

## Perfect WD 1081

### Chapter 1081 - Entering the Mine

The mountain region was dried-up, scorched black. The rocks were blood colored.

This was Origin Star. Shi Hao walked forward step by step, already approaching that ancient mine.

It had quite the reputation in history, taking the lives of who knew how many powerful individuals. Nowadays, pretty much no one dared take the risk, only slaves being sent out.

Of course, the lives of slaves were still lives, no one willing to waste them. Normally speaking, the slaves purchased by great sects were only used nearby to extract ore and not to enter the ancient mine.

Currently, there were figures everywhere, all of them slaves, their clothes ragged and shabby, working hard here every day, all for the sake of being able to continue living.

Shi Hao became one of them. However, he didn't stop, not cutting open the mountain range like the others, but instead heading directly towards the heart of this place.

This mountain region was extremely strange, incomparably sturdy, difficult for even heavenly deities to dig through. That was why for ordinary cultivators, this was extremely difficult work.

As he continued, many holes could be seen on the ground. There were figures everywhere, quite a few people busying about.

This was the result produced after slaves tried their hardest. The rocks were sturdy, comparable to powerful magical artifacts.

There were people who felt that the rocks here were extremely astonishing, definitely fine material for refining artifacts, able to be sold for great prices after being brought back to the outside world. However, when they left this place, everything changed, the rock material easily smashed to pieces.

Only in this place did the rock pieces, granules, mountain ranges, and other things remain outstanding.

Later on, everyone understood that this was because of the existence of Origin Ancient Mine, the secret force it constantly released affecting everything around it.

As Shi Hao headed further in, the ground became more and more quiet, and it became increasingly desolate as well, because there were less people the further in he went.

Hu!

A black-colored whirlwind blew past, turning a stone mountain into dust, filling the mountain range full of holes, the scene horrifying.

Fortunately, it didn't last too long, disappearing soon afterwards.

Shi Hao's eyes widened, a bit stupefied, finding this hard to understand. He saw it clearly with his Heavenly Eyes, that black whirlwind appeared from thin air, rushing out only after the void warped slightly.

“That is the power of the domain. It isn’t unusual for anything strange to happen in Origin Ancient Mine’s surroundings!” Someone warned.

Shi Hao became silent. This was precisely Origin Ancient Mine, just the outside abnormalities already like this. If he truly entered, what exactly was going to happen?

He began to worry a bit for his own life. However, did he even have a choice now?

The Wang Family was forcing him forward from the rear. If he turned around, there was no way they would agree.

“Dao brother, wait a minute!”

Someone transmitted sound from behind, quickly catching up.

These were experts sent by another great power, coming from different influential families and ancient sects, unexpectedly quite a few people. There were several dozen of them in total.

They were going to explore Origin Ancient Mine, the great influential families and ancient sects working together to head there.

It was clear that these were Death Knights raised by the clan after using up great resources. Now, it was the time to make use of them.

Only, Origin Ancient Mine was just too infamous. Even if these people didn’t fear death, they were still feeling a bit nervous now, thus moving together.

Finally, they were but a few dozen li from the entrance of the ancient mine.

This group of people stopped, their minds all shaken up. While looking at that dark black entrance, their hearts were all shoved up to their throats.

The ground surface around here wasn’t digged into that much, because few people could walk here, let alone dared to act in such a risky manner.

By now, this group only saw a few slaves scattered about, searching for divine materials in great cracks.

In this area, one would occasionally find Life Stones, as well as some other rare heavenly treasures, all things that the various sects desired, to the extent where even Immortal Gold could be found.

Only, now, those things were just too hard to find.

Ah...

Suddenly, a miserable cry sounded. A streak of rainbow light flashed over from the distance. Several slaves turned into bloody mist, and then evaporated into nothingness.

That was the radiance revealed after the void warped.

It was clear that it still originated from Origin Ancient Mine. This place was extremely unstable, occasionally releasing mysterious energy.

This seemed to be foretelling something, warning everyone not to take risks.

When there was still a thousand zhang distance between them, they could see the ancient cave clearly. It was pitch-black like ink, as if there was an abyss there.

What was shocking was that there were still slaves in this place. Even though it was just a few people, they were still working hard to search this area.

Shi Hao sighed. Even though these were slaves, they were actually all powerful individuals. For the sake of survival, they could only make a hard living here, only having a chance to live after obtaining some type of harvest.

Ah...

Miserable cries sounded. Heaven and earth source energy surged from that ancient mine, appearing on the surface of the earth, so several individuals wanted to go excavate that area, but in the end, they were all blasted apart.

It had to be said that even though these people had long made their preparations, this still dealt them quite the mental blow.

It was because even though the ones who died were slaves, they were all powerful individuals. However, they couldn't even take a single blow here!

This place became quiet, only Shi Hao and the several dozen people behind him left. They looked at the black cave a thousand zhang out.

That ancient mine was too deep. They could vaguely hear a breathing sound.

Those several dozen individuals' faces changed. That cave seemed to be accompanied by a faint rising and falling sound.

Shi Hao walked forward, starting to advance again. The others' expressions were serious, following afterwards one by one.

"Do we really have to enter? Not many who entered Origin Ancient Mine have been able to return alive!"

There were people who swallowed with difficulty, shaking with fear now. However, they didn't have a choice. There were people watching behind them, so if they didn't advance, they would be dealt with later.

"What is there to be scared of? I'll go first!" There was someone who was rather bold, quickly rushing forward. He wore black-gold armor, turning into a streak of dark light, entering the ancient mine.

This triggered cries of alarm. Not only were the creatures here shocked, even the powerful individuals watching in the distance became incredibly nervous.

In that instant, bloody light surged, blood blooming, extremely striking. He directly died, unable to live.

Shi Hao felt a bit strange. This ancient mine was too frightening, simply the most powerful archaic vicious beast, bloody mouth opened wide, waiting for creatures to jump in.

At the same time, he sensed an auspicious and peaceful aura. That was immortal energy!

Perhaps it really was as the Wang Clan's people said. Only those with immortal energy could return alive.

"There is no way out! A wave of mysterious power from this ancient mine has locked onto us!" Someone cried out in horror.

"Stop speaking nonsense. This is just a normal domain, all of us within its effective range. It isn't something a creature has released." Someone corrected, expression severe.

Weng!

The void warped, an expanse of ascension light suddenly appeared, drowning out everything nearby.

Ah...

Large amounts of miserable cries sounded, more than twenty individuals blasted through. Bloody holes appeared all over them, including the space between the brows, dying with their eyes still open.

It was because in that instant, they couldn't hide even if they wanted to. Their bodies were restrained by the domain, helpless as the rain of light scattered down, piercing through their flesh and primordial spirit.

Half of them died!

Shi Hao became vigilant. There were specks of light that flew towards him as well, but a strand of immortal energy within his body stopped it.

Then, he didn't hold back, releasing two strands of immortal energy, walking forward. He already came here, there was no way out.

When the others saw this, they clenched their teeth and followed.

Even though the following individuals didn't have immortal energy, they were comparatively luckier, not within the range of the light rain.

One step, two steps...

Shi Hao advanced, finally arriving before the black ancient mine. He raised his foot, entering inside, falling straight in.

"He... entered!"

The others' expressions changed, feeling hesitation.

"Just stake it all, we're dead even if we back out. As Death Knights, we should have this type of realization!"

The group of people all jumped down after him, but halfway down, large amounts of miserable cries sounded, falling while carrying horror and unwillingness.

In the distance, many people stood in the sky, watching the circumstances here. Those great figures' expressions all changed. This was too miserable, watching as those people exploded.

Shi Hao entered the ancient mine, falling for a long time before stopping. Then, what fell was a rain of blood, as well as white bone pieces. He knew that the creatures that followed him had pretty much all died.

He sensed a tremendous killing intent here. If not for the immortal energy around his body, he would have been immediately crushed to death.

Inside the ancient mine, there were some areas that were extremely dark, while there were other places that were brilliantly colored. There were also places where immortal mists swept about, making the scenery rather indistinct.

Not too far from Shi Hao, a human-shaped creature could be seen, incredibly aged. He wore a daoist robe, white hair scattering down to the floor, just too long.

At this moment, he confronted Shi Hao, a pair of pupils golden in color. They were like two small suns, releasing a terrifying aura.

Shi Hao broke out into a cold shiver. He had just entered, yet he already encountered a creature from this ancient mine?

He discovered with shock that the Ten Thousand Spirit Diagram had appeared on its own, releasing a hazy light, protecting him within, resisting this elder's aura.

Shi Hao's mind trembled. He had a feeling that if not for the Ten Thousand Spirit Diagram stopping this aura, he might have directly exploded before this elder!

"A corpse?!" He discovered with shock that even though this elder's eyes were like golden lamps, as if looking at him, he was actually an ancient corpse who had long died endless years ago.

This left him even more horrified. What kind of powerful figure was this, to be so lifelike even after death? Moreover, the aura this corpse released after death was enough to crush heavenly deities!

This... was unimaginable!

If this person was alive, just how frightening would he be?

Shi Hao shivered inwardly. This ancient cave was unimaginable.

This was only the entrance. This cave was extremely deep, and also extremely vast, only heaven knew what else rested inside.

"What era's creature is this?" Shi Hao's mind was shaken. This elder's daoist robes were ancient, and it was refined from the legendary Heavenly Cicada Shell.

Exceptional precious clothes!

This type of heavenly cicada clothes' value was immeasurable, difficult to find even a piece of!

Would he be able to obtain these Heavenly Cicada precious clothes?

After thinking about it, Shi Hao gave up.

This elder's strength was too great. Even though he died, he was still incredibly dignified, like a Great Emperor whose might crushed the Nine Heavens Ten Earths, overlooking the common people.

One could imagine that if there was no Ten Thousand Spirit Diagram protecting him, Shi Hao would undoubtedly be dead, unable to approach at all.

At the same time, in the depths of the ancient mine, singing sounds could be heard, melodious and pleasant to listen to. It was like sounds of nature, as if there was a fairy singing in disappointment and frustration.

"This singing voice seems to be from a living person, not imprints, not an ancient corpse. It is accompanied by an auspicious and peaceful aura. Who is she?!" Shi Hao could not calm down inside.

#### Chapter 1082 - Exploring the Unknown

The singing voice was faintly discernible, as if it sounded from a fairyland.

Inside the ancient mine, there were dark areas, places with flowing light, areas that had primal chaos condensed, regions that had immortal mists rising, continuously changing.

The ancient mine was brightly colored, accompanied by this singing voice, making it seem more and more mysterious.

Shi Hao calmed his mind, restoring himself to a cool-headed and calm state. He carefully sized up the surrounding scenery, searching for Life Stones and other things here.

In reality, no matter how calm he was, there was no way he could remain completely calm, mind completely clear. There was no other reason needed, it was only because this was Origin Ancient Mine.

From past to present, too many secretive things had happened here. Even the greatest heroes might die after entering this place.

Shi Hao was convinced that if not for the Ten Thousand Spirit Diagram around him, he would most likely be in danger. The aura naturally released by that ancient corpse was too frightening.

He moved forward in an agile manner, avoiding this ancient corpse, walking towards the cave. He opened his Heavenly Eyes, searching for the so-called Life Stones.

The ancient cave was dark and remote. After just walking a set distance, he discovered all types of side paths, stretching out like a labyrinth. He finally knew why even though so many people came inside, almost none of them could return.

Just this type of labyrinth alone might force ninety percent of people to stay behind, let alone other dangers.

Shi Hao thought for a bit, in the end deciding to continue along the most spacious path. Along the way, there were figures everywhere. He saw a few ancient corpses, none of them rotten.

During this period of time, he even saw a few ancient corpses walking, their faces pale, eyes a deep green.

In that instant, Shi Hao's scalp went numb, hurriedly evading, fearing that he might encounter them. It truly was horrifying.

It was because he knew that the corpses in this ancient cave hadn't rotted even now. They definitely had tremendous origins. This type of expert's remains developed intelligence, definitely terrifying.

Soon after, Shi Hao discovered that his choice in taking the most spacious ancient cave was a mistake. It was because it was just too dangerous.

However, he also knew that this should be the main path.

A black-colored large spider walked over, its movements slow. It was a zhang in height, completely silent, carrying a thick deathly energy. The eight spider legs were like black war spears, brandishing about and releasing kengqiang sounds, even penetrating through the void.

The ground surface was extremely hard, protected by the power of mysterious symbols. When the large black spider's legs landed on the ground, sparks flew in all directions.

In that instant, a spider leg swept towards Shi Hao. It moved absentmindedly, advancing forward, releasing deathly energy, brushing right past Shi Hao.

This spider's strength definitely exceeded sect master level! Shi Hao began to shiver inwardly.

Soon afterwards, he saw a large golden spider that was even bigger, ten zhang in length. It formed a web in the ancient mine, golden spider silk weaving about, blocking the ancient cave.

This was still a dead spider. Even though its entire body was golden, regardless of whether it was the powerful death energy or rigid movements, it gave away the fact that it had already been dead for many years.

However, this large spider really was extremely powerful, not inferior to the old daoist by the entrance.

Shi Hao could clearly sense that if not for the Ten Thousands Spirit Diagram protecting him, he would not even be able to stand here. He tried throwing a heavenly deity magical artifact onto the ground.

Kacha!

As a result, that dagger shattered on the spot, splitting apart under the golden large spider's corpse energy, turning into powder, completely obliterated.

One could imagine what the results would be if a true heavenly deity stood before it. There wouldn't be any exception.

This place truly was too dangerous!

Shi Hao's expression became extremely gloomy. He looked at this large golden web, and then at that enormous spider, feeling his heart pound greatly. Fortunately, it was a dead creature, only having a muddled consciousness, just a bit of awareness the corpse developed after its death.

This place was extremely special. Even though the ones who died were all exceptionally powerful individuals, it was just too difficult to truly revive from death, producing creatures similar to those from Underworld Earth.

The ancient mine was a bit strange, suppressing this type of reversal and transformation.

When Shi Hao saw the great golden web, he was greatly shaken up. He saw the truth. This spider silk was all produced by this golden spider king when it was alive, not produced after its death.

This left him feeling a wave of horror!

There were creatures that survived in Origin Ancient Mine? Even though it died later on as well.

He couldn't help but think of the things the Wang Family told him. This ancient mine was incredibly ancient, to the extent where it was even older than Immortal Ancient Great Era. It had been filled in by someone unknowingly when in the last great era, but in this great era, someone once again dug it up.

Shi Hao felt a chill run down his back. This place was too sinister, and it was extremely terrifying even in the past, even a spider that used to live here in the past becoming an exceptional expert.

He suspected that a long time ago, such a long time ago that the world already had no records left, even more distant than Immortal Ancient, there was an inconceivable wondrous land here. Even a little spider that lived here grew up to become a great expert in the eyes of later descendants, but due to various reasons, this place became a land of death. When later generations excavated it, it became an ancient mine.

Shi Hao felt that it was quite absurd. Why did he suddenly think this kind of thoughts? He forcefully shook his head, continuing forward.

"En?"

Suddenly, he stared at the spiderweb, his heart tempted. This was definitely a rarely seen wondrous substance among heavenly treasures. If he could obtain a bit and bring it back, it would definitely have great uses.

Only, this ghost spider crawled on top, a bit frightening.

Shi Hao tested it out, but he discovered that the spider web was too sturdy, unable to tear down a small piece no matter how hard he tried, unable to bring it away.

Moreover, he ended up provoking this ghost spider in turning its head, rigidly moving its body over. He immediately panicked, hurriedly rushing past the spider web towards the depths of the ancient mine.

Dong!

Right at this moment, the golden spider moved, terrifying beyond Shi Hao's imagination. It was clearly a corpse, only having a bit of muddled awareness. However, once it displayed power, it was still terrifying beyond compare.

This large golden spider's casual attack alone collapsed the void, that type of aura giving one the feeling that it could easily blast down the sun, moon and stars!

Even with the Ten Thousand Spirit Diagram protecting him, even though he already ran far into the distance, Shi Hao still felt as if an archaic barbaric ox rammed into him.

With a hong sound, he directly flew outwards.

He slammed firmly into the ancient mine's stone walls, his entire body almost deforming. The rocks here were too sturdy, covered with mysterious power.

Blood trickled out from the corners of Shi Hao's lips, receiving serious damage!

It was because in that instant just now, he sensed that the mysterious power in the ancient mine was unexpectedly able to resist the Ten Thousand Spirit diagram, weakening its defensive power.

This was something that had never happened before. The Ten Thousand Spirit Diagram was always extraordinary, even though it didn't possess offensive power, its defensive force was extremely great, generally speaking, no one could break through.

Yet now, this type of thing happened, leaving Shi Hao horrified.

He quickly left the stone wall. He saw an expanse of light recede and disappear.

Shi Hao turned around, seeing that the great golden spider was moving in his direction. He quickly ran, escaping from this place.

"More than ten broken bones, inner organs all injured." Shi Hao wiped away the blood from the corners of his mouth. The impact from slamming into the cave wall just now left him with such serious injuries.

Were they all dead things? no

The enormous ancient mine didn't have anything else, all these dangerous things, making him feel waves of fear. He always felt this feeling like he had entered a country of death.

Moreover, there were no small soldiers in this country, all heavy hitters, all produced after the most powerful beings of the past died.

Right at this moment, immortal mists swirled about. Shi Hao quickly rushed over. Even if he couldn't obtain Life Stones, he still had to find the source of immortal energy, cultivate there for a period of time.

It was because this was too important. For cultivators of this period, that was the most precious dao.

"There is a strand of life energy?"

Shi Hao was shocked. In this lifeless place where the corpses of exceptional experts could be seen from time to time, he actually sensed a type of life fluctuation.

Even though it wasn't that concentrated, it gave others a special feeling, incomparably peaceful and divine. That type of life energy made one feel as if they would ascend and immediately become an immortal.

The injuries on his body seemed to immediately make a turn for the better, as if they were going to heal right now.

Shi Hao revealed a look of surprise. He slowed down his footsteps, using his powerful divine senses to capture it. Then, he followed a mine tunnel, wishing to get to the bottom of this.

When he first entered the ancient mine, he had previously heard a woman's singing voice. Could it be that this strand of life energy was released by her?

Shi Hao began to suspect this, but then he didn't feel like it was quite right.

Just like that, he continued forward, encountering great danger. If he didn't have the Ten Thousand Spirit Diagram, it would definitely be hard for him to move even an inch, unable to walk through this place at all.

It was because the aura these skeletal remains released was fierce and oppressive, able to easily kill heavenly deities!

Just how powerful were these individuals when they were alive? They had already died for endless years, yet the fluctuations their bodies naturally emitted was like this. It truly was ridiculously powerful.

Shi Hao didn't relax. Even though he had the Ten Thousand Spirit Diagram on him, he knew that it was extremely dangerous right now, terrifying things definitely still waiting.

A single mistake here would result in eternal damnation, body and spirit erased.

There were dangers everywhere, and even more abnormalities. For example, he saw countless heavenly troops and generals walking into the distance, appearing incredibly sinister.

He wanted to try and get closer, but in the end discovered that it was pretty much impossible.

That path connected to the void, and it was a broken road accompanied by primal chaos. Those ancient soldiers wore ice-cold armors, walking on broken roads, accompanied by primal chaos as they directly disappeared.

"What kind of blasted place is this?!" Shi Hao was a bit stupefied.

Fortunately, the life energy ahead was even more thick, and there was a medicinal fragrance that wafted over, making him startled. Could it be divine medicine?

This ancient cave was unimaginably long, weaving and bending. Shi Hao moved about underground, unknown just how many li he traveled. Finally, he smelled a strong medicinal fragrance.

He knew that this was definitely a world shocking divine medicine. This type of fragrance was too special, a single whiff making one's body feel extremely uncomfortable, as if they were going to float into the air.

Moreover, after arriving in this place, there were much fewer corpses, eventually none in sight.

After traveling another few li, Shi Hao felt as if he was going to ascend. His spirit was full, body feeling more and more comfortable. A hazy rain of light rested ahead, everything indistinct.

This type of scene was too astonishing, making this entire ancient cave surge with vapors, clouds tinged with sunset hues everywhere.

However, even though he knew that there was endless death energy, large amounts of exceptional experts buried within this ancient mine, there was also a stalk of undying immortal medicine!

Chapter 1083 - Long Life Liquid

Shi Hao sped up his footsteps, rushing over.

Sure enough, he saw a strange scene. There was a pool there that wasn't that large. Auspicious energy surged within, a sweet fragrance wafting out!

Moreover, he vaguely saw a stalk of medicine, barely sticking out of the pond, possessing an indescribable type of spirituality.

Even though it was indistinct and there was primal chaos all around it, he could still roughly make it out. That sparkling and translucent plant unexpectedly jumped out, turning into a little beast and quickly running!

Shi Hao released a large cry, using great divine abilities, wishing to stop it from leaving.

Unfortunately, the little beast was surrounded by immortal mist, too fast. It rushed into the depths of the ancient cave like a streak of flowing light, along the way even more so tearing apart the void.

Shi Hao felt rather dejected and disappointed. That was a long life medicine! He had the luck of encountering it, yet it actually escaped just like that.

He knew well that once the long life medicine was disturbed, wishing to capture it again was too difficult. This type of thing was extremely sensitive, able to flee through the sky or earth, difficult to truly capture.

When one examined all of history, how many stalks of long life medicines were there?

These things, forget about an era, it might be hard to see one even within several hundred eras, let alone picking and capturing one.

Based on what Shi Hao understood, the three thousand provinces only had one stalk, and that was buried in the lower realm, later on brought back into the higher realms.

Of course, if Immortal Ancient Remains' White Tortoise Carrying Immortal was included, then that would be two stalks.

One could see just how rare it was, an ancient land only having two stalks.

Shi Hao was unwilling to give up. He chased after it, but just like he had suspected, it was completely futile. This type of long life medicine didn't have any fighting strength, but if one were judging by its ability to run, they were all at the top of the world.

"What a pity, what kind of beast is this?" Shi Hao was regretful. He couldn't even see that little beast's true body clearly before it ran.

Inside this ancient mine, he finally saw a living creature, and it was a stalk of immortal medicine. His emotions rose and fell greatly, yet he still ended up with nothing.

Sigh!

Shi Hao released a rare sigh. He really found this hard to accept...

This Origin Ancient Mine actually had this type of long life medicine, yet he had no way of capturing it.

“Why is there still this type of fragrance?” He was shocked. He turned around and walked back, seeing that pool.

The pool wasn’t that large, roughly five square feet. The liquid inside was sparkling and translucent, accompanied by wisps of primal chaos. Apart from this, there was auspicious light that rose from time to time, turning into a rain of light. A sweet scent entered his nostrils.

“En, this pool is quite special!” Shi Hao was both shocked and surprised. He immediately thought of something.

Back then, he had heard that Divine Temple’s Ancient Holy Child had great natural luck, discovering a primal chaos pool in Immortal Ancient Remains, within it mysterious liquid that allowed his flesh to undergo a transformation.

Back then, there were people who suspected that the so-called precious liquid might have been left behind after an immortal medicine melted.

Shi Hao seemed to have realized something, immediately becoming excited.

He cupped his hands and raised some of the water, placing it into his mouth, carefully tasting it. This was the fragrance of medicinal herbs, extremely fragrant, immediately making his seriously injured body become a bit better.

Upon closer inspection, he saw damaged leaves at the bottom of the pond, broken stems, even roots. However, they were all melting, becoming one with this pool of water.

“This is it!”

Shi Hao cried out in alarm, finally understanding that this was related to that long life medicine.

“That has to be it. The long life medicine underwent rebirth, the new body removed a layer of old skin, acquiring new life, escaping as a result.”

He immediately understood. The divine effects of the liquid left behind after long life medicine melted in the divine spring was incredibly shocking!

In this world, it was hard to find undecaying existences, but this long life medicine was definitely one of them. Each time their lifespans were reaching their end, they would undergo rebirth and come back to life.

The little beast that transformed from the immortal medicine just now was like this. It released a few leaves, shed some old skin, directly becoming nourishing holy substance.

These things became one with the divine spring, turning it into a natural precious medicinal liquid!

Shi Hao quickly set a formation to prevent the spiritual essence from leaking out, causing this place to surge with mists, the fragrance even more rich.

Gudong!

Shi Hao drank a large mouthful of the sparkling liquid. The broken bones, inner organs, and other things quickly healed, simply miraculous effects.

This pool of precious liquid with specks of light flickering about, chaotic energy pervading the air, the value was definitely tremendous.

Shi Hao believed that this was even rarer than Life Stone, obtaining this pool of precious liquid was worth more than anything else.

Unfortunately, this still didn't match true immortal medicines. After all, it had only shed a layer of skin like a snake, only the outer shell.

"This place isn't bad. There is a pool of long life liquid, I can cultivate here! There is no rush to leave!" Shi Hao said softly, feeling incredibly satisfied.

Even though Origin Ancient Mine was dangerous, for him right now, this was a cultivation holy land.

---

Immeasurable Heaven, heavenly deity institution.

In this region, purple energy surged, the land rising and falling like dragon veins. Divine birds spread their wings, auspicious beasts moved about, this place withdrawn from worldly affairs like a true immortal cave.

This region was extremely vast, impossible to see the limit from a single look.

From the outside, this place looked auspicious and peaceful, but it was full of competition, incredibly fierce, not an easy and comfortable place.

Today, a few youngsters paid a visit, entering the heavenly deity institution, bringing a piece of news that triggered quite the commotion.

"Huang is still alive, didn't die, he arrived alone from the three thousand provinces to Immeasurable Heaven!"

News quickly spread, triggering great waves, many people attaching importance to this.

It was because Shi Hao cultivated three strands of immortal energy, this fact something people had been aware of for a long time. Even though he never came here, others already took note of his name.

"Didn't he disappear in the Three Thousand Dao Provinces forbidden region depths' Emperor City battlefield?"

There were some who were confused, because they had personally experienced that trial.

In the past, the three great experts had searched again and again, roaming about for three days, but they didn't find him, all of them assuming something unexpected happened to him, that he was no longer in this world.

Who would have expected that he actually arrived in Immeasurable Heaven, appearing alive.

It was clear that the ones who sent over the information were the geniuses who came out from the Ascension Platform. They came from great families, now hurrying over to the heavenly deity institution

to bring Shi Hao's news, informing them that Yuan Qing sent him to Origin Ancient Mine, treating him unfairly.

"Yuan Qing, someone on that side!" There were higher level figures talking softly, eyes revealing divine radiance.

Time was pressing. Heavenly deity institution's experts immediately moved, heading to Origin Ancient Mine.

Soon after, the geniuses in the courtyard all heard the news, all of them appearing.

Cao Yusheng, little rabbit, Chang Gongyan, and others were worried, fearing that something unexpected happened to Shi Hao, hoping that he could return alive.

"Hah, heaven really is jealous of heroic geniuses... someone with the so-called three strands of immortal energy was actually sent to Origin Ancient Mine!" There were also those who took joy in his disaster.

"This person was rumored to come from the weak Three Thousand Dao Provinces, but he himself isn't simple. What a pity, it will be hard for him to rise up. Even if he returns alive, what can he do?" Someone laughed coldly.

It was because Shi Hao was already a few months late. Saving him will take some time, and by then, it will already be hard for Huang to stand out from the others.

Not being able to rise up in the beginning within the heavenly deity institution mean that he would be left hopeless later on as well. It was because the best immortal dao resources were already received by the most excellent, used up already.

Not far out, Emperor Clan noble ladies arrived, vigorous and strong young outstanding talents emerged. They were all supreme beings of their generation, their accomplishments immeasurable.

"Wang Clan's young miss, you are an immortal descendant, divine senses sharp. What do you think, will this Huang be able to return alive?" Someone asked.

The atmosphere quickly calmed down, because a long life family's noble lady arrived at the Path of Awakening, just coming out from seclusion, invited over to give her opinion.

"He missed out on the decisive opportunities, a pity!" This exceptionally beautiful woman said, gently shaking her head.

Everyone understood. The so-called missed decisive opportunity she spoke of was Shi Hao coming a few months late, unable to fight for the rare precious medicines, Phoenix Blood Pool and other things.

"Correct, Huang missed out, losing out on his opportunity. The Phoenix Blood Pool has already dried up, he has no way of using this to undergo transformation!"

A young supreme being walked over and said.

"He can slowly try to catch up, but the opportunities in heavenly deity institution are unrelated to him. Even if he hurries over, he wouldn't be able to compete with the other individuals who cultivated three strands of immortal energy."  $n \rightarrow \infty$   $\forall \epsilon > 0$   $\exists N$   $\forall n > N$

The others weren't very optimistic about Shi Hao, feeling that fate was playing a joke on him, having him miss out on heavenly deity institution's greatest opportunities.

"Unless he can find a long life medicine, only then could he compare to the Phoenix Blood Pool, Immortal Caves and other opportunities. Otherwise, everything has already been set in place."

---

Origin Star, several experts descended.

They were the heavenly deity institutions' experts. After receiving news, they immediately hurried over, wishing to rescue Shi Hao.

"Yuan Qing has crossed the line. Does he not fear being suppressed?"

"He is someone from that side, that is why he dares do something like this. There was definitely someone who stirred him on, allowing him to act fearlessly."

They discussed among themselves, quickly arriving near the ancient mine.

They didn't expose their identities, walking about in secret in search of Shi Hao's whereabouts.

Soon after, they understood that Shi Hao purchased by someone as a slave, and then sent into the Origin Ancient Mine.

"Aiya! How could it end up like this?!" An expert from the heavenly deity institution cried out, face becoming pale. This time... they actually came late.

"This is a great genius, yet he died just like that, it is too much of a pity... he hadn't even had the time to dominate the world yet!"

The experts who came from the heavenly deity institution all felt their faces lose color. They were a step late, feeling anger inside. Their eyes that looked at the people here were ice-cold.

Those people really wanted to take action and directly suppress all of the creatures here.

However, they endured it. If they unleashed a massacre like this, it wouldn't change Shi Hao's fate.

Then, they didn't immediately leave, instead waiting outside Origin Ancient Mine, just waiting for a miracle to happen, wait for Shi Hao to come out.

However, day by day passed, most of a month continued without Shi Hao's appearance.

With things already like this, their minds were heavy, faces unpleasant. A great genius withered away just like this, unable to rescue him, this was a tremendous loss.

"Go!"

In the end, those people left, returning to the heavenly deity institution, going to report to the higher levels, tell them what happened, as well as ask for instructions, whether they needed to attack or not.

When news reached the heavenly deity institution, forget about the higher levels' reactions, just the geniuses from various clans discussed passionately, clamoring everywhere.

"A heaven warping genius fell just like that."

"I originally thought that he might be able to return alive... even though it would have been hard for him to rise up, suppressed by some people, who would have thought that his life was directly lost?!"

"Is Huang's legend going to end here?" At this moment, even Yue Chan's expression was complicated, saying this softly.

Chapter 1084 - Disorder in the Institution

Heavenly deity institution, this place was not peaceful at all.

Forget about those heaven warping geniuses, even the people who came from the three thousand provinces found it hard to believe that Huang died just like that, falling in Origin Ancient Mine.

White clothes fluttered about, quiet and exquisite. A green moon suspended above the black hair. Qing Yi was currently absent-minded, tears carried in her eyes, full of sadness.

She suddenly raised her head towards Yue Chan who wasn't far out, saying, "I agree, let's merge. However, there is one thing you have to promise me, and that is that in the future, we have to kill Yuan Qing!"

Yue Chan turned around, looking at her, saying, "You really have set your resolution?"

The two of them had fought for who knew how many times, yet never merged together. Now that they received news of Shi Hao's death, Qing Yi came to this type of decision.

"I am sure!" Qing Yi said. Qing Yi floated in the sky, scattering down gentle lunar splendor, making her look increasingly extraordinary and aloof.

She gave up on her biased views and struggles, deciding to merge together. This was all for the sake of growing stronger, cultivation path becoming more smooth.

When Yue Chan heard this, she shook her head, saying, "After coming here, I've examined many ancient books, right now isn't the best time to emerge. For the sake of becoming stronger, we still have to cultivate to a high level. Once we both attain higher cultivations, both of us will become female sovereigns. Once we merge together then, who will be able to face us?"

"Are you sure you wish to give up this chance?" Qing Yi looked towards her.

Yue Chan revealed a rare emotional fluctuation, saying, "You are already no longer clean, I really want to kill you immediately. However, when considering the most powerful path, for the sake of the future's unpredictable changes, I can barely accept it. Only, I hope that you mention Huang less before my face. Even after merging together in the future, I still wish to remove the old memories of him!"

Even though Qing Yi carried watery mist in his eyes, she couldn't hold herself back from retorting, saying, "Am I not you? If I am unclean, can you call yourself pure and holy? That day..."

"Shut up!"

The two fairies unexpectedly began to argue, drawing attention.

"How could he die like this? I really can't believe it! What kind of blasted place is that Origin Ancient Mine? Is it a grave? Just because he got stuck inside doesn't mean that he is definitely dead!" Cao Yusheng mumbled.

Someone sneered, saying, "Dao brother here, you really don't understand Origin Ancient Mine! Once one enters that place, no one can come out alive. Only when unexpected things happen, can a few lucky individuals escape. However, now, many days have already passed, yet he hasn't shown himself, he is undoubtedly dead."

On the other side, the little rabbit hung her head, her head of bright silver head dropping. She was currently hugging a Golden Ginseng, nibbling on it, depressed, chewing on it like it was eating a radish.

When she heard that person's sneer, her large ruby eyes immediately widened. Then, while carrying the young Qilin beast, she fiercely attacked that person.

Dong!

"Aiyou!" That person released a miserable cry, feeling extremely puzzled why he was suddenly attacked, his body now in great pain.

At the same time, a faint cry of pain sounded. That little White Qilin actually had its beautiful dream ruined, smashed out like a rock, making it cry loudly, incredibly pitiful as it looked at the Lunar Jade Rabbit.

Everyone became stupefied. Even the Qilin was thrown away, treated like a weapon like this, it really left others a bit speechless.

If it was not the heavenly deity institution, the others' eyes would have long gone red, fighting over the White Qilin.

"My big brother won't die!" To the cultivators of the Three Thousand Provinces' surprise, Qin Hao clenched his fists tightly, face sinister, expressing his opinion on this matter.

Many people already knew that there was a bit of awkwardness between these two brothers, Qin Hao always wishing to surpass his older brother, wishing to prove something.

However now, he displayed this type of reaction, leaving a few people somewhat shocked, not quite the same as the situation they had previously thought of.

"I am not willing to believe brother Shi has died either." Chang Gongyan and Dragon Girl said, the two of them sighing.

"Haha..." Someone laughed, clearly not a cultivator from the three thousand provinces. This was a young supreme being from a different ancient land. "Already entered Origin Ancient Mine, yet still want to return alive, what, are you going to ask the sun to rise from the west next?"

"Wu, rumors had it that Huang had a few methods, strength unordinary. What a pity, I won't be able to fight and suppress him." Another person said.

"What are you all saying?!" The little rabbit cried out, holding that White Qilin beast in her hand again, looking like she was going to smash it outwards.

Even the others were stupefied. This little girl's temper really was great, even daring to treat the Qilin beast treasured by the heavenly deity institution like a rock.

"What is so special about Huang? Died in Origin Ancient Mine, having a few mysteries is his luck. If he came to heavenly deity institution, I promise he'll be knocked straight down!" Someone secretly sneered.

"Who?" At this moment, a youngster opened his eyes, coldly saying. He had dual-pupils, this person precisely Shi Yi.

Even though he stood against Shi Hao, regardless, the two of them had fought a life or death battle together, fighting until they were inseparably close, in the end, because of this, everything was pretty much let go of.

At this moment, someone looked down on Shi Hao. Not only was this doubt towards his strength, this was also a type of contempt.

"Hah, just a dead person, what is there to discuss?!" Someone else sneered.

"Just come at me then, I'll fight against you!" At this moment, Qin Hao spoke, glaring as he shouted.

"Brat, you are still too far off. You can jump out when you reach heavenly deity level. Otherwise, you won't even know how you died!" Someone was quite direct, speaking like this.

This place became noisy. A few people began to argue because of this, disputing over someone who they thought to be dead, drawing attention.

At this moment, a voice suddenly sounded. "What is the point of all this ruckus? It is just a death person, not worth discussing further. If anyone is unwilling, they can come challenge me. If Huang really survives and is confident, he can come fight me!"

That was a green-haired individual. He sat on a wondrous rock, surrounded by primal chaos, hazy and indistinct, voice like thunder, shaking up many people's bodies until they trembled, unable to support themselves.

"It's him!"

Many people felt restraining fear, not daring to face this person. It was because he was just too well known, an ancient immortal's descendant, someone who came from a long life clan.

In this place, he defeated experts from all sides, difficult to face head on, definitely one of heavenly deity institution's most powerful disciples!

"I will fight against you!"

Someone shouted from the Three Thousand Dao Provinces side.

Suddenly, an aged voice sounded. "This is the heavenly deity institution, a cultivation holy land, not a place for you all to make a racket. It is beneath your identities!"

"Exchange of pointers is allowed, but quarrels and murderous enmity is not!" There was another person that spoke fiercely.

“If you are unwilling or unconvinced, then feel free to go to Origin Ancient Mine and look around. We currently have this type of intention, permitting disciples to go out to train. That Origin Ancient Mine is quite strange, if you all do not fear it, then you may go there to sharpen yourselves.”

Someone from heavenly deity institution’s higher levels came to this type of decision, immediately triggering a great commotion.

Of course, this was not forcing the students, but giving them the choice. If any disciples wished to challenge the limit, they can go there. The institution would grant them some powerful assistance and other things.

“Alright then, let’s see what that Origin Ancient Mine really like. If there is an opportunity, if I can have the academy’s secret treasure’s assistance, I am willing to look around inside that ancient mine!”

A few people were extremely strong-willed, replying like this.

These creatures came from the Nine Heavens Ten Earths, belonging to other ancient lands, all of them the most powerful young outstanding talents of their respective clans. Right now, they couldn’t remain calm, really wishing to go there to prove themselves. n--Ⓣ)-v-/ℰ--l)(b).l)-n

“Really going to Origin Ancient Mine?” Ten Crown King who came from the three thousand provinces suddenly spoke, drawing attention.

This was a powerful figure. He wasn’t that high-profile in this institution, but there were definitely but a few people who dared provoke him. He always walked at the very forefront on the road of cultivation.

Soon after, everyone sensed that he had a World Tree sapling, perhaps able to suppress all abnormalities, protecting him in that mysterious mine.

“I lack Life Stones, need to head there. If there is an opportunity, who knows, I might find some.” Someone said.

Soon after, a few people wished to stay together, not necessarily entering Origin Ancient Mine, but instead to search for heavenly treasures in the outer regions.

---

Origin Ancient Mine, within the cavern depths.

This area was overflowing with light and colors, the pool water surging. Shi Hao sat inside, the effects he received truly great. He was currently comprehending the dao and cultivating.

Shi Hao’s previous injuries had already healed, his dozen or so broken bones currently connecting.

This was long life liquid, able to mend his flesh, nourish his primordial spirit, benefits endless. Soaking within, all desire for power and cultivation was flung aside, allowing him to completely clear his mind.

The pool water shone, accompanied by chaotic energy and flowing with immortal dao energy. This pool of water’s effects were too great, he couldn’t let it get away.

There was even more so waves of fragrance, but today, he finally couldn’t smell it anymore.

All of this now belonged to Shi Hao. However, once this place was broken through, the owner could easily change.

It had already been more than ten days. Shi Hao's foundational energy was flourishing, extremely powerful, trying to transform himself the entire time.

Hu!

Shi Hao released a breath, this was natural essence, giving people a strange type of feeling that the energy turned into a pure and holy True Dragon, that it was actually immortal energy.

Great dao divine sound rumbled!

Shi Hao cultivated in seclusion here. Not only did he recover from his body's injuries on the first day, his body was still continuously being refined, obtaining many, many benefits.

Half a month later, the entire pond began to boil.

Shi Hao was operating a type of bone text, training his flesh, making this place look more and more holy and divine.

Later on, three strands of immortal energy all appeared, all of them rushing to his head. They turned into all living things, and then it was as if ten thousand dragons were competing for supremacy.

Moreover, during this process, astonishing changes took place. One of Shi Hao's original strands of immortal energy already changed into a great dao flower, floating near him.

But now, the feeling he got was different. After obtaining the nourishment of this pool of precious liquid, it was absorbing immortal dao energy!

Wenglong!

It was as if a great dao thunder struck down!

Shi Hao sat in the precious liquid, not moving an inch. However, there were strange scenes that happened above his head. A strand of immortal energy formed a great dao flower, creatures seemingly contained within it.

Hong!

Several days later, when a great dao flower bloomed, a small figure appeared within. It sat on the flower petal, vivid and lifelike, appearance dignified.

Chapter 1085 - Cultivating a Monster

In reality, this great dao flower had already bloomed before, the dao fruit he obtained from the Ascension Platform.

Only, after coming here, everything became different. After receiving the long life medicinal liquid's nourishment, it blossomed and withered, falling and then rising again, continuously undergoing change, ultimately producing these results!

When the flower bloomed for the final time, that was when this creature appeared.

It was human shaped. The moment it opened its eyes, energy surged, endless divine radiance was released. It was as if Li Fire burned the heavenly dome, as if the nine great heavens were going to be struck down.

This type of scene was extremely astonishing. Right at that moment, there were terrifying rays of light that swept out even from the Origin Ancient Mine entrance, the light rays illuminating the dark world.

The people outside were shocked. What was going on?

Everyone was deeply moved as they watched this scene from the distance, feeling that it was inconceivable.

At the same time, they all sighed. The people who entered during this time likely all died. Whenever something unexpected happens in the ancient mine, there would definitely be great danger, no one able to escape.

“What a pity, an exceptional talent who cultivated two strands of immortal energy withered away just like that, not having the slightest chance of coming out alive!” The Wang Family’s people sighed, finding this truly hard to take.

At the same time, they felt like they were too rash this time, losing such a powerful heroic talent, a great waste! If they restrained their greed and ambitions, sending him to the young miss’ side to serve her, then that would be an extremely powerful helping hand.

After who knew how much time had passed, only then did Shi Hao widen his eyes in the ancient mine. He sensed some type of reaction, raising his head towards the great dao flower in the void. A creature sat on top, eyes deep, shining brilliantly like a golden lamp, a blazing sun, so brilliant even his eyes felt a bit of pain. It was currently looking at him.

This type of feeling was extremely strange. He felt like that was himself, but why was there a distant feeling?

Shi Hao looked at it, always feeling that it was a bit strange, and also quite sinister. That creature was extremely indistinct, surrounded by primal chaos. The strand of immortal energy it sat on turned into a great dao flower petal, steady, firm, quiet, looking even more solemn than him, as if it was an ancient monk who achieved the dao.

Shi Hao was a bit speechless. What kind of situation was this? What kind of monster did he end up cultivating?

He opened his Heavenly Eyes, able to see that the creature in the primal chaos mist was extremely similar to him, yet the size of a fist. It sat there, appearance dignified.

The two of them had some type of relationship, but when Shi Hao used bone texts, activated his divine awareness, trying to control it, there was clearly a bit of hindrance.

That flower moved as he willed it to, great dao energy pervading the air, able to communicate with heaven and earth, affecting the natural laws of heaven and earth. It could fight for him, extremely powerful!

This great dao flower was astonishingly powerful, exceeding normal people's imaginations.

Only, the creature seated on the dao flower seemed to be somewhat distant, not accepting his control. It was as if there was a chasm separating them.

Shi Hao frowned. This was something he cultivated, so why wasn't it affected by his control?

Upon closer inspection, he discovered that there were time fragments fluttering about the creature's surroundings, specks of multicolored lights surging, moving about in the chaotic energy.

Even though this scene wasn't that clear, Shi Hao had Heavenly Eyes, so he could sense them. Moreover, this was something he cultivated, so he was naturally sensitive to it.

He became more and more confused, his brows tightly locked together. This type of feeling was too strange, he seemed to be looking at one of his past selves, extremely close, yet extremely far.

Correct, it was this type of feeling that Shi Hao was clearly sensing!

He looked at those creatures. Even though they were quite close, as time went on, the fragments scattered away, fading, resonating with the world, disappearing into the distance.

"He lives in the past?!"

When Shi Hao spoke these words, he frightened himself, face becoming a bit pale. How strange was this?

He couldn't comprehend, couldn't understand!

However, he had this type of feeling. It was absurd, ridiculous, not realistic at all.

He cultivated a monster that didn't belong to the present, didn't belong to the future, as if it lived in the past, yet was still this close to him.

The reason why he couldn't control that creature was because there was time separating them, many fragments of time that turned into a rain of light, surrounding that place.

Shi Hao immediately became distracted. What exactly was the reason that led to this result? He couldn't really see through it, unable to figure it out.

Was this the result of cultivating in seclusion for most of a month? What kind of dao fruit was this?!

Shi Hao tried several times, each time discovering time fragments fluttering about within the primal chaos. The aura of time became more and more thick, this type of feeling really too strange. He really couldn't move that creature.

However, he had a type of feeling that this creature was extremely important to him, that it would display great use in the future!

Then, he thought of the other two strands of immortal energy. If they were condensed into great dao flowers as well, would there be dao fruits as well, producing different creatures?

When Shi Hao thought of this, he thought it over silently for a long time. What exactly was going on today?

He didn't recall this type of situation recorded in any of the bone books he had read before. Cultivating a great dao flower was one thing, but how could it be like plants, the flower bearing fruit?

To be more precise, the flower didn't fall, but there was fruit -- that unknown creature.

Shi Hao got up. He gave this precious pond a look, examining this sparkling liquid. Was it this pool of water that brought about all of this?

He shook his head, confident that this wasn't the case. Even though this pool had the remains of long life medicine, turning it into Long Life Liquid, able to nourish the spirit, mend the body, refine one's body and spirit, it couldn't affect his dao fruit. This was still an external matter in the end.

It could be said that it could only help stir on a transformation, but it couldn't decide his path or direction, because this was the path that he forged himself.

"Then this means that my path, my dao, was like this to begin with. The first strand of immortal energy should have formed a great foundational core, forming a creature? Unrelated to the past."

Shi Hao was full of expectation. If he really could use this dao fruit in the future, what kind of effects would it have then?

"Wu, if the second strand of immortal energy also formed a great dao flower, producing a fruit, a creature appearing from it, would it be related to the present?"

Shi Hao guessed randomly, his mind unable to calm down.

He stood up, walking around here. After cultivating in seclusion for the majority of a month, he wanted to stretch his body out a bit, take a look at the surrounding situation.

However, he didn't go too far. This ancient mine was too dangerous. This was a rare calm place without terrifying creatures wandering about, a place where he could enter seclusion cultivation.

"This is a rare opportunity, there is still a larger half of this precious liquid left. I should continue cultivating in seclusion. If I could make the second great dao flower appear, then that would be great. I can then confirm my theory!"

Then, Shi Hao entered seclusion again. He wanted to catch up to the others who entered heavenly deity institution, couldn't fall behind.

It was because he knew that heavenly deity institution had all types of great opportunities, for example, the Phoenix Blood Pool that allowed one to undergo rebirth and other things, every single one of them supreme divine matter in the outside world, things that couldn't be begged for.

He was already behind. Now that he saw an immortal medicine pool, he naturally couldn't miss out on this opportunity, making the most use out of it possible.

---

Inside the ice cold starry sky, within the darkness, an enormous bone ship flew over, tearing through the silent starry domain.

It was brilliant white, as if it was carved from jade. It moved past many great formation remains in this region, directly rushing towards Origin Star.

Soon after, it descended onto the earth.

“Heavenly deity institution’s people came? Didn’t they leave not too long ago? Why did another group come?!”

When the great powers here heard about this, they revealed looks of surprise. No one dared to look down on this newly established school, all of them feeling great reverence.

It was because this was something established by a group of hidden great powers from the Nine Heavens Ten Earths, impossible to surmise.

On the warship, youngsters walked out one by one, all of them belonging to different clans. However, they all formed human appearances, every single one of them extraordinary in appearance.

These people, regardless of whether they were ugly or pretty, all had different temperaments, self-confidence, power, and other things. They were of all different types, representing their own extraordinariness.

The men were mostly heroic in appearance, promising brilliant youth.

The women’s dresses fluttered about like pure and aloof immortals, a single glance telling others that they weren’t ordinary cultivators. Even without mentioning their appearances, just their temperaments alone were too outstanding.

“The heavenly deity institution’s heroic talents have come, these are all their inheritors, originating from the Nine Heavens Ten Earths, all the outstanding talents of their ancient lands!”

Someone cried out in alarm, snapping back to reality.

In that instant, Origin Star couldn’t calm down. The powers of all sides, regardless of whether they were strong or weak, were all startled, a huge commotion stirred up.

These were the cornerstones of the future, the individuals that were destined to become the most powerful under the sky, the future’s people treating them as their sovereigns. They actually appeared here.

What did they come here to do?

One had to understand that this wasn’t some good place, not a good place for training. Origin Ancient Mine devoured everything, even the most powerful not necessarily able to come out alive upon entering.

If they wanted to investigate the ancient mine, coming out alive completely depended on luck, unrelated to cultivation and aptitude!

“If I may ask seniors, what did you all come here to do?”

Finally, someone cautiously asked, looking towards the two individuals that got off the ship last.

Those were two elders. Even though they looked ordinary, like the most normal elders, everyone knew that they were definitely exceptionally powerful individuals, in charge of protecting this group of geniuses.

“There are some younger generation that wish to come here to sharpen themselves.” One of them spoke, words clear and concise.

Everyone became stupefied. They looked at these geniuses, and then at the two experts. Could it be that they were going to enter the ancient mine? This was like seeking death!

“Senior, I wish to ask for guidance. Did this person really enter the ancient mine, and then never came out?”

At this time, Cao Yusheng spoke, producing Shi Hao’s portrait, letting everyone look at it.

The group of people frowned. However, those from the Wang Family were immediately startled. There was someone asking around again, that young man not ordinary after all.

The Wang Family didn’t feel fear, because they were a long life family, not worried about being blamed. A person nodded, and slowly spoke about everything.

“Could it be that he really died inside?” Dragon Girl sighed, shaking her head.

“Hah, even now, you Three Thousand Dao Provinces’ people are unwilling to give up. How could that type of person possibly return alive after entering? He turned into blood and bone a long time ago.”

“The so-called Huang, so-called Three Thousand Dao Province’s genius, will only be able to travel unhindered in your Three Thousand Dao Provinces. What does he count as after entering the Nine Heavens? Probably died a long time ago.” Someone took joy in this disaster, purposely denouncing him in secret.

“What is that person called? Huang? He still wants to stir up something in Origin Ancient Mine? Overestimating his capabilities!” Someone sneered, clearly an ancient realm’s outstanding talent. “He can only stir up a bit of trouble in the lower realm!”

His so-called lower realm, naturally pointed at the Ten Earths below the Nine Heavens.

“Is this something you all are saying?” The Lunar Jade Rabbit was indignant. Her head of long silver hair shone, her large ruby-like eyes glaring out, saying angrily, “Weren’t you all bragging about how strong you are? Who dares enter Origin Ancient Mine? I dare to bet that we’ll definitely run into Huang. When the time comes, I guarantee that he’ll beat you guys until your moms and dads won’t even recognize you!”

#### Chapter 1086 - Nine Phoenix Furnace

The group of people were stupefied. The words this little girl used were just too crude! She looked like she was carved from jade, delicate and cute like a porcelain doll, but the destructive power was so great.

When everyone heard this, a group of people’s faces fell, eyes revealing anger.

However, the little rabbit didn't hold back at all, saying, "You, and you, and you all, are you all reincarnated bulls or something? Comparing eye size with me? Your bull eyes are about to split open already!"

In addition, she carried that little White Qilin, looking like she was ready to chuck it out at any time.

The pitiful little Qilin beast unexpectedly released a meow sound, climbing up her shoulder, and then grabbed a lock of hair, unwilling to let go no matter what, fearing that it would be thrown out like a rock again.

In the rear, dark lines appeared on the faces of two elders' foreheads. This was the Qilin youth that was treated with exceptional importance in the heavenly deity institution, yet there was this type of unreliable master!

"I think what she says makes perfect sense. If you all aren't willing to accept things, then you can enter Origin Ancient Mine and take a look around. Do you all dare?" Cao Yusheng said.

Now that the two of them stirred things up, there was great tension. The faces of a few people from the other ancient lands sank, especially that of the one who spoke sarcastically, becoming even more unhappy.

There were immediately those who nodded their heads, stating that they will look around inside the ancient mine. However, they were still sneering, looking down on those from the Three Thousand Dao Provinces.

Different places, different cultivators, standing against each other.

On Origin Star, there were many great powers. When they saw this scene, they all revealed strange looks. The disciples from heavenly deity institution didn't get along with each other, about to contend against each other here?

"Why is there a need for such noise? Senior brother Lu Tuo has already said that there is no value in discussing the dead, even if that Huang was still alive, so what? Even if he can break free and head to the heavenly deity institution, he'll still be suppressed!" A girl said.

She wore purple clothes, figure wonderful, appearance pretty. There was a small white jade horn between her brows, adding a unique sense of beauty to her appearance.

This was the Moon Rhinoceros Clan's female cultivator, someone who clearly cultivated a strand of immortal energy, possessing great strength. The senior brother Lu Tuo she was talking about was precisely the one from heavenly deity institution whose voice was like divine thunder, the green-haired individual who made everyone's blood boil. He was normally surrounded by primal chaos, always seated in cultivation.

"Even someone like that is worth comparing to senior brother Lu Tuo? It is just a lower realm cultivator in the end, they won't understand how frightening a true long life bloodline is!" Someone said, lips curled in disdain.

“What do these people understand? Are there any immortal blood descendants in the so-called Three Thousand Dao Provinces? There isn’t even a single one. Won’t understand how scary a true immortal dao influential family is!”

A few people spoke, as if returning fire against the little rabbit and others’ words just now.

“Alright, cease the noise. You all can compete, but no enmity and killing between you all is allowed, just an exchange of pointers up to here.” One of the two elders spoke. They were the heavenly deity institution’s elders, magical force heaven reaching, not a single person daring to go against their will.

The disputes ended, but the great geniuses still bore opposition, just not voicing it any longer.

To argue for a dead person, was this worth it? The nearby great powers’ people didn’t really understand why there was this kind of conflict.

“Seniors, are these people really going to be brought into the ancient mine? That isn’t some good place, too many exceptional heroes buried inside. It is too dangerous!” There were people from some great powers who asked, speaking up.

According to what they knew, those geniuses were extremely precious, couldn’t be lost. Coming here for training was too dangerous. If they died, it would be just too great of a loss.

“It is voluntary. Whoever wishes to explore, we will not stop them, but instead offer assistance.” An elder explained.

Soon after, this place became full of noise, starting to clamor. It was because everyone obtained an astonishing piece of information.

Moreover, there were a few other things that were revealed. The elders from the heavenly deity institution brought over a Nine Phoenix Furnace, Immeasurable Heaven’s number one supreme magical artifact!

Everyone erupted into commotion, simply unable to believe it. For the sake of entering Origin Ancient Mine, the heavenly deity institution actually displayed such a great move, bringing over this primal chaos supreme treasure.

One had to bear in mind that this was not an artifact refined through the force of the mortal world.

This thing’s origins were extremely mysterious, rumored to possibly not belong to this great era. Its materials were extremely special, appearance extremely gorgeous, dark red like ruby, on its surface engraved nine phoenixes.

At this moment, an elder produced this precious furnace, triggering a huge commotion. Everyone looked over.

It only looked three feet in height, elegant and beautiful. There was a luster within the scarlet color. With a slight move, phoenix cries shook the sky.

“It really is that thing?!” Everyone truly felt their minds tremble, bodies moving.

This treasure belonged to a long life family, but it now temporarily became the supreme treasure of the heavenly deity institution, personally brought over by the top figures of the academy.

"It is rumored that this is a precious artifact refined from the true bones of a phoenix!"

"That's incorrect. Someone has said that this Nine Phoenix Furnace's material is a bit better than phoenix true bone."

A few people began to discuss among themselves, eyes burning passionately as they stared at the small furnace. It obviously wasn't out of greed or thoughts of seizing it, but instead purely envy and fear.

This type of legendary thing, how many eras would it be before even one appeared? How could normal people see such a thing? They all only knew about it from bone records.

Only, upon closer inspection, this small furnace had been pierced through. There was a small hole, extremely fine, but also extremely critical, passing through the entire furnace body.

This truly was incredibly regretful!

It was rumored that this wasn't something manpower could accomplish, but that endless years ago, it was pierced through by an unmatched individual in the Desolate Border in the unending battle!

As a result, the artifact's spirit no longer appeared, unknown if it passed away or if it was slumbering.

However, this didn't affect its position as the number one supreme treasure of Immeasurable Heaven, currently nothing else here comparable to it.

"Back then, someone carried this magical artifact into the ancient mine, and thus had the luck of returning alive. Today, we will use this artifact to support you." An elder said.

Whoever wished to enter Origin Ancient Mine could move together, operate this magical artifact together to protect themselves.

"Elders, do you not fear that the magical artifact would be lost inside?" Individuals from great powers reminded. Even though the magical artifact was exceptional, the ancient mine wasn't an ordinary place, too many things buried within, to the extent where there might even be immortal remains.

"Don't worry, this ancient mine wouldn't trouble the Nine Phoenix Furnace." An elder said with a smile.

Everyone became shocked, not understanding what he meant.

"Do you all know where the Nine Phoenix Furnace originated from?"

Everyone shook their heads. This involved ancient secrets, so how could ordinary people know about this? They only heard that it belonged to some long life family, but even that was likely obtained through coincidence.

"It was excavated from Origin Ancient Mine to begin with, buried here."

The words of this elder from heavenly deity institution were earth-shattering, ringing like thunder by everyone's ears. This was just too astonishing.

Even Immeasurable Heaven's number one supreme treasure was dug up from Origin Ancient Mine, what exactly was buried inside? This really was too shocking, making everyone shiver uncontrollably!

"This furnace won't become damaged, able to fly out on its own. Only, everyone's protection cannot be guaranteed. Do you all dare give it a try?" An elder asked.

In that instant, this place became quiet.

Even though there were some people who were noisy before, stating they were going to enter the ancient mine, they now felt a bit of hesitation when it truly came time to make the decision.

"Hey, where did all of your bravery go? Too scared to go inside now? Could it be that you all really are scared that Huang will beat you all up until your parents can't even recognize you?" The little rabbit seized the opportunity, puffing her cheeks and looking at them all furiously.

"Fine, I will go!"

"I will also take a look!"

With some people signing up, voices sounded in succession one after another. In the end, more than ten people signed up, wishing to enter Origin Ancient Mine.

However, heavenly deity institution's two elders didn't agree to this many people entering together. If something unexpected happened, the losses would be too great.

"One instance cannot exceed five people!"

Then, the first batch of individuals were selected. That Moon Rhinoceros Clan purple clothed woman, as well as four others proceeded together, going to enter the ancient mine.

This triggered everyone's discussions. The great powers nearby all came, paying close attention to this.

Heavenly deity institution's elder handed the Nine Phoenix Furnace to them in a serious manner, warning them to be careful, that they shouldn't take risks that were too great.

The five of them nodded. Even though there were dangers this time, it also signified an opportunity. Risk and reward would always be proportionate to each other.

The Moon Rhinoceros Clan purple-clothed girl held the precious furnace, the other four operating it together. They were all activating bone texts, wishing to borrow the divine furnace's power.

Soon afterwards, phoenix cries tore through the clouds, nine phoenixes flying out from the furnace walls. Scarlet multicolored light filled the skies, shining with incomparable brilliance.

These nine phoenixes surrounded those individuals, protecting them within. There was primal chaos mist that spread outwards; this was the power of the Nine Phoenix Furnace.

They watched as this group walked step by step towards the ancient mine, directly approaching, and then jumping in!

"They entered the ancient mine!"

A cry of alarm sounded from the rear, watching helplessly as they entered.

Everyone was waiting expectantly, watching to see if any miracles could be forged.

There was no noise. That ancient cave was extremely quiet. When the five individuals entered, it was as if they completely merged with the darkness, never to be seen again.

It was as if they jumped into a monster's mouth and were devoured.

Waiting always left people feeling uneasy, but there was nothing they could do. They could only remain silent, wait for news outside.

Inside the cave, scarlet multicolored light flickered about. The Nine Phoenix Furnace was trembling slightly, the nine phoenixes releasing radiance, forming a domain.

This was precisely the reason why these five geniuses were able to survive. It was because they were just like Shi Hao, encountering similar troubles.

Not long after, they saw an old daoist whose white hair reached the floor. Even though he was a corpse, the aura he released would make heavenly deities collapse, unable to endure it.

Without this Immeasurable Heaven number one supreme treasure to protect them, their body and spirit would inevitably be destroyed, powerless to resist.

"Stopped this pressure, this supreme treasure truly deserves its reputation!"

"This means that we can advance without any obstruction, able to enter the ancient cave's innermost depths, perhaps fully explore its greatest mysteries."

The five of them were happy, all of them wishing to use this precious furnace to help them go on an adventure, obtain Life Stones and other types of natural luck.

"Not good, this Nine Phoenix Furnace is shaking, resonating with this place. There won't be some type of accident that happens, right?" These individuals were alarmed, because the precious furnace's vibrations were growing stronger.

Their faces became pale. If there was something wrong with this place, not a single one of them could think about surviving. They would undoubtedly die.

Finally, this ancient furnace calmed down again, no longer trembling, only releasing a gentle scarlet multicolored radiance, protecting the five individuals as they advanced.

"Say, do you all think that Huang from the three thousand provinces still has a chance of being alive?" One of them said.

"Just someone like him, yet he wants to live?" The Moon Rhinoceros Clan's purple-clothed young lady sneered.

"He's nothing more than someone from the lower realm, what kind of prospects could he have even if he did survive? Just some divine individual, fierce person from that small place of theirs. After coming to the Nine Heavens above, he's nothing special at all, definitely turning into blood and bones, impossible to remain alive!" Another person said.

"I really hope we can find a piece of his clothes or some broken bones to bring back and show those people, especially that Lunar Jade Rabbit, let her learn reality. The so-called Huang is nothing more than this!" Another person said coldly, clearly greatly offended by that Lunar Jade Rabbit's previous taunting.

They carried the Nine Phoenix Furnace, continuing forward, avoiding many dangers. In the end, they sensed something, suddenly stopping their steps.

Unknowingly when, a figure appeared, full of vitality, flesh perfect, currently emerging from a precious pool, eyes incomparably sharp, staring at them. n.(o./v-/E(-L./b))l)(n

Shi Hao heard their conversation just now, so he naturally didn't carry any good intentions or smiles, appearing incredibly cold.

## Chapter 1087 - Monster

"There's a person here, still alive!"

"Who are you?!"

The minds of the five of them jumped intensely. They actually ran into a person in this place, it was just too unexpected!

Soon afterwards, they noticed the precious pool behind Shi Hao. That place was full of immortal light, translucent five-colored liquid, a rain of light rising, carrying an intoxicating sweet scent.

Even though Shi Hao sealed up the precious pond, using formation banners to stop the medicinal fragrance from leaking outwards, a long life medicine had dissolved here after all, so they could still smell it.

The five individuals' eyes became sharp, breathing hurried, minds tense, incredibly stirred up. They immediately guessed that this was a true immortal medicine pond!

There were legends from the past to now that undying medicines would transform, leaving behind the old skin, roots, and other things, dissolving into a spiritual pond, producing a world shocking immortal elixir.

However, these were only stories, legends, the true situation never seen before.

Yet it appeared before them right now, not an illusion, but real. They actually had the luck of seeing a long life medicine's remains! This was tremendous natural luck!

They were stirred up inside, hot blood rushing forth. Their eyes carried greed, desire, hope, truly wishing to immediately throw themselves into the immortal pond. This was just too important for them.

Just how many types of long life medicine were there in this world?

This was a small number that could be counted. Even if one searched from Immortal Ancient until this present age, they were practically non-existent, becoming fewer and fewer, impossible to find even if the entire Nine Heavens Ten Earths were scoured.

This pool of precious liquid could definitely allow one to undergo transformation, truly exchange blood, refine bones, reforge inner organs, a full transformation. The uses were great to an unimaginable level.

“This won’t be inferior to the phoenix blood, able to allow one to undergo rebirth!”

One of them was almost delirious as he looked at the immortal pond, his eyes burning like a torch. At this moment, this tremendous joy even made them ignore Shi Hao.

Perhaps it wasn’t ignoring, because in their eyes, that was already a dead person!

With them here, how could this young man continue to occupy the immortal medicine pool alone? They were naturally going to kill him. They didn’t think this was too difficult, regardless of who he was.

It was because they had the Nine Phoenix Furnace!

This alone was already enough. This individual didn’t seem to be over the Heavenly Deity Realm, so there was no way he could stop its might. If he retaliated, he would undoubtedly die.

“Haha...” One of them howled with laughter, as if he had gone mad, losing himself. This type of unexpected discovery truly was unexpected, believing it to be the heavens’ greatest grace!

“There is a long life medicine residing in this ancient mine!” The Moon Rhinoceros Clan’s beauty was the first to snap back, purple clothes fluttering about, style moving. Her eyes were fervent with passion.

The others also felt their heart rates speed up. When they heard this, they were all overjoyed, because that was something that went without saying.

Apart from the medicinal liquid in the precious pool, they knew that there was definitely a true undying medicine that took root within a secret land in this immortal mine.

If they truly obtained it, then they would be imperishable, undying, live eternally!

“Have you all woken up from your daydreams?”

Right at this moment, the individual in front of them coldly spoke, cutting off their fanciful thoughts. Their thoughts were easily guessed at.

This type of cold sneer made these individuals’ faces fall, their gaze deep, killing intent surging.

This was someone who was already dead before their eyes, yet he still dared to take the initiative to provoke them. Needless to say, they wanted to immediately suppress him.

“You are that person who came from the lower realm?” One of them spoke. Even though they knew Shi Hao wasn’t ordinary, perhaps extremely formidable, they still had a type of arrogance, speaking with the attitude of looking down on the other party.

Shi Hao was astonished. Even the Three Thousand Dao Provinces had a day when they would be looked down on like this, treated as a lower realm. He really found this hard to get used to.

“After coming to the Nine Heavens, you should have already sensed the difference. In your barbaric land, you might be someone, but in Immeasurable Heaven, you dare provoke us like this, nothing more than overestimating your capabilities.” Another person spoke in a cold and indifferent tone.

It was clear that they were from the Nine Heavens' Immeasurable Heaven, feeling the deepest level of arrogance, looking down on the Ten Earths' Three Thousand Dao Provinces, feeling like they were above them.

"Immeasurable Heaven's heroic individuals are well known, indeed surpassing the Three Thousand Dao Provinces, but if they are all like you all, it doesn't seem to be all that!" Shi Hao said, responding coldly.

Moreover, he was like a cheetah that had locked onto prey, about to take action. He swept his eyes over every single one of them, eyes carrying killing intent, incredibly oppressive.

"I'm certain that you are Huang!"

"Capture him, what nonsense is there to say to him? Have him understand that his so-called stunning strength is nothing but a joke in Immeasurable Heaven, directly crush him!"

These people spoke coldly, about to take action.

In reality, Shi Hao already moved a step earlier, eyes carrying a ruthlessness. His hair flew about chaotically as he pounced over.

It was because his divine senses were extremely powerful, long realizing that the scarlet red furnace was extremely terrifying, likely a formidable supreme treasure. As a result, he wanted to strike first to gain the upper hand.

Shi Hao turned into a streak of transient light, quickly rushing towards them. He was as fast as lightning, extremely fierce, taking action instantly.

"Not good!"

Those individuals' fine hairs stood on end, all of them horrified. This was just too fast!

One had to bear in mind that they all had immortal energy, outstanding individuals who were incredibly powerful. Regardless of whether it was speed, strength, or reactions, there were few who could match them among their generation.

However, now, they discovered that they couldn't keep up with this person's speed, unable to keep up.

Peng!

Shi Hao's foot kicked out. It turned into a dragon shadow, too fast, as if a True Dragon was going out to sea, carrying forceful and boundless energy, shaking up this place.

One of them was quite unlucky. Even though he did everything he could to withstand this attack, it was still too late. That foot slammed over, and then he released a loud cry, mouth spraying out blood, tumbling backwards.

"This is?" The other four individuals were truly alarmed. This was just too frightening!

What they were thankful for was that at the crucial time, the Nine Phoenix Furnace shone, nine scarlet blood phoenixes dancing about, producing a screen of light, stopping Shi Hao's attack, neutralizing a large half of the power.

Otherwise, Shi Hao's kick would have definitely taken that person's life, no suspense at all.

As soon as his leg made contact with that person, he was stopped by a wave of soft force, moreover dissolving his force, bone texts growing dim.

Shi Hao didn't take any risks, quickly withdrawing. It was because he felt great restraining fear towards that three foot tall dark red divine furnace, fearing that it would suddenly revive and erupt with power.

He was extremely cautious. Even though he was quite strong, he still didn't take action recklessly.

Shua!

Shi Hao shifted sideways, leaving behind a string of afterimages. When his figure stabilized, he stood before that precious pond again, as if he never moved.

The expressions of those individuals behind changed. This Huang from the lower realm brought them tremendous pressure. If they didn't have the Nine Phoenix Furnace, they would undoubtedly be in danger!

"We admit that you are quite strong, talent formidable, but sometimes, no matter how strong one is, it won't change anything!"

While speaking, those people still displayed a type of arrogance. However, they felt extremely bitter inside. They were all the most powerful inheritors of a clan, yet right now, they had to admit that they were inferior.

However, vanity and pride prevented them from admitting their feeling of defeat, instead about to use the Nine Phoenix Furnace to suppress the youngster before them who still carried some tenderness.

Shi Hao's expression was serious. In that instant, he put on the Lightning Emperor's battle clothes, left hand holding the Defying Dragon Scale, right hand holding the Ten Thousand Spirit Diagram, confronting them like this.

It was because the longer he observed them, the more he felt that the scarlet-red divine furnace wasn't simple. It might be a heaven defying great killing weapon like the little pagoda!

Chi!

Sure enough, those people moved, activating the immortal furnace together, suppressing towards Shi Hao.

Nine True Phoenixes rushed upwards, roaring and stirring forth large amounts of fiery light, releasing magma-like matter and carrying destructive energy as they threw themselves at Shi Hao.

Moreover, in the fiery light, chaotic energy surged, powerful and terrifying to the extreme!

When Shi Hao saw this scene, he felt like he was suffocating. This was an indescribable type of pressure, an unmatched supreme treasure after all, power exceeding his imaginations.

His expression became grave. He activated the Ten Thousand Spirit Diagram, throwing it forward against the expanse of fiery light, striking the Nine Phoenix Furnace!

It was difficult to say what kind of great artifact the Ten Thousand Spirit Diagram was. One could call it a true record or scripture, but calling it a precious artifact wasn't a bad choice either.

It was spotlessly white like jade, carrying soft radiance. It actually rushed into the nine True Phoenixes like that. After it was suppressed by them, it passively released endless brilliance.

In that instant, countless creatures appeared, including immortal birds, divine beasts, and all types of plants, even more so heavenly starlight and other things!

Those nine divine phoenixes couldn't destroy it, and at this moment, the Ten Thousand Spirit Diagram and Nine Phoenix Furnace collided.

Dang!

The sound was sharp and clear, as if two pieces of jade were striking against each other, unexpectedly pleasant to the ears, carrying a lingering sound. It rang lightly through this place, shaking up one's soul.

The five individuals' expressions changed. This was the Nine Phoenix Furnace! It actually collided with an artifact, releasing a light sound, but not blasting that bone to pieces.

What kind of unexpected thing was this? It gave the five of them a powerless feeling. Chills ran down their backs.

They knew that they encountered a freak. Not only was he powerful, he also had a strange magical artifact on him, able to temporarily stop the Nine Phoenix Furnace's power.

"Not good!" Moon Rhinoceros Clan's girl was the first one to release a cry of alarm.

It was because she discovered with alarm that that white bone perfectly struck the Nine Phoenix Furnace's weakest place.

There was a hole on the scarlet divine furnace, something left behind from the Desolate Border's battle. It had been struck, leaving behind a scar that connected from front to back.

And now, this white bone just happened to strike it right there.

Sure enough, the Nine Phoenix Furnace's radiance immediately dimmed quite a bit. It swayed back and forth, almost falling. The nine True Phoenixes immediately returned to the nest, entering the precious furnace.

"How could it be like this?" Those people couldn't help but cry out in alarm. This was just too much of a coincidence, right? Weren't they just too unlucky?

At the same time, the Ten Thousand Spirit Diagram grew dim, the various creatures disappearing, falling out of the sky.

Shi Hao naturally didn't let this chance go. He rushed up, grabbing the Ten Thousand Spirit Diagram, as well as taking action decisively against those people.

He felt some confidence now, because he sensed that the divine furnace, despite being frightening, unexpectedly didn't have an artifact spirit. This made him feel more at ease than anything else!

Hong!

Shi Hao was like a demonic beast, immediately slaughtering his way forward. His palm descended, overturning heaven and earth, domineering and tyrannical, surrounding them here.

Pu!

This palm carried Kun Peng power. If one examined it closely, it was like a Kun Peng spreading its wings, covering them. The five of them took action together to resist, activating their immortal energy, but they still coughed out large amounts of blood.

This type of opponent simply left them in despair. What kind of monster was this?!

#### Chapter 1088 - Overwhelming Power

“Moon Controlling Rhinoceros Horn!” The Moon Rhinoceros Clan beauty shouted, the inch long sparkling horn between her brows shining. A divine moon immediately appeared.

The ancient mine was gloomy, but now that this divine moon suddenly appeared, it became incomparably resplendent, releasing ripples outwards.

Shi Hao carried a trace of a cold smile at his lips. Forget about a divine moon created from symbols, even if a true star smashed down, he still wouldn't fear it.

Chi!

Shi Hao's right palm hacked outwards, still Kun Peng force, as if it possessed dominating power, offensive power unmatched, magical force vast like a sea!

Weng!

The space here trembled. Forget about the Moon Rhinoceros Clan inheritor that was facing this attack, even the bodies of the other four trembled, continuously coughing out large amounts of blood.

“Burst!” Moon Rhinoceros Clan's beauty suddenly shouted. When her hands formed an imprint, her purple sleeve exploded. At the same time, the divine moon before her also shattered.

“En?” Shi Hao sensed that something was off. He felt a great pain between his brows. It was because when the divine moon exploded, turning into an endless rain of light, it drowned out this place.

He underestimated this girl. This wasn't a condensation purely of magical force, but a precious technique that contained divine will. It aimed at his primordial spirit, wishing to wipe out his will.

If it was a normal person, it would have definitely bore fruit, because this mental attack was wrapped within a strand of immortal energy, power increased multiple times!

This was a secret type of attack, as well as an unexpected blow, impossible to defend effectively against.

How could Shi Hao allow this Moon Rhinoceros Clan beauty to accomplish her goal? A great dao flower appeared above his head. It swayed gently, releasing a rain of light that was sparkling and translucent, immediately completely wiping out the other party's immortal energy, scattering that precious technique.

“You have three strands of immortal energy, and one of them became a great dao flower?!”

Those people felt despair. Even though they had heard about how powerful Huang was, they didn’t feel any respect for him. Only now, when they truly met, did they really understand.

Against someone like this, there was absolutely no chance of winning to speak of!

However, the Moon Rhinoceros’ attack bought them some time, and it made Shi Hao’s figure momentarily freeze, his movements obstructed somewhat.

The five of them quickly withdrew, stabilizing the situation, standing on the other side of Shi Hao, all of them alert.

They frantically summoned the Nine Phoenix Furnace, wishing to activate it again. However, after suffering the Ten Thousand Spirit Diagram’s strike, something unexpected happened to that furnace, unexpectedly stopping its movements.

It was also precisely because of this that Shi Hao obtained the chance to carefully size up the fiery red divine furnace. It actually had a hole, which meant that its own spiritual essence was leaking out.

“This supreme treasure is truly pitiable!” Shi Hao said with a sigh. He could only imagine what kind of power it was that damaged this immortal furnace back then, the methods too terrifying.

“Huang, I heard that you wish to join the heavenly deity institution. We are fellow students.” One of them spoke, suffering from Shi Hao’s pressure, now feeling a bit panicked, wishing to improve their relationship.

Shi Hao revealed a cold smile filled with disdain. This person was now admitting defeat, but just now, what kind of arrogance did he display? They had originally thought that the divine furnace alone was enough to suppress him.

Hong!

This time, Shi Hao didn’t say anything, directly brandishing his leg. Like a Dragon Snake, it lashed outwards, carrying dazzling bone texts and releasing rumbling sounds. It was extremely shocking.

No one doubted the power of this leg. It could sweep through mountains, shatter stars!

“No!” That person cried out loudly, activating all types of secret treasures to defend himself. There was a strand of immortal energy that surged as well, winding towards that leg of Shi Hao’s.

This level of genius had long cultivated a strand of immortal energy for himself, naturally a genius fostered through tremendous effort by a holy land, strength powerful. The magical artifacts the clan bestowed onto him were naturally numerous and powerful.

Kacha!

At this moment, the sounds of magical artifacts exploding continuously sounded. It was as if fireworks were released, all rare secret treasures, but they were all destroyed as a result.

Peng!

Shi Hao's leg lashed out on his body, smashing his precious armor into a mess. Meanwhile, he himself flew outwards, body completely defeated.

Someone as powerful as this unexpectedly couldn't evade, one could see just how great the difference in strength between the two was.

This time, if not for those secret treasures of his, as well as the strand of immortal energy that was released at the crucial moment, he would have undoubtedly died.

At the critical moment, that strand of immortal energy stopped Shi Hao's leg. If not for this, how could his flesh stop this attack? Even stars would be smashed with the kick!

It was clear that this person lost all combat strength on the spot. Half of his body was ragged, his entire body overwhelmed by a wave of powerful bone texts, on the verge of dying.

As for that strand of immortal energy, it was almost scattered and destroyed by Shi Hao, leaving the others shocked.

During this entire process, Shi Hao didn't even use his great dao flower. Otherwise, the power would have been even greater!

It was this quick and efficient, crippling one of them just like that, making the other four experts' faces pale. This cultivator from the lower ancient land was just too frightening.

Only now did they understand why Cao Yusheng, Chang Gongyan and others think so highly of him.

When they thought of the Lunar Jade Rabbit's words, they felt extremely ashamed. They really did end up running into Huang, moreover possibly being killed by him. It was even worse than being beaten until their parents wouldn't be able to recognize them anymore.

Shi Hao forced his way forward. The other four continuously moved backwards.

This made the others feel completely humiliated, unable to show their faces!

It was because they weren't ordinary cultivators, but rather world shocking geniuses who already cultivated immortal energy, representing the highest accomplishment among their peers.

Some of these individuals were present world individuals, some kings that have laid dormant since ancient times, yet now, they lost all dignity.

Someone like them was forced to continuously retreat by a single person, just how sad was this, even more so a type of humiliation!

"Risk it all!"

The Moon Rhinoceros beauty shouted. Her hand formed imprints, taking action again, wishing to fight a decisive battle against Shi Hao.

However, this time, the so-called rhinoceros horn divine ability was completely useless, unable to do anything to Shi Hao's primordial spirit, unable to display any use.

In addition, Shi Hao reached out a finger. This was Lightning Emperor Finger, something he recently derived, acquired after comprehending the lightning dao a step further.

Hong!

A finger reached out. A clap of thunder erupted between heaven and earth, simply enough to blast large expanses of mountain peaks into pieces.

When this finger struck out, heaven and earth lost color, the ancient mine swaying back and forth. This entire region became blinding!

If not for the ancient mine's formations and others, it would have long collapsed.

Despite this being the case, the ground, stone walls, and others didn't explode. The space around them had already split apart, incomparably terrifying, dense like a spider web as they stretched in all directions.

Moon Rhinoceros Clan's beauty felt a tremendous pain that was difficult to bear. She rubbed the space between her brows, and then released a sharp cry, face becoming snow-white and losing color.

It was because that jade horn had broken off, crushed by Shi Hao's finger!

She staggered backwards, body feeling a wave of weakness. Her eyes were full of hatred and bitterness. This person was too decisive, even more so possessing a type of domineeringness, not caring that she was a beauty at all.

Peng!

Shi Hao pointed out again. Thunder shot in all directions. Moon Rhinoceros Clan's beauty jumped into the air, but a miserable cry still sounded. Every hair stood on end, and then her entire body smashed back down.

Moon Rhinoceros Clan's girl cried out miserably, body scorched black. When she fell onto the ground, regardless of whether it was precious techniques or armor, they were all destroyed just now.

The second person was ruined, making the remaining people feel even more fear.

Shi Hao didn't say anything, pressing forward. When his feet landed on the ground, the sound was forceful and clearly audible.

"Hand over your life!" Someone cried out loudly, rushing over, about to fight an intense battle against him.

Unfortunately, this time, it was even more straightforward. Shi Hao didn't even walk out that far, not that interested in him, but in the end, he was completely trapped, not let go of.

Hong!

It was just a single fist of Reincarnation, this action alone proving his self-confidence. He was setting an example here for the others.

This time, when the third person was brushed by the fist, his body continuously aged, so fast it left others shocked. The skin and other parts began to crack apart, wrinkles layering on top of each other.

Then, Shi Hao added an attack, sending him flying towards the stone wall. Another person lost his ability to move.

Peng!

Shi Hao flew outwards. He took a step in midair, tramping space until it cracked apart, and then rushed towards the other two.

Pu! Two people coughed out blood, unable to resist.

This type of battle didn't have any suspense, ending in an instant. Shi Hao looked coldly at these individuals.

The five of them were completely suppressed without exception!

Only, Shi Hao didn't feel too much joy inside, nor was there any deep hatred and great bitterness. He only stared at these people with coldness and contempt.

"Is this the so-called Immeasurable Heaven's experts? Nothing more than this!" Shi Hao said.

Then, he suddenly acted out, moving like a streak of lightning, disappearing in a flash, continuously taking action, giving the five of them a vicious beating, completely uninterested if there was a beauty among them.

The five of them felt incomparable shame. Right now, their faces were swollen like pig heads. None of them could tolerate being humiliated like this.

"Truly nothing special, is this Immeasurable Heaven's experts? I am starting to seriously doubt if the so-called heavenly deity institution has an undeserved reputation, perhaps not really worth going!"

Shi Hao acted fiercely, worsening these individuals' injuries. Every single one of them had bloody noses and swollen faces, their conditions incredibly miserable.

"Do you think you're unmatched just because you defeated us? If senior brother Lu Tuo came, he can suppress you with just a raise of his hand!" One of them shouted, feeling extremely unconvinced.

The five of them released a sigh. Was this basically verification of what was said before? When they thought of the Lunar Jade Rabbit's words, they felt a deep humiliation.

Xiu!

Right at this time, the Nine Phoenix Furnace finally activated. It didn't protect the five of them, but quickly moved towards the entrance, turning into a streak of scarlet multicolored light and shooting upwards.

The faces of the five of them were like ashes, dispirited and ashamed. The battle today, for them, was like a nightmare.

Shi Hao was hesitating. Should he kill these people or not?

If the five of them were killed, then it was likely that he couldn't enter the heavenly deity institution.

Weng!

At Origin Ancient Mine's entrance, when that Nine Phoenix Furnace was about to completely break out, it suddenly trembled, as if it was interacting with this ancient mine, carrying out a resonance.

Only then did it rush into the sky, triggering cries of alarm from those outside.

It was precisely at this time that Shi Hao seemed to have heard a type of great dao divine sound, as if an ancient scripture that had been sealed for endless years was opened today, starting to be chanted.

What was going on? Shi Hao turned pale with fright. n--@)-v-/E--l)(b).l)-n

Within the depths of the ancient cave, there was a strange power that spread outwards. It opposed the Nine Phoenix Furnace with just as much power, reviving at this time.

"Yi, what happened?" Everyone frowned. This wasn't Shi Hao not giving them face, but rather a strange and bizarre phenomenon.

Shi Hao opened his Heavenly Eyes, vaguely hearing the name of this scripture. He was immediately shaken up, his body trembling, not out of fear, but incomparable excitement.

"Six Dao Reincarnations great method, Supreme Hall's great art, why does it exist here as well?"

He listened to it. The scripture sounds contained everything, not scattering away.

Shi Hao immediately became incredibly nervous, a bit worried now. Could he obtain the Six Dao Reincarnations unmatched heavenly art?

At the same time, he had endless question. Why was this Origin Ancient Mine so mysterious? Why did it even have this heavenly art? What exactly was buried here?

## Chapter 1089 - Group of Captives

Shi Hao was completely bewildered. This mine was too ancient, dating back to a time that was impossible to trace, rumored to be even older than Immortal Ancient Great Era!

There was the Six Dao Reincarnations Art, who was it that left this behind? There were just mysteries upon mysteries.

In the outside world, everyone was shocked.

It was because they were even more alarmed than Shi Hao, feeling even more shaken up. It was because that Nine Phoenix Furnace struggled free in the end, breaking out from the surface, returning alone.

It was burning right now, releasing loud and clear phoenix sounds. Nine True Phoenixes spread their wings, carrying blazing fiery light that burned the heavenly dome.

This divine furnace was rumbling, reviving, as if there was an artifact spirit that reappeared!

"There seems to be some type of scripture sound inside the ancient mine, do you all hear it?" Someone spoke out, eyes carrying a wave of shock.

“You’re correct, there is an indistinct scripture sound that is spreading over!”

This triggered an uproar. No one could calm down. They all knew how mysterious this place was, that there were too many creatures buried here, even the Nine Phoenix Furnace discovered here endless years ago.

At this moment, mists appeared layer after layer. There were too many things unknown, making their thoughts run wild.

Ancient scriptures sounded right now, which one of them weren’t shocked? Many of them felt desire, wishing they could enter to obtain it.

“What about those geniuses? Why haven’t they returned yet, only the Nine Phoenix Furnace coming back alone?” Finally there was someone who became clear-headed, temporarily not worrying about the ancient scriptures, mentioning this question.

The others looked at each other in dismay. They couldn’t help but feel shocked. This was Origin Ancient Mine after all, those individuals unable to protect themselves even while possessing the Nine Phoenix Furnace. Were their lives going to be thrown away here?

The expressions of the two elders from heavenly deity institution weren’t that pleasant. They already brought over the supreme treasure divine furnace, yet it didn’t display its effects, unexpected events still happening to the five disciples.

“Not dead yet!”

Suddenly, an elder released a strange expression. There were five copper lamps in his sleeves. Right now, there were fiery lights flickering within. These were soul flames, and right now, they hadn’t gone out yet.

“Yi, what exactly happened? They didn’t die yet. However, only the Nine Phoenix Furnace returned alone, while they disappeared without a trace. Were they trapped by something?”

When the others heard this, they all revealed looks of alarm.

Those people weren’t dead yet? All types of scenarios appeared in their minds.

“This scripture sound shouldn’t have been because of them right?” Someone asked like this.

Quite a few people revealed doubtful looks. This might really be the case. When they thought of this possibility, many of their eyes began to burn fervently, staring at the ancient mine’s entrance.

This was especially the case with heavenly deity institution’s geniuses, every one of them eager to give it a try!

Not a single thing that came from Origin Ancient Mine was ordinary, all of them strange treasures of this world!

For example, Life Stone, this was something that could extend life, change fate, its effects heaven defying.

For example, the Nine Phoenix Furnace, Immeasurable Heaven’s number one magical artifact!

There were other examples, all the divine objects that came from this place were unimaginable.

Now, an ancient scripture was about to see the light again, so how could they not be moved? A few experts' hearts moved, truly wishing to rush over and seize it.

"Elders, we are also willing to go inside. The first reason is to rescue our companions, the second is to seize natural luck and opportunities!" Someone said, extremely direct.

If one wanted to advance further, they had to borrow the Nine Phoenix Furnace. Otherwise, there was no need to enter at all, as they would die immediately upon entering.

Now that someone spoke up like this, others became stirred up as well, because they knew that this scripture's value was likely not below the Nine Phoenix Furnace. If they could obtain it, that would be an unimaginable dao fruit.

In that instant, heavenly deity institution's geniuses were moved. Many of them wished to enter the ancient mine.

From the side, the eyes of the men from the other powers were burning as well. If not for the restraining fear they felt towards the heavenly deity institution, they would have fought over the Nine Phoenix Furnace a long time ago, using it to enter the ancient mine.

"Fine, since the five's soul flames are still there, it means that they are still alive, so we have to rescue them no matter what. If there is an ancient scripture, we'll count it as your natural luck. Advance with caution!" An elder agreed.

The other elder added, "The numbers still cannot exceed five!"

It was because these geniuses were too precious, cannot be lost for no reason. If these people could rise up, they would display great uses in the future.

The Nine Phoenix Furnace rose and fell in the void, only calming down after a long time.

An elder moved his hand, summoning it over, handing it to the five that were selected just now, warning them to be careful.

At this time, Shi Hao calmed down, quietly listening to the great dao divine sound, silently comprehending and carefully thinking about it. He was studying this scripture.

However, it was too blurry, the scripture sounds faintly discernible. He couldn't hear all of it. Unknowingly, he walked forward step by step, currently approaching the source of the sound.

Suddenly, a type of incomparably frightening feeling suddenly rose from his mind, exceeding the past, surpassing all dangerous situations he had encountered up until now!

Shi Hao broke out into a cold shiver, immediately snapping out of it. He looked forward, seeing a dark black area, no light visible inside.

He stopped. Even though the scripture was enticing, his intuition told him that it was extremely dangerous, a single mistake resulting in the death of body and spirit.

Wait!

He made a decision. He was going to completely absorb the long life medicinal liquid first, allowing himself to undergo rebirth, strengthen his flesh and spirit, waiting for an opportunity to look for the Six Dao Reincarnations Heavenly Art.

However, right at this moment, the sounds of footsteps sounded from the distance, and he sensed the aura of the Nine Phoenix Furnace again.

Shi Hao frowned. Heavenly deity institution sent more geniuses inside. This was going to affect his cultivation.

“Isn’t this Moon Rhinoceros Clan’s female talent? Why was she left behind here?!”

Those people walked over, seeing the purple-clothed young lady on the ground, feeling extremely shocked. It was because even the bone on her forehead shattered, the scene quite miserable.

“Hehe, older sis and the others, what kind of troubles did you all encounter, what dangers? Please don’t tell me that you encountered that lower realm’s Huang and were beaten up so miserably!” A young lady mocked.

She naturally didn’t believe this, feeling that there was danger in this place, only wishing to understand a bit from the Moon Rhinoceros Clan’s young lady. She definitely didn’t think that this was done by Huang, speaking like this just to stir up this young lady.

“Something’s wrong, there are others here!” Of the five that reached this place, there was a white-haired individual whose eyes were like cold lightning. He saw geniuses that were covered in blood in a corner.

“Who was it that did this?” The young lady who spoke up before asked.

“Huang!” That person replied.

None of these people could move, all of them seriously injured, even immortal energy scattered, temporarily unable to gather it. They were all incredibly weak.

The people on the ground were all discovered, all of them in miserable states.

“Tch, who are you trying to fool? Already falling to this state, yet you still want to scheme against us?” That young lady didn’t believe these words, believing that the other party was purposely stirring them on, wishing for them to take risks. “Like that Huang alone could stir up trouble in the Nine Heavens above.”

“Speak, what exactly happened, how did you all get injured? Just now, there were scripture sounds, so why did you all end up in such weak states?” That white-haired young man also spoke.

They didn’t believe that this was done by Huang, their faces carrying arrogance, incredibly overconfident.

This made those individuals laugh bitterly. Even the truth wasn’t believed by others, this really was a type of grief.

However, they also felt it beneath themselves to explain, looking forward to seeing these people captured as well. They didn't get along anyway, all of them competitors.

"Hey, why aren't you all speaking? What exactly is going on? Just a small Huang can even continue living, stir up such great disorder?"

"In my opinion, he should have died a long time ago!"

The second group of creatures was still five-membered, none of them believing that this was done by Shi Hao, their voices not all that polite.

Footsteps suddenly sounded, calm and forceful, startling these people. They suddenly turned around, staring at the delicate and pretty, but cold expressioned young man.

"Who are you?!"

"Huang!"

"Heavens, it really is you, not dead yet!" That young lady held her forehead, putting on a rather shocked appearance.

They knew that there was great trouble. The people on the ground didn't lie, while these people didn't treat their words with respect, looking down on Huang just now. Now, there was a great issue.

"I don't feel like wasting my breath. I am going to cultivate in seclusion, so all of you seal yourselves so that we can coexist here." Shi Hao spoke domineeringly.

It really was quite strange. When the Nine Phoenix Furnace reached the depths of the ancient mine, it died out on its own, light growing dim.

"Do you really treat us as pushovers, that we'll seal ourselves just because you told us to?" That white-haired young man said coldly.

"The rude words you spoke before against me, I'll just let it go, won't pursue it further. However, you all are still putting on an appearance like you wish to fight, so I'll satisfy your wishes!" Shi Hao said.

He took action again, rising up. A hundred willow branches rushed out from behind him, turning into golden chains. Hualala sounds rang out, piercing towards the five individuals.

The white-haired young man roared endlessly during this battle, using the most powerful extreme art of his life, activating the most powerful precious techniques. However, in the end, he was struck by a few of Shi Hao's fists until half his body was in tatters, entire body covered in blood.

As for that young lady, Shi Hao directly took action, releasing a finger. He was still holding back a bit, but it pierced through her palm, creating a large bloody hole.

This battle didn't hold any suspense. Even though one of them cultivated two strands of immortal energy, he was just like the other four, still forcefully suppressed by Shi Hao.

In the blink of an eye, there were now ten captives on the ground.

Shi Hao was conflicted as to how he should deal with them. If he didn't kill them, it felt somewhat inappropriate. If he did kill them, then he felt a bit sorry for their reckless mouths.

Just like that, there were now five more individuals on the ground. Shi Hao left them behind, not worried about them anymore. Meanwhile, he himself also walked towards the long life pool, starting to cultivate.

Soon afterwards, the Nine Phoenix Furnace escaped, carrying fiery light as it rushed towards the earth surface.

This triggered a huge uproar. Auspicious multicolored light surged again. What exactly was happening in the ancient mine?

The two groups that were sent out went missing, but their soul flames were still burning, not going out.

Now, it was as if there was a vicious cycle. After finding out they didn't die, heavenly deity institution's geniuses couldn't sit still any longer. There were still people who believed that these people began to comprehend the ancient scripture after entering.

"This won't do, we cannot permit anyone else to enter and take risks. There are already two groups of people who have gone missing!" An elder shouted.

"There won't be an issue if they are a bit more careful!" The other elder spoke.

Thus, the third group of people moved!

Unfortunately, it was still the same silent conclusion, disappearing again.

This time, forget about the heavenly deity institution's geniuses, even the surrounding people felt that it was a bit strange. Origin Ancient Mine was like an abyss, devouring creatures, more than ten geniuses disappearing just like that.

This was definitely a big deal, but they couldn't do anything about it.

"Not good, we definitely cannot let more people in. There is something extremely frightening inside!" One of heavenly deity institution's elders spoke, expression fierce.

With things already like this, they had to cut their losses. Otherwise, if they allowed more people to go missing inside, it truly would drive them mad. Those were all precious geniuses we were talking about!

Inside the ancient mine, Shi Hao looked at the group of captives. He didn't deal the killing blow, only beating them up.

This group of people were shocked and angry, unexpectedly defeated just like that. Not a single person from their three batches could fight a great battle against that youngster, all of them unable to display any fighting spirit.

"Heavenly deity institution's people truly are annoying. I can't afford to offend you all, so can I not even hide for a bit?" Shi Hao grumbled. Then, he frantically beat those dozen or so individuals, all of them beaten until their faces swelled regardless of whether they were male or female, their mouths becoming crooked and eyes slanted.

Then, he went on his way, directly collecting the long life medicine pool into a magical artifact, not wasting the divine liquid resources.

“Six Dao Reincarnations Heavenly Art, I’m coming for you!” Regardless, he had to take a look. He couldn’t hold himself back anymore.

The dozen or so geniuses who couldn’t move felt incomparably depressed. They were actually thrown here by someone like that, truly shameful to the extreme.

Only, if they wanted to escape, they likely still had to rely on that youngster.

Chapter 1090 - Heavenly Art

Dong!

A heavy sound rang out from the distance. A large black spider that was a zhang in length, looking like it was cast from dark gold, crawled over from the side.

“Huang, hurry and come back, let us free!”

This was a scene that was enough to make one fall apart. That spider was a corpse, yet its flesh didn’t decay, and now it had a vague consciousness, crawling aimlessly about here.

There were a total of fifteen captives from heavenly deity institution, every single one of their expressions deathly white. If they died like this, they would really feel too wronged.

“Relax, if you don’t provoke it, there won’t be any dangers!” Shi Hao warned.

Kacha!

The enormous black spider’s eight legs were bright, looking like spears. They drew out a string of sparks on the ground, as if metal was grinding against each other.

One of the spider legs almost touched a young lady’s face, leaving her so horrified her face lost all color. This wouldn’t only be a disfiguring of her face, but might very well remove her entire head.

Shi Hao frowned. He turned around, using the Willow Deity technique to wrap around them, and then throwing them together. He then arranged a formation to protect them.

That large black spider opened a golden eye, as if it developed life force. It rushed at Shi Hao, speed crazy fast.

Shi Hao turned around. He didn’t fear it, because there were many corpses in the ancient mine that were even more frightening.

Qiang!

The large spider leapt up. Like a black barbaric ox, it charged over in a fast and furious manner, immediately smashing into the ground. Sparks flew everywhere, the surface trembling with weng weng sounds.

Only, Shi Hao left behind an afterimage, long entering the darkness. This place was deep and cold, a quiet place inside of this ancient mine.

This was precisely the region that previously released scripture sound, making Shi Hao's heart beat quickly.

When he came here, he had that type of feeling again. He was shocked, as if there was a sharp blade placed against his throat, that if it just exerted a slight bit of force, would slash through his throat.

This type of feeling was as if he was on the verge of death, only lacking that final push!

As a result, his entire body became uncomfortable. After arriving here, there was a suffocating type of feeling, as if his entire soul was about to dry up and die.

Behind him, that large black spider immediately stopped moving. Even though it had died a long time ago, only having a primitive instinct, it was still incredibly frightened.

It stopped moving, not daring to forcefully press forward, to the extent where it began to tremble, body trembling slightly, in the end even going weak, crouching on the ground.

Shi Hao turned around. What he saw left him stunned, extremely shocked.

He finally knew how formidable the area ahead was, that it would definitely be extremely dangerous. How could a place that made this kind of vicious archaic vicious spider this scared be a good place?

However, Shi Hao couldn't turn back now. He had to advance, had to obtain the Six Dao Reincarnations Heavenly Art.

That spider was trembling and shuddering, ultimately withdrawing step by step, carefully leaving this dark area.

When Shi Hao saw this scene, he became speechless.

Along the way, this ancient mine was incomparably deep, blowing over waves of frost. He held the Ten Thousand Spirit Diagram in hand, wearing Lightning Emperor's armor, preparing himself for the worst.

This was for self-protection, he was going to stake it all!

He didn't forget how much regret and desire Qi Daolin carried back in Supreme Being Dao Rite, wishing to obtain the Six Dao Reincarnations yet unable to attain it. He stole from all different clans, wanting to create a similar method, but in the end, he was laughed at by the world, obtaining a notorious reputation.

This was Supreme Hall's inheritance, and for some reason, it was hidden here. Shi Hao had too many things he was puzzled over, he had to obtain it no matter what.

"Could it be that endless years ago, there was this type of heavenly art even in the last great era?" Shi Hao said softly.

It was because he had previously heard that Supreme Hall's inheritance was incredibly ancient, having some relationship with Immortal Ancient.

In the darkness, Shi Hao sensed a bone-penetrating pain. He didn't know where this place was, but while walking through it, he felt as if there were endless invisible swords cutting at him!

In that instant, blood seeped out from his skin, many places dark red.

The ancient mine became darker and darker, as if he was walking on the road to the underworld.

After a long time had passed, Shi Hao never stopped moving, yet he didn't reach the end. Moreover, that killing intent he encountered became even stronger.

As time went on, the Lightning Emperor battle armor shone, displaying protective effects. Otherwise, his body might have broken apart.

Suddenly, a pair of green eyes shone, looking towards him.

Precisely on this path, there was a hundred zhang tall ancient lion, sitting there in a dignified manner, overlooking him, eyes terrifyingly green. It was as if a single roar could shatter the sky.

This was still a corpse, only, its intelligence was a bit greater, as if it could understand Shi Hao and the others' words.

This type of frightening ancient lion remains, just how long ago was it left behind? From the looks of it, it already had some spiritual wisdom, its eyes that burned like ghost flame, too terrifying.

Aohou...

Right at this moment, it released a roar that shook the entire ancient mine, making heaven and earth split apart!

In that instant, Shi Hao coughed out large amounts of blood. The Lightning Emperor's armor shone, Ten Thousand Spirit Diagram displaying all types of creatures. It rushed out, confronting that ancient lion.

Outside the ancient mine, everyone's minds and bodies were trembling. There was actually a beast roar that sounded from the depths of the ancient mine, moreover shaking the mountains and earth outside, causing them to fissure. Those outside didn't understand what caused this, feeling incredibly shocked.

"Heavens, what happened? Could it be that the so-called ancient mine is a nest, that something terrifying will rush out sooner or later?"

"What exactly is there here?" Even heavenly deity institution's two elders' expressions changed. Their cultivations exceeded sect master level, both terrifying individuals, but right now, their hearts were pounding.

No one understood better than them how extraordinary this place was, how many mysteries that ancient mine contained. This was an ancient mine from an era that might be even more distant than Immortal Ancient, so it naturally carried unfathomable mysteries.

Meanwhile now, someone wished to break this equilibrium, wishing to bring the mystery back to light. What was going to happen?

"Origin Ancient Mine has too many things buried inside, perhaps... it can't be brought to light again!" They said softly, revealing a look of worry.

The Nine Phoenix Furnace was even randomly buried inside, so one could imagine just how frightening this place was. What exactly was there in the depths of this place?

In the outside world, emotions rose and fell, everyone worried, none of them able to calm down.

Inside the ancient mine, Shi Hao's mouth and nose were scarlet red, bleeding from all seven apertures. He unexpectedly suffered from this type of lion roar, forget about him, even more powerful creatures would have exploded from the power.

Fortunately, he wore the Lightning Emperor armor and held the Ten Thousand Spirit Diagram, allowing him to make it past this disaster.

That hundred zhang tall ancient lion stared at Shi Hao, staring at the Ten Thousand Spirit Diagram in his hands. In the end, it disappeared into the darkness, thus vanishing.

"Formidable. It cannot engage in deep thought, only capable of a short period of consciousness. However, if it was released into the outside world, it would definitely be a great disaster!"

Shi Hao wiped away the blood from the corner of his mouth, continuing forward. He picked up a few lion hairs from the ground, discovering that they were even sturdier than steel. When he exerted a bit of force on them, they shone, releasing keng qiang sounds.

If someone else saw this, they would definitely gasp. How frightening was Shi Hao's body? Yet it actually produced this type of scene.

He advanced again, making it through this important checkpoint. He got closer and closer to the place where the scriptures sounded from. His body felt more and more uncomfortable, as if there were blades hacking at him.

What kind of place was this? Shi Hao was a bit lost. The further he went, the wider the road became, as if he truly entered the underworld. This place was an enormous black abyss.

In the distance, there were a few creatures that passed, all of them with green eyes, strength powerful.

Shi Hao was a bit shocked. What kind of creatures were those? There was one like a dragon, another that was similar to the Vermilion Bird. Of course, they were all just corpses without life aura, but they still didn't disappear.

Fortunately, this path was more scary than dangerous. Not only did Shi Hao wear the armor, his left hand held the Ten Thousand Spirit Diagram, right hand carrying the Defying Dragon Scale, his preparations ample.

Now that he walked along this ancient cave, advancing forward, would he be able to return? Shi Hao asked himself. However, he had to continue forward.

A few natural laws hacked down like sharp blades. Sparks flew about Shi Hao's body, greatly shaken up. This proved that he was experiencing a nightmarish flurry of attacks.

This was the result after both the Lightning Emperor battle armor and Ten Thousand Spirit Diagram's protection. If he didn't have them, who knew just how terrible it would be.

Finally, he arrived!

Shi Hao was stupefied. He originally thought that he would see a resplendent place that was packed with rows of ancient scriptures, but the result was completely different.

It wasn't some mine cave, nor was it some pure land, but instead a massive building. It was incredibly suffocating, everything pitch-black.

A pitch-black ancient building, what did this mean?

Shi Hao walked closer, feeling that this was inconceivable. He quietly watched this scene.

What era was this built in? What kind of things would there be in this ancient mine?

Were there really heaven shocking secrets inside? Shi Hao was confused, attaching great importance to this place. After thinking for a bit, he felt that he might have overthought things.

Soon after, he focused his mind, walking forward to enter.

Shi Hao pushed open the large doors in his way, stepping into the black-colored palace. He immediately felt as if he was in a palace of death, a terrifying aura crazily battering at him.

At the same time, Shi Hao flew outwards, smashing into a stone wall, making all of the bones in his body about to break.

Just what kind of place was this exactly? What kind of creatures built this? Why would it be like this?

Shi Hao climbed to his feet with difficulty. He looked forward, mouth and nose dripping with blood.

An invisible energy crept close, the pressure incredibly chaotic. It was as if a star smashed over.

Shi Hao was terrified. What kind of terrifying crisis was this? If not for the Ten Thousand Spirit Diagram protecting him, he would have most likely died right there.

He clenched his teeth with difficulty, walking forward, finally entering, stepping into this black ancient palace. This place was hazy and indistinct.

However, this place was also incredibly desolate, making one's heart rate speed up, feel great fear. It really was a place for tempering the true self, the killing energy too great.

Shi Hao's body rocked back and forth, the pressure he faced here just too great, body almost breaking apart!

He walked inside, shifting his footsteps with difficulty. The pressure was unimaginably great, body about to explode, as if he was being forced to kneel here, fall into eternal rest.

Shi Hao saw six figures standing there, every single one of them exerting a type of special stance, as if they were cultivating, but also as if they were forming imprints.

What kind of person was this?

Every one of them was incredibly terrifying. This place, as well as the road up to here surged with world shocking energy that made one suffocate, and all of this was brought about by these individuals.

“Six figures, Six Dao Reincarnations?” Shi Hao spoke. It was becoming harder and harder to stand still here, his body on the verge of collapse.
