

Peerless 591

[Chapter 591: Tortured](#)

When he said this, there was a bitter bitterness in his eyes, and the humiliation Chen Feng brought to him would never be remembered.

Chen Feng was running wildly in the mountains and forests at this time, many wounds on his body were leaking blood, and a mouthful of blood spurted out of his mouth from time to time, and the heat between his chest and abdomen was even more hot, and he felt as if he was full of huge body after taking a breath. pain!

This is already the fifth day he left the cave.

In these five days, he was caught up by Sun Haokang eight times, and then all escaped, each time he was injured by Sun Haoguang.

Every time Chen Feng played against Sun Haoguang, Chen Feng felt desperate.

That kind of despair, the despair that could not be beaten anyway, almost destroyed his spirit!

But after all, Chen Feng was not very human. His mind was extremely firm and his spirit was tenacious. Like steel, he soon survived!

He roughly guessed Sun Haoguang's plan, but he couldn't help it, and Chen Feng didn't plan to get depressed.

The corner of his mouth showed a tyrannical smile, like a lone wolf smile: "Sun Haoguang, you have a wishful thinking, but I will definitely not make people wishful!"

"Do you think I will be desperate? Tell you, it's impossible. I will only treat every escape as an opportunity given to me by God. As long as you can't kill, and if you let me go, I will still have a chance to fight back. about you!"

"Everything that can't destroy me will make me stronger!"

"I, Chen Feng, will kill you!"

Chen Feng's evasive steps continuously flashed in the forest, rushing towards the depths of the Aomori Mountains.

And he felt it all now, that the frailty was completely insufficient for him in this state.

The speed is very slow, not only the speed of the road is slow, but also in the battle, tossing and turning, it is no longer able to keep up with his battle!

In the air, the tides ebb and flow, and the sound of huge waves and waves is endless.

There was a roar and another punch, which hit Chen Feng's chest heavily.

Chen Feng was hit and flew out of the sky, his chest sunken and blood spurted wildly.

And in the blood, there are fragments of internal organs.

And even though it was just a punch, there were nine levels of power, which was just the first level just now!

The eight layers in the back continued, like a huge wave, patted on Chen Feng's body, breaking his bones and breaking them into pieces!

Chen Feng fell heavily to the ground, and at this time he looked very miserable, with blood all over his head and countless wounds on his body.

Both arms were broken, both legs were broken, and a huge scar that almost cut him in the waist appeared!

Chen Feng struggled to get up and continue fighting, but at this time, he found that his whole bones had been shattered.

He didn't even have the strength to struggle to stand up.

Despite this, Chen Feng's eyes were still extremely clear, filled with perseverance and stubbornness. He stared at Sun Haoguang, without admitting defeat!

This is the tenth day since Chen Feng left the cave and was chased by Sun Haoguang!

On this day, after Sun Haoguang caught up with him, he did not show any mercy anymore, Dajiang Julangquan, Haiwang Trident, greeted them in turn!

After a few encounters, Chen Feng was beaten like this!

Chen Feng felt it too, it seemed that Sun Haoguang had lost his patience this time.

No more mercy, and no longer want to play the game of cat and mouse, just want to kill yourself as soon as possible!

A harsh look flashed in Sun Haoguang's eyes, walked to Chen Feng, looked down at him, and said in a cold voice: "Chen Feng, I am too lazy to play this game with you anymore. I will be here today. Kill you!"

"But before you die, I will ask you a few words. If you don't want to die so miserably, answer me honestly."

Chen Feng laughed coldly, and suddenly there was another violent cough, coughing up a large block of congestion.

He took a few rough breaths, calmed his breath, sneered and said, "What if I don't answer honestly?"

His look angered Sun Haoguang.

Sun Haoguang sneered, walked up to him, stepped on his palm with his right foot and ran gently.

Under his feet, countless strength penetrated into Chen Feng's palm. Chen Feng felt that his already painful right hand was like 10,000 ants biting.

The painful and itchy, unspeakable sensation made him suffer to the extreme, and he couldn't help letting out a miserable grunt.

Sun Haoguang smiled triumphantly: "Little bastard, forgot to tell you that I was born in Xingtang."

"I stayed in the Xingtang for a full forty years, and finally sat in the position of the elder in the Xingtang. I knew all the methods in the Xingtang. If you don't say anything, I don't mind. The methods are displayed on you one by one."

Chen Feng still gritted his teeth fiercely, staring at him fiercely, without giving in half.

But Sun Haoguang didn't care about this, and asked himself: "The first question, the internal reward of the Zongmen total rankings, is now handed over to me honestly."

After hearing this, Chen Feng frowned, revealing a look of surprise.

The reward for the Zongmen total ranking competition? What does Sun Haoguang want the reward for?

[Chapter 592: trap](#)

He originally planned to go back to the sect to receive it after killing Su Zhaodong, but he was chased by Sun Haoguang all the way and came here.

Why did Sun Haoguang ask for those things? There are several rewards for the total ranking of the Zongmen than for the first place. Which one does he want? What does he want? Are there some specific secrets hidden in the sect that the senior officials of the sect do not know?

So Sun Haoguang made it so specifically?

Although Chen Feng was seriously injured, his mind was very clear, his thinking was also extremely clear, and his mind immediately ran into thinking about these things.

As Chen Feng thought, he suddenly felt stunned. This is not quite right. According to Elder Sun and the others, Sun Haoguang has been in seclusion for more than ten years, a very long time.

If he had long wanted to be rewarded by the Zongmen General Ranking Competition, it would be impossible to wait until today to start.

So he should not take something like this for himself, but for others.

So who can drive him?

Chen Feng already had an answer in his mind: Yang Buyi!

Only Yang Buyi has this ability!

Now things are quite clear. Among the rewards of the overall ranking, there is something that Yang Buyi covets very much.

So when he revealed his own news to Sun Haoguang and asked Sun Haoguang to chase him down, he should have also asked Sun Haoguang to retrieve the thing, but they didn't count that they had not received the reward.

Chen Feng thought of this, and his heart settled down.

He slowly shook his head and said: "The reward of the Zongmen total ranking competition is placed in a place in Qianyuanzong that only I know. If you kill me here, you will never want to get that thing for the rest of your life."

Sun Haoguang twitched the corners of his mouth disdainfully, snorted coldly, and said grimly: "Little bastard, you are playing tricks in front of me, you are still a little tender!"

Chen Feng was not afraid, looked up at him, and said with a firm expression: "What I said is true."

Sun Haoguang looked at him like this, and he was a little uncertain whether he was real or nonsense. He hesitated for a while.

When Chen Feng saw his look, he was secretly delighted, knowing that Sun Haoguang had believed his words by three points.

At this time, Sun Haoguang suddenly walked in front of Chen Feng, stretched out his hand, and condensed a long needle made of ice in his hand, which was a full foot long, and then he inserted the long needle into Chen Feng's nail.

Suddenly, a heart-wrenching pain struck Chen Feng, and he couldn't help making his face pale and let out a muffled grunt!

Sun Haoguang looked at Chen Feng triumphantly, and sneered coldly: "Little **** quickly recruit me, do you carry the reward with you or really put it somewhere in Qian Yuanzong? Quickly recruit it!"

"Otherwise I will put this long needle through your fingers and toes plus twenty nails, and make you suffer!"

Chen Feng hissed in pain and sweated on his forehead. While screaming, he shouted loudly: "Sun Haoguang, what I said is true, I really did not lie."

Sun Haoguang remained indifferent, and plunged this one-foot-long ice needle into Chen Feng's nail seam, and then another one into another nail seam.

It wasn't until Chen Feng pierced all the five fingers of his right hand that he clapped his hands with satisfaction and stood up.

At this time, Chen Feng was already shaking with pain.

Then at this time, Sun Haoguang asked again.

Chen Feng's voice was intermittent: "I didn't lie to you, it was really in Qian Yuanzong."

After he said this, Sun Haoguang nodded slightly, already believing Chen Feng, he was born in Xingtang, and he naturally knew how fierce his move was and how much pain it would cause people.

He didn't believe that Chen Feng could hold on under such pain, but he didn't notice the strange color flashing in the depths of Chen Feng's eyes.

Chen Feng is a person who has practiced the golden body exercise. The pain of the golden body exercise is more than ten times greater than the current suffering. The current suffering is nothing to him, most of them are He pretended to paralyze Sun Haoguang.

Now Sun Haoguang believed it, which also made him breathe a sigh of relief.

Sun Haoguang decided to bring Chen Feng back to the thousands of people. He held Chen Feng by the neck and quickly swept outwards.

Chen Feng had broken his bones and couldn't make a single move, which was not threatening to him.

But he didn't see the harsh color flashing in Chen Feng's eyes.

"Now, I do have my bones broken and I can no longer resist, but this does not mean that I have nothing to do!"

Chen Feng's face turned pale, and his whole body was agitated in pain, and a drop of his blood had been forced out from his right hand, and dripped dripping on the ground with his blood.

Chen Feng was wounded all over, and blood was dripping everywhere.

Therefore, Sun Haoguang hadn't discovered this drop of blood mixed in the blood.

After Chen Feng forced the blood out, the pain was also due to the pain of the wound.

Essence and blood are different from blood. They are extremely precious. They are condensed by the essence of blood. There is not much blood in a person's body.

Chen Feng is very clear about his situation. He has forged the body with dragon blood more than once, and the dragon blood has been incorporated into his blood, and such blood has an extremely powerful attraction to the monster.

For these monsters, being able to get a trace of dragon blood-tainted essence will greatly improve their bloodline.

[Chapter 593: Golden Centipede](#)

Humans' reaction to this is much worse, but the monster beast can smell the essence of Chen Feng's blood far away. Of course, Chen Feng's ordinary blood has no such effect.

Chen Feng knew that this was already in the depths of the Aomori Mountains, where the powerful monster beast was unknown.

There are some that Sun Haoguang can hardly handle. His purpose is to release the breath of essence and blood and attract those monster beasts. Even if he dies, he will still pull Sun Haoguang on his back.

Thirty li later, Chen Feng had already forced out five drops of blood, sprinkled with his blood on the ground.

But Chen Feng's face was pale at this time, and his anger was like gossip.

He really didn't pretend this time, but the fact is!

The loss of five drops of essence and blood already severely injured his vitality and caused irreversible fundamental damage to his body.

But Chen Feng's efforts were not in vain. Sun Haoguang, who had led him to advance rapidly, suddenly changed from extreme movement to extreme silence, and stopped directly.

He looked at the dense forest in front with a guarded face, with a solemn expression, and sternly shouted: "What is it? Sneaky?"

After speaking, he took a step back.

Obviously very afraid of that thing in the dense forest!

In the dense forest that had been silent, after Sun Haoguang drank this sentence, suddenly a huge and extremely powerful momentum rose into the air, and it rose rapidly, and Chen Feng was a little breathless.

After he was seriously injured, he was directly pressured by this momentum and spit out blood, and Sun Haoguang's expression also changed drastically.

Because this momentum continued to rise, it finally stopped at the seventh floor of the Divine Gate Realm.

Chen Feng was shocked, and he did not expect to provoke such a powerful existence.

In the dense forest in front of him, countless trees were directly crushed, a passage was separated in the dense forest, and then a huge monster beast rushed out of the dense forest.

Chen Feng looked at it, and couldn't help taking a breath. This turned out to be a huge centipede!

This centipede is forty to fifty meters long and a two-story small building with hundreds of pairs of footholds. The roots of each pair of footholds are extremely sharp, like a huge guillotine.

The centipede's surface was covered with a huge golden armor that was extremely heavy, gleaming coldly in the sun, a pair of copper basin-like eyes, staring at Chen Feng and Sun Haoguang.

Sun Haoguang looked at the huge golden centipede in front of him with a solemn expression.

Chen Feng could see that the strength of this huge golden centipede had reached the seventh floor of the Divine Gate Realm, equivalent to the martial artist of the eighth floor of the Divine Gate Realm.

How can he not see it?

Sun Haoguang was extremely jealous, he didn't want to fight this golden centipede at all, because there was no hope of victory!

Sun Haoguang stared at the huge golden centipede, and stepped back a little later, squeezing a smile on his face.

Said: "Please let me go, you and I have no grievances in the past, and no grudges in the past, no need to fight for life!

He knows that the more advanced monsters, the better they can understand human words, and they are very intelligent, like this giant golden centipede, even if the IQ is already equivalent to a seven or eight-year-old human child, he should know how to weigh the pros and cons. In **ovelusB.COM**

Unexpectedly, after he said this, the golden centipede simply turned a deaf ear to disdain and playfulness in his eyes.

It looked at Sun Haoguang, instead of backing away, it approached a few steps forward, making a hissing sound, revealing a strong threat.

Sun Haoguang's face turned gloomy, looking at the golden centipede, he sternly shouted: "You bastard, your strength is indeed not low, but if I work hard, you will also be seriously injured!"

"In the depths of the Aomori Mountains, there are many dangers. I don't know how many other powerful monsters are. Just think about whether you are still opponents of other monsters after being injured!"

After he said this, the golden centipede suddenly stopped, and his eyes showed a thoughtful look, seeming to agree with what he said.

Sun Haoguang was overjoyed, but at this moment, the huge golden centipede suddenly stood up. It stood up to a height of thirty to forty meters, exposing a huge belly.

On the abdomen, there was a yellowish color. On the abdomen, fifty pairs were neatly inlaid from top to bottom, that is, one hundred eyes the size of a fist.

These eyes were pale white like dead fish eyes, which looked disgusting, and when he stood up, the hundred huge eyes emitted a pale white light at the same time, shooting towards Sun Haoguang.

It turned out that he was not thinking at all just now, just paralyzing Sun Haoguang in order to carry out a sneak attack.

Sun Haoguang had no defense at all. At least more than half of the hundred rays of light hit Sun Haoguang's body heavily. The light contained extremely high temperature and was extremely hot.

Sun Haoguang instantly burned his whole body black, and the skin and muscles in many places were directly turned into coke, which instantly fell off and turned into fist-sized blood holes, with blood gushing out from inside.

And some light is very penetrating, directly punching his body through, opening a hole back and forth!

It turned out that these light effects were not the same. Sun Haoguang was attacked by a sneak attack, but he was already hit hard.

He was directly hit by these dozens of rays of light and flew out for tens of meters, and hit a mountain cliff hard, with a scream in his mouth, and a mouthful of blood gushing out!

[Chapter 594: If I don't die, I must kill you!](#)

And he had been holding Chen Feng tightly, but after being shaken by flying, he loosened his hand, Chen Feng also fell directly from his hand and fell heavily to one side.

A cold light flashed in Chen Feng's eyes: "It's now!"

He had already noticed that four or five meters away from his right hand, there was a cliff that was bottomless and howling in the wind.

Chen Feng immediately turned down the cliff, then he turned his head and let out a scream at Sun Haoguang: "Sun Haoguang, if I don't die, I will break your body into pieces!"

When Sun Haoguang heard this, he was shocked. When he looked back, he just saw Chen Feng rolling down the cliff.

Sun Haoguang let out a sharp roar: "Stop!"

Chen Feng laughed long, turned around and fell down quickly.

Chen Feng didn't know what was under the cliff and what was waiting for him, but he knew one thing very well. If he stayed here, whether it fell in the hands of Sun Haoguang or the golden centipede, it would be There is no life or death.

Chen Feng felt his body descend rapidly!

In this valley, there seemed to be layers of mist, and Chen Feng's body fell sharply downwards in the mist at a fast speed. He only heard the whistling wind in his ears, but couldn't see clearly. , Because the rate of decline is too fast.

I don't know how long it took, Chen Feng felt a bang, he smashed on an ice-bound Hu Bo, and the huge momentum directly smashed the top layer and fell into the cold pool.

Chen Feng felt that he was surrounded by an extremely cold feeling in an instant.

Although his sense of touch has disappeared a lot after his serious injury, he can still feel it. There are extremely cold pools around his body, and the temperature is at least cold to the level of minus two hundred degrees.

Chen Feng continued to descend, and there was light emitting from the bottom of the deep pool. He also saw it. Right in front of him, there seemed to be a large group of huge black shadows in the middle of the bottom of the lake.

But before Chen Feng could see exactly what it was, he was bounced back by the huge water pressure.

With a bang, Chen Feng was bounced out of the water.

At this time, he had already seen the situation clearly. It turned out that the depth of 10,000 meters below the cliff turned out to be a huge valley.

The valley is so deep that the light from above cannot fall down, but on the stone walls of the valley, there is a thick layer of dark blue profound ice that exudes a faint light, which shines as bright as day.

The bottom of this valley is very huge. Chen Feng's range is at least tens of miles around. Except for the ice lake directly below him, there are thick layers of ice and glaciers around. A world of ice and snow.

And he was right above the edge of the great lake.

Chen Feng tried his best in the air, twisted his body, and then fell heavily to the lake. He felt that his body was about to explode, as if pain came from everywhere.

At this moment, it seemed that his soul was thrown out, and on the thick ice layer, a large area was immediately stained red with blood.

At this time, Chen Feng's injury worsened, and even directly put him into a state of dying.

A wry smile appeared at the corner of Chen Feng's mouth, and at this moment, he suddenly felt a heart palpitations, as if there was a huge danger hitting him!

Then, he heard a loud bang, the lake exploded in an instant, and a huge water column appeared in the middle of the lake.

The originally calm lake suddenly became choppy, and then a huge figure flew directly out of the lake.

After Chen Feng watched it, he took a breath, and his pupils suddenly shrank!

That huge figure is actually a flood dragon!

This is a silver-white flood dragon, extremely beautiful, it looks like a silver chain across the sky.

This dragon is several times larger than the barefoot that Chen Feng has seen before. It is 170 meters long from head to tail, and the body is like a two-story pavilion. Chen Feng estimates that the diameter has at least exceeded Six or seven meters!

The body was covered with snow-white scales the size of a tabletop, and it looked very beautiful. Chen Feng could tell at a glance that this silver-white ice and snow dragon was much more upscale than the red dragon, not only because of its appearance, but also because of its strength.

The aura emanating from this dragon is extremely terrifying, and Chen Feng can feel that his strength has at least reached the sixth floor of the Divine Gate Realm, and it is not even worse than the golden-armored centipede above.

At this time, Chen Feng, who was seriously injured, couldn't bear the momentum of the Flood Dragon alone, and was trembling all over.

Chen Feng immediately realized that he saw the huge black shadow at the bottom of the lake just now, it should be this dragon.

At this moment, Jiaolong stared at Chen Feng with two huge eyes in the air.

At first, there was some confusion in his eyes, but soon he seemed to feel something and smelled his nose.

When Chen Feng saw this action, a wry smile appeared at the corner of his mouth. He knew that Jiaolong should smell his own essence and blood, and also smelled the breath of dragon blood in his own essence and blood.novelusb.com

Sure enough, the ice-snow dragon looked at Chen Feng's gaze, and was immediately full of greed, that was the desire to swallow Chen Feng alive!

Then, the ice and snow dragon suddenly made a huge roar, not the kind of clear longan, it was more murmur than the sound of dragons, and then he rushed towards Chen Feng at an extremely fast speed.

[Chapter 595: Ice and Snow Dragon!](#)

In a blink of an eye, he came to the top of Chen Feng and opened his mouth wide. From his mouth, Chen Feng felt a burst of strong suction towards him.

Chen Feng couldn't control his body, he was about to fall, and he was about to float up, and was sucked into his mouth by the ice and snow dragon.

A tragic smile appeared at the corner of Chen Feng's mouth, even if his determination was as firm as hers, he couldn't help but feel a hint of despair at this time.

He was badly injured, where is this Flood Dragon's opponent, even in the heyday, he couldn't beat it at all!

But at this moment, Chen Feng suddenly laughed wildly. The laughter was full of rebelliousness and indomitable will.

He suddenly drew out the Purple Moon Knife, erected the Purple Moon Knife in front of him, and pointed it at the huge mouth of the Ice and Snow Dragon. He knew that he was afraid of being swallowed by the Ice and Snow Dragon.

But even if he died, it wouldn't make the enemy feel better.

Ziyue's blade is extremely sharp, and he holds the folding knife in this way. If the ice and snow dragon really swallows him, he will inevitably make a huge wound inside his body with the purple moon knife!

At this time, Chen Feng's body was lightly floating, but at this time, Ziyue quietly appeared in front of Chen Feng.

But her expression was surprisingly calm. She stared at Chen Feng blankly, her eyes were very affectionate, and then she asked softly: "Chen Feng, are we going to die?"

Seeing Ziyue's appearance, Chen Feng suddenly thought of something, and then she suddenly gave up, standing the Ziyue knife in front of her.

He smiled slightly: "Ziyue, I died, not you."

He threw the Purple Moon Knife far away, the Purple Moon Knife was thrown out by him, and Ziyue could only fly with the Purple Moon Knife and was also thrown out.

Ziyue looked at Chen Feng in a panic and shouted: "What are you doing Chen Feng?"

Chen Feng looked at her with a smile at the corner of his mouth, with a hint of comfort and a hint of reluctance in his smile.

"Zi Yue, I will definitely die today, but I can't let you die with me! I threw the Purple Moon Knife here, although it is under a 10,000-meter deep valley, maybe someone will come again someday, You will fall asleep today!"

"Keep your spiritual power, the power of the soul, and wait for the destined person to arrive. Then you will be able to leave here. I can't let you accompany me to death!"

But at this time, Ziyue was crying loudly.

While crying, she screamed at Chen Feng, "Chen Feng, I don't want to live alone. If you die, I will never live alone. Let me die with you!"

"Do you know? Go to death by yourself and let me sleep in this deep valley. Even if I live, what's the point? Do you know how cruel this is to me?"

The expression in the words made Chen Feng's heart tremble fiercely, and a feeling called heartache suddenly struck!

Chen Feng looked at Ziyue with reluctance in his eyes, but he shook his head firmly and said: "Ziyue, your life is still long, even for me, you must live well. !"

At this time, Chen Feng was less than three meters away from the mouth of the ice and snow dragon.

The eyes of Jiaolong revealed a strong desire for greed and excitement. When he thought of plundering such a pure and noble bloodline later, he was extremely excited.

But at this moment, Chen Feng suddenly felt that time seemed to stand still.

He felt a buzzing sound in his dantian, and then the time and space seemed to freeze.

He stayed in the air, neither rising nor falling, the expression in Jiaolong's eyes also stagnated, and even the suction from Jiaolong's mouth disappeared instantly.

Then Chen Feng saw the light shine in his dantian. Then, he flew horizontally for tens of meters. Above his body, a huge three-legged circular tripod appeared, which was exactly in Chen Feng's dantian. Xiaoding zoomed in countless times.

This three-legged round tripod, which is hundreds of meters high, exudes extremely powerful coercion, which makes Chen Feng feel clear. This coercion is greater than the coercion emitted from the ice and snow dragon. How many!

It seemed that at this time, Chen Feng was not facing a three-legged tripod, but a huge mountain range.

That kind of power seems to suppress the whole world, and it reveals a very noble aura!

Chen Feng discovered at this time that his mind could still work, but his body could no longer move at all.

Then he watched, this huge three-legged round tripod, slowly but extremely firmly pressed towards the ice and snow dragon.

But the ice and snow dragon seemed to be very jealous of the three-legged round tripod. When the three-legged round tripod took a step forward, he stepped back.

Suddenly, the three-legged round tripod, the speed suddenly accelerated, and then bombarded away heavily!

At the same time, from the mouth of the tripod round tripod, there was a huge suction force, absorbing it towards the ice and snow dragon!

Then, Chen Feng saw the ice and snow dragon on the sixth floor of the Divine Sect Realm. This extremely powerful existence was so straightforward and straightforward that it was absorbed by the three-legged round tripod.

When Chen Feng saw this scene, his eyes were dull!

"It's over, that's it? The mighty ice and snow dragon was just cleaned up by the three-legged round tripod, so easy?"

Chen Feng had long known that this small tripod in his dantian was unusual, but he did not expect that this small tripod would be so tyrannical!

However, just when Chen Feng thought Xiaoding could easily absorb and suppress the ice and snow dragon.

[Chapter 596: Beheaded! Beheaded!](#)

Suddenly, the giant cauldron phantom in the sky trembled violently.

Inside, there was a huge thumping sound, as if something was hitting the three-legged round tripod violently.

Chen Feng immediately realized that it was the ice-snow dragon that had been absorbed just now, and it was hitting the inner wall of the three-legged round tripod.

Obviously, the power of the three-legged round tripod was not strong enough to immediately absorb the ice and snow dragon, and the ice and snow dragon was not dead yet!

At this time, the three-legged round tripod was shining brightly, so the three-legged round tripod stabilized again, no longer shaking, and the banging sound from inside disappeared.

It seemed to have suppressed the ice and snow dragon, but soon, the banging sound came again, and the three-legged round tripod shook again, and the process was repeated continuously.

Obviously, the three-legged round tripod was wrestling with the ice and snow dragon, and did not have a clear upper hand!

Finally, with the sound of several consecutive huge impacts, there was a bang on the three-legged round tripod and a loud noise.

Then Chen Feng was shocked to discover that a crack had appeared on the three-legged round tripod!

Then there was another loud bang, and the tripod round tripod shook violently again, and the cracks continued to increase.

In the next moment, Chen Feng was shocked to find that the ice and snow dragon flew out of the three-legged tripod, out of trouble!

But at this time the situation of the ice and snow dragon was also very bleak.

The ice and snow dragon's crystal clear white body was now blood red, and more than 80% of the scales on the body had been smashed to reveal the flesh inside.

Even more than 30% of the places have exposed the bones inside, and there are countless huge wounds on the body, and the internal organs spilled directly from the inside like a waterfall.

And more than half of the dragon's skull was sunken.

Chen Feng could even see the gray brain inside, and Chen Feng immediately realized that this ice and snow dragon was already at the end of the battle!

At this time, the phantom of the three-legged round tripod had begun to tremble, and then finally shattered. This huge phantom had also turned into a primitive small tripod and returned to Chen Feng's Dantian!

Gu Ding Xuying only severely injured the Ice Flood Dragon, but had not killed him yet.

The ice and snow dragon flew across the sky, and a large waterfall of blood dripped on Chen Feng.

A hint of ecstasy flashed in Chen Feng's eyes: This is an excellent opportunity.

He immediately ran the Dragon Elephant Fighting Heaven Secret Art madly, and then absorbed the flood dragon blood that was spilled on him.

The dragon's blood is very good, and the amount is also very large. It is enough to spill thousands of catties on Chen Feng and around him.

Chen Feng quickly absorbed these dragon blood, and the magical effect of the Dragon Elephant Fighting Heaven Jue was revealed at this time, and the absorption speed was very fast.

Chen Feng felt a warm current rushing in his body, not only made his almost frozen body warm again, but also allowed him to regain some strength.

The Ice Dragon finally defeated Gu Ding. He seemed very pleased, and he let out a long and long howl in the sky, extremely proud.

At the same time, Chen Feng cast a wink at Ziyue in the distance. Ziyue had been with him for so long, had already understood his thoughts, and immediately controlled Ziyue Knife and flew to Chen Feng concealedly.

As soon as Chen Feng grasped the Purple Moon Knife, he felt that the power seemed to return to his body!

Chen Feng suddenly raised his head, his eyes blazing brightly!

At this moment, the head of the ice and snow dragon was more than ten meters above him.

Moreover, Chen Feng clearly saw that because its skull was shattered, its brains had been exposed!

At this time, the ice dragon did not notice Chen Feng at all, and he did not put this ant in his eyes at all!

A sharp light flashed in Chen Feng's eyes. He never gave up hope, and would fight to the death when he was the most desperate. What's more, he was very sure at this time?

He screamed: "It's now!"

Holding the Purple Moon Knife, he leaped up into the air. Before the Ice Flood Dragon could react, he directly inserted the Purple Moon Knife into his brain, and then tried his best to stir it!

The ice dragon suddenly let out a terrible roar!

It was like a dying snake, twisting its body frantically, shaking its head, trying to throw Chen Feng out of him.

But Chen Feng seemed to have rooted in him. Not only did he stick the Purple Moon Knife into it, he even inserted his arms into it, and stuck his body in the crack of the dragon's skull. in.

Jiaolong kept shaking Chen Feng, and his whole body was in severe pain, but he still held back it!

And the brain was destroyed, and the severe pain from the head not only made the Ice and Snow Flood Dragon extremely painful, it also took away its vitality bit by bit.

Suddenly, there was a fierce look in his eyes, and he directly slammed his head against the glacier on the side.

Chen Feng happened to be hit on the glacier. With such a huge force, his already better body was severely damaged, and his bones broke again, almost smashed into a meatloaf.

However, Chen Feng still gritted his teeth, his eyes showed fierce rays like a hungry wolf, instead he used all his strength to penetrate the Purple Moon Knife deeper, and was struggling to stir in his brain.

The Ice Flood Dragon again let out a miserable howl, and Chen Feng could clearly hear that he was already a little weak with this sharp roar.

Finally, the ice and snow dragon slammed and hit the ground hard, his body twitching violently.

Chen Feng was not in a hurry, just waiting like this, and finally half an hour later, the ice and snow dragon finally lay motionless on the ground.

Chen Feng breathed a long sigh of relief, but a smile appeared at the corner of his mouth. He wanted to laugh, but found that he didn't have the strength at all.

But the smile at the corner of his mouth became stronger.

"I won, I won! I won when it was impossible to defeat this dragon! If you win the king and lose the bandit, he will die!"

[Chapter 597: Crazy absorption](#)

With a sigh of relief, Chen Feng suddenly felt black and almost fainted, but he knew that this was definitely not the time to faint.

Chen Feng turned over the head of the dragon, at this moment the dragon was lying on the ground, blood gurgling out of his body.

The blood has a very high temperature, even if it is ice and snow here, but the blood does not condense, but under the body of the dragon, it melts the ice and snow to form a small lake.

Chen Feng jumped directly into the lake, and then ran the Dragon Elephant Fighting Sky Art, madly absorbing the energy in the dragon's blood.

The dragon's blood was circling rapidly, and Chen Feng could even feel the joy that came from the Dragon Elephant Fighting Tian Jue.

This ice and snow dragon, on top of it, is a thousand ordinary monsters of the fourth floor of the Divine Gate Realm.

Chen Feng smiled in his heart: "Old man, I am in the Dragon Elephant Fighting Sky Art, this time you are going to be a big deal!"

The huge corpse of the ice and snow dragon lay on the ground. His extremely hot and domineering dragon blood directly melted the ice and snow ground, forming a blood-colored lake with a radius of more than ten meters on the ice and snow ground and a depth of about one meter.

Chen Feng sat cross-legged, sitting in the middle of the blood-colored lake, showing only one head!

The ice-snow dragon grows in this extremely cold place, and its body surface is extremely cold, and the surrounding temperature can drop dozens of degrees when it appears, but the blood in his body is extremely hot, and the temperature even reaches thousands of degrees.

For ordinary people, if you throw it in, you are afraid that it will be melted directly. Even ordinary warriors of the same level as Chen Feng can't stand the high temperature.

But Chen Feng once practiced the golden body jue and forged his body with a liquid medicine of up to 2,500 degrees. At this time, these dragon blood of about 1,000 degrees, for him, is similar to taking a cold bath, and it doesn't do him anything at all. Impact.

Chen Feng ran the Dragon Elephant Fighting Tian Jue and quickly absorbed it.

But unfortunately, because his meridians are broken and the acupuncture points are blocked, all he can use at this time is only a small section of meridians.

In this short section of meridian, the dragon elephant fights the sky art.

But even so, Chen Feng looked inside himself, and could also see that a stream of hot red air flowed into his body from the outside world.

In the line of sight after his inner gaze, these hot red air currents joined together, almost like a large swath of red clouds, coming into his body, endlessly, and at extremely fast speed!

Originally, the qi in Chen Feng's body was almost exhausted, but after these hot red air currents entered his body. The blood red qi of the Dragon Elephant Fighting Heaven Jue was quickly formed.

Chen Feng drove these gang qi towards the blocked meridian pulses. These meridians were originally opened, but now they are just being refilled by blood congestion and other things, which is much easier than opening them the first time.

Soon, Chen Feng drove the mighty blood-red Gang Qi transformed by the red air currents, completely opened up an entire meridian, and then opened up to the other meridian and acupoints!

After half an hour, Chen Feng opened up the second meridian, absorbing the ice and snow dragon's essence blood faster, and the blood-red qi was even greater.

So a quarter of an hour later, Chen Feng opened the third meridian again, speeding up further.

After just one cup of tea, Chen Feng had already opened the fourth meridian.

At this point, all the four meridians that he had opened up through the Dragon Elephant Fighting Heaven Technique were all reopened, and Chen Feng's strength at this time had been restored to about 30% of the peak period!

Chen Feng suddenly jumped out of the blood-colored lake and came to the clean snow on the side. Then he couldn't help it anymore. With a wow, a big mouthful of blood spurted out, and then another mouthful, five mouthfuls of bruised blood in a row before stopping live.

There are many black blood clots in these congestion, there are many internal organs fragments and so on!

After spitting out these bruises, Chen Feng's originally pale face was a little more blush, and his whole spirit and spirit were much better.

Then the next moment, there were almost hundreds of dense wounds all over his body, which burst open at the same time, and there were blood and black impurities flowing out.

These congestion and black impurities are the waste products produced in his body after his injury, and Chen Feng excreted them at this time.

Chen Feng sat cross-legged in the ice and snow, trying his best to get rid of the waste. After half an hour, his wounds no longer had blood flowing out!

Chen Feng picked up the ice and snow next to him, and wiped his whole body up and down. This process made him tremble with coldness, but after wiping it, he breathed a sigh of relief and felt that he was clean. .

The appearance just now made him feel filthy!

Then Chen Feng applied the wound medicine to various parts of his body, and then swallowed a few pills for dredging the meridians, nourishing the acupoints, and cleaning the internal organs.

He slowly stood up and looked around. The corpse of the huge ice and snow dragon lay there. Although it was dead, it still looked gorgeous and majestic.

With such a huge size, the total amount of blood in the body is at least several hundred thousand catties.

At this time, almost half of it had already flowed outside, but the blood did not infiltrate or evaporate. Instead, it melted snow and ice, forming seven or eight lakes.

It exudes steam, and even keeps boiling, it is extremely hot, it looks like a magma lake. n0vEluSb.Com

Chen Feng moved his mind, and then directly ran the qi, took a few palms, and directly opened several channels between these dragon blood lakes, and then led all the blood to the largest blood lake. .

[Chapter 598: breakthrough! The fifth floor!](#)

Suddenly, this blood lake became a full seventeen-eight-meter square, and the depth inside it reached one meter.

Then Chen Feng jumped in, jumped in, and he ran the Dragon Elephant Fighting Heaven Jue like crazy.

Among the four meridians and hundreds of acupuncture points, all the blood-red cyclones circulate madly, generating an incomparably powerful suction, absorbing the essence of blood from the dragon's blood around his body.

When Chen Feng looked inside, he saw the red clouds formed by the red air currents, which were already overwhelming and full of sight, and he couldn't forget the end at a glance.

The speed of his ascension is also extremely fast, the powerful blood-red qi has opened one after another acupuncture points that have never been opened before, and a cyclone is condensed in it.

After about half an hour, in Chen Feng's fourth meridian, all the cyclones in the thirtieth acupoint had condensed.

Then the huge blood-red torrent, without fear, directly broke through the final checkpoint of the fourth building.

Chen Feng's Dragon Elephant Fighting Heaven Secret Art directly broke through to the fifth stage!

A flash of ecstasy flashed in Chen Feng's heart, but at this time he discovered that the blood-red airflow coming in from the outside world was still overwhelming and endless!

Chen Feng did not hesitate to continue to absorb!

The first acupuncture point in the fifth meridian suddenly opened, and a cyclone condensed inside.

The Dragon Elephant Fighting Sky Technique is good for this. As long as the essence of blood is enough, as long as the blood of the monster essence is enough, there is no stagnation at all, no bottlenecks and levels, and you can go there all the way!

The quality of the blood of the ice dragon is far better than other monsters, and it is not only of high quality, but also very large.

The quality is almost equivalent to one hundred times that of the monsters of the fourth floor of the ordinary Gods, and the quantity is equivalent to one hundred monsters of the fourth floor of the ordinary Gods.

Chen Feng was soaking in this lake of blood, absorbing the essence of blood crazily, making him extremely happy both physically and mentally.

The progress of the Dragon Elephant Fighting Heaven Jue, the constant climbing speed reached the extreme.

Time doesn't know how long it has passed, Chen Feng suddenly opened his eyes, stood up, his eyes were full of vigor, and the whole person was wonderful.

Suddenly, his arms shook, his aura quickly climbed, and he didn't stop until the fifth building of the Divine Gate Realm.

At this moment, his whole body is majestic and majestic.

That large lake of blood has completely dried up, and the ground is just a piece of icy white ice, not even a trace of blood can be seen.

"The blood of the ice and snow dragon is a hundred times better than the blood of other monsters."

At the corner of Chen Feng's mouth, there was a smile: "My current Dragon Elephant Fighting Heaven Technique has reached the fifth floor of the Divine Gate Realm and opened the sixteenth acupuncture point, but this is far from over."

Chen Feng turned his gaze to the huge corpse of the ice and snow dragon next to it, which contained hundreds of thousands of catties of the dragon's blood, which did not leak out.

Chen Feng didn't stay at all. He immediately walked to the corpse of the ice and snow dragon and found a huge wound, then put his hands on the hot blood, sat cross-legged, and once again operated the Dragon Elephant Fighting Sky Technique, absorbing it frantically!

Three hours later, Chen Feng opened his eyes, retracted his hands, and let out a long sigh.

The breath he exhaled was extremely long, and there was a thick blood in it.

He has absorbed all the blood on the corpse of the ice and snow dragon. So far, this huge ice and snow dragon, all the blood, has been incorporated into the Dragon Elephant Battle Sky Art by Chen Feng, and transformed into a part of his own blood red gas.

At this time, the ice and snow dragon has completely turned into a pile of dry meat. Since the blood has been absorbed and there is no trace of water in the body, his flesh and skin have been removed, and it looks crumpled and lost. The glory of life!

But Chen Feng won't let this go. The dragon's meat is almost the best food he can come into contact with right now. After taking it back to Han Yuer and the others, it has made great progress in their cultivation.

And although the dragon's skin was damaged in many places, most of it was intact after all, and it was no problem to make dozens of sets of leather armor.

As for the dragon and snake gall inside, and so on are also excellent heavenly spirits and earth treasures, Chen Feng drew out the purple moon knife and immediately started cutting.

But at this moment, he suddenly realized that he seemed to have overlooked a very important thing, that is, the soul of the dragon.

A question flashed in Chen Feng's heart: "Something's wrong, the three-legged cauldron has a very large demand for monsters, especially the souls of high-level monsters, and will take the initiative to absorb them every time they kill them."

"And this time, the soul of the ice and snow dragon is extremely superior, why didn't the three-legged Yuanding take the initiative to absorb it?"

Chen Feng suddenly had a bad hunch in his heart, and immediately looked inside his dantian. After he saw it clearly, he let out a sigh.

In his dantian, the three-legged small tripod is still there, but has lost its former look.

Chen Feng saw it at a glance, and felt that the current three-legged small tripod seemed to have lost his soul and was not angry at all.

It used to be a treasure that was spiritual, but now it is just a dead thing.

Looking at the crack that appeared on the three-legged small tripod, Chen Feng suddenly felt that his heart was empty, and he was unspeakably sad.

It seems that there is something extremely important that also shattered in his own heart with the breaking of this small tripod.

[Chapter 599: Xiaoding broken](#)

Now there was a crack on the top of the small tripod, and it was lifeless. It clearly felt that it was damaged in the future, and I don't know if it can be used again.

Chen Feng tried to input a trace of qi into Xiaoding, but this ray of qi could not be input at all, and directly hit the top of Xiaoding and bounced back.

Chen Feng suddenly felt disappointed.

At the same time, Chen Feng was also very moved. There seemed to be spirituality in this small cauldron. He became like this because he wanted to save himself.

Chen Feng sighed softly, and a voice rang in his heart, very firm: "Xiaoding, Xiaoding, you became like this to save me. Don't worry, I will find a way to repair you and let you reborn!"

Chen Feng retreated from the state of introspection, and he found that Zi Yue was floating in front of him at this time.

Ziyue persuaded Chen Feng and said, "Chen Feng, don't be too sad. This Xiaoding is to save you from becoming like this, but now you see you, you are safe and sound, and the strength is still very diligent, Xiaoding's sacrifice was not in vain."

Chen Feng smiled bitterly and said, "I can only think so now."

As soon as he finished saying this, Ziyue suddenly gave him a fierce look, and said softly: "Chen Feng, I have finished talking about this now, and the accounts between us have not yet been settled!"

A look of surprise flashed across Chen Feng's expression, and he asked, "We settle accounts between the two? What is the account?"

"Hmph, don't pretend to be stupid!" Ziyue was angry, looked at him, and said angrily: "Why did you throw me out just now?"

Chen Feng secretly said in his heart: "Come, here."

He had always been afraid that Ziyue would mention this. Ziyue hadn't said it just now. He thought that Ziyue had forgotten it, but he didn't expect Ziyue to be here waiting for herself!

A wry smile appeared on Chen Feng's face and said, "Ziyue, I am also doing good for you. It's impossible to let you die with me?"

"You are an instrumental spirit and no entity. In theory, you can live for thousands of years until the power of the soul is exhausted. It is really worthless to die here with me!"

Ziyue glared at him and said loudly, "Chen Feng, what kind of fart are you doing?"

Chen Feng was stunned. This was the heaviest sentence Ziyue had ever said after she met him.

Ziyue's face flushed red: "Chen Feng, you guessed me with your thoughts, but you know that I would rather die here with you than live alone!"

Chen Feng could feel her affection and kindness.

He looked serious, looked at Ziyue, and said seriously: "Ziyue, I can't let you die here like this."

"You are still young, you still have your parents, you and your relatives who care about you. From the first day I met you, I secretly swear that I will take you back to your body, I will I want to take you and find your family back!"

"I must not let you die here, even if I die, I also hope that there will be someone who is destined to fulfill your wish!" *nOvELusb.com*

"but....."

There was a sparkle in the corner of Ziyue's eyes. After hearing Chen Feng's words, she was also extremely moved. She knew that Chen Feng was completely thinking of him, but she just couldn't accept it in her heart.

She suddenly sobbed softly: "Chen Feng, I know you are for my good, and you are completely thinking about me."

"But when I thought of leaving you, when I thought of you dying, the two of us will never see each other again. You can't talk to me, you can't joke with me, and I can't stand anymore. Rubbing your neck against your shoulder to act like a baby, I feel terribly uncomfortable in my heart."

"I just want to die with you!"

Chen Feng was extremely moved. He knew Ziyue's feelings for him very well. Chen Feng gently rubbed Ziyue's head and said, "You little guy, what are you talking about? I can die, you can't!"

Ziyue stared at him and said word by word: "Chen Feng, promise me that in this situation in the future, you must never leave me alone!"

"Do you know that losing you makes me more sad than death!"

When Chen Feng looked at her eyes, his heart trembled.

Then he looked solemnly and said, "Zi Yue, I promise you that I will never do this again!"

He suddenly looked up to the sky and let out a big laugh, extremely pleased: "Ziyue, you are so affectionate. If I refuse it, it would seem too hypocritical. If we encounter such a thing in the future, let us both live and die together."

Ziyue looked at him, her eyes flowed with affection, but she sipped him: "Bah, who is going to live and die with you?"

Chen Feng laughed, knowing that her face was tender and would not expose her.

With such a small episode, the sadness of the tripod Xiaoding's rupture has been diluted a lot.

Chen Feng carried the Purple Moon Knife and started to dismember the ice and snow dragon again.

The skin of the dragon, the meat of the dragon, and the bones of the dragon are all cut, and of course the crystal core of the dragon is indispensable.

Looking at the piece in front of him that was the size of a washbasin, it showed a beautiful hexagonal shape, and the whole thing was like ice and snow, showing an ice-white color, and the crystal-clear huge crystal nucleus, Chen Feng smiled!

This huge crystal nucleus is the largest and the highest quality among all the crystal nuclei he has come into contact with so far.

Chen Feng packed all the precious things in jade boxes, and put the ordinary ones directly in the mustard bag.

At this moment, Chen Feng suddenly felt a fire in his body.

Without his command, the Dragon Elephant Po Tian Jue suddenly turned on its own, and then lit up one by one acupuncture point and one by one meridian.

[Chapter 600: strengthen! Dragon Blood Battle Body!](#)

Chen Feng looked at himself inwardly, and was immediately surprised.

It turned out that at this time, he found that there was a huge figure in his sea of consciousness.

Looking at this figure, Chen Feng was very familiar with it. It was exactly what he looked like after being transformed into Dragon Blood. It was just a thousand times bigger!

At this moment, the figure of this huge dragon blood transformed into a very dim figure.

Suddenly, above this phantom, on the dragon's claw, it suddenly lit up.

All the positions of the dragon's claws were shining, far beyond the other parts of the body, and then the brightness quickly dimmed.

After a while, another part of the figure after Dragon Blood's transformation was lit up, but this time the bright part was the leg.**noVebusb.com**

Just like before, the legs are getting brighter and brighter, and then after reaching the peak, they become dull again.

Then, the next position lights up again, this position is the head.

And after a while, the fourth position was also lit up, this was the fourth position, it was the sapphire dragon scales all over the body!

These four major parts lit up in sequence, and it took a full two quarters of an hour.

Then, after the dragon scales shone and dimmed, the position of the dragon claws lit up again!

It was at this time that Chen Feng suddenly understood what was going on.

It turned out that the 12th floor of the Dragon Elephant Po Tian Jue was also divided into three stages, namely the early stage, the middle stage and the later stage.

Each of the four major buildings is a stage. After entering the fifth building of the Gods, it has already reached the mid-stage.

After reaching the mid-stage, Chen Fengfeng can strengthen a certain part of the dragon blood battle body formed after the dragon blood transforms every time he raises the cultivation base of a heavy building.

There are four parts in total, namely dragon claws, dragon legs, torso and dragon scales!

Dragon claws represent the extremely powerful attack power after the dragon blood is transformed!

Dragon legs represent extremely fast speed!

The dragon body represents the extremely violent and violent!

The dragon scales represent a defense that is as stable as Mount Tai and as solid as a rock!

Chen Feng can choose one of the four abilities in these four parts and strengthen it once.

After strengthening, Chen Feng can use the dragon blood to transform once at the cost of all the qi of the Dragon Elephant Breaking the Sky.

This dragon blood transformation is under his control.

However, the power of this dragon blood transformation is much weaker than the original version, only the ability he strengthened is stronger.

Even that ability is not up to the original level.

For example, if Chen Feng chooses the enhanced power this time, he can take the initiative to use a dragon blood transformation under his control.

This dragon blood battle body is also very powerful, but only half the power of the original version!

With this information in his mind, Chen Feng's eyes showed ecstasy, and he was very surprised.

He didn't expect the Dragon Elephant Po Tian Secret Art to have such a magical effect.

After the fourth floor, you can choose to strengthen a certain ability once every time you increase the cultivation base of a heavy building!

After strengthening, you can take the initiative to use the dragon blood battle body to transform under his control!

Although this is a castration version, the strength is far inferior to the one used out of control, but the problem is that it is controllable!

This can be done on the initiative! This is a trick driven by him! Can be used as a means of pressing the bottom of the box!

It's like the Dragon Claw of the Destroying God and the frozen world!

Chen Feng was very cautious, carefully considering what kind of ability he should choose.

Chen Feng thought for a long time and finally made a decision.

He has to choose to increase his attack power!

In terms of defense, he is now in a golden body, and the fifth stage has been completed, and his defense is quite powerful!

In terms of strength, he practiced various body-building techniques, and at the same time, due to the dragon-blood forging body, his power is very powerful, far surpassing ordinary martial artists of the same level.

And speed is indeed a weakness for him, but at this time, he can make up for it by practicing martial arts.

Attack power! He is never too small!

Chen Feng's character, rather than bending, fierce and fierce, is doomed, his fighting style, and the martial arts and techniques he cultivates, is to move forward!

After Chen Feng had made the decision, his heart moved, and then he saw that the red light began to flash at the position of the dragon claws of the dragon blood battle body, and then the light became brighter and brighter.

But in the end, these rays of light did not dissipate as before, but maintained the current situation.

Now, the other parts of the dragon blood battle body are all dim and dull, while the position of the dragon claws is low in brightness, which is obviously different from other parts.

Then, the dragon blood battle body shrank sharply, and finally became the size of Chen Feng's body!

At this time, in Chen Feng's Dantian Knowledge Sea, right below it was also the most central position, and the three-legged round tripod suppressed it.

But it is a pity that a huge crack on the top makes the three-legged round tripod lose its former power.

In the three-legged round tripod, red lights floated from the dragon's blood.

These red rays of light exude incomparable nobility and domineering aura, like the most powerful beast, watching the common people, suppressing the heavens!

And just above the three-legged round tripod, this is the dragon blood battle body, and the red light escapes, floating around the dragon blood battle body, seeming to nourish and moisturize this battle body.

Telling the mysterious connection between that drop of supreme dragon blood and the battle body.

Soon, Chen Feng retreated from the state of introspection.
