

## Peerless 5461

### [Chapter 5461: Refining the tailbone of the dragon!](#)

Is there a strange treasure here?

The flying boat broke through the pool water and rushed down quickly all the way.

The closer you get, the more clearly you can see the existence of the seal.

Everyone was shocked!

"This...this is actually the tailbone of a giant dragon!"

The white keel sank quietly in the deepest part of the pool.

The keel was too large, and it stretched continuously, not knowing where to lead.

They could see the tail of a dragon that was a hundred feet tall with just one glance.

The power of the seal comes from the deepest part of the keel!

"This is... Long Yuan's breath!"

The Que Yuanzhou brothers are well informed.

For the first time, they recognized the mysterious liquid in the seal.

The supreme dragon source!

The purest original power of a dragon!

They were surprised and happy, and looked at Chen Feng.

At this moment, where can they still not understand?

After experiencing the battle of life and death, all aspects of the body have longed for power to the extreme.

At this time, if you can absorb a large amount of the purest dragon source, the benefits will be great!

Chen Feng smiled and nodded.

"Next, I will refine this dragon tailbone first."

"Then, lift the seal, and everyone will absorb it as soon as possible."

Hearing this, everyone was first overjoyed.

But soon they calmed down again.

They looked at Chen Feng.

"No... You found this Dragon Origin, there is no reason to give it to us..."

Chen Feng interrupted the speech before he finished.

"Stop saying that."

"If you really mind, then I might as well tell you."

"See the seal under that?"

Chen Feng reached out to the seal that was getting closer and closer.

"Senior Dragon told me that it was a special seal made by chance."

"Once it is lifted, a lot of Longyuan will pour out."

"If it cannot be absorbed as quickly as possible, it will dissipate in this deep pool for nothing."

In fact, Chen Feng didn't want to say this.

Even if there is no relationship at this level, he is surrounded by his companions, trusted brothers.

A month later, they will fight together for the Tianshu Sword Sect.

At this moment, it is natural that he can't just be cheap.

"Well, time is limited."

They had to quickly absorb the vast Longyuan in front of them in the fastest time.

Never waste a single bit!

Hearing that Chen Feng said so, everyone was no longer polite.

In the next moment, Chen Feng showed the broken knife and began to refine the huge dragon tailbone!

Broken knife shines!

The bottom of the water began to vibrate wildly.

The huge dragon bone that was silent in the deepest part of the Longzhong Mountain began to shrink.

Keep disappearing!

At the same time, the mottled rust and wounds on the broken knife are constantly being repaired.

It seems to be perceiving that Broken Blade is constantly restoring its former glory.

Among the broken swords, the old dragon soul seemed to let out a sigh of relief.

"What happened?"

The monks above the sky, their faces changed drastically at this moment.

The Longwei Mountain below actually started to riot!

Rumble!

Shocking!

Even the void is constantly shaking.

"Could it be because of Chen Feng?"

Some of them immediately thought.

After all, the direction in which Chen Feng disappeared was the source of the vibration!

"Is it impossible?"

"After all, what is shaking is a whole hundred miles of mountains!"

"Even if Chen Feng is an incomparable genius, with his current cultivation strength, how can it be impossible to grab the Baili Mountain Range for his own use?"

Just after these words, the loud noise below seemed to hit everyone in the face.

boom!

A pure and incomparable source of power burst out quickly!

Above the sky, the red eagle ancestor's complexion suddenly became extremely ugly.

"Oops!"

"The old man was hit again!"

He was so corrupt that he stomped his foot violently.

The next moment, he flew away in the direction where Chen Feng disappeared.

At this time, Chen Feng and others seemed to have forgotten the current situation.

In their eyes, only the rich and extreme Longyuan!

Chen Feng was right.

Once this natural seal is lifted, the huge dragon source that has accumulated countless years here will explode in all directions.

Not to mention how much the source of power will be so passing.

There is not much time left for them to absorb!

There is too much movement here, and it is bound to cause all nearby monks to scramble for it.

Once it is in their own interests, many people will never be a spectator like before.

Chen Feng and the five have no doubt that if they can't get out in time, they are likely to be besieged.

By then, it won't be as simple as fighting the six or seven members of the Red Eagle Family.

"pay close attention!"

Following Chen Feng's reminder, the other four nodded together.

They have already exhausted their best efforts to absorb as many dragon sources as possible.

What's more, he opened his own star sea world directly.

Under the guidance of a few people, the silver-blue dragon source diverged into five thick "Galaxy".

boom!

The Xinghai World suddenly burst into bright light.

Whether it's silver blue, or the red of the sun, or the bright white, they all reflect each other at this moment.

Shining!

Those dragon sources that crazily poured into it immediately turned into the purest source of power.

Very soft, but with vast power.

The earth was still shaking violently.

The towering mountains that stretched for hundreds of miles collapsed one after another.

Chen Fengmo danced wildly, even if he was in the deep pool, he was proud of it.

While rapidly refining the mighty dragon tail bones, he incorporated the turbulent dragon source into his body.

In front of him, the silver-blue Dragon Yuan actually formed a funnel-shaped vortex.

I have to say that the thunder pool tempering in the previous three days was really much more effective.

Today's five people have increased physical strength to varying degrees, which is the time when they are eager to replenish their strength.

At this time, the effect of absorbing Longyuan is not the same!

Que Yuanzhou and Que Yuanyi had originally been behind Lei Chi, and had broken through to the eleventh floor of the Star Soul Martial God Realm.

At this moment, their auras are surging visibly.

Si Konghao on the other side, even more so.

After experiencing the danger of seizing the forbidden land in the back mountain of the Sword Sect of Heavenly Power, although he was cultivated, he was elevated to the third cave of the Shifang Dongtian realm.

However, to say that it can really be played out, it is only about the first cave of the Shifang Dongtian realm.

And the two successive tempering and Longyuan indoctrination gave him a further grasp of power.

"Hahaha... it's so cool!"

He was bathed in a silvery blue, laughing cheerfully.

The power of the source is absorbed, just like the dry forest smells rain and dew, and a long drought meets the rain.

Soon, his eyes widened suddenly, and he exclaimed.

"My star sea world, there is another bright moon!"

Everyone was surprised and happy.

Que Yuanzhou brothers followed closely,

The two of them burst out with dazzling light, illuminating the deep pool like daylight.

The two actually stepped into the twelfth floor of the Star Soul Martial God Realm together!

A lot of dirt was washed out, and naturally washed away by the pool water.

[Chapter 5462: Dare to carry the sky thunder alone!](#)

boom!

The earth is shaking.

Chen Feng also has a breakthrough change here.

The huge dragon's tail bone, after shrinking continuously, was actually pulled out by life.

There seemed to be a dragon roar from the top of Jiuxiaoyun.

Shocking!

Hundreds of miles in the dragon's tail giant bones, eventually shrinking rapidly.

It rushed straight into the big hole of the broken knife and slammed into it.

Crackling!

It was accompanied by lightning.

Chen Feng only felt that the broken knife in his hand was as heavy as a mountain range!

If it weren't for his current physical strength, he had made new breakthroughs, otherwise it would even be difficult to resist this violent collision.

However, despite the keel repairing the knife and the shocking momentum, Chen Feng was still excited.

When the dragon's tailbone stretched for hundreds of miles hit the broken knife, he could clearly feel the broken knife cheering.

It is recovering!

In a deep sleep from a serious injury, he gradually recovered his mind.

In this way, the two largest rust holes above the broken knife completely disappeared!

Hum!

The broken knife kept trembling.

Above the original white light, there is now a little more power of thunder and lightning.

At this moment, I could only hear a shocking thunder from the sky above my head.

Boom!

The five people all looked over their heads.

Even at the bottom of the deep pool, Chen Feng and the five people could clearly feel it.

Between heaven and earth, thunderclouds are rapidly gathering!

"this is....."

Someone is going to break through the Shifang Dongtian realm!

Chen Feng and others looked back suddenly, four pairs of eyes gathered at the most silent person——

Sword idiot, Yin Haoran!

Like Que Yuanzhou and the others, he had already reached the twelfth floor of the Star Soul Martial God Realm after experiencing the thunder pond tempering.

Nowadays, a large number of Longyuan is filling the Xinghai World.

Even if Yin Haoran tried his best to suppress, she couldn't resist it!

Thunder robbery is coming!

For a time, the monks near the Longzhong Mountain Range looked sideways and stopped.

Everyone's faces were full of horror.

"At this moment, I chose to break through..."

"wrong!"

"It should have absorbed too much Longyuan, and it can't stop the thunder calamity from happening at all."

Many people were extremely corrupt, and immediately scolded.

"Too disgusting!"

"Doesn't that stop us to get a share of the pie!"

...

The red eagle ancestor who rushed to the forefront had the most gloomy face at this moment.

He stopped his figure for life.

A pair of eagles shot out cold light, coldly looking in the direction where Chen Feng and others were.

One step further is the attack range of Thunder Tribulation.

If he gets close, he is very likely to be implicated.

Can you just watch them make a breakthrough smoothly?

The ancestor of the red eagle had already hated Chen Feng.

His face was gloomy as iron and cold as frost.

Connect the four people around him, and anger them all at once.

"Ancestor, what should we do?"

The three elites behind him looked anxiously at the ancestor of the red eagle.

Hearing the three voices behind him, the Red Eagle ancestor suddenly thought of something.

His eyes lit up and he turned to look at the three of them.

"You accompany me from birth to death, and fight for my Red Eagle Family."

"Now, I want you to rush into this thunder calamity."

"Dare you dare?"

The three elites who heard this were shocked.

The words of the ancestor Red Eagle couldn't be more clear.

Let the three of them fight each other with their lives, and let the five of Chen Feng die!

However, they soon became firm again.

They were born in the Red Eagle family and were educated to be loyal to the family and their ancestors since childhood.

Since it was the order given by the ancestors, knowing that it is death, there is no regret!

"We dare!"

The next moment, the three of them all turned around and rushed under the thundercloud ahead without looking back.

There is only one belief in their hearts.

Kill Chen Feng!

They must not be allowed to succeed.

Boom!

Above the thundercloud, lightning erupted like a volcano.

Endless, coming from all directions, surging crazily!

Click ——

Thunder light cut through the thick dark clouds, and the dimly lit sky instantly became extremely dazzling.

"I am willing to die with my own body and exacerbate the thunder disaster!"

Three roars, neatly, straight into the sky!

The next moment, the three of them unscrupulously exploded with the most powerful aura.

As we all know, within the range of thunderclouds, any aura that transcends the ten-square cave world will be regarded as the power of the triumphant.

In order to deal with the corresponding power, the power of the three sky thunders dropped will become stronger.

But, corresponding!

All the people who burst out of breath will be included in the target of the sky thunder.

Right now, the three powerhouses of the Ten-square Cave Heaven Realm burst out all their breaths.

The power of thunder on this day will instantly be three times stronger than before!

even more!

Boom!

The original thundercloud was already astonishing enough.

At this time, the scope suddenly became larger!

The violent thunder light is constantly surging and brewing in the thick dark clouds.

The monks who were eager to move, their complexions changed drastically when they saw such a change.

All careful thinking, all disappeared.

This unprecedented terrifying thunder tribulation of the ten-square cave sky realm, who dares to take the initiative to seek death?

"not good!"

Chen Feng and others at the bottom of the deep pool felt the changes in the breath of the sky thunder for the first time.

Even though it was far away from a pool of water, the horrible breath still passed down.

The complexion of the five suddenly changed.

"what happened?"

Chen Feng immediately exploded all his spiritual consciousness and quickly explored outside.

The next moment, his face showed anger.

With a clenched fist, I can't wait to blast into the air with a punch.

hateful!

Actually use this method of killing a thousand enemies and self-defeating 800 to die with them!

Chen Feng can even imagine.

The red eagle ancestor at this time, how proud his face should be.

The other four quickly realized the reason.

Their reaction, like Chen Feng's, was extremely angry.

However, seeing the three terrifying thunders far beyond ordinary people are about to fall, anger seems extremely useless.

The Que Yuanzhou brothers looked at Chen Feng subconsciously.

"Brother Chen Feng, what should I do?"

Without waiting for Chen Feng to answer, Si Konghao who was on the side suddenly stepped forward.

His strong muscles are full of explosive power.

Turning back, looked at the three of Chen Feng.

"You must not use the exercises, hide your breath, and absorb a little bit more."

With that, Si Konghao looked at Yin Haoran again.

"Brother Yin, I will protect the law for you!"

"How can this be?"

Yin Haoran's complexion changed suddenly, and he quickly stopped.

Everyone knows how destructive the next three sky thunders will be.

And if Si Konghao starts to help him, it will intensify the power of thunder robbery!

At that time, both of them will die!

However, Si Konghao interrupted him.

"My physical body, after all, has the strength of the third hole in the Ten-square Cave Heaven Realm."

"Even if you don't use the slightest cultivation base, you won't necessarily die."

However, serious injuries are certain.

But, at this moment, Chen Feng, who had been silent for a long time, suddenly spoke.

"I'll protect the law."

"Sikonghao, what you lack most now is the battle experience you have measured."

[Chapter 5463: The calculation of the ancestor of the red eagle!](#)

"Since the Red Eagle ancestor pushed these three people to death, presumably he should be nearby."

"You go now and bring me his head."

Chen Feng's voice grew louder and louder.

His eyes glowed, staring at Si Konghao.

"I ask you, can you do it!"

At this moment, even if Si Konghao still wanted to stop Chen Feng from protecting the law, it was hard to say it.

Looking at Chen Feng's firm gaze, Si Konghao finally nodded.

"for sure!"

Before the words fell, Chen Feng said "OK".

I saw him looking at the two Que Yuanzhou and quickly ordered.

"You two, continue to absorb."

Then, Chen Feng looked at Yin Haoran again.

He was smiling, and he didn't seem to be afraid at all.

"Let's go."

"If you want to say who has the strongest physical body, here, I am the one who is most suitable to protect you."

Looking at Chen Feng, a warm current surged in Yin Haoran's heart.

At this moment, the situation that I thought was bound to die suddenly changed.

Yin Haoran nodded firmly with the sword in his hand.

"We must survive!"

boom!

The three teams immediately separated their actions.

When Chen Feng and Yin Haoran appeared above the void, all the monks watching in the distance were in an uproar.

"It's actually Chen Feng!"

"Wait... Looking at this, does Chen Feng actually want to protect the law?"

Everyone looked at the three Scarlet Eagle family masters not far away, and they were all shocked.

"This... is definitely going to die, right?"

Just beside the monks watching, the ancestor of the red eagle couldn't help laughing.

"Hahaha! Chen Feng, he must die today!"

"If he is now a tortoise with a shrunken head and abandons his brothers, he may live a little longer."

"It's a pity, I have to be a hero."

The ancestor of the red eagle was extremely proud.

He had already figured out that the person who wanted to break through was definitely not Chen Feng.

It should be Chen Feng's companion.

However, he was even more determined. In terms of his long-term secret observation of Chen Feng's disposition, Chen Feng would never sit back and watch.

However, at this moment, a figure suddenly rushed from the front.

"The ancestor of the Red Eagle, it is you who will die today!"

Si Konghao was covered with anger.

Coming vigorously!

He flipped his hand and threw the immortal seal of Tianquan Town toward the front.

At almost the same time, the extremely heavy thundercloud behind him finally knocked down the first sky thunder.

Boom!

The thunder light with a thickness of hundreds of meters smashed down frantically at the five people below.

The dazzling light almost closed everyone's eyes.

The roaring thunder of the waves completely covered the laughter of the red eagle ancestor.

No one noticed that the immortal seal of Tianquan Town that was rising against the storm, this time, also brought a piece of thunder.

boom!

The first light of thunder fell fiercely on Yin Haoran and Chen Feng.

Even today's Chen Feng's physical strength has reached the fifth cave of the Shifang Dongtian realm.

He still snorted.

This first sky thunder is actually the second sky of the ten-square cave realm!

There were three elite members of the Red Eagle family not far away, and one of them was staggered.

Then, like a fallen leaf, it fell towards the Longzhong Mountain Range below.

"too frightening!"

Everyone exclaimed again and again.

After the first sky thunder fell, they looked at Chen Feng for the first time.

"This is impossible!"

At the next moment, everyone gasped.

Chen Feng stretched out a hand and pressed it on Yin Haoran's shoulder.

The two seemed to be in no trouble!

However, before the second sky thunder fell.

There was a heavy loud noise in everyone's ears again.

It is also accompanied by the power of thunder and lightning!

And, closer to them!

The monks turned their heads and followed the sound.

But I saw the huge golden mountain range, in Si Konghao's hand, like an extremely large whip!

Stubbornly slammed on the red eagle ancestor!

"puff!"

The ancestor of the red eagle flew out and opened his mouth to blood.

He was completely shocked!

"How... how is it possible?"

Not only because of Sikonghao's Ling Li offensive, but also because of Chen Feng in the distance, smiling at him!

The red eagle ancestor's brain was blank.

He didn't understand at all, what was going on!

No matter how strong Chen Feng's cultivation base is, it is just invincible at the same level.

How can it be so strong?

And how could the Si Konghao in front of him explode with such a powerful aura in a short time?

He clearly remembered that just three days ago, this person was not his opponent at all.

And now, he can actually hurt himself!

At this moment, the Red Eagle ancestor finally reacted.

It must be because of the vast Longyuan!

"hateful!"

He was deeply regretful.

If it was before, he did not hesitate, but chose to rush straight down.

The situation will be very different!

At least, while Sikonghao and Chen Feng's strength soared, his strength also soared.

Maybe, it can break through the bottleneck of immovability in one fell swoop!

However, it is useless to say that these are now.

It's done!

The red eagle ancestor opened his eyes violently, and the blood on his lips passed away.

He got up quickly and moved away quickly.

At this moment, he didn't want to fight with that Sikonghao.

He just wanted to see Chen Feng and immediately die in front of him!

At this moment, among the thunderclouds, the second terrifying thunder pillar is about to fall!

However, it is completely different from the sky thunder of most people in the past.

This time, Tianlei is not scarlet!

Rather, red to purple!

Boom!

The sky thunder hadn't even fallen, above the purple thundercloud, the voice was already huge!

Shocking!

The entire space was violently shaken!

Between the world, the blood rain drifts.

The wind roars!

"How can this be? I have never seen such a purple sky thunder!"

Many monks in the distance suddenly changed color when they saw the purple thunder light.

Everyone was horrified at this moment.

Is this the thunder robbery after the addition of three Shifang Dongtian realm experts?

How can Chen Feng and Yin Haoran be able to handle it?

At this moment, the second purple sky thunder crashed down.

It is no different from the previous thunder disasters.

Before the second thunder pillar fell completely, the third thick purple thunder pillar almost followed.

In a trance, everyone's ears seemed to be screaming sternly from the supreme beings.

This kind of momentum has never been seen before!

Even Chen Feng couldn't help being frightened.

Even if one of the elite of the Red Eagle family has passed away, the thunder disaster has already begun!

It will not be weakened by half because of the passing of one person!

Every time he thought of this, Chen Feng couldn't help gritting his teeth.

Yin Haoran could have easily survived the thunder catastrophe and stepped into the Ten Fangdong Heaven Realm smoothly.

But because of this sudden change, all this has become unpredictable!

Chen Feng looked up.

He looked directly at the two purple thunders that were thousands of meters thick and rushed towards them.

His complexion was solemn and gloomy.

On this day, the thunder actually had the strength of the second peak of the Shifang Cave Heaven...

Do not!

It has even broken through the third cave sky!

[Chapter 5464: Who said I was dead?](#)

How did Yin Haoran bear this?

Just among the sparks, Chen Feng suddenly made a decision.

In an instant, he stepped forward, and stood in front of Yin Haoran alone.

The next moment, the cold light flashed.

The sky was pierced by a purple thunder, bursting out dazzling light!

Stabbed everyone with blood and tears in his eyes!

boom!

Boom!

The sky is roaring, roaring!

It's like a doomsday scene.

And amid the deafening and loud thunder, a scream could be faintly heard.

"Chen Feng!"

However, under the two terrifying thunders, Yin Haoran's exclaim seemed so insignificant.

In the air, the raging energy tore through countless spatial cracks.

Those purple electric currents are intertwined with it.

Overwhelming energy rages out!

A huge storm suddenly spread from where Chen Feng was.

It even swept in front of the monks who watched a thousand miles outside!

This time the sky thunder was even more powerful than the double thunder robbery that Chen Feng had seen before.

The damage caused is even more unimaginable.

An atmosphere of despair filled everyone's hearts at this time.

This heavenly thunder has already exceeded the peak of the second cave of the Shifang Cave.

Chen Feng and they simply can't hold it!

Relatively speaking, the laughter of the red eagle ancestor in the distance became louder and louder.

"Chen Feng, you are dead! A big heart!"

The void is trembling crazily!

But this time, after a whole whole number of breathing time passed, the people slowly recovered their five senses.

As soon as he recovered, everyone couldn't wait to look in the direction where Chen Feng was.

At the moment when the two devastating sky thunders fell, everyone actually saw that scene.

Chen Feng actually stood in front of Yin Haoran!

At that moment, they were all shocked.

At the last moment, they keenly caught the sound of broken bones.

Just hearing it made them cold all over.

Click! Click!

The broken bones must be turned into powder.

Can you connect it back again?

After these two terrifying sky thunders fell, the endless horror and deep purple thunder cloud dissipated.

If the tide is low, wash the world quickly.

The dark clouds dispersed, and the moon was shining brightly.

Hundreds of miles below, there are large expanses of scorched earth.

Accompanying it is a strong burnt smell.

This tragic appearance silently talked about what had happened here.

On the high mountains below, there are already cracks everywhere.

The Longwei Mountain has been chopped into wasteland by these three thunder tribulations!

The two elites of the Red Eagle family are even more dead!

Those two terrifying sky thunders also slashed on their heads.

"Chen Feng! Yin Haoran!"

"Are you all right?"

Sikonghao rushed to the scorched earth.

He was extremely frightened, and for the first time felt how worried and concerned it was.

Before that, Sikong Hao was alone.

He is arrogant and self-confident, and he has never thought that on the road of cultivating immortals, he can have companions go hand in hand.

But this time, he saw a different feeling in Chen Feng.

If...

He suddenly turned his head and stared at the ancestor of the red eagle fiercely.

Under the attention of everyone, he said loudly.

"If Chen Feng has two shortcomings, I will let your entire family bury him!"

"I, Si Konghao, do what we say!"

The red eagle ancestor in the distance gave a cold smile.

"Boy, you are not as good as Chen Feng, so why dare to yell at the old man?"

Having said that, for Si Konghao in front of him, the ancestor of Red Eagle was still quite jealous.

However, as long as the thought of Chen Feng has been blasted by the sky thunder, there is no bones left.

He couldn't help but feel good.

At this moment, a weak voice suddenly sounded.

"Who said... I'm dead?"

Although the words sang like a mosquito, they did not know why, and they reached everyone's ears clearly.

At this moment, the world is silent!

Everyone looked at the charred wasteland.

Even Si Konghao turned around blankly.

"Ahem..."

A scorched hand came out with difficulty from a piece of scorched earth.

In the next moment, two familiar breaths came out suddenly!

It was Chen Feng and Yin Haoran!

"It's Chen Feng!"

"He didn't die!"

"Isn't it, it won't die like this? Is it completely on the body?"

The audience is boiling!

In their opinion, this is simply a miracle!

The three powerhouses of the Ten-square Cave Sky Realm were all smashed by those three sky thunders.

But Chen Feng and Yin Haoran survived!

At this time, Si Konghao's heart could hardly contain ecstasy.

He rushed to the scorched earth for the first time.

At this time, Chen Feng two were more embarrassed than the other.

There is almost no place in Chen Feng's body.

His bones were broken and his breath was weak.

It was like a lingering candle in the cold wind, and it was blown out.

Behind him, Yin Haoran looked much better.

Yin Haoran was the most moved at this moment.

It was precisely because Chen Feng stepped in front of him at the last moment.

Carried most of the sky thunder for his life.

Otherwise, with his strength, I am afraid it will be difficult to escape.

"Chen Feng, I owe you my life."

"From now on, I will never say anything about what you want me to do."

Yin Haoran has been devoted to kendo all his life, for a generation of sword fanatics.

To make him so moved, Chen Feng alone.

"Cough...cough cough."

Chen Feng looked rather embarrassed, ragged, and staggered.

However, there was still a familiar smile on his face.

"What are you talking about."

"Brothers don't need to be serious."

The next moment, he moved his lips extremely slightly.

The expressions of Si Konghao and Sikonghao who surrounded him changed slightly.

At this time, the ancestor of the red eagle was stuck in the void.

He originally thought that sacrificing three elite families would be enough to kill Chen Feng.

However, Chen Feng still survived!

"How can I really kill him?"

For some reason, at this moment, a trace of fear passed through the heart of the Red Eagle ancestor.

Is he really wrong?

From the beginning, shouldn't he regard Chen Feng as an ant that can be easily crushed?

"wrong!"

At the next moment, the ancestor of the red eagle suddenly condensed his eyes.

He recovered in an instant.

Anyway, everything has happened.

Moreover, Chen Feng got the Qingqiu Heavenly Sword that was transformed into the Qingqiu Heavenly Sword.

This means that he took over the cause and effect between the Red Eagle Ancestor and the Qingqiu Fox Clan.

The two of them will finally fight!

After confirming this, the ancestor of the red eagle immediately looked gloomy.

Although Chen Feng was not dead, he was seriously injured and dying.

Right now, it is the best time to completely crush him!

In the next instant, the Red Eagle ancestor spread out his wings and swooped in the direction of Chen Feng's trio.

"Since God doesn't accept you, the old man will go on your way personally!"

Chi Ying ancestor Jie Jie laughed, unreservedly preparing to give a fatal blow.

However, it is not waiting for him to rush to the front.

Si Konghao suddenly turned his head and stared at him.

[Chapter 5465: The old man has been calculated again?](#)

"Your opponent is me!"

He quickly tapped his feet on the ground, and rushed towards the ancestor of the red eagle like a bow.  
boom!

Above the sky, there was a loud noise.

The ancestor of the Red Eagle gritted his teeth with hatred.

"Since you rushed to die, the old man did what you wanted!"

A big battle broke out immediately.

However, the more he fought against Sikonghao, the more he felt bad in his heart.

In the beginning, Si Konghao's cultivation base and physical body were extremely powerful.

But his martial arts and supernatural powers seem particularly shabby.

But slapped, Chiying Old Ancestor suddenly realized that something was wrong.

Sikonghao's martial arts are improving rapidly!

It would take a lot of work to actually destroy him.

This makes him feel uncomfortable.

The monks in the distance were also attracted by this wonderful battle.

But, soon, some of them discovered that it was not good.

Chen Feng, who was originally on the scorched earth, disappeared!

"Where is Chen Feng?"

As someone exclaimed, everyone finally reacted.

Even the red eagle ancestor who was fighting above the sky finally woke up.

From the beginning, Si Konghao was here to delay time!

The purpose is to divert attention.

So that Chen Feng and two of them can quickly escape!

"But where can they go?"

As soon as these words came out, everyone changed their faces again.

They stared at each other and looked in one direction.

"No! It's Longyuan!"

Everyone finally reacted.

But it is too late!

boom!

It seemed that after hearing their movements, the two familiar auras appeared again.

But this time, it was no longer weak and dying.

They are skyrocketing at a speed visible to the naked eye!

In the next moment, all the monks made a sensation.

They scrambled to rush towards the direction where Chen Feng and the other two were.

"Can't let Chen Feng and the others monopolize the benefits!"

"Go grab it!"

No one will be outdone.

Among them, nature also includes the Red Eagle ancestor.

Si Konghao seemed to see his mind, showing his white teeth provocatively, and laughed.

"Old immortal, there are indeed many dragon sources below."

"However, even if I die here today, I will never let you get the slightest amount!"

"Hahaha!"

He laughed loudly, so angry.

Reached out, angrily pointed at the onlookers who were going to pass them.

"They can get a piece of the pie, but you can't have a drop!"

The next moment, Si Konghao shouted again and killed him.

However, the other side suddenly sneered.

"Ha ha ha ha ha....."

The ancestor Chiyang lowered his head and let out a weird laugh.

When he looked up again, his eyes were already red.

Scarlet feathers grew on his face and hands!

"What the old man can't get, no one can expect to get it!"

"Boy, you successfully angered the old man."

boom!

A particularly special breath suddenly burst out of his body.

In an instant, the complexions of the monks who wanted to rush towards the deep pool suddenly changed.

I saw that in front of them, an extremely lingering red hurricane was rolled up out of thin air.

That hurricane has terrifying suction!

"Do not!"

The young man in Tsing Yi and long gown rushed to the front, his eyes widened in panic.

But, the next moment, he was taken away from his life.

All the power of the origin was also swallowed by the red hurricane.

"Hahaha!"

The ancestor of the red eagle was laughing presumptuously.

His voice echoed in every corner of the sky.

Immediately afterwards, scream after scream rang out one after another.

At the same time, the red eagle ancestor's own breath is soaring!

Actually, it has returned to its peak.

Even improving!

"How is this going?"

Some people were scared to death, and immediately retreated.

I saw the red eagle ancestor laughing like crazy.

"For your misfortune, I have seen the red eagle star-absorbing magic of my red eagle family."

"You...just go to death with peace of mind."

"I will send Chen Feng to accompany you on the road."

The Red Eagle ancestor laughed.

However, when he saw Si Konghao, his heart suddenly shook.

I saw a smile on Si Konghao's face.

It looks very much like Chen Feng!

"Could it be that the old man has been calculated again?"

He was suddenly startled.

I have to say that the ancestor of the red eagle has been scared.

Chen Feng is really scheming.

Every time there was a calculation in his mind, he would smile like this.

It was frightening to see.

As a result, the ancestor of the red eagle would always feel terrified when he saw this smile.

Subconsciously thought of what conspiracy Chen Feng was playing again.

He released his spiritual consciousness with all his strength, and wanted to explore whether there was any abnormality around him.

However, except for howling and his red hurricane, nothing changed.

The ancestor of the red eagle looked at Si Konghao again.

However, as he saw those eyes, he suddenly understood everything in his heart.

This kid is actually playing him!

"Well, you are a wicked animal!"

The ancestor of the red eagle was furious.

Hum!

The huge breath instantly gushed from his body.

The shocking coercion overwhelmed the sky and rushed towards Si Konghao.

At the same time, he slapped out angrily, as fast as lightning and shocked as thunder.

Even if Si Konghao reacted quickly, he still couldn't dodge it.

"puff!"

He was hit by life, gushed blood, and flew out for hundreds of miles!

The breath of the third cave of the Shifang Dongtian realm suddenly languished.

The ancestor Chiyang snorted coldly and stopped looking at him.

However, just as he was rushing towards the deep pool below, he was stopped by several figures.

"Red Eagle ancestor, your Red Eagle family has always been domineering and can't afford to offend."

"But, I wait for you to have no grudges or hatreds, so I just plunder the blood of others at will, don't you need to give an explanation!"

Those monks who were originally just onlookers were angry at the moment.

Many of the monks who died by plundering their blood were their companions.

No one thought that the ancestor of the red eagle would actually ignore them so much.

Treat them as blood supplies at all!

How can this make them bear?

They quickly surrounded the Red Eagle ancestors, and showed their magical weapons one after another.

Even though the cultivation base of each of them is not as good as that of the ancestor of the red eagle, after all, there are many people!

However, in the face of the menacing crowd, the ancestor of the red eagle smiled contemptuously.

The next moment, the red hurricane raged again.

That terrifying suction instantly swept away the recent young monks.

Almost in the blink of an eye, a scream came.

The person's blood was quickly removed, and the whole process was extremely painful.

But, in the fierce red hurricane, he has no room to resist!

Almost in an instant, all of that person's original power was completely swallowed by the Red Eagle Ancestor.

"Hahaha!"

The red eagle ancestor looked up to the sky and laughed.

His eyes were burning, he looked at the people who were blocking the road in front of him, his face full of disdain.

"The old man has no time to pretend to be a good person today."

[Chapter 5466: Bloodline suppression!](#)

"If you don't want to die, get out!"

With a loud shout, the sound waves rolled like thunder.

The more they entangled here, the more anxious Red Eagle Old Ancestor felt.

Because, in the deep pool below, the breath of Chen Feng is getting stronger and stronger!

Seeing that it is about to return to its peak!

If you don't take the opportunity to kill him, I'm afraid you will miss the opportunity again!

Thinking of this, the ancestor Chiying didn't bother to take care of those insignificant roadblockers.

He waved his wings, dived quickly, and attacked the deep pool.

"Want to go? It's not that easy."

At this moment, a burst of shouts rang out again behind him.

I saw that Si Konghao did not know when, approaching again!

His muscles were knotted and his breath shook the sky.

The immortal seal of Tianquan Town was constantly waving in his hand, and the disheveled spread out!

That day, the golden mountain range formed by the immortal seal of Quanzhen was huge, like a terrifying long whip, coming straight to the ancestor of the red eagle.

Si Konghao at this time was dripping with blood.

However, the fighting spirit is high!

Although he was injured, he still shot golden light in his eyes and stopped in front of the ancestor of the red eagle.

The transformed golden mountains straddled the void.

"If you want to deal with Chen Feng, first step over Lao Tzu's corpse!"

He roared domineeringly and disdainfully.

Such an appearance once again angered the ancestor of the red eagle.

"Okay, since you want to die, the old man will kill you first."

"Send Chen Feng's child to accompany you on the road!"

Before the words fell, the red eagle ancestor burst out with supreme aura, and the coercion directed towards Sikonghao.

A scarlet golden eagle claw, facing the storm, came straight towards the Sikong Haotian Spirit Cover.

If you are hit by this claw, you will die or be injured!

Looking at this huge eagle claw as fast as lightning, Si Konghao's pupils shrank suddenly.

He retreated repeatedly.

The red eagle ancestor guessed it was true.

At present, all this is in Chen Feng's plan.

After Thunder Tribulation, Chen Feng thought that the Red Eagle ancestor would definitely take the opportunity to kill.

And Chen Feng's injury is too serious!

He needs Si Konghao to hold the Red Eagle ancestor as much as possible.

However, Chen Feng has a premise——

You must ensure that your life is safe.

Chen Feng knew Si Konghao too well.

Since the matter of Tianquan Jianzong Houshan forbidden land, Si Konghao has regarded Chen Feng as a lifesaver.

Therefore, he particularly solemnly warned Si Konghao.

"You must live, and leave the rest to me."

"go to hell!"

Ahead, the red eagle ancestor looked up to the sky and screamed, rushing frantically.

In his eyes, hatred is overwhelming!

Even bring the belief that it will kill.

However, at this moment, a loud noise suddenly appeared.

boom!

The void was actually torn apart several hundreds of meters long space cracks!

The violent breath rages!

"Want to kill my brother, have asked me if I have!"

Chen Feng's voice quickly came from the scorched earth below.

Immediately afterwards, a thin figure struck quickly.

It is Chen Feng!

Although he was embarrassed and ragged, there was no trace of blood all over his body.

The onlookers exclaimed!

This is incredible!

In such a short period of time, Chen Feng went from being seriously injured and dying to returning domineering!

Someone reacted very quickly and quickly noticed.

Chen Feng's breath is restrained!

For a while, no one knew how much he had recovered to now.

The red eagle ancestor stopped immediately.

He turned to look at Chen Feng, his eyes darkened.

"What's the hurry? When the old man kills your brother, he will naturally send you on the road."

The Red Eagle ancestor deliberately sneered,

Faced with his harsh words, Chen Feng just smiled.

"You are not dead, how could I die?"

"How does it feel to use a forbidden technique?"

Hearing this, the ancestor of the red eagle was furious.

However, he quickly calmed down.

He laughed without anger.

"Chen Feng, you are indeed a little capable, you can actually let the old man use the Supreme Forbidden Art of the Red Eagle Family."

"Red Eagle's supernatural power to attract stars!"

For the Red Eagle family, this is an extremely domineering and evil technique.

However, the more evil works, the greater the cost!

The red eagle star-absorbing magic has a very fatal flaw.

It does great damage to the source!

Every time it is used, it will consume hundreds of years of life.

This is also the reason why the ancestors of the red eagle never want to use it.

He is too old.

There are not many centuries to wear out.

"Well, you can go to death."

After all, the scarlet hurricane quickly moved towards Chen Feng.

Just now. Just listen to Chen Feng's mouth raised.

The Supreme God Demonizes the Dragon Art, immediately runs at full capacity!

Hum!

At the next moment, the complexion of the ancestor Chiying suddenly changed.

"how can that be?"

The Red Eagle ancestor exclaimed in exclamation.

The murderous aura on his face suddenly turned into endless panic.

At the moment when the God Demonized Dragon Art was fully operated on stage, a supreme coercion burst out of Chen Feng's body!

Within thousands of miles, all the monks turned pale.

Then, all of them showed horror on their faces.

They clearly felt that their blood was trembling crazily!

A wave of fear came from the bottom of my heart!

Completely out of control!

"How is this going?"

Everyone exclaimed.

Especially the ancestor of Red Eagle, he couldn't believe it.

He really felt his own blood, and was actually suppressed!

"It's impossible. I don't say the blood of the Red Eagle family is top-notch, but there are also seven-rank high-end!"

"How can I be suppressed by you, a little boy."

But even though he didn't want to believe it. The reality is like this!

The corners of Chen Feng's lips conjured up a nice arc.

He turned around quickly and looked at all the monks around.

"Everyone, listen to me."

He spoke loudly.

In an instant, there was silence between heaven and earth.

Everyone seemed to have countless things to say, but when Chen Feng spoke, they calmed down unanimously.

"The ancestor of the red eagle, practiced evil skills and killed innocent people indiscriminately."

"Presumably you are just like me, and you already have antagonisms against him!"

"However, with my strength, it is impossible to have the confidence to kill."

"Again, I hope you can join hands with me to kill him here!"

Chen Feng called out loudly.

"This cause and effect can be attributed to my body."

"Don't worry, everyone!"

"You guys, please help me!"

Although the cultivators around, the cultivation base is not too high.

But Chen Feng still said so.

Si Konghao, who was not far away, frowned slightly.

He was very puzzled.

What is Chen Feng doing?

But, looking at him, everything must be planned.

Just after these words were finished, the ancestor of the red eagle was shocked.

No matter how he looked down on the ordinary monks around him.

But right now, Chen Feng actually wants to ask them for help?

Could it be that these people have any special use?

For a time, the ancestor of the red eagle was a little afraid.

Now it's an endless situation.

If you are not careful, you will fall!

He has lived for tens of thousands of years, so he is naturally unwilling to end like this.

Do you want to run away again?

The red eagle ancestor's complexion was uncertain.

And all this was seen by Chen Feng.

[Chapter 5467: Because I have the supreme blood!](#)

In his heart, he said "it is finished" secretly.

No one noticed. From the moment he shouted, some black light flashed in his eyes.

The ancestor of the red eagle now has a very strong cultivation base.

It's just that Chen Feng has reduced his breath, and he has always been cautious, not daring to be reckless.

In this way, Chen Feng was firmly in control of his calculations.

What I said just now is not really asking everyone for help.

All to shake the mind of the Red Eagle ancestors!

Once the mind has a gap, he can have a chance.

In an instant, the heavens and the earth reincarnate repeatedly!

A demon heart quietly sneaked into the depths of the spiritual world of the red eagle ancestor.

At this time, the ancestor of the red eagle was so restless that he didn't notice it.

There was even greater smile on Chen Feng's face.

He continued to speak loudly.

"You are forbidden, but so."

"Not only do I have similar techniques, but I won't have any backlash!"

"But, I don't want to use it at the moment, just because I have a thread in my heart!"

"I will not kill innocent people indiscriminately. That's why you have to die!"

The ancestor of the Red Eagle was shocked when he heard this.

Oops!

Sure enough, the monks who heard these words were shaken in their hearts.

First, Chen Feng carried three heavenly thunders for his companions physically, and then he insisted on keeping his heart and not killing innocent people.

Compared with the ancestors of the red eagles, they stand up against each other!

For a time, many people responded.

"I know what Chen Feng's temperament is."

"This Red Eagle ancestor deceived so much, I would like to join forces with Chen Feng to punish him and avenge my brother."

When someone starts, someone responds.

In the next instant, countless breaths erupted from everyone's body.

Flocked to the ancestor of the red eagle.

Chen Feng is even more preemptive!

I saw the newly renewed Broken Blade burst out with killing intent!

There seemed to be heroic spirits roaring and roaring.

Soul of the sword is now!

Too much to kill God!

In an instant, the world was overshadowed.

That dazzling light once surpassed lightning and rushed to the sky.

The world at this time, for the red eagle ancestor, instantly became a purgatory!

He has nowhere to go.

There seemed to be monks blocking the way in all directions!

Just when he tried to rush out from a weaker ordinary monk.

Suddenly, from that person, the breath of Chen Feng burst out!

"what happened?"

He was startled suddenly, turned around and ran away subconsciously.

However, after turning around, what was oncoming was that shocking slash.

boom!

Too Shang Zhu Shen Zhan, completely fell on the red eagle ancestor.

"puff!"

For an instant, the rain of blood swayed and the sky was full of blood.

The red eagle ancestor immediately turned pale and flew out.

A pair of huge wings were cut down by this knife!

"It's done!"

Many people exclaimed.

However, the next moment, the red eagle ancestor's laughter rang out from heaven and earth.

"Chen Feng, Chen Feng, wouldn't you be able to kill the old man with such a trick?"

Not yet transformed, everyone's heart suddenly changed.

They felt bad at once.

"As long as the old man has one last breath, as long as the red eagle \*\*\*\* the stars, it can still work."

"Old man, it's immortal!"

In the next moment, the scarlet hurricane rose again.

Some monks who were alone, too late to struggle, broke into blood on the spot.

Everyone hates and fears.

Only Chen Feng has no joy or sorrow, and is still calm.

Just then, he took advantage of the serious injury of the Red Eagle ancestor, and quickly explored the spiritual sense.

The red eagle's supernatural power of attracting stars has been spied on by him.

This forbidden technique is very fast to get started, but it has a special qualification for cultivation.

Only those with the blood of the Red Eagle family can practice!

As for the backlash, Chen Feng was not afraid at all.

With the World Origin Tree, as much as the original source is depleted, it will be repaired as much as possible.

Chen Feng immediately opened his eyes and grinned at the corner of his mouth.

"Old Red Eagle, you are dead!"

In the next moment, the Supreme God Demonizes the Dragon Art and runs at full capacity!

Chen Feng's blood steadily suppressed the ancestor of the red eagle.

"how can that be?"

The ancestor of the red eagle was shocked immediately.

In this regard, Chen Feng just smiled.

"Because I have, Supreme Blood!"

Chen Feng used the Supreme God Demonizing Dragon Art with all his strength.

His special bloodline firmly suppressed the ancestor of the red eagle.

Soon, a trace of \*\*\*\* cloud-like aura quietly floated from the body of the Red Eagle ancestor.

Quickly rushed into Chen Feng's body!

The blood of the ancestor of the red eagle is not the blood of the gods and demons.

But it is also extremely strong.

Just as he was absorbed into the world of Dantian, a voice suddenly rang in Chen Feng's mind.

"Seven-Rank is superior."

The Red Eagle ancestor was covered in blood and screamed in pain.

He couldn't move, and his dantian world was in pain.

The blood that originally belonged to him is being stripped of life at this moment.

The \*\*\*\* cloud-like breath recondensed in the air,

Under all eyes, it seemed to have become a vicissitudes of eagle.

In the next moment, everyone seemed to hear a sharp eagle cry.

"how come?"

The ancestor of the Red Eagle opened his mouth and spit out dark red blood.

This is the end of the matter, if you don't work hard, there will be no chance!

Even if it consumes another hundred years of life, it will be tens of thousands of times stronger than it is now!

"Red Eagle's supernatural power to attract stars!"

Only a hard roar was heard.

The red hurricane suddenly rose.

Those blood veins that were stripped out, under the endless suction, there are vague signs of returning.

However, at the same time, the red eagle ancestor's complexion became more and more gray.

His tousled hair instantly turned pale.

Above the rough face, there are ravines.

She looked dying!

Not far away, Si Konghao and many monks looked nervous.

They stared at the blood mist in the void without blinking.

Once the blood mist drifted towards the ancestor of the red eagle, everyone's hearts were hanged.

At this moment, everyone secretly cheered Chen Feng in their hearts.

After all, Chen Feng will not kill innocent people indiscriminately.

And the ancestor of the red eagle, completely unscrupulous!

Between heaven and earth, the wind roared.

Those hurricanes spread below, and large tracts of dense green forests were turned into powder!

Seeing that the blood mist that was finally pulled out was about to return to the body of the red eagle ancestor.

Suddenly, a smile suddenly appeared on Chen Feng's face.

As always confident!

"It's a good idea to use your forbidden technique against you."

Before the words fell, the ancestor of the red eagle trembled fiercely.

"impossible....."

However, his words have not been said yet.

boom!

Another even more violent red hurricane emerged out of thin air.

From Chen Feng's body, an aura similar to that of the ancestor of the red eagle burst out.

And it was the hurricane that quickly snatched the blood of the Red Eagle Ancestor back!

"Do not!"

The Red Eagle ancestor roared in despair.

However, he could only watch the bloodline that was about to return, and instantly poured into Chen Feng's body.

It turned out that from the moment the Supreme God Demonized Dragon Art was operating.

Chen Feng had already absorbed a ray of blood from the Red Eagle ancestor.

[Chapter 5468: Your curse is useless to me!](#)

With just one strand, he can obtain the qualifications of the Red Eagle Star Absorption Magic Technique.

The forbidden technique is very fast to learn, and Chen Feng has the experience in the mind of the ancestor of the red eagle.

Almost instantly, he had almost mastered it.

Looking at the terrified Red Eagle Ancestor in front of him, Chen Feng smiled slightly.

"Today will be your death day next year!"

In the next moment, he urged heaven and earth to reincarnate in heaven and earth.

The devil's heart that penetrated into the spiritual world of the red eagle ancestor suddenly began to skyrocket.

In an instant, the eyes of the ancestor of the red eagle surged and his eyes were split.

In an instant, the spiritual world was pierced by crazy and violent magic strains!

He wailed inhumanly.

Suddenly, his breath languished.

By now, everything will come to an end.

Even if Chen Feng is not killed today, it seems that the ancestor of the red eagle will not live long.

"Chen Feng... good you Chen Feng..."

This is the end of the matter, the Red Eagle ancestor completely gave up

He also realized that it is difficult to escape death today anyway.

"I am not reconciled...I am not reconciled!"

The next moment, the ancestor of the red eagle suddenly raised the sky and roared sadly.

Chen Feng's complexion changed abruptly.

The ancestor of the red eagle will issue the most vicious curse!

Just for everyone in front of you, all souls scattered!

This is the deepest curse!

Once the curse is complete, he will blow himself up.

Anyone who is contaminated by the blood in his body will be cursed.

And this curse has a radius of hundreds of miles!

It is completely too late to escape.

Even if Chen Feng probed all this in advance, it still couldn't work.

Everything happened so fast!

The next moment, I saw the red eagle ancestor's face like an old bark, suddenly pulling.

There was a grinning grin.

"Do you think this is the old man's last hole card?"

In an instant, the heavens and the earth faded suddenly.

Above the sky, a pouring rain of blood floated.

The red hurricane screamed again.

Many onlookers suddenly changed their complexions, and their hearts were alarming.

They turned around and wanted to leave here.

Chen Feng immediately looked at Si Konghao who was aside.

"Run!"

The wind whistling, lightning and thunder!

Like the end of the world!

"I would like to fall into infinite purgatory forever, and endure the fire of karma forever."

"Curse here!"

The broken knife in Chen Feng's hand suddenly burst into bright light.

Dao Mang swiftly moved towards the ancestor of the Red Eagle.

"Anyone who is stained with my essence and blood will have a waste of cultivation base, and the soul will fly away!"

boom!

The shock came suddenly.

The ancestor of the red eagle burst!

Chen Feng's heart stunned.

He is one step late!

The ancestor of the red eagle completed the curse before that cut.

"Hahahaha..."

The frantic laughter continued to spread.

The few remaining blood exploded from his body and quickly shot towards the surroundings.

In an instant, Chen Feng rushed towards Si Konghao.

At the same time, once again use the red eagle to attract stars!

At the moment when many blood beads were about to rush to each monk, the red hurricane broke out with endless suction!

That drop of blood suddenly stopped in front of everyone very close!

Everyone turned pale with fright.

However, in the next moment, all the blood and essence swarmed towards Chen Feng.

"Chen Feng, you are crazy!"

Si Konghao roared.

His face was bloodshot and he couldn't restrain himself.

Chen Feng wanted to let him bear all the curses alone!

Everyone present was deeply shocked.

All the monks onlookers were not close to Chen Feng and even rivals.

But Chen Feng saved them all!

Anyone who is contaminated with this curse will quickly retreat from the beginning.

The star map was destroyed, and the public world shrank to nothingness.

After that, he would be old and rickety under the eyes of everyone.

Then turned into ashes!

The soul of the ancestor of the red eagle looked at Chen Feng and laughed wildly.

"The old man finally killed you!"

A group of pale white raging fire quickly rose out of the soul.

The laughter instantly turned into a scream.

However, despite this, he still stared at Chen Feng.

The Red Eagle ancestor hated him so much!

So that, by this time, he wanted to see Chen Feng with his own eyes and turned into ashes.

But, from beginning to end, Chen Feng looked fearless.

When the last drop of blood was absorbed into the body, Chen Feng looked up quickly.

Meet the eyes of the ancestor of the red eagle.

Then, a familiar smile appeared on his face.

"I'm afraid I will disappoint you."

"Your curse is useless to me!"

At this time, Chen Feng was surprised and delighted.

The moment the blood submerged into his body, the power of curse invaded.

That feeling is extremely clear!

They are like the laws of the world, quickly binding Chen Feng and making it difficult to break free.

At the beginning, Chen Feng also thought that this time, he was too bad for good.

The Immortal Mo Rin in the spiritual world is even ready to use the blue sea purple grass to bring back the dead.

An unexpected thing happened.

The power of those curses, once entered the star sea world.

The palm-sized World Origin Tree actually began to shake its seedling branches and leaves!

The next moment, that drop of pure dew hanging on the Xinghai World was caught off guard.

A masterpiece of light!

Using the forbidden technique twice in a row, the original power of the damage recovered instantly.

Even the cursing power of the whole body turned into a stream of water at this moment.

From all directions towards the World Origin Tree!

Then, it was absorbed by all means.

Even Chen Feng himself was extremely surprised.

The World Origin Tree actually has such effects?

It can absorb all spiritual power and purify all darkness.

"This is impossible!"

The ancestor of the red eagle was completely dull.

He spares no expense, just to kill Chen Feng.

But Chen Feng stood in the void without any change!

His breath is still so powerful!

"How is this going?"

Even Si Konghao was stunned.

He rushed forward quickly, held down Chen Feng's shoulders, and looked around.

"Are you really okay?"

Chen Feng smiled and nodded.

"Old Red Eagle wants to kill me so much, I certainly won't let him do so."

He looked at the ancestor of the red eagle, grinning with white teeth.

The red eagle ancestor's soul and face were twisted, screaming that he was taken away by the fire of karma.

Completely disappeared!

In this way, it can be regarded as revenge for Senior Nine-tailed Sky Fox.

The sky began to appear white.

End of night, dawn!

The red-orange morning glow dyed the horizon red.

The dark clouds dispersed, and there was no wind in the world.

Above the Dragon Tomb Mountain Range, there was silence at first, and then...

I don't know who led the head, and began to applaud and cheer.

Chen Feng's performance was really shocking!

This night, the ups and downs!

Finally beheaded the Red Eagle ancestor!

However, after the enthusiastic cheers, someone reacted.

"Not good! Longyuan!"

As soon as he said this, the cheers stopped abruptly.

The ancestor of the red eagle is dead.

Chen Feng has become a competitive relationship with everyone.

From beginning to end, only Chen Feng's two companions were still absorbing Long Yuan!

At this moment, the rich aura between heaven and earth has dissipated a lot.

It seems that Long Yuan has been absorbed by 80 to 90%!

[Chapter 5469: The Burning Heaven God Sect powerhouse is here!](#)

But although there is not much left, it is still a huge benefit for individuals.

No one wants to rush it!

The atmosphere suddenly became awkward.

Many people wanted to rush down, but they took Chen Feng into consideration.

After all, they just saved their lives!

Chen Feng seemed to be aware of this and raised his eyebrows.

The next moment, he turned sideways and showed the deep pool generously to everyone.

"I will give you the rest."

There was enough time for Yin Haoran and Que Yuanzhou brothers.

Thinking about it, everything that should be restored should also be restored.

What should be absorbed is definitely enough.

Seeing Chen Feng doing this, many people immediately felt relieved.

They scrambled into the deep pool.

Sikonghao looked at the back of everyone leaving, and looked at Chen Feng in confusion.

"Just let them divide?"

Chen Feng smiled silently and looked down.

Soon, Yin Haoran and Que Yuanzhou brothers appeared quickly.

The next moment, Chen Feng flipped his hand to urge the flying boat.

The five left here silently again.

Sikonghao suddenly realized.

"Good guy!"

"While they are all going to grab the last bit of benefit, let's go to the next place!"

Chen Feng's mind is always better than them.

There is not much Dragon Source under the deep pool, so why not let them?

It just can save them a lot of trouble.

On the flying boat, Chen Feng looked towards Yin Haoran and Que Yuanzhou brothers.

"How about you?"

Yin Haoran nodded.

"It's okay."

He looked at Chen Feng, still moved.

Only he knew how many injuries Chen Feng suffered after suffering the sky thunder for him.

The entire Xinghai World and Dantian World were almost torn apart!

The bones and veins of the whole body are almost broken!

But in this state, he actually braced and got up.

Yin Haoran was guarded, both seriously injured and blurred.

However, Chen Feng was still able to arrange the next plan under severe pain.

From beginning to end, Chen Feng was extremely calm.

It seemed to help him carry this terrifying thunder robbery, but it was just a matter of convenience, not worth mentioning.

But Chen Feng could not take this seriously, but Yin Haoran could not!

Chen Feng's name was deeply inscribed in his heart.

From now on, the dead master is the most important person in his heart, followed by Chen Feng!

Chen Feng looked over and seemed to see his thoughts.

He patted his shoulder and smiled.

"Don't take it too seriously."

"If I change my position, I will be attacked unbearably, and you will definitely rush over without hesitation."

Looking at the calm Chen Feng, brother Que Yuanzhou also had a lot to say.

Chen Feng had already fought hard for the two of them.

This time, the three of Chen Feng bought a lot of time for them.

Nearly half of the energy under the deep pool was absorbed by the two of them!

Once digested, the two can immediately break through the Shifangdongtian realm!

"Where shall we go next?"

Brother Que Yuanzhou looked at Chen Feng.

Chen Feng smiled slightly.

"Let's go to Dragon Claw Mountain."

At this moment, his expression suddenly changed and he turned and looked back.

I saw a few figures and quickly followed.

Thinking of coming to them, they were more mindful and guessed Chen Feng's mind.

"How to do?"

Chen Feng shook his head.

"Whatever them."

At the beginning, the dragon soul old man hoped that the Dragon Tomb Mountain Range could give more opportunities to practitioners.

When Chen Feng did what he said, naturally he would not break his promise.

Since they are going to catch up, they will experience together over there.

After a whole day passed, Chen Feng finally rushed down and entered Longzhao Mountain.

As soon as I entered the lush dense forest, I only heard a hum.

Ling Li's murderous aura suddenly spread.

"what happened?"

Several voices sounded at random.

In the next moment, only one person who could hear followed, directed at Chen Feng, looking bad.

"Chen Feng, we were really deceived by you."

"You seem to have given us much benefit on the surface, but in the end, we only discovered the next secret realm."

"You are going to kill someone!"

Chen Feng looked back at the speaker.

It was a young man in a Tsing Yi long gown.

His Mofa was tied back high, holding a sword in his hand, an angry expression on his face.

Staring at Chen Feng fiercely.

As if he had to do it at any time.

Chen Feng couldn't help but sneer again and again.

This is really a white-eyed wolf!

He didn't even want to answer, turned around, flipped his hand to urge the knife to break.

"Why, anger turned into anger?"

The young man seemed to think that Chen Feng had been exposed.

Ling Li's murderous aura broke out immediately!

However, despite his posture.

But facing Chen Feng, the young man still dare not do it easily.

If he had that ability, he would have fought back when the ancestor Red Eagle used the forbidden technique for the first time.

Chen Feng looked at the man in Tsing Yi long shirt and asked faintly.

"Who are you?"

Without waiting for the man to speak, the two who were walking with the man answered subconsciously.

"I'm from the Burning Heaven Divine Sect."

"This is our brother, Hong Lingyue."

Chen Feng suddenly realized.

"That's it."

"Divine Burning Heaven Sect has all white-eyed wolves, I remember."

Upon hearing this, the three of Hong Lingyue were suddenly angry.

"Don't forget, during the previous Jade Smashing Conference, you arbitrarily beheaded my disciple of Divine Burning Heaven Sect.

"Why, isn't the three-year reward of the Great Desolate Lord's Palace not enough?"

"Now in the Dragon Tomb Mountain Range, you have gained the benefits of two secret realms one after another."

"Chen Feng, people don't have enough hearts to swallow an elephant."

"Be careful that your appetite is too big, and you will kill yourself."

The implication is nothing more than to let Chen Feng give them all the benefits of the secret realm.

It's an inch!

Shameless!

Before Chen Feng could speak, Que Yuanzhou behind him couldn't help being angry.

"Why, you are weak and you have no reason?"

"This is that everyone has their own abilities, why should I let you?"

Hong Lingyue was choked on several people, and for a while, she didn't know how to refute it.

Hum!

Suddenly, the killing array began to operate at full capacity.

Countless bitter sword intents came quickly at everyone from all directions.

The more Hong Ling seemed to have caught some handle, he jumped up.

He waved his hand to defeat those close killing intents, his eyebrows were cold.

"Intentionally urged the killing formation to destroy the mouth of the three of us."

"Is this what you can do!"

At this point, seeing Que Yuanzhou still wanted to say, Chen Feng grabbed him and shook his head.

"With this kind of stuff, no need to say more."

Chen Feng immediately urged the knife to be broken and waved his backhand.

The next moment, in the killing array, a violent flash of light flashed at him quickly.

This special killing array seems to have targeted attacks based on everyone's cultivation level.

Hong Lingyue only needs to deal with more than ten sword intents at the same time.

However, on Chen Feng's side, the sword intent was densely intertwined, almost forming a huge sword net.

I can't wait to let him go through his heart!

In the distance, there are many ordinary monks who have been practicing here.

The words of Hong Lingyue just now were all heard by them.

[Chapter 5470: Do you treat me like a joke?](#)

But the current killing array is obviously an indiscriminate attack.

No need for Chen Feng to explain, everything has been explained——

This killing formation was not controlled by Chen Feng at all.

It is just a test inherent in the Longzhong Mountain Range.

A lot of jokes came from all directions, and Hong Ling's complexion turned red.

It was he who saved the abdomen of a gentleman with a villain.

Chen Feng didn't bother to talk to them at all!

boom!

There was a loud noise.

Where the knife passed, the dense sword net was instantly broken.

This is true strength!

At this time, Chen Feng spoke slowly.

"I'll tell you the truth, I was fortunate enough to meet the remnant soul of Senior Dragon at the Dragon Head Mountain."

"He has delivered the entire Dragon Tomb Secret Realm to me."

As soon as these words came out, the faces of everyone in the entire killing formation changed.

The meaning of Chen Feng's words was tantamount to telling them that this killing formation was also controlled by him.

Suddenly, endless murderous aura erupted from everyone.

The more it seemed that Hong Ling had gotten some testimony, and he became proud again.

"You are admitting that this killing formation was driven by you!"

Chen Feng's expression was indifferent, and he swept towards everyone.

The more Hong Ling ignored.

This made Hong Lingyue feel aggrieved and angry.

"I promised seniors that I would not take all the benefits alone."

"While he was dying, he used his corpse to create a huge secret realm of Dragon Tomb."

"The purpose is to allow more cultivators to get enough experience here."

"If you can't pass the test, you won't be able to win the corresponding benefits."

Although these remarks are not a response, there is no need to say more about the implications.

Hong Lingyue's expression turned red again.

Undoubtedly, Chen Feng slapped him in the face again.

This made him more angry, and looked at Chen Feng even more jealous.

In the next moment, Chen Feng stopped responding to them and looked at the four people behind him.

The four people today have experienced a lot of life and death here.

It is no longer necessary for Chen Feng to say much, a look can form a tacit understanding.

The four of them immediately shifted their positions, taking Chen Feng as the criterion, and quickly stood in a circle.

boom!

A sword net with a more terrifying aura came quickly towards the five of them.

Chen Feng spoke quickly and gave instructions in an orderly manner.

With the concerted efforts of the five people, the sword formation, as dense as a net of heaven and earth, was once again torn out a hole.

Then, it fell apart.

At this moment, someone in the distance suddenly spoke.

"Master Chen, since it's an experience, the original intention is not to hurt people's lives."

"Please raise your hand high and lower the difficulty of this killing formation."

"Otherwise, you are fine, but if we are not paying attention, we will get hurt."

As soon as this remark came out, many surrounding monks also responded.

Chen Feng sneered constantly in his heart.

These people really have an inch.

"Are you playing as an experience?"

His breath shook, and everyone dared not speak.

At the next moment, Chen Feng sneered coldly.

"Originally, there was a thunder pond at the entrance of each secret realm."

"It seems that there is no need to consider your feelings."

While talking, a thunderbolt appeared out of thin air.

In the sword intent that spread all over, the endless thunder light suddenly appeared.

I saw Chen Fengmo dancing wildly and said loudly.

"If you don't turn on Thunder Pool, you don't know how kind I am."

Crackling!

A huge thunder pond over a hundred meters wide suddenly appeared in front of everyone.

The screams suddenly sounded.

Someone did not notice for a while and was directly hit by a flash of lightning.

Suddenly fell down.

Extinct life!

The monks were suddenly terrified.

They spoke again and again.

"Master Chen, we are reckless, please raise your hands high and take back Lei Chi!"

Even Hong Lingyue completely regretted it.

He immediately begged for mercy, begging Chen Feng to let them make a living.

However, Chen Feng only pointed forward.

"Passing through Lei Chi is Long Yuan."

"You can leave the killing formation at any time, let's take a step first."

The four Sikonghao behind them, laughing loudly, rushed into the thunder pond instantly.

Although Lei Chi was turned on, Chen Feng controlled the intensity.

Most cultivators in the killing formation can be tempered here.

As long as you don't try hard and stay in it for a long time, you won't be in danger of life.

This is his last kindness.

"You are here to experience, I will refine the keel."

Today's Chen Feng, such intense experience is no longer useful.

He went straight through the thunder pond and started a new round of refining.

Another day and night passed.

The earth is shaking.

Chen Feng's broken knife was an inch more than before.

When he came out, Si Konghao and others were taking a rest outside the killing formation.

And in that thunder pond, there are only a few monks who are really tempering their bodies, clenching their teeth and insisting.

Seeing him come out, Que Yuanyi greeted him immediately.

"Chen Feng, how many keels are left unrefined?"

"It's less than ten days since the Zongmen Grand Competition."

Hearing this, Chen Feng's heart shuddered.

As far as he knows, there are at least dozens of keel fragments in the Longzhong Mountain.

They are scattered in every corner of the mountains.

At the current speed, he can't refine it at all!

Not to mention you have to catch up with the Galaxy Sword Sect!

It will take at least two or three days to go back.

"too slow!"

Chen Feng's heart sank suddenly.

He wanted to take this opportunity to quickly refine all the keels.

In this way, the broken sword in his hand should be turned into a complete Qingqiu Heavenly Sword.

But Zongmen Great Competition is more important!

Seeing Chen Feng lost in thought, the other three also surrounded him.

"How to do?"

Suddenly, Chen Feng's heart moved slightly.

He hadn't looked at the world-destroying golden fan from the dragon head before.

At the next moment, he flipped his hand and took out the World Destruction Golden Fan.

A powerful breath burst out from his body.

Attracted many people's attention.

However, with previous experience, no one dared to step forward even if he was eager for one of the seven treasures in Chen Feng's hand.

They could only watch Chen Feng flipping over the fan in his hand.

"I'll try its power."

Chen Feng said casually, and then rushed into the killing formation again.

I saw him firmly grasping the handle of the fan and swiping it out in the direction of no one in the thunder pond.

Rumble!

The loud explosion shook the sky!

The earth suddenly began to vibrate violently.

"what happened?"

Many monks in the distance yelled out loud immediately.

Even Chen Feng suddenly changed his expression.

He thought that the golden fan in front of him and the previous Lingbao gourd were also called one of the seven treasures.

The power of the two is almost the same.

But he didn't want to. After this fan was swung out, he clearly felt that the mountains in front of him started to move!

After a closer look, it turned out that it was the giant bone of another dragon's claw thousands of miles away, trembling slightly.

Therefore, the long-formed mountains also began to change.

This golden fan of destroying the world actually has such functions!

Chen Feng suddenly became excited.
