[Chapter 991: Nine-headed Flying Dragon Beast](#)

"Nine-headed flying dragon beast! Nine-headed flying dragon beast!"

Hearing these five words, these people all made extremely horrified sounds, and their faces were full of shock and fear.

Obviously, they all have a good understanding of the nine-headed flying dragon beast, and they also know what this monster beast represents.

Chen Feng had never heard of it. He looked at Duan Yushu next to him with a puzzled look.

Duan Yushu looked at him with a wry smile on his face: "Our fate is really good. It's not enough to have a mountain swallowing giant ape. There is another nine-headed flying dragon beast."

"This kind of spirit beast is very famous in our Suiyang County. It seems that you are not from Suiyang Town. You have never heard of it."

"Everyone in Suiyang County has heard of the legend of the nine-headed flying dragon beast. It is said that it has been thousands of years since long ago."

"There used to be a nine-headed flying dragon beast, living in the Dragon Slaying Mountains, and it would fly out to ravage one side."

"His nine heads can spit out extremely hot and intense huge flames, and with one blow, thousands of meters in a radius will turn into a country of flames!"

"It is said that it once destroyed a city with a radius of a hundred miles in just one stick of incense! In the city, millions of people were all reduced to ashes in the sea of fire!"

"Nine-headed flying dragon beast is a ninth-level spirit beast! Even if this nine-headed flying dragon beast is not as powerful as the legendary one, it must be terrifying to the extreme!"

She was full of despair: "It's over, it's over, we will definitely die this time!"

But at this moment, Chen Feng's eyes flashed, and a smile appeared at the corner of his mouth.

In his heart. A loud and loud voice reverberated constantly: "Wait, it's finally!"

"I finally waited for this opportunity. This is my best chance to survive! Also, the only chance!"

Because he cast his gaze outside, he had already seen the two giant beasts, and now they faced each other.

The Ice Swallowing Ape, his huge fist hammered his chest, making a loud bang, and a low roar in his throat.

And above the sky, the nine-headed flying dragon beast is constantly circling around it, making a burst of sharp chirps, and the sound is full of mockery.

Suddenly, a sharp and arrogant voice sounded, loud and sharp, so that everyone seemed to rupture their eardrums.

It was the sound of the nine-headed flying dragon beast: "Haha, you stupid orangutan, I interrupted eating at this time, isn't it very annoying!"

The Frost Mountain Swallowing Ape was unwilling to show weakness, and uttered a thick and angry roar: "You nine heads = long worms, despicable smelly maggots, only dare to make noise in the sky!"

"Do you dare to come down, believe it or not, your uncle, I tore your neck and tear off your bird head?"

These two spirit beasts are already Ninth-Rank spirit beasts, with powerful strength and no less wisdom than ordinary people.

The face of the nine-headed flying dragon beast showed a cold color, and the cold voice said:

"Last time I didn't know which stupid orangutan was. The half of my body burned on the fire became a barbecue."

The Frost Mountain Swallowing Ape didn't show any weakness, and said: "You have a good memory, then do you remember who tore off the bird's head on your far left?"

At this time, everyone looked at it and discovered that the leftmost head of the nine-headed flying dragon beast had actually been torn off alive, leaving only a bald neck, which looked quite funny.

The nine-headed flying dragon beast was obviously stabbed in the painful spot by him. With a stern howl, he roared: "Why don't you fight!"

As he said, he jumped up.

He was hundreds of meters away from the ice swallowing mountain ape, and the remaining eight huge heads had their huge mouths open.

The nine pillars of fire burned toward the ice swallowing mountain monkeys.

These eight-stranded pillars of fire are hundreds of meters long and have a diameter of tens of meters.

The flames burned blazingly, and every few kilometers away, everyone could feel the extremely hot heat, which seemed to scorch people.

Many people's hair and eyebrows were instantly burnt and scorched.

The eight-stranded huge pillar of fire, like eight fire dragons, rushed toward the ice swallowing mountain ape.

But the Frost Swallowing Mountain Ape, not afraid of the slightest, slammed a punch.

On the surface of his fist, a huge black ice shield that was hundreds of meters long appeared instantly, blocking the eight-stranded pillar of fire.

The pillar of fire melted the shield into ice water, but the flame was also extinguished.

When Chen Feng looked at it, he was shocked.

These eight flames, a single flame burst out, I am afraid that a hundred of them will be completely burned to fly ash.

And the Ice Swallowing Ape, with a punch, can easily resist it.

The power gap between himself and this ice swallowing mountain ape is really as huge as the ground to the sky.

The strength of this ninth rank spirit beast is really too strong.

The nine-headed flying dragon beast missed a hit and was not discouraged at all. Suddenly, the figure disappeared directly from the sky.

A teleport came directly behind the ice swallowing mountain ape.

Hundreds of meters in size, huge claws about the size of a small hill, sharp and sharp, grabbed the back of the ice swallowing ape.

Its claws are sharp to the extreme. If you grasp it firmly, I am afraid it will be able to directly tear the head of the ice swallowing mountain ape.

But the Ice Swallowing Mountain Ape had already been prepared.

He turned around suddenly, let out a mocking low growl in his throat, and slammed his fist out.

The fists were about the same size as the claws and slammed together.

With a loud bang, the Ice Swallowing Mountain Monkey rushed back two steps.

On the fist, six deep and long blood marks were caught.

The blood mark is tens of meters long, and the depth is more than one person, almost as deep as Chen Feng.

If Chen Feng stood in this wound, he would not be able to see the top of his head.

But the nine-headed flying dragon beast was also uncomfortable. It was blown out for several hundred meters, its wings trembled, and many feathers were shaken off.

There was blood dripping on his huge claws, and the scales that had been shaken were obviously cracked, and he was slightly injured.

The face of the Nine-headed Flying Dragon Beast was extremely gloomy, staring at the Ice Swallowing Ape, and shouted coldly: "You **** stupid orangutan, dare to hurt me?"

The ice swallowing mountain ape laughed wildly, the ice layer of the surrounding mountains was cracked, and shouted arrogantly:

"Not only will I hurt you, but I will also grab your neck and pull down all the eight bird heads you have left, one by one, so that you don't have a single head left!"

"Make you a headless flying dragon beast!"

The Nine-headed Flying Dragon Beast seemed to be very disgusted with the Ice Swallowing Mountain Ape. When he heard this, he immediately became furious and his expression became extremely cold.

He stared at the Frozen Mountain Swallowing Ape grimly, and said coldly: "You stupid orangutan, I won't show you some color, you don't know how powerful your grandfather Feilong is!"

[Chapter 992: Fierce battle](#)

As he said, he raised eight heads towards the sky, and made a very fierce roar.

And this roaring sound actually formed a tangible sound wave that spread far away.

I saw that the sky above it became rippled because of this roar. Just like the surface of the lake.

In an instant, the heavens and the earth changed, and there was a gale.

And the surface of his body. It is showing a red light.

This red light was very big at first, but then it became more and more intense.

In the end, this intense red light soared into the sky and reached the sky.

And above the clear sky, it was also plated with a layer of intense red.

This red, at first, was like red clouds, and the red became more and more intense.

In the end, a red cloud was formed, and this red cloud shrouded directly above the sky above the crowd. It looked very heavy, and it seemed that it could be pressed down at any time.

With the appearance of this red cloud, the temperature of the entire space rose sharply.

In this valley, the thick ice began to melt.

The glaciers on the mountain melted instantly, and a lot of ice water turned into waterfalls and poured down.

Chen Feng felt that the temperature in the cave had risen to Baidu. These people were sweating profusely and had chapped lips.

And even the ice on the hair of the Frost Swallowing Mountain Ape began to melt.

The water kept dripping down, and a small lake was formed under him in a blink of an eye.

Then in the next moment, the nine-headed flying dragon beast screamed in anger.

The four huge claws continuously draw arcs in the air, looking like they are tearing apart space.

With his movements, the clouds above the sky suddenly split.

Countless huge fireballs smashed down from above, these fireballs are tens of meters in diameter, and they hit the ground fiercely.

In an instant, thousands of fireballs fell down.

Before everyone's eyes, a blood-red color, except for red, could not see any other colors.

Except for the flames, there was nothing else in his eyes.

With a bang, a huge fireball slammed into the ground, smashing the ground directly into a huge pit with a radius of 100 meters, and the whole earth trembled.

Chen Feng looked at it and was shocked.

With just such a fireball, he couldn't resist, and if he was hit, he would be crushed immediately.

And then, the earth began to tremble constantly.

The sound of bang bang bang bang sounded one after another, the whole cave shook violently, countless boulders fell from the mountain wall, and everyone shouted in exclamation and kept avoiding.

The target of these huge fireballs is undoubtedly the Ice Swallowing Ape.

At this moment, countless fireballs slammed at him fiercely.

As soon as the Ice Swallowing Monkey punched out, a dozen fireballs were directly hit and exploded.

However, after the fireball hit his fist, it also exploded, exploding his fist into an extremely huge blood hole.

The blood spilled like a waterfall!

The Ice Swallowing Ape suddenly uttered a painful cry!

And then, he made countless painful shouts one after another.

Every fireball hit him and exploded a big hole in him.

This kind of pit can bury a lot of Chen Feng, but for the Ice Mountain Swallowing Ape, it is just a small wound.

But no matter how small the wound is, it can't hold up so many!

But after a while, the Ice Swallowing Mountain Ape was already covered in blood, and there was no good meat on his body!

However, he was not depressed, nor did he lose his fighting spirit. On the contrary, he let out a mad, loud laugh!

Both fists smashed his chest fiercely, and snarled: "You fat maggot, it turns out that this is your new ability!"

"Hahahaha, I don't think so!"

He suddenly roared fiercely, and his fists slammed on the ground.

In an instant, the ground that had been melted by the fireball was frozen again.

Then, the air began to get cold violently, from being extremely hot just now to being extremely cold now.

Everyone felt a bitter cold wind blowing. Just now, they were sweating profusely, and their lips were bleeding from the heat. After a while, they were shivered by the cold, and their faces turned blue from cold. .

The sweat on his head froze instantly, and his body was covered with white flowers.

And following him, countless icicles suddenly appeared on the earth.

These icicles spread upwards rapidly, and in an instant they rose to the size of a mountain peak, and finally they gathered together in the sky.

A huge ice and snow cage was formed in an instant, and this huge ice and snow cage directly flew the nine-headed flying dragon beast that caught off guard and enveloped it!

Seeing this scene, the expression of the nine-headed flying dragon beast suddenly panicked.

If he was trapped in this ice and snow cage and lost the advantages of speed and space, he would definitely not be the opponent of the Ice Swallowing Mountain Ape.

He slammed into the ice and snow cage with great panic, causing the ice and snow cage to shake constantly.

However, it is impossible to break free.

At this time, the Ice Swallowing Mountain Ape had already forced him towards him with a grinning smile.

The nine-headed flying dragon beast uttered a sharp roar.

However, there was unstoppable timidity and panic in the roar.

Frost Swallowing Mountain Ape shouted disdainfully: "What are you screaming? What can you do now? Haha!"

As he said, he grabbed the Nine-headed Flying Dragon Beast by the neck, slapped it heavily on the ground, and then rode on it with a violent beating.

Every fist fell on the nine-headed flying dragon beast, it was smashed into blood, and the flesh and blood collapsed.

The smashed nine-headed flying dragon beast vomited blood!

The nine-headed flying dragon beast struggled violently, finally broke free and flew to the other side of the cage.

The ice swallowing mountain ape and the nine-headed flying dragon beast, in this way, started a fierce battle in this ice and snow cage.

However, the melee ability of the nine-headed flying dragon beast is far from the opponent of the ice swallowing mountain ape.

Not long after, he was already beaten up and seriously injured.

At this time, the time for the ice and snow cage finally arrived.

With a brush, the ice and snow cage disappeared instantly.

The nine-headed flying dragon beast issued a sharp scream, and eight heads slammed the ice swallowing mountain ape desperately, knocking him away, and then quickly escaped tens of thousands of meters away, which relieved his heart.

He flapped his wings in the air, staring at the Ice-Swallowing Ape with a bitter look on his face.

At this time, the Bing Bing Mountain Ape also frowned, and said in his heart: "This fat maggot, it seems something is wrong today!"

"We have been fighting for hundreds of years, and we have to fight every three to five years, but every time until now, it is enough."

"The worst fight was only the current level!"

"This fat maggot is also a life-saving maggot. He never really fights for my life. Why does it seem that he is still reluctant to give up today, as if he is trying his best?"

[Chapter 993: I'm here for the god-level blood!](#)

He stared at the nine-headed flying dragon beast coldly, and said in a cold voice: "You are crazy today, do you want to die with me?"

"Don't you know the strength of the two of us? The two of us have fought for a hundred years, and we know exactly how our strengths are. If we continue to fight like this, we can only die together!"

The Nine-headed Flying Dragon Beast stared at him and said coldly, "Don't pretend to be garlic, don't you know why I came here?"

After the Frost-Swallowing Mountain Ape heard this, he was shocked and exclaimed: "Could it be that you, are you here for him?"

"Yes, of course I am here for him!"

"This is a god-level bloodline, a god-level bloodline that is rare in thousands of years! How precious?"

The nine-headed flying dragon beast said with a cold voice: "As long as you hand over the human being of the god-level blood, I will retreat!"

As he said, he suddenly looked at the cave where many humans were held.

He swung his claws repeatedly, and the iron fence gate of the cave was blasted open and fell heavily, killing dozens of people on the spot.

And his gaze, passing through the crowd, finally fell on Chen Feng.

Following his gaze, everyone's gaze also fell on Chen Feng.

The voices of the Nine-headed Flying Dragon Beast and the Ice Mountain Swallowing Ape were very loud, and they all heard clearly.

And seeing the eyes of the nine-headed flying dragon beast on Chen Feng, why didn't they know?

Everyone exclaimed and looked at Chen Feng with an extremely incredulous look.

"They, they actually said that this person has God-level blood!"

"Could it be that these two giant beasts are now fighting for him?"

"This young man has such a big background? He has an extremely powerful god-level bloodline!"

They looked at Chen Feng with extremely complicated eyes.

Respect, fear, worship, and more!

Duan Yushu looked at Chen Feng obsessively and muttered: "Sure enough, you are the son of Prince Wang and Sun, but no matter how down, you are extremely noble."

The Frost Mountain Swallowing Ape was shocked and exclaimed: "You, how can you possibly know that he is a god-level bloodline?"

"I'm not like your stupid orangutan, living only by instinct!"

Nine-headed Flying Dragon Beast said with disdain: "Don't forget, my father was an invincible hand in Suiyang County back then, he left me a very rich family background!"

"There is a treasure among them, which can sense the blood of the gods within a hundred miles around!"

"I followed the god-level bloodline all the way here, and I found it here!"

"Haha, fortunately I came in time. Do you want to swallow him on this full moon night, but unfortunately, your wishful thinking won't work!"

As soon as Frost Swallowing Mountain Ape heard this, he knew that today's things could not be good, and let out a cold snort: "Then let's fight to death and life!"

"Whoever wins, the god-level blood will go to whom!"

The nine-headed flying dragon beast laughed wildly and said: "Okay, I just meant it! It just so happens that I have fought with you for a hundred years, and now I should do a break!"

Then, the Ice Swallowing Mountain Ape and the Nine Dragon Beasts fought together frantically.

The two of them have their own magical powers, and their methods are endless.

Every move is extremely powerful.

The Ice Swallowing Ape smashed a mountain with a punch, and countless huge rocks and ice smashed towards the Nine-headed Flying Dragon Beast.

But the nine-headed flying dragon beast opened its huge mouth, and countless flames spewed out, directly melting the stones into a piece of fly ash, blowing away with the wind, blocking the sight of the ice swallowing mountain ape.

Then, he skimmed behind the Ice Swallowing Ape at a very fast speed, and his claws were torn away at the back of the Ice Swallowing Ape.

On his back, two huge pieces of flesh and blood were torn away.

The ice swallowing mountain monkey screamed wildly under the pain, his muscles suddenly tightened, clamped his claws, and then turned around and punched his wings hard, discounting half of his wings!

The battle between the two of them was full of tyrannical power, extremely fast and extremely intense.

In just one stick of incense, both are already seriously injured.

And before they knew it, the direction they were fighting was also moving towards the outside.

Soon it was dozens of miles away from the cave!

The Frost Mountain Swallowing Ape didn't seem to notice this, he was led by the nine flying dragon beasts.

At this time, suddenly, there was a clear cry from outside. A huge goshawk, a full 100 meters long, suddenly rushed over from a distance at an extremely fast speed.

He pounced directly at the cave!

Soon, he came into the cave and fell to the ground.

Then, the big mouth caught Chen Feng directly.

The speed of his coming was so fast that no one had recovered, including the Ice Swallowing Mountain Ape.

At this time, Chen Feng was very sane.

He immediately guessed that this huge goshawk must have been instigated by the nine-headed flying dragon beast.

The huge goshawk moved very softly, as if for fear of hurting him, it directly held him in its mouth, and then flew out quickly.

Seeing this scene, the ice swallowing mountain ape's eyes were splitting, and he let out a wild roar: "You fat maggot, you are simply shameless!"

The nine-headed flying dragon beast laughed wildly: "Stupid orangutan, didn't you expect it? I had a clever plan!"

"I haunt you here, but my subordinates have captured this human being of God-level blood, hahahaha, what can you do with me?"

The Ice Swallowing Mountain Ape roared again and again and rushed towards the goshawk.

But how can the nine-headed flying dragon beast let him go? Immediately entangle him so that he can't get in!

But at this time, a treacherous look suddenly flashed in the eyes of the ice swallowing mountain ape, haha laughed wildly: "Do you have any tricks? Do you think I don't have it here?"

With that said, he quickly came to the side of the cave, stretched out his hand, and pulled an extremely thick iron chain.

Pulling this iron chain down, a large steel net suddenly fell from the sky.

This big net directly covered the entire valley, and the goshawk was about to fly out of the valley. As a result, it was directly covered by this big steel net and was directly enveloped in it.

He was hit hard by these countless steels, and flew low with a cry of mourning.

It was about to hit the ground before it was able to fly again.

The Frost Swallowing Mountain Ape sneered and said, "My big steel net was meant to deal with you!"

"It took me a full ten years to rob a hundred thousand human craftsmen to create this big net. I didn't expect it to be used by you first, but for your subordinates to use it first!"

The Nine-headed Flying Dragon Beast looked at the big steel net with a horror in his heart, and cursed: "You stupid gorilla, you still have such a plan?"

He thought about it, if he was suddenly caught by this big net, I am afraid it would be difficult to break free, and he would really die here!

[Chapter 994: Heaven-swallowing beast inner alchemy! Get angry!](#)

The Ice Swallowing Mountain Ape hurriedly came to the goshawk, slapped the huge goshawk directly into flesh, and then held Chen Feng in his palm again.

He looked at the Nine-headed Flying Dragon Beast and said with a sneer: "You want his blood, don't you?"

"Hahahaha, God-level bloodline is in my hands, but you are here to get it!"

"I will swallow it now, I want to see, how can you get his god-level bloodline!"

As he said, he grabbed Chen Feng and sent it to himself.

The Nine-headed Flying Dragon Beast was immediately anxious, his power turned into a blood-red ribbon, directly tied Chen Feng, and pulled away towards him.

Pulling it into the air, the Ice Swallowing Mountain Ape also stretched out his hand, and his strength gathered into an ice blue ribbon, which also bound Chen Feng and pulled it towards him.

With the tugging of the two of them, Chen Feng felt a sharp pain coming from him, almost torn him in half.

The Ice Swallowing Mountain Ape and the Nine-headed Flying Dragon Beast were shocked when they saw this scene, and they quickly relaxed their strength.

They don't want to kill Chen Feng directly like this. If Chen Feng dies, they will consume more than half of the god-level blood.

The nine-headed flying dragon beast suddenly turned its eyes, changing from pulling to pushing outward.

His turbulent power followed the blood-red ribbon directly into Chen Feng's body, and then passed through Chen Feng's body and forced it towards the Ice Mountain Swallowing Ape.

It turned out that he was scheming, and wanted to take this opportunity to infiltrate his power into the body of the ice swallowing mountain ape.

The Frost-Swallowing Mountain Ape immediately understood his thoughts and smiled coldly: "You dead maggot actually have such a trick!"

"But, do you think this trick will work for me?"

As he said, his power surged wildly, and the ice-blue power surged into Chen Feng's body.

Chen Feng suddenly felt that he was extremely uncomfortable.

For a while, like falling into a volcano hell, his body was extremely hot, as if he was about to be burned to fly ash.

In the next moment, the ice force invaded, making him as if he was thrown into the ice and snow, naked, his whole body was black, his face was pale, and he was shaking with cold.

The two of them turned out to regard Chen Feng as a battlefield for strength.

The power of madness seems to be endlessly pouring in!

The power of the Ninth Stage Spirit Beast surpassed Chen Feng by tens of thousands, hundreds of thousands of times!

The extremely powerful force completely destroyed Chen Feng's body, almost rotten into a pile of mud.

At this time, Chen Feng's ingenious learning of the acupoints of the Dantian meridians, and even the skeletal muscles and internal organs were all seriously injured!

At this time, the full moon is on the top of the sky, at the highest point!

But at this moment, the red fruit in Chen Feng's body suddenly shattered, revealing the black pill inside.

The black pill was instantly shattered, and the gloomy water inside instantly evaporated and turned into yellow mist.

After turning into aerosol, it was supposed to corrode Chen Feng's body, but at this moment, ice blue and fire red power poured into Chen Feng's body and came here.

The Nether Water seemed to be extremely sensitive to this power and immediately divided into two strands.

One intruded into the ice blue power, and one intruded into the fiery red power.

This mist entered like a living thing, and followed the ice blue power and the fire red power to their source.

I saw that the ice blue ribbon and the fire red ribbon were enveloped in a layer of dim yellow that was extremely faint and invisible to the naked eye.

It is the color of Nether Water.

Following these two forces, the Nether Water quickly spread to the Ice Mountain Swallowing Ape and the Nine-Headed Flying Dragon Beast.

Go away, and the Ice Swallowing Mountain Ape and the Nine-Headed Flying Dragon Beast were completely unaware of it!

Chen Feng felt that he was about to die, and endless power poured into his body, destroying everything.

The ice blue power and the fire red power are constantly consumed.

But Chen Feng as a battlefield was almost destroyed.

Moreover, in his body, ice blue power and fiery red power accumulated more and more.

These two forces, the fiery red power is the most masculine and strong, and the ice blue power is the most feminine and soft. The two cannot coexist at all, and they accumulate more and more in his body.

His body is like a balloon that is gradually inflated.

In the next moment, it will almost explode!

The Ice Swallowing Mountain Ape and the Nine-headed Flying Dragon Beast were also aware of this problem.

But they couldn't control it at all.

At this moment, whoever regains the strength first will be taken advantage of by the opponent, and the powerful force will invade the body and be directly injured, which will change the outcome of this battle.

Therefore, none of them dared to withdraw their strength, they were still injecting incomparable strength into Chen Feng's body.

Chen Feng felt that he would burst into death in the next instant.

He is already in an extremely dangerous state.

And at this moment, suddenly, a stream of light flashed in the bag of Chen Feng's mustard seeds.

Then, the inner pill that swallowed the **** beast flew directly out of the mustard bag and drilled into Chen Feng's mouth.

Then, follow the meridians and directly come to the pubic area.

Chen Feng suddenly realized that he had entered a state of introspection.

And the inner pill of the Heaven-Swallowing Divine Beast in the Dantian radiated brightly.

This inner pill was spinning frantically, producing a powerful suction.

And as this suction came, both the ice blue power and the fiery red power were sucked in.

Chen Feng suddenly felt that he was relieved all over, as if infinite power was poured out.

Originally, the inner alchemy of the Heaven-Swallowing Divine Beast had no color.

At this time, the left side gradually turns red, and the right side gradually turns blue. Of course, the color is still extremely weak.

However, with the continuous input of ice blue power and fire red power, this color became more and more intense.

This powerful force seemed to be completely unable to fill the inner alchemy of the Heaven-Swallowing Divine Beast.

Suddenly, the inner alchemy of the Heaven-Swallowing Divine Beast was spinning even more rapidly, as if dissatisfied.

He took the initiative to absorb the ice blue power and the fire red power, pulling them out of the bodies of the ice mountain swallowing ape and the nine-headed flying dragon beast!

The Ice Swallowing Mountain Ape let out a roar and shouted: "It's not right, this kid has a strong suction force, and it absorbs my power in Zhu Dong!"

The Nine-headed Flying Dragon Beast also screamed: "Yes, I feel my power gushing out like a tide, almost beyond control."

Both of them are extremely shocked: "What is weird in this kid? How can I do this!"

And at this time, the speed at which the Heaven-Swallowing Divine Beast's inner alchemy absorbs power is even faster!

The Ice Swallowing Ape roared loudly: "Smelly maggot, let's talk about our grievances next."

"Let's evacuate at the same time, otherwise, we will all be sucked up and die!"

The nine-headed flying dragon beast shouted: "Okay, let's evacuate at the same time!"

[Chapter 995: Nether Water! launch!](#)

Both of them have lived for thousands of years. Although they are spirit beasts, they have high IQs and are very shrewd, knowing that this is a critical moment.

So an agreement was reached immediately.

But just as the two of them wanted to withdraw their strength, suddenly a yellow light flashed above their bodies.

This yellow light is very faint, but it carries infinite coercion, and even more intensely dead.

It's like countless souls pouring out of Jiuyou Hell!

And as the yellow light flashed, the nine flying dragon beasts and the ice mountain swallowing ape, both giant beasts discovered that their bodies could not move at all.

It was extremely difficult for them to maintain their original posture, even moving their fingers.

The Ice Swallowing Ape roared in horror: "How is it possible? I found that I couldn't move at all, and my body was not under my control at all!"

He glared at the nine-headed flying dragon beast, and shouted sharply: "Dead maggots, is it your ghost?"

The nine-headed flying dragon beast yelled, and screamed: "I can't move anymore, I'm hanging in the air, as if I've been restrained!"

Suddenly, the nine-headed flying dragon beast, as if remembering something, shouted:

"This is the water of the netherworld. I feel a powerful and deadly force that controls my body and is constantly destroying my body. This is the power of the water of the netherworld!"

When he mentioned the Nether Water, his eyes showed extreme fear.

Obviously very afraid of Nether Water!

At this moment, Chen Feng opened his eyes, and a faint smile flashed in his eyes.

This time is the most favorable moment for him.

In his heart, there was a voice yelling frantically: "The Heaven-Swallowing Divine Beast's inner alchemy, as expected, I chose you in the first place!"

"You must stand up for me!"

The inner alchemy of the Heaven-swallowing beast seemed to have heard Chen Feng's shout, and the speed of rotation increased ten times. The speed of absorbing power has also increased ten times.

In an instant, in the sky, the fiery red power ribbon and the ice blue power ribbon became thicker at the same time.

However, the Ice Swallowing Ape and the Nine-headed Flying Dragon Beast were terrified to discover that their power was losing at an extremely fast rate.

Both of them were extremely panicked, but they couldn't move their bodies and could do nothing at all!

They let out a cry of horror.

I don't know how long it took, the aura of the ice swallowing mountain ape and the nine-headed flying dragon beast has become very weak, not as strong as 1% of the time when Chen Feng first saw them.

Obviously, the power in their bodies is already absorbed.

The Frost Mountain Swallowing Ape looked like he was several hundred years old in an instant, his whole body's hair turned white, and his whole body became dry.

Suddenly, he fell heavily to the ground, looking lifeless and extremely weak.

And the nine-headed flying dragon beast also fell beside him, and the situation was not better than him.

At this time, Chen Feng's inner pill that swallowed the gods and beasts was already radiant, shining brightly, illuminating him clearly.

And this inner alchemy is half ice blue and half fiery red!

In the next instant, the inner alchemy of the Heaven-Swallowing Beast suddenly exploded.

Chen Feng felt that his body was like a cosmic explosion.

In an instant, all the power in front of him was fiery and icy blue.

There is nothing else.

This powerful and unmatched power surpasses his own power thousands of times, and will bathe Chen Fengfeng.

In the next instant, as the inner core of the Heaven-swallowing beast exploded, a powerful icy blue force and a powerful fiery red force poured into Chen Feng's body.

They poured into Chen Feng's body, constantly transforming Chen Feng's body, and the surface of Chen Feng's body revealed bursts of light.

The light became more and more prosperous, and in the end, it was glorious, just like a sun floating in the sky.

However, the sun's rays were half icy and half red.

Chen Feng felt like he was soaking in hot water, and he was extremely comfortable.

All the injuries of the body are healed instantly, including all the hidden injuries, the strength in the body, and everything in the body, all of them are evolving and evolving at a fast speed!

Soon, Chen Feng felt like he was reborn.

The surface of the body became incomparably lustrous, like a white jade carving, and he felt that his body at this time was almost as powerful as the legendary divine body.

Between every gesture, there is the power to destroy the world.

But the next moment, this comfortable feeling disappeared.

The ice-blue power and the fire-red power, one yin and one yang, after transforming his body, they occupy one side of each other and start to attack each other unexpectedly.

Chen Feng felt that his body seemed to be torn apart.

And the next moment, suddenly, in Chen Feng's dantian, that dragon blood glowed brightly, exuding infinite pressure.

The coercion of the dragon blood is obviously extremely high level, directly suppressing the power of ice blue and fire red.

At the next moment, the dragon blood was divided into three parts, one part stayed in place, and the other two parts, each merged into the power of ice blue and fire red.

And when the dragon blood merged into the ice blue and fire red powers, the ice blue and fire red powers directly flowed quietly in Chen Feng's body.

There is no more conflict, and a perfect balance has been reached!

At this time, Chen Feng's strength had completely recovered, and all the injuries in his body were healed.

In fact, at this time his body was already reborn.

Chen Feng slowly fell from the air, and then he walked to the ice swallowing mountain ape with a smile on his mouth:

"I want to thank you too much. How could I have reached such a state without you two?"

As he said, Chen Feng directly stretched out his hands and pressed them on his body, his face was particularly cold and stern: "In return, I will **** up your blood!"

The Frost Mountain Swallowing Ape issued a terrifying roar: "You humble human being, how dare you, how dare you absorb my blood?"

Chen Feng smiled slightly: "Why don't I dare?"

At this time, the Nether Water had already corroded into the body of the Nine Sky Flying Dragon Beast and the Ice Mountain Swallowing Ape.

I saw a faint yellow light shrouded all over their bodies.

And on the surface of their bodies, their muscles and hair, they were corroded by a burst of yellow, and there were countless large and small holes, and in some places they even corroded large pits.

The yellow pus provokes a cold, and the internal organs below can be seen.

When Chen Feng saw it, he was also secretly shocked.

The Nether Water is too toxic.

Easily, you can make these two behemoths look like this.

Fortunately, when the Nether Water broke through in his body, it was attracted by the power of ice blue and fire red and entered the bodies of these two behemoth beasts.

Otherwise, it would be so miserable at this time, and I would be one more.

[Chapter 996: breakthrough! Tianhe Realm!](#)

He let out a sneer in his heart: "She Shangfeng, you didn't expect it, you're exhausted, but in the end it made me cheaper! Hahahaha..."

At this time, seeing two giant beasts falling to the ground, the human beings imprisoned in the cave also ran out one after another.

After these humans saw these two behemoths, their faces showed greed.

One of them shouted: "These two giant beasts are huge, and their bodies are all treasures. Go up and grab them!"

"As long as you can grab a little bit, it can be used as a family heirloom, and it will last a lifetime!"

These thousands of human beings, after hearing these words, became crazy and greedy, and ran forward one after another.

Soon, they came to the ice swallowing mountain ape and the nine-headed flying dragon beast, wanting to get some benefits from their bodies.

They seemed to completely ignore Chen Fengfeng!

Chen Feng let out a sneer, walked to them, and said lightly: "What are you doing?"

After these people saw Chen Feng, the big man who started talking showed a joking smile:

"Yo, isn't this nerve blood?"

"Hahaha, so powerful, such a mighty god-level bloodline!"

With a sudden wave of his hand, a dozen big men surrounded Chen Feng in the middle, and then there was a hideous look on his face:

"Lao Tzu originally wanted to clean up you and absorb your god-level blood for my use. I didn't expect you to find something to come to your door!"

"Also, I will kill you directly and strip your bloodline, and then swallow it into my body. I will be a god-level bloodline by then!"

As he spoke, he let out a triumphant laugh.

Chen Feng snorted coldly: "It's ignorant!"

The big man's face changed and he shouted coldly, "What did you say?"

Chen Feng said coldly: "Did you have ears? Didn't you hear what I said? I said you are extremely stupid and ignorant!"

There was a look of shame on the big man's face: "Little bunny, how dare you talk to me like this? I killed you!"

With that, a dozen big men rushed forward.

Chen Feng let out a cold snort of disdain, and a burst of vigor surged from his body.

He didn't use any martial arts at all, and even with his momentum alone, he snorted all the dozens of people, bleeding from his seven orifices, and fell limp to the ground, and he was directly shocked to death.

The big man in the lead was slightly stronger, and he was not dead at this time.

He looked at Chen Feng with a look of horror: "You, how can you be so powerful?"

Chen Feng smiled and said, "Do you really think that my god-level bloodline is called for nothing!"

"What are you? You dare to be arrogant in front of me?"

As he said, Chen Feng stretched out his hand, grabbed his neck and lifted him up, with a sneer at the corner of his mouth: "Do you still dare to be arrogant?"

"Don't dare, don't dare." The big man shook his head quickly, remorse in his eyes.

I was so blind that I provoke such a fiend.

Chen Feng smiled slightly, "Don't you dare?"

Seeing his smile, the big man thought he was going to let go, and nodded repeatedly, looking very well-behaved.

Chen Feng suddenly smiled and sneered, "Unfortunately it's too late!"

With that, he squeezed its neck directly with force.

Chen Feng waved his hand and threw his body heavily.

Then, to everyone onlookers, he said lightly: "You were in the cave at that time, and when I was crippled and unable to fight back, I didn't care about bullying me."

"Everyone, get out now!"

Chen Feng sternly shouted: "Whoever dares to fight the idea of these two giant beasts, don't blame me for not reminding you, I will just abolish you!"

When his expression was cold, everyone knew that he was not joking.

Someone whispered: "You are too overbearing, are you? Don't let us take advantage of it? Do you have it all?"

Chen Feng looked over there suddenly, his eyes sharp as a sword, and said coldly:

"Where were you when these two giant beasts were fighting? Are you sitting on the sidelines?"

"The reason why these two giant beasts become like this is completely caused by me! What strength did you exert from them?"

"You people, after being caught by the giant beasts, you are desperate all day. You only know that you bully the good. For people like you, I didn't kill anyone. It's enough to give you face. Why don't you get out? Right!"

If it were replaced by a cruel and cruel person, standing in Chen Feng's position, I was afraid that they would definitely kill them all to keep the secret.

But Chen Feng really couldn't do such a thing.

Everyone left, only one person did not leave, it was Duan Yushu.

Duan Yushu looked at Chen Feng with a surprised look, exclaimed: "Chen Feng, you are so powerful? So powerful?"

There was a trace of worship in her eyes.

Chen Feng smiled slightly: "I have something to do, I will talk to you later."

Duan Yushu nodded obediently and waited aside.

Chen Feng came to the ice swallowing mountain ape and continued to absorb the blood.

A huge force of blood poured out into Chen Feng's body.

The Nether Water is okay, only their bodies are corroded, and the blood is fine.

The enormous blood power of the Ninth Stage Spirit Beast surged out.

Moreover, this blood power is extremely pure, many times more pure than the blood power that Chen Feng had absorbed before.

The power of blood kept pouring into Chen Feng's body, and Chen Feng was now hitting the ridge from the peak of the twelfth building in the Divine Sect Realm to the Tianhe Realm.

This hurdle, like a bottomless pit, seemed to be filled with blood.

However, when the extremely powerful blood of the Ice Mountain Swallowing Ape poured in, Chen Feng felt that this bottomless pit seemed to be filled.

Suddenly, at a certain moment, Chen Feng absorbed the blood power that entered his body and stopped surging into the acupoint.

And at this moment, all the Gang Qi in his body was also gushing out from each orifice point.

Follow the meridian, come to the dantian, and after the dantian.

The blood red Gang Qi turned into a bright long dragon, and it rushed towards the bottom of the dantian fiercely.

The bottom of the dantian was originally a darkness, as if it was full of infinite silence, as if this place was sealed by darkness.

But in the next instant, the blood red qi slammed against the dark seal.

With a loud bang, Chen Feng felt severe pain in his dantian, and his whole body was aching.

After the black seal was hit, it was unscathed.

The blood red qi was not discouraged at all, and it hit the black seal again.

At this time, the seal was still unharmed.

The blood-red dragon, one after another, slammed into the dark seal.

Every time, it brought huge and incomparable pain, like the dantian to be torn apart.

However, Chen Feng gritted his teeth, motionless, and did not flinch at all.

I don't know how long it took to hit, but finally, Chen Feng heard a loud noise.

It was as if something was broken.

Then he saw that a crack appeared on the dark seal at the bottom of the dantian.

Chen Feng was ecstatic.

If you want to enter the Tianhe Realm, you must break the Tianhe!

And Potianhe is to break the silt at the bottom of the dantian and open the seal.

At the bottom of the pubic area, the first drop of true essence is condensed.

At this time, Chen Feng's sealed Tianhe was finally smashed into a crack.

With the first crack, the bottom is much better.

Soon, countless cracks appeared one after another.

Then, finally this Tianhe was sealed and completely broken into countless pieces, exposing the bottom of the dantian.

The blood-red long dragon formed by the qi in Chen Feng's body swept through it for a while. After circling countless times in the dantian, the blood-red qi was already extremely condensed and shrank sharply.

Soon, it went from huge and unmatched to the size of a drop of water.

This drop is extremely beautiful, showing the color of white jade.

And in the jade color, there is still a **** light that can't be concealed, like the eyes of a fierce beast, wanting to choose people and eat.

In the noble, with a trace of bloodthirsty.

Finally, the jade-colored water droplets lightly landed on the bottom of the Dantian with a snap.

And the dantian seemed to be completely illuminated by the dripping of this drop of water, and the light instantly shined brightly.

Chen Feng took a deep breath, excited in his heart, as if his chest was about to burst open.

At this time, he felt that he had completely entered a different realm.

This drop of water brought him great power.

The whole person's strength instantly climbed countless and became extremely powerful.

A smile appeared at the corner of his mouth.

Then, the smile became stronger and stronger, and finally turned into a long laugh: "Hahahahaha, I broke through, I broke through!"

"Only one person in a million can break through, but I did it!"

"I stepped into the first star of Tianhe from the twelfth floor of the Divine Sect Realm, condensing the first drop of jade true essence, and my strength has been greatly improved!"

[Chapter 997: Make another breakthrough, Tianhe Two Star!](#)

But Chen Feng was not satisfied with the status quo, but continued to absorb the essence and blood in the Ice Mountain Swallowing Ape, absorbing it frantically, and transforming it frantically.

Countless blood poured into his body.

Soon, the second drop of Jade True Yuan appeared, and it also dropped on the bottom of the Dantian.

I don't know how long it has passed, but soon the moonlight is sinking and the blazing sun is rising.

The first ray of sunlight shone into the deep valley and scattered on Chen Feng.

Chen Feng retracted his hands and spit out a **** muddy gas.

At this time, the ice swallowing mountain ape, this giant beast has become like a corpse, its skin is covered with bones, and it has completely lost its breath.

All the blood in his body was absorbed by Chen Feng.

At this moment, Chen Feng looked inside his dantian and looked at the jade-colored true essence in the dantian, with a smile on the corner of his mouth.

"One star in the Tianhe realm, I actually entered the Tianhe realm directly from the beginning, broke through to the one star in the Tianhe realm, and collected ten drops of true essence!"

Then, Chen Feng walked to the side of the corpse of the nine-headed flying dragon beast, and saw Chen Feng approaching. The nine-headed flying dragon beast seemed to have seen a ghost, and his eyes showed extreme fear.

He screamed: "You, you little bastard, stay away from me, don't come near me!"

He witnessed the scene where the Ice Mountain Swallowing Ape was exhausted and turned into a corpse, completely dying.

When I thought that I would suffer such a fate later, the Nine-headed Flying Dragon Beast was terrified.

This nine-headed flying dragon beast, flying dragon, thought of his dignified Ninth-Rank spirit beast, but at this time he was about to die by the hand of a human who had just entered the realm of Tianhe, and was far from his own strength.

Chen Feng walked up to him, looked at the huge body like a mountain, and said lightly:

"You and this stupid gorilla, when the two of you wanted to swallow the god-level blood in my body, did you ever want to spare me?"

After speaking, he smiled coldly, walked directly to his side, pressed his hands on his body, and began to frantically absorb blood.

The nine-headed flying dragon and beast flew, feeling that the blood in his body was about to boil, and he was very uncomfortable in pain.

Chen Feng didn't care about it and continued to absorb and transform.

Soon, almost a day passed, the sunset was sinking again, and the full moon was rising.

In Chen Feng's dantian, there were already nineteen jade true essences at this time.

The power of blood was constantly flowing into Chen Feng's body.

However, there is not much left.

Finally, with a bang, the power of blood condensed into a jade true essence again.

Chen Feng's realm directly broke through to the second star of the Tianhe realm!

He condensed a total of twenty jade true essences!

At this time, a fierce color flashed in the eyes of the Nine-headed Flying Dragon Beast, gritted his teeth:

"Little bunny, you want to absorb my blood, right?"

"Well, if you want, I will give it to you, I will give it to you!"

The nine-headed flying dragon beast let out a ferocious roar.

He could see that Chen Feng used a weird technique to transform the power of blood into the power of success, but the power of each transformation was also limited.

That being the case, if the load is exceeded, Chen Feng can directly split and die.

Then Chen Feng suddenly discovered that the blood flow into his body had suddenly increased tenfold!

Used madly in the body.

In just a moment, Chen Feng felt a strong sense of bulging, as if his body was about to be broken by the force of blood!

It's almost bursting.

Chen Feng was shocked, and hurriedly used the Dragon Elephant Fighting Sky Technique to absorb and transform it, but at this moment, the Dragon Elephant Fighting Sky Technique suddenly disappeared!

It turned out that the realm of Dragon Elephant Fighting Tian Jue could only reach two stars in the Tianhe Realm!

If you exceed the two stars of the Tianhe Realm, you will automatically disappear!

At this time, the Dragon Elephant Fighting Sky Technique disappeared and Chen Feng could no longer refine these blood powers.

Suddenly, the blood filled his body, nowhere to vent, nowhere to resolve.

Chen Feng suddenly felt that his body was swollen and painful, and he was very uncomfortable to death.

And his body bulged like a balloon, and even Chen Feng felt that in the next instant, his body would burst open.

The nine-headed flying dragon beast let out a triumphant laugh: "Little bastard, don't you want to kill me?"

"Hahaha, don't you want to drain my blood? I let you suck, I let you **** enough!"

As he said, the power of blood continuously poured into Chen Feng's body, and he urged his last trace of blood out and invaded Chen Feng's body.

As the last trace of blood disappeared, the Nine-headed Flying Dragon Beast let out a scream before dying, and then all kinds of body fell down, directly and completely dead.

But at this time, Chen Feng's whole person was also inflated like a balloon, looking very terrible.

The surface of the skin has become a transparent color, and it looks like it is about to explode at any time!

At this time, An Lao suddenly appeared next to Chen Feng.

Seeing Chen Feng's appearance, An Lao was also shocked, and immediately shouted out:

"Chen Feng, you, the blood in your body is overflowing now, if it can't be discharged in time, it will burst immediately!"

"At that time, your whole body will be blown to pieces, no one can save you!"

His voice fell into Chen Feng's ears, like a mosquito hum, and he couldn't even hear him.

Chen Feng knew what he meant, but the problem was that now Chen Feng didn't know how to dispatch this force!

He tried it, and the power seemed to be tightly sealed in his body, and he couldn't let out a trace at all.

At this moment, Chen Feng suddenly felt a huge momentum approaching here.

Soon, the momentum was falling continuously.

Obviously, someone slipped from above into the valley.

Chen Feng tried to open his eyes wide.

Due to the swelling of his body, his eyelids have also become swollen, making it very difficult to even open his eyes.

Then, he saw a figure appeared in his sight, it was She Shangfeng!

She Shangfeng did not see Chen Feng at first glance, but first saw the nine-headed flying dragon beast and the ice mountain swallowing ape.

The two giant beasts were dead, and the corpses were horrible, and their flesh and blood were corroded to pieces, like corpses that had been dead for thousands of years.

Seeing this scene, She Shangfeng was shocked and shouted, "How could this be?"

"How could the ice swallowing mountain ape become what it is now?"

He showed a deep look of disappointment, and he became a little bit angry.

It turned out that the ultimate goal of all his calculations was not Chen Feng, but the ice swallowing mountain ape.

He threw Chen Feng down and used Chen Feng's god-level blood to attract the attention of the Ice Mountain Swallowing Ape, in order to damage this behemoth, but not to kill it!

He had calculated that the water of the Nether could not completely kill the Ice Mountain Swallowing Ape.

But he didn't expect Chen Feng's variables.

[Chapter 998: Sky Lake Realm? Kill with a punch!](#)

How can this not make him furious?

And the next moment, he saw Chen Feng.

After seeing Chen Feng, his face immediately showed a look of astonishment, and exclaimed: "You little bastard, you are not dead yet, and you broke through to the Tianhe Realm?"

Then, with a playful look on his face, he laughed and said, "However, it's almost as long as you are not dead now."

"Look at what you look like now, like a ball, I'm afraid you are similar to a **** now, right?"

Then he suddenly thought of something, his expression became savage, and he shouted sharply:

"Little bunny, the Frost Mountain Swallowing Ape is now like this, isn't it your ghost?"

As he said, his figure flashed and came directly in front of Chen Feng, screaming: "Did you make a ghost?"

At this moment, Chen Feng's brain was buzzing, and he couldn't hear anything.

There was blood flowing out of the eyes, ears, nose and mouth, and nothing could be seen. The whole person was extremely irritable and violent to the extreme.

At this time, he only heard a mosquito buzzing in his ear, which made Chen Feng extremely bored.

Chen Feng's whole body was dizzy, so he slammed out a fist like instinct, and hit the mosquito.

She Shangfeng saw that Chen Feng didn't pay attention to him at all, and instead blasted out with a punch, he gave an angry smile, haha laughed wildly:

"You little bastard, you are just looking for death. Are you crazy? Do you think you will be my opponent?"

"I am a dignified Heavenly Lake Realm master, even if you break through the Tianhe Realm, how can you be my opponent?"

"As long as I punch, I can blast you to pieces!"

With that said, he also slammed out with a punch.

When the two fists were about to collide, suddenly, She Shangfeng felt the extremely powerful aura from Chen Feng's fists.

That breath is powerful and terrifying, and it seems to be ruining the world!

She Shangfeng only felt that the front was suddenly dark, as if an extremely tall and huge wall was pressing against him.

It was like a mountain collapsing, leaving oneself without any resistance to struggle!

She Shangfeng exclaimed in disbelief: "How is it possible? How could it be so powerful?"

He yelled, screamed, tried his best and punched out.

Finally, he stood in front of Chen Feng's fist.

But it was of no use at all. Chen Feng's punch directly shattered his two fists, and his vigorous fist wind was also directly annihilated.

Then in the next instant, Chen Feng's fist kept rushing forward, shattering his arms all the way!

In the end, it hit his chest directly, smashed a big hole directly into his chest, and inserted it into his chest abruptly!

The fist came out from his back!

And the incomparable power in Chen Feng's body gushed out instantly, and with a boom, She Shangfeng was directly shocked into countless pieces of flesh and blood!

This is the purest power competition.

She Shangfeng's face still had an unbelievable look!

He can't figure it out at all, why is this?

The powerful person in the Heavenly Lake Realm himself would be hit by a humble existence who had just entered the Heavenly River Realm!

In the next instant, the expression on his face was shattered, and the whole person was broken into countless pieces from head to toe, and burst into pieces!

The Tianhu master was actually killed by Chen Feng with a punch!

After Chen Feng's punch, it seemed that the power of blood in his body had finally poured out.

With this punch, all burst out.

Chen Feng was like a punctured balloon, shrank instantly, and soon returned to normal form.

Without the violent and dizzying pain, Chen Feng's six senses and five senses have all returned to normal, and his mind has also returned to normal.

He looked at the pieces of blood on the ground, his face showed lingering fear, and he muttered to himself:

"What a coincidence, what a coincidence, if it weren't for She's advantage, if it wasn't for him to stimulate me, let me attack him..."

"If it weren't for his resistance to his power, which attracted the blood power in my body, and caused my blood power to pour out... I would definitely be blown to pieces by the blood power!"

"It's a fluke that I can kill him!"

"The blood power accumulated in my body is extremely vigorous, equivalent to a full blow from a strong person beyond the Heavenly Lake!"

"Now I am definitely not his opponent. After all, I am only a second star in the Tianhe realm! Compared with him, the realm is still far behind."

Chen Feng secretly rejoiced in his heart.

He looked at She Shangfeng on the ground, and a smile came out from the corner of his mouth: "She Shangfeng, thank you, you came to be this human sandbag and resolved my crisis."

Anlao appeared next to him, looked at Chen Feng, smiled and said, "Chen Feng, you are really lucky."

"It was already going to die, but She had the upper hand and saved your life directly! Haha, I'm afraid he never thought of it!"

"He was very unwilling to die. He used his own life to save the life of your great enemy."

Chen Feng laughed.

He recalled the past half a month, and suddenly felt like a big dream. He had repeated adventures and his strength had improved by leaps and bounds.

Thinking of this, he was a little worried that he hurriedly looked at his body, and he realized that he was still half cold and half hot.

The ice-blue power and the fire-red power each took up half of his body, while the dragon blood in his body was only one third left.

Chen Feng felt stunned. It can be said that he has today's achievements. Among them, Dragon Blood has made great contributions.

Seeing Chen Feng's expression, An Lao smiled slightly and said:

"You silly fellow, yes, the dragon blood in your body has indeed become smaller, but it is nothing."

"You got something more precious, more noble than dragon blood, and much more powerful!"

"What? More noble and powerful than dragon blood?" Chen Feng was shocked when he heard that, and quickly asked, "What is that?"

An old man smiled and said, "Don't worry about this for now, let's leave here first!"

Chen Feng searched for a moment on the two bodies, and then found two inner alchemy.

An ice blue color and a fiery red color contained incomparably powerful power.

As soon as the fiery red inner alchemy was taken out, the temperature rose sharply within 100 meters, as if it were an active volcano.

The ice-blue inner alchemy exudes endless cold air, and Chen Feng felt that when he took it, he seemed to be frozen into an ice sculpture.

In the immediate surroundings, the ground was frozen, forming a thick layer of ice.

Chen Feng hurriedly put the two inner alchemy into the mustard bag and then quickly left here with Duan Yushu.

[Chapter 999: The body of yin and yang! God body!](#)

On a cliff, there is a cave, clean and warm, with a pile of hay.

At this time, Duan Yushu leaned against Zhengxiang who was sleeping on it.

When Chen Feng walked out of the cave, he felt very energetic at this time and didn't need any rest at all.

The body is full of lively power, making him feel extremely comfortable!

Chen Feng smiled and said, "Old An, you should always tell me now, what kind of abilities have I acquired?"

An Lao's tone suddenly became serious, looked at him, and said in a deep voice: "Chen Feng, you may not know that you have acquired one of the most powerful and noblest abilities in the world!"

"Now your body can be called a divine body!"

"What? Divine body?"

Chen Feng was shocked.

He knows that if An Lao said that before, it means that he must have a strong ability.

But I didn't expect it to be strong enough to be a divine body.

An Lao took a deep breath and said, "Is your body divided into two pieces, occupied by an ice blue power and a fiery red power?"

"Yes!" Chen Feng nodded and said.

An Lao sighed and said, "It seems that I didn't guess wrong. Now your body has become the body of Yin and Yang!"

"What? The body of yin and yang?" Chen Feng had never heard of this thing.

An old man patiently explained: "The five elements are gold, wood, water, fire, and earth. Most people are born with a physique. There are even very few people who don't have a physique. That's a waste."

"If you have two physiques at the same time, such as the body of the firewood, you can become an alchemist."

"If you have other physiques, you will also have extraordinary achievements. People who have two of the five elements at the same time are already very rare."

"And a person with three attributes is definitely a genius, and a person with four attributes at the same time is a wizard!"

"As for people with the Five Elements, they are rare for thousands of years. They are extremely tyrannical. In the future, they can definitely become a powerful person and build a world-famous genius with unworldly achievements!"

Chen Feng was dizzy and stunned.

Then An Lao continued: "And your body of yin and yang, even, is beyond the body of the five elements!"

"A person with the body of the five elements can only be called a masterful genius, and your body of yin and yang can be called a natural **** body!"

"What?" Chen Feng was so surprised that he couldn't speak.

He didn't expect that he would get such a huge benefit this time, and he would have achieved the body of yin and yang, a natural **** body!

An Lao smiled and said, "To put it bluntly, the five elements are all born out of yin and yang."

"Your body of yin and yang naturally surpasses the body of the five elements!"

He sighed and said, "You kid, luck is really great!"

"The Frost-Swallowing Ape is a natural body of cold ice, a kind of extreme realm in a body of water travel!"

"And the nine-headed flying dragon beast is the body of the blazing sun, and it is also the ultimate state of the body of the fire!"

"The strength of these two spirit beasts is far superior to you, so that their power collides in your body, directly transforming your body, turning you into a body of yin and yang!"

Chen Feng quickly asked, "So, what are the benefits of this Yin-Yang body?"

"The benefits are many."

An old man smiled and said: "One of the simplest benefits is that in the future, your cultivation speed will be far faster than others, dozens of times or even hundreds of times!"

Chen Feng took a deep breath: "The practice speed is dozens of times or even a hundred times faster than others?"

"What a terrifying speed, my own strength will soon surpass those strong!"

An Lao continued: "And a bigger advantage is that after having the body of Yin and Yang, you can become a soul person!"

"Soul Man, what is that?"

After listening to Chen Feng, he asked in surprise.

He had never heard the word about the word soul before, he only knew the warrior.

"You kid, you don't know the soul, but it is excusable. After all, there are too few souls now."

"You know, the soul is a rarer existence than the alchemist."

In the dark old expression, he sighed, and then he continued: "The soul is actually opposite to the martial artist."

"Warriors cultivate the body, while souls cultivate the spirit. Only those who are born with spiritual power can become souls!"

"The strength of the soul is extremely powerful, the soul of the same level can deal with at least ten warriors of the same level, and the use of mental power is strange and extremely powerful."

"It is possible that you have died under the hands of the souls without seeing clearly."

"So the soul, for a while, had a very high status in the Dragon Vein Continent, far surpassing the martial artist, but it was all thousands of years ago."

"People nowadays, it's normal not to remember."

Chen Feng was very excited when he heard these ancient secrets. He was dazzled, and quickly asked: "How did the soul man disappear?"

An old man's expression was somewhat depressed, and he said, "Without mental power, it will naturally disappear."

Chen Feng hurriedly asked: "Why did it have mental power in the past, but now it is gone!"

"Is it because there were many people with mental power in the past, but now there are fewer people with spiritual power?"

An old man refused to say any more, just said: "You just need to know that people with mental power are rarer than those with firewood bodies, so souls are very rare."

"Furthermore, the lowest strength of the soul is also the Tianhe realm equivalent to the martial artist."

"Among the souls, the lowest level is the soul master! And among the soul masters, the lowest level soul master is equivalent to the Tianhe realm master!"

"Because, only by breaking into the Tianhe Realm, can it be possible to awaken mental power!"

"Now, there are some spirit masters, they are all spiritual powers that only awakened after entering the Tianhe realm."

"And most of the warriors who enter the Tianhe realm are unable to awaken their mental power!"

Chen Feng asked, "What about me?"

An old man smiled and said: "Your yin and yang power can be transformed into spiritual power naturally, so your spiritual power will be very huge!"

"You want to become a soul master, of course it is also a natural thing."

Chen Feng was very excited.

The soul is unpredictable, rarer and more powerful than the pharmacist, and he can rely on the body of yin and yang to directly become the soul, which is really great!

It's just an unexpected joy, a good thing that you can't even dream of!

But he has always been a very calm person, and after being excited, he asked:

"So An Lao, what kind of exercise should I practice now?"

"My Dragon Elephant Fighting Heaven Secret Art has disappeared, and it's over when I reach the second star of Tianhe Realm."

[Chapter 1000: Looking for clues to magic](#)

"What kind of exercises should I practice now to transform this yin and yang power into my true essence and into spiritual power?"

An old man glanced at him approvingly, and said: "You are not dazzled by this good news, which is very good."

"As for the exercises suitable for your cultivation, I can only tell you that they are extremely rare."

"There are many exercises in the Tianhe realm, but there are too few suitable for you, because the body of yin and yang is too rare. In this world, there are very few exercises set for the natural **** body of the body of yin and yang."

Chen Feng asked unwillingly, "Then can't I just find a practice method?"

An Lao glared at him and said, "Do you really think that the body of Yin and Yang is so easy to obtain?"

"Tell you, your body of yin and yang is not born, it is very unstable, and the power of yin and yang has reached a fragile balance in your body now."

"But as long as you practice a technique indiscriminately, causing an imbalance in the power of Yin and Yang, your body will suddenly explode to pieces!"

"But," he said with a smile on his face, "but I know that there is a magical skill that is very suitable for you."

Chen Feng suddenly breathed a sigh of relief and said, "Old An, can you not pant when you speak? You scared me to death just now."

The dark old man laughed: "I don't have this technique here, but I know the clues I'm looking for!"

As he said, he stretched out his hand, ejected a jade piece, and handed it to Chen Feng.

Chen Feng glanced briefly, and some lines were outlined on the jade piece, which looked like a map, and some text was written!

Chen Feng nodded and carefully collected the jade pieces.

This was his hope of finding a suitable method for his cultivation, and then he asked: "An old man, is there any other benefits of this yin and yang body?"

An old man nodded him: "You little slippery head, you are really not satisfied."

"Of course there are other benefits. But there are other benefits," he said with a faint smile: "It's useless if you know it now. I will tell you when the time comes."

"You can also realize it slowly. After a long time, you will know what kind of benefits this natural **** body will bring you!"

Chen Feng nodded, and did not ask any more.

"Right," Chen Feng looked at Anlao, and suddenly asked, "Anlao, where is Ziyue?"

In the past, Ziyue and Anlao always appeared at the same time.

Old An's expression dimmed, and said, "Ziyue suffered too much damage this time and fell into deep sleep."

"What? Ziyue fell into deep sleep?" Chen Feng's heart suddenly became tense when she heard it.

An old man nodded: "You don't have to worry too much, it won't be a major problem for the time being, but if it takes more than three months, it will be in danger."

"You must become a soul master within three months. Only the means of a soul master can awaken her."

"Because the soul master is dealing with the soul and spiritual power."

Chen Feng looked solemn and said firmly: "Within three months, I will definitely become a soul master and awaken Ziyue!"

Duan Yushu woke up the next morning.

She stretched out instinctively, making a comfortable sound in her mouth, her eyes opened, she didn't have the focus.

When his gaze fell on Chen Feng who was smiling on the side, she immediately realized something and quickly put her arm down.

Looking at Chen Feng, he said with some embarrassment: "I haven't slept so comfortably for a long time, I feel a little overwhelmed for a while."

Chen Feng smiled and said, "It's okay, it's okay."

He looked at Duan Yushu and said, "I am leaving here now, what are your plans next?"

When Duan Yushu heard it, his expression was a little sad.

Looking at Chen Feng's eyes, there was a trace of reluctance.

She didn't know why, but felt that she always felt very comfortable with this teenager who had been together for half a month.

At this time, I heard that he was leaving, very reluctant to give up.

She thought for a while and said, "I still have to go back to the family."

Chen Feng frowned: "Your family is outside of the Tulong Mountain Range, and here is the third layer of the Tulong Mountain Range."

"From here to the middle of your family, monsters are everywhere, unpredictable."

"Let's do it," Chen Feng said, "I'll take you back!"

"Huh? Really?"

Duan Yushu's face immediately showed surprise, and then she said a little embarrassed: "But that would be too troublesome for you."

Chen Feng waved his hand and said, "No trouble or trouble. Okay, that's it."

Duan Yushu nodded obediently.

Chen Feng's dominance gave her a feeling of dependence. She did not resist this feeling at all, but felt comfortable.

Soon, Chen Feng and Duan Yushu left the Tulong Mountain Range.

There was Chen Feng's protection along the way, and no dangerous situation was encountered.

Of course, the monster beasts have naturally encountered a lot, but now Chen Feng is powerful and has broken through to the two stars of the Tianhe realm.

And every drop of his jade-colored true essence is equivalent to a hundred drops of the true essence of an ordinary two-star master of the Tianhe realm.

Therefore, Chen Feng's current strength has almost reached the level of four stars in the Tianhe Realm.

The idle spirit beast is not his opponent at all.

With a loud 'bang', Chen Feng blasted out a punch, banging heavily on a rhino spirit beast.

This rhino beast is about the size of a small hill, thirty meters long and ten meters high.

Chen Feng looked rather small in front of him, just like an ant.

However, after Chen Feng blasted this fist, he directly blasted this huge rhino beast 100 meters away, slammed into a cliff, and directly crashed the cliff.

Then, the rhinoceros flew down, groaning in pain.

Chen Feng rushed forward and blasted another punch, directly splitting numerous huge wounds on his whole body, and blood spurted out like a waterfall.

When his head is tilted, he will die directly!

This rhinoceros spirit beast is a dignified fourth-rank spirit beast. This is a height that Chen Feng can't match at all.

After seeing this spirit beast, he would immediately hide away, and the farther he could run, the better.

But at this time, Chen Feng only took a stick of incense to kill him easily.

Chen Feng clapped his hands, showing a slight smile with a slight understatement, and walked to the rhinoceros-like spirit beast.

His hands were instinctively pressed on the wound, trying to absorb the blood, but before touching the wound, he retracted his hand.

A self-deprecating smile appeared at the corner of his mouth: "I'm really used to it. I have forgotten it. Now my Dragon Elephant Fighting Heaven Art has disappeared, and I can't transform the power of blood."

Chen Feng always felt a pity looking at the blood that shed all over the place.

He smiled bitterly and said: "I'm afraid it will take a long time to reverse this idea."
