

Perfect WD 1201

Chapter 1201 - War Spirits

On the blood-colored warship, many figures appeared, all of them wrapped around by gray mists, carrying killing intent as they threw themselves murderously at the silver-colored warship!

In this ancient land, there were damaged stars, shattered continents everywhere. Right now, a strange and ancient ship moved over, carrying so many terrifying creatures, leaving everyone alarmed.

“These are war spirits? I can’t see their true appearance! They are wrapped within mists, what fast speed!” Someone cried out.

It was because after those creatures rushed out from the ancient blood-colored ship, every one of them was fast to the extreme, rushing over to the silver warship in the blink of an eye.

“What is going on, they... are devouring divine force!” At his moment, even Wang Xi who cultivated three strands of immortal energy cried out in alarm, different from her usual calm and composed temperament.

The others also noticed this scene, feeling greatly shocked. Those creatures rushed over like lightning, the symbols produced by the silver warship unable to stop them. It was because they devoured divine force, quickly refining it!

This situation was definitely worse than terrible, these creatures just too strange.

“These are precisely the war spirits, devouring divine force, and then turning it into its own strange force. You all have to be careful!” An elder reminded.

The elders didn’t stop them, having the students deal with them. It was because they had an even more important task. They continuously monitored the blood-colored ancient ship, staring at it.

Hou!

Sure enough, the blood-colored ancient ship released roaring sounds, shaking up this entire place. That type of sound was enough to blast large amounts of experts to death.

Fortunately, there were a few elders who were protecting this place, not letting those on the silver warship encounter too much trouble.

“There are ancient ancestor war spirits overseeing this place! Things are much more troublesome!” Third Elder said, expression becoming serious. The reason why they didn’t move, only staring at the blood-colored ancient ship was precisely because they were waiting for these types of big fellas to appear.

In the warship, several frightening creatures appeared, their eyes releasing sinister radiance, peering through the gray mist and watching this place coldly.

Those were extremely terrifying war spirits who could fight decisive battles against the elders. Right now, both sides confronted each other.

Hou!

A loud roar sounded. A giant creature on the blood-colored ancient ship moved, this individual one of the most powerful battle spirits. It turned into a streak of lightning, rushing over.

Peng!

At the same time, Heavenly Deity Institution's Fourth Elder took action, jumping out of the silver warship to face that creature. Dazzling light erupted between the two, roars sounding continuously.

With a chi sound, another war spirit with venerable status flew over from the blood-colored ancient warship, slaughtering its way over. It was definitely not the slightest bit weaker than the one from just now.

From Heavenly Deity Institution, Fifth Elder appeared, facing it in the air.

This was a great battle at the peak, a clash between the most powerful individuals!

Which one of Heavenly Deity Institution's elders weren't hidden experts? They all had extraordinary backgrounds in the Nine Heavens Ten Earths, just a stamp of their feet was enough to make all sides tremble.

However here, they were stopped by war spirit leaders, unable to immediately defeat their opponent.

Then, the few leaders on the blood-colored ancient ship all moved, personally slaughtering their way over.

As a result, the elders all moved, facing this enemy, all of them joining the fight!

At the same time, the students on the silver warship finally saw the creatures who landed on this warship, what they were really like.

"Ah..." Someone screamed.

It was because the war spirits who were pressing forward really were a bit frightening. The gray fog around their bodies scattered, exposing their true selves.

These creatures were of all different oddities and appearances, as if the experts of different powerful clans were merged together, their appearances just too strange.

For example, there was a war spirit that was a monkey with three heads and six arms, while the war spirit on another side was like an ocean clam, having a human body, but two enormous shells rested at its side like wings. There were even stranger creatures, ones with human bodies, fiend heads, ghost flames flickering about, sinister fangs protruding outwards, incomparably sinister.

"They are corpses!" Someone cried out loudly, now seeing clearly, finally knowing the meaning behind the term war spirits, what they were here for.

The others quickly saw them, their eyes widening one after another. It was simply the living seeing ghosts!

This really was the case, everyone being greatly affected. These were all heroic spirits that were killed in battle. They were previously unresigned in death, left with regrets, in the end becoming war spirits.

Soon afterwards, they realized how terrifying these creatures were, every one of them incomparably vicious, directly attacking at their primordial spirits!

It was because they were transformed from dead heroic spirits, the wills left behind by former powerful experts having special fates. After receiving a near endless amount of time's nourishments, they gradually developed a new consciousness.

This was precisely a war spirit!

The silver warship was being attacked. These creatures devoured divine force, quickly converting it into their own spiritual essence. Even though the silver warship was a warship of the utmost quality, right now, it still couldn't hold on.

Comparatively speaking, these creatures were just like material eating vermin, quickly breaking through the barrier of light around the silver warship, all of them swarming over.

Ah...

There were creatures that got onto the ship, now standing in the same place as the academy's students. One of the female students was attacked, having her shoulder torn into by the war spirits, an arm directly ripped off.

It was incredibly savage, these war spirits too barbaric and wild, directly tearing off a woman's arm, the scene leaving everyone shocked.

It was because that woman's strength wasn't weak, but the other party arrived in an instant. The students all took emergency measures, defending themselves.

"Be careful, protect your primordial spirits!" Someone transmitted sound, reminding everyone. Just now, the reason why that woman suffered so greatly was because her primordial spirit suffered an attack, causing her to momentarily enter a daze, her divine senses suffering damage, which made her reaction speed half a step too late. The war spirit then grabbed an arm, directly ripping it off.

Ao...

The roaring sounds were ear-splitting, as if a malicious spirit was weeping. At this moment, there were several dozen to over a hundred war spirits who all threw themselves onto the silver warship, moreover breaking through the barrier of light and rushing in.

True danger had arrived, this was a life and death trial.

Chi!

A Green Luan spread its wings, flames surging around it, covering everything below. Everyone could see that Shi Hao was currently being pursued.

"Ah..." Miserable cries sounded, many of them unable to avoid disaster. Their divine senses were first attacked, and then there were people whose bodies suffered destructive attacks.

In that instant, three people on the warship were directly killed, impossible to rescue.

“These damned things all developed intelligence, are they about to become sentient ancient corpses? Extremely difficult to subdue!” Shi Hao said, his way of thinking completely different from everyone else’s.

“Kill!” Lu Tuo roared. He already took action, just like Shi Hao, extremely domineering and ferocious, fighting against these intruders!

“They aren’t sentient corpses, but the result of transformed divine senses, bodies formed from divine senses, hoping to become just like a real existence one day!” Not far out, Second Elder who was currently fighting a decisive battle against the war spirit leaders said with a decisive tone.

Ah...

Not too far from Shi Hao, a blue clad young lady suffered a disaster, unable to react at all, the space between her brows split, red blood flowing down, her entire being becoming dispirited and listless.

It was precisely under this type of situation that the war spirits became even more vicious. With a pu sound, they immediately attacked, directly tearing that young lady in half, blood pouring out like rain.

This scene was extremely bloody, leaving all those nearby horrified.

However, what could they do? They didn’t have any better methods, because these war spirits were too strange, their spiritual force terrifyingly great, immediately delivering a blow to their primordial spirits.

Meanwhile, at the center, there were some whose primordial spirits truly couldn’t withstand these attacks, which was why they suffered so severely immediately after trading attacks.

Ao...

On the silver warship, a group of strange creatures roared, launching a full on attack.

In that instant, there were many people who were injured, even more who were torn to pieces, the scene just too horrible, blood dyeing the silver warship red.

“Kill!” This was Shi Hao’s voice. Killing intent surged within him. He attacked viciously, about to unleash a great killing disaster.

Pu!

Shi Hao moved his arm, smashing out a fist, directly blasting through a war spirit’s chest. However, it didn’t die. It released a shrill cry that was extremely sad and shrill.

Bo!

This continued until Shi Hao’s other hand rushed out, crushing his skull with a single finger, and only then was there a momentary peacefulness.

“Truly not a flesh body!” After Shi Hao killed these war spirits, he discovered that there were no corpses left behind. They turned into spiritual energy that slowly scattered.

It seemed like a true body, but was actually produced when their minds became powerful enough, primarily made of spirit.

“Good!” These were some who shouted, because Shi Hao was the first one who killed a war spirit, extremely decisive and efficient.

“Ao...” However, this seemed to have stirred up the hornet’s nest. When the other war spirits saw this, they all released shrill screams, surrounding and attacking together to end Shi Hao’s life.

There were Nine-Headed Divine Birds, human form Heavenly Scorpions, Bifang, and others, all of them ridiculously powerful.

Pu!

Shi Hao foremed a fist imprint, blasting apart another war spirit, making these creatures go crazy, throwing themselves at him.

“En?” In that instant, he felt an intense pain between his brows. These creatures’ spiritual force really was too great, attacking at his primordial spirit from all directions, as if there were immortal swords that hacked over one after another, stabbing at his soul.

Hong!

A screen of light surged around his body. That was the single heavenly passage, able to block even spiritual force!

A drop of blood flowed out from the space between Shi Hao’s brows, couldn’t be considered too great of an injury. He now went all out, unleashing a great massacre here.

Pu!

He continuously took action, crushing nine heads in succession, killing the Nine-Headed Divine Bird. After he killed this especially powerful war spirit, he suddenly felt a refreshing feeling, a wave of spiritual essence drifting over, nourishing his primordial spirit.

“The war spirits could nourish the soul?!” Shi Hao was shocked, and then revealed a surprised expression. He quickly rushed forward, rushing murderously at the war spirits.

Everyone was stupefied, because many of them suffered greatly, their primordial spirits were injured, yet Huang rushed into the war spirits just like that, fighting alone, truly too terrifying.

Chapter 1202 - Soul Force Seed

A wave of cold energy swept over. Shi Hao felt greatly refreshed, as if he ate long life medicine. His primordial spirit was being nourished, having a vague feeling of becoming stronger.

“Kill!” He released a light shout, continuously taking action. Right now, a large group of creatures appeared on the silver warship, every one of them extremely powerful, but they were all treated by him as food.

In reality, this group of war spirits also saw him as prey to hunt, swarming over, because he was the first one to kill a war spirit here.

Xiu!

A purple-colored radiance rushed over, shooting out like an immortal war spear, shattering the cosmos, directly descending here!

This was a scorpion tail. It drew out an arc in the air, stabbing towards Shi Hao's head, fierce and precise, penetrating and berserk, speed just too fast.

It was precisely a human shaped Heavenly Scorpion, its body not any different from that of a human's. It had thick purple hair, its eyes sparkling like blades, a scorpion tail extending out from his rear, looking like it was cast from violet gold.

The scorpion tail pierced over, penetrating the void!

When the sharp end approached, the space between Shi Hao's brows felt intense pain. Even with the single heavenly passage protecting him, his forehead still felt as if there were needles stabbing at him, trying to pierce through.

This was a mental attack. This was especially the case when he was facing this humanoid Heavenly Scorpion, its tail blessed by heaven, even more domineering when it released spiritual attacks.

In Shi Hao's surroundings, a few cultivators from Heavenly Deity Institution cried out loudly, because they weren't that far away, also affected by the spiritual force.

There were some whose foreheads already split open, their primordial spirits seriously injured!

This was only being affected by being nearby, not like Shi Hao who was currently suffering the brunt of the attack.

War spirits, the most terrifying part of them were soul attacks. It wiped out one's divine senses, cut down their primordial spirit, impossible to defend effectively against!

Hong!

Shi Hao released a low roar, activating the single heavenly passage, making it surge with radiance. In addition, the space between his brows shone, a symbol vaguely appearing there. It was like an engraving, bright and dazzling!

His mental force was surging, erupting with power as he faced this war spirit.

At the same time, his body also moved, quickly taking steps out, sweeping forward like a crazy gate, blasting aside all of the other war spirits as he charged straight for the humanoid Heavenly Scorpion.

Dang!

He raised a hand, actually grabbing that sparkling purple scorpion tail. Brilliant light erupted in between, the sound as if metal struck into each other!

At this moment, the two made contact, the scorpion tail actually warping, about to break. However, a bit of blood also appeared from the space between Shi Hao's brows, currently feeling incredible pain!

This scorpion tail was a tangible embodiment of spiritual force. None of these war spirits had true bodies, all bodies condensed after their spirits became powerful enough.

Kacha!

However, in the end, Shi Hao still twisted and broke that scorpion tail, tearing it off. Then, he rose into the air, a kick smashing over, smashing into the humanoid Heavenly Scorpion.

Precious techniques appeared one after another. The Heavenly Scorpion was definitely not simple, using spiritual force to protect itself. However, that person's leg still approached, smashing into its body with a peng sound.

The humanoid Heavenly Scorpion first staggered back a bit, and then immediately afterwards, his chest area cracked apart. Then, his entire body exploded!

Shi Hao's foot just carried too much force. Even if it were large amounts of archaic divine mountains before him, they would still be smashed into ashes, unstoppable.

When this powerful war spirit fell, it turned into strand after strand of spiritual essence that scattered in all directions. A bit of mental force turned into a rain of light, making Shi Hao feel as if he was bathing in autumn winds.

This type of light rain, for his primordial spirit, was a great mending medicine, extremely comfortable, making his surroundings bright and sparkling, as if he was going to sprout wings and ascend.

His primordial spirit force increased somewhat!

Shi Hao's primordial spirit force was powerful to being with, long turning into a venerable small seated creature, foundation strong and solid. Now, he discovered some clues to strengthen it further, so he naturally wouldn't let this chance go.

Chi!

A strand of immortal energy appeared on his arm, winding around his hand. Then, it formed a spotlessly white sword body, completely formed from condensed immortal energy.

"Kill!"

Shi Hao shouted, starting to rush at his enemy, fighting intensely against them.

This was a chaotic battle. The war spirits' spiritual power was too great, extremely difficult to deal with. If not for Shi Hao being peerless in his generation, he would have fallen a long time ago.

One could see just how frightening this type of creature was.

"Ah.." Not far out, a young man in blue-gold armor had his head crushed by a vicious bird's claws, dying on the spot.

Pu!

On the other side, even though a woman resisted with everything she had, her forehead bone still cracked, pressured by powerful spiritual force. Then, a strange snake flew over, snapping her neck.

The gray strange snake wasn't long, only a meter or so in length, but it was terrifyingly powerful. That woman who cultivated immortal energy was unexpectedly not a match, the precious techniques ineffective against it, crushed to death on the spot.

"These things are too sinister, how are we supposed to deal with them?" Someone cried out loudly. Everyone began to panic, because unless it was Shi Hao, Lu Tuo, Wang Xi, and people like these, normal cultivators weren't a match at all.

It was one thing if they couldn't deal with the war spirit leaders, but even normal war spirits possessed incomparable and exuberant spiritual force, difficult for them to face.

This was just the beginning, yet the academy's students already died one after another.

They were all heaven warping talents, yet in the end, they died mysterious here, it really was too much of a waste. They felt a type of flusteredness inside, a few people losing the courage to continue fighting.

"Just this bit of skill, can't even kill a war spirit, yet you want to face the foreign side? The appearance of any one of those ancient families' Emperor Clan members is enough to sweep through the entire war spirit ancient ship!" The protectors' descendant Dugu Yun spoke. He watched as a bystander the entire time, not taking action, these words making many people alarmed and humiliated.

Pu!

Lu Tuo took action, killing a Three-Eyed Divine Ape. The moment it was killed, he felt his primordial spirit become nourished, becoming a bit stronger. He now knew why Shi Hao took the initiative to kill these war spirits.

Then, Wang Xi, Ten Crown King, Princess Yao Yue and the others also discovered some clues, this place immediately becoming chaotic. All those who cultivated three strands of immortal energy all took action.

This time, the war spirits' vicious attacks were counteracted!

"Kill!" Killing these war spirits can actually nourish the soul, strengthen the primordial spirit! They are formed from spiritual force, able to transform our divine senses!"

The others also went crazy. Now that there was no path of retreat, these war spirits all extremely vicious, continuously attacking, they might as well throw caution to the wind and fight with everything they had, perhaps able to even profit from this disaster, making themselves stronger.

The situation immediately changed. Even though the war spirits were strong, there were Wang Xi, Xuan Kun, Shi Hao, Ten Crown King, and others. Even Dugu Yun took action, immediately launching a ferocious counterattack.

Peng!

Shi Hao gripped a gray-colored strange snake with a single motion. Even though it was less than a meter in length, it was extremely strong. If not for Shi Hao's strength being above his peers, it would have immediately struggled free.

Unless one cultivated three strands of immortal energy, they couldn't deal with this snake!

However, Shi Hao was quite dissatisfied, feeling extremely annoyed. "Just a war spirit, yet still this ridiculous!"

His hands exerted power, tearing at this strange snake. In the end, this snake struggled free. Four clawed arms reached out from its belly; other than its head, the other parts were just like a true dragon.

Si si!

The gray-colored strange snake's tongue shot out. In that instant, a spiritual field was produced, actually matching Shi Hao's single heavenly passage. The two of them fought intensely.

"Really is strange and sinister!" A drop of blood trickled out from between Shi Hao's brows, becoming more and more dissatisfied. This snake really was too terrifying.

If it was anyone else, they would have likely been killed as soon as they made contact. Even Shi Hao felt extremely strained, had no choice but to face it with all of his strength.

"What kind of background does this stupid snake have?" He used all his strength to tear the snake's body, wishing to rip it apart.

In the distance, the great battle became more and more intense. In front of that blood-colored ancient ship, several ancient war spirits displayed world shocking magical force one after another, fighting intensely against the elders, actually able to move stars, affect the damaged ancient realm.

Hong!

They fought until the sun and moon were without light, heaven and earth losing color. Cold winds roared about, killing intent overflowing into the heavens.

"Cannot underestimate these war spirits, any one of them were previously exceptional heroes..." Even while fighting the great battle, Second Elder was still transmitting sound and giving pointers to the students fighting on the silver warship.

In the past, all those who left behind remnant wills were all exceptional figures. Their primordial spirits were powerful enough, and only because of that was there a chance of them leaving behind a hint of remnant divine will and other things after dying.

Meanwhile, these wills who had the opportunity to grow and evolve once more, becoming a type of soul body, they were precisely war spirits.

"That is why you all feel that the war spirits are powerful, impossible to defeat, but don't feel discouraged, because they were all exceptional individuals in their previous lives!" Second Elder said.

When everyone heard these words, they felt much better. Otherwise, many of them felt like their own strength was truly too lacking.

"That strange snake... is related to the True Dragon!" Suddenly, Second Elder was shocked, staring at the gray strange snake Shi Hao was fighting intensely against, revealing an expression of shock.

“That can’t be, it really is that snake! In the past, there was a strange snake that appeared from a stone cliff next to a True Dragon nest. It became an unmatched expert, but ultimately died in Realm Tomb.” Fourth Elder also released a cry of alarm.

It was because no matter how these creatures changed, becoming spiritual bodies, forgotten in the past, when they took form, they were still similar to their bodies in their previous lives.

Heavenly Deity Institution’s elders recognized many spirit bodies that were formed from remnant wills of legendary experts, for example, the Nine-Headed Divine Bird, White Gold Lion, and others, all of them previously having a glorious reputation.

This strange snake was even more clearly recorded and portrayed in the bone books. It had previously warped and weaved in the heavens above and earth below, rarely encountering enemies, dying endless years ago.

Pu!

The space between Shi Hao’s brows split open. The moment wisps of blood appeared, he still killed the gray strange snake, using his single heavenly passage to neutralize its spiritual field, while he himself even more so engaged in a true contest of strength with it.

The strange snake wasn’t a real body, only formed from divine senses. In the end, it was torn apart, and then exploded.

Immediately afterwards, the space between Shi Hao’s brows healed, his mind feeling refreshed and clear. This strange snake was too powerful, the vital energy that was released truly a great mending medicine, making Shi Hao’s primordial spirit sparkling and shining.

This strange great snake was the leader of the war spirits who attacked the silver warship. After it was killed, it immediately caused panic.

Meanwhile, the blood-colored ancient ship’s battle was also decided, several ancient ancestor level war spirits not a match for Second Elder and the others, almost all killed here.

Hong!

Second Elder even more so took action, hacking apart that ancient ship.

Hou...

The war spirits that were fighting intensely against Heavenly Deity Institution’s students all cried out, as if they were going mad. They rushed towards the shattered ship, abandoning this battlefield.

“Yi, a complete Soul Force Seed!” Second Elder was shocked.

The moment the blood-colored ancient warship split open, all types of objects fell out. Apart from this, there was a shining seed that released astonishing soul force, shining here.

“A priceless seed!” Fifth Elder exclaimed with astonishment.

The reason they came was to find all types of immortal seeds, because this group of students were cultivating the ancient methods, all of them needing a seed. They actually discovered one, moreover one that was ridiculously good.

“Kill!”

Everyone on the silver warship chased after, pursuing the war spirits, all of them approaching that seed.

In reality, the reason why these war spirits withdrew was completely because they wanted to seize that Soul Force Seed, wishing to merge it into themselves.

Shi Hao slaughtered in and out, unknown just how many war spirits he eliminated, definitely like a killing god, killing to the point of making those war spirits panic, shudder with fear.

During this process, Shi Hao became stronger the more he fought, his divine senses continuously being nourished, his primordial spirit becoming stronger, becoming more and more outstanding!

Peng!

He exchanged a blow with Wang Xi, and then continuously fought against Lu Tuo, even trading an attack with Ten Crown King’s Dragon Fist, the scene extremely intense.

None of the elders took action, watching silently. They were only in charge of stopping the ancient ancestor level war spirits, everything else was left up to the students to compete over.

Shi Hao was also in this battle, his body as if covered in a layer of sacred light, forming a divine disk, brilliant and holy.

“Imprison!”

He shouted loudly. That single heavenly passage became brilliant, auspicious light surging out from within, immediately locking down the Soul Force Seed, pulling it into his single heavenly passage.

“This battle has come to an end, the struggle is finished!” Second Elder said, not allowing them to destroy each other.

Chapter 1203 - Dao Seed

The blood-colored ancient ship was in tatters, broken things everywhere. A group of war spirits shrieked about, seizing the various things here.

Under Heavenly Deity Institution elders’ eyes and intimidation, even though they were unwilling, they had no choice but to escape. Otherwise, a single mistake might result in all of them being killed.

Before approaching, many creatures looked at Shi Hao, giving the Soul Force Seed in his single heavenly passage a look, the desire burning in their eyes making one shiver all over.

However, they didn’t dare stay behind or do anything, disappearing into the fog.

Everything within Realm Tomb became extremely quiet, the battles here stopping.

At this moment, all of the academy’s students looked towards Shi Hao, staring at his harvest. Lu Tuo, Wang Xi, and the others’ eyes were like lightning, finding this a bit hard to accept.

Only, Second Elder had already spoken, so they couldn't really fight over it.

Everyone felt incredibly jealous. The blood-colored ancient ship was shattered, the Soul Force Seed that fell out could be said to be the greatest treasure. Its value was impossible to assess.

Shi Hao was also observing it. Inside the single heavenly passage, a seed sparkled and shone, only the size of a fist. It was like a blue-colored heart, carrying sparkling luster.

Shi Hao held it in his hands, feeling a wave of comfortable feeling. His primordial spirit received nourishment, divine will continuously being strengthened.

This was definitely good stuff. Forget about everything else, just the fact that it could nourish the soul already made everyone's eyes turn red with greed. It was absolutely priceless!

However, if it really was used to nourish the soul, then it was a bit of a waste, because this was a seed rarely seen since ancient times. It could be used to merge with the body, cultivate Immortal Ancient methods.

"We came here precisely to find all different types of dao seeds suitable for oneself. Now, we obtained a Soul Force Seed, this really is quite the great start!" Third Elder encouraged.

Soul Force Seed, it was related to the primordial spirit. This type of thing could definitely be considered an extremely valuable holy object.

"Even though it is inferior to the World Tree Sapling, Nascent Cosmos seeds, but it is still extremely rare, can be considered one of the highest level dao seeds!" Fifth Elder said with a sigh, even he was quite moved.

"This is a grade two immortal seed! We had just entered Realm Tomb, yet it was already obtained by someone!"

"Truly tremendous luck!"

Heavenly Deity Institution's students were incredibly envious, even more people feeling great jealousy. This type of thing could only be discovered and not sought after, one of the legendary unmatched seeds.

This type of gain was definitely a joyous thing, making them forget the intense battle and dangers from just now, all of them overwhelmed by emotions.

"Alright, we should go on our way!" Fourth Elder reminded.

Everyone snapped back to reality. When they saw the blood and skeletal remains all over the silver warship, they all shivered inwardly. Their companions died previously just like that. They knew how dangerous this journey was. The slightest bit of carelessness might result in their body and dao being erased.

The silver warship continued forward, carrying all of them as it moved through ancient realm ruins one after another.

"If I may ask, Second Elder, how many seeds can a single person merge with?" Along the way, Shi Hao asked Second Elder who was the strongest among the people here for guidance.

When everyone heard this, they all became shocked. Why would he ask this? Could it be that he wanted to enlarge his prospects? Those who walked at the very forefront all knew how to boast.

“The crucial point of cultivating immortal ancient methods is to be single-minded, not allow one’s mind to be distracted. You didn’t even start, yet you already want to merge with other seeds, this is a great taboo!” Second Elder warned.

When Shi Hao heard this, he began to think to himself. He nodded, wishing to put the Soul Force Seed away.

“Dao brother, if you don’t like this seed, I am willing to exchange for it with an ancient heavenly art with you!” Right at this moment, someone walked over, secretly transmitting sound with Shi Hao.

Even though the Soul Force Seed couldn’t compare to the World Tree or Nascent Cosmos seeds, it wasn’t something ordinary people could obtain. It was difficult even for long life families to obtain.

There were some things that needed fate, not something that could be obtained just because your clan is powerful.

A few people looked over, recognizing that person, all of them couldn’t help but reveal strange looks. It was because they knew his identity, he was handling affairs for a long life family.

“This person looks like a loose cultivator from the outside, but he actually has a great relationship with the Feng Clan!” Someone said softly.

“Don’t tell me he wishes to exchange for that dao seed with Huang? His appetite really is too great!”

Even though there was no way to seize the divine will transmitted sound, there were still some who guessed at what he was trying to do.

“Correct, he doesn’t have the qualifications to possess the Soul Force Seed alone at all, nor does he have anything valuable enough to use as exchange, it is clearly an exchange carried out in Feng Clan’s place.” Some people came to this conclusion.

Shi Hao’s face immediately sunk. He loathed the Feng Clan. The reason why Yuan Qing dealt with him, wishing to suppress him for ten years was precisely incited by the Feng Clan, and he even more so killed this clan’s young supreme being Feng Xingtian in Immortal Battlefield.

Now, the Feng Clan already suspected him, might try to get revenge at any time.

Under the current situation, how could he hand the Soul Force Seed to Feng Clan?

“I’m not exchanging it, I am keeping this seed to use myself!” Shi Hao spoke directly and decisively. Not only did he loathe the Feng Clan, he really did want to use it for himself.

In his opinion, things related to the primordial spirit were extremely important, so how could he waste this type of seed? He definitely had to make the most of it.

“Dao brother, it is actually a long life family who wishes to exchange with you.” This young man said. He had a head of gray hair, even his eyes gray-colored. He spoke rather calmly.

“Feng Clan?” Shi Hao asked indifferently.

“Precisely!” The gray-haired male nodded. Before he came here, the Feng Clan had previously informed him that regardless of who it was that obtained a rare seed, he had to do his best to acquire it.

Only, there was one thing he didn’t know, which was that Shi Hao killed Feng Xingtian, long becoming like water and fire with the Feng Clan. Meanwhile, there was no way the Feng Clan would tell him these things.

Shi Hao gave him a cold look, killing intent surging. This person broke out into a cold shiver, unable to speak another word. He quickly withdrew, not daring to talk anymore.

The silver warship moved forward, traversing through the damaged ancient earths, crossing damaged worlds one after another. Everyone was shocked, seeing the remains of many prehistoric civilizations.

“What a huge skull!” Someone cried out with shock, seeing a severed head that was as large as a star. Its appearance was sinister, floating in the dusky sky.

It had a head of withered yellow long hair that was like dead grass, its skin also an earthen yellow, dried up and without luster, its vital energy clearly all dried up.

A head this large really left all of the students frightened.

“This is the third ancient ancestor of the Golden Giant Race. According to what was recorded in history books, he had long been able to split heaven and earth, flesh able to move through the stellar space!” An elder said with a sigh.

However, there was nothing that could’ve been done. This venerable Golden Giant Ancient Ancestor still died here, fully displaying the mysteriousness and terror of this place.

Shi Hao sighed with astonishment. He had previously seen Golden Giants, but they were nothing more than a few dozen zhang in height. However, this ancestor’s head was even larger than a star, the difference too great.

“It is even more dangerous ahead. We are approaching the ancient land where seeds are grown, everyone has to act cautiously and carefully!” Fourth Elder warned.

Everyone was waiting. They came here precisely for the sake of collecting so-called immortal seeds, dao seeds, so they had to continue even if there were dangers. Otherwise, they would have given up ahead of time.

“Just a group of insignificant insects, yet still dare to enter this place?” Right at this time, a low roar that shook heaven and earth sounded, shaking up the silver warship. Everyone’s minds began to shake, almost collapsing here.

This voice was too domineering, full of disdain, no Heavenly Deity Institution people in sight.

Everyone’s minds trembled. There were actually living creatures here, were they going to meet them? Only, there was a clear hostility. They didn’t know if the elders could win.

“There is no need to pay him any attention!” Second Elder said with a resolute tone.

“When faced with a divine existence, you all aren’t going to kneel down and bow?” That voice carried mockery, saying coldly.

When everyone heard this, they all became angry. Who was this person?

“Nothing more than a prisoner!” Second Elder said coldly, not wishing to say any more.

The silver warship continued forward, quickly moving through this place.

Right at this time, a black shadow appeared, towering between heaven and earth. Even though it was a bit indistinct, that type of aura was too abnormal, astonishing and frightening.

One could vaguely make out that it wore a five-colored crown made from Immortal Gold that flowed with brilliant colors. Only, its body was dried up and withered, too indistinct, unable to see clearly.

Meanwhile, in its hands, there was a wooden staff that carried mysterious demonic power, as if an ancient emperor was reappearing.

“Foreign... Emperor Clan!” Dugu Yun suddenly spoke, his expression changing greatly. When he heard that ancient divine sound, his mind began to tremble.

“Emperor Clan? Regardless of what kind of status he has, there is no need to worry. He has been imprisoned for many years, cut off from the rest of the world, almost unable to even preserve his own life.” An elder said.

This was a projection. There was a mysterious terrifying individual trapped in a certain place. After endless time had passed, he still didn’t die, waiting for a chance to break free.

“Fools who don’t know the difference between life and death, even daring to contradict me? Your ancestors had previously prostrated at my feet, bowing and worshipping me!” This creature was quite aggressive.

Second Elder didn’t say anything, directly activating the Nine Phoenix Furnace to protect the silver warship, moreover blasting that head.

“Actually this thing!” That person said coldly. He withdrew, the projection disappearing.

It was because the Nine Phoenix Furnace previously had more materials, storing immortal dao magical artifacts, unmatched treasures.

However, there was a bit of a haze covering their minds. When they saw a living foreign Emperor Clan ancestor sealed in this Realm Tomb, everyone’s minds were heavy. If they managed to escape, that would definitely be a huge disaster.

They continued forward, witnessing many tattered worlds along the way. There were even more great cracks, unknown as to where they lead to.

There was one time when they actually discovered a bloody ghost city drifting in the void, leaving many elders horrified.

“Yi, what is that?”

Suddenly, after experiencing a moment of chaotic time and space, many people cried out in alarm. It was because they saw resplendent golden light, as well as surging chaotic energy.

Then, they saw a tree that was entirely golden in color. It towered in heavenly space, leaves propping up stars, just like the legends.

“Heavens, is that a World Tree?”

“What am I looking at? There is a piece of World Stone, an enormous treasure! It is together with that golden ancient tree!”

Everyone cried out in alarm, becoming incomparably excited, feeling fired up.

Chapter 1204 - Half World Tree

The golden giant tree supported heaven and earth, covered in endless golden leaves, every leaf able to support the sun, moon, and stars. This was a type of magnificent scene!

Everyone became stupefied. This was a World Tree no matter how they looked at it!

“I’m not seeing things am I? An ancient tree that splits the skies and divides the earth, branches and leaves full of endless stars, this shouldn’t be that type of paramount mother tree right?”

Everyone gulped down their saliva, eyes burning with greed, voices even trembling a bit. Many people felt a great desire towards this tree.

This kind of tree had undergone millions and millions of years of evolution. If they truly grasped it, they wouldn’t be scared even if this entire world was destroyed in the future.

This was an object of creation, opening a world, transforming a true unmatched universe!

There were people who rushed out of the warship, because they felt like there was a great opportunity. Doing this might be extremely dangerous, but if they really did succeed, who knows, they might become one of those with the greatest natural luck from past to present.

Several daoists’ figures left the warship, rushing into the great void crack, leaping towards that giant golden tree, wishing to ascend that treetop.

The elders didn’t stop them. They were also extremely shocked, trying to figure out if this was a World Tree. It was because if it was, this would affect too much!

Hazy chaotic energy and golden multicolored light continuously scattered down. Those individuals were completely trapped, unable to advance forward, and then their bodies shook violently, breaking apart inch by inch.

Pu!

Blood erupted, scarlet mist scattered about, forming a red expanse. Those individuals all disappeared, body and spirits extinguished.

Everyone’s backs began to shiver coldly, couldn’t help but take steps backwards. This ancient tree wasn’t good to approach, actually this sinister, able to imperceptibly kill!

"It is just like the legends, it is evolving, having the chance to become a World Tree!" Second Elder's expression became serious, this sentence alone pointing out many issues. This tree couldn't be considered a true mature body, still on the path of evolution.

"What does it have to do to be considered successful?" Shi Hao asked. He wasn't too unfamiliar with this type of tree, he had previously even fought on one before.

In the past, he and the little pagoda stirred up great trouble on Undying Mountain to rescue the undying existence, and then afterwards, entered a strange space, previously seeing a Golden Ancient Sun Tree, precisely this one.

Later on, this tree rose into the air together with a World Stone, entering the high realms, rumored to be heading for 'Star Grave'. However, there was no trace of it to be found in the three thousand provinces.

"When it truly becomes a World Tree, it wouldn't be like this. It could split heaven and earth, and there will be creatures residing on it, for example, True Dragons, Kun Peng, and others!" Fourth Elder said.

When everyone heard this, they couldn't help but become stupefied. That kind of ancient tree really was something only the True Dragon and others had the qualifications to reside in.

"Before it succeeds, the highest level creatures will descend, at that time, helping it resist all types of disasters together." An elder added.

The so-called disaster was not just a heavenly tribulation, there were other creatures who would come to attack, trying to fight over the World Tree. When that time came, the creatures who resided on it would help it fend off these creatures.

Shi Hao never expected to encounter the ancient golden tree here. Could it be that the so-called Star Grave and Realm Tomb were interconnected, and that was why it came here?

"All ancient trees who wish to become World Trees must come to Realm Grave and acquire imprints from the sea of shattered ancient worlds, from this speeding up their evolution." Second Elder said.

"Yi, there is a creature, a woman over there!" Suddenly, someone cried out in alarm, seeing a miraculous scene on the treetop with his heavenly eyes.

On that pitch-black and heavy World Stone, there was a Chaotic Ancient Palace, even more so a woman covered in golden multicolored light.

On the treetop, there was a flower that flickered with divine multicolored light, produced by the golden ancient tree. Now, it had long blossomed, a woman seated inside, incredibly pure and holy, her body bathed in golden light.

She had a head of long golden hair that was like flames, incredibly dazzling. Her skin was spotlessly white and sparkling like fine jade. Right now, her eyes were closed, her eyelashes extremely long, slightly curled upwards.

She wore a muslin skirt, her body extremely slender and straight, curves perfect, appearance beautiful, not a single flaw to be found, as if she was the heavens' greatest masterpiece.

This was, without a doubt, an exceptional beauty. There were golden wings behind her back. She sat on a flower in the Half World Tree, possessing an extraordinary and unsurpassable beauty, untainted and pure.

This naturally produced a commotion. There was actually a creature living on the Half World Tree!

Shi Hao revealed a look of shock. He had seen this woman before! In the past when the golden flower on the Ancient Sun Tree bloomed, he seen this woman come into existence with his own eyes.

She was actually still there, not leaving this entire time!

With a shua sound, that woman opened her eyes, pure and perfect, deep like the cosmos, her temperament began to quickly change. She looked at everyone, and then looked at Shi Hao, revealing a smile, extremely calm, but enough to topple cities, making everyone feel a wave of panic.

On the warship, aside from the few elders, they were all youngsters, young and vigorous. In that instant, many people's hearts were beating heavily, greatly affected.

"She is smiling towards me!" Someone said quietly, becoming extremely excited.

"No, she is smiling towards me!" Someone disputed.

The elders were all discontent, releasing a cold snort, and only then did everyone close their mouths. There were people who had good eyes, feeling like that woman was smiling towards Shi Hao, making them feel a great sense of shock.

"Is there a chance to capture this tree?" An elder asked. Even those as powerful as them didn't have much confidence against this ancient tree.

"Extremely difficult. Also, once we interfere, its evolution speed will slow. The main thing is that I fear we will not be able to capture it!" Second Elder said.

"When a tree evolved to this extent, it long comprehended the world's various restrictions. If they really did fight, even if the most powerful experts of this world came, they would still suffer a loss.

"Such a large tree, how can it be used as a seed?" Princess Yao Yue nodded. Who could merge with it? This wasn't a World Tree sapling, it was too large.

An elder nodded, saying, "Unless it undergoes rebirth, turning into a sapling, it will be useless for you all."

Right at this time, that great void crack became blurry. The Half World Tree was moving. It was about to depart into the distance, moving through various damaged ancient worlds.

Second Elder made a prompt choice, making an extremely important but extremely risky decision.

"Follow it!"

"It's too dangerous!" There were elders who opposed this.

"There are dangers in following it, but there is also great natural luck. It is evolving, needing to head to all different places of natural luck. If we follow behind it, we might be able to obtain many of the highest level dao seeds!"

The giant golden tree moved, passing by continents one after another. Along the way, everyone saw many strange scenes, large amounts of mysterious tombs, skeletons of deities that were even larger than stars, a scarlet sea of flowers that was devoid of life but bright red...

Suddenly, that ancient tree stopped, descending in an incredibly vast place, a single glance unable to see the other end of this place.

This was a continent, as if it was formed from condensed cosmos, vast and boundless, five types of spiritual essence converging here, forming surging five-colored divine light.

"Five Elements Earth!" An elder cried out.

The limits of this continent couldn't be seen, formed from five interweaving colors, representing the five elements.

There were some areas that roiled with earthen yellow gasses, surging like waves. Other places were dark blue like the sea, the beauty making one feel intoxicated. There were other places that flourished with greenery, exuberant and lush with life, incredibly fresh and clean...

Metal, wood, water, fire, earth, not a single one was missing. This place produced source energy, representing different types of fundamental source. They merged together, circulated about, vast and boundless.

The Half World Tree took root in this great earth, gathering as much of the five types of energy as it could. Different colors flashed about, from gentle to violent, back to calm and peaceful, continuously changing.

"There are extremely precious five elements seeds here, separately metal, wood, water, fire, earth, and the amount is definitely not few. If there is an opportunity, then there is a chance of obtaining them!" Third Elder said excitedly.

The silver warship descended, unexpectedly losing balance here, smashing into this five elements continent. Five different types of divine light surged, this place becoming dazzling.

"Be careful, this ancient land is full of mysteries, normal people unable to find it at all, let alone entering. There are quite a few strange things about this place, so you all cannot act carelessly!" An elder reminded.

All of the students got off the ship, preparing to head out.

Suddenly, the earth below Xuan Kun sunk in. He fell into a red ancient cave, raging flames overflowing into the heavens here, immortal energy dense, immediately flaring out.

"Heavens, a flame seed!" Someone cried out in alarm.

The moment Xuan Kun fell, a seed in the ancient cave was disturbed, wishing to rise up. As a result, Xuan Kun activated three strands of immortal energy, immediately binding it in place.

No one expected that someone would find a rare fire dao seed so quickly after just arriving.

Everyone was pleasantly surprised, quickly scattering into different directions in search of their own opportunities.

Second Elder was moved, saying to himself, "Perhaps there really will be great natural luck. Rumor has it that there is a Five Elements Immortal Seed in this ancient land, a flawless seed comparable to a Nascent Cosmos Seed!"

"Everyone, listen well, one of the most powerful seeds from ancient times is here. You all need to seize the opportunity!" Third Elder shouted.

Chapter 1205 - No Dignity

One of the most powerful seeds since ancient times, this line alone made the blood of all the youngsters boil, feeling greatly stirred up!

Who didn't wish to reach the peak of martial dao?

Since they already stepped on this path, choosing to cultivate ancient methods, then they definitely had to choose a seed most suitable for themselves. Only then could they display all of their potential.

From the ancient times until now, the most powerful immortal seeds could only be chosen from World Tree sapling, Nascent Cosmos Seed, and a select few.

Right now, there was another that appeared before them, so how could everyone not be stirred up? Regardless of whether they were male or female, they all clenched their fists tightly, eyes burning with desire. Even Wang Xi who was usually quiet was no exception.

"There were many profound mysteries that were previously derived from the Five Elements Seed, but no one obtained it before. It was rumored that there was one here, so it will depend on your methods!" Second Elder encouraged everyone.

"Let's go!"

In that instant, everyone's blood was boiling, full of conviction, all of them wishing to use this chance to reach heaven in a single bound, find this legendary seed.

This continent was boundless without limit, no end to be seen. Otherwise, how could it hold a Half World Tree?

There were many stellar remains on the ground, unknown how they fell here. There were even more deep holes, all of them produced by foreign stars that smashed into this place.

Waves of mists rose from all directions. These were five elements energy, terrifyingly thick. Cultivating here had too many benefits.

If it wasn't for the sake of searching for immortal seeds, Shi Hao wouldn't mind just directly burying himself in the great earth's depths and absorbing the five elements essence as he pleased to cultivate his own dao method.

Everyone scattered. They were like specks of dust, pitifully insignificant on this continent.

“This place is just too large, even greater than a stellar domain! If we search like this, when will we ever reach the end? No wonder no one was able to find that perfect seed.” Someone sighed, feeling rather dispirited.

This place was ridiculously large, already several days passing. Forget about reaching the depths of this continent, they didn’t even explore a corner of this place.

Their range of activity was quite great, but compared to this entire ancient land, it was just an unremarkable little corner. They could deeply feel their own insignificance. Compared to the boundless celestial body, compared to this continent, everyone felt like ants.

Chi!

A streak of azure multicolored light surged from the distance, soaring into the nine firmaments, extremely dazzling and gentle. This was a type of holy aura; there was clearly a world shocking seed that appeared.

Shi Hao was moved, hurrying over. He saw Princess Yao Yue there, bathed in a blue-colored radiance, the light mist wrapping around her like water.

She opened up a large mountain rich with spiritual essence, producing a blue crystal from within. It was quite the fascinating seed, like the heart of an ocean, gorgeous and translucent.

“Water dao seed!” Someone cried out in alarm.

It was clear that there was more than just one or two people who hurried over after seeing the irregular scene. Quite a few cultivators arrived, all of them seeing this sight.

Seeds belonging to the five elements were all extremely rare!

Sigh! Someone released a sigh. When they saw that it was Princess Yao Yue who obtained it, even their thoughts of competing over it disappeared, because there was no way they were her opponent.

“Qing Yi, let’s move together!” Shi Hao called out. Even though the two were never that far from each other, they didn’t move together just now.

Qing Yi felt a bit of hesitation. Even though the two had previously walked together, and they held a gathering with Heavenly Deity Institution’s old friends, there weren’t that many chances where it was just the two of them.

It was because Qing Yi was always avoiding him. Even though their friendship was deep, there were just too many embarrassing moments. The things that happened in the past were still difficult for her to ‘let go’ of.

Perhaps it was because it was difficult to say what kind of relationship the two of them had that she always avoided him, not wishing to get in a deeper entanglement. Otherwise, it would most likely lead to even more embarrassment.

“This place is a bit strange, I feel like strange things might happen, that there will be dangers. We should travel together.” Shi Hao walked over, not letting her object, grabbing Qing Yi’s hand and leaving.

In the distance, a few people revealed strange looks. These two were not ordinary people, one was Huang, someone who overwhelmed Heavenly Deity Institution's younger generation, the other had Fairy Qing Yue's flame seed, making even long life families feel greed, to the extent where they wanted to rope her in.

"Brother Shi, you really are quite carefree." Princess Yao Yue already put away the seed, her face carrying a smile as she said, "I just obtained such a great item, you aren't even going to congratulate me?"

Ever since she saw Shi Hao and Wang Xi had a falling out, she was always reaching out to Shi Hao, hoping to rope Shi Hao into her family's side.

"Naturally need to congratulate you. You obtained such a great gain, even I feel a bit jealous, need to hurry and find opportunities." Shi Hao said with a smile, pulling Qing Yi with him, quickly breaking through space and leaving.

A faint profound smile appeared on the corners of Princess Yao Yue's lips, saying to herself, "You won't be able to escape."

Qing Yi was extremely gentle. She struggled free from Shi Hao's hand and said, "There is five elements spiritual essence everywhere, only the divine and sacred can emerge, no vicious and sinister things."

Shi Hao shook his head and said, "This is something you don't understand, the vicious things divine earth produces are the most frightening. When things reach an extreme, they can only move in the opposite direction, this is something you should understand."

The two of them continued forward in search of a five elements seed, seeing many wondrous lands along the way. There were even more ancient mines and other things, all left behind by those who came before them.

It was because there were not only rare dao seeds here, there were all types of divine materials as well, to the extent where there was even Five Elements Immortal Gold. Those treasures were things that would move even immortals, materials that can be refined into immortal weapons.

Suddenly, Shi Hao turned around to take a look, saying softly, "Still saying there's no danger, look, isn't it about to appear already? If I'm not at your side, there will definitely be problems."

"She came." Qing Yi sensed something, knowing that Yue Chan appeared. Then, she added, "Isn't it because she came for you? She is worried."

When she spoke up to this point, Qing Yi's composed and holy delicate face flushed a bit red, recalling some matters.

Yue Chan did come because of him, she really didn't want to see Shi Hao and Qing Yi walking together, because in her opinion, Qing Yi was her other half. She couldn't tolerate the enemy corrupting her any further.

If not for Qing Yi having the Green Lunar Flame protecting her, Yue Chan really wanted to cut down this second body. It was because the things that happened back then made her feel as if she was tainted, unendurable.

She was someone who pursued perfection. Everything that happened before really was a bit intolerable. For her, that was her darkest day.

“What are you doing?” Qing Yi got angry, because she felt a hand placed on her shoulder, as if he was going to embrace her?

“Don’t panic.” Shi Hao said with a smile, quickly adding, “Naturally to chase away the one tailing us. If not because there were elders watching, I really want to immediately capture her.”

“Don’t act recklessly!” Qing Yi’s beautiful eyes opened and closed, revealing brilliant multicolored light.

It was because Shi Hao’s hand gently pinched her shoulder, not all that honest at all.

“Haha, don’t think too much, everything is to chase away that woman behind us.” Shi Hao said with a laugh.

In the distance, Yue Chan’s body shivered. She felt a wave of embarrassment, because it was as if it was happening to her. Her shoulder was pinched by someone, continuously touched and pinched.

The main and second body were originally one. Under such close distance, they were able to feel what the other felt, almost the same person without much difference.

For Yue Chan who was obsessed with cleanliness, as well as someone who pursued perfection, having her shoulder pinched by someone she hated was simply unimaginable, an extremely severe offense.

“Qing Yi, can you have a bit more dignity?!” Yue Chan couldn’t tolerate this, directly shouting from behind.

“What does it have to do with you? Aren’t you nosing around too much?” Shi Hao rushed to respond first, moreover immediately taking Qing Yi into his arm, his other hand raising her chin.

At this time, Yue Chan felt all of her fine hairs stand on end, goosebumps covering her body. Her waist becoming rigid, feeling as if there was an arm wrapped tightly around her, her chin feeling as if there was a caterpillar crawling around there.

Urrrgh!

Yue Chan felt extremely uncomfortable, quickly backing up, moreover releasing a retching sound. This was an instinctive reaction. Her body was being violated, unforgivable, the disgust she felt inside reaching an extreme.

When Shi Hao saw this, he was first stupefied, and then he got angry, saying, “What are you trying to imply? I only held Qing Yi by her waist, but you are going to vomit?!”

He was always narcissistic. When he saw an exceptional beauty react like this, his face immediately darkened. He grabbed Qing Yi in revenge, pinching her waist, and then caressed her pure and charming face.

“You scoundrel!” Qing Yi also became angry and humiliated.

As for Yue Chan in the distance, her beautiful and perfect face almost distorted, she jerked her hips about, as if she was trying to struggle free from something, and then she couldn’t help but retch.

Then, she screamed out, "Qing Yi, you are too lacking in self dignity!"

"What lacking in self dignity? Are you talking about yourself? Following behind us, basically a peeping tom, is this something Heaven Mending Sect's fairy should be doing?" Shi Hao mocked.

Yue Chan was so angry she wanted to trample him to death, crush him like a bug. There had never been anyone who mocked her like this before.

Shi Hao spoke again, saying, "Last time, when me and the great elder were discussing things, he said that we might all die in battle, so before then, he wanted us to find dao companions, each one of us leaving behind the most powerful bloodline descendants. In my opinion, we don't have much time left, so if you continue following me, I really want to know after you feel as if it happened to yourself, if you will also give birth to a bloodline."

Qing Yi was ashamed and angry, pinching Shi Hao with all her strength, slapping at his palm, not allowing him to speak this nonsense.

As for Yue Chan, she was so angry she almost vomited blood, turning around to leave. It was because she discovered that by staying here, she would only be mocked and humiliated, unable to stop or change anything.

"Wu, what I said was true!" Shi Hao explained to Qing Yi. "When I came back from Immortal Battlefield, the great elder had summoned me alone, and he really did mention this!"

In the distance, Yue Chan staggered about, almost falling. She really was frightened badly. If that day truly came and Shi Hao became dao companions with Qing Yi, she will definitely feel as if it happened to her. That... really was unimaginable, an absolutely disastrous result!

"Alright, that annoying woman finally left, we should head on our way. I want to obtain the most powerful seed!" Shi Hao said.

"What annoying woman? She is just another side of me, originally one person." Qing Yi didn't like hearing these words.

"Used the wrong words, I will help you subdue her, let you guys fully merge with your will as the main one." Shi Hao said with a smile.

"You can't speak nonsense in the future. I fear that she might be affected too much, and react drastically." Qing Yi said.

"I wasn't randomly speaking though, the great elder really did privately tell me these things. He is deeply worried, not feeling good about the future, wishing to leave behind a group of the most powerful bloodline beforehand and send them far away." Shi Hao said.

Realm Tomb, outside Five Elements Continent was a spacious and empty void. There were vast ancient worlds, countless great stars.

A warship that was incomparably angled silently moved towards the continent below, about to arrive.

On the warship was heavy immortal mist, making it look hazy and mysterious, also extremely shocking. There was actually immortal energy covering it!

Chapter 1206 - Ancient Monument

Metallic luster flickered about. This place was extremely secluded, pieces of metal everywhere with no sign of human habitation. Shi Hao and Qing Yi were the only ones who came here.

Zheng!

Suddenly, sword cries sounded. Only when they stepped into this region did it produce abnormalities.

Five Elements Continent naturally had many metal areas, especially this place where even the ground was metal, no earth to be seen, no water visible, a cold and gloomy place.

Up ahead, there was sword energy that rushed into the sky, who knew how many zhang tall, making one's skin even feel pain, as if there were divine swords hacking over.

"Wu, don't tell me there are supreme treasures here? Who knows, there might even be an immortal sword here." Shi Hao said.

Several days had already passed. Based on what they knew, there were a dozen or so people who found dao seeds, all of them related to the five elements, obtaining great opportunities in this continent.

Unfortunately, until now, Shi Hao and Qing Yi didn't obtain anything, only today did they discover this wondrous place.

After continuing for several dozen li, a great lake emerged before their view. Sword energy was currently surging from within the lake, brilliant and sharp, attacking at their souls.

Moreover, they felt a type of blazing heat. The air above the lake was distorted, because the temperature below was too great, causing the void to even become blurry.

"This lake... is metal liquid!" Qing Yi cried out in shock, feeling extremely stunned.

Just how great was the temperature here? The liquid in the great lake was sparkling, metallic luster swirling about, waves of rich metal energy surging, carrying blazing heat and killing intent.

Moreover, there were large amounts of divine multicolored light inside, quite a few divine materials melted inside. This lake was not simple at all.

A metal lake!

"The opportunity has arrived! If there isn't an immortal sword inside, then there is likely a metal attribute seed!" Shi Hao said.

Even though the single attribute seed of the five elements was extremely precious, it wasn't all that enticing for him. He wanted to find the most powerful seed.

However, if he obtained this seed, he could exchange it for precious techniques, divine medicines, and other things with others. Once this type of thing was brought to the outside world, it would definitely be priceless.

"Any one seed can be considered great dao fruits, corresponding to different natural laws. This one is extremely precious, definitely extraordinary after being nurtured by this metal lake." Qing Yi said.

“If you like it, then I can seize it for you.” Shi Hao said.

Chi!

Shi Hao took action. The Kun Peng precious technique appeared, his left hand becoming pitch black like ink, full of great yin force. Then, an enormous black fish appeared, entering the metal lake with a dong sound, producing great waves.

Chi la!

When the golden liquid scattered over the lakeside, waves of white smoke were released, chi chi sounds produced.

The black Kun fish moved its head and tail, its body massive, releasing great yin energy, simply about to freeze the entire lake. This was a type of serious provocation.

Hong!

The great lake surged, many ripples immediately appearing. There was even a mysterious creature that struggled out.

“Yi, not simple at all. This seed has a creature protecting it. It’s definitely extraordinary.”

That was a golden creature, its body condensed from liquid. It quickly turned into a humanoid creature, blazing light released from its body.

Qiang!

Shi Hao didn’t say another word, releasing a streak of sword energy with a raise of his hand. At his current cultivation realm, he was unmatched among heavenly deities, any strike the most terrifying ferocious methods.

That metal person thus collapsed, because its head was removed, moreover blasted apart. It was just a streak of sword energy, but an extremely terrifying metal divine existence was killed.

Huala!

In the lake, metallic luster flickered about. Then, more than ten metal creatures appeared, among them a Suan Ni, Vermilion Bird, Three-Eyed Lion, all different types.

Kacha...

Shi Hao raised his head, electrical radiance shooting up, linking up the heavens as they fired from his five fingers, hacking about. They were just too powerful, dazzling electrical sparks flickering everywhere, thunder and lightning then erupting.

This, without a doubt, produced catastrophic results. Even though those ten creatures were extremely powerful, comparable to heavenly deities, they still couldn’t withstand this power at all.

Peng!

In that instant, they all exploded, unable to persist for a long time, being completely wiped out.

In that instant, the great lake's peace was restored, only heat pervading the air.

Pa!

In the lake, the large black-colored fish moved its tail, immediately raising astonishing waves. Scorching heat roiled, the metal lake in turmoil from its disturbance, in the end completely boiling over.

This was produced by the Kun Peng imprint Shi Hao produced. The great fish produced from great yin force was moving through the lake, stirring up giant waves as it searched for a metal attribute seed.

Chi!

A streak of rainbow light shot through the air. A small cauldron rose up into the sky, about to escape.

The large black fish brandished its tail, and with a shua sound, turned into a divine bird that was several dozen li in length. It rushed out from the water surface, covering the sky and earth as it spread its wings, strong winds sweeping about.

Dang!

That little cauldron was struggling intensely, smashing against the bird beak, wishing to escape.

However, the Peng bird was too terrifying. The bird beak shone, holding it in place. It immediately dove down, continuously shrinking, landing in the young man's palm.

The Peng bird disappeared, only leaving behind a small golden cauldron.

When Shi Hao undid the cauldron's lid, this cauldron turned into metal liquid, thus disappearing. A rhombus crystal appeared in his palm. It was produced from metal, almost transparent.

"Metal dao seed, moreover one of the highest grade!" Qing Yi said with a sigh.

This metal dao seed was extremely rare, within its natural divine patterns. There were all types of symbols covering it densely. If one merged with it, one could grasp metal attribute power.

It could be said that if this seed continued evolving, it would become the best quality metal seed, already about to reach an extreme.

"If you like it, then it's yours!" Shi Hao directly tossed it over to Qing Yi.

Right at this time, a green moon appeared above her head. It scattered down gentle moonlight, and then with a shua sound, it restricted this seed. Metal spiritual essence pervaded the air, completely absorbed by the green moon.

Then, with a kacha sound, this exceptional rare seed shattered, turning into ruined metal, landing on the ground.

"It was destroyed just like that?" Shi Hao was stupefied. If this seed was brought to the outside world, it could definitely be exchanged for a world shocking precious technique, yet it was crushed in the blink of an eye just like that.

"I can feel an exuberant wave of life force store within the green moon!" Qing Yi said. This type of feeling was extremely good, as if she ate a ginseng fruit, all of the pores on her body relaxing and expanding.

The green moon became hazy, slowly disappearing.

"That green moon is your immortal seed, able to devour all types of immortal seeds, definitely not inferior to the World Tree sapling, Five Elements Seed and others!" Shi Hao immediately realized, feeling extremely shocked.

He really was a bit apprehensive. Could it be that Qing Yi really was the reincarnation of Fairy Qing Yue from the last great era? When he thought of this, his head began to pound with thump thump sounds.

"What are you looking at? You better not think any strange thoughts. There's no way I will leave any type of bloodline with you!" Qing Yi's face became slightly red as she spoke like this.

"Have to, need to leave behind the strongest bloodline!" Shi Hao subconsciously said.

Suddenly, a bugle horn sounded, oppressive and stifling. That was a secret treasure Heavenly Deity Institution brought. When it was blown, the sound could simply move the nine heavens, extremely long-lasting and far-reaching.

"Something happened. We should hurry back." Shi Hao said. The elders were gathering the academy's students.

When everyone heard this, they all headed towards a certain destination.

When Shi Hao and Qing Yi hurried over, there were already many people who had arrived. The elders were all here as well, their expressions grave, currently staring at an ancient monument.

There was an enormous monument here that rested on the earth, towering into the clouds. It far surpassed the divine mountains of the ancient times, vigorous and majestic.

The most important thing was that it had five-colored divine light swirling about it, metal wood water fire earth, these five types of foundational energy pervading the air, surrounding it.

This was a piece of Five Elements Stone, within it five types of spiritual essence foundation, a rare divine material. It had been refined into a monument.

The elders summoned everyone just to tell them one thing, that there were quite a few ancient monuments like this on the continent, and they all recorded the same thing.

"Five Magics Seal Heavenly Seed."

Just these few words alone left everyone shocked.

"Someone used five magics to seal a heavenly seed. Since the ancient times, many people have come here to search for it, but they all returned without obtaining anything. However, there were some who deduced a few areas it could be at."

This words stirred up great waves within everyone's hearts. Five magics, heavenly seed, these two terms really left them shocked.

“The so-called five magics should refer to five elements, while heavenly seed should be the unmatched, most powerful seed, or else it wouldn’t make sense, nor would they dare call it something like this.”

Then, the elders began to draw in the void, producing a map of Five Elements Continent. Then, they pointed at a few areas on it. The true heavenly seed might be in one of these areas.

“Is everyone present? We will search them area by area, departing right now!” Fourth Elder said.

Now that they made a new discovery, everyone set great resolutions, truly wishing to obtain that heavenly seed.

In their eyes, the heavenly seed was likely that Five Elements Seed. Of course, there was another even more astonishing possibility, which was that the five elements referred to the five magics, while the heavenly seed was actually something else!

Everyone ascended the warship. Then, a few elders produced a bone material alter, causing it to shine, moreover setting coordinates on its surface.

Hu!

Crazy winds swept about, smoke rising up, fragments of time flying about. Time and space here became chaotic.

With a shua sound, the silver warship disappeared from this place, moving through this world, traveling through the void, heading towards its destination.

After who knew how much time had passed, the silver warship trembled, appearing in a mountain range. Five elements energy surged, rising like smoke signals.

“Yi, this place was strange after all!” Everyone got off the warship, discovering volcanoes all around them. The surging smoke-like five elements energy was all released from the volcanoes’ openings.

In reality, the volcano at the very center could be considered the king of the mountains, emperor of peaks. It was too grand and majestic, and what it released was not only a type of vital energy, there was also water fire wood, many types of energy auras.

“This... don’t tell me this is where that perfect Five Elements Seed is located?” Everyone revealed a look of shock. Things were going just too smoothly.

“You all should just go and search for your own opportunities.” Second Elder said. He and the other elders were also searching.

Everyone was moved. Shi Hao grabbed Qing Yi, displayed the Kun Peng Method, transforming into an enormous Peng bird, and then with a spread of his wings, quickly shot towards the central mountain, being the first to ascend it.

However, right at this time, he felt an indescribable pressure from outer space, making his soul tremble.

Then, a terrifying aura covered heaven and earth. Shi Hao raised his head, seeing an ancient ship wrapped in immortal energy. It carried cold intent as it crushed downwards, directly charging at the center of the volcano.

Hu!

Shi Hao's wings unfolded, bringing Qing Yi with him as he quickly evaded. He definitely didn't want to be crushed by this mysterious warship right above the volcanic crater.

"That is... an ancient ship, why does it carry immortal energy?!" Many people were shocked.

The elders raised their heads. When they saw the ancient ship, all of their expressions changed.

The warship descended, divine might boundless, leaving everyone terrified.

Chapter 1207 - Overbearing

Xiu!

A bronze arrow flew over, tearing through the skies. The air released an exploding sound, carrying a type of ancient and crude aura, as well as a type of unstoppable 'might', instantly flying before his eyes.

Shi Hao was angry. He turned into a Kun Peng, yet someone actually really treated him like some vicious bird, wanting to hunt him down here.

At the same time, he also understood that the one who came was extremely arrogant, even daring to kill a Kun Peng. Regardless of whether the other party saw through his true body or not, it was ridiculously overbearing.

They fired as soon as they saw him, shockingly self-confident and also full of murderous intent!

Weng!

Shi Hao's wings moved about, stirring up heaven reaching powerful winds. His body shrunk, moreover turning into a streak of golden light like a streak of lightning, evading this bronze arrow.

Dong!

Not far out, an enormous volcano was struck by that arrow. It exploded on the spot, magma surging, rushing outwards. Then, everything was restrained by that bronze arrow's power, completely obliterated into scattered ashes.

That arrow's power was great to this extent, truly leaving everyone shocked.

One had to know that this was not an ordinary place, it was Five Elements Continent, protected by the richest five elements foundational spiritual essence. The mountains and valleys were sturdy, comparable to divine treasures.

Meanwhile, this place was even more extraordinary, suspected to be a sealed land. Every single volcano carried powerful divine patterns, sturdy and imperishable.

It was just a bronze arrow that was casually shot out, yet it destroyed a divine mountain here. Everyone was naturally shocked.

"Yi, that furred livestock has some cultivation, actually evading my arrow." A surprised voice sounded from the ancient ship up above.

The ship was extremely large, and also indistinct. It was wrapped within immortal mists, making it look incredibly mysterious, as if it was an immortal precious ship that traveled from the creation of the world.

One could vaguely see blade marks and arrow holes on the ship's body, carrying mottle imprints of time. There were some places that were still carried a copper greenness, as if it had just broken free from some ancient land.

On the warship were a few youngsters, all of them imposing in appearance, the looks in their eyes penetrating. Immortal energy covered their bodies, making them look incredibly intimidating.

They carried immortal dao aura, but it was also extremely domineering. They weren't like the gentle flowers and grass grown in a greenhouse, clearly young experts who had experienced blood and flames.

One of the youngsters wore light blue metal armor, on his back a war spear full of killing intent. In his hands was a bronze great bow, and after producing a bronze arrow from the quiver, he loaded the bow again.

This person's head of purple hair was extremely long and thick, hanging down to his waist. His eyes were like two golden stars, pupils actually cross shaped, brilliant like the edge of swords.

His face looked like it was sculpted with a chisel, possessing a persistent yet coarse and wild temperament. With a light shout, he drew his bow again, saying, "Take this!"

"Are you looking for death?!" Shi Hao shouted angrily. This person didn't stop here, using his vicious weapon again after shooting the first arrow, wishing to kill him, treating him like game.

This type of shout was like thunder, blasting heavenly space until it swayed back and forth, rumbling with noise. Cracking sounds could be heard in the air.

However, Shi Hao's berating didn't make everyone stop, instead releasing the bowstring even more directly. The arrow was like a rainbow as it pierced heaven and earth, the arrowpoint terrifying.

Chi chi chi!

The moment Shi Hao evaded this time, many golden feathers appeared around him, all turning into divine arrows, shooting towards the one who was shooting at him.

As for the bronze arrow, it blasted through five giant volcanoes in succession. All of these were divine peaks protected by symbols, but they still exploded.

"Speed is too fast, he has Kun Peng's extreme speed." The individuals on the ancient ship didn't seem too concerned, discussing things there. Only the face of the one who fired the arrows became serious, his smile fading somewhat, the golden cross in his eyes becoming more penetrating.

The light blue armor on his body shone, protecting him. Moreover, he put away the large bow, the heavenly spear now clasped in his hands, fiercely brandishing about at those divine arrows.

Qiang!

Sparks flew in all directions, large amounts of light surging.

At the same time, Shi Hao returned to human form, descending on a volcanic crater with Qing Yi, now surrounded by rich five elements energy. He glared angrily at the other party.

“Not simple, actually stopping Wu Tai’s divine arrow!”

“Wu, even carrying a girl whose looks are quite outstanding. Yi, I spoke incorrect, a country toppling rarely seen beauty, haha...”

These individuals didn’t have any feelings of regret. Just now, they viciously fired arrows at the other party, and now, they were teasing like ruffians, the expressions in every one of their eyes like lightning as they stared at the two people below.

“Who even are you all? Why would you fire randomly with your bow?” Shi Hao’s face sunk.

Even though he could tell that they weren’t ordinary, not a single one of them simple, Shi Hao still spoke up. This group of people were too domineering, still laughing like this after acting murderously.

“Wu, youngster, I advise you to obediently play your role. Are you provoking us? It’s not like you were really killed, so what are you making a big fuss for?!” One of them shouted.

“Little girl, seeing how pretty you are, why are you staying at his side? Come to our immortal warship, hurry and come up, there are immortal dao opportunities here.”

Those individuals were all roaring with laughter, not treating them with any respect.

Shi Hao’s face immediately darkened. This was just too brash, firing at him, and after failing to kill him, they actually had this type of attitudes, moreover provoking the female companion at his side, not putting him in their eyes at all.

Right now, the others from Heavenly Deity Institution were all stunned as well. When they saw this scene, they all revealed strange looks, feeling doubt inside. Where did this group of experts come from, actually looking down on Huang like this?

At the same time, everyone felt extremely shocked, because that warship was too unordinary, surrounded by immortal energy. They really were intimidated, everyone feeling a wave of apprehension.

Shi Hao produced a bow as well without another word, and then pulled it all the way back. A divine arrow was fired, firing at the warship with a dong sound, the aura astonishing.

“Yi, quite bold, actually daring to fire back!”

This time, those individuals on the warship didn’t take action, instead chanting incantations. The ship shone, a barrier of light surged over there, blocking the divine arrow.

With a chi sound, the divine arrow was burned to ashes, scattering down.

“Who is attacking my warship?”

The ancient ship was extremely large. An aged voice sounded from the ship, possessing a type of awe-inspiring might. Shi Hao’s arrow activated the defenses, disturbing the others in the ship.

“Apologies for disturbing the elder. It is just a wild brat, not worth mentioning.” One of those youngsters said nonchalantly.

Right now, Heavenly Deity Institution’s elders had all appeared, walking up together. They looked at the ancient ship that was overflowing with immortal energy, their expressions serious.

After carefully sizing it up, Fourth Elder opened his mouth, asking, “May I ask if these are Immortal Academy’s dao friends?”

The students near the volcano were all shocked. This ancient warship came from Immortal Academy? Didn’t this mean that this was the place they were heading towards in the future?

Sacred Academy and Immortal Academy were isolated from the world, rarely did their disciples make an appearance, because they were all secluded within pure lands, only recently did they recruit disciples, choosing from Heavenly Deity Institution.

A few people looked towards Shi Hao, revealing strange looks. They had just met, yet Huang already offended a few experts from Immortal Academy, even though the events couldn’t really be blamed on him.

A fluctuation sounded from the warship, the sealed cabin door opening. A few elders walked out from within, even more aged than Heavenly Deity Institution’s elders, beard and hair white like snow, to the extent where some of them already lost all of their hair, wrinkles folding over each other as if they were scrunched together.

These individuals’ ages were terrifyingly great, but every one of their spirits were still vigorous and healthy, eyes like golden lamps. Their bodies contained astonishing life aura, all of them extremely powerful.

Moreover, this was still the result of them forcefully restraining their auras. Otherwise, once the true fluctuations were released, all of the youngsters might vomit blood and collapse, finding it too difficult to endure.

These were old freaks, all of them possessing paramount power. None of them were weaker than Second Elder, ridiculously powerful.

They came from Immortal Academy, an unmatched holy land for cultivating the ancient methods. All of them researched Immortal Ancient methods carefully, this place also having many ancient texts, exceptional immortal scriptures, and an environment even more suited for cultivation.

“Turns out it is dao friends from Heavenly Deity Institution. We were just about to pay you all a visit, never expecting to run into you here.” A white haired elder who was comparatively not as ancient spoke. At the very least, he still had hair, moreover quite thick, only that it was snow-white. However, his complexion was still quite good, his face suffused with red light.

“A misunderstanding, we are all on the same side.” Heavenly Deity Institution’s Fourth Elder said.

As people from the Nine Heavens Ten Earths, a battle impending where they had to fight side to side, some of Heavenly Deity Institution’s elites even being chosen to enter Immortal Academy, their relationship was naturally not ordinary.

Only, the disciples were destined to be chosen, taken away, making Heavenly Deity Institution's elders feel a bit unhappy, but there wasn't much they could do about this.

"Who hasn't been young before? Back then, weren't we like this too? A clash between younger generation, having an unyielding spirit, this isn't necessarily a bad thing." An elder from Immortal Academy said with a smile.

It was clear that there was no way the old monsters didn't sense what happened just now, just that they allowed it to play out.

Shi Hao felt extremely dissatisfied. Regardless, he was shot at by someone for no reason, so there was no way he could be as magnanimous as treating the situation as if nothing happened. The expression on his face was not good.

"You aren't that bad, if you work a bit harder, you might become our junior brother." Those youngsters roared with laughter, not apologizing at all.

At this moment, quite a few youngsters walked out from the ship, every one of them promising and outstanding individuals. There were heroic young men and also pure and beautiful young ladies, all of them exceptional, carrying immortal energy.

"You can bring that girl with you, come and have a chat on the ship, get a little close to us." The young man who fired the bow previously snickered, clearly ridiculing Shi Hao no matter how one looked at it. Instead of calling it an invitation, it was better to say that he was asking Shi Hao to send Qing Yi over.

"Who do you think you are? You think you have to qualifications to tell me what to do? Immortal Academy's disciples really are something! If you come down from the ship, I'll break all your bones and snap your muscles!" Shi Hao was too direct, responding fiercely.

Chapter 1208 - Directly Expression

It was because this not only concerned his own image, it was a direct expression of his 'true self'. His dao heart was not restricted, not feeling any fear when facing great power.

There were some things that could be endured, while some provocations had to be directly faced. He didn't believe that the old monsters of Immortal Academy would be extremely partial if there really was conflict.

These individuals continuously made things difficult, so if he withdrew once more, what so-called unmatched conviction would he have left? They were all nothing more than academy disciples, so what was there to fear?

However, in everyone's eyes, this was no small matter. He was actually challenging Immortal Academy's disciples like this, leaving everyone shocked. They all stared blankly at him.

This was especially the case with Heavenly Deity Institution's students who felt even more conflicted. They cultivated the ancient method, the best of them destined to choose Immortal Academy, yet this academy's people were offended before they even entered. In their eyes, the results of this were definitely far from reassuring.

“Are you speaking to me?” Wu Tai returned the heavenly spear to his back, the copper core bow held in his hands, body covered in light blue armor. He stood on the ship, lowering his head to look below.

The atmosphere immediately became tense. There was going to be an intense clash after they had just mediated the situation!

“That youngster really doesn’t know how to play his role. It’s not like we really killed you. Aren’t you still properly standing there? Why would you feel so upset?” One of those individuals also spoke indifferently.

Chi!

When Shi Hao raised his hand, a golden war spear appeared in his palm. This was completely condensed from lightning, bright and dazzling. With a shake of his hand, the war spear aimed straight up.

Then, Shi Hao began to move. His waist turned, and then his arm flung out. The golden war spear flew out, as brilliant as a stellar river.

It was too fast, tearing through the sky, rushing at the ancient ship above, directly flying towards Wu Tai and the others. Its aura was astonishing, carrying large amounts of lightning.

“Audacious!”

One of them shouted, producing a precious artifact, a precious vase. It released fiery light that raged about, smashing into that war spear. Endless symbols erupted between the two, noises ringing out continuously.

Meanwhile Wu Tai even more so fired his bow, shooting out a bronze arrow to stop this spear of lightning.

When things calmed down, those individuals’ expressions were all not good, one of their faces even sinking, saying, “Are you looking to die? Attacking us like this!”

“Wild brat, you don’t know how to appreciate others’ kindness! Do you think you are that good, using violence in front of us?!” Wu Tai berated.

“Do you all feel humiliated? I am only returning the favor. Just now, this was how you all dealt with me, attacking like you were dealing with a random vicious bird!” Shi Hao said coldly.

“Even someone like you dare treat yourself on equal terms with us?!” Wu Tai’s shout cut him off.

“Moron, you think you are anyone special? If you can’t accept it, then come down here. I already said that I was going to beat you until your bones break and muscles snap, those words were definitely not spoken just for show!” Shi Hao pointed at him.

This produced an uproar. Regardless of whether it was Heavenly Deity Institution’s students of Immortal Academy’s students, they all revealed shock. Huang had already set his resolution to take action.

Wang Xi, Lu Tuo, and the others were quietly watching, waiting for him to take action, hoping to see him fight a great battle against Immortal Academy’s people.

Qing Yi was quite worried. Those were Immortal Academy's disciples, yet before he entered, he already offended them. The consequences of this were hard to imagine.

As for the two academy's elders, they temporarily didn't say anything, their eyes narrowing slightly, calmly observing the situation.

"Who is this person? So egotistical, do you think my Immortal Academy has no one in it? Actually provoking us like this, what skills does he even have?" A young lady on that ancient ship said quietly.

"Most likely because he's unconvinced about our Immortal Academy reputation, wishing to make a name for himself through this battle." A young man said.

"Does he really think there's no one in my Immortal Academy, even any random person daring to challenge us. Wu Tai, go down and fight him, you definitely have to obtain a great victory!" Someone said with a loud voice.

Of course, there were people who knew the course of events, saying, "Sigh, this time, Wu Tai and the others were the first to provoke the other party, can't be blamed on him for fighting back."

"Wu Tai, you have the azure armor on you, so defeating that person isn't a problem. Teach him a lesson!" Someone among those individuals spoke.

Wu Tai nodded, his face cold and stiff. His head of purple hair flew about, cross shaped golden stars appeared in his pupils. With the war spear on his back, copper core bow in his hand, he immediately jumped off the ship and descended.

"Who do you think you are, daring to speak so recklessly here? Let me tell you, not any random dog or cat can challenge Immortal Academy's dignity!" Wu Tai shouted.

"Even a little shit like you can represent Immortal Academy?!" Shi Hao only spoke a single sentence, and then he leapt out fiercely towards Wu Tai.

Chi!

Wu Tai's eyes narrowed, astonishing radiance shooting out from his cross shaped golden star eyes from time to time. He continuously drew his bow, shooting at Shi Hao.

In addition, this time, he used all of his strength, divine arrows firing like streaks of rainbows, every single one releasing wuwu sounds, shattering the sky. They were all rarely seen secret precious artifacts.

Shi Hao didn't dare act carelessly, because he discovered that the arrows that were fired this time were definitely no trivial matter, not refined by experts at the heavenly deity level.

"Wu Tai, kill him! When dealing with this type of lunatic, there is only suppression!" His companions shouted, cheering him on.

"Shoot him down with divine arrows, impale his body with a single shot!" The shouts were like thunder, those individuals all shouting out.

Heavenly winds swept about. Shi Hao turned into a Kun Peng, but this time, it didn't cover heaven and earth, but was only a zhang in length, inconceivably fast. It moved its wings below the skies, circling in the air and approaching Wu Tai.

Hu!

A ferocious claw instantly tore through the skies, making that place explode. Rumbling sounds rang out.

Everyone was shocked. This type of speed, these types of methods were ridiculously powerful. How could normal people dare face it head on?

If not for the sect master level weapon in his hands, using the secret bow, making it hard for Shi Hao to immediately attack him, he would have likely been in great trouble.

"Since you are turning into a furred livestock, then I will help you accomplish your aim, draw my bow and shoot down the Peng!" Wu Tai's expression was cold, becoming more and more vicious. He produced a scarlet red arrow that was different from the bronze arrow before.

"Fire!" He shouted loudly, letting go of the bowstring. A string of blood immediately surged, that arrow as if possessing demonic power. Scarlet multicolored light overflowed, the scene incomparably terrifying.

This arrow had all types of symbols engraved into it. It appeared in the void, directly attacking at Shi Hao!

"Divine Will Soul Imprisoning Arrow!" Someone from Heavenly Deity Institution cried out in alarm, recognizing what kind of arrow this was.

This was a magical arrow refined by a great individual. Its power was exceptional, the one who fired could infuse a bit of divine will into it, able to lock onto the other party's primordial spirit, the arrow not stopping until it struck its target.

It was clear that this arrow was refined by an extremely powerful expert. Once it hit Shi Hao, it would definitely erupt with heaven shocking might.

Hong!

Shi Hao turned into a Kun Peng, continuously dodging, piercing through the sky several times. He was like a golden streak of lightning, speed fast to the extreme, everyone's eyes unable to keep up with his movements.

"Hurry and dodge!" A few people cried out in alarm from the ancient ship.

"Too fast, that Kun Peng is already before you!" Someone loudly shouted in warning.

Wu Tai wasn't an ordinary person, his reaction speed extremely fast. He no longer continue shooting, instead brandishing the longbow in his hands, hacking forward. This bow released astonishing brilliance, erupting with heaven overflowing killing energy.

Xiu!

Shi Hao turned around, his wings moving, brushing right past him, not diving down and tearing at his opponent.

Wu Tai's eyes were cold. The longbow made a turn through the air, returning into his hands, preparing to launch another attack.

However, with a weng sound, his ears rumbled, the sound of air exploding sounded. A Kun Peng appeared again, and this time, it possessed unprecedented swiftness, immediately transforming and emerging, symbols pouring over like a great wave.

Behind Shi Hao, that scarlet arrow chased after him the entire time. However, he didn't pay it any attention. He first attacked Wu Tai, as long as he could seriously injure him, this arrow would definitely be destroyed.

Dang!

The longbow released a loud sound. Wu Tai brandished it again, facing Shi Hao's attack head-on.

In that instant, thousands of great claws descended, the Kun Peng's sharp claws attacking over a thousand times, all of them landing on the great bow, all the most complex symbols.

Wu Tai's body was greatly shaken, his complexion becoming scarlet red.

In reality, this was only the first wave of attacks, just the supreme yang precious technique Shi Hao activated. What followed was the supreme yin side, a black giant fish emerged, bringing a black sea behind it, covering heaven and earth, locking down Wu Tai's body, affecting his speed.

Peng!

Wu Tai relied on the azure armor on his body, activating a secret method, producing a water blue barrier of light to stop these attacks.

However, in the final moments, his body still shook greatly, and then flew out diagonally, suffering a heavy blow!

That was the result of Shi Hao's Kun Peng transformation's divine wings hacking down, too powerful, unstoppable. His body continuously shook.

"This person is so strong, his comprehension reaching this kind of level, the profound mysteries of the Kun Peng fully grasped, yin and yang complementing each other, deriving the primal chaos, close to transcendence, comparable to an ancient heavenly method!" Someone said with shock.

Shi Hao turned into a divine bird, his wings moving, one wing blazing with golden light, one pitch-black like ink. Right now, both wings clashed tightly, yin and yang energies pervading the air, erupting with the most terrifying chaotic light!

Honglong!

Another strike was delivered. Wu Tai released a loud cry, the longbow leaving his hand, the barrier of light produced by the azure armor on his body shattered. Blood was coughed out from his mouth, body smashed into a volcanic crater.

During this process, Shi Hao's speed was even faster, turning into human form, a pair of wings on his back as he dove down fiercely.

Peng!

Shi Hao stepped on Wu Tai's chest, trampling him into the volcanic crater's magma. With a putong sound, large amounts of lava surged.

Chapter 1209 - Savage After a Bit of Success

Red magma splashed out, carrying scorching heat as it landed on the ground, burning the ground surface scarlet red. Quite a few areas turned into lava as a result, releasing chi chi sound as they flowed about.

There were divine symbols inside of this volcanic crater, carrying divine force, definitely not a place that could be underestimated.

Shi Hao stepped on his chest, following the volcanic crater into the terrifyingly red liquid. Roiling heat surged. If not for his flesh being so powerful, he would have long turned into white bones, his skin and flesh even more so immediately being burnt off.

Putong!

Wu Tai struggled, his arms and legs moving, sending red magma flying in all directions, trying to break free from Shi Hao. Being stepped onto the volcano's magma with a single foot was too graceless of a stance, a type of humiliation.

Shi Hao's right leg moved, releasing a spiral wave of power, the great yin and great yang energies interweaving together to form a wave of miraculous power, the might incomparable.

Wu Tai felt intense pain from his chest, his bones as if broken. Blood sprayed out from his mouth, the same color as the magma. When they mixed together, one couldn't be distinguished from the other.

Only, one was warm, carrying a fishy smell, while the other was blazing hot, able to burn a person to ashes.

Even when someone as powerful as Wu Tai struggled in the magma, he still felt a blade-like pain, this red liquid containing murderous energy, carrying mysterious divine patterns.

Hong!

Wu Tai's long hair stood on end as he struggled intensely, sending the magma splashing out several hundred zhang into the air, as intense as if the volcano was erupting, lighting up all of the nearby topography.

Shi Hao remained unmoved, rising and falling with his movements. That wave of spiraling power destroyed his opponent's vitality.

Ah...

Wu Tai screamed. The scarlet liquid immediately poured into his mouth, delivering intense pain, and even more so a feeling of humiliation. Who was he? He was Immortal Academy's direct disciple, a

brilliant student taught by old monsters, yet he suffered humiliation here, being trampled on into the mountain, intolerable!

Weng!

As if cicada's wings were lightly sounding, azure multicolored light shot in all directions. This was especially the case in the red magma, everything becoming even more misty, carrying a type of brilliant radiance.

Dong!

Great waves surged into the heavens. Wu Tai finally struggled free from Shi Hao. He was like a furious demonic god, messy hair flying about, the golden cross in his pupils even sharper.

"It's the azure armor!" The ones who were currently observing the battle were pleasantly surprised.

noVe-1b(1n

"I knew that the situation would be turned around. How could Wu Tai be that easy to defeat?!" Someone roared with laughter.

"Even though that wild brat is quite strong, how can he compare to my Immortal Academy? In the end, he will still be suppressed. Not just anyone can challenge my Immortal Academy!" There was someone else who continuously sneered.

Shi Hao remained calm. He stood on the volcano, his long hair flying on their own even though there was no wind. On his back was a pair of Kun Peng wings, chaotic energy surging. His appearance was incredibly calm, as if he was a prehistoric divine mountain, unmoving, his imposing appearance intimidating.

On the other side, Wu Tai stood in the void, lava continuously flowing out from his body, his expression ice-cold, eyes deep. He was truly angered, actually suffering this type of humiliation.

"You dare step on my chest!" He removed the black heavenly spear from his back, pointing it forward.

The expression on Shi Hao's face was indifferent. "So what? I already said that I am going to beat you until your bones are broken and muscles snapped. You think you are anyone special?"

Honglong!

Wu Tai's hands held the war spear, hacking it down, directly splitting the skies. A terrifying great crack appeared, dividing this heaven and earth into two.

It was too ferocious, fighting strength astonishing!

The volcano below was immediately cleaved in half, roiling scarlet liquid splashing out, surging towards the mountain region, the scene spectacular, as if a terrifying mountain torrent had erupted.

As for the sky, it was even more terrifying, full of terrifying attacks. All things perished wherever killing energy passed.

Everyone who watched this battle couldn't help but feel their hearts beat, their skin turning cold. Those who were behind Shi Hao all quickly moved out of the way out of fear of getting caught up in the blastwaves.

Shi Hao's body shifted out, his speed inconceivably fast, avoiding this strike. The crack in the skies didn't close for a long time, the power of that heavenly spear making one's body shake in fear.

"A bit strange, even someone like you can display this level of power." Shi Hao's expression was calm. Even though he was a bit surprised, he still didn't feel any apprehension.

Black patterns covered Wu Tai's face, some produced by techniques, some due to anger. The other person looked down on him like this, showing this kind of contempt, implying that he didn't care much about this amount of power at all.

"Courting death!" He released a light shout, brandishing his heavenly spear again, gathering astonishing power that surged like shocking waves.

"Is it really the power granted by that armor?" Shi Hao looked at the armor covering him, but he didn't sense any astonishing auras.

However, that armor was quite beautiful, blue-gold brilliance flickering about like waves, moreover scattering down streak after streak of immortal flower-like multicolored light.

On that armor were all types of markings, many of them flower petal markings, as if it was a metal tree that produced flowers, possessing a type of gorgeous beauty.

Hong!

This time, the heavenly spear's power erupted as expected, even more terrifying than before. It hacked open heaven and earth, splitting one into two. Moreover, it erupted with the endless symbols, as if golden rain scattered about, no distance it couldn't cover!

Shi Hao frowned. It was just an armor, so how could it increase a person's strength for no reason? He was a bit confused.

In reality, previously, it was precisely because of the defenses of the armor on Wu Tai's body that protected him, or else his chest would have long been trampled through by Shi Hao's stomp, no way he could live.

"Kill!"

Wu Tai charged forward, looking more and more ferocious, his boldness unstoppable. The heavenly spear in his hands shattered the void, nothing it couldn't overcome.

Shi Hao didn't try to block it, instead observing from the side. He displayed the Earth to Inches divine ability below his feet, avoiding it. Those who were watching thought that his withdrawing was an act of weakness.

Wu Tai even more so revealed a sneer, feeling that Shi Hao didn't dare fight against him in his current state, coldly saying, "Nothing more than this!"

Chi!

Then, while holding the war spear, he brandished it about again. In that instant, three strands of immortal energy surged from him, turning into sharp radiance, winding about the heavenly spear, becoming more and more terrifying.

Honglong!

This heaven and earth were shattered by the heavenly spear, his heroic appearance incredibly terrifying. Immortal mists unfolded, making him look like a matchless demonic god.

“How frightening, a young supreme being who has three strands of immortal energy after all. No wonder he is so powerful! We already had our suspicions!” Heavenly Deity Institution’s side sighed.

They couldn’t help but sigh. The first person that came off that warship was already this formidable, a young supreme being, so they could imagine that those who were standing with him were definitely not weaker.

“Worthy of being the azure armor borrowed from Little Sky King, seizing heaven and earth natural luck, immeasurable. Wu Tai will definitely win!” Many people said quietly on that warship.

“Die, or submit, you have these two choices!” Wu Tai shouted. He rushed at Shi Hao, his entire body erupting with blue light, flower petals appearing from his armor one after another, sparkling and replete with moisture.

He himself was extremely dazzling as well. With the war spear in hand, he shouted, “What kind of place do you treat my Immortal Academy as? Daring to challenge us, today, I will teach you through battle accomplishments that not any random cat or dog has the qualifications!”

“Really is acting savage after just a bit of success, did you forget your experience just now, of being trampled into the volcano?” Shi Hao spoke indifferently.

“Kill!”

Wu Tai’s expression was ice-cold, his eyes malicious. He only said the word ‘kill’, rushing forward, his war spear almost burning, divine force surging, releasing dazzling radiance.

Shi Hao no longer evaded. He was sure that the armor was strange, not wishing to give this person another opportunity, instead wishing to quickly seize the precious armor.

Hong!

Immediately afterwards, Shi Hao’s body erupted with endless light, all of it lightning radiance, merging together with the Kun Peng wings behind him. Moreover, his shoulders and arms also became like this, dazzling and brilliant, lightning rumbling about.

Shi Hao used two types of precious techniques, merging them together. He began to take action ferociously.

Dang!

Shi Hao received the heavenly spear with his bare hands, his fingers like clamps cast from Immortal Gold, firmly pressing down on the heavenly spear's blade from both sides. Then, with a fierce twist, this divine weapon immediately warped, already deforming!

Everyone was shocked. What kind of power was this? To use a hand to face a divine weapon's blade, he was strong to the point of leaving them speechless, their minds all trembling.

This heavenly spear was a rarely seen secret treasure, long developing a spirit. Right now, it struggled intensely, while Wu Tai's expression changed even more. He never expected Shi Hao would be this freakish, actually bare-handedly stopping the heavenly weapon's sharp blade.

"Break free!" Wu Tai shouted, activating all of his strength. Azure light flowed out, supporting his arm. The three strands of immortal energy became even more terrifying.

Shi Hao's eyes became cold. His arms moved, and with a kacha sound, he bare-handedly snapped this divine weapon!

Dang!

His hand moved, flinging the heavenly spear's sharp portion out, the blade stabbing into a volcano.

At the same time, lightning poured down like a waterfall, erupting from his palm, rushing at Wu Tai through the war spear, immediately covering him in symbols, suffering the hacking of lightning.

Everyone became stupefied, as if they were looking at a ghost. This type of physical strength was too freakish!

Even the protectors' descendant Dugu Yun was speechless. Their bloodline was known to be one of the four great unmatched bloodlines, when their blood surged, it would split heaven and earth, able to kill the divine, yet their physical strength still wouldn't be more than this, right?

Wu Tai did everything he could to resist, protecting himself with three strands of immortal energy, using the azure armor to resist. All types of mysterious symbols surged.

Hong!

The Kun Peng wings on Shi Hao's back were incomparably large. While merged with lightning, they hacked down like heavenly blades, slicing forward, directly blasting Wu Tai's body.

The azure armor shone, blocking this terrifying power. Wu Tai coughed out large amounts of blood, his body flying outwards, suffering a serious blow!

If the armor wasn't there, he would have definitely been hacked apart!

"How could it be? You also cultivated three strands of immortal energy?" Wu Tai shouted.

"Is three strands of immortal energy all that special?" Shi Hao said to himself. In his surroundings, three thick strands of immortal energy surrounded him, making him look like a True Dragon that emerged from an abyss, his imposing might shocking the world.

Ka!

Shi Hao formed a fist imprint, lightning surging, moreover suffused with Kun Peng power. This was the combination of two types of precious techniques, ferocious and incomparable, not much that could stop it.

His fist imprint directly smashed down on Wu Tai's body, making his body release pi pa sounds, many of his bones breaking, even the azure armor unable to stop it.

Ah...

Wu Tai screamed in pain, the intense pain difficult to endure. He knew that things were bad. The other party's power was too strange, rushing about chaotically in his body, symbols surrounding him like a tide.

Peng!

Shi Hao's foot lashed out, smashing into his body like a steel mallet, sending him flying out again, crashing into a volcano.

Wu Tai's face warped, his entire body contorting. This kick made him almost lose all of his fighting strength, because there were at least several dozen bones that were broken, even his primordial spirit becoming unstable.

Shi Hao released a light shout, and then when he raised his hand, lightning converged into a large hand, grabbing Wu Tai. At the same time, there was a Kun Peng Claw that was removing his armor!

"No! This is Little Sky King's armor, you cannot touch it!" Wu Tai shouted. He was now panicking greatly. If he lost this armor, there was no way he could explain it, unable to continue living.

Chi!

Blue light flickered about. The armor separated from him, making his expression pale.

Moreover, at this time, Shi Hao discovered that something strange happened. One strand of immortal energy disappeared from Wu Tai's body, only two strands left.

"The armor is this miraculous?!" Shi Hao was shocked.

Then, the three strands of immortal energy around his body spun about, blasting at Wu Tai. With a pu sounds, half of this person's body was crushed, falling into the volcano.

Shi Hao revealed a strange expression. This person's strength was so weak, originally only having two strands, only because of this armor could he obtain three strands?

Wu Tai's face was like earth and ashes as he looked at Shi Hao, full of a defeated feeling. He originally thought that by relying on the armor's strand of immortal energy, he could look down on this person, but he never thought that before this person, what he was most proud of was nothing. That person had three strands of immortal energy himself.

Peng!

Shi Hao trampled down. Wu Tai felt his damaged body break apart inch by inch, completely unable to withstand the power of a young supreme being with three strands of immortal energy.

Chapter 1210 - Brave Person

Many people on Immortal Academy's warship cried out in alarm, especially those young individuals who previously stood together with Wu Tai. "Stop!"

Peng!

When Shi Hao's foot dropped, even an archaic demonic mountain would be flattened beneath, so how could Wu Tai, a flesh and blood body, be able to withstand this power?

Pu!

In that instant, Wu Tai's body burst, breaking apart inch by inch, turning into a bloody mist.

Then, only a head was left, carrying fear and alarm, face pale. His lips opened and closed, truly scared badly, difficult for him to even say a word.

Shi Hao pulled back his hand, not taking his life. After all, there were a few old monsters watching. If he truly took vicious action, he would likely be stopped.

"Audacious!"

On Immortal Academy's warship, those people reacted. The individuals who were close to Wu Tai all berated, pointing at Shi Hao.

"You actually dare do this type of thing, injure my academy's disciples in front of the elder's faces? Are you looking down on my Immortal Academy?!"

"Where did this wild brat come from, actually challenging Immortal Academy's dignity, doing such savage things, killing Wu Tai until only a head remains? We won't tolerate this!"

Those people were all shouting loudly, directly blaming Shi Hao for many things. All of them shouted like they were passing judgment from a high position, berating Shi Hao for his dishonorable actions, about to discipline him.

"So noisy, what are you all making a racket for? Less nonsense! If you can't accept it, then just come at me!"

When faced with this berating, Shi Hao only had this line, simple and forceful, domineering and cold. He directly declared that anyone who was unconvinced could feel free to come and fight him.

Everyone from Heavenly Deity Institution looked at each other in dismay. They understood Huang, knowing that his dao methods were profound, rarely encountering worthy opponents, but they didn't think he would be this bold, not showing any fear when facing Immortal Academy's people, instead directly beating them up, not putting them in his eyes at all.

One had to bear in mind that Heavenly Deity Institution's disciples all longed for Immortal Academy, hoping that they would be chosen, some long making preparations, even having plans to make friends with the disciples of this academy.

However, Huang instead acted as he pleased, powerfully suppressing a disciple of Immortal Academy. Compared to them, he was ridiculously fierce, not viewing Immortal Academy favorably from the very start.

“You really are daring, are you challenging my Immortal Academy’s experts?!” Those individuals’ faces had long changed, one of them even more so acting fiercely, looking at the others on the warship in hopes of inviting the most powerful disciples to suppress this vicious individual.

At this moment, none of those old monsters said anything, watching quietly this entire time. Only, a flash of light occasionally passed through their eyes.

As for Heavenly Deity Institution’s elders, they also remained calm, not interfering.

“What are you all still speaking such nonsense for? Isn’t talking so much just a reflection of your lacking in confidence? If you all really dared, then you would have already come down to fight. Otherwise, stop barking!” Shi Hao was not polite at all, his words sharp, ridiculing those individuals, a look of contempt and despise on his face.

“Wild youngster who doesn’t know the depths of heaven and earth, you’ve humiliated my Immortal Academy, do you really think there’s no one who can deal with you?” One person berated.

“At the very least, you all aren’t enough. If you all really are scared and don’t dare fight me alone, then you can come at me a few at a time. I’ll even give you the chance to surround and attack me!” Shi Hao said, extremely brash and confident.

“Cut him down!” Those individuals really didn’t hesitate, immediately taking action. They all produced magical artifacts to suppress Shi Hao.

They were all secret treasures, all sparkling and brilliant, extremely powerful!

With a raise of Shi Hao’s hand, the bronze core bow that had fallen to the distance entered his hands. He directly drew the bow and fired towards the sky, sou sou noises sounding, the divine arrows like streaks of rainbows!

Hong!

Intense explosions sounded from the skies. There were some magical artifacts that were overturned, and some secret treasures that were shattered, the sound deafening.

“Too lacking. You don’t dare come down, right? Only daring to release weapons from the ship, truly shaming Immortal Academy’s reputation!” Shi Hao laughed loudly, mocking them in a completely undisguised manner.

When these words sounded, regardless of whether it was Heavenly Deity Institution’s people or Immortal Academy’s disciples, their attention became focused on this individual.

“What are you acting all unbridled for? Hand over your life!”

There were immediately two people who leapt out, attacking at Shi Hao together. It was because they were already mocked to this extent. If they continued to shrink back, it really was inexcusable, a type of humiliation.

Even though they knew they weren't a match, the two still chose to fight. Even if they were defeated, suffering serious injuries, it was still much better than being looked down on by others.

It was clear that they overestimated their own strength. Even though they used secret treasures that exceeded the Heavenly Deity Realm, giving Shi Hao quite a bit of threat, under his extreme speed, all of the attacks were avoided.

Chi!

A streak of sword light flew out, and then with a pu sound, one person's chest was pierced through, bright red blood flowing, a ghastly sight, a bit intimidating.

Shi Hao was also unhesitant, exceptionally powerful. His fingers were like swords, sword radiance immediately rushing into the heavens, directly seriously injuring one of them.

"You..." That person's face became pale from alarm, staggering backwards, quickly evading. However, Shi Hao was like a vicious tiger that descended a mountain, like a hidden dragon that leapt into the skies, powerful like a rainbow, impossible to withstand. He was going to unleash a great massacre.

The other person rushed over to help, but as a result, he was cut by Shi Hao's attack until blood gushed out, his stomach hacked open.

"Chaos Calming Art?!"

Everyone cried out in alarm, their faces becoming serious, simply unable to believe their own eyes. Wasn't this the long life family Wang Family's sect protecting extreme art? It was the greatest inheritance, so how could he have it?

"Are you someone from the Wang Family?" One person asked.

"I am not!" Shi Hao replied, simple and forceful. He brandished the sword radiance again, hacking forward.

In the distance, Wang Xi was quite sullen. This was definitely not the Chaos Calming Art, but it looked extremely similar. It was clearly an extreme method Shi Hao imitated and displayed here.

The reason he had this type of power wasn't because the sword art was extraordinary, but because that person was too powerful. When he brandished the sword energy, what was activated wasn't the sword art's own true meaning itself, but other precious techniques.

"Kill!" After those two were seriously injured, they shouted loudly, carrying out the final struggle.

Shi Hao's expression was indifferent. When those precious treasures that exceeded the Heavenly Deity Realm became ineffective against him, unable to hit him, that meant that it was time for this battle to end.

Chi!

A streak of sword energy surged, simply as if it connected heaven and earth. With a pu sound, one of them was cut right in half at the waist. Blood scattered outwards, half of his body falling onto the ground.

“Ah...” That person screamed miserably. The head on the upper half of his body was still there, his face deathly pale, the intense pain making his face warp. He already lost all fighting spirit and combat strength.

Pu!

Almost at the same time, another scream sounded not far out from the other person. His head was removed by a streak of heaven reaching sword energy. The sword energy entered his body, making the body that was separated explode.

Clean and efficient, two great experts had their bodies completely destroyed.

Together with Wu Tai, three great experts had now fallen here, all of them only having their heads left, without any strength to fight.

Everyone erupted into an uproar. This fella was decisive and direct, continuously cutting down three expert, his brows not even frowning during this process.

“Are you all convinced now? How about you all come down to exchange pointers too?” Shi Hao spoke, looking towards the ancient ship.

There were still three individuals left, all of them people who previously stood together with Wu Tai. Just now, they didn’t come down to participate in the battle, all of them still standing there, not willing to take the risk.

At this time, when they heard Shi Hao’s challenge and mockery, their faces turned green and red, unable to argue back, all of them becoming quiet.

At this moment, they were unable to respond, mocked until they couldn’t show a temper. Otherwise, were they really going to fight? They were definitely going to suffer a similar great defeat.

Shi Hao laughed coldly, no longer paying them any attention. This type of quiet temperament made them feel even more embarrassed.

There were some who even though they were also disciples of Immortal Academy, felt like these individuals were too unsightly. Taking the initiative to provoke things was one thing, but they were suppressed instead, stupid and cowardly to this extent.

“Truly inviting humiliation onto yourselves!”

“Are these my Immortal Academy’s disciples? Unable to even take down a single youngster, utter trash!”

There were people from Immortal Academy who couldn’t hold it in, harshly criticizing, feeling embarrassed for them. At the same time, they felt a wave of discontent, felt like that youth not only won over those individuals, but was also losing face for Immortal Academy.

As for Heavenly Deity Institution’s students, they all revealed looks of surprise. There really wasn’t much to say, Huang really was a fierce person, actually like this.

"We've lost, there is nothing to say about this. Can you return the azure armor?" One person on the ancient ship said in humiliation, not daring to fight, instead asking for that armor.

It was to the extent where they didn't even ask Shi Hao to first let Wu Tai and the other two go, because they believed that with the old monsters here, it would be difficult for those three to really die.

"This is my spoils of war, why should I give it to you all?" Shi Hao said coldly.

He already saw that this armor was an ancient object, actually able to grant Wu Tai another strand of immortal energy, its power immeasurable, worth researching.

"You... this is Little Sky King's armor, yet you want to take it for yourself? Just pull back here!" The expression of one of them changed.

"What Little Sky King, have I ever seen him before? I only know that I obtained some spoils of war from Wu Tai's hands, won't discuss anything else!" Shi Hao's tone was firm.

All of the disciples from Immortal Academy felt their minds pound, many of their expressions changing. What kind of background did this fella have? Could it be that he really was going to provoke Little Sky King?

Even those old monsters' expressions changed, narrowing their eyes.

Heavenly Deity institution elders' minds jumped. They clearly knew about that individual named Little Sky King.

"Elders, please help us retake the azure armor." Finally, one of them couldn't take it anymore, asking the old monsters to get involved.

"Cough, youngster, this armor has long recognized an owner. It won't be too useful in your hands." An old monster really did open his mouth and ask for it, clearly attaching great importance to this divine armor, not willing to let it fall into the hands of outsiders.

"Thank you for senior's reminder, but I still wish to research it a bit." Shi Hao calmly replied.

That old monster was speechless. Was this a pointer? This was clearly asking for it back, hello?!

On Heavenly Deity Institution's side, regardless of whether it was Yao Yue, Wang Xi, or Lu Tuo and the others, they were all a bit speechless, but they had no choice but to acknowledge this fella's boldness, really not scared of anything!

Those on Immortal Academy's side were thinking similarly. Who was this fella? He really deserved praise for his courage, not listening to the old monster's urging. Could it be that he really wanted to fight a great battle against Little Sky King?

Right now, there were some who revealed hostility, but there were also some that felt admiration, their eyes blinking as they continuously looked at him.

At the same time, a few people walked out from the shiphold again. There were some young men and women who were especially eye-catching, as if they were the children of heaven, their bearing

extraordinary. The men were heroic and tall, women exceptionally beautiful, all of them currently looking towards Shi Hao!
