

Perfect WD 1101

Chapter 1101 - Extremely Brilliant

Hu!

Meng Yun attacked fiercely, forcing back the individuals who rushed forward again. One of them even coughed out large amounts of blood, injuries extremely serious.

Finally, a cough sounded from within the mountain gate, and then a few people appeared. There were extremely powerful cultivators among them who released astonishing auras.

“Meng Yun, why must you go so far?” One of them spoke.

Quite a few people came this time, splitting into many powers. There was a young man in one of the groups who had green hair scattering down his shoulders, sitting there, unmoving.

There were many people in his surroundings, standing at the two sides, making him look even more extraordinary and holy.

“Lu Tuo, he appeared!” Someone cried out in alarm, raising a commotion. Many people’s eyes began to burn with passion.

Lu Tuo, this was a powerful individual. He didn’t move, sitting on a dao platform, floating in the air. The academy’s elites hovered in his surroundings, crowding around him.

This person was a legend, someone who had never been defeated. Even though he looked extremely handsome, when he spoke, it was like thunder, able to blast one who cultivated immortal energy to death on the spot, let alone his other true divine abilities. This person could not be fought head on!

He grasped a true ancient heavenly art, far above his peers. His valiance dominated the Nine Heavens Ten Earths. Now, he personally made an appearance.

Meng Yun’s expression changed, withdrawing immediately!

In front of Lu Tuo, even someone as powerful as Meng Yun who cultivated two strands of immortal energy couldn’t display the slightest bit of fighting spirit, turning around to leave.

Meanwhile, at this time, the mountain gates opened. Many people appeared. Lu Tuo was not the only one, there were other well-known individuals who appeared as well.

“The core disciples have all come out, about to choose followers!” Someone cried out in alarm. A great disturbance was immediately raised here.

A group of people swarmed forward, rushing towards Lu Tuo and the others, wishing to distinguish themselves from the crowd.

Shi Hao became a bit speechless. Just the competition for this type of quota was already so fierce, one could imagine just how intense the selection for true disciples back then was.

He released a light sigh, feeling that things weren't going to go smoothly this time. Heavenly deity institution actually refused disciples with such great potential, so how could someone who came as late as him not be refused?

Shi Hao frowned, starting to think to himself.

He felt that with his talent and strength, he could enter. Heavenly deity institution didn't have any reasons to refuse him. However, when he thought of how Yuan Qing wanted to suppress him for ten years, leaving him in Origin Ancient Mine, he felt extremely uncomfortable inside.

There was someone acting against him, moreover someone with great authority.

Shi Hao's eyes flickered, revealing coldness.

Another group of people arrived, stars surrounding a moon, a male walking at the center, many experts around him. He was extremely young, body releasing chaotic energy.

Feng Xingtian!

The most powerful cultivation genius that had emerged in Feng[1] Clan after many eras, known to be comparable to his ancestor, someone who wasn't weaker than a long life being in his youth!

His name was well known in the nine heavens, one of the most powerful geniuses!

Shi Hao restrained his aura. He could tell from a single look that this person was ridiculously powerful, possessing terrifying divine strength, definitely a formidable figure.

At the same time, Feng Xingtian sensed something, revealing a look of surprise, looking in this direction.

"Ya, hurry and look, Princess Yao Yue also came!"

A group of boys were excited, flocking in a direction, staring at a woman. All of their eyes began to burn with passion, as if they were looking at a piece of rare treasure.

Who was Princess Yao Yue?

Shi Hao didn't know, so he turned around, looking in that direction.

A woman walked over elegantly, arriving while treading on moonlight. Even though it was daytime, her body was surrounded by water like moonlight, incredibly pure and holy.

She wore light clothes, face beautiful, elegant and perfect, as if she was someone from a fantasy. When she blinked her starry eyes, it immediately made others infatuated.

Shi Hao was shocked. Forget about everything else, just the spiritual force of this woman was exceptionally shocking, able to look down on all of her peers. When her eyes opened and closed, the wisps of spiritual force could almost condense into tangible matter.

Of course, only with Heavenly Eyes could he see these things. There was no way the naked eye could see that type of powerful spiritual force.

Sure enough, that woman sensed something, detecting a powerful spiritual force that wasn't weaker than hers. She couldn't help but look back, searching about in this direction.

Shi Hao restrained his aura, silently watching. Heavenly deity institution was hiding great talents after all, an astonishing place, gathering the most powerful heroic talents of the Nine Heavens Ten Earths.

“Princess Yao Yue came from an ancient imperial court, also belonging to an ancient long life family!” Someone said softly, describing this woman’s identity.

The others sighed. Her origins were too powerful. The family a long life being established, as well as an imperial court, that was definitely the greatest power, not many things comparable to this.

Princess Yao Yue clearly possessed great popularity in heavenly deity institution. Not only these outside cultivators, but also those true disciples’ eyes were burning as they looked at her.

Then, the atmosphere became more and more intense, because core disciples appeared one after another, triggering great disturbances, this place unable to calm down.

“You came!”

Lu Tuo pointed at a woman who was beautiful and dignified, extremely outstanding, figure long and slender. When she walked, she was elegant and refined, her figure moving as she arrived.

This triggered cries of alarm, because that was an imperial lady who came from a well-known ancient country, her reputation great.

There were immediately people who began to make noise, triggering quite the commotion.

This imperial lady was first shocked, and then she walked over, natural and unrestrained to Lu Tuo’s side, becoming his follower.

“Don’t tell me she’s going to become a concubine?” Someone released a strange cry.

Hong!

This place became even noisier, many people gazing over together, staring in that direction.

Only, Lu Tuo released a cold snort, and then all of the noise disappeared, that area gradually becoming quiet.

It was because that cold snort was like thunder as it erupted in their minds, shaking up many people until their ears were in great pain, bodies staggering, almost collapsing on the spot.

“Yi, Princess Yao Yue is also choosing someone. She needs two servants, as well as an ancient beast to pull a carriage!”

When news got out, a group of people swarmed over, doing everything they could to sell themselves.

“Heavens, isn’t that Bai[2] Hong, White Tiger Clan’s outstanding talent, an area’s young supreme being? It’s actually willing to pull the carriage!”

“This is too absurd. Why would he make this type of decision?!”

This place became chaotic, many people staring forward in disbelief.

Bai Hong, a heroic young man, white clothes refined, bloodline noble, this was an extremely well known young expert. Back then, he was almost chosen to become a disciple of the academy, but ended up failing because of a few unexpected events.

Now, his smile was warm, fiercely leaping up, turning into his original form, displaying the White Tiger body, willing to become the divine beast that pulled Princess Yao Yue's carriage.

This was definitely explosive news, difficult for it to not be talked about, triggering a commotion.

"What is Bai Hong trying to accomplish? Ignoring his status, is he letting himself go, about to turn into a mount to pull a carriage?!"

Princess Yao Yue became the focal point of ten thousand eyes. An exceptional young talent was willing to do this, proving just how great her charisma was.

Only when Feng Xingtian, the one known to be comparable to the Wind Clan's ancestor walked over from the distance, about to choose a follower did everyone's attention slightly shift.

A few beautiful women, as well as some confident powerful young men moved towards him, hoping to be chosen.

Suddenly, a place not far off became silent, as if a clamoring street immediately became quiet, quite abrupt.

However, that place became noisy again soon after.

"Young miss Wang Xi has arrived, also about to select followers!"

The news erupted like thunder, making this place quake. The cultivators outside the mountain gate all looked in that direction, revealing hopeful expressions, wishing to be selected by her.

"Long life family Wang Clan's brilliant pearl, she cultivated three strands of immortal energy, powerful, incomparable, exceptional under the sky!"

When these cries of alarm sounded, Shi Hao knew who she was. The diamond band forced onto his head was placed by her clansmen in Origin Ancient Mine, precisely so that he could become this lady's servant.

"Truly extremely beautiful, an outstanding beauty!" Many people sighed with astonishment, feeling a bit infatuated.

When one cultivated to their cultivation realms, generally speaking, it was difficult for beauty to move their minds. This was, unless they were too bewitching, or if their spirits were moved.

It was clear that this young lady, regardless of whether it was her appearance, body, or spiritual quality, all made her a peerless beauty!

Princess Yao Yue's appearance alone triggered an uproar, drawing ten thousand eyes. When the Wang Clan's young miss emerged, it was the same, becoming the most dazzling center of attention.

She was indeed selecting servants, treating this matter seriously. Her eyes carried astonishing brilliance as she swept them over everyone's eyes one by one. However, she didn't immediately announce her decision.

Suddenly, she saw Shi Hao, immediately staring blankly. Divine light flashed through her divine eyes, and then she walked straight at him!

Chapter 1102 - Fairy Wang Xi

Wang Xi, beautiful to an unrealistic degree, her oval face sparkling white like fine jade, black eyebrows curved, eyes like black gemstones. Her nose was straight and tall, lips red, her head of beautiful hair glowing like satin.

Her figure was tall and straight. When she walked over, she was like a swaying divine lotus, skin sparkling and brilliant, entire being perfect. Even that long dress couldn't hide her curves.

The crowd's breathing became rough as they quietly watched her. When this type of world toppling beauty approached them, it was as if she was a fairy walking out from a painting.

Everyone appreciated beauty, let alone this type of unmatched woman, naturally drawing attention. The discussions in the surroundings all stopped, everyone watching quietly.

Shi Hao didn't wish to stir up trouble, so he was like the others, eyes brilliant, looking at her with burning eyes, doing his best to look like the others.

However, he wanted to remain calm, wishing to blend into the crowd, but he still failed. It was because that young and beautiful woman was coming straight for him.

As the Wang Family's pearl, as well as the woman with the greatest potential in the history of the clan, Wang Xi's spiritual awareness was terrifyingly sharp, extremely astonishing.

Even while quite far away, she felt that this youngster was unordinary, giving her a strange feeling. When she got closer, she immediately understood the reason.

This young man wore a golden band on his head!

It was releasing an almost undetectable ripple only her clan's geniuses could sense. It was because this was an imitation of their clan's supreme magical artifact.

Their clan's ancestral artifact diamond band shook the nine heavens, who didn't know about its existence?

The quality of the diamond band imitation the young man wore on his head was the highest kind, not something an ordinary person could use. Wang Xi could tell that this young man's origins were unordinary from a single look. Otherwise, her clansmen definitely wouldn't have easily given this type of item away.

"It carries a grain of Immortal Gold!" Wang Xi sighed with astonishment. From a certain perspective, the diamond band the young man wore carried astonishing value.

However, this magical artifact was only used to subdue and restrict him.

“Was it the clan’s elders that told you to come here?” Wang Xi secretly transmitted sound, extremely gentle and pleasant to listen to, as if sounds of nature were sounding in his head.

She knew that her clansmen were looking for a suitable servant for her, previously saying that they were going to look for the best, that they would use this type of diamond band to restrict the person. This proved this person was extraordinary.

Shi Hao was speechless. He truly didn’t want to be targeted by this person, especially after drawing a group of eyes. He just wanted to calmly enter heavenly deity institution.

However now, the situation seemed to have changed a bit. ~~nowe-ll~~-In

He didn’t reply, only giving Wang Xi a look. Then, he looked elsewhere, not paying her any attention.

Wang Xi smiled, extremely calm, but also quite stunning, as if an immortal flower corolla was blossoming, immediately brightening heaven and earth.

Those bright eyes looked over, red lips bright, teeth pure white, immediately making many people distracted. Even though the smile wasn’t that provocative, even a bit faint, it still made the hearts of cultivators nearby jump crazily.

Even females felt the urge to sigh. Wang Xi’s beauty was too extraordinary, making them feel ashamed of their inferiority.

“Has some character.” Wang Xi only spoke these few words. Her eyes were profound and unfathomable, revealing a hint of expression that was difficult to comprehend.

Shi Hao was shocked. His eyebrows jumped, looking at her. He could clearly sense a bit of provocation from the other party, as well as a bit of ridicule. This woman was quite different.

Wang Xi was indeed a bit surprised. She felt that since this male dared to ignore her like this, there was several possible reasons why he did this.

The first was to draw her attention, purposely acting artificially. The second was that he was unwilling to accept this, not wanting to be ordered about by her. Another possibility was that he really was calm, like this to begin with. This meant that the other person felt that he could deal with her with equal statuses.

Was it her clansmen who sent over a servant, or did a runaway captive just happen to run here? Or maybe he came here precisely for her, paying a tremendous price to purchase the diamond band, restraining himself on purpose to meet her?

Wang Xi came from a long life family, so she was naturally not a normal woman. There were many thoughts and speculations that appeared in a flash.

She revealed a faint smile. She decided not to worry about those situations, she was indifferent to them, instead feeling a bit amused. Regardless of whether this young man came here honestly or while wearing a fake mask, she didn’t mind. Regardless, it was all to become a servant, to be ordered around by her.

If this person’s purpose wasn’t pure, it would instead be more interesting. She would then have quite the play to watch, see what kind of tricks he was going to play.

"You'll be the one." Wang Xi spoke. She revealed a smile, dazzling others until they couldn't open their eyes, brilliant light astonishing, leaving many cultivators shocked.

Immediately afterwards, killing intent surged. Many creatures stared at Shi Hao with unkind expressions at the same time, carrying jealousy and anger, as well as unacceptance.

Everyone knew that Wang Xi selected Shi Hao, going to bring him into heavenly deity institution.

They felt quite dejected. They came here for his type of qualification, especially being chosen by this type of world toppling beauty. In the eyes of many young experts, this was the best opportunity.

In the end, the results were unrelated to them, the quota taken up by that person.

In reality, Shi Hao didn't feel happy at all. After being forced to wear the diamond band by the Wang Family like this, he had long wished to settle this debt. However, it wasn't good for him to act out here, after all, the situation was complicated, he wasn't willing to stir up more trouble.

Of course, agreeing like this was impossible. He cultivated three strands of immortal energy, so why did he have to serve as the servant of another?

If it was the other way around, that would make more sense. In the three thousand provinces, he had previously declared similar 'great ambitions', even though it was done in a half-joking manner.

"Hey, Fairy Wang Xi is speaking to you." Someone reminded Shi Hao. It was a handsome and carefree young man who followed at Wang Xi's side.

It was clear that this was a follower Wang Xi accepted before.

Aside from him, there was a young lady with charming looks, exceptional strength.

"I do not wish to follow you." Shi Hao said, direct and plainspoken.

When this sentence was spoken, the handsome male immediately revealed a strange look. He actually refused!

This place became quiet, everyone becoming shocked, feeling as if they misheard. Someone was refusing Fairy Wang Xi's invitation? This almost felt a bit unreal.

One had to understand that it was unknown just how many creatures wanted to be in his situation, especially the young men, their eyes burning with passion, wishing for the chance to accompany an exceptional beauty at her side.

Yet this youth refused just like that, leaving them so shocked their eyeballs were going to pop out. They were stunned and confused.

Wang Xi revealed a ruminant look, but this type of expression disappeared with a flash. Her bright eyes moved about, looking again and again, thinking about why this person refused.

Was this a noble and virtuous deliberate display? Or was it to say, he really was refusing.

Regardless of which it was, she wouldn't allow the other party to refuse, having to keep him by her side and then slowly torment him, watch what kind of performance he would put up.

As a result, she smiled, inviting again, her smile extremely sweet.

Many people were stupefied. The Wang Family's fairy was so amiable, a smile stealing the hearts of many, truly rarely seen. Many people felt moved.

Shi Hao refused again.

This time, everyone felt that it was a bit strange, all of them dumbstruck. Was this fella doing this on purpose, trying to draw the fairy's attention?

A group of people grinded their teeth, feeling that this person deserved a beating!

Chi!

In the distance, there were people who sneered. They were all official disciples of heavenly deity institution, their numbers not small. When they saw this scene, they all revealed expressions of disdain.

"This person is too egotistical, who does he think he is? Does he think that he can make a deeper impression like this, draw Fairy Wang Xi's interest? Too childish!"

"This loser doesn't even have the qualifications to enter the heavenly deity institution, far below us, yet he wants to play this kind of game, just overestimating his capabilities! One has to know that he doesn't even have the qualifications, yet he wants to draw Fairy Wang Xi's attention?"

Many of heavenly deity institution's disciples shook their heads, taking delight in this disaster, sneering at him.

However, contrary to expectations, Wang Xi moved her red lips again, extremely amiable, inviting Shi Hao again, making the people outside the mountain gates jealous. Meanwhile, the disciples in heavenly deity institution revealed strange looks, feeling that Shi Hao was out of luck.

"Is Wang Xi trying to deal with him, taking him as a servant first, and then properly torment him after he enters the academy?"

"This fella is in trouble, actually daring to treat Fairy Wang Xi like this, too vulgar!"

The cultivators inside the academy who cultivated immortal energy all laughed. Even they felt like Wang Xi was bright like a moon, impossible to chase, so they naturally showed Shi Hao contempt.

"I have the qualifications to become an official disciple myself, so I never decided to enter the academy through you all." This time, Shi Hao was even more direct.

When Wang Xi heard this, she revealed a look of surprise, indeed a bit shocked. "Is that so? Then I'll have a look."

She took action. With a wave of her sleeves, she approached Shi Hao, elegant and agile like an immortal. A strand of pure white mist appeared, surrounding Shi Hao, wishing to suppress him.

Shi Hao didn't move, allowing the mist to cover him. He secretly activated two strands of immortal energy to stop this.

Others couldn't see, but Wang Xi was shocked, deeply sensing that this person actually cultivated two strands of immortal energy, greatly exceeding her expectations!

This was the first time she was shocked. This person was a genius after all, having the qualifications to enter heavenly deity academy, a rarely seen expert.

This time, her smile became even more brilliant, extremely interested, secretly transmitting sound, seriously inviting him for a chat, wishing to discuss with him in a different place.

"There is no need!" Shi Hao didn't wish to let things worsen further.

"Your talents aren't bad, but it is quite pitiful, heavenly deity institution really isn't taking disciples any longer. There were a few people who, due to coming late, even had their qualifications stripped. It is to the extent where a young man named Huang who cultivated three strands of immortal energy, because of unexpected events, didn't come in time. There are people inside the academy who have proposed to no longer accept him." Wang Xi secretly transmitted.

This left Shi Hao shocked. He secretly clenched his fists, unexpectedly obtaining this piece of information, making him furious.

He still looked quite calm on the surface, not displaying anything.

Shi Hao's mind moved, thinking about many things. He wanted to walk away from this problem, no longer paying this so-called heavenly deity institution any more attention. If he had to lower his dignity to join, he would rather give up.

"Yi?" An uproar sounded in the distance. Many people raised their heads, even heavenly deity institution's students like this.

An individual moved through the sky, bringing a youth straight into heavenly deity institution, releasing a powerful aura!

"Yuan Qing!"

Shi Hao's eyes became cold. He actually saw Yuan Qing, the one who wanted to suppress him for ten years. This was a great enemy.

Soon after, someone said something softly, releasing a piece of news. Yuan Qing delivered a descendant who might very likely join heavenly deity institution.

A dark haze shrouded Shi Hao's heart. If he could show his expression, it would definitely be extremely ugly. Yuan Qing was actually allowed to send a descendant into heavenly deity institution!

He immediately understood why someone had Yuan Qing take action, suppressing him for ten years, involving a few complex people and powers. Was this an exchange of interest?

It was clear that there were people inside the institution with unclear attitudes, or else why would Yuan Qing dare bring over a disciple?!

Rage surged within Shi Hao's mind. So what if he didn't enter this heavenly deity institution?!

“Yuan Qing, do you know your crimes?” Suddenly, a voice sounded from the depths of heavenly deity institution, ringing like thunder.

“Yuan Qing, you should leave first.” However, another voice sounded.

Chapter 1103 - Entering the Academy

Inside the mountain gate, great peaks towered one after the other. There were flowing colorful and white mists sweeping about, hazy and indistinct, truly like an immortal dwelling. ~~nove-ll~~-In

At this time, even the figure of someone as powerful as Yuan Qing trembled, as if he suffered some type of energy attack. His dao robes fluttered about. Then, he released endless golden light to resist.

“Enough, Yuan Qing, come back for now.”

Within the depths of the academy, there were jade palaces, divine islands floating in midair, surrounded by chaotic energy. Right now, an aged voice sounded, calling him over.

From the voice, it should be the one who was partial towards Yuan Qing.

Shua!

Blazing multicolored light flashed. He disappeared from this place, entering that island.

Outside the mountain gate, everyone saw this scene clearly, all of them shocked. There was actually this type of thing that happened.

There were some people who knew who Yuan Qing was. This person was well-known, strength extremely great, a formidable figure in Immeasurable Heaven.

There were others who knew what he did recently. It was rumored that he helped Wind Clan suppress the lower realm genius Huang for ten years. This was something that went against the academy’s will.

Normally, who would dare do something like this? However, he did it, moreover extremely calmly, exiling Huang to Origin Ancient Mine, not returning to this day, life or death unknown.

It was to the extent where almost no one believed Huang was still alive. He was forced into Origin Ancient Mine, not returning after going inside. Now that so many days passed, they all believed that he was undoubtedly dead.

From a certain perspective, Yuan Qing’s confidence and power made others intimidated. He was just this domineering, forcing a youth with endless potential to death. Moreover, after the matter, he didn’t pay any price because of this, still dominating an area.

Of course, knowing was knowing, hearing was hearing. Before this scene, no one dared say anything to avoid provoking Yuan Qing.

Shi Hao thought silently to himself, not saying anything.

“Yuan Qing stopped a genius, he really is something. It doesn’t even seem like he will receive too severe of a punishment.”

Wang Xi said, her beautiful eyes moving back and forth, looking through the crowd. This immediately gave the surrounding people some confidence, sticking out their chests to express themselves.

Soon after, a sky shattering sound could be heard from the air. Yuan Qing appeared again, face a bit pale. However, he wasn't suppressed and punished, only emerging.

Moreover, the disciple he brought over was left behind, not being chased out.

Shi Hao was seething with anger, there was actually this kind of result!

Yuan Qing acted against him, causing him to lose his way. Now, everyone already thinks that he died, yet Yuan Qing didn't receive any punishment, the disciple he brought over instead being accepted into the academy.

The former and latter were just too different.

Shi Hao, the victim, was still outside the mountain gate, yet the perpetrator sent the descendant into the academy, occupying a precious quota.

Moreover, it was already passed around that all those who were late would be refused, meaning that Shi Hao had no chance of entering.

For him, this was simply a joke, a type of irony.

Shi Hao really wanted to just leave, this heavenly deity institution couldn't be joined, so there was no need to force it. He felt a wave of sullenness that was difficult to endure.

Only, when he heard everyone's discussion, that the one sent inside was the descendant Yuan Qing doted on the most, he then stopped.

Since it was his enemy, then he had to take some action. Since he couldn't kill Yuan Qing or the ones who incited him, then he'll just start with dealing with their descendant.

Regardless, these people wanted to suppress him for ten years, all for the sake of paving the way for this descendant, so he'll crush their hopes.

He might not necessarily join the heavenly deity institution, but he could stay here for a period of time. If he could obtain the immortal dao resources here, then it wouldn't be that bad.

"Alright, I'll take a step back and invite you to discuss the dao and not as a follower. What do you think?"

When Shi Hao remained silent, Fairy Wang Xi said this, unexpectedly taking a step back.

Everyone became shocked. They couldn't help but raise a commotion. These conditions were just too good right? Actually treating him as an equal, not requesting him to become a follower, let alone a servant.

Wang Xi was a well-known fairy, born from a long life family, the descendant of a true immortal, status incredibly noble. However now, she actually lowered her stance, inviting this youngster like this. It truly left others shocked.

Many people's eyes swept over, expressing tremendous hostility towards Shi Hao. They weren't the only ones, even heavenly deity institution's official disciples were shocked, extremely jealous.

It was because Wang Xi was intelligent and pure, reputation too great, the most important being that she was a world toppling beauty, someone with immortal lineage, many people's ideal goddess.

"This stupid brat doesn't even have the qualifications to enter the academy, not even cultivating immortal energy, for what reason should he be treated like this?!"

The crowd found this hard to accept. The formal disciples inside the academy all released cold radiance.

"Even with his type of aptitudes he can discuss the dao with young miss Wang Xi? Will he even be able to understand those great dao sutras?" Someone said sarcastically, carrying contempt.

Of course, there was even more so a type of jealousy. They just couldn't understand how someone without the qualifications to enter deserved Wang Xi's attention.

"Haha..." Someone laughed, shaking his head and saying, "You all really are stubborn. If you change your perspective, everything will make sense."

"What do you mean?" Someone asked.

"This person's talents aren't enough, so young miss Wang Xi only wants to keep him at her side to slowly deal with him. As the most esteemed long life family's young miss, how can she tolerate someone refusing her? Just wait for a bit and see, there will be quite the play to watch." That person said with a smile.

When he explained like this, the others understood in a flash, nodding their heads one after another, realizing what was going on.

As a result, the official disciples within the mountain gate all calmed down, no longer displaying hostility from their eyes, only pity remaining, feeling that this person was quite pitiful.

Outside the mountain gate, Shi Hao thought for a bit, and then agreed.

"Heavens, it truly is unfair. Look at his reluctant look, too shameless, clearly all faked, putting on too much of an act!" The people nearby were furious.

However, soon after, the official disciples' conversations transmitted over, so the people over here understood as well. They revealed looks of surprise as they looked at Shi Hao.

When Shi Hao heard their discussions, he couldn't help but raise his head towards Wang Xi. This Wang Family's young miss wanted to torment him?

Wang Xi revealed a faint smile, the meaning unclear.

Shi Hao looked at her, and then thought for a bit. Perhaps the other party did this for the diamond band on his head, also perhaps because of his refusal. Regardless, there was still a bit of curiosity towards him, so she wasn't going to let him go, wanting to take him as a follower.

Wouldn't it just be a fight? Or maybe some other type of battle. He wasn't scared of anything, not fearing that he would be tormented or anything.

"Let's go then." Shi Hao said.

This made the handsome and vigorous young man behind Wang Xi frown. Who exactly was the master and who was the servant? This attitude was just a bit too high.

As for the young lady behind Wang Xi, she was a bit curious as well, feeling like there was a good play to watch. If this young man joined, there'd definitely be many things stirred up.

As for the others, they were speechless, jealousy and hatred already not enough to describe their expressions.

"I will choose two more followers." Wang Xi said, her voice gentle, extremely pleasant to listen to. It was always like this, even when she was indifferent, her voice still gentle.

The people nearby were moved. There was actually still more chances.

Soon after, Wang Xi pointed out a male and female, both of them surpassing the others, people who long reached the level of those in heavenly deity institution. Aside from not having immortal energy, these two exceptional talents could overlook all of their peers.

"Done?" Shi Hao asked.

This left even Wang Xi a bit speechless. This fella actually put on airs with her, was he treating her as someone of equal footing? She was just being a bit more polite, while he really took this to heart!

"Done!" Wang Xi nodded, a bit cold, because few people rushed her like this.

Ancient pine trees stood one after another like ancient beasts, living here in seclusion, the branches about to reach the ground, growing at both sides of heavenly deity institution's mountain gate.

Every one of these ancient trees were several tens of thousands of years old, but what was strange was that they didn't develop sentience, still just trees.

Some said that because of a great battle before, due to the falling stars and ancient experts' blood being mixed in, it suppressed these ancient trees, preventing them from developing a soul.

"Younger sis Wang Xi, you chose two followers and invited a dao friend?" A gentle laughter sounded from the distance. Princess Yao Yue appeared, surrounded by moonlight, exceptional and brilliant, skin soft and moist like ivory, carrying a sweet smile.

She looked towards Shi Hao, laughed, and then said to Wang Xi, "I will have to invite this dao friend to discuss the dao another day as well."

"Sure." Wang Xi nodded.

It was clear that as young ladies from long life families, the two were always in fierce competition. They had to compare even when the other party chose a follower.

Then, Shi Hao saw Lu Tuo. This person was extremely frightening. Just a faint look he swept over was already like crashing thunder, shaking the void!

Shi Hao didn't mind it much, feeling quite carefree. He looked towards the distant Feng Xingtian. That was the Wind Clan's stunning inheritor. If this clan really wanted to deal with him, Shi Hao didn't mind fighting a great life and death decisive battle against him.

Even though everyone was talking about how frightening he was, difficult to find similar level opponents in the Nine Heavens, Shi Hao was still without fear.

Great peaks rested one after another, some entirely pitch black, some releasing scarlet light, others releasing purple energy, all of them different. However, there was one point in which they were the same, and that was that they were rich with heaven and earth spiritual essence.

This was the most ideal cultivation pure land!

Shi Hao never expected he would enter heavenly deity institution in this type of manner. Wind and clouds were stirring, major events about to happen.

Chapter 1104 - Clear Light Secluded Woods

Clear Light Secluded Woods, this was the cave Wang Xi resided in.

The mountain forest was deep, light drizzled about, extremely peaceful and auspicious, a rare dao earth.

It looked a bit overgrown at first glance from the greenery covering the mountains and plains. If one didn't look carefully, one might mistaken this place for being covered in weeds.

In reality, there were many ancient medicines growing in this forest ground, within mountain cracks, accompanied by rising purple multicolored light. They looked extremely peaceful and holy.

Heavenly deity institution occupied a vast area, the various spiritual mountains too numerous to count, every single disciple having their own pure land, belonging to someone.

Meanwhile, someone like Wang Xi who cultivated three strands of immortal energy had a place that far exceeded the others, having ten times the amount of dao land as others.

Meanwhile, in this region, there were ten great peaks, every single one towering into the clouds, either shining with glowing green light, surrounded by draconic energy, or surging with purple energy... a myriad of different scenes.

Clear Light Secluded Woods was precisely between these ten divine cliffs, truly a peaceful and divine place. Ten underground divine earth veins nourished this place, turning the ordinary into the elegant and refined. n)-Ove1b1n

Shi Hao drew many eyes along the way here, sizing him up. It was because Wang Xi had extraordinary status, so the person she chose naturally deserved to be paid attention to.

Fortunately, he had already changed his appearance before coming here, not displaying his true appearance when coming here, or else he would definitely be recognized. He encountered people from the three thousand provinces along the way. If there was no Yuan Qing, then that was that, but after learning that Yuan Qing could depart without being troubled much, there was definitely a need for Shi Hao to remain on guard.

Shi Hao felt that he couldn't contact his old friends yet to avoid letting side issues continue growing.

Clear Light Secluded Woods had a few thatched cottages that looked simple and ordinary, blending into this natural type of setting.

Meanwhile, not far out was a cave cut from a stone wall. It released a peaceful light, wisps of chaotic energy accompanying this place. One could tell from a single glance that this was a cultivation pure land.

Shi Hao and the two other chosen individuals were brought into the cave. When they entered the stone wall, they immediately felt a blast of heaven and earth essence, so rich it was like water.

This was the result of the nourishment of ten divine mountains' ancestral veins, all of the heaven and earth essence nurturing this cave.

Inside the cave, colors shone brilliantly, multicolored light pouring out like water, surging from the stone walls and beneath the earth. This original essence would enter one's body even without cultivating.

"You all can go inside to cultivate." Wang Xi said. Even though her expression was quiet and content, she didn't reveal a smile, yet it still gave others a gentle feeling.

Aside from the male and female that followed at her side before, she chose another pair of man and woman this time. When the two that came later heard this, they were overjoyed. Cultivating in this type of precious land would definitely result in twice the result with half the effort.

They didn't expect Wang Xi to be this generous, allowing them to cultivate here instead of building a house outside the cave.

Suddenly, a dao child riding on a magic cloud arrived, informing Wang Xi that an elder in the academy was looking for her.

"Chen Nuo, you can bring them around to familiarize themselves with the nearby scenery, I will accompany the elder for a bit." Wang Xi ordered before leaving.

Chen Nuo was the male who always followed behind Wang Xi, heroic and energetic. He was a follower selected before, strength extremely great, long reaching the peak stage of the heavenly deity level.

He only cultivated for a few decades, yet already had this type of cultivation, astonishing even in the Nine Heavens above. Only, it was a pity that he couldn't cultivate immortal energy, or else his prospects would be limitless.

Of course, it wasn't like he was without opportunities, because all of the great sects had secret methods. Everyone knew that the heavenly deity level was extremely important, that there was another chance to turn from a fish into a dragon.

Moreover, this chance was extremely important. If one grasped it, then they might even surpass the exceptional geniuses who shot up before.

That was why Chen Nuo was always waiting for a chance, never feeling too dejected, believing that he would one day be on equal footing with the most powerful individuals.

The reason why Wang Xi chose him was also precisely because she saw his potential, keeping him at her side. Chen Nuo understood this well, and as such felt an even greater surge of motivation, carrying a passionate ambition as well.

When Wang Xi left, Chen Nuo brought Shi Hao and the others around the ten divine cliffs to familiarize themselves with the surroundings and other things. It had to be mentioned that this region was extremely vast.

Every single mountain occupied an extremely large amount of land, surrounded by hazy mists, releasing strand after strand of multicolored light.

“Even though we can cultivate inside the cave, we have our own places to stay. Everyone can choose a divine cliff.” Chen Nuo said.

He pointed towards ten great peaks. There were those that were entirely black, those with sparkling purple light, another with scarlet multicolored light that rushed into the heavens, all of them magical and extraordinary.

Both him and the other lady had long entered, making their choice, occupying two peaks.

From what they said, normally, it was still best to cultivate in their own divine cliffs and not go into the cave to disturb Wang Xi, even though she permitted them to go there. Right, it was still better for them to understand propriety.

It was because even true disciples only had a single divine cliff.

When he saw that the two others who came with him already chose their divine cliffs, Shi Hao didn’t want to make things difficult for Chen Nuo and the others either. Even though he wasn’t a follower, it was still best not to go too far.

“Why aren’t there that many birds and beasts here?” Shi Hao looked around.

“There are more in that direction.” The young lady named Su Lan next to Chen Nuo pointed. Back then, she was chosen together with Chen Nuo, also already long reaching the peak of the Heavenly Deity Realm, her strength exceptional.

If one eliminated the element of immortal energy, Chen Nuo and Su Lan weren’t any bit inferior to the official disciples.

Shi Hao faced the sky, seeing a few vicious beasts roaming about and some divine birds spreading their wings. The area that mountain occupied was the largest.

“Can the wild animals here be eaten?” Shi Hao asked.

Su Lan was a bit stupefied, Chen Nuo also somewhat petrified.

As for the man and woman who came with Shi Hao, they were a bit speechless, looking at him, this scene truly a bit cold.

“You can, but some are reserved as mounts...” Chen Nuo said. As a result, he was cut off by Shi Hao. “Got it.”

Those four looked at each other in dismay, having a bad feeling. They looked at Shi Hao, and then at that mountain region.

"In a bit, I'll invite you guys to eat roasted Silver Sky Centipede casserole." Shi Hao said. He saw a few zhang long silver centipedes.

The four of them raised their heads at the same time. This appetite was just too great.

"Let's just do roasted Golden Winged Peng casserole then." Shi Hao then saw a golden divine bird that flew about in the sky.

"Don't, that's not our region, don't eat randomly! It'll be bad if the other geniuses come knocking on our door. Those are likely their mounts."

These people really were given a fright. This person really left them worried. How could he say this kind of thing after just entering?

"Forget it, I'll go down into the cold pool to catch a Flood Dragon and then grab a Green Luan from the stone cliffs, just fix together something randomly." Shi Hao said.

When Su Lan heard this, she almost stumbled. Just what kind of freak did they end up inviting? Those people were all a bit speechless.

"That Green Luan has True Phoenix blood inside, Fairy Wang Xi sometimes uses it to travel." Chen Nuo said with a wooden expression.

"Truly dull!" Shi Hao said while shaking his head.

It was unknown whether he was talking about this place not having anything to eat, or if he was saying they didn't know how to laugh at jokes. These people couldn't really understand his intentions.

Soon after, after selecting their respective divine cliffs, they then returned to the cave in the stone cliff, the origin of the ten earth veins. There was immortal dao origin essence from the underground ancestral veins.

They wanted to wait for Wang Xi here. She definitely had orders when she returned.

"You all do not need to feel reserved, can select a precious land in this cave to sit down first." Su Lan said, having them feel more at ease.

Of course, this was spoken to the male and female, definitely not to Shi Hao. It was because this fella already strolled around on his own after entering, not worrying about much at all.

Chen Nuo's expression was a bit ugly. If not for Shi Hao's identity being a bit special, not being chosen as a follower, he would have opened his mouth to berate him a long time ago.

Right now, both him and Su Lan had one eye opened, one eye closed.

"Ei? He disappeared?" An hour later, Chen Nuo and Su Lan were both shocked. It was because when they woke up from their meditation, they could no longer detect Shi Hao's whereabouts, unable to sense his aura.

The other two were quite speechless as well. This person was just too easygoing, did he wander off and get lost?

“Not good, don’t tell me he went into the young miss’ place of rest...” Cheng Nuo’s expression changed, rising to his feet.

Su Lan was also shocked, quickly heading towards a direction.

There were some areas in this cave they naturally couldn’t enter, the small area where Wang Xi cultivated alone, only able to enter when making reports.

“Is this fella a formation master? He really broke through this sealed door, able to enter?!”

When they entered the cavern depths, they were a bit shocked. A stone door was opened, overflowing with color. Great dao divine lights swirled about inside, incredibly divine.

In reality, Shi Hao didn’t enter by breaking the formation, but used his own immortal energy to push open the stone door.

“You... are quite daring, actually daring to use the young miss’ bed?!” Chen Nuo cried out, his face falling, eyes flickering with cold light as he looked at the person inside.

Su Lan was also a bit stupefied as she looked at Shi Hao, not knowing what to say.

“Stop speaking randomly. Isn’t this just a wondrous rock?” Shi Hao opened his eyes, entire body feeling rather comfortable.

This was a stone room, inside a zhang long rock that was sparkling and translucent. When he sat here, he could actually harmonize with heaven and earth, quickly entering a dao comprehension state. It was extremely astonishing.

“That is the young miss’ bed, a place no one else has ever used. This was brought from the Wang Family!” Su Lan said.

“Oh, I thought it was just a dao comprehension platform, so there was this type of story.” Shi Hao got up, walking off the stone platform.

“You actually did this type of thing, going onto the young miss’ bed, this matter isn’t finished!” Chen Nuo said angrily.

“Just a bit of misunderstanding.” Shi Hao said.

Right at this moment, a cry of alarm sounded from outside the immortal cave. “Someone went on Fairy Wang Xi’s bed?”

“Hey, stop speaking randomly!” Shi Hao was alarmed, releasing a shout.

Even now, Chen Nuo and Su Lan felt like something was wrong, rushing out.

“Heavens, someone went onto Wang Xi’s bed!” A woman outside shouted loudly, voice transmitting into the sky, fearing that others didn’t hear her before.

“Who is this girl?!” Shi Hao asked.

“She is Princess Yao Yue’s best friend, as well as a powerful official disciple.” Su Lan said.

Princess Yao Yue and Wang Xi normally always had a relationship of competitors, extremely fierce. This good friend of Princess Yao Yue was clearly doing this on purpose.

“What? Who is it? Who dares enter Fairy Wang Xi’s bed?!” A response sounded from the distance.

At the entrance of the cave, those individuals knew that there was great trouble. Now that this type of thing spread, how was Wang Xi going to react?

Chapter 1105 - Disturbance

Clear Light Secluded Woods, a place with rich woods, mists pervading the air, multicolored clouds brilliant.

That woman’s voice transmitted far into the distance. One had to bear in mind that this was heavenly deity institution, everyone’s hearing exceptionally sharp. Who wouldn’t be able to hear this?

Even though this place was extremely large, mountain region vast, there were still people who heard her voice from the distance, immediately becoming petrified.

Is this an illusion, what am I hearing? This was what everyone was thinking. It was too shocking, not daring to believe this! n)-Ove1b1n

Going on Wang Xi’s bed, was there any news more shocking than this? It was earth-shattering. Wang Family’s young miss cultivated three strands of immortal energy, aloof and beyond reach. In everyone’s eyes, she was too extraordinary, high above, the goddess of many geniuses.

In the end, there was this type of information. It definitely had a great toppling effect.

“This woman is crazy!” Su Lan stamped her feet. She knew that things were bad. The other person was definitely doing this on purpose, to cause misunderstandings.

Regardless of whether others believed or not, once news of this got out, it would tarnish the Wang Family young miss’ reputation. This made Chen Nuo and Su Lan panic a bit.

“Young lady Qi Lin, doesn’t your distinguished self feel that this is going a bit too far?” Su Lan spoke.

“I am merely declaring a fact, could it be that I’m wrong? I personally heard it.” Qi Lin said with a smile from the distance.

In Su Lan and Chen Nuo’s opinion, that smile was extremely fake, extremely despicable. Only, as followers of an official disciple, they weren’t Qi Lin’s opponent.

“If Princess Yao Yue knew about this, she might not necessarily approve of your distinguished self’s actions.” Su Lan did her best to lower her tone.

Qi Lin laughed. Like a fairy walking on ripples, she disappeared from that place.

She left, but this place couldn’t remain calm. There were immediately official disciples who rushed over to ask what exactly happened.

“What happened? Was what Qi Lin said just now true?”

Four or five young men rushed over, their eyes penetrating, extremely fierce. They stared at those people, loudly asking.

"Of course it's false. You even believe that woman's words?" Shi Hao spoke decisively. He didn't want to be caught up into trouble for no reason.

This was especially when he was being framed by others. Even though she didn't direct this at him, but wanted to deal with Wang Xi, he still didn't want to get involved in this type of thing.

"You, speak!" Right at this time, one of them shouted, pointing at the young lady that Wang Xi had just taken as a follower, his eyes releasing strange light, intimidating as he said, "Was what Qi Lin said true?"

He was displaying a great divine ability. When the other party was caught off guard, it could control one's mind, making them speak the truth.

"Yes, he went on Fairy Wang Xi's bed." That woman's eyes looked sluggish, expressionlessly pointing towards Shi Hao.

"What?!" Those young men cried out in alarm, truly unable to believe what they were hearing. Just now, they were just casually testing, yet there really was this absurd 'truth'.

They couldn't accept this. There was actually this type of thing that happened to the most stunning woman of a long life family.

It really was a bit unreal!

They opened their mouths, not knowing what to say.

"This fella went onto young miss Wang Xi's bed?" Someone shouted, expression going rigid. Then, he became furious, feeling that this was too much of a joke.

Just this kind of ant, just a follower, what qualifications did he have to obtain a long life family's fairy's invitation? This was too laughable.

"It isn't like that!" Su Lan hurriedly explained. If this type of thing was leaked out, then it really would only make things worse.

However, that young man's voice was extremely loud, ringing through the mountain region. The individuals who were currently hurrying over heard it.

Pu tong!

Not far out, someone found it hard to accept, directly falling from midair.

The expressions of those who rushed over all went sluggish one after another. This type of news... was too terrifying, absolutely crazy, leaving them in a daze.

"I don't believe it!" Someone shouted loudly.

"Regardless, it's already all true. You all heard it just now." Qi Lin said from the distance.

"It's not like that at all." Chen Nuo hurriedly tried to explain the situation to the nearby people.

Only, the angry shouts had long spread far into the distance, stirring up great waves. There were a few overly sensitive men who were extremely dejected.

The news smashed into the great sea like a meteor, triggering heaven reaching waves!

Chen Nuo and Su Lan explained, easing the tension here. They released a breath. However, when they looked at Shi Hao, their eyes were still forceful.

Unfortunately, the people in the distance didn't understand the situation because of Qi Lin and the others' earlier misunderstanding. Together with the anger of the others, the rumors were spreading.

This was a bit preposterous, but it really was happening, all because it involved someone like Wang Xi, this exceptional fairy. It was difficult even if they didn't want to draw attention.

Regardless of whether it was true or false, once the news spread, it would spread like a tide, surging outwards.

"It's false, we already heard the explanation." In front of Clear Light Secluded Woods, a few young geniuses explained. However, the people who rushed over ignored them, news spreading quickly.

Soon after, there were some who said this was a farce, but some who solemnly vowed that they heard the truth, that someone went onto Wang Xi's bed.

There was immediately a huge uproar, quite a few people coming, all of them official disciples, coming here for verification.

"Just a servant, yet you dare speak randomly, tarnishing the young miss' reputation, an ugly toad trying to eat swan meat."

"No, it's true, not nonsense."

The rumors got more and more distorted the more they were spread, triggering a huge commotion.

"Where is that servant? I'm going to slaughter him!"

"Shh, that person isn't a servant, but a dao friend Fairy Wang Xi personally invited."

"No wonder, didn't I say before? How could a normal person get on Fairy Wang Xi's bed?!"

It was clear that there were people trying to add fuel to the flames, purposely spreading rumors to obscure the facts.

Chen Nuo and Su Lan were simply about to go crazy. Clear Light Secluded Woods ended up being surrounded like this for no good reason, so many people coming, all of them seeking verification from them. Meanwhile, there were many people speaking randomly nearby.

This was simply an absurd disaster, just too much injustice.

It was clear that this was originally a misunderstanding, with just someone who spread it maliciously, but it now completely changed, a bit hard to explain, things getting worse the more they tried to fix it.

The people who came before believed their explanation, but later on, others stirred up a disorder, their goals impure, causing this place to become extremely noisy.

"We already said that it's fake, why don't you all believe us? Are you purposely trying to splash dirty water? When our clan's young miss returns, she will definitely pay all of you a visit!" Su Lan said angrily.

"Hey, youngster, you seem quite carefree, as if it has nothing to do with you. What exactly is going on?" Someone began to provoke Shi Hao.

Shi Hao gave them a glance, knowing these people were purposely stirring up trouble. No matter what he said, it would be distorted and turned against them.

That was why he directly ignored them.

"Heh, quite the temper we have here. Regardless, you seem to have quite the guts, going on Wang Xi's bed, haha..." Someone laughed loudly.

"Good for nothing!" Shi Hao only had these words, simple and direct.

This place immediately became a bit cold, killing intent pervading the air. Many people were shocked, looking towards him.

Su Lan immediately felt her scalp turning numb. These were a group of people who cultivated immortal energy, every one of them powerful. If Wang Xi wasn't here, who could stop them?

She felt that the young miss' decision to bring this fella was truly a mistake, about to stir up great trouble.

"Even a loser dares to provoke us like this? Just a thing who doesn't know the difference between life and death!" Someone shouted coldly.

Suddenly, multicolored light scattered down from the sky, ripples moving out, carrying a holy and pure aura.

Wang Xi returned, clothes fluttering about, snow-white skin smooth and glowing, descending into the secluded forest.

She heard the news, knowing what happened. She looked at Shi Hao, expression strange. Even she was a bit speechless. This fella... really was good at stirring things up, already creating such a disturbance after just arriving.

Wang Xi was naturally embarrassed. When news arrived, she really wanted to give Shi Hao a beating, and then fiercely torment him. However, she finally calmed down a bit along the way.

When she came here, what was shocking was that Wang Xi took a deep breath, not saying anything and looking towards Shi Hao.

"Fairy Wang Xi, this person is slandering your purity, this person needs to be eliminated!"

"Exactly! It was proved just now that he really did do this type of thing." Someone echoed.

Shi Hao watched with the cool eye of a bystander, feeling a wave of malice. The ones who were speaking out were one thing, the ones stirring things up in the dark were even more despicable. Such a small thing was made into such a big deal.

"If you good-for-nothings don't back off, all of you will be slapped to death one by one!" Shi Hao said, extremely domineering.

This place immediately became quiet. Then, those people roared with laughter.

"Don't even have the qualifications to enter heavenly deity institution, yet you dare boast shamelessly in front of us?"

"This really is cute, pitifully stupid, actually daring to say this type of thing?!"

A few people laughed loudly.

Wang Xi didn't say anything, watching from the side.

Chapter 1106 - Annoying to the Extreme

The group of people looked at each other in dismay. This fella really was something, even having the nerve to say something like this?

What qualifications did he have? He couldn't even enter heavenly deity institution, yet he dared to put on this kind of display!

"Official disciples inside heavenly deity institution are not permitted to kill each other." Wang Xi said in an extremely calm voice.

Shi Hao nodded, expressing that he understood. "I am not an official disciple, so killing one or two shouldn't be too big of a problem right?"

Forget about others, even Wang Xi was a bit speechless. She wanted to tell this fella that he couldn't unleash a slaughter, yet in the end was misunderstood this way.

Of course, she still believed that this fella was purposely feigning stupidity.

As for the others, they didn't understand that much. Quite a few of their faces fell, sneering endlessly, truly angered by Shi Hao.

In their eyes, he was nothing more than trash, not even immortal energy cultivated, yet he dared to boast shamelessly before them?

"Moron, you couldn't even make it into heavenly deity institution, what qualifications do you have to shout at us like this?"

"Do you think you can get great fame by acting like this? You have to learn this thing called consequence! When the time comes, you will pay a tremendous price, losing your life!"

These people were naturally discontent. If they were looked down on by Lu Tuo, Feng Xingtian or others like this, then that was still understandable, but even this loser dared to show them despise, leaving them beyond furious.

"Let me deal with him. Not knowing how to behave himself after entering heavenly deity institution, someone has to teach him a few things, teach him a lesson." Someone spoke, walking over.

"Archaic Demonic Bear's descendant, can it be eaten?" Shi Hao stared at the one who came, seeing his original body, and then asked Wang Xi like this.

The group of people were stunned, unable to react to this.

This demonic bear was first stunned, and then he became furious. This fella wanted to kill and eat him? He really knew how to draw hatred!

Many people laughed, feeling that this fella was a bit strange. However, quite a few of their faces were cold, waiting for Shi Hao to be defeated.

"You really cannot kill." Wang Xi said to him, shaking her head. Only she knew that he was not simple, likely having two strands of immortal energy.

"Really is boring. That bear paw really is good meat. Only being able to watch without eating really is a waste." Shi Hao expressed regret.

Motherfucker!

Did he really not know, or was he pretending? When faced with this demonic bear who cultivated immortal energy, he dared to act so rude, truly a young calf who didn't fear tigers.

The demonic bear felt great resentment, incredibly stifled, feeling quite repressed. Instead of speaking to this young man, he would rather just tear him into two.

"I'm going to kill you!" The demonic bear pounced over.

Shi Hao moved to the side, saying, "It's not like I can't eat you, this place not allowing killing, truly uninteresting!"

No one knew what was good to say. This fella was just too bursting with self-confidence, daring to act so arrogant before official disciples.

The demonic bear closed in again, body releasing purple light. Even though he was still in human form, a beast-like aura was released, wild, domineering, and cruel.

"Who is supervising this place? Hurry and get this crazy bear out of here." Shi Hao said.

"Acting so cowardly, are you scared? Not even willing to fight?" The bystanders shouted, ridiculing him.

"Is there any point in being scared of flies like you all?" Shi Hao replied.

This immediately made them furious. The faces of the people who stood against him fell, releasing killing intent.

Shi Hao didn't pay them any attention, turning around and walking straight towards Wang Xi's cave where multicolored light surged and chaotic mists seeped out, this region's pure land.

Wang Xi shot him a sidelong glance. This fella really was acting overly familiar. He ran inside even when the owner was right here, not acting politely at all. ~~no ve/lb~~-In

"You... get back here!" The demonic bear shouted. He was extremely angry, but he didn't dare enter Wang Xi's cave, because that was a restricted area. For them, this was an expert comparable to Lu Tuo.

“And I should go back just because you told me to? What benefit is there in fighting you? There is no feeling of accomplishment from beating you at all, just a waste of time.” Shi Hao’s words were hard for everyone to bear.

Regardless of how they looked at it, he didn’t have the qualifications to compare himself to people who cultivated immortal energy. However, in the end, he was still so impudent, mocking them again and again.

“This is your fight, yet you want to extort others?!” The demonic bear’s eyes were cold, expression dark.

“If you have satisfactory treasures to bring out, then I can fight against you. Otherwise, just go stay off to the side.” Shi Hao said.

The group of people were simply angered badly. One had to offer up a reward if they wanted to fight against him, actually speaking about conditions. How could this be endured!

“I have two heavenly deity secret treasures here.” The demonic bear said.

“My fist can even blast apart heavenly deity secret treasures, why do I need those? Aren’t you a fella who cultivated immortal energy? So poor, no heavenly materials?” Shi Hao asked.

While looking at his face of astonishment, the demonic bear really wanted to give him a slap to the face, smack him until his face swelled. He really lacked a beating.

“Are you all that poor? No True Phoenix Blood, Nine Revolutions Immortal Pill, ancient heavenly art secret texts and others?” Shi Hao asked.

With things already reaching this stage, everyone knew that this fella did all of this on purpose. He was just too shameless, too hateful.

“I have a furnace of Purple Palace Elixir!”

Purple Palace Elixir, this was heaven and earth essence, difficult to find, rumored to have all types of wondrous uses.

Only, Shi Hao still curled his lips. “I’m already a Holy Sacrifice Realm expert, even though Purple Palace Elixir is valuable, it’s not that useful for me.”

“There are many types of Purple Palace Elixir, the ones you’ve seen might just be those with bits of purple multicolored specks, the normal type. In reality, there are many higher levels of Purple Palace Elixir.” The demonic bear said.

While speaking, he produced a pill furnace. It flowed with multicolored light, truly brilliant. The inside of that pill furnace was actually full of Purple Palace Elixir, but it was a bit special. The purple liquid had waves of five-colored mists surging from it.

“Purple palace immortal mist?” Shi Hao was shocked.

According to records of theory, there were some rare Purple Palace Elixir that had immortal energy, these things definitely rarely seen.

Even though the demonic bear's Purple Palace Elixir was extraordinary, it still didn't reach the legendary grade, still a bit off.

"Alright, this'll do then. Since you are gifting this Purple Palace Elixir to me in such sincerity, then I won't make things too difficult for you." Shi Hao nodded his head and said, putting on an extremely pleased look.

Shi Hao directly rushed out from the cave, taking the initiative to attack the opponent, fight against the demonic bear.

"Acting this recklessly, purely seeking death!"

"So noisy, but won't accomplish anything."

These people couldn't help but look down on Shi Hao, all of them looking down on him.

However, Shi Hao really was too fast. An expanse of symbols appeared when he raised his hand, looking like he was going to display a great method.

After a moment of interaction, Shi Hao sighed inwardly. This person's speed was faster, too difficult for him to display a secret technique against.

Peng!

They fought intensely in close quarters, radiance shining like that of ascension, bone texts interweaving, the two becoming extremely brilliant.

Just a single encounter left the demonic bear almost coughing out blood, but he forcefully endured it. If others found out, would he have any face left?

Everyone became shocked. Who was this? Did he really not have the qualifications to enter heavenly deity institution?

"He can actually fight against the demonic bear, injure him?" A few people cried out in alarm. This was just too unexpected.

Hong!

The demonic bear brandished his arm, still not displaying its original body. The energy around him was intense and powerful, surging like great waves, divine force surging.

Moreover, at this time, he activated a strand of immortal energy, because he was furious.

Shi Hao dodged out of the way. The immortal energy that rushed over released wuwu sounds, extremely frightening. If it was a normal person, they would have been restrained a long time ago.

This was a strange scene. The two of them moved about each other, the battle looking a lot simpler than what it actually was like. They rarely made contact, but the divine force was astonishing, moreover disappearing in an instant, too fast.

Chi!

Suddenly, Shi Hao's ten fingers moved, extremely vicious, moving past the strand of immortal energy, extremely fast, simply about to disappear from this space!

Peng!

Suddenly, Shi Hao moved around the demonic bear with extreme speed, avoiding the immortal energy, striking his body, sending him flying several dozen zhang away. His body smashed into the ground, coughing out large amounts of blood.

In that instant, everyone became petrified!

Was there still heavenly reason? Someone who hadn't cultivated immortal energy actually defeated the Archaic Demonic Bear, what kind of battle accomplishment was this? It was too astonishing and glorious!

Even Wang Xi felt her mind jump. An official disciple was defeated just like that? This fella even fought bare-handedly, not using immortal dao energy to support himself, yet won. It was too astonishing!

"There's still this type of person, defeating someone who has immortal energy..." Someone muttered.

This was a great feat. Everyone felt that this was inconceivable!

Countless pairs of eyes landed on Shi Hao. Everyone immediately began to think many things. Since there was still a chance for a fish to become a dragon in the Heavenly Deity Realm, this fella might very well become heaven defying, rush up one day.

"This Purple Palace Elixir is mine then." After saying this, he directly took the pill furnace.

"Anyone else want to give it a try?" He asked.

"Right here!" Someone shouted.

"Then bring over heavenly treasures, or else I don't have time to waste!" Shi Hao said directly.

Immediately afterwards, this place became quiet again. Was he a genius with astonishing talent or a rarely seen extremely annoying person? Everyone felt a bit stunned.

Chapter 1107 - Collecting Phoenix Blood

Shi Hao turned around, entering Wang Xi's cave. He found a clean bluestone and sat down, starting to examine this spoil of war -- Purple Palace Elixir.

This thing had five-colored mists swirling about. Even though it wasn't immortal energy, it was definitely unordinary.

"What a pity, it's not immortal energy." He was a bit dissatisfied.

The crowd curled their lips. Purple Palace Elixir that really produced immortal energy, just how astonishing was something like this? It wouldn't be much inferior to long life medicines, appearing only a few times in history.

"I'll fight against you!" A Silver Pangolin appeared, turning into its original form.

“Less nonsense, bring out divine treasure first, or else I don’t have time to play with you.” Shi Hao spoke pompously, not giving them any face.

In the eyes of the official disciples, those who didn’t cultivate immortal energy were ‘inferior goods’. Even though Shi Hao won just now, in most of their eyes, it was because of luck.

That was why he spoke like this, making many people unhappy.

After all, this was just a ‘servant’ in their eyes, yet now, he was so rude and unbridled, talking arrogantly, climbing onto their heads. Many people couldn’t accept this.

Wang Xi wouldn’t think like this, because she knew how extraordinary this youngster was, definitely not ‘inferior goods’. It was because he had two strands of immortal energy!

Moreover, she carefully watched the battle just now, confident that Shi Hao didn’t secretly use immortal energy to support himself, defeating his opponent without using immortal dao energy.

“I have a half sect master level magical artifact!” The Silver Pangolin said through clenched teeth.

When had a ‘servant’ in the academy ever dared to challenge official disciples like himself? It made him feel a type of humiliation.

“Be careful!” Those beside him warned. Even though they were unconvinced, many of them couldn’t help but sigh. This person was extremely frightening, defeating someone with immortal energy without any himself, worthy of being called stunning!

“Forget about half sect master magical artifact, even if it was the real thing it wouldn’t be enough. I only need divine medicines, phoenix blood, and the like. If you don’t have, then please go away.” Shi Hao said.

This type of tone, this type of stance, made the Pangolin and others’ teeth roots itch.

“I have a bit of phoenix blood here. Fight me!” The Pangolin shouted. He produced a crystal ball the size of a fist, sealed within which was a sphere of dark red blood, sparkling and translucent.

There were only Lu Tuo, Feng Xingtian, Wang Xi and a few other people in the academy who had the qualifications to enter the blood pool, bathe in large amounts of phoenix blood. The others, unless they had astonishing displays, could only obtain a bit through merit.

“Come then!” Shi Hao laughed loudly, eyes shining. He had some of this phoenix blood on him too, the amount of he collected from suppressing a group of geniuses in Origin Ancient Mine.

He decided to continue collecting it, and then when the time came, to also bathe in phoenix blood, cleanse his flesh and undergo a great rebirth.

“Hand over your life!” The Silver Pangolin shouted, releasing a strand of immortal energy from his mouth. It quickly surrounded his body as he rushed forward.

“Is this some Steel Head Technique?” Shi Hao ridiculed, describing the Pangolin Clan’s innate divine method as a common mortal world technique.

Space shattered. That Pangolin was too fast, not charging through mountain rock, but the void. Its body moved like a barbaric dragon, wild and powerful, immediately closing to distance to pierce through Shi Hao.

Shi Hao shifted to the side. In the end, the Pangolin rushed past, and at the same time, the silver-white tail swung over with a pa sound. Cracks extended in the void, releasing rumbling sounds.

Moreover, a type of mysterious natural laws appeared, surrounding towards Shi Hao, about to imprison him here.

Hong!

In that instant, Shi Hao's entire body shone, breaking free from the restrictions. Like a berserk vicious beast, every action he made seemed to carry dominating power, bare-handedly hacking towards the long tail.

Pa!

A loud and clear sound rang through the air. His palm and the Pangolin's tail smashed together, sparks flying. There were symbols and natural law ripples shaking the void. n)-Ove1b1n

Everyone's expressions changed. The Pangolin's flesh was renowned for its domineering might, and now with the immortal energy supporting his body, forcing this person to face it head on, it still unexpectedly didn't do anything.

"This fella is a bit scary! Is he walking the extreme body cultivating path?"

Someone speculated, feeling great restraining fear. He could unexpectedly face the Pangolin's flesh that was supported by immortal energy head on, just too terrifying.

A roar sounded. Like a spinning top, the pangolin erupted with dazzling silver light, entire body moving, sweeping outwards.

The void was crushed. It turned into a slaughtering demonic god.

In this situation, even if Shi Hao used immortal energy to confront it, he would still be on the losing end. It was because the pangolin was fighting in its most powerful domain, body twisting about as it smashed over murderously.

The space around this place was like a painting that was brutally torn, and Shi Hao was trapped within.

Dang!

Something that left everyone shocked happened. Shi Hao formed a fist imprint, continuously striking that blast of silver light, as if he was striking steel. His body displayed illusory footwork, surrounding the Pangolin as he attacked.

"He can still fight head on?"

"No, his attacks are carefully selected, each strike only hitting the Pangolin's weakest point!"

Everyone was shocked. He actually saw through the Pangolin's method, able to understand the movements of the bone text paths in its body?

It was too precise. The strikes effectively collapsed the Pangolin's crazy attacks, causing the newly gathered power in its body to collapse, unable to quickly condense.

This was a bit too shocking. He didn't use exceptional precious techniques, using the simplest methods to attack the pangolin, leaving it in complete disbelief. His magical force was being restrained.

The most important thing was that he bare-handedly stopped immortal energy!

When everyone saw this scene, they gasped. This fella's combat awareness was too powerful, understanding everything about the pangolin, using near perfect combat technique to neutralize the other party.

Peng!

Shi Hao took action continuously, sending the Pangolin flying. Terrifying fist imprints struck down on the scales again and again, blood now dripping out from its body.

The Pangolin released a miserable scream, protecting its body with the strand of immortal energy. It fell on the ground, collapsing into a pool of blood, receiving serious injuries.

"Thanks a bunch, I really did need this type of phoenix blood." Shi Hao landed gently on the ground, none of his previous craziness seen. He picked up the crystal with precious blood sealed within.

"Anyone else?" Shi Hao looked to the crowd, revealing a harmless smile. "I'm going to say it first, from now on, I'm only taking phoenix blood. I don't want any other heavenly treasures."

This person is definitely crazy! The crowd all wanted to rush over and beat him to the ground, then throw him into the rear mountains' netherworld well, suppress him for a hundred years.

It was because this fella was too arrogant, actually saying these types of things. Many people couldn't immediately shift opinions, still seeing him as Wang Xi's servant.

There were naturally people who didn't believe the supernatural, taking action again. In the end, Shi Hao obtained another lump of phoenix blood, feeling quite satisfied.

Even though they were unwilling, not many people dared take action again. They encountered a freak. Even though he didn't cultivate immortal energy, he still managed to suppress them.

Then, when Wang Xi spoke, releasing terrifying might, these people kept quiet out of fear, no longer daring to dally here, all of them leaving.

Of course, this matter wasn't finished. A great storm was brewing.

Wang Xi's name was well-known through the Nine Heavens. She cultivated three strands of immortal energy, had unmatched immortal beauty, no one dared to provoke her before her face. However, they truly hated that follower she summoned bad, or to be more precise, the dao friend she invited in.

When this matter spread, people came to challenge him continuously.

Earlier, even though those people weren't a match, it didn't mean that there were no experts in the academy, but rather that all of the true experts were in seclusion. Now, there were people who began to invite them out.

"There is no need to invite those with two strands of immortal energy, just have Ran Long, Mo Jiu and others take action. A single strand of immortal energy is also enough to suppress him!"

The people they mentioned were all in seclusion, difficult to get them to participate.

However, there were still some people who were invited over, declaring their challenge against Shi Hao, creating a huge commotion.

Shi Hao was quite decisive, not going to fight anyone who didn't bring phoenix blood, angering everyone until their faces became ashen. For the sake of fighting him, they still had to go borrow phoenix blood.

Of course, they also made a request. If Shi Hao lost, he had to hand over phoenix blood or Purple Palace Elixir.

In the end... these people were defeated again and again, continuously losing.

In just a brief two days, Shi Hao acquired six more lumps of true blood, making the others feel endless pain, incredibly dejected.

"Too hateful, we can't even defeat one of Wang Xi's servants?!" Someone shouted, expression unpleasant, face fallen.

They were all outstanding talents of their clans, known as the most powerful young experts, yet in the end, after entering heavenly deity institution, they were overwhelmed by Lu Tuo, Princess Yao Yue, Wang Xi, and others, but that was that.

Now, they couldn't even compare to Wang Xi's follower, truly a great mental blow, making many people feel a wave of defeat.

Shi Hao who had close to ten lumps of phoenix blood and a furnace of Purple Palace Elixir was extremely satisfied, now preparing to find a way to win some more heavenly treasures, and then enter seclusion cultivation.

Wang Xi was quite shocked. After this fella came, he did whatever he wanted, not uncomfortable at all. He cultivated in her cave this entire time, not acting politely at all.

This left Chen Nuo, Su Lan and the others all speechless, also feeling discontent. Even they normally cultivated in their own divine mountains, not easily entering this cave.

Meanwhile, this fella didn't show the slightest bit of propriety.

"Your strength is not bad, seize this chance to cultivate. After some time, join me in battle." Wang Xi said to Shi Hao.

Shi Hao was too preoccupied to ask what he was going to fight against, just half-heartedly saying a few things. However, he immediately snapped back.

"Immortal Battlefield?" He was extremely shocked.

"You are saying that Lu Tuo, Feng Xingtian and the other experts are also bringing people over?" Shi Hao's mind was moved. He was contemplating whether or not he should go there to get rid of some people!

Chapter 1108 - Strong Reinforcements

Immortal Battlefield, this was a place where true immortals had fought intensely. Even though a great era had now passed, there were still too many mysteries in that ancient land.

It was to the extent where there were even mysterious creatures roaming about!

After all these years, ever since that area was excavated and discovered, large amounts of cultivators would head there to explore the ancient land.

"There are immortal dao scriptures and strange creatures there. The battlefield is sometimes peaceful, sometimes extremely dangerous." This was Wang Xi's description.

Those were remains that had been sealed up previously, a place with too many unsolved mysteries. Regardless of whether it was powerful or ordinary people who entered, all of them had a chance of obtaining opportunities of their own.

Of course, this was not without danger!

Shi Hao was quite interested, asking quite a bit about it. This was especially the case after he learned that there were strange creatures that grew there, making him want to understand the place in detail even more.

"Those creatures are quite strange, as if they don't actually belong to these Nine Heavens Ten Earths." Wang Xi said.

"Not belonging to our side, could it be guests from the other shore?" Shi Hao was alarmed.

"I believe... that place might very likely be like the Desolate Border, connected to another world!" Wang Xi said.

There were a few void cracks in that place. Even though there were those who tried to open them up, they didn't see anything. However, there were still people who suspected that those areas were not simple.

"Interesting!" Shi Hao nodded.

"You should seize this chance to cultivate, we might have to leave after a period of time." Wang Xi said. She gave the diamond band on Shi Hao's head a look. Even though she invited back a 'dao friend', with that magical artifact restricting him, she still felt that this youngster could be considered a follower.

"Do you guys have any scriptures or cultivation manuals here?" Shi Hao asked, not acting like an 'outsider' at all.

He knew that after entering heavenly deity institution, true heavenly talents could obtain many cultivation secret manuals, among them no lack of immortal dao scriptures.

“There are immortal dao scriptures in the academy, but I still have not obtained the chance to read them.” Wang Xi said. Her sparkling white cheeks and exceptionally beautiful face had a life toppling style.

Without a doubt, her words carried quite the attraction, especially since she usually acted indifferent, yet now actually spoke like this.

Why did Shi Hao come? He came precisely to cultivate, so he was naturally moved.

“If one wishes to obtain the immortal dao scriptures, one needs battle accomplishments, needing to complete all types of missions the academy issues out. This can also be considered a type of test for us I presume.” Wang Xi explained a step further.

Shi Hao nodded. He also understood a step further that heading for the Immortal Battlefield was also a type of harsh test for these geniuses, to see which one of them had the best performance.

Wang Xi treated this event with great importance. She was one of the most powerful disciples in the academy, so she wouldn’t let such a great opportunity to display her talents go.

“When the time comes, let me take a look at the immortal dao scriptures too, I can help you get rid of a group of people!” Shi Hao didn’t cover anything up, saying this with a smile, eyes flickering with brilliance.

He didn’t mind unleashing a great slaughter at all, for example, the Wind Clan, if he was certain that it was they who incited Yuan Qing, he didn’t mind eliminating Feng Xingtian on that battlefield.

Apart from this, Yuan Qing’s descendant, there was no need to say anything else. This was definitely an assassination target.

When he thought up to this, Shi Hao’s mind began to become a bit heated. He was finally going to clash with heavenly deity institution’s exceptional geniuses, take a look at just how powerful these people were exactly.

Of course, after entering that ancient battlefield, he would definitely run into old opponents like Ten Crown King, Exiled Immortal, and Ning Chuan.

Meanwhile, those like Princess Yao Yue, Lu Tuo, these types of most powerful geniuses, they were definitely going to take action as well. These individuals will definitely display their brilliance in that place, fight an intense great battle.

“I have a few scriptures here borrowed from the academy. Even though they aren’t immortal dao scriptures, they are still quite precious, especially the insights of predecessors. You can use them for reference.” Wang Xi said.

She had a few secret texts, all of them originals that had to be returned after they were examined. She handed them over to Shi Hao.

Shi Hao accepted these inscribed bone pieces and jade strips, immediately understanding their value. It was because these were all personally carved by the scripture writer, containing the most original true meaning.

This wasn't a rubbing of inscription, containing the purest essence, the leftover spiritual imprints.

Shi Hao looked through them one after another seriously, extremely engrossed. There was one scripture that spoke about the relationship between condensed magical imprints and the world, another speaking about how to nurture the primordial spirit. There was one that recorded all types of ancient wars.

Shi Hao continuously nodded his head. These were all the accumulation of those before him. When he read through them, it was as if he could sense their mental states while creating these.

"Yi, this book isn't bad, talking about how to create a technique, extremely enlightening." Shi Hao held a piece of damaged bone, reading it extremely seriously and thoroughly.

In this jade book, there were two types of texts, one was the original text belonging to Immortal Ancient, the other a type of bone text that belonged to the present world, added by later generations.

He read it from start to finish, feeling quite moved. It was because even a long time ago, there were those who sighed with regret, feeling a need to produce a new cultivation system and become even stronger, and only then could they defeat the enemy, prevent Immortal Ancient Great Era from being destroyed.

Shi Hao spent quite a while reading this. He sighed softly, saying, "One day, will I be able to create a new cultivation system too?"

"Wu, you also have this type of ambition?" Wang Xi was shocked. She then added, "The academy had previously requested us to try our best to try and establish different paths. Anyone who manages to obtain some success will receive tremendous assistance."

"What kind of reward does the academy have?" Shi Hao asked.

"If one can truly create that type of path, the academy will open up its entire library to you, including many precious immortal dao scriptures you can flip through." Wang Xi replied.

Of course, aside from this, they would do their best to offer all types of divine medicines, phoenix blood, and other things, attentively foster that individual.

Shi Hao was shocked, saying, "The academy longs for it this greatly?"

Wang Xi sighed, her beautiful face a bit serious. "Our current cultivation system has already been completely researched by those creatures, so we need innovation and change."

Those creatures referred to the enemy, right? Shi Hao suddenly felt his mind becoming a bit heavy.

Even if he didn't try to think about it, having himself calm down, that type of nervousness, that type of last days great battle atmosphere still constantly surrounded him.

Soon after, Shi Hao shifted his attention to those bone books Wang Xi brought back.

There was one book that recorded an ancient method that used unmatched true blood to cleanse the flesh and primordial spirit.

"Not bad, I can use it for reference." He read this quite seriously, continuously nodding his head. It was because he still had some phoenix blood on him.

Based on what was recorded on the book, he needed to find all types of medicinal herbs. If they were used together, the effects would be increased greatly.

“Even though I haven’t collected that much phoenix blood, it might be enough if I use it together with those medicinal herbs.” Shi Hao said.

There was noise outside. There were people who came to issue challenges again.

As a result, as expected, Shi Hao welcomed the challenge, winning again, obtaining a bit of true phoenix blood. He was all smiles, expressing that he welcomed their challenge at any time.

In the following few days, there were some who were extremely angry, inviting those secluded disciples to emerge from their meditation and suppress Shi Hao.

When a male who cultivated two strands of immortal energy came out from seclusion and still lost to Shi Hao, even Wang Xi was shocked, feeling greatly surprised. It was because this fella still never used immortal energy to support himself. How astonishing was this? He was a bit too powerful compared to his peers.

Another few exchanges happened. Shi Hao’s battle accomplishments were quite abundant. Now, added together, he already had fourteen lumps of phoenix blood!

As a result, there were no longer people who wanted to challenge him for a while. Shi Hao continuously defeated expert, seizing so much true phoenix blood, making many people feel great headaches.

Of course, there were quite a few people whose eyes were burning, desiring the phoenix blood, trying to think of a method to seize it back.

Shi Hao was contemplating when he should go meet Qing Yi, Cao Yusheng, Chang Gongyan, the little rabbit and the others. However, he felt like since he might kill Feng Xingtian and the others at any time, it wasn’t good to expose himself.

“I have six more portions of phoenix blood here, they’re all yours.” Wang Xi suddenly spoke inside the cave, giving him such a great gift.

The six crystals were all the size of a fist, sparkling and translucent, replete with moisture. There was sparkling phoenix blood sealed within.

Shi Hao revealed a look of shock. This really was quite astonishing. The diamond band on his forehead made him feel a bit of resentment towards the Wang Family, always thinking about how he was going to collect interest.

He never expected Wang Xi to give him such precious ancient phoenix blood.

“You can forget about me becoming a member of the Wang Family, I can only at most take you as a wife.” This line came out from Shi Hao’s mouth as soon as he opened it.

Su Lan and Chen Nuo who had just entered to deliver reports stumbled. What happened? The two of them were frightened badly. Did this fella go mad?

Wang Xi's expression first went rigid, and then no expression could be seen on her beautiful face. She gave Shi Hao a look, naturally knowing that this fella was purposely speaking randomly, putting on a naive display.

"You should just hurry and increase your cultivation. When the time comes, I hope you can enter the battlefield. You all can help me with some tasks, help me stop Lu Tuo, Yao Yue, Xuan Kun, and the others' powerful subordinates." Wang Xi said.

For the sake of obtaining immortal dao scriptures, for the sake of obtaining the academy's most powerful assistance, she needed to put on a brilliant display, win on the ancient battlefield, requiring the assistance of a powerful expert like Shi Hao.

It was because she felt that Shi Hao should be unmatched before those with under three strands of immortal energy!

The reason she summoned those two over was for this sake.

Shi Hao was shocked. These were the medicinal herbs he needed to refine with the phoenix blood! It was clear that this time, Wang Xi was going to help him to the end.

It seemed like the Immortal Battlefield's competition was no small matter, definitely a competition at the highest level between the most powerful individuals. Wang Xi treated this with extreme importance.

Ten days later, a stone room within the depths of this cave cracked, multicolored light surging, auspicious radiance released in thousands of streaks.

Chapter 1109 - Unreasonable Person

The entire stone room was full of multicolored light. Shi Hao sat there, calm and quiet, engrossed in his cultivation.

Finally, he released a sigh. The second great dao flower was now quite complete, full of dao laws, as if this heaven and earth merged together, able to gather endless power.

Unfortunately, this flower didn't produce a creature.

The first flower had a creature sitting in it, hazy and indistinct, as if it was living in the past, not belonging to the present.

Back then, Shi Hao was wondering if there would be a special creature when the second great dao flower appeared, but he ended up a bit disappointed, not seeing one.

He stood up and released a light sigh. Could it be that his suspicions were mistaken?

"Something's not right, it should be that the opportunity hasn't arrived yet." Shi Hao said. He thought back to how when the first dao flower bloomed, there were no creatures that appeared either, only later on when it reopened in Origin Ancient Mine did it emerge.

"This time, there isn't much phoenix blood, so I didn't fully bathe in it, just borrowing some medicinal herbs to produce essence, the amount still not enough." He said softly.

Even though he had twenty portions of true blood, it still wasn't enough to match the requirement of bathing his entire body within.

Lu Tuo, Yao Yue, Xuan Kun and the others had previously directly entered the Phoenix Blood Pool, borrowing the rich phoenix blood essence to refine themselves, and only then did they undergo rebirth. They were able to use much more than him.

Fortunately, Shi Hao had carried out his own rebirth using long life elixir in Origin Ancient Mine, not having a gap pulled open between them.

However, the effects of the cultivation this time were still tremendous, cultivating a second great dao flower. Shi Hao felt like his own strength increased again!

Soon after, he smiled again. He was being a bit too greedy. There was no need to feel disappointed that he didn't produce another creature in the great dao flower at all.

In reality, even though there was a blurry humanoid creature sitting in the great dao flower, it didn't do anything in battle, unable to be controlled.

"You finished your seclusion?" Wang Xi appeared, standing outside the stone room.

Shi Hao had previously restrained his aura. He pushed open the doors and asked with a smile, "When are we departing?"

"Still need to wait." Wang Xi said.

Recently, heavenly deity institution was preparing for this event, because they were entering Immortal Battlefield after all. A single mistake might result in great losses, so they had to make ample preparations.

In the recent few days, the experts in the academy all came out from their seclusion, all of them receiving news about this.

All of the experts who felt their strength was exceptional were going to participate. Meanwhile, of the individuals who entered heavenly deity institution, which one of them weren't the most powerful in their region?

That was why many people went to sign up, most of them participating.

"Are they not scared they'll die inside?" Shi Hao muttered. If they were killed inside, wouldn't heavenly deity institution's losses be great?

"There should be appropriate measures in place." Wang Xi said. She also told Shi Hao to consolidate his cultivation and be ready to depart at any time.

"I just came out of seclusion, so there's no need to continue remaining inside. These next few days will be perfect for fighting a few more friendly matches." He said rather excitedly.

Friendly matches? Wang Xi looked at him expressionlessly.

Shi Hao's skin was extremely thick, remaining calm, putting on the experience of a great master as he departed in an unhurried manner.

Soon after, Su Lan and Chen Nuo began to complain, both feeling rather discontent. This fella was extremely unreasonable in their eyes, really not giving others a good feeling.

"Asking where the Divine Medicine Garden is, what are you trying to do?!" Su Lan asked him, her expression clearly on guard.

"There's no need to be so tense, I just wanted to stroll around and take a look, increase my experiences." Shi Hao put on a harmless look, speaking rather sincerely.

Chen Nuo stared at him, not willing to tell him. He just felt that this fella was bad news. He had just entered the institution, yet already extorted others out of their true phoenix blood. He was clearly about to stir up more trouble.

"The Divine Medicine Garden has powerful great formations protecting it. Even if you walk close to it, you cannot see the medicines inside." Chen Nuo said.

"Then... there's no way inside? What a pity." Shi Hao shook his head, sounding like he was quite unwilling to give up like this.

When Su Lan and Chen Nuo heard this, dark lines covered their foreheads. Did this fella really want to go inside and steal medicines? He really was someone worth worrying about after all, too good at stirring up trouble!

"Cough, was just joking. Don't tell me you two thought I was serious?" Shi Hao said.

Was this a joke? It wasn't funny at all! The two of them rolled their eyes at him, no longer willing to pay him any more attention.

"Actually, I want to learn about a few things from you all, wishing to engage in friendly interaction and exchange of pointers with others." Shi Hao asked extremely humbly.

The two of them were curious. This fella was changing for the better?

"Even if you want to interact with others, what does it have to do with us?" Su Lan asked.

"Of course it's to ask you two to show the way, give me a list of names, telling me who in the academy still has phoenix blood, who is willing to engage in friendly matches against me." Shi Hao humbly consulted.

Su Lan and Chen Nuo were both speechless, and then they were furious. They really thought he had a change of heart, yet now, he was taking the initiative to challenge others.

It was obvious that this fella had a taste of success, now wanting to extort even more people out of their phoenix blood, going up to their doors. He wanted to make these two his accomplice, wishing to understand the situation in more detail.

"Hey, why aren't you two saying anything, staying so quiet? Being so young yet without vigor is definitely not a good thing." Shi Hao said.

The two of them almost choked on his words. They originally wanted to ignore him, but now, they really were angered badly, strictly warning him not to provoke matters, to stop bringing Wang Xi problems.

"It's not like I'm her follower, invited as a dao friend, so I can do as I wish. Relax, I really do just want to exchange pointers in a friendly manner." Shi Hao said with thick skin.

"If you really do have pure intentions, then don't mention phoenix blood with others!" The two of them directly scolded.

"Without some profit, how can one fully enjoy themselves? Life is the pursuit of bright bubbles, only with goals can there be motivation and progress!"

Shi Hao spoke cockily, turning things around and lecturing these two on reason instead.

"Really can't stand you. Either way, we refuse and won't help you, just go find other people!"

"That won't do..." Shi Hao shook his head. "How about this, we can put aside the friendly matches for now. What was the name of that girl who was scheming against me called again, Qilin, or was it Qi Lin?"

The woman Shi Hao mentioned was precisely the one who called out, shouting that he crawled onto Wang Xi's bed, ultimately stirring up such a great commotion.

"What are you looking for her for? She is Princess Yao Yue's bosom friend, a very good friend. You shouldn't act randomly." Su Lan said, on alert.

"Don't worry about it, in fact I can actually be considered Princess Yao Yue's bosom friend, so giving her female bosom friend a beating isn't that big of a deal." Shi Hao boasted shamelessly.

"Why are you like this? Can you stop stirring up trouble? Princess Yao Yue is an exceptional fairy who cultivated three strands of immortal energy, from an immortal family imperial court. You should stop messing around, there's no need to touch Qi Lin!" Su Lan was a bit nervous now.

"I know how far to go. That girl's mouth is too big, if it wasn't because my strength was great enough, after being challenged day after day by others, wouldn't I have been killed?" Shi Hao said with discontent.

"Things are already in the past, just let it go." Chen Nuo advised.

"How can that be? She slandered my reputation, so I have to defend my innocence!" Shi Hao declared righteously.

Pu chi!

The two of them couldn't hold back anymore, both of them so angry they laughed.

"What reputation do you have? The young miss didn't even display anger or look further into it, while you aren't willing to let it go, just take a look at yourself! After extorting so many people of their phoenix blood, you still have the nerve to talk about defending anything?" The two ridiculed.

"Each matter is its own thing, that woman really did slander me, ruining my reputation. If anything really did happen between me and your young miss, then that's one thing. After speaking like that, then so be it, turn a blind eye and let bygones be bygones. However, there wasn't even enough time for anything to happen, yet she already shouted like that, I can't just let this go like this! Too wronged!" Shi Hao said, expression deadly earnest.

The two of them were stupefied. This fella... was just too shameful. From his words, it sounded like he didn't feel wronged from what happened, but rather that nothing had happened yet.

"You..."

"If the young miss heard your words, she would directly deal with your family!"

The two of them were furious, loudly berating.

"Me and her aren't from the same family." Shi Hao said calmly.

"I've never met as unreasonable as person as you!" Su Lan was panting from anger, Chen Nuo didn't know what was good to say either.

However, when faced with the criticism, Shi Hao didn't seem to mind at all, instead changing his approach and saying in a meaningful and sincere manner, "Qilin did slander Wang Xi in the end. Your young miss didn't personally take action because it was inconvenient, but you two can't understand her intentions? Say, why do you think I want to take action? It is naturally because Wang Xi wishes for me to do this."

When the two of them heard this, they were both stunned.

"You should stop speaking nonsense, definitely putting on a glorious pretense, hiding your ulterior motives!" Su Lan wasn't convinced.

"This child is unteachable!" Shi Hao shook his head, saying, "Those who cultivated three strands of immortal energy can be called exceptional geniuses, so how can those few individuals easily go to war? At this time, it will depend on you all to charge and break through enemy lines, make it easier for your clan's young miss to take action, only then will our side seem more reasonable, that we had no choice!"

The two of them looked at each other in dismay. Was this really the case?

"Lead the way, bring me over so I can give that fairy a beating. You all will understand soon." Shi Hao said.

Su Lan and Chen Nuo were stupefied. In the end, they... agreed. Regardless, it was this fella who was taking the risk. If he really was captured, then he deserved it!

Chapter 1110 - Preparations For All Out War

Of course, Su Lan and Chen Nuo still felt some worry. If this fella ended up starting a commotion, provoking Princess Yao Yue's rage, then things wouldn't be too good.

This fella wouldn't truly have these types of thoughts, right?

Along the way, the two of them were a bit skeptical, not having much faith in him. It was because no matter how they looked at it, this fella's way of doing things was a bit ridiculous.

"I think it's still better if we don't go." Su Lan said.

"We're already almost there, so don't get cold feet now. As Wang Xi's follower, you all should figure out her thoughts. Being scared of the slightest thing like this isn't good." Shi Hao said.

The two of them shot him a look of disdain, always feeling like this fella wasn't some good person. The more he showed this kind of 'kindness', the more he acted 'sincerely', the more they doubted him.

"Yi, we've arrived. This is it right?" Shi Hao said with a smile.

Su Lan and Chen Nuo felt helpless, because they already arrived before a divine cliff, precisely Qi Lin's cave. This mountain was massive, releasing scarlet multicolored light. It was entirely bright red like cornelian.

"You two go and issue a challenge, tell Qi Lin that we came to issue a challenge." Shi Hao said.

"Why do we have to go and challenge? I'm pretty sure we already said that you had to do things on your own." Su Lan said angrily.

Chen Nuo looked at him. Don't tell me this fella really wanted to drag them with him into the water?

Su Lan and Chen Nuo exchanged a look, not saying anything, and then turning around to leave. They felt like staying by his side was not safe at all. Of course, they didn't go too far, hiding in the distance to watch the situation.

Shi Hao didn't stop them. He wandered about this sparkling red giant mountain. He discovered a cave, and then he walked forward, transmitting sound quite respectfully for a meeting.

When Qi Lin appeared and saw that it was him, she was first stunned, and then she felt alarm, asking, "Do you need something?"

"Young miss Qi Lin, are you not going to invite me into your cave for a cup of tea?" Shi Hao said with a smile.

Qi Lin was extremely alarmed, truly not daring to let Shi Hao in, fearing that he might shout out. Her actions previously were a good lesson to learn from, she definitely didn't want to have the same favor returned.

This fella before her already had a bad reputation, so if she had some type of relationship with him, inviting him into her cave, even if nothing happened, it would be difficult to explain things.

"If you have anything to say, just say it here." Qi Lin said, raising her sharp chin, putting on a haughty appearance.

"This isn't a place for discussion." Shi Hao said while rubbing his hands.

"Your reputation is quite bad, I do not dare invite you into my cave. If you have something, then just say it quickly." Qi Lin raised her head as she spoke, not showing him any face.

"My bad reputation, wasn't it all granted by you?" Shi Hao said.

"You... what are you trying to do?" Qi Lin was on guard, feeling a bit worried. She then said, "Don't forget that you are only Wang Xi's follower, a servant, not an official disciple. You don't have the qualification to enter my cultivation ground."

"Since you aren't letting me enter your cave to plunder, I meant look around, then we'll just settle things outside." Shi Hao said with a dry cough.

“What? You want to enter my cave to rob me?!” Qi Lin widened her eyes, definitely not believing that he made a mistake just now. This fella was too daring, actually carrying these types of thoughts.

“Just come, I will challenge you here!” Shi Hao said, eyes becoming fierce. He muttered, “In a bit, I’ll enter the cave and move house!”

“You... really are daring. Do you even know what you are saying?” Qi Lin shouted.

“Of course I know. Doesn’t the academy encourage exchanging of pointers and challenges between disciples? I am just responding to their call.” Shi Hao calmly said.

“Who do you think you are? Not even an official disciple, you don’t have the qualifications!” Qi Lin felt a bit lacking in confidence, because she had heard that this fella wasn’t ordinary at all.

“If someone who isn’t even an official disciple can defeat you, how would you even have the shame to occupy this divine mountain? Hurry up and gift the cave to me already.” Shi Hao pressed forward.

He took action, his palm and fingers shining, lightning interweaving, forming purple-colored lightning spheres one after another. They were like stars, becoming more and more numerous, producing a miniature starry domain.

Hong!

Shi Hao struck out, the lightning seemingly forming the cosmos, profound and massive. Those stars were all produced from lightning, blasting towards that woman.

Qi Lin was alarmed. The other person’s random strike already brought about this type of frightening scene, if he cultivated immortal energy, there was no way she could compare to him.

She quickly took action, directly activating immortal energy to protect herself and resist the lightning.

Following a numb feeling, Qi Lin moved sideways, her body greatly shaken, a trace of blood appearing at the corners of her lips.

“Do you know who I am? I am Princess Yao Yue’s bosom friend! If you take action rudely, you will bring about a great disaster onto yourself!” Qi Lin said.

At this stage, she was a bit fearful, worried that Shi Hao would go crazy and take her life.

“Princess Yao Yue’s best friend? Then do you know my identity? Right, you should understand that because you previously said that I am her man, now, this ‘man’ and ‘bosom friend’ have come to settle things!”

“You... stop acting randomly!” Qi Lin’s expression changed.

Chi!

Lightning shot out like rainbows, forming a starry stream, crashing down. The power became even greater.

Even though Qi Lin used immortal energy, there was still no way she was Shi Hao’s opponent. She was directly blasted until she spat out blood, suffering injuries that weren’t light.

“Let’s go, to your cave!”

In the distance, Su Lan and Chen Nuo were shocked, secretly sighing that his strength improved again, becoming more and more terrifying.

“What is he doing? Is he robbing her?!” Chen Nuo was shocked.

“Too lowly, completely looting this place!” Su Lan was stupefied.

In fact, Shi Hao even kindly invited the distant Su Lan and Chen Nuo in the distance to come with him and eat roast meat.

It was because he cooked Qi Lin’s mount, extremely savage, directly carrying out this outside of her cave.

“Do you know what you are doing? Princess Yao Yue will take full action against you!” Qi Lin threatened.

“Oh? Is that so? Hurry and have her look for Wang Xi then, waited for her a long time already. I only came here to seize an advantage.” Shi Hao spoke extremely irresponsibly.

“Hey, what are you randomly spouting? My clan’s young miss never intended to fight a decisive battle against Princess Yao Yue!” Su Lan was angered to the extreme, rushing over.

“It seems like you don’t understand, how can this type of thing be endured? My trip here was tacitly accepted by your young miss. The two fairies will inevitably have a full on battle!” Shi Hao said seriously.

“Is what you said true?!” Su Lan was extremely doubtful.

“Of course it’s true, but the battle might take place in Immortal Battlefield. It’s not easy for Wang Xi to take action right now, so I’m helping her.” Shi Hao said.

“My phoenix blood!” Qi Lin cried out in alarm.

Right now, Shi Hao was not polite at all, searching through her body, including her bosom, groping all around, finding four bottles of phoenix blood.

“As Princess Yao Yue’s bosom friend, you have good stuff as expected. Is there any more?” Shi Hao laughed loudly.

“None, none! Stop randomly touching!” Qi Lin screamed.

Su Lan and Chen Nuo both stopped, no longer saying anything, because they suddenly felt like this unreliable fella’s way of doing things made them release a bit of pent-up resentment.

It was precisely because Qi Lin spoke randomly that lead to a series of trouble. Now that she was being dealt with, it really did match what the two of them desired.

Peng!

Qi Lin was thrown onto the ground, directly fainting.

This was a female cultivator, a genius who cultivated one strand of immortal energy, yet before Shi Hao, she was completely powerless, thrown on the ground like a scarecrow.

"Let's go, lead me to where Feng Xingtian and Lu Tuo reside." Shi Hao called over to Su Lan and Chen Nuo.

"Ah, what are you trying to do?" After these two asked this, they felt their scalps becoming numb. Was this fella really recruited into the academy?

"It's nothing, just going over to take a look. Your young miss said that once we entered Immortal Battlefield, there'll be an all out battle! I'm going to help her take a look at her enemies, sizing up that battle's result." Shi Hao spoke calmly.

All out battle, this was the young miss' attitude? They just felt like it was impossible, just this fella before them randomly making enemies.

"Let's go, take a look!" Shi Hao said. When they passed by Princess Yao Yue's pure land along the way, he only stopped briefly, not issuing a challenge.

Lu Tuo and Feng Xingtian's caves were shrouded in mist and primal chaos, unable to see through from a single glance.

What allowed Su Lan and Chen Nuo to feel a bit more relieved was that this fella wasn't arrogant enough to the point where he went to challenge those two great young supreme beings. When he arrived in front of their pure lands, he also just looked around a bit, and then left.

"I heard that Yuan Qing brought over a descendant of his into the academy, this is clearly against the rules. Where is he? Bring me over to give him a look too." Shi Hao said, asking Su Lan and Chen Nuo if they knew anything about that person's circumstances.

"He is called Yuan Feng, a genius who cultivated two strands of immortal energy. It was just because of a few matters that he missed out on heavenly deity institution's disciple selection, which was why his elder personally brought him over." Chen Nuo said.

"Hey, what is your intention? The ones you're provoking are all tough individuals, first Princess Yao Yue's bosom friend, then Lu Tuo, Feng Xingtian and others, now wanting to deal with Yuan Qing, a supreme being's descendant, don't tell me you want to trigger the greatest chaotic battle?" Su Lan was worried, feeling that the situation wasn't good.

"You're thinking too much, I just want to scout out the enemies in the young miss' place." Shi Hao said with a smile.

"You shouldn't speak nonsense, pushing everything onto the young miss. She definitely wouldn't act like this, this is just the final preparations for your own plans." Su Lan said.

Soon after, they arrived at a mountain region. The peaks were jade-green in color, immortal energy rising in spirals, as if they arrived in an immortal realm.

"Wu, this dao earth belongs to Yuan Feng..." Shi Hao said. He then saw a youngster whose gaze was brilliant like a blazing sun, looking towards this direction.

That was precisely Yuan Feng. He stared at Shi Hao, eyes like an exceptional sword.

"Wu, we ran into each other just like this!" Shi Hao said to himself.
