

Perfect WD 1131

Chapter 1131 - Chaotic Warfare

“Haha...” Laughter sounded in an unbridled and brash manner, carrying disdain, as well as a type of ridicule and coldness. “Always been defeated, never won before, an inferior race from a defeated ancient land, is there still any point in showing off any arrogance or confidence?”

This was already no longer a type of taunting, but undisguised humiliation, moreover directed at all of the creatures in the Nine Heavens Ten Earths, rubbing the defeat and humiliation further in.

Forget about Shi Hao, even when those like Xuan Kun, Wang Xi, and Yao Yue from undying families felt anger. A wave of resentment hidden within them was surging.

This was just too humiliating. After endless time had passed, their past defeat was still the Nine Heavens Ten Earths eternal suffering. After being buried for an entire great era, the creatures were pretty much completely wiped out, only long life families and a few others escaped, able to survive.

Whenever they recalled this, it would always be like a type of torment, a feeling of humiliation engraved within them.

Now, old events were being raised again. When the opposing creatures’ descendents brought it up with this type of tone, it was hacking apart old scars.

“What, was any of what I said wrong? Why are none of you all saying anything?” That creature spoke up again, still remaining in the dark, not revealing its true self.

When one cultivated to a certain degree, it would be extremely difficult for others to discover them, because they were too strong. He wasn’t an ordinary cultivator.

“If you have the guts, than stand out here! I will fight a great battle of three hundred exchanges and then kill you!” A disciple from heavenly deity institution shouted, unable to tolerate this type of humiliation.

“Little cultivator who cultivated a single strand of immortal energy, even someone like you is worth bothering with? The difference between us is too great, unworthy!” That person said coldly.

“Come out! We’ll see what happens from the results.” That disciple from heavenly deity institution shouted. He was extremely unconvinced. Even though he knew that he was likely not a match, he still didn’t want to lower his head.

“If you wish to die, how can that not be easily done? I’ll help you with accomplishing your goal.” When this sentence sounded, everyone’s expressions changed. It was because a formless sword energy shot out, piercing through that person’s body.

It was too fast, no one able to react in time. Moreover, this was sword energy released from the void, not from the creatures on the other side, meaning that the enemy was right before them this entire time, just that no one noticed.

This made many people break out into cold shivers, feeling a wave of chilliness.

A string of blood splashed out. That disciple from the academy collapsed, body practically cleaved in half.

The only fortunate thing was that he didn't die, surviving. It was Ten Crown King who took action, blocking a portion of the sword energy, because that person wasn't too far from him.

"Fool, this is the result of challenging me." That voice sounded in a cold and deep manner.

What was there left to say? This person was extremely dangerous and too powerful, possessing a type of body concealing secret method, extremely difficult to detect, attacking without leaving a trace.

Shi Hao frowned. This type of method was similar to the Three Thousand Provinces' Heavenly Country assassin organization, only, it was more terrifying and superior.

Heavenly deity institution's people were naturally discontent. Even though they were a bit terrified, many of them held weapons in their hands, loudly shouting out.

"Who are you? Come out and fight?!"

"Damn thing we can't even see, if you have the guts, come out and fight!"

It could be said that this drew the anger of this entire crowd.

However, the experts who cultivated three strands of immortal energy all frowned, feeling like they encountered a formidable opponent. It was because they couldn't find that individual's traces even after opening their Heavenly Eyes.

"Wu, this dilapidated earth has declined further and further as expected, so weak..." That person in the dark seemed to be shaking his head.

Shi Hao also spoke secretly, "Always speaking of your predecessor's accomplishments, like that means anything. Could it be that you are using your dead ancestors' deeds to bolster your bravery so that we don't look down on you?"

"Haha..." That person laughed, extremely calm, and also extremely arrogant. "That ancestor of mine, is still alive!"

When this sentence was spoken, forget about Shi Hao, even Lu Tuo, Wang Xi, and Ten Crown King were all shocked as well. Just how ancient of an existence was this? *noVe-lb-1n*

They obviously knew that the ancestor he was talking about had participated in Immortal Ancient Great Era's battle!

This type of ancient being could basically be called a living fossil, still existing even now, just how powerful and frightening was he then? Just the thought alone made everyone feel despair!

"I know you should be that bug, I will catch you in a bit and make you my servant." The one speaking in the dark was calm and indifferent, as if he was speaking about something that was inevitable.

"When the slaughtering starts, we'll see then who captures and kills who!" Shi Hao said.

No one knew who was speaking from the two sides. They were all looking about, but they couldn't distinguish who it was.

Right now, the atmosphere was extremely tense. This spacious and empty zone was perfectly suited as a battlefield. A great battle could erupt at any time.

"What are we still waiting for? Just charge forward like our ancestors did in the past, completely wipe them out!" A brown-haired woman from the other side said, her figure slender and full of power.

"There is no point in speaking any further! Just wipe them all out!" Beside her, a gray-haired male spoke, carrying a smile. He held a magical staff in hand, pressing forward step by step.

"Wu, everyone, it is time to take action. The moment to put our skills to the test has arrived. I believe it won't take too long at all to deal with them, or else it will be a type of humiliation." Another white-robed youth said, eyes profound and unfathomable.

It could be said that these people felt a sense of superiority that originated from their bones, looking at the people on the other side of them with a type of contempt.

Perhaps it was because they had always won, greatly defeating the creatures of the Nine Heavens Ten Earths, possessing a type of innate superiority, which was why they were all extremely confident.

"Kill!" The people on heavenly deity institution's side naturally wouldn't shrink back, every one of them charging forward.

On the other side there were many creatures, all of them powerful. They wore armors, held heavenly spears, war halberds and all different types of weapons. Cold light flickered about, killing intent thick and cold.

This was a group of extremely powerful cultivators. They rushed over just like that, the fluctuations they released rising and falling like ocean waves.

Within were humans, stone people, metal creatures, all of them currently in human form. Auspicious light overflowed, rushing into the heavens above.

"Kill!"

The brown-haired woman's figure was slender and fit, her skin a tanned color. She rushed at Lu Tuo like a leopard, selecting a powerful expert, because she also cultivated three strands of immortal energy.

Peng!

Great anger surged between the two. Divine chains of order shot into the heavens, erupting like a sun.

This type of radiance was too brilliant, bringing pain to many people's eyes, tears flowing out.

This was just the first strike, yet it was already so frightening!

If not for the fact that this was a wondrous world formed from both the Ten Realms Diagram and Heaven and Earth Pouch, any other place would have ruptured and sunk.

"A bit interesting. There are some people from this ruined ancient realm who aren't that bad." That brown-haired woman spoke. The great battle became even more intense, this woman colliding intensely with Lu Tuo.

"This fairy truly is bright like a divine moon. Could we exchange some pointers?" An individual in pure gold armor spoke to Fairy Yao Yue.

Of course, even though he was extremely tall and handsome, he still came with ulterior motives.

It was clear that Princess Yao Yue's beauty drew the attention of the creatures from the other side, possessing quite the sex appeal. Many experts claimed they wanted to interact with her, but actually wanted to capture her.

Hu!

Wind sounds whistled about. Princess Yao Yue formed a fist imprint, supporting a pure and holy moon. With power that swept out like ocean tides or astral winds, she attacked the golden-armored male.

"Kill!" The others also took action, clashing with each other, a great decisive battle. This place ended up in complete chaos!

This was truly a grand event. After endless years passed, the creatures of the two worlds finally had a chance to fight again. If news of this got out, it would definitely leave the hearts of many moved.

Shouts of war shook the heavens. Heavenly spears broke apart, copper cauldrons shattered, metal armors went up in flames...

The great battle was too miserable. They had only just began, yet blood could already be seen. Many people were seriously injured. This was a war fought with lives on the line.

Shi Hao was taking action, his palms and fingers rushing about in the wind. At the same time, he was observing the situation, searching for that hidden creature. Where exactly was he?

Right at this moment, a white-clothed youth walked over, looking towards Wang Xi and saying, "Truly appearance exceptional, an inheritor fostered by a long life family I presume? Only then would be able to have such a reserved style."

He took action, attacking towards Wang Xi.

"Three strands of immortal energy!" Wang Xi was shocked, avoiding the radiance.

She was still wounded, her condition quite bad. Just now, even though she had taken action the entire time, she didn't encounter anyone with three strands of immortal energy.

"Should we run?" Shi Hao asked her.

Wang Xi was truly irritated. This fella really lacked courage, actually advising her like this.

"Aren't you seriously injured? How are you going to fight?" Shi Hao said.

Wang Xi sighed. Was this fella worrying for her sake? She shook her head and said, "I chose to enter precisely to fight and size up their strength."

Shi Hao curled his lips. Already injured to this extent, so what boasting of merits was there left to speak of?

"There's no need to worry. I have a type of heavenly art known as the Hundred Day Ten Phoenix Nirvana Art that can temporarily restore me to my peak!"

"Oh? The same suicidal Hundred Day Ten Phoenix Nirvana Art which, after using, not even an immortal king can save you?" That white-robed youth revealed a look of shock.

When Shi Hao heard this, he couldn't help but feel shocked. Was it worth fighting with her life on the line?

"This method can allow for many rebirths within a hundred days, while I only need once." Wang Xi said. With a honglong sound, her flesh surged with divine light, shining brilliantly.

Finally, she recovered to her peak state. Even though it would bring her great harm, needing to properly recover in the future, she couldn't be bothered with so much right now. She longed for this type of battle, wishing to see how strong the creatures of the other world were.

"White-robed kid, you better know your place, or else I'm going to beat the shit out of you!" Shi Hao threatened.

The white-robed youth already took action, fighting intensely. However, when he heard this, he was a bit stupefied. There was actually someone who spoke to him like this.

"I should put in some work too, find that person and fight against him!" The others were all fighting with everything they had. How could Shi Hao remain indifferent with a powerful opponent before him?

That person was hidden well, not exposing himself. Could it be that this person wanted to kill him?

Shi Hao calmed himself down, clearing his mind, only then would his senses become sharper, and perhaps then, he will discover where that person was. He had to constantly be on guard.

If it had to be said who was the most carefree, right now, everyone would definitely look towards Shi Hao who was calmly walking along the battlefield, releasing a punch right, kick left, not fully committing to anything.

In reality, his mind was fully concentrated on finding that person.

"You are that bug, I finally found you! Do you want to die, or will you take me as your master?!" That hidden individual shouted, releasing this cold voice from the nothingness. There was a powerful arrogance as he looked at Shi Hao.

"Come, accept death!" Shi Hao shouted. He blasted through the void, sensing the other party's aura.

Chapter 1132 - Void King Beast

When this palm was released, the void was like colored glass, shattering with a pa sound. Dark cracks extended in all directions, surging with endless killing energy, moreover revealing a creature's true body.

Shi Hao took action again. Beams of light rushed out from his fingers, making this place collapse!

This was also precisely the reason why nothing could hide anymore. Only, he never expected the creature he forced out to be this giant and sinister. n((0veI8In

This was a vicious beast with a rhinoceros body, vicious beast head, eighteen horns resting on his head, vicious and powerful. It was several hundred zhang tall, like a small mountain, exceptionally bold and powerful.

It had six legs, each of them thick like a giant pillar. Its legs were covered in Qilin scales, different from the thick skin of a rhinoceros. There was a crocodile tail behind it as well, bright red and shining.

At the same time, Shi Hao discovered with shock that he was already no longer in that battlefield. With that fist he released, he followed that strange beast into a lush and primitive mountain forest.

“Void Beast!”

Shi Hao was shocked. This was a Void Beast, extremely similar to the one recorded in ancient texts.

A living Void Beast!

This was a creature recorded in ancient texts, pretty much impossible to find in reality. He didn’t expect to see a true Void Beast here today!

When Shi Hao was in the eight regions, he had previously seen a damaged void beast skin, and then when he came to the three thousand provinces, he didn’t see any living creatures, only rare bone weapons.

It was rumored that this type of creature had pretty much all became extinct, extremely rare even back in the ancient times, numbers few.

In the nearby mountain forest, there were a few figures fighting intensely as well, not that many. They also saw this scene, revealing a look of shock.

Even the cultivators on the other side felt shocked when they saw this type of strange beast on their own side, never expecting that this was the creature that was concealing itself.

“So it turned out to be like this, I was wondering why this type of creature was so rare and precious, turns out it’s a species from the other side!” Shi Hao suddenly realized.

“Fool, those Void Beasts that fell in this dilapidated ancient realm can only be considered beasts, long becoming inferior after their bloodlines became combined with your realm’s lowly bloodlines. How can it compare to my king bloodline?” This creature said coldly, incredibly arrogant, feeling a type of humiliation towards the creatures of this realm, displaying undisguised contempt.

These words left heavenly deity institution’s students furious. He was looking down on them too much. Did they really believe they were the only one high up above?

However, this was indeed shocking. The Void Beast was one of the rarest divine beasts, controlling space. The precious technique they grasped was known to potentially reach immortal dao.

This type of irregular beast in the Nine Heavens Ten Earths were actually impure ‘descendents’ from its bloodline, not part of the true Void King Race. This really was a bit shocking!

Needless to say, this true Void King was a malevolent vicious beast from the other side, definitely incomparably powerful.

Towards its sarcastic comments, Shi Hao only had a single response, and that was -- to kill it!

It was pointless to say anything else right now. He might as well just defeat it, trample on it beneath his feet. This was more powerful than any words!

When his fingers moved together, the surrounding void distorted. His fingers were spotlessly white like jade. He fiercely brandished his arm, striking forward.

Dong!

The power of this fist was world shocking, few people able to resist it. It collapsed the heavens and shattered the earth!

A honglong sounded, all sides trembling.

However, this was as far as it went. Even though Shi Hao's fist was incomparably vicious, blasting through this place, he only struck empty air!

The vicious beast vanished from its original location, completely silent like a shadow, vanishing in an instant.

It was extremely massive, several hundred zhang tall like a mountain. However, its movements were just too nimble. Its figure disappeared with a flash.

Divine light surged around Shi Hao's fist like a raging flame, rising upwards. Enormous divine force waves even more so surged behind him, rushing into the clouds.

The power of his fist was undoubtedly astonishing, its might able to suppress a region, yet he couldn't hit his opponent, not displaying any results.

"Our bloodline are the kings of all things, transcending above, grasping heaven and earth, even the heavens unable to disgrace us. Even with you inferior bloodline, you dare try to injure me, let alone kill me?"

The void beast spoke, voice indifferent, carrying a type of contempt attitude, as if didn't treat anything in this world with significance.

"King my ass, things like you are best suited as mounts!" Shi Hao said.

He took action again. Divine feathers appeared one after another at his sides, every one of them golden, a total of a hundred and eight thousand of them. They burned there, releasing resplendent golden light.

In the distance, in that barren battlefield, everyone became shocked. They saw the blazing golden light in the mountain range, as if an undying immortal furnace had appeared; it was just too dazzling.

"Who is that?"

"What powerful fluctuations, truly frightening!"

Everyone was moved. This was definitely an extremely powerful expert, strong to a ridiculous degree. Everyone became stunned.

In the forest, raging flames surged around Shi Hao, divine light surrounding him as he stood there, wrapped within endless golden light. He was like a war god bathed in flames!

"A bit interesting, having some ability. If you aren't convinced, then feel free to give it your all." The Void Beast said.

Chi!

Immediately afterwards, the golden feathers floating in the void shook one after another, as if metal was striking against each other, turning into a true exceptional heavenly sword.

These were Peng feathers, a derivation of the Kun Peng technique. Right now, they were displayed to their peak, penetrating the void!

Shi Hao knew that it grasped the void great method, able to come and go in the void. That was why he released an area of effect attack, immediately attacking all directions indiscriminately.

Thus, hundred and eight thousand feathers shattered the void!

This strike was too powerful, terrifying to the extreme. The fluctuations made the hearts of everyone in the distance shake, feeling waves of alarm.

Chi!

The hundred and eight thousand divine swords shot through the void, sword energy interweaving, unable to stop anything. It was incomparably powerful, mountains rupturing, rivers drying out.

One could see large parts of the mountain range collapsing, turning into stone particles, giant lakes disappearing, turning into water vapors. The void was even more so covered in cracks.

Meanwhile, this was just the beginning.

In that instant, a hazy mist appeared, primal chaos removed. This place was smashed apart, everything no longer visible.

It was because the hundred and eight thousand swords shattered, returning peace to this place. Everyone was shocked.

This was the ultimate attack Shi Hao displayed with three strands of immortal energy, able to cut down gods and devils, power shocking all those in this generation. This was a killing method that could overlook an entire generation.

The cultivators in the distance couldn't see too clearly, but the people nearby were all stupefied. Who was this person? Remaining silent in heavenly deity institution, actually possessing this type of magical force.

They were shocked. This person was definitely not weaker than the academy's outstanding talents, a young supreme being who cultivated three strands of immortal energy!

Dong!

In the mists, within the primal chaos mists, an incredibly dull and gloomy sound rang out. Most of Shi Hao's hundred and eight thousand golden feathers struck empty air, but there were still some that gathered together, hitting something.

The Void Beast's eyes were cold. There were eighteen horns on its heads, some black, some scarlet like blood, some spotlessly white like jade. At this moment, they shone, supporting a barrier of light to stop the golden feathers.

"Kun Peng's inheritor? I loathe this bloodline!" It spoke in a deep and cold manner.

Everyone in the mountain region became shocked. Not even this type of powerful attack could injure it! This existence was too frightening. By grasping the void, it was the same as being innately undefeated.

Everyone withdrew a set distance, still feeling some lingering fears.

It was clear that Shi Hao's strike was exceptionally terrifying, but couldn't be gathered together to attack the Void Beast. Only some of the golden feather swords landed on its horns.

This was the same as weakening most of an attack's power!

The Void King Beast's eyes were ruthless as it stood there. Its enormous body even more so gave off an oppressive feeling. This time, he took the initiative to attack, walking forward, saying, "Kun Peng's inheritor, I am going to kill you!"

The surrounding people's minds jumped. This person grasped the Kun Peng's inheritance. Was he the descendant of the Kun Peng?

These news were definitely shocking, and if it leaked out, it would definitely shock others. However, this person actually kept a low profile in the academy, leaving them stunned.

"I recognize him, he's Wang Xi's follower!"

"Ah, the one that stirred up quite a bit of chaos?"

Heavenly deity institution was extremely large, not all of them meeting Shi Hao before. Only those who participated in the challenges knew him. At this moment, everyone in the mountain region revealed looks of surprise.

"Soul Smashing Void!"

Right at this time, the Void Beast took action. It raised its large claw and slashed out, astonishing killing energy flooding outwards!

A streak of dazzling radiance shot out like undying light. It cut up the heaven and earth, severing the heavenly dome, the scenes making one's soul tremble in response.

Kacha!

This was clearly a cutting of the void, stretching out for who knew just how many li!

Using the void as a blade, hacking apart all that stood in the way, involving the spirit and even karma, slicing apart the yin and yang, destroying time!

Hong!

Shi Hao moved through the air, golden feathers rushing into the heavens all around him, wings striking the skies. Not only was he dealing with this attack, he was also rushing at the Void Beast.

Snow-white radiance illuminated heaven and earth. The great void gash became even more terrifying.

Shi Hao rushed forward, jumping past the great crack to fight a great decisive battle against the Void Beast.

This place became chaotic. Two figures, one large, one small, moved as fast as lightning, continuously fading in and out of existence, sometimes vanishing, sometimes solidifying, as if true immortals were fighting an intense battle!

Chapter 1133 - Six Dao Versus Nine Revolutions

Hou... The void beast's enormous black body was heavy like a mountain. It raised its head, releasing a great roar. A large amount of light blades shout out from its mouth, these all spatial blades that hacked apart heaven and earth.

Moreover this power was ever-present, everywhere, surrounding Shi Hao.

Open!

The only thing Shi Hao could do was open his single heavenly passage, form an absolute domain to stop these spatial laws. In addition, his entire body turned into a comet-like streak of light, smashing forward.

An enormous collision sounded. He slaughtered his way over from high up in the sky, his fist smashing towards the Void Beast's skull. As a result, the fist collided with the horn, feeling as if he was striking steel. The noise resounded through the mountain range.

The two great experts' intense battle reached its climax. Heavenly winds swept about, lightning flashing and thunder rumbling. All types of divine abilities could be seen, making this mountain range shake continuously.

Shi Hao's fists formed imprints, displaying the Lightning Emperor's technique, making lightning hack down viciously from the nine heavens above.

This was definitely a wonderful technique for dealing with spatial divine laws. The lightning was ever present, moreover incredibly berserk, the destructive power astonishing.

The Void Beast roared, eyes becoming cold. Right now, all eighteen horns on its head began to shine, connecting heaven and earth, as if it could accomplish anything!

Hong!

The void exploded, the energy storm turning into ocean waves, moving against the gravity upwards to face the endless lightning.

When the two clashed, it was as if great stars exploded one after another. The scenes in the heavens above were astonishing, colors brilliant. Deafening thunder rumbled.

This type of power was too great, leaving everyone in complete shock.

Even Shi Hao was dumbstruck. This void beast was too strong! It was facing him head-on, not retreating, using the void sea to face his lightning sea!

Hong!

The heavens exploded, and then the man and beast separated. They staggered about, Shi Hao's hair completely disheveled.

They separated, and then faced each other from the distance. They both felt a bit shocked at the other party's strength.

This place immediately became quiet. Just now, the series of exchanges just now looked astonishing, the intense battle unceasing, but in reality, it all happened in the time it took for sparks to fly off a flint. Time seemed to have stopped.

Everyone nearby was stupefied. This was too shocking!

A young supreme being with three strands of immortal energy fighting against a legendary Void King Beast, this was definitely a world-shaking battle. They were all stirred up, wishing to tell the others.

n(0V**E**1n

"A group of trash, irritating!" The Void Beast suddenly spoke, and then disappeared from its original location.

Ah...

On a distant mountain peak, a youngster cried out miserably. His neck was hacked open by a sharp claw, a string of blood rushing high into the air.

His heroic spirit was imposing, strength exceptional, but at this moment, his head fell off, face carrying despair and unwillingness. He knew that he wouldn't be able to continue living.

As expected, the space between his brows was cut open by a blade of light, primordial spirit scattering, thus ending his life.

This was definitely a genius. He cultivated a strand of immortal energy, able to dominate a region, yet now, he could only die in vain, unable to retaliate in the slightest.

The main reason was because the Void King Beast was too strong. He controlled space, ever-present, a bit difficult to deal with even for Shi Hao, let alone him.

"Bastard, you're courting death!"

Shi Hao berated. He already rushed over, but was still a step too late, only able to watch as that talented youngster fell, unable to save him.

“These creatures with inferior bloodlines don’t have the qualifications to see me take action.” The Void King Beast said coldly.

In the distance, even the cultivators who came from the other side felt their scalps go numb. This ‘great figure’ really had terrifying cultivation.

Most of them believed that this great figure was most likely doing this to anger that opponent it was facing, doing this on purpose.

There were also some who had a feeling that this great figure might have done this because it wasn’t able to immediately suppress its opponent, and didn’t want others to see this, and that was why it unleashed a great massacre.

Xiu!

The Void Beast disappeared. Not far out, a youth began to split apart from the space between his brows, the crack extended down to his legs, and then this entire person split in half, even the primordial spirit like this.

He was directly cleaved in half by a great void crack, dying a violent death!

Shi Hao’s eyes stared furiously, flames burning within them. This vicious beast was actually this ruthless, unleashing a slaughter in front of him.

Hong!

He also moved, rushing towards those from his own side, wishing to bring them away to prevent them from suffering harm.

Those people were running themselves as well, rushing out from the mountain range.

However, this heaven and earth immediately became different, actually being locked down, the space controlled. Those people couldn’t move, some still mid-flight, yet frozen just like that.

Pu!

Bloody light flickered about one after another. The Void Beast killed four more people!

Even Shi Hao’s figure was restricted. He tried to forcefully break free through magical force, support this space and slaughter his way out.

“All trash as expected, six of them killed, yet half of them didn’t even cultivate immortal energy, even people like these are worthy of entering the battlefield? Truly is getting worse with every generation. This decrepit world of yours is becoming more and more disappointing, completely declining.” The Void Beast shook its head.

Blood dripped out from its large claws, bright red and alarming. It was extremely calm as it spoke these words, not attaching any importance to those who died.

“Void King Beast!”

In the heavens, the last person roared out like this, carrying unwillingness. Then, his body broke apart, turning into a rain of blood.

It was because just now, there were many spatial blades that hacked down on him.

“What?!” In the distant battlefield, everyone heard his roaring voice, seeing him turn into a rain of blood high up in the skies, all of them shaken up.

At this moment, everyone finally knew what kind of expert had arrived. The people by the mountain range were definitely completely wiped out. Who could stop a Void Beast King?

It was because the young supreme beings on this side were all facing enemies, unable to go over and provide assistance.

“Great one really is powerful!” The creatures of the other side cried out cheers of praise for this Void King Beast in that mountain range.

Shi Hao was seething in anger. This was the first time someone dared to kill so unbridledly in front of him. He rushed forward, changing his target.

Pu!

With just the first strike, a willow branch shot out, piercing someone between the brows, body fished into the air, and then directly exploding.

“If you want to copy me, it’s not that easy.”

The Void Beast sneered. It wanted to stop, lock down the void and stop Shi Hao.

However, Shi Hao surged with killing intent. At this moment three strands of immortal energy surged. In addition, he put on the Lightning Emperor Battle Armor, Everlasting Immortal Sword in hand; this meant that he was truly angry.

Chi!

When the sword core appeared in his hands, a hundred and eight thousand golden divine feathers appeared again, shooting in all directions. Even if the Void Beast grasped divine spatial laws, there was no way it could completely stop everything.

Meanwhile, this was a strike from a young supreme being who cultivated great dao flowers, its greatness unstoppable.

“Break!”

The Void Beast shouted loudly, taking action with full force.

However, the golden feathers didn’t completely break, continuing to shoot at enemies in all directions!

The creatures who came from the other side of the world all cried out miserably, eyes widened as they collapsed into pools of blood.

“You dare kill my servants?!” The Void Beast released a low roar. There were some among those who fell who served directly under it as servants.

“Is that so? Then I’ll be able to rest a bit easier now.” Shi Hao said. He didn’t want to unleash slaughter like this, because he just felt like these creatures were of the same source as those from the Nine Heavens Ten Earths. However, just now, he was just too angry, truly unable to hold himself back.

“Those insects with filthy blood flowing through them are all eliminated, no more unsightly things now, so I can properly deal with you.” The Void Beast licked his lips, eyes deep and profound as he walked forward.

Rumbling sounds ran out all around them. Collapsed peaks were restored, mountain ranges restored. It was because this was a small world created from both the Ten Realms Diagram and Heaven and Earth Pouch.

“To prevent more insects from interfering, we’ll fight in a different place.”

The Void Beast King spoke, and then its entire body erupted with radiance, surrounding this heaven and earth, bringing Shi Hao with it away from this place, arriving at the limits of the mountain range.

Shi Hao’s face was sunken. He didn’t resist, following it here. A great wave of killing intent surged within him.

“Wu, you’ve actually visited our world before, definitely have some secrets on you. Now that we are far from the battlefield, all of the opportunities and secrets you carry on you belong to me.”

The Void Beast said to itself, extremely confident. Its eyes burned with radiance as he stared at Shi Hao.

This was the reason why it sought out Shi Hao, wishing to obtain his secrets for itself.

Shi Hao naturally knew that the border of the world it spoke of was definitely the black Undying Mountain. His eyes were cold as he said, “You seem to be quite confident. Do you really think you can capture me? There has never been anyone in my generation who has dared look down on me!”

After saying this, Shi Hao’s voice became rough, anger fully consuming him. He had to get revenge for those who died, eliminate this vicious creature.

“Six... Dao... Reincarnations!”

Shi Hao shouted, pausing between each word. His body’s vital energy surged rapidly. Even though he was only a person’s height, much shorter than the mountainous Void King Beast, that type of imposingness was still too high to reach.

Right now, his divine force surged, raising his dao skills to the extreme, releasing an extreme attack!

Six Dao Reincarnations, six types of magical imprints were completed at this moment, merging together. With a hong sound, a heaven shocking strike erupted!

“Actually this type of ancient heavenly art!”

The Void Beast was shocked. It released a roar, and then the void skin on its body shone, the eighteen horns on its head even more so shaking, erupting with endless divine radiance.

“Nine Revolutions Heavenly Art!” It shouted.

Hong!

Immediately afterwards, incomparable divine force fluctuations rippled outwards from the two, engulfing this entire mountain region. The waves tore through everything they passed through, all things breaking.

The Void Beast truly never expected Shi Hao to grasp a matchless heavenly art like Six Dao Reincarnations. In the last great era, this heavenly art had inflicted quite the damage on people of its side, many powerful beings dying from this method.

Now, this ancient heavenly art appeared again, making its expression turn grave, not daring to show the slightest bit of carelessness.

As a result, it began to attack with everything it had, releasing its full power, using an ancient method to stop the Six Dao Reincarnations, clashing against Shi Hao at full force!

In the following great collisions, six black holes appeared, devouring the void, suppressing its divine abilities, refining all. Six dao operated, nothing it couldn't break through!

However, when the Six Revolutions Heavenly Art appeared, it still managed to free itself from the dangerous situation. This was also an ancient method that had previously shocked an entire great era, its divine might unrivaled.

It was as if a great annihilation happened here, chaotic mist surging.

Honglong!

After this final strike, the two individuals' bodies finally appeared again, blood flowing from the corners of both their mouths, bodies staggering about.

However, Shi Hao's eyes shone. He was still moving, moreover extremely quickly, immediately pressing forward.

Hong!

This fist directly smashed down on the Void Beast's skull, incomparably vicious.

Hou!

The Void Beast roared, entire body shining. However, there was still a muffled sound that rang out between the two. The fist containing Shi Hao's ultimate power was too vicious. With the distance between the two so close, the scales on its head were shattered, blood flowing in a long stream.

Of course, void blades also hacked down on Shi Hao's body at the same time, leaving bloody wounds on his body. Blood flowed out from the areas of the Lightning Emperor Battle Armor that were already damaged.

Dong!

Shi Hao's legs stamped down on that massive head, his feet seemed to carry endless strength, about to trample it to death.

“Kill!”

The Void Beast King roared. The eighteen horns on its head shone, turning into eighteen streaks of light, trapping Shi Hao within, wishing to refine him with void power.

“Evil creature, accept death!” Shi Hao roared. His hands formed an imprint, activating his ancient heavenly art again.

Chapter 1134 - Bloody Struggle

Six Dao Reincarnations, this ancient heavenly art reappeared!

“Die!” Shi Hao roared. His head of black hair flew about as if they reached three thousand zhang in length. Powerful winds stirred about as he erupted with fury. His hands formed imprints, and then it was as if six great magical figures appeared, blasting at the Void Beast.

This attack landed on the Void Beast’s head. The results were naturally terrifying behind end, this place completely erupting!

If not for the Void Beast controlling heaven and earth, it would have undoubtedly died. The eighteen horns on its head displayed great power, refining the void, evolving the heaven and earth, refining everything into nothingness.

This was its body’s innate divine ability, body and void merging together to avoid death. However, despite this being the case, it was still shaken up until blood flowed out from the corners of its mouth.

This really was a world shocking strike, at the very least, few people in this generation could release this type of killing method. The current Shi Hao gave off a feeling of domination and power!

Even though the Void Beast was powerful, it still suffered when there was only this amount of distance between the two. Its entire body swayed back and forth, falling out from the void.

“Soul Smashing Void!”

“Nine Revolutions Heavenly Art!”

It shouted. Even though it suffered greatly, almost dying, entire head covered in cracks, it still didn’t stop it from launching a vicious counterattack, continuously firing two great methods.

A great void crack hacked down first, cutting apart the skies, forcibly tearing Shi Hao apart. This was an unmatched method that used the void’s secret force, its innate divine ability.

Then, the Nine Revolutions Heavenly Art made heaven and earth undergo nine revolutions, erasing all, wiping out all living things. This was a type of fatal blow!

Shi Hao naturally suffered from the attacks, his entire body greatly shaken. Even though his defensive power was astonishing, also using the single heavenly passage, the dictator within this domain, he still suffered serious injuries! At the same time, he was also using other methods to coordinate with the Six Dao Reincarnations. Six black holes devoured all, wrapping around heaven and earth, absorbing and sending out the void secret force.

After this great collision, both the man and beast coughed out blood, both of them suffering serious damage.

It had to be said that the Void Beast's skin was rough, flesh thick, defensive power astonishing. Otherwise, how could it compare to Shi Hao's physical body? It definitely wouldn't be able to endure the force.

This type of ancient beast was born in the void, a creation of the void secret force. That was why it had all types of mystical abilities, attacking it felt as if you were striking nothing.

Even if it was truly struck, it was difficult to damage its powerful body's source.

Apart from Shi Hao and a few others, there weren't really many young experts in this world who could break through these defenses. This beast was exceptionally frightening.

The moment they separated, Shi Hao forcefully gathered magical force, his feet stamping down, wishing to trample that massive head apart, the killing blow.

However, for the Void Beast, this situation wasn't irreversible. In that instant, the flesh turned into nothingness, becoming froth and shadows. It managed to evade this attack.

This was a type of humiliation for the Void Beast, because it was running away. Even though it was only temporarily avoiding this strike, it still left it unsatisfied.

It had previously said that it was going to kill this little bug, grasp the secrets on his body, yet was injured by this little bug.

It could feel like there were eighteen cracks on its skull, blood flowing out from them, almost injuring its primordial spirit.

This was still the result after it used the void secret force to avoid this attack!

At the same time, it was also the result of its eighteen horns taking the damage in its place. Otherwise, the damage would be even greater.

"Six Dao Reincarnations!" As soon as they separated, Shi Hao already displayed this type of ancient heavenly art again, because its power was exceptional, truly quite useful, able to quickly suppress opponents.

The Void Beast was left without a choice, also displaying the Nine Revolutions Heavenly Art.

Right at this moment, both of them erupted, their bodies igniting with raging flames, as if they were going to burn down the nine great heavens!

This area was turned into a place of disaster!

Fortunately, there was no one else here, or else they would all be burned into dust. The great peaks of this mountain range completely vanished, magma surging out from the earth.

Meanwhile, the nearby great rivers even more so turned into a streak of white mist, directly moving towards the source, and then completely evaporating!

There were some great lakes, each larger than the last, yet all of them turned into mists, immediately evaporating, leaving behind vast depressions in the earth.

This was a great, world-shaking battle. Everything at the ends of the mountain range no longer existed, completely flattened. They were all crushed, turning into smoke and dust.

The man and beast fought until they went berserk. One had black hair flying everywhere, body covered in blood, the other with scales fallen off, the horns on its head all cracking. n)(Ove**l**In

They shouted loudly, roaring, bodies tangling together. Ancient heavenly arts were displayed one after another, destroying heaven and earth.

The two creatures fought until they went crazy, eyes completely bloodshot, minds going mad.

This was a battle of life and death. No one was willing to stop, nor could they stop.

This was an unimaginably great decisive battle!

“Great dao flower, if I cultivated a third one, then it would have been great!” At this moment, Shi Hao finally understood the significance of the great dao flower formed from immortal energy.

It was pointless to say anything now. Fortunately, he wasn’t an ordinary person, his build extremely strong, recovery power astonishing, harmonizing with heaven and earth, currently taking in spiritual essence.

At the same time, on the first great dao flower he cultivated, the indistinct little figure seemed to have finally displayed a bit of use, frightening the Void Beast a bit.

This made the heavenly deity level Void King Beast feel great apprehension, thus a bit uncomfortable when fighting.

It was a bit frustrated, but also felt some fear, frowning as if it recalled some legend, yet couldn’t really pinpoint what exactly it was.

As a result, its attacks weren’t as thorough, not able to decide the situation, carrying some hesitation. This caused it to suffer quite a few trades.

“Kill!” Shi Hao shouted loudly.

He attacked the Void Beast relentlessly. Regardless of whether it was the Six Dao Reincarnations or the Nine Revolutions Heavenly Art, they both clashed several times, colliding together. This was the most terrifying confrontation.

However, this was also a decisive battle that exhausted the greatest amount of divine force. As a result, they were both on the verge of being completely exhausted!

Six Dao Reincarnations’ power was exceptional, indeed terrifying, but the consumption was astonishing as well. Shi Hao could display it once, twice, three times without any issues, but from the fourth and fifth time onwards, he would feel fatigued. If he continued to use it afterwards, then that would start to take a toll on him.

By now, the number of times he displayed it already exceeded nine. This number already represented a certain limit in this world.

That was why even if he wasn't facing a strong enemy, he would still be close to falling apart himself.

The Void Beast was facing a similar problem. It breathed in and out, blood flowing out from its mouth and nose. The bones in its body released gezhi gezhi sounds, as if it might break apart at any time.

Shi Hao forcefully endured it, because he often broke through his limit. Nine wasn't his absolute limit, he was going for ten, just like after he made ten heavenly passages, he went a step further and merged them back to one.

Meanwhile, the Void Beast was using its own Heavenly Deity Realm cultivation to face Shi Hao!

Hong!

Finally, after another clash, both parties were left in dejected states, unable to display Six Dao Reincarnations or Nine Revolutions Heavenly Art any further.

"So you can't display that ancient heavenly art anymore huh." The Void Beast breathed in and out heavily, sweat and blood covering it, its body couldn't help but spasm about.

It really was too exhausted, too weary, a bit unable to continue. Its eyes carried cold radiance, saying, "Ever heard of one speck becoming a continent, a stalk of grass hacking down the sun, moon, and stars? Any precious technique, when cultivated to its peak, can transcend the world, all unmatched methods, not weaker than heavenly arts. Now that you can't display the ancient heavenly art, it's my turn to take action, let you bear witness to methods that destroy all techniques!"

The Void Beast roared. It was truly angered badly. The injuries it suffered this time were too great, the bones in its body broken.

Its eyes carried a vicious look as it began to display might, no longer using heavenly arts, attacking Shi Hao only with precious techniques.

Hou!

When it opened its mouth, endless sword energy swept out, as if a volcano erupted, incredibly massive. They bombarded Shi Hao, the sword energy all formed from void secret force.

"What you said is correct. Ever since I obtained the Six Dao Reincarnations Heavenly Art, I've lost my way. However, I still haven't forgotten the precious techniques I am proficient in, each cultivated to their extreme, all lacking the final step!" Shi Hao shouted.

He moved about, body fast to the extreme. A pair of Kun Peng wings appeared behind him, brandishing powerful winds, a terrifying aura pervading the air.

He used the pair of Kun Peng wings, sending out Yin Yang force, refining the divine swords in the void, shattering all of the terrifying beams of light.

At the same time, he dove down, using the ultimate Kun Peng method to attack the Void Beast.

"World Furnace -- seal the body!"

The Void Beast roared. It immediately locked down the void to imprison Shi Hao.

One could see a massive furnace appear, formed from the void secret force, sealing and imprisoning Shi Hao within.

“World Furnace -- refine!”

Then, it released another great shout. That furnace shone, using the void secret force as flames to burn Shi Hao, wishing to burn him to ashes.

It had to be said that the Void Beast’s methods were heaven-reaching. This type of secret technique was not something ordinary people could resist at all.

One had to bear in mind that the furnace was formed after acquiring heaven and earth essence, able to refine all things. The entire void was its furnace body, so who could avoid it?

Only Shi Hao, someone who previously used the void as a furnace, using all dao as flames to forge himself and cultivate immortal energy experienced a similar type of torment.

Back then, it was nine deaths one life, almost being extinguished, body and soul erased. However, he made it through in the end.

That was why he now had a powerful resistance against this. After being sealed up within, he recalled his experiences in the past. He released a roar, three strands of immortal energy tangling together to form a great dao flower.

Hong!

His entire being ignited, just like when he broke through the limit in the past and cultivated immortal energy, destroying the void furnace. His entire body released endless light, rushing out.

The Void Beast was stunned. Just how heaven-defying of an existence was this? He was just a youth, yet he broke through its great divine ability in such a straightforward and domineering way!

The heaven and earth furnace directly exploded. The void secret force ravaged about, engulfing heaven and earth, simply unimaginable!

Hou!

Shi Hao released a great roar. Even though his entire body was covered in blood, there was still a type of fragrance. In his surroundings, golden lotuses bloomed. The method he displayed harmonized with heaven and earth, his entire being surging.

He became as tall as a mountain, the same size as that Void Beast, and then rushed over, mouth shouting, “Destroy all methods!”

He had previously devoured the Golden Bodhi Fruit, and later on, he cultivated bitterly to grasp a type of special ability, the Magical Force Immunity, able to temporarily make precious techniques lose their effects.

Hong!

The Void Beast's skull surged with blood. The secret methods it displayed became useless.

Then, it felt a type of pain. That massive fist smashed over like a small mountain, striking down on its skull.

Peng!

Its scales fell off, blood flowing in long streams.

"Evil creature, accept death!"

Shi Hao roared, rising on its body. A hand grabbed a horn on its head, forcibly pressing down. His other hand shone, fiercely striking outwards!

Chapter 1135 - Master of Time

Sitting on a Void Beast, striking down viciously, how many people since the ancient times could do this?

To be more precise, this was a Void King Beast, one of the most powerful creatures. When it grew up, it might be able to become an immortal!

Even this type of vicious beast was being pressed down by Shi Hao, his fists were surging with the radiance of precious techniques and terrifying divine force as they brandished about, continuously smashing down on it. It was struck until it coughed out large amounts of blood, ears and nose all fracturing, entire body scarlet-red.

The Void Beast roared, full of anger, even more so a type of humiliation and unwillingness. It had never encountered this type of sinister creature from its birth until now.

"Insignificant bug, get away from me!"

It roared, frantically twisting its body about, trying to display precious techniques. However, right now, everything failed, unable to transfer divine force or display divine abilities.

Magical immunity!

This youngster was incredibly mysterious, actually accomplishing this type of feat, making its void secret force completely ineffective, precious techniques unable to form and appear.

Ah...

The Void Beast roared out, wishing to free itself from Shi Hao. It was being ridden on, bombarded with attacks, the intense pain making everything before its eyes darken. The sounds of bones fracturing was hard for it to endure; this was a type of humiliation.

"Even someone like you can sit on my body? Get off me!"

This vicious beast was going crazy, its entire body rolling about, using secret methods, trying to display divine abilities. However, this only provoked even more terrifying strikes.

"A brute like you, even if you wanted to be my mount, I would pass! I must kill you today! Forget about riding on your body, I have to step on your head too!"

Shi Hao berated. He was truly angry as well, feeling this rage since the start of the battle. His body was flowing with blood, something that rarely happened after his cultivation exceeded his peers.

His left hand pressed down on its head, right hand smashing down, almost snapping its neck. Then, another fist followed, arm cocked back, drawing out an arc, smashing towards its face.

The Void Beast was horrified, frantically moving its head to evade.

However, this fist still landed. Only, it struck down on its eye socket. The bones there immediately ruptured, the corners of its eyes breaking, blood flowing out.

It was extremely miserable. At the very least, the Void Beast had never suffered this type of disaster before. It was simply about to go mad, actually being abused by someone like this.

Hong!

The next fist smashed down on its chin. In that instant, the Void Beast cried out, mouth full of bloody suds, teeth all broken. Blood flowed out, sharp teeth falling out.

Right now, its mouth was blasted apart, the scene extremely miserable.

It was because not only did Shi Hao use flesh power, he also displayed precious techniques, now using the Kun Peng method. Endless golden light surged, bringing a hundred and eight thousand swords into the skies, these swords releasing metallic sounds.

Its mouth suffered seriously, cut apart. There were even more so some golden divine swords that stabbed into its mouth and body.

Shi Hao was delivering the fatal blow, wishing to fully kill it, not giving it another opportunity.

The Void Beast cried out miserably. These injuries were too serious, the pain difficult to endure

Honglong!

It smashed towards the great earth. In addition, it aimed its back towards the ground, wishing to fall on his back, smash Shi Hao into the earth in that matter and free itself.

It was because it truly couldn't take it anymore. This person was sitting on its body, tormenting and humiliating it, smashing down endlessly. It was going to reach a critical state soon.

If it was an ordinary person, under the Kun Peng Technique's bombardment, they would have directly had their body and soul wiped out.

However, the Void Beast really was strong, flesh incomparable. Even though it couldn't use precious techniques, it could still draw secret force from the void to recover its body.

Peng!

It smashed into the earth, causing the great earth to crack apart. The great cracks extended for who knew how many li.

However, how could Shi Hao be smashed into the ground? He long jumped out, quickly flipping over, crushing down on its body, pinning it down there.

This time, the Kun Peng Precious Technique was like an exploding golden sun as it struck down on the space between its brows!

Kacha!

That was the sound of the forehead bone fracturing. Its flesh was extremely strong, actually stopping it, not being blasted through. It was just the space between the brows that suffered a bit of damage.

Ahou...

The Void Beast released a great roar, eyes widening. It moved its massive head, frantically resisting.

Kacha!

This was an extremely loud sound. This time, when Shi Hao smashed outwards, he used the greatest power. The eighteen horns collided with the precious techniques and fist radiance. In that instant, a few horns snapped, falling off of its body.

These were serious injuries!

One had to bear in mind that these horns were the source of its power. Normally, how could they be injured? There was void secret force supporting them, making them incredibly sturdy.

However, now, someone broke them. This was like the heavens collapsing and earth caving in, the first time the Void Beast felt such horror.

"My precious techniques lost efficacy, how could you have this type of ability, like a certain Emperor Clan from our world?" The Void Beast was stupefied, muttering out of panic.

When Shi Hao heard this, he was immediately shocked.

"Right, in your world, there were also clans that had similar abilities, but they should have all disappeared from existence, the descendants that remained should all be negligible!" The Void Beast roared, struggling intensely.

Shi Hao was alarmed. He knew that this world had several races that had that type of ability, but he never expected them to only be descendants, let alone that there was a race on the other side of the world that possessed this ability, able to become a great Emperor Clan.

"I cannot die! How can I be killed by a trifling race with filthy blood? I am going to live!" The Void Beast was going mad.

After its head suffered a blow, its mental state became a bit flustered as well. At this moment, its will to survive surged, making it go even more mad.

It struggled intensely. Shi Hao suppressed it with all his strength, using the most powerful secret methods to kill it.

Hong!

Finally, a loud sound rang out. Its forehead bone was blasted through. Divine light surged, about to completely kill it.

However, right at this time, between its brows, there was an ancient dao symbol that shot out from its primordial spirit. It released resplendent light, sending Shi Hao flying.

Moreover, this dao symbol wrapped itself around the Void Beast, immediately moving sideways. Its flesh was quickly recovering.

This was without a doubt a divine symbol that could seize heaven and earth essence, unexpectedly able to reconstruct the flesh. The body was recreated, bringing a dying body back to life.

Shi Hao felt quite bitter. He was already about to kill this Void Beast, yet this fella was actually being saved.

It was clear that this was a dao symbol left behind in its body by a great figure to preserve its life, not hoping for it to die in this realm.

Shi Hao chased after it, not wishing to let it go.

However, this dao symbol was too fast, possessing void force as it moved between heaven and earth.

If it was a normal person, they would have long been thrown off. However, Shi Hao held the Everlasting Immortal Sword in hand, hacking open the void, crossing the void, pursuing it just like that.

Bo!

A crisp sound rang through the air. The dao symbol shattered, thus turning into scattered ashes.

Meanwhile, at the same time, the Void Beast completely recovered, even the broken horns regenerated, recovering to its peak.

Shi Hao didn't say a word, only pulling out a crystal with a drop of phoenix true blood sealed within, devouring the precious blood with a single gulp.

This was something he specially left behind, precisely for when he encountered a dangerous situation to help him recover his vitality.

Bloody mist lingered in the air, endless precious light surged; it was as if a phoenix underwent nirvana. Shi Hao's spiritual essence surged, also recovering in that instant.

The Void Beast's eyes were cold. It already recovered its calmness, becoming cold and indifferent again.

"A bug like you, making me go through that type of torment, today, I definitely won't let you die easily!" The Void Beast spoke with an awe-inspiring voice.

"Already lost, yet still dare to boast?" Shi Hao mocked.

"Nothing more than a bit of carelessness, being caught by surprise. However, I know that the Magical Force Immunity cannot be continuously used. Now, you can't display it anymore, and I am on guard. What else can you do against me?!" The Void Beast spoke in a cold and deep voice. It walked forward, killing energy overflowing into the heavens.

What followed was, without a doubt, another great decisive battle!

Six Dao Reincarnations and Nine Revolutions Heavenly Arts were displayed to their peak, fighting until the sun and moon seemed to dim, the sky losing color. Primal chaos surged.

Blood continuously scattered down. They were entirely scarlet-red, bodies in tatters, the battle between the two reaching a climax. Both of them suffered unimaginably serious injuries.

What followed, was another struggle.

The Void Beast roared, "Lower life forms like you with impure blood flowing through your body, your ancestors have already been defeated, let alone someone like you! Just accept death!"

It used the most powerful methods. Its divine ability appeared. Hualala sounds sounded between heaven and earth. In that instant, eight enormous chains appeared, charging at Shi Hao.

Even if he evaded, he still couldn't struggle free. They still shot at him.

Hualala

The eight enormous chains came from different directions, winding about like dragons and dripping with blood. They were incredibly sinister in appearance, in the end all locking down Shi Hao, imprisoning him in the void.

"Haha..." The Void Beast laughed loudly, incredibly fierce. It opened its bloody mouth and said, "Our clan grasps space, no one can break free from the shackles of the void! With eight shackles applied to your body, this is a restriction of heaven and earth to issue a judgment! How will you struggle free?!"

Hong!

It didn't waste any time. Out of fear that something unexpected would happen, it opened its mouth, releasing a spatial blade to kill Shi Hao.

"Evil creature, do you think you can kill me? It'll be the Kun Peng's Yin Yang Reversal that will kill you!" Shi Hao said, his body shining.

However, he frowned, quickly changing his mind and saying, "The Yin Yang Reversal still hasn't reached its greatest potential. I'll just use my own precious technique to kill you, also an innate divine ability. It will similarly suppress you, let you fully experience defeat!"

"Fool, you think there's time for you to speak?" The Void Beast said coldly.

However, immediately afterwards, it was shocked, because the other party really did have time. Fragments of time flew about, the power of time moving about, everything immediately becoming different.

Shi Hao used the second method he obtained from a supreme being bone -- Reincarnation. Right now, he was using the power of time!

"Using the divine laws of time to break my laws of space?!" The Void Beast cried out, its eyes revealing panic.

The power their race feared the most was time, or else the spatial precious technique could be considered unmatched. However, whenever it suffered the corrosion of time, then there might be a great defeat.

Ah...

The Void Beast shouted, feeling itself become older, its body's blood essence drying up, becoming incredibly weak.

The power of time was without form. When it was used on its body, it immediately seemed to have aged ten thousand years. Its body jerked about, finding it difficult to stand.

Honglong!

The Void Beast collapsed, smashing into the great earth. *nOvE/lb*)In

Kacha!

At the same time, Shi Hao broke the eight enormous chains, instantly struggling free. He turned into a golden war god, trampling down on the Void Beast.

"The life saving dao symbol has been used up, what else do you have left?!"

Pu!

Shi Hao's foot trampled down, bloody light splashing outwards.

The Void Beast who had time stripped away from it screamed miserably. Half its body was trampled into a bloody mess.

"Evil creature, hand over your life!"

Chapter 1136 - Chopped Up

There wasn't anything unexpected that happened this time. Half of the Void Beast's body was even trampled to tatters, so it naturally lost most of its powerful fighting strength.

Moreover, at this time, the deteriorated state of its body still hadn't recovered, still incredibly weak, dropping to its declining years. The scales were loose, the horns dull and without light.

At this time, forget about Shi Hao, even if it was someone with only one strand of immortal energy, it would be enough to end its life.

However, the Void Beast wasn't an ordinary creature. Even though it already fell to this type of state, it still retaliated, feeling unsatisfied. It was precisely because normally, it was high and above other creatures, so it didn't want to lose now, not wishing to die.

"Oh, who was the one that said this? Our blood is filthy, your blood is noble and high above, so why are you being trampled under my foot?" Shi Hao mocked.

"You lowly bug, what does a momentary victory represent? When my world's army truly comes, not even ten thousand of you would be enough to kill, all dirty soil!"

Even though the Void Beast was being trampled under someone's feet, it was still arrogant and unyielding, still feeling like it was innately superior, having trouble accepting that the people of this realm could injure him.

Peng!

Towards this Void Beast who was still acting so arrogant even while being suppressed, Shi Hao only sent his foot stamping down, crushing its mouth. Blood immediately splashed outwards.

It splashed in all directions, teeth flying out. That area was turned into a bloody mush.

This scene was a bit pitiful. When had the Void Beast ever been wronged like this? Being trampled on and beaten, half its body even blasted rotten.

Its eyes released a vicious light. It had a feeling that it likely wouldn't be able to escape this, and as such, it stared at Shi Hao with hatred. At the same time, there was a type of fear, his mind feeling some contradiction.

"Just speak, tell me what's going on with your world, tell me everything you know, and then I'll leave you with your life and use you as my mount." Shi Hao said.

He really wanted to know what kind of ancient world it was on the other side, what kind of creatures there were exactly, why they were so powerful, crushing this realm until they couldn't even breathe.

He wanted to know if the cultivation system on the other side was similar to this side's, just how great it was.

"You can forget about obtaining anything from me. Even someone like you wants to take me as a mount? Keep dreaming!" The Void Beast said.

Shi Hao didn't say another word, raising his leg again, stamping down. A large half of that tattered mouth directly vanished. It could now only transmit sound through its divine will.

Then, Shi Hao cut open its forehead with a single slash, delivering life and death danger to its primordial spirit, saying, "Taking you as a mount wouldn't leave me at ease either. I believe that there are still other Void Beasts in that world of yours, so it's not a big deal even if I catch one later on. Right now, if you want to live, then start explaining."

The Void Beast was furious, and at the same time, it felt even more fear, not knowing what to do.

At this time, the power of time disappeared, so its body was already gradually recovering from its aged state. However, how could this Void Beast who had already lost half its body resist?

"I won't tell you..." It encouraged itself, wishing to make its own will even more resolute.

Chi!

Right at this time, Shi Hao suddenly took action. A sword hacked into its primordial spirit, preventing it from recovering to its peak from its withered state, injuring its primordial spirit.

Moreover, Shi Hao released a vicious attack, quickly taking action, locking down its divine consciousness. He wanted to forcefully observe the primordial spirit and explore everything.

“You... wouldn’t get your way!” The Void Beast roared. It became anxious and angry. One’s primordial spirit imprint was their fundamental being, if it was inspected by another, it would mean that there would no longer be any secrets to speak of.

Its primordial spirit began to burn, about to explode.

Shi Hao laughed coldly, forcefully suppressing him, preventing it from detonating itself.

However, right at this moment, his body went ice-cold, feeling a wave of chilliness. A sword brandished out, removing its head, and then he quickly withdrew.

It was because inside the primordial spirit was a wave of destructive power. There were mysterious symbols that lit up, about to make it collapse.

The Void Beast cried out, “No!”

This was the clan’s restrictions to prevent their race’s most powerful precious technique from leaking out. There were symbols applied to all of their important disciples, so once one explored their primordial spirit, they would explode.

The Void Beast was unwilling to accept this. It cried out crazily, igniting its blood essence to stop this. At this moment, it was truly incomparably frightened.

In the end, that symbol actually died out, not truly exploding.

“Wu, your life really is quite persistent. Feel like talking now? Tell me the things I want to know.” Shi Hao said. Since it was terrified, it meant that it feared death, so perhaps he might be able to obtain some secrets.

“Forget it!”

The Void Beast was unexpectedly still extremely decisive, refusing once again.

“Then there’s nothing left to say. I’ll chop you up bit by bit and eat you!” Shi Hao said. He produced a huge cauldron, poured divine springwater inside, preparing to cook it.

“Motherfucking...” The Void Beast was a bit flustered, continuously cursing. It had never met an enemy like this before.

It was a Void Beast, the highest level creature with a powerful bloodline. When had it ever fallen to becoming food? This was the first time something like this had happened since the world first formed!

It would rather immediately die and burn to ashes than be cooked by another now!

“You dare?!” It roared angrily.

“Why wouldn’t I dare?” Shi Hao was completely composed. He brandished the Everlasting Immortal Sword, and then with a pu sound, he removed a large chunk of flesh from its body that was over ten zhang tall.

When this piece of flesh was removed, it was washed, and then directly thrown into the cauldron.

Everything before the Void Beast's eyes went dark, almost dying from anger right there and then. This was too humiliating! Not only was its body in tatters, its mind was in even greater intense pain. It had never suffered like this before.

Hong!

The Void Beast couldn't tolerate this. A special sphere of light rushed out from his head, entering its body.

Its head had already been cut off, losing connection with its body, but now, the bones in its limbs shone, and then they ignited, starting to burn.

This type of fluctuation was too terrifying. It tore through the heavens, making the void collapse!

It was because this was a Void Beast, so it was quite normal for this type of irregular scene to appear. Shi Hao didn't think too much, believing that it was trying to self destruct, so he backed up.

However, as time went on, he felt that something wasn't quite right.

That enormous body was burned to ashes, all of its vital energy going up in a blast of light, entering that head. Then, lightning tribulation crashed down, the void rumbling.

"Rebirth?!"

Shi Hao was extremely shocked. This vicious beast was too sinister. Things already developed to this level, don't tell me it was still going to defy the heavens?

Its head obtained nourishment, absorbing the void secret force from all directions, wrapping itself within. A small Void Beast appeared in its skull, golden and brilliant, about to reappear.

Hong!

Heaven and earth erupted, even more frightening void secret force moving about, powerful to an unimaginable level.

Even though there was quite some distance between them, the others also sensed it.

An enormous Void Beast projection appeared in the heavens, overlooking the great earth. This was a type of irregular phenomenon, the might incomparable.

"Heavens, that's a Void King Beast! Is it undergoing rebirth?!"

In the distance, a cry of alarm sounded. The ones who cried out weren't people from heavenly deity institution, but rather someone who came from the other side.

These people came from the other world, understanding more. They had previously heard that the Void Beast's rebirth scene would display the ancient ancestor's void projection to assist in the later generations' condensation of void force. n)(Ove**l**l

Apart from this, there were all different types of irregular scenes.

Auspicious light was released in thousands of streaks, divine splendor tens of thousands. It really was a rebirth that was happening.

“Not good, once the Void Beast undergoes rebirth, it’ll become even stronger!” Heavenly deity institution’s people finally realized something, their expressions becoming grave.

At the limits of the mountain range, Shi Hao was also a bit surprised when he saw this scene. The ancient ancestor’s Void Beast figure was too massive. It was just a blurry figure, but it already made other feel as if they were suffocating.

“You really are getting carried away by your wishful thinking!” Shi Hao sneered. He no longer felt any misgivings, rushing over with extreme speed, the Everlasting Immortal Sword hacking down.

“En?” He was shocked. He was unexpectedly stopped by the void force.

Hong!

Suddenly, in the great dao flower above his head, that indistinct figure opened its eyes, staring forward.

The Void Beast who was currently undergoing rebirth immediately trembled. Then, that place collapsed, the void secret force and ancient ancestor disappeared.

“This thing is...” It stared at the seated figure in Shi Hao’s great dao flower, revealing a look of alarm.

The rebirth failed!

The void around it collapsed. It was clear that it couldn’t continue living, starting to break apart.

Meanwhile, Shi Hao was even more decisive, a sword hacking out to prevent it from self-destructing or anything unexpected from happening.

Pu!

A sword pierced out. Its head and primordial spirit were cleaved in half, and then exploded, body and soul completely erased.

Shi Hao searched around this place, carefully putting the cauldron away. He felt extremely heartbroken, saying, “If I knew, I would have directly stored away the entire body.”

There was only a ten zhang sized piece of flesh in the cauldron, which wasn’t that small of an amount. However, compared to the entire Void Beast, it was still quite lacking.

“This is Void Beast divine meat, sigh! Better than nothing I guess, still have something to eat.” He didn’t cook it here, putting it all away, and then returned to that battlefield.

Right now, everyone was fighting, all of them tearing at each other. The ground was covered in blood, corpses laying everywhere, a huge battle being carried out.

“Where did you go? Did you see the Void Beast’s rebirth?” Wang Xi was currently facing an enemy, the two evenly matched. When she saw Shi Hao, she asked this.

“Saw it, but was chopped up by me.” Shi Hao replied in a manner that wasn’t too fast or slow, his figure rather strange and sinister looking as he stood in the battlefield.

Chapter 1137 - Death Caused by Own Stupidity

When his words sounded, this battlefield immediately became a bit quiet.

Who was this person, chopped up the Void Beast? This left others a bit stupefied, the news just too astonishing.

The Void Beast was definitely a top level existence, one who cultivated three strands of immortal energy, rarely encountering enemies. Taking a step back, even if it was not a match for someone, it could still run, because their greatest ability was merging into the nothingness.

Normally speaking, it was extremely difficult to kill a Void Beast!

When others heard these sudden words, they were all stunned. Many cultivators from heavenly deity institution looked over, including Lu Tuo, Princess Yao Yue and others.

A chi sounded. Someone laughed. n-.o(-v)/e-.l(/b-(1-.n

That moment of peace was quickly shattered.

Everyone's eyes flickered with radiance. That was a creature from the other side, moreover an extraordinary individual even Xuan Kun would find a hard time dealing with.

"Even someone like you fantasizes about killing the Void Beast? Haha!"

Then, the people on the other side also laughed, carrying amused and mocking expressions, even more so a type of disdain after seeing through a lie.

"Do you know how extraordinary the Void King Clan is? Just now, it was carrying out a rebirth, now already merging with the void, defensive strength the most powerful, impossible for normal people to penetrate unless they are a great cultivation realm or two higher."

"You are nothing more than a Holy Sacrifice Realm cultivator, yet you dare boast shamelessly? Oh, you seemed to have cultivated immortal energy, but this is far from enough. Truly a joke!"

The people on the other side ridiculed, all of them laughing, not believing his words at all.

It was because in their world's records, the Void Beasts' defensive strength at their greatest was rebirth, merging with heaven and earth, becoming indistinguishable, impossible to overcome.

That was why no one believed that Shi Hao killed the Void Beast, merely treating it like a joke.

"Wu, void great one definitely concealed itself in the void, needing to rest during rebirth. When it comes out soon afterwards, it'll become even stronger."

"Should it come out again, it definitely wouldn't be a heavenly deity, but rather entering an even higher great cultivation realm, able to overlook the world under heaven!"

When the people on this side from heavenly deity institution heard this, they were all stunned. After the Void Beast underwent rebirth, its defensive power would be this astonishing?

Didn't this mean that it was currently laying low, becoming even stronger when it appeared again? Everyone's minds sank.

“Wu, the Void King Race’s greatest opportunity is the rebirth that follows enlightenment, something they are always hoping for. Great one unexpectedly gained enlightenment here.”

The creatures on the other side all laughed oppressively. When they looked at Shi Hao, they felt like he went too far with his lies, now losing all face, so all of them revealed expressions of ridicule.

Shi Hao was inwardly shocked as well. Was the Void Beast really that difficult to kill during its rebirth? However, he felt like it was quite easy, and he didn’t suffer any backlash from the void secret force.

Soon after, he thought of that little figure seated in the great dao flower. Was this related to it?

Shi Hao thought to himself, having many questions inside. That little figure didn’t seem to belong to this world, as if it lived in the past. Did it truly possess such great power?

“Wu, now that your bullshit is exposed, I reckon you’re completely stupefied now!” The creatures on the other side directly said.

Shi Hao gave them a look and then said, “I already said that the Void Beast was chopped up by me. If you don’t believe me, you all can try to call out to it and have it come out to fight.”

One of them said with disdain, “Everyone knows that once great one enters rebirth, he will definitely lay dormant for a period of time to concentrate on evolving. How could it come out now?”

Shi Hao really was a bit dumbstruck. He killed a Void Beast, yet no one believed him. However, this was fine as well, he didn’t plan to really show off to begin with, just casually mentioning it. It was up to them if they wanted to believe it.

However, there was one thing that was sure. They didn’t believe him now, but soon after, when the Void Beast fully disappeared, not appearing again, everyone would know whether he was speaking the truth or not.

At that time, there would naturally be a great disturbance raised!

“You really are quite interesting, making jokes even now.” Princess Yao Yue spoke, the corners of her mouth revealing a hint of mockery.

Many people from heavenly deity institution were looking at Shi Hao, some of them speaking with lowered voices, some making fun of him, others angry. Most of them were fighting against the enemy, feeling quite discontent towards this matter.

Wang Xi’s face was slightly red, feeling like the fella beside her was too unreasonable, even daring to lie about this type of thing, treating it like a contribution, really leaving her ashamed.

“Can you just... understand your place a bit, talk a bit less?” She said to Shi Hao.

“What do you mean speak a bit less? You all don’t understand. Isn’t it just a Void Beast? You all treat it like treasure, but for me, it’s just a dog. If I want to eat it, I can cut off a chunk or two. When we go back, I’ll invite you all to eat Void Beast meat!” Shi Hao said carelessly. As for whether it was true or false, he’ll let the others decide for themselves, it didn’t make a difference for him either way.

If heavenly deity institution's people ignored him, then that was fine, it was perfect for avoiding Wind Clan's attention. If they really knew, then they would definitely trace things back to the source, involving Feng Xingtian's matters, seeking him out to settle accounts.

Wang Xi's opponent was a white-robed youth. Right now, he released a sneer, feeling this person was quite amusing. He actually dared to speak such nonsense in broad daylight.

"Brat, it seems like you have quite the mental issues going on in your mind. What are you laughing at by yourself?" Shi Hao glared at him.

When the white clad youth heard this, his expression immediately became sluggish. What kind of tone was this, actually calling him a... brat? What kind of nonsense was this, actually daring to look down on him like this.

"Do you want to die?!" The white clad youth abandoned Wang Xi, about to fight an intense battle against Shi Hao.

"If you aren't convinced, then come. I'll blast you to death with a single fist!" Shi Hao cocked his arm, provoking him.

The white clad youth's expression was strange, feeling like there was something strange. Just what kind of background did this fella have? He was ridiculously confident, didn't he fear being killed?

One had to bear in mind that he was evenly matched with a fairy who had three strands of immortal energy. How many people could reach this step?

The white clad youth had fought with Wang Xi until now, not able to decide victory or defeat all this time. Even a random youngster who showed up dared to boast so shamelessly.

"You are bringing about your own destruction!" The white clad youth said coldly. He saw the two strands of immortal energy Shi Hao was hiding. Just like Wang Xi, he couldn't see that Shi Hao had three strands of immortal energy.

Shi Hao shot him a sidelong glance, the corners of his mouth carrying a sneer as he said, "You can't even beat a girl, still acting so arrogant, just stop showing off in front of me already. Little Xixi, beat his ass, I better see him start crying soon!"

When everyone heard this, they were all stupefied.

Wang Xi had an embarrassed expression on her face, carrying a bit of anger. This fella really was unreasonable, daring to speak randomly even in this type of situation, really getting more and more out of hand.

Just how frivolous was he, speaking like this, humiliating that opponent?

The white clad youth's body flickered, now truly angry. He released powerful killing intent. This fella actually dared to look down on him like this, this was a type of humiliation. Daring to treat a young supreme being with three strands of immortal energy like this, was he tired of living?!

Many people from heavenly deity institution revealed looks of shock, unable to laugh even if they wanted to. Meanwhile, the creatures on the other side were furious. The white clad youth's divine courage spoke for itself, yet this person dared to provoke him like this.

No one could see through Shi Hao's hidden strength, all mistaking him for only having a strand or two of immortal energy, feeling both confusion and shock. Was he just looking to die?

"Death caused by own stupidity!" Someone sighed, shaking his heads as he looked at Shi Hao.

Even those on the heavenly deity institution's side expressed acknowledgement when they heard this. This fella was too reckless! After shooting his mouth like this, he definitely had to pay the price.

"Are you the one acting stupid?" Shi Hao looked towards that person, also cocking his arm.

That person immediately erupted with anger, abandoning his opponent and rushing at him. This was someone who had two strands of immortal energy. He had three heads and six arms, a human body, and alligator tail.

Of the three heads, one was human, one a lion, and one a great Peng. It really was unusual, extremely powerful.

This was a powerful species on the other side, rumored to still have an ancient ancestor living, magical force reaching the heavens. It had an extremely great status on the other side of the world, all of his descendants king races.

"Idiot, come here and accept death!" This creature threw itself over.

It rose into the air, a leg sweeping out, wishing to kick Shi Hao to death with a single blow. At the same time, its six arms all formed imprints, symbols covering everything densely, brilliant like divine rainbows, about to kill Shi Hao.

However, Shi Hao was too fast. He left behind an afterimage in his original location, closing the distance in an instant. He appeared in midair, and then like a Void Beast, grasped heaven and earth, able to move anywhere.

Peng!

Shi Hao reached out his right arm as fast as lightning, grabbing the ankle that was kicking over horizontally, gripping it rigidly in place like a steel clamp, making this creature feel a piercing pain.

If it was physical strength being compared, how many people were comparable to Shi Hao? The two of them were a whole level apart!

This creature's six arms brandished about like a thousand hands ancient monk, quickly producing magical imprints to kill Shi Hao.

However, at this moment, Shi Hao's power erupted, becoming incredibly violent, displaying astonishing power. His entire body surged with endless golden light, and while grabbing this creature's ankles, he fiercely spun it about. It was as if he was swinging around a scarecrow, smashing it crazily against the floor.

At this moment, forget about this creature, even the surrounding individuals who were currently watching felt their bodies going numb. This kind of crazy thrashing was just too hard to endure.

Shi Hao carried it, directly smashing it into the ice-cold floor. Smoke and dust immediately rushed into the sky, the ground rupturing, great earth shaking violently.

The reason he was able to do all of this was because of Shi Hao's extraordinary speed and strength. The aesthetics of violence was displayed to its fullest, using his overwhelming speed to grab the other party, and then using his incomparable divine force, leading to this kind of result.

Meanwhile, during this process, he naturally used precious techniques as well, smashing apart the other party's bones and other parts.

That was why the creature on the floor immediately became weak, the six hands still in the process of forming imprints when it was smashed into the ground, its faces even more so making intimate contact with the ground.

In that instant, his body deformed.

Ah...

He couldn't help but scream, because the pain was difficult to bear.

His situation was as miserable as miserable could get.

This was a small world produced through the cooperation of both the Ten Realms Diagram and the Heaven and Earth Pouch, so the ground was ridiculously tough. The scene was too horrible to endure, his entire body a bloody mess.

Xiu!

Shi Hao released a streak of sword energy, directly removing its head, his actions extremely decisive.

"Anyone else unconvinced? If you want to do something stupid, then come over so you can experience a death caused by your own stupidity." He said absentmindedly.

He had just carried out such violent actions, yet afterwards, his words were so nonchalant, giving others an extremely strange feeling, momentarily distracted.

"Much more garbage than the Void Beast. Those who don't listen have the same end, directly chopped up." Shi Hao said. He looked at everyone and said, "Anyone else wanna be chopped up?"

Chapter 1138 - Body Technique

On the battlefield, a group of people stared at him. This fella was a bit strange, could it be that he really was a super powerful expert?

However, these people didn't want to believe that this person killed the Void Beast no matter what. This didn't make sense, extremely unrealistic.

The Void Beast merged with heaven and earth, even if it was greatly defeated, it could still escape. It shouldn't have been killed that easily.

“Body cultivation!” Right at that moment, someone spoke up, speaking of what Shi Hao relied on.

Everyone stared blankly, some opening their Heavenly Eyes to examine him, verifying that they only saw two strands of immortal energy, moreover discovering a hidden ‘third dao’.

At the same time, these people realized that there was a special glow to Shi Hao’s skin, the reflection of when one’s flesh reached its peak, entering an extraordinary level!

“The greatest body cultivation beneath the Heavenly Deity Realm!” Someone sucked in a cold breath of air, seeing his current state.

Shi Hao’s flesh and blood were sparkling like jade, without the slightest blemish. From a certain perspective, he was even more perfect than the most beautiful fairies here.

His flesh and blood had already reached the peak of this level, to the extent where it even surpassed the limit. The ancient monks’ so-called Vajra Unbreaking, Zhang Six Golden Body wouldn’t even be stronger than him.

This was the ancient method’s... body technique!

There were people who cultivated magical force, with those who refined the body, but the latter was much more difficult, difficult to reach the extreme, even more difficult to attain unmatched great dao accomplishments.

There were many types of precious techniques, all of them the embodiments of cultivating magical force, all of them glorious and flourishing. Since the ancient times, many great figures used this to succeed in the dao and reach the peak of their lives.

However, those with great success in body refinement were extremely rare. This path was full of frustrations, could be considered extremely narrow. How many people could reach its end?

Cultivating body techniques meant raising one’s flesh to its most powerful level, the hardships of this path were unimaginable, every step along this journey requiring all types of prices that had to be paid.

For example, using divine medicines to refine the muscles and bones, using long life medicines to refine the blood vessels, using undecaying true spirits’ blood to cleanse the marrow and wash the arteries and veins!

How could normal people do these things?

Just cultivating a body technique was already extremely difficult. Together with these things that were needed, this was practically an impossible path.

Moreover, even if one barely managed to gather all of these things and even had exceptional aptitudes, failures far exceeded those who succeeded, ninety percent of geniuses ultimately giving up on this path.

That was why even though there were long life families who gathered the materials, few disciples would tread on this path.

“It really is body cultivation! He actually successfully cultivated it!” Someone said with a sigh.

Everyone stared at Shi Hao, continuously looking at him. Right now, when he readied his body, tightening his muscles, his flesh was powerful and stunning.

In his surroundings, heaven and earth spiritual essence surged on its own, nourishing his body. This was an absolute path of the flesh becoming immortal, heading towards the undying. Even now, there were already some traces of this shown.

Everyone could only sigh with praise. Once this body cultivation succeeded, it became ridiculously terrifying after all!

Princess Yao Yue's eyes shone, her beautiful eyes flickering with radiance. She looked at Shi Hao again and again, sizing him up. In the end, she smiled in a charming manner, saying, "No wonder younger sis Wang Xi saw you as a great treasure, body cultivator hmm? A young lad who looks delicate, but is actually quite strong and sturdy, quite the excellent man."

She was clearly teasing the others, purposely saying this to ridicule her competitor.

When Wang Xi heard this, she immediately shot her a look. "If you want this great treasure, then I'll lend him to you." When she spoke up to here, she felt like she made a mistake, her face becoming slightly red. "He's yours, why would I want him?!"

"Hehe, so gentle and pretty, but has such a sturdy physique, it really is rarely seen you know? Are you sure you don't want him?" Princess Yao Yue teased.

When everyone heard these two's conversation, they were both speechless. These two fairies with competitive relationship could actually say these types of things.

"This person's body technique has been refined to the extreme, no wonder he is so powerful. Just now, he used his own strong suit to bully his way over and kill the three-headed six-armed creature. Formidable!"

"You can't let this type of person close the distance, or else your body will be torn apart in an instant!"

A few people discussed among themselves, all of them creatures from the other side.

Shi Hao opened his mouth slightly, wanting to say something, but then closed it again. They can interpret things however they wanted to.

How did he end up becoming a body cultivator?

However, if he thought about it carefully, this wasn't entirely wrong, because his body really did match the characteristics of someone who cultivated the body to the extreme, exceeding the norm.

With his current physical achievements, he was precisely someone at the peak of this field, reaching the very forefront of the Heavenly Deity Realm. $n(/o.-v)(\epsilon.-l-/B-(l(.n$

"So what if it's body cultivation, are you all unconvinced? Feel free to come over, I'll chop all of you up!" Shi Hao curled his lips. He finally spoke again, putting on an extremely cocky appearance.

Everyone looked at him, they just felt like something wasn't quite right, that things didn't match up.

"He's definitely full of shit!"

There was someone who spoke in mockery, muttering like this.

Many people nodded when they heard this, deeply approving of this. This fella really was too naive, letting things get to his head, like a newborn calf not being scared of a tiger.

Who was he trying to challenge? The ones who came were all foreign cultivators, a group of powerful creatures, no lack of even valiant individuals who had three strands of immortal energy!

“Hey, white-robed kid, who are you glaring at? Come, I’m going to beat your ass!”

Shi Hao fired his mouth again, targeting the youngster who challenged Wang Xi again, because this all started their dispute.

The white-robed youth was an exceptional genius. Right now, he was in quite the bad mood. How did he end up being targeted by this fella? Didn’t he only speak a few words with disdain and mockery?

He felt like bickering with this type of person would lower his status, especially since the other party looked like a twenty-three year old youth. Could it be that the other party was pretending to be someone else?

“Damn kid, get your ass over here!” Shi Hao continued, pointing at him.

Even though the white-robed youth looked down on Shi Hao, always looking down on him, he could still hold it in before. However now, when he was pointed at like this, he finally couldn’t take it anymore.

“Good-for-nothing, I’ve wanted to kill you for quite some time now. If you are seeking death yourself, then not even the heavens can save you!” The white-robed youth said. He moved, separating from Wang Xi, breaking away from their battlefield and charged at Shi Hao.

“You really are going to come to get your ass beat? I’ll kill you with a single kick!” Shi Hao cried out viciously.

The group of people were stupefied. Was he really just that dumb, or was his strength extremely great?!

A few people frowned, inwardly assessing the strength of the strongest individual of body technique, coming to the conclusion that his strength might be extremely astonishing, but he shouldn’t be able to match someone who cultivated three strands of immortal energy.

“I’m going to kill you!” The white-robed youth said coldly. After walking a certain amount of distance, he no longer moved any closer. He began to form imprints, preparing to take action.

“Are you scared? Using three strands of immortal energy to bully someone with two strands of immortal energy, what heroicism is there to speak of? Do you dare to be like him, only use two strands of immortal energy?” Wang Xi spoke.

She was against the white-robed youth, helping Shi Hao.

“Exactly, you foreign creatures all call yourself the most powerful right? Then let’s see just how strong you are under the same conditions.” Someone from heavenly deity institution spoke in agreement.

The people on the other side frowned, saying coldly, “Restraining yourself would be what is most unfair. Why should he only use two strands of immortal energy?”

The white-robed youth waved his hand, saying, "I'll just use two strands of immortal energy to face him then, it's similarly enough. The so-called body technique is nothing more than a cultivation method. How could it really make the cultivator himself superior?"

He shook his head, saying coldly, "Today, I will use my supreme might to suppress the so-called body refinement cultivator, let you all witness our greatness."

It was clear that this youth was a formidable individual, with a great background even on the other side. His age really wasn't great, similar to Shi Hao, at most a few months older.

However, he already cultivated three strands of immortal energy, thus, he was extremely arrogant, looking down on everyone else. He now spoke like this, saying that he was going to use two strands of immortal energy to challenge the body cultivator.

"The Mo Family's sister and brother pair are known to be peerless and unmatched, stunning and exceptional, unrivaled in their domain, known to be the ones with the greatest aptitudes since the beginning of history for good reason."

There were foreigners who were discussing this, their opinions of this white-robed youth extremely great.

He was named Mo Dao, handsome like jade, his reputation extremely great in the world beyond the Desolate Border, even the creatures within the ancient realm linked up to Undying Mountain knowing about him.

Moreover, he had an older sister named Mo Xian who was similarly stunning, also cultivating three strands of immortal energy. Just how many people were there like this in that great earth? Yet his clan had two of them. Forget about the world behind the Desolate Border, this triggered a great commotion even in the ancient realm connected to Undying Mountain.

However, this time, his older sister didn't come.

"Those who could reach this step since the ancient times are quite few, I don't really want to kill you either. Leaving a thick-skinned fella like you by my side as a servant shouldn't be too much of a disgrace towards my status." The white-robed youth didn't seem to treat this situation with that much seriousness. Two strands of immortal energy moved around him. He stood on a large rock, looking down at Shi Hao.

When Shi Hao heard this, he began to roar with laughter. "I feel like keeping a pretty little boy servant like you might bring me quite some face. After all, you did cultivate three strands of immortal energy! How about we make a bet, the loser has to willingly become the other's servant."

Everyone began to stare blankly when they heard this, not knowing what to say, these two completely different individuals were actually clashing like this!

Chapter 1139 - White Robe

Little boy servant? When the white-robed youth Mo Dao heard this, his nose almost went crooked from anger. This bastard really dared to say anything! Who was he? He was the most powerful of his generation in his region, yet now, he was being ridiculed by another like this.

One had to bear in mind that this youth looked even younger than himself, and only cultivated two strands of immortal energy. Even if he was a body cultivator, he was still far from being comparable.

Of course, Shi Hao also found him unsightly. The other party actually wanted to take him on as a follower, thus calling him a little boy servant.

At this time, many people on the battlefield heard this. There was blood everywhere on the ground, a few corpses, the scene extremely tragic.

However, because these two unique individuals were going to carry out a bet, about to carry out a special battle, they thus temporarily stopped.

“Say, little boy servant, right now, it’s just empty words. If I win, what if you fly into a fit of rage and don’t own up to the deal? Or what if you get too excited and directly get run over, dying on your own here, who am I going to have to look for to settle things? Wouldn’t all of my efforts have been for nothing?” Shi Hao dawdled about over there.

The white-robed youth Mo Dao’s eyes immediately became cold, truly angered badly. How could he endure this type of mockery?

“What are you randomly saying? How could Mo Dao possibly lose? He is one of the most powerful geniuses from our world, while you are nothing more than thick-skinned!” A little girl shouted angrily, glaring with her large eyes.

It was clear that Mo Dao was quite well-known, many cultivators respecting him, especially a few young female cultivators who had good impressions of him, not wishing to hear Shi Hao’s nonsense.

“Mo Dao, beat him up, try to finish him in ten moves. Don’t let him act so arrogant anymore!” Someone shouted. n-**o**(-v)/**e**-.**l**(/b-(1-.n

These were all creatures from the other world, this was a rare time when all of them felt anger towards a common enemy.

Shi Hao looked at them. When he saw that these creatures were all of the same origin as those from this world, he could only shake his head, not feeling like retorting.

Mo Dao’s face fell. He looked at Shi Hao and said, “You don’t have to worry, I, Mo Dao, in the end, is someone whose reputation has moved a region, so even if you are shameless, I will still uphold my dignity. As long as I am defeated, I will definitely admit defeat.”

“Hey, little white, can you not shoot your mouth?” Shi Hao said.

Who is this little white?! Mo Dao glared out, killing intent surging.

“Soft skin tender flesh, wearing white clothes, if you aren’t trying to be a pretty playboy[1], then what else are you trying to accomplish?” Shi Hao said with a laugh.

“Fight!”

Even though the white-robed youth was extremely handsome, right now, there was a type of domineeringness. He only spoke this single word, and then took action, his entire being fierce like a heavenly sword.

His sharp eyebrows shot up vertically, eyes deep, loftiness completely changing. It was as if a war god had revived, the energy released terrifying.

“Hey, don’t back out now, you can only use two strands of immortal energy!” Wang Xi reminded.

The white-robed youth’s face was gloomy. He had previously teased her when he first rushed at Wang Xi, precisely targeting her because of her status as an immortal descendant, to go against a long life family. However this situation now left him feeling a bit uncomfortable.

Lu Tuo, Xuan Kun, and the others were all paying close attention to him, wishing to see how those of the other world were different. Even though they all encountered opponents just now, the more they understood, the more advantageous it would be for them.

“Hehe, what a good friend, siding with him like this...” Yao Yue teased Wang Xi.

“Are you a student from my heavenly deity institution or not? Someone on our side acting like they aren’t?” Wang Xi retorted.

Princess Yao Yue was surprisingly stumped for words. She opened her mouth, but didn’t argue back.

At this time, black light surged. The white clad youth Mo Dao displayed astonishing might. Even though he only used two strands of immortal energy, that type of appearance was still quite intimidating.

He looked delicate and pretty, but once he displayed might, it was as if he merged with the spirit of a war god!

Hong!

An expanse of flowing light shot out from his palms and fingers. Upon closer inspection, they were all Vermilion Birds, numbering in the hundreds and thousands, forming a fiery red expanse. It was as if raging flames were burning.

The ground immediately melted, even the void burned until it collapsed, the temperature just too great.

One had to bear in mind that this was the small world formed from both the Ten Realms Diagram and Heaven and Earth Pouch, the sturdiness far surpassing the outside world, yet it was still affected to this extent from this attack, so one could see just how powerful it was.

“One artifact to shatter all methods!”

Shi Hao’s appearance was imposing as he shouted.

They all thought he would produce some kind of weapon, but who would have thought that he was just randomly shouting, in the end still releasing a finger to fire streak after streak of light, blasting those Vermilion Birds.

“Where’s your weapon?!”

“What artifact shattering all methods, there’s no weapon at all!”

The foreign creatures roared out, all of them mocking him.

“What do you all understand? The weapon isn’t in the hand, but the heart! My weapon has already been used, attacking the will, invisible, can’t you see that he’s frowning? It has already taken effect!” Shi Hao said cockily.

I actually ended up falling for something like this?! Mo Dao really wanted to shout out. He really was a bit bewildered, didn’t this fella walk the path of flesh to immortality? Why didn’t this really seem to be the case when he attacked?

Body cultivation usually had extremely short range yet powerful attacks, fast like lightning. Once they started fighting, they would shoot over like a streak of light, closing the distance and unleashing destructive blows.

However, this fella before him didn’t look like the conventional type at all, not like a true unmatched body cultivator.

However, this person really did cultivate his flesh to an extreme state, a genuine article, this was what Mo Dao thought.

Vermilion Birds filled the skies, but they were all shot through, destroyed by Shi Hao purely through divine force. Peace was restored to the skies.

Only, this was just the beginning. Li Flames overflowed. Mo Dao was surrounded by divine light, enveloped within natural laws like a true immortal, heroic and extraordinary. When he raised his hand, a streak of five-colored divine light descended.

Hong!

With Li Flames as the source, and then the five elements divine force merging with it, the precious technique that was produced was exceptionally terrifying.

Everyone’s expressions changed. Even though he only used two strands of immortal energy, this type of power could definitely kill other cultivators with two strands of immortal energy.

This precious technique was exceptionally powerful, supported by the power of five elements, and it was cultivated to a perfected level.

When Shi Hao evaded, metal, wood, water, fire, earth, the secret force of these five elements swirled, changing in the void, continuously flickering about, actually opening up a small world, about to cover him within.

Si!

Everyone sucked in a cold breath of air. What was a great divine ability? Only this type of highest level of enlightenment, a unique insight achieved through displaying a profound mystery to its peak was!

The five elements quickly arranged themselves. Mo Dao took action, producing a small world, forming a cage, wishing to seal Shi Hao inside and refine him on the spot.

“Good, I knew Senior Brother Mo Dao’s magical force was great, suppressing and capturing this hateful person in less than ten moves!” A young lady cried out happily.

Peng!

Shi Hao’s hands formed imprints. This was a strange imprint that merged both the Kun Peng Technique and Lightning Emperor Method, a divine ability that strengthened his flesh, allowing him to immediately break through the five elements energy and make his way out.

What kind of strange magical imprint was this? Everyone frowned, actually unable to recognize it.

At the same time, Shi Hao moved through the air, rushing at Mo Dao, releasing the most powerful attack.

“World In Sleeve!” Mo Dao released shouted. His white sleeves moved, and then strong winds roared, the world experiencing great changes, about to suck Shi Hao into his great sleeve.

Shi Hao didn’t move out of the way, instead facing it head on, as if he was taking the initiative to fall into the trap.

“Careful, don’t let him approach! He is a body cultivator!” Someone cried out in alarm, loudly reminding.

Mo Dao naturally wouldn’t make this elementary mistake. Even though his large sleeves moved, trying to suck Shi Hao inside, that was just a space that was created, not really Mo Dao’s true body that approached.

Following a hu sound, Shi Hao entered, but immediately afterwards, that area became chaotic. With a loud noise, Mo Dao’s large sleeve exploded.

Shi Hao slaughtered his way over, immortal energy surrounding his body. His hand formed magical imprints, smashing forward.

Shua!

Like a flash of light, Mo Dao evaded swiftly to the side, revealing a look of alarm.

Hong!

Shi Hao released another strike, his movements great, smashing apart that area of the void.

Everyone’s expressions changed, all of them sucking in a breath of cold air. Was this body cultivation? To smash apart the void with every punch and kick, not even displaying any special precious techniques?

This type of person was too dangerous! If the distance was closed, or if they were caught, they would be directly torn apart!

“White-robed kid, you don’t seem to be all that? Are these the methods of your side? Not much different from the precious techniques on our side at all.” Shi Hao said.

When the cultivators on the other side heard this, they all revealed cold expression, as if he had touched their bottom line.

Mo Dao said coldly, "Naturally not the same. What I displayed so far are all dao methods stolen from your side of the world, previous spoils of war."

This time, it was heavenly deity institution's people whose expressions changed. This was a type of humiliation. Their predecessors were greatly defeated, many of their secret texts stolen, falling into the hands of the creatures on the other side.

"Are you prepared to serve your role as a little servant boy?" Shi Hao asked.

After hearing those words, he didn't have any other thoughts, only wishing to end this battle as soon as possible and have someone to order around.

Regardless of whether it was the Void Beast battle or fighting against Mo Dao, Shi Hao's actions in the beginning were all to scout out the other party, for the sake of learning about their world.

But now, he wasn't in the mood anymore. He wanted to use the most powerful methods to decide the winner and loser.

Chapter 1140 - Captured

Shi Hao was like a meteor as he smashed over intensely. Immortal energy pervaded the air, holy light shining brilliantly. His hand formed magical imprints, blasting the white-robed youth Mo Dao.

His power right now had, without a doubt, reached an extreme. At the very least, it gave others the feeling of the peak of what two strands of immortal energy could display.

If was as if an ancient true immortal revived, resplendent divine light surging, terrifying fluctuations rippling and covering everything.

Shi Hao was too fast, arriving in the blink of an eye, his magical imprints smashing down!

Mo Dao's expression became grave. When he raised his hand, nine imprints appeared, rumbling about as if there was heavenly thunder crashing down. His hands were moving too quickly.

He displayed an ancient method, producing nine magical imprints in an instant, merging together, power exceptional.

Nine types of divine abilities all appeared, merging together here and releasing blinding light as if heaven and earth were being opened, power incomparable!

Everyone cried out in alarm. This was an ancient heavenly art, a strange ancient method! It could support nine types of precious techniques, merge them into a single most powerful attack!

Honglong!

Terrifying energy erupted between the two, leaving everyone shocked.

In that instant, under this type of explosion, a strange trace of fluctuations flowed out. Then, the white-robed youth's expression turned white, becoming exceptionally horrified, quickly backing up.

Shi Hao approached quickly, attacking at him.

Mo Dao felt some restraining fear towards body cultivators, so he always maintained a set distance between them. Otherwise, it would have been extremely dangerous just now.

It was because in that instant, he felt as if the precious techniques he displayed instantly weakened, almost about to lose their effects!

That was why he withdrew extremely decisively into the distance!

He had previously experienced this type of situation once before!

Mo Dao was a genius with heaven warping talent, having the fortune of ascending Undying Mountain and entering the true mysterious ancient realm, obtaining the guidance of unmatched figures.

He had encountered a member of an ancient emperor race before, discovering with shock that this clan possessed magical immunity!

At the time, the proud and arrogant Mo Dao suffered a huge loss from their very first exchange, almost being defeated in just a few moves.

Even though it was just an exchange of pointers, this had dealt him a tremendous mental blow!

That was why this event left him with an extremely deep impression, something he wouldn't forget for the rest of his life.

Later on, he thought bitterly for ways of dealing with this, deciding that he had to immediately pull open the distance between them as soon as possible, that he couldn't be reckless at all. Otherwise, under the magical immunity's effects, it would be the same as trapping himself.

Moreover, he had examined a few ancient texts, his gains from them tremendous!

He had previously researched, later on even more so challenged that emperor race member, understanding how to deal with him.

That was why as soon as Shi Hao began to display his ability, Mo Dao immediately sensed it, carrying confusion and shock as he quickly evaded outwards.

It was only because of this that he could avoid this disaster.

Mo Dao wasn't sure, but a strange intuition was telling him that the other party was extremely dangerous, that he shouldn't clash with him head on and to instead evade outwards.

As for whether this really was the best course of action, he couldn't say for certain.

Shi Hao was quite shocked. He wanted to seize victory with a single strike, but never expected that the other party would be so vigilant, immediately evading out. If it was anyone else, they would have already been captured.

"Wu, why are you so cowardly, always running? Didn't you say you were going to suppress me? Acting like this really isn't good..." Shi Hao said.

The white-robed youth Mo Dao's eyes were deep and cold as he stared at Shi Hao, wishing to see through him, understand what was going on. Otherwise, he really wouldn't feel too at ease.

Shi Hao put away that ability. This ability has been growing with each passing day, increasing with his cultivation. Just now, it had just begun, yet the other party already ran, so he decided to directly end it.

If it was in the past, he definitely wouldn't have been able to accomplish this. Once this ability was displayed, it would continue until it lost effectiveness

"You aren't a pure human, but a... descendant of an Emperor Clan?!" Mo Dao's expression was serious, speculating here.

When these words sounded, everyone became shocked. What was he saying?

"What are you even talking about? What Emperor Clan? I am the Emperor Clan myself, what descendant of emperor race, nonsense!" Shi Hao retorted.

Regardless of whether it was the heavenly deity institution's people or the creatures of the other side, they were both quite shocked, expressing confusion. Why were Emperor Clans mentioned?

Chi!

Shi Hao took action again, his body like a Flood Dragon, tearing apart the void, rushing murderously at the white-robed youth, using his most powerful physique to fight him head on.

Mo Dao evaded, continuously forming imprints. There was no way he was going to compete in physical strength against this person, only using the most powerful magical force to bombard him from the distance.

Great rumbling sounds rang through the air, powerful divine force rippled outwards, rising and falling here, grand and boundless, overflowing into the heavens like a great sea.

However, there was one thing that one was certain of, which was that regardless of whether it was Shi Hao or Mo Dao, they both complied with the agreement, not using their third strand of immortal energy, only having two strands of immortal energy around their bodies.

Mo Dao was proud, believing that he wouldn't be defeated. Meanwhile, Shi Hao was confident, attacking powerfully, trying to assess the other party's true power.

An intense battle was carried out!

The two fought, both of them using killing methods, wishing to defeat the other party.

Peng!

Even though their bodies never made contact, the large hands and fists that were produced collided from time to time, these the derivations of precious techniques. It was as if true bodies collided.

In the blink of an eye, they exchanged over a hundred moves!

Everyone was shocked, not expecting these two to be evenly matched.

The foreign cultivators were all shocked. What kind of person was Mo Dao? He was known as the pride of heaven, exceptional in his area, yet now, he found this body cultivator difficult to deal with.

Not long ago, there were still a few young ladies crying out, believing that Mo Dao could finish Shi Hao in ten moves, but now, this battle still hadn't been decided after a hundred moves, leaving them stunned, and then feeling worry!

Heavenly deity institution's people were even more shocked. Wang Xi's so-called dao friend was simply defying the heavens, actually able to fight on equal footing with this white-robed youth, truly leaving the crowd shocked.

Even though that white-robed youth was restricting himself, only using two strands of immortal energy, after all, he had unmatched aptitude, even more so an undefeated conviction, but this battle was evenly matched.

Everyone was speechless, watching the battle nervously.

"Not good!"

"You cannot approach him, that's a body cultivator!"

A few foreign youngsters cried out in alarm, worrying for Mo Dao.

It was because when these two people approached, the distance wasn't that far. This type of situation was extremely unfavorable for the white-robed youth.

However, the ones who cultivated three strands of immortal energy didn't utter a word, the eyes of every one of them brilliant, becoming even more brilliant as they stared at the battlefield.

Dang!

The two precious technique collided, their bodies clashing for the first time. The white-robed youth was unexpectedly not seriously injured.

"Heavens, a physical clash!"

"What is going on? Senior Brother Mo is taking risks, this is too dangerous!"

There were young ladies who cried out, faces turning pale.

"Stop shouting, those who cultivate three strands of immortal energy, even if they aren't body cultivators, their bodies still won't be that much inferior, similarly sturdy. There is no way the other party can rip it apart in a short amount of time."

Someone said coldly, precisely a girl who cultivated three strands of immortal energy, her aura like that of a leopard. She had previously fought a great battle against Lu Tuo.

In reality, this really was the case. Shi Hao's flesh was powerful, but there was no way he could immediately kill someone with three strands of immortal energy purely based on his physical power.

Back then, regardless of whether it was against Ning Chuan or the Void Beast, there were physical exchanges that happened. Even though his own physique was even stronger, he still couldn't hope for this attack to deal the fatal blow.

"Yi, what kind of magical imprint is that?!" The crowd cried out in alarm.

Mo Dao's movements were extremely strange, deriving a wave of mysterious dao aura. Several magical imprints merged together, the great power unexpectedly affecting the world itself.

In a daze, it was as if heaven and earth's laws were disturbed!

Shi Hao was shocked. What kind of ancient method was this?

He wanted to use the ability within him, using magical immunity to kill the enemy!

However, right now, this secret power of his flesh was stirring a bit restlessly, uneasy under the opponent's hand imprint, as if a hibernating True Dragon was going to rise up into the sky, but also as if it was going to run.

This was something that had never happened before!

Right now, Mo Dao was shocked. He was sure that the other party was the same as that ancient Emperor Clan from the world behind Undying Mountain, grasping that type of terrifying ability.

What Shi Hao was currently experiencing came from some damaged methods in ancient immortal dao records that could suppress the magical immunity ability.

For the sake of obtaining this type of ancient method, Mo Dao had previously studied many ancient texts, and he had also earnestly asked for guidance, and only then did he obtain these ancient inheritances from a well-known figure from another Emperor Clan.

Only, when dealing with this type of ability, there were no magical imprints that could completely neutralize it. This could only be considered a type of disturbance, a type of weakening method.

It was rumored that in Immortal Ancient Great Era, there was someone who created an undamaged magical imprint that could suppress this dao, but it had long been lost!

At the same time, there was another method to neutralize it, which was to walk the path of body cultivation, to not use precious technique, directly fighting with the flesh. Those types of people were extremely terrifying!

Right now, the heavens split and earth cracked, ghosts weeped and gods howled.

After Mo Dao used several damaged magical imprints together, this place became hazy, seemingly disturbing the balance of heaven and earth. It stopped its normal operation, all types of irregular scenes appearing.

Meanwhile, this was the case for Shi Hao's body as well, in chaos. That type of ability couldn't be effectively displayed.

Mo Dao used this chance to frantically attack, using his greatest power to display an ancient heavenly art, merging nine great precious techniques to defeat Shi Hao.

"This still isn't enough!" Shi Hao shouted.

Even though that type of ability was slightly obstructed, interfered with, his divine ability was still there, his body still unmatched, able to endure it. Moreover, he released the most powerful counterattack.

Shi Hao wanted to use the Six Dao Reincarnations Heavenly Art, but in the end, he still endured it, not activating it in front of everyone.

It was because after persisting for a short period of time, he scattered the interference, that type of ability appearing again!

Hong!

The scene completely exploded. Shi Hao's magical immunity activated, charging forward fearlessly to attack his opponent.

Mo Dao's expression changed, releasing a sigh. Things were likely going to be troublesome now!

His magical techniques lost effectiveness, so how could he fight against Shi Hao under such close distance? A flesh struggle was unavoidable. There was nothing worse than this.

The other party was a body refinement cultivator, while he wasn't!

Dang!

The two's palms and fingers collided as fists, as if steel struck against each other, sparks flying in all directions, divine force surging.

Many people were shocked. Mo Dao was this powerful, his flesh comparable to a body cultivator?

"How can someone who cultivated three strands of immortal energy be like everyone else? Even if he didn't cultivate body techniques, his body is still rarely seen in this world!" Someone said.

However, this type of balance couldn't be maintained for a long time. A while later, the space between Mo Dao's thumb and forefinger split, both of his hands bloody, his arms starting to shake as well.

He was in great danger!

Apart from using his physical strength to suppress the other party, he also used the most powerful precious technique, the battle situation immediately turning in his favor!

Hong!

Mo Dao coughed out a large mouthful of blood, being sent flying.

Weng!

Shi Hao continuously formed imprints, his body like a dragon, tangling about Mo Dao, continuously taking action, leaving him seriously injured.

Then, with a peng sound, Shi Hao locked down the other party. Under the magical immunity situation, he made breakthrough progress, capturing this person.

"My servant, do you admit defeat or not?!" He asked with a smile.

Everyone became stunned. Mo Dao was captured, now a prisoner. Could it be that he really had to admit his losses, willingly become that youngster's little boy servant?!

Those young ladies simply felt like crying. Normally, they felt great adoration towards Mo Dao, but now that he was captured, they were all stupefied, feeling worry for him, tears about to fall.
