

Perfect WD 1311

Chapter 1311 - Imperishable

"Did I truly meet He Wushuang?" Shi Hao found this a bit hard to believe.

"You did, but you didn't." The crow explained.

That person had He Wushuang's strength, but it wasn't his true body. After all, there was a great era separating them, so how could they meet so easily?

If they really did meet, the consequences would be too horrible to contemplate.

He Wushuang had cultivated for endless eons, if they met in this world, then that would be simply unimaginable!

That was why if one wanted the Imperishable Scripture, they couldn't lose to the younger He Wushuang. Otherwise, it would be completely useless, they would fall short, unable to defy the heavens even after cultivating it.

"Why did everything seem so real? What kind of place is this, for it to be able to recreate He Wushuang?"

"This is a reflection of history. It could be said that you encountered He Wushuang, but part of it could be said that you watched another person fight against him." The crow sighed, sounding extremely distressed.

Why did it speak like this? Shi Hao was confused.

"It is because in Immortal Ancient's last phase, after the entire world was defeated, there really was a young man who came with his mount in search of his father, encountering He Wushuang here."

That person was extremely strong, powerful beyond compare, among the very best of this side. He was regarded as their hope, wishing to have him remain behind and grow up.

"He was hidden within a long life family, but during Immortal Ancient's last phase, he sensed something, feeling as if his head was wrenched by blades, tears of blood flowing out involuntarily. He knew that all of his own loved ones had been killed in battle, entire family killed, slaughtered on the battlefield!"

"Long life family" Shi Hao revealed a look of shock. They were able to ensure which families survived during those end times?

"Precisely... long life family, their age exceeds your imagination. However, you all won't understand why some families were able to continue existing. These so-called long life families, heh, hahaha!" The old crow's laughter sounded extremely ear-piercing.

It didn't continue laughing, instead returning to that young man's story.

That young man couldn't hold back any longer. When the last phase's great battle ended and things calmed down a bit, he immediately hurried to the battlefield, wishing to find his loved ones' corpses. However, he ended up encountering He Wushuang.

He Wushuang held the Immortal Smelting Pot, collecting the essence blood of these supreme figures. He originally should have left a long time ago, but he sensed something, discovering the Imperishable Scripture, moreover successfully undoing its seal.

He Wushuang lingered about here, staying for a few days.

The result was easy to see. That youngster hurried over, and then the two clashed, not wishing to stop until the other side died. In the end, they fought until they went crazy, sacred blood scattering out!

It was a pity, that young man died, ruthlessly killed by He Wushuang, not his opponent. One of the most powerful seeds of Immortal Ancient fell here, dying without achieving anything.

Meanwhile, what Shi Hao experienced, some of it was produced by He Wushuang's imprints, while some was the result of being dragged into that young man's miserable battle.

"He Wushuang is still alive!" The crow said. This sentence made Shi Hao's mind heavy, making the little ant's breathing even more so become difficult.

What cultivation realm did he reach now? Was there anyone who could even keep him in check?!

The little ant said through gritted teeth, "What we experienced was so real, was what he said all true? When he said that he killed my brothers and sisters?!"

"It is true. This was indeed done by him." The crow said.

Shi Hao still had questions, asking, "Why do I feel like what I faced wasn't just imprints, but real, as if it was an instance of reincarnation?!"

"This... I cannot say for certain. Based on my understanding, you only fought with his imprints. However, this mountain peak is extremely unordinary, known as Imperishable Peak. Perhaps it truly affected the balance of time-space, forcefully bringing you two back to Immortal Ancient's last phase, encountering He Wushuang!"

Shi Hao lowered his head to look at the five dao reincarnation imprints in his palm. He didn't say anything. As for what truly happened, only when he met He Wushuang in the future would he completely understand.

Meanwhile, at that time, he would also be able to verify the secrets of the previous four dao reincarnation imprints!

"He Wushuang, you're already covered in old skin. Are you still alive? I will definitely hack down your head with my own two hands!" The little ant shouted, making a vow here.

Only, regardless of whether it was him or Shi Hao, both of their minds were extremely heavy.

It was because if He Wushuang truly still existed, then that would be extremely troublesome. After all these years passed, he definitely became an absolutely terrifying individual.

Perhaps the entire Nine Heavens Ten Earths would tremble beneath his feet. Once that creature appeared again, the consequences would be too horrible to imagine.

Time!

He needed time, he needed to catch up!

Shi Hao felt a wave of powerlessness. How could he rise up? What did he have to do to raise himself to the peak of the divine dao? Otherwise, he was destined to fall while nursing a grievance, difficult for him to accomplish anything.

He didn't have as much time, so he could only rely on himself to transcend to the limit, complete the path others needed endless times to complete in the shortest amount of time!

"I want the Imperishable Scripture!" Shi Hao said. He couldn't waste any more time. He needed to obtain the scripture, and then strengthen himself. Time was too precious for him.

"Where is the Imperishable Scripture?" The Heavenly Horned Ant also asked. This was their greatest goal in coming to this place, everything else was secondary.

"He Wushuang brought it away." The crow sighed.

"What?!" The little Heavenly Horned Ant cried out in alarm.

Shi Hao's head of black hair also fluttered about behind him. He clenched his fists, this was just too terrible. The enemy was becoming stronger and stronger, good fortune incomparable. Meanwhile, they missed out.

The golden little ant was so angry he couldn't help but release a great roar, striking the mountain peak fiercely, finding this too hard to accept. How could it be like this?

"He brought away the Imperishable Scripture... there is no news more terrible than this!" Shi Hao said with a sigh. Then, he asked, since the scripture disappeared, why was there still a need to test him?

"He Wushuang brought away the scriptures, but that doesn't mean that the inheritance is truly cut short here." The crow said.

"What are you trying to say?" The little Heavenly Horned Ant immediately asked.

"What is the so-called imperishable?" The crow was extremely calm, and then with a somewhat imposing and pressing voice said, "It can allow one's flesh to become imperishable, the body exist forever! Meanwhile, it has to be even more so like this itself! To be known as imperishable, that means that the scripture also has to be imperishable!"

Shi Hao and the little ant were a bit stunned. What kind of reasoning was this, what was going on?

"The true Imperishable Scripture is engraved on this Imperishable Peak!" The crow pointed at this massive mountain.

It spoke of a shocking secret. The Imperishable Scripture was engraved on the mountain! Unless one truly completely refined it, it would exist forever, remaining imperishable, eternal.

In the past, after the seal was undone, the beast skin sheets that appeared on the mountain peak were all condensed from its symbols, not true tangible beast skins.

"If you wish to obtain this scripture, then you need to obtain its acknowledgment, moreover find the 'scripture key' to examine it!" The crow explained.

Shi Hao and the little ant were both stunned when they heard this. They never expected this place to be this complex, this difficult just to examine a scripture.

They both carried suspicions. It was actually this difficult, requiring all types of conditions. Just how did He Wushuang bring away the Imperishable Scripture?

The crow released a sigh. The creatures of the other shore really were too strong, with unsurpassed terrifying individuals in existence. There were previously a few great undying beings who came together.

“They took action together, forcefully opening up a crack, revealing the true scripture!”

In the end, after those individuals believed that He Wushuang obtained the scripture, they used the Immortal Smelting Pot that was made to refine true immortals to death to break the mountain peak, destroying this place.

They didn’t wish for any later generations to obtain the scripture, thus ending it here!

“Only, they were people from the other side after all, so they wouldn’t understand the true terrifying nature of this scripture. After endless time had passed, Imperishable Peak recovered. The scriptures within appeared once more. It is imperishable!” The crow said.

Was this the Imperishable Scripture? Even the scripture could remain imperishable, coexist with the world!

It was mysterious after all, no wonder others said that once it was truly refined to perfection, one could become unmatched through the heavens! They really could achieve unbreaking through all tribulations, imperishable in this world.

“Sigh!” The little ant sighed, feeling dispirited and downcast.

In his eyes, the situation was still extremely bad, absolutely terrible. It was because He Wushuang seized the scripture a step before them, now cultivated to who knew what level. Was there even any use in trying to catch up?

However, it quickly woke up again, saying, “You are saying that once someone truly successfully refines it, this Imperishable Scripture would disappear from this place?”

Since the crow said that the scripture was still here, the mountain peak properly recovering, then this meant that... He Wushuang didn’t completely refine it, or he didn’t reach absolute perfection!

“He will never be able to fully cultivate it, unable to reach the end of this path, because just like the former Vicious Ten’s Heavenly Horned Ant, he will find it too difficult to fully comprehend.” The crow said.

“What are you trying to say?!” The little ant didn’t want to continue listening, widening its eyes.

“The scripture is incomplete. This place only has the four golden beast skin sheets you saw. This isn’t all of it, there should be nine sheets of scriptures!” The crow explained.

“En?” This left Shi Hao stunned.

There were nine pages of the Imperishable Scripture in total? The other party only brought away four sheets, so it seemed like he really couldn't achieve perfection with it.

No wonder the Vicious Ten's old Heavenly Horned Ant couldn't completely cultivate it his entire life. It was just like he had said, the scripture was flawed, not complete.

Where are the remaining five sheets?" The little ant asked.

"They are rumored to be in the most terrifying restricted land of the Nine Heavens Ten Earths. Even in our world, only two or three people know about it." The crow sighed.

Shi Hao and the little ant knew that there were terrifying restricted areas in this world that couldn't be stepped into, even long life families needed to avoid those places.

"Which restricted areas? What do we have to do to obtain the scripture?" The little Heavenly Horned Ant desired it greatly.

"If you wish to enter the restricted areas, you have to be alive to explore them. Before you study the five latter sheets of scriptures, it is best if you properly cultivate the first four for now!" The old crow said, pouring cold water on the little ant's enthusiasm.

However, it was extremely difficult to open this Imperishable Peak, because the two of them knew that a 'scripture key' was needed.

What was that thing? What did it look like?

"You already passed the trial, your talent not inferior to He Wushuang. As long as you obtain the scripture key, it would be enough." The crow said.

Shi Hao and the little ant were immediately stunned. They had never heard about this before, so where would they even go to look for it?

They were not He Wushuang, they didn't have undying beings behind them, no unmatched experts to help them forcefully acquire the scriptures. Where would they go to find these types of experts in the present age?

"The one who pointed you here should know that a 'scripture key' is needed. Could it be that he didn't tell you about it?" The old crow frowned, feeling quite disappointed.

"The scripture key, what exactly did it look like?" Shi Hao asked.

"A white bone key, gentle like fine white jade, imperishable and unbreakable."

When he heard this reply, Shi Hao was moved. He quickly searched his belongings, producing a snow-white sparkling white bone key.

"You had this thing on you!" The crow gasped in surprise.

Shi Hao understood that the old Heavenly Horned Ant definitely long sensed this key, and that was why he pointed him here!

This thing came from Immortal Battlefield. Three years ago, Heavenly Deity Institution's students moved out together to undergo a trial by fire. They had previously entered an ancient land. This key was discovered from an underground cave.

There was previously a rotting Emperor Butterfly there as well, the long life family Feng Clan's uncle and nephew had previously tried to fight over the opportunities in that place, but both ultimately died there.

Apart from this, the unmatched empress who wore the bronze mask had previously appeared over the battlefield's great river of history, helping Shi Hao force back a giant from endless years past.

In short, that place was extremely mysterious, carrying extremely great mysteries.

He never expected the white bone key he obtained back then would be this important! No wonder there was previously a rotting Emperor Butterfly there.

When he thought about these things, he thought of the little Emperor Butterfly that was laying dormant on him. After several years had passed, it was still asleep, just like the Divine Striking Stone, not waking all this time.

One was like this because it absorbed the rotting Emperor Butterfly's imprints, undergoing a transformation, the other because it ate an All Magic Stone, Heaven's Mandate Stone, and all types of other heavenly treasures.

"With the scripture key, you can obtain the Imperishable Scripture!" The old crow said with extreme certainty!

Chapter 1312 - Scripture Obtained

Imperishable Scripture, it was right here. They could now obtain it!

There was no news better than this. The series of events that had taken place after they arrived was extremely strange, like an emotional roller coaster, taking their moods up and down.

They were finally going to obtain the scripture, their hopes not going to come to nothing.

"Hateful He Wushuang, you thought that no one else would be able to obtain the scripture just because you destroyed the mountain peak? Who do you think you are? When I finish cultivating it, I'll come settle the debt with you!" The Heavenly Horned Ant gnashed his teeth in anger. The grudge of having his brothers killed, the hatred of his sisters cut down, how could he let it go?

Shi Hao was also overjoyed, feeling stirred up inside. He looked at the jade stone-like white bone key. He indeed never foresaw things turning out like this.

It truly was finding a glimmer of hope when everything seemed lost!

The Imperishable Scripture was extremely important, it was what he desired. For some reason, he felt like he had to use this scripture to cross all types of tribulations, that this was what he had to rely on.

At the very least, before he had taken a path no one had taken before, one that was his own, this scripture might be tied to whether he was going to live or die. Its significance was too great.

Only, when the excitement passed and he calmed down, Shi Hao stared at this crow.

Was this black vicious bird trustworthy?

Everything that was spoken just now was built on its words. If something unexpected happened, then it might be something extremely serious and terrifying.

It wasn't that Shi Hao was being overly suspicious, but rather that in this type of dangerous land, many things couldn't be evaluated with normal reasoning. If he was naive and simple, he might just die without even a proper burial!

The crow wasn't annoyed that it was being watched like this, instead revealing a look of praise, saying, "Even though you are stirred up, you still haven't lost a sense of propriety, losing the vigilance you ought to carry, this is the distinctive character of a warrior. Otherwise, no matter how great one's talents are, he still might die."

It was an evaluation that wasn't bad, carrying praise. What it was worried about the most was that the people of this great era didn't experience war, never witnessing the blood and cruelty of Immortal Ancient Great Era, the misery of bones piled up into mountains, that they were like flowers in a greenhouse.

Now, it seemed like the situation was better than it thought.

"You can go and try, use the white bone key to open up Imperishable Peak!"

The first step was about to be carried out, uncovering the most superficial layer of the seal!

This time, Shi Hao and the Heavenly Horned Ant were extremely careful, closing in on the precipice. They operated the greatest divine force to undo the seal.

Hong!

In reality, this was a type of reaction, interacting with Imperishable Peak, making it revive.

"You have already remained here for a while, fighting a great battle, not losing to He Wushuang. This peak has actually long approved of you, so there shouldn't be too much difficulty." The crow said. It remained far away.

Sure enough, when Shi Hao had just begun to use the key, this massive mountain seemed to have become like a living creature, quickly reviving, releasing light, producing exuberant life force.

This was a type of extremely wonderful change!

The bare mountain body was originally dull gray and lacking radiance. It was a dark red color, soaked in the blood of immortals endless years ago, this place lacking life force.

However now, a few tender stalks of grass grew, as well as a few green vines. They emerged from the earth, to the extent where they could be said to break out of the stone walls in emergence, green and lush, gradually prospering.

Then, the entire mountain revealed a layer of faint golden light!

Moreover, all of the plants were changing, as if they were golden plants. This place was resplendent, the radiance rushing straight into the skies.

Hong!

Grand scripture sounds rang through the mountaintop, so loud even the deaf could hear, making one want to comprehend the dao, immerse themselves in the deepest level of comprehension. It was as if they were anointed with perfect enlightenment.

These scripture sounds were divine and dignified, as if an imperishable creature was chanting scriptures here!

Then, above the mountain, several golden beast skin sheets appeared, turning into paper. Their surfaces were covered in scripture, containing endless mysteries.

Those characters were extremely brilliant, flickering like stars. Shi Hao wanted to seize them, wishing to see them clearly, but he just couldn't do it.

The four golden sheets fluttered about there, releasing hua hua sounds. He couldn't truly grasp the scripture's profound meanings, only able to vaguely understand a bit.

This was precisely the Imperishable Scripture!

"Open it!"

The crow shouted, reminding Shi Hao not to waste time.

Shi Hao's palm shone. He activated magical force, operating that white bone key. At this moment, auspicious energy erupted in thousands of streaks, brilliant multicolored light in tens of thousands of strands; it was extremely gorgeous and magnificent.

Chi!

The white bone key turned into a streak of white light. It entered Imperishable Peak, directly making its way into the mountain body, and then disappeared without a trace.

Kacha!

A world-shaking noise sounded. This mountain was cracking apart, releasing the most resplendent golden light from within. It was as if the most terrifying volcano of this world was cracking apart in the darkness of night, blazing radiance surging from within. From the distance, it was as if golden liquid was flowing.

Divine radiance poured down, illuminating the heavenly dome.

At this moment, the sun, moon, mountains, and rivers all grew dim, only serving as a backdrop. Only this majestic ancient mountain displayed its might, swirling with mysterious aura.

Honglong!

In the end, the mountain collapsed, giant rocks tumbling in all directions, revealing the scene within. The true scripture was here, the four golden sheets were incredibly condensed and real.

"Imperishable Scripture!" The little ant's breathing became rushed, finally seeing this scripture.

The four scriptures were densely covered in characters. There were all types of mysterious lines as well, corresponding to the great mysteries of the human-shaped creature's body.

No wonder that when many creatures cultivated to the highest cultivation realm, they would always choose the human form, there was a reasoning behind this. Even the Imperishable Scripture was prepared for human-shaped creatures.

"Can you cultivate it?" Shi Hao asked.

The Heavenly Horned Ant raised its head up high, full of confidence as it said, "It's not like I am a true ant. I am a Heavenly Horned Ant, humanoid to begin with!"

After saying this, it stood up, holding its arms behind its back, putting on the appearance of a profound expert.

"En?" In the distance, the crow was suddenly shocked, and then it was pleasantly surprised, saying, "This time, it is quite excellent, the scripture's recovery relatively complete, not becoming damaged."

"What are you trying to say? Could it be that all nine pages are here?" Shi Hao asked.

"No!" The crow shook its head in rejection. "I am saying that these four pages' recovery was quite complete, that there weren't any damages."

In the past, regardless of whether it was the old Heavenly Horned Ant or He Wushuang, they both came here. The four sheets of golden beast skin books more or less had some deficiencies, for example, missing a corner, lacking the final few lines, etc.

The crow was worried that the scripture wouldn't completely revive, that there would still be damages. Now that it saw the scene before it, it became at ease.

Shi Hao and the little ant were moved. They quickly rushed forward!

They proceeded all the way here precisely for the Imperishable Scripture. Now, they were finally going to obtain it.

The golden sheets floated there, sun, moon, and stars revolving around them. That type of scene truly was a bit frightening.

This wasn't like a scripture at all, every single beast skin sheet like an expanse of cosmos that supported a stellar realm. They gave others an incredibly heavy feeling, as if they were going to crush this world.

In reality, when Shi Hao and the little ant touched the scripture, there really was this type of feeling. It was too heavy, simply impossible to move!

Shi Hao and the little ant were extremely shocked. With their current strength, it was already so strenuous, so if others came, they wouldn't be able to move it in the slightest!

"Rise!"

The little ant released a great roar, raising a sheet of golden beast skin. His entire body was surging with spiritual essence, now already feeling extremely strained!

This thing was real, actually having a tangible form!

They thought that it was just an imprint, no way it would have a material form. However, they really did have physical forms!

“Why is this thing this heavy? Even with our strength, it’s taking everything just to raise these four beast skins. We won’t be able to bring even a single one away!” The little ant said.

The crow was momentarily speechless. It looked at this scene again and again, and only then did it say, “The Imperishable Scripture is an unsurpassed scripture, it cannot be reasoned with conventional wisdom. Do you really think it is a beast skin sheet? It is enough if you do your best to remember it, doing so can be counted as bringing it away.”

“Fine then!” The little ant was still a bit unwilling. It liked the feeling of touching this type of beast skin, previously wanting to keep it as some type of collector’s item.

The man and ant both sat down, starting to observe these types of characters.

“They aren’t Immortal Ancient characters, nor are they the words of this world, however... I can recognize them!” Shi Hao’s expression became serious.

This was an unmatched scripture after all. These characters were the embodiment of the dao, transcending the limits of ages, allowing people of any great era to understand them.

How astonishing was this? This was a unique and exceptional heavenly book, unmatched precious scripture!

Both of the them were extraordinary, possessing exceptional talent, or else there was no way they would have made it through the trials to reach this place.

Even though the four golden sheets were packed with characters, they were all clearly engraved in their heads, impossible to forget.

Meanwhile, at this time, something strange happened. The four beast skins grew dim, the sun, moon, and stars around them also began to die out.

Soon afterwards, the four sheets of golden beast skins disappeared, vanishing from the skies!

“Disappeared?” The little ant was stunned.

“Correct, because it has already been remembered by you two, equivalent to becoming undying. It has taken root in your heart. It will take many years before the Imperishable Scripture here is reborn.” The crow explained.

The two of them felt that this really was strange. The scripture was like a farm crop, after being reaped once, they had to wait until the next year before it would make more.

However, if one wanted to wait for it to appear here, then one might easily wait several million years, to the extent where even an entire great era might pass!

Shi Hao and the little ant remained in a wondrous state for a long time. They couldn’t control themselves, comprehending the scripture, not willing to wake up from this.

The crow coughed, having them wake up.

“Wasn’t it said that the Imperishable Scripture couldn’t be destroyed? Unless one cultivated it to a level of perfection, it should have completely appeared here.” The little ant was unsatisfied, raising this issue, asking about why the other five sheets were missing.

“It is because this is the upper part. There were only four sheets of scripture to begin with.” The crow replied.

Then, it told them something that made them sigh. The Imperishable Scripture had two halves, the lower part in the ‘Land of Undying’, a grand and terrifying restricted area.

Going there was the same as throwing one’s life away! n--O**VE**l1n

One could see from the name alone that this place was unordinary, known as an undying ancient land. It definitely carried endless legends and secrets.

“If you two completely cultivate the two parts, reaching the level of perfection, then the Imperishable Scripture would disappear from both areas, forever unable to be reproduced in these two places again.” The crow reminded.

“This place called Land of Undying, I heard that even long life family’s people avoid it, that they wouldn’t approach this type of place. How can we obtain the lower part then?” The little ant became a bit dispirited.

Back then, his father didn’t know there was a lower part, just speculating that the scripture was incomplete. Otherwise, with his father’s unmatched prowess, he might have been able to make a trip around the Land of Undying, pay the creatures there a visit.

“Cultivate the upper half properly first, it is already enough for you to cultivate to the supreme being level. Do not forget that your father only had the upper half as well, yet he already stepped into the long life domain.” Shi Hao said, telling him not to bite off more than he could chew, that setting a proper foundation was the most important.

Chapter 1313 - Scum

With the Undying Scripture in hand, Shi Hao and the little ant were incomparably satisfied. This was the goal of their trip, so they were filled with the joy of gains.

Even though they still carried some regrets, the lower half of the Imperishable Scripture was in the Land of Undying, in a treacherous restricted land, with their current cultivation realm, there was no rush to find the lower half.

Right now, it was enough as long as they earnestly cultivated the upper half!

“You all should leave. The baleful energy this place is suppressing underground is too strong, staying here for too long might corrupt you, it is not good for the body.” The crow reminded.

The corpses of former natives were buried here. Normally, the killing energy didn’t display itself, but it would erupt at special times. When those times arrived, even the expressions of supreme beings would change.

"Many thanks to senior!" Shi Hao bowed respectfully, expressing his sincere thanks.

"I hope that you can successfully cultivate the Imperishable Scripture, reach the consummate level!" The crow said seriously, looking Shi Hao in his eyes.

"I will succeed!" Shi Hao nodded. This was going to be extremely difficult, because it touched upon the five other sheets. In the future, he would have to search for them in the Land of Undying.

"With the mountain in this type of shape... are we just going to leave it like that?" The little golden ant asked.

After all, they obtained benefits from this place. Now that Imperishable Peak collapsed, they couldn't help but sigh.

"There is no need for you all to do anything. If those from the other side come here in the future and see this scene, they will merely think that it is the result of their actions back then." The crow said. It then turned into a wave of black smoke, rushing over and rearranging those boulders again.

"Senior, until next time!" Shi Hao turned around.

However, would they be able to meet again? It was because he knew what this crow really was!

Chi!

Behind them, black smoke gathered, turning into a crow. However, in the end, a hong sounded, turning into large faces one after another. They carried despair, carried sorrow.

Finally, those giant faces became indistinct, scattering into strands of baleful energy, entering the ground one by one.

They were heroic spirits that had fallen in battle. There were some emotions that, even though endless years have passed, were still difficult to erase. There were some wills that were too difficult to extinguish.

They were a group of pitiful people, a group of fearless heroic spirits. They wanted to see the later generation rise up, wash away the humiliation of the past, truly defeat the enemies on the other side.

The foreign enemies destroyed the pure lands on this side, killing these fighters, even more so wiped out their families and descendents, slaughtering everyone.

This was a great grudge that continued throughout the ages. Even though they died, that type of despair still remained. It turned into a special type of emotion that wandered this world.

Shi Hao left into the distance, but he could vaguely still make out an ancient war song. Even though it was extremely faint, that type of sadness, that type of grief, was injected straight into one's soul.

They lost, all of them killed, no one to protect their wives and children, and as such were massacred, slaughtered.

In a daze, Shi Hao saw a great earth dyed in blood. The men of all clans fought, wives and children crying in distress. However, in the end, they still lost, not even the weak elders, young ladies, or children spared.

The natives were killed, all of them wiped out!

This was the lamentable Immortal Ancient. It was originally a prosperous world, yet it was forcibly buried, blood purged by the people from the other shore, creating this world ending tragedy.

"I will not allow this type of thing to happen to this world!" Shi Hao vowed inwardly, his fists tightly clenched.

"Mother, brothers, sisters, I miss you all..." The golden little ant's eyes were red. He turned his head back with each step; were his loved ones killed right here in the past?

It was too difficult for him to let go. He vowed, saying, "I have to become stronger, slaughter my way into the other shore, get revenge for you all. I am going to continue fighting! Even if I die in the process, it has to be like father, fight until the last drop of blood flows out, kill until the foreign experts shiver in fear!"

Along the way, nothing unexpected happened. There were no special scenes that occurred.

When they entered earlier, they saw too many corpses, even the blood that was flowing out still carrying heat. It was just that real, that difficult to distinguish whether it was real or fake.

Shi Hao knew that they saw things that truly happened. That was the final conclusion of the former natives!

It was cruel, heroic, and tragic!

Sad, pitiful, lamentable!

They left, leaving this ancient land. They followed the mountain path, walking between a few grand mountains.

"Heavens, my eyes aren't deceiving me, right? That is... Huang! He actually came out alive!" Someone couldn't help but cry out.

Outside, there were some people who didn't leave yet, waiting for news all this time. In reality, the number of people here actually wasn't few, people all around the great mountains.

There were a few giant cities in the Northern Sea Forest, many people living in them.

Everyone thought that Shi Hao would undoubtedly die in the ultimate land of self-refinement, that there was no way he could come out alive, that this was an unchangeable situation.

That was why many people left beforehand, not wishing to waste any time here.

However, Shi Hao appeared, coming out alive. This was definitely a heaven shocking development, news that shook up the entire northern sea!

No one had ever come out alive! This place was full of danger, the ultimate land of self-refinement was too terrifying, there was no way one could go in and come out in one piece.

Yet now, someone broke the legend, establishing an inconceivable feat!

Hong!

This place erupted with noise, news flying in all directions, transmitting to the various giant cities, and then into the northern sea depths.

“Someone actually returned alive! Huang truly is a heaven warping genius!”

At this moment, all praise seemed to be lacking. No one had ever succeeded in coming out of that place alive, when they went in, they would die. At the very least, no one in this great era was able to do it.

Forget about everyone else, even Shi Hao himself sighed with admiration. He encountered He Wushuang at his current cultivation realm, the battle ending in mutual defeat, both sides falling, so he knew that when people of other cultivation realms visited the extreme peaks, entering the land of self-refinement, the dangers they encountered would also match their respective cultivation realm.

If he could encounter He Wushuang, then if those giants were to come, then they might encounter half undying beings and others!

Their return trip was extremely calm, no unexpected things happening.

The ancient coffin, and the ancient corpse on the cliff whose eyes were opened, making one doubt if it was actually dead, didn't move at all, allowing him to come out.

They finally left the land of danger. Shi Hao released a breath of relief.

Hu!

Suddenly, great winds blew past. There was an expanse of black mist, accompanied by a great downpour that cleansed the heavens, pouring down, submerging the land around the giant mountains.

This was just too sudden, leaving one completely shocked!

“Not good, it's those divine peaks that no one had ascended for millions of years that are displaying changes, ghost achieving immortality, it's real! They've appeared!”

There was someone who cried out, causing panic in this place. Many people began to run away. n)-O))v.-e/-l(-b/)1.)n

It was because within this expanse of darkness, it was gray and misty, incredibly stifling.

Only Shi Hao knew that this wasn't a ghost immortal, not strange changes that were happening on the ancient mountains no one ascended for millions of years, but rather other creatures.

Powerful winds split the skies. Soon afterwards, Shi Hao was brought into outer space by the great winds.

He stood here, gazing into the stars of the cosmos, deeply sensing the insignificance of a single person.

“It's you all!” A black line appeared between his brows, his expression unpleasant.

There were two people on the other side, one old, one young. He didn't recognize the older one, his hair sparse, snow-white and sparkling, his face full of wrinkles, old to the point where there was even a rotting smell. Shi Hao could tell with a single look that this person didn't have much longer to live.

As for the younger one, Shi Hao recognized him. It was someone he had fought with not too long ago in Heavenly Deity Institution, blasted until blood was vomited out, almost dying on the spot. His name was Wang Manglong.

These were people from a long life family, Wang Xi's clansmen.

"I believe you should understand our reason for coming!" Wang Manglong's expression was ice-cold, carrying killing intent, as well as a powerful feeling of resentment.

Shi Hao's mind went cold. Wang Family really dared to take action. Were they planning to eliminate him here?

"I was forced into Origin Ancient Mine by your Wang Family, almost dying in the process, and later on even more so viewed as a servant, always you all who oppressed and opposed me. Now, you even want to directly kill me?" Shi Hao asked.

"Heh heh, young man, you are not bad, your talent exceptional, worthy of respect. However, this is precisely why you've made many people fearful. Once you are allowed to grow, I fear that there might be a great disaster brought to my Wang Family." That elder spoke. Even though he gave off a feeling as if half his body was already buried, ready to die at any time, his voice was still resounding, making one's blood and qi surge!

"Killing me like this, don't you all feel like it is a bit too much? Apart from this, once Heavenly Deity Institution's Great Elder learns of this, would you all be able to live?" Shi Hao looked at them coldly.

"Who will know that it was us who did this? Everyone has already seen that there were strange changes that happened on those divine mountains no one has ascended for millions of years, and that is what caused your disappearance, your death." Wang Family's elder was all smiles.

"You think that your methods are great, but it is extremely difficult for there to be mysteries in this world. With Great Elder's great cultivation, he will definitely learn of everything!" Shi Hao said.

"For the sake of my clansmen, for the sake of eliminating a future disaster, even if that old thing finds out, so what? At that time, you would already be dead. Could it be that he really wishes to start a war against my Wang Family?" Wang Manglong sneered.

"Do you think you can continue living after I die?" Shi Hao said coldly.

"I was already aware a long time ago. Provoking you in Heavenly Deity Institution was done on purpose, I was acting under orders. After establishing the grudge there, leaving behind an introduction, only then would killing you here seem fair and reasonable!" Wang Manglong's face was pale. He stared at Shi Hao with resentment, saying, "If that old thing from Heavenly Deity Institution insists on denouncing us, he could only see that I carry resentment, killing you out of a grudge. In this type of situation, for the greater good, he won't completely have a falling out with the Wang Family, he will at most kill me!"

"Also, this old one is about to die soon anyway, not having many years left, so I am willing to accompany you to the grave." That elder from the Wang Family chuckled, carrying a restrained sinisterness and killing intent, staring at Shi Hao.

Shi Hao's expression became increasingly cold. "Do you all hate me this much, not hesitating to throw away your lives just to eliminate me?"

"It wasn't much originally, but your growth was too fast. If this continues, the day will come when my Wang Family will be threatened. That will be a disaster, so it is better to just end your life early." The elder said with a smile.

He was extremely frank, saying that he wanted to kill a genius, eliminate him beforehand to prevent any unforeseeable events from taking place in the future.

This was enough to prove just how much importance the long life family Wang Clan attached to Shi Hao. They were a giant power themselves, but for the sake of killing him, they didn't even hesitate to abandon their own clansmen.

"The creatures of the other shore are about to invade, and I can be considered one of the seeds. If I don't die, when they cross over, I have confidence that I can display great uses." Shi Hao calmly said.

"What a joke. It is precisely because we are scared that you will rise up that we are going to kill you. You think we are just going to watch as you grow stronger?!" The elder roared with laughter.

"You..." Shi Hao's face became cold. "You aren't even going to consider the fact that there are enemies on the other side?!"

"Who cares if the heavens collapse and the earth caves in, great flood overflows into the heavens? What does the misfortune of the rest of the world have to do with us? As long as our long life Wang Family properly continues existing, then that is enough. When the creatures of the other shore invade, what does that have to do with us?!" The elder laughed coldly.

"What did you say?!" Shi Hao berated.

"Youngster, you are too naive. Do you truly believe that all of the long life families are going to fight to the death with the other side? The reason why the long life families could remain, safely pass through a great era, is because they all have methods. There are reasons for this!" The elder said indifferently, but these words were truly terrifying.

"You..." Shi Hao was shocked and furious. The words this old man spoke were too clear. They deserve to be punished!

"Wu, you entered the ultimate land of self-refinement, actually able to come out alive and in one piece. You ought to have obtained what you wanted, right?" The elder said. Then, he chuckled and said, "Just hand it over. Perhaps we will be buried with you, but that isn't now. We'll bring the heaven-defying natural luck you obtained back with us to Wang Family first."

"Old thing, your Wang Family's people are all truly scum!" Shi Hao said through gritted teeth.

Chapter 1314 - Guiding a Snake Out Of Its Hole

Shi Hao felt his entire body emitting heat, his blood flowing quicker. His face turned red, truly angered badly!

Wang Family actually dared to do this! n--O**VE**l**b**1n

They were going to kill him when he was still young, their scheming just too deep. They weren't dealing with the creatures on the other side, instead, they might even be communicating with them. This was simply fiendish, absolute scum!

No wonder that when he was in the ultimate land of self-refinement, when that crow mentioned long life families, its laughter was so ear-piercing. There was hidden filth and secrets!

Long life families, every one of them was too glorious, exceptionally brilliant. However, who would have expected that some of them would harbor these types of thoughts? It really made one shiver with fear.

"Wu, don't feel so agitated, relax a bit." That elder whose face was covered in wrinkles was all smiles, not upset in the slightest. After being cursed as scum, he still remained extremely calm, saying, "Young man, you really are too simple and honest. This world isn't black and white, more of it lies in the gray area between, this is the world's true color."

"When the nest is upset, no egg is left intact. You all think that your family can continue existing, but are those of the other side truly trustworthy? The day will definitely come when they will eradicate you all!" Shi Hao berated.

"You overthink things. This world is far more complicated than what you think. The Nine Heavens Ten Earths don't only have our long life family alone, and it isn't all the result of struggling to the death. The degree of complexity exceeds your imagination." This elder was all smiles, but it only gave others an even more sinister and cold feeling, as if it was an aged viper.

"What is the point in saying so much? Just get rid of him earlier, there is no need to tell him everything!" Wang Manglong said, his eyes carrying hatred. His voice was full of viciousness.

It was because he knew that once Shi Hao was killed, others might not know within a short time, but a supreme individual will find out one day. When that time came, he would undoubtedly die, be pushed forward as the scapegoat.

This was a difficult and cruel mission, one that he had to give up his life to complete. That was why he hated Shi Hao bitterly. Even though it was them who took the initiative to kill the other side, they still put all of the blame on Shi Hao.

"Still so impetuous, no progress at all." The elder shot Wang Manglong a look, somewhat displeased. He also finally understood why the clan chose to sacrifice him.

This elder didn't care much about his own life or death that much, because his time had dried up, going to die in meditation within a year. He had lived long enough, not feeling much fear towards death.

"Bring it out!" He no longer spoke politely, directly forcing Shi Hao. It was because the other party definitely obtained something heaven-defying.

"Truly don't want any face, there are actually people as filthy as you all. All of your ugliness has been completely witnessed with these two eyes." The little golden ant was furious.

"Heh heh, I almost forgot about you. If you didn't speak up, I really might have overlooked you." The elder's smile was a bit cold. He stared at the Heavenly Horned Ant on Shi Hao's shoulder, and then said, "What a rare and precious species, one full of such brilliant legends, known to be one of the most

powerful bloodlines. The Extreme Strength Blood really is something to yearn for! Obtaining you is above everything else, in the future, my Wang Family will have a Heavenly Horned Ant that can offer unmatched precious blood constantly. There will be many powerful figures who will emerge from our later generations.”

When he heard these greedy words, the little Heavenly Horned Ant was angered to the point of shaking, truly furious beyond belief. This person was too shameless, actually able to speak such despicable words!

“Old fart, you’re dreaming! I really am starting to wonder if part of the reason why this world was destroyed during Immortal Ancient’s final battle was because of you bunch. Greed is definitely enough to make you all do the most vile things!” The golden little ant said hatefully.

“Too simple and pure, these topics are not suitable for you.” The elder no longer said too much to it, instead looking towards Shi Hao. “You are the first one who came out from Heavenly Deity Institution’s immortal cave, the first thing you did was immediately hurry to the northern sea, you definitely did this because there is something more important here. Just hand it over.”

At this point, he didn’t need to hide anything. His tone was indifferent, expression gloomy and cold, unquestionable, forcing Shi Hao to hand over what he obtained!

“Get lost!”

Shi Hao only had these words, because he truly felt like this person was too despicable and shameless, letting down the creatures of this world. This family was rotten down to its roots.

It could be said that this type of terrifying long life family didn’t deserve its glory, they were the most terrifying malignant tumors.

“I really cannot understand why Great Elder and the others don’t just ally together to wipe out a family like you all!” Shi Hao restrained a wave of anger.

“I’ve already said that this isn’t a black and white world, there is more gray in between. If one is too straightforward, this entire world wouldn’t be able to tolerate them.” This elder said indifferently. With a lecturing tone, he said, “In reality, you thought too much. Our clan didn’t ally with the other side. Back then, we only discussed a few conditions at most.”

According to what he said, the Wang Family still didn’t cross that line!

Shi Hao had heard that back then, there were a few long life families who helped each other out, signing imperishable contracts. The Wang Family might precisely be this type of clan.

“Enough, I don’t want to see your ugly face anymore!” Shi Hao said coldly.

“Little bastard, you are trying to put on airs with me? Hand over everything you obtained, or else I will let you wish you were dead rather than alive!” At this time, the elder became hostile, losing his patience.

“You should have been like this to begin with. What point is there in being polite to him? Just directly suppress him! I want to step on his face, take a look at the scene of him groveling on the ground.” Wang

Manglong said. His face was slapped in Heavenly Deity Institution until even his lower jaw shattered, so he hated the other party bitterly.

This time, for the sake of eliminating a future disaster, he might die. There was definitely no good ending for him, so he was naturally full of resentment.

The elder's expression became overcast. He pressed forward, but he also acted carefully. It wasn't because he feared Shi Hao's strength, but rather because he was scared that he might act too powerfully and destroy what he wanted to obtain.

If it was an unmatched scripture, ancient dao book, and other things, they might very well completely disappear with this young man's self detonation. If that happened, the gains wouldn't make up for the losses.

That was why from the beginning until now, he had conversed with Shi Hao the entire time, trying to calm him down first as much as possible.

He already inwardly began to display methods. This void became blurry, dim, mists surging. This region of outer space was locked down!

"Heh heh, young man, in reality, you can die honorably. Just hand over those things, and then I won't torture you." The elder said with a smile. Everything was within his grasp.

"Do you know what I obtained? Imperishable Scripture!" Shi Hao was extremely direct, directly speaking the name of this scripture!

Dong!

It was as if a streak of lightning tore through the void. The old and young pair were both stunned, and then they began to tremble. That was just too shocking! Their eyes burned with desire, full of greed.

"Hand it over!" Wang Manglong released a low roar.

"Everyone, if you all still don't come out, then this scripture will likely shift owners, become the Wang Family's clan protecting art!" Shi Hao shouted into the distance.

"En?" The elder was alarmed. However, when he sensed his surroundings carefully, he didn't detect anything.

"Is there really no one? If you don't come out, then the scripture might be gone soon." Shi Hao said. He didn't discover anyone here, only gambling, believing that since the Wang Family dared to come here, then there might be other families as well.

"Little bastard, you should boast less and quickly hand over the scripture. Otherwise, you will wish you were dead rather than alive!" The Wang Family elder's eyes were treacherous, tearing down all pretenses.

"Thing who doesn't know the difference between life and death, you still want to trick us, you are too naive. Who can save you now?!" Wang Manglong sneered.

Suddenly, the void trembled lightly, it was as if ripples spread. Someone forcefully tore through the Wang Family's imprisoned void, breaking down the restrictions.

A silver-robed person appeared, his entire body releasing silver light, his face even covered in a silver helmet, to the extent where not even his eyes could be seen. The aura was powerful, his appearance sudden.

"For the sake of the Imperishable Scripture, this one cannot sit still any longer either." Suddenly, someone spoke from another direction. A figure enveloped in black mist also walked over.

Then, another sphere of green light emerged, hazy and instinct, surrounding a powerful creature.

In that instant, three great experts appeared one after the other, but they weren't from the same faction. They confronted each other, all of them revealing themselves for the Imperishable Scripture!

The expression of Wang Family's elder became unpleasant. He never expected three terrifying individuals would be here, not even him discovering their presence. He really was careless this time.

"I only need the scripture, do not need the person." The one covered in silver armor said.

"Likewise!"

"I am also the same!"

The other two great experts were of similar opinion, coming for the scripture.

"Three dao friends, this matter can be properly discussed. We can make four copies of the scripture, one copy each side. This person will be killed by me!" Wang Family's elder said.

The three great experts remained silent, not saying anything.

Wang Family's elder immediately roared with laughter, saying, "Then it's decided!"

He then suddenly turned around, staring at Shi Hao and saying, "Little bastard, you've provoked trouble for me. I won't let you die that easily!"

"Ancestor Xuan, capture him, let me torture him!" Wang Manglong was eager to get into the action, wishing to immediately step down on Shi Hao.

Shi Hao still remained calm. He looked at the surrounding individuals, not paying Wang Family's old and young pair any attention, instead speaking to the three great experts. "Has Yuan Qing come as well? I really hope he is here, or else I'll really be just too disappointed!"

En?

Everyone was stunned. Then, they felt like something wasn't quite right. Why was Huang this calm, actually putting on an appearance as if he was confident in his backing?

Not good!

They all keenly felt that things weren't right!

Chapter 1315 - Line That Cannot Be Crossed

This was just a young man, clearly in a desperate situation, yet he was actually so calm, not flustered at all, as if he was looking at meat on a chopping board. He was definitely up to something!

“Were you scared stupid? Playing the fool here, like that’ll do anything!” Wang Manglong said extremely crudely.

However, regardless of whether it was the three great experts or Wang Family’s elder who didn’t have much time left, they were all quiet, feeling uneasy inwardly, carefully sensing the surrounding situation.

However, they didn’t discover anyone. If anyone came, then they were much stronger than them!

“Young man, is deceiving others fun?” Wang Family’s elder said with a cold and deep voice, his gaze sinister.

“You’re scared?” Shi Hao was calm. He scanned his eyes over them, feeling increasingly calm.

However, the golden little ant on his shoulder was extremely nervous. It felt more and more like Shi Hao’s bluffing couldn’t solve the problem at all. In the end, he would only die more miserably.

Wang Family’s elder released a light shout. Ripples appeared from his mouth, these ripples quickly spreading outwards. This was the bat bloodline’s divine ability, able to sense if there were any enemies hiding.

A moment later, his expression became cold and deep. “Little bastard, tricking us like this, are you courting death?”

“He was angry because he was actually fooled by a younger generation. Through the bat bloodline’s divine ability, he was certain that there were no powerful experts nearby. This place was extremely calm.

If not even this type of divine ability could search through the completely empty outer space, then the person who came was too terrifying.

The other three experts released a breath of relief, feeling like they were too careful, scaring themselves. This was outer space, so could there really be unmatched experts who were drawn here?

“Youngster, I gave you a chance, yet you yourself don’t understand life or death, daring to deceive us. Now, it is time for you to hand over your life!” Wang Family’s elder directly took action.

He reached out an arm, five fingers unfolding, grabbing towards Shi Hao’s neck. He was going to lift Shi Hao up like a little chick, and then fiercely humiliate him!

“You fucker!” The golden little ant roared in anger. It was the descendant of the Vicious Ten. This was the first time he saw something so unfair. They were both cultivators of this realm, yet they were going to engage in internal strife.

It was to the extent where he had reason to suspect that the Wang Family had colluded with those from the other side.

“What genius, what heavenly talent? This old man is going to cover the sky with a single hand, strangle a genius, have you nurse an endless hatred!” Wang Family’s elder said coldly.

Now that they had become completely hostile, his expression was incredibly cold, terrifying to the extreme, his previously smiling appearance was nowhere to be seen.

“Haha...” On the side, Wang Manglong roared with laughter, feeling incomparable joy.

Shi Hao released a light sigh, and then said, “You all have forced me!”

“Merely dressing up as god, playing the devil!” Right at this time, one of the three great experts couldn’t remain quiet any longer either, not believing his words.

Kacha!

Towards this, Shi Hao only crushed a piece of ancient jade. Strand after strand of multicolored light was released from within, extremely gentle, carrying soul power.

“Immortal Nurturing Jade!” At this moment, the expression of Wang Family’s elder changed. He couldn’t help but cry out.

Even though he had never seen one before, he could guess from its appearance. This was a legendary treasure that could nurture the soul, protect the primordial spirit.

This thing was extremely precious, not even some powerful supreme beings seeing it before!

This type of thing had only appeared before in legends, recorded in bone books.

The other three great experts’ expressions also changed on the spot, to the extent where there was one who wanted to immediately run, not wishing to stay here.

“Since you came, then there is no need to be in a rush to leave.” A calm voice sounded.

After the Immortal Nurturing Jade was crushed, strand after strand of multicolored light interweaved together, forming a figure. Immortal winds swept about, bones carrying the dao, kind brows, pleasant eyes, white-haired, yet had a healthy complexion; it was precisely Heavenly Deity Institution’s Great Elder!

Wang Family’s elder was frightened so badly his soul trembled. His large hand that reached out already reached before Shi Hao’s neck, yet it was forcibly stopped.

He never expected to see this matchless expert here!

Wang Manglong on the side was even more stunned, his body couldn’t help but tremble. How could it be like this? Why did this elder who could overlook the Nine Heavens Ten Earths follow at Shi Hao’s side?

Peng!

Great Elder raised his hand, slapping that large hand Wang Family’s elder reached over with, instantly turning it into scattered ashes, making him release a miserable scream.

Then, with a turn of Great Elder’s hand, he was grabbed over like a little chick, just like how he originally wanted to treat Shi Hao.

“Your Wang Family’s hands have been reaching too far!” Great Elder’s voice was cold, truly angered at this time.

At the same time, he released a short shout. The three great experts who wanted to run just now began to shake violently, all of them staggering about, unable to leave this place.

“Senior!” One of them shouted with a trembling voice.

None of them expected Great Elder to appear here. This was clearly a spiritual body, not his true body. It was hidden within the Immortal Nurturing Jade to protect Shi Hao.

From this, one could see that Great Elder attached too much importance to Shi Hao. Just how noble and great was his status? There weren’t many in this Nine Heavens Ten Earths who could compare, yet right now, he did this much for a youth, willing to go so far.

As for Wang Family’s elder, not long ago, he was still calm, as if everything was within his grasp, but now, his face was pale, difficult for him to utter a single word. He was carried by Great Elder, difficult to move at all. The difference between the two was just too great.

Shi Hao naturally didn’t feel any fear. Before heading to the Northern Sea, when he discussed things in private with Great Elder, he was scared that there would be others who would target him. In the end, Great Elder gave him a piece of Immortal Nurturing Jade, saying that it could protect him.

This Immortal Nurturing Jade was extremely miraculous. A spiritual body could be split up and stored within, hidden inside without the outside world’s notice. At the crucial moment, it could instantly reassemble into a soul body!

Chi!

Great Elder reached out his finger. The three great experts’ armor, masks, and other things were all blasted to ashes, fully revealing their true appearances. They were all old and gray-haired, older generation figures.

“What a pity, Yuan Qing truly wasn’t here.” Shi Hao sighed.

The one he was previously on guard against was Yuan Qing. He never expected that this person didn’t come, while Wang Family’s people became the main force.

As for the three individuals, Shi Hao didn’t recognize any of them.

“Your three families also sent people over. It truly leaves me disappointed...” Great Elder closed his eyes.

“Senior, please show forgiveness. We didn’t come to harm Huang to death, only wishing to see what he hurried over to the Northern Sea to do!” One of them hurriedly explained.

It was clear that when Shi Hao left the Immortal Cave underneath Heavenly Deity Institution, it drew their attention and curiosity. Out of greed, they also followed behind.

Great Elder suddenly opened his eyes and said, “You all can just end your own lives. I will pretend as if nothing happened.”

“What?!” The three of them cried out, filled with fear and shock. The three of them all had unordinary identities, coming from ancient and powerful families.

However, Great Elder was actually forcing death on them!

“There are some bottom lines that cannot be crossed. I do not wish to have a falling out with your families, but you all have to do your part as well, give me an explanation!” Great Elder said coldly.

The three of them were in despair. They understood Great Elder’s intentions. This was killing the chicken to warn the monkey, taking action for Shi Hao. He was going to take the lives of these three!

They could definitely be considered great figures. Even in the nine heavens above, their statuses were extremely great. However now, their lives were going to end here!

“You don’t want to do it yourselves?” Great Elder asked.

While speaking, pu pu pu three sounds rang out. Great Elder released a river of stars, producing a divine sword, hacking them into a rain of light, turning them into ashes!

It was extremely direct, no mercy spared. The three experts were killed just like that, cut down by Great Elder!

“You...” Wang Family’s elder’s expression turned pale, all of his wrinkles trembling.

Peng!

With a turn of his hand, Great Elder blasted a larger half of his body to scattered ashes, feeling that it was beneath him to say too much. He only left behind a head, but the primordial spirit within had long been burned clean.

He was directly killed, everything done with great decisiveness!

“Ah...” Wang Family’s Wang Manglong was frightened badly, his entire body ice-cold, truly scared. Great Elder looked majestic and aloof, yet he killed without even blinking an eye. These four great experts were like ants before him, not even wasting the slightest bit of effort to kill them.

Shi Hao walked forward. His fist smashed outwards, powerful winds stirring about, the heavenly dome trembling.

Wang Manglong tried to protect himself. Even though he knew that he wasn’t a match, he wasn’t just going to watch himself be killed. However, this was completely futile.

With a pu sound, he was blasted to pieces by a fist filled with anger. The arms that blocked in front of him and that head exploded like a melon, his life ended here, leaving behind a ruined corpse.

“Go! To Wang Family!” Great Elder said.

With a swing of his sleeve, light mists were dense, surrounding the Wang Family’s ruined corpses. They were going to be brought to this clan.

“Great Elder!” Shi Hao was shaken up. He opened his mouth, wishing to say something. Great Elder did too much for him! Now, he was going to forcefully barge into Wang Family!

“There is no need to say too much. I need to let some people understand that there are some bottom lines that just cannot be crossed, that there are some people they cannot touch!” Great Elder said extremely decisively.

Hu!

Heavenly winds swept about. Great Elder brought Shi Hao along. He tore apart the heavenly dome, crossing heaven and earth, directly heading to that ancient and powerful long life family!

Shi Hao was moved, even more so feeling stirred up. Hot blood surged within him. Great Elder took action for him, now heading to Wang Family to criticize them harshly. He was going to confront an undying long life family!

Chapter 1316 - Great Elder's Might

Powerful winds roared, engulfing the Nine Heavens!

Great Elder was like a Peng, diving downwards. When he walked, a single step took him several tens of thousands of li, his speed too fast, unimaginable.

Moreover, he still didn't reach his greatest speed, still accelerating. This left Shi Hao inwardly shaken. He finally understood why Great Elder was one of the most powerful experts of this world.

This type of speed disturbed time, temporal fragments flying everywhere in his surroundings. There was even more so the sun, moon, and stellar streams moving about, the scene grand, aura majestic. It was too shocking!

They were just hurrying to their destination, yet such astonishing natural phenomena were already created!

Time fragments scattered down. Great Elder brought Shi Hao through the stellar dome, hurrying towards Wang Family.

Wang Family was in Immeasurable Heaven, so there was no need to tear through a great realm wall, it was also in this part of the world. That was why for Great Elder, he could quickly hurry over.

Meanwhile, for ordinary people, this path was simply unimaginable, because it was just too long, easily calculated in the hundreds of millions of li. This was an astronomical number!

Hong!

Soon afterwards, Great Elder swung his sleeves, shattering the void. He walked out from within, arriving above a boundless great earth.

They arrived!

It was just too fast. After a short journey, they directly arrived at the other side of Immeasurable Heaven.

Shi Hao was inwardly speechless. If it was him who was traveling alone, he needed to borrow hundreds to thousands of giant spatial transport formations. Even if he hurried along it would still take him many days.

Up ahead, Dragon Snakes rose from the continent, Qilins laid within the mountains, Flying Phoenixes flew above, auspicious energy flourishing!

Of course, the so-called Dragon Snakes weren't True Dragons, but rather giant mountains, the giant peaks forming a great winding spine. They extended out one after another, standing side by side, immortal white mists winding about them, as if Dragon Snakes were rising.

Meanwhile, those great peaks were like laying Qilins, purple energy rising in spirals, mist filling this place. Grass grew all over, this place full of an auspicious and sacred feeling.

The cliff was precipitous, like phoenixes that were flying one after another, carrying a transcendent feeling. This was especially the case with some cliffs that had caves in them, releasing brilliant light, as if feathers were moving about. n--0vE1B1n

This was one of Immeasurable Heaven's most famous peaks. It belonged to the Wang Family, known as Long Life Wang Palace.

In the past, this place had produced long life beings, inextinguishable through all disasters, eternally undying. In Immortal Ancient Great Era, this clan flourished to the peak, but even now, it was still glorious and dazzling.

After endless time passed, no one dared to cause trouble here. Not even other long life families were willing to provoke them.

The great earth was boundless. Meanwhile, this place was even more so filled with ancient trees that towered into the heavens, all types of divine birds and vicious beasts moving about.

"Who?"

When Great Elder's group arrived, a voice shouted out from ahead.

A purple-gold violent ape that was a hundred zhang tall, in its hands a war spear, jumped out, the ground immediately shaking. It blocked the way forward.

This purple hair covering its entire body was glossy, as if it was cast from metal. It was extremely ferocious, without a doubt a wild savage species, one who was extremely powerful.

"Move aside!" Great Elder berated.

"Outrageous! After coming to Wang Family's residence, you still dare to force your way in. Are you tired of living?!" The purple-gold violent ape roared, immediately causing the rocks and dirt to fly about, the earth moving and mountains swaying.

"What bold words. There is still eight hundred li from here to Wang Family, yet you already wish to stop others' advance?" Great Elder said coldly.

The reason he descended here was because he could tell that something wasn't right. There was actually an extremely great formation laid by someone, this formation extremely terrifying, able to stop supreme individuals!

“Heh heh...” The purple-gold violent ape laughed strangely, carrying a type of sinisteress. Its eyes widened greatly. “Everyone knows that when within three thousand li of Wang Family, one must walk on foot out of respect. You actually dare act this insolent.”

“Ignorant monkey!” Great Elder’s face fell. With a great swing of his sleeve, this ridiculously powerful violent ape immediately cried out, blood spraying out of its mouth, entire body shaken. Then, it flew out several thousand li, disappearing into the horizon.

“Heavens, what kind of old monster is it that came?!” This was the final thought this violent ape had before going unconscious after smashing into a great mountain several thousand li out.

The violent ape had long reached the peak of the Void Dao Realm, about to break through, yet before Great Elder, it was flung aside like a puppet. Just how great of a difference was this? It was like that of clouds and mud!

The eight hundred li great formation was extremely astonishing!

Even Great Elder frowned when he stepped inside, because this was a deadly great formation. When normal people entered, they would undoubtedly die.

Even supreme beings would feel hesitation when they came here.

When Great Elder brought Shi Hao into the formation, he was silently analyzing it while standing there, studying it. Then, he walked forward, directly pressing ahead, his speed extremely fast.

It was as if a great wind blew past him, several hundred to over a thousand jin of giant rocks flying everywhere. Many ancient trees that towered into the clouds were even more so uprooted, a path opened up.

It wasn’t Great Elder who intentionally destroyed this place, but rather that this was a dangerous place. Only by comprehending the formation, as well as powerfully breaking it down could they advance.

He didn’t reveal any hesitation, tearing through everything in his path, advancing forward boldly. Large amounts of symbols flickered beneath his feet, all of them mysterious and incomparably complex.

Hong!

In the places Great Elder walked past, endless lightning erupted, the electricity directly striking the heavens, continuously tearing apart the sky dome, scattering the clouds. It was as if judgment day had arrived.

Behind him, the ground surface ruptured, streaks of red magma rushed into the sky, forming a vast crimson expanse!

The formation was extremely astonishing, even someone as powerful as Great Elder stirring up such a great disturbance, unable to calmly proceed. He had to use extremely powerful magical force.

All types of ferocious beasts roared, vicious birds releasing long cries!

The disturbance here raised the vigilance of everything ahead.

Eight hundred li, for normal people, this was extremely far, but for Great Elder, it could be crossed in an instant. They successfully made it through the formation!

“What audacity, actually daring to provoke Wang Family’s heavenly might!” An explosive shout sounded from the skies, golden light surging. In addition, there were powerful winds that swept over.

The winds were just too great, making even the mountains below shake. Boulders weighing over ten thousand jin flew about like rice straw, the scene terrifying.

A type of divine bird that was incredibly large, entire body golden in color, magical and extraordinary spread its wings. It was several thousand li in size, body covering the heavenly dome, astonishingly brilliant.

This was a terrifying vicious bird, the cold light released from its eyes frightening one down to their soul!

“Great Golden Winged Peng!” Shi Hao was shocked. This was not a normal Golden Winged Peng, its bloodline definitely pure. Moreover, its cultivation realm was terrifyingly high.

“Reaching half supreme being level at this age, truly not simple.” Great Elder nodded his head.

A terrifying Golden Winged Peng dove down, casting a great shadow over the earth below. Great winds roared past, mountains and rivers shaking in response. One could see just how powerful it was.

“I don’t care who you are, trespassing into Wang Family’s important areas is a serious crime. Are you going to bind your own hands and feet, beg for forgiveness, or do you wish to bring upon yourselves the anger of the Wang Family?” The Golden Winged Peng shouted.

“When did these eight hundred li of mountains and valleys become the Wang Family’s private property?” Great Elder calmly looked at the Golden Winged Peng, and then said, “Out of consideration for your cultivation not being easy, just quickly back down. Do not bring trouble onto yourself.”

The Golden Winged Peng was resentful, its temperament fiery, extremely domineering. Now that it saw someone looking down on it, it immediately turned into a streak of dazzling golden light, reaching out its giant claws towards Great Elder and Shi Hao.

Hong!

In the surroundings, a few boulders directly collapsed, exploding under a wave of fluctuations, completely unable to endure this type of pressure.

Shi Hao’s mind was greatly shaken. This divine bird was ridiculously frightening, this type of power most likely enough to directly blast down a moon. It was just too valiant and frightening.

However, Great Elder remained completely calm. When faced with this world-shocking claw, he stood in place, only reaching out his right hand to welcome this several thousand li long Golden Winged Peng.

Golden divine brilliance filled the sky, distorting the void. The great Peng displayed its might, shaking up mountains and rivers, the void shattering inch by inch!

This type of scene was extremely shocking, as if it was about to wipe out this very world!

However, something even more shocking happened. The several thousand li long matchless Peng bird, when it rushed down, it unexpectedly underwent change, continuously shrinking.

It was as if heaven and earth were capsized, time reversing. Everything was changed.

The several thousand li long Golden Winged Peng released blinding golden light. When it rushed into Great Elder's hand, it continuously shrunk, becoming the size of a palm. It was restricted in the palm, continuously beating its wings, but it just couldn't fly away.

As for its sharp claws, when they landed on the palm and fingers, sparks flew in all directions, completely unable to do anything to them. In the end, its claws even more so flowed with long streaks of blood, about to break off, only now did it no longer dare to move.

This scene was extremely terrifying. How powerful was the Golden Winged Peng? However, all of this was completely useless before Great Elder, it was subdued just like that.

However, this bird was clever. Even though it was hot-tempered, right now, it understood everything. This was an unmatched figure, not many individuals like him can be found in the entire Nine Heavens Ten Earths.

Previously, it could still use the Wang Family's name to intimidate the other side, but now, it seemed like this person isn't even scared of the Wang Family!

"How valiant was your ancestor the Kun Peng? Its posterity actually fell to this level, becoming the watchdog of another family, what a pity." Great Elder said. With a light brush of his arm, this Golden Winged Peng immediately fainted.

"Who intrudes upon my Wang Family?"

Several dozen li out, there was a grand and massive building standing in their path. Someone sat in front of the massive building.

Hong!

Great Elder sent Wang Manglong's half ruined body, as well as the head of this clan's elder out. They smashed into the decorated archway, immediately making that place collapse, smoke and dust rushing into the sky!

Chapter 1317 - World-Shaking Expert

The decorated archway collapsed, giant boulders tumbled down!

The expert seated there stood up, his eyes cold as they stared at Great Elder. How many years has it been since someone dared act this impudent?!

What kind of place was this? This was Wang Family, a long life family. Who dared behave atrociously here?!

Yet today, someone carried a skull and a ruined corpse, throwing them into Wang Family's decorated archway. This was undisguised provocation!

“You are extremely strong, but if you want to provoke my Wang Family, you’ve overestimated yourself. You are bringing disaster upon yourself!” That person said. It was a middle-aged man, his figure extremely tall, at the prime of his life.

“Finally, a person instead of a vicious beast.” Great Elder said. He brought Shi Hao to these ruins.

When one surveyed this place from this position, one could see endless draconic energy rising, every single mountain peak seemingly spiritual. The great mountains all released rich spiritual energy!

This was extremely astonishing, any one of these divine peaks extremely precious in the outside world. However, in this place, there were over ten thousand of them, grand and vast.

Immortal mist winded about the mountain peaks. With over ten thousand of them together, it could be considered magnificent!

This was a type of marvel, one couldn’t see the limits through a single glance. Silver waterfalls crashed down, floating islands situated throughout. Auspicious birds and propitious beasts moved about; this was an immortal family’s pure land.

It was to the extent where it could be said that this was an immortal land not just in name, but also in reality.

It was because in Immortal Ancient, this place had produced long life beings, true top level experts who remained imperishable in their lives. This was their immortal dao pure land, existing all the way from ancient times.

If those of the outside world wanted to discover this type of pure land, they could only dig up the great earth, cut open the ancient caves left by the ancient people. However, Wang Family’s place here was everlasting.

That middle-aged man took action, immediately using a fierce move. He used a heaven-shattering method, sword light like rainbows as they crashed down streak after streak, dazzling and brilliant, wishing to hack Great Elder to death!

In that instant, light beams appeared everywhere in the sky. It was as if an expanse of comets moved through the sky, bombarding the same spot.

Bo!

When faced with this attack, Great Elder raised his hand, making a wiping motion. All of the sword light became dim like candles in the wind, quickly going out.

Then, he reached out his arm, grabbing this person with a single motion, and then gently clenched his fingers. This extremely powerful cultivator coughed out large mouthfuls of blood on the spot, almost exploding to death.

At the crucial moment, Great Elder showed mercy, throwing him to the ground.

In the back, there were quite a few youngsters who saw this scene, all of them shaken up, their minds pale. Just how frightening was this elder? He subdued a powerful expert with just a raise of his hand!

One had to understand that the middle-aged man was a great mountain in their minds, unmovable. However now, he was taken prisoner so easily; this was just too shocking.

“Enemy attack!” Someone cried out loudly.

In reality, even if they didn’t say anything, those by the mountain gate in the distance long saw what was going on. They blew the bugle horn, the sound long and drawn-out, sending a report inside.

The decorated archway was nothing more than a point of lookout to be on alert, in front of them the true mountain gate. There was a grand palace that blocked the only road inside.

This palace was extremely grand, absolutely giant, made of a certain type of metal. Right now, it flickered with silvery-white radiance, shining like the stars in the sky.

“Star Palace!”

This was an important place in Wang Family, a place that always had a powerful individuals overseeing it.

“Old ancestor, things are bad!” Someone said, feeling sullen. He carried that middle-aged man, as well as Wang Manglong’s ruined corpse and the head of the elder who died at the same time back then, entering the silver Star Palace.

“What are you panicking for?!” The elder shouted. Then, his eyes narrowed. “These are people from my clan?”

“Yes!” Someone said with a quiet voice.

With a hong noise, the elder stood up, his eyes cold and chilly. He left the silver Star Palace with a single step, looking at Great Elder and Shi Hao in the distance.

“Who are you all? Daring to kill my Wang Family’s people, it’ll have to be blood that returns blood, you all will pay the price!” The old ancestor said, domineering and decisive, his attitude and conviction unquestionable.

“Ninth Generation Ancestor, that youngster is... Huang!” Someone recognized Shi Hao, because due to various reasons, the clan’s younger generation had all seen his portrait.

Shi Hao’s name was now extremely well-known. Moreover, he had been viewed as a servant by their clan, forced to go into Origin Ancient Mine to unearth Life Stones, triggering many disturbances, so it was hard for them not to know about him even if they tried.

“It’s him, that insolent youngster?” Wang Family’s Ninth Generation Ancestor’s eyes became cold.

“Correct, he set himself against our Wang Family again and again, not knowing the height and depths of heaven and earth. Old ancestor, please capture him!” Someone said.

This so-called Ninth Generation Ancestor was arrogant. Even though his age was already extremely great, he still carried a wave of viciousness, someone who was overly protective of his people, or it could be said that he was an extreme person.

He didn't care about right or wrong, only knowing about his clan, wouldn't ask about reasoning. When he heard that Shi Hao had opposed Wang Family, he previously felt that it was beneath him to go out and kill this youngster, but now that he brought himself over to their doors, he naturally wouldn't show mercy.

"Just a young person, yet so vicious and merciless, daring to kill my Wang Family's people. In that case, you can forget about living too!" Wang Family's Ninth Generation Ancestor said coldly.

"Why don't you ask why I killed him?" Shi Hao said.

"There is no need for me to ask. Even if you have all the reasoning on your side, as long as you dare touch a single finger on my Wang Family's people, to the extent where you even touch one fine hair, I wouldn't forgive you!" Wang Family's Ninth Generation Ancestor said domineeringly.

"So this is the long life Wang Family? Truly overbearing!" Shi Hao said, inwardly filled with anger.

"Wang Family, you all really are something!" Great Elder's face also fell. The other party was too brash, dealing with people and not what happened, only asking if his clansmen had suffered, not caring about any other reasoning.

"What? You all cannot accept this? You can't do anything about it even if you can't accept it. Since you dared anger my Wang Family, then you can only pay us back in blood!" Wang Family's Ninth Generation Ancestor said.

While speaking, his fingers were like blades, drawing out a stroke towards Shi Hao. This place rumbled with noise, the blade radiance too terrifying, world-shaking and sharp, powerful to an immeasurable degree.

This was supreme being blade energy. This Ninth Generation Ancestor was incredibly tyrannical, now almost about to become a true supreme being, only a fine line away!

Someone like him with extremely high status, when dealing with a younger generation like Shi Hao, didn't show the slightest bit of mercy, to the extent where it could even be called extremely shameless. If this attack landed, Shi Hao was undoubtedly dead!

Qiang!

Great Elder made his move. A finger pointed out, and then the supreme being blade energy all scattered. Moreover, that finger's power didn't decrease at all, instead quickly enlarging.

"You..." Wang Family's Ninth Generation Ancestor was alarmed and flustered, becoming extremely angry.

He knew that Great Elder was an expert, but no matter what, he never expected his cultivation to be this great. He already showed enough respect for the other party, thinking that he was about the same level as himself. However, who would have expected that he was far above?!

Wang Family's Ninth Generation Ancestor immediately knew that things were bad. He quickly backed up.

However, since Great Elder took action, how could it not display its effects? That finger enlarged, as if a heaven supporting pillar descended, smashing down on his body.

Pu!

Wang Family's Ninth Generation Ancestor coughed out large mouthfuls of blood, bones broken, tendons snapped. He released a miserable scream, even his vertebra snapped.

This was too shocking. They had just met, yet he was already seriously injured and dying!

"Forget about you not being a supreme being yet, even if you entered that realm, you still wouldn't have the qualifications to act insolent before me!" Great Elder said coldly.

The people in the surroundings all blinked their eyes. The so-called peak expert Ninth Generation Ancestor was defeated just like that? They had only just encountered each other! It was just too easy, right? No one dared believe what they were seeing.

"You... who exactly are you?" Wang Family's Ninth Generation Ancestor was horrified. He knew that things were extremely troublesome now, that a matchless figure came.

However, he still wanted to intimidate the other side with Wang Family's name, saying, "No matter who you are, this is Wang Family. Our long life clan's dignity will not tolerate blasphemy."

"Long life family's dignity... won't tolerate blasphemy?" Great Elder looked at him. When he thought back to this person's egotistical words, only dealing with people without talking reason, he immediately felt a wave of coldness.

"Wang Family has always stood at the very top, not mingling with mortals below, overlooking all life like ants, now already domineering by habit. Today, I am going to give you all a lesson." Great Elder spoke coldly.

While speaking, he raised his hand, similarly using finger like a blade, and then he moved it forward.

"Ah, no!" Wang Family's Ninth Generation Ancestor screamed out, his eyes full of horror.

Pu!

This blade destroyed everything below the neck, turning his body into a bloody mist. The head that remained was also shaken up, already cracking, primordial spirit even more so seriously injured!

Peng!

At the same time, Great Elder swung out his sleeve. This head directly smashed towards that silver Star Palace!

Hong!

The palace exploded, turning into countless silver metal pieces, rushing in all directions.

This immediately triggered giant waves. Forget about the mountain gate, even the inside of Wang Family was startled. Many figures rushed up into the skies, overlooking this place.

It was because this affected too much!

That Star Palace was this clan's gate, the sole entrance into the pure land. It was actually blown up by someone!

One had to understand that throughout the endless years, ever since Immortal Ancient elapsed and this great era started, this type of thing had only happened twice. Both of those times, it triggered tremendous chaos!

Now, someone else came, daring to take action like this!

"You... who exactly are you?" Someone asked with a trembling voice.

There were many people from Wang Family who rarely left this place, always cultivating in this pure land, so they naturally never met Great Elder. This was especially the case with how profound Great Elder's cultivation was, normal people not having the opportunity to meet him even when they moved about outside.

"Have Immortal Wang come out to meet me!" Great Elder shouted, his voice like thunder, rumbling through this place, shaking up the entire ancient immortal dao rite.

When they heard these words, everyone's scalps became numb, trembling inwardly. Who exactly was this? He actually dared call out their great ancestor!

Who was Immortal Wang? He was the direct grandson of the one who achieved immortality back then, as well as Wang Family's great ancestor. He had remained in seclusion for many years, already tens of thousands of years since he emerged. It was unknown whether he was still alive or not.

An individual who wore a purple-gold crown, body covered in moon white daoist robes directly walked over, his figure flickering about.

His aura was too terrifying, as if an immortal descended in this world.

Then, another person walked over from a different direction, white hair like snow, body covered in immortal energy, extremely shocking.

Then, the third figure appeared, dressed in golden daoist robes. He walked over step by step, the sun, moon, and stars appearing below his feet, the scene terrifying!

...

"The situation doesn't seem right!" The golden little ant was standing on Shi Hao's shoulder, his neck shrinking back. He felt a headache, his body turning cold. It was because Great Elder called out Immortal Wang, yet so many exceptional experts came out at once!

These individuals' auras were too terrifying, bathed in immortal splendor. It was as if they already stepped into the long life domain, possessing a type of unequalled might!

Chapter 1318 - Nine Dragons

These three individuals, every one of them had hair white like snow, their skin sparkling like that of a baby's, extremely soft and smooth.

This was definitely not normal. Their ages were definitely terrifyingly great, one could tell from those eyes filled with great changes. However, their bodies were all sparkling white, flourishing with life energy.

What white haired child's countenance, what immortal flesh divine bones? It was precisely this. Their cultivation realms were unimaginable, originally living for endless time, yet they still maintained such exuberant vitality.

The three of them were definitely powerful, frightening beyond imagination!

Meanwhile, this was still not everything. A cool breeze blew over, one more person arriving from the rear, his figure tall and long, the space between the brows shining, great dao imprint displayed. Another matchless figure descended.

Four great experts, all of them bathed in immortal splendor arrived while treading on pure white mist, as if they were everlasting true immortals who had crossed thousands of tribulations, ten thousand dangers. It was as if they walked over from the distant uncivilized past, tearing apart time-space to come here.

It was too sacred, unimaginable. Their auras were so suffocating the golden little ant couldn't help but tremble all over. This was only the immortal mist they naturally emitted.

"Meng Tianzheng!" On the other side, the first person who appeared released a short shout. Moon-white daoist robes fluttered about, the purple-golden crown on his head flickered with immortal dao might. His eyes were like stellar streams that could peer through time, deep and immeasurable.

His voice carried a type of demonic nature. This person looked like he was full of immortal dao energy, yet when he released the short shout, it was as if he wanted to shatter one's soul, extremely terrifying.

Great Elder's body shone slightly, cutting apart a layer of ripples, wiping out this sound wave!

Shi Hao and the little ant's expressions changed. In that instant, Great Elder already exchanged a blow with the other party. That person's shout carried terrifying power, if it was a normal person here, their primordial spirit would have been directly destroyed.

A battle on this level was decisive and astonishing after all, the domain touched upon deep and profound. Creatures at the Void Dao Realm could only sigh with astonishment and look up to them!

"Meng Tianzheng, I know you are extremely strong, but if you dare come and behave atrociously in my Wang Family, you are still not enough!" That golden-robed individual also walked up.

His figure vanished with each step, as if he was currently arriving from before heaven and earth were opened. An unmatched aura pervaded the air, brilliant colors overflowing, making one feel the urge to bow down before him.

When one reached his level of power, their strength would become exceptional, simply unimaginable!

Moreover, his golden magical robe had the sun, moon, and stars embroidered on them. Along with his movements, those great stars all rumbled and moved about, releasing noises that were clear and real!

On the magical robes, there were stars condensed on its surface. Just how domineering was this? It was definitely terrifying beyond compare!

With things already like this, Shi Hao finally knew that Great Elder was named Meng Tianzheng, that this was his original name. The number of people who knew this name in this world was definitely not high.

“Wang Da[1], Wang Er[2], you all truly are something, daring to holler at me.” Great Elder spoke calmly, staring at the two before him.

Wang Da, Wang Er, who were these? Shi Hao felt a bit of hesitation. Could it be that they were Wang Family’s number one and two?

“Meng Tianzheng, your achievements are indeed great, known as a generation covering expert, powerfully dominating a long period of time. However, talents will always emerge from the mountains and rivers. With hundreds of thousand of years passed, your era has passed. After coming to my Wang Family to provoke us like this, this matter has not ended yet!” Wang Da said, his moon-white daoist robes moving about. Powerful winds roared, the heavenly dome collapsing. Under his loftiness, heaven and earth rumbled with noise, mountains and rivers trembling restlessly!

Just how great of a wave of power was this, every action affecting the stability of the world. It was just too shocking!

“My brothers have all already reached the summit. Even if we faced you alone, we might not be weaker than you. Do you still wish to act powerfully before my Wang Family? Today, you won’t be able to leave!” Wang Er said indifferent. The golden daoist robe’s stars shook, starlight rushing into the heavens, placing heaven and earth in chaos!

“You all feel like now that you made some accomplishments in your cultivation, you are at the very summit of life, right? That you can look down on the Nine Heavens Ten Earths, subdue whoever you want to subdue?” Great Elder asked.

“Regardless, now that you came today, you can just forget about leaving!” Wang Er said coldly again. Stellar streams crashed down one after another, appearing in his surroundings. It was as if he was standing at the center of the great cosmos.

“After your cultivations have risen, your tempers have indeed become greater than before. In the past, you all definitely didn’t act like this in front of me.” Great Elder said indifferently.

“Heng!” Wang Da released a cold snort. “We already know that you came for a youngster’s sake, wishing to help him vent his resentment, give us a warning that we cannot touch him, right? Then let me tell you right now, we will definitely kill this young man. Even if we don’t kill him right now, we have to subdue him. My Wang Family will not tolerate him stirring up any more trouble!”

“Meng Tianzheng, your arrival is perfect, bringing him right to us!” In the back, the other two’s voices were also resolute, about to ruthlessly take action!

“Wang San, Wang Si, the two of you have always behaved with low-profiles in the past. It seems like you’ve both really made remarkable progress, behaving this rudely in front of me.” Great Elder’s voice carried a hint of mockery.

In the distance, everyone was stunned, every member of Wang Family shaken up. When they heard Wang Da and Wang Er, they were still a bit confused, but when they heard what Wang San and Wang Si said, they woke up, realizing who that was.

They were Wang Family's ancestors, already tens of thousands of years since there were any news of them. They had no idea if these ancestors were still in Wang Family, yet today, four of them appeared at once!

They were Immortal Wang's children, their talents exceptional, causing a sensation in the past.

Immortal Wang was the grandson of a true immortal. The reason why Wang Family was the way it was in the present world was all because of his accomplishments. Meanwhile, the other thing he was known for was that he had nine children, each more formidable than the next, known as the Nine Dragons!

This was something extremely rare, not a single one of his nine children ordinary. Their talents were exceptional. This had previously left the other long life families greatly shaken!

Meanwhile, this was also the reason why Wang Family dared to do almost anything. After the nine dragons grew up, they became Wang Family's 'backing'. The appearance of these nine individuals would stir up tremendous waves, able to sweep through everything before them!

These nine individuals were too formidable, long growing up, becoming the most powerful exceptional experts of this world, catching up to the most ancient group of people from the distant past. This was why they were now so arrogant today.

Even when facing Great Elder, they still dared to challenge him!

"It really is four ancestors, they actually appeared!"

"Who cares who the enemy is? As long as the ancestors are here, he will definitely be easily suppressed!"

...

The people here began to discuss among themselves, the excitement turning into noise, this place immediately becoming loud with activity.

Shi Hao and the golden little ant learned about the details from their discussions, knowing who the four individuals were. They immediately felt waves of chills pass through their bodies.

These four great experts were too frightening. Wang Family's backing was terrifyingly great!

"Meng Tianzheng, others might fear you, but Wang Family does not. Since you dared pay us a visit, then pay the price!" Wang Si shouted.

Of course, they had real names, just that others were used to calling them based on their ranking.

"I came to demand an explanation, not to be threatened by you all." Great Elder said indifferently.

"Heh, let me give it a try. After so many years had passed, I've already wanted to fight you." Wang Da said. The snow-white daoist robes produced roaring heavenly winds. He quickly moved over.

Immortal splendor shone, mists hazy. He disappeared from his original location. At the same time, the heavens trembled intensely. He turned into a streak of lightning, attacking Great Elder, all types of magical laws interweaving!

He was just too fast, and too terrifying. It was difficult for the outside world to know just what kind of clash it was that was carried out, only knowing that the attack power was incomparable.

“Heavens, the sky was blasted through!” Someone released a suppressed cry.

A streak of light erupted between the two, rushing into outer space.

Honglong! ~~none~~(LB)1n

Not long afterwards, there were stars that descended, blasted down by their great divine abilities. They flew across the air, guided over by a mysterious energy.

This was Wang Da’s attack. He reached out a hand, grabbed a great star, refined it into a sphere, and then smashed it towards Great Elder!

Just how domineering was this? The might was incomparable!

Only, Great Elder didn’t fear him. With a wave of his sleeves, when the star descended, it directly exploded, but all of the terrifying energy radiance was sucked away by his sleeve.

The two of them continuously took action, figures flying about. Then, a loud and clear pa sound could be heard.

Everyone was immediately shocked, because they knew that there was definitely a result. Only, they didn’t know who was the winner or loser. One shouldn’t think that not much time had passed, because with the two individuals’ matchless divine abilities, they definitely traded thousands of moves.

When the pure white immortal mist scattered, Great Elder stood there calmly, while Wang Da stood on the other side, eyes surging with flames of rage, about to gush out.

It was because there was a huge palm imprint on his face. His essence energy was flourishing, life force overflowing, skin was originally snow-white and sparkling,. Yet now, it was scarlet red, slapped powerfully in the face by a palm.

This was, without a doubt, done by Great Elder.

The scene became dead silent, even Wang Er and the others shocked. They never expected that after all these years, after they already became the most powerful individuals of this world, they still weren’t a match for Great Elder.

“Meng Tianzheng, you... good, good, good! Today’s matters still haven’t ended!” Wang Da was seething with rage, all of his white hair standing on end.

“This matter hasn’t ended to begin with. I came precisely to demand an explanation, for this young man’s sake. You all didn’t apologize, instead taking action against me, there is naturally no way for us to remain friendly!” Great Elder said coldly.

“Meng Tianzheng, you are indeed strong, but there are nine of us brothers. Even with just a few of us here, it is enough to suppress you!” Wang Er said.

“Is that so? Let me take a look then, see if the heavens and earth will be in chaos when all nine dragons come out, if you can sweep through the Nine Heavens Ten Earths!” Great Elder replied coldly.

“Old thing, you are too arrogant. If our nine brothers join hands, even the skies can be overturned, let alone you!”

“Haha...” Great Elder laughed. His expression then became serious. Come then, nine dragons, let me see that unmatched divine strength throughout time you all are known for, just come at me together!”

“Old man, you are courting death!” Wang Si said with an extremely cold voice.

Five waves of blood energy rose from Wang Family at the same time, every one of them like smoke signals as they rushed high into the sky, shaking up this great world. That type of power was too terrifying!

“Cease your recklessness.” However, at this moment, a short voice sounded, making those waves of blood energy all stop. Then, the terrifying auras restrained, gradually disappearing.

“When brother Tianzheng visits, how can you all act impudent?” An extremely aged voice sounded. In addition, a silvery-white wave of blood energy overflowed, rushing into outer space.

Then, it turned into great dao flowers, gathering the star essence, carrying strong heaven and earth essence. It quickly returned, entering the place where the voice had transmitted from just now.

“Immortal Wang, you were still alive after all, not dying in meditation.” Great Elder’s expression was serious, feeling pressure for the first time.

Shi Hao and the little ant had long become stunned. Just what kind of cultivation was this? Great dao flowers bloomed in outer space, gathering the essence of the stars, bringing it back to use for oneself.

This was too shocking. That level of power was unimaginable!

“Father, why aren’t you letting us take action?” Wang Si said.

“Bring the guest in.” Immortal Wang’s voice sounded, his might unquestionable!

Wang Da, Wang Er, and the others didn’t dare go against this decision, their faces all sinking as they departed.

“We... really are going inside?” The little golden ant’s throat was dry. This place was even more alarming than a dragon pool or tiger den, he naturally didn’t want to go inside.

“We came for an explanation, so we naturally have to enter.” Great Elder said calmly. Then, he absent-mindedly looked into the horizon.

They were going to face Immortal Wang and the Nine Dragons!

Shi Hao knew that it was going to be extremely dangerous, that there was danger to their life at every turn. However, Great Elder didn't stop, determined to obtain an explanation. This was to help him eliminate future dangers!

If they succeeded in forcing back a long life family, then it would definitely shake up the Nine Heavens Ten Earths, produce heaven overflowing great waves!

1. Da = big/great

2. Er = second

Chapter 1319 - Wang Family's Backing

Immortal Wang, this was a taboo, a name not many people were willing to mention. He was a matchless figure who could truly sweep through the Nine Heavens Ten Earths!

In the past, he gave many powers headaches, making many heroic geniuses of that time fall. Compared to him, they were like fireflies before the brilliance of the moon, the difference too great.

It was because it was rumored that he might be an immortal seed, perhaps a creature that had been sealed and preserved by the immortal family.

Everyone knew that when Wang Family was at its peak, ruling over a region, they had previously produced an 'immortal'. This was a glorious and incomparably grand occasion.

The elders who had now already passed away had previously mentioned that Immortal Wang might not be someone from this great era, that he was a descendant that true immortal had personally sealed, wishing for him to be born after the situation calmed and the great chaos ended. As a result, he swept through all under the sky, establishing the greatest brilliance of the clan.

Someone who had been taught by a true immortal, previously immersed in immortal energy, had his marrow and arteries cleansed, just how terrifying was this?

If it wasn't because of this heaven and earth's great changes, he might have long achieved immortality!

He was precisely a giant like this who had lived from the ancient past until today. After endless time, he continued to live in this world, displaying unsurpassed power.

As long as he was still alive, then there would be a type of pressure exerted on the great powers of the Nine Heavens Ten Earths, aura devouring ten thousand generations, pressuring the nine great heavens. This was precisely Immortal Wang!

It was precisely this person who now transmitted sound, having Wang Da and others stop, inviting Great Elder inside.

When this existence who was known to remain undying through all of time treated Great Elder with this type of attitude, not all that forceful, it only made others' expressions become even more grave.

If he directly appeared, opposing the other side with equal harshness, then it might still be within the realms of what they can endure.

However, he was extremely calm, temporarily not showing any animosity, asking Great Elder to enter this immortal ancient land!

Should they go in or not? Even though Great Elder gave an affirmative reply, in Shi Hao's opinion, this was still an extremely serious issue.

If they didn't go inside, then it would mean that Great Elder lacked confidence. However, if they did enter, it would be a completely different situation. This place had previously produced a true immortal, so heaven knew what kind of formations there were inside. Perhaps they could even directly suppress a long life being!

Speaking more bluntly, this place was even more frightening than a dragon pool, even for someone with such great cultivation like Great Elder, once he set foot inside, he would be in extreme danger.

This was also the reason why Great Elder previously transmitted sound, shouting for Immortal Wang to come out, and not directly going in himself.

At this moment, Great Elder took steps forward, steadily advancing, each step producing a great dao flower, walking towards the inside of Wang Family.

Star Palace was in ruins. This was the entrance, the only way into the immortal family dao rite, yet it collapsed under the head Great Elder flung out.

Draconic energy rose, divine beasts roared. What they saw in this ancient land was extremely shocking.

From the outside, this was a pure land, a long life family's residence.

However, when one walked in, they would feel more and more like this was a boundless expanse of mountains, rivers, and lakes, vast without limit.

There were over ten thousand spiritual mountains, every single one of them releasing auspicious light. Hazy essence energy swirled about, winding about that place. It was as if they arrived in a place of dreams, as if this was the homeland of a true immortal.

Every single spiritual mountain had a building, tower, copper palace, or giant monument cast from Divine Gold. They also all had patterns that were complicated and difficult to understand.

Shi Hao frowned. What was that? There were Immortal Ancient characters!

From the past until now, they had never been destroyed. He could feel the changes over the years, the aura of passed time!

Yet these things were all still here, not even a single corner damaged.

These were imperishable buildings, definitely had imperishable dao patterns engraved on them. This was extremely frightening, proving that they weren't only there to serve as places of residence, items that recorded merits and achievements, but rather to subdue fate.

This was a formation!

There were over ten thousand giant mountains, copper palace halls, stone buildings, giant metal monuments, and other things, they were all formation banners, unbreaking through ten thousand

generations. They preserved the dignity and the tranquility of this place, difficult for the outside world to break through.

“Roar...” A Black Hou roared, its body massive. It rushed out from the mountain range, chasing after a group of Five-colored Divine Deer.

This Black Hou was definitely powerful. Shi Hao’s mind immediately became serious, because that was a pure-blooded one, its bloodline definitely noble. It was an archaic vicious beast!

However, now, it was raised in these mountains, treated like an ordinary battle beast, or it could be said to be a vicious beast that ‘protected the courtyard’. This was just too extravagant!

Meanwhile, the group of Five-colored Divine Deer were definitely not ordinary creatures either!

This type of inner treasury and backing, this type of scene left them speechless.

The most alarming thing was that this was merely what they saw in a corner of this place. As they went further inside, Shi Hao started to become numb. There were extremely powerful vicious creatures in every region, some ancient beasts living for an unimaginably long amount of time, ridiculously powerful.

Even Great Elder was a bit shaken when he saw an old white ape mediating on a boulder beneath a pine tree. It was because he recognized that ancient ape.

“Heh, even one of the archaic giant vicious beings was subdued, guarding the path here.” This was Great Elder’s voice.

That old ape raised its head slightly. It took a sip of fragrant tea, nodded towards Great Elder, but didn’t say anything.

The mountains and rivers were magnificent. When moving through these spiritual mountains, Shi Hao remained silent, not saying a thing. This was the first time he sensed what a long life family really was. It was just too astonishing!

If a long life family went to war, it would definitely create great chaos in the Nine Heavens Ten Earths, their backing terrifyingly powerful.

When they passed by a scarlet red mountain range, golden light surged, covering everything. Those were Golden Crows, actually a great flock raised here. This was horrifying, leaving them speechless!

This type of vicious beast clearly lived for an extremely long time, every one of them dangerous creatures. If they were released into the world, they would produce unimaginable disasters!

“Sigh, that Golden Crow from that year has also been subdued by Wang Family. Did you all leave this here just for me to see?” Great Elder sighed.

He saw an old Golden Crow whose golden feathers were about to completely fall off. It stood on top of a stone mountain peak just like that, its eyes turbid, but aura extremely powerful.

It was as if it was a sun, falling over there!

This archaic vicious bird looked incredibly ancient, but once it displayed might, it would be simply unimaginable. Perhaps it might be able to even cause a doomsday catastrophe.

“Great Elder, the stone monuments, copper palaces, and other things on the mountain peaks are all formation banners. Your respected self isn’t worried?” Shi Hao reminded softly.

“Since we are already here, we ought to just take it easy.” Great Elder said.

Instead of saying that this was an immortal family dao rite, it was better to call this a primitive world left behind from Immortal Ancient!

They arrived! The primal chaos before them scattered, turning into giant dragons one after another. Every single one of them was as tall as the sky, shockingly majestic, filling the dome of heaven.

These were irregular scenes of this world, formed from the spontaneous transformations of primal chaos!

It was because this was a mysterious and terrifying place.

Several thousand large dragons gathered, protecting a grand ancient palace. It was made from stone materials, covered in mottled traces left behind by wind and rain.

Wang Da, Wang Er, and the others had long appeared there, facing them coldly. They stood before that grand ancient palace, watching Great Elder intently.

“So this is the Wang Family’s famous and well-known ancestral palace?” Great Elder released a light sigh, carefully sizing it up.

The gray stone material and brown tiles carried the most simple and unadorned qualities. However, they were wrapped within the several thousand great drakes produced from primal chaos.

There was only a single reason for it, it was because the Wang Family’s earliest ancestor, that existence who had achieved immortality personally created this palace.

There were some who said that this was his place of seclusion before he achieved immortality, and fortunately, this was the case. Otherwise, if he built it after achieving immortality, then it would definitely be heaven-defying, just this palace alone would be greater than many supreme treasures of this world.

Right at this time, five people walked out from within the palace, every one of them exuding shocking immortal might. There were Red-crowned Cranes that flew about above them, great dao flower petals scattering down, fairies dancing about, forming a brilliant and varied pure land.

This place was full of colors and wondrous things, as if an immortal realm was opened up here!

These weren’t real, they floated above the five individuals’ heads. Regardless of whether it was the fairies or the multicolored pure land and other things, they were all produced by their great dao flowers!

These were five middle-aged men, their heads of gray hair carrying bits of whiteness. Their blood energy were even more frightening, exceeding Wang Da and Wang Er’s group of four.

Shi Hao knew that these were definite the other five of the so-called Nine Dragons!

Of these five, the last one was the most terrifying. His hair was completely gray, not a single white hair, looking not past thirty something years of age. When his eyes opened and closed, the world would be derived, collapsing and disintegrating. They contained endless mysteries!

Wang Jiu!

It was definitely this person. This was the conclusion Shi Hao made.

It was because not long ago, when Wang Family's people were discussing amongst themselves, he already knew that Wang Family had nine children, one more powerful than the next. The ones who were born later were extraordinary and incomparable.

This was especially true with the last one, known to be blessed by the heavens, walking alone under heaven, his power oppressing a period of time. In the hundred thousand years he had roamed this world, he had never encountered an enemy, intimidating an entire era!

This was the first time Shi Hao saw the nine dragons stand together. If the nine of them were together, they would be unmatched under the sky, rumored to not have any opponents.

This was one of the reasons why Wang Family could remain far above all others!

"Senior Meng Tianzheng, you truly are admirable. After failing to step into the immortal dao, you didn't even die, instead living, worthy of being an overlord of this world! However, the day will come when all become old, this is already no longer the era of the past. Now, not only have you already aged, your blood energy is no longer as exuberant as in the past. Moreover, this era already belongs to a few others. There are new powerful creatures that have risen up, the glory that belonged to you has long ended." Wang Family's old six spoke extremely directly. The situation seemed to be heading in the direction of battle.

"Sixth brother, you are not Senior Meng Tianzheng's opponent. Let me." Right at this time, Wang Family's old seven walked up. He had a head of gray hair that had a few strands of white in it.

This was the third most powerful individual among the nine dragons, only inferior to the most powerful two sons blessed by heaven!!

This was a display of strength! Immortal Wang even spoke, inviting Great Elder inside, yet the nine dragons still didn't want to drop the matter, about to challenge Great Elder here.

"Immortal Wang, just when are you going to come out?" Great Elder spoke.

"Heh heh, since dao brother asks, I am naturally going to make an appearance. However, you really are looking down on my Wang Family a bit, only coming with a spiritual body. Even these children of mine have the qualifications to challenge you."

When these words sounded, Wang Family's nine dragons' expression changed. None of them were able to tell that this was only a spiritual body! n.-0ve1B1n

Only Wang Family's eighth child and ninth child remained calm, especially the ninth child who didn't have a single strand of white hair on his head, as if nothing could move his heart, everything in his grasp.

The ninth child was extremely terrifying!

Scenes of the cosmos changing and stars of the heavens withering up could be seen within his eyes. Apart from this, there was ascension light that moved past the depths of his eyes. It was impossible to see through this person.

Chi!

The distant skies were cut open. A figure appeared; it was Great Elder's true body!

He actually came, his true body arriving in Wang Family.

With a shua sound, the spiritual body returned, becoming one.

"When old friends meet, it truly is a joyful matter." Right at this time, Immortal Wang's words sounded by everyone's ears once more.

A young man walked out from the palace hall overflowing with chaotic energy. He had delicate features, red lips and white teeth, truly too young.

Those words came out from his mouth! This was that Immortal Wang?

Shi Hao was stupefied, at the same time feeling inwardly shocked. This was completely different from the unmatched expert he had imagined!

Chapter 1320 - Immortal Wang

Immortal Wang was known to be an unmatched expert who overlooks the Nine Heavens Ten Earths. However, the one who appeared before them was a young man, one full of youthfulness!

Shi Hao was stunned, almost not daring to believe what he was seeing!

It was because he could see with his heavenly eyes that this wasn't the result of forcefully changing himself through divine abilities, but rather truly was a young man with vigorous blood energy.

Regardless of whether it was his bones or flesh, all of it displayed that this was an eighteen year old youth, definitely not an old monster.

The golden little ant's lower jaw almost fell onto the ground. It naturally saw that this youngster wasn't feigning tenderness, that this was what he truly looked like.

They became completely speechless. This was but an old freak!

At the same time, when they carefully thought about it, they felt a wave of coldness inside, feeling a wave of flusteredness, becoming extremely uneasy.

It was because there was only one possibility that could lead to this result, which was that Immortal Wang recovered his youthfulness, possibly living his second life. This was just too frightening and terrifying!

After the changes of heaven and earth, there was a lack of undying matter in this world, the day would come when all cultivators died. Even if one had astonishing divine abilities, if they never achieved immortality, then they were destined to fall.

Those who had great cultivations could live for more than a million years, but the day would eventually come when their lives dried up.

How many years had Immortal Wang lived for? He should have long passed a million years, should already be senile and doddering, life flame weak, about to reach his end.

However, the feeling he gave others was that he had only just now begun his journey, just starting to rise up!

He was too young, his muscles, bones, blood vessels, and other things were full of the power of life. He was precisely an elegant young man!

It was rumored that those who lived a second life were extremely rare, not many people able to achieve this from past until present. This had always only been something of legends.

Now, Immortal Wang succeeded!

“You really do get younger as the years go on. After another million years, will you become a child?” Great Elder was deeply moved. This was not mockery, but rather an innermost exclaim of admiration.

When one reached their age, not having much life left, what they longed for the most was to live another life, cast off the old set of dao core and recover one’s youth.

However, this was something that depended on opportunities, not something that can be achieved purely through great strength. There were some who had inferior cultivations, but still made more progress on this aspect.

This path, living a second life, did not have too much of a connection with one’s true combat strength.

“When the state of the mind is good, life will naturally be full of youth.” Immortal Wang said with a light chuckle.

He had a head of pitch-black long hair that scattered down, smooth and shiny to the point where it was like a mirror. His eyes were incredibly clear like crystals, without a hint of blemish, seemingly extremely pure.

When he smiled, he revealed his snow-white teeth, as if an expanse of morning multicolored light scattered down.

He was too young. This type of smile left Shi Hao and the golden little ant a bit speechless. When they compared the nine dragons to this young man, just who was the older generation here?

“Brother Tianzheng, you’ve truly taxed your mind and body these years.” Immortal Wang said with a smile.

His smile really was too dazzling, like rising multicolored splendor. His face carried a type of brilliance that was full of life force, as if he was the boy next door.

However, it was precisely because of this that Shi Hao and the golden little ant broke out into cold shivers. This was but an old freak! For him to be this young was what was frightening.

One just shouldn't look at that gentle smile, seemingly harmless, regardless of whether it was Shi Hao or the Heavenly Horned Ant, they both felt as if they were suffocating.

This was an incomparably terrifying existence. Even though he looked bright and radiant right now, no one dared to truly think this, because he was Immortal Wang!

"Still a bit lacking, not perfect enough. Voice is still old." Great Elder suddenly said.

When Immortal Wang heard this, he put away his smile, appearing a bit young and immature. With a sigh, he said, "Indeed, my transformation is not perfect enough, the divine core still flawed, some things within the body impossible to hide. However, I do not wish to hide either."

Despite this being the case, from the two individuals' conversation, Immortal Wang was still formidable, his lifespan greatly extended, perhaps able to live for another larger half of an era.

In reality, the dao core complete transformation they pursued, the main part was still the primordial spirit transformation.

It was because the so-called lifespan withering up, ultimately dying in meditation, was caused by the decay of primordial spirit!

Otherwise, for someone this powerful, just directly seizing a new host was enough.

"Perhaps this heaven and earth is not cruel enough, and as such, I lack a sense of urgency, not forcing out the last bit of potential." Immortal Wang shook his head, reflecting upon himself.

"You truly are formidable, already deducing some things." Great Elder's body was shaken, expression serious

It was clear that he also understood some truths, which was why there was this type of reaction.

The two of them didn't seem to be opposing each other, as if there was no way a battle would erupt between the two. It was as if they were old friends that were merely chatting.

"Indeed, you and I have both deduced that if nothing unexpected happens, this world's environment will become increasingly terrible, truly heading into an age of destruction." Immortal Wang said.

"This won't necessarily be entirely bad, perhaps it can forge the toughest batch of cultivators. In addition, the vitality of this world is unending, there will always be cultivation essence energy left for them." Great Elder said.

Immortal Wang was extremely serious. "I already sensed that when that day truly arrives, the world will dry up, undying matter completely disappear, environment become vile to the extreme. When that time comes, it can already be considered heaven-defying if the most powerful cultivators could even live for more than ten thousand years!"

Moreover, based on his understanding, the consequences would even be a bit more serious. When that time came, as long as a matchless expert appeared, he would exhaust several tens of thousands of years of 'opportunity', preventing anyone else from reaching his level for a very long time.

“The crueler, the more difficult, the more it will grind the will of people. If I was born in that era, I believe that I would have long forced myself to truly live a second life, and not like right now!” Immortal Wang said with great regret.

It was because right now, even though undying matter was sparse, there were still trace amounts preserved that allowed cultivators to live long enough. When one strived to live a second life, those substances would have long merged with the body.

It was precisely because of this that the body produced a type of instinctive reaction that wasn’t too direct, impossible to set the resolution to cut off all means of retreat, unable to set out on a path of no return to recover one’s youth!

“Dao brother, barging into my Wang Family like this has truly left me quite troubled. Must you have a falling out with me over a single young man?”

The atmosphere was changing for the worse, or perhaps this was how it should be. Immortal Wang was acting out!

“The entire world knows that this is my close disciple, equivalent to my descendant, precisely like the Nine Dragons for Immortal Wang. If one knew this, but still wished to harm them, what would you do?” Great Elder’s voice was forceful!

Shi Hao’s eyes surged with heat, his mind experiencing great emotions. Great Elder’s words left him moved, yet he couldn’t return the favor. Only when he rose up in the future could he pay back this kindness. He was going to sweep through the foreign great enemies, challenge the other side of the world!

Wang Family’s nine dragons definitely didn’t want to hear this, a few of their eyes turning cold, releasing dao splendor one after another, extremely terrifying. When the nine individuals stood together, they were incomparable.

“Father, I wish to fight against Meng Tianzheng!” Wang Family’s eighth child spoke. This was an extremely terrifying expert, second only to Wang Jiu.

Within his eyes, the starry sky collapsed, corpses endless, underworld appearing among the living. Those heaven piercing eyes could derive the world; this was a terrifying exceptional expert.

Immortal Wang smiled and said, “Is dao brother willing to offer them guidance? Old eight or old nine, you can choose whichever you wish, test them.”

“Wang Jiu is formidable, blessed by heaven, destined to achieve greatness. In the future, he might even be stronger than you.” Great Elder was not stingy with his praises, speaking a few truths.

Then, he changed his tone, saying, “Letting them compete against me now, while they still lack maturity, are you sure about this? You have to understand that if I truly take action, I won’t hold back!”

“What did you say?” There were some among the nine dragons who were discontent, unable to accept these words that sounded like intimidation and threats to them.

“I am merely telling it as it is.” Great Elder replied calmly.

“Since this is the case, how about my nine children just go up together?” Immortal Wang was all smiles, revealing true killing intent.

Great Elder’s expression changed, because there were rumors circulating this entire world that when the nine dragons joined up, they were unmatched in this world!

Even if he was a true unmatched expert himself, based on the rumors, it was hard to predict the results.

“Are you determined to continue like this? When the time comes, it will be difficult to hold back. If I accidentally kill a dragon or two, you won’t feel any grievance?” Great Elder asked.

Shua!

There were a few dragons who moved, surrounding Great Elder.

“You want to kill me, but will you succeed?” Great Elder looked towards Immortal Wang.

“When my nine children move together, I believe they are pretty much unmatched. If I am added as well, even if you sacrificed everything to break free and escape, perhaps you will still fail.” Immortal Wang said indifferently.

“Why did I come in? It was precisely to demand an explanation, to kill!” Great Elder said coldly, not feeling the slightest bit of fear, instead acting even more powerfully.

“Oh? You have confidence in facing us head-on?” Immortal Wang asked. It was because from his opinion, Meng Tianzheng and himself were lifetime rivals, difficult to say who was on top. However, when the nine dragons were added into the mix, together with their home field advantage, he felt that they could definitely suppress and kill Great Elder.

“If you fight me one on one, I can keep you company. We’ll talk through strength!” Great Elder said. Then, after a pause, he said, “If you all wish to join up together, kill me in spite of everything, then you’ll be disappointed. Even if this is an immortal family pure land, I will still raze it to the ground!”

Hua!

A scroll unfolded, lining up with the sky!

At the same time, the dragons who surrounded Great Elder all flew backwards, one even more so coughing out large amounts of blood on the spot.

A wave of frightening aura pervaded the air. A great world seemed to have appeared, opening up again, moreover wishing to suppress this present heaven and earth!

“Ten Realms Diagram!” Immortal Wang’s pupils contracted, releasing a light sigh.

Even if this was an immortal family pure land with exceptional great formations protecting it, his expression still couldn’t help but become serious, treating this matter with importance. At the same time, he began to feel worry.

Ten Realms Diagram, what was this? It was like the Heaven and Earth Pouch, known as supreme treasures. In the past Immortal Ancient War, it shook the heavens above and earth below, even foreign creatures wailing in anguish because of it, countless people on their side dying.

The most important thing was that this was Wang Family's pure land. Even if Immortal Wang had an immortal weapon that could oppose it with equal harshness, as well as unmatched formations, he still felt some restraining fear.

It was because this was where the Wang Family's foundation laid. If it really was broken down, the losses would be his descendants. Perhaps blood would flow like rivers, many experts dying.

It was to the extent where even a few of his nine children might be wiped out!
