

Perfect WD 1211

Chapter 1211 - Opposing the Five Elements

These individuals were all extremely strong, their appearances deep and enigmatic. Immortal mists scattered around their bodies, not in strands, nor streaks, pervading the air just like that, making them look mysterious and extraordinary.

On Heavenly Deity Institution's side, everyone was shocked. What kind of scene was this? It was extremely similar to a certain recording in historical texts, the effects of cultivating unmatched mysterious techniques.

"Immortal Academy is formidable after all, grasping immortal dao secret texts, these core disciples all obtaining the true inheritance, immortal energy long merging with the dao, all children of heaven!" An elder from Heavenly Deity Institution said with a sigh.

This made the minds of the academy's disciples all shake greatly, because this type of evaluation was too high! Even Lu Tuo, Wang Xi, and the others were rarely praised like this.

"Just some achievements while young, they are still far too lacking. There seem to be a few good saplings from Heavenly Deity Institution though. If they are carefully nurtured, they will quickly emerge from cocoons and become butterflies." An old monster said.

Fourth Elder's face twitched slightly, feeling extremely unwilling inside. He understood the other party's intention. In the end, they were still going to come to Heavenly Deity Institution and select disciples, so their exceptional individuals were likely going to become Immortal Academy's disciples.

"Shi Hao, are you still not going to return the azure armor to Immortal Academy?" Second Elder said.

This armor was an ancient artifact. When divine force supported it, it would become bright and dazzling, but when it was quiet, it was simple and unadorned, the blue radiance dim like normal earth.

Shi Hao carried the armor, feeling extremely reluctant. He knew that this thing had an extraordinary background from a single look, definitely not an ordinary armor. He didn't want to return it.

"We have to ask you to return it!" Those individuals that were close to Wu Tai on that ancient ship spoke up again, their voices extremely loud. It was because Immortal Academy's old monsters appeared, so their courage welled up again.

Shi Hao glared out, two streaks of golden rainbows flying out, immediately making those individuals shiver. When they saw the heads by Shi Hao's feet, their minds were shaken up.

"You all humiliated me first, and then after being defeated, you retorted back with delirious ravings. Now, you are asking me to return this armor, do you think that I am easily bullied, or could it be that you believe that I am weak?" Shi Hao asked viciously.

Those individuals were alarmed. They couldn't help but take steps backwards, their faces becoming pale, intimidated by his aura, feeling fear inside.

Many people on Heavenly Deity Institution's side revealed strange looks, even the elders speechless. This youngster already had heads by his feet, leaving those individuals so scared they were shivering, yet he still felt like he was wronged? He clearly didn't want to return the armor.

"Dao brother, let me remind you, that is Little Sky King's item. In my Immortal Academy, there is none who does not know about Little Sky King's reputation."

At this moment, a woman smiled faintly, speaking extremely calmly, precisely one of the youngster who came out later. There was an immortal dao aura at the corners of her eyes, beautiful like someone who walked out from a painting.

"Heaven's children?" Shi Hao said softly to himself. He looked at those individuals, carefully sizing them up. Those individuals were all mysterious after all, immortal energy scattering out, merging with them, all of them otherworldly like aloof immortals.

"It's not like I seized it from Little Sky King's hands, this is my spoils of war from enemies who offended me. As for how to treat this matter, it is naturally up to me to decide." Shi Hao said.

"Sigh, Little Sky King is definitely not a simple individual you know?" That woman's smile was sweet, not saying too much, nor showing any intentions of taking action.

As for the others from Immortal Academy, they all revealed looks of surprise, as if they were looking forward to something, but also like they were taking delight in his misfortune as they looked at Shi Hao.

"What kind of person is Little Sky King? Did he come?" Shi Hao lowered his head to look at Wu Tai's ruined body. At the Heavenly Deity Realm, even though there was only a head left, there still wouldn't be any danger to one's life. One could still recover after slowly adjusting their condition.

"Cultivation profound, blessed by the heavens, long obtaining a mysterious immortal seed, already became a sect master level individual two years ago." Wu Tai played his part, no longer acting tough, obediently replying.

However, Little Sky King didn't come, because at his level, there was already no need to find a dao seed here, long successfully taken that step.

Shi Hao frowned. The words were already spoken, couldn't be changed. Moreover, he had been provoked by the other party again and again, so if he really did returned the armor when the other party asked for it, then he really would look too weak and easy to bully.

"Ha ha, since this young man really wishes to research this azure armor, then we'll first leave it in your hands. This thing is an Immortal Ancient remnant treasure, indeed quite unordinary." An old monster smiled and spoke.

Heavenly Deity Institution's Second Elder frowned, but soon afterwards, he recovered his cool. "Since it is like this, then just hold onto it, Shi Hao."

"Understood!" Shi Hao happily agreed.

"Since it is like this, then we will search for immortal opportunities on our own and part here." An old monster from Immortal Academy said.

The ancient ship carried immortal energy, releasing muffled noises. It slowly rose into the air, and then departed into the distance.

Only blood stains left on the ground. Wu Tai and the others were let go. Even though only heads remained, their heavenly deity bodies would regenerate soon.

This volcanic region still couldn't be calm. Heavenly Deity Institution's disciples took action together, searching about here, the enormous volcano at the center even more so the target of their exploration.

"There is a sealing force, but there is no perfect Five Elements Seed!" An elder said with regret. In reality, it was still to be expected, because those old monsters stopped here for a bit, long secretly searching this place with their divine wills, leaving precisely because there were no opportunities left.

However, the academy's disciples found two flame dao seeds from within the volcano, the value astonishing, so the trip hadn't been made in vain.

Time quickly passed, another half month gone in the blink of an eye. There were many young figures moving about Five Elements Continent, all of them searching for the Five Elements Seed.

Heavenly Deity Institution's silver ship continuously advanced, searching for that mysterious ancient land according to the ancient heavenly monument's recordings, based on the vague clues.

Unfortunately, after those areas were searched, there were still no clues to be found.

"Was there a mistake in the recordings?"

"They are just speculations made by those of ancient times after all, not a true treasure map. If they were sure where it was, then they wouldn't have left these clues behind."

The elders discussed their following plan of action, how they should continue searching.

Five Elements Continent was too vast, no end in sight. If they searched through it area by area, who knew how much time would be used up. After all, this place was as large as a starry sky.

Hualala!

In the distance, golden light surged. A giant tree was moving, the golden ancient tree shining. There were many stars on it, all of them moving about as well.

"The Half World Tree absorbed a tremendous amount of five elements spiritual essence, likely going to leave in a few days."

"What do you all think? Could the place where it took root be that sealed land?"

This question was raised during the elders' discussion.

The silver warship set out again, landing not too far from the golden ancient tree, looking about nearby. Unfortunately, there was still no gains, still not finding that exceptional seed.

"Five Magics Sealing Heavenly Seed!" Second Elder walked back and forth, thinking it over again and again. Then, he pointed at the Half World Tree, saying, "The place it descended is definitely an important place. Let's start from there."

“Could it be Five Elements Reversal?!” Eventually, when an elder thought of the ranked formation diagrams, he was shocked, proposing this type of conjecture.

“Five Elements Reversal, defying the order of five elements foundation, reversing the world?!” Second Elder’s face revealed shock. He also recalled this legend.

That was not some good legend, rumored to be an extremely frightening thing. The one who was searching for this formation diagram already died. It was rumored to have sealed a formidable object.

“Many formation have existed since the ancient times, there are ranked killing formations, ranked vicious formations. It is rumored that this Five Elements Reversal Formation is ranked within the top three of the vicious formations!” An elder spoke with a serious expression.

“With the Half World Tree at the center, we are going to carry out a derivation in advance!” Second Elder made this decision.

On the silver warship, none of the disciples dared disturb them, because they all knew that the elders were currently exhausting themselves mentally and physically to study this place.

Shi Hao was also extremely shocked. The elders sat on an elevated platform, all of their appearances dignified. Soon afterwards, their foreheads were covered in sweat, engravings continuously made on the elevated platform, writing down formation methods.

“Five Elements Reversal’s true meaning should conform with the proper Five Elements Formation, a dividing line within it!”

They continuously searched about, finally actually successfully deducing some clues. Second Elder quickly carved the diagram, drawing the seal on the elevated platform.

“This is...” A few disciples swarmed over, all of them shocked.

In the location where the Half World Tree was, a symbol was carved. Then, there was a dividing line not far out, and then a symbol appeared on the other end as well.

Soon afterwards, yin and yang energies swirled, slowly moving, gradually forming a circle, wrapping around the two symbols and dividing line.

“Yin Yang Diagram!” Everyone cried out in alarm.

Wasn’t it related to the five elements? There was actually this type of great dao picture that was involved.

Second elder said, “The Half World Tree is rooted in a yin yang eye position, so the location of the Five Magics Sealing Heavenly Seed location should be located on the other symmetrical yin yang eye position.”

They actually really did successfully derive its location, leaving everyone greatly shocked!

On the elevated platform, yin and yang energies swirled, the great dao diagram appearing, mysterious and powerful. The yin yang eye inside unexpectedly became the location of Five Elements Reversal.

Everyone turned around to look at the World Tree, and then at the boundless continent. What was on the elevated platform was merely the deduced formation diagram, while the true continent's terrain was what was really terrifying. There were great formations that had existed for all of eternity, absolutely shocking arrangements.

"Are you certain that the other yin yang eye has a heavenly seed sealed inside?" An elder carried doubt inside, as well as even more uneasiness.

It was because according to the rumors, the place of Five Elements Reversal was extremely terrifying, not a place they could come in contact with. Those who headed there all died, no survivors ever returning alive.

Chapter 1212 - Great Medicine

The golden ancient tree swayed back and forth. Starlight flickered about in the air, countless stars also moving along with the golden leaves.

The silver warship set sail, disappearing from this place, following the path that was deduced towards the distant corresponding location, the other pure land symmetrical to this place.

"We are almost there!"

This region was extremely peaceful, mountain ranges rising and falling, five elements foundational energy strong. Large amounts of it surged from below the earth, the dense spiritual essence like immortal mist.

The elders carefully examined this place, carefully ascertaining the area of the so-called precise location. They didn't dare advance further, because the rumors were all extremely frightening.

Wuwu...

Suddenly, when they advanced more than a hundred li, a whimpering sound could be heard from the mountainous region ahead, as if someone was crying.

As they got closer, everyone looked at each other in dismay. That was just a mountain valley, yet when wind blew past, there was this type of sorrowful sobbing sound.

"This is the place!" Second Elder's expression was serious. When everyone heard him, they all became nervous. At this moment, the warship stopped, floating in midair.

According to the legends, this place was definitely going to be extremely dangerous. If there really was a Five Elements Reversal Formation, then it was definitely a place of great danger, all those who entered would die.

The canyons were great. When one looked down from midair, the surging mists looked like they lead to the netherworld.

From time to time, there were great winds that blew the mists aside, one could see that the mountain valley was full of bones, some snow-white like jade, some golden and translucent, some purple and sparkling... they came from different species, the colors of the bones different.

It was unknown just how many years had passed. Those divine bones had all been eroded by the wind.

“Five Elements Reversal Formation!” An elder said decisively. It was because this place matched up with the legends. He saw the remains of supreme beings, moreover not just one or two.

Even people of this level were killed? $n))\mathcal{O}((\mathcal{V})/E).l--b).1-)n$

Even though they didn’t enter, they already saw so many corpses from the distance, all of them belonging to exceptional experts, not a single one of them ordinary.

“There were some who weren’t killed, but rather look like they died in meditation!” Second Elder had a shocked expression on his face, a bit confused.

“Yi, it really is like this. All of you, look, there are some who are sitting in the ravine, their postures still unchanged even after their flesh rotted away, only a skeleton remaining, as if they were trying to comprehend something.” Third Elder nodded, expressing his agreement.

“It is a bit different from what we imagined.” Another elder said.

Wind was still blowing, wuwu sounds produced again. Together with the skeletal remains all over the ground, these ancient remains looked increasingly mysterious, making everyone feel a type of unclear feeling.

“Retreat!”

Second Elder gave this order. The silver warship moved, withdrawing far from this place until there was a safe enough distance between them.

Then, Fifth Elder produced a war puppet carved from a piece of lightning stricken wood. It was less than three inches tall, entirely pitch-black like black jade, lightning radiance flickering about from time to time.

He flung it out, and then the war puppet grew larger and larger as it faced the wind, turning into the height of a person, becoming tall and sturdy like a powerful warrior in dark golden armor.

This war puppet was a rare fine good, its strength extremely great, exceeding the heavenly deity level. Right now, with the five elders operating it, it was as agile as a cat, quickly leaping into the mountain valley.

“You really are willing to have this war puppet you refined for several years be destroyed here?” Fourth Elder said.

“We have to pay some kind of price, and only then can we understand what is going on in this ravine.” Fifth Elder looked extremely helpless. There was no way they could directly force their way in, they had to scout around first.

The war puppet entered the valley, lightning radiance flickering about it, forming a barrier of light around its body, protecting it. It was sharp as if it possessed life.

Everyone was nervous, those with Heavenly Eyes all opened them, watching closely, waiting for a result.

Of course, because they were too far away, even using the Heavenly Eyes was strenuous, not many people able to see clearly. It was because those elders were extremely careful, staying extremely far away.

“Yi, it entered the mountain valley depths. It hasn’t displayed any reactions, nothing unexpected happening to it.” Fifth Elder was shocked. It was completely different from what they had anticipated.

“Isn’t the Five Elements Reversal Formation extremely dangerous, destroying the foundation of five elements? All things originate from the five elements, so if one steps in, unexpected things will happen, so how can it be like this type of situation?” Fourth Elder felt puzzled.

Fifth Elder closed his eyes. A strand of primordial spirit imprint merged together with that war puppet, able to clearly sense everything in the valley. Right now, he was precisely observing its surroundings.

An hour later, everyone became a bit restless, feeling quite uneasy, to the extent where some became impatient. Only then did Fifth Elder open his eyes.

“It is quite strange. The innermost depths of the ravine are extremely peaceful, no abnormalities. It can be entered!”

These news definitely had great effects, even leaving Second Elder shocked.

“I saw a few stone engravings with some things recorded on it. I feel like it is worth consulting.” Fifth Elder added.

“What was engraved?” The others asked.

“Mysterious words.” Fifth Elder’s expression was strange. He then added, “Using the world as a furnace, the years as a flame...”

On that stone engraving, it actually mentioned pill refinement, but the pill furnace and flame used really were a bit frightening. According to what was recorded, this was a place of pill refinement.

“Of course, there are some places that have already turned into ruins, the inscriptions incomplete, difficult to say clearly.” Fifth Elder said.

“Let’s go, the two of us should take a look.” Second Elder produced a spiritual body, and then it quickly left, entering that ravine, joining the war puppet.

After a while, Second Elder’s spiritual body and the war puppet returned, his expression strange.

“How was it?” The other elders asked.

“We can enter this place, quite different from what we expected. At the very least, in this present era, it is already safe in the mountain valley.” Second Elder said.

The others all became pleasantly surprised, all of them wishing to search through this place. Even Shi Hao and the younger generation couldn’t sit still.

The silver warship moved through the air, returning to the mountain valley. Meanwhile, this time, they directly entered, landing in the valley depths.

It was spacious, ancient, carrying an aura of great changes. This place carried a type of indescribable and unclear feeling.

There were many bones on the ground that had already been eroded, giant rocks and other things completely deformed from the wind, rain, and former flames of war. The warship landed here, everyone walking out one after another.

“There are quite a few engravings here, all of them discussing the land of Five Elements Reversal. We carefully searched around just now, and after serious research, believe that there are no dangers here anymore.” Second Elder said.

“Why is this?” The others naturally didn’t understand.

“The Five Elements Reversal Formation has stopped operating. As long as it isn’t touched, nothing unexpected will happen.” Second Elder explained.

“What exactly happened, what did you two discover?” Even the other elders were baffled.

“This ravine is where the yin yang eye is located. If it was in the past, there was no way we could enter so easily, needing to use great magical force to resist its power. At that time, there was danger of dying at any time.” Second Elder explained a step further.

There was a stone engraving that recorded quite clearly that one day, one would be able to smoothly enter the ravine, meaning that the dangers here had already been eliminated.

This was a sealed land. According to what was recorded, there was originally an exceptional vicious individual that was imprisoned here. If this creature ever escaped, the results would be unimaginable.

There were many recordings that made it clear that this was a pill refinement place. The people of the past had drew a great vicious existence into this place, using Five Elements Continent as a furnace, time as the flame to refine it into medicine.

“Just what kind of pill medicine is it, to have such a grand plan, needing endless time as flames to refine?”

“According to what was recorded, it is time for that pill medicine to emerge from the furnace.” Second Elder said

When the value of this medicine was mentioned, even he felt a bit stirred up, overwhelmed by emotions, because that pill medicine was an immortal object, able to resurrect immortal kings!

“What? This is the pill medicine refined endlessly for immortals, needing to wait an entire great era?” Everyone became dumbstruck. No wonder there was a Five Elements Reversal Formation arranged to protect it.

“Five Magics Sealing Heavenly Seed, what was sealed was a great medicine?” Even the elders revealed surprised looks.

“The so-called five magics should point to the Five Elements Reversal Formation, while the heavenly seed is the medicine that can resurrect immortal kings.” Fifth Elder nodded and said.

“Something isn’t quite right, I still feel as if things are strange.” Third Elder didn’t seem too convinced.

“There are many stone engravings, one recording that there really is a perfect seed, left behind to match the sealed great vicious being. It should still be there even now.” Second Elder said.

It was because there were just too many engravings, they could only believe what was recorded more often. Towards these ambiguous recordings, they weren’t that sure.

That was why even though Second Elder and Fifth Elder explored this place, they still weren’t sure if there was a perfect heavenly seed.

Suddenly, a warship arrived from the distance, stirring up mists, slowly descending.

“Damn it, why did they also come?!” Third Elder said with a sigh, discovering Immortal Academy’s warship.

“Everyone, we meet again. This time, we won’t yield out of courtesy. This place has immortal opportunities, so we have to leave it for ourselves.” An old monster appeared.

Everyone from Heavenly Deity Institution felt helpless. This place definitely couldn’t remain calm. In the end, there might be an intense battle and struggle.

“Do you all know what kind of place this is?” Second Elder asked.

“Naturally, a bit clearer than you all. Back then, there were but people who returned alive from this place from Immortal Academy.” An old monster said.

Only, after that person returned alive, he died after being unable to explain much. That was why not even Immortal Academy’s people were sure about this place’s precise location, continuously searching for it this time.

“Even though it looks calm without dangers, no one can say for sure what will happen when the medicine furnace is opened. How about we join hands to open the world furnace?” An old monster said.

“Fine!” Second Elder happily agreed.

Chapter 1213 - Hidden Ancient Land

The ravine was vast, when one stood at the very bottom, their surroundings would be dim, mists pervading the air, as if they arrived at the bottom of an enormous abyss.

The old monsters from Immortal Academy were currently discussing thing with Heavenly Deity Institution’s Second Elder and others on how to open up the pill furnace and obtain the rare great medicine within.

“If not for the Half World Tree descending and taking root in a yin yang eye, providing us with the coordinates to use as reference, we might not be able to find it in this life.” They felt quite fortunate.

This large continent was incredibly vast like a boundless cosmos of its own. Comparatively, when stars fell, they would seem as insignificant as specks of dust. If they searched about here without any clues, they might not find anything even after searching for for several lifetimes and eras.

The two academies' elders moved together, carefully analyzing this place. It was clear that Immortal Academy's old monsters were even more formidable, their statuses even a step higher than Heavenly Deity Institution's elders'!

It could be said that they were the most ancient group of people still alive in this world!

In Heavenly Deity Institution, only the Great Elder and Second Elder could compare to them, not feel afraid when facing them.

After discussing and careful deducing, they gradually understood the layout of this place. They revealed happy expressions, now certain that the great world had changed, this place no longer that dangerous.

"There is a mysterious veil waiting for us to uncover!"

In these individuals' opinion, the canyon they saw was merely the outermost area, not the true scene in the so-called sealed land at all.

"The real ancient land has been covered. We need to break our way in!"

Even though they understood some of the mysteries, they still proceeded extremely carefully, fearing that they might accidentally stir up something and produce heaven shocking changes.

In the depths of the ravine, there seemed to be no road left. A precipice stood in their way, but the elders didn't stop, continuing forward.

"Break through this stone wall, and only then can we see the truth!"

Heavenly Deity Institution's Fifth Elder walked forward, and then he directly smashed into the wall. Dong! The earth shook and mountains trembled, lightning symbols flickering about his body.

With a peng sound, Fifth Elder was smashed back by a streak of lightning. His chest rose and fell, face turning pale, blood flowing out from his mouth.

He was injured, this type of result appearing just from touching this mountain wall!

"Ha ha..." An old monster from Immortal Academy chuckled, remaining calm, but his words really were quite harsh. "Youngster really are hot-tempered. This is only a checkpoint, yet instead of searching for a way, you just had to run straight at it."

The face of Heavenly Deity Institution's Fifth Elder became both green and white. He was now how old? His age was ancient, if he said it out loud, it might really leave the people here frightened, yet he was actually treated like a youngster. This was a type of mockery, and even more so a type of contempt.

While speaking, that old monster from Immortal Academy already walked forward, arriving before the stone wall. He carefully analyzed it, and then walked towards the mountain wall.

Dong!

Following a muffled sound, the entire valley and mountain wall shook violently. That old monster began to cough out large amounts of blood, flying out, his injuries not light.

Everyone became stupefied, and then felt a wave of deep chilliness inside. Even an old monster was injured, leaving them all horrified.

“Senior, why did you act even more straightforward than me, your injuries more serious?” Heavenly Deity Institution’s Fifth Elder was astonished, asking with an unflinching expression.

That old monster was angered until his face fell ashen. He swung out his sleeve, and then with a wa sound, spat out another mouthful of blood, only then did he stop himself, not wishing to say anything more.

Then, two elders separately walked forward, carefully testing things out. The results were still the same, both of them blasted back.

They discovered that the more powerful the individual, the more serious the injuries they suffered.

“You, give it a try!” Immortal Academy’s old monster pointed at a disciple, having him go up.

“I... elder, even you all failed, if I go, wouldn’t I just be throwing my life away?” That person said with a trembling voice.

“Less nonsense, hurry and go up. This might be a great opportunity for you!” The old monster was extremely domineering, unquestionable and could not be defied.

Even though that youngster felt apprehensive, he couldn’t refuse. In the end, he braced himself and arrived in front of the mountain wall, and then walked forward with his teeth clenched.

He didn’t smash into the mountain wall, instead directly entering, his figure disappearing.

“He succeeded, entering the ancient land that contains the true great opportunities.”

That person disappeared after entering just like that, not coming out again.

“You, come over as well!” The old monster chose another disciple. He watched carefully, wishing to try many times.

The results were the same. That person disappeared, successfully entering the mountain wall, moreover not receiving any obstruction.

“How could it be like this? Even the younger generation could all go in, while we are all blocked outside, difficult for us to enter, what is the reasoning behind this?” Those elders were naturally discontent. For them, this was a type of humiliation.

“It is actually extremely simple. It is like a large web cast in the lake, the large fish cannot go through, stopped by the web, while the little fish can go through the holes in the net, quickly passing through like they are walking through a passage.”

Soon afterwards, after studying this place, they deduced the effects of this ‘stone wall’.

This wasn’t a true stone wall, but rather a type of formation related to the Five Elements Reversal Formation. When it was truly activated, heaven and earth would split, ghosts and gods would howl and weep!

The elders from the two academies were stunned. This place stopped them from advancing, only the 'small fish' able to enter. This was difficult for them to accept, making them feel extremely helpless.

Shua!

Right at this time, the two who went in previously both came back, their expressions extremely excited, faces full of shock. "Elders, there are many precious medicines inside!"

They successfully returned, proving their previous suspicions, the conclusion they came to was true.

Everyone erupted into commotion. The news that these two brought back definitely created quite the stir.

At the same time, they discovered that there were injuries and traces of blood on their bodies, in extremely sorry states, suffering dangers along the way.

"What happened to you two? What kind of world is it inside?" An old monster asked.

"There are many heaven and earth spiritual things, but there are dangers as well. We wanted to pick the divine medicines, but we were injured by symbols as a result!" One of them replied.

Otherwise, they wouldn't have returned so quickly. Even though there were rare medicinal plants and other things, if they couldn't pick them, going in earlier didn't have any meaning.

"Who else is willing to go inside and explore, see what the world on the other side is like?" An old monster asked, about to send young experts inside to seize natural luck and opportunities.

On the other side, after Heavenly Deity Institution's Second Elder discussed with the others, they also asked the academy's students if anyone wanted to enter.

In the first batch of people, Shi Hao, Yao Yue, Lu Tuo, and the other outstanding individuals were included. They all signed up, wishing to immediately search what it was like on the other side and fight for natural luck.

Similarly, there were powerful experts on Immortal Academy's side as well, the outstanding individuals among the younger generation.

There were figures everywhere. The two academy's students were separated from each other, arriving at the mountain wall from different locations, a set distance between each of them.

"You all have to be careful!" **NOVEL 18.1**

There were elders who warned from behind. However, before his words dropped, the two academies' students moved quickly, disappearing from that stone wall.

Shi Hao didn't feel like he ran into any mountain rock, instead as if he passed through a mist, undoing a mysterious veil, directly appearing in an ancient land.

It was a bit dark, the lighting here rather lacking.

The earth was dark red in color, as if a great bloody battle had happened here, dying this place this color. After endless years had passed, even the color of the earth changed.

Soon afterwards, they smelled a fragrance. Up ahead, spiritual light floated about, auspicious energy overflowing, currently wafting out from different areas.

This dark ancient land had many medicinal herbs after all.

In the area closest to Shi Hao was a pool, inside of it a sparkling silver lotus that was about to mature. The fragrance it released wafted out into the distance, drawing many people's attention.

He wasn't the only one who saw it, there were others who noticed it as well. Their eyes immediately widened, all of them rushing over.

Peng!

Immortal energy erupted, several people taking action at the same time. When they clashed, immortal energy immediately erupted.

They were all experts, Shi Hao, Lu Tuo and Wang Xi all took action. Meanwhile, there were people at a similar level from Immortal Academy's side as well, confronting them here.

"Soul Guiding Lotus!"

When everyone backed up, occupying favorable positions, they immediately prepared to fight again, because this thing was too rare and important.

This was a world shocking divine medicine. It grew in divine liquid, normally difficult to find, a bit unfitting even if one described it as invaluable, because its uses were just too great.

Even if someone had his primordial spirit shattered, just by eating this Soul Guiding Lotus, their primordial spirit could still undergo rebirth, thus regenerate.

For cultivators, how precious was this? Divine medicines had price values, while the Soul Guiding Lotus didn't!

Peng!

The second clash began. Even though they were from the same academy, Lu Tuo, Wang Xi, Shi Hao, and the others were still attacking each other. At the same time, Immortal Academy's people weren't of one mind either, competing with each other.

Only those who cultivated two strands of immortal energy didn't interfere. They collapsed from the immortal energy that erupted there, their expressions pale.

The earth here was a dark red color, lacking plant life, vitality not really flourishing. It could be said that there were many places that were completely barren.

"There is Phoenix Grass here!"

In that instant, someone leapt out, charging in another direction, no longer fighting over the Soul Guiding Lotus, instead going to fight over Phoenix Grass.

"You are that Huang, the lunatic who injured my Immortal Academy's disciples and boasted shamelessly?" A woman spoke coldly. She was extremely beautiful, facial features like something out of

a drawing, refined and exceptional. Her body was tall and slender, blue clothes fluttering about, as if she was going to ride the wind. Three strands of immortal energy moved about her as she confronted Shi Hao.

Shi Hao was sure that he had never met her before. When he clashed with those from Immortal Academy, this woman was definitely in the ship, not showing herself all this time.

“Out of the way!” Shi Hao raised his fist, smashing outwards. No matter who stood in his way, he was going to fight them. He needed this Soul Guiding Lotus.

“Heng, cultivating the ancient method, yet still treats our Immortal Academy with disrespect, do you not want to become a disciple of Immortal Academy?” Apart from displaying powerful strength, this woman even threatened like this, clearly wishing to make her enemy feel apprehension and seize this Soul Guiding Lotus.

“If your strength isn’t great enough, you won’t be able to subdue me even if you borrow Immortal Academy. I’ve already taken in a male servant with three strands of immortal energy, if you insist on making me your enemy, I don’t mind taking in a female one too.” Shi Hao warned.

Of course, this was similarly a type of provocation that carried serious provocation, causing this powerful woman’s mind to fluctuate wildly.

Hong!

Another great collision erupted. Not only did Shi Hao and this woman confront each other, there were others who joined in. Lu Tuo, Wang Xi, and others from Immortal Academy didn’t leave yet.

A great chaotic battle happened here. Young supreme beings with three strands of immortal energy fought intensely!

Chapter 1214 - Soul Guiding Lotus

There weren’t many plants in this dark ancient land, but when they did appear, they were all spiritual medicines. Even divine medicines like the Soul Guiding Lotus and Phoenix Grass appeared, naturally leaving everyone shocked.

Not long afterwards, this place became chaotic, everyone fighting intensely. A great confusing battle erupted.

Peng!

Shi Hao fought with that woman. His palm released a faint golden radiance, releasing Kun Peng power. It smashed together with the immortal energy she released, making everything around them shake.

“Kill!”

On the other side, Lu Tuo and a young man fought against each other, both of them covered in blood. This was a world shocking great battle between those with three strands of immortal energy.

“You have to properly think things through! Fighting a decisive battle over a stalk of medicine with me, if this really is worth it!” That woman threatened. She was someone who used every means fair or foul, not hesitating to use Immortal Academy to pressure Shi Hao into giving up on the Soul Guiding Louts.

“Less rubbish, just fight for it with you own strength!” Shi Hao remained unmoved, directly sending a fist smashing out. Lightning radiance was released in thousands of streaks, all of it erupting before him, brilliant and dazzling.

If it was a normal person, they would have long been blasted by the lightning into charred residue, not difficult for this lightning radiance to kill heavenly deities at all, comparable to the most terrifying heavenly tribulation.

However, this woman was extremely tough, three strands of immortal energy merged into the dao, forming wisps, wrapping around her impressive figure, moreover displaying a type of ancient dao method.

Shi Hao’s magical force was profound, flesh body powerful, bravery unmatched. After clashing forcefully with her several times, he directly rushed forward.

This was especially the case when several hundred golden willow branches rushed out in Shi Hao’s surroundings, immediately leaving this woman stupefied. Her expression became strange, involuntarily taking a few steps back.

Hong!

Shi Hao leapt over, throwing himself forward, about to pull out that Soul Guiding Lotus.

This lotus flower was holy and pure, its fragrance wafting out, entirely silvery-white in color, radiance flickering about. It took root in a spring, within the pool of divine liquid that was sparkling and translucent.

The pool wasn’t that large, only a few zhang in perimeter. There was innate essence energy inside, accompanied by a flower fragrance.

Dong!

At the critical moment, a streak of purple radiance flew over. Wang Xi took action, displaying several precious techniques with a raise of her hand, stopping Shi Hao’s advance.

Chi!

Then, she even displayed the Chaos Calming Art, using this unmatched sword art that shocked past and present, severing the void, cutting off the path ahead, not letting Shi Hao approach.

At the same time, Lu Tuo also took action. He released a great shout that sounded like lightning, displaying an ancient heavenly art, blasting at Shi Hao’s back, the power brilliant and majestic.

Immortal Academy’s people also worked together to stop Shi Hao.

Meanwhile, that woman who had previously taken action against Shi Hao also snapped back, continuously releasing precious technique attacks murderously in his direction.

Shi Hao shifted sideways, avoiding the precious techniques, his body shifting about like a fiend. He gave Wang Xi a cold look, and then turned around to give that woman from Immortal Academy a palm.

Peng!

The woman's body was greatly shaken up. In a contest of physical strength, how many people could compare to Shi Hao? He was practically no different from the most powerful body refinement cultivator!

The space between her thumb and index finger split, blood flowing out. Immortal Academy's woman gripped her hand, bits of bright red color appearing on her thumb, the true blood that flowed from that wound.

Shi Hao rushed forward again, his countless afterimages making everyone confused, not knowing if they were real or fake. It could only be said that his speed was too fast. His target was still the Soul Guiding Lotus.

However, these people were extremely decisive. Regardless of whether it was Heavenly Deity Institution's students or Immortal Academy's disciples, they took action together. Anyone who dared approach the divine pool would suffer devastating attacks.

Shi Hao was extremely powerful, but it was still difficult for him to face everyone alone. After all, these were the ones with the most terrifying potential in the Nine Heavens Ten Earths, all of them cultivating three strands of immortal energy.

Hong!

Those people couldn't distinguish between what was an afterimage and what was his real body at all. The only thing they could do was release attacks!

With numbers on their side, they didn't have to worry about whether they hit the true body or not. As long as they saw figures, they would attack, and many of the attacks were released beforehand.

It was because the Soul Guiding Lotus grew here. They directly released precious techniques, bombarding its surroundings, protecting it within. If anyone went to pick it, then it was the same as running straight into a barrage of attacks.

Zheng!

Right at this time, the sound of a weapon being unsheathed sounded. Wang Xi pulled out a divine sword that contained Immortal Gold. It was exceptionally sharp, surging with auspicious light.

At the same time, a resounding sound was transmitted from the Immortal Academy woman Shi Hao had fought before. This was a Phoenix Wing Immortal Gold Ranseur, brilliant and dazzling.

This weapon was extremely astonishing, mixed within was Radiant Immortal Gold, snow-white and brilliant, resplendent like a sun. It was incredibly intimidating.

This woman had just suffered a loss, the space between her thumb and index finger splitting open from the physical struggle. Now, she used her own weapon. As soon as this magical artifact appeared, the world rumbled. Wherever the sharp blade passed, the void was cut apart.

“Accept death!” She released a light shout, hacking forward murderously.

This left others extremely shocked. This type of great weapon was normally something men used, giving one an extremely valiant appearance when brandished. This woman was slender and tall, her figure wonderful, yet she used this type of divine weapon, her figure really drawing eyes.

“Kill!”

Shi Hao released a short shout. He faced it bare-handedly, fighting an intense battle against her. He avoided the sharp edge, his palm and fingers like blades as they hacked at the metal pole.

Hu!

Crazy winds swept about. The Phoenix Wing Immortal Gold Ransour surged with snow-white multicolored light, flourishing like a flame, making even the void distort, burning Shi Hao’s hand.

With a huala sound, black water overflowed. Shi Hao used the Kun Peng Technique’s great yin force. That hand formed a Kun fish, moving black waves to protect himself.

Dang!

At the same time, his palm hacked down on the metal pole, releasing Kun peng force, making this divine weapon tremble greatly, producing weng weng sounds like vibrating buzzing sounds.

Chi!

Right at this time, Wang Xi took action. She held that exceptional divine sword in hand, cold radiance surging from it, severing space as it attacked. Chaos Calming Art was displayed as well, displayed through the divine weapon!

Shi Hao felt quite the restraining fear towards this method, because it was one of the most powerful sword arts from past to present. It had previously forced back terrifying foreign creatures, calming the chaos of an era.

He supported his single heavenly passage, entire body shining. Willow Deity Technique and Lightning Emperor Precious Technique merged together, several hundred golden branches wrapping around lightning radiance, turning into sharp arrows as they rushed in Wang Xi’s direction.

Hou!

Lu Tuo released a great roar, his head of hair moving about. A sky reaching great tree appeared above him, produced from immortal energy. Endless great dao energy was released from its swaying body, sweeping towards Shi Hao.

At this moment, Shi Hao suffered attacks from all directions. It was because he was the closest to the Soul Guiding Lotus, and he had been attacking this entire time, desiring it greatly, thus incurring everyone’s resistance, all of them wishing to suppress him first.

It was clear that this type of battle was extremely difficult. Immortal Academy’s people and Heavenly Deity Institution’s young supreme beings were targeting him this entire time, stopping him from seizing the Soul Guiding Lotus. There was danger of him falling at every corner.

Chi!

Under the joint attacks of several great opponents, Shi Hao turned into a Kun Peng, rushing into the sky, avoiding that murderous situation.

He stood in the void, his expression cold. He didn't retreat. With a cold smile, he said, "I want to see which one of you can bring it away!"

Since anyone who tried to seize it would suffer the attacks of everyone else, then he would wait right here, see who was going to be the next one that would be attacked from all directions.

As a result, everyone stood in place, no one willing to take a single step, all of them feeling apprehension.

"I don't have time to waste here like you all! I still have to fight over other divine medicines!" Shi Hao said. He dove down again, taking the initiative to take action.

Hong!

The Phoenix Wing Immortal Gold Ranseur hacked over, flickering with astonishing radiance. It carried a hazy great dao aura, sealing off Shi Hao's path of advance.

At the same time, Lu Tuo's hands formed imprints, a blast of thunder releasing from his mouth, thousands of streaks of light surging from his hands as he attacked Shi Hao murderously.

Meanwhile, Wang Xi also moved her divine sword, hacking forward.

Everyone moved, taking action together, sealing off Shi Hao's path, wishing to cut him down.

Shi Hao's entire body shone, becoming shocking and brilliant, as if his very being ignited. His single heavenly passage turned into an enormous sun, displaying all types of symbols.

He released a shout. His aura was terrifying, his own strength increased to the limit, smashing straight into those young supreme beings' ring of ambush.

Hong!

This place surged, precious techniques appearing one after another. They were all attacks from the most powerful peerless individuals, drowning out Shi Hao's area.

However, a vacuum zone quickly appeared, large amounts of radiance growing dim, as if ice and snow melted away.

"Magical Force Immunity!" Wang Xi cried out in alarm. Recently, the Wang Family had always been investigating Shi Hao, long understanding his background, knowing he had this type of ability.

Everyone's expression changed, watching helplessly as he broke through the precious techniques' blockade, quickly approaching the divine pond, about to pluck the Soul Guiding Lotus with a raise of his hand.

"Lost effectiveness!" Immortal Academy's woman couldn't help but cry out. She brandished her Phoenix Wing Immortal Gold Ranseur, not using precious techniques, attacking directly with weapons.

Shi Hao leapt out, and with a dang sound, the sole of his foot stepped on that ranseur, causing it to tremble greatly. A single motion from his body neutralized this attack.

When Wang Xi's divine sword stabbed over, he flicked his finger, striking against the sword body, making it vibrate with weng weng sounds.

Lu Tuo and the others from Immortal Academy rushed forward. Shi Hao's single heavenly passage surged, erupting with all types of symbols. Several types of precious techniques merged together, counter attacking everyone.

Magical Force Immunity, this type of skill was truly stunning at critical moments. One could face everyone alone, and could even display the most powerful counter attack.

Peng!

At the same time, Shi Hao grabbed the Soul Guiding Lotus with a single motion.

Chapter 1215 - Resisting All Enemies With Force

The Soul Guiding Lotus' silver radiance moved heaven and earth, immediately erupting with heaven reaching divine multicolored light. It struggled about violently in Shi Hao's hands.

Chi!

Everyone took action together. How could they watch as he seized this rare divine medicine for himself? Large amounts of light struck over, but they were all neutralized, magical force ineffective.

Only the Phoenix Wing Immortal Gold Ranseur, divine sword, war halberd, lance, and other weapons could do anything. Shi Hao had no choice but to deal with them.

Suddenly, Shi Hao's hands shook intensely. The silver-colored lotus leaves melted, turning into liquid. Then, the petals withered, also turning into sparkling liquid, melting there!

In the void, the silver droplets of liquid condensed, surging from Shi Hao's palms and fingers, rushing into midair where it gathered into a sphere of liquid that was silver and sparkling.

This stalk of divine medicine actually melted, displaying this sudden change at the most critical moment!

However, the liquid was still there, floating in the void, extremely fragrant, more than ten times richer than before. Everyone's eyes burned with desire, grabbing towards it together.

"When a divine medicine matures, it will dissolve on its own into precious liquid. Its roots have escaped!" Someone said with a sigh.

Shi Hao was at the very front, he naturally couldn't let this go. His large hand reached out, covering forward, hoping to grasp it.

However, those people all displayed force. This was a competition of physical strength, the young supreme beings all displaying terrifying methods. Blood energy overflowed into the heavens, attacking fiercely.

Shi Hao's body was greatly shaken; he had no choice but to seriously defend himself. It was because his body was shaking, his single heavenly passage warping, about to collapse.

This wasn't only because of those people's attacks, there was another reason: his Magical Force Immunity was losing effectiveness. These people were all extraordinary, the symbols they displayed before extremely frightening. Magical Force Immunity was battered with attacks, and now, it couldn't support itself anymore, about to dissipate.

Lu Tuo's palms were lush green, slamming over murderously, the power enough to penetrate the heavenly dome.

Shi Hao's hand grabbed the Soul Guiding Lotus liquid, his other hand quickly moving. They continuously clashed with those two palms. This place rumbled with noise, power surging, the void distorting and then exploding.

Chi!

Sword radiance crashed down; Wang Xi's sword stabbed over.

Ka!

The void was hacked open. Immortal Academy's woman held the Phoenix Wing Immortal Gold Ransur, also bringing it down, aiming straight for Shi Hao's head.

Apart from this, the other two from Immortal Academy also slaughtered their way over. Spears and halberds descended at the same time, incredibly sharp, flickering with cold radiance. They stabbed directly at Shi Hao's vitals.

Hong!

Shi Hao's single heavenly passage shone, surging with precious techniques. The golden willow branches turned into divine chains of order, rushing in all directions, attacking indiscriminately. Apart from this, endless streaks of lightning erupted here. Meanwhile, his body even more so shone, reincarnation profound mysteries appearing, engulfing all directions.

A great collision erupted here. Shi Hao fought furiously. With the Magical Force Immunity on the verge of vanishing, he had to fight with the last bit of advantage he still had.

Weng!

The void trembled, and then it shook intensely. All types of precious lights surged. Everyone was immediately pleasantly surprised, discovering their symbols were effective again. They all released vicious attacks forward.

Just now, there were a few people whose expressions were still unpleasant, because their precious techniques were ineffective against Shi Hao, while the other party's Kun Peng Technique, Lightning Emperor Divine Ability, Reincarnation symbols and others all erupted, truly making their expressions change.

Now, the situation reversed. These people's precious techniques displayed their use, completely pouring down. The attacks that should have taken effect now arrived!

Divine radiance erupted from Shi Hao's eyes. Even though he was being disturbed and attacked, the hand that covered the silver liquid didn't pull back. A cauldron appeared between his palms and fingers, collecting away all of the liquid.

Dong!

These people's precious techniques descended. Even someone as powerful as Shi Hao couldn't face everyone head-on. His single heavenly passage became blurry and dim, distorting, about to explode.

Chi!

The Chaos Calming Art took effect. A sword hacked over, drawing a burst of blood.

When Shi Hao evaded, he avoided damage to his vitals, but his arm was still injured by the sword radiance. Striking red blood trickled down, the injuries not that serious. However, sword energy surged, containing a spiritual will, about to damage Shi Hao's body.

"Leave!"

Shi Hao released a short shout. A pair of Kun Peng wings appeared behind him. With a fierce shake, great yin and great yang force intertwined, spinning about, eliminating the sword energy from his body.

Honglong!

The fist imprint Lu Tuo condensed arrived, clashing with Shi Hao head on. The heavenly dome released dong dong sounds, the void collapsing.

Dang!

When the Phoenix Wing Immortal Gold Ransour belonging to the woman from Immortal Academy descended, Shi Hao leaned to the side, his palm and fingers striking against the phoenix wing edges. Keng qiang noises rang out, sparks flew in all directions.

A war halberd and lance stabbed over. Two other great experts charged at him, aiming at the space between Shi Hao's brows.

The most crucial thing was that immortal energy pervaded the air, symbols surging. Precious techniques swept over in a berserk manner.

Shi Hao entered a dire situation. He fought an intense battle against many people, all of them the most powerful individuals of the younger generation, the most promising individuals from the Nine Heavens Ten Earths, so his situation naturally didn't look good.

Peng!

Shi Hao put away the silver liquid. His hands formed magical imprints, fighting a great battle against everyone.

He blasted aside the war halberd and struck away the lance, his heroism unstoppable. He wanted to break out, but these individuals attacked together viciously, their faces fallen.

Soul Guiding Lotus, it was too miraculous. Even if one's primordial spirit shattered, they could use this to revive and be reborn, who didn't want to obtain this? This was equivalent to an extra life!

Hong!

When Shi Hao bare-handedly stopped the Phoenix Wing Immortal Gold Ransour again, this weapon suddenly shone, the temperature terrifyingly high, simply able to burn the world, ignite the Nine Heavens.

Shi Hao's palm was in intense pain. When he lowered his head, he discovered that his palm was scorched black; if not for his strength being powerful enough, his entire arm would have been burned to ashes just now. n./OvelbIn

"Kill!" Immortal Academy's woman lightly berated. Her entire being seemed to have ignited. She charged at Shi Hao while bathed in sky reaching fiery light, sealing this place with divine flames.

"Sky Burning Flames!" Someone cried out in alarm.

Shi Hao was deeply surprised. This type of fire was too powerful, posing a threat to him, even him feeling the great heat. He had to treat this seriously.

"Dao flames that could burn the heavens, an unmatched divine flame!" He knew what this was.

It was because he had previously seen this type of ancient method, Great Sky Burning Art, an unmatched ancient method. These flames could burn down the heavens.

Chi!

Fiery light reached into the sky, sweeping towards Shi Hao, the blazing heat difficult to defend against. His palms that were scorched black transmitted back even greater pain.

Hong!

Shi Hao condensed a magical imprint, his aura changing greatly, showing contempt to everything under the heavens. He displayed the Six Dao Reincarnations Heavenly Art, supporting his different precious techniques, blasting forward.

In that instant, he went completely berserk. Precious techniques interwove into light, bombarding this place, as if the gates to six dao had truly been opened, time itself altered by reincarnation.

Qiang!

Immediately afterwards, Shi Hao drew a sword. At first, it was dim, but when he just began to swing it, divine light surged, light surging into the sky, a hazy rain of light covering everything.

Ka!

The Phoenix Wing Immortal Gold Ransour was cut in half, and then the Immortal Gold stored within surged towards the sword core in Shi Hao's hands. A great treasure was thus destroyed.

This was the Everlasting Immortal Sword. Shi Hao normally wouldn't use it, but when it was used, it meant that his eyes were red from murderous intent, about to stake it all.

Chi!

Sword light flashed. Six Dao Reincarnations Heavenly Art coordinated with it, almost removing that Immortal Academy woman's arm. She quickly withdrew backwards, her face full of pain from losing her weapon, finding it difficult to accept.

Her Phoenix Wing Immortal Gold Ransur was destroyed, cut apart by a sword, and then the Immortal Gold stored within was seized, now just scrap metal.

Zheng!

The others' attacks arrived. Shi Hao displayed the Six Dao Reincarnations Ancient Heavenly Art, supporting this sword. He already let it go, the sword core's rainbow light spinning about here, carrying heavenly dao patterns.

This sword core seemed like it had revived, extremely mysterious. Light poured down like rain, a humanoid creature appearing on the sword core, immortal mists pervading the air, the scene extremely intimidating.

Ka!

When Wang Xi's sword stabbed over, the Everlasting Immortal Sword hacked down, breaking it into two on the spot, absorbing the Immortal Gold within.

Shi Hao was shocked. After not using this sword for quite some time, he discovered that this sword was becoming more and more powerful. As his strength increased, this sword core seemed to have been nurtured, becoming many times more terrifying than before.

Wang Xi's charming face turned pale, feeling incredibly broken-hearted. This was but an exceptional sword, yet it was cut through by someone like this. It was just too much of a pity.

Hong!

It was as if Shi Hao went crazy. He activated the Six Dao Reincarnations Divine Ability, attacking everyone until their expressions changed. He slaughtered his way out with this sword alone just like that.

Chi!

The shoulder of Immortal Academy's woman produced a blast of blood, almost cut apart diagonally.

Peng!

Wang Xi flew out. The Six Dao Reincarnations great divine ability was displayed, Wang Xi suffering the brunt of the attack, her body shaken until blood trickled out from the corners of her lips.

Chi!

Sword energy weaved about. Shi Hao charged out from this dangerous place, breaking free from the encirclement situation, and then he stopped.

He really didn't have a choice when he was surrounded by everyone. With so many young supreme beings attacking him from all sides, he actually broke his way out while still in good shape. If news of this got out, it would definitely shock the world.

Right now, many people felt helpless. Shi Hao stood there not too far away. They could still attack him, but they were no longer as active as before.

"Does anyone else want the Soul Guiding Lotus?" Shi Hao asked.

There was no way of obtaining it even if they wanted it, and they all knew why.

Heng!

Lu Tuo released a cold snort, the first to withdraw, rushing into the distance.

Wang Xi turned around, not saying anything, also silently withdrawing.

"Actually injuring me, you'll pay for this sooner or later!" Immortal Academy's woman said.

"If you don't want to accept it, then come over and fight right now!" Shi Hao shouted.

"I'll fight you another day, have to fight for some spoils of war first!" Immortal Academy's woman said through clenched teeth, turning around to leave.

The minds of this group of people were all shaken, none of them willing to fight against this madman. They all wanted to continue searching for divine medicine.

It was because they knew this person grasped the Kun Peng technique, his speed too fast. Now that he obtained the divine medicine, breaking free, if he wasn't a match for them, escaping was too easy.

In that instant, this place became peaceful, everyone leaving.

Shi Hao laughed coldly, following behind them. Now, it was his time to take the initiative, targeting these people. If anyone obtained divine medicine, then that was who he would loot.

Chapter 1216 - Divine Medicine Garden

The Soul Guiding Lotus' silver light moved heaven and earth, instantly releasing heaven reaching divine multicolored light. It struggled intensely in Shi Hao's hands.

This dusky ancient land lacked light, but it didn't lack rare precious medicines. A sweet fragrance filled this place, no lack of divine things, and as such, intense struggles and conflicts erupted.

With the Soul Guiding Lotus in hand, Shi Hao felt joy, but he still wasn't satisfied. He began to carry out his next plans, following those people forward.

"Phoenix Grass!"

There was also an intense battle in that region. Heavenly Deity Institution's Xuan Kun was injured. A delicate and pretty youth from Immortal Academy roared, his aura actually become berserk. He forced back his opponents, seizing the Phoenix Grass.

Shi Hao came a step too late. He didn't recognize this person, but it wasn't someone who fought with him over the Soul Guiding Lotus, and as a result, he didn't pursue him.

"Ao..." In another region, dragon cries shook the nine heavens. A purple dragon rose up, carrying mists with it, the scene incredibly magnificent.

"Evil Dragon Medicine!" Someone cried out loudly, pleasantly surprised. Meanwhile, a commotion had broken out here, everyone fighting crazily.

Even Shi Hao was shocked. That stalk of medicine looked extraordinary, irregular scenes astonishing, sparking an intense battle. Many people surrounded that area, attacking each other.

Wang Xi went there, Lu Tuo took action, the woman from Immortal Academy who had her Phoenix Wing Immortal Gold Ransur destroyed also charged over, all of them desiring that medicine.

This was a stalk of medicine that was a foot tall, purple and sparkling. It was rooted in the ground here, wishing to escape, but it was forced back again.

Divine medicines were intelligent, able to escape through the earth. This was the legendary Evil Dragon Medicine, its divine effects astonishing. It wanted to escape, but it was trapped by a formation someone laid here, unable to successfully leave.

As a result, the battle here also became exceptionally spectacular, figures flying about, fighting life and death struggles.

The six or seven leaves on that medicine looked like domineering evil dragons, the blades of the leaves like dragon claws. Purple energy rose, divine light flickering about, the scene extremely dazzling.

"This is simply like a restricted dragon!" Someone exclaimed in admiration. This stalk was among the best of divine medicines.

Hong!

The battle here was extremely terrifying, all types of great divine abilities all appearing, immortal energy scattering, tearing through heaven and earth. These were all the most powerful individuals.

What was the most eye-catching was the one who used the Dragon Fist, simply like a true dragon as he moved through the air, clashing head on against others, defeating all those in his path.

Soon afterwards, he also suffered the same bitterness Shi Hao previously did, being attacked from all directions.

He was precisely Ten Crown King. He roared towards the sky, a small sparkling tree that was replete with moisture appeared in his right hand, bright and multicolored. Chaotic energy surged, shocking all of his opponent.

Heavenly Deity Institution's people were still relatively better off, while Immortal Academy disciples' eyes immediately went red. This was one of the most powerful immortal seeds in history, one that was absolutely perfect, making them feel jealousy and shock.

There were immediately people who rushed over, to the extent where they didn't even fight over the Evil Dragon Medicine, surrounding Ten Crown King, wishing to seize the precious tree in his hands.

"With a World Tree Sapling here, what point is there in fighting over anything else? Merging with it is better than all opportunities!"

Those people went crazy, attacking Ten Crown King, their eyes blazing with greed!

Hong!

Only, they underestimated the power of the World Tree Sapling. When it released its power, leaves rustled about, chaotic sword radiance swept out, making everyone's expressions change.

The great battle was bitter. In the end, one person was struck by the World Tree Sapling, his entire chest area caving in, his three strands of immortal energy almost scattering, only then did everyone become horrified, breaking out in cold sweat.

Ten Crown King obtained it, seizing the Evil Dragon Medicine with a single motion!

This was something he had to obtain. He cultivated the True Dragon Precious Technique, grasping the most domineering Dragon Fist. If he refined both fists with the Evil Dragon Medicine, then the benefits would be unimaginable.

Hong!

Shi Hao came, but he didn't take action against Ten Crown King. Instead, a fist smashed out, almost blasting through that Immortal Academy woman's back. Fortunately, her reaction speed was fast enough, quickly evading, her entire body erupting with precious radiance.

Despite this being the case, she still staggered about, her lower back struck. Her slender body rose into the air, blood continuously coughed out from midair.

"Who?!" Those on the side shouted, these all individuals from Immortal Palace. When they turned around and saw that it was Shi Hao, their expressions immediately changed, because they had previously surrounded him too not long ago.

Shua!

Shi Hao landed, but no one faced him. Those individuals all felt restraining fear. They had exchanged blows with him already, deeply understanding how frightening he was.

"This fella is a problem. Find someone to suppress him."

"What a pity, the most formidable individuals like Little Sky King and the others aren't here!" n--o/-V)-e-.l/)-1)-n

Even though these individuals felt a bit unsatisfied, they didn't rashly take action. In the end, they even more so directly left, even that woman herself only glaring at him angrily, not fighting to the end.

It was because there were many opportunities in this ancient land, they didn't want to waste time. Precious light surged in the distance, another divine medicine emerging!

Medicinal fragrance wafted out. It really was unknown what kind of great natural luck this place carried, six types of unmatched divine medicines already emerging, enough to shock the entire world.

Up until now, three types of divine medicines were obtained.

Meanwhile, there were many other spiritual herbs, holy medicines even more so appearing in untold numbers, making everyone's eyes red, their blood surging.

The three stalks of divine medicines all landed in the hands of young supreme beings. The others who only had two strands of immortal energy could only sigh inwardly, not getting involved, obediently picking the other spiritual herbs.

"Yi, there are more people now, did the second batch of people enter?" The first group of people who entered were stunned.

It was clear that someone went out to send news, informing the others that there weren't dangers, but divine medicines and other great opportunities. As a result, the elders began to send in the second batch of disciples.

This region was extremely vast, those who entered appearing in all different positions.

Immortal Academy's people had good eyes. They saw a green-clothed woman in a region, precisely Qing Yi, her appearance quiet and peaceful, face exquisite and flawless, beauty enough to topple cities.

"It's her, the woman who walked together with Shi Hao!"

Back then, when conflict broke out between Immortal Academy's Wu Tai and others, Qing Yi was right by his side, and she was also involved in the ridicule Wu Tai and the others spoke. That was why when she appeared here, she was immediately recognized.

"Heng, it's this woman, even she dares to come. We have to have her taste a bit of suffering no matter what!" Someone said.

There just happened to be a young supreme being with three strands of immortal energy who was passing through this place. When he heard this, his expression was moved. Not long ago, when he surrounded Shi Hao, he suffered a loss, having the Soul Guiding Lotus seized. He found this a bit hard to accept inside, so now, he immediately developed different thoughts.

"You... come over here!" He shouted out, extremely domineering. However, when he carefully examined Qing Yi's appearance, he felt a wave of shock, ripples stirring within him.

The words had long been spoken, they couldn't be changed. He really wanted to capture Qing Yi. Regardless of whether it was to get revenge on Shi Hao or to restrict him when they fought for medicines later on, he had to take action.

"Octadic Treasure Unicorn!"

In the distance, someone cried out, full of pleasant surprise. Many people were fighting chaotically.

Shi Hao's mind was moved. There was actually this type of thing? He quickly rushed over, wishing to fight over it.

Chi!

A Qilin shaped creature was beneath the ground, trying to escape, but it was quickly forced to appear again.

Octadic Treasure Unicorn, a plant the shape of a Qilin, this thing normally hid underground in the depths of the ore mine, absorbing the essence of the great earth. It rarely appeared in this world.

It was the leader of the Archaic Octadic Treasures, one of the worlds' finest foods, its taste enough to make deities salivate, delicious to an indescribable degree. Even the culinary deities of the world could only sigh at its rarity.

Apart from this, it had another important use, which was that when it was mixed with other medicinal herbs, it could increase its medicinal effects by more than just a few times.

One could imagine if a stalk of divine medicine or even a stalk of long life medicine was mixed with this Octadic Treasure Unicorn, just what kind of effects there would be!

That was why no one purely viewed it as something to satisfy their desire for good food. Even if they obtained it, they would still have to store it and use it at the crucial moment.

Only, this thing was too rare, even more miraculous than divine medicines, rarely seen. They never expected to find one here. As a result, everyone began to fight and compete over it.

Shi Hao had previously obtained one in the three thousand provinces' Immortal Ancient Remains, but it had already been eaten with divine medicine, only the root kept, waiting for it to regrow. Now that he saw another stalk, how could he not be pleasantly surprised? He slaughtered his way forward.

It was because he recalled a faint recording from bone books that if two stalks of Octadic Treasure Unicorns encountered each other, there might be some type of astonishing change.

Hong!

He encountered Lu Tuo here, exchanging a fist on the spot. There was no friendship of being from the same academy to speak of here, only intense battles and fighting over natural luck.

"En, the Octadic Treasure Unicorn fled again. Restrict the earth, we cannot allow it to escape through the ground!" Everyone displayed secret methods, sealing the ground.

After clashing continuously Shi Hao caused the space between Lu Tuo's thumb and index finger to split, blood flowing out. His body wasn't a match, unable to fight Shi Hao head-on.

"En?" Suddenly, Shi Hao saw green moonlight pervading the air, a familiar aura spreading. The immortal dao energy was extremely clear; it was Qing Yi.

Shi Hao was certain that she followed the second group of people in, and was currently fighting against others, forced to use that mysterious green moon.

In another place, Meng Dou was extremely shocked, he never expected this woman could summon this green moon, releasing a rain of light to protect herself.

He was originally extremely domineering, wishing to quickly capture this world toppling green clothed beauty, but in the end, he discovered that the green moon stopped him, and there was even mysterious flame that burned about, forcing him to retreat.

“All of you, look, isn’t that extremely similar to the Green Lunar Flame recorded in legends? How could it be accompanying her at side?!”

“You’re right, that’s the Green Lunar Flame!”

“Have you all heard that legend, that Immortal Ancient Great Era’s Fairy Qing Yue will appear in this world one day? Could she be related to her?!”

A few of Immortal Academy’s disciples began to discuss among themselves, all of them extremely shocked. That green moon made them recall too many things, recalling some secrets.

Meng Dou was moved, inwardly surprised. This woman was related to True Immortal Qing Yue? If he captured her ahead of time, having her follow him at his side, then there might be world shocking natural luck.

He immediately took action, using three strands of immortal energy to suppress her, moreover using secret treasures to quickly capture Qing Yi. However, it wasn’t effective, and Qing Yi’s green moon seemed to have begun to retaliate as well.

“You’ve forced me to use murderous methods!” Meng Dou’s expression was ice cold.

“Hou...” Suddenly, a great roar sounded. Shi Hao arrived from the air, slaughtering his way over.

Peng!

He was extremely direct, a Kun Peng Fist appearing as soon as he arrived, shaking up heaven and earth, striking Meng Dou until he fell back.

An intense battle was unavoidable, erupting on the spot!

Pu!

Meng Dou wasn’t a match. When he took action against Shi Hao, that was together with everyone else, surrounding and attacking him, yet they couldn’t even stop this youth. Now that they were fighting one on one, he was blasted until blood sprayed out from his mouth.

Hong!

Shi Hao used several precious methods, fighting a decisive battle against Meng Dou. As a result, his chest was blasted through, lightning shooting out in tens of thousands of streaks, blasting that place until it immediately became scorched black after blood rushed out.

“Ah...” Meng Dou screamed, feeling like his body was going to break apart, his primordial spirit unsteady, very likely falling here. He turned around and immediately ran.

Shi Hao chased after him, shocking everyone here. Was a young supreme being going to die here?

Chi!

Finally, Meng Dou fled the ancient land, rushing out from the cliff, appearing before the two academies' elders, almost dying.

This was the first young supreme being that withdrew, triggering a huge commotion.

When Immortal Academy's old monsters learned what happened, their expressions all became unpleasant. If this continued, if that Huang went crazy, will everyone be forced out?

Chapter 1217 - True Gold

Meng Dou was even defeated, almost killed, this definitely left everyone greatly shocked!

Everyone's evaluation of Shi Hao's strength increased once more, believing that this was an extremely dangerous person. Not even someone who cultivated three strands of immortal energy was a match for him, truly making everyone feel restraining fear.

"You alright?" Shi Hao looked towards Qing Yi.

Qing Yi shook her head. She felt rather strange. A green moon suspended above her, making her look a bit absent-minded. At this moment, she seemed to have seen many blurry scenes, feeling an unmatched fairy currently walking towards her inner world, gradually becoming clearer.

"Qing Yue..." She muttered to herself.

Nearby, everyone was shocked. Could the inner details be true, the legend going to become reality? The true immortal of a former era was going to descend into this world again!

Everyone's minds shook, feeling that this was inconceivable, revealing an expression of disbelief.

"Heng!" Shi Hao released a cold heng, this sound crashing down on everyone's minds, making them all snap back.

Everyone shivered with fear, especially Immortal Academy's people who even more so shivered in fear. This was simply an unmatched killing disaster, even defeating Meng Dou! How many people were there left who could keep him in check?

Experts with three strands of immortal energy were all exceptional individuals, people who would rule the Nine Heavens Ten Earths in the future, destined to become unmatched powerful beings!

However, that type of individual was still almost killed by Shi Hao, running away shamelessly. This was enough to prove how frightening this person from the lower realm was.

Shi Hao's performance made these people feel extremely uneasy, none of them daring to get close.

In the distance, when the woman who had her Phoenix Wing Immortal Gold Ransour destroyed saw this scene, she was dealt a mental blow. She really didn't know if she should rejoice or curse.

Shua!

The green moon flashed, entering Qing Yi's body once more. The gentle moonlight disappeared, she woke up from that absent-minded state.

"Don't tell me you really are a reincarnated body?" Shi Hao asked.

“Weren’t there some supreme beings that already proved that true reincarnations doesn’t exist in this world?” Qing Yi shook her head. However, she didn’t know what exactly was going on with this green moon either.

“Let’s go, we should pick divine medicines. I feel like this is an abandoned medicine garden with many divine medicines planted within!” Shi Hao said.

He brought Qing Yi in the direction he came from. There was an Octadic Treasure Unicorn here, from a certain perspective, something even more rare and precious than divine medicines, its value even greater.

When the two individuals left, this place couldn’t calm down. Immortal Academy’s people were greatly shocked, a few people starting to discuss quietly.

“The three strands of immortal energy he has are likely... all cultivated by himself, not a quick fix, not through stealing opportunities!”

“I believe... this should be the case. He is like the unmatched young experts from Immortal Ancient Great Era. They all relied on themselves to cultivate them, not obtained from older generations’ achievements.”

This naturally triggered great waves. Everyone watched Shi Hao’s rear figure disappear into the distance, their eyes containing complex and burning expressions.

They were sure that this was a true matchless young expert!

Immortal Academy’s people had long heard that even though there were young supreme beings who cultivated three strands of immortal energy, there were some that were ‘padded’, created through the assistance of great figures.

For example, some people absorbing the aura from ancient immortal corpses, some directly exchanging a set of flesh!

And now, they were sure that Shi Hao was definitely a piece of true gold!

“Don’t let it get away!”

In another direction, there was someone who shouted, trying to capture the Octadic Treasure Unicorn.

This place was surrounded by a formation, but the Qilin shaped plant was too agile, moving about the earth, its escape methods unmatched, difficult to track down.

Moreover, because everyone was fighting with each other, taking action and resisting one another, it made it much easier to run.

This was especially the case when Shi Hao returned, a few people becoming anxious, directly opening up a hole in the formation, and then waiting with Heaven and Earth Pouches and other spatial precious artifacts to take a risk and seize it. This way, that Octadic Treasure Unicorn truly obtained the opportunity to run!

“Fool, what you doing!” Lu Tuo was furious, loudly berating a young man from Immortal Academy.

Chi!

Princess Yao Yue was also here. She activated a streak of moonlight, sweeping towards the depths of the earth, but she was still a step too late. That Octadic Treasure Unicorn rushed out directly through the opening.

“Collect!” Immortal Academy’s expert shouted, activating a Heaven and Earth Pouch, blocking the opening, about to collect it.

Chi!

On the other side, Wang Xi ruthlessly took action. The space between her brows shone, half of her primordial spirit separating, merging with the sword radiance and immortal energy. It directly hacked out, power exceptionally powerful.

She attacked with the Chaos Calming Art, the power naturally endlessly terrifying!

Immortal Academy’s male was shocked, hurriedly defending himself. His hands moved, and then the Heaven and Earth Pouch’s radiance moved, unable to collect the Octadic Treasure Unicorn, passing right by him.

“No!” Many people cried out.

Hong!

Shi Hao rushed over, arriving through the air. He reached out a large earthen-colored hand, slapping the table, blasting apart the earth, and then grabbed outwards.

In that instant, earth and rock flew everywhere, five elements energy surging chaotically, smoke and dust rushing into the sky.

Zheng!

A divine sword released a light cry, cutting open the heavens.

Dang!

A great bell rang out, long and drawn-out, the sound ringing for thousands of li, producing ripples of time.

Weng!

A six layered pagoda smashed down, making space itself unstable, the void tremble. Natural laws suppressed this place.

These were all great dao weapons, weapons of young supreme beings. When the earth ruptured, everyone took action without holding back, crazily attacking.

It was clear that Shi Hao took on the brunt of the firepower. Everyone was worried that he would obtain it, quite a few people even charging at him.

In reality, regardless of who it was who obtained the Octadic Treasure Unicorn, they would be attacked by everyone else, suffering the suppression of magical artifacts and precious techniques.

Shi Hao was like a spectre, his figure flickering, silently shifting out who knew how many li, avoiding the various weapons. He looked coldy at everyone.

His grab towards the Octadic Treasure Unicorn failed, not able to obtain it.

Everyone naturally stopped their attacks, all of their expressions ugly. That rare Octadic Treasure Unicorn was actually lost just like this! It was originally even trapped in the formation.

“You selfish and small-minded person!” Lu Tuo berated, directly sending a palm in the direction of that young man from Immortal Academy.

The others were also upset. Princess Yao Yue released a streak of moonlight, attacking at him, even Immortal Academy’s people annoyed, not helping that person.

This place became chaotic, extremely noisy.

Shi Hao also felt vexed, really wanting to slap that male from Immortal Academy to death. After missing this chance, it would be hard for them to capture that Octadic Treasure Unicorn again.

Dong!

Suddenly, a muffled sound could be heard from the distance. The great earth was shaking in response, shocking everyone.

Then, a tremendous noise rang out. It was as if the heavens were collapsing and earth caving in, the void even shaking, rumbling noises sounding.

Everyone turned around, their eyes full of shock as they looked in the same direction.

An expanse of primordial symbols surged, filling the skies.

“Guardian spirit text!” Someone cried out.

If one were to say what was one similarity between the last great era and this one, then it would be guardian spirits. However, guardian spirit texts had long been lost in inheritance, or changed entirely.

Regardless of whether it was Immortal Ancient or the present world, guardian spirits all existed. Those that had weaker strength protected a tribe, while those with greater strength would protect a country, or maybe a great heaven and earth.

Only, now, the guardian spirits are a bit different from those from Immortal Ancient, living independently. Rarely would there be secretly exchanged guardian spirit texts between them.

“Let’s go!”

A group of people rose into the air, flying in that direction.

Shi Hao also moved, traveling together with Qing Yi.

There was a small temple located within a small mountain.

This was the destination, an extremely simple place without magnificent mountains and rivers. There was no beautiful scenery, this place too monotonous.

The small temple was extremely worn-out, about to collapse. There was only one opening, and it was at the base of the mountain.

The small mountain was bare, no plants on its surface, mainly made of rock, extremely short, only barely passable as a mountain. It wasn't over a hundred meters in height.

But the astonishing guardian spirit text came from the mountain body, making the void brilliant.

In front of the mountain, there were some figures that made Shi Hao's expression become serious, not daring to act recklessly. Exiled Immortal who was just as famous as Ten Crown King was there, and there was also the protectors' descendant, Dugu Yun.

Apart from this, there were two formidable individuals from Immortal Academy, these individuals all standing outside the small mountain right now.

There were a few traces on the stone walls, the engravings blurry, but symbols were currently seeping out through those walls.

A door rested right on that stone wall. Those individuals attacked it just now, as if they were trying to enter from this place.

Right now, Exiled Immortal took action, attacking at some of the patterns on the walls, using quite a bit of effort. n/-v/-V/-e((l.(b-.l--n

Immortal Academy's two individuals also moved, attacking again, similarly striking the stone wall.

Dazzling symbols rushed into the air, released from the mountain body.

"Yi, that stone gate seems to have become a bit clearer just now!"

"Do you all see? The precious pitcher on the wall shone just now, as if it was about to truly appear!"

Everyone began to discuss among themselves, all of them paying careful attention.

"Do you recognize those guardian spirit texts?" Shi Hao asked Qing Yi.

"I don't recognize all of them." Qing Yi said. However, she still read a few characters, enough to leave Shi Hao shocked.

"Five Magics Sealing Heavenly Seed is precisely here. This stone mountain path must be taken!" Qing Yi said.

Hong!

Right at this time, the protectors' descendant Dugu Yun took action. In addition, he bit down on his middle finger, dripping a bit of golden blood on the stone walls.

At this moment, shocking changes happened!

Ao...

A world-shaking roar sounded from that stone wall, as if it came from the distant ancient past, carrying an aura of great changes, as well as a primitive savageness.

Then, everyone was shocked. A few indistinct figures that were trapped in the stone wall really appeared, as if they were walking over from the limits of heaven and earth, slowly approaching them!

“Heavens! Isn’t this a door carved into a stone wall? How can there really be someone walking inside? Is it going to cross over?” Someone cried out loudly.

That figure was extremely blurry, but it was quite frightening, carrying a wave of domineeringness, as well as a type of excitement and boldness. It quickly ran, shaking up this entire place.

Even outside the mountain, in the world where everyone was in, the great earth began to shake, trembling along with it.

Ao xi...

Following a great roar, the mountain began to shake violently. Inside the gate that was carved on the stone wall, a hand that was covered in fur reached out.

That figure was going to leave its world!

Chapter 1218 - The Life Within the Stone Wall

That hand was hairy, covered in red long hair. Even though it was the shape of a hand, it still made most people immediately think of a beast claw.

It actually reached out through the stone wall, appearing from the engraved door!

Everyone was stupefied. This was a door drawn on a rock wall, so how could it really become a path?

Hou!

That sound was so deafening it made everyone’s eardrums feel like they were going to rupture. This entire world was trembling intensely, that creature struggling with difficulty, wishing to break free, struggle out from the stone walls.

What was going on? Many people were confused.

The stone engraving was reviving, someone was going to come into this world? This really was strange, making one’s heart beat violently.

A savage aura swept out, as if it ran here from the ancient times, wishing to show itself in this world, contend with the heroes of this world.

Only, it failed after trying several times. After that entirely red haired hand reached out, its body didn’t move again, unable to move through.

Heng!

Immortal Academy’s two experts released a cold snort. They walked up together, about to take action.

“Out of the way!” The protectors’ descendant Dugu Yun shouted. In that instant, his entire body’s golden blood energy surged, even his head of thick pitch-black long hair becoming golden, his entire body’s aura raised to the peak.

At this moment, his expression was extremely serious. At the same time, there was a type of excitement within the depths of his pupils, impatient as he stood right in front of the stone wall.

In the stone wall, that figure seemed to feel some misgivings, fearing that it would be plotted against. That arm disappeared, returning inside the engraved stone door.

Dugu Yun's arms moved out, actually producing a mysterious magical imprint, from time to time striking the stone wall, producing strange patterns. This seemed like some type of powerful offensive magic technique, and also like some type of ceremony was being carried out.

In addition, during this process, his finger continuously trickled out blood. When the golden blood landed on the stone walls, it was as if an arid desert finally experienced rain and dew, completely absorbing everything.

"What are you doing?" Immortal Academy's two individuals shouted.

Exiled Immortal's expression changed slightly. He looked at the protectors' descendant, his aloof and otherworldly aura restrained somewhat, now appearing a bit serious. A pair of true phoenix void figures appeared behind, preparing to attack at any time.

"Ah mu du loo..."

Right at this moment, an overcast noise sounded from the stone wall. That hairy arm moved again, sensing the golden blood's aura, at the same time as if asking something.

Almost no one could understand what it was saying. That voice was difficult to understand, the syllables ancient, moreover carrying a wave of strange demonic power that seemed to be able to injure one's soul.

"Tuo ka ni ma sal..." Dugu Yun replied, his expression more and more dignified. Golden blood continuously flowed out from the finger, converging towards the stone door.

"Explain to us what you are doing right now!" Right at this time, Ten Crown King also stepped out. He stood there, in his hands the World Tree Sapling.

In addition, Shi Hao came out, his expression extremely serious. A terrifying aura was released, making quite a few people from Immortal Academy and Heavenly Deity Institution back up, feeling like the situation was extremely dangerous.

Shi Hao had to admit that what the protectors' descendant was doing was too strange. No matter how he looked at it, it looked as if he was cracking a seal, making that creature come over.

This was especially the case when one thought about Dugu Yun's background, immediately making them feel more worried. After all, he had previously lived in the other side of the world, not growing up in the Nine Heavens Ten Earths.

The fact that he was brought over by a foreign expert was already not normal in itself!

"Can you understand what they are saying?" Shi Hao secretly asked Qing Yi.

Qing Yi frowned, thinking to herself, interacting with the green moon within her, wishing to figure out what those two were talking about.

“Mo Dao, come here!” Shi Hao gave the foreign expert he had subdued a look. He had just hurried over here. Right now, he actually revealed a look of shock.

Shi Hao was naturally moved, calling him over, asking him if he could understand what they were saying.

Mo Dao felt rather conflicted, but he still spoke, saying, “This is the language of the other side of the world. I cannot understand it, but I know that this is the most ancient Emperor Clan’s language.”

This was definitely shocking information. Everyone’s expressions changed greatly. With a hu la sound, Lu Tuo, Exiled Immortal, and Immortal Academy’s people surrounded over, about to subdue Dugu Yun.

It was because his actions were just too suspicious, actually using the most ancient foreign Emperor Clan language to communicate with the creature in the stone wall, immediately making everyone produce negative associations.

It was because according to what Mo Dao said, even in the other side of the world, not many clans could understand it, only a few Emperor Clans able to understand.

This was an undying language, words of the great dao. This type of language was an embodiment of the dao to begin within, able to produce the most powerful incantations!

Hong!

Exiled Immortal took action, extremely decisive. A True Phoenix appeared before him, its feathers brilliantly, resplendent with divine light, illuminating the sky. It dove towards the stone wall, attacking Dugu Yun.

Chi!

Golden blood energy surged around the protector’s descendant, creating a storm. Meanwhile, the indistinct figure inside was like an unmatched war god, able to forcefully resist the True Phoenix.

A dong noise sounded in this place, the void exploding. The two had just exchanged attacks, yet the most terrifying destructive results were already produced.

Even the young supreme beings who cultivated three strands of immortal energy withdrew, not willing to be easily caught up, all of their expressions serious. It was because their strength was too great. n/-o/-
V/-e((ℓ.(b-.l--n

There was even less of a need to talk about normal people, their faces turning pale. They activated their immortal energy to protect themselves, quickly withdrawing.

Hong!

Ten Crown King took action. With the World Tree Sapling in hand, he directly attacked that stone wall, producing the most terrifying scene. Heaven collapsed and earth split, ghosts wept and deities howled, chaotic energy rushed in all directions!

His target was the stone gate, as well as the palm that reached out.

“Ao...” A roar sounded, grand and resonant, as if it erupted right by everyone’s ears, making everyone feel as if their blood ran cold.

That stone wall was shining, many symbols appearing on the surface. This was especially the case when golden blood flowed, filling all of the stone engravings, making the stone doors sparkling and almost transparent.

An extremely terrifying wave of energy was released from that area!

“The seal has been undone!” Someone cried out in alarm, speculating this type of result, body couldn’t help but tremble.

That stone gate shone, actually stopping the World Tree Sapling, ridiculously powerful. All types of symbols and patterns interweaved densely, extremely mysterious.

Then, not only an arm reached out. Half a body followed, and then its entire body emerged. A creature came over!

Hong!

There was a type of savage aura, a wave of crazy power. The creature stepped out of the stone door, covering heaven and earth as it arrived, its eyes coldly sweeping over everywhere.

This was a human shaped creature, but it was unknown what kind of species this was. There was scarlet red hair covering its entire body, a head taller than normal people, its eyes were a silver color.

The young supreme beings were unexpectedly unified, each standing at a side, surrounding this place. Every one of them produced weapons and other things, ready to release a decisive strike at any time.

Dugu Yun walked up, almost about to make physical contact with it.

Exiled Immortal and Ten Crown King took a few steps back, not immediately taking action, because it was all too late now. They quietly watched how the situation was going to develop.

This place immediately became quiet, no one opening their mouths. They all wanted to see what exactly the protectors’ descendant wanted to do.

Of course, there were many people who were extremely nervous. After all, a creature was mysteriously released, so how could they not be worried?

“Gu Luo Mo Si...” Dugu Yun said, earnest and serious, in the end even shouting it out, about to become hostile with that creature.

That creature whose entire body was covered in scarlet red hair spoke deeply and coldly, its silver pupils releasing metal-like light, its voice extremely unyielding as it conversed with the protectors’ descendant.

Everyone was confused, not knowing what they were saying. What exactly was Dugu Yun trying to do? This was what everyone wanted to know.

There was someone who wanted to get access to their divine wills, but they discovered with shock that they couldn’t do this, all of them failing. A few people even suffering a backlash, blood flowing out from the space between their brows.

“You can’t understand even a single line?” Shi Hao asked Mo Dao.

“This type of undying language is something only the most powerful clans in the other side have the qualifications to learn, only grasped within a few emperor clans.” Mo Dao felt helpless. He was extremely strong, but not even his clan could rank in the very front.

Right at this time, Qing Yi opened her eyes. A layer of pure and holy moonlight scattered out. She opened her mouth and said, “I understand some of it!”

Those nearby were all shocked. Even Exiled Immortal, Wang Xi, Ten Crown King, Immortal Academy’s great experts and others looked over with shock.

“The protectors’ descendents is inquiring about their bloodline’s land of residence, how to get there. He is trying to find an ancient path!” Qing Yi’s words left everyone shocked.

Meanwhile, her following explanation was even more shocking.

Dugu Yun continued to ask that creature covered in red hair, asking him how to find that path and enter that secret land.

Everyone was stunned. Wasn’t the protectors’ bloodline completely wiped out? There were only a few individuals, and almost all of them were killed in battle.

However, when they heard Qing Yi’s following explanations, they began to shiver coldly. That so-called clan’s land of residence was a different place, their original home.

“Heavens, the protectors’ bloodline’s place of origin? There are still survivors? They don’t seem to be in the Nine Heavens Ten Earths. Just how powerful is this clan?”

Everyone’s fine hairs stood on end. Some of the people who left this clan back then protected this world, being called protectors, so if the rest from the original land came, just how terrifying would it be?

Soon afterwards, everyone thought of an issue, moreover inner details they had only recently understood.

Creatures with golden blood were known to be an unmatched clan. During Immortal Ancient years, there were other legends claiming that they were one of the four supreme bloodlines.

“One of the four powerful bloodlines, Dugu Yun’s clan is an extremely powerful one. Could it be that they weren’t wiped out?”

“This really is scary! Perhaps the so-called title of being one of the four supreme bloodlines was something those people from the clan’s original location contended for.”

Everyone’s minds were in chaos, their emotions rising and falling, finding it difficult to calm down.

Immortal Ancient has secrets, too many unknowns. It seemed like many past things were going to reappear in this era!

“Exactly what kind of task was Dugu Yun given after being sent back to this world? Will he help the foreign side, or is he searching for his own clansmen’s location?”

Everyone carried doubts, finding it hard to calm down. They were all hoping that no drastic unforeseen changes took place.

There were a few people who thought of many other things. Not long ago, they had learned that the protectors' bloodline's golden blood could turn black, and when that time came, it would no longer be a holy aura, but rather berserk, murderous, and full of demonic power.

Apart from this, everyone had heard that Dugu Yun had previously headed to Origin Ancient Mine, wishing to investigate something. As a result, black blood surged out from the ancient mine, pouring out from the ancient mine's entrance.

"There is something strange!"

"How strong is this red-haired creature? We aren't going to all die here, right?"

"No matter, if there is a battle, then so be it!"

Right now, some people were nervous, some excited, and there were others who longed for more information, all of them wishing to understand everything fully.

Chapter 1219 - Emperor Clan

"Ah tu tuo lan..." That creature spoke, his silver pupils releasing a deep radiance, cold and penetrating. The long red hair covering his body made him look quite terrifying.

Even the hair covering his face was full of this type of blood red hair. Apart from his eyes, everything else was covered.

He was replying to the protectors' descendant, communicating with him. Its words were a bit intense, quite domineering and strong, not scared of the people here at all.

What was slightly reassuring was that even though he was extremely strong, his cultivation realm wasn't too much higher than everyone's, very likely also at the peak of the heavenly deity level like the young supreme beings.

In addition, there was someone who was able to sense a wave of vigorous energy from the wisps of blood energy that were released from its body. This was a young expert, not an extremely old individual.

Only heaven knew how many years this creature had been sealed for. How could he still be so young?!

Everyone was incredibly shocked, a bit perplexed, unable to understand why this was. However, it was precisely because he wasn't a powerful ancient being that everyone felt a bit more confidence.

"Le duo xi!" Dugu Yun shouted angrily, arguing with it, his chests rising and falling intensely, appearing extremely unsatisfied and upset.

"What are they saying? What are they arguing about?" Shi Hao asked.

Mo Dao shook his head, because he couldn't understand anything. This was the foreign land's most ancient Emperor Clan language, something not even a few present world Emperor Clans grasped.

Strands of green moonlight passed through Qing Yi's beautiful eyes, her appearance gentle and divine. Her entire body was bathed in large amounts of pure and holy moonlight, aloof and free from vulgarity.

"They are discussing a place, the homeland of those with golden divine blood within them. Dugu Yun wants to find a path and head there, but that creature told him that it's impossible. The creature who left that place would be affected with the air of the mundane world, and thus no longer be able to return!"

Qing Yi's words left everyone shocked. What kind of place was this? Once you came out, you couldn't go back!

The homeland of the protectors was full of mysteries. It seemed to be an extremely divine place that didn't tolerate the aura of the mundane world. There were extremely strict rules about that place.

According to what the red-haired creature said, Dugu Yun's ancestors, precisely the protectors' bloodline, came from that place, but they couldn't go back, so there was even less of a chance of their descendants being able to.

"The red-haired creature isn't willing to tell Dugu Yun, because he fears that he might search for it hastily and spark unnecessary trouble." Qing Yi added.

Everyone revealed expressions of shock. There was a power that made even the other side feel restraining fear!

Dugu Yun quarreled with it, clearly not agreeing. He wanted to find that ancient path and return to the pure land where his ancestors lived, this way make his golden blood even richer and stronger!

"Pu si nie teng..." The blood-colored hairy creature's silver pupils released an ice-cold light. It was warning Dugu Yun, not budging on this subject at all.

The entire body of the descendant of the protectors was covered in golden light, long hair even golden, the aura he released oppressive. He took half a step forward, making contact with that creature, his bearing also extremely forceful.

Hong!

Between the two, heaven overflowing divine flames erupted, the violent blaze burning everything until half the skies distorted, about to collapse.

These were symbols produced from divine force. The divine flames weren't true flames, but rather the brilliance created when great dao patterns flourished with the greatest brilliance!

"That creature said that once the ancient road is followed to the end and the realm gate is opened so he could enter, there would be mysterious powerful individuals that would be summoned." Qing Yi said.

She was translating the two individuals' dispute. Sometimes, it was extremely precise, while sometimes, some words meanings were quite vague, because she couldn't completely understand them either.

However, the parts that were translated were already enough to leave everyone stupefied.

Not only were there golden blood creatures, there were other terrifying clans. Normally speaking, they wouldn't step foot into the mundane world, but once they did end up crossing over, then the effects would be extremely serious.

The red-haired creature didn't wish for things to get out of hand, thus not telling Dugu Yun.

"The Emperor Clans of the other side of the world have promised me that once I found you all, I can obtain the path. Why do you refuse?!" Dugu Yun roared.

This time, he used the language of the Nine Heavens Ten Earths when he shouted out, seething with anger. His hand grabbed the red hair in front of that creature's chest.

"You dare take action against me?!" At this moment, this red-haired creature no longer used the ancient language either, instead using divine will, because they were no longer talking about secrets. He released a shout, the ground nearby rupturing, void becoming indistinct, twisting about.

Hong!

Astonishing symbols erupted between the two, dense and concentrated. A great battle broke out.

The red-haired creature raised its hand, immediately grabbing Dugu Yun's wrist, twisting it in the opposite direction. Divine light surged, scarlet multicolored light burning. Divine force rushed out like ocean waves.

In that instead, the two individuals' arms erupted with several types of great divine abilities, facing off and clashing fiercely.

The void exploded, immortal energy pervading the air. The two individuals were sent flying at the same time, berating each other and continuously trading attacks. Large amounts of great dao divine patterns were released.

Even though they both flew backwards, they still continued to fight intensely!

Qiang!

A divine lance appeared in that red-haired creature's hands. This weapon was like a spear, yet unlike a spear. It was even more ferocious, all those who used this type of weapon possessed ridiculous boldness and strength!

At the same time, a heavenly spear appeared in the protectors' descendant Dugu Yun's hands, similarly a great weapon, all those who dared to use it astonishing individuals.

The two weapons erupted with power, rushing out several hundred zhang from the blades, looking like two small golden mountains. They clashed together, sparks flying everywhere.

At the same time, there were two types of great dao divine sounds that rang out. Terrifying ripples were formed that crushed the void, even more so violently smashing into the observers.

Exiled Immortal, Wang Xi, Lu Tuo, and the others were still better off as they cultivated three strands of immortal energy, able to protect themselves, but it was different for the others. Blood spilled out from

the mouths and noses of a few people with only one strand of immortal energy, their bodies staggering backwards.

One could see how terrifying the collision between these two weapons was. It was because they were dao weapons, the items they achieved the dao through, weapons that accompanied their growth. Right now, the ripples that were released from the weapons were the effects of both individuals' divine abilities overlaying. Even from quite far away, the power these blast waves possessed was still great.

Dugu Yun landed on the ground. He held the heavenly spear in hand, his appearance handsome, long hair hanging down to his waist. His entire body released golden light, becoming more and more resplendent, burning brilliantly like a sun.

The weapon in his hand pointed forward, his expression serious, carrying a wave of ice-cold killing intent.

On the other side, the red-haired creature was rather tall. The moment he landed, with a raise of his hand, he immediately restricted three cultivators from afar, two from Heavenly Deity Institution, one from Immortal Academy.

Pu!

His right hand had the divine lance in hand, while his right hand crushed one person's head with a pu sound. Blood began to flow towards his arm, vigorous life essence energy rising into the air.

This all happened too quickly! Those three individuals didn't have time to evade, and none of the others had time to stop it.

Ah...

Those people all cried out miserably, their bodies starting to dry up at almost the same time, their flesh shriveling. Soon afterwards, their skin began to crack, looking like air-dried tangerines, wrinkled and dried-up.

This was absolutely terrifying. In that instant, this creature sucked a cultivator's life essence dry.

"After being sealed for endless time, it's been quite some time since I enjoyed meat. This type of feeling truly is refreshing!" The red-haired creature revealed an infatuated expression, as if he was experiencing great pleasure.

While speaking, the two others crushed under his feet had already withered up as well, strand after strand of essence energy turned into blazing multicolored light, entering his body through the soles of his feet.

One could clearly see that both of his legs were shining. If not for the hair blocking them, they would be almost transparent. Two waves of surging life essence energy entered his body, replenishing his energy.

"You dare?!" Many people were furious, loudly berating him when they were able to react.

"The era really has changed. The insignificant clans that had worshiped us as divine existences now dare to point their weapons at us?" The creature covered in long red hair spoke, the long lance in hand. He

stretched his body, looking incredibly relaxed. The three cultivators he absorbed just now seemed to have left him extremely satisfied, his vitality becoming even more vigorous.

Kacha!

Meanwhile, when he moved his body, the red hair released sharp and clear sounds. As he moved forward, piece after piece of brilliant matter fell out, dropping from the hair, landing on the ground.

“What is that?” Many people were shocked. They felt a wave of divine aura, as if these were things condensed from a type of viscous liquid, previously sealing this creature.

“This is the main reason why it was able to live until now!” Wang Xi said.

Otherwise, there was no way this person could have lasted all this time with his current cultivation realm. He couldn’t have continued living, moreover maintaining his youthful state.

“This is a liquid refined by undying beings, able to seal all things, prevent them from decaying, allowing them to live for as long as the world.” Mo Dao also spoke, revealing an expression of shock.

Shi Hao turned around and looked at him. Even though he didn’t say anything, his inquiring appearance was clear.

“If I am not wrong, this should be the descendant of an ancient Emperor Clan from the other side. This clan of theirs was sealed here.” Mo Dao said.

“What else do you know?” Shi Hao continued asking.

“There should be a dao seed here, the Emperor Clan previously coming precisely for it. That seed is known as a heavenly seed, something that an unmatched great figure had previously even felt regret over.” Mo Dao said quietly.

“A great figure feeling regret for?” Shi Hao was shocked, feeling extremely confused.

“Correct, there was a powerful figure, accomplishments reaching the undying level, who thought back to the events of his younger years, previously feeling regret that he missed out on this heavenly seed. If he had used this seed to seek the dao, his accomplishments would have been even more terrifying, reaching an unimaginable state.” Mo Dao said.

Shi Hao was shocked, immediately thinking of many things. The legends really weren’t completely baseless! Five Magics Sealing Heavenly Seed, there really was a corresponding astonishing dao seed, even the foreign creatures previously continuously thought about it.

If it was a normal person, then it was one thing, but that was an undying being, an existence that existed forever with the world, alive all this time. $n) o((v(-e/.l..b)(1).n$

“That giant was extremely powerful, no one knowing what era he was born in, not even a time he was completely defeated. Among the divine images consecrated in the temples on the other side, there would definitely be one of him.” Mo Dao said it like this.

This type of information was too shocking. An unmatched giant, a paramount existence’s regret, just how extraordinary was that heavenly seed?

“This place is extremely dangerous, the so-called sealed refinement of medicine within a pill furnace, what is sealed might very well be a certain foreign Emperor Clan.” Qing Yi came to this conclusion.

The red-haired creature before them was definitely not the only one, there were definitely elders, more powerful existences, just that only this person broke free thus far.

Chapter 1220 - Heaven Overflowing Vicious Flames

The red-haired creature moved again, brandishing the divine lance in its hands. Heavenly winds swept about, the void caving in, chaotic energy surging. A blinding streak of light was drawn out by the lance's blade as it thrust forward.

Dang!

The protectors' descendant Dugu Yun's body was like cast from metal, dazzling and brilliant. The heavenly spear in his hands rushed up to meet it, hacking down with the massive heavy weapon. When the two divine weapons collided, it was as if small mountains smashed into each other, sparks flying in all directions, divine radiance erupting.

It was as if planets collided here, making heaven and earth split apart, the sounds deafening, dazzling radiance filling every inch of space, making one's mind pound.

This was a great decisive battle, the two individuals opposing each other with equal harshness, their strength similar, difficult for one side to get an edge over the other.

Everyone's expressions changed. Even Lu Tuo, Yao Yue, and those like them were shocked, feeling threatened. They cultivated three strands of immortal energy, but when they saw these two, their expressions all became serious.

“Too strong, the number of people able to face them too few! Not many people could stop their advance!” Someone said with a sigh.

“Do you really want to cross that realm gate?” That creature covered in long red hair shouted.

“I do! I want to return to the ancestral land, bathe in golden sacred rivers, allow my body to transform, the golden blood to boil!” Dugu Yun said. This was a type of ceremony, and even more so their clan's journey of rebirth.

If he could experience this type of ceremony, it would make him more powerful, bring him to the very peak!

“Your clan isn't the only one there, there are other clans too. No one will let you go through the realm gate! Once they find you, you will be killed without exception!” The red-haired creature said.

“This is something I need to worry about, not your business. I just need you to tell me the ancient path to that realm gate!” Dugu Yun insisted on advancing.

“Good, since you are this stubborn, I'll give you a chance!” The red-haired creature said coldly, his silver pupils immediately becoming incredibly deep.

In addition, he withdrew backwards, putting away the divine lance, stopping the battle.

This place was in quite the bad state. There were clearly divine patterns and other things underground, but it was still struck until it broke apart, only the shoddy temple and low mountain remained.

The red-haired creature pointed at the mountain wall, saying, "Release my ancestors, and I will tell you!"

Qing Yi immediately translated his words, informing everyone, instantly triggering a huge uproar. No one could remain quiet anymore, all of them glaring at them angrily.

"Truly unbridled, are treating us like empty air, saying this type of thing in front of our faces!" There were immediately people who became furious. Even though they knew that this creature was extremely strong, they still couldn't help but berate outloud, using their divine wills to transmit sound.

That red-haired creature was large and tall, leaning against the lance as he looked at the one who spoke in disdain, not treating him with any importance, coldy saying, "You thing that doesn't know the height and depth of heaven and earth, even someone like you can interrupt me when I speak?"

While speaking, he raised his right hand. An enormous expanse of light appeared, forming a dragon claw, then quickly clawing towards that person.

Hou...

A great dragon roared. That giant dragon claw tore through space, immediately arriving, covering heaven and earth as it descended. That person's expression immediately changed, discovering that he couldn't move at all, trapped in place.

If no one took action, he would, without a doubt, die right here. The difference between the red-haired creature and himself was far too great.

Everyone naturally wouldn't just watch from the side. Shi Hao frowned, about to take action, but Xuan Kun was closer, already roaring out, sending a fist smashing outwards to stop that dragon claw.

Dang!

In the void, that fist and dragon claw collided, unexpectedly like metal when they made contact, the metallic vibrating sound almost directly rupturing everyone's eardrums, the noise too great!

"Two strands of true immortal energy, one strand fake, yet you dare show yourself before me. Do you like making an exhibition of yourself?" The red-haired creature said. This time, he used his divine will so everyone could hear him.

"Unbridled!" Xuan Kun was furious. After all, he had three strands of immortal energy around him, a top level expert at the Heavenly Deity Realm, never had he been humiliated and looked down on like this before.

"It's not that I want to criticize you, if you fought alone, coming one by one, I could kill you all alone!" The red-haired creature held the divine lance single-handedly, aiming it at everyone.

Hong!

What he got in response was Xuan Kun's palm. His five fingers closed, every single one sparkling, releasing five-colored multicolored light and flowing with five elements divine force.

The others were all angry as well. This red-haired creature had been sealed for so many years, yet he was still so wild and domineering, looking down on the experts of the Nine Heavens Ten Earths, making everyone furious. They all wanted Xuan Kun to win.

Chi!

The divine lance shone, ten thousand streaks of blazing divine radiance erupting, tearing open the void. The red-haired creature was too powerful, holding the divine lance just like that, brandishing it about, divine might unstoppable.

He wanted to cripple Xuan Kun's palm. That divine lance's blade shone, illuminating the sky. Chaotic energy surged, the attack exceptionally terrifying.

In that instant, this place was surrounded by dao sound. Xuan Kun's palm strength erupted like a flood, divine patterns interweaving, dense and concentrated, surrounding this place.

In addition, he then quickly formed imprints, using a type of ancient heavenly art, could be said to have used his most powerful methods, wanting to truly suppress and kill the red-haired creature and win.

The two figures tangled together, the battle incredibly intense.

Suddenly, golden lotuses appeared in that red-haired creature's surroundings one after another, the flower petals enormous, wrapping him within. There was unexpectedly an all methods immunity power!

This happened extremely abruptly, Xuan Kun's attacks almost losing effects. Even though he struggled with everything he had, he was still at a disadvantage.

Chi!

The divine lance was like a rainbow, shattering the heavens, immediately slicing down. It turned into ten thousand blades, lance images appearing everywhere, cold and sharp, incredibly terrifying.

Xuan Kun wasn't a match. Moreover, no one expected the last few strikes to be so miserable. Following a pu sound, blood splashed several dozen feet into the air, the divine lance's point more frightening than heaven's blade, directly hacking down.

Blood surged, and then a muffled groan was produced. The moment Xuan Kun's right arm was removed, he immediately entered an even more dangerous situation. A cruel smile appeared at the corners of the red-haired creature's lips, his eyes vicious. He brandished the divine lance, sweeping it over.

Pu!

Bloody light gushed out. Xuan Kun screamed, experiencing the greatest suffering. His body was cut into two, and then it collapsed, falling into a puddle of blood.

He was chopped into two, directly having his vertebra smashed by that divine lance, severed at the waist, the scene too horrible to endure.

“Even you, a fake supreme being, wants to contend against me, to speak against an Emperor Clan’s young supreme being?!” The red-haired creature shouted, brandishing the divine lance, about to stab it into Xuan Kun’s head.

Many people shouted out angrily. The changes happened too abruptly. Everyone wanted to stop it, but they were too far, the will was there, but not the strength.

Chi!

Sword light rushed into the heavens. At this moment, those with three strands of immortal energy from the two academies naturally wouldn’t just watch with folded arms. They all took action one after the other.

However, they were just a bit too far, unable to arrive in time.

Dang!

At the critical moment, Dugu Yun who was standing at the very front, closest to the red-haired creature reached out a finger. A streak of blinding radiance shot out from his finger, stopping the divine lance. Then, he even more so pressed forward, striking out with the heavenly spear. Sparks flew everywhere, immortal energy surging, stopping the divine lance.

“What are you doing? Do you not want to learn where that ancient realm door is anymore?!” The red-haired creature shouted.

At this moment, the others’ attacks arrived, divine radiance pouring down like rain, covering heaven and earth, smashing towards him.

Even the red-haired creature didn’t dare face all of this head-on no matter how arrogant he was. This wasn’t just one or two young supreme beings he was dealing with! When they all took action like this, he would definitely be blown up if he faced them all head-on.

Shua!

He left behind an afterimage, quickly retreating backwards, immediately arriving in front of the stone wall, ready to withdraw into that door’s world at any time.

Someone walked up, lifting up the two pieces of Xuan Kun’s body. The suffering Xuan Kun went through couldn’t be alleviated, the divine lance carried terrifying divine patterns, not only cutting at his body, right now, it even corroded his vital energy, making his physical body wither up.

The two pieces of his body joined up, but even though the bleeding quickly stopped, merging together, the bones and inner organs were in tatters, suffering the corrosion and burning of the leftover divine patterns.

Xuan Kun lost all fighting strength, unable to take action anymore.

“Just a group of livestock, yet you all dare compete against an Emperor Clan, not knowing the difference between life and death!” The red-haired creature said coldly.

Everyone's expressions immediately changed, all of them absolutely furious. The so-called livestock were basically the chickens, ducks, cattle, sheep, food to be eaten. He was actually comparing them like this, absolute contempt and disdain.

With a hu la sound, a group of people surrounded over, about to rise up in attack.

The red-haired creature directly supported the stone wall with a single hand, and then turned around to leave, saying, "Do any of you have the courage to fight me one on one? Or I'll permit you all to fight in a group of three, do any of you dare?"

This was an undisguised provocation, not placing these people in his eyes at all, full of disdain towards the young talents who cultivated three strands of immortal energy, actually letting them join hands.

Everyone felt a type of sullenness brewing within them. Immortal Academy's experts were the first to burst. They had to stop him, about to fight with him.

"I'll help you all satisfy your desires to be defeated!" The red-haired creature laughed coldly.

"Cease your insolence and come fight!" That person shouted.

"Fine!" Dugu Yun nodded.

"You..." In the distance, everyone's expressions changed, feeling shock and anger. The protectors' descendant was actually going to stand together with a foreign Emperor Clan?

"Excellent, do you see the diagram patterns on the stone wall? Inside that precious pitcher is a heavenly seed. As long as you move it away, you can rescue my clan's experts!" The red-haired creature pointed at the stone wall.

Apart from that gate, there were also other engravings on the stone wall, the most eye-catching a precious pitcher. Its aura was grand, as if it was going to come out of the wall.

The precious pitcher was moist and sparkling. Even though it was a stone engraving, right now, it was flowing with misty brilliance.

Everyone's minds trembled. The heavenly seed really did exist, and it was just inside that precious pitcher, so how could they not be moved?

"Look at that stone wall, it is a diagram, but there is actually a world that you have to enter inside, kill two birds with one stone. You will have a chance of obtaining a heavenly seed even an unmatched giant felt regret over not being able to obtain!" Then everyone's minds trembled. The heavenly seed really did exist, and it was just inside that precious pitcher, so how could they not be moved? The red-haired creature tempted.

"What do I need to do?" Dugu Yun calmly asked.

"Need your golden blood, best if there is other precious blood too!" When the red-haired creature spoke up to here, he looked at everyone, and then settled on Wang Xi, saying, "Just now, you had previously attacked me with sword energy, it is the Chaos Calming Art no matter how I look at it. Could it be that you are the descendant of the ones who stopped my realm's great army back then? You, come over!"

The powerful individuals he spoke of came from the middle stages of Immortal Ancient Great Era. There were previously swords that stopped the foreign great army from invading, successfully calming the chaos, obtaining an undefeated reputation.

“You should speak less nonsense. Fight against me first!” Immortal Academy’s person said coldly.

“As you wish!” The red-haired creature attacked, fighting an intense battle in front of that stone wall. The result was extremely cruel, that expert was penetrated by the divine lance and fished into the air.

“Do you dare come and fight? His life and death will depend on your choice.” The red-haired creature said to Wang Xi.

Everyone felt their minds tremble, feeling a bit frightened. This foreign Emperor Clan expert was too vicious, continuously defeating two young supreme beings!

Wang Xi’s beautiful appearance changed. If she didn’t take action, when the time came, Immortal Academy would blame her. She had to fight.

Pu!

Immortal Academy’s person was flung out, blood dying his body red. That divine spear had just stabbed through his thoracic cavity, the injury truly frightening. His body was completely pierced through, the hole connected from one end to the other.

“Kill!”

The red-haired creature shouted, standing together with Wang Xi, fighting intensely, wishing to subdue the Chaos Calming Art.

Many people held their breaths, all of them hoping for Wang Xi to win. It was because this foreign Emperor Clan expert was too unbridled, viewing them like dogs.

Unfortunately, their wishes were beautiful, but reality was cruel. After fighting the great battle for a long time, Wang Xi wasn’t a match, the golden lotus petals blocking the sword energy, divine lance stabbing straight at her.

Pu!

Wang Xi’s shoulder dripped with blood. Even though it wasn’t life-threatening, she was injured. She staggered backwards.

The red-haired creature didn’t continue to attack, instead grabbing the blood that scattered out, giving it a taste. “This is the taste! Perhaps it can be used to lift the restrictions as well, can be considered a type of precious blood.”

Soon afterwards, he raised his head, his eyes resplendent like divine lamps as he looked at everyone. Then, he looked at Qing Yi, saying, “You can understand my ancient emperor language, and there is even a mysterious immortal dao aura within your body, so you’ll have to do. You’re next. Come over, I need your blood!”

No one made any noise now, not showing any anger, instead calming down, all of them looking towards Qing Yi's direction.

It was because they all knew that there was a killing disaster there, and he was probably going to take action now!

As expected, Shi Hao walked up, one step after another. "I've been waiting for this chance for a long time already. I've been itching to fight against an Emperor Clan of the other side of the world!"

"And what kind of thing are you? What I want is that woman, not you, so get lost!" The red-haired creature was incredibly arrogant, actually berating Shi Hao like this.

"The one who is going to be bleeding is you!" Shi Hao didn't display anger, but his tone was incredibly cold. He directly pressed forward.
