

## Perfect WD 1191

### Chapter 1191 - There Is One?

Chaos, mysteries, danger, these were the most realistic incarnations of the Realm Tomb.

No one could say for sure what there was exactly in the very depths, just like how there were other ancient lands that had never been fully explored since the ancient times.

Like Origin Ancient Mine, what exactly was there buried within its innermost depths?

Or Skyland, what kind of creatures were slumbering there?

They discussed this topic tonight, chatting with each other. In the end, they encouraged each other, because this upcoming journey might affect their entire life's accomplishments.

"If one wants to cultivate ancient methods, then one must have a seed, but finding an unmatched immortal seed is truly too difficult. Right now, there is only the World Tree sapling, nascent cosmos, and a few other types, but there's no way these can be seen again, can only be stumbled upon, not sought after." Qing Yi said with a light sigh.

As for the others, like Cao Yusheng, Chang Gongyan, Dragon Girl, Feng Wu, and the others, even though they were cultivating present world methods, it was still crucial to their cultivation.

It was because not long ago, the elders had told them that they were going to be brought into an 'ancestral cave', a wondrous ancient land that might contain divine cores.

If there was a chance, then they could carry out a great rebirth there, experience a comprehensive transformation from the flesh to the primordial spirit. This could be said to be equivalent to changing one's fate.

If the rebirth was successful and thorough, their cultivation path might become wider, their prospects brighter, putting them on a fast track!

"It is rumored that this ancestral cave has produced immortal dao creatures before who became immortals upon birth!" Cao Yusheng said with a sigh. That was something that happened in the last great era.

Everyone speculated that that might be a heaven and earth placenta, able to nurture all things, seize natural luck between heaven and earth, able to change a creature's constitution.

After accumulating for endless years, all of it nourishing a single creature, that creature could naturally become an immortal!

"Of course, if there are no opportunities, we won't obtain anything even if we enter the ancestral cave." Chang Gongyan said.

This time, Shi Hao and those cultivating the ancient methods were going to look for immortal seeds, while Chang Gongyan and the others who were cultivating present world techniques were departing to change their own 'life trajectory'.

For them, even though the paths they were taking were different, this journey was related to too much!

Under the moonlight, a light and graceful figure walked over, body swaying back and forth, walking elegantly like a swaying lotus, extremely moving and beautiful.

Her skin was snow-white, her black muslin dress unable to hide her wonderful body. Her neck was snow-white, jade-like arms spotlessly white like ivory, legs long and slender. A heart moving radiance flickered about her.

It was the witch, her beautiful hair moving about, pupils black like black gemstones, skin like fine jade. She was aloof and pure, like a spirit dancing beneath the moonlight.

There was already a light laughter sound before she even arrived, smiling and greeting everyone here.

“Still came out in the end, I thought you were deliberately avoiding me, not wishing to meet old friends.” Shi Hao said with a smile, pouring out a glass of fine wine for her himself.

“I really was intentionally avoiding you, but if I don’t come, then I really would feel a bit of regret. That little girl next to you is already aiming killing intent at me.” The witch giggled.

She was talking about Qing Yi. She didn’t appear during these last few days, precisely to avoid her, because the two of them had previously been completely opposed to each other, opposing each other harshly. The opposition between the two was just too great.

Of course, the main one the witch was dealing with was still Yue Chan. Qing Yi was a second body, so she just got caught up in the disaster as well.

One had to keep in mind that back then, the reason why Qing Yi was captured and resulted in all types of disputes with Shi Hao was because of the witch. Without her, many things between these two later on might not have happened.

Qing Yi released a light hmph, her clear beautiful eyes releasing two streaks of cold lightning. Even though she didn’t take action, the hostility was still extremely clear.

“Hey, little girl Qing Yi, what kind of attitude is this? I am your matchmaker, don’t abandon your benefactor after reaching your goal now! Without me, would there be your current sweet relationship?” The witch was always rather crafty.

Chi!

The two women’s eyes met, it was as if sparks flickered about in the air, opposing each other with equal harshness.

“Everyone is friends here, let’s not ruin the friendly atmosphere, there is no need to be like this.” Dragon Girl tried to smooth things over.

The little rabbit giggled mischievously, carrying the snow-white Qilin young beast, wishing for the world to be in chaos as she said, “Two older sisters, why don’t the two of you have a competition?”

Qing Yi immediately widened her eyes. She was so familiar with this little rabbit, previously even facing many trials and tribulations together in Immortal Ancient Remains, yet this little rabbit was actually trying to stir things up.

"We are all friends, we can just chat if there are things to say." Shi Hao also tried to mediate the situation.

In reality, after the two confronted each other for a bit, they restrained their divine force, no longer opposing each other, because there were so many people they knew here, so they couldn't just start fighting here.

Everyone sat down again, enjoying the good food and wine, the atmosphere becoming lively again.

However, it was also during this process that the witch said something, making everyone spray out the wine from their mouths, Qing Yi becoming incredibly ashamed, almost risking it all against her.

"Don't you have one in there? Why can't I see it anything?" The witch asked.

Qing Yi was momentarily stunned, while the little rabbit widened her large eyes, directly asking, "Have what?"

"I am saying that in the lower realm, I heard that Qing Yi had one in Immortal Ancient Remains. Already gave birth?" The witch asked with a smile.

Pu!

Alcohol immediately sprayed in all directions, everyone shocked. The ones who were currently enjoying good food were also like this, the food in their mouths all dropping to the ground.

Some of the wine and food dropped in the lake, attracting multicolored divine fish. Multicolored light flickered about, these fish swimming back and forth.

"You..." Qing Yi's expression was red, embarrassment and anger mixing together. She was originally graceful, but now, she was immediately flustered, almost flipping the table in front of her.

"I'm guessing you already secretly gave birth? Is it a boy or girl?" The witch said, extremely gossipy.

"Wowowow, is this real or fake? Older sis Qing Yi, you really aren't sincere, how can you hide these types of things, actually not telling me!" The little rabbit cried out strangely.

Everyone was a bit stupefied, some of them knew that something ambiguous had happened between Shi Hao and Qing Yi in the three thousand provinces' Immortal Ancient Remains. Right now, they really were shocked.

It had to be said that right now, Qin Hao was a bit stunned, saying, "Big brother, you two have a child, why didn't you leave that child in the Three Thousand Dao Provinces? Father and mother really do miss us, if you leave that child with them to take care of, this isn't a bad idea either!"

Pu!

Qing Yi almost coughed out blood, standing up, unable to sit still anymore.

This was especially because Shi Hao was also lacking in confidence, acting a bit stunned, looking at her blankly, stammering as he said, "Really... have one? Where is the child?"

These two brothers both had this expression, really were from the same mother after all, their faces extremely similar.

At this moment, forget about those who had heard the secrets, even those who weren't familiar with things understood. A few things had happened between the two before, extremely shocking and complex matters occurring between them.

"This is a happy occasion, worth congratulating!" Cao Yusheng slapped the table.

"Congratulations, congratulations!" Even Chang Gongyan who was of few words began to congratulate them, moreover reaching into his bosom to find some gifts.

At this moment, Qing Yi already completely woke up, freeing herself from the anger that made her shake all over, face completely red.

The first thing she did when she snapped back wasn't to stake it all against the witch, but rather to viciously attack Shi Hao who was almost within reach, truly wishing to tear him apart.

She had never met such a slow man, truly leaving her beyond angry. This fella was normally extremely smart, yet just now, he put on a dumb expression!

There was also his little brother Qin Hao, having that stupefied look. That type of expression, those words made Qing Yi want to give him a beating too!

Shi Hao was normally incredibly sharp, but right now, he really was acting stupid, the main reason was because some things really did happen back then, and now that he saw Qing Yi become so embarrassed and dumbstruck, he really was stunned, thinking that he really did have a child. n((O\elbIn

One had to understand that a few years ago, he was still wandering around the world, catching vicious beasts and cooking them. He was still a naughty and mischievous youth himself! Now, he actually heard this, that he suddenly had a child, it really frightened him badly.

"Stop hitting me!" Shi Hao backed up. If not for his his body being sturdy and unbreaking, comparable to a body cultivator, he would have definitely been beaten badly by Qing Yi, that refined fist extremely strong.

"What is going on? I only mentioned it, did I end up hitting the nail on the head?" The witch looked immensely proud of herself, pouring wine for herself, her large eyes blinking about, looking like a crafty little fox.

"Witch, you are slandering my pure reputation, I want a decisive battle!" After Qing Yi vented a bit of anger onto Shi Hao, she directly rushed murderously at the witch.

She was as light as a feather, white clothes fluttered about under the moonlight, as if the lunar goddess had descended into this world, incredibly pure and aloof, holy and untainted.

"You think I'll be scared of you? Just come then!" The witch raised a small jar, pouring wine into her mouth, releasing a small hiccup. Her large eyes drifted over, not appearing bothered at all.

She wore black clothes, beautiful and crafty like a fairy, going tit for tat with Qing Yi.

Chi!

A black and a white figure charged at each other, an intense battle quickly starting. Their clothes fluttered about, extremely graceful, possessing an indescribable type of beauty.

This feast could be considered to have come to an end. However, everyone didn't feel disappointed, instead rather happy, in high spirits as they watched the battle here.

Shi Hao was the only one with a bitter expression, speechless as he watched. Then, he turned around to give Qin Hao a look, discovering that he still had a shocked, slightly confused expression, immediately pissed off as a result.

"Peng!" He directly slapped his little brother's head.

"Brother, why are you hitting me?" Qin Hao became angry.

#### Chapter 1192 - Foreign Guests

The moonlight disappeared, a dark cloud drifting over between heaven and earth. An ancient existence rumbled and swayed about, appearing above the academy. This was an Iron Blood Ancient Tree, one of the protectors of the academy.

"There is a situation! There are intruders!" During this peaceful night, under the brilliant night sky, in Heavenly Deity Institution, there was actually this type of warning voice.

Everyone became stupefied, not daring to believe what they were hearing. Someone dared infiltrate Heavenly Deity Institution, who was actually bold enough to do something crazy like this?

The cultivators in all of the caves and spiritual mountains stood up, even those by the small lake, Shi Hao and the others, were shocked, all of them getting up.

The Iron Blood Ancient Tree was incredibly large like a mountain ridge, the roots inserted in the void. Its entire body was scarlet red like blood. It floated in the sky, covering the stars and moon.

This was an ancient tree that had lived for who knew how many years, one that could shelter a tribe, defend an ancient city, possessing unimaginable uses.

It was previously the guardian spirit of a great clan, only now, it became one of the ancient trees that protected Heavenly Deity Institution!

In the night sky, seven or eight elders appeared in succession, soaring into the sky. Every one of them looking like they were facing a great enemy, their expressions serious as they looked into the sky.

Ever since Heavenly Deity Institution was established, they had never encountered such a thing!

Just how many people dared to come and act wildly? One had to understand that this was an academy built by the hidden experts of the Nine Heavens Ten Earths, with exceptional individuals overseeing it. Who dared to go against it?

Not even the long life families dared to rashly offend this place, let alone deliberately provoking it like this.

"In that direction!" Shi Hao pointed west. There was an oppressive aura there, sweeping over like a great flood.

That was hostility, the enemy was just this brash and undisguised, feeling no restraining fear.

"What kind of creature?" They were all confused. Just what kind of powerful creature was attacking?

In the horizon, the stellar light became dim, black mists appearing. There was a strange creature that opened its eyes, overlooking Heavenly Deity Institution, those eyes carrying a deep and cold feeling.

It finally appeared. Even though there was still a large distance between them, one could still see a devil mask. It was incredibly sinister, currently gazing in this direction.

This devil face was a light golden color. Even though there was golden light swirling about, there wasn't the slightest bit of sacred aura, but rather only a dark and gloomy feeling, extremely ominous, wrapped within a black haze.

"A great spider!" The little rabbit cried out in alarm, because that creature was closing in, gradually revealing its original body. It was even larger than a mountain.

An enormous creature towered in the dark mist. It had eight legs, incomparably sinister looking. It was just too big! When it opened its mouth, golden light surged like a volcano.

This was a giant spider, one that was entirely golden in color with three heads, precisely a Three-Headed King, the two heads on its side respectively a human head and a lion head, both of them also golden.

The black haze before was too thick, only a single head moving with the night wind visible. When the mist scattered a bit, its true body could vaguely be made out.

"Heavens, this is a Three-Headed King!"

Someone cried out in alarm, recognizing what type of background its true body had, his expression immediately changing as a result. It was because this type of creature didn't belong to this world.

Wasn't this a foreign creature? Why did it appear here? Moreover, it was too powerful, far exceeding the one Shi Hao had previously killed, its cultivation realm astonishing.

"Golden Three-Headed King, few in number even on the other side, a king race, a peerless expert!" The expression of an elder suddenly changed, becoming extremely serious. A blood-colored war spear instantly appeared in his hands. It was scarlet red like cornelian, carrying a baleful aura, scarlet and shining, incomparably sharp.

Heavenly Deity Institution's elders normally rarely used weapons, yet now, after just seeing the opponent, this person immediately produced a weapon. One could imagine how tense the atmosphere was.

An ancient language that was difficult to understand appeared. This enormous creature who was even larger than an archaic demonic peak spoke, its voice resounding, shaking up endless mountains and ravines.

"What is he saying?"

“He is asking who killed its descendant!”

There was a powerful creature who could sense its intention through divine will, learning why the Golden Three-Headed King came.

Right now, everyone shivered inwardly. How did it cross over? Could it be that the foreign creatures were slaughtering their way into the Nine Heavens Ten Earths?

Last time, in Immortal Battlefield, by borrowing the Heaven and Earth Pouch as a spatial gate, a group of creatures who hadn't fully matured yet, strength comparatively not that profound yet arrived. However, they could only stay within that area, unable to truly slaughter their way over.

Now, this Three-Headed King appeared, clearly ridiculously powerful, so how did it appear here? What kind of special methods did it have?

“Heavens, a mature Golden Three-Headed King, who can match him in strength? Is this world really going to fall into chaos? The foreign creature are slaughtering their way over!” Someone said while trembling. This was an absolute disaster no one was prepared for yet.

“Why is it like this? Are the two realms going to fight, is the world going to be enveloped in flames, blood flow like rivers?!”

Some people's voices began to tremble. There was nothing worse than this.

This language that was difficult to understand, powerful and forceful syllables sounded from the Three-Headed King's direction. Many people couldn't understand it, but they could see its coldness and contempt.

It was because in its eyes, the reactions of the people here were just too lacking in battle intent, lacking a courageous spirit.

“Its true body didn't come, only using a sacrificial platform to transmit over a void image. Otherwise, its magical body's strength will likely crush the void.” An elder said, seeing the real situation.

An indistinct altar appeared in the black mist. It was extremely large, at the same time extremely tattered. This was something from Immortal Ancient, buried a long time ago, only appearing now.

The altar shone, many symbols appearing on its surface, extremely complex, but also carrying a type of beauty. Everyone felt as if their minds were drawn to it.

It was shining, producing a giant spider projection, allowing it to appear here.

“This is an altar from Immortal Ancient Great Era that the foreign creatures used to retreat. Even though it can't transport them over, casting some projections over isn't a problem.”

“Back then, after the calamity passed, those who survived from long life families all moved, searching about in the Nine Heavens Ten Earths and destroying these altars, but there were still a few that were overlooked.”

The two elders spoke, helping everyone understand what was going on.

“What exactly does it want?” Everyone was confused, not knowing why it suddenly appeared here.

Not everyone could sense the Three-Headed King's spiritual fluctuations. Even though it was a void figure, it was still extremely frightening, normal people's divine will directly scattering when it reached out.

"It is going to send an emissary over to deliver a letter."

"What? An emissary is going to come? They can move between the two worlds?"

The altar was hazy. Countless symbols were released, and then in the end, they condensed into a door, opening in the void, forcefully linking up the two worlds, merging them together.

In that instant, many people heard roaring sounds, leaving them terrified. Many gods and devils from the other shore roared and struggled, all of them wishing to make their way over.

There were undying beings in that world, the most powerful group of ancient creatures, perhaps some who were alive even during the last great era's battle!

Clatter, whoosh...

Noises sounded. Someone was walking over, moving through that gate, not too rushed or too slow as it arrived in this world.

This creature's body was covered in armor, unknown if it was male or female. It wrapped tightly around it, even the head covered by a helmet, only revealing a pair of eyes.

Everyone couldn't help but suck in a cold breath of air, because this armor was made of Immortal Gold, dark light flickering about. Even though that type of black Immortal Gold was rumored to be inauspicious, extremely strange, it was still extremely eye-grabbing.

Darkness Immortal Gold Armor! n.(Ove!bIn

This emissary's body was actually covered in such a world-shocking armor, truly a bit shocking. That was but Darkness Immortal Gold, one of the most rare and innately precious treasures!

Darkness Immortal Gold, black light flickered about, but it was also sparkling and brilliant, like black jade. It gave the wearer a type of poised and grand appearance.

"It seems to be a woman, or else why would the face be hidden, covered by armor, not letting others see?!" Someone said softly.

After this human shaped creature appeared, it raised its two hands towards the starry sky, and then took a deep breath, as if it was experiencing something.

Right at this time, the armor on its body flickered about, many great dao symbols shining in response as well, as if they were examining something.

"It is clearly probing this world's natural laws and strength, making preparations for the all out attack on the Nine Heavens Ten Earths." An elder said.

Soon after, its armor began to shake, releasing dark light, protecting its entire body.

“Still rejected by this world. When will this be changed?” On that altar, the Three-Headed King said quietly, already impatient.

“You are a foreign emissary, if you have something to say, please say it.” An elder said.

The creature surrounded by Darkness Immortal Gold was tall and slender, not all that domineering, because everything was isolated by the Darkness Immortal Gold. Right now, it jumped off the altar and walked in the void, heading towards Heavenly Deity Institution.

Everyone’s expressions changed. This was not a void figure, but a real body, a living expert. It came over just like that!

#### Chapter 1193 - Golden Blood

Under the night sky, that creature walked over step by step, its figure tall and slender. However, its true appearance couldn’t be seen, everything around its body covered by black jadelike black gold armor.

The ice-cold metal armor flickered with luster, the dark light sparkling, giving one a type of malevolent feeling.

This figure was mysterious because its true appearance couldn’t be seen, and it also came from a different place, so it couldn’t avoid being the center of attention even if it didn’t want to. As it approached Heavenly Deity Institution, all eyes were cast over.

During this process, the Darkness Immortal Gold Armor on its body shone, great dao symbols continuously flickering about, inspecting this world’s various natural laws.

“Are you trying to provoke us? Trying to understand the circumstances here, and then bring back information so it will be easier for you all to unleash war against us?!” An elder from Heavenly Deity Institution said.

“It is an emissary, merely here to send a message, you all are overthinking things.”

That enormous Three-Headed King above the massive altar spoke. Its body really was giant, covering the moon and stars, too large.

This was its voice, rumbling like thunder, frightening everyone.

“Hand over the letter!” An elder spoke.

After learning that the Three-Headed King was only a void projection and not the true body, the elders released a sigh. Otherwise, who knew how many people would die today.

The Darkness Immortal Gold Armor flickered with brilliance. This person walked up silently, and the with a qiang sound, a jade book flew out from its armor, entering an elder’s hands.

Heavenly Deity Institution’s elders all huddled together to read the letter together. They immediately frowned, all of them revealing angry expressions.

“Advising us to surrender, why not just directly tell us to kill ourselves instead?” Fourth Elder laughed coldly.

"It has been written in the letter that you all can be granted the undying!" In the distance, golden light swirled about. The enormous spider body moved, incomparably sinister and frightening.

The Golden Three-Headed King was too terrifying. Even though it was just a void figure, it was still not something an ordinary person could deal with.

"What a joke, grant us the undying? How many creatures are there in this world who can truly not die? There are still a few ancestors who crossed over back then that are still alive, but can they stop time?!" The academy's Fifth Elder directly criticized.

"They are all alive. The heroic ancestors who came to this world to fight have not aged, how could time harm them? It's already been said that they are undying!" The Golden Three-Headed King corrected sternly.

When they heard these words, those present all gasped, feeling a deep wave of powerlessness. Perhaps there is no need to even resist, the conclusion had long been set in stone.

"There is no need to feel discouraged. If they were powerful enough, they would have arrived a long time ago, why would there be a need to scheme and do things in such a roundabout manner?" Second Elder who hadn't appeared for a long time spoke, encouraging the academy's disciples.

"That makes sense as well. Telling us those few individuals are still alive is nothing more than intimidation." Cao Yusheng said. A group of people spoke up in agreement.

"We are willing to establish a divine country, allowing everyone to transcend, all become undying, help everyone in this world!" The Three-Headed King said.

"Really speaking words that sound better than singing!" Second Elder mocked.

"What needs to be said we already wrote down in that letter, the project to help everyone pursue the undying is also included, you all should carefully read it." The Three-Headed King said.

"The entire world undying, are you delirious?" An elder couldn't help but laugh coldly. This was too ridiculous.

"Perhaps there are some in this world who have spread falsehoods about us, saying we are endlessly vicious, our evil crimes overflowing into the heavens, but these things are not true." The Three-Headed King said.

Everyone was stunned. Just what kind of letter did he give the academy's elders? Was it saying that the foreign creatures were extremely gentle and kind? This was too absurd.

In everyone's memories, the foreign creatures were always wicked beyond redemption in the bone books.

Now, the foreign Three-Headed King actually did this type of thing.

"Cease your nonsense. You all only wish to see how the world is now, what is the point of bringing up all of this nonsensical talk?!"

Third Elder was extremely severe. He stared straight at the emissary before him, but no matter how he tried, he couldn't see through this individual, unable to see its age, sex, or other things.

Hong!

Heavenly Deity Institution's Fifth Elder took action, reaching a hand over towards the creature in the dark armor, wishing to imprison its primordial spirit and prevent it from committing suicide.

He didn't hold back at all. If not for the Darkness Immortal Gold Armor previously being refined by an exceptional individual, engraving mysterious patterns, it would have definitely been difficult for this person to escape disaster.

Ding!

Despite this being the case, there was no way this creature wouldn't be injured!

Fifth Elder's hand made contact with that black armor. It was as if he was striking against metal, the noise loud and clear. That was the sound of Immortal Gold, providing some cushioning, stopping the divine force. It made one's mind tremble greatly.

"You want to kill it?" The Golden Three-Headed King's voice sounded.

"Don't think that I don't know what you all are waiting for, isn't it nothing more than to use this person to probe the world's natural laws and restrictions? You should cease your delusions!" Fifth Elder shouted.

At the same time, this time, he used his true cultivation, operating divine force, preparing to capture that creature covered in Darkness Immortal Gold Armor.

"If we discuss the undying, you all do not believe. Right now, there is an extremely unordinary person standing before your eyes, yet you all do not recognize them, or perhaps you all have long forgotten." The Three-Headed King said.

Everyone was shocked. What was he implying? These words could easily produce misunderstandings.

Moreover, at this moment, Three-Headed King took action.

Chi!

Spider silk poured down like a waterfall, descending from the starry sky, sparkling and brilliant, making those who saw it feel alarmed. That was clearly a large mutated spider, right now spewing out silk to form a web.

Even though it had three heads, this was still how it attacked.

The spider silk wrapped around that emissary, moreover stopping Heavenly Deity Academy's Fifth Elder. The Three-Headed King was merely a void figure, yet it could take action itself, a streak of divine light rushing over.

Under keng qiang sounds, the Three-Headed King chanted an incantation. Some areas of the armor made from Darkness Immortal Gold shone, opening up. Then, with a light pu sound, the emissary was injured.

“Why is he injuring someone from his own side, a madman!” Someone cried out.

“Yi, why is there golden liquid dispersing into that emissary’s surroundings?”

Some strange events that were strange and sinister looking happened, drawing many people’s attention.

“That’s blood, golden blood! Heavens, what kind of creature is this?!” A few people cried out in alarm.

The blood was too pure and holy, extremely beautiful, not carrying any bloody odor, but instead an indescribable aura.

This place erupted. There might be some species whose blood carried golden light, but it was definitely different from what they were seeing. It was just too divine and beautiful.

It was clearly a type of blood, but it still drew everyone’s attention, truly not simple.

“Why is there golden divine blood flowing? What kind of origin does it have? The Three-Headed King is clearly implying something, what exactly is going on?!”

The disciples from the academy didn’t understand, all of them revealing expressions of doubt.

However, the expressions of the most powerful elders in the academy all changed, including Fifth Elder’s. He immediately stopped, no longer rashly provoking the other side.

“It is that type of blood, there is no mistake!”

“I never expected this type of blood can still reappear in this world after endless time has passed, not being severed. It truly is good news that makes one excited and moved!”

Heavenly Deity Institution’s elders were speaking, their fingers shaking slightly, feeling extremely shocked, all of them extremely moved.

“Ha ha, there was someone still seems to remember that this type of blood exists in this world.” The Three-Headed King laughed loudly.

“Can seniors tell us what is going on?” Someone from the academy asked.

“He is a descendant of a protector, only the blood of the people of this bloodline is this sacred, a golden color!” Second Elder replied.

Everyone gasped, this person was a protector’s descendant?

“What era was that person from?” Even though they had long guessed, they still wanted to obtain verification.

“Immortal Ancient Great Era. They did too many things, protecting this world, Even though their family is small in number, they continuously fought, stopping the foreign enemies, only, this clan’s people all died in battle, all light fading.”

This family defended this world, establishing endless great service, this clan becoming known as protectors. Even though their members were few, the number countable on a single hand, they

possessed distinctive traits. When they were injured, what flowed out would be golden blood, holy and untainted.

This clan was ancient to the point where it could be traced back to the most ancient era!

Everyone had thought that this clan had been completely wiped out, the few that were left also dying in battle, not leaving behind any descendents. They never expected the Three-Headed King to bring back someone who had golden blood flowing through its body.

It was rumored that the reason why this race was so powerful was precisely because the golden blood within them provided them with unmatched strength!

“This is a descendant of the protectors, how can this person be in your world?!” At this moment, even the great elder was shaken up, unable to sit still any longer. *n/.0v**elb**1n*

They couldn’t let the protectors go extinct, because they established unmatched merit in the past, so they couldn’t allow their descendents to be wiped out, or else that would be too cruel.

“What is your intention?” Fourth Elder shouted, not understanding why the Three-Headed King would bring this kind of important individual. Now that the protectors hadn’t completely died out, they had to shelter this person.

For this world, the protectors had previously paid too much!

“Wu, we researched for a long time. The so-called unmatched bloodline, most powerful blood, the color can also change. We brought it back this time to let you all have a look.”

#### Chapter 1194 - Black Blood

The golden blood was extremely brilliant and dazzling as it landed on the ground, drawing everyone’s attention, the words spoken even more shocking.

The Three-Headed King injured someone here, displaying this person’s blood, what was the purpose behind this?

The black gold armor shone, covering that person again. That injury wasn’t serious, just a bit of superficial injury. Several dozen drops of golden blood trickled out, but it didn’t affect this person too much.

“What is your true intention?” Heavenly Deity Institution’s Fifth Elder asked.

Was the Three-Headed King trying to blackmail them, knowing that they couldn’t allow the protectors’ descendents to die, using this to make unreasonable demands? Otherwise, why would he bring this person here.

“Wu, look, the blood is becoming a black color.” The Three-Headed King said, the enormous spider body even more majestic and imposing than a great mountain as it rested above the altar.

It activated divine force, releasing a dazzling light that continuously pressed forward, an intangible force surrounded the golden blood that scattered in the void, crushing it!

As it took action, the golden blood exploded, turning into mist. It was still golden, brilliant and resplendent, as if flowing light streaked across the sky.

Then, the Three-Headed King's domineering power suppressed and refined it. The golden blood mist changed, now possessing a bit of malevolent energy, a mysterious fluctuation rippling through it.

Everyone became stupefied. This was just a portion of blood, so the most powerful individuals could directly refine it, but why was it continuously changing, not being destroyed?

The golden blood possessed a type of spirituality, even more so a type of tenacious vitality. The more it was suppressed, the clearer the great changes became.

Eventually, even the Three-Headed King used all of his strength, severing the void, producing a heaven and earth furnace, truly forming a simple and unadorned stove, refining the blood there.

Forget about the academy's students, even the heads of the elders here shivered inwardly. What kind of expert was the Three-Headed King? Even if his true body couldn't cross over, it was still unimaginable.

Right now, he actually used its greatest strength, but couldn't truly erase the golden liquid.

Some of the golden blood became dim. It first evaporated, leaving behind a golden substance, and then became ashes. However, there was a bit of golden blood that didn't go out the entire time, still struggling and moving about.

This was extremely strange. It was just a type of blood, so how could it do this?

"En?" Suddenly, many people became shocked. Heavenly Deity Institution's elders' expressions even more so changed, their pupils quickly contracting.

That strand of bloody wisp became black, no longer golden, but instead dark like ink. The changes were just too great, the contrast between the former and latter too great!

What was the reason behind this? What was going on? It left all of them greatly puzzled.

In the beginning, the golden liquid was sparkling and brilliant, having a type of sacred aura, calling it holy blood wasn't too far-fetched. It truly was strange, pure and possessing divine power.

Yet now, it was terrifyingly black, incredibly strange, lacking divinity. This was a type of power that made one shiver inwardly, simply like the blood of devils.

Why was there this type of transformation? Everyone was confused.

The Three-Headed King said with a profound voice, "Do you all see? Your so-called protectors are known to have the most divine blood, unmatched bodies, but what are they truly like? If they are continuously suppressed, in the end, a shocking truth will be restored. The blood isn't divine at all, the so-called gold is merely a front, its true nature is dangerous, frightening, the blood possessing some terrifying secrets!"

"You definitely did something!" Heavenly Deity Institution's Fourth Elder said, not believing the truth he was talking about.

"I am nothing more than a void figure right now, only using some pure force, what methods are there? All I did was suppress the blood, but the truth was fully displayed." The Three-Headed King said.

"What are you trying to say?" An elder said angrily.

"What I want to say is that even though you all are born in this world, what you understand might not be as much as us, even your protectors having secrets, hiding many strange things, so one can see just how complex and dangerous this world is." The Three-Headed King said.

"So what? What can the color of blood represent?" Heavenly Deity Institution's elders remained unmoved.

"How can it be meaningless? When the golden blood completely flows, it is extremely auspicious, the power incredibly divine. However, when the blood becomes black, only a type of violent, vicious energy is left, addicted to killing, could be said to be completely opposite. Do you all feel that a creature having two types of blood is normal? It is nothing more than a facade. The so-called protectors, their origins are extremely great, likely surpassing your imaginations!"

"Absolute nonsense!" Heavenly Deity Institution's people obviously rejected this.

"This is the truth. The so-called protectors' blood is originally black, merely hiding their true selves. It is just like your world, far more complex than what you all see. There is a hand guiding, leading you all. Perhaps it can be said that the so-called protectors, the creatures with golden blood, are the ones who are most dangerous for you all." The Three-Headed King spoke these words.

In the crowd, Shi Hao thought to himself, finding it difficult to calm down. He understood well that after the foreign creatures won, they didn't stay too long on this side of the world, ultimately withdrawing.

This was a mystery. At the very least, for his current self and a lot of others, they still didn't know the truth.

Could it be that it was related to what the Three-Headed King was saying? There were definitely some hidden secrets.

"You should cease trying to sow dissension between us!" An elder said angrily.

"Heh, if you all don't believe, then that's that. You all will understand sooner or later. Wu, since we are on this topic, you all can go and seek verification. We have previously dug up some burial earth in Origin Ancient Mine, and there was black blood that flowed out." The Three-Headed King spoke in a voice that wasn't rushed or too slow.

"This world of yours is extremely complex. We aren't scared, but you all however... heh heh!" The Three-Headed King laughed coldly. It went without saying that he looked down on the creatures of this world.

"If you have something to say, then say it all!" Third Elder lashed out.

"Just wait for us to descend, that day isn't too far off. This time, we will sweep through all obstacles. What ancient mine, what immortal abyss, what skyland? They will all be flattened, as well as the ones behind them..." When he spoke up to here, he stopped, no longer continuing.

"All bluffs, purposely speaking randomly!" Second Elder said, denouncing him for speaking nonsense.

It was because regardless of whether this was real or fake, he had to reject it, or else the effects would be too great, easily shattering the confidence of the academy's disciples.

Right now, these elders felt a bit of regret. They shouldn't have spoken to the Three-Headed King straight on like this, better to privately discuss things, because this public conversation could easily affect some people's convictions.

"The so-called undying also have a time limit. Your ancient ancestors and others will fall in the end. If you all dare appear in our world again, it'll be difficult for you all to escape death!" A newly promoted elder said.

These words made the Three-Headed King laugh loudly. "Truly childish and hilarious. Why would they be called undying? It is because they are creatures that remain imperishable throughout eternity, able to kill even immortals, winning against all enemies in Immortal Ancient Great Era. You think their dao foundation can be shaken with just your few words?"

When he spoke up to here, the Three-Headed King transmitted sound to everyone, saying, "The great chaos is about to arrive. Those who do not wish to die and want to enjoy the undying, you may choose to bow down to my world's great ones. Soon afterwards, our divine projections will appear in this world, so you all may build temples to consecrate them!"

Hong!

The academy's elders took action together, activating the Ten Realms Diagram, suppressing towards the altar, not allowing him to continue speaking.

At the same time, the Nine Phoenix Furnace was also activated, fiery red like blood diamond, producing heaven overflowing flames as it blasted forward.

"Wu, sending me off like this? There is no need to be so polite. I believe we will truly meet soon, and not while separated by two realms." n()σ--ℳ--e./L-/b//1-.n

The Three-Headed King wasn't angered. His figure grew dim, gradually fading away. As a result, that altar collapsed to pieces, unable to maintain its stability anymore.

At the same time, everyone's eyes released divine light, because that individual in the Darkness Immortal Gold Armor didn't leave, left over there.

Fourth Elder and Fifth Elder personally walked up, stopping this individual here, now allowing this person to leave.

"This is my gift for you all, unmatched blood, powerful body, the so-called protectors' great secrets. I hope you all can understand through his descendant, figure out the truth, what the black blood really represents." The Three-Headed King's final words sounded, and then he completely disappeared.

"We need to be careful, the foreign creatures are the most vicious. There is no way he is helping us with good intentions!" Third Elder reminded.

Heaven and earth became calm, everyone staring at that tall and slender figure in Immortal Gold armor. The Three-Headed King left, leaving it here, everyone believed that this person definitely possessed great secrets."

“Capture and bring this person back to the academy!” Second Elder ordered. Even if this was the descendant of their protectors, they still definitely wouldn’t act too politely right now.

#### Chapter 1195 - Protectors’ Bloodline

The two elders personally took action, using great magical force to suppress this creature, using an incredibly precious divine chain to lock up its body, firmly shackling it up.

No one dared to act carelessly, because this was a creature from a foreign land. Even though the Three-Headed King said that it was the descendant of the protectors, a young individual, heaven knew what exactly was going on.

“Bring this person back to the academy!” Second Elder waved his hand, and then a few people brought this person back.

Everyone was greatly shaken up by the developments!

All of them saw this scene. News traveled quickly, Heavenly Deity Institution becoming greatly shocked, a great commotion immediately produced!

The appearance of the Three-Headed King shocked everyone. Now, even some of those who were cultivating in seclusion emerged. When they learned that a mysterious creature was captured, all of them became stupefied.

After endless years had passed, just how many foreign creatures could they see?

Heavenly Deity Institution became full of commotion, everyone swarming over to a majestic and imposing giant mountain. A vast and grand copper building complex rested on it.

Many of them wanted to ascend the mountain and accompany the elders in questioning that creature.

However, there weren’t too many chances. There was no way all of them could go up, so the students paced about restlessly at the foot of the mountain.

The news were just too shocking. The golden blood of the descendant of Immortal Ancient Great Era protectors could turn black, divine and horror coexisting, all of this was previously unknown.

It was easy to see that Three-Headed King’s words left a deep impression in everyone’s minds, all of them wishing to find out what exactly happened.

Shi Hao had the fortune of ascending this imposing divine mountain. Purple energy rose into the air, medicinal herbs covering this place, as well as dwellings built from spiritual caves.

On the mountaintop, the bronze structure carried rust stains, mottled by time. It looked like a relic of time, recording the changes of history, recounting the events of the past.

Apart from Shi Hao, there was also his servant -- Mo Dao!

In reality, the reason why Shi Hao could come was also because he borrowed Mo Dao’s limelight. It was because he came from the other side, so many elders hoped that he could come and identify the captive.

Inside the grand palace, immortal energy was everywhere. Even though it was thin, it fully displayed how holy and extraordinary this place was. Only the most exceptional individuals could sit here.

There were more than ten praying mats, figures seated on them one after another, all of them indistinct, as if they were ancient figures that were being consecrated within a temple.

These were Heavenly Deity Institution's elders. Normally, there was no way so many of them would appear at the same time!

There weren't this many even when Mo Dao was brought back.

The main reason was because the events this time concerned too much. The descendant of the protectors appeared, preventing these people from remaining calm. All of them wanted to know what exactly was going on.

"Mo Dao, have you seen this person before?" An elder said, mists curling about him, figure dignified. Even though his true body couldn't be seen, extremely blurry, one could still sense how serious he was.

"Dressed in Immortal Gold armor, even the true unmatched Emperor Clans are nothing more than this, to the extent where they might not even be this extravagant. I have never met this person before." Mo Dao was rather cooperative, replying like this.

In the palace, that individual stood up. Its body was wrapped tightly in divine chains, but it didn't suffer any punishment, not being treated harshly.

In reality, if not for the misgivings the elders felt, it would have definitely been treated with the greatest courtesy. In the Nine Heavens Ten Earths, the protectors' bloodline was worthy of respect.

"Remove the Immortal Gold battle armor!" Second Elder spoke. He had great authority here.

The divine chains were loosened. The Darkness Immortal Gold Armor released dark light, right now extremely mysterious, could be considered immortal dao weapons, this world's most precious heavenly material.

Ka!

Pieces of armor were released one after another. That creature didn't resist, remaining calm and tranquil, silently standing in the palace.

"Truly a rare precious artifact!" Shi Hao sighed inwardly with praise. The black Immortal Gold armor came off piece by piece, too beautiful. Even though it was pitch black in color, they were covered in the most mysterious patterns. As divine force was imbued, it became sparkling and translucent, becoming even more brilliant than fine jade.

"En?" Shi Hao was shocked. Was this a woman? This person was extremely beautiful, body long and slender, face exquisite, long golden hair hanging down.

As the Darkness Immortal Gold Armor was removed piece by piece, this person's true appearance was revealed.

"No, there's an adam's apple!" Shi Hao was shocked. It really was rare for a man to be this beautiful, making even many females feel ashamed of their inferiority.

From the people he had met in his life, only the white-clothed Ning Chuan could compare, both of them ridiculously handsome, exceeding many of the so-called beautiful young ladies.

This creature's body had a golden divine flame jumping around it as if in anger. He didn't feel any good intentions towards the experts of the Nine Heavens Ten Earths.

However, soon after, he became calm again. During this process, the divine flames disappeared. Then, his long hair also changed from golden to pitch black in color.

"It is like the legends, when the golden blood surges, divine light would rise up in protection, the body and hair all becoming resplendent as if cast from gold. It matches what is recorded about the protectors." An elder said.

"Do you recognize him?" At this time, the people in the palace asked Mo Dao again, because they both came from the other side.

"I do not, never seen him before!" Mo Dao replied like this.

Everyone became silent. In reality, they foresaw this result as well. After all, Mo Dao came from the world outside the Desolate Border, not that true undying world.

"What is your name?" Third Elder asked.

The individual at the center of the palace was tall and slender, hair jet black, eyes like two gemstones, carrying divine radiance. His appearance was extraordinary, clearly not some ordinary figure.

"Dugu Yun!" He unexpectedly replied.

"Are you really the protectors' descendant?" First Elder continued to ask questions.

After hearing this question, Dugu Yun's eyes looked like they were burning, carrying hatred. His hair completely turned golden in color, releasing cold killing intent.

"I only know that my three ancestors were harmed by the people of this world, harmed to death by the ones they were protecting!"

Everyone's expressions went rigid, all of their faces freezing, not knowing what to say.

Based on what he said, back then, the protectors' bloodline, because of the creatures of this world, died because of betrayal. This truly was a disgrace, even more so an unspeakable humiliation.

In reality, in the bone books that were dug up, as well as some long life family's jade books, there were vague recordings that spoke of how unfortunate the protectors' bloodline was, dying tragically in battle all because a few people sold them out.

"Regardless of what era it is, this can't be avoided. There will always be some without integrity, lacking righteousness, doing things that cannot be forgiven." An elder said.

"Also, what the creatures from the other side say cannot be fully believed!" Another elder added.

"The deaths of my ancestors, the great hatred... has been passed down in my bones!" Dugu Yun said, eyes deep, as if he could see events of the past.

"There are divine consciousness fragments in the golden blood, imprints of my ancestors. I could see the events that happened in the past!" He added.

When everyone heard this, they were all greatly shocked, all of their expressions changing. The protectors' bloodline was astonishing after all, too extraordinary, even able to pass down inheritance in the blood, just too freakish.

They finally understood why the golden blood was so powerful. There was a reason behind it after all, the legends not excessive after all.

"Your ancestors are worthy of respect, even after death, they are matchless heroes. Those people who harmed your ancestors have all returned to earth, it is useless even if we continue pursuing this." An elder advised.

"There are some who aren't dead, and they have descendants who are still alive. The reason I have appeared alive is for vengeance!" Dugu Yun was extremely direct, not hiding anything.

Everyone felt a headache. They couldn't allow anything to happen to this youth no matter what, because this might be the protectors' bloodline.

However, if this youngster wanted to settle accounts, it might involve long life families. Things would become extremely troublesome then!

Even though those things were disgraceful, extremely ugly, they had been buried under time, unable to uncover anymore. At the very least, those long life families wouldn't be willing.

It was rumored that the people back then all died, Immortal Ancient's experts all falling. It was pointless to try and get revenge now.

At this time, an elder walked up, apologized to Dugu Yun, and then produced a divine needle, piercing his skin and obtaining a few drops of golden blood.

The people here were extremely careful. Even if they believed that he was the descendant of the protectors, they still had to verify it, needing direct proof.

There were many records in the bone books, numerous methods to verify if it was this unique bloodline.

That elder withdrew into the rear palace. There were a few others who followed him, wishing to examine the blood together through ancient methods, verify if his identity was real or fake.

Soon after, there was a result. Those elders returned with excited expressions. nOVe/lb(In

"It's real. Several ancient methods were used, and there was no mistake!"

"Please sit!" At this time, those elders all stood up, their eyes burning hot as they examined the protectors' descendant, their attitudes becoming completely different.

These individuals all felt great respect for the protectors of the last great era, so they naturally treasured their descendant. Even if Dugu Yun came from the foreign world, he still had to be treated well.

Apart from this, everyone knew that those who had golden blood were known to be unmatched. Once they grew up, their accomplishments would become immeasurable!

Even when it was in the past when experts emerged in great numbers, the Immortal Ancient Era, the protectors' golden blood was still one of the four most powerful bloodlines!

The elders believed that they had ways to 'correctively influence' this person, have his loyalty return to the Nine Heavens Ten Earths and become an important member in the future battlefield.

Even in the worst situation, they had confidence that they could chant a type of ancient scripture together to 'cleanse' his mind, wash away the foreign world's influence and make his true heart move towards a well-disposed state.

"Do you all wish for me to stand on the same side as you all in battle, fight with you?" Dugu Yun asked coldly. Without waiting for their reply, he directly said, "You all have no chance. Compared to that world, the difference is too great, powerless to withstand against them."

"How will we know without fighting? Do you wish to tell us some of the situation?" Fourth Elder said.

"The creatures of this world are too weak. Forget about the fact that there is no one who can compare to the undying beings, even the younger generation are far inferior to those of the other world." Dugu Yun said coldly.

"Why do you say this? There are a few formidable geniuses who are not weaker than the people of that world!" An elder shouted loudly, purposely inciting Dugu Yun to have him speak more.

"Formidable geniuses? Is there anyone who can take a few moves from me, able to contend against my golden blood? I don't think there are many who can! What is the point of these geniuses, what can they do? They can't compare to the other world's ancient Emperor Clans' youngsters at all!"

#### Chapter 1196 - Destruction

"What do you all think happened? There hasn't been any information for such a long time on the mountain. Is that person really the protectors' descendant?"

There were many students at the bottom of the divine mountain, all of them waiting for the result. It was because their statuses weren't great enough to enter the main hall where the elders were discussing things.

"I believe it is most likely the foreign land's conspiracy. Otherwise, how could they let this type of person return?!"

This was something that everyone realized. The foreign cultivators wouldn't help the Nine Heavens Ten Earths, so they definitely had a motive behind their actions. Everyone had their own suspicions.

On the top of the mountain, inside the bronze building complex, the atmosphere was extremely heavy. The elders' many tries of convincing failed, Dugu Yun insisting on getting revenge for his ancestors.

"After all these years passed, forget about those people back then, even their families and descendents have pretty much scattered. Should just let it go." Second Elder said.

It was because through their discussions just now, he learned that the few clans Dugu Yun mentioned shouldn't belong to the present world's long life families.

Since there weren't that many targets for revenge, the elders didn't have much to worry about either.

"Only, why does his blood turn black?" They bore suspicions. The elders in the rear palace carried out several tests, discovering that it was as the Three-Headed King said.

They frowned, unable to provide any explanations for this. As for Dugu Yun, he remained completely silent, unwilling to reply.

"They are descending the mountain, came out!" The individuals at the bottom of the mountain were all experts, among them no lack of individuals with Heavenly Eyes.

They all saw the individual in Darkness Immortal Gold Armor walk out from the ancient bronze building complex. He didn't wear a helmet, his black hair scattering down. Under the morning multicolored light, his entire being seemed to be bathed under a layer of divine splendor.

"Yi, an exceptional beauty!" Someone cried out with shock.

It was because Dugu Yun was too pretty, his beauty otherworldly, style exceptional, far greater than normal so-called beautiful people.

This produced an uproar, drawing everyone's attention. At the same time, everyone were incredibly shocked. Why did he descend the mountain just like that, no one stopping his movements?

"Wait, he's male, not female!" Someone realized something, crying out involuntarily.

"Ah, he really is male! He's too handsome!" A few young ladies cried out in alarm. This made even them feel ashamed of their inferiority, feeling envious and annoyed.

There were some who sighed, saying, "He has to be the descendant of the protectors, or else how can he have such freedom? Those who have golden blood are destined to be unmatched!"

This triggered a huge discussion, many people's eyes shining as they looked at Dugu Yun, finding it difficult to calm down.

Of course, there were quite a few people who remained clear-headed. There was no way the elders in the academy could truly let him act freely, there were definitely eyes watching from the dark, or else if something major happened, no one would be able to take responsibility.

"Heaven knows if he really is the descendant of the protectors, it might just be the foreign experts taking risks!" There were others who said with a low voice, a bit bitter.

"Does anyone dare exchange pointers with him? See just how powerful the so-called unmatched golden blood is!"

"Correct, this is a good idea. At the very least, we can learn a bit about the creatures on the other side through him, find out how strong they are."

At the foot of the mountain, some people began to discuss among themselves, their eyes flickering with radiance. There were some who were unwilling to accept this, wanting to take action.

However, the way things developed completely exceeded their imaginations. After Dugu Yun descended the mountain, he coldly swept his eyes out, taking the initiative to challenge everyone.

“Even this mess of a group wants to fight against the creatures of the other side, simply delusional.”

His voice wasn’t loud, but it was extremely clear. It transmitted to the bottom of the mountain, many people hearing him.

A few individuals’ expressions suddenly changed, their eyes unkind.

There were even some who directly walked up, using actions to declare their position, blocking his path forward, about to take action against him here.

On the divine mountain, that bronze structure was extremely peaceful, no elders coming out, not stopping anyone, clearly ignoring what was happening here.

“You all don’t want to hear it, and aren’t convinced right? However, this is the reality. Just a group of people with feeble strength! The foreign ancient Emperor Clans’ disciples, just a single person could sweep through all of you!” Dugu Yun became more and more impolite, his voice carrying contempt.

n()σ--ℳ--e./L-/b//1-.n

“Boasting shamelessly, let us see what kind of skills you have exactly!” There was someone who couldn’t hold it in, rushing forward.

“Too weak, you all can come at me together!” Dugu Yun said.

When he spoke, he already raised his palm. His movements weren’t too fast, slowly pushing forward, immediately releasing a muffled sound that was like thunder.

Golden blood energy roiled there, his entire aura became as powerful as a giant peak, grand and imposing, unshakeable. However, his palm still crushed down like a heavenly dome.

Hong!

The one who rushed up coughed out large amounts of blood. He used all of his strength, yet after just the first blow, he was already sent flying outwards.

“Careful!”

In the rear, a few people shouted, moreover taking action to lend assistance, helping him neutralize that wave of power, preventing him from receiving serious injuries.

However, Dugu Yun was just too strong, not stopping, still pushing forward slowly. Strong winds swept about, golden blood energy overflowing, pouring down like a mountain torrent.

Ah...

Those people all cried out loudly. There were at least twenty experts who took action in total, yet in the end, they all cried out miserably, even more people releasing muffled groans, blood coughed out from their mouths, bodies suffering great damage.

The golden blood energy crushed down on them until they felt like they were suffocating. This terrifying youngster was ridiculously powerful, far above them. They weren't his opponent at all.

Dugu Yun only released a single palm, passing judgment from above, defeating and injuring more than ten people. This place immediately became absolutely silent, everyone feeling greatly shocked.

"I overestimated you all. No matter how many of these cultivators there are, it is still useless, a single foreign young supreme being already enough to destroy all of you." Dugu Yun said ruthlessly.

"Again!"

The group of people in the rear were unsatisfied, a few people taking action together, directly spreading a formation to trap him in place.

Unfortunately, this time, they were defeated even faster. Dugu Yun moved, attacking like a ghost, his speed just too fast, only leaving behind a golden afterimage.

Pu!

The group of people all coughed out blood, beaten up until they carried serious injuries, screaming miserably as they collapsed on the spot.

"What a pity, I haven't discovered the families of the past!" Dugu Yun said to himself. He was here to get revenge, wishing to find the descendants of the so-called enemies that were recorded.

"Too astonishing, worthy of being the descendant of the protectors, golden blood unmatched, no one can contend against him!"

At the crucial moment, there were a few young ladies who cried out like this, their eyes fiery with pleasant surprise, immediately making everyone speechless.

"What protectors? He was captured and imprisoned for many years, long erasing the glory of the past. It's difficult to say if he even stands by those from the other side."

"Exactly, just a prisoner, what protectors' grandeur is there?!"

A few people retorted, their words stinging.

Dugu Yun's eyes were cold, disappearing from his original location with a shua sound. Several people's bodies split apart, almost dying on the spot, their flesh rupturing open.

This left everyone shocked. Those who were discontent all held back, or else they would definitely be suppressed.

"Hurry and invite Lu Tuo, Wang Xi, have them take action!" Someone said quietly. They felt wronged after being injured so easily by this youngster, feeling like they lost face.

"Yi, Huang came down the mountain, he's here! We can ask him to take action!" Someone saw Shi Hao descend the mountain.

"Brother Shi, we must ask you to take action, suppress this person of unknown origins!" Someone shouted.

“What nonsense, this is the descendant of the protectors, the elders already verified it.” Shi Hao said, his pace unhurried as he descended the mountain, looking extremely relaxed, without any intent to take action.

He sympathized with the protectors’ bloodline, unable to raise any battle intent towards this youngster. His experiences were a bit lamentable, only making one sigh, difficult to comment too much.

“He is going too far, incredibly egotistical, looking down on our Heavenly Deity Institution, his actions vicious. Brother Shi, please take action to establish public justice!” Someone shouted.

Right at this time, Dugu Yun also looked at Shi Hao who was halfway up the mountain, saying, “Are you that strong? Come over and fight!”

Shi Hao gave him a look. He naturally didn’t fear a fight. Right now, he possessed unmatched conviction, not fearing any young opponent.

“Mo Dao, fight against him!” Shi Hao ordered. Right now, he was already in the Heavenly Deity Realm. Even when facing supreme individuals with three strands of immortal energy, he still had the qualifications to remain calm.

Mo Dao descended the mountain. Three great dao flowers appeared above his head, his entire aura surging. He really wanted to size up how strong this individual who had golden blood was.

“Compared to your older sister, you are still lacking. She is a heaven warping figure who even left the Emperor Clans shocked, but you... are not my opponent!” Dugu Yun said.

Mo Dao was immediately stupefied. Producing dual supreme beings was their clan’s greatest glory, rarely seen since ancient times.

In reality, his older sister was even stronger, brought away by the undying beings into an imperishable pure land, cultivating together with an ancient Emperor Clan’s people.

“You’ve met my older sister?” Mo Dao asked. He hadn’t seen her for a long time already.

“I have. All the true heaven warping creatures I have met!” Dugu Yun said.

Right at this time, Lu Tuo, Wang Xi, Xuan Kun and the others appeared. When they received the news, they personally hurried over.

In reality, they had been waiting for news all this time, just that because they were more reserved, they didn’t wait at the foot of the mountain. Now, they all hurried over.

Lu Tuo, Yao Yue, Ten Crown King, and the others were Heavenly Deity Institution’s most powerful geniuses, far more powerful than the ones who took action just now, the auras they released swept out like a bottomless sea.

“Good, I don’t have to personally seek you all out. Who dares fight against me?” Dugu Yun said. This made everyone look at each other in dismay. He really is crazy, is he going to challenge all of the young supreme beings?

“Then let’s just start from you!” Dugu Yun stared at Xuan Kun.

Hong!

A great battle erupted just too abruptly, not too many words exchanged, nor was there much vocal exchange, directly starting.

Dugu Yun rushed over, forming golden magical imprints that covered the sun and moon, shaking the rivers and mountains, aura too ferocious, simply about to overturn heaven and earth, suppress Xuan Kun with an attitude of being unmatched.

“Good, let’s see just how formidable the supreme individuals of the foreign land are, compare with those so-called Emperor Clans!”

Lu Tuo and the others who were watching behind spoke quietly, believing that Dugu Yun shouldn’t be weaker than the foreign Emperor Clans.

However, soon afterwards, their expressions all changed, because the battle situation was changing greatly. Xuan Kun wasn’t a match, becoming seriously injured, blood flowing out from his mouth and nose, body staggering.

Xuan Kun was defeated!

Dugu Yun displayed unmatched divine might before everyone’s faces, golden blood energy circulating, making even his hair become golden, his entire aura devouring mountains and rivers.

He originally had a beautiful appearance, but now, he looked heroic and intimidating, possessing a type of exceptional style.

Pu!

Blood continuously sprayed out from Xuan Kun’s mouth. He was blasted back, first suffering a palm, and then a foot kicked against his body, making it crack apart and fly outwards.

This battle result left everyone shocked.

Was this the protectors’ bloodline, someone with golden blood? He possessed unmatched might after all! Was this power going to sweep through all of Heavenly Deity Institution?

#### Chapter 1197 - Sacred Envoy

Xuan Kun was defeated, struck until he was seriously injured, blood dripping onto the ground, making everyone turn pale with fright. This type of young supreme being was defeated just like that.

What kind of person was Xuan Kun? He was a heaven warping figure who cultivated three strands of immortal energy, his strength powerful, just how many people from Heavenly Deity Institution could match him?

It could be said that winning against him was too difficult. Once three strands of immortal energy emerged, they were invincible, crushing all enemies.

This place was still quiet even after a long time, not the slightest sound could be heard. This type of result left everyone stupefied. Xuan Kun suffered a great defeat here, making many people look at each other, completely speechless.

After a bit of time had passed, only then did everyone snap back to reality, a great uproar erupting.

“Xuan Kun was defeated, not a match for the protectors’ descendant! Is the golden blood truly enough to make one unmatched?”

“A young supreme being who cultivated three strands of immortal energy was suppressed here today, suffering the first defeat of his life!”

Even though this battle didn’t continue for that long, it was incredibly dangerous, both sides using extraordinary methods, all great divine abilities, but the results could be said to leave long-lasting effects!

Everyone couldn’t help but start to question themselves. Were the foreign creatures really that frightening?

It was because Dugu Yun had previously said that there were ancient Emperor Clans there, young disciples who were ridiculously powerful, able to sweep through all of the geniuses here.

Xuan Kun suffered a great defeat, proving this saying.

This dealt a great blow to everyone’s confidence. They were all heaven warping disciples, but they suffered a great setback here, feeling helpless under his contempt.

It was because Xuan Kun was one of their most powerful individuals, yet he was still defeated, so how were the others supposed to face him?

“Next, is there anyone else who is going to take action?” There was a layer of gold around his body, making him look like he was cast from divine gold, his body shining resplendently.

Right now, forget about the others, just Lu Tuo, Wang Xi, and the others didn’t act rashly, because this person was extremely powerful, a true formidable opponent.

No one was willing to fight under this type of situation. If they were defeated, having the same result as Xuan Kun, what face would they have left?

“No one?”

This place was quiet, everyone looking at each other in dismay, discovering that none of the academy’s powerful individuals were willing to fight with him, all of them feeling shocked.

They all sensed that the things that took place today were strange. This was the descendant of the protectors, and with just today’s battle, he already rose, up, establishing an unmatched reputation!

In the distance, there was a great disturbance, as if some things happened.

At the mountain gate of Heavenly Deity Institution, there was someone who came to visit, raising quite the commotion.

“Sacred Academy’s envoy has arrived!”

In the distance, this type of voice sounded, these news naturally producing quite the disturbance. There had long been rumors that Immortal Academy and Sacred Academy's people were going to come, but none of them thought that it would be today.

The clamoring sounds got louder and louder. There was clearly a group of people who were hurrying over to this place.

Soon afterwards, they saw a youth who was extremely valiant looking. A violet-gold helmet rested on his head, his body covered in Flood Dragon robes, on his back a bronze heavenly spear. Purple hair fluttered about, eyes like divine lamps, bearing extraordinary!

This was an extremely frightening youngster, all those who saw him would feel startled by his intimidating presence, that naturally exuded aura was too astonishing.

When one stood with him, it would feel as if they were accompanying a prehistoric giant beast!

"Who is Huang, who is Shi Hao?" This young man asked.

He wasn't all that friendly, his face carrying indifference. His eyes swept over everyone, incredibly intimidating, carrying a type of arrogance and conceit as he coldly overlooked everyone.

Who was he?

Everyone began to feel a bit doubtful inside. This person was actually this rude. From his proud appearance, it didn't look like he was here to pay Shi Hao a friendly visit, but rather to look for trouble.

"Where is Huang?" Another person's voice sounded.

Many people were stunned, because the voice they heard was familiar, as if they had heard it before somewhere.

Everyone searched about, looking in the direction where the sound came from.

"Yuan Hong!" There were some people who were stupefied. Why did he return? However, soon afterwards, they had their guesses.

Yuan Hong came to Heavenly Deity Institution not long ago, behaving extremely arrogantly, demanding for Shi Hao, wanting to criticize him violently, but was beaten up until his bones broke and muscles snapped, receiving serious injuries.

None of them expected him to come back so quickly!

"Where is Huang? Get your ass out here!" Yuan Hong shouted.

He was Yuan Qing's son, his status extraordinary, but not long ago, he suffered such a great humiliation in Heavenly Deity Institution, beaten up by a youngster until all of his bones snapped and was then thrown out.

He came because of Yuan Feng's death, but in the end, he himself was also humiliated, unable to swallow down this shame. When he left, he directly met up with Sacred Academy's envoy, thus returning again.

It was because he already knew that those two academies were going to send people over, knowing their itinerary.

"Isn't this the Yuan Clan's expert who had his teeth smashed all over the ground? The academy's elder had someone throw you out, yet you dare return?" Someone mocked.

It was naturally Cao Yusheng, Feng Wu, and the others who were hiding in the dark and transmitting sound, allowing many people to clearly hear them.

Yuan Hong's face was unpleasant, turning from red to purple, fists clenching tightly. This was naturally a type of mockery and humiliation directed at him, but he had to explain himself. Otherwise, the academy's elders really might come to chase him out, and that would make him look even worse.

"I came with Sacred Academy's envoy!" Yuan Hong said.

"Haha... truly laughable, an old man was beaten until he was looking for his teeth all over the ground, yet his reinforcements was just a brat, truly shameful!"

"You should have asked your father Yuan Qing. Did you invite a youngster to rely on? Haha..."

Cao Yusheng, little rabbit, and the others were tormenting him, secretly mocking.

"All of you better shut up!"

The Sacred Academy envoy with the violet-gold helmet berated. His pupils that were like golden lamps released two streaks of electricity, overlooking everyone, extremely domineering in nature.

"Where is Huang? Come out to meet me!" He shouted.

Halfway up the mountain, Shi Hao's figure was walking down leisurely, extremely relaxed. When he arrived at the foot of the mountain, he said, "What is all this noise? If there's something, then just say it."

He naturally knew that the other party came with bad intentions, carrying great hostility against him. He could sense it.

They all said that Yuan Qing had connections with the two academies, and now, it seemed like those connections were displaying some use. Now, his child Yuan Hong actually came while accompanied by Sacred Academy's envoy.

"Huang!" Yuan Hong said loudly.

"Come over and talk." The envoy who wore the violet-gold helmet beckoned over, speaking like this to Shi Hao.

This type of casualness seemed like he was summoning someone, as if an elder was instructing a descendant, incredibly piercing and oppressive, not caring about Shi Hao's present status at all.

"Who are you? If you have something to say, then just directly say it. If you want me to come over, you still don't have enough qualifications. If you want to meet me, then come over yourself." Shi Hao said.

“Do you think your bit of accomplishments are enough to look down on us? I heard that you are a genius, so I wanted to properly lecture you, but in the end, you actually refused, bringing upon yourself an even worse situation, so I’ll give you a bit of a lesson!”

While speaking, that person directly rushed up, decisively taking action against Shi Hao.

Everyone rose up in commotion. Sacred Academy’s envoy was actually going to fight against the present Shi Hao!

Shi Hao’s face naturally sunk, this person actually treated him with rudeness again and again, acting like he was an older generation individual, as if he really was all that.

“Move, all of you get lost!” While speaking, Sacred Academy’s envoy already rushed over, not waiting.

Along the way, he couldn’t help but see Dugu Yun standing by the mountain, not knowing that he was the descendant of the protectors, unaware of what had just happened.

He rushed over just like that, even lashing out towards Dugu Yun in the way, reaching out his hand and fiercely striking out, about to send that ridiculously handsome male flying.

Peng!

Dugu Yun moved, grabbing his fist with a single motion, leaving behind a string of afterimages, his movements as fast as lightning.

“Courting death!” Sacred Academy’s envoy cried out, activating divine force to suppress the other party.

The one standing before him was completely different from what he had imagined. He wasn’t just a bystander, but a frightening expert who cultivated year in, year out in the other world.

The emissary coughed out large amounts of blood just from the first exchange, his entire body flung out.

It was because he underestimated the other party too much, facing someone who had unmatched golden blood energy. Right now, he could only dodge.

“Sacred envoy!” Yuan Hong shouted from behind.

At the same time, Shi Hao also took action, because he saw that Sacred Academy’s envoy just happened to be heading in his direction.

“Kill!”

Sacred envoy released an angry shout, because he also saw Shi Hao. He was flung out, perfectly heading in that direction.

He began to display a great divine ability!

From his body, streak after streak of symbols lit up, his fingers becoming brilliantly colored, bone texts covering them densely, attacking at Shi Hao viciously.

Hong!

At this time, something similar happened. Shi Hao had long gathered enough power, Reincarnation Divine Ability blasting out, brilliant symbols burning brilliantly.

Peng!

Sacred Academy's envoy flew out. This time, he underestimated his opponent again, actually fighting him head-on. It was because after he was struck by Reincarnation, he immediately became older, becoming incredibly weak.

Shi Hao chased after him, moving as fast as lightning, a foot immediately kicking out.

Pu!

This envoy was actually extremely powerful, an outstanding individual even among the younger generation, but now, he suffered from the Reincarnation symbols, quickly declining. Then, a foot smashed into his body, making him cough out large amounts of blood, dying his white hair red.

Sacred envoy was sent flying, his body dropping forward. Meanwhile, Dugu Yun was perfectly there. Without even thinking further, he added another palm.

Peng!

The envoy's body cracked apart. After suffering from such a serious strike, and then being smashed flying, blood began to flow from his seven apertures, a lot of it produced from anger.

This was just too tragic. He was about to act domineeringly, yet in the blink of an eye, he was seriously injured.

"Why did you come again?" This was Shi Hao's voice, because the sacred envoy was slapped back.

Without saying another word, Shi Hao directly lifted his feet, forcefully kicking out. Sacred envoy roared out, but was sent flying forward by another kick.

"You actually dare to do this! He is someone Sacred Academy sent out, a sacred envoy!" Yuan Hong shouted.

"Why do you care what I do?" Shi Hao laughed coldly. He had long descended from the mountain, rushing over.

The pitiful sacred envoy was in front of Dugu Yun and Shi Hao, beaten until he flew back and forth. It was because the two of them indirectly exchanged moves, weighing each other's strength. He was extremely unlucky, rashly breaking in, now becoming a dummy for the two to share.

Pu!

Eventually, the sacred envoy who came extremely arrogantly and domineeringly completely fainted. This could also be considered a type of freedom.

Hong!

In the end, after the sacred envoy was thrown onto the ground, a great clash erupted between Shi Hao and Dugu Yun, the two of them continuously trading several blows, each time making the heavens collapse and the earth rupture.

“You are quite strong!” After trading several palms, Dugu Yun’s golden blood energy surged, saying like this to Shi Hao, the first time he spoke these types of words.

“You are passable as well.” Shi Hao replied.

The pitiful sacred envoy quickly woke up, just in time to hear their conversation, angered beyond belief as a result. The two of them were exchanging blows, so just now, he was just treated like a beanbag?

Peng!

Dugu Yun raised his foot, smashing it down, the sacred envoy directly fainting again.

“With this type of skill, do you dare fight against the members of the Emperor Clan?” Dugu Yun asked

“Why wouldn’t I dare? If they are brought before me, I’ll suppress them all!” Shi Hao replied.

#### Chapter 1198 - Realm Tomb Destination

The two powerful individuals fought intensely, sand and rocks flying everywhere, mountains swaying about, many giant boulders flying about chaotically.

One had to bear in mind that the region Heavenly Deity Institution was located at was previously a battlefield with unmatched experts that fought here, immortal swords weaving about, cutting down the stars in the sky. There were countless meteorites on the ground, piling up into a sea.

In this place, the ancient mountain range was terrifyingly tall, giant boulders everywhere!

Only, later on, there was someone who refined it with great magical force, refining all of the stars. The mountain rocks became small, making the landform look normal.

However, there were many stone mountains and ancient lands that were still special, exceptionally bold and powerful looking. A few mountains were terrifyingly heavy, because they were produced from meteorites. Even after being refined, looking normal, they were still many times heavier than ordinary boulders.

Right now, sand and rocks flew about, the earth shaking and mountains swaying, it was naturally astonishing, because from a certain perspective, meteorites were dancing about, moving through the air.

When normal people fought, they wouldn’t reach this type of state at all, it was too astonishing!

This region was especially unique, the giant rocks having a metallic luster, clearly produced by great stars that were hacked down back then!

In the past, sword immortals roared into the heavens, sword cutting down the skies, stars falling like potstickers, it really shocked the heavens above and earth below, the entire world trembling.

Hong!

Dugu Yun's entire body surged valiantly with golden blood energy, roiling outwards, golden light shining resplendently, as if an ancient War Immortal walked over from Immortal Ancient Great Era, powerful and unmatched.

One could vaguely see that giant rocks and the other things floating around him turned into great stars, releasing stellar light one after another. They were forced forward by him, suppressing towards Shi Hao.

Everyone was stupefied. This type of boldness and irregular scene really was endlessly terrifying. His two hands moved the sun, moon, and stars with every action, just how shocking of a scene was this?!

Dong!

However, Huang didn't take a step back, his aura deep and immeasurable like a sea. He faced it head-on, his divine might unstoppable, clashing with Dugu Yun.

His fist formed imprints, possessing an unmatched domineeringness!

Kacha!

Huang was brandishing his fist, bringing about sky-covering symbols, as if millions and millions of streaks of lightning were interweaving, surrounding the skies, covering all directions, endlessly frightening. In his surroundings, the great stars that flew over all exploded, the meteors splitting apart!

Following a dang sound, the largest green-gold boulder was smashed apart by his fist, a fragment as large as a house directly smashing down on a place not too far away.

Sacred Academy's envoy was still unconscious. While still fainted, this giant boulder smashed into his body, his body involuntarily twitching.

It was because it looked like a piece of green-gold rock, but it was comparable to a meteor that crashed down from outer space, blasting him until his flesh was badly mangled, muscles and bones broken.

"Ah..." in the end, he woke up from the pain, this scene making his eye sockets feel like splitting. He was trembling inwardly, this result truly unendurable.

When had he ever suffered like this? The humiliation today, suffering this type of disaster made him so angry he found it difficult to snap back.

"You still aren't hurrying and bringing me out of here?!" He roared towards Yuan Hong.

Yuan Hong suppressed a wave of anger, quickly rushing over. His status was not ordinary either, but that was relative to who it was compared to. When faced with Sacred Academy's disciple, even if he felt anger, being berated like this, he still couldn't act out.

It was because this time, he came precisely to borrow Sacred Academy's might, and that was why he followed this envoy here.

Honglong! *novel* **/b/** In

Not far out, a faint golden boulder smashed over, something Dugu Yun smashed over, smashing towards this direction again.

Yuan Hong flung his sleeve, directly blasting it apart. He actually really wanted to kill those two youngsters who didn't put him and the sacred envoy in their eyes, but he didn't dare, because this was Heavenly Deity Institution, a place with elders overseeing it.

Yuan Hong had sect master level strength, but he actually had his hands tied here, making him feel vexed.

Hong!

On the other side, Shi Hao and Dugu Yun's battle reached its climax, leaving the crowd absolutely shocked. They never expected these two would be this frightening, far exceeding their imagination.

"Is that the power the golden unmatched blood brings? It is too strong!" Someone said with a sigh.

Golden blood energy surged, the aura frightening, everyone feeling so much pressure to the point where they found it difficult to breath. The surrounding meteorite rocks were crushed to pieces, everyone trembling inwardly.

Meanwhile, the other youth didn't seem to be affected at all, still moving boldly, fighting intensely against the one with golden blood, incredibly powerful, continuously attacking, gradually advancing.

"Huang is too formidable! When faced with the inheritor of unmatched blood, he can actually remain this calm!"

At this time, Dugu Yun moved aside, not taking action anymore. He pulled open a distance and said, "You are quite strong, and also rather special."

Are you admitting defeat?" Shi Hao's skin was extremely thick. He didn't even suppress the other party, yet he already believed himself to be the victor.

Dugu Yun didn't get mad, saying, "You have the qualifications to fight against the foreign Emperor Clan's members."

"Not just a single fight, I'll defeat them all!" Shi Hao laughed loudly.

At this time, elders appeared one after another from the bronze building on the mountaintop. They didn't wish for the two to continue fighting either.

"Yuan Hong, you have already been driven out. Why do you still dare enter the academy?" Fifth Elder shouted.

Yuan Hong's face immediately became pale. He opened his mouth, feeling terrified inside. No one understood better than him how frightening these old fellas were.

"Elders, please do not get angry, he came to show me the way. I am sacred envoy's emissary." That youth said. Right now, he was in an extremely terrible state, half his body smashed apart by a meteorite.

"You, come up the mountain and then tell us." Fifth Elder pointed out. A streak of light shot out, sweeping around him.

Then, Fifth Elder waved his sleeves, swinging it out with a hong sound. It was as if the skies collapsed, crushing down, immediately blasting Yuan Hong until his bones snapped and muscles tore, blood flowing from all seven apertures. His body then flew outwards.

Everyone sucked in a cold breath. Yuan Hong was but a powerful expert! However, before the elders, he was actually this weak.

“Throw him out of the academy. If he dares enter again, he will be executed without exception!” Fifth Elder said.

Shi Hao walked up, kicking Yuan Hong as he moved, on his face a smile.

Yuan Hong’s face immediately became green. It was actually this brat who received the orders to throw him out again. His mind was trembling, but he was absolutely helpless. It was because he was almost ruined by Fifth Elder, powerless to resist.

Soon afterwards, a miserable scream sounded from Heavenly Deity Institution’s entrance. Everyone looked at each other in dismay, many of them running out to see what was going on.

From the distance, they saw Shi Hao took action, almost skinning the heavily injured Yuan Hong alive. He broke all of his bones, and then looted all of the magical artifacts, pill medicines, and all types of treasures on him clean.

Yuan Hong only had a breath of life left, laying in place for three days, and only then did he leave.

If not for the academy’s elders giving the order not to, Shi Hao would have directly cut him down here to end the trouble here.

The sacred envoy left behind a letter, and then left in a sorry state, this journey really losing him too much face.

Several days later, Dugu Yun went on his way, personally escorted by two elders to Origin Ancient Mine, producing quite the commotion. Everyone were speculating what he was going to do.

Half a month later, news came back that something unusual happened in Origin Ancient Mine.

“Heavens, the descendant of the protectors entered that ancient mine, staying there several days at a time, and in the end, was swept out by black blood!”

This triggered an uproar, everyone in Heavenly Deity Institution shocked.

After Dugu Yun entered Origin Ancient Mine for several days, black-colored blood appeared from the mine, unexpectedly like an underground spring, gushing out from the ancient mine’s entrance, shocking the world.

Dugu Yun was unharmed, coming out with the black blood, his face pale, not saying a word. No one knew what he saw, what he was thinking.

After he came out, the ancient mine became calm again, the black-colored blood withdrawing. However, the fishy smell only disappeared after several days.

Just what kind of mysteries did the ancient mine carry? Why did black-colored blood appear? Does Dugu Yun know some kind of great secret? Everyone was making their guesses. They couldn't help but think of Three-Headed King's words.

It was because the Three-Headed King had previously mentioned Origin Ancient Mine. In the last great era, there was black blood that was also dug out from the ancient mine, and now, it was proven true.

Wuwu...

A flame rhinoceros bugle horn sounded, the heavy and oppressive noise coming from another world, carrying an ancient feeling. A silver-colored warship that was tens of thousands of zhang long rushed through the heavenly dome, flying towards the altar suspended above Heavenly Deity Institution.

"Destination -- Realm Tomb!" Second Elder personally led the way, guiding this group of genius to search for immortal seeds, to achieve their own great dao.

Now only were Shi Hao, Wang Xi, Lu Tuo, Ten Crown King, Yao Yue, and others all here, even Dugu Yun was here, going to enter Realm Tomb with them.

"Hey, what did you see inside Origin Ancient Mine? Why was there black blood that poured out?" On the warship, Shi Hao asked Dugu Yun, and only someone like him would act so carefree, chat so casually with someone he had fought with.

Dugu Yun's face was handsome, his hair glossy and sleek. His mouth was closed, not saying anything.

The altar shone, the silver-colored warship immediately becoming indistinct in the void. Then, they disappeared from this place, heading towards the so-called 'World Grave'.

"Hello? Why are you like a closed gourd? What did you see exactly? Let's talk about it." On the warship, Shi Hao continued to stubbornly ask.

Even though the others didn't say anything, they all had their ears open, secretly paying attention to these two.

Dugu Yun finally spoke, saying, "If you have that much free time, then you should preserve your strength to deal with Realm Tomb's dangers. Who knows, you might have your wishes fulfilled, fight against a member of some ancient Emperor Clan."

"What? The foreign creatures can appear there?" Shi Hao was quite shocked.

"As long as you dare enter, then who knows, you might encounter an Emperor Clan member who was trapped there from the last great era!" Dugu Yun replied.

At this moment, forget about Heavenly Deity Institution's students, even the elders were shocked.

"You're sure about this?" Shi Hao asked.

"Back then, my ancestors personally led those people to the Realm Tomb, so I am naturally sure. Moreover, I believe that the great army is still alive, to the extent where they might have even left behind descendants." Dugu Yun said.

He was extremely unconvinced, feeling anger inside. His ancestors had paid too much, viewed as protectors, yet were plotted against by those on their side in this world.

“What? There was this type of event? We have to take our time to think things over, definitely have to advance cautiously!” Even the elders were greatly shocked. This wasn’t the first time they came, yet they never heard about this before.

Everyone knew that this trip will likely have a few strange things happen.

Realm Tomb, that was the grave of the world. There were ruined ancient cosmos one after another, in complete chaos. No one knew just how many secrets this place carried.

Back then, there were previously people who found a World Tree here, moreover able to bring it out.

There were others who discovered a cosmos seed, able to plant it within their bodies, their accomplishments unmatched, great dao perfect.

#### Chapter 1199 - Damaged Cosmos Seed

Secluded and quiet ancient land, ruined great world, withered pure lands, this was a mysterious and sinister strange place.

The silver warship moved through the endless cosmos, as if they traveled through decades or over a century, the warship’s body full of time traces, mottled rust stains, experiencing the baptism of time.

Everyone discovered this abnormality, all of them becoming shocked. What happened along the way?

Not too long ago, many of them felt absent-minded, their minds weary, becoming drowsy, as if they had experienced a great sleep. Then, they made their way out from a place of nothingness.

The silver warship shone. There were powerful symbols on its surface, extremely concentrated, shaped like a screen of light. Even though this was the case, the warship was still corroded.

One could imagine that if not for them traveling on this warship, with powerful symbols protecting them, just what kind of frightening things everyone would experience.

This place was extremely desolate, everything ruined as far as the eyes could see. Enormous stars rested one after another, but they were all damaged, many of them only having half left, but they were still moving about.

The warship moved forward. In the duskiess, one could see ruined ancient continents one after another. They laid there, many great stars slowly moving around above.

The dusky space gave everyone great pressure, making this place seem extremely strange, unknown what kind of things happened. This place was deathly still.

“This is the Realm Tomb?” Everyone on the warship revealed strange looks. It was too quiet, many ancient earth resting about, all of them gathered together.

“This is merely the Realm Tomb’s borders, can’t be considered the true World Grave.” An elder said. After arriving here, their expressions all became serious, not daring to show the slightest trace of carelessness. n-/Ov**Lb1**n

Suddenly, a strange sound transmitted out, as if sand was moving about. Even though it was light, it was extremely clear, sounding from the limits of the distant world.

Several elders raised their heads, their faces couldn't help but reveal shocked expressions. The students with Heavenly Eyes also looked out, gazing into the dusky space's depths.

"There is sand moving about in the void!"

Everyone was shocked. That was an expanse of sand, pure white and sparkling. They didn't land on the continents, untainted by the world of mortals, flowing through the sky just like that.

If one only gave it a hurried glance without looking at it carefully, one would think that it was a river, incredibly beautiful and shocking.

There wasn't a lot of sand, only ten zhang in area. It formed a translucent and lustrous expanse, surging over just like that, making anyone who saw it feel that it was beautiful, producing a good feeling.

Only, in that instant, the expression of Second Elder who led the way immediately changed, as if he was looking at something extremely frightening. He shouted, "Hurry and leave!"

What was that? Many people wanted to ask what it was, to make even Second Elder lose his bearing.

The other elders revealed a strange look. They didn't truly see through what that was, but they didn't stop, quickly taking action, stirring the warship away from this place.

The students on the warship were confused, their faces full of bewilderment and surprise, turning around to look in that direction.

Soon after, they were all petrified, all of them becoming shocked. Those grains of sand scattered, covering heaven and earth.

Every single grain of sand was brilliant. When they scattered, the surrounding stars trembled, difficult to imagine just how heavy they were!

It was just a grain of sand, but they were even heavier than great stars! After they scattered, gentle light was released, blasting all of the damaged stars aside.

Then, they began to transform, every single one of them becoming a world, continuously changing. Sometimes, they were full of exuberant life force, sometimes lifeless, to the extent where many creatures even appeared.

Eventually, the sand went crazy, the snow-white grains shooting over from the skies, becoming completely different from the previous peaceful and auspicious scene.

Hong!

In that expanse of the void, many great stars were currently moving about, as long as they were struck by a grain of sand, they would explode on the spot. The scene was just too grand and shocking.

Bright and dazzling light surged again and again, this light produced by stars exploding one after another.

“Heavens, what is this white sand? Why is it so terrifying?” On the warship, many students cried out in alarm. Just now, if they were a step late, wouldn’t they have all died?

Within the ten zhang expanse of white sand, heaven knew how many grains of sand there was inside. If they smashed into the warship, it truly was a result too horrible to imagine.

The warship quickly moved into the distance. Everyone could only get a hurried glance. They could vaguely see the pure white sand gather together, and then flow like a stream into the distance.

“Elders, what was that?” A student consulted Second Elder.

Meanwhile, at this time, the expressions of the other elders became unpleasant, as if they realized what that was.

“Damaged cosmos seed!” Second Elder replied, telling them the answer.

“It was that type of thing after all! It is even more frightening than the rumors. I never expected it to be like that!” The elder on the side said. Even those as powerful as themselves who had extensive knowledge had never seen this thing before.

“Cosmos Seed?” Quite a few people were shocked, revealing hopeful and expectant looks. They came to Realm Tomb precisely to search for immortal seeds, and Cosmos Seed was one of the most precious seeds.

“Don’t get your hopes up, this kind of seed can’t be used, long damaged. The long life power stored within leaked outwards, condensing much of the terrifying power in this heaven and earth, no one able to hold it.” Second Elder warned.

This kind of seed couldn’t transform, only carrying mottled and complex power, accompanied by destruction, lacking the possibility of growing a step further.

“Under certain conditions, it can also turn into an expanse of heaven and earth, the so-called pure white sand becoming stars, producing a boundless heavenly space.” An elder said.

However, Second Elder then added, saying, “It is extremely unstable, difficult to say when the world it produces will collapse. When that time comes, everything would fade from existence.”

Everyone gave up. Even if there were immortal daoists to help them, no one dared to take this kind of thing inside to nurture. If they did, who knew, the day might come when they might explode as well.

“Wu, this expanse of sand is extremely special, pure white in color, and its power is extremely great. It should have carried out a demon sealing!” Second Elder said.

Demon sealing? Everyone was confused. What was this?

“There were people who previously used great magical force to make it yield, treating it like a weapon, sealing an immeasurable expert, refining that individual in the sand. As the years passed, the flesh and blood of the figure sealed within grinded against the sand, turning all of it into this color. It is just like an old clam carrying pearls, the flesh and blood grinded together, forming divine pearls.”

When Second Elder's words fell, the other elders' eyes all became brilliant, all of them revealing different looks, expressions of shock appearing.

"Actually this kind of thing. Doesn't this mean that it is already a supreme treasure?"

"Once this type of thing is gathered and refined, it can become unmatched precious artifacts!"

When the students on the warship heard this, they were even more shocked.

"Shouldn't get your hopes up. Even though it is precious, it is extremely dangerous, might murder their owner at anytime, extremely unstable, hard to say when it might explode to continuously absorb flesh and blood power." Second Elder said.

In short, this thing looked pure and holy, but it long carried a type of demonic nature, not something that could be touched.

The warship advanced, more and more great stars appearing in the surroundings. There were ancient continents that appeared one after another as well just like leaves in a forest, ever-present, layer after layer coming into view.

They quickly advanced, heading towards the Realm Tomb area ahead.

Only when blurry mist appeared, a small amount of primal chaos mist emerge, did the elders on the warship tell everyone that they now truly entered Realm Tomb.

"Only now could they have considered to be in Realm Tomb? Everyone was shocked. None of what they saw up to here could be considered part of it? It really was hard to imagine what there was inside the true Realm Tomb.

Primal chaos appeared, as if an expanse of immortal mist scattered. The warship rushed past, entering the boundless 'ancient tomb'.

"Heavens, what exactly is all of this?" Someone cried out in alarm as soon as they entered.

They saw a withered up ancient tree that was who knew how large. Even when they gazed forward with heavenly eyes, they could still only see a blurry outline.

There were countless great stars on its branches, as if they were fruits. However, they were all withered up, lacking life force, only carrying deathly stillness.

Apart from this, on this great tree's branches were countless black holes, as if it suffered from a disease, forming wormholes that didn't close.

An ancient tree produced this many 'star fruits'?

"Don't tell me this is a World Tree?" Someone cried out in alarm, eyes revealing shock. If it was this type of tree, then even after it died, it would still be priceless. Its branches, trunk, roots, and other things were all great treasures for refining weapons.

"No, if it was a World Tree, it would have long been brought away by the unmatched experts who visited this place. How could they leave such a thing before?" An elder said.

Meanwhile, this ancient tree was just a corner of what they could see. The scene in the distance was even more vast and majestic.

"It's not a World Tree? Then what is it?" Someone asked.

At this time, someone suddenly cried out, face becoming pale. He pointed forward, saying with a shaking voice, "Over there..."

There was a green and lush plant that looked like a tree, but there were many grass-like leaves. Its leaves were nibbling away at the stars, continuously devouring them.

#### Chapter 1200 - Inside Realm Tomb

The tree had grass-like leaves, sucking all of the nearby damaged stars over to its surface, releasing a green light as it devoured them.

This scene naturally left one horrified. These were enormous stars, but they were eaten by a strange grass just like that, truly freakish.

It was just this sinister inside Realm Tomb, full of mysteries. Everything they saw or heard made their heartstrings stretch taut.

Kacha!

Sounds of stars shattering were produced, accompanied by dazzling light. There were some stars that directly exploded, but all of the radiance quickly receded, devoured by the grass leaf.

"These are Star Devouring Grass, they specifically use stars as food. Whenever these types of things appear, the results would be extremely terrible!" Second Elder's knowledge was vast, immediately recognizing what this was.

Star Eating Grass, it grew in the chaos, a type of innate divine existence. However, it didn't awaken a consciousness, acting completely on instinct.

In this world, there were matchless great experts who could open up a space in the primal chaos, create damaged worlds and revive all things, turning them into a pure land for life.

Normally speaking, Star Eating Grass only appeared when immortal kings opened up damaged worlds, letting them out. After all, these creatures were rarely seen even in primal chaos.

When the academy's students understood these things through the elders, they all became stupefied. Apart from their world, worlds could still be opened up like this?

"Too powerful, unbelievable. This is to say that outside of our world, in the primal chaos, there might still be other world earth in existence?" Someone asked.

"Those are only damaged worlds, cannot exist for a long time. Perhaps in a few tens of thousands of years, or hundreds of thousands of years, they would collapse, because they aren't true great cosmos after all." Second Elder shook his head.

Even though the areas that were opened could be extended for a bit longer, they would still collapse in the end, leaving nothing behind, to the extent where it would even involve its creator, directly leading to the death of body and dao.

Everyone couldn't help but become frightened, all of them revealing contemplative looks as they looked at Realm Tomb. Could it be that this was the result of ancient realms that ultimately collapsed?

An elder directly rejected this notion. This place was definitely not like this. The origin of Realm Tomb was even more mysterious and frightening than what they were imagining, because not even the previous immortal daoists who had constantly been researching it knew the answer.

"That ancient tree is a branch that was removed from the World Tree. An immeasurable amount of heaven and earth essence was used to nurture it and make it produce roots, all done in hopes that it could be nurtured into a supreme treasure."

Soon afterwards, Second Elder pointed towards a dry and shriveled ancient tree. There were many 'star fruits' on it, the scene mystical.

"It was cultivated into a true World Tree?" Princess Yao Yue cried out in alarm.

"No, it was cultivated into a demonic tree. There is no way a World Tree can be nurtured like this, needing to evolve naturally. There was an unmatched devil who wanted to refine this spiritual root into a demonic artifact, grasp the sun, moon, and stellar streams, seize the force of heavenly space." Second Elder said.

When everyone heard this, they were all stupefied. They couldn't help but sigh, everything they saw truly unfolded on a great scale, involving celestial bodies at every turn.

Meanwhile, they were as insignificant as ants. When compared to these things, they were like specks of dust, completely negligible.

"Unfortunately, it all failed, the vital energy scattering, only leaving behind remains. The one who nurtured this tree back then was also merged into the tree, long having his body and dao erased." Second Elder said.

"The Star Devouring Grass is coming!" Lu Tuo shouted. That stalk of grass was too strange, even able to directly devour stars, let alone them. They could only withdraw.

Fortunately, it didn't have its own will, relying purely on instincts, so it wasn't a disaster that couldn't be avoided.

Otherwise, this type of innate divine existence born from primal chaos would definitely be extremely frightening, only peerless experts able to make it yield with magical force.

"We're leaving!"

They went on their way again. Along the way, there were just too many ancient realms, the mists extremely thick, as if they returned to an immortal battlefield, ruins laying everywhere.

"Heavens, what kind of creature is that? Just too large!" On the silver warship, even Wang Xi who was normally extremely quiet couldn't help but cry out.

The others were also stupefied, all of them widening their eyes, looking forward.

Along the way, there was a creature floating in an ancient realm, several times larger than even a star. Its body was covered in green armor, flickering with an ice-cold metallic luster.

It looked like a hyena, but had long dragon horns, as well as a pair of vermillion bird wings on its back, something they had never seen before in the outside world.

“This is an innate divine existence, something born from primal chaos, extremely powerful, not even the Great Elder might be able to reliably make it submit!” Fourth Elder said.

Everyone was horrified. This creature was actually this powerful?

The only fortunate thing was that it was already dead, long becoming a corpse. Otherwise, who dared to stay here? They would have long ran.

“Everything on it are precious materials. Can we go and gather them?” A young man who cultivated two strands of immortal energy said, not wishing to let this mountain of treasure pass by.

“If there really is anything of value, it wouldn’t be left for you to gather. After all these years, group after group of people came, so what else could there be left?” An elder shook his head.

Sure enough, when the silver warship got closer, everyone saw an enormous injury on the other end of this creature, tore open from the back.

The flesh, bones, and other things had long disappeared, only leaving behind a layer of skin.

Moreover, the scaled skin’s brilliance had all vanished, only leaving behind an empty shell, nothing else remaining. As for the vermillion bird wings and dragon horns, it was the same, the dragon marrow and divine wing essence blood inside had all completely flowed out, weak to the point where it could be broken if this warship rammed into it.

“What a pity!”

They left this place. While moving through the Realm Tomb, they had to admit that this place really was too vast, with no end in sight, no limit.

“Not good, prepare for battle!” Suddenly, Fourth Elder shouted, warning everyone.

“En?!”

“Are there enemies here? Where? Why don’t I see anything?!”

The students on the warship were alarmed. They didn’t see any creatures, all of them incredibly confused. However, the elders’ expressions all became serious, becoming vigilant.

“The gray fog of war spirits has appeared, so battle is not far. All of you, produce your precious artifacts, prepare for battle!” Fifth Elder added, warning seriously.

In reality, even if they didn’t see any creatures, all of the students had long made battle preparations. Since the elders were warning them, who dared to act carelessly?

Along the way, gray mist scattered, not all that dense, only wisps and strands flowing over from the distant ruined stellar bodies.

Soon afterwards, Shi Hao felt a bit uneasy. His entire body went cold, skin going taut, feeling a bit frightened, as if there were steel needles pressed against his skin, about to penetrate in.

“What is this?” Soon afterwards, the others also sensed something, all of them holding weapons and facing this situation seriously.

It was clear that there was an unknown danger approaching, moreover extremely vicious and frightening. Otherwise, how could that aura penetrate the silver warship’s defense symbols, pressing over?

There were large amounts of damaged stars up ahead, all of them still and unmoving. There were meteorites that appeared one after another, silent throughout endless time. There was even more cosmos dust covering them.

A blood-colored ancient ship quietly appeared, drifting over from the stellar ruins, slow but extremely steady, heading straight in this direction.

“War spirits!”

“It is them after all, they really did appear! I hope there are no ancestral level war spirits, or else it will be much more troublesome!”

“Truly never expected for us to encounter these things on this journey!”

The elders all spoke. This was also a type of warning for the academy’s disciples.

The ship was in bad shape, extremely archaic in appearance, truly unknown when it was built, experiencing endless years, carrying traces of mottled time. However, it still didn’t decay, remaining imperishable.

The ship wasn’t that large, at the very least, when compared to the silver warship, it was many times smaller. However, it possessed a type of mysterious power, as if it could intimidate the silver warship.

It didn’t release any sound, slowly moving over, as if an entire heaven and earth would be frightened under its presence, all creatures trembling before its existence.

Gray wisps of mist seeped out from the ship strand after strand, nibbling away at divine force, corroding the silver warship Shi Hao and the others were on.

“Is the situation really bad? If it is, then we should temporarily avoid it.” Princess Yao Yue said.

“It’s useless, the war spirits are extremely frightening. This type of lost ancient ship, once it locks onto us, it wouldn’t stop unless it leaves on its own. Otherwise, it will continue to chase after us. It looks slow right now, but that is because it still hasn’t truly set sail, or else few warships could compare to it in speed!” Third Elder said.

Aohou...

Suddenly, that blood-colored ancient ship released a great cry, the hairs of many students from the academy immediately standing on end, goosebumps covering their skin, cold chills running down their backs.

This sound was too frightening, actually directly affecting their souls!

“They’re coming, prepare for battle!” Sixth Elder shouted.

“This is an important test for you all, those who can’t make it through might die!” Second Elder warned seriously.

On the blood-colored ancient ship, figures appeared one after another, throwing themselves over from the distance, incomparably terrifying.
