth are, how can you be in front of me?"

There is nothing to say, only one battle!

The huge star map starts to flicker frantically, running at full capacity!

A warm white light flashed out of Chen Feng's body, and the broken knife emerged, carrying the endless pressure!

Yu Nanhua's strength is even higher than Luo Miaoyin's, and he has the twelfth floor of the Star Soul Martial God Realm Xiaocheng!

At this moment, even if Chen Feng tried his best, he could only exert the strength of the eleventh floor of the Star Soul Martial God Realm.

It seems that the gap is small.

But the more the cultivation base comes later, even in the same realm.

A slight gap in the realm will give back a huge gap in the actual war.

Even though the hole cards were exhausted, even the Soul of the Blade was revealed.

But Chen Feng's result was only a hit in Yu Nanhua!

Makes his anger even worse.

then.....

"puff!"

The three Luo Miaoyin didn't even need to do it!

Just relying on Nanhua alone was enough to make Chen Feng \*\*\*\* and fly out.

It smashed \*\*\*\* the tripod of the four-legged square tripod.

The lines and shapes on the exterior of the Luohong furnace were rugged, and Chen Feng's internal organs were all displaced, full of cracks.

Chen Feng was bleeding, and many wounds on his body were pierced by Yu Nanhua's sword energy, and bones were visible!

With the constant loss of essence and blood, Chen Feng at this moment can be said to be dead!

"Ahem..."

Chen Feng stared at Yu Nanhua not far away, supporting the tripod with his blood-stained hands.

Force yourself to stand up and never just fall down like this.

"Hahaha...Chen Feng, Chen Feng!"

"Death is imminent, and we still have to try hard."

Yu Nanhua laughed and walked slowly towards him.

He spread his arms and looked around: "The location you chose is very hidden and inaccessible."

"No one can find here to save you except us."

"I want to see, how can you survive this desperate situation in this situation!"

Chen Feng didn't say a word, only his hands clasped the body of the great Xiu Luo Hongluo tightly behind him.

His eyes glared at Nanhua!

Never give up! Never accept it!

Even if it is a battle, you must fight until the blood is exhausted!

The line of sight in front of him has even begun to blur.

Chen Feng himself knew that even his life was rapidly weakened.

It can be said that the real life is hanging by a thread.

However, it was at this moment that Jin Sanye's voice rang in Chen Feng's mind.

"Guide all the essence and blood flowing down your feet, including the remaining essence and blood, hurry up and temper!"

"Pour the blood directly into the Grand Asura Luohong furnace, the speed will be much faster!"

"Hurry up!"

There was a glimmer of hope in Chen Feng's heart.

Whether to survive from desperation depends on this last resort!

In the next moment, the Buddha's angry eyes, lion roar, gong!

On the huge purple-white lion, the majestic and round eyes of Baoxiang angered the Buddha through the void.

The power of time and space flows in the moment Nanhua has not had time to react!

A precise finger pressed it to the center of his brow!

Hum!

At this moment, all the essence and blood at Chen Feng's feet and nearby were all led into the great Xiu Luohong furnace.

Under his deliberate control, those essence and blood entered the great Xiu Luohong furnace!

Immediately, it was madly burning!

This is the fastest tempering method Chen Feng can think of!

"Chen Feng! What did you do!"

Luo Miaoyin in the distance saw Nanhua all over and froze in place.

He immediately changed his face and wanted to rush over.

Chen Feng smiled coldly: "What can I do?"

"Luo Miaoyin, I warn you one last time, don't interfere!"

The time for five breaths has not yet passed, and there is not even enough time for the fourth breath!

Yu Nanhua in front of him suddenly burst into a more terrifying aura.

But at the same time, the corners of Chen Feng's lips finally evoked a cold smile.

At the cost of burning part of his essence and blood, he speeded up the refining of the large Xiu Luohong furnace that was only refined to 50%.

At this moment, refining has reached 70%!

At this moment when the refining reaches 70%!

Needless to say, Chen Feng himself can feel that he has reached a critical point.

Although the giant cauldron behind him could not be used by Chen Feng's full power.

But at least, he can basically use it!

When Nanhua came back to his senses and looked at it carefully, his face suddenly changed.

"not good!"

However, it is too late!

The great repair Luo Honglu behind Chen Feng suddenly became bigger before Nanhua rushed forward.

An unprecedented horrible suction suddenly appeared in Dingkou.

Yu Nanhua's expression changed again and again in just a few seconds, but after all, he was still a step slower!

When his sword qi rushed to Chen Feng's facade, Chen Feng disappeared in place.

boom!

The main body of Luo Hongluo shook, and the earth suddenly cracked.

Yu Nanhua, who rushed to the front, trembled all over, barely standing.

"hateful!"

Yu Nanhua slashed into the tripod body with a sword!

The appearance of anger and depravity has long lost the coldness and gentleness of the beginning.

He turned around, glaring at the three people behind him:

"What are you doing in a daze? He must have not fully refined successfully!"

"Hurry up and give me full attack! Shake him out for me!"

The look of anger caused Luo Miaoyin, who was standing behind and hadn't done anything, to slightly shake his mind.

I always feel...something is wrong.

However, the other two true disciples beside her rushed forward without doubting that he was there.

Following Yu Nanhua, he desperately attacked the giant tripod protecting Chen Feng.

The madness the three showed made Luo Miaoyin a little confused.

However, before she could continue to act, the giant tripod that was attacked by Yu Nanhua and others with all their strength suddenly began to move!

At this moment, Chen Feng has come to the real interior of the Great Asura Hong Furnace.

This is a small world with a radius of several kilometers.

Chen Feng looked around, the inside was empty, and there was echo from walking.
